Are you going to live longer than your money?

Maybe you're having a pretty good life now. Your credit is good, you've got a few nice clothes and a good dependable car. And if you're lucky, maybe you own your own home. But that's because you're working. What happens when you retire? You can't live on memories. It's still going to take money. Lots of money. Money that you should be saving now.

And one of the easiest ways to start putting away a few dollars for those retirement years is by joining the Payroll Savings Plan where you work and buying U.S. Savings Bonds.

That way every time you earn a little money for today, you save a little for tomorrow.

Then when the time finally comes to retire, you'll have something put away to retire to.

Now U.S. Bonds pay 11% interest when held to maturity of 6 years, 10 months at 11% the last year. Bonds are redeemed if lost, stolen, or damaged. Where needed they can be repaid at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until maturity.

In 1832, Sam Morse knew he had a great idea at his fingertips. Sending messages by wire.

But he had to invest twelve years of hard work before he could tap success.

When he did, the results were positively electrifying. The future of the telegraph (and Sam Morse) was assured.

Your future could be assured, too, if you get this message: Invest in United States Savings Bonds.

Sign up for the Payroll Savings Plan where you work and your earnings will automatically buy Bonds.

And your Bonds will earn interest.

And in twelve years, your results could be even more electrifying than Sam's.

Buy U.S. Savings Bonds. They're something to get keyed up about.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Meat Imports Down

Imports of foreign meat during the first six months of 1977 fell considerably below a year ago—down 81 million pounds or 12 percent, notes a livestock marketing specialist with the Texas Agricultural Extension Service. Beef and veal imports were down 14 percent, lamb imports were off 28 percent, and pork imports were down 4 percent. Imports of live cattle increased 12 percent during the same six month period while sheep imports fell 82 percent.
