Will Begin His Closing Argu-
ment for the State Tonight.

July 25.—In resuming his ad-
dress to the Haywood jury this morning

defense took up
Simpkins' flight after the arrest
of Darrow was very hoarse
as a result of speaking five hours
yesterday, and
with the greatest effort
that the reason that Simpkins
was there was because he was
innocent or not but took is-
sues from the statement of Hawley
that his flight proved his guilt. He
said if it were true the fact that
Moyer and Pettibone did
prove their innocence. But
the proposition was true. Hawley
of the Federation for re-electing
him to the executive board, but
had not been re-elected. Hawley
said that it showed beyond
doubt that the man was guilty.
He went into a lengthy argu-
ment as to why the defense had not
called Adams and George Pettibone
on the stand. He demanded to
know why the state had not put K.
Cullen on the stand. The
attorney explained, is
for murder of a man in north-
west. Under the circumstances
he would rather cut off
than allow Adams on
stand as much as he desired the
of Haywood. I am not afraid
he would say against Haywood
I am afraid to let Adams, my client

mony used against him when the sec-

the same. As to Pettibone Darrow

upon the Bradley explosion in
San Francisco and declared that all
evidence pointed to a gas explo-

of Orchard's story as to the

Windows Were Broken—Police
Stop Riot.

By Associated Press.
Philadelphia, July 25.—The Jewish
quarter was the scene of wild disorder
today when the women of the quarter
made a demonstration against all the
kosher butchers as a protest against
the increase in the price of beef. The
shops were invaded by angry women,
prospective customers driven out,
windows broken and kerosene in a
number of instances poured over the
meat. Several women were arrested
and the police had to use considerable

DO NOT STOP AT MURDER.

Armenian Revolutionists Terrorize
Fellow Countrymen Who Refuse
to Join Anti-Turkish Move-
ment.

By Associated Press.
New York, July 25.—Acting district
attorney Smith and his assistants are
doing their best to probe deeply into
the terrorist methods employed against
wealthy Armenians to force them to
contribute to the anti-Turkish move-
ment being worked up by certain of
their fellow countrymen. That these
are revolutionist Armenians who con-
stitute the party called Punshkist and
who do not stop at murder was proven
by the shooting to death on Monday of
H. S. Kvarhjam, a rich rug importer.
Within four hours after the murder of
Kvarhjam threatening letters were
mailed to at least half a dozen other
well-to-do Armenians.

EXPECT BIG COTTON CROP.

Panhandle and Western Texas Likely
to Produce Large Quantity.

Fort Worth, July 24.—Fort Worth
bankers are expecting a tremendous
cotton crop this year at the planta-
tions on the Fort Worth and Denver,
Texas and Pacific and Fort Worth and
Rio Grande Railroads, within 200
miles of this city, and are preparing
to ship to the country banks in the
cotton territory along these lines more
ready cash than was ever sent before
to handle the cotton output.
Bankers here do not expect that it
will be necessary to begin shipping
the money before Sept. 15, as the cot-
ton crop is reported to be late this
season, but they are confident that
the demand for ready cash will be
greater than ever before as soon as
the season is fairly under way.

Washington, July 25.—Amended denatured alcohol regulations have been issued by the Commissioner of Internal Revenue, to take the place of Sept. 1, of the regulations heretofore issued. The new regulations are made necessary by an act passed by the last congress. In addition to the denatured alcohol warehouses on distillery premises, central warehouses may be constructed at such points as business interests may require and alcohol may be transferred from the denaturing warehouses by means of tanks or tank cars to the consumers. A Correction.

Mr. R. W. Riddell informs us that the Times was in error yesterday in saying that the fire at his home was caused by the explosion of a gasoline stove. In fact Mr. Riddell informs us that there was no gasoline stove about the premises, the stove used in his kitchen being a blue flame coal oil stove.

Instead of watching the fire, the family were in the house when the fire broke out and Mr. Riddell is convinced that the blaze originated from an ember from the other fire.

R. W. Hall, mayor of the city of Vernon, says that since the anti-pass law went into effect he has decided to give up passes over railroads which he as attorney represents, and pay the regular fare, rather than surrender his mayoralty just at the time the city has begun to take on various public enterprises.—Clarendon Chronicle.

MODES OF THE MOMENT.

Among the new trimmings is colored silk embroidery combined with white or ecru lace.

Ball fringe is again fashionable, the small ones to adorn boleros and the larger ones to trim sleeves and bodices.

The new velveteen and taffeta silk jumpers are shown in all the different colors. They quite make over a new gown.

Beautiful silk petticoats in plaids and roman stripes are shown with broderie anglaise flounce in street and evening shades.

Long silk gloves come in pale pink, lavender and other colors, but black, white and all the shades of brown are the most fashionable.

The plain linen turnover collars edged with narrow fluted ruffle in different colors are popular, particularly when the tiny bow matches in color the little ruffle.—New York Press.

OLD FASHIONED.

What has become of the old fashioned oxen with brass knobs on their horns?

What has become of the old fashioned girl graduate who wore an over-dress looped up with pink roses?

What has become of the old fashioned person who, when a child was christened, asked, "What will you call her for short?"

What has become of the old fashioned man who tried to reduce his laundry bill by tucking a handkerchief around his collar?

What has become of the old fashioned dentist who told every woman he pulled teeth for that hers were the hardest he ever pulled?—Atchison Globe.

PLAYS AND PLAYERS.

It is rumored that E. H. Sothern and Julia Marlowe will not star jointly next season, but will be individual stars in their own companies.

"Mrs. Wiggs of the Cabbage Patch" is keeping London on the broad grin. What lessens the value of this tribute to its humor is the fact that they still think Punch funny over there.

Ernest Shipman, the manager of Herbert Kecey and Effie Shannon, who are appearing in George Bernard Shaw's play "Widowers' Houses," wants the author to change the name to "Tainted Money."

Novelty is the thing. In order to create a stronger amusement appetite, it is proposed in New York at one theater this summer to set the scenes on the stage without lowering the curtain. Curiosity is expected to do the rest.

Now that Edna May is married a suggestion is made that Ella Snyder fill her place in London. Miss Snyder has played in the English city and is somewhat of a favorite there. Besides, she is not unlike Miss May in personal appearance.

Margaret Illington is to appear in New York early next season in an English comedy drama, "Dr. Wake's Patient." In her company will be Edith Ostlere, one of the authors of the play, and Herbert Percy, who will be

Eclipse of the Moon.
Many Wichita people witnessed the eclipse of the moon last night. The eclipse began about 8:30 o'clock and by 10:30 fully five-eighths of the moon's surface was obscured, and at that time the darkness was dense. The night was ideal for witnessing the eclipse, not a single cloud appearing in the sky to mar the spectacle.

A bright little girl in one of the
Washington public schools applied to
her teacher recently for leave to be
absent half a day on the plea that her

that company was on the way.

"It's my father's half sister and her

somewhat anxiously, "and mother
doesn't see how she can get along
without me around the house."

The teacher, handing the pupil the
printed list of reasons justifying ab-

any of them.

The little girl scanned the list a mo-
ment and then, pointing to the words
"domestic affliction," said, "I think it
might come under this head, ma'am."

The Wichita Falls baseball team left
on the early train this morning for
Gainesville where they will play a se-

team representing that city. Wichita
Falls will present a strong line-up in
the three games and the fans are ex-

team's work.

This afternoon in Gainesville the
managers of the Wichita Falls, Gaines-

The locals return Saturday to get
ready for a series of three games with
Denton here on Monday, Tuesday and
Wednesday. The Denton team is one
of the strongest independent teams in
the state and the series promises to be
the best seen on the local diamond
this season.

A short thumb may be a hereditary
characteristic, but it is said to show
want of intellect.

Nails should be thin, oval and pink,
very highly polished nails are not con-

THE BLACK HAND IN LOUISIANA.

The daily press dispatches teem with gruesome accounts of the work of the "Black Hand Society" in the little town of Hahnville, La., which is near New Orleans. Death by strangling the Lamana boy for an expected reward, the calling out of 300 troops to protect the accused, the conviction of four men and the escape of as many more equally guilty of this foul murder and plot—all cause us to stop and examine more closely the problem of bringing more of this class of immigrants to this country. The long-time experience of the people of New Orleans with the people who harbor the principles of the mafia and the Black Hand should prove a warning to the people of Texas and other Southwestern states who have so many sturdy and active immigration agents at work laboring to settle this region with a foreign element of which they know little and care less.

The lesson we should learn from such outrages as that occurring at Hahnville is that if we allow this class of foreigners who know no law and regard no man to come into any community, it logically calls for the very prompt abandonment of the lands and the homes of that community by the American citizens. True lands will rise in price for the Americans who sell first (as is often claimed by the commercial emissaries of the immigration movement) but the land owners who dare to hold to their homes for a term of years will be slowly squeezed out of their holdings, and at figures that are not profitable. The Black Hand is the mark of Cain.—Farm and Ranch.

HAVE ENOUGH OF IT

MEMBERS OF FIRE DEPARTMENT
WILL QUIT UNLESS TEAM IS
KEPT AT HEADQUARTERS.

INSURANCE WILL GO UP

Better Provisions For Protection From
Fires is Urgently Demanded.

The members of the Wichita Falls volunteer fire department are openly declaring that they will quit their jobs unless a team of horses and at least one man is kept constantly at the city hall—and certainly no one can blame them.

The fire department of the city is organization on a volunteer basis and it was their understanding in becoming members of the organization that the hose and hook and ladder wagons were to be pulled to the fires by a team kept in readiness at the department headquarters. This thing of pulling the hose cart a dozen blocks by hand with the thermometer close up to the 100 degree mark, is a most arduous task and by the time the men have pulled the cart that far they are quite exhausted and are in no condition to make an effective fight against the flames.

The insurance rate for Wichita Falls was made upon the basis of the city having a paid fire department of 30 members, with a team for the hose reel and ladder wagon and chemical engine. Under the present conditions the rates are liable to be raised at any time.

With the residence portion of the city spreading over a wide area, the houses constructed of infamable materials, which with the winds which often prevail make excellent conditions for a destructive fire. The necessity of better and more adequate provisions for fire fighting is glaringly evident and the situation demands an immediate remedy.

Granting that it will entail considerable expense to keep a man and team in constant readiness at the department headquarters to respond on moments notice to an alarm, is there anything for which a like sum could be expended with more profit and which would give better protection to the homes or our people?

The situation demands immediate action by the city council.

Problem of Child Idleness.

While much is being said about the necessity of suppressing child labor, and strong influences are being mustered to induce congress to utilize the inter-state clause of the Federal constitution as the basis for Federal legislation on the subject, Mr. Thomas Speed Mosby, pardon attorney of the State of Missouri, discusses the subject of "Child Idleness" in a recent number of the North American Review most impressively. He declares that when the problem of child labor has been solved, there will still loom ominously beyond it "the portentous problem of child idleness." Mr. Mosby quotes statistics to show that the majority of criminals imprisoned in our penitentiaries and jails are without knowledge of any occupation when received and his belief is that idleness is the mother of crime.

Only a small percentage of prisoners who resume their freedom after learning a trade ever return to criminal pursuits, and he finds that even the female delinquents are recruited from the ranks of girls who do not care to work rather than from the factory girls who are industrious.

It requires no argument to convince the observant citizen that idleness among children or adults is a monumental evil; that it wrecks character among the young and old and imposes upon society many burdens. If it be necessary to restrict child labor in mills, it is just as important to deal with the devastating evil of child idleness.

Mr. Mosby states it forcibly in these words: To be sure, it by no means follows that, in teaching the child to work, his powers should be taxed beyond their capacity. To do so is inhuman in the extreme. The labor of the child should not proceed beyond the limits of healthful exertion; and should be an educational and not a financial one. He should by no means

be taught that the only object of labor is to earn money; but he should be made to understand his obligation to serve, inasmuch as he is served; to give, as he receives; to bring to the world, as he takes from it—and he should be taught the means of performing that obligation. With such an education he will be both able and willing to fashion with hand or brain, and he will go forth to his duties, feeling, not that the world owes him a living, but that he owes to the world a life.

The cure for child idleness lies in manual and industrial training in our public schools systems. Thus the task of learning how to do is made an agreeable one. Children so trained fall in love with the work and emerge from the schools with sound ideas as to the necessity, dignity and importance of labor. We can never subscribe to the factory theory that the Federal government should usurp the prerogative of the state in dealing with the child labor problem, but there can be no doubt that it is the province of the state to deal with the problem of child idleness in such a way as to encourage the youth to good, productive citizenship.—Houston Post.

America and Japan Dependent on Each Other.

By CHOZO KOIKE, Japanese Consul General in St. Louis.

WAR between the United States and Japan to me is inconceivable. All talk of it is an absurdity. What Japan and the United States both want is commerce and not war. Both nations are devoted to COMMERCE, NOT TO CONFLICT. All of the Japanese merchants in this country and all intelligent, thinking Japanese in Japan and elsewhere regard all talk of war between the two nations as nonsense.

I am told that the thinking, intelligent American people take precisely the same view of the matter.

WHATEVER QUESTIONS HAVE ARISEN CAN EASILY BE SETTLED. IF THERE BE ANY CAUSE FOR FRICTION, ALL THAT IS NECESSARY IS TO FIND THE SPECIFIC THING WHICH PRODUCES THE TROUBLE, EXAMINE IT CLOSELY, STUDY IT CAREFULLY AND THOROUGHLY, AND A SOLUTION WILL EASILY BE FOUND.

There is an old saying in Japan, "RICH MEN DO NOT QUARREL." This saying is applicable to the present situation. If there be any Americans who are beligerently inclined toward Japan, they should study the statistics of the commerce between the countries.

For the year ending Dec. 31, 1906, the exports of the United States to Japan amounted to 69,948,681 yen and the exports of Japan to the United States 125,964,408 yen.

So far this year there has been a TREMENDOUS INCREASE in the commerce of the two nations, and the aggregate promises to exceed by a heavy margin the figures of last year.

When these figures are considered, it can be seen that war between the two nations can only be done at a sacrifice of this tremendous trade.

THE COMMERCE OF THE TWO COUNTRIES SHOWS THAT JAPAN AND THE UNITED STATES ARE DEPENDENT MORE OR LESS IN A BUSINESS WAY UPON EACH OTHER. ANY INTERRUPTION OF THE STEADY INCREASE IN THE VOLUME OF TRADE BETWEEN THE TWO COUNTRIES WOULD BE A CALAMITY OF ITSELF REGARDLESS OF ALL THE OTHER HORRORS OF WAR.

I hope that the newspapers will cease printing anything at all on the subject of war. If one gets in the HABIT of even talking war in a most general way, it brings about a condition of the public mind that is undesirable.

Any ordinary insignificant happening becomes distorted and assumes an IMPORTANCE ALTOGETHER BEYOND ITS REAL MEANING, and in the hands of sensationalists is easily made the bone of a new contention.

Country Needs Hard Times.

By E. C. McDUGAL, Ex-President of the New York State Bankers' Association.

IN our industrial and commercial situation we see a volume of business never paralleled in this or in any other country. During the last year I have found it impossible to convince business men that it was HIGH TIME TO CURTAIL. Each said that the outlook in his particular field was for increased rather than for diminished business. Until recently not one admitted that his judgment dictated any policy of RETRENCHMENT. We cannot hold the present pace. We should not hold it even if we could.

If our depositors do not realize this, our unpleasant but perfectly plain duty is to CURTAIL THEIR ACCOMMODATION LINES AND FORCE RETRENCHMENT.

We are in an era of extravagance in enterprise and extravagance of expenditure, extravagance as much beyond precedent as is our FEVERISH business activity. No matter what this country's book profits are, it cannot accumulate capital without thrift, and today thrift appears to be forgotten.

AT LEAST A MODERATE AMOUNT OF WHAT IS POPULARLY KNOWN AS "HARD TIMES" IS THE ONLY CURE.

Every good business man knows that the end of CONSTANTLY RISING PRICES must some time be reached and that when that time comes prices will not remain stationary at the high level, but will start on the long expected decline. Business men should not dread but should welcome that time. WE ARE NOT TODAY ON A SOUND BASIS. We cannot get back to a sound basis until we have a decided check. The longer that check is delayed the more severe will it be.

Expansion is not confined to the industrial and commercial world. For years banking liabilities have been expanding out of all proportion to the growth of cash reserves. Is it not time for bankers to check this UNDUE EXPANSION? Consider that our reserves consist largely of balances due from other banks. The system of reserve agents both in our state and national banking systems, the abolition of which would be opposed by most bankers, contains possibilities of serious troubles—nay, more, INVITES SERIOUS TROUBLE.

Great Fortunes Not All Evil.

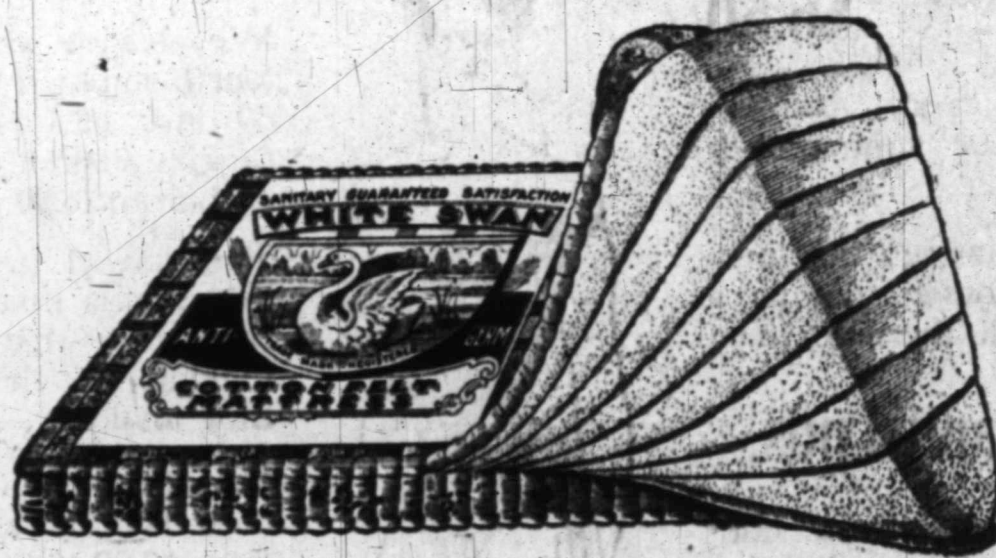

By FLAVEL S. LUTHER, Jr., LL. D., President of Trinity College.

WE IN AMERICA HAVE BEEN TOO WILLING TO BELIEVE IN OUR OWN UNIVERSAL CORRUPTION.

If it is true that great fortunes have been built up among us by methods which would show up poorly in the light of the Ten Commandments, it is EQUALLY TRUE that great fortunes have been acquired by men who count not one dollar of gain either in oppression or dishonesty or sharp practice.

If it is true that many men in public affairs have given and taken bribes I believe it is equally true that MANY MORE MEN IN PUBLIC AFFAIRS HAVE NEVER DONE EITHER.

MUST TAKE CARE OF WIFE.

Three Are Complained Of Under the New Law.

San Antonio, July 25.—Under the new law which became effective July 12 it is up to the married men in San Antonio to support their families.

Affidavits have already been made against three men in the County court for abandonment or desertion. These cases will be set for the September term of the county court.

County attorney Newton said yesterday afternoon that the men in Bexar county who are arrested for a violation of this law will be prosecuted to the fullest extent if the evidence at all shows neglect on the part of the defendant to support either his wife or children.

The punishment prescribed by the law is a fine of not less than \$100 nor more than \$1,000, or not less than one year nor more than two years in jail, or both the fine and imprisonment.

Generally speaking, the new law has created some consternation in the circles of the men who have been arrested charged with the violation of the law. In the opinion of some of the officers there may be some hurried reconciliations in those families where there have been breaches, but in which no divorce proceedings have been instituted. The abandoned wife, child or children can file affidavit before the county attorney.

It is expected the new law will work a great deal of good, and have the tendency to make some of the male population decidedly more industrious.

Woman's Status Is Due to Herself.

By Lady
HENRY SOMERSET.
English Reformer.

THOSE who most are given to complimenting women are generally least inclined to make them citizens. They will tell woman that she is TOO PRECIOUS to risk hurt in the hurly burly of public life, that her interests are man's first care and that she is safer in his hands than she would be if she attempted TO FIGHT FOR HERSELF. For centuries women have listened to such arguments and have been beguiled into believing them, and, although from time to time they have been awakened by voices which have warned them of the folly of their mistake, they have chosen the line of LEAST RESISTANCE and have been contented to accept promise instead of performance.

I am far from being among those who, because woman does not enjoy all the rights which should be hers, would lay the blame exclusively on man. Man has been molded by woman, and, consequently, had she looked on life with far-seeing eyes she would have early instilled into his mind new views of THE RELATION WHICH SHE SHOULD BEAR to that larger family circle which we call the state.

THE USEFUL THING AT THIS MOMENT IS NOT SO MUCH TO DEPLORE OR TO RECRIMINATE, BUT TO ASK OURSELVES WHAT IS THE REAL OBSTACLE TO OUR ATTAINMENT.

The greatest divergence between man and woman has been mainly moral. With the development of society men have learned the art of living together and that sense of justice which is born of equality. Courage and justice and honor and truth are human virtues, the direct result of human intercourse. IN THE HOME NO SUCH EQUALITY CAN EXIST. There are differences of age, sex and employment, but no possible equality. The result has been that men have become possessed of certain qualities, not because they belong to any sex, but because particular OCCUPATIONS have called them into being.

The greatest lack of woman is that she has little sense of justice, but justice is the attribute of a GOVERNING power. Woman has affection, love and a divine power of self sacrifice, but she has no standard of justice.

But the future lies in her hands. If she seriously faces her responsibilities and fits herself for their fulfillment it will not be long before she will participate with man IN THE DUTIES OF CITIZENSHIP.

THE TROUBLE HAS BEEN THAT SHE HAS NEVER REGARDED HERSELF AS LACKING IN HER DUTY TO THE WORLD WHEN SHE HAS CONTENTEDLY FOREGONE HER RIGHTS.

Our Cities Garrisoned By Mercenary Rebels.

Rev. G. HODGES, Dean of Episcopal Theological School, Cambridge, Mass.

THIS nation today is in a state of civil war. In many a city the town is garrisoned by rebels who from the shelter of that fortress are TERRORIZING AND PLUNDERING THE PEOPLE.

These mercenary politicians are as hostile to the public good as any man who ever marched in the uniform of an army across the field of battle. By diverting the taxes of the people from civic maintenance and improvement TO THEIR OWN GAIN they are actually killing as many people in the course of a single year of their maladministration as are killed in the progress of a considerable war. They are poisoning men and women in the foul streets and foul tenements for which they are responsible. They are corrupting the souls of the youth by vices WHICH THEY SUPPORT AND ENCOURAGE for their own profit.

WE LOOK TO THE GRADUATING CLASSES OF OUR COLLEGES FOR RE-ENFORCEMENTS AGAINST THIS COMMON Foe, AGAINST THIS SUTLE AND AUDACIOUS ENEMY, WHOSE LEADERS ARE DISGUISED AS GENTLEMEN AND CHRISTIANS.

Children the Nation's Best Asset.

By President ROOSEVELT.

IT is a matter for congratulation that there is such a steady increase of interest in the southern states in EVERYTHING PERTAINING TO CHILDREN. This has already markedly shown itself and I hope will still more markedly show itself in the future in warring against the EVIL of child labor in factories.

THE FACTORY IS A VERY POOR PLACE FOR A CHILD. INDEED, PERSONALLY I THINK THE FACTORY A POOR PLACE FOR A WOMAN—CERTAINLY FOR A MARRIED WOMAN OR FOR AN UNMARRIED WOMAN FOR MORE THAN A VERY FEW YEARS.

As regards children, it is as essential to look after their physical as their mental training. We CANNOT AFFORD to let children grow up ignorant, and if they are sent to school they cannot while young also work hard outside without detriment, physical, mental and moral. There is URGENT NEED for the health authorities to increase their care over the hygienic conditions and surroundings of children of tender years and especially to supervise those in the schools.

It is a good thing to try to reform bad children, to try to build up degenerate children, but it is an even better thing to try to keep HEALTHY IN SOUL, BODY AND MIND those children who are now sound, but who may easily grow up unsound if no care is taken of them.

THE NATION'S MOST VALUABLE ASSET IS THE CHILDREN, FOR THE CHILDREN ARE THE NATION OF THE FUTURE.

Here is Something We Never Mentioned!

Although we have handled it for 15 years

Its Hudson Table Syrup—a blend of Pure Vermont Maple and Cane Syrup—not a drop of glucose or any other foreign substance. Maple and Cane Syrup only—one as pure as the other—complies with all pure food laws, State and National. Our sale on this syrup has been so large and satisfactory we have not deemed it necessary to advertise it, but have concluded it is to our best interest to let everybody know about a good thing. If you were not told you would not know but what it was a strictly pure maple syrup and in fact if you will take the trouble to read the labels you will find that most of the high-priced, so-called "pure" Maple Syrups are pleading to a mixture of cane. So, why pay from \$1.50 to \$1.75 for an article you can buy for \$1.00. That's the price of Hudson. Your money cheerfully refunded if not satisfied.
