From Thursday's Daily.

A movement is on foot to have a three days race meet and interstate fair in Wichita Fails on July 2, 3 and 4 at the McIntyre track adjoining the city

It is proposed to raise \$5,000 to be given in purses and it is believed that this sum will attract some of the best horses in this section of the country.

Mr. McIntyre will place the track in first class shape for the meet and will enter some of his own horses in the meet. Mr. McIntyre and other local horsemen are pushing the meet, and if the citizens will cooperate with them in the matter of raising the money for the purses, they are sure that they can make the meeting one of the most successful ever held in this section of

All the railroads have agreed to make a very low rate for the event and some of the best race horses in the southwest will be entered in the meet.

The promoters say that if they receive the proper encouragement that they are prepared to make the meeting a signal success and will have fully 10,000 people from outside the city during the meet.

A Jam-Up New Barber Shop. T. M. Sims, who opened up a new barber shop at 712 Indiana avenue several months ago, starting in with a one-chair shop, which his increasing patronage later caused him to put in another chair and another barber, and still later another chair, has just com pleted the installation of a new fourchair outfit and has also opened up bath rooms in connection with his bar ber shop. The furniture, chairs, etc., of the barber shop are of the Theodore Koch make and are of quarter sawed oak in a mahogany finish. The bath rooms are fitted for tub,

steam and shower baths and are up-todate in every particular.

Mr. Sims is justly proud of the Imperial shop and bath rooms. It is jamup and as handsome as a new dress in every particular and is one of the most up-to-date shops to be found in Texas. Good workmen all the time, prompt and courteous attention, are some of the factors which has made the new barber shop a success. Wiped Out.

Little Rock, Ark., May 5 .- Indications are today that Arkansas was visited yesterday afternoon and last night by a storm which covered practically the entire State, doing serious damage to property. The wires are down all over the

State and information concerning the storm is meager.

Marche, a village with a population of one hundred and fifty, was visited by the tornago, and a large lumber plant belonging to the Hammond, Lucas & Devore Company was completely destroyed. There was no loss of life.

Great clouds of limbs of trees and leaves passed high over the town at Morrillton yesterday.

, Conway, Ark., is reported as badly damaged, and Watson, in Desha coun-ty, near the Louisiana line, is reported to have been wiped out.

Storm Sweeps Over St. Louis.

St. Louis, Mo., May 5 .- A thunderstorm of unusual severity preceded by much high wind, swept over this city early today, doing much damage to property and indirectly causing loss of life.

A bridge on the Louisville and Nashville railroad near Bellville, Ill., was washed away and wrecked a freight train. Engineer Ward, Conductor Smith and a trainman whose name was not learned, were caught under the engine and drowned. The train piled up in a mass in the creek, which was swollen into a torrent.

The lowlands known as the Ameri-can Bottoms, east of East St. Louis, comprising an area of thirty-five miles are under water.- Many houses in the French village were unroofed and the people were panic stricken. In St. Louis several residences were struck by lightning.

To Be Argued October 11.

Washington, D. C., May 4.—The su-preme court announced today that the celebrated "onster and penalty" cases against the Waters-Pierce Oil Company would be argued on October 31. Motions to advance these cases were made by Representative Burleson of Texas on behalf of Attorney General Davidson of that State last week.

o their years, and sometimes are difficult to persuade to the breakfast table while the meal is at its best. In a family where the children are supposed to retire at 7 o'clock, the elder, a boy, rarely gets to sleep before 9, and his mother once left him to make his morning toilet undisturbed, and it was afternoon before he was presentable. He missed breakfast and just caught luncheon by neglecting the fin-

ishing touches. Nobody believes, nowadays, that any special good comes from early rising, Long life falls to many a man or woman who were sluggards in both youth and middle life. The workers whom business calls from bed in the wee,

small hours of the morning are not such specimens of health and strong nerves as to make us wish to follow in their footsteps. Personally, I find it easier to sit up all night than to get up early in the morning and my resting hour has nothing to do with it. Sometimes I think that sleep is very

argely a matter of habit. I have worked nights and slept days, and after the habits were fixed have changed them by working through the day like other Christians. A little exeperience was all I needed in the transition. In cases of need I can get up at any hour, but if it is early I do not feel real well at any part of the day.

The afternoon nap is impossible to extremely active women, but I have seen scores of others converted to it by persistent effort. If the sieep supply is curtailed by amusement or work, a nap in the day is the most rational method of repairing the loss. There is such a thing as too much sleep, and early retiring hours are in order

the time for leaving bed should be arranged to allow no more than eight hours of healthy slumber. I do not like to hear anybody confess to sleepiessness. It means dis-ease somewhere. Fancy lying in bed wide awake and finding the noise of a milkman's wagon almost unbearable. I know a case of that kind, and the dis-penser of the white fluid was mortally offended at a request to use rubber thread wrap the bettles to avoid the danger and noise of hitting together. No amount of money can compensate such a wretched sleeper for his loss.

Mr. Williams is no doubt right. The tariff gave occasion to the organization of the trust, which has become so powerful that it has put the price far higher than the tariff justifies. It controls the supply in Canada as well as in the United States, but the removal of the tariff would enable others to come into the field and force a reduction. In any event, it is a disgrace to see the government in partnership with a combination of this sort heiping it to prey upon the people of the United States. There is significance in the lact

AUTO IN RUNAWAY

COLLIDES WITH A BUGGY

Machine Ends Wild Dash in a Smash Up and two Persons are Slightly Injurad.

From Saturday's Dally.

Bob Crittenden was severely bruised and sprained and otherwise injured. J. K. Faunt Le Roy was slightly bruised and cut on the back of the head and a buggy and an automobile were badly damaged as the result of a collision at the corner of Ohio avenue and Sev enth street early Friday night. The collision was the result of Crit-

tenden's fooling with something he did not know anything about.

The machine was Mr. Fonville's, who had just come in from a ride in the country with a party of friends, and had stopped in front of the Coney Island restaurant, where the passengers went in to take a lunch.

The machine was left standing at the curb and while the party was in the restaurant, Crittenden came out of Bennett & Hardy's saloon and took a seat in the automobile. Mr. Fonville's machine is a "steamer" and while Crittenden was handling some of the levers in front, he moved the lever which started the machine at ful speed.

Crittenden had never been in an automobile before and sat helpless and frightened in the seat while the automobile tore through the street. Mr. Fauntleroy and "Dusty" Rhodes

were in/a buggy near the curb at Mc-Curkan's corner, talking with Judge Scurry and did not see the automobile until/it was nearly upon them. Rhodes escaped injury by jumping from the buggy, but Faunt Le-Roy did not have. time to jump. The automobile struck the buggy from the side and knocked it to one side. The machine then ran into a telephone pole and was stopped just as it was about to run into two blind women, who were singing on the street corner. Crittenden was picked up from the street almost unconscious and was carried home.

The buggy shafts were broken and one of the wheels were demolished, 'hae wheels and the front of the automobile were also badiy damaged. Mr. Faunt Le Roy's injuries proved

slight and Crittenden was later found not to be seriously injured.

Visited by J. L. Henderson April 17th, 1905

This school has made decided progress since last year. A stronger corps of teachers has been in charge and the work-has been materially strengthened. There is a splendid spirit in the school and the future seems very bright. The teachers are all capable and are interested. This school should gain considerable additional affiliation next year.

The visitor will recommend that this school be affihated in Phystography $\frac{1}{2}$ unit and that History be extended from 2 to 3 units.

In a clear-sighted review of the railroad situation in the United States road situation in the United States at the present time, a contributor to the Broadway Magazine says what is the Broadway Magazine says what is now most needed is a series of public conferences in different parts of the country so that the whole matter may be thoroughly thrashed out. There are three big facts, says the author of this article, on which all parties must sooner or later agree. 1. The railways have been guilt; of many offenses. In the one item of rebating, they have been persistent law-breakers for twenty years. They have given special favors to the big shippers. They have been too reckless in watering their stock, and in playing the Wall street game. Worst of all, they have controlled and corrupted legislation by means of hired water, and when these improvements gangs of lobbyists and by having their are made, the next question to demand own partisans elected to public office. All the trouble that the railway men are suffering at present from politics is nothing more than the inevitable back swing of the pendulum.

Both Sides to Blame.

Samposing that the question of cooperation is dropped and in its place. New Carriage Shop there be substituted a mutual spiris of Call on D. P. SMITH est return for those privileges; and on the other hand, since railroads increased the taxable values of the whole community, they ought to receive the benefit of a lower rate of taxation than other industrial corporations. in their efforts to make Wichita Falls sidering that the Ba, ey forces had ala more sightly and sanitary town and most complete control of the party maassares them of the hearty support and co-operation of this paper.

The Wichita county delegation to the Fort Worth convention, which convenes on May 26th will present the manue of Judge Edgar Scurry of this rity as a candidate for delegate to the Denver convention from this, the 13th congressional district. The county was won by the Bailey forcessand Judge Scarry, perhaps more than any other friend of Senator Bailey, deserves credit for the victory. Most every supporter of the Waco ticket felt confident up to the time the polls were closed that the vote of the county rould go against Senator Bailey, and this tellef was shared in by many of one ardent friends of Senator Bailey. but Judge Scurry at no time weakened and put up as brave a fight as could have been made. So long as this district has to be represented by a Bailey man, the Times hopes that the honor will be conferred on Judge Scurry who is a democrat who never sergiched a ticket.

Finds Market in London.

The Wichita Mill and Elevator Company on yesterday received an order for 3,000 barrels of flour to be shipped to London, England.

This mill, while not the largest in first as a money-maker, and its products are eagerly sought for. It runs twenty four hours per day, six days in the week, and has not lost more than 60 days since it was constructed some. six or seven years ago.

The volume of business transacted by this concern for one year was more than \$5,000,000. It is perhaps the greatest industrial enterprise that Wichita Falls can boast, and employs large number of men.

another to be made, the matter should be dropped.

Wichita Falls will soon have a splendid sewerage system. The city council has just let the contract for eight and one-half miles, at a cost of something in the neighborhood of \$30,000. The water company is making preparations to take the mud out of the action by the taxpayers will be the paving of our streets. Everything can be done in one year, but at the rate we are going new the paving of our business streets should not be delayed more than another year.

Now that the momentuous question, of whether Joe Bailey or some other man would go to the National Demoveratic convention at Denver has been settled, the farniers can return to the tiding of their fields, the marchant can resume his work behind the counter, the lawyers can practice in the courts of justice, the minister can speak the message of salvation from the pulpit, the newspapers can findtime and space to print the news in the State, stands at the head of the the day, and everybody can join in the development of grand old Texas.

> In order to give its readers the evry latest election returns the Times for the first time in its history makes its appearance as a morning paper. It trusts the people of Wichita Falls will appreciate the efforts put forth by the overworked force to gather in the news, edit it and put it in readable shape while they slept. The paper snould be delivered to all readers in the city by 7 o'clock this morning.

2. The railways have been terribly punished. Thei rtraffic-has fallen off en million dollars a week. They

The interstate commerce commission, and forty-three State commissions, have suddenly become seats of authority Their stocks are selling at half-price. They need money for improvements-"A billion a year for five years." J. J. Hill; but they are unable to bor row it. They have been fined and regu lated and enmeshed in a vast network of red tape. Seven railroads, with six thousand miles of track and half a billion dollars of liabilities, are now in the hands of receivers.

3. The railways and the people must learn to co-operate, for neither can prosper in the long run, at the expense of the other. The days of the stage coach and the canal boat are gone forever. The railroad is an absolute necessity to the people; and the people are an absolute necessity to the railroad. In a country as vast and as highly civilized as ours, the railroads are the veins and arteries through which flow the life blood of the na-

Of the three propositions stated, only the last shows the weakness of Utopi-anism. Both sides in the struggle between the railroads and the people are to blame, but the question of co-operation between them is a problem somewhat large for even magazine writers 21-3t to attempt to solve.

force the railroads into obedience. Several months ago the Telegram pointed out that the first step toward attaining that desirable mutual fairless is more publicity and it is the railroads' turn to deal. The Telegram argues that when the railroads of Texteil the people more about the expenditures they are making and hav made and take the public into their confidence, at least to some extent, about their earnings, much better feel-

ing will begin to prevail on both sides President Trumbull of the Fort Worth and Denver is a believer in this policy and in a recent article appearing in the Telegram it was frankly admitted by the Denver road that it is holding its own in the matter of earnings this year as it did last." On the other hand it is as frank to tell of its plans for spending \$700,000' in improvements

More publicity, not of the speculalive or theoretical variety, but the publicity which deals with simple facts, will be of value both to the railroads and the people. It will lead to a better better understanding is a prime essential before the desirable mutual spirit

The next political contest of interest in Texas will be the race for attorney general. General R. V. Davidson is a candidate for re-election and is opposed by Col. R. M. Wynne of Fort Worth. The Bailey matter has already been injected into this matter; and it'is more than likely that the contest will be fought to a finish along those lines. Both sides are ready and apparently eager for the campaign to open up .n earnest.

CONSPIRACY

Officers Believe the Assassination of General Kichener and a Revolution Was Planned.

Calcutta, India, May 4 .- The police are investigating a native plot revealed here yesterday to murder Europeans by means of bombs and the more they go into the matter the more serious and widespread the conspiracy appears. Documents seized at the house where the bombs and explosives were being manufactured, reveal that it was part of the plot to kill Lord Kichener, commander in chief of the British forces in India and other high officials. The authorities believe they have foiled an attempted revolution. A number of prominent Bengalese are implicated and sensationa. arrests are expected to follow.

Epworth League Social. From Wednesday's Dally.

The young people of the Epworth League were delightfully entertained last night at the home of Mr. and Mrs. P. P. Langford on Burnett avenue. Some forty guests were present. The merrymaking began with a musical contest. This was followed by a fortune hunting game and a number of promptu quartets, of which the one rendered by Messrs. Frakn Jackson, Earl Clayton and Misses Etnel Carr and Tempy Thompson deserves especial mention.

Lamar Fain took first honors in the progressive conversation and was pre-sented with a wooden spoon for being the spooniest young man.

This was not at all surprising, as his subject was "Love." The plano solos by Miss Esther

Gorsline and Mr. Durland were greatly enjoyed, as were also the vocal selections by Miss Marie Schwab. Ice cream and cake were served by the hostess, assisted by Mesdames E. B. Gorsline and T. B. Noble. The young people left at a late hour, with many expressions of praise for the royal treatment which they received at the hands of both host and hostess.

BIDDERs.

From Wednesday's Daily.

The contract for the construction of approximately eight and one-half miles of sewer in Wichita Falls was award ed by the city council today to Derr & Early of Oklahoma City, whose bld was, approximately \$28,800.

The cost will probably exceed this sum by several hundred dollars, as the contract provides that for excavations made in rock the contractors will receive 25 cents per lineal foot for each foot in depth, this being at a higher rate than the schedule bid for other excavating.

In the contract which is now being drawn up for the signature of the proper officials and the contractors, the latter will bind themselves to be gin work within fifteen days, and to complete the work on or before September 15th.

The successful bidders are required to furnish a bond of \$5,000 for the prop-er performance of their part of the agreement

As well as every business man should have a bank account.

Why?

Because: Your money is safer in the bank than anywhere else.

> Paying your bills by check is the simplest and most convenient method.

> Your check becomes a voucher for) the debt it pays.

It gives you a better standing with business men.

Money in the bank strengthens, your credit.

A bank account teaches, helps and encourages you to save.

This bank does all the bookkeeping. Your bank book is a record of your business.

MONTANA.

Tramps Seeking Revenge Believed to Have Been Author of the Explosion.

Butte, Mon., May 2 .- The east bound Burlington train, which left Butte at 11:30 o'clock last night, was dynamited about a mile west of the Northern Pacific station. The explos.on caused the first or helper engine to leave the rails, but did not turn over. The second engine left the track and crashed into a bank on the south track and turned over. Carl Mange, who was riding on choose the bank that did his business the blind baggage, had his arm and leg broken, and Fireman Enle of the second engine was severely scalded. The mail car-was hurled on its side one and wrecked. A cold storage fish cai' was smashed into kindling wood. The baggage car was also derailed, but the Pullmans remained on the track. It is believed that the dynamiting

was the work of a tramp seeking revenge for being ejected from the train.

Guaranteed Bank Deposits.

People insure their goods by land and sea. The custom is of long standing. .It has not driven capable shipbuilders and navigators out of business, nor retarded the introduction of improved methods of house construction, nor yet laid a withering blight of paternalism and socialism upon the world. In view of which we hardly understand why a proposal to insure bank deposits should produce such a commotion.

The guaranty of deposits, as enacted in Oklahoma or as proposed in the Fowler bill, is only a system of insur-A very small tax or premiumance. something like 40 cents on the thousand dollars, we believe-would have covered all losses suffered by national bank depositors through bank railures. Such insurance would not "put good bank management at a discount."

Nobody deposits money in any bank unless he believes it to be thoroughly safe. He chooses one bank rather than another because it is more convenient or more accommodating, or for some such reason. He would still most satisfactorily, and therein the good banker would still have all his advantage over the indifferent or poor

"Every good banker ought to favor every proposal which would improve the banking business as a whole, which would increase public confidence in banks in general, which would tend to make every man with any money deposit it in some bank instead of hoardng it, which would lessen the probability of panic among depositors in unquiet times

Opposition to bank deposit insurance seems to us mostly the mere fear of a novelty .--- Saturday Evening Post.

HOPE FOR JOHNSON INNESOTA MAN'S MANAGER SAYS NOTHING HAS WEAKEN-ED HIS CONFIDENCE. MINNESOTA

ABBOTT TAKES ISSUE

Washington Correspondent in Houston Post.

Washington, D. C., May 2 .- Frederick B. Lynch, treasurer of the demo- that state will be for him. Mr. Lynch cratic State committee of Minnesota and manager of Governor John A. Johnson's campaign, is in Washington meeting democrats. Mr. Lynch states that he has to learn the first thing that even remotely discourages the hopes he has for his candidate's success at the democratic national con- instructed for anybody except a New vention, which is to be held in Denver on July 7th next.

"I am a little inclined to notice the rumor that a few o. Mr. Bryan's friends have expressed a wish to have he Denver convention abolish the ancient and time-honored two-thrids rule in case it becomes necessary to insure Mr. Bryan s nomination.

do not believe, in the first place that Mr. Bryan would sanction such extraordinary change from established mahe nearer. usages, and it he did 1 do not believe many of his adherents would join him through the personal interviews with in so doing. It is one thing to have democrats who have led the revolt admirers, friends and supporters, but friendship will not venture.

The two-thirds rule applies to Judge Gray, Judge Judson Harmon, Governor Johnson and all candidates before the national convention, and before radical action could be taken all the candidates should be consulted and the the candidates. Then, if by common consent; it were thought advisable, there could be no objection.

Not in Interest of Single Person. It is surely understood by all democrats that the Denver convention is not to be held in the interest or any one candidate. No one candidate has the monopoly of the true and genuine spirit of democracy and the mighty hosts are to meet there to do the very best for the party and the country. Calmness and fairness should inspire every act, from the temporary to the permanent organization, and running all through the appointment of commit-

There is another thing to be reck oned with, and that is the second choice question. Would it seem reasonable for a delegation which was instructed for Bryan to consent to abolish the two-thrids rule in his interest, ignoring the minority in the State from which the delegation comes which had its expression in declaring for a second choice?

Another factor might enter into an altempt to abrogate the two-thirds rule, and that is the resistance of those delegates who were instructed before all the candidates had announced and whose political sympathies have shifted. This change of heart would not cause disobedience to instructions, but it would manifest itself in marked degree in the event any unfair advantage were proposed.

"I want to say that there is too much independence in a democratic National JIM THE PENMAN convention to brook unreasonbale dictation or unfair methods and no man, Governor Johnson or Mr. Bryan, could force such action if he desired. "I can say for Governor Johnson that | charge of his official duties A young man by the name of D. laimed in order to prove his propo tion. To begin with, he claims all uninstructed delegations are anti-Bryan delegations. This is notoriously incorrect. Seven out of eight of the uninstructed delegates from Rhode Island are pronounced Bryan men; ten out of fourteen unmstructed delegates, from Connecticut are strenuous Bryan men. The refusal to instruct was not due to any hostility to Mr. Bryan, but to the essential conservatism of Eastern democrats, which has merely manifested itself in this way. Mr. Lynch Bryan's Representative Sees Situation in Different Light. The only two that have acted are sending Bryan delegates, while the primaries in Massachusetts were swept from one end of the state to the other by the Bryan forces, and the delegation from claims New York.

1 do not know his experience in politics, though it must be quite compreheusive, as he says it is not work for children or youngsters. But nobody can tell wha that New York delegation will do. New York has never York candidate, and the fact that it s uninstructed now is not indicating that it will not vote for Mr. Bryan on the first ballot. The New York Herald ,which is not a Bryan paper and which is nearer the scene of acion than Mr. Lynch of Minnesota says that New York will vote for Bryan. He claims Pennsylvania. Now Minnesota is a long way from Pennsylva-Washington and New York are nia.

"I am informed, both by letter and against Colonel Guffey, who is pushthere is a limit beyond which political ing the Johnson canvass there, that fifty-one out of the sixty district delegates in that state who have already been elected are for Bryan, Mr. Lynch lays great stress on the action of Michigan when the State committee refused to endorse Bryan by a majority of one vote. Incidentally Michigan is matter discussed by the friends of all a State that has never been carried for a democratic presidential ticket. And yet he ignored the action of the West Virginia State committee, which endorsed Bryan by a vote of ten to five, and the action of the Ohio State committee, which also indorsed him. "My own information is that notwithstanding his statement, every Pa-

cific coast State will send a Bryan delegation. While it is wholly probable that some of the Southern States may not instruct, the friends of Mr. Bryan utterly refuse to accept an uninstructes ed delegation as a Johnson delegation.

"One fact which Mr. Lynch failed to bring out in his very convincing interview is that the delegates instructed for Bryan or known to be favorable to. him now exceed two hundred and thirty. There are six delegates instruct ed for Judge Gray. Perhaps the next time that Mr. Johnson's representative is interviewed he will be kind enough to state how many delegates are instructed for Johnson, and in what, if any, State convention, Mr. Johnson's name has been mentioned."
