Since the beginning of the new year contracts for more than twenty-five new residences have been let, and some of these new buildings have already been completed. This does pretty well for the first month, and indicates that if the same ratio is maintained throughout the year, more than three hundred residences will be constructed in Wichita Falls this year.

ONLY THREE DAYS LEFT

TO PAY YOUR POLL TAX.

With only three days in which to qualify for voting by the payment of poll tax, only 396 polls had been paid in the city of Wichita Falls up to this morning. The time for the payment of this tax expires at midnight on Friday and those liable to the tax who have not paid it by that time will be disqualified from participating in the several important city, county, State and national elections which will take place this year. No good citizen will neglect to qualify himself for the suffrage privilege. Only a few days remain in which you can do this and the time to do it is now.

Growth of Towns.

Every town in the Southwest is being weighed in the balances. Push and energy will carry some to the zenith of power and influence, while others, irresolute, will linger and decay. Those that win are in the fight, and when the day's march is ended their banners will be covered with glory. The Southwest is a field amply large for the population of all Christendom, and every year thousands of immigrants are casting their lots in this favored section. The cities that grow will watch for homeseekers and prepare to offer them inducements of some kind. The downward tendency of most towns is caused by a citizenry that has little foresight and no appreciation of existing opportunities.—Texas Trade Review and Industrial Record.

No better explanation could be given for the growth of Wichita Falls during recent years from a country village to an enterprising city—one of the best—shall we not say the best, in the grand old State of Texas.

Nature endowed this locality with many advantages, and prophetic citizens have seen the opportunities here and have presented them to the homeseeker and the investor, with the result that the growth of Wichita Falls and the development of the country surrounding has been one of the wonders in the development of the Southwest.

While the tide of immigration has set for the Southwest in ever increasing volume, some towns that have enjoyed prosperity in the past will fall because of a temporary adversity caused by the recent financial panic, which has discouraged the enterprise and the expectation of their citizens.

Wichita Falls, if we are to judge by present conditions, has suffered little from the recent flurry, and so far from being discouraged her citizens are more confident of the future than at any time since the town was founded.

PRETTY "500" PARTY.

Mrs. Burnside and Mrs. McGregor Entertain in Honor of Mr. and
Mrs. Greenwood.

A dainty salad course was served during the evening.

The guests were the Misses Curry, Daugherty, Kemp, Sitton, Barwise, Walker, Anderson, Lysaght, Willis, Doran, Levy, Cobb and Brooks, Messrs. Durland, Dr. Walker, Malone, Dr. Felder, Hendricks, Freeman, Walker, Speatcher, Colgin, Priddy, Piner and Dave Avis, Terhune, Heath, and Darnell. IMMIGRATION TO TEXAS INCREASES

Immigration statistics regarding the Panhandle compiled under the direction of the general freight department of the Fort Worth and Denver, indicate that December, 1907, was far ahead of December, 1906, in the number of settlers and in the number of cars of household goods brought in.

Last month boasts a total of 488 cars of immigrant movables.

The cars were distributed over a wide expanse of territory, the majority having been sidetracked at Fort Worth and Denver points. The Wichita Valley received a good number. Panhandle towns got 329 cars and the Wichita Valley points 160.

Quanah led with 42, Chillicothe stood second with 32, Vernon 31, Wichita Falls 24 and Texline 22.

Haskell led the Wichita Valley points with 25 cars, Seymour and Anson each had 24, and Bomartown 18. The remaining cars on this line were distributed among other towns in small numbers.

December, 1907, surpassed the previous December by 108 cars.

It will be moved here and work started within thirty days and the contract calls for the completion of the road and same to be put in operation by January 1, 1909.

The meeting of the citizens was the most enthusiastic gathering of any kind that was ever held in this city and has been recorded in the history of the town.

The County Candidate.

When the sap begins to rise and the geese begin to mate we hear the gentle carol of the county candidate. Oh, he's a jolly fellow and full of vain conceits, and sees a bosom friend in every man he meets. He asks you about your family, your horses and your hogs, and shows a friendly interest in the children and the dogs. Oh, he's a jovial gentleman, as gamesome as a lamb, and blithesome as a meadow lark, and happy as a clam. His prospects are the brightest, and his chances they are sure, he spends his money freely, and helps the needy poor. He goes to church on Sunday and his pious traits appear, but when it's necessary he will set up the beer.

Oh, he buoyant, sanguine duck, the jocund candidate, he starts up early in the morn and stays out until it is late. His patient wife unlocks the door and with a look of pain, says: "You nedn't lie to me, your leg's been julled again."

With every pound of Richelleu coffee we give a guarantee to please or money refunded. 25c and 35c cartons; 2-lb can for 75c and 3-lb can for \$1.00. Try it.

Science and the Castaway.

Boston Transcript.
Robinson Crusoe, up to date and multiplied by fifteen, has recently been enacted at Auckland Island, 200 miles south of New Zealand. Among the modern elements are a reduction of the time limit to seven months, seven matches in the possession of the castaways, and a knowledge of geography which enabled them to place a government food depot. The most primeval part of their experience was a diet of raw mollyhaws. Even Robinson Crusoe fared better than that. But the really modern part of their episode was their rescue. Previously castaways had only one hope, and that rested on the chance that friendly pirates would put in to bury treasure. But this party was found by a scientific expedition. Its members may be disappointed when the "subject" turns out not to be an anthropoid, ape or primeval man; but, instead of slaying the mariner on the high seas, he is put to work picking flowers or breaking stone. It is the frequency of these scientific parties in the southern hemisphere which has reduced the plight of the castaway to something far short of desperate. Place him on a peak of the Andes and the college observatories will look out for him; plunge him into the jungles at the headwaters of the Amazon and an exploring party will come at his halloo. Even cast on a coral island of the South Sea, assuming an absence of cannibals, the botanizing parties will happen along before he has time to starve.

If you are fond of sweet pickles you will be more than pleased with the Heinz line that we offer. Try them. 35c for a quart glass jar.

Wichita Falls, Texas, Jan. 28th, 1908.

In speaking of his guarantee deposit measure Congressman Hinshaw said: "There were in the 4,625 national banks of the country in 1906 \$4,065,000,000 deposits, and 1897 \$1,770,000,000, and for the ten years from 1897 to 1906, inclusive, the average was a little less than \$3,000,000,000. A tax of one-twentieth of one per cent upon the deposits of 1906 would produce \$2,000,000 per annum. The losses from national bank failures amount to \$1,000,000 a year. The tax of one-twentieth of one per cent upon a bank having deposits of \$200,000 would amount to \$100 in such years as the tax is levied; upon a bank with \$500,000 deposits \$250, upon \$1,000,000 deposits \$500; sums which, to the ordinary banker, would be insignificant when compared to the perfect security both to depositors and banker. A law of this kind would, in my judgment, effectually prevent panics, and the recurrence of the lack of confidence which was probably the cause of the late financial disturbance. This would in no way interfere with the action which the several States would probably take likewise to insure the depositors of State banks as Oklahoma has already done. Postal savings banks would be a step in the right direction, but it seems to me that the method

here proposed would be effective of full and absolute security. Suggestions would be gladly received upon the details of this measure. This question is now receiving much consideration from various members of congress, but it is difficult yet to say whether any legislation can be accomplished."

For years Wichita Falls has been advertised as a good show town, and it is, but the "frost" given last night at the Olympic to Lucia Moore in "Alice-Sit-By-The-Fire" indicates that our people have become so accustomed to witnessing poor shows that they do not appreciate a real attraction when an opportunity presents itself. Only last week a show of little or no reputation drew a \$300 house to the Olympic. Compare this to the \$67 house, for an attraction which, in most towns, requires a guarantee of \$350 for a one night stand, and see the difference. Many of our people did not buy tickets for the reason they were under the impression that a \$1.50 attraction could not be played on so small a stage as is afforded by the Olympic, but the few who did witness the performance were highly pleased. The Times regrets exceedingly that "Alice-Sit-By-The-Fire" met with such a poor reception in Wichita Falls. Without any doubt, it was the best show that has visited this city in ten years.

After many months of persistent agitation the Gainesville Messenger has at last aroused the business men to the importance of a live commercial organization and a meeting will be held there tonight to take the preliminary steps to perfect such an organization.

Although the acreage planted to wheat in Wichita and surrounding counties is smaller than for the past ten or fifteen years, reports from the country indicate that the prospects for a splendid yield are very promising, though there is some apprehension that unless we have some real cold, freezing weather, the crop will meet the same fate as last year and be destroyed by the green bugs.

The stock of high grade goods that we offer will make it to your interest to trade with us through February. Try us.

TREVATHAN & BLAND.

If there has ever been any let-up in the growth and prosperity of Wichita Falls during the past two or three months, it has not had sufficient effect to reduce the price of real estate. On the contrary, vacant property which changed hands during the midst of the money panic has since changed again at a considerable advance in price. Desirable residence property is getting very scarce, and lots which one year ago were considered high at from \$400 to \$500 cannot now be purchased for less than \$500 to \$750. In the business portion values on vacant lots have been more than doubled and in a few instances trebled.

The Aroma of a Goat Ranch.

Five hundred dollars was subscribed at a negro mass meeting held at Muskogee to fight the Jim Crow law in the courts. The money raised will be used in testing the constitutionality of the law. The coons want to ride in chair cars with the white people, where they can impregnate the atmosphere with the pungent aroma of a goat ranch.

The coons are kicking about the Jim Crow cars on railway trains, but it is nothing to compare with the howl they will send up when they hear about the Jim Crow jails. District Judge Carruthers of Okemah has ordered Jim Crow jails for all the counties in his district, which means a complete segregation of whites and blacks in the county coolers. Here in Oklahoma it is written by proud sons of the South that a "nigger" cannot even go to jail with a white man—Kell City Enterprise.

EVENTS OF THE WEEK.

The political field unusual interest attaches to the speech which Governor Hughes will make before the Republican club on Friday evening. On this occasion Mr. Hughes is expected not only to formally announce his candidacy for the presidential nomination, but also to declare himself on the national issues which will enter into the campaign.

Rear Admiral Evans' battleship fleet is scheduled to arrive at Punta Arenas on Friday or Saturday. The torpedo boat flotilla will probably join the fleet there and, after a stay of five days, the combined fleet will pass through the straits of Magellan and head northward for Callao, the next stop.

In congress this next week pending bills will take up the time of both houses. The house will devote Monday to business pertaining to the District of Columbia and Tuesday to private pension bills, those displacing for those days the urgent deficiency appropriation bill and the penal code bill, which have a right of way under ordinary circumstances. On Wednesday the appropriation bill will again be laid before the house and probably will hold its place until finally passed. The code bill will receive the attention of the house when there is no special order or appropriation bill requiring attention. The code bill still holds first place in the senate and Senator Hepburn, who has it in charge, expresses some hope that the consideration of it may be concluded this week. The Aldrich financial bill will be reported to the senate during the week, but debate on it will not be open for some time after it has been placed on the calendar.

Three national conventions of more than usual interest will be held during the week. On Wednesday in Washington the American forestry association will begin a meeting, during which the forestry problem in all its phases will be discussed by experts, particularly with reference to the future of the paper industry and the proposed forest reserves. The American breeders' association will begin its an-

nual session in Washington on Tuesday, and on Wednesday, at San Antonio, Texas, the Brotherhood of Locomotive Engineers will convene.

The most conspicuous event of the week in the foreign field will be the reopening of the British parliament on Wednesday. The session gives promise of being unusually interesting because of the many grave problems which will confront it. Among the more important matters which the parliament will consider is the Irish question in its various phases and license holders, the old age pension program, the proposed amendment to the education act, and eight-hour labor law and various other reform measures which promise greatly to increase national expenditures.

On Saturday Baron Takahira, the new Japanese ambassador to the United States, will leave Rome. He will come to this country via Paris and London in order to hold conferences with the Japanese ambassadors at those posts. Baron Takahira will probably reach Washington by the middle of February.

On Thursday Viscount Hayashi is scheduled to address the Japanese diet regarding the immigration question. In view of the announcement that his remarks were deferred until after the receipt of a note from the American state department, his address will be regarded as highly important, being the first definite announcement of the plan of the Japanese government to restrict immigration to this country, in accordance with the arrangement recently concluded with Washington.

Noted Orator Coming.
Dr. Edward Thomson, a noted orator and reformer, will deliver three lectures in this city next Sunday on "True Americanism." He speaks at 11 a. m. in the Tenth street Methodist church, at 3 p. m. in the court house and at 7:30 p. m. in the First Baptist church. Dr. Thomson is one of the most finished orators of the South. Much eloquence, poetry and patriotism are contained in his lectures and if you fail to hear him you will miss a rare treat.

THE WICHITA FALLS SANITARIUM
A modern, up-to-date institution for treatment of Medical and Surgical Diseases. Trained nurses in attendance. Corner 7th St. and Scott Ave.

Mrs. Eddy Taken to New Abode.

Boston, Mass., Jan. 27.—Guarded with the utmost secrecy, Mrs. Mary Baker G. Eddy, founder and head of the Christian Science church, was removed by a special train yesterday with all her household attendants from Pleasant View, in Concord, N. H., where she has lived for nineteen years, to a new house in the fashionable Chestnut Hill section of Brookline.

Preceded by a pilot engine to clear the way, the special train of three cars left Concord at 2 o'clock and proceeded over three railroads by a circuitous route to the Chestnut Hill station of the Boston and Albany road. In the rear of the train, to guard against collision, there trailed a third engine.

There were seven closed carriages to meet and convey the party to the Lawrence estate. The fifth carriage in the line, the smallest of all and the least conspicuous, was occupied by Mrs. Eddy, Calvin A. Frye, her secretary and another man, apparently a groom.

When the carriage of Mrs. Eddy drove up to the porch Calvin A. Frye was the first to leave it, and following him the other man. Leaning back into the carriage the big man, powerful of limb, gathered up the frail form of Mrs. Eddy. Wrapped in a long seal skin cape she was carried gently up the steps in the big man's arms, thru the line of people, who murmured softly as she passed.

To Rural Route Patrons.

Postmaster Bacon desires to call attention to the practices of some patrons of rural delivery of placing loose coins in their boxes each time they desire to dispatch letters, instead of supplying themselves with postage in advance of their needs.

This practice imposes undue hardship on rural carriers in removing loose coins from boxes and delays them on the service of their routes.

The postmaster, therefore, urgently requests that patrons of rural free delivery routes provide themselves and keep on hand a supply of stamps consistent with and in advance of their needs. It is also very desirable that rural patrons place in their mail boxes small detachable cups of wood or tin in which to place coins, when necessary, in purchasing supplies of stamps.
