someone.

Your son's education for instance.
But by the time he's ready for college his education may well cost a small fortune.
The kind you just don't have lying around under a bed.
That's just the reason why your government has a great thing going. A U.S. Savings Bond.
In themselves they're not a quick buck. They won't make you that fortune overnight. But in the long run they do pay off. Darn well at that. And at a guaranteed rate. Starting a savings plan is easy.
You can join a Payroll Savings Plan where you work. Or get into a Bond-A-Month Plan where you bank.
Then watch someone's future grow. Like your son's.

"My natural beauty usually attracts so much attention that drivers take their eyes off the road to stare at me and they run into telephone poles and fire hydrants. It's a mess. But you Texans keep your minds on your driving. You don't give beauty more than a quick glance. You drive friendly."

ON ELECTRIC COOKING

- ★ Don't be an oven-peeper. Every time you open the door, you lose 20% of the heat.
- ★ Plan oven meals to accommodate more than one dish at a time, or time your baking for multiple dishes. Most recipes can stand a 25° F. temperature variation.
- ★ Get foods for baking into the oven the moment it reaches the right temperature. Remember, you don't have to pre-heat the oven for broiling or roasting.
- ★ Use the high setting to bring foods to steaming then switch to the lowest heat needed to complete cooking. Turn off surface units before cooking is complete and let the retained heat finish the job.

Warm Hearts Code Hands OR WHY MORSE was all KEYED UP.

In 1832, Sam Morse knew he had a great idea at his fingertips. Sending messages by wire.

But he had to invest twelve years of hard work before he could tap success.

When he did, the results were positively electrifying. The future of the telegraph (and Sam Morse) was assured.

Your future could be assured, too, if you get this message: Invest in United States Savings Bonds.

Sign up for the Payroll Savings Plan where you work and your earnings will automatically buy Bonds.

And your Bonds will earn interest.

And in twelve years, your results could be even more electrifying than Sam's.

Buy U.S. Savings Bonds. They're something to get keyed up about.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.
