Public Warned

The Social Security Administration District Office in Amarillo has received reports from the public that they are being contacted by a man who is falsely representing himself as an employee of the Social Security Administration. Reports Jim Talbot, District Manager. "Those who are on SSI are in no way obligated to pay a fee for receiving these benefits."

Fire Danger

Austin—Because of the very dry conditions of rangeland in several parts of the state, Agriculture Commissioner Reagan V. Brown warns summer travelers and campers that carelessness could easily trigger costly and dangerous range fires.

Brown said that vast areas of valuable rangeland could be turned into wasteland "in a matter of minutes" by cigarettes or matches thoughtlessly thrown from vehicles or by unattended campfires.

Texas High In Cotton

The Texas cotton crop is off to a good start and prices look good, says a marketing specialist with the Texas Agricultural Extension Service. A crop of well over four million bales is expected, and prices should average near those received for the 1976 Texas crop. The price strength stems from a worldwide shortage of cotton, with current world stocks averaging 40 per cent of world consumption.

Cattle Prices Up But Producers' Share Less

Retail beef prices have increased about 5 per cent in recent weeks, and cattlemen may soon be getting a slightly bigger piece of the beef profit pie, says a livestock marketing specialist with the Texas Agricultural Extension Service. Of course, marketing costs have been partially responsible for the increase in retail beef prices, but these costs do not benefit producers. Following a substantial drop in the farm-to-retail price spread in April and early May, it is jumping up once again.

Storm Warning

Since the tornado season is with us again, it is important to know the signs of a storm. One blast of the siren indicates a storm is approaching. Two blasts are to call the community together, and three blasts indicate a storm. Three blasts do not necessarily indicate that a tornado has been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.
