

WHITTLIN

By DOLPH MOTEN

A farmer we know says he guesses if he had enough of his own money to make a crop, he'd be afraid to put the crop in.

There must be an economic lesson there somewhere.

Men's styles, like it or not, change.

We spent the early part of our life thinking that style changes were just for fickle and changeable women folks, but it just hasn't worked out that way.

Men's styles, too, even with us constantly dragging our feet, constantly change and now it seems they're changing much faster than they did in the past. That part might be imagination or an early lack of observation by us.

In the past few years, for instance, they've done away with pleated trousers with flared out, reasonable-sized leg bottoms and replaced them with shotgun-straight legs so small at the bottom that you have to take your socks off to get 'em on. Frankly, they've changed the dress-up style to cowboy style whether the city slickers like it or will admit it or not. A modern-cut suit of today and a stylish Western-cut suit will be so similar in design that it'll take more of a fashion expert than are most cowboys to know the difference. Pants pockets, for instance, are cut Western style . . . or at least like Western style used to be when we first started paying attention.

Too, these same pants fit so tight they look as if they were designed to be worn in the saddle. That would be the most appropriate place to wear them. And the only kind of horse these people who are promoting them are apt to ride is a Ford Mustang or something.

Men's sideburns are gradually increasing in length, even locally, to the point where they're going to be Civil War-long.

This sideburn business may be all right, but we think we'd knock it if we were in the razor business. Looks from here as if it'll take fewer blades to shave with if you leave whiskers over half your face. Probably the result will be that haircut prices will increase because there will now be more hair for the barber to have to worry with.

Back to these shotgun-legged trousers: We're informed that the style may be going to a bell-bottomed effect that looks as if they'll be handy to lap over and wrap around and tuck into boots.

Sad part of the style changes is that they're changed --- just as are women's clothes --- for no good reason except to sell more clothes.

We don't like it, as we indicated in the beginning. We can put up with almost any style, just as long as they'll give us enough time to get use to and make adjustments to the changes.

We decided the no-pleat pants weren't so bad, after all, but it took a while to become accustomed to the change.

The designers and style-setters aren't interested in our kind to start with, thank goodness, but we'll try to go along with them if they just won't crowd us. And if they do continue to push and crowd, we'll just stay here and wait for them to come back by one of these days.

From reports, Friona's annual Maize Days celebration is going to be a good one this year. Understand that two Bovina girls are entered in the Maize Queen contest, set for Thursday, September 11.

It's almost time for another Bovina Business Cotton Bowl Football Contest. It all starts next week --- with the beginning of high school football season and ends 12 weeks later when most of the action is state play-offs and professionals.

This is just a week-early reminder that you'd best get your football guessing cap on and get ready to win that expense-paid trip to the Cotton Bowl come January 1, 1970.

We'll point out again, in way of encouragement, that it'll probably only take a percentage of .750 or so to win the contest again this year. That certainly doesn't sound difficult at this stage of the game, does it?

It gets harder, though, as the season progresses. But it was easy to win, it wouldn't be any fun to play. Watch for the first of the weekly contests next week.

This Week --

School's Enrollment Goes Over 600 Mark

Enrollment in Bovina Schools went past the 600 mark this week, Superintendent L. F. Jacobs announces.

Total enrollment as of Tuesday morning was 610. That figure is expected to continue to increase until the peak enrollment season which is normally in mid-October.

The enrollment total on the first day of school, Tuesday of last week, was 561, less than had been expected.

Making up the 610 total as of this week were 285 students in grades one through six; 165 in junior high, grades six, seven and eight; and 160 in high school, grades nine through 12. Also, there are eight students

enrolled in special education. The number of students by grades in elementary school is 45, first; 62, second; 63, third; 45, fourth; and 70 in the fifth.

School officials expected a larger enrollment in first grade.

The present total is the same number which reported for

school on the opening day a year ago.

School was dismissed Monday for the Labor Day holiday. Classes resumed on normal schedule Tuesday morning.

Monday was the first holiday of the school year and will be the last until Thanksgiving, which is November 27, according to the school calendar. October 3 will mark the end of the first six weeks.

Supt. Jacobs said this week that there is an opening for a school bus driver in the afternoons. Either a man or a woman will be considered for the position, he said.

Sept. 8 - 14 --

Church Slates Gospel Meet

The annual Fall Gospel Meeting is set for next week at Bovina Church of Christ, announces Mickey Patterson, minister of the church.

Visiting evangelist will be T. Larry Marshall of Lamesa. Dates of the meeting are Sept. 8-14, Monday through Sunday.

Services will be conducted twice each day --- at 9:30 a.m. and 8 p.m.

"We extend a cordial invitation to everyone in the community to attend any or all of the services," Patterson says.

Announcement of the meeting is made in an advertisement in this week's issue of The Blade.

Weather By Willie

No comment but didn't I tell you about these showers during the past week!

---Willie

In School Auditorium At 8 p.m. --

Meet Here Thursday On Grain Referendum

A series of seven meetings is being held this week on the High Plains referendum which will come to a vote in early October in 29 counties.

Grain sorghum producers are urged to attend the meeting in their locality to familiarize themselves with the upcoming referendum, says County Agricultural Agent Ronny McNutt. The meeting to be held in Parmer County is scheduled for Thursday, Sept. 4. Bovina Schools Auditorium will be the meeting place. The meeting will start at 8 p.m.

Keynote speaker at each of the seven meetings will be Dr. Bill Black, extension economist in marketing and policy, head-

quartered at Texas A&M University.

Purpose of the referendum is to develop, carry out and participate in programs of research, disease and insect control, education and promotion designed to encourage production, marketing and use of grain sorghum. The referendum calls for an assessment of five cents per ton to be collected at the point of first sale.

A two-thirds majority vote is required or a vote of approval by farmers producing at least 50 per cent of all the grain in the 29-county area, explains McNutt.

In addition to voting on the five cents assessment, produc-

ers will also select a 12-man governing board. This board will be comprised of area grain producers who will have been nominated prior to the election.

Any producer may have his name on the ballot by submitting it in writing, along with the signatures of 10 other grain farmers, to the Grain Sorghum Producers Association in Lubbock by Sept. 1.

The board will have the responsibility of developing programs of research, promotion and education which they believe most vital to the grain producers of this area and use the funds for this purpose, explains McNutt. No funds will be used for political purposes.

The program if approved, will be voluntary in that any producer may get his money back if he so desires within 60 days after the date of collection.

Ballots will be sent to all grain producers in the area in early October. These will also be available at the county extension office, says McNutt.

Counties involved in the upcoming referendum are Parmer, Armstrong, Briscoe, Carson, Castro, Dallam, Deaf Smith, Floyd, Hale, Hansford, Hartley, Hutchinson, Moore, Oldham, Potter, Randall, Sherman, Swisher, Bailey, Cochran, Crosby, Dawson, Gaines, Hockley, Lamb, Lubbock, Lynn, Terry and Yoakum.

SATURDAY WRECK --- A Bovina man, Ricardo Sifuentes, Jr., 19, was critically injured Saturday afternoon when the car he was driving went out of control and was wrecked one-half mile south of the city limits on FM Road 1731. The automobile was demolished.

Saturday Afternoon --

Man Critically Injured In One-Car Accident

A 19-year-old Bovina man was critically injured in a one-car accident just south of Bovina on FM Road 1731 Saturday afternoon.

Ricardo Sifuentes, Jr., who was alone in the car at the time of the accident, was rushed to

Parmer County Community Hospital in Friona by Claborn ambulance. He was treated there and then transferred to High Plains Hospital in Amarillo. He remained in critical condition there this week.

The car Sifuentes was driving, a '64 Pontiac, was owned by a man in Houston, according to Highway Patrolman Mike Greer, who aided in the investigation.

At the time of the accident, which was approximately 5 p.m., Sifuentes was going south from Bovina on FM Road 1731 at what was believed to be a high rate of speed.

The car left the road on the left side of the pavement as it went up the hill from Running Water Draw, struck a power line pole, rolled back toward the road and came to rest in the deep ditch adjoining the pavement.

Sifuentes, whose home is in the Valley, had been working at Gateway Produce Co. He had been here less than a month.

Sifuentes had severe head injuries, according to Patrolman Greer.

Everyone Welcome --

Watermelon Feed Friday At 7:30

A community watermelon feed, with everyone invited, is scheduled for Friday at 7:30 p.m. at the school.

The event, which is sponsored annually by members of the board of trustees of the school district, is in honor of new teachers in the school system.

This year's feed will be at the football field or at the tennis courts at school, according to L. F. Jacobs, superintendent. The gathering is normally held at the football field. There's a possibility, however, that the football field will be without lights at that time as new lighting is being installed there. If that's the case, the watermelon eating will be at the tennis courts.

The informal affair will have no prepared program and no speeches. It is designed to be a session in which people of the community may become acquainted with new teachers, visit and enjoy the ice cold watermelon.

The function has been held early in the school year each year for the past several.

"Everyone is welcome to attend," Jacobs emphasizes.

Spears President --

Booster Club Plans Projects

A membership campaign was launched, expenditures were outlined and new officers were elected at an organizational meeting of Bovina Mustang Booster Club Friday in the high school library.

Wayne Spears was named president of the organization. He succeeds Don Murphy, who was head of the group during the past year.

Leonard Haney is secretary-treasurer and Grady Sorley is vice president.

Those present at the session agreed to have the club pay for installation of forced-air heaters in the fieldhouse, which was remodeled during the summer. Also, the organization will continue to pay for film and developing for the football games. This expenditure will be in the neighborhood of \$500 over the season.

Named to a committee to check into the heater purchase and installation were Sorley and Roy Allen.

Membership dues in the club are \$5 per person per year. Members will sponsor pie and coffee sale in the school cafeteria following home football games. This has been a fundraising project during the past couple of years.

Another meeting of the group

was set for last (Tuesday) night and Tuesday night was set as the regular weekly meeting time.

Coach Gilbert Hough spoke briefly to the club about the Mustangs' prospects for the forthcoming season.

People interested in joining the organization may contact one of the officers or other members.

No Hail --

Showers Keep Falling Here

The last week in August and the first two days in September were wet ones in this area. Showers continued to fall over most of the area.

There was no hard rain, hail nor high winds accompanying the Fall-like showers.

The rainfall hampered the crowds at the carnival which was in town last week causing the rides to close down early at least three of the six nights.

Total rainfall over most of the nearby area Monday and Tuesday mornings was approximately three-quarters of an inch. The moisture total was reported higher south and west of Bovina.

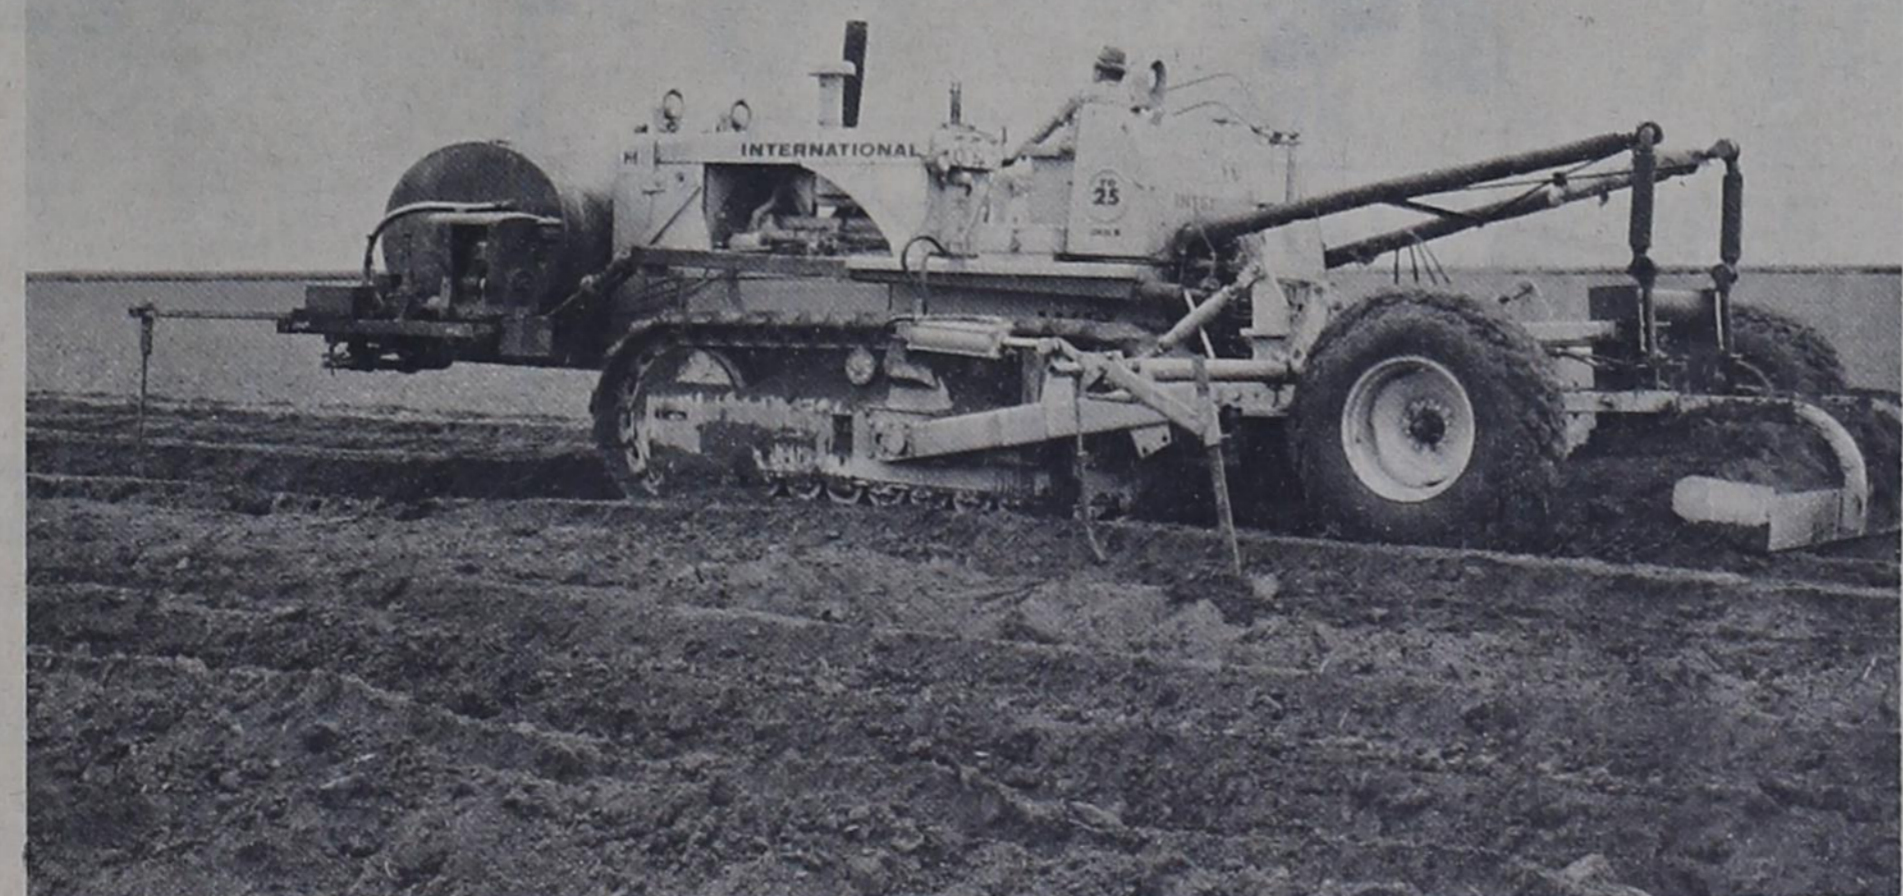

Mexican Dinner Sept. 14

Sunday, Sept. 14, is the date set for the annual Mexican dinner at St. Ann's Parish Hall, a spokesman for the church said this week.

There will be two serving sessions --- at noon and in the evening. Serving hours will be from 11 a.m. until 2 p.m. and from 4 p.m. until 6 p.m.

The donation which will be asked at the door is \$1.25 per person.

The public is invited to attend the function which has proven to be a highly successful function in years past.

REVOLUTIONARY IDEA --- An experiment, which could turn out to be of major importance to the area, was begun on two farms here last week. This crawler tractor rig is putting a layer of asphalt 22 inches under the top of the soil. The experiment will be conducted on three acres each of farms of Harold Hawkins and Grady Sorley. According to information in regard to the experiment, the asphalt layer stop fertilizer and water from going past that point, resulting in the need for half the normal amount of fertilizer and one-third the normal amount of irrigation water. Also, there's a possibility that the yield will be increased as much as 60 to 100 per cent. Mounted on the front of the tractor is a tank holding the asphalt. The rig at the rear of the tractor puts the asphalt in the ground.

Reflections

From
The Blade

TEN YEARS AGO:
 September 2, 1959
 Roy Whisler, high school principal, announces that a total of 110 students had registered in Bovina High School. School superintendent Warren Morton announces that Labor Day, Monday, Sept. 7, will be a holiday for students. With their season opener a week later than most schools in the area -- Sept. 11 -- Bovina Mustangs went under fire in a scrimmage session. Squads from Class AA Dimmitt and Class A Kress visited Coach Bob Willis' squad on the local gridiron.

Jerry Strawn and Danny Morton have been released from the hospital recovering from encephalitis, "sleeping sickness."

Members of Bovina Independent School Board of trustees approved a change of ratio of expenditures for the school's coming year at a called board meeting.

Nancy Cumpton, daughter of Mr. and Mrs. Allen Cumpton, and salutatorian of the 1959 graduating class, has received a scholarship to Wayland Baptist College, Plainview. City employees Henry Minter and John Wilson declared war on mosquitoes last week for the second time this summer. The last mosquito spraying was in June.

Sandra Jefferson, daughter of Mr. and Mrs. Charlie Jefferson will be teaching at an elementary school in Aztec, N.M. She is a graduate of Bovina High School and West Texas State.

SIX YEARS AGO:
 September 4, 1963
 Construction work is in progress this week on a new concession stand and restrooms for Mustang Field. The concrete tile structure will cost about \$2800.

A membership drive for the fledgling Bovina Mustang Quarterback Club is underway. Officers are Travis Dyer, president; Harry J. Charles, vice-president; and J. W. Harris, secretary-treasurer.

Fourteen businesses and individuals released 150 pheasants to help stock the county with game birds.

Former exchange student Elke Steffans writes from Germany wishing Bovinians the best, and describing life in her home country.

Bovina businesses will sponsor the third annual football contest, with the overall winner receiving an expense-paid trip to the Cotton Bowl.

Mardell Lynch, evangelist from Hobbs, N.M., will be the guest speaker at a gospel meeting at Bovina Church of Christ. Mustang Field is slated to be in tip-top condition for the first football game. New turf and recent showers have aided in getting it ready for the first game with Springlake.

Marriage Licenses

Five marriage licenses were issued from the office of County Clerk Bonnie Warren last week and two the previous week. Four of the permits to wed were issued in a period of a few hours on Wednesday afternoon and another couple obtained a permit on Friday.

Permits issued during the past week went to: Michael Robert Reithmayer and Rebecca Gaye Elliott; Roberto Rios Garza and Gloria Olivia Muniz; John Timothy Rhodes and Kathy Keller; and Jose Orozo Martinez and Sylvia Galvan; all on Aug. 27; Emery Joe Anthony Chumley and Cynthia Armstrong - Aug. 29; Enoch John Long and Pamela Joy Blair - Aug. 19; and Larry Vance Johnson and Debra Ann Jarecki - Aug. 21.

BOOSTER CLUB BUSINESS -- Don Murphy, outgoing president of Bovina Mustang Booster Club, displays automobile stickers supporting the Mustangs during an organizational meeting of the club Friday night. A membership campaign was launched at the meeting.

At St. Ann's --

Announce New Mass Schedule

Brother Lawrence Gorman, originally from New York, is the new assistant to Father Gerald Dunford, pastor of St. Ann's Catholic Church.

Christian At Case Meeting

Wendol Christian, manager of Oklahoma Lane Farm Supply, Parmer County Case dealership, returned recently from a four-day meeting in Wisconsin of more than 1700 Case dealers in North America. The convention featured displays and demonstrations of tractors and equipment. New lines were revealed as was a new symbol of the corporation. The exhibits included 22 all-new products -- four models of the new Agri-King 70 tractors and 18 other new Case Products.

Demonstrations of planting and harvesting of more than 800 acres of wheat, oats and corn were made during the meeting to show the utility of the new implements being introduced by Case.

Father Dunford announced the new assistant at a recent meeting of the Parish Council. Gorman was stationed at St. Joseph's in Hereford prior to coming here.

At the council meeting, catechism was scheduled. Registration will be Sunday, Sept. 7, following masses and classes will begin at that time. There will be religious instruction for adults at the Parish Hall, also. The Fall schedule for mass was established by the group. Mass at St. Ann's will be at 8:30 a.m. beginning Sunday. The mid-week mass was changed from Wednesday to Thursday. It will be at 8 p.m. This change is effective this week.

Mass at St. Teresa's Church in Friona will be at 10:30 a.m. each Sunday and at 8 p.m. Wednesdays. Catechism classes there will be held prior to mass.

Meetings for the council were set for the fourth Thursday of each month, following mass. In attendance at the meeting last week were Joe Schilling, Leon Schilling, Zeffirino Villareal, Mrs. Anthony Brito, Mrs. Gene Brito, Mr. and Mrs. Ben C. Rejino and Mrs. Jerry Eakins. Joe Schilling, vice president of the organization, presided.

On The Farm In Parmer County

By RONNY McNUTT
County Agent

ANSWER 'EM WITH FACTS

The following facts were reproduced from the magazine "Better Crops With Plant Food," No. 2-1969. These facts were based on USDA and U. S. Congressional Committee on Agriculture reports.

"Everything's sky high at the supermarket. Boy, the farmers must be getting rich! They oughta . . . with the tax money, they get NOT to grow crops." Let your urban friends know . . .

The food costs rose less than most consumer items between 1947-49 and 1966--only 35 per cent compared to 85 per cent for medicare, 52 per cent for rent.

That three factors affect our food budget: (1) Processing costs -- such as canned, frozen, concentrated, dehydrated, ready-mixed, ready-to-serve foods; (2) Transportation and packaging costs; (3) Non-food items on your check-out tape casually charged to food budget.

That the cost of marketing food soared more than 130 per cent in less than 20 years -- from \$22.6 billion in 1947 to \$2.1 billion in 1966.

That farmers have not been getting the benefit of higher food prices, as average wholesale farm prices decline before oversupplied wholesale markets.

That the farmer's share has recently been 2.8 cents from a 30 cents box of cornflakes . . . 59 cents from \$1 worth of choice beef . . . 3 cents to 4 cents from a 22 cent loaf of white bread . . . 23 cents from a man's \$4 cotton shirt . . . 25 cents from \$1 worth of pine in his woods.

That the farmer has the following income to live on (using 1966 average figures): About \$5,024 per farm net out of about \$13,100 gross . . . about \$1,730 per farm person indisposible personal income . . . about \$1.60 per hour for farm work compared to \$2.71 per hour for factory worker, \$2.39 for food market employee!

That the world's most efficient food producer (the American Farmer) is squeezed between rising operating costs and declining wholesale farm produce prices -- from an index of 106.4 in 1950 to 98.4 15 years later.

MR. AND MRS. JAMES LEE CALAWAY

Of Interest To ★ THE WOMEN ★

Miss Hemke Bride Of James Calaway

Miss Linda Lou Hemke and James Lee Calaway exchanged nuptial vows August 23 in Bovina United Methodist Church.

Parents of the couple are Mr. and Mrs. James Hemke of Ashland, Nebr., and Mr. and Mrs. Robert Calaway of Bovina.

Rev. J. B. Fowler, pastor of the church, read the double ring ceremony.

The couple exchanged vows before an altar draped with blue satin bows and white coyd with white satin bells. Banking the altar was a tapered candelabra decorated with white mums and blue miniature mums. Flanking the altar were baskets of white mums. The pews were decorated with bows of blue and white satin intermingled with stephenotis and blue miniature mums.

Given in marriage by her father, the bride wore a floor length gown of white peau de sole and pearlized Chantilly lace. The A-line silhouette had a bodice featuring a Sabrina neckline bordered in lace and elbow length sleeves trimmed with a Chantilly lace ruffle. The skirt fell into a flowing chapel train which repeated the lace motif. Her floor-length veil of illusion was attached to forward organza bows centered with lace flowers and pearls.

She carried a cascade arrangement of white orchids and symbidiums mounted on a lace-covered Bible. She carried out tradition with her great-grandmother's Cameo ring for something old. She borrowed the Bible from her mother and wore the traditional blue garter. She wore pennies minted in the year of her birth and the year of the groom's birth.

Miss Sharon Hemke of Ashland, Nebr., sister of the bride, attended as maid of honor. Bridesmaids were Gail Elliott, cousin of the bride, Lubbock; Linda McLelland, Vernon; and Vicki Jacobs of Bovina.

Attendants wore identical formal dresses of blue peau de sole fashioned with empire waists and stand up collars. Head pieces were peau de sole bows. They carried colonial bouquets of miniature white mums with blue ribbon streamers.

Flower girl was Kaylee Raikes, cousin of the bride, of

Ashland, Nebr. She wore a dress similar to bridesmaids.

Bobby Calaway of Spearman served his brother as best man. Groomsman were Randy Jones, cousin of the groom of Bovina, Bobby Chadwick of Amarillo and Billy Lynn Marshall of Bovina.

Candlelighters were James Chadwick of Farwell and Leslie Harrelson of Clovis, N.M. Ringbearer was Charles Hemke II, cousin of the bride, of Clovis.

Ushers were Jay Potts of Friona, James Chadwick of Farwell and Leslie Harrelson of Clovis. Miss Zelda Donaldson provided traditional wedding selections and accompanied Mrs. Roger Ezell, who sang, "Whither Thou Goest," "More," "The Wedding Prayer," and "Always."

For her daughter's wedding, Mrs. Hemke chose a princess style dress of light blue crepe with a matching lace coat. She complemented her ensemble with a corsage of white orchids and white accessories.

The groom's mother chose a pink sheath with matching jacket trimmed with seed pearls. She wore pink accessories and a white orchid corsage.

The couple was honored with a reception immediately following the ceremony in Fellowship Hall of the church.

The bride's and groom's tables featured identical floor length satin cloths. The bride's table featured a three-tiered white wedding cake graced with crystal candelholders and blue tapers. The groom's table had traditional tiered chocolate cake adorned with a horseshoe arrangement of flowers.

Hosting the reception were Mrs. A. M. Wilson, Mrs. Paul Jones, Mrs. Thomas Beauchamp, Mrs. Roule Barron, Mrs. Ralph Roming, Mrs. Euell Hart, Mrs. Sherry Hukill, Mrs. Lorado Servatis, Mrs. Phyllis Bates and Mrs. Bobby Calaway.

Serving at the reception were Mrs. Beverly Turney of Littlefield; Barbara Clawson of Bula, Brenda Geller of Vernon, Suzanne Wilson, and Randy Jones of Bovina and Jay Potts of Friona.

For their wedding trip to points of interest in Colorado and New Mexico, the bride chose a dress of blue and green bro-

cade with a matching coat. She wore blue accessories and the orchid from her bridal bouquet.

The bride is a graduate of Bovina High School and attended South Plains Junior College in Levelland.

The groom is a graduate of Farwell High School and attended South Plains Junior College.

Following their wedding trip the couple will be at home in Canyon where both will attend West Texas State University.

MRS. EARL WHITTEN

Cook's Corner

Mrs. Earl (Norma) Whitten is this week's Cook of the Week. The Whittens are relative newcomers to Bovina, having lived here only three years.

Mrs. Whitten is originally from Miami, and her hobbies include sewing and yard work.

Her husband is an accountant for Shirley Grain and they have a son, Bret, age 4.

The Whittens moved to Bovina from Amarillo, and are members of the Methodist Church.

She offers four end-of-summer recipes.

PECAN PIE

Make pastry for nine inch one crust pie. Line pie pan. Beat together the following with rotary beater:

- 3 eggs
- 2/3 cu sugar
- 1/3 tsp. salt
- 1/3 cups melted butter
- 1 cup dark corn syrup

Mix in 1 cup pecan halves. Pour into a pastry-lined pan, and bake at 375 degrees until set, and pastry is browned. (Approximately 40-50 minutes) Cool and serve.

APRICOT NECTAR CAKE

- 1 box yellow cake mix
 - 3/4 cup cooking oil
 - 3/4 cup apricot nectar
 - 4 eggs
 - 2 tablespoons lemon extract
 - 1 tablespoon butter flavoring
- Mix all ingredients together in large bowl -- adding eggs one at a time. Bake in bundt pan for one hour at 325 de-

grees. Remove from oven and allow to cool for 10 minutes. Remove from pan and glaze with the following mixture: 1 small can frozen lemonade mixed with 3/4 box powdered sugar.

PEANUT BRITTLE

- 1 cup white sugar
- 1/2 cup karo syrup
- 1/4 cup water
- 1 cup raw peanuts
- 1 teaspoon vanilla
- 1 teaspoon soda

Cook sugar, karo, and water until it forms a soft ball in cold water. Add peanuts and cook until mixture turns a light brown. Remove from fire and add vanilla. Then add soda and pour onto a slightly greased cookie sheet. Let harden and break.

PINEAPPLE PIE

- 1 can (number 2) crushed pineapple
- 2 cups small marshmallows
- 1 cup nuts
- 1/2 pint whipped cream

Using double boiler, heat marshmallows and pineapple until marshmallows are melted. Cool. Add nuts and whipped cream. Pour into a graham cracker crust, and chill.

CLEANERS

At Home In Parmer County

By Janice Miller
County HD Agent

Cucumbers have two classes: slicing and pickling. For crisp pickles, use firm, small to medium cucumbers. Don't buy more than you can process at one session. Know the strength of vinegar you are using. A high grade cider or white distilled vinegar of 40 to 60 per cent grain strength gives good results. Also, pure dairy or pickling salt should be used if possible, since fine table salt contains a little starch which clouds the liquid.

Use fresh, good quality spices. Stainless steel, glass or aluminum should be used to prevent giving the pickles an unattractive, dark color. Use firm but not plump cucumbers for slicing. They should be well-shaded with fresh-looking green skins.

Teflon cookware should be reconditioned after a sudsy scrubbing with stiff sponge or plastic scrubber, or after washing in dishwasher. You can recondition your cookware by rubbing the coated pan with cooking oil or unsalted fat.

If your teflon cookware has discolored - boil one cup water, a half cup liquid laundry bleach and two tablespoons baking soda in the pan for five minutes.

Do you have trouble with stains in your glassware? Cleaning and stain removal often trouble owners of antique glassware, but they can be prob-

lems for everyday glass articles, too.

Glass never is stained permanently, the Glassware Institute of America says. It has a hard, smooth, non-absorbent surface that stains cannot penetrate, and surface discolorations can be removed with treatment.

Minerals in water do often cause lime deposits and surface discolorations, though.

To remove lime deposits from the bottom of pitchers, bottles or decanters, put tea leaves on the stained surface. Then fill the container with a vinegar solution.

For surface discoloration on decanters, rub the glass with half a lemon, or wash it with vinegar. Or partially fill with uncooked rice and vinegar and shake rigorously.

A well-known research laboratory offers the following method of removing hard water deposits which have dried in designs and etchings: Soak glassware in a solution of one part muriatic acid and four parts water.

This acid, which is available at drug or hardware stores, should be handled with rubber gloves. After soaking in this solution, rinse the glass thoroughly and dry.

Vinegar cruetts often become stained and should be rinsed with diluted chlorine bleach solution. To brighten glass coffee makers, use a teaspoon of baking soda in the rinse water.

In a year or two, credit cards may be found in super-

HELPING CHILDREN FORM GOOD ATTITUDES TOWARD HIGHWAY SAFETY IS A GAME FEATURING A "ROADWAY" DESIGNED TO LOOK LIKE A REAL NETWORK OF ROADS. IN MILTON BRADLEY'S "LET'S DRIVE" CARS MOVE AS FAR AS THE SPINNER INDICATES AT A DICTATED SPEED. THE WINNER IS THE PLAYER WHO COMPLETES THE JOURNEY FIRST WITH THE LEAST EXPENDITURE OF FINES.

markets, if the present try-outs are successful.

Two major chains are experimenting with them now. Trials are to determine if shoppers prefer or like to use credit cards instead of cash in the supermarket, and if the consumer will pay his bill after the food has been taken home and consumed.

This plan may be convenient, but similar to most plans, an 18 per cent interest charge is added to bills not paid within the month.

Bovina Area Churches Welcome You!

Church Chuckles by CARTWRIGHT

"Sure, I remember you tellin' me vengeance belongs to th' Lord, but I'm just givin' Him a little help!"

The Lord is good; his mercy is everlasting; and his truth endureth to all generations. —Psalm 100:5

A SUNDAY school teacher in her eighties was telling her class about the stone steps of the courthouse in their town.

She said: "All of us think of concrete or stone as enduring, but I've seen those steps wear away in my lifetime. Whenever I see them after a rain, little pools of water lie in the hollows."

In contrast to the stone steps, which wear away, she called attention to the nature of God as expressed in Psalm 100. He is the everlasting God, forever good and ever merciful, whose truth can be relied upon.

Stone steps wear away, cities themselves in time are brought down; but God is from everlasting to everlasting. Our spiritual lives are not only a part of our generation; they are a part of all people, all races, of all times. We can trust forever in the Lord, who is everlasting strength.

Think of it: our spiritual heritage has its foundation in the eternal God!

Look Good Against Ralls --

Mustangs Scrimmage Claude Here Thursday

Enthusiastic about the success of their scrimmage Thursday night of last week against Ralls, the Bovina Mustangs meet the Claude Broncos here tomorrow (Thursday) afternoon for their second and last workout against outside competition prior to the beginning of the regular season.

Claude is scheduled to be here at 5 p.m., Mustang Mentor Gilbert Hough announces. Claude is Class A as was Ralls.

The scrimmage will involve varsity teams as well as B-teams.

Coach Hough indicated that he was pleased with his performance against the Ralls Jackrabbits. The scrimmage was scheduled to be conducted on the neutral field at Abernathy. However, excessive rain there forced the practice to be moved back to the Jackrabbits' homefield.

Hough said the Mustangs' running game looked strong. Roy Ramirez, sophomore quarterback, had a good night in the throwing department as he completed two out of four with the two incompletes being thrown in the hands of receivers. "Our problem is not in throwing, but in catching," the coach said in regard to the passing game after the Ralls scrimmage.

The Mustangs have good size, but don't have "blazing" speed, the coach admits. He points out, though, that he expects his team to perform well defensively.

A line-up change since last week moves Jamerson, a letterman senior who has played end, to the center position on offense. Hugh Rogers, a sophomore who had been listed as the starting center, has been shifted to quick side guard,

replacing Mike McMeans, who will concentrate on his defensive nose guard position. The public is welcome to be

on hand for the Thursday afternoon scrimmage session with Claude. The Mustangs first regular

season game is Friday night of the following week --- against the Class B Amherst Bulldogs there.

At Friona --

County Fair For 4-H Slated For Sept. 13

A County 4-H Fair will be held Saturday, September 13, during the Maize Days celebration in Friona. This is the first time

such an activity has been held strictly for 4-H Club members. Every 4-H member in the county is eligible to have entries

in the Fair, announces Ronny McNutt, Parmer County agriculture agent.

There will be five divisions in which 4-H members can have entries. These divisions are agriculture, baked goods, canned fruits and vegetables, clothing, and hobbies and crafts.

In the agricultural division there will be classes for grains and seeds, grain sorghum heads, sheaf grains, sheaf forage, baled hay, vegetables, and fruits. Also there will be poultry and rabbit show for interested 4-H'ers.

There will be classes for biscuits, muffins, bread,

brownies, cookies, fruit pies, and cakes in the baked goods division.

Nine classes will be available

for girls to have entries in the clothing division. In the canned fruits and vegetables division there will be classes

for fruits, vegetables, pickles, jelly, jam and preserves. The crafts and hobbies division also offers 4-H'ers an opportunity to show their work.

There will be classes for metal craft, leather craft, picture (oil and water color, pastel and charcoal, other - ink, crayon, pencil), toy, sculpture, decoupage, hobby collection and other crafts.

Ribbons will be awarded to the top three entries in each class. The 4-H Club with the most exhibits will be awarded a trophy.

The McCalsand Lumber Co. building in Friona is the location for the fair.

All 4-H Club members in Parmer County are encouraged to exhibit what they have grown on their farm or at home and made at home, McNutt says.

CHILDREN & CONTACT LENSES?

New York (NAPS)—Would you put contact lenses on your year-old child? Probably not, but science is blazing a trail of new vision potential for very young children with severe sight problems.

In Japan recently, contact lenses were prescribed to 9-month old post-surgery cataract victims. Additionally, toddlers afflicted with strabismus (crossed-eyes) were either corrected or their condition arrested with the lenses.

Youngsters in this country, as early as three years old, are fitted with them when the need is great, and results are often dramatic.

According to Barnes-Hind Ophthalmic Products, makers of contact lens solutions and accessories, it is from such research that eye specialists are learning more and more about the possibilities of the tiny vision aids for young people.

Today's contact lenses are about 1/4 inch in diameter, paper thin and made of plastic. Worn by millions of Americans, the lenses float on the natural tear layer of the cornea, the part of the eye out of which we see.

Other children's vision problems which have been treated with contacts are progressive myopia (near-sightedness); "one-eye" vision in which a muscle is deficient; and heavily scarred eyes. Most of these conditions cannot be helped with conventional eyeglasses.

Thirty percent of all elementary and pre-school children need vision care. Over a million among them suffer vision problems which hamper both learning and growing up. As research continues, more and more of these youngsters will have new lives opened up to them through contact lenses, miracles of vision.

SOIL SURVEY --- Herb Bruns, SCS soil scientist, examines soil sample from Parmer County. The Standard Soil Survey being conducted by the Soil Conservation Service is about 73 per cent complete in the county. Information from the survey is used in conservation planning on farms and ranches and is valuable to cities, planning commissions, highway departments, county commissioners, and others. It is available for public use at the Friona SCS Office.

In Parmer County --

Conservation Service Taking Soil Survey

Soil maps are a basic tool for selecting a system of soil management. The maps show the kinds of soil in a field, a farm, or in a city or town. Currently, about one-half of the land in the Texas Panhandle has been surveyed. In Parmer County Soil and Water Conservation District which is in Parmer County, about 73 per cent has been completed to date and it will be completed as manpower becomes available. The ultimate goal of the U. S. Department of Agriculture is to have a soil survey or map of every acre of land in the Nation.

In the Nationwide system now in use the soils are classified and named, just as plants and animals are. For example, plants are identified and named by such features as the structure and the shape of the leaf. Likewise, soils are identified and named by their main characteristics which are its texture (proportions of clay, silt, sand), color, depth, kinds and sequences of layers or horizons, and any other feature that is important to its use and management. These soil traits or features can then be made about how it will respond to various kinds of management or use. Some of the questions that a soil survey and its interpretations can answer are: Is this land suited to cultivation? What kind of crops can be grown? How much erosion has occurred on it? What practices will be needed to maintain or increase the soil's fertility? Is the soil suited to irrigation and what kind of system will I need? What kind of native grasses will it grow? Does the soil swell and shrink, creating a hazard to structural foundations? Does it flood often, and many others.

The principal users of soil surveys are those involved in producing agricultural products - farmers, ranchers, dairymen, etc. Special interpretations

have been made by Soil Conservation Service technicians to assist agriculturalists in the use of the surveys. This is the land capability classification system. Soils are placed in eight classes, all of which do not normally exist on any single farm or ranch. Class I through IV are suited to cultivated crops. Classes V through VII are suited only to grazing and wildlife. Class VIII land is suited only to wildlife.

Through the soil survey, this land capability system provides the basic facts with which the Soil Conservation Service technician and the landowner or operator develop the conservation plan for the cultivated land on his farm. For rangeland, the soils are grouped into range sites. Each site is composed of a group of soils that respond similarly to kinds of grazing and that grow the same kind of grasses.

Soil maps are made by experienced Soil Scientists who

are graduates of agricultural colleges and universities, where they were trained in the soil sciences, crop sciences and related subjects. Ordinarily the soil scientist uses aerial photographs as a base for plotting the soil boundaries. He goes over the land with a spade, auger or power sampler and digs as often as necessary to determine the kinds of soil and to mark their locations.

Soil maps have many other uses. They are of use to prospective landowners, land appraisers, students of natural sciences, road builders, pipeline companies and others. In some urban areas, corrosion of underground pipe is a problem, thus soil maps are used as a guide for re-routing their pipelines around these salty areas, thereby saving these cities much expense. Soil surveys are also being used more and more by counties and school districts as basis for re-evaluation of their tax structures.

Form Square Dance Class For Bovina

Beginners square dance lessons are scheduled to be conducted at the American Legion Hall on a weekly basis beginning tomorrow (Thursday) night at 8 p.m.

The lessons are sponsored by the organization of Bovina square dancers, the Star Riders. Pat Kunselman is president.

Teaching the lessons will be Eddie Gunnels, well-known square dance caller from Clovis. Cost is \$10 per couple for 10 lessons.

People interested in taking the lessons are asked to contact Kunselman or J. D. Adams or to be present at the Legion Hall Thursday night at 8.

(Leo, July 23-Aug. 23) The orange gladiola is the flower of those born under the sign Leo, ruby their stone, and domineering their main characteristic.

Creative, exuberant achievers, Leonians love to demonstrate their prowess where all can see.

The "lions" are also generous and passionate, and usually self-sufficient. They flower best when they can set a project in motion

but because they are inattentive to detail the job is usually finished by others.

Though Leonians lack humility and often discipline their generous nature wins them friends easily. At the drop of a hat, a Leo will call an FTD florist and send flowers to everyone they know anywhere in the world. It's just a Leo's way.

The huge baleen whale, sometimes nearly 100 feet long, feeds on shrimplike creatures only an inch or two in length!
