TEXAS BRIDEGROOM BURNED TO CRISP

HIS BRIDE ALSO FATALLY BURNED IN BOARDING HOUSE FIRE AT ARDMORE.

WIND FANNED FLAMES

And Building Burned Like Tinder. Many Make Narrow Escape in Their Nightclothes.

Ardmore, Ok., Jan. 29.—Fire fanned by a high wind destroyed Severn's boarding house very early today and T. V. Littlejohn was burned to a crisp, and his wife probably fatally burned. Both reside at McKinney, Texas. The couple were married at Davis, Oklahoma, only yesterday and had just started on their honeymoon tour.

Many roomers in the boarding house narrowly escaped death by fleeing in their night clothing.

A strong, cold wind made it impossible to control the flames.

McKinney, Tex., Jan. 29.—Vernon Littlejohn, who was burned to death at Ardmore, Oklahoma, this morning, was 35 years old, and his bride was formerly Mrs. Maggie Robinson of Sulphur, Oklahoma. She also may die. Littlejohn was traveling salesman for a Dallas optical company.

Notice of Meeting of Stockholders and Directors of The Wichita Falls & Northwestern Railway Company of Texas.

Notice is hereby given that a special meeting of the stockholders of the Wichita Falls & Northwestern Railway Company of Texas will be held at its General Offices in the city of Wichita Falls, Wichita County, Texas, on Thursday the 25th day of February 1909, for the purpose of authorizing the issuance and registration of Two Hundred and Fifty Thousand Dollars of bonds of this company on approximately seventeen miles of railway from Wichita Falls to the Oklahoma State Line on Red River in Wichita County Texas, said bonds to run not exceeding thirty years and to bear not exceeding five per cent interest. Said bonds to be issued only when approved and authorized by the railroad commission of Texas. Also for the purpose of authorizing the execution of a mortgage on all the line of railway, its franchises, rolling stock and property for every kind, for the purpose of securing the payment of the principal and interest of said bonds. Also for the purpose of making application to the Railroad Commission for its approval and registration of said bonds.

A meeting of the Directors of said Railway Company is also called to meet at the same time and same place and for the same purpose, which meeting when called, to be authorized to do any and every thing necessary to be done in the issuance and execution of said bonds and securing the approval of the Railway Commission to same.

This notice is given by order of the Board of Directors this the 22nd day of December 1908.

Notice of Meeting of Stockholders and Directors of The Wichita Falls & Southern Railway Company.

Notice is hereby given that a special meeting of the stockholders of the Wichita Falls & Southern Railway Company will be held at its General Offices in the city of Wichita Falls, Wichita County Texas, on Thursday the 25th day of February 1909, for the purpose of authorizing the issuance and registration of Seven Hundred and Eighty Thousand Dollars of bonds of this company on approximately fifty-seven miles of railway from Wichita Falls Texas to the town of Newcastle in Young County Texas near the Brazos River, said bonds to run not exceeding thirty years and to bear not exceeding five per cent interest. Said bonds to be issued only when approved and authorized by the Railroad Commission of Texas. Also for the purpose of authorizing the execution of a mortgage on all the line of railway, its franchises, rolling stock and property of every kind, for the purpose of securing the payment of the principal and interest of said bonds. Also for the purpose of making application to the Railway Commission for its approval and registration of said bonds.

A meeting of the Directors of said Railway Company is also called to meet at the same time and same place and for the same purpose, which meeting when called, to be authorized to do any and everything necessary to be done in the issuance and execution of said bonds and securing the approval of the Railway Commission to same.

This notice given by order of the Board of Directors this 22nd day of December, 1908. J. A. KEMP, Pres. WILEY BLAIR, Secy. w-54-9t

SIX SHOTS FIRED IN COURT ROOM

MANY WOUNDED DURING PROGRESS OF SEDUCTION TRIAL AT GATESVILLE.

2 MAY DIE FROM WOUNDS

Gatesville, Tex., Feb. 2.—This town was thrown into consternation this morning by six shots fired in the district court room. The trial of Willis Mulhouse, charged with seduction, was on before District Judge Robertson. One of the attorneys for the defense was speaking at the time. A bullet was fired from the crowded corridor. Dave Ross was shot in the back and arm, James Smith in the head, John Hanes in the back three times and in the arm and A. P. Wiley in the leg. Mrs. Ware and her brother, Charles, were arrested charged with the shooting. It is thought that Hanes and Smith will die. Doubts are entertained as to the recovery of Ross. Wiley will recover. Mulhouse was charged with seducing Verna Ware.

NEARLY \$125,000 SUBSCRIBED FOR STOCK IN NEW REAL ESTATE PROJECT.

400 ACRES IN TOWN LOTS

Big Tract Along Line of Electric Railway to Lake Wichita to Be Cut Into Town Lots.

From Monday's Daily.

The firm of Cobb & Huey, assisted by J. B. Marlow, has sold an undivided one-half interest in 400 acres of land adjoining the city limits of Wichita Falls on the southwest, belonging to J. A. Kemp and Frank Kell, for the sum of \$60,000. The sale was made by organizing a townsite company to be incorporated for the sum of \$120,000. The purpose of said company is to purchase said 400 acres of land and immediately place same upon the market as an addition to the city. Messrs. Kemp and Kell agree and bind themselves to build an electric car line through said property to Lake Wichita as soon as possible and not later than six months.

A meeting will be held in the Chamber of Commerce Hall Tuesday at 2 p. m. for the purpose of incorporating said townsite company and electing officers. The capital will be fully paid up, the land platted into city lots and placed upon the market.

Every acre of this property is beautiful and will make a valuable addition to the city. It lies upon a hill about forty feet higher than the business portion of the town, and is all level smooth ground which affords an ideal view of the surrounding country. This addition means a greater Wichita Falls, as it gives the city room to grow and hundreds of people with small means can buy lots on the car line at reasonable prices and hold them until they are able to build homes.

The names of the parties who will incorporate this company and the amount of stock owned by each is as follows:

Kemp & Kell	\$60,000
N. C. McIntyre	10,000

Bright's Disease is more dreaded by physicians than any of the serious disorders with which they have to deal because of its insidious and malignant character. If prompt action were taken when headaches, urinary disorders, digestive troubles first appear, much suffering and sorrow would be averted. Prickly Ash Bitters will quickly stop the spread of the disease. Quiet the inflammation, heal the kidneys and bladder, strengthen and regulate the liver and drive poisons and impurities out of the system. Mater-Magner Drug Co., Quality Druggists. 225-121

To Build New Church.

Today the M. E. church South purchased from D. M. Perkins lot 1 in block 122, southwest corner of Lamar avenue and Tenth street, for a consideration of \$2,400 for the lot without improvements. On this lot, which is 70x150 feet, the Methodists expect to begin soon the erection of a fine church building.

The church also purchased from Mrs. Newman the 70x216 foot lot fronting on Tenth street and Travis avenue for a consideration of \$2,000 and on this property will erect a new parsonage.

WOMAN'S WOES

A Certain Cure for Female Trouble and That Tired, Nervous, Depressed Feeling That Makes Household Work a Dreary Burden.

Work, work; Nothing but work; Tiresome drudgery! Work used to be a pleasure, but now a few minutes effort leaves you weak, discouraged and irritable with a feeling that everything has gone wrong. The liver and bowels are responsible for this.

The symptoms are, heart palpitation, faintness, suppressed, excessive or irregular periods, bad digestion, bearing down pains in the side and back, nervous weakness, poor appetite, costiveness.

Prickly Ash Bitters sweeps away these troubles like magic, because it strikes at the root of the disease—the stomach, liver and bowels.

Women who take medicine for female troubles that does not benefit these organs are wasting money and valuable time. The liver is diseased because the stomach is unhealthy, and both have produced a constipated habit. This stoppage of healthy action in the liver and bowels has filled the system with impurities which have brought on irregularity in the female organs; it follows therefore, that a medicine which will correct the liver, strengthen the stomach and promote healthy bowel operations is the remedy for menstrual difficulties.

The poor, tired, discouraged woman who has suffered silently and so long with the ailments of her sex soon feels the strengthening and exhilarating influence of Prickly Ash Bitters. It does its work thoroughly, beginning with the stomach and extending its purifying and stimulating influence to the liver and bowels. When the stomach, liver and bowels are active and working in harmony, there must be health and regularity in the female organs. As a result of this improved condition the patient takes a renewed interest in her household duties. Appetite and strength return, the eyes are brighter, the complexion clears, and before long she is transformed into a bright, happy woman with rosy cheeks and cheerful spirits.

"I suffered much from indigestion and constipation. I had a drowsy tired feeling and nervous headaches all the time. I began using Prickly Ash Bitters and it has helped me wonderfully. I now have a good appetite, sleep well and can do a greater amount of work than ever before."

—MRS. MARY NORTHCOTT, Adel, Mercer County, Mo.

BILL FOR MERGER OF RAILROADS

CONSOLIDATION OF THREE WICHITA FALLS ROADS IS BOUGHT IN VEALE'S BILL.

OTHER PROCEEDINGS

Senator Watson Propheesies That Fifty Thousand Will Be Driven From the Democratic Party by Submission.

Austin, Tex., Feb. 2.—In the senate this morning, speaking against submission, Senator Watson prophesied that if the democratic party insists upon forcing prohibition upon Texas, fifty thousand of the best people in the State will be driven from the party. He declared that local option was all right.

OVER \$17,000 IS SUBSCRIBED

From Tuesday's Daily.

On last Sunday a building committee composed of R. M. Moore, Job Barnett, J. M. Bland, T. B. Noble and E. B. Gorstine, was appointed by the Methodist Episcopal church South to select a site and take subscriptions and to proceed with the preliminary arrangements for the building of the church.

At noon today the total individual subscriptions for this purpose reached \$17,000. With other pledges the amount already in sight is over \$25,000.

As was stated yesterday a site at the southwest corner of Tenth street and Lamar avenue was purchased and it is planned to start work on the building of the church at the earliest date possible.

A total expenditure of about \$35,000 is planned.

Happenings at Frieberg.

Frieberg, Tex., Feb. 1.—Mrs. Nannie Jenne of Wichita Falls spent Sunday in our community and attended Sunday school and church and met many of her friends.

Mr. Lester and Miss Louise Johnson of Petrolia spent Sunday visiting their sister, Mrs. E. E. Byman, and other relatives and attended church both morning and evening.

SUBMISSION BY MAJORITY VOTE

REPRESENTATIVE CURRY'S BILL WOULD MAKE TWO-THIRDS VOTE UNNECESSARY.

MANY BILLS INTRODUCED

Convicts, Automobiles, Building and Loan Associations and Fees Affected.

Austin, Tex., Feb. 1.—As important in the result of the submission fight, Representative Curry introduced in the house this morning a joint resolution providing that the State legislature upon a majority vote only can submit to a vote an amendment to the constitution, when preceded by a petition signed by twenty thousand names. At present to submit such an amendment a two-thirds vote is necessary and neither the submissionists nor the anti's have sufficient forces for a winning fight.

Two bills were introduced in the house today by Lively and Wilson, defining short term convicts and providing for working them on the public roads.

Thomason introduced a bill regulating the speed of automobiles, fixing it at ten miles in cities and twenty miles per hour in the country. The measure also provided that when a person was killed by a machine running above the speed limit, the chauffeur, if not prosecuted for assault or assault to murder, shall nevertheless be prosecuted for a felony and the punishment shall be from two to four years in the penitentiary.

The automobile owner shall also be subject to damages.

The house today engrossed Ray's bill providing for the incorporation of building and loan associations and regulating the fees paid for permits by foreign corporations.

The senate today finally passed the bill making the permanent location of the court of criminal appeals at Austin, taking effect October 1st. Senter opposed the measure. Ward favored it.

The senate at noon resumed the debate on submission, Mayfield speaking in favor of the resolution. He declared that the democrats in refusing to support the platform demands have no right to participate in future democratic primaries.

Hill, in the house, today gave notice that he will tomorrow move the reconsideration of the vote by which the house killed Wortham's resolution providing for a commission to revise the insurance laws of Texas.

UNFAVORABLE REPORT ON SUNDAY BASEBALL LAW.

Austin, Tex., Feb. 1.—The house committee on criminal jurisprudence tonight heard arguments on the Bowles bill prohibiting Sunday baseball, which was returned with the recommendation that it be unfavorably reported upon by the subcommittee to which it had been referred. Mr. Bowles spoke in his favor and Joe Gardner of Dallas and M. O. Kopper of Galveston, owners of the franchises in those cities, spoke in opposition. Mr. Bowles objected to Sunday baseball because it draws young men from the country to the cities on Sunday to be ruined. The committee did not appear to be impressed with Mr. Bowles' argument, however. In fact, its purpose to report unfavorably on it was so manifest that he announced that he was going to carry the fight to the floor of the house by the minority report route. No report was decided upon tonight, however.

WHY WICHITA FALLS IS GROWING FASTER THAN WEATHERFORD

Weatherford Herald.
 "I have noticed in the Herald several times recently some comparisons between Weatherford and Wichita Falls," remarked Mr. F. B. Egelhoff, of the Lowe-Carter Hardware Company, in conversation with a representative of the Herald, "and I can tell you why Wichita Falls is steadily forging ahead of this city. It is all owing to the fact that the Panhandle town has a live and progressive class of citizenship and they stand together as one man.

"If a man goes out to buy a piece of property in Wichita Falls he does not meet a knocker at every turn in the street. If he asks a resident of that city as to the value of the property in question he is assured the price is all right and his money is safe in the investment. He is not told there is another piece of property in that city just as good that he can get for half the money.

Here in Weatherford the rule is to spoil the trade if possible instead of pushing it along. When a man gets a deal of any kind on foot he usually hurries it through just as fast as possible with the utmost secrecy, for fear that some knocker will get in his deadly work.

"We have a good little city here, containing live and progressive people, but our greatest trouble is the fact that we have too many discordant elements—too many men pulling in different directions. It would be a great thing for Weatherford if we could harmonize all these differences and get our people to pull together during the present year."

While there are fewer "knockers" in Wichita Falls than any town of like size in the United States, there are also more men who do things than in any town of even twice the size in the whole land.

The prosperity and growth of Wichita Falls is attributed only in part to the fact that nobody knocks the other fellow's trade. Probably there might be a few knockers, if every man's neighbor's son wasn't so busy working and boosting that he hasn't time to knock his competitor.

This city is proud of her men who see an opportunity and grasp it. These men are the city's most valuable asset. The business men of Wichita Falls, when they see a good thing, go after it and in nine cases out of ten they land what they seek.

Upon the initiative of her own citizens, Wichita Falls has secured nearly every railroad and industrial enterprise she now possesses. The time was when Wichita Falls could not point to any special advantages, but latterly, her railroads, coal and gas, and most of all, the fame of her progressive spirit, have attracted many new enterprises and each has made the city more attractive from a commercial and industrial standpoint than before. The benefits have been cumulative, until now we are enjoying a marvelous growth and development.

At long distance it strikes us that Weatherford needs a tonic—something that will tone up her business men and capitalists to aggressive, concerted action on their own initiative. Weatherford has the capital, the brains and the energy for great things. Initiative and a spirit of co-operation are the two elements apparently needed.

WHAT? ANOTHER SCARE?

Bradstreet says that in various lines "the prospects of tariff revision tend to develop a certain degree of hesitancy in making large future commitments and that as a matter of fact some contracts being entered into contain clauses which provide for new prices in the event of existing tariff schedules being rearranged."

Can it be that the "contingent order" which figured so prominently in the late campaign is going to be used to prevent tariff reform? Is it not enough to elect a republican president by securing the manufacturers and employes with contingent orders? Are they now to be used to scare the country out of any change in the tariff law? Are we to substitute government by unanimous consent for the rule of the people on the tariff question? And if so, when will we get the consent of the beneficiaries of the tariff?—Bryan's Commoner.

AN EXAMPLE FOR WICHITA FALLS

The Times has consistently and persistently urged the real estate men of this city to co-operate in an aggressive effort to bring prospectors into the Wichita country, but as yet no concerted action has been taken.

In this Wichita Falls has fallen behind Stamford, our progressive neighbor down the Wichita Valley.

A reporter for the Fort Worth Star interviewed some Stamfordites on their return from a trip into the Northern States in search of immigrants and the following story of their success is told:

Stamford isn't going to depend on railroads or on land companies for immigration. A delegation of business men, private citizens and capitalists will personally look after the bringing of homeseekers into the Stamford territory.

This delegation has been to Indiana, Illinois and Iowa, meeting the farmers, the young husband, the prospectors, the merchants and the professional men and explaining to them the advantages of Texas.

This delegation of Stamford hustlers is composed of E. K. Sparks, Homer D. Wade, Charles Sammons, Wiley Imboden and S. A. Martijn. Four of them are still in the middle west, while Homer D. Wade has returned to Texas. The others will return next week with a big trainload of homeseekers, bound for Stamford. In fact, the doors of the cars will be kept locked until Stamford is reached.

"We had nothing cheap to offer the people of Illinois," said Mr. Wade, secretary of the Stamford Commercial Club, Tuesday, while in this city. "Some of the folks up North had the idea that Stamford land could be bought for a song—for \$2 and \$3 per acre. They didn't seem to realize that our land produces as fine crops as any land in the world and far better crops than most lands. We convinced them of that fact, however, before we finished."

Immigration is directed this way. People are coming to Texas just like they came to Illinois and the Middle West years ago, and later out to the Pacific coast. This State is the natural outlet for the crowded centers of population. Only the best farmers and merchants—especially men with some means—will come to the Stamford section.

"I really don't blame any Northerner for moving to Texas. It is a wonder that all of them are not down here. Look at this beautiful morning. Just cold enough to invigorate and then think about what I left up in Illinois. The ground was covered with snow; the water pipes were frozen up; the mercury down to zero. Didn't see the ground for ten days—only snow, sleet and ice."

A son of Frank Trumbull, president of the Colorado and Southern, has already selected Stamford for his home, said Mr. Wade, and others are doing likewise daily.

A LITTLE INSIDE HISTORY.

The Hon. James H. Lowry, defender in chief of womanhood in general for the Texas press, gives some inside history of the Leavitt marital troubles, wherein the daughter of the distinguished democrat is suing her artist husband for divorce. Says Mr. Lowry:

Ruth Bryan Leavitt has asked the courts to grant a divorce from her husband, William Leavitt. It was about seven years ago that we read an account of the Bryan-Leavitt marriage. A wandering artist gained admission to the Bryan home to paint a portrait of Mr. Bryan. He was a thrifless fellow without ambition or energy, but he could paint a fairly good picture, pick a guitar and sing the latest popular songs. Worse than all (for the girl) he was handsome. His complexion was good, his hands were soft and white, and his eyes poured a continuous stream of moonshine. Ruth Bryan was a slip of a girl, tall and willowy, and just the age to fall deeply in love with a man of handsome face and honeyed eyes. Ere her parents suspected, she had pledged her undying love to Leavitt. Father and mother begged their daughter to break the engagement; they plead with her with tears in their eyes, they warned her of the unhappiness that would come to her, wedded to the thrifless man, they promised her everything money could buy or love could grant, but the spoiled girl turned a deaf ear to the pleadings of those who loved her. The mother could not witness the marriage, the father looked on with a bleeding heart, realizing that the ceremony was the official destruction of his daughter's happiness.

Many months ago Ruth Bryan against sought shelter under the paternal roof. The paternal love survived and she and her babies were received without thought or reference to the past. Now suit has been filed for divorce. Pity 'tis that boys and girls reach the state when the wisdom of parents fades into foolishness and the love of mother and father is cast aside as trash. But they do."

Senator Veale has introduced a bill in the State senate for the establishment of a Northwest Texas Normal in this senatorial district. As there is now no normal in this entire section of the State, it is probable that Senator Veale's bill will pass.

Such an institution would attract several hundred students to the town which is fortunate enough to secure its location. Wichita Falls has the best transportation facilities of any town in the district and ought to stand a good chance of securing the Normal. Wichita Falls is entitled—either to one of the proposed Agricultural and Mechanical colleges or to this Normal school. We should press our claims for one or both of these institutions.

Governor George E. Chamberlain of Oregon has just been elected United States senator from that State. He is a democrat, but was elected by a republican legislature in pursuance to pledges made to the people by the candidates for the legislature in a primary election held for the purpose of selecting a United States senator by a direct vote of the people and the choice fell upon a democrat. But merely because he happened to be a democrat did not release the republican members of the legislature from their pledge to vote for the man for the United States senate who secured a majority of the votes, and like good, honest republicans, they stood by their pledge. There are some democratic members of the Texas legislature who should follow the example set by the Oregon legislators. Every member of the present Texas legislature, with the exception of a few hold-over members of the senate, were elected to their offices upon a platform which demanded that the question of State-wide prohibition be submitted to a vote of the whole people, and by not carrying out this platform demand they have violated their pledges and the confidence of the people who voted for them, and by that reason are no longer democrats and should never be honored by the party again. In Texas, the democratic party is not committed for or against State-wide prohibition, but the party did pledge itself to have the matter submitted to a vote of the whole people, at an election where democrats, republicans, populists, socialists and all qualified voters would have an opportunity of expressing their sentiments. The republican party went on record in this State as against prohibition, or the submission of the question of State-wide prohibition, and to the discredit of the party it now seems that about one-third of the members elected on the democratic platform have joined Cecil Lyon and his small crowd of republican followers in an effort to defeat the demand of the democratic platform. There is short distance between the man who wilfully goes back on a party pledge and the one who will accept bribe money and he will bear watching.

One often hears the remark that until the national government ceases the practice of issuing to parties applying for licenses to sell intoxicating liquors in prohibition or local option districts, that local option or prohibition State laws will continue to be violated with impunity. It occurs to this paper that instead of encouraging the violation of State laws, the national government should lend its moral support to the States in the enforcement of State laws. Nearly every man who has been arrested for violating the State local option laws in Texas has always posted in a conspicuous place behind his bar a Federal liquor license, and yet, when his case comes up for trial he attempts to prove that the article he is selling is not intoxicating. It is to be hoped that the present congress will take this matter up and pass such a law as will free the Federal government of the charge often made—i. e., that instead of lending aid to the different States in the enforcement of their laws, it is aiding and shielding to a certain extent those who are or should be classed as criminals, or perhaps the softer term to be used in this case would be "undesirable citizens." Until congress does take some action along this line, the local and State officers will be greatly handicapped in the enforcement of State laws restricting and prohibiting the sale of intoxicating liquors.

The present system of selecting jurors puts a premium on ignorance. For instance we note a dispatch from Nashville regarding the selection of a jury to try the slayers of ex-Senator Curmack. "H. P. Jackson, a blacksmith," says the dispatch, "fifty-five years old, who lives in the county, had not read a paper for twenty-eight years and had not heard that Curmack was dead, he thought. He was eagerly accepted as Juror No. 8 just before the court adjourned for the noon recess. After a brief recess for a consultation, S. M. Hyde, a farmer, forty-eight years old, who had never read a newspaper and had no opinion, but was not opposed to capital punishment was accepted as Juror No. 9." How in the world a man can live within a few miles of the scene of a killing that was a national sensation is almost beyond comprehension. But we note that he was eagerly accepted" as a juror.—Denton Record and Chronicle.

As is well known, Editor Ousley of the Fort Worth Record, is touring the State of Georgia and writing copyrighted stories for his paper upon the prohibition question. Commenting on this the McGregor Mirror says:

"Those copyrighted 'unbiased' articles by Editor Ousley of the Fort Worth Record should bring him a snug little sum from the liquor dealers and brewery associations when the campaign starts in earnest on State prohibition. They contain the startling information that Georgia's prohibition laws are violated. Since the 'personal liberty' plea has been shelved by all the intelligent speakers and writers on the anti side of the question, Clarence will work the 'I don't prohibit' plea for all it is worth. Meanwhile, the Record's advertising pages keep the readers posted as to the best brands of whiskey. But they are not copyrighted."

MANY FARMERS TO CO-OPERATE

AGRICULTURAL DEMONSTRATION TALKS CREATE INTEREST IN BETTER METHODS.

DEMONSTRATION WORK

Will Be Begun on Number of Wichita Country Farms as a Result of Quicksall's Talks.

The first series of demonstration talks inaugurating the introduction of a local agent under the National government department of agriculture were exceedingly encouraging from the interest thus far manifested.

State Agent J. L. Quicksall of Waco, Local Agent J. L. McConkey and Secretary Gohlke conducted the first meeting at the Bowman school house Monday, at which were present about fifteen farmers and all the school children, as it is desired by the department to come before the future agriculturalists before they get to following old methods.

Mr. Quicksall delivered a talk dealing in part with the proper preparation of the soil by deep plowing in the fall, followed by harrowing before the ground dried, the latter method to conserve moisture and keep the humus from escaping through high winds and exposure through crevices in newly plowed ground.

Seed selection is advocated by going into the fields at gathering time and noting the healthy stalks, selecting well developed ears which are surrounded by healthy and productive stalks, as it has been demonstrated that corn is affected by nearby barren stalks through theassel. Many details in seed selection and how to breed up to a standard and keep seed money at home were explained, as well as more specific results from proper preparation of the soil and cultivation after the plant began to grow. Shallow and frequent cultivation is advocated to conserve the moisture, especially after a rain, in order to continually keep a mulch surface. This method in dry years will produce from 25 to 100 per cent more corn than shallow plowing, absence of harrowing until planting time, and deep cultivation and otherwise hap-hazard methods.

Crop rotation is advised in the way of dividing the farm into three portions (in the Wichita country) in wheat, cotton and corn. The planting of row

peas between corn rows is both profitable and provides additional fertility in the soil as has been demonstrated by repeated experiments in Texas. Cow pea hay is equal to red clover, stated Mr. Quicksall, and is worth \$18 per ton. The method of planting corn in 3 foot 6 inch rows and 3 feet part in the row has been adopted as a standard.

In reply to inquiries, Mr. Quicksall said that average good attention and preparation of corn costs to producer from 14 to 18 cents per bushel and cotton from 6 to 8 cents per pound. The average yield of corn in Texas is, according to statistics, 18 bushels per acre, but Corn Expert Hartley at Washington maintains, after a study of Texas conditions, that the average yield should be doubled in the State with the policies of the department carried out. Further points brought out were that the saving of barnyard manure was equal to \$2.26 per ton of commercial fertilizer and that one animal had a fertilizing value of \$24 per annum. Sample ears of corn and photographs were shown during the talk.

Mr. Quicksall said that corn contest clubs were being organized in many districts among the school children, but that this would be postponed in this district until next fall so that the contest would be governed from deep fall plowing as a starter.

Intense interest was displayed at each meeting and from the expressions heard there will be active co-operation on the part of farmers generally in following as far as they can the suggestions and advice in the bulletins furnished them by the department.

At Holiday on Monday evening there were about thirty-five farmers congregated in the school house to attend the meeting. The same scope of work was gone over at each place and cotton also treated, however, with less specific attention to the principles applying to cotton as to corn. The one feature against cotton is the practice of farmers to confine themselves too much to the one crop, thereby depriving their children in many instances of schooling and with less profit to themselves, considering the labor involved. The reduction of cotton acreage, with more intense methods, is calculated to reap as much profit with less detriment.

The banner meeting was held at Iowa Park. Yesterday at 2 o'clock an audience of farmers, business men and the higher grade of the school, aggregating fully one hundred and twenty-five persons, greeted the visitors. Secretary Gohlke at these meetings, explained the motive of the Chamber of Commerce in securing the work of the department in Wichita and parts of

Archer and Clay counties and the beneficent results which were sure to follow from the establishment of actual demonstration stations in the several localities tributary to the city. One hundred dollars of the \$200 pledged the department, by the association will go for the purchase of corn and cotton seed and demonstrators will be selected by Mr. McConkey, these to be visited monthly in person and reports published on their progress. The usual aggressiveness of the new Commercial Club of Iowa Park was manifested when Dr. J. M. Bell stated that their association would also contribute to the purchase of seed and enable more stations in their vicinity.

The party left this morning for Burkburnett, where a meeting will be held at 2:30 o'clock. Advance advice are to the effect that a good representation of farmers will attend.

The Wichita Falls meeting will be called at the Chamber of Commerce at 2 p. m. sharp Thursday and every farmer is urged to attend. Business men are also invited to be present and encourage the movement, which means more revenue and prosperity for both the farmer and business man. Mr. Quicksall has the faculty of securing the interest of his audience and does not meet with the skeptical attention that is sometimes accorded the so-called "book farmers." Mr. Quicksall has lived in Texas for over twenty years, having farmed most of the time. During the last five years he has been engaged in the government demonstration work, but is able to talk from a practical standpoint.

The following parties announced their willingness to receive and read the bulletins mailed by the department and to practice as far as they can the methods advocated, these being termed "co-operative farmers," while the selected seed stations are called "demonstrators" and are under the supervision of Agent McConkey:

Howman District: G. R. Decker, J. S. Cooper, W. W. Ground, Wm. Fox-burger, John Krebs, Fred Mohler, J. T. Chasteau, R. A. C. Crowell, John Ground, Frank Block, Fred C. Muir, J. J. Comer, Mr. Stearns, A. A. Priebe, John Block and Albert Bohn.

Holiday District: J. W. Johnson, G. M. Kelley, Joe Peters, C. M. Taylor, C. S. Glazner, R. L. Hays, H. A. Butler, R. R. Johnson, J. W. Campbell, and Paul Skrabanek.

Iowa Park District: C. A. Megins, J. D. Kerr, Wm. Borchelt, E. E. Goetze, J. J. Cobb, W. D. Ozden, Ed. Hale, J. A. Deakins, W. R. Ferguson, E. E. Willard, E. A. Benham, J. J. Kierst, J. W. Dowler, J. W. Ellison, J. L. Campbell, L. L. Kutz, J. P. McPherson, J. B.

Bell, W. W. Cole, E. G. Farn, J. M. McClendon, C. A. McCloskey, B. N. Ferguson, Jim Case, I. Knight, N. S. Dunn, G. Birk, L. E. Dunn, A. W. Wigley, John Warmuth, L. Troutman, J. W. Hutchinson, C. Peterson, J. B. Evans, J. C. Goin, F. A. Munderman, John Givens, J. P. Sunday, J. A. Putman, D. K. Harbour, J. J. Hall, J. R. Scott and J. E. Johnson.

J. J. Comer of Howman, a newcomer in that section, said that he had propagated a variety of cotton which, if it came up to his experiments in Central Texas, would produce 45 per cent lint, and be a prolific producer. Mr. Comer presented a bushel of seed to the demonstration party to place with one of the stations to test against his forty acre patch of selected seed which he will plant this season. It will be known as the Comer variety, if successful as he anticipates.

LOCAL CONTROL OF LIQUOR SELLING

SENATOR BAILEY AND CONGRESSMAN STEPHENS EXPRESS VIEWS ON SUBJECT.

GOVERNMENT LICENSES

For Handling of Liquor in Prohibition Territory Should Not Be Issued.

In letters received by W. J. Bullock from Senator Bailey and Congressman Stephens, both say they will do all in their power to have congress pass a law prohibiting the Federal government issuing liquor licenses in prohibition territory. They say the Federal government ought not to license anybody to violate the laws of a State; that the right to regulate or prohibit the sale of liquor belongs to the police power of the States, and that it is wrong to issue Federal licenses in communities where the State law forbids the sale of liquor. Also that where a majority of the people by direct vote say they want prohibition they should have it, and that the United States government should adhere to the wishes of the people of that particular locality.

Senator Bailey's Letter.

Washington, D. C., Jan. 16.—Hon. W. J. Bullock, Wichita Falls, Texas: My dear friend—I have received yours of the 12th inst., and I cordially agree with you that the Federal government ought not to issue liquor license in communities where the State law forbids the sale of liquor. The right to regulate or prohibit the sale of liquor is one which belongs to the police power of the States, and the Federal government ought not to aid anybody in violating a law which a State has enacted in pursuance of its universally admitted power. I have heretofore exerted myself to secure the enactment of such a statute as you recommend, and I shall continue to do so. With best wishes, I am very truly your friend, J. W. BAILEY.

Congressman Stephens' Letter.

Washington, D. C., Jan. 16.—Mr. W. J. Bullock, Wichita Falls, Texas. Dear sir and friend—I am in receipt of your letter protesting against the issuance (by the United States government) of liquor license in prohibition territory. This question has been brought to the attention of congress several times, but it seems that the measure cannot or will not be reported from the committee, hence the House proper does not get a chance to vote on it, but I will look into the matter and see what can be done and will support the bill. Where a question of this kind is settled by a direct vote of the people, and a majority say they want prohibition, they should have it, and the government should adhere to the wishes of the people of that particular locality. With kind regards I am, very truly your friend, JNO. H. STEPHENS.

1550 POLL TAX RECEIPTS ISSUED

A total of 1550 poll tax receipts were issued in Wichita Falls this year. Last year the total number of poll taxes paid was 1368, showing an increase this year of 182 over last year.

The poll tax receipts issued for the different voting boxes were as follows: Court house, 568; city hall, 428; Allen-able, 22; Friberg, 85; Iowa Park, 165; Penny, 30; Beaver Creek, 17; Clara, 46; Electra, 124; Burkburnett, 125.

WRECKED VESSEL BELIEVED TO HAVE BEEN THE ALAMO.

Galveston, Tex., Feb. 2.—In Galveston shipping circles it is believed that the Malloy line steamer Alamo is the unknown vessel which sank off Diamond Shoals last Friday. The wireless station here has searched the Gulf as far east as the Atlantic coast for the Alamo.

Operator Campbell found vessel across the Gulf, but she had not been seen.

PRUNES COOKED AND READY TO SERVE

You buy baked Beans, Corn, Tomatoes and Soup, cooked and ready to serve.

You buy most of the fruits in the same way. Why not prunes?

PRESTO BRAND COOKED PRUNES are a fancy grade of prunes all cooked, tender but not mucked up.

They are packed in their own rich clean, dark brown juice and make a delicious sauce ready to serve either cold or hot.

They cost no more than the dry prunes so they are less expensive—no fuel to cook.

TEN THOUSAND FARMERS WANTED

EVERY QUARTER SECTION IN THE WICHITA COUNTRY SHOULD BE THE HOME OF SOME PROGRESSIVE FARMER.

COUNTRY UNDEVELOPED

City is Ahead of the Country in Development—How Conditions May Be Changed.

It is stated on reliable authority that about 175 farm houses have been built during the last eighteen months in the Iowa Park neighborhood, and that many inquiries concerning the farming lands in that section of Wichita county are being received in that town. This forcibly brings to mind the fact that some ten thousand additional settlers are badly needed in this Wichita Falls country. There is too much good farming land unoccupied; we are top-heavy in city population when we should be top-heavy in country population—a condition which must be met and reversed. The way to overcome this situation is, of course, by locating families on every vacant section of farm land in our territory—on 80 and 30-acre tracts if it can be done, because the smaller the farm the more intensely it will be cultivated. Small, well-cultivated farms make better communities and wealthier owners. Forty-acre tracts well tilled and worth \$100 an acre are worth much more to our merchants than 640-acre tracts at \$15 per acre and of which but 100 acres are in feed crops. Every thinking man knows that—but we haven't the 40-acre farmers. The reason, undoubtedly, that so many thousands of acres of these lands tributary to Wichita Falls are not under cultivation is partly because of a few croakers, who may be depended upon to get their hammers out and knock every proposition that will develop this section and increase tax values; it is more largely due to the fact that the value of these lands so far as farm lands and their nearness to markets and good shipping facilities are not properly exploited. What Wichita Falls and the Wichita country needs is a touch of "high life" generously distributed over the men who squat around on the crabs and refuse to help push our city and tributary country to the front. The Times' special edition, which is being compiled by Mr. Fred Chase, will furnish the touch of "high life" in way of showing, plainly enough, the opportunities offered to the homeseekers who are heading to Texas and who are being diverted to other parts of the State at the rate of fifteen thousand a month. Well written, splendidly illustrated matter in this illustrated edition will tell the story as it should be known, and it is up to our real estate men to come alive and get busy. The Chamber of Commerce and our business men are awake to the necessity of widely circulating this edition of the Times, and the real estate men will be the ones who will get the first money and the biggest money from it. In live communities land owners and agents who are wide-awake, don't have to be shown—they can see for themselves. And probably Wichita Falls and the Wichita Falls country harbors some aggressive, active gentlemen of that sort. It is the duty of every real estate man in this city to get his advertisement in the Times illustrated special edition and to distribute several hundred of these papers among the homeseekers in Illinois, Iowa and other States. The business men of this community will do their share willingly and liberally, but they should not be expected to carry all of the load.

A Work Worthy of Support.
Wichita Falls, through the Chamber of Commerce, can well afford to contribute liberally toward the expense of buying seed and otherwise helping in the agricultural demonstration work undertaken by Agent Quicksall of the United States Department of Agriculture and the department's local representative, J. L. McConkey.

These gentlemen will begin a series of demonstration talks to farmers in the Wichita county on next Monday, making their first appointment at the Bowman school house. The same evening they will be at Holliday. These talks will be of a practical nature and if the proper support is given the work not only by the farmers, but by the business men of Wichita Falls, good results are sure to follow.

It is probable that the sum now pledged by the Chamber of Commerce will be inadequate for the needs of the work, but if more money is needed the Times feels sure that it will be forthcoming.

Charged With Robbery.

From Saturday's Daily.
Nightwatchman Tom Pickett arrested three men last night on telegraphic information from Frederick, Oklahoma, on the charge of robbery, and is now holding them until the Oklahoma officers arrive to take them away.

The men arrested give their names as M. Jones, M. Isom and J. Wolanfin. On the first named was found \$1.40 and a pair of knucks; on the second, \$30.05 and a gold watch and on the third \$16.35 and a six-shooter. They are wanted for a robbery committed at Davis, Oklahoma. Officer Pickett located them shortly after they arrived in the city in the Mulberry row resort district.

MRS. VIRGIL POOL SERIOUSLY BURNED

On last Saturday, when Mrs. Virgil Pool, living ten miles northeast of town, went to open the door of a stove at her home a spirit of flame caused a back draft, lighting her dress and in an instant she was aflame.

Her first thought was of her baby asleep in an adjoining room and to prevent setting the house on fire she ran out of doors. Unable to extinguish the flames, she ran shrieking into a field, where her cries were heard by J. N. Baber, who was passing in a wagon along the road. Mr. Baber jumped from his wagon and ran across the field in pursuit of the fear- and pain-terrorized woman. Finally overtaking her, he tore the remnants of her burning garments from her body and carried her back to the house.

Upon his arrival at the house he found that a fragment of her burning garments, which had fallen in her flight, had set fire to the house, imperiling the life of her baby. The blaze, however, had not gained much headway, and was extinguished without much difficulty. Mr. Baber summoned help from the neighborhood and everything possible was done to relieve Mrs. Pool's pain.

At the last report Mrs. Pool was in a serious condition, but it was believed that her life would be saved.

Physicians Examine Juror.

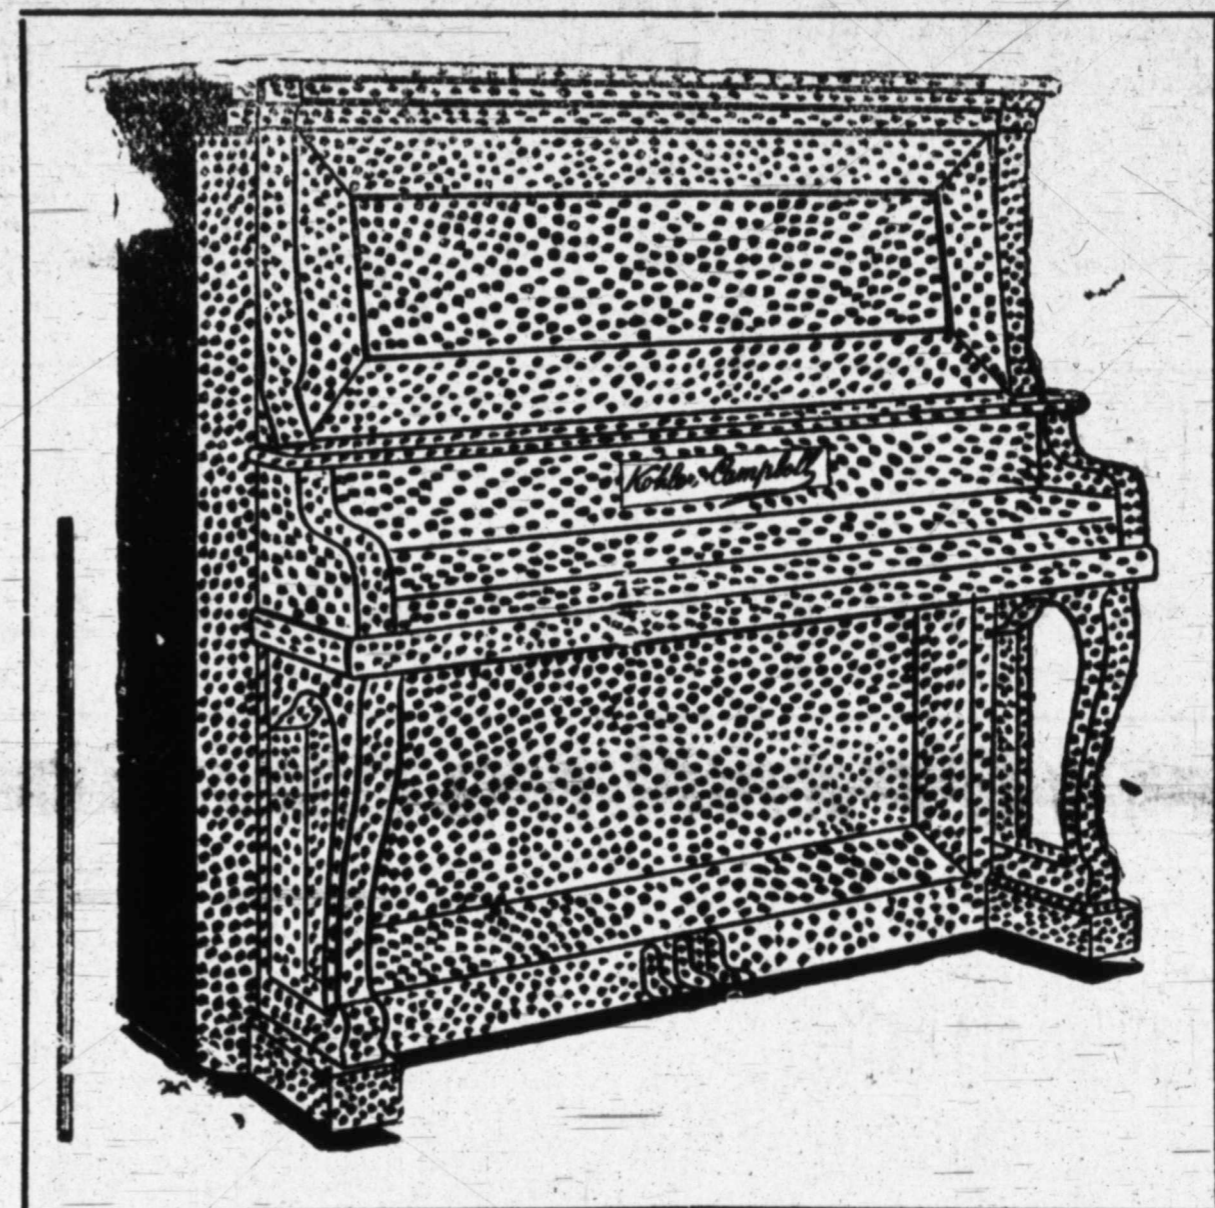

Nashville, Tenn., Feb. 1.—In the Cooper trial today Judge Hart considered the request that Juror Whitworth be disqualified on account of ill health. The prosecution strenuously opposed his release, claiming that improper methods had been used to secure his disqualification, while the defense held that if the juror was a victim of Bright's disease he should be released. Physicians will make an examination of Whitworth and report to the court this afternoon.

\$3,000,000 DEAL IN TEXAS DEAL

Big Springs, Tex., Jan. 28.—The W. P. Soash Land Company of Waterloo, Iowa, has just closed a deal with Col. C. Slaughter of Dallas for 170,000 acres of land lying just north of Big Springs, in Howard, Dawson and Martin counties. It is learned that the deal involved about \$3,000,000.

W. P. Soash, G. A. Leonard and M. Hiserote, together with Messrs. E. F. Turner and Sargent of the Texas and Pacific railroad, were here today making arrangements for offices, etc., and will put this land on the market at once. This will open up to actual settlers one of the finest agricultural parcels of land in this part of the State.

At a meeting with the board of directors of the Commercial Club this company pledged \$50,000 bonus for a railroad to the north. This amount makes over \$80,000 already promised and our citizens will make it more than \$100,000.

Mrs. Allen Granted a Divorce.
From Tuesday's Daily.

In the district court yesterday Mrs. Marie Allen was granted a divorce from Walter Allen. Mrs. Allen is given the custody of the children and in a division of the property Mrs. Allen was given the St. Charles hotel and restaurant and fourteen lots in Texarkana.

Hyomel (pronounced -High-o-me) will give the sufferer from catarrh joyful relief in five minutes.

It is such a remarkable cure, and so positive in its action, that E. S. Morris & Co., goes so far as to guarantee it to cure catarrh or money back.

A complete outfit, which consists of a hard rubber pocket inhaler, a bottle of Hyomel and a unique dropper for filling the inhaler, only costs one dollar and if an extra bottle is afterwards needed the price is only 50 cents.

Hyomel is a healing, antiseptic balsam, taken from the mighty eucalyptus trees in the health-giving forests of Australia, where diseases of the respiratory tract are unknown.

All the sufferer has to do is to inhale the antiseptic air of Hyomel over the inflamed parts where the germs are entrenched, three or four times a day.

It cures coughs, colds, asthma, hay fever and croup without stomach dosing.

TO START WORK ON NEW PHONE PLANT

CONSTRUCTION GANG ARRIVED HERE TODAY—WORK IS TO START AT ONCE.

AN ENTIRELY NEW PLANT

Equipment Will Be the Best and the Latest—Many Thousands of Dollars to Be Expended.

From Tuesday's Daily.

C. C. Randall, construction foreman for the Southwestern Telephone Company, arrived in the city today, bringing a large force of men and tools, to begin at once the installation of an entirely new and modern telephone plant for the Southwestern in this city.

The poles, wire and other material for the outside part are already here and it is believed there will be no delay in the work.

The improvements now authorized provide for new poles, wires and boxes throughout the city, as well as new switch boards in the central office.

The company has leased the entire second floor of the Butler Moore building over the Jourdan Furniture Company's store.

It is estimated that the new plant and other equipment when installed will represent an investment of \$30,000.

ACCIDENTAL SHOOTING.

Young Man Receives a Bad Wound in an Unknown Manner.

Graham, Tex., Feb. 1.—While in the company of Arch Norris and John Booher, near Loving, eleven miles from Graham, Saturday afternoon, a young man named Lusk was shot and perhaps fatally wounded in some unknown way, although the companions of young Lusk, both of whom are members of respectable families in this vicinity, maintain that the shooting was accidental.

The bullet from a revolver entered young Lusk's left side slightly below the heart.

The wound was dressed by Dr. Kant of Graham and Dr. Smith of Loving, both of whom assert that the injury is a very dangerous one and may terminate fatally.

Sheriff M. A. Wallace and District Attorney P. A. Martin went to Loving Saturday night to investigate the shooting, but so far no arrests have been made.

Young Lusk came here several months ago from Parker county, where his parents reside.

Organization Not Yet Perfected.

From Tuesday's Daily. A majority of the stockholders in the new real estate company were not present at the meeting held in the Chamber of Commerce rooms this afternoon and on that account the organization was not perfected.

A committee was appointed to select a surveyor and proceed with the survey of the land. It was decided to hold another meeting next Monday evening at 7:30 o'clock, when all stockholders are requested to be present.

At that meeting the report of the surveying committee will report, officers will be chosen and the necessary arrangements made for incorporation.

The members of the committee appointed to look after the survey are Charles W. Bean, J. B. Marlow, N. C. McIntyre, W. E. Cobb and J. T. Young.

Death of Mrs. A. M. Davis.

From Monday's Daily.

Mrs. Cordella Level Davis, wife of former Sheriff A. M. Davis, died at 1 o'clock Sunday afternoon at her home at the corner of Ninth street and Scott avenue, after suffering for many months with an internal cancer.

At her death Mrs. Davis was aged 48 years, 7 months and 9 days. She leaves a husband and a family of children.

The funeral service was held at the family residence at 2:30 o'clock this afternoon, Rev. W. F. Fry, pastor of the Baptist church officiating.

From Tuesday's Daily.

A deal was closed late yesterday afternoon whereby Bennett & Hardy became the owners of the two-story brick business block on Ohio avenue known as the Kerr & Hursh building. The purchase was made through the real estate agency of Ward & Young from the Wichita Investment Company and involved a consideration of \$17,500.

The new owners purchased the property as an investment.

MURRAY'S CATARRH CURE

This medicine, like the Balsam, was first made by my father, Dr. Murray, of Bowling Green, Ky., more than ninety years ago. He used it in his practice, and people came to him from far and near to be treated for Catarrh of the head, and for throat, lungs and kidney diseases, and he cured them when all other treatments had failed. Now, I don't want any one to say after using my remedies that I have deceived him, so I will state right here that the remedies sometimes fail to make such a cure of the head or lungs that the disease may not be brought on again by exposure at a time when the blood is impure, and for that reason, as well as others, the state of the general health should be carefully looked after and the blood kept pure always, so pure that if you should get a severe scratch or bruise on the hand it will not inflame, but heal up without becoming sore, and my Vegetable Blood Purifier will keep it in this state by using from one to three bottles a year.

This Catarrh cure is a speedy and sure cure for cold in the head and for headache caused by cold. A few drops drawn by the breath into the nostrils will clean out the head in a few minutes. It should be used frequently, as the head should be kept clean all the time. It is pleasant to use, so much so that children like to use it.

If a person has a bad case of catarrh he should put some in a bottle that he can carry in his pocket wherever he goes and whenever he feels anything coming in his nose or head he should sniff a few drops in each nostril, drawing it up as far as possible with the breath, and in 5 to 10 minutes he can blow out all the offensive matter. This way of using it is better than using a sprayer, as the breath taken it just where it should go to do the most good. It should be used two or three times before going to bed, each time blowing the nose clean before using again. Then the head will be clear and there will be no dripping down the throat in the night and carrying the disease to the throat and lungs and the breath, instead of being offensive, will be pure.

Where the disease has reached the throat or lungs it will be found necessary to use Murray's Balsam to effect a cure of these organs, and where these organs are affected, it will be labor thrown away to try and cure them unless you keep the catarrh out of your head at the same time. For more than half the lung troubles that are called consumption are caused by this poisonous substance from the head, which finally gets through the whole system unless checked in time.

In using this remedy for catarrh of the nose the patient if he uses it often will feel in 3 or 4 days as well as if he never had catarrh, and some persons quit using it then until they feel the disease again, which may not be till they take another cold. We can't expect to be cured in that way. But they say they can't use medicine when they are not suffering.

It would be much better to use it for two or three or even four months, and then be able to quit it for good.

And remember there is no medicine that you use only three times a day that has any chance to cure catarrh of the head, and no medicine can cure it, no matter how often you use it, unless you have pure blood. And I know of no medicine that will purify the blood and put the system in perfect condition like my Vegetable Blood Purifier. For a bad case of catarrh of the head the patient should use at least two bottles of the catarrh cure, which will last from two to three months, and two bottles of the Blood Purifier. The best way to use the catarrh remedy is to have a little in a one-ounce bottle and place the bottle to the nose, and pour it up the nostrils, but just get two or three drops in the end of the nose and then take the bottle away from the nose before sniffing it up. It is clean, of a pleasant odor and altogether pleasant to use and relieves at once; try it and be convinced. When the catarrh is in the ears and head this treatment will in a short time bring it to the front, the ears will stop running and where the hearing is affected in minutes it will be restored.

I am sometimes asked if this will cure so the disease will not return again. I wish I could say "Yes," but I don't think it would be right to say so. I have cured hundreds of young and middle aged people who, say, years after using the treatment, that they are cured; others say they feel it when they take a bad cold, but by using the remedy two or three days it all passed away and the bottle to the nose will last them a long time for this purpose. It is a pleasant and cheap remedy for colds in the head and should be kept by every family, whether they have catarrh or not. And remember when the head is stopped up with cold it can't be used too often till it is all loosened and broken up.

It is put up in 6-ounce bottles. Price \$1.00. This medicine may be used on trial for a week and then returned if it does not give satisfaction and your money will be cheerfully returned by your druggist.

NEWSY NOTES FROM IOWA PARK

Iowa Park, Tex., Jan. 30.—The cottage being built by H. B. Hines is nearing completion.

Overbey & Troutman are now occupying their new concrete building and are erecting another building on the site of the old one.

The family of Dr. Dill has arrived from Cross Plains and the doctor is now at home in one of the new residences lately built in the north part of town. We welcome them to our midst.

A prohibition club was recently organized here. It meets at the Baptist church Friday night.

John J. Clark shipped a car of blooded hogs from here recently to Rowe, Texas.

The poultry raisers are getting ready for the spring hatching and nice incubators are being ordered perhaps than ever before.

The 1908 library club held their regular weekly meeting at Mrs. Abernathy's Wednesday afternoon. The meeting was of unusual interest. In addition to their regular program and course of study, which was carried out, it was decided to hold an open session on the evening of February 22nd, and a treat is being prepared for those who attend.

Rev. Gabres and wife were the guests of Mr. and Mrs. N. B. Ferguson at their country home Thursday.

Some of the boys of the public school have taken advantage of the cheap prices for guns at Wichita Falls and equipped themselves with Springfield rifles. They now have a school military company, instructed by Prof. Clark, who has had military training.

Mrs. John T. Overbey, who had an operation performed recently, is recovering.

People are moving in here so fast that the school can hardly accommodate the children.

Mr. Mitchell, who bought the Small property, has moved back to town, to the delight of relatives and friends.

Mr. Small now occupies his new residence in the north part of town.

Mr. Knee and family have moved into their new home.

Mrs. Marvin Yackley and children have returned from a visit to her parents in Archer county.

Mrs. Ralph Hines and children returned Wednesday from a visit to Comanche.

Miss Maud Scott, who has been sick, has gone to Kell City, Oklahoma, to be with relatives. Mrs. H. Love now has the position in R. Hines' store formerly held by Miss Scott.

Mrs. W. R. Ferguson and children leave tonight for Teague to visit relatives.

The commercial club has employed a secretary, who is to begin on February 25th.

FARMERS SHOWING MUCH INTEREST

Reports from Bowman, Holliday, Burk Burnett and other points in the county indicate that the farmers generally are taking much interest in the talks and demonstration work undertaken by State Agent Quicksall of the United States Department of Agriculture through the department's newly appointed local representative, J. L. McConkey.

Mr. Quicksall, accompanied by Mr. McConkey and Secretary Gohlke of the Chamber of Commerce, are at Bowman this afternoon, where the first of a series of meetings is being held. Tonight they will go to Holliday. Tomorrow afternoon at 1:30 a meeting will be held at Iowa Park. Wednesday afternoon at the same hour a meeting will be held at Burk Burnett. Thursday afternoon a meeting will be held at Wichita Falls at an hour and place which will be announced later.
