SEN. WILLIAM PROXMIRE of Wisconsin is one of our favorite lawmakers. Every year, early-on, Sen. Proxmire hands out his "Golden Fleece Awards," to lawmakers or bureaucrats who have done the best (or worst?) job of fleecing you and me out of hard-earned tax dollars.

Some of the projects which our tax money is used for boggles the imagination. Here are some of the "winners" which the senator saluted recently:

Did you know that the government awarded \$219,592 to "teach college students how to watch television." Seems to us students should have a pretty good idea about how to handle the boob-tube by the time they get to college.

Or, did you know that the Office of Education was awarded \$40,375 for the purpose of providing 35 bureaucrats some 1100 creative career and life-planning courses during working hours?

Or that \$5,000 was awarded to "exercise pregnant pigs on a treadmill, to relieve boredom." "Everyone knows that if you have a bored pig, you should take him to a movie," the senator remarked.

A whopping \$222,000 was awarded to the Federal Highway Administration for a "study of motorists' attitude toward large trucks." Heck, we could have told the highway administration what they wanted to know, and for a whale of a lot less money.

Get ready for this one: The National Institute for Mental Health was awarded \$97,000 for a "study of the behavior and social relations in Peruvian brothels." Your tax money sent some bureaucrat to Peru, and paid for all the hanky-panky south of the border that he could take. That's not all. According to Proxmire, the "report" was never completed as such, but the "expert" published a book instead. When asked for his report, he told the government it would have to buy a copy of his book to discover what he found out.

Another of Sen. Proxmire's jewels was the awarding of \$122,000 to the U.S. Senate itself, to be used toward a new gymnasium in the new Senate Office Building (S.O.B.), which has become the biggest albatross in government history.

"The last thing we need is another gym. We already have two gyms, and virtually no one ever uses the ones we have. If you have something you really want to get done, you could take it over to the gym, and depend on some peace and solitude," Proxmire says.

One of the worst offenders was the awarding of \$52 million to the Pentagon and to various military brass, for the use of aircraft for "low priority" missions and personal flights, when commercial transportation was available and much cheaper.

"We have always sent our top brass and government officials anywhere they want to go. One general forgot his golf shoes, and they turned his plane around and went back for them. This is ridiculous," the senator says.

Another \$15 million was approved for the National Aeronautic and Space Administration, over a seven-year period, to try to find life in outer space. "It will take a million light years for a probe to get to another star, so I think we could postpone this study another few years," he cracked.

How about the grant of \$384,000 to the Department of Labor, for a door-to-door survey counting the number of dogs, cats and horses in 160,000 households in Ventura, California? Somebody must need to know for sure if they need another veterinarian in that county.

The bureaucracy secured \$6,025 (Continued on Page 2)

UNSETTLED...The billowing cumulus cloud has been a common sight in the area since springtime. Farmers in the area have received

better than average rains during the past month, although some have also sustained hail damage to their crops.

But it is thought that the good has so far outweighed the bad in terms of moisture received.

FOR COUNTY

Residents Oppose 30-Day Bird Season

Residents of Parmer County are learning, much to their dismay, that the Texas Parks and Wildlife Department has declared a 30-day season for pheasant hunting for 1979.

Spokesmen for the Parmer County Game Management Assn. expressed their opposition to the plan, stating that it "Would ruin the pheasant as a game bird in this area."

"They put in this extended season with no consideration of the residents of this area at all. I would bet that 99 per cent of the residents of Parmer

County are opposed to a 30-day season," stated Jack Patterson, county commissioner and longtime game specialist.

The Parks and Wildlife Dept. apparently held a hearing on the proposed change earlier this year at Farwell, but the hearing was not advertised locally, and virtually no one knew about the hearing or the proposal to lengthen the season until it was too late.

At a meeting of the Parmer County

Commissioners this past Tuesday, the organization drafted a letter, signed by every county commissioner, opposing the change. The letter was sent to the Parks & Wildlife Department.

"I can't see why they had the meeting here in our area, apparently wanting local opinion, and then did not sufficiently advertise the hearing," Patterson said. "This will cause a lot of bad feelings between the farmers and hunters. Farmers just don't want to put up with a 30-day hunting season," he continued.

The local pheasant population was started back in 1962-63 when the area was stocked with pheasant hens and cocks. After a few years, a weekend hunting season was held, and later a nine-day season, spanning two weekends, was instigated.

Under Parks & Wildlife influence, the season was stretched from nine days to 15 three years ago, making the season span three weekends in December.

"We tolerated the 15-day season, but this will just ruin the situation. As much as I like to hunt, I would almost rather drop the thing entirely as to have a 30-day hunting season every year," Patterson continued.

Local officials urge residents to contact Senator Bob Price and Representative Bill Clayton urging them to use their influence in reversing the decision by the Wildlife Department.

Buckaroo Rodeo Is Re-Scheduled

The "Little Buckaroo Rodeo" that was scheduled for last Sunday, has been rescheduled to take place this Sunday, June 10. The rodeo, sponsored by the Bovina Roping Club, will begin at 1:30 p.m. at the Bovina Roping Arena.

Deadline for entering will be 5 p.m. on Saturday, June 9. All entries are to be sent to Bobby Calaway, in care of the Bovina Roping Club.

The rodeo is for youngsters ages 12 and under. An entry fee of 50 cents per event will be charged.

A horse is not needed in order to enter. An all-around trophy will be awarded in each age group, based on points earned in the individual events. Ribbons will be awarded in the individual events, through sixth place.

There will be six "greased pig scrambles," with the winner getting \$10 in each division.

A concession stand will be operated at the Roping Arena.

Events will be as follows:

Three years old and under: goat ribbon race and stick horse race (entrants bring their own "steeds.")

Four through six years old: goat ribbon race; greased pig scramble; water bucket obstacle and stick horse race.

Seven through nine years: goat ribbon race (with horse); father-son three-legged race (parents may be "adopted"); flag race (horse); greased pig scramble; boot scramble, water bucket obstacle; mother-daughter three-legged race (parent

may be "adopted") and barrel race (horse).

Ten through 12 years: goat ribbon race (horse); father-son three-legged race; mother-daughter three-legged race (parent may be "adopted"); water bucket obstacle; greased pig scramble; boot scramble; flag race (horse); and barrel race (horse).

Parents are required to sign a release of responsibility form when entering their youngsters.

Further information may be secured by calling 238-1231.

Rainfall Totals Top Eight Inches

Many people predicted that we would have a wet year this year, and it seems that those predictions are coming true.

According to Gregg Hromas, Bovina's official rain recorder, we are way ahead of last year's totals. As of the end of May, we have received a total of 8.05 inches here in the city. At this time last year, we had received a total of 3.5 inches during the five month period, January-May.

So far this month, we have received .8 inside the city limits, but according to Hromas this is not representative of the area. He said that he has

received reports of much larger amounts from area farmers.

Kent McClaran reports that he has received eight inches in the last twenty days. The Vernon Willard farm has received about seven inches in the last twenty days.

Some farmers are hoping for some relief from the rains in hopes that their cotton will not be damaged. Many other farmers have been heard to say, "Let it rain," as they are enjoying their reduced irrigation costs.

With all this rain, we have nearly received as much as we received all last year, 10.81 inches.

Welding Course To Be Taught Locally

An Oxy-Acetylene Welding Short Course for farmers, ranchers and other interested adults will be held June 11-14 under the sponsorship of the Bovina High School Vocational Agriculture Department, according to Larry Wilson, superintendent, and Lawrence Widner, vocational agriculture teacher.

The course will be held each night at 8 p.m. in the Bovina High School Ag Department.

Mr. Charles Yeates, Welding Specialist with the Vocational Agriculture Division of the Texas Education Agency and the Department of Agricultural Engineering at Texas A&M University, will be the instructor for the course. He is headquartered at Texas A&M University.

Farmers interested in attending the short course should call or write the superintendent of schools, Larry

Wilson, or the teacher of vocational agriculture, Lawrence Widner or Pat Barrett. An entry fee of \$15 will be charged. Oxy-Acetylene Welding short course certificates will be presented to each enrollee who attends all the training sessions.

Mr. Yeates stated that the short course will be adjusted to wishes and interests of farmers enrolled but that he expects to cover such subjects as safety in handling and using oxygen and acetylene, proper flame types, cutting and welding mild steel, brazing and welding cast iron, hardfacing, and welding aluminum.

He will be available during the day for on-the-farm instruction to class enrollees having individual welding problems.

Further information may be obtained by calling Lawrence Widner or Pat Barrett at 238-1317.

schedule in this issue of the Blade. The Bovina Gin team won this one over Big Nick/Horn-Clayton by the score of 14-10.

Rate Increase To Be Effective July 1

Since November of 1971, the date of the last base rate adjustment for irrigation customers, the costs of materials, labor, taxes and other expenses have increased for Pioneer Natural Gas Company.

In February, an increase of approximately 20 per cent was granted in the General Service Rate in the West Texas System, which was the first increase in that base rate since 1970. Now, it is necessary to increase the irrigation rate by an average of 10.6 per cent.

Effective July 1, the effective date of this new rate schedule, all present irrigation gas rates are cancelled. The new irrigation gas rate schedule will automatically displace the rate now attached to the irrigation contracts presently in effect.

The new irrigation gas service rate

is, for the first 50 Mcf of gas used per month, the same price as the general service rate which became effective in Pioneer's West Texas System on February 15 of this year. The remaining steps of the new irrigation rate are lower in price than the last step of the new general use rate. This follows the general pattern of previous irrigation rate schedules which also followed the general service rate for the first brackets.

Pioneer has no control over the price the producers charge for the gas at the wellhead. Pioneer bids in competition for the gas supply adequate to take care of consumer's needs. This is further complicated by the national energy legislation passed late last year that now extends federal controls to Pioneer's purchase of gas.

Bovina Has New Deputy

The City of Bovina has a new Deputy Marshal. Ronnie Stone, who has lived in Bovina almost all of his life, assumed his position last month.

Ronnie is a 1974 graduate of Bovina High School. He served in the Army's military police, and was stationed overseas in Germany for three years.

Stone is scheduled to attend the Panhandle Regional Law Enforcement Academy in Amarillo in October.

Formby Named "Man Of Year"

The staff of Texas Tech University's yearbook, "La Ventana," has announced that Regent Clint Formby of Hereford had been named its "Man of the Year" for 1979. His picture will be on the cover of the "Texas Business Magazine" section of the yearbook.

Formby was presented the original art work of the cover at a meeting of the Texas Tech Board of Regents in regular session Friday, May 11. Presentation of the framed art work was made by co-editors Beverly Jones of Dallas and Elizabeth Edwin of El Paso.

Formby is the 21st person to receive the coveted honor bestowed by "La Ventana" and the first regent and non-member of the university faculty or staff to receive the recognition.

Campus student organizations nominate men or women for the distinction, and the honoree is selected by the yearbook staff of approximately 20 persons.

Selection is based on "outstanding contributions to Texas Tech and its students" and the honor is bestowed on a "person who has had unusually good relations with students." Formby was nominated by the Mass Communications Student Advisory Committee.

Philosopher To Present Program

America's Rocking Chair Philosopher, Eddy Nicholson, will present a program of nostalgia, gospel music, and back-to-the-basics philosophy at Bovina's First Methodist Church this Sunday night beginning at 6 p.m.

Mr. Nicholson will be remembered by Bovina teachers as the speaker at the teacher appreciation banquet sponsored by the Methodists in September of last year. All present enjoyed and profited by his wit which contains a message vital to present-day Americans. He stresses the need for a return to the faith of our fathers and unity in the family.

He comes to you from several directions: humorist, entertainer and motivator. He sells the happy life, laughter and the good side of bad times. And while he's getting you to laugh he's getting you to think.

Bulltown Bulletins...

For a "national endowment for the arts" for an artist to film the throwing of crepe paper and burning grass out of high-flying planes. A lady in El Paso was to do the filming, and then we were to pay to have her flown to the Caribbean, to get some footage of the "artist," walking into the surf.

Don't know about you, but that's about as much foolishness as I can afford for one week.

Born and raised in the mountains of Tennessee, the country humorist has attracted national attention because of his unique, satirical attack on problems confronting business, families and the nation.

Nicholson does all his speeches dressed in a pair of Big Mac overalls, shirt made of Jim Dandy Hominy Grit material and hillbilly 'clod-hoppers.' Difficult as it is to believe, Eddy is a cum laude graduate from one of the prestigious colleges of the South.

When asked about the overalls he wears during his performances, Nicholson said "They remind me of a time in America when men were men, women were women and bread was biscuits."

Everyone in the community is invited to come and hear Mr. Nicholson, according to a spokesman for the church.

Rose and Les McCain have been in Lubbock during the week with Les's father, Mr. W.C. McCain, who was a patient in a Lubbock hospital. He was released from the hospital Monday.

Mr. and Mrs. Lee Clark have had company recently: Joan's mother, Mrs. L.L. Ashburn of Graham, Texas and also their daughter and son-in-law, Karen and Phil Hoover, who have been to the Bahamas on their honeymoon and on their way to Albuquerque where they will make their home.

The Senior Citizens will have a garage sale June 7, 8 and 9 at 329 N. Street (Main). Proceeds will go to their building fund.

Be sure and come to game night Saturday. We will vote whether or not to serve refreshments.

Correction: The Church of Christ ad last week read that their Bible School would be July 9-. It should have read July 9-13. Keep these dates in mind.

The Billy Smiths, Kenny Estes, Richard Villarreal and Allen Grissom went to the mountains near Mora, New Mexico Wednesday and returned home Friday. Stacey Whitecotton and Rebecca Hodnett went up on Friday and returned Saturday.

The Smiths left Saturday morning for an Estes family reunion at Santa Anna, Texas. Mary Rejino accompanied them. They met Edna and Herman Estes and Kenneth Estes, wife and four children from Buckners Baptist Children's Home at Santa Anna. Herman's mother, Olie Estes, Santa Anna, who is 87 years old attended also.

There were 100 people attending the reunion.

Dick Richards entered the Methodist Hospital in Lubbock a week ago Sunday and underwent surgery Thursday of that week. There is a possibility that he will be coming home Thursday of this week. Reports are that he is getting along fine.

Ben and Christie McCain of Port Arthur have been visiting in the Bovina area during the past few days, with their families, Mr. and Mrs. Les McCain and C.E. Trimble.

Sunday they were dinner guests of the McCains, and also the McCain's son, Butch, of Amarillo, was with the family.

Ophie Davis entered the Clovis hospital Thursday and underwent surgery Friday. Saturday she went to her daughter's home in Clovis, Carolyn Bentley. She is home now and getting along fine.

Dorothy and Buck Ellison have recently returned home from a week at their cabin in Nogal Canyon. Memorial weekend is the time when the cousins of the family get together at the cabin and ready it for their reunion which is held each August. Sixteen met for their yearly project last week.

Buck said they had built the cabin in 1961 and this is the most spring rain they had had since then. Everything was very wet including the road leading to it.

Bessie Webb underwent surgery a couple of weeks ago in the Deaf Smith County Hospital in Hereford and is still a patient there. The family says she is feeling better but they don't know when she will be coming home.

Our daughter, Janee Griffin and children Jason and Rene' are visiting with us. They came from Mountain

Home, Idaho, Monday and will be with us for three weeks.

Kenneth Cary entered the hospital Sunday for heart surgery scheduled for Tuesday of this week and his son, Ronnie, is having knee surgery Tuesday, also. Both are in the Methodist Hospital in Lubbock.

Rouel and Thelma Barron, along with Jeanie Hughes, from Amarillo, and Marissa Barrow, from Lubbock, went to Edna, Texas, to visit a son and family, the Donald Ray Barrows.

One of the granddaughters, Bethany Barrow, graduated from Junior High there June 1. All three daughters of the D.R. Barrows, Marissa, Bethany and Shari, were on honor roll all year.

Grandparents are kinda proud of them, as well as mother and father. They also have other grandparents here, Mr. and Mrs. Frank Turner.

Many college students are graduating this year just in time to build the computer that will replace them.

Have a great week and thank you for your calls....Scooter.

"We're trying to be too clever! Let's just make this year's stewardship theme: HELP!"

Any Day-- A Good Day

Read Romans 14:6-9

Whether we live or whether we die, we are the Lord's. —Romans 14:8 (nsv)

ON his last birthday anniversary, Pope John XXIII was asked for a birthday statement. He responded, "Any day is a good day on which to be born." Then he added, "And any day is a good day on which to die."

The news account noted that the Pope knew that he was mortally ill. It also referred to the fact that Pope John made both parts of his birthday statement with the same unchanging smile.

This story reveals why so many people of various strains of Christendom felt close to Pope John. He knew and lived the heart of our common faith—"whether we live or whether we die, we are the Lord's."

Freed from self-anxiety about death or life, a person can better go about the business of making his life count in relation to others—to be the occasioner of life for them.

PRAYER: O Lord, we who are Yours by creation, lead us to commit ourselves to You in gratitude and humility. Lead us to dedicate our abilities and all other gifts in service to You. In Jesus' name. Amen.

THOUGHT FOR THE DAY

Any day is a good day to trust in the Lord and do all the good we can.

West Texas Fun Map Available

West Texans are invited to find out
 what's in their own backyard as they
 explore the variety of scenery and
 things to do in the region, according
 to the West Texas Chamber of
 Commerce.

Ray McLaughlin of Alpine,
 chairman of the WTCC Tourist and
 Travel Development Committee, is
 urging all West Texans to obtain a
 free copy of the chamber's
 "Wonderful West Texas" Fun and
 Adventure Map, that they might
 discover new leisure-time destinations
 within easy driving distance.

The publication contains a road
 map showing lakes and National
 Parks, along with information on 79
 attractions and areas of interest in the
 Western 60 per cent of Texas.
 Included in the publication are
 camping and fishing areas, pageants
 and festivals, museums and colleges,
 and things to see and do in cities both
 large and small throughout the
 region.

Now in its sixth edition, the Fun
 and Adventure Map is more popular
 than ever, according to McLaughlin.
 Demand for the publication reached a
 new high last year both for out-of-
 state and in-state requests, and the
 regional chamber anticipates even
 more interest this year.

To obtain free copies of the Fun
 and Adventure Map and any other
 literature on West Texas, contact the

Horse Owners Need To Take Precautions

It is approaching the time when
 equine owners should be warned
 about the possibility of horses grazing
 sorghum hybrids, becoming affected
 with a problem called "Sorghum
 Cystitis." This syndrome was
 reported by members of the Large
 Animal Clinic at the College of
 Veterinary Medicine in 1966, it has
 been recognized with increasing
 frequency in the southwestern part of
 the United States.

It occurs more frequently during
 times of medium to high rainfall,
 usually from June to November.
 Cases are not usually seen after the
 first frost. Horses affected have a
 history of grazing hybrid plants
 resulting from crossing Sorghum
 vulgare (Sorghum) with the Sorghum
 vulgare variation Sudanense (Sudan).
 Other cases have been reported in
 horses grazing varieties of Sorghum
 or Johnson Grass mixed with native
 pastures.

Signs: The first signs usually seen
 have been incoordination of the rear
 legs: this has been followed by
 urinary incontinence in about half of
 the horses. In mares, the most
 obvious clinical signs include opening
 and closing of the vulva and dribbling
 of urine which may cause loss of hair
 on the inner part of the hind legs due
 to urine scalding. Geldings may show
 a loss of hair on the ventral abdomen
 near the prepuce. Urine may drip
 continually and become intensified if
 the animal is caused to move
 suddenly.

Some mares may abort.
 When affected animals are
 removed from the pasture and fed a
 balanced ration, they usually
 improve, but complete recoveries
 have not been reported. Both the
 urinary incontinence and ataxia have
 been observed in some horses for as
 long as three years.

Prevention:

1. Keep equines off sudan type pastures.
2. Do not feed freshly cut sudan species hay to equines.
3. Horses fed well-cured sudan species hay did not develop this syndrome.
4. Many treatments have been used in affected equines, but with little success.

Customer averaged billing plan

**Southwestern's Averaged
 Billing Plan is designed
 to minimize the ups and
 downs in your electric bill.**

If you've wished the amount
 of your electric bills could be
 more consistent every month
 instead of changing so much
 between seasons — here's a
 way...

The Averaged Billing Plan is
 provided to HELP SMOOTH
 OUT THE HIGHS AND LOWS
 that occur in your electric bills.
 As the name implies, this plan
 arranges for you to pay an
 "average" rather than the actual
 amount used each month.

Who's eligible for this plan?

Any residential customer
 with satisfactory credit, whose
 average bill is \$25.00 or more,
 can request the Averaged Bill-
 ing Plan.

How to get started.

All you have to do is call

Southwestern Public Service
 Company. There's no charge
 for participation in the Aver-
 aged Billing Plan. If for any rea-
 son you decide to drop the plan
 once you've started, just notify
 us. Payment by Automatic Bank
 Draft can also, in most cases,
 be arranged.

This is how the Averaged Billing Plan works.

The dollar amount of your
 electric bill each month will be
 determined by averaging the
 actual dollar amount of your bill
 for the past 12 months. When
 the amount you have paid does
 not cover the amount you have
 used, 15 percent of the differ-
 ence will be added to your
 monthly average.

So, the Averaged Billing Plan
 does not change your rate, but
 allows you to pay less during
 high-use months and make up
 the difference by paying more
 during low-use months.

JUNE 19

Bovina Will Host Music Show

"The Golden Years of Country Music" is coming to Bovina, for a performance June 19.

The country music road show, a production of South Plains College, Levelland, will be performed at 8:30 p.m. on the High School Football Field. Back-up site, in case of inclement weather, will be the High School Auditorium.

"Golden Years" features about 40 songs spanning 50 years of country music history. Included in the case of singers is Randy Ellis, Friona native. Randy is the son of Mr. and Mrs. Eugene Ellis of Route 1, Friona.

Songs include "Will There Be Any Freight Trains In Heaven" by Jimmie Rodgers, known as the father of modern country music; "Mule Skinner Blues" by Bill Monroe, father of bluegrass; "Wabash Cannon Ball," "Smoke, Smoke, Smoke," "Your Cheatin Heart," "Folsom Prison Blues" and "Amanda," among many others.

"We think every artist we recognize in the show has made a definite impact on the business," said Hartin, who also has been a professional guitarist for a number of years.

"Golden Years," along with the music has a story to tell.

"There's a story developing in the fact that country music has left the hills and is being recognized in

metropolitan areas," said Hartin.

"Certain things were happening in Kentucky with the bluegrass in the 30's and 40's; at the same time a completely different type of country music was followed in Texas by the Carter Family, who did a lot of recording and broadcasting down at Del Rio. They had a big 50,000 watt

station that was heard all over the country," he added.

The show goes on to recognize

people who stuck with country music at a difficult time.

Golden Years will feature faculty and students from SPC's country and bluegrass music program and students from the speech and drama department as well. Featured instruments will include fiddles, acoustic, electric and pedal steel guitars, mandolin, banjo, auto harp, piano and drums. In event of bad weather the show will be at the high school auditorium.
