XVI, NO 3

WHITTLIN'

By DOLPH MOTEN

One of the past chairmen of Bull Town Days asked us this week how things were going with this year's celebration.

We told him that it looked good but we were kinda nervous about the overall deal. He laughed like he knew what we were talking about and was somewhat relieved that he was out from under the direct responsibility. As a matter of fact, it seemed the laugh was more of relief than of humor.

We took a weekly newspaperman's two-weeks vacation the latter part of last week. Houston's Astrodome and a couple of major league ballgames were the highlight of the trip and, needless to say, we enjoyed them immensely. Nearby Astroworld was also a one-day attraction for the children and womenfolk in the party of three generations of Motens. They indicated they thought it was on a par with Six Flags at Arlington even though it's not as old and possibly not as well established.

Motel accommodations were much improved over our last trip to baseball games in Houston a couple or three years ago. Four new motels are located within walking distance of the ballpark or to Astroworld and besides that you don't even have to walk if you have a little patience. Bus service is provided to and from the motel area and the attraction on an every-few-minutes basis. This not only saves on walking, but also saves the \$1 or whatever cost of parking your car on the main parking lots. We understand that five more motels are to be constructed in the area. When we were there previously, motels weren't as nice or as convenient to the ballgames as they are now.

On the way to the climax of the trip we went by College Station, after getting with our folks in Central Texas, so Eldred Son Mat could have a look at the college he plans to attend, Texas A&M.

It could have been that we were interested in looking the place over again, too.

Houston's ballclub is having a not-so-good year, but that doesn't dampen our enthusiasm. We just wish the team could do better and wonder why it can't. Even after watching a couple of games, we don't know that we could figure out all the things the team needs to change to do better. The Astros seem to be a pretty good outfit when the players are examined individually. They've had a hard time putting together all the things necessary to win. When they get hitting, for instance, it seems that the pitching is lacking. And then when a moundman turns in a good performance, they often can't get him any runs. Just kind of a bad year, all in all, but maybe there's hope for improvement.

The sportswriters in Houston have accused the players of making mental mistakes and not playing like the professionals they are. Those guys are in a position to know so much more than we are that we wouldn't quarrel with their theories, but in our brief stay the things they were talking about weren't evident. The Astros won a game from LA, 8-5, and lost one to San Francisco, 9-5, while we were there. And that's a better winning percentage than the team has for the season, so that pleased us.

In the SF game, it was a pleasure to watch the Giants' great, but aging, Willie Mays in action. Even among other major league ballplayers and at the age of 38, his outstanding ability is evident. We noticed him stationing the left and right fielders from his position in centerfield for different hitters. We didn't notice him making a mistake, either, when he indicated where one of his outfielding mates should be. He's still a great hitter with a tremendous ability to get a basehit when it'll hurt the opposition the most. Though not as fast as he was once, they say, he's still an alert baserunner and if the opposing team gives him just a bit of advantage, he'll be on the next base before you can decide whether he has a chance to make it.

Mays will go down as one of the game's greatest players. We think it's a privilege to see him in action. He has great appeal to the fans. So much, in fact, that a majority of our group was pulling for Mays & Co. to win over my Astros. That's the way it happened, too, that night, as we said.

We didn't attempt to make

Two vacancies now exist on the school faculty, Supt. Jacobs reports. Teachers for kindergarten and special education are being sought.

Bovina CAP Board Meeting Set Thursday

Community Action Program board meeting will be at St. Ann's Parish Hall Thursday, 8 p.m., according to Mrs. Lee Stevenson, secretary of the board.

All interested persons are invited to attend and board members are especially urged to be at the meeting.

Rev. Charles Gates, pastor of Bovina United Methodist Church, Mayor Charles Flynn and Father Norman Boyd were appointed to fill vacancies on the board at the board meeting June 11. Rev. I. S. Ainsley, pastor of Calvary Baptist Church in Friona, was appointed to serve as chairman of the board. He replaced Rev. J. B. Fowler.

New board members will be elected in September, according to Mrs. Stevenson.

Sunday Shower Suitable

Showers in the area Sunday night totaled as much as 1.5 inches south of Bovina. Lesser amounts, varying upwards from half an inch, were recorded throughout this section.

Added with moisture which has been received in recent weeks, the rain this week is making for a "good" year moisture-wise after a Spring drought was broken last month.

Most grain sorghum and corn in the area is in the stage where it needs ample water and the rains will be a definite boost to that crop.

The Sunday night rain was of a general nature even though the amounts received varied.

Additional showers are predicted this week.

Bovina Implement Quitting Business

Bovina Implement Co., one of Parmer County's oldest and most established businesses, is closing.

Bedford Caldwell, owner-manager of the Massey-Ferguson farm implement dealership, announced this week that the business would be closed the last week in July, probably July 31.

The firm was established by Caldwell in Bovina in the Fall of '45 as an International Harvester dealership. In 1950, the implement line was switched to Massey-Harris which has since become Massey-Ferguson.

The business is located on Highway 60. It has been in that location since about 1960.

Prior to that time, it was located on Main Street, in the building now occupied by C&H Irrigation Supply.

7th Celebration Just One Month Away

Bull Town Days 1970 is just a month away.

The annual, three-day community celebration is scheduled for Thursday, Friday and Saturday, August 13-14-15.

"Plans are shaping up for this to be one of the best celebrations ever," Dolph Moten, general chairman of the event said this week.

This will be the seventh annual BTD celebration.

"Final plans have been made and all that remains to be done prior to the festivities is working out the details and adding incidental activities," Moten says.

Highlight of the three-day schedule of activities will be the free downtown barbecue which traditionally attracts thousands of area residents and guests. It is scheduled for Friday afternoon. Serving is to begin at 6 p.m. The barbecue beef will be prepared by a crew of cooks headed by Mutt Graham and R. L. Hoplingardner. The meat will be cooked on specially-built crates for the Bull Town Days barbecue.

Wendel and Keith Garner will be in charge of slicing the meat after it is cooked. Wilbur Charles is the man responsible for having the beans for the meal cooked. He has performed this task before and enlists several women in the community to each cook a pot of beans. Charlie Flynn will be responsible for the cantaloupes and onions which are also a part of the free meal. Members of Bovina Lions Club will be in charge of serving the meal.

Members of Bovina's Young Farmers Chapter will haul mesquite wood from the eastern Panhandle to be used for the barbecue fire.

The activities get underway Thursday afternoon with a jackpot calf roping scheduled at the roping arena. Bovina Roping Club will be in charge of this activity.

Men's and women's divisions of the now-popular cow calling contest will follow the roping at 6 p.m. This will also be at the arena.

Next event is the beard grow-

ing contest at 6:30. Trophies will be awarded in both cow calling and beard growing.

The queen's contest, also a highlight of the celebration, is slated for 7 p.m. The competition will be held at the arena with contestants performing on horseback and having individual interviews with the judge.

Mrs. Robert Read is chairman of the queens contest. The winners will be announced during the BTD Variety Show which will be in the school auditorium Thursday night at 8:30.

Deadline for queen contestants to enter the competition is Friday, July 31, Mrs. Read says. The candidates will be sponsored by businesses or organizations. Entry fee is \$3. They must be from 14 to 21 years of age and unmarried.

During competition the contestants must wear blue jeans, white shirt and straw hat. They may wear more colorful Western attire for the presentation at the Variety Show.

The queen will be selected on the basis of horsemanship, which will count 60 per cent, and on personality, appearance and beauty, 40 per cent.

Mrs. Celia Barraza is in

charge of the Thursday night variety show which has proven to be a major attraction during the past years. The show will feature local and area talent and will have a Western theme. The show usually plays to a "standing room only" crowd. An admission charge of \$1 per family is charged.

Friday is the "big" day of the celebration. The activities begin early --- at 7 a.m. with a chuckwagon breakfast --- and continue through midnight --- with a teenage dance.

Included in Friday's activities also are the old timers' reunion, which is sponsored by Bovina Woman's Study Club. Horsemanship activities are conducted at the arena. The downtown parade, also a great crowd-pleaser is set for 4 p.m. Edwin Lide, the roping club's parade marshal, is in charge of it.

The old time fiddlers' contest is slated to begin at 5 p.m. Friday, according to Al Kerby and Pearl Singleberry, co-chairmen of that event. Cash prizes of \$50, \$35 and \$15 will be awarded to the top three fiddlers.

any survey, of course, or even study the situation to any great extent, but we got the impression from the people we rubbed elbows with before and during the game that a good percentage of those attending were tourists kinda like ourselves instead of true, died-in-the-wool supporters of the Houston Astros. This situation, we guess, is different than in towns like New York, Chicago, St. Louis and LA where the fans are more more dedicated and consistent.

It seemed to us that maybe the domed stadium is still a tourist attraction, even though it's been in use for the past few years, and that a lot of people come to see the covered ballpark as much as they do the ballgame.

That's neither here nor there, of course, but we think the Astros need to come up with a way to develop a following of dedicated fans before the attraction of the Astrodome wears off for tourists.

Taking vacations is not our long suit, but we sure did have a good time on that one. It wasn't as good a deal as being in Bovina for Bull Town Days, but it'll do until Bull Town Days get here . . . the middle of next month.

On The Farm In Parmer County

By R. MACK HEALD
County Agent

A new program is being conducted by the Texas Agricultural Extension Service, its slogan is "3,76 in '76" which means raising the state's annual agricultural income to \$3,76 billion by the end of 1976. This is an increase of \$1 billion over the present \$2,76 state agricultural income. This \$1 billion increase is to be completed over the next six years. "3,76 in '76" has the dual objective of more fully realizing the agricultural income potential of the state and improving the net profit position of producers. The program will be focused on reaching the full potential of each economically important agricultural commodity produced in the state. Parmer County fits into the spotlight of this total program.

The Panhandle area of Texas is projected to produce slightly less than one quarter billion dollars in the six-year period. As projected by the County Program Building Committee, Parmer County is to have cash receipts of \$85,432,300 by 1976, which is an increase of \$22,340,000 over the 1968-69 cash receipts. In the Panhandle area this is second only to Deaf Smith County. This program is to be conducted by supplying the producer with the latest research information available, plus production guidelines and educational programs. "3,76 in '76" can benefit the entire economy of the state. It can mean more jobs, more goods and services, and the realization of a higher level of living for all Texans.

At Home In Parmer County

We throw away food! A recent survey shows that American families throw away an average of two-thirds of a pound of food per person a day. Plan before you buy.

Hungarian Paprika, after an absence of 25 years to American homemakers, is being reintroduced. Unlike Spanish Paprika, used for color and appearance, Hungarian Paprika adds flavor and aroma to food.

If their present rate of growth continues, soft drinks will rank as the number one beverage

product in terms of per capita consumption. Soft drink growth is the most rapid of all beverage groups. Meanwhile, coffee, tea and milk consumption is declining.

What causes the color contrast between surface meat and interior meat in a package of ground beef? The difference is in exposure to oxygen, says the Consumer and Marketing Service, because surface meat is exposed to oxygen, it's brighter red than meat in the middle of the package where less oxygen is available.

Sea Breeze Pineapple Pie

Canned crushed pineapple, perked with lemon and coconut makes this pie as refreshing as a sea breeze on a languid day. The filling is quick and easy to make with convenient ingredients.

A golden lattice crust tops the sunny filling. For a special look, top it with whipped cream and slivers of crystallized ginger.

Keep several cans of pineapple on hand. Its tropic flavor is sure to please any time of day, whether you simply spoon it from the can and serve or add it to an appetizer, salad or entree.

SEA BREEZE PINEAPPLE PIE

- | | |
|---|-----------------------------------|
| Pastry for 9-inch double crust pie | 1/2 cup canned pineapple juice |
| 1/2 cup sugar | 2 tablespoons butter or margarine |
| 3 tablespoons corn starch | 2 tablespoons lemon juice |
| 1/4 teaspoon salt | 1 teaspoon grated lemon peel |
| 1 (1-pound 4-ounce) can crushed pineapple | 3/4 cup flaked coconut |

Preheat oven to 425° F. Blend together sugar, cornstarch and salt. Stir in undrained pineapple and pineapple juice. Cook over moderate heat, stirring constantly, until mixture boils and thickens. Remove from heat; add butter, lemon juice, peel and coconut. Cool about 5 minutes. Pour into pastry lined 9-inch pie pan. Cover with pastry strips arranged lattice fashion; lay 1/2-inch wide pastry strips across filled pie about 1 inch apart. Weave with remaining strips to make lattice effect. Fold bottom crust up over edges of pastry strips. Press to seal, flute edges. Bake for 30 to 35 minutes. Cool before serving. Makes one 9-inch pie.

MRS. LEON SCHILLING

Mrs. Leon (Martha) Schilling grew up in an area famed for its sausage and she is sharing an old family recipe for that sausage with Blade readers this week.

Martha was born in Rhineland (Knox County), Tex. She is the daughter of Mr. and Mrs. J. A. Decker. She attended school in Morton and was graduated from high school at Pep. Martha married Leon in 1957 and they moved almost immediately to their present home one and one-half miles north of Bovina.

Mrs. Schilling is the mother of four children; Terry, 12, Karen, 7, Lisa, 5 and Todd, 14 months.

Gardening is one of Martha's main interests. Sewing is another interest that keeps her very busy. She sews for her daughters and herself and as she says, "I learned the hard way, by trial and error."

Reading and crossword puzzles are favorite activities, also. But, she says that it is increasingly hard to find the time for those particular hobbies. Martha is also an avid volleyball fan. She has played in the Bovina volleyball tournament for several years. The Schillings are members of St. Ann's Catholic Church in Bovina where Martha is active in St. Ann's Society.

Martha is sharing five of her favorite recipes this week, including her sausage recipe and Leon's favorite dessert, Cherry Surprise Cake.

GERMAN SAUSAGE (50 lbs.)
50 lbs. ground pork
1 c. salt
1/2 c. pepper
2 or 3 cloves garlic blended in
1/2 c. warm water
3 t. salt-peter
1/4 box mustard seed
Mix thoroughly. Stuff in casings and hang in smoke house. Smoke for four hours, at least. When cool, package and wrap to freeze. Freezes real well. Smoking makes the difference! The sausage can be used in the regular way.

CHERRY SURPRISE CAKE
1 c. vegetable oil

1 1/2 c. sugar
4 eggs
1 t. vanilla
2 c. flour
1 t. baking powder
1 t. cinnamon
1 can cherries, sweetened and thickened
Mix oil and 1 cup sugar. Add eggs and beat well. Add vanilla. Add dry ingredients and beat. Mix remaining 1/2 cup sugar and cinnamon for topping. Grease and flour 12x15 inch pan and pour 1/2 batter across bottom. Sprinkle half of topping over batter. Pour cherries over topping. Pour rest of batter over cherries and sprinkle with remaining topping. Bake at 325 degrees for 50 minutes. Any kind of fruit may be substituted for cherries.

ENCHILADA CASSEROLE
1 pound ground beef
2 T. shortening
1 10 ounce can enchilada sauce
Salt to taste
12 frozen tortillas (thawed)
1 1/2 c. onion, chopped
1 1/2 c. grated cheese
Brown ground beef in shortening. Add enchilada sauce and salt. Cook slowly over low heat for 15 minutes or until slightly thick. Dip tortillas in hot fat quickly. Place alternate layers of tortillas, onions, cheese and meat mixture in 8 inch casserole. Heat in 375 degree oven for 20 to 25 minutes until bubbly.

APRICOT GELATIN SALAD
1 pkg. lemon gelatin
1 small pkg. cream cheese
1 c. boiling water
1 large can apricots
1/2 c. apricot juice
1/2 c. chopped pecans
Put apricots through sieve or blender. Blend gelatin and cream cheese. Add water. When well mixed add remaining ingredients. The easiest, quickest way is to blend all in a blender. Chill.

CINNAMON ROLLS
4 1/2-5 1/2 c. unsifted flour
1/2 c. sugar
1 1/2 t. salt
2 pkg. yeast
1/2 c. milk
1/2 c. water
1/2 c. (1/2 stick) margarine
2 eggs (room temperature)

Girls Return From Europe

Suzanne Wilson, daughter of Mr. and Mrs. A. M. Wilson, and Candy Wilson, daughter of Mr. and Mrs. Robert Wilson, returned July 6 from a three-week tour of Europe. Their tour was cut short when the tour company was declared bankrupt.

The girls reported they were fortunate because several hundred people that had just begun the tour had to return home at their own expense.

The girls were in a group of 135 that toured scenic spots in France, Italy and Switzerland. England was on the agenda but had to be cancelled when the girls returned home.

In the next edition of The Blade there will be a more detailed version of the trip.

MOMENTS OF EUROPEAN TRIP --- Candy Wilson, left, and Suzanne Wilson are shown with the clocks they purchased in Switzerland on a recent three-week tour of Europe.

Correction

In last week's Cook's Corner, an error was made in the recipe for White Bread. The correct recipe is:

White Bread
5 1/2 to 6 1/2 cups unsifted flour
3 T. sugar
2 t. salt
1 pkg. active dry yeast
1 1/2 cups water
1/2 cup milk
3 T. margarine

In large bowl, mix 2 cups flour, sugar, salt and undissolved yeast. Combine water, milk, and margarine in saucepan. Heat over low heat until liquids are warm. Gradually add dry ingredients and beat 2 minutes. Stir in additional flour to make a soft dough. Turn onto lightly floured board and knead until smooth. Place in greased bowl. Cover, let rise until double in size. Punch dough down. Turn onto board. Let rest 15 minutes. Shape into loaves. Place in greased loaf pans. Cover, let rise until double. Bake 400 degrees 25-30 minutes.

Mr. and Mrs. Cecil Sisk and Royce are visiting with their daughter and husband, Mr. and Mrs. Darrell Benson, in Forest City, Minn. this week.

Mr. and Mrs. Owen Moore are leaving Wednesday for New Hampshire where Moore will be stationed. Mrs. Moore is the daughter of Mr. and Mrs. Elton Venable.

"Fasten your seat belt."

A LOOK AT MODESTY

"In like manner also, that women adorn themselves in modest apparel, with shamefacedness and sobriety; not with braided hair, or gold, or pearls, or costly array; But women professing godliness with good works." (1 Tim. 2:9-10).

At the peril of being labeled a well-rounded square, let me here lift my voice against skirts that have been lifted too high! The fashion of our time appeals largely to the vulgar and sensual, and boldly says so. Sex is being flaunted now as if it were invented with this generation, and will cease with it.

Fashion designer, Mary Quant, "mother of the mini-skirt," tells in brazen terms why she designed this modern garment. In fact, the reason she gave is so vulgar that modesty prevents our quoting her statement. But among the less obscene things she said about it was that the mini-skirt was deliberately designed "in order to seduce men." (Newsweek, Nov. 13, 1967-page 76.)

If this is the avowed design of the mini-skirt, how can sensitive, pure and decent women yield to such a deliberately worldly craze? Women of piety and spirituality have no desire to elicit lustful stares and wolfish whistles from men who pass by. They desire to be chaste, not chased. They do not wish by their manner to dress to convey any idea except that they are women of virtue, not vanity.

Modest in the New Testament is a word that means orderly, well arranged, decent. To be immodest in dress, therefore, is to be indecent. Christians must not dress in any manner, then to suggest indecency. A lack of modesty, loose sex morals, destroyed the Roman empire. Friends, it can do the same for America.

NEWS for OUTDOORSMEN

... by VERN SANFORD

Several years ago Dave Hawk, who has distinguished himself as a great bass fisherman, was weighing in a string of lunkers. A little woman approached him, looked over the string, and then asked "Don't you ever catch any little ones?"

"They are harder to catch than the big ones," Hawk replied. And therein lies a story of the few men who never seem to catch anything but big fish.

Hawk is one of them. Another is Tex Heth, who guides around Toledo Bend and Rayburn in East Texas. Then there is John Fox of San Augustine. He never seems to take one under four pounds.

It's a strange feeling to sit in a boat with an angler and both of you catch fish, but the other fellow invariably gets the lunkers. He will catch as many as you do fish-for-fish, but while you are stringing up two-pounders, he will land several in the four-pound class and some that go to six.

You'll be fishing with the same lures, and perhaps even the same make rod and reel. You watch him and try to fish as nearly as possible like he does, yet he continues to haul in the big brutes that you'd give anything just to

try to land. Such men are deliberately fishing for the big 'uns and utilizing all their knowledge and skill for taking braggin' size bass. There are many fishing secrets, and some fishermen seem to know most of them.

For one thing, these lunker-landers fish practically every day.

They know their waters. They are able to "read" water with an experienced eye. They watch for the natural habitats of big bass. They know, by studying the land adjacent to the water, where the ledges are. Then, they have a pretty good estimate of where the points run down into the water.

They mark big trees protruding in the best fishing water. They conserve their casts. When they toss out the lure, they feel that the big old bass they missed the day before may be lurking there again ... and he usually is. I've known fishermen to go back to the same spot for days just because they knew one big fish lived there.

A real good fisherman, whom I will not name, once was guiding a friend of mine. They had caught a tremendous string of crappie and decided they'd try a little cove

for some blacks. My friend hooked one and thought it was a log. Because he knew fishing better, the guide realized it wasn't a log but a lunker.

He went back there a couple of days later and latched onto the same bass, but he lost it, too. This went on for days. The big old bass would grab the plug, spit it out and leave the fisherman empty handed.

No man can stand that kind of treatment, even if he has already caught a boat load of big bass.

This fellow was a plug fisherman, but he just couldn't stand the pressure. He went to a half-dozen bait houses before he was able to get a few minnows about six inches long. Then he went back to that bass hole, made up a dual rig, put on two of those big minnows and tossed the twin offering out to the bass' home base.

That old bass had just heard the dinner bell because he grabbed both of those minnows ... and our fishing friend set the hooks. That was all for Mr. Bass. I might add, however, that it weighed a little more than eight pounds.

Moral here is that determination does it!

Three Injured --

11 Accidents During June

The Texas Highway Patrol investigated 11 accidents on rural highways in Parmer County during the month of June, according to Sergeant W. E. Wells, Highway Patrol supervisor of this area.

These crashes resulted in three persons injured and an estimated property damage of \$7,675.00.

The rural accident summary for this county during the first six months of 1970 shows a total of 62 accidents resulting in two persons killed, 27 persons injured, and an estimated property damage of \$53,390.

During the first six months of 1970 in Texas, there were 1,482 traffic deaths which was 12 more as compared to the 1,470 traffic deaths for the same period of 1969. However, if past trends continue, the last six months will far exceed the first six months. The last six months of 1969 there were 2,081 traffic deaths.

The sergeant stated, "With a record of 38 traffic victims over the July 4 weekend, Texas is well on its way to establishing an all time record of traffic deaths in 1970."

Next Week --

Firemen In State School

Two members of Bovina Volunteer Fire Department will attend the annual state firemen's school next week at Texas A&M University in College Station. The school is scheduled for Monday through Friday with registration Sunday. Bovina's fire department representatives will be Darrel Read and Dan Koelzer.

Read, city water superintendent and fire marshal, attended the school last summer. Koelzer is the Bovina representative for Pioneer Natural Gas Co.

The men's attendance at the school will give Bovina residents an advantage on the rate of their fire insurance.

Wiener Sauerkraut Salad

Shredded white cabbage soaked in brine brings a twinkle to an old German's eye, especially when it's served with sausage! Wiener Sauerkraut Salad will also bring a twinkle to a young homemaker's eye as this delicious main meal costs less than a quarter per serving! Radishes and green pepper are added for color and crunch. And the salad is served cold with a sour cream-mayonnaise dressing.

A whole pound of wieners makes this a meal in itself. Because the wieners are fully cooked when you buy them, all you need do is slice them, combine with the other ingredients and serve. Here's a quick tip for slicing wieners from Ellen Edwards, home economist from Oscar Mayer & Co. First remove package from the refrigerator and separate the twin units. Using a sharp knife, cut crosswise through links, package and all, in thin slices. Pop pieces in salad directly from the package. This eliminates the time and trouble of removing each link and slicing it individually.

Wiener Sauerkraut Salad

- 1 package (1 lb.) Oscar Mayer Wieners
- 1 can (1 lb.) sauerkraut, drained
- 1 bunch radishes
- 1/2 green pepper
- 1/2 cup dairy sour cream
- 1/2 cup mayonnaise

Cut wieners into thin slices. Slice radishes and chop green pepper; toss all with sauerkraut. Chill thoroughly. For dressing, blend sour cream with mayonnaise and add to salad. Makes 5 servings.

HAM LOAF, A FAVORITE with most families, offers a wonderful way to use up the last of that whole or half ham. For a change, make Individual Ham Loaves in muffin pans. They are especially easy to serve and can look very festive when you tuck a little fruit into each pan before adding the mixture of meat, seasonings, and 40% bran flakes. Glazed carrots make a pretty platter garnish.

INDIVIDUAL HAM LOAVES

- 3 tablespoons brown sugar
- 1 tablespoon butter, melted
- Lemon slices
- Maraschino cherries
- 1 cup Post 40% Bran Flakes
- 1/2 cup milk
- 2 eggs, slightly beaten
- 1 tablespoon prepared mustard
- 1 teaspoon Worcestershire sauce
- Dash of cayenne
- 4 cups (1 lb.) ground cooked ham

Combine brown sugar and butter. Spread a little of mixture in bottoms of 6 medium muffin pans. Place a section of a lemon slice and a cherry in each pan, if desired. Combine cereal, milk, eggs, and seasonings; mix thoroughly. Add ham and stir until well blended. Pack ham mixture firmly into muffin pans. Bake at 350° for 1 hour, or until browned. Invert onto warm serving platter. Makes 6 servings.

NEWS for OUTDOORSMEN

... by VERN SANFORD

Fishermen are odd fellows! And, for a bit of play on words a lot of Odd Fellows are fishermen. But, anglers are not "nuts" by a long shot. They're pretty sharp cookies. (And I don't mean KOOK-IES.)

Fishing is a participating sport. It's like golf in that respect. Also, there are golf tournaments—and there are fishing tournaments, but, just about here the similarity ends.

Fishermen are a mixed breed. There are thousands and thousands of them and many, many different types, with widely differing occupations.

Really, if there is a similarity to any other sport it is a comparison of fishing and hunting. Like hunters, anglers are out to find their prey . . . and in both these related games the targets are many. Hunters shoot rabbits; fishermen hook perch. Hunters shoot quail; fishermen take crappie. Hunters go after the raccoon; fishermen seek the bass.

There's a never-ending comparison . . . one sport against the other. Rods and reels versus guns; ammo vs lures.

But here is one big difference: LURES vary widely from area to area, from manufacturer to manufacturer. There are thousands of different lures . . . ranging from live bait . . . such as worms, minnows, shrimp and what have you . . . to hundreds of different artificials . . . including plastic worms, jigs, spinners, divers, floaters—plus numerous shapes and many different brands of top-waters.

That's where the angler is in a class by himself.

Perhaps that's why the fisherman's prime interest is not only in what you caught, but how you took it and the brand name of the product that got the job done.

Some publications hesitate to mention the makers' names. That's free advertising, they say. And, right they are! But the media that gives the names gets the readers, and often the tie-in advertisers.

Readership is a coveted thing with all publications. That's why you so often read in the newspaper the name of the product that succeeded in tempting a fish to strike. That's why we encourage publication of the name of the lure.

There is very little difference between one golf ball and another, but there's a great big difference in lures. That's why the press doesn't mention the brand of golf ball used . . . while it does tell what kind, if not what specific type and even the brand-name of lure that tempted the lunkers. Fishermen want to know this. They will call the media to find out. If not available there they will call the tackle stores.

There are literally millions of products concocted for fishermen—and by fishermen. 'Tis said that anglers are the most inventive of all sportsmen. Every fisherman has a good idea, all his own—his own special way to tie-on a lure, a short-cut to re-spooling the line, a stringer idea, etc. That's why you find so many different rods and reels and tempting baits, as well as all conceivable makes and styles of tackle, rigs and gadgets for the angler.

Drop into your local tackle shop and browse around. You'll discover much to tempt the purse and always something new and entirely different.

A looksee at the local tackle store will demonstrate to you why women like to shop for new clothes. That's the woman's lure for men. That's how they catch and keep their mates.

Don't fight it, man, encourage it!

Citizenship Seminar Scheduled In Waco

Three high school students from Parmer County will travel by chartered bus Tuesday, July 28, to Baylor University in Waco where they will attend a Citizenship Seminar July 28-31 conducted by the Texas Farm Bureau. They are: Don Fortenberry, Friona, son of Mr. and Mrs. Paul Fortenberry; Larry Johnston, son of Mr. and Mrs. Jim Johnston, Friona; and Doyle Merrell, son of Mrs. Mary Alice Merrell of Bovina.

The Parmer County Farm Bureau is sponsoring the local students at the four-day training school. Some 457 students from 156 counties across the state are expected to attend the session.

Four outstanding, nationally-known lecturers will address the Waco training school, according to Harry Hamilton of Friona, president of the Parmer County Farm Bureau.

They are Dr. Clifton L. Gannus, Jr., President of Harding College, Searcy, Ark.; Dr. C. L. Kay, vice president for public affairs of Lubbock Christian College, Lubbock; John Noble, Muncy, Pa., author of "I Was a Slave in Russia;" and W. Cleon Skousen, Salt Lake City, Utah, author, lawyer, educa-

to, and former FBI agent.

In addition, a young former narcotics addict and ex-convict will relate the tragic story of his life as an addict and

criminal. He is Richard Perigo of Dallas, who is associated with HIP (Help Is Possible), an organization dedicated to the prevention of de-

linquency and drug abuse among teenagers.

Purpose of the seminar is to give the students a better understanding of the American system and way of life. Emphasis will be placed on the economic, moral, and social aspects of the American society. Instructions will consist of lectures, films, and panel discussions.

ARE COMPUTERS INTELLIGENT? asks a University of Wisconsin computer scientist. No one knows, but he says research is under way to find out. Apparent similarities in human brains and computers properly programmed are striking enough to raise speculation that computers can be programmed to think.
