

Variety Show Huge Success

By LES ROPER EDITOR

The Old Quarry Society, assisted by the multi-talented Lashawn Wardlaw, outdid themselves Saturday night as they presented two and one half hours of entertainment never before seen on Fort Clark. The night was filled with fun and laughter as some of the funniest and most talented performers ever seen in this area performed for a standing room only crowd. The amphitheater was filled to capacity with the overflow crowd sitting on the grass surrounding the stage. It was truly a night to remember.

The tempo of the entertainment was controlled by emcee, Lashawn Wardlaw, Fort Clark's public relation director, as she moved the show along at a very brisk pace, never allowing a lull of any kind to take place. Her unlimited talents were accompanied by a breathtakingly beautiful face and smile as she invited each performer on to the stage and introduced them.

The Southwest Wranglers and the Templeton Sisters, who have been performing all summer at the Alamo Village, got the show started on the right note with their own style of entertainment which has made them so popular since their arrival. From Eagle Pass came Hector Guardado, the young Hispanic singer with the super handsome face, as he presented his very own kind of singing accompanied by mariachi music.

Tiny Mac belting out one of his many songs for the standing room only crowd. His meloldious singing voice and never ending supply of jokes kept the crowd well entertained.

audience rolling in the grass. Shelly is a Brackett High senior and the talent she exhibited that night could, someday, put her name in lights. She is a beautiful and very talented young lady and her pixieish performance was great.

Living up to her billing was Natalie Evetts, a most charming young lady, who left cracks in the rock walls of the quarry after she finished her own rendition of the "oldie but goodie"

Entertainment tempo controlled by public relations director Lashawn Wardlaw

leaving the audience limp and exhausted from the trip back into

the stage holding a cigar that looked like the exhaust pipe on a Volkswagon in his hand and bulging with an air that spelled "devilment". The crescendo of the laughter continued to get louder and louder as the "big guy" flooded the crowd with never before heard jokes and one liners. He had the audience completely captivated after his first two minutes on stage and from that moment on it was pure pandemonium. His talents

San Antonion Natalie Evetts, bringing the crowd to their knees with her nostalgic selection of oldies but goodies.

The final act was headed by Happy Shahan, Brackettville's own master of entertainment, who was coaxed out of retirement to sing some of the songs that he had recorded earlier in

The "Show of Southwest Texas" as it was billed provided the audience with a very special kind of entertainment that will be remembered for

Coming close to stealing the show was Kinney County's own Shelly McDaniel as she performed a hilarious musical skit that had the

By LES ROPER EDITOR

BRACKETTVILLE, TX .-- The Brac- The students of all ages, from kett Independent School District struck it rich Thursday afternoon at the programs and when the dust had 3:30 p.m. as they were presented with settled, Brackett "kids" had collecthree brand new Apple computers by Robert Perez, Jr., manager of Super in cash tickets from our local store. S Food Store, a San Antonio based For their efforts they received two chain totalling 49 stores strategically located throughout the state of Texas. This conglomerate is owned by John Dieterle, Jim Stanley, and Art Guerra.

Super S has long been noted for their interest in the educational programs being presented through the school systems so management organized a contest that would not only prove their interest but allow them to reinvest in the education of students.

The contest rules were announced Jones Elementary school, after she,

the response to the challenge was phenomenal. For every \$70,000 worth of tickets turned in to a store a new computer would be awarded. elementary to high school, joined in ted an unheard amount of \$360,000 Apple II C computers, one Apple II E computer, one Image Writer II printer, and a good collection ot software. The latest tally indicated a total sum of 102 computers had been donated to different schools so Brackett school winning 3 computers from a total of 102 is certainly a mark of excellence for our young people.

The "Littlest Hero" award went to Angelica Marie Cervantez, 7 year old daughter of Mr. and Mrs. Bernie Cervantez who is a second grader at

turned in 2,750 tickets that totalled \$13,700 in money. This charming and very energetic little lady was awarded a \$50 bond for most receipts and a \$50 bond for most money from receipts by elementary school principal, Steve Mills, who also purchased the bonds.

When Mr. Cervantez, newly elected city councilman, was asked about the success of his little girl's feat he replied, "She worked very hard to win these bonds. Of course, she had help from her family and friends but it was her determination that really paid off."

A new contest is now underway having started on August 8 and will be continuing through November. The projected figure for computers to be given away during the contest that is now in progress is 150.

To Mr. John Dieterle, Mr. Jim Stanley, and Mr. Art Guerra, the people of Brackettville thank you for your unselfish interest in our students.

Kindergarten Class

By DORTHY PAYNE STAFF REPORTER

Mrs. Bo Hagler's and Mrs. Melody Carrol's kindergarten classes met for he first time Monday, August 27. It was an exciting time for both teachers and pupils. There are so many things to learn and most are new. The children in bright new clothes and eager faces were at school at 7:45 A.M. and were still just as enthusiastic at the end of the school day at 2:30 p.m.

Children learn early to live by the Seven **Rules of Life..**

Some children ride the bus, some are picked up by their parents and some are walked across the busy streets so the pupils may safely walk the rest of the way to their nearby homes.

In Mrs. Hagler's room there are twenty-two pupils enrolled, and teacher's aides are Irene Vellarsonor and Josie Pena. In Mrs. Carrol's class there are twenty-two pupils enrolled, and the teacher's aide, Mrs. Gloria Hernandez.

The students have already been to music, and the P.E. teacher will meet with them on Tuesday. Eating in the cafeteria was a new and interesting experience for the children. There are seven rules that the kindergardeners abide by, and today the children were following the rules when I was there.

:The Rules Are: 1. I will be kind.

2. I will be good.

3. I will raise my hand.

4. I will use good manners.

5. I will put away my supplies.

6. I will keep my hands to myself. 7. I will work.

Jennifer McDaniel, filling in for Mrs. Melody Carroll's kindergarten class.

TEXAS TRIVIA: Did You Know:

That Texas is smaller than it was in 1849? Until 1849, Texas leaders laid claim to half of New Mexico, insisting on the whole course of the Rio Grande as the southern and western boundary and extending the state from the Gulf of Mexico to the southern Rocky Mountains.

miles, is 801 miles long and 733 miles wide. The state has 92 mountains that are more than a mile high. They are all in the Trans-Pecos region of West Texas.

Texas has 624 miles of coastline along the Gulf of Mexico. Major islands include Padre and Mustang Island. By law, all Texas beaches are open to the public.

Included in the state's 23.4 million acres of woodlands are 11.6 million acres of pine-hardwood forests in East Texas, known as the "Piney Woods". They extend over all or part of 43 counties and include four national forests covering 635,000 acres.

WAR ON DRUGS: FACT OR FANTASY?

Did You Know:

That despite assurances from

Big Mama

Sez!

America's drug czar William Bennett that drug use in the United States is dropping among adolescents, a 1989 Maryland state survey of more than 13,000 students in 215 schools showed that substance abuse may be on the rise again. Nearly 23 percent of 12th graders admitted using illegal drugs and alcohol. Drug problems escalated in 1989 in more than half of Texas now contains 275,416 square the nation's cities. Fewer than one city in 10 reported making any

> headway in the war against drugs. That among the youngest children arrested around the U.S. in 1989 on crack selling charges have been a 9 year old Boston youngster, a 10 year old Detroit boy, and a 10 year old Long Island boy.

> A study of 643 people killed in New York traffic accidents from 1984-1987 showed that 18.2 percent used cocaine within 48 hours of the accident.

Illinois students are forbidden to carry or use beepers on school property because the devices are often associated with drug dealing. Seventy-two commercial airline

passengers (68 of them Nigerian nationals) have been arrested at Kennedy Airport after X-rays found heroin in their intestinal tracts. The heroin was wrapped inside.condoms, balloons, and tips of surgical gloves. In the District of Columbia, 65% of women arrestees tested in 1988 showed signs of cocaine use, compared to 62% of men arrestees. In New York City, 73% of women and 76% of men arrestees in 1988 tested positive for drugs.

The Texas State Bar estimates that up to 30% of the state's 52,000 lawyers are substance abusers.

David Aupon, a 12 year old boy residing in New York City was seriously burned after a bully beat him with a bat, tied him up and set him afire because he refused to smoke crack. A 13 year old youth was arrested in the gruesome crime. In Everman, Texas, a 5 year old

boy who swallowed 10 ounces of alcohol died a few days later. The mother was charged with third degree felony to a child and a man was arrested for first degree injury to a child.

Violent drug offenders in the U.S. commit more than 100,000 crimes every day.

Iran has hanged 1,000 drug traffickers in 1989.

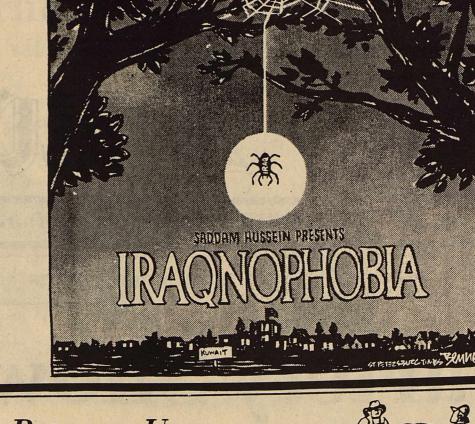

(sources: LECC & Texas Police Journal)

We might have something to learn from our enemies in how to handle a common problem, drug dealers.

THAT'S ALL!

This is one of the most significant weeks of the year. School starts. There are a great many teachers who begin in earnest to try to be a part in the education of children and youth. They vary in ability, in dedication, in motivation and output but they all, to the last one, have an awesome responsibility. When people rise up and force the sloughing off of the extraneous trash that teachers have to put up with and are allowed to teach, there will not only be happier teachers but boys and girls will receive a better education. In view of the disastrous pressure of actions activities and paper work any teacher is indeed "An Unsung Hero."

Between Us

By Joe Townsend

What a wonderful world we live in. Coming back from Del Rio the other day I counted thirty different wild flowers in bloom. Some I've never seen except in the spring.

Indian paintbrush, primrose, buttercups and many others blooming totally out of their time. To see these beautiful flowers at anytime is great, but in the middle of August-strange but exhilerating. I saw a big Mexican Black Hawk being pestered by a scissor-tail fly catcher who constantly dive bombed the large bird. Mr.

Hawk paid no attention to the pesky fly catcher until the smaller bird lost interest and flew off in a different direction. Here is a lesson to be learned--the best way to treat a person who criticizes just because he's that type of person who is completely frustrated by being totally ignored. Another amazing action amazed and amused me. One of my favorite birds is the Road Runner. Red Fox Squirrels always delight me. As I drove down the highway toward Alamo Village I saw something in the road. As I neared I saw it was a Road

Runner and a Red Fox Squirrel. They were actual romping and playing. As

I approached they ran off through the fence and they continued their romping. I stopped and watched for a while. When I drove on they were still romping and playing. A strange and wonderful world God had given us to live. Anyone who is blue, dour, cynical or morbid should, "Take time to smell the flowers along the way." It's a great, wide, wonderul world filled with strange and amazing things to add joy and spark to life.

In August, 1917, Frank Little, an agitator for the International Workers of the World was dragged from his room by six masked men and hanged from a railroad trestle on the outskirts of Butte, Montana. His murder was never solved.

On August 26, 1920, the nineteenth amendment of the Constitution was enacted, giving women the

Pothole Repairs Are

same voting rights as men.

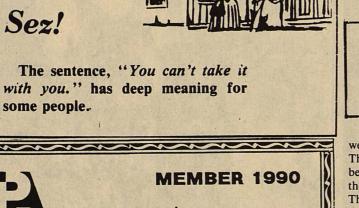

In August, 1921, the first major battleship was built on the Pacific Coast. The "California" was commissioned and launched at the Mare Island Navy Yard in California.

In August, in South Dakota, President Coolidge dedicated Mount Rushmore. Idaho born Gutzon Borglum set to work sculpting the massive heads of four United States Presi-

dents; George Washington, Thomas Jefferson, Abraham Lincoln and Theodore Roosevelt. When Borglum died at the age of seventy in 1941, his son Lincoln Borglum completed the memorial.

On August 15, 1935, our whole nation was shocked when Will Rogers and Wiley Post died in an airplane crash off Point Barrow in Alaska.

There have been numerous complaints not only in regards to automobile maintenance but more recently the health hazard it presented. Just in the past week an elderly lady was reported to have stepped in one of the "chug holes" and suffered a fall that could have been serious. Mr. Ward, who has also been

deeply concerned over the deplorable condition of the parking lot, is very anxious to get underway with the work. In regards to a work schedule he said. "The work that will be taking place is going to place an inconvenience on post office customers but it, being a government project, will have to be done according to government specifications. The post office boxes will be moved to the street so mail can still be dropped from your car. After the concrete has been completely poured a waiting period of seven days must be allowed for setting up before traffic can drive on it."

with excitement Tim summarized the project by saying, "The end result is going to be worth every minute of inconvenience if everyone will just be patient a while longer."

Kinney County Sheriff Norman H. Hooten has been appointed to the 1990-91 Texas Jail Commission Advisory Committee by Mr. Jack Harwell, President of the Sheriffs' Association of Texas.

Sheriff Hooten is joined by 35 other experienced Texas sheriffs on the Jail Advisory Committee whose primary function will be to addresss the needs and requirements of all Texas sheriffs relating to jail management and the requirements for same mandated under the Texas Commission on Jail Standards.

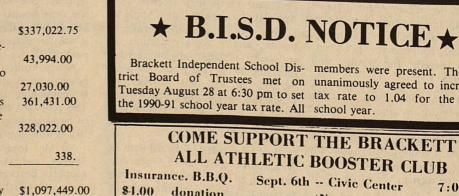

A letter from President Harwell notifying Sheriff Hooten of his appointment was received August 29, 1990. Sheriff Hooten stated, "I am both pleased and honored that my

I can contribute something of value to this most important committee." "Jail management has become one of the most important, time consuming, and sometimes most dangerous functions of sheriffs in Texas and throughout the nation. We, as sheriffs, must maintain strict

vigilance and efforts to make sure that rules and regulations relating to all phases of jail management and set by the state legislature under the authority of the Texas Commission on Jail Standards are such that they can be implemented, maintained, and financed without placing an undue burden on our respective taxpayers."

By Les Roper

The hot weather has returned forcing golfers, who are not accustomed to the heat, back in to the comforts of air conditioning. Of course, as every hot day passes we are one day closer to cool weather and that should spell r-e-l-i-e-f to the transplanted Texans who have not quite acclimated to a Texas sun. It really ain't so bad...it's just a matter of gittin' used to.

From the eight years I have been associated with the golf course I would have to classify this summer as the slowest on record. The same golfers are still around but it seems as though they are just interested in playing early and getting back to the house. At this point in time one year ago the club members had enjoyed at least three twilight scrambles with a get together and a meal afterward, several putting contest with suppers ranging from hamburgers to barbeque chicken, and other social events. However, it was not the case this summer. It is a shame to watch a fun place like the golf course and it's members go downhill from a lack of interest.

Now for the good news...the winter Texans are packing and preparing for their migration south and many of them should be showing up in the near future. It is very refreshing to know that this fun loving bunch will liven up the golf course with a very special brand of humor known only by them. We have already been notified that Hoagy and Pat Nelson might just possible be planning on returning earlier than they did last year. Who knows...others might be making the same plans.

A young aggie student, working as a construction worker, was doing his job on a high rise building when a beam slipped, whizzed right by his head, and slammed to the floor. The aggie thought he escaped injury until he felt the side of his face and his ear was missing.

He rushed as quick as he could down to the bottom floor. The workers there asked what happened and he answered, "I lost my ear." They all began looking for it. Finally, one worker yelled, "There it is. It's on the ground over there." The wounded aggie rushed over, looked at it, and said, "No, that's not mine. Mine had a pencil behind it."

The men assembled at the golf course Wednesday and chose their own partners for a game of golf using the Stablefor System for recording their scores. As we have said on so many occasions, it is the consensus of many golfers that this is the fairest and most even scoring system that can be kept. Ralph Viestenz, probably known as the golf course's most

reliable leader, gathered the scores and made them available to the Golfing News.

The front nine was won by Juan Garza and Carl Spray as they recorded a plus 10. The back nine was won by Ray Kurtz and Harold Kauffman with a score of plus 6. The total was won by Jim Swinney and Ralph Viestenz as they posted a plus 12 for the overall standings. The men started early and finished before noon allowing some of the "real toughs" time enough to go for eighteen more holes.

The Couples Tournament went off on schedule but the results were not recorded creating a void in this weeks coverage of the golf new. Inquiries were circulated in regards to the tournament results but to no avail.

Sondra Meil has the nine hole course looking like Pebble Beach and she is anxiously awaiting the return of her "faithful flock" who have deserted her for the past few weeks while they take vacations. When these "rams and ewes" return they will be met with an intinerary loaded with fun and games extending through the winter months.

A total of 8 players signed in Monday morning for a scramble and the four man team of Gerald Gallion, Harold "Killer" Kauffman, Dave Yates, and Art Ray won all of the chips in a winner take all event. Sondra would like to remind everyone of the Labor Day "3 club" Tournament with tee off time set at 9:00 A.M. Not only will the players be playing for purse money from their entry fees but special prizes provided by the Association will be given away as well. Come one . . .come all . . .it's Tournament Time again!!!

Tuesday mroning, the designated Ladies Day on the golf course, found a lively group of females signed up to play an eighteen hole nassau. The front nine was won by Eileen Voracke with a net score of 45 while a three way tie was shaping up on the back nine between Odette Mills, Vickie Nichols, and Dorothy Wood. The overall was won by Avis Anderson.

My son-in-law lives in Austin and is a young executive with a major firm. I was telling him how tough it was for me when I was just a kid because I had to walk four miles to school every day. He just grinned and replied, "I have to get three more promotions before I get a parking space that close to the office."

WORDS OF WISDOM: Everyone worries about the population explosion, but they don't worry about it at the right time . . .it's a pity birth control cannot be made retroactive.

Fishing Report

AMISTAD--Water clear, 82 degrees, 15 ½ feet low; black bass are fairly slow, some in the 2-3 pound range on purple worms; striper are slow in 40 to 60 feet of water; crappie are slow; white bass are fair under bridges on minnows; catfish are good to 2 pounds on rod and reel baited

with stinkbait. CHOKE--Water clear, 84 degrees, 10 $\frac{1}{2}$ feet low; black bass are fair to 8 pounds on spinners and topwaters from daybreak to 9 a.m., fishing starts up around 5 p.m. and runs through dark, around points and humps on north shore on slow fished baits; striper are slow to 11 pounds, 1 ounce on cranks; crappie are slow in 15 to 20 feet of water on minnows; white bass are slow; catfish are good with limits to 6 pounds on shrimp, cheese bait, and stinkbait in 1-3 of water along south shore flats and in 5-10 feet of water around submerged tank dams.

CALAVERAS--Water murky, 87 degrees, normal level; black bass are slow; striper have been fair to 5 pound average on shad and silver spoons; catfish are good to 10 pounds on tilapia and shad; corvina have been good among the shad to 7 pounds; redfish have been good to 9 pound average on Bombers and live perch.

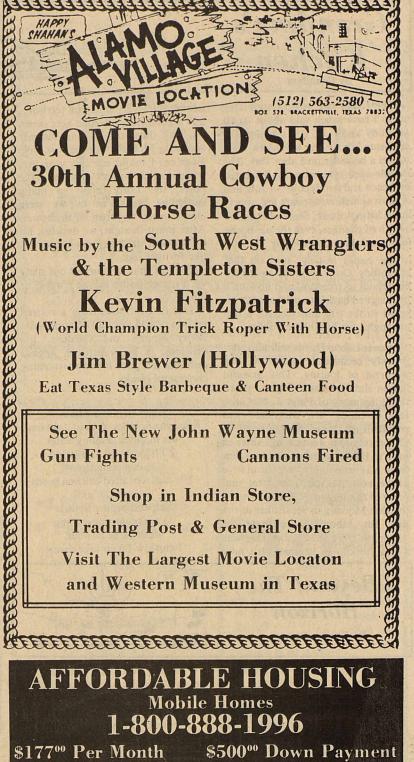

TEXANA--Water clear in main lake, 90 degrees, normal level; black bass are fair to 4 pounds on spinners early and late around moss beds; striper and white bass slow; crappie are fair on minnows scattered; catfish are slow.

CORPUS CHRISTI--Water clear, 86 degrees, lake full; black bass are fair in number to 4 pounds early on black Hula Poppers in 3-5 feet of water and Texas rigged plastic Craw Worms later in the day in 8-12 feet of water; striper are slow; crappie are good with near limits at the state park and Sunrise beach piers on minnows; blue catfish are good to 22 pounds on trotline baited with cut shad and lye soap; channel catfish and blue catfish are good to 2 1/2 pounds on rod and reel at the buoy marker near the dam on shrimp and chicken livers; yellow catfish are slow. Trotliners are having a hard time keeping live bait available.

BRAUNIG--Water murky, 91 degrees, normal level; black bass are slow; crappie are slow; catfish are good to 5 pounds on shad and liver; redfish are good to 18 pounds on spoons; corvina are slow. FALCON--Water clear in main lake, Rio Grande milky, 83 degrees, 24 feet low; black bass are good to 9 pounds, 9 ounces on bass colored cranks; striper are good to 13 pounds on magnum Hellbenders with trailers and jigging spoons; crappie are slow; white bass are good in the dam area on jigs; catfish are good to 14 pounds on rod and reel baited with shrimp.

MEDINA--Water clear, 34 feet low; black bass are fair to 3 pounds on topwaters early and cranks late; striper are slow; crappie are slow; white bass are slow; catfish are good to 11 pounds on nightcrawlers and stinkbait.

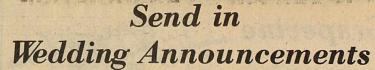

COLETO CREEK--Water clear, 89 degrees, 3 inches low; black bass are fair but most are below 14 inches in size on worms; striper are slow; crappie are good on minnows to 20 fish per string on minnows; catfish are good on bloodbait and minnows in baited holes.

Gazers

Cygnus, the very large Swan constellation, is overhead by 9 p.m. about mid-month. The very brightest stars in Cygnus are recognized as the Northern Cross while fainter stars make up the swan's wings and feet. In the dark-sky areas, Cygnus can be discerned against the haze of the Milky Way but the skyglow of even a small town may block out the Milky Way and leave only the star Deneb and the Northern Cross formation

and the Northern Cross formation visible to the naked eye. Monohans Sandhills State Park, in far west Texas southwest of the Midland-Odessa area, offers stargazers a viewing location in a great dark-sky area. Call (915) 943-2092 for camping reservations.

Sky Calendar - September

1 In the darkening sky after dusk, Saturn is a bright "star" low on the southern horizon.

5 Full Moon

10 Mars can be seen south of the moon about 11:00 p.m.

15 Jupiter can be seen near the crescent moon before dawn.

19 New Moon - if they sky is clear this is the best viewing night of the month.

22 Autumnal equinox. The Earth, tilted on its axis and orbiting the sun, has reached a position where the tilt presents both the northern and southern hemispheres equally to the sun's light; the sun appears to cross the Earth's equator and the day is equally divided with twelve hours of light and twelve hours of dark.

24 Antares can be seen low in the southwest close to the crescent moon after dark.

Constellation Cygnus

The star pattern we call the swan is referred to as a bird in many ancient writings; it was called a magpie in the far east, while other cultures called it a flying eagle, a hen, a partridge or a pigeon. In the Christian era, it became common to refer to part of the group as the 'northern' cross.

Deneb, the bright star that marks the swan's tail, is one of the most luminous supergiants ever identified. It is computed to radiate light with a strength that exceeds the Sun by a factor of 60,000.

Vega, the very bright star west of Deneb, appears brighter but radiates at only 58 times the Sun's huminosity. The difference in appearance is due to the relative distance of the two stars from Earth. Supergiant, Deneb, is 1600 light-years away whereas Vega is much closer at 27 light-years.

A light-year is a measure of the distance that light travels in a year. So the light now reaching Earth from Deneb has been traveling since the fall of Rome but the light from Vega began the trip to Earth about the time John F. Kennedy was President of the United States.

By DORTHY PAYNE STAFF REPORTER The Lady Reds, Brackettville

women's softball team won the championship in the Brackett Invitational Tournament Saturday August 11 from 10:00 a.m. to 7:00 p.m.

Teams competing were Del Rio, Uvalde, Rankin and Brackettville. Brackett played Del Rio, winning 22-0. Second game was played with Rankin, Brackett won 9-6. Third game was Rankin playing Brackett with The Lady Reds winning the championship with a score of 15-12. The Lady Reds are members of the summer league in Del Rio. The team was coached to the championship by Cecilia Hernandez and her coaching staff; Severo Martinez and Tommy Castillo.

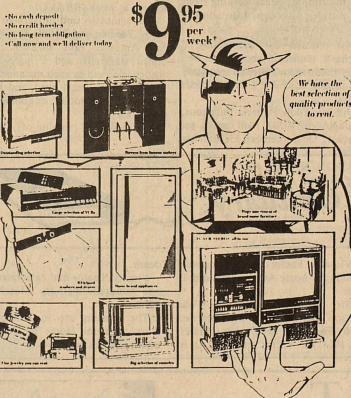

Darnett Daniels won a trophy when she was voted the most valuable player. The winning team won individual first place trophies. Team members are; Yolanda Williams, Diana Puda, Elida Estrada, Lilliana Castillo, Laura Waddell, Darnett Daniels, Elda Terrazas, Bobbie Avila, Barbara Waddell, Terry Sandoval, Linda Delgado, Elsa Gomez, Debbie Coe, Elvia Estrada, Kia Robledo, and Grace Mata.

The Lady Reds, their coaches, and their sponsor Rory Woodson would like to thank everyone who donated their help for a successful tournament.

Grandma's Kitchen By Grandma

Page 4

Like I said last year, Labor Day doesn't have much said about it, all anybody knows is, it's a holiday to celebrate labor. The lady does seem to feel a bit older on Labor Day. The middle-aged tyke who has cavorted on beach and tennis court in July and August somehow appears less sporty in his school duds. September is the month of changes, even the ole bones may creak in early morning.

Age hangs heavily, too, on that schoolboy. Only yesterday he left his classroom to freedom, and now he'll be marched back into prison, with his crawl stroke still unperfected, a fish uncaught, his backhand wobbly.

I guess Labor Day is still all right, if only because it offers a long weekend of loafing. This grateful nation should hoist a flagon or two to the memory of Peter J. McGuire for inventing it. McGuire was president of United Brotherhood of Carpenters and Joiners of America back in 1882 and it troubled him that there was no holiday "representative of the industrial spirit, the great vital force of this nation." So he proposed the first Monday in September as the day for labor to celebrate its "strength". By 1894 Labor Day was a legal holiday in 30 states. It's now

universal in every state and territory, and a good thing. A man gets worn out with those month-long summer vacations McGuire's successors have given us. I found out last year that sometimes it doesn't pay to make plans, the Lord threw so many stumbling blocks at us we were almost ready to throw in the towel. After much thought, we decided, no more plans, we'll do just what we feel like for that day.

Then, if that day turned out okay we'd stretch it into maybe a week, or longer.

This first recipe is from a revised version of a 35 year old offering from Better Homes and Gardens. It's delicious, a bit expensive, special dish, but real good if you're watching cholesterol intake.

Chicken Noodle Bake

6 lasagna noodles-cooked until tender in salted, boiling water 2 TBS corn oil margarine ¹/₃ cup plain flour 11/2 cups de-fatted chicken broth 1/2 cup skim milk Salt and pepper to taste 1/2 tea poultry seasoning dash garlic powder 1 cup low-fat cottage cheese

2-3 oz pkg. Neufchatel cheese (light cream cheese)

- $\frac{1}{2}$ cup light sour cream 1/2 cup low-cal mayonaise 1/4 cup shredded onion 1/2 cup chopped bell pepper
- 1-2 oz jar chopped pimento 1/4 cup minced parsley 3 cups diced cooked chicken or

turkey 1/2 to 3/4 cup whole wheat bread

crumbs Prepare ingredients by cooking noodles and drain well. While they are cooking, in medium saucepan, melt margarine and stir in flour: cook about one minute. Add chicken stock, milk, salt and pepper, poultry seasoning and garlic powder. Cook over moderate heat, stirring constantly (a whisk works real well) until mixture boils and is thickened. Set aside. Beat together softened Neufchatel and cottage cheeses, sour cream and mayonaise, stir in onions, bell pepper, pimiento, and parsley. Preheat oven to 375 degrees. Assemble casserole in greased 9x13x2 in. baking dish. Place three of the noodles in bottom of dish. Spread them with one-half of the cheese mixture. Place one-half of the chicken over this, and pour over half of the sauce. Repeat the layers,

starting with three more noodles, the rest of the cheese, chicken and sauce. Top with crumbs and bake for 30 minutes or until heated through. Best to let stand 10 minutes before baking. Makes eight generous servings.

> **Scalloped Tomatoes Supreme** 6 slices crisp bacon 1 small onion shredded 1 TBS chopped green pepper 4 cups cooked tomatoes Salt and pepper to taste 1 1/2 cups cooked rice 6 hard cooked eggs shredded cheese

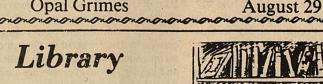

Using 2 TBS bacon drippings, brown onion and green pepper. Add drained tomatoes and bacon and season to taste with salt and pepper. Arrange layers of rice, sliced hardcooked eggs, tomato mixture and cheese in greased 11/2 qt. casserole. Bake at 325 degrees until hot through and cheese is melted. Makes 6 servings.

My thought for this week: The bigger a man's head gets, the easier it is to fill his shoes.

Have a nice week--Hugs and Special Love Grandma

The Territorial acquisition which doubled the size of the United States was the Louisana Purchase in 1803. The negotiations lasted for United States. three weeks when Napoleon's representative offered to sell the entire Louisana Territory for \$15 million.

Near the end of the seven years war, France secretly gave all of its land west of the Mississippi River to the Spanish. The Spanish in New Orleans tried to keep out American settlers.

In 1800, there were only 12,000 French and Spanish settlers in Louisana. But 300,000 Americans were coming into Kentucky and Tennessee. Because of the population threat Spain gave title to France at the secret Treaty of San Ildefonso in 1800, which really didn't take effect until three years later.

began to realize the importance of New Orleans to the future of the Napoleon thought his European Wars were more important to him

President Jefferson and Congress

than establishing a French Empire in America.

The United States gained 828,000 square miles of land in the Purchase. Probably one of the most important part of the Louisana Purchase was getting possession of the Floridas and New Orleans because with them the United States would command the only outlets of the Mississippi River and its tributaries to the sea.

The Purchase was finalized March 9, 1804 at Cahokla opposite St. Louis when upper Louisana was transferred from Spanish to French control and formally presented to the United States.

Library Notes

have distinguished themselves by being the top readers in our Summer Reading Program. The children involved in the reading group have kept their reading skills sharp during the summer and will therefore enter school next week ahead of many of their class mates. The parents who read to their children in the Read-To-Me group have instilled in their children an appreciation for the printed word and shown their love by the time and effort they have spent with them. We wish to offer our support and congratulations to those childen and their parents!

Six children of Kinney County

Read-To-Me Winners Are: Courtney and Ryan Frerich, son and daughter of Liz and Alan Frerich, tied for the top reader with 180 books each. The third top reader award goes to Mitch Carroll, son of Melody

BELATED HAPPY BIRTHDAY

On the way to Del Rio on Monday morning I saw an awesome sight. I saw the train full of army tanks, trucks, all camouflaged for the desert. As the train roared by, I was thinking of where these things were going to and why. After a short prayer, hoping that we will never have to use those, I wondered if these types of situations would be happening in the next century or so. Heaven forbid!

Well, school is in swing again, are they the happy ones! It's great to see the educational system working from the outside. Although, I do admit I miss the recess!

My mistake for misspelling a teacher's name, it should be Ms. Mary Biedermann. Nice to see young enthusiastic teachers! I hope all goes well.

Did you know Patricia Palacious, graduate of BISD, will soon get married? On September 15, Patricia

will wed Jaime Espinoza in Del Rio. Congratulations! Brackettville's own Elva Perez will be a bridesmaid, maybe, since everything is there she'll take advantage (hint hint).

Well, what do ya know, it's September already, my how time flies! I guess its all in how you look at things!

Great News! Judas Priest was not the cause of the two young men's deaths! Seems that the "expert" who found subliminal messages in Judas Priest's music was a marine biologist. Goodness, I love to see the judicial system at work--BRAVO!

Our sympathy and prayers go out to the Seemen and Botello family of San Antonio. Both missing cases ended tragically and I hope that justice is served in each instance.

Good Luck, study hard, and keep your grades up kiddies, its gonna be a good year!

This is WGUS - signing off - good day!

Obituary

Victoria Factor of Brackettville death. died in her home August 28th at 8:45 p.m.

Mrs. Factor, daughter of Willie Wilson and Tina Gardon, married Kelly Factor on her birthday March 22, 1911. Mr. Factor preceeded her in

education, are available

from the State of Texas.

Victoria Factor had celebrated her one hundreth birthday March 22,

1990. The remains are in Humphrey-Doran Funeral Home in Del Rio, where services are pending.

Twenty years ago this month, a young Colombian, Edgar Byfield, came to Southwest Texas Junior College in Uvalde; Texas to learn all he could about farm and ranch management. Recently he was in Uvalde visiting the Dardus Elrod family and agreed to this interview about how his association with SWTJC helped him.

U.S. Map.

Byfield had attended a university in Columbia, but decided that he wanted to get a two-year degree in farm and ranch management so he could better help his father in, running their ranch.

"I went to the United State Embassy and looked through some college catalogs and the catalog from SWTJC caught my eye so I decided to come here," Byfield said when asked how he came to find out about SWTJC.

Byfield was only twenty years old when he came to SWTJC and had a limited knowledge of the English language.

"When I first came to Uvalde I

could only carry on a limited conversation in English and I didn't understand anything the instructors were saying," Byfield continued. "I went to Dardus Elrod (dean of instructional services at that time and also an instructor in the farm and ranch management program) and told him I wanted to go home. He told me not to worry that the instructors would help me. Luckily the instructors were very patient with me and I was able to obtain my Associate in Applied Science degree in 1972."

Secret to his success.

Elrod and his wife Dayse basically adopted Byfield who had become friends with their son Cody. Although Byfield was a dorm student he said that he spent most of his time at the Elrod home and through his association with them and studying on his own was able to master English.

Following graduation from SWTJC, Byfield returned to Colombia and worked on his family's ranch, Jamaica Ranch for six years. Due to trouble with drug farms. Many of the things I learned traffickers he was forced to sell Jamaica Ranch and eventually bought the first of his three farms.

Byfield's farms encompass 140 acres total and his principal crop is coffee of which 65 acres are devoted ot the production of this crop. In addition, he cures, roasts and packages the coffee beans which are then shipped to the Coffee Federation for sale. In addition to coffee, he also grows sugar cane, and raises cattle, honey bees and pigs.

Some of the range management skills and agronomy courses that Byfield studied at SWTJC have helped him in putting together and operating his farms. He learned artificial insemination and palpation which have come in handy in his livestock ranching and he practices rotating grazing and the use of small pastures.

"I utilize highly intensified pasture management," Byfield said. "In addition to my coffee plantation and other crops I am able to also support 240 head of livestock on my three

at the college have been very helpful to me in my operations."

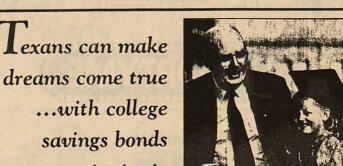

In addition to his farming and ranching interests, Byfield also is the owner of a family-owned Firestone Tire Company of which he is the President of the Board. His brother tends to the daily operations of the tire company, while Byfield manages his farms.

Byfield and his wife Laura have three children, Lyza, 12, Dennisse, 10 and Christian, 2. They have remained friends with the Elrod's and return for periodic visits to Uvalde. The Elrod's were also guests of the Byfield's in Bogota several years ago where Byfield was able to demonstrate some of the skills he had acquired while at SWTJC.

'My experiences here have made me a better person," Byfield said. "Although I was limited in my English skills when I first came to Uvalde, I feel that by coming to SWTJC and the Uvalde area I learned self-confidence and now feel comfortable traveling around."

Unseemly Appetite For Higher Profits

AUSTIN, TX--"As tens of thousands of young Americans are being shipped to Saudi Arabia to put their lives on the line--facing 120 degree heat and chemical warfare--Exxon, Amoco, Chevron, and a handful of other multinational oil conglomerates are slipping around the backroads of rural Texas, profiteering on the families of these soldiers," Agriculture Commissioner Jim Hightower has said.

"By jacking up their prices on fuels used widely in rural areas--gasoline, diesel, and propane--these oil companies have gone from being self-service stations to self-serving stations, and there is no excuse for it.

"Big Oil's unseemly appetite for higher profits has left the Texas farming and ranching community between Iraq and a hard place, and that hard place is Big Oil's greedy heart," Hightower said.

U.S. gasoline pump prices since August 1 have jumped more than 16 cents to an average of \$1.24 a gallon, Hightower noted. Each day those price increases cost U.S. motorists about \$50 million more than before the Iraqi crisis began.

"We calculate that Texas farmers and ranchers will pay an additional \$30 million over the next year in higher fuel prices," Hightower said. "And with many farmers at the peak of harvest time, the time of heaviest fuel use, oil industry greed is particularly painful. It's a ripoff and an outrage! Prices shouldn't just be frozen at current levels, they should be rolled back to reflect only the real increases in oil prices.

"When the oil conglomerates last week assured President Bush and the American public there would be no consumer price gouging, the industry probably meant that as long as it's in

Sportsmen Against Hunger

Sweeping the nation is an idea advanced last year by 13 year old Owen Temple, resulting in over 50 tons of game meat being given to the poor. The program was "kicked off" last year with a celebrity hunt. A few of the hunt participants included baseballers Jeff Russell, Geno Petralli and Brad Arnsberg of the Texas Rangers. This year's Celebrity Hunt has secured the participation of all time football great Bob Lilly, formerly of the Dallas Cowboys. Other celebrities will be added as the hunt dates approach. It all began last summer when Owen Temple told his father, Thompson Temple, owner of Texotic Wildlife Inc., Mountain Home, Texas, that Nolan Ryan likes to hunt and wondered if it would be possible to ask Nolan Ryan to come on a hunt in the Hill Country. Because of conflicting schedules, he was forced to decline, but passed the information on to his catcher, Geno Petralli. That small spark of interest resulted in what now will be the Annual Celebrity Hunt. Geno Petralli said of last year's celebrity hunt: "It's excellent for the hunters as well as it's for a needy cause." Petralli, Russell, Arnsberg, Jameson Parker (Simon & Simon TV series), and Steve Kanaly (Dallas TV series), all participated in last year's hunts. But it doesn't end there. A national program called Sportsmen Against Hunger has now been launched by Safari Club International. The main theme is, of course, to encourage hunters all across the nation to donate game meat to their local Salvation Army. The idea is spreading like wildfire, in part, because John Harvill is now the National chairman of Sportsmen Against Hunger. His efforts in spreading the idea of hunters helping to feed the poor has been a great success to date. In the first six months, Sportsmen Against Hunger donated over 50 tons of game meat nationwide. This program has also caught the attention of President George Bush. A September meeting is scheduled with the President for his endorsement of the Sportsmen Against Hunger program. Texotic Wildlife will once again be sponsoring the Celebrity Hunt this year on November 16, 17, and 18. This year's goal is to double last year's game meat donation and continue to spread the word to hunters everywhere to give meat to the needy. Russell of the Texas Rangers said: "You know all the meat is going to go to needy children and families that need it during the holidays... It's good for us to get enjoyment of the sport out of it and it also makes us feel better to know that we're going to feed somebody • that really needs it."

the media spotlight," Hightower said.

"During the weekend of August 11-12, TDA inspectors surveyed 92 gas stations in rural areas and found that 11 percent of stations increased their prices by another 3-4 cents a gallon, and in one instance by nine cents a gallon. This was after oil companies had already hiked unleaded gasoline by anywhere from 10 to 12 cents a gallon and indicated they were now content to freeze or roll back price increases.

"As the state agency charged with regulating gasoline pumps, TDA's inspectors will continue to monitor prices for gasoline, propane, and diesel in every section of the state on a daily basis. We will be working closely with Attorney General Jim Mattox and the appropriate congressional committees, reporting regularly on the fuel prices our inspectors encounter in downtown Dallas as well as downtown Dime Box.

"Some Texans have claimed that

the Middle Eastern military maneuver will be a blessing for the Texas economy because it is boosting the price of Texas crude. The few who say that tend to be the ones who own a lot of Texas crude," Hightower said.

"Farmers and ranchers, unlike the oil companies, don't have the privilege of passing along their increased costs of doing business," Hightower said.

"A 10 percent increase in fuel prices because of price gouging will cost the average grain producer an additional \$180 just during the harvest period. Should the increase continue until next spring, when Texas farmers are again using fuel-driven irrigation systems, the cost of farming will go through the roof.

"It's certainly not as if oil companies are hurting. Net profits for 23 major oil companies were \$14.2 billion last year, up from \$6.7 billion in 1987. Last year, for

example, Exxon enjoyed profits of \$3 billion; Texaco reaped profits of \$2.4 billion and Arco earned \$2 billion; both Mobil and Amoco had profits of well over \$1 billion.

"Nor can these price hikes be blamed on fuel shortages. As of June 1, storage tanks across Texas held approximately 3.4 million barrels of diesel fuel which was being sold at a whoesale price of 70 to 75 cents per gallon. Over 80 percent of that diesel fuel was held by six companies--Exxon, Champlin, Phillips 66, Texaco, Amoco and Chevron. Today, farmers must pay nearly 90 cents a gallon for that diesel--the same 894,000 barrels of diesel that Exxon had in storage in Baytown when prices were 15-20 lower. It's the same diesel and the same old ripoff. "When you consider that 76

percent of a farmer or rancher's total energy cost is spent on gasoline and diesel, it is easy to see what an adverse impact any greed-motivated increases will have," Hightower said.

YOUR HOROSCOPE by Charles King Cooper

ARIES (March 21 to April 19) Out-of-town guests may be delayed. Some experience friction with inlaws. Keep the lid on your temper. Nighttime hours are best for domestic interests. Curb being extravagant. A schedule change comes up with travel plans. Start your trip earlier or later than planned. TAURUS (April 20 to May 20)

Strain could exist with a close tie about a shopping or financial matter. Seek a compromise. You tend to spend more time than anticipated when socializing this week. Don't be in such a rush that you become accident prone. New starts are favored, but try not to come on too strongly

GEMINI (May 21 to June 20) Changes in entertainment plans may mean you have more time by yourself. Escapist tendencies are strong now. Try to use leisure time constructively. Tension could arise between a family member and a friend. Socializing is best after dark. Curb credit card use

CANCER (June 21 to July 22) Unexpected changes are likely in your career. Regroup, then make a new start. Tact is needed with higher-ups, but do exercise your initiative. Travelers may meet with extra expenditures. Watch health regimen when dining in unfamiliar locales. Check fees for hidden costs before agreeing to services.

LEO (July 23 to August 22) You may have a devil-may-care attitude toward expenditures now. Watch impulsive decisions. With due forethought, however, financial moves are favored. Don't let loose your ire if someone keeps you waiting now. This person may have a legitimate excuse. Try not to overwhelm a romantic tie

VIRGO (August 23 to September 22) One interruption too many and you could fly off the handle. You'll get some of the things you planned to do done this week, but not everything. Be patient. A change in pleasure plans is no excuse to go overboard in spending. You won't have the patience for a business meeting now.

LIBRA (September 23 to October 22) Minor inconveniences seem to arise now to dim the outcome of pleasurable pursuits. Some find children a bit trying. Romance is a bit problematic. Don't even try to convert someone who is on a totally different wavelength. There seem to be some loose ends at home now.

SCORPIO (October 23 to November 21) Financial dealings with others could have a deceptive note. Getting your ideas across now isn't totally successful. Some people just aren't listening. You could search every store in town and still not find exactly what you're looking for. Accent candor with close ties.

SAGITTARIUS (November 22 to December 21) Halfhearted efforts won't succeed now. Either work or play, but don't dillydally your time away. Don't let the same old thing get your goat again. Just because others aren't straightforward doesn't mean you need to spend the rest of your week trying to figure out where they're coming from.

CAPRICORN (December 22 to January 19) Nobody is perfect, as you know. Try to make allowances for others' shortcomings. Socializing brings a business tip, but it could be more fruitful. Not everything you hear now will be the truth. You'll spend some time on business matters now, but don't expect much from those who talk a big game.

AQUARIUS (January 20 to February 18) You'll drive yourself crazy if you expect everyone to live up to your standards. Others are all too human now. Be wary in financial dealings. A partner is your best financial adviser now, yet you two are not at your best in relating to one another.

PISCES (February 19 to March 20) It may be hard to get going now and it my also be difficult to read others at present. Business matters are best left alone for now. Romantic trends are iffy. Don't be impressionable. Those with good intentions may not live up to them when it comes to doing some extra work

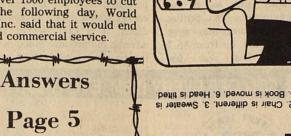

now.

This Week In History

On August 27, 1776, George Washington, along with 10,000 men, lost the Battle of Long Island and evacuated New York ... August 30, 1856, abolitionist John Brown led anti-slavery men against Missourians at Osawatomie, Kansas ... August 27, 1859, the first commercially productive oil well was drilled near Titusville, Pa., by Edwin L. Drake ... September 1, 1951, the U.S., Australia, and New Zealand signed a mutual security pact ... August 28, 1963, in a demonstration in Washington attended by 200,000 persons, support was shown for black demands for equal rights. The highlight of this event was Dr. Martin Luther King, Jr.'s "I have a dream..." speech ... August 31, 1986, a small private plane and an AeroMexico DC-9 jetliner collided over Cerritos, California, killing all 67 persons on board the planes, and 18 more on the ground ... August 31, 1986, a Soviet freighter and a cruise ship in the Black Sea collided eight miles from Novorossisk, killing 398 people ... September 2, 1986, Eastern Airlines announced it would dismiss over 1500 employees to cut losses. The following day, World Airways Inc. said that it would end scheduled commercial service.

show and the performers. I would have to classify it as great Saturday night entertainment.

DOVEY JEAN TAYLOR--I was very surprised at the quality of the entertainers who performed. They were just great.

News From First United Methodist

First United Methodist Church members Ron and Lorene Buckles and Betty Inman were recently confirmed as members of the St. Croix Volunteers in Mission Work Team. They will leave from San Antonio October 16, at their own expense, to aid in cleanup of the devastation left by Hurricane Hugo. It has been announced there will be a Communion Rail offering this Sunday at the local church to be used on the project.

Happy Shahan, owner of Alamo Village, gave the program at the monthly Methodist ladies' luncheon

The Brachell Hens.

ueces Canyon News

By JAMES O. GREER CONTRIBUTING WRITER

We were sorry to hear that Judge Sanderlin had a heart attack and had to be hospitalized in Uvalde.

Mr. and Mrs. David Lacey have returned to their home in Barksdale after a recent trip to Louisville where they visited in the home of the David Duff family for a few days. Mrs. Duff is a daughter of the Laceys. Then the Laceys went on to Stephensville where they attended the graduation exercise of their grandson Larry Lacey, Jr. at Tarlton College. College.

Mr. and Mrs. James H. Coleman and Mr. and Mrs. James Greer were business visitors in Kerrville on Tuesday of last week. While there they also visited in the home of Mr. Coleman's mother.

We were sorry to hear of the death of Hazel Grady. Mrs. Grady has been a resident of the Camp Wood Convalescent Center for sometime.

Elsworth Greer of Rankin spent several days of last week visiting with his sisters, Kay Smith, Geraldine Tucker and Eileen Coleman. He also visited with his brother, James Greer.

NCVFD Called **To Car Fire**

The Nueces Canyon Volunteer Fire Department was called out to a car that was on fire Wednesday, August 22, 1990, at the Welch Feed Store and trailer park on Leon Clink street.

Doran Welch who is owner of the feed store and trailer park called back saying she had the fire put out before the fire truck arrived on the scene. Fire Chief, Josh Cox went on to the scene to check it out.

In a story that appeared in several of our area newspapers several weeks ago. The Canyon Volunteer Fire Dept, was left out of the article as part of the searching party, in fact some of the Canyon firemen were the ones that found the lost boy. We regret this error.

rate for 1991 at \$1.50 per \$100 evaluation. News surfaced during the session that "Dub" "Sims, Convalescent Center Administrator, has resigned and will be leaving the Center on Sept. 7 for a similar position in San Angelo and just a few miles from his home. Mayor Tucker expressed

regret at losing Sims, because he has been a very capable administrator.

G.E.D. Classes

Offered

Are you interested in getting your GED diploma? If so, the GED classes will be offered by the Middle Rio Grande Development Council through the JTPA program.

If you want to take the GED courses go by the Real County Nutrition Center in Camp Wood on Tuesday or Wednesday from 1:30 P.M. until 4:30 P.M. and contact Lavenda Wells. She will be glad to sign for the GED classes.

60th Birthday Honoree: J H. Jessup

Lowell Jessup, a well known rancher here in the Nueces Canyon area, celebrated his 60th birthday on Saturday, August 18th. His birthday was on Sunday.

To help him celebrate his birthday was his wife Bobbie, his mother Quinna of Barksdale, and the Jessups two daughters and their families, Kelly and Lesa Pepper and son Trent of Sabinal and Jeff and Melanie Yeaman and Jessup and Bethany of Huntsville.

The group had a good time visiting and enjoyed a good home cooked birthday dinner.

conference for the development of

A Colorful History of Camp Wood

BY JAMES O. GREER CONTRIBUTING WRITER

Camp Wood got its start 228 years ago with the establishment of the San Lorenzo de la Santa Cruz Mission, the second mission started in the Nueces Canyon area. The first was established at Montell and was named Nuestra Senora de la Candelaria.

Founded before 1766, Santa Cruz Mission was established at the request of the Lipan Indians to protect them from savage Comanche Indians. Cavezon, chief, sought protection for his people and requested that the mission be built. NEAR SPRING

The mission was located near a spring of water which supplies Camp Wood's water system today. The mission was abandoned somewhere around 1767.

RARELY TRAVERSED

The area was rarely traversed by civilized wanderers until about 1857 according to records kept.

About the time of the Civil War, soldiers, commanded by Lt. Wood, moved into the old mission and made it into an Army post for protection against Indians and bands of Mexican Bandits.

Lt. Woods renamed the mission to

be called "Camp Wood". Facilities were enlarged and several buildings were built on the south and west sides of the spring. Jim Gray, old timer (Deceased)

who became the first postmaster of Camp Wood in 1921, recalled those foundations. As pioneer settlers moved into the

area, word got around by the 1800's and 90's that there was rich country in the upper Nueces Valley. Settlers began to pour into the area to seek rich virgin soil and to kill wild game for food.

Before the turn of the century the territory including the Camp Wood area was organized into a county with Bullhead now called Vance, as the county seat.

BEGAN IN 1921

The organization proper of the town of Camp Wood was begun in 1921. The Uvalde and Northern Railroad was finished in March 1921 and cedar was shipped out of the area.

The Uvalde Cedar Company was organized in 1921 to handle the business of cutting and marketing the cedar timber.

People began to flock into the area and new homes were built. A railroad depot and warehouses were constructed. Census figures revealed that Camp Wood had 67 scholastics in school in 1921.

POST OFFICE STARTED

A post office was established in 1921 and Jim Gray was made first postmaster. more new homes were constructed and the population skyrocketed by leaps and bounds during the next few years. The cedar business in Camp Wood was good in 1924 when 1400 carloads of cedar post was shipped out of the west cedar brake that year. A general rise in business activity was well under way in 1924, Ranchers were recovering from the early '20s slump and stockmen were becoming prosper-

ous.

"Area's history started 228 years ago."

The Camp Wood School District voted a \$17,000 bond issue to build a stone school building, which was still being used in the 1980's when it was burned down

In 1928 the Uvalde & Northern Railroad was sold to the Sugarland Industries, makers of Imperial sugar. By 1929 the Uvalde Cedar Co. was the largest in the United States.

DEPRESSION HITS

and everything operating at a peak, the depression hit in 1929 and by 1935 conditions began to improve in the area.

In 1930 an election was called to consider the proposition of incorporating Camp Wood. The election failed.

Business activities began to pick up somewhat when Camp Wood merchants started "Trades Day" and offered prizes.

1935 FLOOD

The flood of 1935 ripped the countryside including the railroad to Uvalde. In 1936 the railroad was rebuilt.

Camp Wood was finally incorporated as a city in 1936 and B.J. Stewart was elected first mayor of the city.

WATER SYSTEM

In 1947 the City of Camp Wood approved a \$40,000 bond issue for the purpose of putting up a modern water works system. The vote was 121-0. A 100 foot storage tank was erected and a large pump was connected to the spring. Large water mains were installed and other improvements were made at the spring.

The cedar breaks are almost gone today and the Camp Wood area independent upon ranching, tourist With business conditions strong trade, and other small industries.

New World

Hello

Andrew Curtis Jechow was born in Del Rio on August 16, 1990 at 3:48 P.M. The young man weighed 6 pounds and was 21 inches long. His parents are Steve and Susie Jechow. Andrew Curtis was welcomed in to the home by a sister, Katy who is 3 years old.

The paternal grand-parents are Mr. and Mrs. Braden Jechow also of Vance and maternal grandparents are the late Jerome Maciejewski and Lucille Maciejewski of Del Rio.

Hot Weather Prevails

Temperatures here in the Nueces Canyon are climbing back towards the century mark as the area goes in to the last month of summer.

We have had sunny skies and highs in the upper 90's most of this past week.

High pressure over the Gulf of Mexico has swept hot, humid air over south Texas and we have had our share of the hot, humid weather.

Summer officially ends September 20, but I don't know if we can tell the change in our weather for a while.

City Council Meets

The regular session of Camp Wood City Council. August 13, was devoted chiefly to routine business, such as authorizing payment of current City and Convalescent Center bills and taking a look at the proposed 1991 budget.

The council voted to set the tax

vocational home economics teachers. Emphasis of the conference were ways in which to help students build healthy self esteem, youth leadership, teaching the gifted and talented, and educational techniques that are effective in teaching special population students and entrepreneurship. Also, sessions will address current trends in families and the aging

Home hints

family member.

STICKY ICY CUBES - We had an awful time getting ice out of our ice cube trays because of so many minerals in the water. The ice stuck and shattered into tiny pieces. My husband came up with the following solution.

Spray the trays with non-stick vegetable spray before filling them. The ice pops right out, and the cubes are all in one piece. It's so simple to do, but it's very effective. Maria W., Spokane, Wash.

FOOT THERAPY - I work as a cashier in a retail store. On busy days, my feet get very tired. When I get home, I treat my feet to a special foot soak.

I pour some baking soda in a pan and add warm water, put my feet in, and enjoy a few minutes of relaxation. This makes my feet feel pampered, and as an added benefit, the soak softens the rough areas. Annie T., Dillsburg, Pa.

BREAD PUDDING Whenever I make bread pudding (which is quite frequently), I look in the cookie jar and retrieve all broken pieces and large crumbs and add them to the pudding.

This avoids waste and lends a distinctive (and varying) flavor to the pudding. Janie R., El Paso, Texas

third-place finishers in exact order in music; live country-western music \$150,000 by Monday.

The Saturday Morning Workout and up. Show, held on the first Saturday of each month beginning at 9:00 a.m. in Sunday, racing fans will be able to the Jockey Club, provides racing take special VIA Park & Ride service fans with a unique behind-the-scenes to Bandera Downs for a round-trip look at the sport. It features fare of just \$5.00. Buses depart the interviews with prominent racing Bandera Park & Ride at 11:00 and personalities, an introduction to 11:30 a.m. and return from Bandera training horses, handiccapping tips, ' Downs 20 minutes after the last race. door prizes, tours of the facility and For more information on VIA much more. the 5th and the 6th races. Friday's from Mark Haley and the Dusters; jackpot carryover is a record-high clowns, face painters, and balloons \$54,194.40; should nobody win, the for the kids; and 11 races featuring carryover could soar to over the \$7,500-added Kerrville Handicap for Thoroughbreds three-year-olds

Once again this Saturday and

County Agent News **Receives** Award by Allan L. McWilliams

> The annual ram performance test conducted by the Texas Agricultural Experiement Station (TAES) between Rocksprings and Sonora will begin with delivery of the rams September 07-10. The field day at the end of the test has been set for March 14, 1991. The animals may be entered as individuals or in sire or ownership groups.

The test is open to all breeds and animals need not be registered. Based on the type of data collected, it is more useful with Finewool breeds. Animals should be lambs at the time they are entered. Those showing yearling teeth will not be accepted. Registered rams born on or after October 01, 1989, will be eligible for the American Rambouillet Sheep Breeders Association's Registry of Merit Program. It is suggested that cooperators limit entries to no more than 20 animals per flock.

All animals will be required to be examined and tested for epididymitis prior to the test. They will be examined by station personnel at the time of delivery. If they have not been tested before delivery, a blood sample will be collected at that time, the cost for testing will be passed on to the producer.

This year's test will include a proposal for use of ultrasound to estimate fat thickness and loin eye area. This will be an optional part of the test. As with the epididymitis testing, any expenses will be passed on to the producer wishing to participate in the ultrasound portion of the test. As in the past, the test will be on a self-sustaining basis. An

initial deposit of \$140.00 per animal will be levied at the beginning of the test. Any unused funds will be returned after the test is completed. If you need more information, contact the county extension office.

The Texas Agricultural Research and Extension Center's Sheep and Goat Field Day will be held September 6 in San Angelo. The field day is dedicated to Elmer Kelton, noted western author and West Texas journalist.

There will be registration starting at 9:00 a.m. at the Center located eight miles north of San Angelo on U.S. Highway 87. Coffee and donuts served during registration are being provided by Tom Green National Bank.

The morning program will consist of outside tours under the directions of Dr. George Ahlschwede, Extension Sheep and Goat Specialist at San Angelo.

The tour stops will include: -Potential Contributions of the

Australian Merino Breed to Sheep Production in the U.S. --Effects of Supplemental Feeding on

Weaned Angora Kids on Rangeland. -- Treatment of Inidividual Mesquite with Herbicide.

--Pearmouth and other Health Problems of Sheep Caused by Prickly Pear. --Safe Use of Cotton By-Products as

Feed Ingredients. There will be a catered lunch

served on the grounds following the morning tour. Herman Moore, Pres-

ident of the Texas Sheep and Goat Raiser's Assn. will begin the afternoon session at 1:00. Afternoon topics indlude:

--American Sheep Industry Assoc. Report.

-What's Affecting Our Weather? --Looking Ahead in the Sheep Goat Industries.

The field day will conclude at 3:00 p.m. with optional tours for those interested in seeing the Wool and Mohair Research Lab.

One more item that may be of interest to some of you is the development of a hardy new grass that uses less water and needs less mowing.

Prairie buffalo grass is a newly adapted minimum-care turf grass especially suited to Texas sun and drought conditions and be available next spring.

The grass performs well in hot, sunny conditions, requiring minimal irrigation, mowing and fertilizer. It was developed by Dr. Milt Engelde, a turf grass breeder at Texas A&M's research center in Dallas. Dr. Engelke says that this will make an

airport right-of-ways. Residential lawns and industrial parks could benefit from use of the grass. Dr. Englke states that the State of Texas spent \$38 million in 1988 to mow highway right-of-ways, and this turfgrass could significantly reduce those costs.

excellent grass for roadside and

A typical homeowner with a Prairie buffalo grass lawn would need to mow and water only two to three times during the whole growing season. Left uncut, the grass grows to a maximum height of about four inches, but it may be mowed shorter and more frequently and still maintain its dense appearance. It is not suited for shade.

He says that this turf grass spreads faster, has fewer weeds, and a denser appearance than any other commercially available buffalo grass cultivator. Prairie produces neither seed heads nor pollen. It is grown from sod, sprigs, or plugs.

Certified producers will offer "Prairie" for sale through nurseries to the public next spring.

The Brackell Stews.

each.

home, \$200.

They're Off!

Saturday September 1, 1990 330 YDS Purse \$1,470

Spacious 14x70 trailer on Fort Clark. 2 bedroom, 1 bath, frig and oven, 2 car drive and fenced area.

will be handling the play calling has looked good in this position. Steve Clementz, 190 pound running back, has proven a hard target to bring down.

The Tigers are injury free as they approach the regular season opening game and could be dangerous providing they stay healthy. The coach's prediction for the

team to beat seems to be the Lytle Pirates, who are a unanimous pick of the other five teams to win district this year. Brackettville should have a good defensive and if the offense continues to progress . . .look out!!!

NATALIA MUSTANGS

After the loss of their starting quarterback, the Natalia Mustangs will be facing a tough battle, when they try to duplicate their 10 and 1 record from last year. Head coach, Pat Casey, reports 48 players in uniform but only 6 starters back from last year.

George Campos, 165 pound senior quarterback, will be calling signals for his two running backs, Roger Soto, 145 pound senior and Michael Alsara, 170 pound senior.

Coach Casey expresses his concern for his offense, which will be running from the veer, but is optimistic concerning his defense which he feels s better than average. His offensive line will be averaging 160 lbs. per man and the defense the same. His team is starting the season injury free with just the minimum amount of

bumps and bruises. It is the opinion of the coaching staff that Dilly will be the team to defeat this season with La Pryor rated a close second.

Head mentor, Gary Jones, following a successful season of 6 wins and 3 losses will be faced with a rebuilding program for 1990-91 as he enters in to his second year at the helms. He reports 41 players suited up for practice but only 8 returning lettermen from last year.

> Calling the signals for a run and shoot offense will be senior quarterback, Pedro Salazar, 140 pounder who makes up for his size with a rifle arm and quickness. On the defense,

210 pound Artie Gonzales will be putting pressure on opposition's running game. The offensive line will average 190 pounds and the defensive the same

Coach Jones reports all players healthy with no major injuries. He and his coaching staff feel the Lytle Pirates will be the team to beat this year with Dilly a close second. He feels La Pryor could sneak in on the predicted powerhouses with a little luck.

and accessories

103 Spring

Ex alumni, Hector Martinez, returns to his alma mater to guide the Trojans to a, hopefully, winning football season. He inherited a team with a 3 and 7 record from last year but with 17 returning lettermen the battle might not be so tough.

ASHERTON

TROJANS

Coach Martinez is holding his boys out of full contact drills with the intention of starting the season with a injury free team. It is his philosophy for a boy, if he is to sustain an injury, receive it during a game and not in practice.

Senior quarterback, Albert Villereal, will be guiding the offense from a mixture of the broken T and the wishbone. Junior cornerback, Albert Sofa, will be starting in this position with great expectations by the coaching staff. The offensive and defensive line will be averaging between 180 and 190 pounds per man.

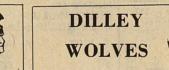

Coach Martinez predicts Lytle to win all the marbles with La Pryor close behind. He reports that Asherton will be competitive.

563-2527

stronger this year. Playing defensive tackle and offensive guard is Rueben Martinez, 5-10 inch 190 pound senior who should be a unanimous choice all district player. The Pirates will be running from a power I formation and this could spell trouble for their opponents.

The offensive and defensive line will be averaging 185 pounds per man with 10 starting sophomores.

The Lytle coaches feel with the talent they have that they should be the coach's pick to win district. They pick Dilly and Brackettville to fight it out for the second place spot.

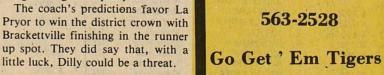

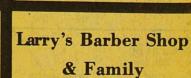

healthy.

You're No. 1 **Rob's Mini-Shop** æ Grocrey 563-9392 **Go Tigers** Head coach, Kelly Shaw, in his ninth year at Dilly will be gunning for a much better record than the 2 wins Proud of Ya, and 3 losses recorded last year. He reports a roster of 45 boys out with Rosemary, Myrna & 15 returning lettermen including 9 offensive starters and 9 defensive starters. His boys are working out at The Tiger Band the present injury free and barring anything unforseen he will be opening his season with all players Gus Garcia Coach Shaw was very enthused with the team after a scrimmage with D'Hanis where they crossed the goal **Davis Hardware** line twice and racked up 300 yards in doing so. Quarterback, Oney & Ramirez, calling signals for a run and shoot offense was impressive while **Ranch Supply** fullback, Albert Ramirez, handled the ground game equally as well. 563-2528
