

"MY TURN"

By
Carol Ellis

NANCY REAGAN has written a book of her memoirs which will be published next fall. The title will be "My Turn." Well! Humph! She didn't even ask permission to use my title!

Since the Exxon oil spill in Alaska, some irate citizens have begun boycotting Exxon stations and have been destroying their Exxon credit cards.

Certain U.S. oil companies have recently been authorized to renew their oil operations in Libya. Conoco, Marathon Oil and W.R. Grace and Co. are perhaps giving financial support to Col. Muammar Quaddafi and his terrorist regime. So we may actually have more cause to boycott these oil companies than we do Exxon.

Another outcome of the Alaskan oil spill has been that we have recently seen renewed interest in alternative energy sources such as ethanol which can be distilled from grain crops and even from feedlot manure. Goodness knows, we've got plenty of both of those commodities right here in Parmer County.

Ethanol blends have been extensively tested for over 500 billion proven miles and are known to increase octane and reduce carbon monoxide emissions. The current higher cost of manufacturing these alcohol fuels is probably the major roadblock in getting the switchover to ethanol use.

Today, almost 40 per cent of the oil we use for our cars and for generating the electricity to run our country, comes from foreign sources. In 1986, oil imports cost the U.S. \$27 billion, and the cost is even higher today.

In 1975, the petroleum industry made an almost overnight switchover from leaded to unleaded fuels, so the switchover to ethanol use cannot be perceived as impossible to accomplish.

I hope that our area's agribusinessmen will be studying upon these possibilities so that they can be in on this budding industry from the start.

Another commodity which is in great abundance in the Panhandle of Texas is wind. Windpower is somewhat less reliable than coal, oil or natural gas as an energy source and is also more expensive to produce.

I was glad to learn of the recent efforts of Sen. Teel Bivins to get funding for West Texas State's wind energy research program.

Officials at the Electric Power Research Institute in Palo Alto, California say they are looking forward to a day in three or four years when we will have a five-cent or even a four-cent kilowatt-hour wind machine. They report that in areas where there are good winds, this energy will be reliable and compatible with the utilities' needs.

What these alternate energy sources could save our planet in environmental pollution, just staggers the imagination. For more information on energy independence, write to the U.S. Council for Energy Awareness, P.O. Box 66103, Dept. SN09, Washington, D.C. 20035.

The Community Heritage Society is seeking a donation of the two Parmer County History books to be placed in the Depot building at the Friona City Park. The first county history was published in 1974 and was put together by Nelson Lewis. The second book was published in 1981 by the Parmer County Historical Commission. The donor's name will be placed in the Depot Memorial Book. If you have one or both of these books and would like to donate them, please contact Lois Norwood at 247-2766.

UNCLE AUSTIN SAYS: He who falls in love with himself, will have no rivals.

Highway 60 Project Said 'On Schedule'

The upgrading of U.S. Highway 60 to a four-lane facility through Parmer County continues to make progress.

The State Department of Highways and Public Transportation expects to award a contract for construction of the first phase of the road in February or March of 1990. Actual construction would begin within 30 days of the awarding of contracts.

The first portion to be constructed will be that from Friona to the Deaf Smith County line, a distance of about 15 miles.

The second stage of construction will be from Friona to Bovina, and the third stage will be from Bovina to Farwell.

Highway department officials hope to award contracts for the second and third stages of the road improvement in succeeding years: stage two in 1991 and stage three in 1992.

"Currently, about 60 per cent of the right-of-way has been acquired on the portion from Friona to Deaf Smith County, and negotiations are continuing on the remainder of the right-of-way, utility adjustments are being made, and plans are being prepared for the construction of the project," says District Highway Engineer Mel Pope of Lubbock.

Rhea Bradley of Littlefield, resident engineer for the Department of Highways and Transportation, said that the major difficulty he sees, and the only possibility that the contract dates might not be met is the fact that there are several tracts of right-of-way on which condemnation proceedings are having to be filed. Also, he mentioned the timing on utility adjustments needed along the right-of-way.

Included in the Highway Department's plans for the road between Friona and Deaf Smith County is a frontage or service road for the elevators at Black.

The present highway will be left as a service road, with the new four lanes being swung to the north.

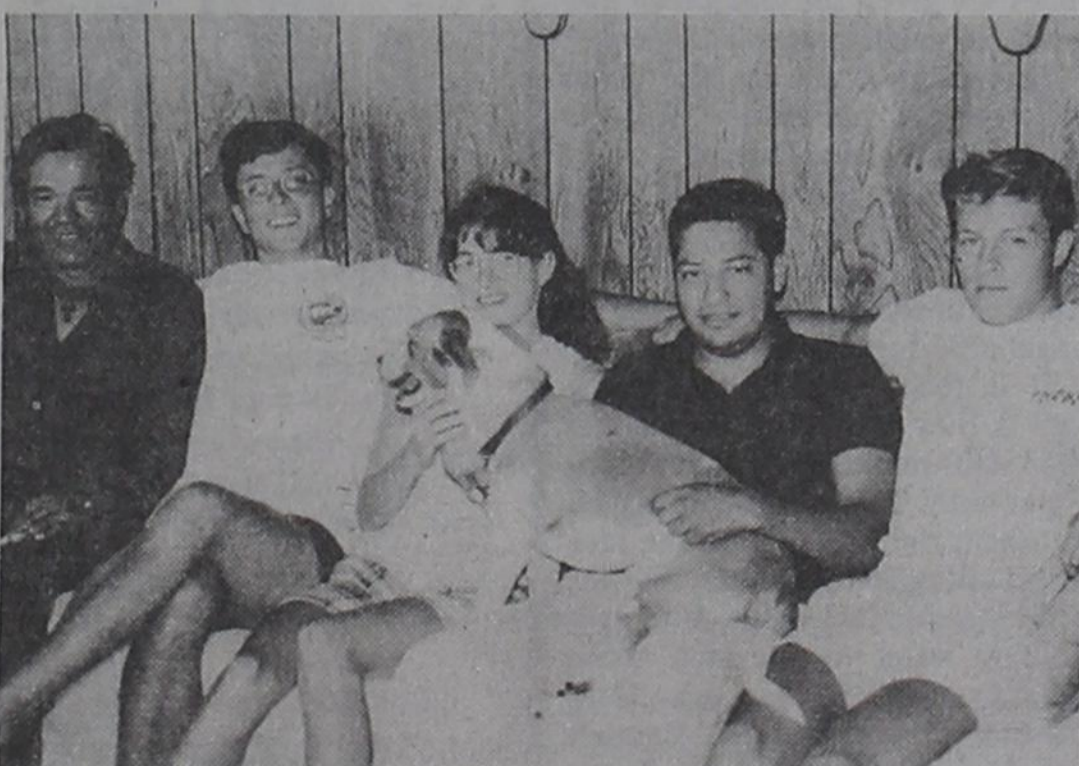

"This should eliminate the problems we have with the wind currents, as well as the icing problem in the shadow of the elevators," Bradley said.

Funding for the project is no

Firemen To Have Prizes

The Bovina Fire Department is sponsoring a raffle during the July Fourth activities and first prize will be a set of tires. Second prize is a VCR and third prize will be a Nintendo game.

Tickets can be purchased from any fireman for \$2 each or three for \$5.

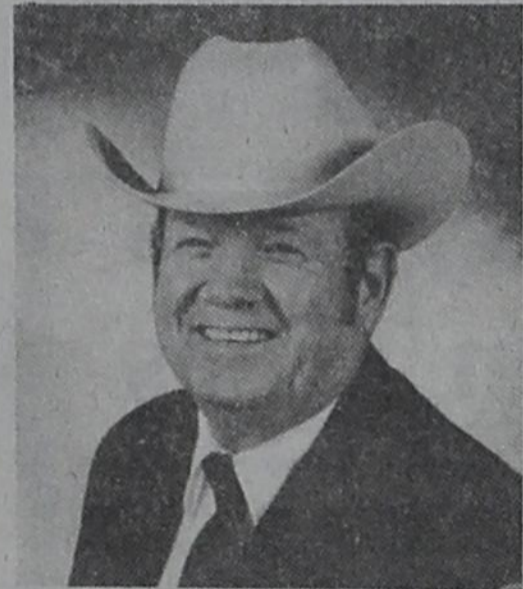

BOVINA VISITORS....Pictured is Zeferino Villarreal and his visitors during recent days. From the left are Villarreal, Tod Heatwole and his wife Jennifer, David Villarreal and Rob Prikosovits. The men are attending the Defense Language Institute in Monterey, California. Tod is in the Navy, David in the Army and Rob in the Air Force. After completing their schooling in California, Tod will be going to Spain, Rob to Athens, Greece and David will be stationed in Kentucky and flying back and forth to Egypt.

problem at the present time, the highway officials say.

Residents of the area have been needing, and waiting for, this highway improvement for a long time, and depending on how quickly the paper work can be completed along the right-of-way, the project should be ready to start by next spring.

"It's not so much the fact that Highway 60 in the Friona area has a high traffic count, as it is the type of traffic that it carries," Bradley said, referring to the extremely high percentage of trucks, which service the area's feedlots, packing plant and other related industries.

Bradley said that in drawing the plans for the road construction, he was about "on schedule," as

DON HATLEY

D. Hatley Is New Deputy

Don Hatley is our new Parmer County Deputy Sheriff and moved here from Lubbock County. He now lives at 502 Third Street in Bovina.

Hatley went to Certification School in Plainview and is the father of three daughters and one son. He was in the U.S. Air Force for six years and worked as Security Service Criminal Investigator for the Air Force.

He has been in the law enforcement business eighteen and one-half years. He began in Hobbs, New Mexico but said he was anxious to get back to Texas. He has worked in Littlefield, Hale County, Lubbock County and Shallowater.

Hatley grew up in Olton and his parents are Mr. and Mrs. W.A. Hatley and he said his dad farmed in the Olton area. There were eleven boys and five girls in his family including three sets of twins. Don has a twin sister.

Officer Hatley says he is happy to be in Bovina, likes the town and people and is looking forward to getting to know everyone. He says anytime he can be of service, just give him a call.

compared to the right-of-way acquisition. "I'm about 60 per cent through," he said.

The highway engineer said that it was planned to construct two new lanes to the north of the existing highway. Then, when the new lanes are completed, the traffic will switch to the new portion while the old lanes are torn up and re-constructed.

"So, the highway will continue to be two lanes for the duration of the construction, but we hope to make it as easy as possible for motorists during the construction period," the spokesman said.

Also, the highway department's plans are to keep the present route of the road through Friona, making more of a division. Bradley said this should not present too much of a problem.

Another potential problem is just to the west of town where traffic exits and enters the Excel Packing Plant. "But that's my problem for next year," the highway spokesman said.

Area Has Hot, Dry Weather

The Bovina area has begun to experience some summer weather after eight days in June when the high temperature was only in the 70s.

The mercury climbed to 95 degrees on Friday, June 16, and was headed for a fifth consecutive day of readings of 89 or above on Tuesday.

No rainfall has been measured since the evening of June 12, which also brought the high winds and damage to the area.

Farmers said that the winds caused considerable damage to cotton, and even blew the corn around. It isn't known as yet just how badly the cotton was damaged.

Date	Hi-Low
Wednesday, June 14	72-50
Thursday, June 15	73-54
Friday, June 16	78-55
Saturday, June 17	95-57
Sunday, June 18	90-58
Monday, June 19	89-61
Tuesday, June 20	92-65

No precipitation. (Readings made daily at 8 a.m. for previous 24 hours.)

Mammogram Clinic Scheduled June 30

The Mobile Breast Cancer Detection Unit of Odessa, Texas, which services the Bovina area has received the certification of the American College of Radiology Mammography Accreditation Program.

Mammography is an X-ray examination of the breast, which the American Cancer Society and other medical experts see as the best means for the early detection of breast cancer.

The program is voluntary and is designed to insure that women receive optimum quality mammographic examinations. The process is done through a peer review evaluation of the facility's staff qualifications, equipment, quality control and quality assurance programs, image quality, and breast dose. The accreditation must be renewed every three years.

The accreditation program was instituted because of the concerns of radiologists, other national medical organizations, and the public that qualified personnel perform and interpret mammograms and that dedicated mammographic equipment be used. The American College of Radiology received an American Cancer Society Control Grant

\$1,000 WINNER....Anita Guest is shown accepting \$1,000 from Billy Whitecotton of Bovina Supermarket. Anita won through the Monopoly promotion that has been going on for the past 13 weeks. This is a promotion through Affiliated Foods and 56 participating stores. The game was played like the Monopoly game, matching tickets to places on the board. The game will end at the end of this month and one name from Bovina will go to Amarillo for a drawing. One name will be drawn from the pot there, and the lucky winner will receive \$10,000.

EMPLOYEE OF THE MONTH Jana Roberts is the employee of the month and is pictured accepting a U. S. Savings bond by Tami Kunselman, Chamber Director. Jana works for Leon Grissom.

Parachute Jump In Works For July 4th

The Fourth of July will be celebrated with several events in Bovina at the football field beginning at 4 p.m. Fireworks will conclude the activities and will begin at 10 p.m.

One of the main attractions will be a parachute jump by Jim Zehner, and he will land on the football field. Jim says, weather permitting, he will jump and it all depends on the wind direction. He is now planning to land on the football field and if not, hopefully,

he'll be landing at the track. Other events include the watermelon feed, dunking board, games, booths, raffles, volleyball tournament, cake walk and fireworks.

The businesses will be giving away prizes throughout the evening. There will be a concession stand and the Chamber of Commerce will be giving away three prizes and tickets are on sale for the raffle for \$3 each or two for \$5 and the prizes are: patio furniture, a Remington shot gun and a child's swing set.

The Bovina Fire Department also is selling tickets for a raffle and they sell for \$2 each or three from \$5. The prizes are: set of tires, VCR and a Nintendo game.

If you are interested in having a volleyball team for the tournament, call Kim at 225-6252 or Terri at 238-1479.

The Fourth of July activities are sponsored by the Bovina Fire Department and Bovina Chamber of Commerce. Make plans to attend.

Johnson Has First '89 Wheat

Kenneth Johnson delivered the first load of 1989 wheat to Sherley Grain in Bovina on Tuesday. Details as to yield were unavailable at the Blade's press time.

Rib Dinner Set Sunday

St. Ann's Catholic Church will host a barbecued rib dinner on Sunday, June 25 at the church.

Charge will be \$4.50 for adults, and \$2.50 for children. The Guadalupe Society is sponsoring the dinner, and the public is invited.

REFLECTIONS

...from The Bovina Blade

30 YEARS AGO--JUNE 3, 1959
Bud Crump, manager of Parmer County Farm Supply, was admitted to West Texas Hospital in Lubbock Saturday. His condition is not considered serious and he is expected to be released in the next few days.

Hail struck a devastating blow to this community Monday night. Damage caused by the storm has been estimated at more than a million dollars to crops alone. Homes and other buildings also were damaged by the hail.

Bill Moore has purchased the Gulf Station on Highway 60 in Bovina from Elton Venable.

25 YEARS AGO--JUNE 3, 1964

Visiting in the home of Mr. and Mrs. W.E. Williams are their two daughters and their families. They are Rev. and Mrs. George Small and family of Fayetteville, Arkansas and Mrs. Jack Barnett and family of Dallas.

Mr. and Mrs. Elton Kesner and daughter, Eva of Hobbs, N.M., visited in the home of his parents, Mr. and Mrs. Shirley Kesner, over the weekend.

John David Ferguson, son of Rev. and Mrs. John Ferguson, was released from Northwest Texas Hospital in Amarillo Saturday. He was hospitalized after receiving a severe blow on the head from a baseball.

20 YEARS AGO--JUNE 11, 1969

Extensive damage resulted and one life was lost in an explosion at

Sherley-Anderson Elevator in Lazbuddie Friday afternoon. Two men were also injured in the accident and two others received physical check-ups and then returned to work clearing away grain and debris to assist in locating the body of Cloys Stanberry, 31, who was killed in the explosion.

Pam Grissom, featured twirler for the Bovina High School Band, recently won six awards at the June Twirling Festival in Lubbock.

15 YEARS AGO--JUNE 12, 1974

Wilber Charles, father of five, grandfather of 15, and great-grandfather of 12, has been selected as "Father of the Year" in a contest sponsored by the Bovina CowBelles in conjunction with a beef promotion for Father's Day.

Michael O'Hair, son of Mr. and Mrs. Fred O'Hair of Bovina, has been named to the Dean's List for the spring semester at Texas Wesleyan College in Fort Worth.

Threats of rain here during the past two weeks have produced little more than widely scattered showers for the Bovina community with the tornado and hail producing storm clouds apparently building up over Parmer County before traveling east to vent their fury on other communities.

10 YEARS AGO--JUNE 13, 1979

Six area residents were injured, two seriously, in a head-on collision about 350 feet north of the intersection of Farm Road 145 and Texas 214.

The new Senior Citizens building is nearing construction completion. The building is located at the corner of North and First Streets.

Betty, daughter of Billy and Paula Whitecotton, was awarded a \$250 Levi Cole Scholarship at a recent spring convocation at West Texas State University. The scholarship was part of \$13,450 awarded to outstanding business students from contributing businesses and individuals throughout the Panhandle.

5 YEARS AGO--JUNE 20, 1984

Richard D. Fox of Winfield, Kansas will be coming to assume the duties of minister of the Bovina Church of Christ.

Scottie Johnson is the new pastor of Bovina's United Methodist Church and comes from Amarillo.

Marie's Used Values and City Cleaners were robbed of several items last Friday night.

Good rains fell in the area and 2 1/4 inches of rain has been reported.

Greg Abbott is shown with his torch as he crossed the Parmer County line in the Olympic torch relay this past Sunday. A crowd gathered to watch.

RECEIVES SCHOLARSHIP.... Pictured is Scott Scaff as he signs a basketball scholarship to Clarendon Junior College. Pictured with Scott is Coach Marks Lanham. Scaff is the son of Tommy and Bonnie Scaff.

Moth Threatens Evergreen Trees

The pine tip moth can be a serious pest of young pine trees planted by homeowners on the South Plains. And right now is one of the few times homeowners can effectively fight back, says Mike Blanton, Extension Agent-Entomology for Parmer and Bailey Counties.

The larvae of this moth bore into the growing tips of the trees, causing them to turn brown. Severely infested trees develop a bushy appearance over time.

The tip moth passes the winter as a pupa within the injured terminals and twigs of the tree. Moths emerge in late March and early April and begin the first of several generations which will occur during the summer.

Female moths lay eggs in the needles and stems. After hatching, the young larvae bore into the tip and begin feeding. After several weeks of feeding and constructing a tunnel in the tip of the stem, the larvae pupate. The adult moths then emerge from their pupal cases, and a new cycle of generation begins.

Properly timed application of an insecticide is the best way to reduce pine tip moth populations and damage, the Extension Agent said. "Since this pest spends most of its life cycle protected inside the pine tip, foliar sprays are most effective when the young larvae are just hatching from the egg," he said.

To properly time these applications, pheromone traps can be used to detect the presence of adult moths and determine when eggs are being laid and new cycles are beginning. Traps in Lubbock have recently begun catching moths of the second generation, indicating it is time to apply an insecticide.

Foliar-applied insecticides recommended for homeowners include Orthene and Dimethoate. Adding a small amount of liquid soap or surfactant to the spray solution will improve control.

Couple Adds Baby Boy

David and Sharla Cruz of Lubbock are the parents of a baby boy, Joseph Matthew, who was born Thursday, June 8 at 7:18 a.m.

The infant weighed six pounds, thirteen ounces and measured twenty-one inches long. The couple has an older daughter, Destiny, who is three years old.

Grandparents are Mr. and Mrs. Antonio Cruz and Dean Wines of Bovina and Pauline Dutton of Clovis.

Great-grandparents are Opal Wines of Bovina and David Wines of Lubbock, Tibunia Cruz and Fortunata Avilez De Cruz of Dolores Hidalgo Gto, Mexico and Miguel Garcia of Harlingen, Texas.

It helps the insecticide adhere to the treated trees, the Extension Agent said. "Always read and follow label instructions when applying insecticides," he stressed.

Around The House

By ROCHELLE WHITE
Parmer County Extension Agent Home Economics

The height of food preservation season will soon be upon us. This year, homemakers will want to be aware of new research from the USDA-funded Center for Excellence in Home Food Preservation at Penn State University. To insure the safety of home-canned products, these new USDA guidelines should be followed.

To insure your health and specifically to prevent the risk of botulism, low-acid and tomato foods not canned according to the new USDA recommendations should be boiled before eating even if you detect no signs of spoilage. Boil food for ten minutes at altitudes below 1000 feet. Add an additional minute of boiling time for each additional 1000 feet elevation.

Therefore, if you have a canned low-acid or tomato product, you should boil it for a total of 14 minutes because the elevation of Parmer County is from 3800-4100 feet.

There are a variety of changes in the new USDA guidelines. In these new recommendations separate times are given for dial gauge and weighted gauge pressure canners.

Processing times are also given for varying altitudes. This is important because Parmer County is among the high altitude area. This measure insures more accurate preservation and tremendously lowers the risk of unsafe food products.

It is recommended to sterilize jars if they will be processed less than ten minutes in the boiling water bath. To sterilize empty jars, put them right side up on the rack in a boiling-water canner. Fill the canner and jars with hot (not boiling) water to one inch above the tops of the jars. Boil 14 minutes at our altitude. Remove and drain hot sterilized jars one at a time. Then complete the canning process. If processed by pressure canning, sterilization of jars is not mandatory.

If you would like to receive a series of educational letters throughout the summer months on the new USDA guidelines, or for more information, please call Rochelle White at the Parmer County Extension Office (481-3619) or write to her at P.O. Box 285, Farwell, Texas 79325.

Elementary Award Winners Recognized

Students in Bovina's elementary school were honored at the annual awards assembly last week at the school.

Those honored included:
PERFECT ATTENDANCE
Kindergarten--Laura Flores, Timothy Martinez, Levi Steelman, Tyson Kerby and Angela Villarreal.

First grade--Marie Martinez, Linda Vargas, P.J. Griggs, Adan Jaquez, Danny Jaquez, Mark Pena and Abel Vega.

Second grade--Scott Sherrill and J.T. Roach.

Maricela Guevara, Deborah Brito, Magaly Anaya, Melissa Nicolas, Maria Fragoza, Tommy Dalton, Roberto Marquez, Steve Talavera, Roberta Borquez, Ezequiel Lara, Julia Castillo and Elvira Talavera.

CITIZENSHIP
Tony Beauchamp, Maricela Guevara, Priscilla Martinez, Lennie Brito, Ann Flores, RoseAnn Cantu, Mandy Wilson, Jay Grisham, Isabel Viernes and Lance McClaran.

HONOR ROLL ALL A'S

Third grade--Tony Beauchamp and Crystal Walls.

Fourth grade--Lisa Hromas and Amber Willard.

Fifth grade--Henry Renteria, Mandy Wilson and Jay Grisham.

Sixth grade--Kody Wilson and Andy Espinoza.

ALL A'S & B'S

Third grade--Luke Steelman, Christopher Arias, Stephine Villarreal, Wanda Munoz, George Villarreal, Lorena Rubalcava, Gina Kunselman, Rebecca Gomez, Carolina Gomez, Jackie Feldman, Charity Evans, Paulene Borquez, Priscilla Martinez, Shaun Spohn, Ricky Antillon, Debbie Brito, Norma Hernandez, Martin Reyna, Leticia Sierra, Amy Venable, Erik Galvan, Jamie Stanberry and Maricela Guevara.

Fourth grade--Lori Beauchamp, Kasey Bell, Rachel Espinoza, Ann Flores, Maria Fragoza, D'Anne Jones, Lennie Brito, Jason Kerby, Pablo Martinez, Christy McLaughlin, Jessica Stowers, Melissa Nicolas, Joey Rackley and Nora Uriegas.

Fifth grade--Angie Uriegas, Annabel Castenada, Alexandria Dopp, Richard Garner, Carmen Campos, Jackie Gonzales, Steve Talavera, Rachael Turner and Rene Villa.

Sixth grade--Sally Noriega, Brooke Charles, Ezequiel Lara, Benji Chisom, Lance McClaran, Felicia Flores, Jeb Bartlett, Roberta Borquez, Isabel Viernes, Charlotte Quintana and Richard Beauchamp.

PRESIDENTIAL PHYSICAL FITNESS AWARD

Second grade--Santiago Vargas and Scott Sherrill.

Third grade--Tony Beauchamp

and Norma Hernandez.
Fourth grade--Amber Willard and Joey Rackley.

NATIONAL PHYSICAL FITNESS AWARD

Second grade--Jarred Rackley, Michael Mitchell, Derrick Vanegas, Jeremy Willard, Adrian Garcia, Joshua Willard, Ralph Bermea, Liseth Antillon, Gina Beauchamp, Elia Marrufo, Christi Bentley.

Also, Sara Flores, Lory Noriega, Rachel Rodriguez, Evangelina Casas, Elizabeth Jimenez, Ashley Zehner, Maria DeLeon, Nellie Garza and Rana Weber.

Third grade--Martin Reyna, Willie Bell, Abel DeLaCruz, Chris Dopp, Hector Vela, Shaun Spohn, Luke Steelman, Christopher Arias, Joseph Estraca, Estella Chavez, Maricela Guevara, Amy Venable, Wanda Munoz.

Also, Yvonne Quintana, Sandra Salazar, Lorena Rubalcava, Paulene Borquez, Charity Evans, Kathy Rodriguez, Carolina Gomez, Leticia Sierra, Melissa Cantu, Rebecca Gomez, Priscilla Martinez and Josie Cavazos.

Fourth grade--Tina Bermea, Christina Estraca, Maria Fragoza, D'Anne Jones, Tammy Stormes, Jason Kerby, Jerry Rocha, Lennie Brito, Ann Flores, Lisa Hromas, Christy McLaughlin, Josue Gonzales, Albert Larrea and Josh James.

Fifth grade--RoseAnn Cantu, Tina Olivarez, JoAnn Rodriguez, Luz Rubio, Angie Uriegas, Mandy Wilson, Jay Grisham, Cruz Marrufo, Kevin Mitchell, Henry Renteria, John Stormes, Leonel Salazar, Rene Villa and Alexandria Dopp.

HEALTH FITNESS BADGES

Sixth grade--Julia Castillo, Charlotte Quintana, Brooke Charles, Elvira Talavera, Anjelita Salazar, Roberta Borquez, Rey Reyes, Alberto Gomez, Ezequiel Lara.

Also, Andy Espinoza, Kody Wilson, Anthony Brito, Lance McClaran, Luis Robles, Jamie Flores, Richard Beauchamp, Benji Chisom and Roel Garza.

OIL RESULTS

Ready writing--third grade, Luke Steelman, fourth; Jackie Feldman, fifth; fourth grade, Jason Kerby, first; sixth grade, Brooke Charles, fifth.

Listening skills--fifth grade, Robert Hernandez, second; Anna Quevedo, third; sixth grade, Anjelita Salazar, fifth.

Picture memory--fourth grade, Rachael Espinoza, fifth; Maria Fragoza, fifth; Sandra Talavera, fifth; fifth grade, Angie Uriegas, fourth; Henry Renteria, fourth; David Shelby, fourth.

Oral reading--fourth grade, Nora Uriegas, second; sixth grade, Roberta Borquez, first; Benji Chisom, fifth.

DPS Urges Safety During Summer

It's vacation time and time to start thinking about our summer travels and those year-long planned vacations. Major Cawthon, Regional Commander of the Texas Department of Public Safety, adds that there are things we can do to insure that our summer plans are not ruined by some type of tragedy.

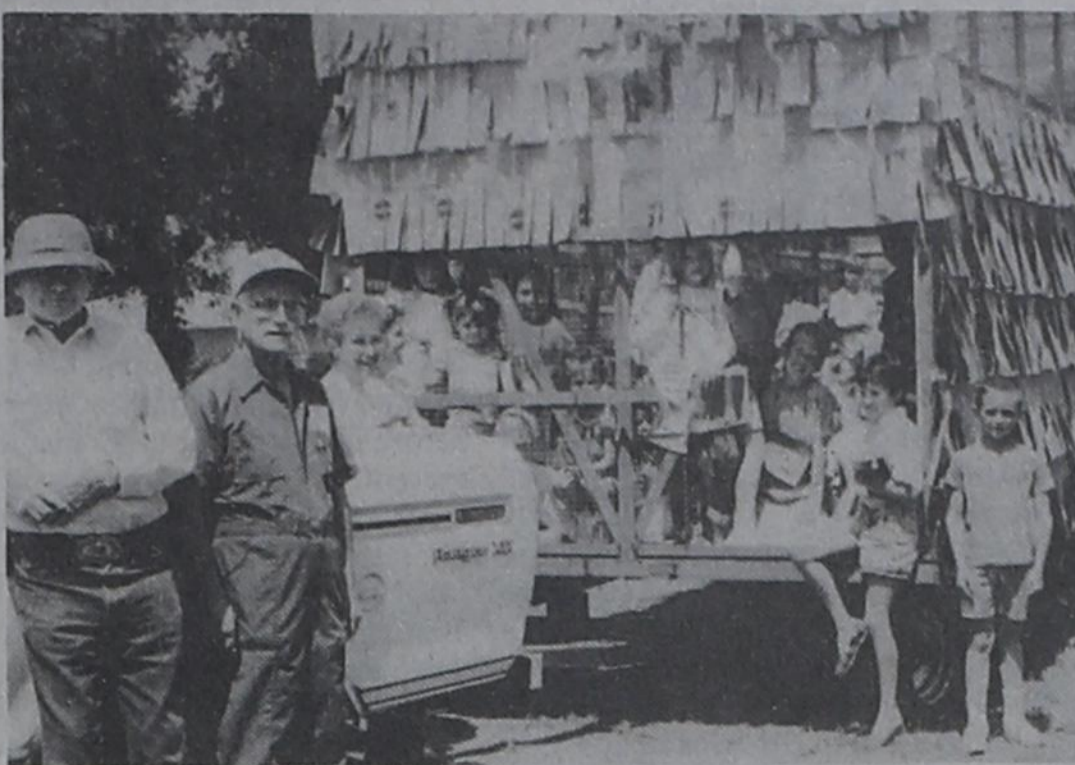

"Whether your plans involve travel by car or just a trip to the lake for a little swimming and boating, remember that these activities require a sober mind. While drinking, it is best to stay out of the water and if operating a car or boat use the 'Designated Driver.' It may just be your life that is saved," Major Cawthon stressed.

Travel plans should include a

safety check of your vehicle, both under the hood and on the outside. Trips should be planned, so that you are not rushed to get to your destination. Plenty of rest and frequent breaks make for a safe driving combination.

Be familiar with highway designations. Because of the different posted speed limits, it is important to know if you're on the Interstate roadway system or another type of road. Road appearance alone will not give you this information, so it is important that you know what road you are on.

To sum it all up, drive defensively, constantly watching out for the other driver and please, buckle up. It is the Texas way of doing things.

METHODIST VACATION BIBLE SCHOOL was held last week at the First United Methodist Church. The cotton trailer is being pulled by drivers, Dean Hastings and Rouel Barron and director of the Bible School is Tammy Willard.

"Billy The Kid" Opens June 22

"Billy The Kid" rides again, for the third season at the Caprock Amphitheatre, under the direction of Dr. J. Richard Waite, veteran director at Eastern New Mexico University.

The romantic outdoor drama, with some 15 theatre people from ENMU involved this year, plus 15 to 20 other area residents, opens on Thursday, June 22 and runs each Thursday, Friday and Saturday nights through August 26. Dr. Waite's first order was "less dialogue, more action!" Action it will be with more dances, flag waving, songs and dramatics.

The three leading roles are Billy, played by Patrick Briggs, Pat Garrett, played by Chris Cox and Abrana Garcia, played by Kelly Kiernan, all three from the stage of the theatre at ENMU. Rudy Ulibarri, international dance

instructor of Albuquerque, returns to choreograph the one hour and forty-five minute popular period piece. Leading the band will be Valerie Moss, champion fiddle player from South Plains College at Levelland. Larry Buchanan is the music advisor.

The New Mexico Outdoor Drama Assn., operators of the 1,000 seat Caprock Amphitheatre atop the bluff ten miles south of San Jon, N.M., announce that prices for tickets are the same, except that children under 12 will be admitted free. Adults are \$6, teens \$3 and senior citizens and members of groups of 15 or more \$5. Cattle Call barbecue is again being served, from 6:30-8 p.m. at \$5 for adults, \$3.50 for youngsters.

Call or write for reservations, details: (505) 576-2455, or Caprock Amphitheatre, P.O. Box 337, San Jon, New Mexico 88434.

SPS Files To Credit Texas Customers

Southwestern Public Service Company (SPS) filed today to distribute \$13 million in credits to its Texas retail customers, primarily representing these customers' share of proceeds from SPS's sales of electricity to other utilities.

A residential customer who uses 1,000 kilowatt hours a month would receive a credit of \$10.21.

These new credits are separate from and in addition to previously announced credits related to SPS rate reductions.

As a participant in an experimental market program, SPS has been able to sell electricity to western utilities as far away as California on a competitive basis, said Jerry Diller, SPS's group manager of rates and regulations. Under the program, 75% of the difference between the cost of production and the sales price is to go to customers in the SPS service area, Diller said.

"Previously, these sales required time-consuming approvals of individual transactions and a rigid price formula established by the Federal Energy Regulatory Commission," Diller said. "Under the experimental program, utilities are able to buy and sell electricity in what amounts to a daily auction."

The credit also represents proceeds from SPS sales to other utilities made in the traditional regulated manner.

SPS has been successful in the bulk-power market because it is a low-cost producer, Diller said.

"Demand has been high because several power plants in the Western United States have been out of service for various reasons," Diller said. "Also, hydro-electric power from the Pacific Northwest was limited due to relatively dry conditions."

These circumstances will change, Diller said, so it is difficult to predict if SPS sales at past levels will continue.

SPS filed the requested credit with the Public Utility Commission of Texas (PUCT). If approved, the credit would be recognized in August electric bills.

"We also are requesting that the PUCT establish a procedure whereby we can pass on any future credits from such sales on a periodic basis as they accumulate," Diller said. "Under present PUCT procedures this is not possible."

The proceeds from these bulk-power sales to other utilities are treated as a fuel-cost credit. The \$13 million credit requested by SPS includes approximately \$2 million in traditional fuel savings resulting from lower costs for coal and natural gas. The credit also includes interest at 11.7%.

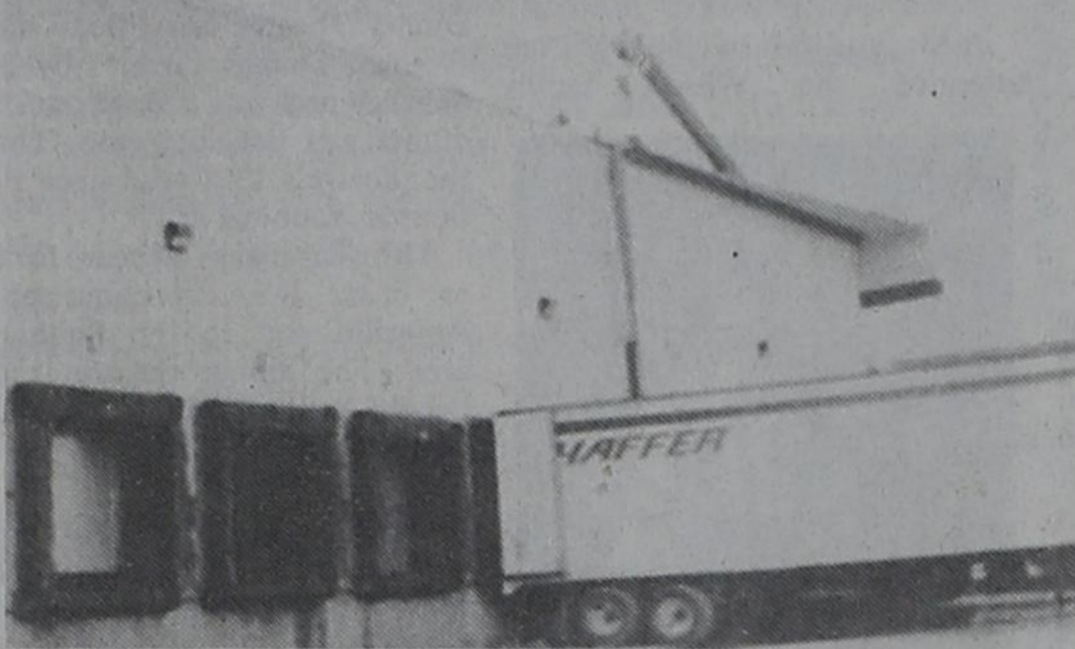

Fireworks Available

Fireworks stands will be placed near Agri-Sprayers and at the Bovina Pump Company.

The Lions Club's stand will be located in front of the Bovina Pump Company and Paula Nance will run it. She said on Sunday she will open by 1 p.m. and through the week it will be open from 10 a.m. until midnight.

The ambulance stand will be run by Keri and Kory Mitchell and will open as soon as the fireworks arrive, according to their mother.

HAVE A BIG TIME IN TEXAS.

ROOF DAMAGE...The Excel plant sustained damage to a portion of the company's roof last Monday night. About a fourth of the roof on the new portion of the plant was demolished.

Fourth Of July Driving Precautions

It is the Fourth of July and the middle of summer vacation which means not only will Texas motorists be taking to the highways, but a lot of visitors will also be entering Texas. With the increase in the number of motorists on our highways, the possibility of having an accident will also increase.

Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety, stated, "That this combination can be deadly, if motorists do not take certain precautions over the Fourth

of July holiday."

"Before traveling you should insure your car is in good working condition including necessary equipment to help in case of a break down, such as a good spare tire. Long trips should be well planned, allot ample time for traveling, be well rested and take frequent breaks," said Major Cawthon.

Do not mix drinking and driving. It not only could cost you big fines, jail time and loss of your driving privileges, but the cost could be as high as your life.

Always be watchful of other motorists. All, too often, simple mistakes can lead to traffic accidents. Be courteous by displaying good driving habits that you expect others to display. Remember that courtesy can be contagious.

Insure that everyone in the vehicle is properly secured and that all loose items are in the trunk. During a collision, any loose object could be a potentially dangerous weapon.

To help insure your safety this Fourth of July holiday, drive friendly and obey all traffic laws. It is the Texas way!

'TEXAS' Opens '89 Season

"TEXAS" opened its 24th season with gala celebrations honoring the members of its producing non-profit organization, The Texas Panhandle Heritage Foundation on Wednesday, June 14.

Reservations are encouraged and obtained by writing "TEXAS," Box 268, Canyon, Texas 79015 or by calling 806-655-2181. Tickets are \$10, \$8 and \$6 for adults and \$5, \$4 and \$3 for children.

An optional chuckwagon barbecue dinner is served prior to each performance from 6:30-8 p.m. by Sutphen's of Amarillo in the patio area of the theatre for \$5 per person.

While in the area, see the largest and oldest state museum in Texas, the Panhandle-Plains Historical Museum in Canyon, savor sourdough biscuits on the canyon rim during an authentic cowboy morning breakfast at the Figure 3 Ranch or catch robotic dinosaurs at the Don Harrington Discovery Center in Amarillo.

WHAT ARE GHOST ACRES

- **QUESTION:** What are they?
* **ANSWER:** Double crop acres which follow failed (prior to May 15th) small grain acreage.
- **QUESTION:** Can they be planted to grain sorghum?
* **ANSWER:** Yes, but milo crop isn't eligible for the loan or any other program benefit. These acres do not count against permitted feed grain acreage.
- **QUESTION:** Will ghost acres planted to grain sorghum violate cross compliance regulations?
* **ANSWER:** No, sorghum can be fed or sold on the open market.
- **QUESTION:** Am I eligible for a disaster wheat payment if I plant these acres to grain sorghum?
* **ANSWER:** Yes, if approved.
- **QUESTION:** Is ghost acreage milo eligible for multi-peril F.C.I.C. insurance?
* **ANSWER:** Yes, see your agent for details.

GOLDEN ACRES . . . recommends

the following varieties for ghost acres in the Texas-Oklahoma Panhandle.

- **T-E 35** Red, medium early with maximum drought resistance for dryland. Short, uniform, excellent standability. Good yield potential for maturity.
- **T-E EMPIRE** Medium maturing Biotype E resistant, hetero yellow recommended for dryland or limited irrigation. Slightly shorter than T-E Y-101-R with comparable head exertion.
- **T-E Y-60** Yellow-white cross, extremely droughty. Medium maturing with good seedling vigor and emergence. High yields under favorable conditions. Not recommended for full irrigation and intensive farming practices due to above average height under these conditions.
- **T-E Y-75** Biotype E resistant medium red. Stay green strong stalk. Big yield potential under limited or full irrigation.
- **T-E Y-101-G** Biotype C resistant, medium late. A popular choice because it combines a short, strong stalk with record yields under favorable conditions. Recommended for irrigation.

QUILT TO BE RAFFLED....Ladies of St. Ann's Society are pictured quilting a queen size quilt that will be given away at the Turkey Dinner the first Sunday of November. The quilt is mint green and peach, and colored Rail Fence design. The ladies are: left-right, Lorena DeLeon, Ettie Jesko, Eunice Schilling, Martha Nell Schilling, Brenda Jesko, Liz Jesko, Lupe DeLeon and Judy Brockman. Tickets are \$1 each.

Opal Bowen Tours Washington, D.C.

On Thursday, June 1, Opal Bowen visited Washington, D.C. for the first time. She was accompanied by her niece, Regina Kelley of Lubbock. The ladies boarded the plane at 6:40 a.m. in Lubbock and arrived in Washington, D.C. at 12 noon.

They visited with Regina's sister, Glenda Kay and her husband, Stan Letcher and their four children, Scott, Adam, Jamin and Megan. Stan works for the FBI and the family lives in Burke, Virginia.

On Friday morning, they took a tour of the White House and also visited the Lincoln Memorial, Washington Memorial and the Ford Theatre, where President Lincoln was assassinated. A lecturer spoke to them there and told how Lincoln's body was carried across the street to the Petterson House, where he died nine hours later. His bed and pillow were in a glass case and on display there.

They had lunch at the Washington Hotel, eleven floors up and on a balcony.

They then toured the Willard Hotel, where Lincoln was inaugurated.

They visited the Smithsonian Museum of American History and saw the original flag, about which the "Star Spangled Banner" was

Electric safety is looking up...

...for power lines!

On the farm, on the job or at home, you should always be aware of power lines. Touching a power line with anything... an irrigation pipe, tool, a kite string... could divert the electricity through you causing serious injury or death. For safety's sake, look up for power lines.

AND, REMEMBER THESE SAFETY TIPS

- Do not trim trees near power lines.
- Do not shoot at insulators on poles, towers or structures.
- Avoid using electrical tools like lawn mowers or hedge clippers when grass and leaves are wet.
- Be careful when digging. Call SPS to find out if there are any buried electrical lines in the area.
- Beware of exposed wires.

A SAFETY MESSAGE FROM SPS

SOUTHWESTERN PUBLIC SERVICE COMPANY

Scooter's Scoops

By Scooter Russell

The storm we had a week ago Monday night has residents wondering if it consisted of just straight, hard winds or a small tornado. We showed several pictures in last week's issue but failed to get a picture of the huge willow tree that was uprooted in the front yard at the A.M. Wilson home. Neighbors called them to tell them about their tree and they were at home at the time.

Several of you remember Jack Kesler, a former resident who now lives with his wife, Barbara in Dumas. Jack entered the Veterans Hospital in Amarillo with serious problems. He is now home and will be going back for radiation treatments as an out-patient.

A.M. and Mary Jane Wilson attended the Wilson family

GRACIELA ROBLEDO G. Robledo Receives Diploma

Graciela Robledo of Bovina was among a record number 667 students who received diplomas Friday, May 12 during South Plains College's 31st graduation exercises in Texan Dome.

Robledo was awarded a certificate of proficiency in general secretary.

Glenda Ellis, who was graduated with honors during the 10 a.m. ceremony, is the recipient of the Vera Sue Spencer Award for 1989. The award is made annually to the woman student who most promotes school spirit and enthusiasm on campus. The award is made available by Mrs. Rachel Spencer of Pasadena, whose late husband, Dr. Thomas Spencer, was SPC's first president.

reunion which was held at the Fifth Season West in Amarillo weekend before last with about 30 members present. While there, they celebrated A.M.'s sister, Lucille Ford's, 90th birthday with a surprise get-together. A.M. had another brother and two sisters there and they were Elaine Bybee of Hondo, Lucille Ford of Tulia and H.E. Wilson of Albuquerque.

The Wilsons have enjoyed a good time with their grandsons, Kip and Adam Murphy, who were in Bovina a few days from Abilene. The boys are also visiting their other grandparents, the Don Murphys.

Daughter Tracy of Amarillo and I attended the Country Squire Dinner Theatre last Friday night. It was "Dream Lover" by Jack Sharkey and was a good one. The dinner was delicious, too. This is the theatre's 13th year since Peter Fox, Jr. founded it.

This year marks 20 years for Fox to bring live entertainment to Amarillo and to the Panhandle area. The dinner theatre is now located at Sunset Center. We had a good time.

David and Sharla Cruz are parents of a baby boy, Joseph Matthew, born June 8. Congratulations to them and

grandparents in Bovina, Dean Wines and Mr. and Mrs. Antonio Cruz. The couple also have a daughter, Destiny, who is three years old.

Received a note from Margaret and Owen Moore of Lubbock and Margaret Jo was sharing information on the awards her son, Logan, received. Logan is a fourth grader and the grandson of Elton and Marie Venable of Bovina.

Awards he received were: "A" honor roll for the entire year (only ten youngsters received this out of 250); honor roll each six weeks; FYT all-star award; second place in the poetry contest out of all fourth graders in Lubbock; citizenship award; Bowie Spelling Bee contestant; art work was exhibited at administrative office, computer whiz-kid, certificate of excellence in reading, math award, first place from Burger King for a drawing, special award for poetry bee, student of the month for April, library reading award (read 34 books), Bowie Student council, and Poetry Bee.

He received more awards than anyone else in his school (Bowie Elementary in Lubbock). Congratulations, Logan!

Bedford and Pauline Caldwell

have returned home from a trip to Boston, Massachusetts. They flew to Boston and attended their grandson's high school graduation, and visited with his parents, Don and Darlene Caldwell. Pauline said the weather was pleasant and the flowers in the area were beautiful. They had a good time and came home a week ago last Thursday.

Susan and Al Kerby attended a wedding recently in San Angelo. Susan said the bride was Mary Reed and she is Jack Rains' cousin. Jack also attended the wedding. The Kerbys went one day and back the next. Said it was hot and rained while they were there but they enjoyed the trip.

Wedding Reminder

Shaun Windle and Joanna Clayton will be exchanging wedding vows Saturday, June 24 in the First Baptist Church at 2 p.m. and all friends and relatives of the couple are invited to attend the wedding and reception following.

Shaun is the son of Mr. and Mrs. Don Windle of Clovis and Joanna is the daughter of James and Sandra Clayton of Bovina.

BREAST CANCER DETECTION UNIT available to area women!

FRIDAY, JUNE 30, 1989
BOVINA CITY HALL
BOVINA, TEXAS

Call 238-1116 for appointment

According to the American Cancer Society, one out of ten women will develop breast cancer sometime in her lifetime. It is currently estimated

that over 37,000 women die each year as a result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97% five year survival rate and a 90% 10 year survival rate. (The cost is only \$50.)

A mammogram can detect a cancer this small, even before it can be felt.

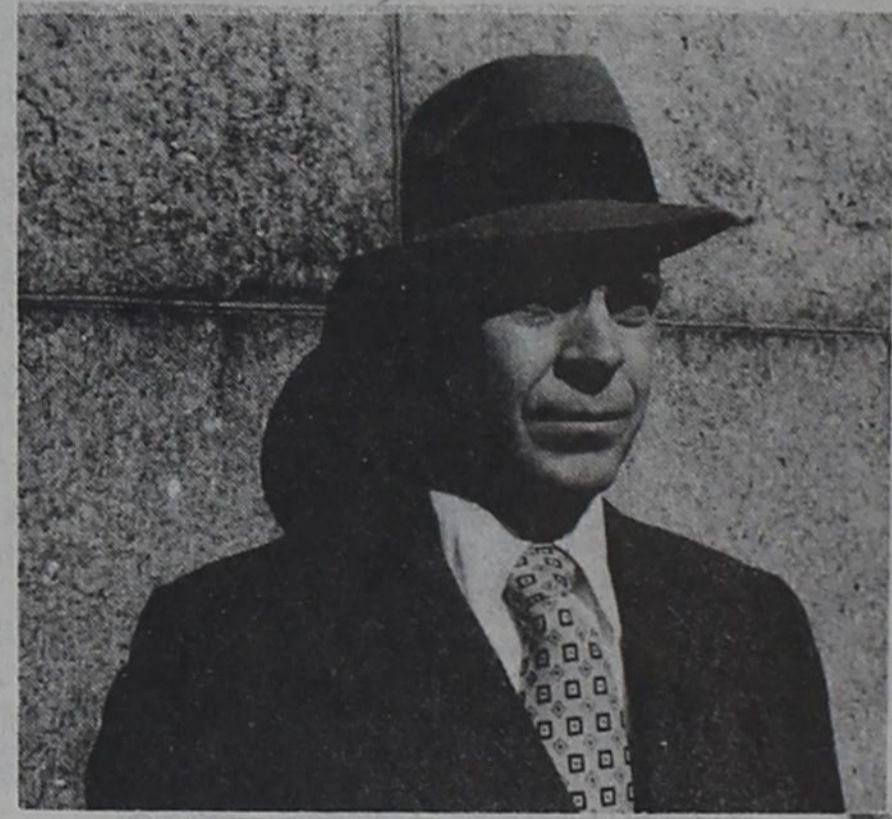

Salesman Confesses

Claims newspaper is best salesman

On Monday, Jules Wintner, owner of a local retail establishment, confessed his job as a salesman was obsolete due to the impact of newspaper advertising. Wintner, in an exclusive interview, said sales were made in the local paper instead of in the store.

"Sure, we get a chance for additional sales," Wintner commented, "but the newspaper has become our best salesman." Wintner reported that consumers name the local newspaper as their usual source of "Best Buy" information, 10 times more than radio or television. This conforms with a recent Consumer Data Service report that indicated 60% of the consumers seek "Best Buy" information from the newspaper versus only 6% for radio and 7% for television.

Wintner later remarked that because the newspaper is read by all Texans, regardless of income, his business was able to sell both upper end products as well as value priced items. "No matter what we're selling, we get good response in the newspaper," he said. "In fact, the more expensive the product, the better our response seems to be." This fact is substantiated in a survey by the Texas Newspaper Advertising Bureau that documented readership of the newspaper increases as income increases. In the survey, almost 75% of Texans with incomes exceeding \$50,000 a year read

Salesman admits he "never had to sell anything" because of newspaper ads

"Our customers shop the newspaper. When they walk in the door, they already know what they want, they know the price and often have the ad with them."

the newspaper.

"My job has become redundant," Wintner admitted. "Used to be I had to really sell each customer, but now I'm just an order taker." Asked what he intended to do now that the newspaper was doing most of the selling, he replied, "Spend more in newspaper advertising than last year."

A DANGEROUS SITUATION.... It would be very easy for a person or animal to fall into this abandoned well from which the casing has been pulled. Water erosion has widened the opening making it more dangerous. Contaminants to the aquifer could also occur from the water entering the open well. The High Plains Underground Water District recommends that property owners check on such abandoned wells and see that they are closed up.

CONGRATULATIONS!

Anita Guest was the Lucky Winner of \$1,000 in Bovina Supermarket's Monopoly Promotion.

Bovina Super Mkt.

Preparation Is Key To Storm Safety

Living in Texas sometimes can mean living with severe and occasional threatening weather conditions. The key to protection is preparation, says the Texas Medical Association. You can't stop a raging hurricane or tornado, but advance preparation can help protect lives and minimize damage to your property.

Hurricanes and tornadoes can cause emergency situations which call for specific measures.

Thunderstorms and tornadoes are likely in Texas during spring months. Once again, preparation is your best protection. When a "tornado alert" is in effect, severe weather conditions could produce tornadoes. Keep a battery-operated radio or television tuned to a local or area station for warning information and bulletins. When a "tornado warning" is issued, funnel clouds have been sighted and could be headed in your direction. A "tornado warning" requires immediate action. Evacuate, if possible, to a cellar or basement. Or go to a corridor and sit with your head between bent knees. If you must remain in a room with windows, close the shades and drapes to prevent possible injuries from flying glass. Stay away from the windows until the storm has passed.

Hurricanes and tornadoes can cause prolonged power and water failure. Each household should

have the following articles prepared in case of severe weather: flashlights and batteries, candles, a gasoline camp stove or canned heat, battery-powered radio and batteries, food that requires no refrigeration, and plenty of bottled water for drinking. Water for other purposes can be obtained from hot water heaters and toilet water tanks.

The Texas Medical Association also urges you to keep emergency telephone numbers for use when your health is threatened by severe weather. These numbers include the fire department, ambulance, police department and the weather bureau.

By using common sense and preparing in advance, you and your family should be able to escape injury and minimize damage. The best defense against the dangers of hurricanes and tornadoes is a healthy respect for the storm and sensible action—remain calm and move quickly.

The Texas Medical Association is a professional organization of more than 29,000 physician and medical student members. It is based in Austin and has 116 component county medical societies around the state. The Association represents 80 per cent of the state's physicians, and its goal is to improve the health of Texans through the professional and personal development of members.
