### SLOGAN IS ADOPTED

"THE BEST BUILT CITY IN TEXAS" IS TO BE WATCHWORD FOR WICHITA FALLS.

### START THE BALL ROLLING

Directors of Chamber of Commerce Outline Aggressive Publicity Campaign.

From Tuesday's Daily.

The directors of the Chamber of Commerce met at 8:30 this morning in executive session and started the ball rolling for a greater Wichita Falls. The slogan, "The Best Built City in Texas," was adopted by the board as an advertising feature. This slogan will be used on all literature and stationery issued by the association and the business men generally are requested to make use of it. A cut representing Wichita Falls as a railroad center, with the slogan around the inner circle will be at the disposal of anyone wishing to make use of it. The cut will be three inches in diameter and for use on the address side of envelopes.

The secretary was authorized to have published an "envelope insert," covering views of street scenes, manufacturing and agricultural lines and a view of the lake, these inserts being printed on a heavy enamel paper with concise information on the back, setting forth the resources of the Wichita Falls country and its advantages. The inserts will be revised occasionally and will be distributed to business houses and offices, with request to put one or more in every letter mailed. Citizens wishing them for private correspondence can secure same at the secretary's office. When inserts are published notice of same will be given on completion.

A pamphlet, handsomely illustrated and dealing in full with all the resources and opportunities of this city and surrounding country in agricultural, manufacturing, jobbing or otherwise, will be published as soon as possible for use in following up inquiries resulting from advertising in other parts of the United States.

Messrs. Kell, Blair and Huff were appointed a committee to confer with the Dallas News and Fort Worth Record with a view to having said papers publish more development news of this section, such news to be furnished by the secretary.

Mr. Kell was appointed a committee of one to take up with General Manager Keeler of the Fort Worth and Denver the securing of better train service between here and Byers on the Wichita Falls and Oklahoma railroad.

The secretary was instructed to write to General Manager J. E. Farnsworth of the Southwestern Telephone Company, demanding a better telephone service and a modern equipment for the exchange at Wichita Falls. This later is necessary, as the present system is totally inadequate to handle the business it is now called upon to do, to say nothing of what our growing city will demand in the near future.

So gratifying have been the results of the efforts of the committee soliciting subscriptions in addition to the regular dues that it was decided to request the Times to publish the names of contributors and members under the classification of their respective calling, as a standing tribute to the men who are uniting for the general prosperity of Wichita Falls. The list will be corrected as additions are secured. At this time \$438 per month has been pledged, which does not include the membership of the association.

In order to keep the affairs of the association before the membership and to secure a further concentration of effort, the directors decided to hold a monthly meeting of the entire membership on the evening of the second Tuesday of each month, commencing with September. Weekly meetings of the directors will be held on Tuesday at 8:30 a. m.

A number of subjects came up for discussion, among them being the location of a cotton mill at this point.

The secretary was authorized to secure a stenographer to assist him in the systematic campaign of exploitation that the present reorganization means to pursue.

### New School House.

From Monday's Daily. The trustees of the Wichita Falls independent school district, have purchased a site in the Crescent Lake addition for a new school building and the contract will be let for the construction of the building today.

The site embraces a half block of ground and was sold by the Wichita Falls Development Company for \$350, with a provision of the deed that a school building is to be permanently maintained on the ground.

The new building will be a neat frame structure and will have ground dimensions of 56x60 feet, containing four rooms for four primary grades.

At a meeting of the board of trustees this afternoon the contract for the construction of the new four-room school building was awarded to C. C. Willard for the sum of \$1,949.60.

# GREAT REMOVAL SALE!

### A 70,000 Bushel Corn Crop.

A. Vanleave, a farmer who owns a large tract of land on Red river, formerly a part of the 6666 ranch near Burk Burnett, estimates that his corn crop for this year will be in the neighborhood of 70,000 bushels, which will, by far, be the largest crop of corn ever produced on a single farm in this county. The Times understands that Mr. Vanleave purchased this land less than two years ago for about \$40 per acre and since that time has refused \$60 per acre for it.

Farmers from the Red river district report that the bolls are beginning to open in many fields in that section and it is expected that the first bale will be brought into the Wichita Falls market before the 1st of September.

### B. Y. P. U. Social.

From Tuesday's Daily. The young people of the Baptist church gave a social at the home of Mr. George Simmons last evening and all present pronounced it one of the most enjoyable yet.

A few minutes were spent in a business meeting, then the remainder of the time was given to games, conversation and a watermelon feast.

### Rain Wouldn't Hurt.

Farmers are saying that a good shower would not come amiss now, as the dry weather is beginning to stop the growth of cotton. The dry weather hasn't damaged the crop any yet, however, which can go eight or ten days longer without rain before any great injury will be done.

The fields are generally free from injurious insects and altogether the prospects for a good yield are very bright.

**TO VOTE MORE BONDS**

ELECTION CALLED TO AUTHORIZE ISSUANCE OF ADDITIONAL BONDS.

**AMOUNT NOT SUFFICIENT**

September 12th is Date Set for Election—Vote on Special School Tax at the Same Time.

From Tuesday's Daily.

At a special meeting last night the city council voted to call an election on September 12th to authorize the issuance of \$12,000 additional sewer bonds and \$3,500 additional city hall bonds.

The bonds will be what is known as forty year 5 per cent bonds.

The first sewer bond issue of \$24,000 was found insufficient, as the contract price was something over \$28,000 in addition to which there will be extra costs for additional excavating and for excavation made in stone.

The first city hall bond issue of \$15,000 has also proved too small for the completion of the building on the plans adopted.

To make as few elections as possible, an election will be held in the Wichita Falls Independent school district at the same time with the bond elections for the purpose of determining whether a special school tax not to exceed 50 cents on the \$100 valuation, shall be levied in the district.

The bond of Cox & Snyder, who were awarded the contract for the new city hall building, was examined and approved.

A motion prevailed that the Masonic fraternity be invited to conduct the ceremonies at the laying of the corner stone of the new city hall building and A. Richolt was appointed to extend the invitation and make the necessary arrangements.

**ANOTHER MAN DRUGGED, SLUGGED AND ROBBED.**

From Friday's Daily.  
Oliver Culvert, a laborer in the employ of one of the railroads running into this city, came to grief in the Mulberry Row district last night about 10 o'clock.

According to Oliver's story, which is

corroborated in part, at least, by the man who found him lying on the ground, bleeding from a deep cut on the lower lip and a bruise over one of his eyes, with the pockets of his trousers turned wrong side out.

He ventured into the district to see the sights and met a man whom he did not know nor had ever seen before, who asked him to have a drink from a bottle. Culvert accepted the invitation and that is the last recollection he has of the incident, except the fact that he was conscious of having received a severe blow on the head.

He had seven or eight dollars on his person when he entered the district.

After he was found and regaled consciousness he was brought to the drug store of E. S. Morris & Co., where Dr. Guest dressed his wounds, the one on his upper lip being the most serious, and required five stitches with the doctor's needle to place in shape again.

**Wreck on the Northwestern.**

From Monday's Daily.

This morning at about 9 o'clock the work train on the Wichita Falls and Northwestern, in charge of Conductor George Stearns, was wrecked at Mile Post 2, the heavy steel car carrying the steam shovel going into the ditch. The wreck was caused by the breaking of a truck.

None of the train crew were injured, with the exception of Conductor Stearns, who sustained a slight injury to his left wrist.

The work of clearing the track was commenced at once, and it is now believed that traffic on the line will not be interfered with more than a few hours at the most.

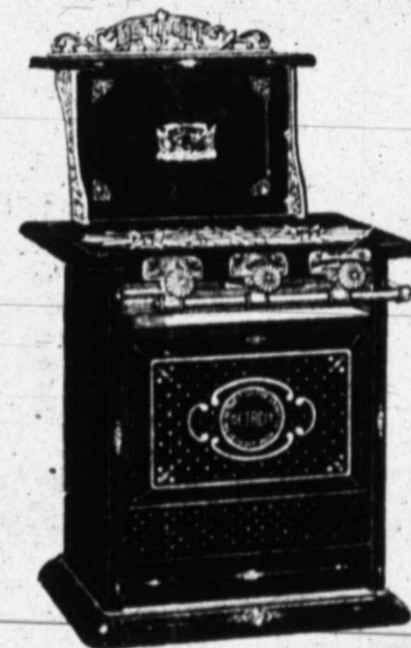

**Will Make 100 Bales.**

M. Fowler left at the Star office this morning a cotton stalk that had 92 bolls and squares on it. He has 120 acres in cotton west of town and says it will make 100 bales.—Burk Burnett Star.

E. M. Wicks, a graduate of the Ontario Veterinary College, who has been located at Electra for the past year or more, was in the city Wednesday of this week, and has made arrangements to make this his home. He has rented a room and installed his office in the second story of the Seitz & Seely building on Indiana avenue, where after this week he can be found by those in need of his services.

While we are striving to make of Wichita Falls a greater city, let's not forget that one of the first things to do is to have a cleaning up—physically and morally. When this is done, we can point with a greater degree of pride to our thriving and growing little city.

The awning in front of the "Invisible" saloon, which for years has had the appearance of anything except that which the sign, painted in box-car letters would indicate, was torn away today by workmen and will be replaced with one of a neater architectural design. Even if it is not replaced, the tearing away of the old ramshackle shed is an improvement.

It will not do to judge or make a guess as to how many applicants there will be for the postoffice in this city in the event of the election of a democrat as president by the number who are contributing to the Bryan and Kern campaign fund. We democrats are powerful hungry, and when there is an opportunity to secure a piece of pie all of us want to get our feet under the pie counter.

The best way in the world to keep up the Bailey fight is for the friends of the senator (when they are in the saddle) to see that none but those who voted for Senator Bailey shall participate as delegates in democratic conventions.—Wichita Falls Times.

And from reading reports of several county conventions held last Saturday the Bailey men did not fail to bring up the old question and elect solid Bailey delegations to the State convention. This will do for a little while, but the day is coming when they will see their mistake. The Index does not believe that Mr. Bailey will sanction this and also believes that he can see his political doom if such continues.—Childress Index.

There should be a Bryan and Kern Democratic club organized in Wichita Falls, and the membership should consist of those who feel their democracy enough to assist in the election of the ticket by contributing to the national democratic campaign fund. Down here there is no need of making an aggressive campaign, but in some States, where the party has a fighting chance, funds with which to pay expenses of speakers and literature will be badly needed. The democrats of Wichita Falls can well afford to contribute as much as \$100 towards the cause. No one is expected to contribute who is not a democrat, and who does not endorse the platform as adopted at Denver.

and M. college has done the right thing by tendering his resignation as president of that educational institution. The board of directors also did right when it upheld him in the controversy that arose between him and the student body a few months ago, which came so near wrecking the institution and destroying its usefulness, but so long as President Harrington was at the head of the school a certain amount of disaffection would exist. His motive for tendering his resignation was doubtless prompted by a desire to obliterate this bitter factional feeling and in doing so he has shown himself to be a broader-gauged man than many were inclined to credit him with.

## COTTON WILL SOON BE COMING INTO WICHITA FALLS.

The Times again begs to remind the business men of Wichita Falls that the first bale of this season's cotton will soon be on the market. Don't wait until the bale is on the streets to raise a liberal bonus.

From present indications twice as much cotton will be picked from the fields in the country around this city as was ever raised before in this section. Wichita Falls ought to rank high as a cotton market this year and buyers and merchants generally ought to be getting ready to handle this crop and the trade resulting from its sale.

At last the authorities have taken the proper steps toward solving the problem of ridding the city of trifling, no-account negroes, and from this time on, when it becomes known that a negro will not work when able and has the opportunity, he will be taken in charge by the city and put to work on the streets. This is too busy a city to be burdened with vagrants—whether black or white, and it will be demonstrated that when they are forced to work during the day or leave the city, they will have less time to prowling at night.

Federal authorities have in their possession evidence that a ship load of girls were recently brought to this country from France and distributed to proprietresses of resorts in Chicago, St. Louis, Kansas City, Minneapolis and New Orleans. The attention of President Roosevelt was called to this wholesale traffic in white slaves, and the investigation which followed shows that the company which is peddling on the virtues of these French girls import to this country annually about three thousand of them. The arrest of a man by the name of DuVal, who is at the head of the syndicate, has been made and orders have been given and are now being carried out to gather up all these French girls, and the steamship line which brought them here will be forced to carry them back at its own expense. The secret service men who worked up the case also have evidence in their possession showing that the same syndicate is exporting American girls to France and other countries for the same purpose it is importing French girls to this country.

With the union labor vote for Bryan and Kern, it does really seem as if the democratic national ticket stands a better chance of winning than for the last three presidential campaigns. Both Gompers and McNeill, the two great labor leaders, are for the Bryan and Kern ticket, and are doing what is in their power to raise a fund with which to carry on an aggressive campaign. Heretofore, for the last three presidential campaigns, the labor vote has gone to the republican party, and it may do so again. John Mitchell, in the opinion of President Roosevelt, is one of the very few really great men of the United States, and in him labor has a leader which it can well afford to follow. Under his management, union labor has won more victories than under all the other labor leaders combined. The reason for this is that Mitchell is conservative, and in taking care of the interests of labor does not lose sight of the fact that the employer of labor also has interests that must necessarily be protected by labor, or else there will be less work to be done, and more idle laborers to do it.

The Times is not quite so good a newspaper as its contemporary, the old Dallas News, but it is not the least bit jealous. By the time it reaches the age of the News, it expects to be fully as good, if not better. But, while speaking of good newspapers and thinking of better ones, it reminds us that the News covers its field (the whole Southwest) just about as well as any newspaper that is published and the character of its news service is more to be relied upon than most publications. Whether it is in favor of or against men or measures, when the people have acted, the News gives the facts as near as they can be obtained, and even when it makes a guess, the final and official count usually shows that it rarely ever misses its mark. For instance, on the morning of July 26, the day following that on which the democratic primary election for State officers was held, it said that Campbell's majority would hardly reach 100,000, but would go as high as 75,000. The final returns gave Campbell 87,095 majority. For attorney general, it said that Davidson had won by a majority which might exceed 20,000. His majority was 22,536. On the submission question it said that submission had carried by a small majority, which proved true, as the final returns gave a majority of 4,917 in favor of submission.

The saloons have been the breeding places of all the disturbance which have caused our little city to lose favor in the eyes of the better class of people, who have been intending to make this their future home. Our pride has kept us from publishing the many outrages caused by drunkenness, but we feel that the limit has been reached and hereafter our readers will get a summary of the drunken brawls and no names or particulars will be spared publication. If the voters of this pre-

dict are not here to see the true side of whiskey life, we will try to picture it as near as pen pictures can describe it and leave the results to your better judgment at the ballot box.—Electra News.

That is the way to talk it, and print it, too, for that matter. In order to have a live town it is not necessary to allow it to be run wide open. And when it becomes known that a town is being run on that plan it is but an invitation extended officially to all the thugs and hold-up men to come to that town and ply their nefarious vocation. The business men of any town can put a stop to that kind of lawlessness and the Times shall make it a point to watch the columns of the News to see how well the people of that thrifty little town will back it up in the stand it has taken on this matter.

Two young women called at the Times office a few days ago and applied for work, but as there was none which they could perform their application was turned down. Apparently both were hard working girls, out in the world trying to earn an honest living. Their attention was called to an ad in the Times which said girls were wanted at the telephone office, and one of them, who was a telephone operator, said she had visited the office and made application for a position, but as the salary that went with the job was unequal to her board bill, she was forced to decline. This probably accounts, in a measure, for the poor service Wichita Falls is getting in the telephone line. A short time ago the company advanced the price of phones and in return for this advance, promised, through its manager, a better service. Instead of carrying out its promise, the service has continued to grow worse. In order to get relief, some of Wichita Falls' leading promoters and business men are now at work on a proposition to offer inducements to another telephone system to enter this field, and if it succeeds the Times hopes to be able to make the announcement to the patrons of the new concern that the patronage given it by the people of Wichita Falls will justify paying its operating girls more than \$15 per month for sitting at the board from nine to twelve hours per day.

The plan adopted by the democratic national committee for raising funds with which to pay the legitimate expenses of the Bryan and Kern campaign should appeal to every right-thinking, honest man who is a democrat from principle and who votes the ticket—not merely for the purpose of being "regular," but for the reason that he endorses the platform adopted at Denver, and believes that the success of the democratic ticket means that there will be a change in the government at Washington that will be beneficial to the masses of the people of the United States, who produce the wealth of the country, as against the very rich concerns who are, or at least have heretofore paid 90 per cent of the campaign expenses of the republican party. If every democrat who votes the ticket in good faith will contribute his mite to this fund it will be the means of enabling the democratic national campaign committee to make a most vigorous fight, and if this is done the Bryan and Kern ticket will, beyond the shadow of doubt, be elected by the greatest popular vote of any presidential ticket since the war. The Times is soliciting funds for this campaign and as soon as the amount reaches the sum of \$50, it will be forwarded to the treasurer of the national democratic campaign committee. Many, doubtless, prefer to send their contributions direct, for the reason they do not desire publicity and have probably already done this, but for the accommodation of those who do not like to go to that trouble, the Times will gladly perform this service, and if they prefer will not use their names in print, but merely place opposite the amount contributed the word "cash." In order to have this money do the most good it should be in the hands of the treasurer at the earliest date possible. The party has a hard fight on its hands, and this fight cannot be made without funds.

It is either postal savings banks or a State and national law guaranteeing to bank depositors their money in case the bank in which they carry their deposits fails. The democratic national platform is committed to the guaranteed deposit system. The republican national platform is against guaranteeing deposits, but favors postal savings banks. This is natural. The republican party can always be counted on to favor that which will redound to the benefit of the money sharks. Postal savings banks would result in the accumulation of all the savings of the people of the United States in the treasury at Washington, and from Washington the savings of the people would be loaned to the Wall street bankers at a low rate of interest, who, in turn, would let it out to smaller banks at a rate of interest in excess of what they would pay the government for it. In that way the money of the country would be kept in circulation and, of course, the people who placed it with postal savings banks would be secured from loss in case of panics or bank failures. The guaran-

teed deposit system, however, is far better for every State in the Union, except, possibly, New York, the money center of the United States. By this method, the deposits of a local bank need not leave the State in which it is located. Again, by the adoption of such a system money panics would be a thing of the past and the people of the United States will not be at the mercy of the money sharks of Wall Street when the time comes for marketing their products. The guaranteed deposit plank in the democratic platform is by far the best one in it, and should appeal to the average business man, the local capitalist, the agriculturalist and the laboring man as the best possible way of averting panics and hard times.

## SELECTION OF SEED CORN.

It's a long time off before corn planting time comes round again, but that doesn't prevent the following paragraph from Farm and Ranch being timely:

It will soon be time to select corn for planting. Good strong stalks with large and well formed ears. Stalks which bear two ears are to be preferred. It cannot be done in the crib, since the stalk cannot be examined. When the selection of supply is made there should be a selection of perfect ears. Again, there should be a selection of ears for the seed plat. That the best corn for any locality is best grown in that locality is now generally accepted. Variations in corn are great, and varieties are so easily changed by cross-breeding that there should be constant effort to keep the variety desired, and the best of that variety. When corn has been selected it should be dried, treated with carbon bisulphide (high life) and stored safe from damage by rats or insects. Vitality should not be lowered by allowing it to freeze.

Iowa raised the average corn yield between ten and fifteen bushels in ten years by careful seed selection. Illinois did the same. Careful selection of the seed, careful handling of it before and after planting and work are prerequisites to a corn crop.—Denton Record and Chronicle.

## Obituary.

At the home of his parents, Mr. and Mrs. C. J. Shumake, near Thornberry, at 10 o'clock Saturday night James L. Shumake passed peacefully away. He deceased was born February 17, 1886, near Austin, and came to this community when a small boy and lived here continuously until the time of

his demise. As a child he was the favorite of his companions, always happy and bright.

As a youth, he was honorable and industrious, and when trials came Jim met with them with a smile and an indomitable energy, thus giving early promise of the grand and noble manhood which has been so greatly admired by all who knew him. He was married on September 20, 1906, to Miss Pearl Bunker, who was the daughter of Mr. and Mrs. Henry Bunker of this community. After a few months she was taken from him by death, on April 18, 1907; but, notwithstanding the fact that the greatest of trials had come upon him, he was still that cheerful and happy disposition, and it was only given to those who were nearest in sympathy with him to know the utter desolation of his heart.

On November 9, 1907, he received the injury which caused his death. He has been upon the bed of affliction ever since. His wonderful physique and sweet Christian fortitude bore him through sufferings that would have overcome many, and even to the very end he was cheerful and happy, with a smile and a pleasant word for all. He was happy in spite of his affliction and enjoyed life with his loved ones, but realized for some time before death that he could not live long, and in conversation with his father and friends he said that all was well with him; that death and the grave had no terrors for him, and in his last hours, though his sufferings were intense, his whole thought seemed to center in one desire to cheer the sorrowing gloved ones, ever meeting their gaze with a loving smile. He died as he had lived, with a happy face.  
A FRIEND.

## TO GET MORE PEOPLE

THE BEST METHODS OF GETTING MORE PEOPLE AND GIVING PROFITABLE EMPLOYMENT.

### DISCUSSED LAST NIGHT

Mass Meeting of Citizens at the Airdome Last Night Was an Enthusiastic Affair.

From Friday's Daily.

#### HOW TO GET MORE PEOPLE.

Suggestions at the Mass Meeting Last Night.

- ◆ "Use printers' ink and let the world know what we have."
- ◆ "Divide the big farms and the ranches and get a man on every 160 acres."
- ◆ "Encourage diversified farming. Get more manufacturing and industrial enterprises."
- ◆ "Follow Amarillo's example in making our claims as to population high."
- ◆ "Keep the town clean and make a favorable impression on every visitor."
- ◆ "Help build a railroad every time an opportunity offers."
- ◆ "Organize the farmers and fruit growers and sell their products in the best market."
- ◆ "Make every citizen a walking advertisement of the Wichita country."
- ◆ "Trade at home and patronize home industries, labor and merchants."
- ◆ "Get every citizen into harness working for the upbuilding of the town."

The best methods of establishing more people in Wichita Falls and to settle the Wichita country with thousands of prosperous farmers was in general the subject that was discussed at the mass meeting of citizens held at the Airdome theatre last night.

Nearly all of the seats in the theatre were occupied when Hon. R. E. Huff, who presided in the place of Mr. Bean, who had been called out of town, briefly explained that the meeting was called to discuss the best interests of Wichita Falls. He then presented Mr. Frank Kell, who spoke on the possibilities of Wichita Falls. No more enthusiastic believer in the growth of Wichita Falls could have been selected than Mr. Kell. He told of the rapid development that was going on in the territory tapped by the new railroads, stating among other things that he had just returned from Harrison, where a lot sale had been held yesterday in which over 150 lots had been sold to business men and citizens who would at once begin the building of homes and business houses. He stated that several other new towns would be built on these lines within 60 days. These towns, situated in rich agricultural districts, looked to Wichita Falls as their trading center. With splendid railroad advantages, fertile country rapidly being settled with thrifty, energetic farmers around the city, he believed that the population of Wichita Falls would go beyond 25,000 within less than three years. He announced that a good quality of coal would be laid down in Wichita Falls within 60 days at a price cheaper than any other city in Texas could get it. With cheap fuel and splendid traffic facilities he believed that with the proper effort Wichita Falls would become one of the leading manufacturing centers in the Southwest.

He spoke also of Lake Wichita as a pleasure resort, saying that the Fort Worth and Denver railroad had agreed to run excursion trains to this place from Fort Worth and other points as soon as an electric line was built from this city to the lake. His statement that it was not only a probability, but almost a certainty that such a line would be in operation within the next twelve months was greeted with enthusiastic shouts and applause.

In speaking on the subject, "Pull Together," Mr. R. E. Huff emphasized the advantage of all citizens patronizing home industries, home merchants, and home laborers whenever possible.

Judge Carrigan, in speaking on "Feed Publicity to the World and Watch Us Grow," paid a fitting tribute to the efficacy of printers' ink. He said that in conversation with a Dallas banker recently, the banker stated that he believed Wichita Falls was destined to be a city of 30,000 or 40,000 people within a few years, yet this same banker did not know that we had more than three railroads and did not comprehend in half the advantages of our location.

Others who spoke were J. T. Montgomery, T. R. T. Orth, B. F. Hatcher, C. C. Huff, Ed. B. Carver, B. J. Bean and F. H. Gohlke, the new secretary of the Chamber of Commerce. After these talks Mr. Huff stated that it had been decided that \$500 a month for advertising should be spent during the next year. The organization had about

two hundred active members paying dues of \$1.00 per month.

Subscriptions were called for for the advertising fund and within a few minutes nearly \$200 per month had been pledged. A committee was appointed to raise the remainder of the sum needed and the meeting adjourned with everybody made enthused.

#### WARNED TO LEAVE TOWN.

Negroes at Henrietta Given Thirty Days to Get Away.

Henrietta Independent.  
 The negroes have been warned to leave Henrietta. A notice written with red ink on a 12x14 piece of cardboard was posted about town some time Sunday night, bearing this inscription in bold letters:

"Negroes, you have 30 days to leave Henrietta in, if not you will take a trip to Big Wichita."

The sheriff's office has three of the notices and will preserve them as evidence in an investigation that may follow. Deputy Sheriff Hanagan says the notice probably resulted from a fight on Saturday between a white man named McManus from Bellevue, and Walter Pointer, a Henrietta negro, in which McManus was knocked down. Pointer was put in jail, but paid his fine and was released.

Mr. Hanagan is of the opinion that the parties posting the notices have no idea of carrying out the threat made, but merely wanted to scare the negroes. City Marshal Schwend shares in this opinion, and says he believes he can ferret out the parties who did the work. The fact that the notice gives the blacks 30 days to get out is the basis of their opinion.

# How to Get The Pick of the Market

It very often happens that the fresh vegetables that are sold from day to day are far from being the finest that are grown, in fact the great packing companies, such as the firm that puts up Monarch Brand goods, see to it that the very finest vegetables find their way to their canning factories, so in order to get the pick of the market you will find our Monarch brand leads them all.

Another good feature is that you can keep a supply of all the vegetables on hand for emergency calls without fear of their spoiling.

#### Proposed Amendment to the State Constitution Fixing the Compensation of the Governor and Lieutenant Governor.

Joint Resolution proposing an amendment to Article 4 of the Constitution of the State of Texas by amending Sections 5 and 17 of said Article 4 so as to fix the compensation of the Governor at eight thousand (\$8000) dollars per annum in addition to the use of the Governor's mansion, fixtures and furniture, and the compensation of the Lieutenant Governor at twenty-five hundred (\$2500) dollars per annum.

Be It Resolved by the Legislature of the State of Texas:

Section 1. That Section 5 of Article 4 of the Constitution of the State of Texas be amended so as to provide that the Governor of the State shall receive as compensation for his services, and annual salary of eight thousand (\$8000) dollars and with the use and occupation of the Governor's mansion, fixtures and furniture, said Section 5 as amended, to read as follows: Section 5. He shall, at stated times, receive as compensation for his services an annual salary of eight thousand (\$8000) dollars, and no more and shall have the use and occupation of the Governor's mansion, fixtures and furniture.

That Section 17 be so amended as to read as follows:

Section 17. If, during the vacancy in the office of the Governor, the Lieutenant Governor should die, resign, refuse to serve or be removed from office or be unable to serve or if he shall be impeached or absent from the State, the President of the Senate, for the time being, shall in like manner administer the government until he shall be succeeded by a Governor or Lieutenant Governor. The Lieutenant Governor shall receive an annual salary of twenty-five hundred (\$2500) dollars per year, and no more. During the time he administers the government as Governor, he shall receive in like manner the same compensation which the Governor would have received had he been employed in the duties of his office, and no more. The President of the Senate, for the time being, shall, during the time he administers the government, receive in like manner, the same compensation which the Governor would have received, had he been employed in the duties of his office.

Sec. 2. The Governor of this State is hereby directed to issue and have published the necessary proclamation for the submission of this resolution to the qualified voters for members of the Legislature of the State of Texas, as an amendment to the Constitution of the State of Texas, to be voted upon on the day of the next general election of the State of Texas, which will be held on the day fixed by law therefor. All persons favoring said amendment shall have written or printed on their ballots as follows: "For the amendment to the Constitution fixing the salary of the Governor at eight thousand (\$8000) dollars per annum, and the Lieutenant Governor at twenty-five hundred (\$2500) dollars per annum."

And those opposed to said amendment shall have written or printed on their ballots as follows: "Against the amendment to the Constitution fixing the salary of the Governor at eight thousand (\$8000) dollars per annum, and the Lieutenant Governor at twenty-five hundred (\$2500) dollars per annum." And the sum of one thousand (\$1,000) dollars or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated to pay the expenses of such publication, proclamation and election. W. R. DAVIE, Secretary of State. [A True Copy.]

#### Proposed Amendment to the State Constitution Relating to Commissioners' Precincts.

Joint Resolution to amend Section 18, Article 5, of the Constitution of the State of Texas, so as to provide for subsequent redistricting of a county into commissioners' precincts, defining the manner thereof; for submitting to the electors of the State, and making an appropriation therefor.

Be It Resolved by the Legislature of the State of Texas:

Section 1. That Section 18, Article 5, of the Constitution of the State of Texas, be amended so as to hereafter read as follows:

Each organized county in the State, now or hereafter existing, shall be divided from time to time, for the convenience of the people, into justice precincts, not less than four and not more than twelve. The present county court shall make the first division. Subsequent divisions shall be made by the commissioners' court provided for

by this Constitution. In each such precinct there shall be elected, at each biennial election, one justice of the peace and one constable, each of whom shall hold his office for two years and until his successor shall be elected and qualified; provided, that in any precinct in which there may be a city of eight thousand or more inhabitants, there shall be elected two justices of the peace. Each county shall in like manner and in the first instance, be divided into four commissioners' precincts, in each of which there shall be elected by the qualified voters thereof one county commissioner, who shall hold his office for two years and until his successor shall be elected and qualified. Subsequent divisions of a county into commissioners' precincts shall be made as is now or hereafter may be provided by law. The county commissioners so chosen, with the county judge as presiding officer, shall compose the county commissioners' court, which shall exercise such powers and jurisdiction over all county business as is conferred by this Constitution and the laws of the State, or as may be hereafter prescribed.

Sec. 2. That the sum of one thousand (\$1,000) dollars is hereby appropriated out of the State Treasury for the purpose of defraying the necessary expense of submitting the above proposed amendment to the people of the State, at the next general or special election in the manner required by law, by the Governor of the State. (A True Copy.) W. R. DAVIE, Secretary of State.

#### Taxation—Submitting Amendment to Constitution.

Joint Resolution amending Section 3, Article 7, of the Constitution of the State of Texas, increasing the amount of tax that may be voted on school districts and providing for a majority vote of the property tax paying voters of such district to vote such tax.

Section 1. Be It Resolved by the Legislature of the State of Texas: That Section 3 of Article 7 of the Constitution of the State of Texas be so amended as to hereafter read as follows:

Section 3. One-fourth of the revenue derived from the State occupation taxes and a poll tax of \$1 on every male inhabitant of this State between the ages of twenty-one and sixty years shall be set apart annually for the benefit of the public free schools, and in addition thereto there shall be levied and collected an annual ad valorem State tax of such an amount, not to exceed twenty cents on the \$100 valuation, as with the available school fund arising from all other sources, will be sufficient to maintain and support the public free schools of this State for a period of not less than six months in each year, and the Legislature may also provide for the formation of school districts within all or any of the counties of the State by general or special law, without the local notice required in other cases of special legislation, and may authorize an additional ad valorem tax to be levied and collected within such school districts for the further maintenance of public free schools, and the erection and equipment of school buildings therein, provided that a majority of the qualified property tax paying voters of the district, voting at an election to be held for that purpose shall vote such tax, not to exceed in any one year 50 cents on the \$100 valuation of the property subject to taxation in such district, but the limitation upon the amount of district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts.

Sec. 2. The Governor of the State of Texas shall and he is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of the State of Texas at the next general election, or at a special election called by the Governor and the sum of four thousand (\$4,000) dollars, or so much thereof as may be necessary, is hereby appropriated out of any money not otherwise appropriated to defray the expenses of publication of such proclamation. At such election the qualified electors voting and favoring said amendment shall have written or printed on the ballot as follows: "For amendment to Section 3, Article 7, of the Constitution of the State, relating to public free schools," and those opposed to said amendment shall have written or printed on the ballot as follows: "Against amendment to Section 3, Article 7, of the Constitution of the State, relating to public free schools."

### TOWN FIGHT SETTLED OPENS SEPTEMBER 7

ESCHITI AND KELL FORGET ENMITY AND PEACE REIGNS SUPREME.

**BOTH TOWNS WILL JOIN SCHOOL TAX ELECTION**  
Eschiti Will Become the Paradise Lost. Buildings Will Be Moved to New Townsite.

By the terms of an agreement reached last Friday, July 31, the differences between the two towns, Eschita and Kell, and the Wichita Falls and Northwestern railroad company, have been settled for all-time, and if no other hindrances are thrown in the way ere another moon the peoples of the two towns will go together on the line of the railroad.

The struggle has been carried on for more than a year and during all this time a strong fight has been kept up.

As soon as matters can be properly arranged both towns will join at a point to be platted and unite in building the best town in the Big Pasture.

As soon as they get together there will be a population of 600 people and within twelve months the inhabitants will number 2,000 or more.

The terms of compromise will be made public later through the Banner. All residents of the two towns may soon make ready to move to the new site.

There may be some objections to some features of the contract with the railroad people so far as Eschiti is concerned, but we assure our people it is a reasonable and fair contract when you lay aside all prejudice.

Every bona fide resident of the town will be cared for, provided he or she owns property of the character specified in the contract.

Rest easy and abide your time to move hence is the philosopher's advice to all. Be just in your demands and you will be happy in your new home.

In a few short weeks we will refer to the government townsite of Eschiti as "The Paradise Lost"—in other words, we once had a townsite, but it "got away." After awhile we will be able to sing, "Goodbye, Mr. Eschiti, we hate to see you go," but go you must. May the Lord have mercy on what's left, and the Indian agents, too.—Eschiti Banner.

COMPLETE CORPS OF TEACHERS HAS BEEN APPOINTED BY THE BOARD.

Will Be Held on September 12th to Authorize Levy of Not More Than 50c on \$100 Valuation.

From Tuesday's Daily.

The school board last night elected the balance of the teachers for our public schools for the ensuing year. They expect every teacher to be in Wichita Falls by September 1st. The schools will probably open September 7th. Following is a list of all the teachers: T. L. Toland, superintendent; H. A. Fairchild, H. H. Gulce, Misses Clara Parker, Emma Childress, Emma Norwood, Minnie Young, Kate Haynes, Ethel Carr, Lenna Phillips, Eva Stratton, Virginia Wills, Willie Stafford, Vella Rainey, Alice Haynes, Arfina Gribble, Hattie Garrett, Bertha Taylor, Fayn Earl Robinson, and Mrs. T. R. Bowles. C. C. Trimble, teacher for negro school.

An election has been ordered for September 12th to vote as to whether or not the trustees shall have the right to levy not exceeding 50c on the \$100 valuation for school purposes.
