

HEARING ADJOURNED

GOVERNMENT EXPERTS WILL ATTEMPT TO GET STANDARD OIL RECORDS.

INTERESTING TESTIMONY

Will Likely Follow the Resumption of the Hearing on Next Monday.

By Associated Press.
New York, Sept. 21.—The adjournment until Monday of the hearing in the government's suit to dissolve the Standard Oil Company will give the government's expert accountants another day in which to obtain the books containing the records of the Standard Oil Company in the period from 1882 to 1892. These figures will probably lead to an interesting line of questioning next week by Frank B. Kellogg, the government's chief counsel. It is likely that when the hearing is resumed next week, Wesley H. Tilford, the treasurer of the Standard Oil Company, will again take the stand. John G. Milburn, of the counsel for the corporation, wishes to question him upon several points which have been touched upon by Kellogg. William G. Rockefeller, it is understood, will then be called to the stand and asked to produce the books relating to the assistant treasurer's office.

Agreement of Standard and Independents Admitted.

Pittsburg, Pa., Sept. 21.—A. D. Miller, an independent oil refiner, admitted last night that there was some kind of an agreement between the independent dealers and the Standard Oil Company. He declined to discuss the agreement in detail. When his attention was called to the testimony of Treasurer Tilford of the Standard Oil Company at New York yesterday, that in 1902 an agreement was entered into by which the independent dealers were to sell their entire output of refined oil for export to the Standard Company, which was in return to sell the independents a certain amount of crude oil each day, Mr. Miller said, "Tilford ought to know."

Worth Over \$100,000,000.

New York, Sept. 20.—John D. Rockefeller now owns 247,692 of the 972,500 shares of the Standard Oil Company of New Jersey, according to the testimony of W. P. Tilford, treasurer of that company, given at the hearing of the government's suit in this city today. Standard Oil stock was last quoted at \$440 per share, and Mr. Rockefeller's holdings are worth nearly \$100,000,000. The holdings of William Rockefeller were stated by Mr. Tilford to be 11,700 shares and those of H. H. Rogers 16,020 shares.

BRING IN NEW WELL.

Petrolia Oil Field Gets a Fine New Gusher.

Henrietta, Tex., Sept. 20.—Collie Patterson, one of the most experienced drillers in the Petrolia oil field, was in the city today and reports that the Corsicana Petroleum Company has just brought in a deep well that is flowing forty barrels per day. The well has not been pumped as yet, and there is no way of telling how much it will produce, but oil men recognize it far ahead of anything that has ever been brought in before, and it is causing considerable of a scramble among oil men to get nearby leases.

Sam Railey Sells Two Bales at That Figure.

Cotton sold in Wichita Falls today for twelve cents a pound. Sam Railey sold two bales at that figure this afternoon to Trevathan & Bland. This cotton classed as strict middling and the price paid was the highest since the decline. Cotton in the seed sold today at an average of about 4.12½ cents. About thirty bales came into the market and at the gins today. A dispatch from Galveston yesterday states that the market had advanced at that place from ¼ to ½ of a cent.

By Associated Press.
Denver, Colo., Sept. 21.—Four of the seven persons injured last night in the collision between an automobile and a street car, both going rapidly, are in a serious condition, but it is hoped that all will recover.

The seriously injured are Mrs. William Ferris, Jr., of Denver, fractured rib and severe bruises; Alexander Ferris, her son, aged 29 years, body bruises and internal injuries; H. S. Tremblay, driver of the automobile, fractured ribs and bruises; Mrs. Russell Dale of Chicago, right thigh fractured, left hip dislocated, condition critical.

All of the occupants of the automobile were thrown forty-five feet by the impact with the car and it is strange that none were killed outright.

GERMAN SOCIALISTS DECLARE AGAINST USE OF ALCOHOL.

By Associated Press.

Essex, Germany, Sept. 21.—The temperance question was again discussed today at the Socialist National convention in this city. Only one vote was cast against a resolution whose main feature was an expression of opposition to the use of alcohol in any form during working hours, thus setting the full strength of the socialist party against the German factory system of beer drinking at regular intervals during the day.

TRAINMEN ESCAPE DEATH

Jumped From Caboose Just Before Two Heavy Locomotives Ploughed Through It.

By Associated Press.
New York, Sept. 21.—Six New York Central trainmen owe their lives to the presence of mind and prompt action of Miss Dorothy Wagner, the little daughter of John Wagner, who lives at 168th street and North river, close to the railroad tracks. The men were on a long freight train bound down from Albany, which had been stopped by the signal man, owing to a hand car being stopped ahead. While the freight was halted, Miss Wagner, from the porch of her house, saw a double header approaching on the same track on which the freight was standing. She ran to the caboose of the freight and the six trainmen in it received her warning barely in time to save themselves by jumping before the two engines ploughed through the caboose.

IS NOT THE MAN.

Telegraph Operator Once of This City Denies Attack on Non-union Man.

R. W. Stone, formerly resident in Dallas and now of Pickering, La., was in the city yesterday and Thursday. He is a telegraph operator. He visited the office of Chief of Police Brandenburg at the request of the local Telegraphers' Union and protested that he was not one of those who handled roughly John Sanders, a telegrapher, on the night of August 26. Stone admitted, as several other operators have done, that he was on the streets that night and that he saw the rough handling of the working operator who was attacked immediately after he left the Western Union building. But he denied that he was one who had any part in the matter. Sanders stated that Stone was not the man who had assaulted him.—Dallas News.

R. W. Stone, the operator named above, was employed in the Western Union office in this city a few months ago. He left this place for Dallas, where he had a position with the Western Union when the strike was inaugurated. Following the riot in Dallas, Stone was sent out of the city by the strikers.

Paper Manufacturers Claim Increased Cost of Production Necessitates the High Prices.

By Associated Press.
New York, Sept. 21.—Members of the American Newspaper Publishers' Association, which met recently at the Waldorf-Astoria, have appointed a committee to call the attention of President Roosevelt to what they assert is an unlawful combination of paper manufacturers to keep up the price of paper, and to demand relief from what they consider an oppressive burden. Herman Ridder, president of the Publishers' Association and publisher of the New York Staats-Zeitung, said: "In striking at the tariff we are doing the newspaper industry a kindness. We are making it safe for them to extend their business into Canada without fear of a tariff war, which would otherwise make such an investment unsafe."

G. F. Underwood, of the International Paper Company said that the high prices for paper are necessitated by the increased cost of production, which he claimed had doubled in a short time. "Very few paper manufacturers," he said, "are making any money."

San Francisco, Cal., Sept. 21.—The Examiner says that one of the largest timber deals ever consummated in California has just been closed by Edward H. The police tried to stop the fight, but were outnumbered. After the fight the delegates held separate conventions on the same stage and named two sets of city officers. The trouble started over the efforts of the adherents of Patrick J. Griffin, who aspires to be a leader of the party in the city, to defeat Maurice J. Stack and his supporters.

HOME IN OKLAHOMA

FRANK JAMES WILL LEAVE MISSOURI FOR NEWLY PURCHASED FARM.

SAYS QUANTRELL IS DEAD

Saw Guerilla Chieftain When He Fell Mortally Wounded in Kentucky.

Kansas City, Mo., Sept. 18.—Frank James the former bandit, will depart soon for Oklahoma, to live the remainder of his life upon a Territory farm. He came to Kansas City today from Kearney, Mo., where the old farm of the James family is situated. He spent several hours with his nephew, Jesse James, Jr., an attorney, and talked of his plans.

For several months, Frank James, now 64 years old, has lived on the old homestead, in Clay county, thirty miles from Kansas City. He hunted in the winter and in the summer months was a starter at race tracks.

Recently he purchased a farm of 160 acres in Oklahoma, and will go there October the 1st, to live.

Frank is well preserved for his age, but looks rather pale and the penalties of declining years appear not far distant.

Says Quantrell is Dead.

"Of course Quantrell is dead," the brother and adviser of Jesse James and the Youngers during their years of border ravages, exclaimed when the recently published rumor that the former Guerrilla chieftain is alive was mentioned. "There is no question of his death. Why, I was at his side when he fell, in a pitched battle between Federal soldiers in Kentucky, in the spring of 1863. His command was hard pressed, but rallied around their leader. The boys wanted to take up Quantrell and make a dash for the hills, where they told him if escape were possible they could nurse him back to health.

"No," said Quantrell. "I am as good as dead. Leave me and run to the hills yourselves. If I am dead, the next thing to do is to save the living ones."

"The last I saw of Quantrell he was paralyzed from the waist down and imploring his men to leave him alone. He died three hours later, where he had fallen, and was left on the battlefield. The statement that he is still living is nonsense."

Harriman and Cortelyou.
 New York World.

What would the people of the United States have thought if Pres. Roosevelt had appointed Edward H. Harriman secretary of the treasury as a reward for Mr. Harriman's zeal in raising money for Mr. Roosevelt's campaign fund? In what respect does the appointment of Mr. George B. Cortelyou stand on a different footing?

Both Mr. Harriman and Mr. Cortelyou solicited contributions for Mr. Roosevelt's campaign fund. Mr. Harriman, after an interview with the president, succeeded in collecting \$260,000 and the World has printed the names of the contributors. How much Mr. Cortelyou collected and who contributed it the public has never been able to ascertain.

If Mr. Cortelyou had not been a very successful collector of campaign tribute, if he had not shown great energy, shrewdness and skill in oiling the wheels of the Republican National machine, he would not today be secretary of the treasury. That office is his reward for doing on a very large scale what Mr. Harriman did on a comparatively small scale. The man who solicited and raised millions is in the cabinet, while the man who solicited and raised only a few hundreds of thousands is exoriated in presidential speeches as a "malefactor of great wealth"—and all to the greater glory of the spear that knows no brother.

It is months too late to prevent the scandal of the Cortelyou appointment, but it is not months too late for Mr. Cortelyou to resign the office of secretary of the treasury.

Big Dam Completed.

The contractors building the railway dam west of town are finishing up the work today. This is one of the largest dams in Northwest Texas and will impound an immense amount of water, enough to run the road at Childress for four or five years without catching any rain water during that time. The work has been done at a very large cost, and done well and will withstand the floods that fall in this section at times.—Childress Index.

Jellies and Preserves That Will Suit The Most Particular Taste

The Pure Food Laws protect you now from fruit preserves made largely from corn stalk juice (Glucose) but it doesn't prevent you from buying, unknowingly, preserves and jellies made from poor and inferior fruits.

There's only one way to secure immunity from this and that's to buy a brand of goods that is known to be the best that it is possible to make.

Our "Monarch" Brand is just such a brand, only the most perfect of ripe fruits are ever used in this brand and they are put up according to recipes which have been proven by years of experience to be the best.

They cost a little more money but just as a suit of all-wool cloth is worth more than a suit of cotton shoddy, so Monarch Goods are worth more than inferior goods.

We have Monarch, Apricot and Pear Preserves in 5 pound jars at\$1.50 per jar

The Cheerful Note.

St. Louis Times.
 Here and there in the midst of present plenty, a sad soul looks through the sunlight and observes the approach of certain demerit bow-wows.

But above the low wall of the liverless pessimist rises clear the note of him who sees and hears accurately.

Crops are good, which is another way of saying that times are not only good, but likely to remain so until the suns and rains have determined for us yet another harvest. Building continues. No war threatens. The labor situation is satisfactory. Beneficent reform has restored public confidence.

Vast enterprises in course of realization or definitely in contemplation improve the national situation, which is another way of advancing the individual and the social order.

The disturbances of a national election are more than a year ahead; nor is it by any means sure that evil from that source is not discounted by the National solidity of the current era.

There is no occasion for a withdrawal of confidence. The savings banks by the records are proving this. Deposits grow; and the country and the people grow in prosperity at the same time.

Fire Boys' Big Carnival:

L. A. Van Erichsen, promoter of "That Texas Show," the original Cole Younger and Nichols Theatre Amusement Co. have closed a contract with the Wichita Falls Volunteer Fire Department, to give a one week's entertainment for their Big Street Fair and Carnival, which will be held in the city of Wichita Falls, one week, commencing Monday, September 23rd, and ending on Saturday, September 28th, at midnight, making it one solid week of fun, pleasure and merriment. This Company has a good reputation. It is moral, refined and of high class and comes to our city well recommended by the county and city officials of the different places they have showed. It is called "That Texas Show—the Pride of the South," and it can well be termed as such, as it is composed entirely of Southern people and the best talent in the Southern States, its attractions are clean and up to date and this company bases its reputation on the morality of its people. It carries ten or more high grade and paid attractions, including a Ferris wheel and a Merry-go-round, two bands of music and five big sensational free attractions, which are considered by all who have seen them to be the best in that line that have ever been exhibited in this State. One of the feature paid attractions is "The Old Plantation Show." If you want to laugh until you can laugh no more, and as you have never laughed before, don't fail to see this show. Twenty happy darkies with full brass band and orchestra in scenes on the Old Plantation down on the Mississippi, "De South befo-de-wahr." There are many others equally as good and all guaranteed attractions. The Girl from Dixie show is a true characteristic show of the south, and the Mysterious Edna—which is a hypnotic show—is the wonder of the Twentieth Century. On Wednesday afternoon, Sept. —, Cole Younger will give a free matinee to his comrades, the ex-Confederate Veterans, and will feel highly honored to shake hands with his brother veterans who sacrificed everything to defend the same cause that he did. So come and see Cole Younger. He will be glad to meet you. A cordial invitation is extended to all. Don't fail to see the high dive from an 80-foot ladder at night, with red fire effect, by Dare Devil Veno.

The Church Is Too Indifferent to the Masses.

By Bishop HENRY C. POTTER of New York.

HERE is no more **RIGHTEOUS ARRAIGNMENT OF THE CHURCH** of our time than its indifference to the social conditions of the classes made up of less favored men and women down in the gutter. The church has justly been severely criticised for its lack of interest in the mental, moral and physical upbuilding of the masses. The task of the church is to translate the mind of Christ, first by sympathy, then by painstaking curiosity. This curiosity should lead you to know something of that stratum of life below that in which you are wont to move. **SUCH SYMPATHETIC CURIOSITY WILL SOONER OR LATER LEAD TO THE ONLY HOPE OF THE SOCIAL UNREST OF OUR TIME, AND THAT IS PERSONAL SERVICE.**

In our ecclesiastical relations we have been **INTIMIDATED** from translating our relations to the world into human sympathy for fear of dropping into what has been called the institutional church, but if an institutional church be the means of bringing the church into profound sympathy with **HUMAN LIFE**, then the founder of our religion instituted the institutional church.

THE CHURCH SHOULD TAKE ACTIVE STEPS TO CURE THE PHYSICAL AND MENTAL AS WELL AS THE RELIGIOUS ILLS OF THE PEOPLE. THE CHURCH'S NEGLECT OF THIS VITAL WORK CANNOT BE REMEDIED TOO SOON. IT HAS NEGLECTED ITS MOST IMPORTANT FUNCTION.

The great cause of our social unrest is that **MONSTROUS PROFUSION AND EXTRAVAGANCE** which I am inclined to consider the worst note in our American civilization. Ostentatious wealth cannot be too scathingly condemned.

I become more and more convinced that the impatience of the masses comes more from the **ABUSE** of wealth than from any other cause. Is it any wonder that the average worker in the tenements becomes wrought up at what he considers the great injustice of society when he sees wealth spent lavishly around him, while he struggles in misery?

THE MODERN WORKMAN IS MOST INFLAMMABLE MATERIAL FOR SOCIAL UNREST. THE WONDER IS NOT THAT WE HAVE PRODUCED SUCH RESULTS, BUT THAT RESULTS ARE NOT WORSE.

Football Makes Gentlemen.

By Dr. CYRUS NORTHROP of Minneapolis.

FOOTBALL has its bad features, but to say that American college football is no game for gentlemen can only be understood when you are thoroughly acquainted with President Eliot's (of Harvard university) position. President Eliot goes on to say that basketball and hockey are also unsuited for **GENTLEMEN**. I have a very great curiosity to learn exactly **WHAT** the president believes is fit for the young college man. I am an advocate of college football, as I fail to see **ANYTHING** in trained skill, speed, strength and science that precludes a gentleman.

I BELIEVE THE GAME IS MANLY AND DEVELOPS GENTLEMEN. MOREOVER, I BELIEVE THE GAME IS HERE TO STAY. IT IS GETTING CLEANER AND FREER FROM OBJECTIONABLE FEATURES WITH ITS GROWTH.

Only the Educated Man Can Win.

By King EDWARD VII.

THE competition in every branch of industry, especially in those branches which depend largely on science and art, is in these days severe, and it must be met by **INCREASED APPLICATION AND IMPROVED METHODS**. The world is, I believe, better for such competition, but it behooves individual nations to use every possible effort to hold their own in the struggle. For this purpose higher education is an **ABSOLUTE NECESSITY**.

HOWEVER BRILLIANT A MAN'S NATURAL TALENTS MAY BE, HE IS GREATLY HINDERED BY THE WANT OF EARLY TRAINING, AND AS A RULE ONLY THOSE WHO HAVE ENJOYED A GOOD EDUCATION ARE CAPABLE OF ACQUIRING SUCH PROFICIENCY IN ANY BRANCH OF STUDY AS WILL ENABLE THEM TO SUCCEED.

Wichita Falls, Texas, Sept. 21st, 1907.

In the trial of William D. Haywood at Boise, Idaho, Senator Borah of that State was employed as the leading attorney for the prosecution. Haywood, it will be remembered, was kidnapped by detectives in Colorado and conveyed to Idaho to be tried on what he and his friends protested to the bitter end were "trumped up" charges. Notwithstanding these protests, the government insisted that he must stand trial, and after being confined in jail for months, he was finally given this trial—and acquitted. Now, Senator Borah himself has had charges filed against him, which he and his friends protest were brought about by collusion, and have persuaded the department of justice to have an investigation into the proceedings before the grand jury before he is tried, to determine whether he is guilty or not before humiliating the senator by forcing him to trial on the charges, which are quite serious. Of course, it is possible the distinguished senator is entirely innocent—as much so as the jury tried Haywood (after weeks of evidence-hearing and patient listening to the eloquent pleas made by attorneys for the prosecution and defense) said he was, but that is no reason why Senator Borah should not be placed on trial for the charges filed against him. Merely from the fact that he is a United States senator is no evidence that he cannot be guilty of infractions of the law, and if he is innocent the proper place to establish this fact is in a court of justice. No innocent man need have fear of the law, and when he is falsely accused and succeeds in establishing his innocence in a court of justice, his reputation for a law-abiding citizen has not been injured. In most cases it is the fear of getting a full measure of justice dealt out to them that causes people charged with crime to fear court trials. This may not be the cause of Senator Borah asking for an investigation instead of a trial, but in the event he does not stand a trial—the same kind that he forced upon Haywood—there will be more people who will be inclined to the belief that he is guilty than those who think him innocent.

The election in Oklahoma was a hard jolt for the Republican carpet-bag office-holders who are now and have been in charge of affairs in the proposed new state, and are dying hard. It is charged and not denied that they are holding back the election returns, and are preparing to contest the election of Haskell, the candidate of the Democrats, for governor. They are taking defeat so hard that it is said the leaders of the party will ask President Roosevelt to not issue a statehood proclamation. The victory of the Democrats was greater than at first claimed. The party has elected three-fourths of the members of the legis-

lature, all of its candidates for state offices, four out of five congressmen by majorities that range from 20,000 to 40,000. It is possible, however, that the efforts of the republicans to set the election aside may succeed. It is known that the administration desire a republican victory, but whether the plan now outlined by the carpet-bag office-holders to defeat the wishes of a great majority of the people of Oklahoma will receive the endorsements of President Roosevelt and the Republican Congress is a question yet to be settled. It is an easy matter for the Republicans to set aside the Oklahoma election if it so desires, and if this can be done without endangering the party's interest in other states, no one familiar with the history of that party can doubt the course which will be pursued.

An Unsafe Rule.

The New York World says: "Paul Morton, who is in Paris, says: 'I understand that Mr. Root will be a candidate for the presidency.' Mr. Morton is misinformed. Mr. Root cannot be a candidate, because with his past connections he is disqualified."
Why should Mr. Root be disqualified because of his "past connections"—meaning his affiliation with corporations? The same rule would drive from the contest a number of other republican candidates. Indeed, the same rule, fairly applied, would put the republican party out of business.—The Commoner.

Will Compete For Corn Prize.

While in town today Mr. C. Dean, who owns one of the finest farms in Northwest Texas, located thirteen miles northeast of Wichita Falls on the south side of the Wichita river, informed a Times reporter that he had cultivated this year 17 1/2 acres in corn, which would yield an average of about fifty bushels to the acre, and that he expected to begin gathering the crop in a few days, and as work progresses will instruct the force to lay aside the largest ears, as he has fully determined to enter the Dallas Fair Contest for the best corn raised in Texas. He has three varieties and will pick out ten ears of each kind for exhibit at the fair, and feels confident he will bring back home the prize, which is a gold cup to the value of \$50.00.

The Cole Younger-Nichols Amusement Company will arrive in the city tomorrow and will give their opening performance Monday night. The shows will be located on the vacant lot at the corner of Ninth street and Indiana avenue.

The Wichita Falls and Southern will again run a series of excursions to Lake Wichita tomorrow. The trains will leave the M. K. & T. depot at 9:30 a. m., 2 p. m. and 7 p. m. Returning they will leave Lake Wichita at 1 p. m., 6 p. m. and 9:30 p. m.

TEST OF LIQUOR LAW

TWO COMPLAINTS HAVE BEEN FILED AT SAN ANTONIO.

OLD LICENSE IS GOOD

Is the Contention of the Liquor Men, and They Have Raised Large Sum to Fight Cases.

San Antonio, Tex., Sept. 21.—Capt. W. J. McDonald, State revenue agent, yesterday filed two complaints against Steve Zaccarezza, a liquor dealer, and on these complaints a test of the new liquor law will be made.

One affidavit charges the defendant with unlawfully engaging in and pursuing the occupation of a liquor dealer without first having obtained a license, and the other charges him with selling spiritous, vinous and malt liquors in quantities less than a gallon, to be drunk on the premises, without first having obtained a license. Zaccarezza was arrested and was immediately taken before County Judge Shook on an application for a writ of habeas corpus. The judge denied the writ and remanded the defendant to the custody of the sheriff, and Hon. R. H. Ward, attorney for the liquor dealers, gave notice of immediate appeal to the court of criminal appeals, and left for Dallas tonight to present the application to the judges of the court, who are there tomorrow.

The contention of the liquor men is that their old licenses are good for the term for which they were issued. The State contends the new law revokes all old licenses. It has been agreed between the attorneys for the liquor interests on the one hand and Capt. W. J. McDonald, State revenue agent, and Claude Pollard, assistant attorney general, on the other hand, that these two cases from here are to be test cases on that point of the liquor law. The saloon men have put in escrow the full amount of \$80,000, which is said to represent the amount due from the liquor dealers of San Antonio for new licenses. If the liquor men win the test case, they draw down the \$80,000; if the State wins the test case the money goes to the title-gatherer for new licenses.

There is a great deal of interest in this matter all over Texas, as there are thousands and thousands of dollars tied up in unexpired licenses. The representatives of the State would not agree to go into this test case until the amount necessary to pay all licenses was put up in advance.

Getting Onto the Curves.

Washington Herald.
Strange as it may seem it is nevertheless true that a woman has started what she calls moral reform which for its primary object has the doing away with all false contours on the feminine form divine—not the real ones; those provided by the dressmaker. Mrs. Elizabeth A. C. White, president of the Dressmakers' Protective Association, declares that a ban has been placed on the artificial contours of the fair sex and that hereafter all padding must be done away with.

Men would have no right even to discuss such a matter were it not for the growth of catholicity in such matters, which allows few things to be hid from the public gaze. While, a few years ago, man was quite willing to accept things as they appeared, education in such matters has been proceeding along such liberal lines that the question of delicacy hardly enters into it. It is the women themselves who are largely responsible, for not one of them has raised a protest against the shop windows filled with the most extraordinary articles of feminine apparel, displayed for their use and for man's humiliation. In the ages to come, the scientists would have no difficulty in reconstructing the woman of this day, if they could only find a dry goods store intact.

There may be revolt against the dictum of Mrs. White, probably will be, and we see no good reason why the crusade of the dressmakers' association should have success. It does not deserve it. It comes too late. We mere men—have been educated up through long years of pleasurable deceit to a certain standard of feminine perfection. It is a long way, of course, from the perfection of the Venus de Milo, but it is all we have—a poor thing, but our own! Are we to form new artistic ideals; assume ambitions when we have them not?

We hope, indeed, that the articles in the dry goods shops are not needed by any of the fair sex, but if they are, we prefer not to know it. If we have been deceived, let us be deceived still. It

hurts no one and may make some fair ones happy. At any rate it is the bounden duty of femininity to look as nice as it can, in spite of the reform of Mrs. White or anyone else. We who toil and deal only with sordid things need aestheticism in life—let the ladies furnish it, curves or no curves!

A newly married couple went to a hotel and the bride went out to do some shopping, and when she returned got off the elevator on the wrong floor and went to what she supposed was her own room, but found the door locked. She rattled the knob and said: "Honey let me in." No response came to her words. She knocked again and cried: "It's me, honey, open the door." Still she received no answer, and she became terrified and rattled wildly, saying: "Honey, honey, dear" when a gruff voice from within said "Madam, this is no bee hive! this is a bath room."—Ex.

PALMIST!

Madam Rose, Intuitive Reader of Life from the Hand.

Will give you a thorough delineation of the character by the lines of the hands. Business speculations, love and marriage, law suits, divorces, absent friends. No matter what your troubles are, consult her.

Palmistry is not what a great many people imagine it to be, a species of fortune-telling; but it is an exact science, as has been proven over and over again. All well informed people now-a-days admit this fact, and many of them consult palmists frequently. In every person's life there are several courses which he or she may pursue, many of which lead only to failure and few to success. By consulting a skillful and reputable palmist, it is possible to ascertain beyond the question of a doubt which of the several paths opening before you lead to the best and brightest success. If you have ever been crossed in love, if interferences have broken your dearest and tenderest ties, in every affair it is wise to consult this gifted woman. Office Hours 11 a.m. to 8 p.m.

IT'S UP TO DAVIDSON.

Colquitt Tells Him to Bring Suit or Say He Will Not Do So.

Austin, Texas, Sept. 18.—In questioning the authority of the railroad commission to name the place wherein suits against railroads are to be brought by the attorney general, when the state legal advisor is instructed to bring suits by the commission, an exception has been taken by Mr. Colquitt.

The question arose when the commission instructed the attorney general to bring suit against the Galveston, Harrisburg and San Antonio railway at Victoria for its refusal to comply with the commission order.

Assistant Attorney General Pollard advised the commission as follows:

"We are in receipt of yours of the 5th, inclosing order of the railroad commission of date September the 4th, directing this department to institute and prosecute at Victoria, Texas, suit against the Galveston, Harrisburg and San Antonio Railway company for the collection of penalties for violation of an order of the railroad commission. I note that you state in your letter that the order requests us to file suit in the district court of Victoria county.

The order of the commission itself provides: 'Is hereby instructed and directed to institute and prosecute at Victoria, Texas, the necessary suit. It may be within the judgement of this department that Victoria is not the proper place to file such suit. Therefore, should we decide that some other county would be the best place in which to file such suit, the question would be raised as to this particular part of the order. Besides, there is no statute which gives the railroad commission any authority to direct the attorney general as to the county in which he shall institute a suit. Therefore, we return the order that the direction as to the place where the suit shall be instituted may be eliminated, after which we will give the matter our careful attention.'

Commissioner Colquitt's reply is to Attorney General Davidson himself, and after acknowledging Pollard's letter says: "You return said order with the request that the following provisions be stricken out. 'Is hereby instructed and directed to institute and prosecute at Victoria, Texas, the necessary suit,' etc., and you add that it may be within the judgement of your department, that Victoria is not the proper place to file such suit. I beg to invite your attention to article 4577 of the revised civil statutes, 1895, providing penalties under said statute shall be recovered and suits thereon shall be brought in the proper court having jurisdiction thereof in Travis county, or in any county to or through which such railroad may run, by the attorney general or under his direction. I note also that article 4579 does not require suits directed by the railroad commission, other than penalty suits, to be brought by the attorney general exclusively, but may report the same to any other officer charged with the enforcement of the law and request him to institute the proper proceedings.

"The order as adopted and sent you embodies a motion of Chairman Mayfield, who is absent from the capitol at this time. I think this commission ought to have the right within the above quoted statute to designate the courts within which it chooses to litigate with the railroad companies. The law gives to said railroad companies the right to select their tribunal in which to file their suit against us.

"I am returning the order, therefore, with the request that you file suit as directed by same or advise the commission that you will not do so. I may add without impropriety at this point that I shall not vote to change this part of the order."

The most obtrusive fact in the advance abstract of the Interstate Commerce Commission's forthcoming report is that during the last fiscal year more than 100,000 people were killed and injured on American railroads. The exact figures are 10,618 killed and 97,506 injured. The ratio of killed and injured to the total number of passengers carried is smaller than for the preceding year. This may be evidence that some progress has been made toward rendering railway travel less perilous, but so long as the total is so great as it is, one is not able to extract much comfort from such slow progress toward betterment. We have boasted our art in railroad operation, and doubtless in most respects we are more efficient than any other people, but our energies do not seem to have been very much directed toward protecting the lives of passengers.—Ex.

JOHN D. DONE IN BRONZE.

Texas Admirer of Rockefeller is Erecting Monument to Oil Magnate. From the Denton Record and Chronicle. The old saying of "Go away from home to learn the news of home," is well borne out by the following dispatch, probably by wireless, that appeared on the first page of the Los Angeles, Cal., Morning Times Sunday, Sept. 15th, in newspaper parlance "played up" as a feature:

By Direct Wire to the Times.

Denton, Tex., Sept. 14.—(Exclusive Dispatch.)—A monument to John D. Rockefeller is being raised two miles south of town, where two much traveled roads cross.

Of course, it is unusual to put up a monument to a man before he has been gathered to his fathers, but A. G. Lee, who greatly admires Mr. Rockefeller, and who is building the monument with the sweat of his brow and the toil of his hands, says President Roosevelt and Andrew Carnegie have set precedents which any American citizen should be proud to follow.

"I know that monuments should be post-mortem," said Mr. Lee, who is a man of great intelligence, today. "I know you cannot write epitaphs in the present tense, but Andrew Carnegie and Theodore Roosevelt set the example, only Carnegie is working up building libraries and the president is working down digging pits.

"I consider John D. Rockefeller the greatest man in the world," Mr. Lee continued with emphasis. "I am trying to induce him to come here and live, where he won't be hunted and persecuted. I want him to run on the democratic ticket next time. He would be elected. You see the pedestal is nearly completed. It symbolizes Mr. Rockefeller's strength, depth and breadth. I have ordered the statue itself from a bronze-casting firm in New York city. I am spending about \$10,000 on the statue and pedestal."

CHARGED WITH MURDER.

Five Persons Torture Aged Woman to Death to Drive Out Devils.

By Associated Press.

Chicago, Ill., Sept. 21.—Walter and Jennie Greenlaugh, together with Harold Mitchell, Mrs. Mitchell and Mrs. Louise Smith, arrested on a charge of causing the death of Greenlaugh's invalid mother, were today taken from Zion City to the Waukegan county jail in order to avoid the possibility of an outbreak, as the feeling against them is intense. It is quite possible that further arrests will be made at the conclusion of the inquest, as it is said that other cures for demoniacal possession have terminated disastrously to the patients. Coroner Benjamin Hopkins admitted today that he knew that the bones of Mrs. Greenlaugh had been broken by the treatment she endured.
