Vol. 3 No. 37

Brackettville, Fort Clark, Spofford, Kinney County and Nueces Canyon, Texas

October 24, 1991

"If a man had half as much insight, as he has hindsight, he would have twice as much foresight"

Kinney County Judge Tim Ward scoops dirt while Gregorio Esparza (Jerry Cardona) and Davy Crockett (Patrick McCord) hold bag.

## Texas Dirt Roundup A Statewide Campaign

BRACKETTVILLE--Two legendary Texas heroes visited Kinney County on Wednesday, October 23, for "The Great Fiesta Texas Dirt Roundup," a statewide campaign to collect a shovelful of dirt from every county in Texas for use at the \$100-million Fiesta Texas musical theme park under construction in San Antonio.

With the help of County Judge Tim Ward and other local leaders, Fiesta Texas ambassadors "Davy Crockett" and "Gregorio Esparza" collected a shovelful of dirt from the county courthouse lawn in a special ceremony.

"We want to make sure that every part of Texas is represented at the theme park since Fiesta Texas will celebrate the musical and cultural diversity of all of Texas," said Fiesta Texas General Manager Bill Hoelscher. "By collecting dirt from every county in Texas, we are recognizing what ties us all together-our love of the land, the very soil we call 'Texas.'"

"With this campaign, we'll make every county in the state a part of Fiesta Texas, from the plains of the Panhandle to the tropical Rio Grande Valley," Hoelscher said.

The dirt will be brought back to Fiesta Texas and used in "The Texas State Square," a central square within the theme park that will feature brick pavers engraved with the names of all 5,000-plus towns, cities and counties in Texas.

The Fiesta Texas team is traveling all across the state-over 22,000 miles-to visit all 254 counties in Texas within a three-month

timeframe. The campaign is sponsored by Chevrolet/Geo, Coca-Cola and Diamond Shamrock.

"This type of schedule takes an heroic effort, so we called upon two great heroes of Texas history - Davy Crockett and Gregorio Esparza - defenders of the Alamo," Hoelscher said. "As our ambassadors, they will help spread the word about Fiesta Texas, and make sure that we have a little part of every county in Texas to include at the theme park."

Scheduled to open next spring, Fiesta Texas will feature the history, culture and music of the Lone Star State in four themed villages-Los Festivales (Hispanic), Crackaxe Canyon (Western), Rockville (Nostalgic 1950s rock 'n' roll) and Spassburg (German).

The 200-acre musical theme park will highlight more than 60 live musical productions daily on seven theater stages-three totally enclosed and air-conditioned and four open-air and shaded - throughout the park. A wide variety of rides, children's attractions, restaurants and retail shops will join the theaters in reflecting the theming for each of the park's main areas.

Fiesta Texas is a partnership between the La Cantera Group Ltd., a subsidiary of USAA, the nation's fifth-largest private auto and homeowner insurer; and Hospitality and Leisure Management Co. Inc., a subsidiary of Opryland USA Inc., whose best known components include the Grand Ole Opry and the Opryland theme park.

## TEA Commends BISD

A recent letter from the Texas Education Agency provided a commendation for the Brackett Independent School District. Dr. Phyllis M. Harrison writes, "The plans submitted to address improvement action are accepted as presented. You, the board of Trustees, and other involved...are to be commended for your efforts to maintain school quality."

The letter was the final step in the Accreditation Process and it referenced the response made by the Brackett Independent School District to findings of the Texas Education Agency Accreditation team last November.

Superintendent Bob McCall stated that the district's teachers, staff, and principals deserve most of the credit for making the visit a success.

## Salinas Seeks Recording Contract

Tuesday Sergio Salinas and his manager, Happy Shahan, flew to Nashville, Tennessee. Superstar Tom T. Hall met them at the airport. They were joined by songwriter Gene Poag from Kingsport, Tennessee.

Armed with a portfolio of demo tapes, musical videos, and pictures, the plans were "to sell" Sergio and land a recording contract.

Included in the package were sixteen songs Sergio had recorded in September at Bristol, Virginia. All the songs are original and unpublished. Some have been written by Sergio, some by Gene Poag, and one by Tim McNew. (Tim is the son of Fort Clark Springs residents, Tom and Lynn McNew. Tim attends Texas A&M. For the past two summers he has worked at Alamo Village).

Sergio has worked at Alamo Village five summers - 1985, 1986, 1987, 1989, and 1991. Locally, we've had the opportunity to see this handsome, charming, talented young man mature personally and professionally from a nineteen year old boy to a strong, dedicated young man of 25.

In 1987, "Alamo, The Price of Freedom" was filmed at Alamo Village. Author George McAllister chose Sergio to sing the theme song *The Price Of Freedom Is Not Free* which was written by McAllister's son, Clint. As a result, Sergio is now heard daily at the Imax Theatre in San Antonio, and the Omni Theatre in Fort Worth.

Sergio is from Premont, Texas, where his parents, Manuel and Angelita Salinas, still live. He began playing drums in the sixth grade after his dad bought him his first drum set. At that time, he dreamed of being a Rock & Roll star.

When he was a junior in high school, his friend played in the Premont Stage Band. This friend was "one that the girls thought was absolutely the neatest." Sergio decided he could be an equal so he went to the director of the band, and soon was the lead vocalist.

From high school, Sergio went to Texas A&I at Kingsville, and during that first semester he came to Alamo Village to interview for a summer job. Happy Shahan told him that singing and playing drums would not be enough. He would also have to play guitar, and perform in a "gun-fight" melodrama after each of four daily music shows. Sergio returned to A&I, changed his major from Animal Science to Music. He learned to play guitar, read music, and took vocal lessons. Needless to say, he earned a position, and the respect of Happy.

David Seargeant Jr., friend and fan, wishes Sergio Salinas "Good Luck." David and Sergio played in the "Alamo Originals" this summer.

It was back to school after the summer season at Alamo Village closed, but he returned to Alamo Village for the summer of 1986. At the end of that summer, he and fellow band members went to Premont and developed "The Mesquite Band" and developed a strong following in San Antonio, San Angelo, Corpus Christi, and the South Texas Valley area.

The summers of 1987 and 1988 were spent at Alamo Village. When the season closed in 1988, Sergio moved to Dallas. There he worked as a cook, dealt cards, and waited tables. When interviewing for a waiter job in a Mexican restaurant, he was asked if he could balance a tray. Although never having waited on a table in his life, he assured the manager he had learned at a place called "The Cantina" near Del Rio. He didn't add that he had merely helped out a time or two. Doubting that Sergio was really a "trained waiter", the "bossman" hired him anyway and at the end of the month, Sergio had become the top waiter. (He had to be good - after all, he had "truck payments to make.")

At Alamo Village during the summer of 1989, he became really serious about writing songs. Some of those are now recorded on his demo tape. That fall he worked on a

ranch near Austin for his brother. After digging ditches, mending fences, and working in the cold, he began thinking more seriously about his future. He realized that it was time to go back to school, and work on his music during the weekends.

He did take time to try a little "bull-riding." At a rodeo at Taylor, Texas, Sergio found himself in the hospital not expected to live, or at best to be paralyzed. The back hooves of the bull had hit him in the head. His left ear was severely damaged and his face was scarred. Only a 1/4 inch of his ear had remained attached to his head. Miracles do happen. Sergio lived although for a time he could not hear. He could not sing because the pain was too great. He could hear the music he played on his guitar. One day in frustration, he sat his guitar down and began to cry. Soon the crying turned to praying. About an hour later, he tried again. He could hear - he now has a hearing loss of about 20 percent.

Sergio tells that when he was thirteen years old and working on his father's ranch, he found a little New Testament which he carries with him everywhere and reads daily.

The school term of 1990 - 1991 was spent at Palo Alto College in San Antonio studying to be a vet, and working in a small animal clinic as a vet's assistant. He definitely wants to continue his education with a goal of being a veterinarian. He also likes to work with children. But, in the meantime, he "must" try the superstar route of music. And if the summer of 1991 is a sample of how he is accepted, he will.

Performing four music shows and four gun-fights daily at Alamo Village still allowed him time to sing *The Price Of Freedom* at each pilot's graduation ceremony at Laughlin Air Force Base. Each time he received a standing ovation.

The Southwest Texas Variety Night Show with a cast of 21 and an audience of 450 was another highlight for Sergio during the summer of 1991. He opened and closed the show with the same enthusiasm from the audience. The 31st Annual Labor Day Cowboy Horse Races at Alamo Village was another highlight.

In addition to having the talents of singer/songwriter and personality/good looks, he is himself. He is someone others can compare to, and is very down to earth. He has what it takes to become a superstar!

## Trio Completes Law Enforcement Course

UVALDE - The twenty-fourth Basic Peace Officers Certification class at the Middle Rio Grande Law Enforcement Academy at Southwest Texas Junior College was honored in convocation ceremonies in the Tate Auditorium October 16.

Addressing the class were Jerald Underwood, dean of community service; W. C. "Bill" Madison, Academy coordinator and Carson Wells, assistant coordinator.

enforcement officer we are capable of training. I hope each of you sets a good example, and that you have learned respect and reverence for the law. Always act in a professional manner, admit your mistakes and correct them as soon as possible," Underwood said.

According to Madison, graduates are trained to deal with people and their freedoms.

"We hope you learned your role and where you fit into the scheme of things. Whether you stay in law enforcement or go elsewhere, I hope we have instilled in you the ability to have respect for others, to know your limitations and to be a better human being," Madison added.

Wells reminded the graduates to always rely on teamwork because nothing happens without it.

Class president Warren Outlaw presented several awards to recognize fellow students.

Jenny Hood, Brackettville, received the award for **High Night Firing**.

Karen Sue Able, Warren Outlaw, and Jenny Lee Hood, sponsored by Kinney County Sheriff Norman Hooten, graduated from the Middle Rio Grande Law Enforcement Academy, Southwest Texas Junior College, October 18, 1991, after completing the 440-hour course. Passing the state test will certify them as law enforcement officers.

## Sheriff's Corner

By Sheriff Norman H. Hooten

The investigation by Texas Rangers (ordered by the District Attorney) into the missing public funds from the City of Brackettville has been completed with the results of the investigation termed as "inconclusive". In other words there was no evidence of significant value determined in the investigation to link anyone to an act of wrong doing in the incident. A city employee left City Hall one afternoon with a money bag containing approx. \$6,000.00 in checks and cash (estimated to be between \$500.00 & \$600.00) to be deposited in the night depository of the local bank. The city employee swears, under oath, that the deposit was made in the usual manner. The bank just as adamantly swears that they did not receive the deposit. And that is basically all the evidence that investigators had to work with. The bulk of the missing funds were in checks that were cancelled and rewritten by those citizens who had paid their utilities with checks, thus the actual loss to the city of public funds is the cash amount only. The

mystery of where the cash went and who was responsible may never be solved due to the lack of solid evidence in the case. Only speculation remains and that doesn't stand up in court.

A serious motor vehicle accident occurred on Ft. Clark Friday, October 18, 1991 at approx. 8:30 pm and was investigated by Chief Deputy David Luna of the Kinney County Sheriff's Department. The investigation of the accident by the Sheriff's Department was done as a courtesy to Ft. Clark due to the fact that the streets and roads on Ft. Clark are considered to be private property and state traffic laws do not apply thereto.

The accident was a one-car rollover that occurred at the intersection of Ft. Clark Road and Scales Road after a southbound 1988 Isuzu pickup driven by 16 year Ada Fletcher of Ft. Clark Springs went off the side of the road and skidded headon into a large mesquite tree and overturned. It was determined by investigators at the scene that Miss Fletcher was attempting to

pass a slower moving vehicle in the southbound lane when she saw another vehicle approaching in the northbound lane and then whipped her pickup back onto her side of the road thereby losing control of the vehicle and causing the accident.

There were three persons in the pickup driven by Fletcher, including the driver and two passengers, Angie Fletcher of FCS, and Martie Schermerhorn of Brackettville. Minor injuries were sustained by all three with the driver being attended to at the scene by local EMS personnel and then transported to the local clinic for further treatment. No charges were filed due to the accident occurring on private property.

The final tally of income generated by the federal prisoner care program through the County Jail is as follows:

U.S. BUREAU OF PRISONS: \$202,380.00  
 U.S. MARSHAL'S SERVICE: \$13,410.00  
 U.S. BORDER PATROL \$510.00  
 TOTAL \$216,300.00

I will report to you the total expenditures of the Sheriff's Department and County Jail for FY 90-91 as soon as they become available from the year end audit.  
**THAT'S ALL!**

## Letter To The Editor

You may want to advise your readers that the little license sticker tags indicating the year are being stolen because licensees must now show proof of insurance to buy a new sticker. Mine was stolen in October and a duplicate cost \$5.30. When the sticker is firmly in place, make two slashes each direction so that it will not come off in one piece.

Thelma Adams

## Daylight Savings Originated In England

Daylight Savings is the term commonly called a movement, which originated in England. Introduced by William Willett in 1907 to utilize summer daylight by advancing the clock in spring and retarding it in the fall, it would help the inhabitants of cities to retire later than dark and arise after sunrise. The idea is not new.

In 1784, Benjamin Franklin wrote about it from Paris. Willett's plan made a strong appeal to many nations after the outbreak of World War I. No interest for it was shown in the United States until 1916 when agitation for it began. A law on this matter was passed by the Congress of the United States and took effect March 30, 1918. (The law required the clock to be turned ahead one hour on the last Sunday in March of each year, and retarded the last Sunday in October.) There was much opposition to this movement, and especially to the way the law was applied, by farmers, as well as others, and a bill was passed repealing the daylight saving law, over the veto of President Wilson, on August 20, 1919. Daylight saving has been adopted locally in the United States since.

So don't forget to set your clocks back one hour on October 27.

## Winner

Jesse Garcia

At 2:30 on Wednesday afternoon, October 23, Jesse Garcia stopped by The Brackett News office to identify the mystery picture that had run for weeks.

It was a battery in the backyard of James Foreman's residence. Jesse is a Brackettville native and has been a Jailer-Dispatcher at the Sheriff's Department for eight years.

He bought his paper at the rack in front of The Brackett News office.

## Between Us

By Joe Townsend

No thinking person will vote for the state lottery proposed on the ballot on Tuesday, November 5.

The only motivation for support of a lottery is greed. The idea of getting something for nothing can be classed no other way.

Any person who dreams of a big prize from the lottery is not thinking. A person is 10 times more likely to be struck by lightning than win the jackpot in the lottery.

The poor are the first to lose in a lottery. Those promoting the lottery know the lottery will be largely supported by those on welfare and food stamps.

That is why Ann Richards and her cohorts are campaigning hard in the Rio Grande Valley and South Texas.

These are the ones most in need of protection from unscrupulous scams. They are the most likely to fall for this pie in the sky.

Children lose. Those promoting the lottery will work hard to sell tickets to anyone who will buy. If a child sees Mom and Dad gambling, they will feel it's alright. Promoters in Minnesota are planning to sell lot-

tery tickets by Nintendo from the home where children will be urged to have their parents participate.

Taxpayers lose. If a person thinks the lottery will solve tax problems and prevent a state income tax, it's because the person is simply looking for an excuse to support the lottery, it is not a legitimate reason. Of 33 states having lotteries, 30 have state income tax. Less than half the money spent on tickets will go to the state.

A large amount of the ticket prices will go for advertising and promotion, up to \$30,000,000 per year for advertising alone.

Millions will go to big out of state companies that run the lottery. Those companies were the greatest promoters and lobbyists in the halls of the legislature.

Families lose. Any solid family is built on the ethic of working and earning the living. To promote the use of grocery money, rent money, budget or savings to get something without working for it is fallacious. There is too much of this already without the state promoting it.

Business will lose. In Florida,

where tickets are sold at supermarkets and convenience stores, with one accord those merchants say the lottery has not helped their business but 89% say the lottery has increased theft of goods and gas from their stores and more and more are refusing to handle the tickets.

All the prattle about the lottery bringing in millions of dollars to prevent a state income tax is just like the millions promised if we accepted pari-mutual gambling on horse and dog races.

After three years, where are all these millions? Even if the lottery brought all the promoters say, it would be less than 2% of the tax needs.

If you and I were to do what the State of Texas wants to do, we'd be put in jail. What kind of reasoning justified this? Any state that bases its income on immoral actions paves the way to downfall.

I repeat - no straight thinking person will vote for the State of Texas to become huckster for gambling and big companies profiting from it.

## Days Past

by Dotthy Payne

**October 1, 1855** - John W. Whitfield was re-elected as Congressional delegate from Kansas by the pro-slavery legislature.

**October 4, 1859** - An anti-slavery constitution drawn up by the Free Staters, was ratified by Kansas territory voters 10,421 to 5,530.

**October 5, 1857** - Elections were held in the Kansas territory under strict supervision; thousands of fraudulent votes cast by pro-slavery supporters were thrown out, and the Free State Party won by a majority in both houses of the legislature.

**October 8, 1853** - Commodore Perry and his naval squadron reached Yedo Bay in Japan. There Perry presented letters of introduction and intent to the Japanese Empire.

**October 8, 1853** - William Walker and 45 others set sail from California for Guyamas, Senora, on the Mexican mainland in the Gulf of California, which was supposed to stop Apaches from raiding against southern California settlers.

**October 9, 1855** - Ex-governor Reeder of Kansas was elected Congressional delegate from Kansas by the Free State men. Tensions in the territory were building to the point where armed conflict would become inevitable.

**October 19 - November 19, 1857** - At the meeting of the pro-slavery Lecompton Legislature to plan for a state constitution, it was decided to offer for vote an article recognizing citizens' right to have property in slaves. Should this article be rejected, the

territory would still have its original constitution, allowing slavery.

**October 22, 1851** - President Fillmore enjoined Americans to cease and desist all hostilities against Mexico.

**October 22, 1853** - U.S. Minister James Gadsden, in Mexico City, received instructions to negotiate the purchase of a thin strip of land extending south of the Gila River, west to the 37th parallel boundary of California, and east to the Rio Grande border of Texas.

**October 24, 1861** - Crews constructed a trans-continental telegraph line linked up in Salt Lake City, and the first telegraph message was sent between San Francisco and Washington, D. C. over a line 3,595 miles long making the Pony Express obsolete.

## Grandma's Kitchen

By Grandma

How many of you have had a doctor say, "It's all in your head?" Well, now there's hope for millions of us who've heard this, actually it's not all in our heads.

About 20 percent of Americans suffer from Profound Sensitivity Syndrome (PS2) a newly identified medical condition, declared Dr. Solomon, famed physician.

Discovering this condition is a medical breakthrough that will improve the lives of sick people convinced by their doctors that they are crazy. Dr. Solomon, who co-authored *Sick and Tired of Being Sick and Tired* explains that the disorder is a result of a reaction to continuous stress or unhappiness.

The stress triggers the release of hormones in the body. The hormones in turn produce physical problems. Among the symptoms typical of PS2 are headaches, muscle pain or weakness, joint pain, premenstrual syndrome, frequent weight gains and losses, chronic fatigue, allergies, intolerance to cold and brittle nails or hair.

They feel sick but when doctors are unable to pinpoint the cause, they often tell the patient, "it's all in your head."

This makes PS2 victim feel even worse. Dr. Solomon says, "It becomes a vicious cycle." PS2 can be identified with a battery of high-tech ultra-sensitive tests developed only in the past few years.

Once the syndrome has been discovered, a two-pronged approach is required for successful treatment.

First PS2 patients should change to a healthful lifestyle by eating a balanced diet, giving up smoking and any foods that cause them problems and by exercising at least three times a week. Make sure you get treatments for the medical problems.

Second, sufferers need to work on their emotions by trying to eliminate negative thinking that contributes to their stress. This may even include therapy to change their attitudes. I've noticed there are so many people who have this terrible bad habit of thinking negative, I mean over everything, in fact, in cases such as theirs, maybe the doctors are right, "it's all in their heads."

Remember, you are in control, so keep yourself busy and stay happy and you'll be healthy.

Here's a recipe I got from the Northern Indians about four years ago when we were crossing the country. Let's make it today.

### INDIAN RICE PUDDING

- 2 1/2 cups raw long grain rice
- Water
- 1 Tea. salt
- 1/4 Tea. powdered saffron
- 2 cups sugar
- 1 1/2 cups butter
- 2 whole cardamon seeds, shelled
- 5 whole cloves
- Juice of 1 lemon
- 1/4 cup raisins
- 1/4 cup unroasted pistachios
- 1/4 cups unsalted cashews
- Brazil nuts or filberts sliced and toasted
- 1 cup heavy cream, whipped

Cook the rice in 6 cups boiling water with the salt and saffron until half done, about 10 minutes. Use enough saffron to give a rich yellow color. Drain.

Boil the sugar with 3 3/4 cups water for one minute, stirring until the sugar has dissolved. In the bottom of a heavy 4 quart dutch oven, or other large kettle, heat the butter. Add the cardamon and cloves and cook over low heat for 10 minutes. Add all but 1/2 cup of the syrup and boil one minute. Add the rice to the mixture and cook stirring gently until the butter is absorbed, about 10 minutes.

Add the lemon juice, raisins and nuts. Cook over fairly high heat 5 minutes then continue cooking over very low heat until the rice is tender, stirring when necessary. If the rice is not quite tender when the syrup has been absorbed, add the remaining

syrup and cook over low heat until the rice is dry and soft. Remove from heat and let stand, covered 10 minutes. Serve warm with whipped cream. Serves 12.

Some morning make this great breakfast for two.

### BREAKFAST FOR TWO

- 2 large eggs
- 1/2 cup milk
- 1/2 cup flour
- 1/4 Tea. salt
- 2 Tbs. butter
- 4 link pork sausage
- 3 Tbs. water
- 2 firm bananas, sliced
- 1/4 cup orange marmalade

Preheat oven to 425 degrees. Combine eggs, milk, flour, and salt in blender, blend until smooth. Place butter in a 7 or 8 inch skillet and set in oven to melt, then remove from oven. Tilt pan to spread butter, coat sides of pan and pour in batter. Bake about 15 minutes, until well puffed and browned. Meanwhile prepare filling. Fry sausage until nicely browned, drain and discard fat. Push sausages to one side of skillet, add bananas, marmalade and water, heat 3 minutes. Spoon into hot pancake and serve at once.

My thought for this week: If you let your children do anything they please, eventually you won't be pleased by anything they do.

You're going to need those hugs, so be sure to get four every day.  
Special Love,  
Grandma

Historic Kinney County

## Library Notes

We wish to remind the young of Kinney County (both in years and heart) to visit their library on October 31 so they can receive their treats.

**November 5 is election day. Exercise your rights - go to the polls.**

We are seeing more and more of our winter Texans around and wish to welcome them back to Kinney County and to their library.

We continue to receive new books in the library. Some of the latest new ones are *Traveler's Medical Companion*. This book gives you information of national and international travel from traveling with children to coping with chronic conditions. A must for everyone!

Another book for those of you who have or might be interested in a trip to Bandera for the races is *Winning Big At The Track With Money Management*. The author, Don Passer, teaches a course in track techniques in New York for which enrollees pay \$165 to attend. Interesting reading.

For those planning a vacation we have *Travel Geography Handbook*. This book is packed with information from the climate and weather to attractions available including current telephone numbers.

Without a doubt, one of the best books I have seen.

Graham Kerr formerly of

Galloping Gourmet fame has recently released a new cookbook entitled *Graham Kerr's Smart-Cooking*. This book truly lives up to expectations. It provides recipes, with nutritional analysis, useful to anyone on any type diet.

Finally, a book entitled *Fish, The Basics*. This book is not a cook book but one which informs one how to identify, select, prepare and enjoy seafood of all types. Omega-3 and cholesterol counts are also indicated as well as how to clean, scale and fillet at home. If you enjoy seafood but have limited yourself because you felt unsure, here is a book you must read.

Thanks to Thelma Adams, Marjorie Moore, Chris Nowell, and Troy Hall for donations of books to the library this past week.

One lady who wishes to remain anonymous also donated several excellent books to add to our collection.

Again, we acknowledge your selfless attitude by sharing your books with others. The booklovers of the County thank you.

Thanks, too, to our volunteer Halloween Goblin who purchased "treats" for our Halloween visitors.

As always, we invite you to visit the coolest, friendliest little library in Kinney County.

Kinney County Library  
Staff and Volunteers

## Bridge Anyone

by Dot Burrow

The Fort Clark Duplicate Bridge Club had 4 1/2 tables in play on October 15 with Tina Bauguess and Norma Gould taking first place.

Ben and Rozetta Pingnot won second place with Helen Lynch and Flo Stafford winning third.

On October 20, Helen Lynch and Tina Bauguess won first. Coming in a close second was Nita and Fred Clayton of Del Rio. Third place was won by Anita Korbel and Norma Gould. There were three tables in play.

# Two Times Forty

The Fort Clark Springs Golf Club was chosen as the place to celebrate the 80th birthday of Aldine Edwards. The festive party was Saturday, October 19, 1991.

Aldine was born October 20, 1911 in Sonora, Sutton County, Texas. Her father ranched on the Peterson Ranch north of Brackettville for years.

Mrs. Edwards became a charter member of Fort Clark Springs in 1971 and has lived at the Fort twenty years.

Finger foods, drinks, and birthday cake were served to approximately 128 guests who came from as far away as Carlsbad, New Mexico, Austin, San Antonio, Uvalde, Del Rio, Spofford and Quemado.

Her son, Richard, his wife, Linda, and granddaughter, Sandra, came from San Antonio.

From Uvalde were nephew Willie Edwards, with son, Schaefer; nephew Freddy Edwards with son Bryan and guest Barbara Harvey. Marjorie Beth Guice and son, Johnny; John and Ruby Brigman with son, Carl; Kittie and Edmond Speer with daughter, Lissie; Muryle and Tommy Shurley, Edith Young, and Thelma Meyer also came from Uvalde.

Coming from Del Rio were Topsy and Noble Taylor, Patsy and Douglas Smith, and Mildred Haslam.

Guests from Quemado were son Jack Edwards with wife, June, and grandson, John, and guest Tara; grandson, Randy, with wife Cindy Edwards.

Grandson Monty Edwards and wife, Carla, came from Brownwood. Granddaughter Lynda with husband, Tony Weaver, with Bucky and Tara came from Carlsbad, New Mexico.

From Brackettville were niece Olga and husband, Hugh Coston, with son Scott and Rhonda, and son, Lyle.

Aldine Edwards

Also, Alvin Hall, Dolores Raney, Rose Ann York, Jean and Tommy Seargeant, Jewel Robinson, Essie Coker, Melba Foreman, and Candy Tyer.

Tootsie and J. B. Herndon came from Spofford.

From Fort Clark were son, Bill Edwards, and approximately 75 well-wishers.

## Celebrate Gourmet Coffee Month In October

In the U.S. there is a small, international tribe of coffee buyers. Among these is a man named Tim Castle. He has visited many plantations and connects the sun, wind, rain and earth to the final cup of coffee. "Some coffees bring with them the smells of the forests, the taste of the water that soaked their roots, and the flavor of the fruits that grew near them."

There are commercially popular species of coffee, one is called "coffee arabica," and the other "coffee robusta." The arabica coffee tree produces the higher-quality beans. Robusta beans are the main component in canned, ground coffee.

A pound of coffee contains about 2,000 beans. Most luxuries in life are reserved for the few who can afford the expense, but a great cup of coffee is pretty low in cost and provides employment for countless millions of people throughout the world.

Almost all of the billions of coffee trees in Latin America derive from the same source, a heavily guarded coffee plant in the hothouse of Louis

XIV's Jardin des Plantis. While other coffee plants had already made it to the New World, the most influential was a descendent of this particular plant. The story of this seedling is colored by a history of romance and intrigue. It was brought to Martinique by Captain Gabriel de Cleui, who gained possession of it through a successful liaison with a lady of quality, who had access to the garden through the court physician, De Cleui, a young French naval officer, supposedly inspired by patriotic zeal, for bringing coffee to Martinique. He allowed France to become independent from high-priced East Indian coffee. The plant thrived in its new home, and its descendants are the source of most of the world's coffee today.

Show Your Tiger Spirit

# Cowboy Poet Dave Crow

## In Search Of The West

While it may be true that the Wild West is gone, and the country has settled down, farmers, ranchers and shepherds they can all still be found.

Workin' side by side on this proud land, helpin' to support the towns. It's gonna take all of us workin' together, to make this ol' world go 'round.

The American Cowboy is everywhere, he's right in your home town. You know, down deep inside of each of us, there's a little cowboy to be found.

So, buy you a horse and a pickup truck and let's go to the rodeo. Where they're ridin' bulls and ropin' steers and puttin' on a Wild West Show.

Country music and honky tonks, Willie, Waylon, and me. Shootin' pool and drinkin' beer and livin' the life that's free.

Maybe ridin' horses and ol' pickup trucks, ain't what it used to be. But it was good enough for Grandpa and it feels so right to me.

Written by Dave Crow October, 1990.

### QUERRECHO FLATS

By Curt Brummett

## Querecho Quilting Club

So once again we are faced with yet another dilemma in Querecho Flats. The Querecho Flats Quilting Club needed a place to quilt that would not only leave their husbands alone for a couple of hours each week, they needed a place to gossip where no one but the ones present would know who they were talking about.

They had probably the most perfect attendance record in the history of attendances. And for only one reason.

That reason being, if you weren't there, you were the one that was going to be ripped apart with constructive criticism and possibly the best advice you never received.

Any who, the area wives got together one Sunday after a Better Than Thou singing and preaching and decided that in order to keep up their standings as Pert-Near Perfect People, they needed a day of the week to socialize, and maybe come up with a way to help the community.

So they tried meeting for a couple of months at someone's house. But some of the husbands didn't like the way some of the ladies discussed some of the other ladies, and started getting grouchy at the mere mention of the Quilting Club.

It was decided by the ring leaders that they needed a special place to meet and rip apart the ones that wasn't there.

A couple of the men had a few suggestions, but to say they were ignored would be somewhat of an understatement.

Well it was decided that Querecho Flats didn't have the money to build a community center. So the ladies was at a stand still for the time being.

Well I saw a way to get myself in fairly good standings with the Querecho Flats ladies one more time. I

stayed on their bad side for about 90 percent of the time any way, and I figured if I could do something for the community it might help my standings if I ever got into another water fight.

About three years before, I had been down in El Paso doing a little serious partying and I just happened to run into three of the county commissioners that was doing the same thing, but they were calling it a business trip.

Well for a joke, I got an old gal to take some pictures of these fine upstanding community leaders in various stages of sobriety and with some ladies that wasn't their wives. And I felt pretty sure they weren't their secretaries either.

I went to the ring leader of the Pert-Near Perfect People and mentioned that I may have a way to get their community center.

The Better Than Thou Club wasn't even bashful about taking the pictures.

Well now in Querecho Flats, there is a weekly meeting of the Quilting Club and it's held in a pretty nice little building complete with cook stove and ice box, piano and ping pong table.

There's even card tables and chairs for all kinds of neat games and community dinners.

The picture sales was pretty good I guess, but the leverage I got on the Pert-Near Perfect People when they took them pictures from me sure is nice.

Should the lovely ladies of Querecho Flats ever give me more bad trouble, I'm just gonna mention that I recorded the discussion about the pictures and what to do with 'em.

I didn't, but they'll never know for sure.

## Golf News

By Vicki Nichols

Ho Hum - its Sunday morning after the big "Sugar and Spice" tournament and everyone involved is giving a big sigh of relief.

Due to several other tournaments in the area, there were not as many entries as last year. However, it was a very well run affair thanks to Chick Cruse, Luella Gilliland, and their many helpers.

The "Fiesta and Fashion Party" on Friday night went smoothly despite the bumpy road it took to get there. My assistant, Nelda Archer, and I talked on the phone almost every day the last two weeks, and invariably our conversations started with "I have good news and bad news" or "Guess what." We never knew how many models would show up for the show due to unavoidable problems. One kept us guessing until five minutes before show-time. But then, thank heaven, you always have some dependable, professional type models who can pull any show together. The hard working ones, you are so lucky to have.

The fitting date was 6:00 PM Wednesday the 16th. Nelda and I arrived at Plaza Del Sol in Del Rio around 11:00 AM and started selecting the clothes by size and type. Everything went smoothly and by 5:30 we had all the garments lined up and tagged for each model. We were real pleased with ourselves and expected to be all filled in a couple of hours - WRONG. When the models arrived we soon discovered that sizes mean absolutely nothing this season. A size 10 can vary anywhere from a regular 6 to 16 - nothing fit and we were running all over the stores trying desperately to find something to fit and also with a look that would go in a certain sequence.

After three hectic hours and with all the stores closing we finally had the last garment on the last model. So with aching feet and a whirling head we all divided to meet for a pizza - now you probably figure that this is the end of this saga - WRONG, AGAIN. When Lisa Conoly and the five models she brought with her walked out to the parking lot, her Suburban was gone - disappeared. Lisa ran frantically, pounding on store windows until she found some one who would let her in. When she reached the police they had already gotten a call from the toll gate saying a man driving a red Suburban in a ski mask had raced thru and gone into Mexico.

When Lisa reluctantly called husband Stan, she expected the worst - Stan's only comment was "Ahhh, and you just washed it today." How's that for an understanding husband??

Well we all did meet for a pizza and some of us shared a pitcher of beer.

I'm sure the audience who attended the show enjoyed the delicious

nachos and Margaritas without the slightest inkling of the crazy events that led up to that night. We also found that the new sound system works. In fact, it can blow you right out of your seat. The Golf Association fund is ahead by over \$480.00.

And now its over. The clothes have all been returned to the stores and "thanks" to George Miller, his van and patience, all is well. So on to more important things like its Sunday morning, I think I need a new broom, sure wish I had someone to install a hook so I could hang my fun - oh well as has been said - "Tomorrow is another day."

### Sugar and Spice Tournament

Holland Cruse, better known as "Doc" donated beer for the ladies.

#### FIRST FLIGHT

1st place: Jane Young and Shirley Stevenson - 69.  
2nd place: Ruth Ricks and Helen Kellam, San Antonio - 70.  
3rd place: Jan Steffey and Maxine Lawson, Del Rio - 72.  
4th place: Jan Chism and Christy Helvey - 73.

#### SECOND FLIGHT

1st place: Marty Isenberg and Luella Gilliland - 74.  
2nd place: Chick Cruse and Fern Dyer - 76.

#### THIRD FLIGHT

Tie between Betty Inman and Doris Eckenroth, and Lorraine Lundquist and Eleanor Herron - 82.

#### LONGEST DRIVE ON #13

1st only 19 yards from the green was Jan Steffey. 2nd longest was Dee Curry, followed by May Roper.

#### CLOSEST TO PIN

LaFayne Porter from Lampasas.

### Couples

1st: Roy Dyer, Vicki Nichols, Frank and Doris Eckenroth with 60.  
2nd place: Bob and Jane Young, Don and Ruth Packer with 62.  
3rd place: three way tie - Julian Garza, Shirley Stevenson, Herb and Eileen Voracek; Jim Bussey, Mary Lee Trollinger, C. Blackburn, Loris Ryan; Bob and Leslie Houk, Dan and Marty Isenberg, all with 66.

### Ladies

Two flights played Low Net. In the first flight, the first place winners were Jane Young and Patti Barnett with 57.

Tied for second place were the teams of Jackie Marrs and Molly Schroeder, and May Roper and Pat Nelson, with 60's.

In the second flight, first place went to Lorraine Lundquist and Marg Adams with 57. Second place was taken by Leslie Houk and Evelyn Whiteley with 62.

### 3-Par

On Monday, October 21, FCS Recreation Director Sondra Meil lined up twenty-six golfers for an 18-hole tournament.

Ending up in first place with 3 under par 51 was the team of Bob Barnett, Dave Yates, Gerald Gallion, Shirley Stephenson, Andrew Stephenson and Jackie Marrs.

This team also won the birdie hole which was #3.

Second place was taken by the team of Julian Garza, Lorraine Sloan, Walt Bauguss, Stan Summers and Patty Barnett with a two under par 52.

Following the tournament, a bar-becue lunch was served to fifty-four golfers, spouses, and other guests at Town Hall.

## Spinach Festival, Crystal City

November 8 - 9 - 10

The Spinach Festival is sponsored by the Crystal City Festival Association. The purpose of the Spinach Festival is to celebrate Crystal City, Texas being proclaimed the "Spinach Capital of the World" in 1936 by Texas Governor James V. Allred and the sanctioning of Crystal City's Popeye statue by Mr. E.C. Segar, the creator of the Popeye cartoon character in 1937.

Crystal City was recognized by President Ronald Reagan in 1987 as being "the nation's leading producer and shipper of spinach" and the "Home of Popeye" by King Features Syndicate, Inc., which is the copyright owner of Popeye.

Spinach Festivals in Crystal City were held as early as 1936 but stopped for a few years because of the World War II. Ten years ago the Festivals were revived and each year it has grown bigger. It has been calculated that the Spinach Festival, a 3 day event has had up to 50,000 people in attendance.

The Spinach Festival has a different theme every year and is held in downtown Crystal City where city blocks are blocked off and music stages, food booths along with a carnival area are set up.

Admittance to the festival area is free. Music will be played throughout the three days by top popular musicians. There is no fee for anyone who would like to dance in the street to the music.

The vendors sell food and accessories of all kinds. From hamburgers to flautas and toys to jewelry, vendors come from as far as New Mexico and Colorado to set up their booths.

The carnival is opened throughout the week before the Spinach Festival officially begins. On Friday, the opening ceremonies will be held where there will be music, choir singing, entertainment,

## Black & White Ball, Del Rio

November 9

Oriental nights will descend upon Del Rio as the theme of the fifth annual San Felipe Exes Black and White Ball to be held Saturday, November 9 at the Del Rio Civic Center.

The gala, which will begin at 8:30 pm, is the social event of the year but its roots run much deeper in the community.

"It is a social event, but people helping people is what we're really about," said Gloria Sotelo, Vice President of the San Felipe Exes Association.

According to Sotelo, there are over 500 members in the San Felipe Exes Association and 27 on the board of directors. These members take the history of the San Felipe School District seriously and they work hard to keep its spirit going.

"It's a very personal thing because we helped create the school district and we want to keep the unity and spirit alive," said Sotelo. "Just like the school district is now, one, we would like the community to be one as well."

The Decorating Committee for this year's festivities, under the direction of Gloria Sotelo, is busy with plans to transform the Civic Center into an oriental dream. Music will be provided by Rene Rene and it will be a ballroom dance mix.

Until last year the Black and White Ball was the only formal attire function in Del Rio. To carry on the tradition of the prestigious event, instituted by the Elite Club, a social club that organized the ball for 25 years until the San Felipes Exes took it over five years ago, dress

code will continue to be formal. Attire required for the ladies will be floor length gowns only, in black, white and/or silver. Men are required to wear a tuxedo or black suit. No other color of accessories will be allowed.

A highlight of the evening will be the formal coronation of the new San Felipe Exes Queen. She will be crowned by the 1990 queen, Denise Tijerina. This year's queen contest is under the direction of Gloria Sotelo. The contest will be held Sunday, Oct. 13 in the lobby of the Del Rio Bank and Trust. The public is invited to attend. The young women will be judged on poise, beauty, personality and their ability to answer questions asked by the judges.

According to the Invitation Committee, directed by Dolly Calderon, any member of the community may attend the Ball. Members of the San Felipe Exes are automatically invited as well as dignitaries such as city council members and representatives from Laughlin Air Force Base. Anyone else who wishes to attend may get an invitation by calling the San Felipe Exes Memorial Center or contacting any of the committee members. The invitations were mailed out in mid-October.

For more information contact Kristi Wagner of Lopez Cernosek & Associates at (512) 775-3831.

## County Agent News

by Allan L. McWilliams

This week's article deals with landowners' liability for hunters based on fees. The information in this week's article is from the Texas A&M Real Estate Center at Texas A&M University.

As you already know, deer season opens November 2, across much of Texas and landowners find themselves facing potential liability for hunters' safety.

Attorney Judon Fambrough, author of the Texas Deer Lease, says that according to current law, the landowner's liability depends on the amount charged for entry.

Fambrough is a senior lecturer with the Real Estate Center at Texas A&M University and says landowners owe a recreational guest (hunter) no greater degree of care than is owed a trespasser if there is no charge for entry, or if the charge does not exceed twice the amount of ad valorem taxes imposed on the hunting premises.

Regarding trespassers, the landowner is liable for grossly negligent activities or for acts done with malicious intent or in bad faith. If the landowner charges more than twice the amount of ad valorem taxes, the landowner has a duty to inspect the property and remedy any unsafe conditions. Alternatively, the landowner must warn the hunters of any unsafe conditions revealed by the inspection. Landowners may limit liability by not charging a fee, or by keeping the charge to no more than twice the amount of ad valorem taxes.

Other alternatives to reduce

liability might include: --routinely inspecting property and making conditions safe or --routinely inspecting property and warning hunters of unsafe conditions.

Another method is to use a signed waiver from the hunter releasing the landowner liability. The hunter must realize what rights are being given up and must grant the waiver willingly and intentionally.

Insurance will not reduce the landowners' liability but will provide a source of funds. The landowner may purchase a policy or require that the hunters purchase and assign one to the landowner.

Recently revised and expanded, "The Texas Deer Lease" lists issues affecting hunters and landowners. New sections cover compliance with state hunting regulations and describe hunter and landowner responsibilities in more detail. The 12-page report, which includes a sample waiver form, is available for \$1.00 from the Real Estate Center, Texas A&M University, College Station, Texas, 77843-2115. Request publication NR-570.

The Real Estate Center is celebrating its 20th anniversary this year. It was created in 1971 by the Texas Legislature to meet the needs of many audiences, including the real estate industry, instructors, researchers, and the general public. The Center's comprehensive program of research and education yields publications, audio visuals and computer software distributed widely under the slogan "Solutions Through Research".

## Fishing Report

**AMISTAD:** Water clear, 73 degrees, 7 feet above normal level; black bass are good to 11 pounds on spinners and topwaters early, worms are good in the middle of the day, most bass are in the 5 pound range in 2 - 6 feet of water; striper are beginning to pick up on topwaters and Zara Spooks around San Pedro and the dam; crappie are fair in the mouth of the Pecos; white bass are picking up in the San Pedro, Caballo and Zorro and Castle Canyons; catfish are very good to 6 pounds on stinkbait in 6 - 15 feet of water all over the lake.

**BRAUNIG:** Water murky, 74 degrees, normal level; black bass are slow; striper are slow; catfish are excellent to 4 pounds on liver or nightcrawlers; redfish are good to 13 pounds on silver spoons; corvina are slow.

**CALAVERAS:** Water murky, 83 degrees, normal level; black bass are slow; striper are fair to 5 pound average on artificials; catfish are good to 2 pounds on chicken livers and cheese baits; corvina are fair to 13 - pound average on shad and artificials; redfish are fair to 10-pound average on shad and tilapia.

**CHOKO:** Water clear, 78 degrees, 16 feet low; black bass are good with limits to 11½ pounds on topwaters, Rattle Traps are good early and deep diving baits or worms are good

in the middle of the day; striper are slow; crappie are fair on minnows; white bass are fair along river channel and near dam early on slabs and spoons; catfish are good with limits, larger sized fish to 40 pounds are beginning to hit trotlines baited with live sunfish in 15 to 40 feet of water.

**COLETA CREEK:** Water clear, 74 degrees, 1 foot low; black bass are fair to 2 pounds on Rattle Traps and spinners; striper are slow; crappie are fair to 12 fish per string at night on minnows; white bass are slow; blue catfish are good to 30 pounds, a new lake record was caught by John Schmidt and Larry Volkler of Victoria.

**FALCON:** Water clear, 5 feet low; black bass are fairly good in number but generally in the 3 - 4 pound range on worms; striper are slow; crappie are slow; white bass are fair on jigs and L'il Georges; catfish are good to 5 pounds on shrimp.

**TEXANA:** Water muddy, Sandies Creek is clear, the jungle area is clear, 86 degrees, normal level; black bass are fair to 7 pounds on spinners and buzz baits; crappie are fair to 10 fish per string on minnows in 3 feet of water around structure; white bass are fair, fish are breaking the surface but fish are scattered; catfish are good to 42 pounds on trotline with live bait.

## Lyles Ranch Tour

October 31, 1991

Texas A&M University Research and Extension Center at Uvalde will conduct a tour of the Lyles Ranch beginning at 8:00 A. M. Thursday, October 31, 1991.

A registration fee of \$7.00 will include a Bar-B-Que lunch.

Risk Management will be the focus of the tour with discussions including grazing distribution in large pastures; foraging behavior of cattle, sheep, goats, white tail, fallow and axis deer; water use by

Mesquite; toxins in brush; mohair production in South Texas and the Hill Country; and desirable cow types for South Texas.

Discussions will include topics on wildlife, cattle, angora goats, and range management.

Anyone interested in studying Risk Management in South Texas on Hallowe'en is invited to call the Uvalde Research and Extension Center (512) 278-9151 by Thursday, October 24.

## 4-H Swine Project

The 4-H Swine Project meeting was held Thursday, October 17, 1991. New officers were elected and they are Christina Smith, president; Jackie Smith, vice-president; Lisa Dalton, secretary; Charlotte Rose, reporter; and Michael Pena, council delegate.

Decisions were made to have a meeting on October 29, 1991, 5:30 p.m. at the F. F. A. arena.

Everyone is to bring all their show pigs so that they can be tagged, weighed, and recorded for the show.

All pigs must be tagged by November 1, 1991.

Parents are welcome...please attend!

## Kinney County Junior Livestock Show Committee Meeting

A board of directors meeting of the Kinney County Junior Livestock Show will be held Monday, October 28, 1991, at 7:00 p.m. at the County Courthouse.

All committee members are urged to attend as there are several very important items of business to be discussed.

All 4-H and FFA families are welcome to attend.

## 1992 Arts & Crafts Project Show

Several years ago, an arts & crafts project show was held in conjunction with the Kinney County 4-H and FFA Livestock Show. This project show will again be a part of our Junior Livestock Show in January, 1992.

The project show will be open to all residents in Kinney County with divisions and classes in specific age groups. There will be classes and divisions in the following areas:

Foods Clothing Paintings  
Floral Arrangements Woodworking  
Metal work Clay, Glass and Wood Sculptures Needlework

Drawing Photography Leather craft

Entry forms will be due the middle of January and entry forms and rules will be available around Brackettville at a number of local merchants.

Plan to be a part of the 1992 Kinney County Junior Livestock & Project Show.

For more information, contact Nancy Frerich at 563-2204, or the Kinney County Extension Office at 563-2442.

## Beyond The Horizon

By Dorothy Payne

During the War of 1812 the U. S. Artillery did most of its fighting with 6-pounders. Fort McHenry has a few ordnance pieces of this period.

During the Mexican War, the artillery carried 6 and 12 pounder guns, the 12 pounder mountain howitzer (a light piece of 220 pounds which had been added for the Indian Campaigns), a 12 pounder field howitzer (788 pounds), the 24 and 32 pounder howitzers and 8 and 10 inch mortars. For seige, garrison and seacoast there were pieces of 16 types, ranging from 1 pounder to the giant 10 inch Columbiad of 7½ tons.

In 1857, the United States adopted the 12 pounder Napoleon gun - howitzer, a bronze smoothbore designed by Napoleon, III, and this muzzle-loader remained standard in the army until the 1800's.

The navy ironclads, which were usually armed with powerful 11 or 15 inch smoothbores, were a revolutionary development in mid-century. They were low-hulled, armored, steam vessels, with one or two revolving turrets. Although most cannon balls bounced from the armor, lack of speed made the "Cheese box on a

raft" vulnerable, and poor visibility through the turret slots was a serious handicap in battle.

While 20, 30, and 60 pounder Parrot rifles soon made an appearance in the Federal Navy, along with Dahlgren's 12 and 20 pounder rifled howitzers, the Navy relied mainly upon its "shell-guns": the 9, 10, 11, and 15 inch iron smoothbores. There were also 8 inch guns of 55 and 63 "hundredweight" (the contemporary naval nomenclature), and four sizes of 32 pounders ranging from 27 to 57 hundred-weight. The heavier guns took more powder and got slightly longer ranges. Many naval guns of the period are characterized by a hole in the cascabel, through which the breeching tackle was run to check recoil.

The navy also had a 13-inch mortar, mounted on board ship on a revolving circular platform. Landing parties were equipped with 12 or 24 pounder howitzers either on board carriages (a flat bed something like a mortar bed) or on three-wheeled "field" carriages.

Bronze mobile cannon were adopted by the United States in 1836.

## Promotes Ag Literacy

AUSTIN -- Agriculture Commissioner Rick Perry has launched a new and far-reaching statewide program aimed at enhancing the nutritional value of public school meals and the agricultural literacy of Texas youngsters.

Known as Texas Education and Agricultural Cooperating for Health -- or Project TEACH -- the program is also designed to create new opportunities for Texas farmers and ranchers to sell their goods and products.

The effort -- a first for the Texas Department of Agriculture -- is being introduced in four school districts this month. They are Austin ISD, Austin, Edgewood ISD, San Antonio, Dallas ISD, and Cypress-Fairbanks ISD in the Houston area.

Perry's goal is to expand the program to districts throughout the state.

"Ensuring that our sons and daughters are healthy and fully prepared for the future is our most important duty -- not only for those of us who are parents, but for society as a whole," Perry said in unveiling Project TEACH. "What we do today to ensure a child's nutritional and educational well-being could affect that youngster for years to come.

That's why Project TEACH is so exciting. Through this program, we hope to enhance students' 'agricultural literacy' -- to help them better understand where their food

comes from," said Perry, who is making ag literacy a major focus of his administration.

"What's more, through Project TEACH we want to help public schools locate Texas producers and processors who can supply their food needs year-round," Perry said. "Texas produces some of America's most wholesome, affordable and abundant commodities. We want to encourage school food service directors to buy Texas whenever possible."

Perry has supplied the following Agriculture and School Meal Facts:

\*\*\*More than 2 million lunches are served daily in Texas public schools.

\*\*\*In addition, some 600,000 breakfast meals are served daily.

\*\*\*The Texas Education Agency estimates annual food purchases for public schools at \$500 million.

\*\*\*For every dollar earned by a Texas producer, an additional \$2 of economic activity is generated in Texas.

\*\*\*Texas is America's second largest agricultural producer.

\*\*\*Farming and ranching is an \$11 billion industry in Texas, packing an additional \$32 billion wallop for the statewide economy.

\*\*\*One of every five Texans is employed in agriculture or an ag-related industry.

\*\*\*186,000 farms and ranches operate in Texas.

\*\*\*An average farmer produces the food and fiber for 128 people. Ten years ago, that number was 109.

## Beta Sigma Phi Sorority

Next Meeting Will Be November 10

Beta Sigma Phi Sorority met on Monday, October 21, 1991 at the Frontier Baptist Church annex with Oleta Townsend as hostess.

Attending were: Pat McKelvy, Dee Curry, Mildred Borden, Niki Breen, Orlean Riley, Pat Parks, Shirley Hadsell, Marge Geese, Lily Schwandner, Mable Parham and the hostess.

Pat McKelvy, President presided over the business meeting. Committee reports were heard from Orlean Riley for Service, Shirley Hadsell, Secret Sister, Marge Geese on Projects and Yearbook, Shirley Hadsell.

It was announced the Pledge Ritual for Pat Parks and Dee Curry

will be on November 10th at 2:00 p.m. at the home of Shirley Hadsell.

The service chairman reminded members to bring goods for the Sorority's Thanksgiving basket at the next meeting.

Oleta Townsend presented a most enjoyable program on "Living Gracefully." After the program she served refreshments from a table decorated in the Halloween theme. Tea, Coffee, apple pie, ice cream, and assorted candies were served.

TEXAS PRESS ASSOCIATION

## How Good Are Grade B Eggs?

DALLAS -- Knowing when to use Grade AA and Grade B eggs can mean a savings of up to 35 cents a dozen in some instances, said James Grimm, executive vice president of the Texas Poultry Federation and Affiliates.

Grimm -- interviewed recently at the Texas Department of Agriculture's State Fair Food & Fiber Pavilion in Dallas -- said cooks using eggs just for baking may consider buying the less expensive Grade B or Grade A eggs. In fact, he said, many grocery chains start to carry Grade B eggs around the holidays for cooks who want to watch their budgets and produce lots of baked goods.

"Eggs are versatile," Grimm said. "They are low in calories and high in protein."

One large egg has 80 calories and 6 grams of protein.

Generally, a 15-cent difference exists between a dozen Grade AA and Grade A eggs. The price difference between a dozen Grade A and Grade B eggs drops another 20 cents, Grimm said.

Grade AA eggs should be used for eggs cooked over-easy, for angel food cakes, poached eggs and any recipe requiring a stiff egg white. Grade B eggs are recommended for most cake and cookie recipes where the eggs are needed only for their protein and binding properties.

A Grade AA egg stands up tall, the yolk is firm and the area covered by the white is small. A Grade A egg covers a relatively small area and the yolk is round and upstanding. A Grade B egg spreads out more and the yolk is flattened. Generally, the older the egg, the lower the grade.

For consumers watching their cholesterol count, the industry is developing a cholesterol-free egg. Cholesterol-free eggs may be ready for general distribution in two years, Grimm predicted.

Texas has 13.5 million laying hens and imports 25 percent of the eggs consumed in state.

Health-conscious Americans also are consuming more chicken and turkey, Grimm said. Without skin, turkey and chicken are virtually cholesterol and fat-free.

For the first time ever, chicken consumption surpassed beef consumption in 1990. Americans now eat about 66 pounds of chicken each year compared to 60 pounds of beef.

Turkey consumption has gone up from 16 pounds per person, consumed generally during Thanksgiving and Christmas, to 24 pounds annually for each person.

For those worried about salmonella contamination, Grimm advised cooks to follow the four basic C's -- clean, chill, cook and avoid cross-contamination. To reduce salmonella contamination, the poultry industry nationwide will be bathing carcasses in a chlorine bath within a year. The chlorine bath recently was approved by the Federal Drug Administration, Grimm said.

Poultry and egg recipes, such as Eggs Oscar, Double Berry Mousse and Athens Egg Salad, are available on colorful postcards at the egg and poultry exhibit located in the TDA's Food & Fiber Pavilion.

The State Fair of Texas runs through Oct. 20.

**THINK ABOUT OUR FUTURE ENVIRONMENT**

**RECYCLE NOW**

Dryer Lint is an expensive commodity. It represents life being worn from your clothes by the action and heat of the dryer. You can put this lint to use if you have a wood stove or fireplace. The soft batts of lint ignite quickly and help set kindling ablaze.

Foam packing pieces - instead of using pebbles for drainage in flowerpots, use small pieces of expanded foam, such as those used as packing material for shipping. Just place a handful of them in the bottom of the pot. They do not decay, and they weigh less than pebbles, so you don't have to worry about adding too much weight to pots that you may want to hang from the ceiling.

# Tiger Tracks

## Tigers Deny Trojans Victory

By **BLACKIE HABY**  
Brackett News Sports Writer

Friday, October 18, 1991, in Trojan Stadium, Asherton, Texas, the Brackett Tigers skinned the Asherton Trojans by a score of 12 to 6.

The first four minutes of the first quarter neither team ran more than three plays and the football changed hands three times either on fumbles or intercepted passes. A Tiger recovered a Trojan fumble and three plays later, Angel Jaso went in from two yards out for the first Tiger touchdown. The conversion was no good.

Asherton ran the kick-off back to their own 33 yard line. They failed to make a first down. Their fourth down kick was blocked. The Tigers took over on the Asherton 33. Gallant runs by Angel Jaso, J. J. Sandoval, and Adrian Pena carried the ball to the Trojan five yard line where it went to the Trojans on

downs.

Asherton ran three plays and kicked. Tevin Senne ran it back to the Trojan forty yard line. Adan Sanchez intercepted a third down Tiger pass and was stopped on his own ten yard line. The Trojans held the ball and moved it to the Brackett 35. Brackett held the ball for three first downs and moved it to the Trojan end of the field only to have a pitch out to David Dorrough picked off.

The Trojans took over on their own ten yard line. Brackett got two 15 yard penalties which helped the Trojans move the ball. Tevin Senne stopped a long run by Jose Balderas. Adrian Pena broke up a long fourth down Asherton pass and the Tigers were in possession as the half ended.

Brackett started the ball on the twenty yard line after an end-zone kick-off. They moved it to the Asherton thirty-five yard line only to have a fourth down pass inter-

cepted by Salvador Miranda. Asherton made one first down and had to kick. A fair catch was called by Tevin Senne on the Brackett twenty-five yard line. The Tigers couldn't move the ball. An Angel Jaso kick put the ball in the hands of the Trojans on the fifty yard line. On first down, Lesly Floyd picked off an Albert Sosa pass to put the Tigers in the driver's seat.

The Tigers made two first downs to bring the ball to the Trojan thirty. A fourth down pass attempt stopped the Tiger drive, and Asherton took over. The Trojans held the ball into the fourth quarter but didn't make all that much yardage. Scott Sims, Victor Sanchez, Gilbert Villareal, Brian Sciba, and others kept them from it.

With 1:00 gone off the fourth quarter clock, Brackett took possession of the ball on its own forty-one yard line, but only for four downs. An Angel Jaso kick and a short Trojan run back gave

Asherton the ball on their own twenty yard line.

With long penalties and a few long runs, Roy Martinez went in for the only Asherton touch down but that tied the ball game. The point after was not good.

Asherton tried an on-side kick and gave the ball to Brackett on its own forty-five yard line. The second play after the kick-off, Adrian Pena got a long pass from Center and a bee in his bonnet and ran fifty-five yards for a second Tiger touchdown. The point after was intercepted and the score was 12-6.

The remaining 3:00 of the game was a very hard fought battle. Tremendous effort was exhibited by both teams. One tried very hard to get another touchdown to win, or even tie the game. The other trying to hold on to what it had.

## Cubs Come From Behind To Beat Rocksprings ..... One Game Left

By **LYNN FLOYD**  
Brackett News School Reporter

The Cubs may very well have played their best game of the season last Thursday night coming from behind to beat the Rocksprings Angoras 14-8.

Rocksprings drew first blood late in the first quarter after recovering a fumble deep in Cub territory. Five plays later the Angoras ran it in for the score. They then faked the extra point kick and ran it in for two points giving them an 8-0 lead.

The Cubs came out roaring in the second period when Ramon Deleon ran 64 yards for what should have been a touchdown but was called back on a clipping penalty. That didn't stop the Cubs from driving as they mauled their way to the Rocksprings 12 yard line. With 3:32 left in the first half big Moses Hernandez bulldozed it in for the score. Rueben Terrazas then crossed the goal line for the extra points leaving both teams in a deadlock tie 8-8.

With just under a minute to play in the second quarter the Angoras completed a 20 yard pass putting

them on the Cub one yard line. On fourth down Rocksprings went for it but were stopped dead in their tracks by the aggressive Cub defense. At the end of the first half the score was 8-8.

The third quarter ended with no score as both teams were plagued by turnovers.

With 6:52 remaining in the game the Angoras were penalized four times in a row for illegal motion putting them deep in their own end of the field. When Rocksprings finally ran a play the ball was knocked loose by Nacho Aguirre and was recovered by Max Mendoza.

Two plays later quarterback Ramon Deleon gave the ball to Hernandez again as he ran 16 yards for his second touchdown. The extra points attempt failed as the Cubs took the lead 14-8.

Rocksprings looked as if they were going to score when they drove it down to the Cub 7 yard line but were stopped again on downs giving Brackettville the victory.

The Cubs finish their 1991 season as they play D'Hanis Thursday 24 and LaPryor on October 31. Good Luck Cubsters.

## 1991 Red Ribbon Campaign

Brackett ISD acknowledged the Texas 1991 Red Ribbon Campaign with an all-school anti-drug rally at 9:45 a.m. Wednesday, October 23, 1991. Community leaders and parents were among the guests.

Red ribbons and drug-free stickers and red balloons were distributed.

The Tiger Band played the national anthem to open the rally. Then, the cheerleaders joined the band in doing the school song.

Scott Sims, representing the student council offered the prayer.

Student Council President Lynn Floyd introduced Superintendent Bob McCall who gave a welcome and related "How To Get High On Life Without Drugs." Tiger Cheerleaders led the first cheer of the rally.

The kindergartners did the McGuffey Chant; the junior class did a skit.

Adrian Pena introduced Head Coach Greg Nowlin who spoke on "Drug Abuse VS Athletics."

The Kindergartners did a skit, "ABC, 123," followed by a skit from the speech class.

Grades three and four joined in doing "Smoke Is No Joke," and Student Council Vice President Jenifer Shahan declared she was "Proud To Be Drug Free," just before the cheerleaders led cheer #two.

Guest speaker, 1st Sgt. David Scarbo, Laughlin Air Force Base is flanked by BISD counselor, Susan Harrison and BISD Superintendent, Bobby McCall.

Head Cheerleader Valerie Talamantez introduced guest speaker 1st Sgt. David Scarbo, Laughlin Air Force Base who spoke on "Successful Lives Are Drug Free." Sgt. Scarbo has been in the air force twenty-three years and is chairman of a community drug program. He is also a deacon in the Catholic Church.

The cheerleaders did cheer #3 just before the fifth grade did the Red Ribbon Rap.

The juniors did skit #3 and the band played "Panama."

The second grade did a song, and the sixth grade did a rap followed by another skit given by the cheerleaders.

Student Council Secretary Wendy

McDaniel told the "Meaning Of Red Ribbon Week."

The band closed the rally by playing "Jalisco."

You will see many students and adults wearing red ribbons. Take time to tell them that you appreciate their efforts in having a drug-free Kinney County.

## Halloween Safety Program

The Sampling Corporation of America is providing the children of Jones Elementary with environmentally recyclable "Super Safety Trick-Or-Treat Bags" for this Halloween. Through the cooperation of the National Safety Council and the sponsorship of Ever Ready Energizer, Hershey's Syrup, Hershey's Chocolate Milk Mix, Hershey's Chocolate Flavored Drink, Dole Raisins, Pringles Tortilla Chips, Malt-O-Meal Hot Cereal Mix, Malt-O-Meal Sugar Puffs, Sargento Moo Town Cheese and Sticks, and Sunny Delight Sampling Corporation of America is able to provide a safe Halloween for every member of the community. All of these companies/brands are interested in the safety of children.

The Halloween bag includes safety tips and is printed on both sides with a non-toxic ink. In addition, the bags are a true fluorescent orange. A child carrying

this bag would be highly visible to motorists because of the bright reflection of the color. This is especially important at dusk, which is a time of day when visibility is generally poor. Vent holes are added as a safety precaution.

Each child will also receive a special child/parent safety booklet containing additional safety tips, ideas to plan alternative activities to trick-or-treating, and a special parent safety checklist.

This program is being distributed, not to encourage trick-or-treating, but to acknowledge that this practice, in many areas, already exists and children would benefit from an effort to make their celebration experiences safer! In many communities, the program provides a basis for alternative activities, such as parades, parties, etc., all designed to make Halloween a safe, fun experience.

The Educational Division of Sampling Corporation of America has been providing the free "Super Safety Trick-Or-Treat Bag" program to over 10 million children annually since 1979.

## One Act Play

Last week Brackett ISD held try outs for One Act Play with 17 students turning out. This is the first year for this many wanting to participate.

For the past three years Brackett has won district under the direction of Mrs. Merry Beth Mills. This year the "Brackett Players" will be performing William Shakespeare's "Macbeth".

Among those selected were Scott Sims who was chosen best actor last year. Wendy McDaniel and Lynn Floyd return as both were chosen to

the All-Star cast last year as well. Monica Cruz is back on this years cast too.

Others on the cast are W.T. Hunt, Glen Tharp, Michelle Brandt, David Seargeant, Amanda Davis, Brian Sciba, Michael Bennacci, Patrick Melecon and Matthew Bennacci. The crew will be Mary Duran and Selina Ramon. Alternates are Jenifer Shahan and Valerie Talamantez.

Even though competition is in March Mrs. Mills wants everyone to be familiar and comfortable with Shakespeare.

SWTJC, Uvalde

The Pink Panther

UVALDE - Chief Inspector Jacques Clouseau, portrayed by Terry Harrison, the world's most unusual criminologist, will fight for his life and for the future of all mankind when the theatre department of Southwest Texas Junior College presents *The Pink Panther* October 24 and 25 in the Tate Auditorium on the main campus in Uvalde.

This show is very physical - there is hugging, kissing, dancing, fist fighting, karate, knife attacks and gun shooting all portrayed on stage. There is also a hilarious drag scene featuring a spoof of Dolly Parton. Performances will be held at 7:30 each evening. Admission is \$2 with a college I. D. and \$3 without.

## Sheep Dog Trials Set For Alamo Village

Shahan Ranch Foreman Jimbo Holland shows off "Tag" for an Alamo Village Crowd.

By LASHAWN WARDLAW  
Alamo Village Public Relations

"Away-to-me" and "come-by" will be commands used by the handlers at the Alamo Village Sheep Dog trials in Brackettville November 2 - 3 from 7:30 a.m. until 5:00 p.m. Come watch the unbelievable skills and intelligence displayed by the handler and dog teams from across the state of Texas and visit movie location, *Alamo Village*.

Sheep dog trials had their beginning, much like America's sport of Rodeo, as a result of friendly banter about whose dog could perform certain feats better than anyone else's.

Bala, Wales, holds the distinction of having had the first sheep trials more than 100 years ago. This trial is still in existence. Trial courses were designed to test the skills of the sheep dog in a fashion so as to nearly duplicate conditions and difficulties found daily in duties of shepherding. Judging rules have been refined, over a long period of time, until a set of rules known as the International Sheep Dog Society's trial rules has been accepted as the standard.

Border Collies far outnumber any other breed for their abilities with livestock. Note the herding qualities,

the intelligence, loyalty, speed and obedience as they respond to the direction of the shepherds (handlers). Both voice and whistle commands are understood and obeyed by the sheep dog.

The Texas Sheep Dog Association was founded many years ago at San Saba, Texas, by a group of Border Collie enthusiasts. From this humble beginning sheep dog trials have spread throughout Texas at fairs, rodeos, and other events. Several smaller trials have sprung up in many towns and cities for many beneficial causes. The purposes of the association are to promote sheep dog trials in an organized manner, as well as to provide uniform rules and regulations.

There will be three different divisions: the ranch division is the combination of beginning dog and beginning handler; open ranch combines pro dog and amateur handler or pro handler and amateur dog; open is the final category which consists of pro dog and pro handler.

Each team will run a certain obstacle course in a set amount of time. A qualified judge will decide the winner. Jim Holland, Director of the Alamo Village Sheep Dog trial, competitor and foreman of the

Shahan Ranch said, "This trial is very important because the state finals are November 16 and everyone is trying to gather as many points as possible."

Some of the finest, such as Carter Whitney of Centerpoint and Herbert Holmes of Meridian, who finished in the top ten at the national competition in Wyoming, will be competing. Next year, the United States National Competition will be held in Kerrville, Texas.

Between divisions, or at break times, persons may wander the streets of Alamo Village and visit the John Wayne museum, as well as 17 other walk-in museums. The Trading Post, Indian Store, and Cantina will be open throughout the day for those wanting to shop and eat.

Talented people and talented dogs combined with the great ol' west November 2 - 3, 1991, makes for an entertaining week-end. Gate prices are \$5.00 per adult and \$2.50 for a child 6 through 11 years. Children under the age of 5 are free.

Come experience a Texas Sheep Dog Trial and visit the ol' west at Alamo Village in Brackettville.

For more information about the sheep dog trial and Alamo Village, please call 512-563-2580.

THE GREAT

## Judge Roy Bean Law West Of The Pecos FCS Historical Society Topic Speaker Charles Downing

Judge Roy Bean, Law West of the Pecos!  
 The Fort Clark Historical Society invites you to its monthly meeting Saturday, October 26, 1991, at 10:00 A. M. in the Saber Room at Fort Clark Springs.  
 The speaker will be well known border historian Charles G. Downing. His talks are always worthwhile and his knowledge of this area and its history is well known.

The life and times of the old ruffian and drunk, Judge Bean, who called himself the *Law West of the Pecos* will prove to be enlightening, educational, and entertaining.  
 The stories and lies told about Judge Bean are numerous but Downing will give us the real scoop.  
 Don't miss this great talk about another Texas "Hero." Everyone is invited!

## Halloween Safety Tips For Ghouls and Goblins

TEMPLE--Halloween is almost here, and everyone is preparing for the big night. Although having fun and filling up those trick-or-treat bags are foremost in their minds, children need to remember to follow safe practices. According to the Department of Emergency Medicine at Scott & White in Temple, parents should keep in mind the following safety tips:

- \* Make costumes short enough so the child won't trip when going up and down stairs.
- \* Use white colors or big patches of white on the costumes to ensure good visibility.
- \* Use fire-retardant fabric for the costumes or treat the material with a chemical fire-retardant.
- \* When making masks or hoods, cut out holes in them that are large enough to assure easy breathing and good vision. Using makeup or face paints instead of masks is an even better idea.
- \* If face paints are used, make sure that they are designed

specifically for this purpose, they are non-poisonous and that the paint can be washed off easily.

- \* When lighting Jack O'lanterns, use small flashlights -- not candles -- in order to prevent fires.
- \* Have an adult accompany the children while they are trick or treating.
- \* Trick or treating should be done before dark, especially if you have young children. Set a curfew for the older children and enforce it.
- \* Instruct the children to stay in their own neighborhood and to call on only people they know and trust.
- \* Give each child a flashlight and remind him or her not to shine it into anyone's eyes, especially someone driving an automobile.
- \* To prevent falls, remind children to use sidewalks instead of cutting across yards and vacant lots.
- \* If your child gets sick, try to find out exactly what he or she ate and where it came from. Call your doctor immediately or contact the Scott & White Poison Control Center at (817) 774-2005.

### SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS For the November 5, 1991, Election John Hannah, Jr., Secretary of State

This November, Texans will have the opportunity to vote on 13 proposed amendments to the Texas Constitution. To help you make informed decisions on these propositions, we present the following summaries of the proposed amendments. Below you will find the proposition as it will appear on the ballot followed by a brief description of the effect the proposition will have if it is passed.

#### Proposition 1:

"The constitutional amendment allowing home-rule cities with a population of 5,000 or less to amend their charters by popular vote."

**Summary:** A home-rule city is a city that is able to govern itself, generally through the actions of a city council or commission. To become a home-rule city, a city must have a population of at least 5,000, it must hold an election to become a home-rule city, and the measure must pass by a majority vote. Once a city becomes a home-rule city, it may adopt a charter, and this charter may be amended through an election every two years. However, under current law, if the population of a home-rule city falls below 5,000, the city is no longer allowed to amend its charter. If passed, this amendment would allow home-rule cities whose populations have fallen below 5,000 to continue to amend their charters through elections.

#### Proposition 2:

"The constitutional amendment mandating the repayment to the Department of Transportation of monies expended to assist the Texas Turnpike Authority in the construction, maintenance, and operation of turnpikes, toll roads, and toll bridges."

**Summary:** If passed, this amendment will allow the legislature to authorize the Texas Department of Transportation to spend money on turnpikes, toll roads, or toll bridges of the Texas Turnpike Authority. The Department of Transportation may use any available money that it has for this purpose. However, if the Department of Transportation uses money from the state highway fund, this money must be replaced by money collected by the Texas Turnpike Authority from tolls and turnpike revenue. Currently, the state is not allowed to use any public money to build or maintain toll roads or turnpikes.

#### Proposition 3:

"The constitutional amendment to authorize the legislature to further implement and enhance the administration of the veterans' housing assistance and land programs and to expand the investment authority of the Veterans' Land Board."

**Summary:** If passed, this amendment would ease the restrictions on how the Veterans' Land Board can invest money from the Veterans' Land Fund and the Veterans' Housing Assistance Fund. The board may invest any money that is not to be used for the payment of principal and interest on bonds, the purchase of lands, or the payment of expenses. In addition, the board is no longer limited to investing this money in bonds or securities of the federal government.

#### Proposition 4:

"The constitutional amendment authorizing the issuance of up to \$1.1 billion in general obligation bonds for acquiring, constructing, or equipping new prisons or other punishment facilities to confine criminals, mental health and mental retardation institutions, and youth corrections institutions, for major repair or renovation of existing facilities of the institutions, and for the acquisition of, major repair to, or renovation of other facilities for use as state prisons or other punishment facilities."

**Summary:** If passed, this amendment will allow the state to issue up to \$1.1 billion in general obligation bonds. The money from selling these bonds will be used to acquire, construct, or equip new prisons and substance abuse facilities, mental health and mental retardation institutions, and youth corrections institutions. This money will also be used to repair and renovate existing facilities. The bonds and interest on the bonds will be paid from the first money coming into the state treasury that is not set aside by the state constitution for other purposes.

Note: A general obligation bond is a bond that is repaid from the State's general revenue fund. Most of the money in this fund comes from state taxes and fees.

#### Proposition 5:

"The constitutional amendment authorizing the exemption for ad valorem taxes of certain property in an enterprise zone."

**Summary:** This amendment deals with property owned by an individual or organization that does business in an enterprise zone. If passed, this amendment would allow a county, a junior college district, or a municipality to exempt certain personal property from ad valorem taxation. To be exempt from this tax, the following conditions must be met: (1) the property must be acquired or brought into the state in an enterprise zone to be forwarded outside the state; (2) the property must be assembled, stored, repaired, maintained, manufactured, processed, or fabricated in the enterprise zone; (3) the property must be transported outside the state within 175 days after being acquired or brought into an enterprise zone; and (4) the person who acquired or brought the property into an enterprise zone is in a qualified business.

The purpose of this amendment is to encourage economic development in enterprise zones. Because some personal property will not be taxed, it will be less costly to operate a business in an enterprise zone.

Note: An ad valorem tax is a tax imposed on the value of property. An enterprise zone is an area that has substantial poverty, unemployment, and economic distress. A qualified business is a business that is actively engaged in a new business in the enterprise zone or is expanding a business that is already active in the enterprise zone. "Enterprise zones" and "qualified businesses" are designated by the Texas Department of Commerce.

#### Proposition 6:

"The constitutional amendment creating the Texas Ethics Commission and authorizing the commission to recommend the salary for members of the legislature and the lieutenant governor, subject to voter approval, and to set the per diem for those officials, subject to a limit."

**Summary:** If passed, this amendment will create a Texas Ethics Commission that is established by the Texas Constitution. The commission will consist of eight appointed members. These members will be selected by the Governor, the Lieutenant Governor, and the Speaker of the House from lists of names submitted by legislators from each major political party. This commission can recommend the salary of the members of the legislature. It can also recommend that the salary of the Speaker of the House and the Lieutenant Governor be higher than the salary of the other members. If the commission recommends a change in salary, the voters of the state will be able to accept or reject the salary change at the next general election for state and county officers. If the voters approve the recommended salary, the salary will take effect on January 1st of the next odd-numbered year. If the voters reject the salary, the salaries would remain the same. In addition, the commission can set the per diem of the members of the legislature and of the Lieutenant Governor. This per diem could be raised or lowered every two years, as necessary. The commission will also have other powers and duties as provided by Senate Bill 1, 72nd Legislature, Regular Session (the ethics bill). Finally, this amendment provides that an increase in the Lieutenant Governor's salary will not disqualify a legislator from becoming Lieutenant Governor.

If this amendment does not pass, there will still be a Texas Ethics Commission that is established by statute. This commission could not set the per diem of the members of the legislature.

Note: A commission that is established by the Texas Constitution can only be repealed by the voters. A commission that is created by statute can be repealed by the legislature.

#### Proposition 7:

"The constitutional amendment to allow the board of trustees of a statewide public retirement system to invest the funds of the system in a manner that the board considers prudent."

**Summary:** If passed, this amendment will change the way in which the board of trustees of each statewide public retirement system can invest the system's funds. Currently, a board can only invest its retirement funds in securities (stocks, bonds, etc.). However, if this amendment passes, a board may invest its retirement funds in any way that it thinks is prudent.

#### Proposition 8:

"The constitutional amendment authorizing the voters of this state to consider state debt questions in the form of ballot propositions that must clearly describe the amounts, purposes, and sources of payment of the debt only after approval of the propositions by a two-thirds vote of each house of the legislature."

**Summary:** This amendment deals with the way that voters will vote on legislative action that would create a debt for the State. Currently, all propositions that create state debt must be approved by two-thirds of each house of the legislature and by a majority of voters during a constitutional amendment election. When these propositions are passed, they actually become part of the state constitution.

If passed, this proposition would still require propositions that create debt to be approved by a two-thirds vote of the legislature and a majority of the voters. However, when these propositions are passed, they will not become part of the state constitution. Instead, they will be enacted by statute. In addition, when the proposition is placed on the ballot, it must clearly describe the purpose of the debt, the cost of the debt, and how the debt will be repaid. The amount of the debt in the proposition can not be exceeded or renewed unless the proposition says that the debt can be exceeded or renewed.

Note: Creating a debt for the State means spending money that the State does not currently have. Selling bonds is one way that State debt is created.

#### Proposition 9:

"The constitutional amendment authorizing the commissioner of the General Land Office to issue patents for certain public free school land held in good faith under color of title for at least 50 years."

**Summary:** This amendment deals with lands that are technically owned by the state of Texas. In some cases, people have purchased or acquired this land from someone other than the State. While the State still technically owns this land, some people who purchased or acquired the land did not know that the land was owned by the state. From the time that these people purchased or acquired this land, they have believed that they are the legal owners.

If passed, this amendment will allow the Land Commissioner to give the legal title for this land (called public free school land) to certain people. A person is entitled to receive a legal title to this land if: (1) the land is surveyed public free school land; (2) the person could not gain the land's title under previous law; (3) when the person acquired the land, he or she did not know that the land was legally owned by the state and has believed that he or she has owned the land since January 1, 1941; (4) the person has a recorded deed on file in the county courthouse and has claimed the land for at least 50 years as of January 1, 1991; and (5) all taxes on the land, including any interest and penalties for late tax payments, have been paid for at least 50 years.

Note: Public free school fund land is owned by the State. Any revenue that this land generates (through sale, rent, etc.) is placed in the Permanent School Fund.

#### Proposition 10:

"The constitutional amendment authorizing the legislature to exempt from ad valorem taxes certain property of a nonprofit corporation that supplies water or provides wastewater service."

**Summary:** This amendment deals with property owned by a nonprofit corporation that supplies water or provides wastewater services. If passed, this amendment will allow the legislature to exempt property that is owned by these corporations from ad valorem taxes. In order for this property to be exempted, the nonprofit corporation must meet the following conditions: (1) the corporation's bylaws must say that, if the corporation stops operating, any leftover assets must be transferred to an organization that provides water supply, wastewater service, or both; (2) the leftover assets must be property that can be used for water supply and wastewater services.

Note: An ad valorem tax is a tax imposed on the value of property.

#### Proposition 11:

"The constitutional amendment authorizing a state lottery."

**Summary:** If passed, this amendment will allow the State to operate lotteries. The State would also be able to contract with other organizations that would operate lotteries on the State's behalf.

#### Proposition 12:

"The constitutional amendment to increase from 20 percent to 50 percent the percentage of Texas water development bonds previously authorized by Texas voters that may be issued for economically distressed areas."

**Summary:** This amendment deals with reallocating a percentage of the \$500 million of Texas water development bonds that were approved by Texas voters in 1989. These bonds were to be issued to fund water supply, water quality, and flood control projects. Currently, the board is limited to issuing 20% of the \$500 million (or \$100 million) of these bonds to provide water and wastewater facilities to economically distressed areas of the state. If passed, this amendment will allow the board to issue up to 50% of the \$500 million (or \$250 million) of these bonds for this purpose.

#### Proposition 13:

"The constitutional amendment providing for the issuance of general obligation bonds not to exceed \$300,000,000 to continue existing programs to provide educational loans to students, with repayments of student loans applied toward retirement of the bonds."

**Summary:** If passed, this amendment will allow the Texas Higher Education Coordinating Board to issue up to \$300 million in general obligation bonds. The money from selling these bonds will be used to finance educational loans to students. In the past, all bonds in this program have been retired through repayments from student borrowers, not the taxpayer.

# Property Taxes up 5.7% Statewide

In recent years, Texas' total property tax levy has risen slightly faster than inflation, mainly because of sharp increases in school taxes. The increase in county and city property taxes in 1990 lagged well behind the rate of inflation.

School districts assess more than half of all property taxes in the state. The 1990 school tax levy, \$6.61 billion, was up 8.8 percent from 1989, virtually the same upturn as the year before.

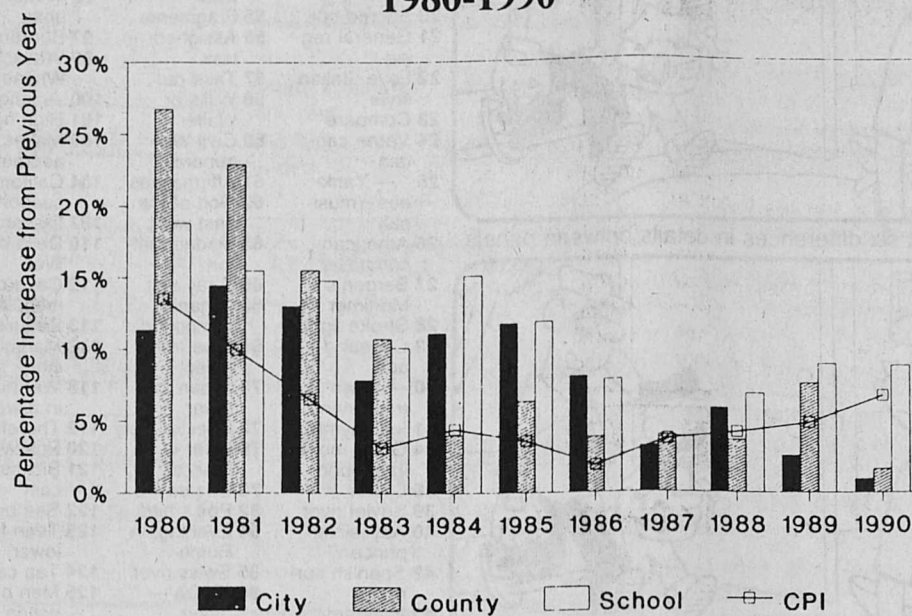

County property taxes for 1990 totalled \$1.74 billion, while city taxes totalled \$2.22 billion. These totals reflected only minor increases from 1989.

Since 1986, 105 counties and 135 cities have adopted an additional 0.5-percent sales tax to offset property taxes. According to State Property Tax Board analysts, slower growth in county and city property taxes in the past few years is largely due to this new revenue source.

Special districts, the smallest category of taxing units, imposed \$1.35 billion in 1990 taxes, an increase of nearly 5 percent over 1989.

The 1990 statewide average tax rates per \$100 of value were \$1.068 for school districts, \$0.55875 for cities and \$0.29012 for counties, the SPTB found. The average school tax rate was up almost 8 percent from 1989, while city and county rates each rose about 2 percent. These rates are calculated by dividing the overall local tax levy by the local tax-roll value.

Annual Change in CPI and Property Tax Levy 1980-1990

## Taxing Unit Trends

Statewide Property Tax Levies by Unit Type 1990 vs. 1989

Unit Type	1990 Tax Levy	1989 Tax Levy	% Increase, 1989-1990
School districts	\$6,605,434,000	\$6,072,227,000	8.8%
Cities	2,219,080,000	2,200,415,000	0.8%
Counties	1,743,177,000	1,715,692,000	1.6%
Special Districts	1,346,892,000	1,284,165,000	4.9%
Total	\$11,914,583,000	\$11,272,499,000	5.7%

## State/Local Breakdown

Looking at the share of the property tax in total state and local taxes, one must take into account different collection cycles. Thus, sales and use taxes collected and spent in fiscal year 1990 (ending August 31) should be compared with the 1989 property tax levy of \$11.27 billion, which local governments spent in 1990.

On this basis, all state and local taxes in 1990 totalled roughly \$26.69 billion. Property taxes remained the single largest segment at 42 percent of the total, virtually the same share as in 1989.

State sales taxes, the next largest revenue source at \$7.59 billion, represented 28 percent

of all taxes, also identical to the 1989 share. However, sales tax collections rose 9.8 percent, compared to the 6.8-percent rise in property taxes from 1988 to 1989. Since 1986-1987, sales tax collections have risen much faster than property tax collections, as economic conditions have improved, the sales tax base has been broadened, and the sales tax rate has increased.

Other state taxes—including (but not limited to) severance and motor fuels taxes, franchise taxes and "sin" taxes—accounted for 23 percent of all 1990 taxes. City sales and mass transit authority (MTA) taxes and county sales taxes combined for 7 percent.

## State and Local Shares of Texas' Total 1990 Taxes

Local property taxes now account for about 42 percent of all taxes collected by Texas state and local governments. The property tax share was as high as 46 percent during 1986-1987, when sales tax collections were falling because of the statewide recession. In the early 1980s, though, property taxes made up less than 40 percent of all state and local taxes. (Sources: State Property Tax Board, Annual Report for Tax Year 1990, and Bob Bullock, Texas Comptroller of Public Accounts, 1990 Annual Cash Report.)

## Just For The Fun Of It

Where were you born: Carthage, Missouri.  
 What is your favorite food: Lasagna.  
 How do your friends describe you: Cheerful and friendly.  
 Describe yourself: A caring, loving person who enjoys life.  
 What is your favorite movie: Ben-Hur.  
 What is your favorite book: Stranger in a Strange Land.  
 If you could go anywhere, where would you go: Ireland.  
 What would you like to be if you could change your life: Exactly what I am today - High School Math Teacher.  
 If you could change Brackettville, how would you change it: I would like all the people of Kinney County to work together in harmony.

"Stay in school, and you can win the gold in your own life." *Kevin V. Saunders*

Kevin Saunders, World Champion

Central Power and Light Company is proud to bring Kevin Saunders, World Champion and Gold Medalist many times over, to schools throughout South Texas.

"My goal," says Kevin, "is to inspire all ages through my own experience and to stress the importance of education for all children. After all, staying in school is the first step toward living your dream."

Kevin's tour of area schools has already begun. It's just one of the many educational programs CPL supports for the future of South Texas.

# Go Tigers Go

**Natasha's Stars**

**ARIES** (March 21-April 19) You're nearly unstoppable. The moon gives you high energy, endurance and the charisma to accomplish much. Use good sense. You're at your wildest in the middle of the week, when no one may dare deny you. At week's end, you evaluate your worth. Look past the dollars and cents. You roll into the weekend full of confidence, ready to enjoy yourself.

**TAURUS** (April 20-May 20) Don't let current events sour you. Use the time to plot your direction. You are a force to be dealt with after the full moon. Take action late in the week when the moon beams down its lucky vibes. Celebrate this weekend, but be careful not to overindulge.

**GEMINI** (May 21-June 20) You drew the wild card this week. Be careful. You may get your wish. For every up, there is a down. You may be singing the blues later in the week. You perk up just in time to socialize this weekend. Hope you like roller coaster rides.

**CANCER** (June 21-July 22) Pressure doesn't build — it's already there as the week begins. By midweek, you may feel that enough is enough. Things change for the better later in the week. People take their proper places and you get the respect you seek. Stay calm and rest on the weekend.

**LEO** (July 23-August 22) Use every ounce of your creativity this week. You could play the role of peacemaker, soothsayer, or even defense attorney. Others tell you their problems — and you have your own. Stay out of trouble until the weekend when the good kind finds you.

**VIRGO** (August 23-September 22) Hope that your sign's reputed precision is present in your checking account. Hold on tight until midweek when you discover the damages. Fortunately, you're in a problem-solving mode and you can handle the challenge. Alas, responsibility calls this weekend.

**LIBRA** (September 23-October 22) If you thought the last full moon was wild, wait until midweek. Partners specialize in uproar. You may even think they took classes — Upset I and Upset II. Nothing chills out until late in the week. You may consider going on retreat this weekend.

**SCORPIO** (October 23-November 21) Push comes to shove with work and energy. Demands are everywhere. Don't lose your cool. By the end of the week, it becomes apparent the pressure was worth it. Bosses admire your capacity; admirers put you on a pedestal. Make the most of all this attention.

**SAGITTARIUS** (November 22-December 21) Don't take a loved one for granted or you could be in store for a shock. The person you may have discounted comes through for you with flying colors this full moon. By midweek, you may have had enough and tackle work hard. You'll be more than ready for a lively weekend.

**CAPRICORN** (December 22-January 19) You feel pressured by work and home demands. It will take all your flexibility to stay cool. By midweek, you long for the weekend — so pretend it is. Make the most of your sensuality. You may need the weekend to rest up.

**AQUARIUS** (January 20-February 18) You enjoy the hectic pace, with people popping in and out. You get a full dose of social interchange. By midweek, you'll be happy to hide away from the flurry of activity. Over the weekend, you emerge from your cocoon, ready to be a free spirit.

**PISCES** (February 19-March 20) The unexpected occurs, and money could vanish if you're not careful. Avoid financial risks this week. Talks midweek reveal good news. Rethink recent decisions, based on this new information. Plan on a cozy weekend with family, friends and a special loved one.

Veterans Post by Freddy Groves

INSURANCE CHANGES: The Department of Veterans Affairs has made some changes that should enhance insurance programs for both veterans and beneficiaries. One change involves extending the eligibility period for applying for Service Disabled Veterans Insurance (SDVI) from one to two. This means vets now have two years from the onset date of a service connected disability rating to apply for SDVI coverage. Another change involves the status of vets who were declared mentally incompetent from a service connected disability. Under another provision of the new law, all awards for gratuitous SDVI will be paid in a lump sum. Gratuitous insurance is granted if a vet becomes incompetent due to a service connected disability while eligible to apply, but dies before an application is filed. The change affects awards currently being paid in installments, as all new awards.

There are conditions, including start dates, for eligibility in some circumstances. For more information, call toll free, 1-800-869-8477.

Office of the SECRETARY OF STATE

John Hannah, Jr.  
SECRETARY OF STATE

Secretary of State John Hannah will hold a press conference in Del Rio regarding the November 5 constitutional amendment election.

TIME: 3:30 p.m.  
PLACE: Del Rio International Airport Lobby  
DATE: Monday, October 28

We want you and your staff to attend and ask questions. It is important that voters be educated concerning these amendments - many vitally affect the future of Texas. And once informed, they need to be encouraged to vote. We hope you can help in this effort.

Also attending this press conference will be local government officials and representatives of the League of Women Voters.

For more information, please call Katy Davis (512)463-5722.

SCOTT & WHITE OPTIONS FOR HEALTH

A Look at Osteoporosis

Jeffrey A. Jackson, M.D.  
Department of Internal Medicine at Scott & White Hospital and Clinic and Associate Professor of Medicine, Texas A&M University College of Medicine

Q: I'm a 60-year-old woman and recently I took a bad fall. The doctor took several x-rays and told me that I hadn't fractured anything, but he said my bones are thin. Does this mean I might have osteoporosis? What should I do?

A: It is good that your doctor did not see a fracture on your x-ray, but he apparently saw some decrease in bone density on the films. This usually indicates the condition called "osteopenia" rather than osteoporosis. Osteoporosis is characterized by decreased bone density with fractures of the wrist, spine or hip. However, osteopenia can turn into osteoporosis by the occurrence of a fracture, and I would suggest some additional studies to further assess your risk of fracture. There have been a number of recent developments in the area of bone density measurement. The best techniques measure bones in sites prone to fracture, such as the spine and hips. Dual photon absorptimetry (DPA)

and quantitative computed tomography (CT) are both utilized in various medical centers. DPA is generally preferred due to lower cost and less radiation exposure. The newest device is dual-energy xray absorptimetry (DEXA), which has the greatest accuracy and reproducibility between tests.

Depending on the results of the bone density study, your doctor may then recommend several treatments to help keep your bones from getting thinner. Estrogens such as Premarin® 0.625 mg. daily are frequently recommended and have beneficial effects in reducing coronary heart disease and heart attacks, and in bone preservation. For women who have not had a hysterectomy, estrogen is usually combined with a progesterone (like Provera®) to minimize the risk of estrogen therapy alone. Women on estrogen should take 1000 mg. of calcium daily. Postmenopausal women not on estrogen need 1500 mg. of elemental calcium daily. A glass of milk has about 250 mg. of calcium. I now usually recom-

mend non-generic calcium supplements such as OsCal® or CitraCal® due to questions about absorption reliability of the generic preparations (TUMS® with 165 mg. elemental calcium per chewable tablet is an inexpensive form of therapy).

Of course, other measures are important, such as regular exercise, avoidance of cortisone-like steroid shots or pills and avoidance of tobacco smoking and excessive consumption of alcohol. If your bone density values are below the "fracture threshold," careful avoidance of falls, bending at the back, lifting, reaching, pushing, etc. will be quite important.

A number of experimental approaches (such as sodium fluoride, Didronel [Etidronate], etc.) are available for the treatment of established osteoporosis. However, prevention (by maintenance of adequate calcium intake throughout life, estrogen at menopause for women, and other measures as above) is the key since "putting back" bone which has been lost is quite problematic and difficult.

If you have a question please write to "Scott & White Options For Health" in care of your local newspaper.

**Meditations**

by Preston Taylor

Depression. Ever have it? Such a feeling comes after a shattering defeat. The Dallas Cowboys and many of their fans awakened the morning after their last Super Bowl loss with a stay-on case of the blues. All the "if I had only" ideas can't ease yesterday's fall.

A nagging, tired feeling leaves a person stranded in a sea of despair. An energy filled individual does not have to cope with the "blahs" like an exhausted person.

A rejected feeling shoves a struggler further down into some haystack of depression. The heart cries out for help. If that need is not answered, the lonely, depressed person develops a behavior pattern that isn't good.

Is there hope? Yes. Take on new route habits. Walk a new route to work. Cultivate healthy interests. If needlepoint, fishing, reading, tennis, "42," TV, golf or leaving the house or office "helter-skelter" for a couple of days helps you, try that. If standing on your head gives you an answer that's needed, go that route - of course, this means making some

big changes so that fresh breezes may blow into your life.

Look around you. Someone else may need you. Help that cheers up another person will also work a miracle in your own life.

Realize, too, that we are often our own biggest problem. Since babyhood many of us have been pampered on occasions. And that's a cozy feeling. We run like crazy to that "depression blanket" to get that "at home" feeling. We want solace. In the long run, however, such a maneuver only traps us in an unending, deepening rut. There's a better way.

Let the preacher mention God as a vital part of everyone's need. Life cut off from a genuine commitment to the Living Lord is a never-ending delusion.

Include Christ and broad friendships in life and you will have an unending foundation that the storms can't destroy.

**Frontier Baptist Church**

by Joe Townsend

Things are gradually coming back to normal at Frontier Baptist Church.

Our winter Texans are coming back. Our travelers are mostly at home so our fellowship is again a broad and rich experience.

There is only one motive embodied in Frontier Baptist Church; worship of God.

Because this is the heart's desire of Frontier Baptist Church the ramifications reach wide variations.

**The Bible Says**

"It is appointed unto man; once to die."

There will indeed be many people living in the world who will never die. Someday, Jesus Christ will return in person and all who are His and alive will be called up to meet Him in the air where they will join with all of God's children who have ever lived because they will be caught up to meet Him first.

This could be tomorrow, or it may be a million years from now; only the Father in Heaven knows.

Chances are He will not come in our lifetime. In that event, we will die. When death claims a person his eternal destination has already been chosen.

If he has chosen Jesus Christ as a personal savior, he will go to be with God. If he has not placed his faith in Jesus Christ, that soul will go on to an eternal hell.

This applies also to all who have gone before. This same rule applies to all who are alive when Jesus returns.

**Del Rio Concerts**

Duo-pianists Anthony and Joseph Paratore will open the season for the Del Rio Community Concerts Association when they appear at Paul Poag Theater, 746 S. Main, at 7:30 p.m. Tuesday, October 29, 1991.

Admittance is by membership card only. Membership cards are transferrable, and a few are reserved for recent arrivals in the community. Contact Carol Cooper at 512-774-2296 for information.

Additional concerts will feature the Benny Goodman Big Band Salute on January 21, 1992; A Broadway Celebration presented by Lainie Nelson, George Ball, Susan Watson, and Dan Gettinger on March 5, 1992; and the acoustic duo of Neal and Leandra on March 30, 1992.

**Unsung Hero**

by Joe Townsend

A very fine woman married into a family that would be considered *Old Timers*.

She moved into Brackettville several years ago. She taught school for a while then left to finish her education.

She came back and is an important part of the faculty.

When her parents were having physical problems, she cared for them faithfully. She is a very jovial person and a friend to anyone who will allow her to be.

She is faithful to her church and devoted to her husband. She is a thoughtful and devoted mother. She is caring and helpful to anyone in need.

Surely Mary Louise Veltmann is an "Unsung Hero."

**Chip's Loving Tribute To His Father**

Editor's Note: Mrs. Eva Clare Dooley shared the tribute that "Chip" Utterback wrote and delivered at services for his father. Lt. Col. Lloyd Utterback. Thank you, Mrs. Dooley, for permitting us to use it.

It's wonderful to see good friends and family here today. Mom, Josh, and I want to thank you all for coming today to share with us our last formal celebration of Dad's life.

I called this a celebration because that's how I see it, and it is certainly the way Dad would have wanted it. He was a tough old Soldier with a strong will to endure, and he had a deep faith in God, and the promise that lies beyond on life here on earth. For that reason, I say it is a celebration. But there is a lot to smile about today. First, we're gathered in a place only a few miles from where he learned to fly airplanes. He loved to fly airplanes, and his passion for it made him one of the best. To this day I meet men who flew with Dad who talk of his stick and rudder skills...he was a natural...But mostly, they talk about how he taught them...taught them not only the discipline demanded of fighter pilots, but planted in them a love of the air that can only be shared between aviators...He loved to fly and this is where it began. For that, I can smile today.

Today is a day to celebrate his values. Loyalty, Integrity, and respect were three words held sacred...three values he demanded. Whether he was leading a flight into combat in the sky over Korea or Vietnam, or at home with us, he demanded loyalty...But he never failed to repay us with his...Integrity was absolute...without it your wingman won't make it home" he would say...We were all his wingmen, and we all made it home.

Respect, well he earned it many times over, and again he repaid all of us with his...For that, I can smile today. He proudly wore this uniform for nearly 30 years. Its respon-

sibilities engulfed him until the day he died. He hated violence. But, I think, most important, he believed in our nation, and he believed in the fight for freedom around the world. His loyalty was to that calling...and our loyalty to him.

Over 400 times he flew into battle, but he was a Gentle Man. When I wrecked his brand new Cadillac, I expected the worst, but he just said he was disappointed...I would have rather been beaten. His little Jodie Blonde, on the other hand, probably deserved a spankin' much more than I, but she was his baby, and he protected her and loved her with all his heart. He was so proud of you Josh. And for that I can smile today. Today is also a celebration of the love that Mom and Dad share. They just liked being together, and we're here today instead of 10 years ago because of that love. Whether it was a one room apartment in La Junta, Colorado, the fun times in Peru, or the painful, tragic times when they had to tell a young wife her husband wouldn't be coming home, they were a glorious team. For that, I can smile today.

Today is a celebration because Loyd Utterback leaves a legacy embodied in a wife who dearly loved him, two children who adored him, and four grandchildren who live in happy, loving and caring homes. That is his gift for our future. For that, I can smile today.

Dad fought his final battle on Saturday, October 5th, and he won. It was a battle fought with great dignity, honest humility, uncommon strength, and profound courage...and he won.

He's with God now...and he can fly again. And for that, I can smile today.

**Rehab Fund For Kohls**

A fund has been set up to defray expenses for the rehabilitation of Kallie Kohls of Garden City.

Kallie, the 15-year old daughter of Norman and Kathy Kohls, was seriously injured in a farm accident September 18. She is presently in Midland Memorial Hospital but is expected to be transferred to San Antonio soon. Her hospital stay and rehabilitation are expected to be

quite lengthy. Her father is the Glasscock County extension agent and is well-known in the sheep, goat and swine industries.

Contributions may be made to the Garden City Lions Club - Kallie Kohls Rehab Fund and sent to the Garden City Lions Club, c/o Warren Multer, P. O. Box 237, Garden City TX 79739.

**Joshua Evan Brooks**

**It's A Boy!**

Joshua Evan Brooks was born at 12:43 A. M. October 10, 1991, at the home of his grandparents, Jovita and Luis Aguilar in San Antonio.

Joshua's parents are Cecelia and Chris Brooks who live at 7826 Misty Park in San Antonio. Both parents attended school in Brackettville.

He is welcomed by grandparents Patti and Pat Foster of Brackettville, and Jovita and Luis Aguilar of San Antonio. His great grandmother on the maternal side is Dorothy Payne of Fort Clark Springs, and his paternal great grandfather is Pedro Benites of Brackettville.

**Obituary**

**Fidelia Aguirre Duran**

Fidelia Aguirre Duran was buried in Kinney County Cemetery Thursday, October 24, 1991, following a 10:00 A.M. service at St. Mary Magdalena Catholic Church officiated by Fr. David Zumaya.

Mrs. Duran was born March 2, 1936, in San Carlos, Coahuila, Mexico. She died October 18, 1991,

at Val Verde Memorial Hospital, Del Rio. She had resided at 305 W. First Street, Brackettville.

She is survived by her husband, Esperidion Duran, Brackettville; daughter, Genoveva Medina, Brackettville; sons Lasaro, Ervey and Carlos Duran of Wisconsin, Alvaro Duran of California, Aurelio and Mois Duran of Florida.

**Nadine Fuller**

After fighting a very long, courageous battle with cancer, Nadine went to join the angels on October 21, 1991. She was born in Hamilton, Georgia, on August 7, 1925. She was 66.

Nadine had worked as a job developer for the Del Rio AARP for four years prior to her sickness. She was also a member of the American Cancer Society.

She is survived by her mother, Bessie Hancock of Decatur, Georgia two brothers, Junior Hancock of LaGrange, Georgia and Sydney

Hancock of Decatur, Georgia, her husband, Estelle (Curley) Fuller, her sons William (Bill) Sampson of Fort Clark Springs, Texas, Joe A.
