WICHITA FALLS, TEXAS, FRIDAY, JULY 12, 1907

NUMBER 33

A QUANDARY

THE PEOPLE OF STATE WILL BE IN ATTITUDE OF LAW BREAKERS

VIEW OF AN IRISHMAN

That Between Death of Old Law and Birth of New He Can Do Much as He Desires Without Fear of Molestation.

Every man, woman and child in this State will be placed in the attitude of knowing whether they are disobeying the laws of this State or not as they roll out of their little trunks tomorrow morning," said a well-known attorney to a Times reporter yesterday morning, "and it is an old thread-bare maxim that ignorance of the law is no excuse. It being presumed that every man can ascertain what the law is, there are dozens of laws that go into effect tomorrow morning, and even prosecutors, or judges, do not know what they contain, save in a general way. It is safe to say that there is not half a dozen district or city attorneys in this State that are familiar with these laws—at least familiar enough with them to undertake a prosecution where there is a possibility. There are not half a dozen sheriffs or constables in the State who would risk an arrest for the violation of any of these laws.

The Irishman's View.

sation between a couple of gentlemen from the Emerald Isle the other day, which, it appears to me, hit the nail center on the head:

"'Bédad, an' ye can ste mate nixt Friday," said Pat to Mike.

"'G'wan wid ye, now, phwat the divil afre ye talkin' about, Oi dunno?"

"'Why, mon, the ould law is repealed, an' divil a wan ov thim knows phwat the new law is. It may be that yer cut off from atin' mince pies or scrambled eggs along wid not bein' allowed to ate mate, but nary a wan of thim is goin' to say phwat it is, and nary a man of thim can deny that the ould law isn't as dead as Micky Finnigin's pup that got strangled on roughn on rats, an' nary a pinnace will iny ov thim impose on ye."

The Other Extreme.

"Now, that Irishman took just the opposite view to Assistant Attorney General Pollard, it seems to me. In a nutshell, Pollard holds that business must cease between the death of the old law and the bringing to life of the new, while the Irishman holds that everything will be wide open after the old law dies until the new law is born—in other words that the new law cannot become operative until the officers whose duties it is to enforce it know just what it is.

"I had occasion some days ago to write to the secretary of state for the copies of a number of laws, and he replied that it would be impossible to comply with the request until after August 1, as the printers were unable to have them ready before that time.

Taking the Irishman's view of it,

he desires as to that particular law.

"On the other hand, Pollard's contention, sifted down, means that every business affected by the new laws must cease between the time of the demise of the old law and the time that the new one can be put into effect. There is just as much common sense in one view as there is in the other. However, I'm like the Irishman. I don't believe that any officer clothed with authority to enforce the laws is going to attempt to enforce any of the new laws until he has been able to acquaint himself with its provisions."

An X-Ray Machine.

Drs. Robertson & DuVal have just recently equipped their offices with one of the very latest improved X-Ray and static machines.

It is a most wonderful invention and one that, when properly used, is of great assistance to both the medical and surgical professions.

So far as the Times is aware, this is the only X-Ray machine in Wichita Falls or in this part of Texas, and the spirit of enterprise which prompted these gentlemen to equip their offices with one will doubtless be thoroughly appreciated by those suffering with ailments which require such treatment for their cure as can be effected only by the aid of an X-Ray machine.

While cutting a \$24,000,000 melon the Adams Express company is putting up the plea of poverty in Nebraska in order to prevent a twenty-five per cent reduction in express rates.

U. S. SURVEYING PARTY

Is Camped on the "D" Ranch Near Dundee.

Special to the Times.

Dundee, Tex., July 11.—Sam Jackson & Bro., ginners, have just received a large new boiler to be installed at their gin in Dundee, preparatory to handling the prospective cotton crop.

Capt. C. H. Gordon, in charge of an overland United States geological surveying party is encamped on the "D" ranch about six miles northwest from Dundee on the Wichita river. The party is traveling south and expects to be at Fulda in a day or two.

We had a fine rain yesterday, and although retarding threshing somewhat, it will be of great benefit to growing crops.

Mr. and Mrs. R. H. Logan of Atwood came in on Monday evening's train from an extended visit to relatives at Childress.

Mrs. W. O. Davis is visiting relatives at Ennis.

Messrs. Rayburn and Helm have had a metal dipping vat constructed for treating cattle infested with ticks, and Mr. W. F. Woodrum also is having one built of concrete.

From Saturday's Daily.

Rev. W. W. Robinson, of Byers came to this city yesterday evening and spent the night with Rev. Stuckey at this place. He was here to see about getting some one to put the Methodist church at Byers back on its foundations. It was blown off in a storm at that place several weeks ago

SIX DOUBLE PLAYS

HELPED WICHITA WIN SPLENDID VICTORY AT STAMFORD.

THE BRILLIANT PITCHING

By Heiglesport, the New Recruit, Held Down the Stamfordites.

Special to the Times.

Stamford, Tex., July 11.—Wichita Falls more than evened up with Stamford yesterday afternoon for their defeat the day before and won a brilliant victory by a score of 6 to 1.

Heiglesport was on the slabbing station for Wichita and pitched a splendid game. During the game Wichita pulled off six double plays and throughout the game put up the best exhibition of the national game seen on the Stamford diamond this season. After the game Manager Lucid stated that Stamford had one of the strongest teams in West Texas.

The batteries were—Wichita Falls, Heiglesport and Brockman; Stamford—Deatheridge and Reed.

The Wichita Falls team left last night for Abilene, where they will play a series of three games with the strong team representing that city.

At this season of the year the folks are looking for comfort above everything else. To meet this demand in a measure, the Methodist people today are having three electric fans installed in their church at the corner of Tenth street and Scott avenue.

SENSATIONAL SUMMER SALE

BEGINNING FRIDAY, JULY 12TH

I Will Give 1/4 Off On All Men's and Boy's Clothing

Copyright 1906 by Hart Schaffner & Marx

Just now I know of no better way of informing you that we want your trade than by deliberately and directly telling you so—I believe in reciprocity, and if I give you good goods at reasonable prices, you will find it to your advantage to trade with me. I do just as I advertise. I have never been known to break an advertising promise, and when I say many of the bargains which will be offered during the sale are worth much more than the price asked, I am simply giving the truth. A personal visit will convince you of the sincerity of my claims. . . .

Sale Closes August 19th

SPECIAL CASH SALE

ATTEMPTED ESCAPE

GERONIMO MAKES FUTILE EFFORT TO CROSS TEXAS PANHANDLE INTO NEW MEXICO.

RECAPTURED BY SOLDIERS

Grim Old Warrior Wished to Join Restless Apaches in Arizona.

Cache, Okla., July 9.—The old Apache warrior, Geronimo, who terrorized the Southwest many years, while attending a celebration at Cache under parole as guest, attempted to escape across the Texas Panhandle into New Mexico. The old warrior had heard of the troubles of the Apaches in Arizona who, according to the report, have threatened to go on the war path and wanted to help them fight. He has been having domestic troubles of late, his eighth wife having left him, and he drank liquor to excess. Recently Geronimo joined the Dutch Reformed Church to which President Roosevelt belongs, in the hope, it is said, of obtaining pardon.

Cotton Thread Gone Up.

When a good housewife goes up against a trust there's going to be a noise like a protest, though the male member has to pay the freight. The remarks now being made in the sewing circles and over the knitting are not calculated to cause the cotton thread interests to feel any too good. With cotton thread run up to six cents straight when it was formerly five and six for a quarter, much light is not thrown on the power of monopoly, but on the cotton situation, for certainly there has been no advance in the price of cotton to warrant any such increase in the price of thread. Why not a national organization of seamstresses to organize a union and boycott the rapacious trust.

FOR GAMES ABROAD.

Wichita Ball Team Plays at Stamford and Amarillo This Week.

The Wichita Falls ball team left Sunday afternoon to play its first series of games away from home. On Monday, Tuesday and Wednesday the team meets the Stamford club in a series of three games. On Thursday, Friday and Saturday they will play at Abilene.

Pitcher Touchstone and Catcher Bell, late of the Terrell team, joined Manager Lucid's aggregation Friday. On Saturday night shortstop Thomas jumped the team to join the Temple team in the Texas league, and Lucid has signed Humphries, late of Corsicana, to take the place. Huxhale, of Hico, will join the team at Abilene.

STAMFORD WON.

Wichita Falls Lost a Twelve Inning Game Through a Fumble. From Tuesday's Daily.

A special to the Times from Stamford this morning says that Wichita Falls lost the first game of the series there yesterday by a score of four to three. Although defeated, Wichita Falls played Stamford to a finish and twelve innings were necessary to decide the game. Touchstone was on the slab for Wichita Falls and pitched a splendid game and Wichita Falls would have won a victory but for a bad error by Rozalina.

The battery for Wichita Falls was Touchstone and Blockman, and for Stamford was Long and Reed.

Owing to the difficulty in finding a man to put down the well, no work has yet been done on the well at Allendale which Wichita Falls capitalists will sink in search of oil. Rod Oliver, a member of the new oil company writes that he has at last found a man who will do the work and drilling will begin in about ten days.

LAWYERS DISAGREE.

Opinions Are Divided as to Whether Saloon Must Close.

A meeting of the saloon men of San Antonio was held in that city on July 4, to declare whether the saloons in that city would close from July 12 to 24. No decision was reached in the matter and another meeting is to be held.

In discussing the question one of the saloon men said:

"At our meeting we heard the advice of our lawyers. We had six of the best lawyers in the state to render a decision as to whether or not we had a right to operate on the license which we have paid for and now hold until it expires. Three of these lawyers told us that they are perfectly good until they expire, while the other three said that we have no license, but simply hold permits which can be revoked by the state at its pleasure. So that is what we are up against and we are going to find out exactly what our rights are before we go further. We will meet again Friday afternoon at Mission Garden and act according to the advice of counsel."

Practically all of the large saloon men in the city are strongly in favor of that part of the law which will separate saloons from disorderly houses and tend to uplift the saloon business. Very few of them have condemned any point in the law save that which revokes their license for which they have paid and does not permit them to open up on a new license until 20 days have expired, even if they get it before the old license expires. One saloon man said last night that the only other thing in the saloon law that was objectionable, besides the license paragraph is the fact that hundreds of men will be thrown out of employment when the law goes into effect. They contend that so many saloons will have to go out of business it will affect the ice plants to such an extent that they will have to decrease their force, and besides nearly every big saloon will have to cut down its force and put more men out of employment.

"It may be that, after a year of operation under the strict law when the immoral places are eliminated the next legislature will give us more liberties," said one of the big saloon men of the city last night.

From Monday's Daily.

The district court convened this morning to hear the damage suit of Fassett vs. the Fort Worth and Denver railway, but upon agreement of the attorneys the case was continued until the next term of court. The suit of Flack vs. Allen is set for next Wednesday.

FOR SALE—I now offer nine blocks of two acres each near high school. Small cash payment, then \$10 per month. Only eleven of these blocks. See me at once and get first choice. All east front. Wylie Wyatt. 40-26td-31-4tw

You Are Not Going Blind

mistake of others, do not put it off.

A. S. Fonville, Jeweler and Optician.

PLACES OPEN FOR 6,000.

New Law Makes Huge Task For Railroad and Opens Many Thousands of Places For Telegraphers.

Chicago, July 8.—The Record-Herald today says "Several thousand young men who are willing to prepare themselves can have an opportunity during the next few months of entering the railway service in the branch that has produced the greatest number of high officials. The railroads are face to face with the task of securing a least 6000 telegraph operators and possibly double that number during the next nine months. This great number of new telegraphers is necessitated by the law which limits the hours in this branch of railway service.

The Swallow Swallows Boll Weevils.

The swallow ought to be cultivated like a rich relative by Louisiana and Texas planters, if what Uncle Sam says about him be true. A government report brands him as one of the most effective boll weevil exterminators going. When swallows are migrating over the cotton fields they wage war on the boll weevil in the air, it is alleged, and to thus capture their prey on the wing their chief value is due. Orioles, it is given out, do royal service in capturing weevils on the bolls; and blackbirds, wrens, flycatchers and others contribute to the good work. As many as forty-seven adult weevils are reported to have been found in the stomach of a single cliff swallow.

The National Stock Company.

The above strong dramatic organization, which has been having a most successful tour of Texas, will appear in Wichita Falls Thursday, July 11th, presenting the beautiful four-act drama entitled "Why He Deceived Her." The company carries in addition to the regular dramatic performances several high class vaudeville artists, also man y pictures and illustrated songs. Specialties are given between every act, making a continuous performance from start to finish. The company also carries a band and orchestra. Free band concerts given at 12 and 7 o'clock daily. Popular prices prevail. Show on lots corner 9th and Indiana avenue. 49-d3t-wit

Smoking Brown Paper.

The President called his cabinet together this afternoon to consider trust prosecutions by the government and will begin at once proceedings against the togaro trust.

The pure food departments some time ago analyzed several brands of tobacco. The kinds known as Lucky Strike and English Curve Cut were found to contain 40 per cent tobacco and 90 per cent fine cut brown paper. Bull Durham contains no tobacco, but is 100 per cent finely chopped brown paper soaked in tobacco stem juice and refuse. Duke's Mixture is only 10 per cent tobacco. The "tobacco habit" is wrongly named. It should be known as the "straw board habit."—Washington Dispatch.

A Peculiar Accident.

A peculiar accident happened to Zack Jones on the "96" ranch, ten miles south of Memphis. While working on a wind mill his hair caught in the cogs, tearing the scalp off. A gash six inches long was inflicted on the left side of his head and two inches long on the right side. He was brought into Memphis Tuesday night, where he received surgical attention.—Clarendon Chronicle.

Notices of an election to be held on August 6th for the purpose of voting on the proposed amendments to the Constitution of the State of Texas have been posted. In precinct No. 1, the election will be held in the City Hall.

ANOTHER TRAGEDY

"PAT" LEWIS SHOTS AND FATALLY WOUNDS JOURDAN THOMSON.

THE THAW-WHITE CASE

Has a Parallel in Which the Participants are Negroes.

A tragedy paralleling the famous Thaw-White tragedy which attracted so much attention of two continents occurred in Wichita Falls early this morning, in which the three participants were negroes.

At about half past one o'clock this morning Pat Lewis, a negro aged about fifty years, shot and fatally wounded Jourdan Thomson another negro, who was in a room in the servants quarters at the rear of W. E. Skeen's residence on Scott Avenue with Lewis' wife from whom Lewis had been separated for about a month.

The shooting was done with a double barreled shot gun, the shot was fired through an open window on the West side of the room. The lead took effect in Thomson's right side just above the thigh, making a wound which it is believed must prove fatal within a few hours. After the shooting Lewis fled and although the officers have been searching for him ever since, they have not yet captured their man. When last seen Lewis still had the gun, eight cartridges and a bottle of snake juice in his possession. He is believed to be in hiding in the brush along the creek and the officers are confident of effecting his capture within a few hours.

Although fatally wounded and with the crimson stream of his life blood making a trail easily followed, Thomson climbed through the window from which he had been shot and made his way to the home of Frank Dorsey, a negro living in Bucktown, where the officers found him about an hour after the tragedy. Dr. Coons, the county physician was called to attend the wounded man, and states that he does not think Thomson can recover. The negroess escaped without injury.

There had been bad blood between the two negroes for some time, Lewis claiming that Thomson had alienated his wife's affections. Yesterday Lewis secured a shot gun and told several persons of his intention to kill not only Thomson but the woman as well.

PHILLIPS GETS CONTRACT.

Will Start Work on the Lawton, Wichita Falls and Northwestern.

Contractor Phillips of Wichita Falls Texas, was in Lawton a few days ago in consultation with J. M. Bellamy, president of the Lawton, Wichita Falls and Northwestern railroad, who has in his office the profiles of the survey of the new road.

Mr. Phillips has built five miles of road for the Wichita Falls road this side of Red River, and now has a contract for constructing six miles of road for the Lawton, Wichita Falls and Northwestern. He is arranging to move his force of men and working material to the Lawton road and in a few days expects to begin work.

The contract is let, work will soon begin and the building of the new road that is to run into Lawton will be pushed rapidly.—Lawton Democrat.

No. 3706.

TREASURY DEPARTMENT.

Office of Comptroller of the Currency.

Washington, D. C., May 22, 1907.

WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that the First National Bank of Burkburnett, in the County of Wichita and State of Texas, has complied with all the provisions of the Statutes of the United States, requiring to be complied with before an association shall be authorized to commence the business of banking:

NOW, THEREFORE, I, William B. Ridgely, Comptroller of the Currency, do hereby certify that the First National Bank of Burkburnett, in the County of Wichita, and State of Texas, is authorized to commence the business of banking, as provided in Section fifty-one hundred and sixty-nine of the Revised Statutes of the United States.

IN TESTIMONY WHEREOF, witness my hand and seal of office, this twenty-second day of May, 1907.

[SEAL] WILLIAM B. RIDGELY,
 27-St Comptroller of the Currency.

The Windthorst Catholic Church held an all day picnic at Knight's Grove about a mile from town on the Fourth, which was attended by a large crowd. The dancing floor was the attraction at night and a large number of young people participated in the pleasures of the evening. A neat sum was netted for the Church from the picnic.

For Sale.

Several head of horses and mules; lot of farm machinery; about seventy head of graded cattle and three young registered short horn bulls, ready for service. See R. M. Moore, Wichita Falls. 30-3w

A TERM IN PRISON

FOR ROCKEFELLER AND OTHER TRUST MAGNATES WOULD SOLVE VITAL QUESTION.

DECLARED W. J. BRYAN

He Thinks Too That a Little More Backbone at Washington Would Settle Difference With Japan.

Warsaw, Ind., July 6.—"Send John D. Rockefeller and a dozen other trusts magnates to prison for a term of years and one of the vital questions before the people of this country will have been solve," declared William J. Bryan yesterday at a banquet given in his honor by Dr. Sol. C. Dickey, president of the Winona Lake Asseby. "President and others are now bringing to a successful issue the principles and ideas I advocated seven years ago," Mr. Bryan con tinued. "This is particularly true as regards the tariff. The President is compiling my future speeches for me."

Bryan took a fling at the President and his cabinet saying that there was not a man in it who agreed with Roosevelt. Referring to the controversy between the United States and Japan, Bryan who during his trip around the world visited the eastern Empire, said that a little more backbone at Washington would settle the differences for all time without a conflict between the two nations.

Sidewalks and Crossings.

Chas. Whitener has the contract for putting down several concrete crossings in the business district of the city. The first one was placed between McKibbin and Herring bank, and one is now being laid between the Panhandle Hotel and Hahn's. There are nine crossings the city contemplates putting in, after which the citizens will be called upon to lay sidewalks in front of their residences.—Vernon Hornet.

★ Won't KnockOut ★

This is an awfully strong statement isn't it? Well the Boys and Girls "Eternity" School Shoes are the Strongest proposition in the footwear line we have ever found, that's why they won't Knock out.
The Boys and Girls can kick all they want to but,

"They can't kick out Eternity".

They are foot culture shoes because they give the young foot room to breathe. They are broad across the toe; each toe has room to breathe and grow.
These shoes are made over neat foot conforming lasts out of the most popular leathers and every shoe is made by an expert in a big specialty factory. The soles are fastened with a sew which will not allow them to pull apart. They have double soles that will not allow the young people's feet to get wet. If Children always have warm, dry feet they won't be sick. Watch them carefully and remember "Eternity" school shoes fill every requirement. "Eternity" shoes cost no more than the kinds that do not satisfy. The "Star" on the heel and the name "Eternity" on the sole protect you. These emblems of quality are a guarantee to you that the shoe is honestly constructed and full of satisfaction. "Eternity" school shoes for Boys and Girls are made by

A RECORD BROKEN BY ALPHA DAVIS

ADDED ONE HUNDRED FIGURES YESTERDAY IN TWELVE SECONDS.

IS FASTER THAN OWENS

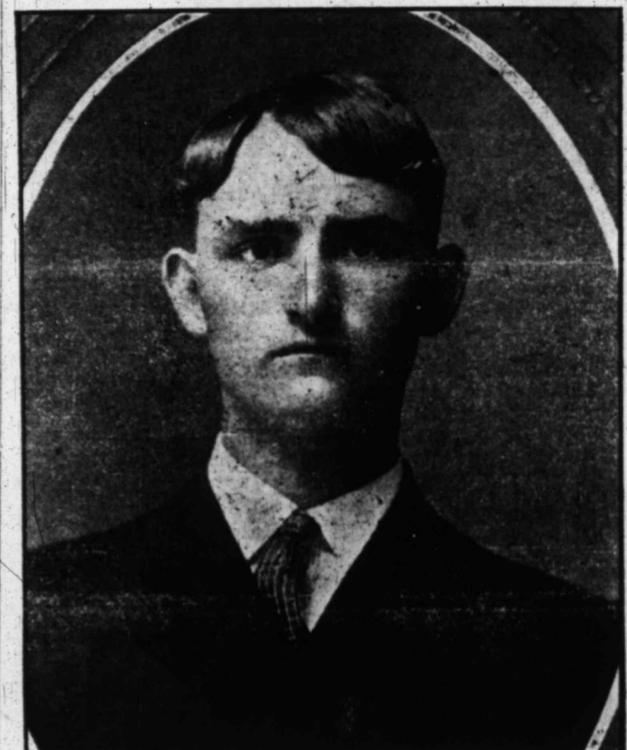

The Lightning Calculators of Gainesville Business College Are Clipping the Seconds.

From Gainesville Evening Messenger. For three years Superintendent Sidney R. Smith of the business college of this city has been working hard to have some of his students break the world's record in adding one hundred figures, and in the latter part of December Berle Owens broke all records in the United States and won the \$100

prize, offered by Mr. Smith, by adding one hundred figures in twenty seconds. Later Owens clipped his record to 17 2-5 seconds, which was excellent.

For five months this record has stood in the college and probably all over the United States. The students have worked to attain speed in addition, but no one has succeeded in breaking the record until yesterday afternoon when Alpha added the hundred figures in exactly twelve seconds. Try a list yourself and you will see what he has attained.

The breaking of the world's record is something to be proud of, and Mr. Smith, his college and the students are to be congratulated. The feat is the result of untiring labor on the part of pupils and teacher, and the record is the reward of merit. Davis has been working for five months cultivating his mind that it might be able to work like lightning and he has achieved the greatest success.

ALPHA DAVIS

A CHILDREN'S PARTY.

From Friday's Daily. The Misses Bullock and Waggoner Delightfully Entertain on the 4th. Little Misses 'Chrystelle Waggoner and Josephine Bullock gave a children's party yesterday evening on the lawn at W. J. Bullock's home. The little ladies played all kinds of games and had a good time generally. Mrs. Waggoner and Mrs. Bullock served them with ice cream and cake and the guests were a jolly, happy band of little folks.

The following were present: Misses Kathleen Blair, Anna Morris, Josephine Jourdan, Lois Morgan, Adell Marcus, Sybil Kell, Pinta Huff, Alice Downing, Maude McGrath, Lola Strange, and Masters Edwin and Jimmie Blair, Oliver Morgan, Richard Willis, Jerome Jburdan, Julian Barkley Paul McGrath and Lawrence Marcus.

Notice to the Public.

On display at the spacious store of the Wichita Falls Implement Company can be seen one of the famous Bush & Lane Pianos in colonial style. A special invitation is extended to the public to call and examine this wonderful instrument. No matter whether you are ready to buy or not, we will take pleasure in showing its points of advantage. We especially invite the criticism of the musicians of Wichita Falls and will take pleasure in explaining the merits of the Bush & Lane. All we ask of the piano buying public is a chance to compare the celebrated Bush & Lane piano with others claiming superiority. You can buy a piano at the right price on the right terms and get the right quality right here at home. Yours for courteous treatment,
WICHITA FALLS IMPLEMENT CO.

NEW JURY LAW.

Wheel Method Will Entail Considerable Work

A new law which goes into effect on July 12th, provides for the selection of jurors in the county and district courts by the wheel method.

This new method of selecting jurors entails considerable work upon the tax collector of the county, the county and district clerk, and the sheriff, who, as provided by the new law, must select the names of all qualified jurors in the county, cutting out all the exemptions, and place the names in a wheel, from which they will be drawn at each term of court. The lists are made up in August and are supposed to last two years. All jurors and special venire are drawn from this wheel and when a juror has served for four years his name is taken from the wheel and he will not be called upon again for jury service for two years.

Dundee Happenings.

Special to the Times.

Dundee, Tex., July 8, 1907—A protracted meeting has been in progress at the Methodist church in this city during the past week, but owing to there being two threshers in the neighborhood and the lateness of the cotton season it has not been well attended.

Mr. R. A. Bellah is having an addition built to his residence, and has just had completed a tenant house for Mr. John Coffee.

Mrs. Judge Walker of Archer City, accompanied by her daughter Flora and Master Hugh, are visiting their old friends and acquaintances in Dundee this week.

Miss Willie Venable of Rising Star is visiting her brother, Leo Venable.

It is One Thing....

To claim all the possible good things for a stove and quite another thing "to deliver the goods,"
The Quick Meal Gasolene Stove
has never disappointed a user yet after all the years it has been used. You certainly do not take a chance if you buy a Quick Meal. We want you to see our line of Stoves, Ranges, Refrigerators, Ice Cream Freezers, plain and fancy Screen Doors. Our prices are right. If you are from Missouri let us show you.

NUBBINS WERE SPOILED.

Warm Soaking Rain Fell This Morning, Doing Good to Crops. From Tuesday's Daily.

"The 'nubbins' are spoiled," said a farmer friend to the Times today, meaning that the warm, soaking shower this morning assured a good corn crop in this section. The rain fell in generous quantities and was not accompanied by hail, wind or other destructive elements. The early planted corn is now certain to make a good crop and assures the maturity in good shape of the crop which was planted later in the season. But more important than the benefit to the corn is the good done the cotton crop which, despite the unfavorable conditions earlier in the season, is now growing nicely and has received immeasurable benefit from the recent rains.

While the indications are that this morning's shower was local, inquiry by telephone indicates that the rain has been general in Wichita county and surrounding territory.

Noted Hymn Writer Dead.

Warren, Ohio, July 9.—Prof. James McGranahan, a well known hymn writer formerly connected with Moody & Sankley, the evangelists, died last night from diabetes. McGranahan wrote many sacred pieces which are included in the gospel hymns, among them are: "There Shall be Showers of Blessings," "My Redemer" and "Some Day We Will Understand."

State Confederate Reunion.

The various committees are working hard and with a harmony that means success for the State Confederate Reunion which meets here August 21 and 22, and that indefatigable unconquerable old veteran, Col. J. A. Cummins, is assisting with all his might to make the road smooth to one of the greatest Confederate gatherings ever held.

To date the following named speakers have accepted invitations to attend the reunion and deliver addresses:

Col. E. W. Taylor, Fort Worth.
 Senator Joseph W. Bailey.
 Gen. R. M. Yano, Dallas.
 Gen. W. L. Cabell, Dallas.
 Judge C. C. Cummins, Fort Worth.
 Judge J. S. Sherrill, Greenville.
 Congressman J. H. Stephens.
 Conditional promises have been made by Governor Campbell and Senator Culberson.

The best of home talent is being secured and so far Miss Gertrude Merrill, County Attorney C. F. Spencer, H. F. Weldon, John Speer, Rev. J. A. Old and J. W. Chancellor are billed for the program.—Bowie Blade.

Lewis Crosses Red River.

According to reports received by the officers here, Pat Lewis, the negro who shot and perhaps fatally wounded another negro named Thomson a few nights ago has made his escape into Oklahoma. A report has reached here that a negro was seen wading the Red River across to the Oklahoma side several days ago, holding above his head a shot gun which was surmounted by a bundle of clothing.

From the description given there is little doubt but that the negro was Lewis.

New Agent at Iowa Park.

A. C. Edwards, from North Fort Worth, is the new Denver agent at this point; vice C. K. Brown, sent to Memphis.—Iowa Park Register.

WANTED—A woman cook for a small hotel to help cook. No other work required. Address S. A. McCuiston, Olney, Texas. 48-2td-32-1tw

PRISONERS RECAPTURED.

One is Safely Landed in Jail, But the Other Gets Away. Special to the Times.

Burkburnett, Texas, July 9th.—Last night just before dark two of the parties who escaped from jail at Wichita Falls on Sunday were captured at the Red River bridge as they were attempting to cross into Oklahoma. They were brought back to this place, and Sheriff Davis of Wichita Falls notified by telephone to come and take charge of the prisoners, but before the Sheriff arrived here one of the prisoners had managed to escape.

The parties who captured the two men were Messrs. M. Dodson, Doc Weaver, R. L. Collins and Tom Klock, with quite a crowd of onlookers.

S. S. Hughes, and C. C. Stockdale, both charged with burglary, were the names of the two recaptured prisoners. Stockdale, it is said, is also wanted in Indiana, and is under a five year sentence to the penitentiary in that State.

While the men were being guarded, Stockdale, under cover of darkness, made a quick dart around the corner of a building, and being fleet-footed managed to make good his escape by out running two men on horse back and two or three on foot. Several shots were fired at the fleeing prisoner, but all seemed to have went wild of their mark and instead of causing the prisoner to stop, seemed to have only increased his speed.

Moves to Amarillo.

W. F. Dewey, engineer on the Denver road, has purchased a stock of furniture at Amarillo and has moved his family to that place to make their home. He has also taken a six months layoff and if he is pleased with the business, may quit railroading entirely and engage in the furniture trade.—Childress Index.

Remember we want some of your business next month. King & White. d&w-39-tf

New Industries.

New Industries do not come by accident. They are largely the growth or product of economic conditions. A number of things must conspire together to maintain their successful operation at any given point. The primary inducements to their location may be subdivided into the following indispensable requisites:

1. There must be capital.
2. There must be labor.
3. There must be raw material.
4. There must be a market.
5. There must be transportation.

I have not mentioned these things in order of their importance, because I had I should probably have named labor first. You may have all the necessary material and the transportation facilities which make its loca-

tion ideal for a particular manufacturing purpose, then the first thing which should be your concern would be to enlist the brain and brawn necessary to convert your material into finished articles of commerce. The capital you can secure for the asking, because in this splendid country of ours, capital is always ready to take hold where confidence can be established, if you have the brain and the brawn which insures the success of the business.

The brain must be an honest brain—one that is thoroughly Americanized and has taken justice for its watchword. We do not need the socialistic variety which disclaims against that necessary support of all industry, capital, but the true American variety, which yields to capital its fair protection while exerting itself for the advancement of the wage earner.—From J. H. Kirby's speech at Beaumont.

SALOONS WILL NOT CLOSE.

Wichita Thirst Emporium Will Remain Open, Despite Attorney General's Opinion.

From the best information that can be secured it appears that the saloon men of Wichita Falls will pay no attention to the construction placed on the Baskin-McGregor law, by the State Attorney General and will keep their places of business open during the two weeks which the Attorney General holds that under the law they must close.

Many able lawyers over the state differ with the Attorney General in his construction. County Attorney Huff is inclined to think that the Attorney General has placed a wrong construction and in this he is supported by Mr. McGregor, one of the authors of the law under dispute and by District Attorney P. A. Martin.

All the saloon men of this city, it is said, have filed applications for a license under the new law.

ENCOURAGE GOOBER GROWERS.

Since it has been demonstrated that peanuts do well in this section of the country and that prices are good, many farmers have given cotton second place in their programs and are placing their bets on the goober. Until the past few months little was generally known about the demand for this toothsome nut and some farmers still fear that the industry may be overdone. To those who have entertained such fears the following from the Beaumont Enterprise will be interesting and instructive:

The consumption of peanuts in this country is constantly on the increase. A few years ago, the imports of peanuts were nil, but in recent years the increase in such imports has been marvelous. It is estimated that there were consumed in the United States last year no less than 12,000,000 bushels of the goobers.

At present Virginia and North Carolina supply two-thirds of the total crop of the nuts, and Georgia and Alabama and Florida nearly all of the remaining third. The cultivation of the peanut in Texas is considerable as compared with the totals of the country and yet there are large areas in this state admirably adapted to the growth of the nuts. The increase in the imports and consumption of peanuts during the past few years creates a condition that is of importance to the farmer of Texas.

At times the farmers and orchardists have run up against the results of over production and it is not surprising that they are a little wary about renewing the experience in other lines, but if the above excerpt from the Beaumont paper is reliable, and there is no reason why it may not be fully depended upon, as the statistics are accurately gathered, there is no danger of over production for many years, if at all. One reason for this is because it is only on certain kinds of soil that the peanut is profitable, and that area is comparatively small. Besides this is the fact that consumption of the nut is so rapidly increasing that the demand of the coming years can not well be met, and so long as we grow only for the domestic demand there is no danger of over production. We hope to see no cotton planted in future on peanut land, and thus the price of that staple will be increased.—Ablene Reporter.

A representative of the Times took advantage of an invitation extended by Mr. J. A. Kemp to make a visit to the Olney country on the Fourth. The automobile party started from this city at about 6 o'clock on the morning of the Fourth of July and by 10 o'clock we landed at the hotel at Olney, a distance of 45 miles. Two hours were spent at Olney, which is located in Young county, and is surrounded on all sides by as fine a farming country as can be found in Texas or elsewhere.

As yet the little village has a population of only about 200 people. Its enterprises consist of a State bank, five or six business houses, hotel wagon yard, telephone exchange, three

churches and a large two-story frame school house. That the people in and around Olney are well-to-do and prosperous is evidenced by the fact that when an opportunity was given them to secure the Wichita Falls and Southern railway, they called for a meeting of citizens and raised a bonus of \$20,000 in cash and in addition to this gave one hundred acres of land for the depot grounds and terminals and right of way for fifteen or twenty miles of road.

From interviews with farmers, the Times learned that last year more than an average of a bale of cotton to the acre was made on all lands planted to cotton in the Olney neighborhood. This year the acreage in cotton is more than double what it was last, and the crops in fine shape, being a good stand, free from grass and in a high state of cultivation.

The greenbugs damaged the wheat and oat crops of this section of country greatly, but nearly all farmers who planted these crops last fall have raised wheat and oats that would justify the expense of harvesting. The threshers are now running and the lowest average yield of wheat realized was five bushels per acre. One crop of oats made an average yield of fifty bushels per acre.

That this is a fine farming country proven by the fact that land has been selling for the last year or two at about \$30 per acre. When the railroad reaches Olney, the value of this farming land, as well as grazing land, will be greatly enhanced.

The opening up of this country will mean much to Wichita Falls, as it will more than double her trade territory and place her business people in close touch with a thrifty class of farmers whose acquaintance they can well afford to cultivate. At present nearly all Olney people do their trading at Graham. After the building of the Southern it will be much more convenient for them to do their shopping in Wichita Falls.

Olney is twenty-seven miles from Graham by the nearest wagon road and forty-five miles from Wichita Falls. Before the Rock Island built to Graham, many of these farmers brought their products to Wichita Falls to market, because they could get a better price for them here. This trade was lost by Wichita after the Rock Island was built, but will now be regained. The Southern will be completed in time to bring all cotton produced in that section of the country to be marketed here, and will be a saving to the farmers who produce it of more than a dollar per bale in freight charges. Many farmers are also holding their wheat for the purpose of shipping it to Wichita Falls when the Southern is completed.

The Times has it from very reliable authority that the Southwestern Telephone Co. is contemplating a raise in its rate for local telephone service. A good many citizens would not seriously object to a raise in rate if the increased rate is accompanied by an improvement in the service. The present management, we are sure, is quite efficient but the trouble is in the antiquated system in use.

Wichita Falls is giving the Southwestern company a good patronage, both local and long distance, and the city is deserving of a much better and more modern telephone plant.

Before the patrons will submit to a raise in the rate, it is probable that they will be disposed to do a little talking about an improved plant and a consequent better service.

In a number of other cities over the state franchises have recently been granted to independent companies and a merry telephone war is on in those towns. Two telephone systems in one place are generally more expensive and less satisfactory than a single system, but where the Southwestern has failed to give the kind of service that the people have demanded these inde-

pendent companies have stepped in and are doing a good business.

Whether the rates are raised or not the citizens of Wichita Falls should, and we believe, will demand a better service. This can only be given by the installation of a modern exchange and an up to date plant.

The Times suggests that it would probably be a good plan to place this proposition before the officials of the Southwestern without delay.

The advertising patrons of a newspaper over in East Texas recently handed the editor the names of 500 prosperous farmers, together with \$500 and requested him to send his paper to them for a year. The report does not state whether or not any hopes are entertained for the editor's recovery.—Clifton Record.

What the advertisers wanted and their purpose in sending the paper to those five hundred farmers was to place their advertisements in their homes. We are glad that the farmers of Wichita county are not of that sort, but are the kind who appreciate a good live newspaper, and are glad to pay the coin of the realm in subscription. An exhibit proving this fact can be seen at the Times office in the shape of our mailing lists and subscription books. They are open for inspection to anyone interested and we are more than glad to show you just what we have. The circulation of both the Daily and the Weekly Times is growing and the increase is coming from both the city and the country. New subscribers are coming in to the Times not alone from this county, but from the sections which are tributary to Wichita Falls are coming a goodly percentage of the new names.

Wichita Falls has passed the stage in her history where a crop failure in the surrounding territory means business stagnation and a backward movement.

This was evidenced in the earlier part of the season, when the crop prospects were never more gloomy. Despite the discouraging outlook, the town pushed ahead steadily and increased in population wonderfully, and this discouraging period saw one of the greatest growths in the history of the town. The Times is not attempting to depreciate the influence a good crop has upon the business of the town, but wishes simply to emphasize the fact that a crop failure no longer means business stagnation. With a big wheat crop in this section, the business done here would have been much greater than it is now. We are glad that those optimists, who never faltered on account of the unfavorable outlook earlier in the year, have had their anticipations fulfilled by a gracious Providence, and that after all, the season promises to end with the harvest of one of the most profitable crops in the history of this section.

It begins to look now as if the corn and cotton crop of Wichita County this year is going to turn out to be the best yet ever raised. On account of the destruction of the wheat and oat crops by greenbugs early in the spring, the acreage to corn and cotton is just about six times what it usually is. For the past month there has been but two real bad weather days for corn growing. On these two days hot, scorching winds threatened total destruction of the corn crop, but these hot winds were closely followed by a heavy rain, which revived the corn crop, and since that time the weather has been ideal for the growing of cotton and corn. Today (Tuesday the 8th) another good rain fell. It was just what was needed. With the continuation of this splendid crop-growing weather for the next month or six weeks, together with the proper cultivation of crops, the farmers of Wichita and adjoining counties will yield a sufficient amount of cotton and corn to more than offset the loss of their wheat and oat crops.

LUMBER FAMINE.

People who plan to build homes in Wichita Falls but think that the price of lumber is now higher than it will a few years hence will do well to place their orders with the lumber merchants this year, not next or the year after.

There are no statistics to show that lumber is ever likely to be any less in price than at the present, and the compilers of information of the United States forestry service say that there is three times more lumber being used every year than is grown.

The country consumes every year between three and four times more wood than all of the forests of the United States grow in the meantime. Since 1880 more than 700,000,000 feet of timber have been cut for lumber alone including 80,000,000 feet of coniferous timber in excess of the total coniferous stumpage estimate of the census in 1889.

These are some of the remarkable statements made in Circular No. 97 of the forest service, which deals with the lumber supply of the United States. A study of the circular must lead directly to the conclusion that the rate at which forest products in the United States have been and are being consumed is far too lavish, and that only one result can follow unless steps are promptly taken to prevent waste in use and to increase the growth rate of every acre of forest in the United States. This result is a timber famine.

This country is today in the same position with regard to forest resources as was Germany 150 years ago. During this period of 150 years such German States as Saxony and Prussia, particularly the latter, have applied a policy of Government control and regulation which has immensely increased the productivity of their forests. The same policy will achieve even better results in the United States.

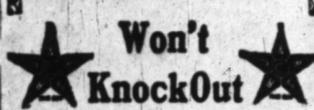

Two areas supplying timber have already reached and passed their maximum production—the northern states in 1870 and the Lake states in 1890. Today the southern states, which cut yellow pine amounting to one-third the total annual lumber out of the country, are believed near their maximum. The Pacific states will soon take the ascendancy. The state of Washington within a few years has come to the front and now ranks first of all individual states in volume cut.

At present only one-fifth of the total forest area of the United States is embraced in national forests. The remaining four-fifths have already passed or are most likely to pass into private hands. The average age of the trees felled for lumber this year is not less than 150 years. In other words, if he is to secure a second crop of trees of the same size the lumberman or private forest owner must wait, say at least 100 years for the second crop to grow.

But the States and the nation can look much farther ahead. The longer, then, the area of national and State control over woodlands the greater is the likelihood that the forests of the country will be kept permanently productive.

In reference to an article in this paper last Saturday in which it was stated that it was proposed to raise the rates on telephones in this city, Manager E. M. Rogers, of the local Southwestern exchange, authorizes us to state that the proposed raise in rate applies only to patrons who are using the old Blake phones, and special rate telephones which will, under the new rate and anti-pass law, have to be replaced with long distance telephones. These phones have been put in at a lower rate than the long distance phones, heretofore. Mr. Rogers states, that

"We walk on stars, so can you."

This is an awfully strong statement isn't it? Well the Boys and Girls "Eternity" School Shoes are the strongest proposition in the footwear line we have ever found, that's why they won't knock out. The Boys and Girls can kick all they want to but,

"They can't kick out Eternity".

They are foot culture shoes because they give the young foot room to breathe. They are broad across the toe; each toe has room to breathe and grow. These shoes are made over neat foot conforming lasts out of the most popular leathers and every shoe is made by an expert in a big specialty factory. The soles are fastened with a new which will not allow them to pull apart. They have double soles that will not allow the young people's feet to get wet. If children always have warm, dry feet they won't be sick. Watch them carefully and remember "Eternity" school shoes fill every requirement. "Eternity" shoes cost no more than the kinds that do not satisfy. The "Star" on the heel and the name "Eternity" on the sole protect you. These emblems of quality are a guarantee to you that the shoe is honestly constructed and full of satisfaction. "Eternity" school shoes for Boys and Girls are made by

ROBERTS, JOHNSON & RAND SHOES, MANUFACTURERS, ST. LOUIS

When you see the shoes and know the prices you will want them. Come see.

P. H. PENNINGTON COMPANY.

so far as he has been informed, this is the only change of rate which will be made.

The reason for the change in the Blake instruments is that these phones are no longer made, and under the law all patrons must get the service at the same cost to each patron.

ALL ARE GENTLEMEN.

Conduct of Ball Team Abroad is Highly Commended.

Stamford, Texas, July 11.—I wish to take this method of commending Mr. C. C. Lucid, Manager of the Wichita Falls Base Ball Club and his gentlemanly set of boys for their exemplary conduct while in our city and especially as guests at my hotel.

For the past four years we have had all the clubs at our hotel that have played in Stamford and none have been as decorous in their conduct as the Wichita Falls team. The citizens of Wichita should feel proud of their boys, both as ball players as well as gentlemen.

Very truly yours,
MRS. J. R. LAWSON,
Proprietress of the Lawson Hotel.

NEW COUNTY ATTORNEY.

Charles C. Huff Resigns and T. B. Greenwood is Appointed.

From Wednesday's Daily. At a called session of the board of county commissioners this afternoon C. C. Huff tendered his resignation to take effect before July 11th. His resignation was accepted and T. B. Greenwood, a rising young attorney of this city, was appointed to fill the vacancy. Mr. Huff, who has also been acting for J. T. Montgomery as corporation attorney in the city of Wichita Falls, has resigned from that office and Mr. Greenwood will take Mr. Huff's place as corporation attorney.

Mr. Huff, who is attorney for the Wichita Falls and Northwestern railroad, and is the legal adviser of other corporate interests, felt that he could not give the attention to the county's business demanded by the new law and for this reason tendered his resignation.

His successor, Mr. Greenwood, is a young man well known here, where he has lived and his appointment meets with general satisfaction. Mr. Greenwood's office will be located over the Farmers' National bank.

New Deputy City Tax Collector.

On account of rheumatic troubles, City Tax Collector J. W. Lee has been compelled to assign a part of his duties in that office to another person and has appointed James A. Freeman, deputy county tax collector, to assist him. After July 15th the books of the city tax collector's office will be moved to the office of the county tax collector at the court house.

Rain Prevents Game.

From Wednesday's Daily. The second game of the series between Wichita and Stamford at the latter place had to be called off yesterday afternoon on account of rain. The rains have been general in the section about Stamford and there is some doubt as to whether the rain will not prevent the game this afternoon also.

every old law repealed by the new law will be dead on Thursday and no officers will attempt to enforce the new until he has made himself familiar with its provisions, and that in the meantime he can do pretty much as

THEY ARE HARD HIT

EFFECT OF NEW LAW UPON THE COUNTRY SAVERS.

MUST SUPPORT FAMILIES

Themselves Liable to a Heavy Fine and Long Confinement in The County Jail.

Thursday's Daily. Tomorrow (Friday) will be the ninetieth day since the enactment of the thirtieth legislature, and many new laws will go into effect. One particular law will affect one particular class of people, who will be convinced that it is a joke about Friday being an unlucky day. The law referred to is the one making it a misdemeanor for a man to fail to support his wife and children, punishable by a fine of from \$100 to \$1000 or imprisonment in the county jail for one to five years, or both. This law, if enforced, will truly make it hard for the gentleman who has heretofore taxed his mental capacity over a green-covered table figuring out the proper amount of "English" to put on a certain ball to put another in a certain pocket

while his better half is at home wearing herself out over a wash-tub and taxing her mental capacity on the proposition of where the next meal is coming from to supply her liege lord and keep him in a good humor when he finds time to come home for his feed. Enforce this law and you will take away the personal liberty of the man who has daily searched out a shady bench and proceeded to decrease the visible supply of chewing tobacco and criticised the actions of every successful man who is known to him personally or by reputation while his better half was at home rustling with the problem of wrestling food and raiment for the offspring of this measly cur. If this law is enforced and these country savers are compelled to be responsible for the daily bread of their flock, as they see it, the country may fall over itself and go the demitition bowwows, but the years at many care-worn mothers may be considerably lengthened.

The law is copied after a similar one passed in other states where it has had a wonderful effect in diminishing the number of do-nothing husbands and bringing them to law in the matter of support. They have also in such states greatly decreased the demand upon divorce mills where claim after

claim have been filed praying for a document of statutory separation upon the grounds of abandonment and non-support. The law, properly enforced will prove a God-send to every community in the Lone Star State.

A Successful Farmer

Plows his ground deep in the summer or fall, covering up the vegetation which enriches the land and makes his yield the following year 20 per cent more. To do this with satisfaction you need a "Success Sulky," or a "Success Gang Plow," the strongest, the lightest draft, and satisfies the user. We want you to trade with us for your machinery, oils or anything needed on the farm. Our "Moon" buggies are the best for the least money.

PANHANDLE IMP. CO.

County Judge Yeager, ex-officio county superintendent of schools, has been notified by the State Superintendent of Public Instruction that no county examinations of applicants for teachers' licenses will be held during the month of August. The next examination will, therefore, be held in this county on the first Friday and Saturday in September.

Our coffees are giving satisfaction if yours are not. Try ours. King & White.

Looking for Stockdale.

From Wednesday's Daily. Sheriff Davis and Marshal Gwinn left for Eschiti yesterday afternoon in search of Stockdale, the escaped prisoner who got away from his captors at Burkburnett Sunday night. Stockdale is known to have crossed the Red River and is believed to be in hiding near Eschiti or Kell.

New Bank at Byers.

Washington, D. C., July 9.—The First National Bank of Byers, Texas, has been authorized to begin business with \$25,000 capital. A. W. Byers, president; E. E. Evans and R. L. Ligon, vice presidents; Leo J. Curtis, cashier.

From Wednesday's Daily. Sheriff Davis and Marshal Gwinn returned this morning after an unsuccessful quest in Oklahoma for Stockdale, one of the prisoners who escaped from the county jail several nights ago.

McClurkan & Co. sell \$2.00 work shoes that can't be beat. Wichita Falls. It

It strikes the unprejudiced observer that the Japanese are awfully anxious to secure admission into a country where they claim to be badly treated.

HOLLIDAY GROWING

GERMAN RUSSIANS FROM THE DAKOTAS ARE SETTLING IN LARGE NUMBERS.

A WONDERFUL CHANGE

Is Being Wrought By the Thrifty, Sturdy Teutons, Who Are Being Settled Here By Dr. Young.

The country about Holliday, a small town situated about fourteen miles southwest of Wichita Falls on the Wichita Valley railroad, in one of the most fertile and most favored sections in the whole of Northwest Texas, is the scene of wonderful development and transformation, which is fast changing the broad prairies into small tracts of highly cultivated and highly productive farms. Not only has the transformation begun in the country about Holliday, but the town itself is stirring with a new impulse and is prospering and growing in a manner which promises soon to make it a business center of no inconsiderable importance.

Naturally, the people and the conditions which are bringing about this development are attracting the attention of the people of this community. The man who has been most instrumental in making this transformation is Dr. C. C. Young, now a resident of this city and the people who are working out the development of that section and who will soon make it one of the most productive and prosperous sections in the whole Southwest are Russian German settlers from the Dakotas.

Dr. Young himself is an Americanized Russian German. Although still a young man he has a record of achievement of which any man might be proud. Early in his career he decided to educate himself for the medical profession and after completing a course in one of the best medical colleges in the world, he was honored by being appointed to a place on the staff of the Cook county hospital in Chicago. His work there was so meritorious and of such a high standard that before he had been connected with the hospital staff five years he was made chief eye surgeon in the hospital. He discharged the duties of that position with signal success until he was compelled to give up the work on account of throat trouble and seek a change of climate for the restoration of his health. In seeking a location he found, no place which pleased him better than Wichita Falls, so he became one of us and took up the work in which he had been engaged before he began the practice of his profession—which was the real estate and immigration business.

With this purpose in view he purchased several large tracts of land and today is the sole owner of the Meade ranch near Holliday, also a part owner of the Jones ranch in the same vicinity, in addition to being the sole owner of the townsite of Holliday. He then began to settle on these properties Russian German families from the Dakotas, making Holliday the nucleus of the settlement. Within the last few months he has sold lands and settled eighteen families of these people in and about Holliday, and not a week goes by but what sees some new settlers coming into that country and making their homes there. Dr. Young is so enthusiastic over the promise of that section and so firm in his belief of its future prosperity and productiveness that he has brought here his father, who owns and lives on what is known as the Styles section of the Club ranch, of which ranch the Doctor was formerly a part owner. A brother-in-law of the doctor's lives on the Thatcher ranch near Archer City and another brother-in-law lives on the Brigman ranch, which was the first Dr. Young purchased when he started to establish a Russian German

colony. There are now twenty families of these people living in that vicinity.

Holliday is the natural trade center of the settlement and plans have already been consummated and are now being carried out for the establishment by these people in Holliday of a church, a national bank, in which it is understood that Dr. Young is to be associated with Mr. Langford of the City National bank of this city, a hardware store, a lumber yard, livery stable and other institutions to meet the needs of the community.

These Russian Germans are industrious, thrifty, and peace loving citizens and are the best wheat farmers to be found in the whole world and excel in every line of agricultural work. Wherever they have settled, in the Dakotas, Nebraska, Kansas and in other sections, they have become the owners of the most fertile and productive farms and today are substantial, patriotic and loyal citizens. This is true wherever these Russian Germans have settled and while at first the people regarded their settlement with some distrust and evidences of antagonism, today these same settlers are looked upon with respect and admiration.

Many of these people who first settled in the Dakotas have found the winters there too rigorous and for this reason are coming to Texas.

As they are becoming our neighbors in increasing numbers something of their history will be of interest. In an article in Harper's Magazine in 1898, Kirk Munroe, one of the foremost Journalists of today, says about these same people, who were then just beginning to settle in the Dakotas:

"The Russians being the newest comers and also the most bitterly denounced by that class of Americans who glory in the title of 'Know Nothings,' claimed my chief attention and at St. Paul I learned that they were to be found in the greatest numbers somewhere along the line of the Northern Pacific railroad, west of the Missouri river. At Bismarck I was so fortunate as to meet a young Americanized Russian who has been instrumental in bringing more of his people to this country than any other person. He had been a medical student in Russia, became connected with a Nihilist plot, was suspected, arrested and sentenced to Siberia, but made his escape and came to this country five years ago. He at once took steps to become naturalized and now as Dr. C. C. Young, is an American citizen, intensely proud of his adopted country and enthusiastic concerning its institutions.

"The doctor surprised me by stating that his 'Russians,' as he termed those settled in the Dakotas were of Teutonic stock and not Slavs at all, save as they had adopted Slavonic customs and modes of life during a residence of several generations in Russia. According to him, Peter the Great, by liberal promises, induced several colonies of German farmers to settle in his dominion, where they were to teach his people their methods of agriculture. Each family of these colonists were given a house and land on which all taxes were remitted, the men were exempted from military service, they were allowed to retain their own religious forms and were free to return to their own land whenever they pleased.

Under these favorable conditions the colonists flourished and multiplied for two hundred years, becoming in that time Russianized in everything save their language, religion and independence of thought and speech. In Germany some of them had been Lutherans, while others had remained Catholics, and to this day their descendants have retained these forms of belief through all the vicissitudes of fortune.

"At length these semi-independent people became so numerous and on account of the extraordinary privileges granted them excited so much

discontent in the down trodden country in which they dwelt that the Russian authorities became alarmed, and decided upon their repression. So, by imperial ukase, Czar Alexander II arbitrarily revoked all concessions made to them by his famous ancestor. Thus by a stroke of the pen the German Russians were reduced to the servile condition of their Slavonic neighbors, and saw naught before them save a future of hopeless misery. Rather than accept this, vast numbers of them attempted to leave the country. Many were intercepted and were forced to return. Some were imprisoned, transported to Siberia, condemned to death or otherwise punished for striving to gain other liberty than that allowed by the Czar; but thousands made good their escape. Of these fortunate ones, some settled in Germany, others went to Argentine, but the greater number of them came to this country and a hundred thousand of them are estimated to have settled in the Dakotas.

"In North Dakota I found their farms scattered along the sluggish prairie waterways from the Missouri river west to the Bad Lands of the Montana border, and met them in all the little railroad towns from Mandan to Medora; which they use as shipping and trading points. Thus in New Salem, Kurtz, Hebron, Dickinson and other towns were seen the wagons of Russian farmers drawn by teams of big strong horses and heavily laden with sacks of wheat, or more lightly freighted with recently purchased goods. Always, too, there were passengers—broad shouldered, stolid looking men, wide-hipped squarely built women, and innumerable children, sturdy and bright-eyed."

Mr. Munroe then goes on to picture the several stages in the development of the immigrant and here is a typical picture of their progress:

"The old timer, who has gained the height of prosperity, lives in Mercer county. This man owns six hundred and forty acres of land, all of which is upland prairie, such as the American farmer, having in mind the rich valleys of the Red, James and other wheat region rivers had deemed unfit for cultivation, nor could it be profitably cultivated with their extravagant methods; but the Russian owner in 1897 put one hundred and sixty acres into wheat, which yielded him eighteen bushels per acre, forty more into flax and potatoes, and enclosed the remainder with a wire fence for his two hundred head of cattle. On the open range he herded a flock of sheep and from the prairie meadows he cut one hundred tons of hay, which he hauled home and stacked for winter use.

"Besides owning several teams of fine horses, a herd of cattle and a flock of sheep, he raises pigs, chickens, turkeys, ducks, sends eggs and butter to market and is not in debt to any man, has \$1,000 in bank and is estimated to be worth \$10,000 more. Seven years ago, when he located where he still lives, he had less than \$500, but he had pluck, energy and tariff."

This man whom Munroe writes of in Harper's Magazine, is typical of the class of people whom D. Young is settling in the Holliday neighborhood, and the Doctor takes pride in what he is doing, not only for his own people, but for the interests of this section as well. He says that as soon as his health is completely restored he intends to return to work in his chosen profession. In this connection he informed a representative of the Times today that his wife is also a doctor, being a member of the staff of the Illinois State Eye and Ear Infirmary in Chicago, continuing in her profession in that city until the healing climate of Texas restores her husband's health and permits his return.

OUTCAULT'S CARTOONS. WE WILL GIVE TO THE CHILD THAT WILL BRING US THE GREATEST NUMBER OF THESE BUSTER BROWN ADS ON SEPT 1ST A PAIR OF FINE BUSTER BROWN SHOES
RESPECTFULLY,
ROCK AND DUKE.

BIG JAIL DELIVERY

FOUR PRISONERS ESCAPE FROM COUNTY JAIL.

DRAUGHT RECAPTURED

Dragnet Spread for Other Three--Escaped Prisoners May Have Had Confederate on Outsize.

From Monday's Daily.
After a series of unsuccessful attempts to regain their freedom, Zed Wilson, C. C. Stockdale, W. H. Hughes and a prisoner named Dalton last night made good their efforts and three of the quartette, Wilson, Stockdale and Hughes, are still at large, Dalton having been recaptured in the Denver freight yards here early while attempting to get out of town on a north bound freight train.

The delivery was made at about midnight and was discovered a short time afterwards. Immediately Sheriff Davis summoned the other officers to help him in the recapture of the men. The officers in towns in every direction for over a hundred miles were called by telephone and given a description of the fugitives, but up until 11 o'clock this morning no news of their capture had come in.

Just how the prisoners managed to work the combination and escape from the upper corridor in which they were confined will probably never be known. Sheriff Davis, however, is of the opinion that some one from the outside unlocked the combination, making it an easy task for the prisoners on the inside to saw the padlock. After this was accomplished, they cut the canvass of their cell cots into strips, with which they climbed the barred sides of the cage, and once on top of the cage found it an easy task to pry open a cubby hole which gave them access to the roof of the jail, from which they let themselves to the ground by means of the strips cut from their cots.

Zed Wilson, one of the escaped prisoners, is indicted for rape, Stockdale was charged with the burglary of Robertson's hardware store and would have been given trial on July 22. Hughes, the man who has sawed the locks from his cell door several times since he was imprisoned, is charged with robbery and his trial was set for the same day as Stockdale's. Dalton was awaiting trial on a charge of robbery.

All four of the men were known to be smooth characters, who would take advantage of any opportunity to escape and for this reason Sheriff Davis has been exercising extra precaution to foil their attempts. Every effort is being exerted to bring about their capture and it is hoped to have the fugitives back in jail within a few hours.

Trusty Takes Leg Bail.
Will Wright, a prisoner convicted in this county about eleven months ago for the killing of Dell Tuttle near Iowa Park in May or June of last year, for which he was convicted and given a sentence of one year in jail and a fine of \$250, is now at liberty, having left the jail here on July 4th to attend a picnic and up to today he has not returned.

Wright was made a trusty soon after being convicted. He had nearly served out his jail sentence, but no part of the fine had been paid and in order to have settled this, would have to serve at least another year in jail. The matter of his leave-taking was just learned by this paper today.

Wichita 3, Decatur 4.
From Saturday's Daily.
Wichita Falls made it four straight yesterday by winning the final game of the series from Decatur by a score of 3 to 4. This makes the seventh consecutive victory for the locals. The batteries for Wichita were Collier, Bunch and Brockman, and for Decatur, White, McNally and Reynolds.

SHUT OUT AGAIN.

Bunch Pitched a Hitless Game and Struck Out Sixteen.

From Friday's Daily.
A crowd that filled every seat in the grand stand and bleachers and stretched out along the fence enclosing the park saw Wichita Falls administer the second shut-out of the series to the Decaturites.

A youth named Bunch, late of the North Texas league, made his initial appearance on the slab for Wichita Falls and his splendid work was the particular bright feature of the game. Mr. Bunch seems to possess everything that is desirable in a slugging artist. He has speed that is wonderful, and slants and curves which bewilder, but best of all he has a good head and almost perfect control. These qualifications, which were given a practical demonstration on the afternoon of the Fourth and were the important factors in the failure of the visitors to come across at the home station. How could a team be expected to score when they didn't get anything that looked like a hit and sixteen of their men struck out?--and that's what Mr. Bunch did to Decatur. In this showing he was ably supplemented by Backstop Brockman, who was in the game from the sound of the gong until the finish. Brockman is fast developing into the kind of catcher who will attract the notice of the league managers. He plays the game already like a veteran. His guard of the bases is admirable and in the contest yesterday he made base stealing so precarious an undertaking that not a single Decatur runner reached the third sack.

After a score had been made in the second Cap Lucid got a bad rap on the head by a pitched ball, but continued in the game until the seventh inning, when Black took his place in right field.

A pretty feature was Yohe's screaming drive into the deep left, which netted him three bags. He scored on a sacrifice by Thomas, making the only earned run in the game.

Score by Innings: R. H. E.
Wichita . . . 0 1 1 0 0 0 0 0 0 2 3 4
Decatur . . . 0 0 0 0 0 0 0 0 0 0 0 0 5
Batteries--Bunch and Brockman; McAdams and Reynolds.

Three Shows the Same Day.
Wichita Falls promises to be the scene of a merry show war next week. Whether by accident or otherwise three shows are billed to give performances in this city on that day. The three shows are: Whitman's Comedians, The National Stock Company and the Lone Star Minstrels.

With these three shows here on the same day Wichita Falls cannot complain of a dearth of amusement. These shows are said to be entirely independent of each other and all three will come to make a strong bid for public favor. The conditions invite a merry show war.

To Exchange.

DEATHS.

Mrs. B. F. Ware.
Special to the Times.
Olney, Tex., July 8.--Mrs. B. F. Ware, wife of Rev. Ware, pastor of the Baptist church at this place, died Sunday night, after a lingering illness. The funeral will take place today at Olney.

Mrs. Dorenda Wright.
Special to the Times.
Electra, Texas, July 8.--Mrs. Dorenda Wright, wife of S. B. Wright a well known farmer living about four miles north of this place, died at 7 o'clock Sunday night, after an illness of several weeks. Mrs. Wright was about 30 years of age and her death followed that of her little baby about a week ago. The funeral services will probably be held at Electra tomorrow morning.

Mrs. M. J. Smith.
DIED--At her home in this city at 6:35 p. m. Sunday, July 7th, Mrs. M. J. Smith, wife of J. D. Smith, aged 48 years, 7 months and 6 days. The funeral service was held at the family residence at 3 o'clock this afternoon conducted by Rev. W. A. Stuckey. The remains were laid to rest in Riverside cemetery.

If your windmill or pump is not giving satisfaction see M. O. Moore & Co., at the Wichita Grain & Coal Co. building. They will know how to make them do the work.

THE 4TH AT ARCHER

GREAT NATAL DAY OBSERVED IN GOOD OLD FASHIONED WAY.

LAUDS WICHITA FALLS

Lauds Wichita Falls and a Just Tribute Paid by Speaker to One of Her Leading Citizens.

From Friday's Daily.

Accepting the invitation of Mr. J. A. Kemp, a Times reporter was one of an automobile party of four who left the city at 6:10 yesterday morning for a days' outing in the country. The machine which was in charge of John Tubbs, worked nicely and by 8:30 the party arrived at Archer City, where the people had begun to come together to celebrate the Fourth of July. The Court House and other buildings were decorated with flags and bunting and great preparations had already been made for the comfort and enjoyment of the large crowd expected there that day.

Pinding that we were a little early, we concluded to drive on to Olney in Young County, twenty miles on the other side of Archer City, expecting to return to Archer City by dinner time but business matters detained Mr. Kemp at Olney for a couple of hours and the party did not get back to Archer until about 2 o'clock.

By this time all the people of Archer County seemed to have arrived at Archer City and were taking part in the celebration, and everyone seemed to be having a good time.

The address of welcome was delivered by Hon. W. E. Forgy, which occupied about thirty minutes in its delivery. He was at his best, and made every one present feel free and easy and at home. He was followed by Hon. E. B. Carver, Ex-Mayor of Henrietta, but now a very prominent citizen of Archer County and manager of the Club Ranch. Mr. Carvin choose for his subject, "Prosperity." He said in part:

"The prosperity this country has enjoyed for the last 20 years has been marvelous. The reason that I say it is marvelous is because it has been almost impossible for us who have been here during this time to keep up with the progress which has been made. In those days I doubt if there was a cotton gin West of the cross timbers of Texas. I doubt if there was a flour ering mill west of the cross timbers. I know to my certain knowledge there was not a bale of cotton produced West of the cross timbers of Texas. Try, if you can to realize the change that has taken place from that time until the present day. The last year practically one-fourth of the crop of the State of Texas was produced West of the cross timbers, which means about seventy millions of dollars to the farmers of this country. In those days the cotton seed was either burned for fuel or given away at the gin. That product today brings about forty million dollars into our state.

The cotton crop alone last year produced practically as much money per capita to the State of Texas as the entire crop of any of our northern states, which was about \$65 per capita. If one would go into the great railway stations of the northern cities and see the families that were passing through there and ask each and every one of them where they were bound for, 90 per cent of the answers would be, Texas. And one would naturally think that there would not be standing room in Texas, but Texas is a vast domain and we have room for more of them. Ladies and gentlemen, Texas, today is the center of attraction to the entire world, and Archer County is the center of attraction to Texas. The reason that I say that Archer County is the center of attraction is this. Do you know that the sample of cotton produced in Archer County last year, was of a higher grade than

the cotton produced from any other county in the State. Do you know that we produced a greater amount per acre than any other county in the State? It is a fact that we produced more No. 2 wheat according to the number of bushels raised than any other county in the State. It is useless for me to mention to you the quality of our cattle. You know what it is as a horse country, and thank the Lord, there is no loco except what a few of us men get hold of. Did you ever stop to think what it takes to produce prosperity? First, you must have the natural advantages which we have. Second, you must have men with brains and capital. To illustrate this, take the irrigation dam that was built at the north line of our county. That gigantic scheme was first hatched out in the fertile brain of that illustrious and noble, J. A. Kemp. A more loyal man to his country and a truer man I never knew. After getting this thoroughly fixed in his mind, he, together with his associates, built the great dam. What does this mean to each and every farmer, who is fortunate enough to own forty acres within reach of this water? Success and prosperity. What does it mean for the beautiful little city on the Wichita? It means water for its city use and for all manufactures that are there now and those that will be established there. This means success and prosperity. This illustrious gentleman, together with his associates, knocked at our door for admittance. Did we admit them? Echo answers "Yes."

About the latter part of April or the first of May there came a telephone message to your railway committee, of which I have the honor of being a member. That message stated for us to come to Wichita Falls. Not knowing what we were invited there for, but being your servants, we considered it our duty to go. On arriving there, in the little room at the back end of the City National Bank, where many a successful enterprise has been started, we were called together. They told us it was their intention to build a railroad to Archer City. Not seven miles east of us, nor seven miles west of us, but to Archer City. They did not tell us what they wanted, but asked us what we could give. We told them. The contract was made and signed that day.

Now, ladies and gentlemen, your committee was not up against any brace game. We were not dealing with men that intended to hold us up for all they could and then sell us out for whatever they could get. We were dealing with men who meant business and their word was as good as gold.

Your committee came home and went to work, and no committee ever solicited funds for a railroad that was treated fairer than this committee was. Did you ever stop to think what the building of this road through this section of country means? It is estimated that there are 25,000 bales of cotton tributary to this line. You know that it costs \$2.00 per bale to market it. It is estimated that there are 750,000 bushels of cotton seed tributary to this line. It means from two to four cents on each and every bushel. It means about \$100 per car on at least 500 cars of lumber and other things in proportion. The grand total of this means about \$100,000 per year. The seeking of prosperity might be compared to a little child being taught to walk. First he is taught to stand alone. Then by being held by that loving mother's hand, he takes one step, then another. The mother lets him loose and the little tot falls. So we often do in business. But what does the little child do? He gets up and tries again. This should be a lesson and motto for us.

Ladies and gentlemen, I thank you for your kind attention.

SIX SOLID CARS

OF BRAND NEW FURNITURE UNLOADED BY THE W. F. JOURDAN COMPANY.

APACE WITH PROGRESS

Enterprising Furniture Dealers Have Made Large Purchases of New Goods to Meet the Demands of a Greater Wichita.

Watch us grow—one hundred new residences to go up as fast as men and money can build them. Several large brick blocks under contract, to be from two to five stories each; two new railroads now building; a one hundred thousand dollar oil mill; a seventy-five thousand dollar compress. All these new enterprises call for more new things. Hence the W. F. Jourdan Furniture Company is today unloading its sixth solid car of new furniture right from the factories since the 1st day of last month. Three cars are of good medium grade furniture from Lexington, N. C.; one car of high grade goods from Chicago; one car—250 of the finest iron beds right from the factory in Chicago; one car—157 famous Charter Oak Stoves right from the factory in St. Louis. Remember, these goods are not to arrive, but are already here.

You want something to go in your home. We have it. It is new and first class. Prices right. Enough said. 46-1t

WANTED—Subscribers for the Daily Times

Best of Separators Actually Free of Cost

This is really the fact in the purchase of a **DE LAVAL CREAM SEPARATOR**. Any reputable person may buy a **DE LAVAL** machine on such liberal terms that the machine **ACTUALLY PAYS FOR ITSELF**. And it not only does this the first few months, in which it saves its cost, but goes on doing it for fully twenty years to come. In the face of these facts buying "cash-in-advance" separators, or any other than the **BEST**, is penny wise, dollar foolish. Such machines quickly **LOSE** their cost instead of **SAVING** it, and then go on losing instead of saving.

There is no possible reason why any buyer of a Cream Separator should be content with less than the **DE LAVAL** and there never was a more promising time to make this most profitable of all farm investments.

Why not send for catalogue and particulars?

MANY BUFFALO CALVES.

Goodnight Buffalo Herd Enjoying a Heavy Calf Crop This Spring.

It was recently widely circulated that the Goodnight buffalo herd had been sold to the British government. The news item originated a long way from home, and was afterward denied. The following item from the Amarillo Daily Panhandle is of interest:

William Penn Anderson, the live stock agent of the Southern Kansas, returned this week from a trip to Goodnight and reports that the buffalo herd there is in an especially good condition. This year twenty full blood calves were born in the herd. This is the largest number of calves ever born in one year in this herd since it has been in captivity and is the largest number born in one year to any captive herd of buffalo. Buffalo are not naturally so prolific as are cows and other domestic animals. The full calf crop this year in the Goodnight herd is a guarantee of the continuance of the herd and is naturally very gratifying to Colonel Goodnight and others who are interested in perpetuating the breed.—Clarendon Banner Stockman.

Two Kinds of Blowing.

A young lady organist in a certain prison on a visiting clergyman one Sunday. Her organ was pumped by a self-willed old sexton, who had his own ideas as to how long an organ voluntary should last and so would "shut off the wind" when he thought fit. On the particular Sunday the organist thought she would forestall any such accident by writing an appeal in the early part of the service and giving it to the sexton. The old man received the note and supposed it was for the minister. In spite of her frantic beckonings, he went straight to the pulpit with the note, and the astonished preacher read this message: "Oblige me this morning by blowing away till I give you the signal to stop."

ABANDON ROCK QUARRY.

Denver Road is Now Using Gravel Ballast in Roadbed Work.

Rock obtained from the recently established quarry near Herman having proved unsatisfactory, the Denver road has abandoned the quarry and is now looking for a more suitable material than that produced from Herman. Meanwhile gravel obtained on the upper division is being used in ballast work now in progress near Amarillo.

Work on the additions and improvements to the Denver shops at Childress is now well under way. The capacity of the shops is being doubled with the erection of another large building and over \$100,000 is to be expended.

Second Crop of Strawberries.

From Tuesday's Daily. The Times was today shown a sample of second crop strawberries raised by Mr. M. L. Thompson, two miles east of the city. Mr. Thompson says that he has picked and sold at 25c per box three crates of these berries. So far as the Times has knowledge, Mr. Thompson is the first man to demonstrate that a second crop of strawberries could be raised in this country.

From Monday's Daily.

A small blaze, said to have been started by some small boys, called out the fire department to Filgo's feed yard on Indiana avenue this morning. The blaze was extinguished without having done more damage than the destruction of a box pile.

Following a dance at Bill Garrett's place in Bucktown Saturday night a fight resulted and two negroes, Syl White and Jess Segoy were arrested. They contributed the usual \$13.80 to the city coffers this morning.

Squirrel Whips a Snake.

The story of a battle between a squirrel and a large blacksnake is reported by John Withers, a prominent farmer who lives north of Carleton. Mr. Withers has some pet squirrels on his farm, and a few days ago, when he went to feed them, he noticed a commotion going on in the squirrels' nest. In a few moments a red squirrel emerged from the hole in the tree, dragging a blacksnake.

Both were fighting desperately. The snake was at a disadvantage, however, for the squirrel had a strangle hold behind the snake's head and shook his unwieldy antagonist as a dog would a rat. The snake endeavored to encircle the little squirrel with its coils, but could not do so, and presently both the snake and squirrel fell to the ground, the squirrel still retaining his hold on the snake.

Mr. Withers stepped up and the squirrel released his hold and scampered back up the tree. The snake, which measured nearly six feet in length, was nearly dead, and was dispatched by Mr. Withers.—Stamford News.

New Bookkeeping.

The railroad commission has issued two orders of seventeen pages specifying by items how the books of the Texas railroads shall be kept in the future, with a view to entirely separating all items of expense as chargeable to state and interstate business. This follows the order making the same provision with reference to earnings and means great work in the accounting departments of the Texas roads at increased cost to the roads. It is understood that the commission issued the order because of their oft expressed views that the accounts of the Texas roads were manipulated to make a poor showing and give the earnings to the parent or outside connection. This has been impressed on the commission, it is said, by the disclosures in securing evidence to be used at the rate injunction suits, and they would guard against such alleged manipulations in the future.

The Decatur News comes to our exchange table this week in the shape of a prettily illustrated souvenir edition, publishing a large number of photographs of public and private buildings and of prominent people of the town. The issue is very neat typographically and a perusal of its pages would convince most anybody that Decatur would be a good place to work and live in.

Wilson-Sitton.

Mr. Will Wilson and Miss Madeline Sitton were married in Ryan, I. T. on July 3. Both the contracting parties formerly lived in this city and have many friends here. They left soon afterwards for a tour of the North and intend to spend sometime on the lakes and visit several of the larger cities and the Jamestown exposition before they return. They will reside at Amarillo.

B. J. Parker, Vernon, W. A. Hubbard, Hereford, J. E. McConnell, W. A. Stinson, Dr. A. B. Fair and B. A. Hubbard of Frederick and others, have applied to the comptroller of the treasurer at Washington for a charter for the Frederick National Bank.—Frederick Enterprise.

Two dusky maidens of uncertain age pulled off a fight in Bucktown Saturday night and Marshal Gwinn presented their names in the police court Monday morning. One of them has already contributed \$13.80, and the Marshal is awaiting the opportunity to nab the other combatant.

From Monday's Daily.

A shipment of three new Buick automobiles was received this afternoon by the Wills Automobile Company. These machines were ordered for Messrs. Kemp, Kell and McGregor.

Acting postmaster Ralph Darnell has been notified that an appropriation has been given the Wichita Falls office for another clerk. Clarence Clapp has been appointed to the position.

PERSONAL MENTION

From Saturday's Daily.

Mrs. Hardwicke of Leonard is visiting her daughter, Mrs. Wills of this city.

Mrs. E. L. White left yesterday for Wynnewood, I. T., for a visit with her daughter, Mrs. R. E. Strange.

Mrs. A. J. Bush returned from a visit to Waco yesterday. Her daughter, Mrs. H. T. Pittman and babe came with her and will visit a few weeks in our city.

Mrs. Dr. G. R. Yantis and son, of Bowie, Texas, are visiting Mrs. Dr. J. W. Duval. They came up for the 4th and will spend several days.

Mr. Hugh Yantis, manager of the telephone exchange at Nocona, Texas, spent the 4th and 5th in this city visiting his sister, Mrs. Dr. J. W. Duval.

E. H. Thomas came in from Kell Saturday. He went around by way of Wichita Falls, as he likes traveling by rail better than driving thirty miles across the Big Pasture.—Frederick Enterprise.

M. A. Forgy was in the city today on his way from Ringgold to Archer City where he will establish a new weekly newspaper. The paper will be called the Archer Reporter, and the initial issue will appear within a few days. Mr. Forgy is well known at Archer, where he was formerly engaged in the newspaper business and the Times wishes him success in his new venture. F. E. Forgy, will be assistant editor of the Reporter.

From Monday's Daily.

Mr. and Mrs. R. A. Logan of Atwood were visitors here yesterday.

W. W. Jackson left this afternoon on a business trip to Hamlin.

R. L. Hefflin, of Sherman, is in the city today looking after business interests.

Mr. H. W. Norwood of Vernon, is in the city today for a short visit to his parents.

Mrs. E. E. Koeley and children are visiting with relatives at Sugdon, I. T., this week.

Mrs. Susie Perry and son, William, of Nacadoches are the guests of T. B. Noble and family.

Mr. Patrick has succeeded Mr. Chambers in the Denver office here. Chambers goes to Chicago.

Mr. A. C. Wilson of Dallas, has succeeded another man in the Denver Dispatchers office at this place.

Miss Lottie Venable, the daughter of Senator Yeale, was in the city yesterday enroute from Amarillo to Seymour.

Mrs. Troutman and daughter, Miss Minnie, of Iowa Park, visited Miss Jodie Haynes in this city last Saturday.

Mrs. Kavanaugh and son and daughter, of Terrell are the guests of Mrs. Kavanaugh's parents, Mr. and Mrs. George Simmons.

Mr. and Mrs. W. L. Fore of Memphis, are in the city today, the guests of Mr. and Mrs. J. S. Fore. They are on their way to Austin.

Master Dudley Henry Jackson, who has been attending school in Dallas, is visiting his father Frank Jackson, of the Wichita Falls Implement Co.

Mrs. C. D. Smith and children of Austin are visiting with Mesdames W. E. Skeen and J. O. Hunt of this city. They will leave tomorrow for their home.

Mrs. J. H. Eldridge and baby arrived Saturday night from Oklahoma City to join Mr. Eldridge who is the manager for the Minnetonka Lumber Yard.

Dr. W. B. Pope of Knox City passed through the city yesterday, stopping off several hours while waiting for train connections.

Mrs. Allen Darnell left this evening for Denver, Colo., where she went in response to a telegram announcing the serious illness of her sister, who is there in a sanitarium.

Mrs. C. C. Davis and sons, Raymond and Hubert, and daughter, Gera, were here from Iowa Park today. They were accompanied by Mrs. Davis' sister, Mrs. D. D. Crockett, and daughter, Miss Claudia, who live at Oak Cliff,

Dallas, and are now visiting them at the Park.

Messrs. N. Henderson and Tom Felder are arranging to leave within a few days for Rockport, where they will spend the remainder of the summer fishing. They have purchased an 18 foot steel gasoline launch, with which they will enjoy their outing to the fullest extent. At the close of their vacation, they will ship the launch to Wichita Falls to use on Lake Wichita.

Thomson Dies From Wounds.

From Wednesday's Daily.

Jourdan Thomson, the negro who was shot several nights ago by Pat Lewis, another negro, for being too intimate with Lewis' wife, died at 6 o'clock this morning, as the result of the gunshot wound inflicted by Lewis. The negress, Lewis' wife, in whose company Thomson was when shot, and who also received a part of the load of buckshot, is reported in a serious condition and may die. Lewis is believed to have escaped into Oklahoma.

In view of the stories that have been forced to wire out we do not blame the San Francisco telegraphers for striking for shorter hours and better wage.
