

SITUATION SERIOUS

DANGER OF ATTACK ON FOREIGNERS IN HAITI IS VERY IMMINENT.

EXECUTIONS NUMEROUS

United States and Other Nations Dispatch Gun Boats to the Island.

By Associated Press. Washington, D. C., Mar. 17.—The Haitian situation is described by the State department officials today as decidedly more grave than at any time since the revolution has been in progress.

Claim Situation is Tranquil. By Associated Press. Port au Prince, Hayti, Mar. 17.—Two foreign cruisers have arrived here, the British Indefatigable, and the German Bremen.

Fresh Executions Last Night.

By Associated Press. Paris, France, Mar. 17.—The official dispatches received from Haiti indicate that the situation is still critical for the foreigners.

POLITICAL NOTES.

The story comes from Washington to the effect that Senator LaFollette, Republican, from Wisconsin, is likely to be a candidate for the presidency on the Independence League (William R. Hearst's party) ticket.

The anti-Baileys, through their chairman, George W. Riddle, have issued a circular to the democrats of Texas, urging the two hold mass meetings in their respective communities on Saturday, March 28th.

POPULISTS MAY RUN LAFOLETTE

Kansas National Committeeman Waterbury Refuses to Talk Fusion. Emporia, Kan., Mar. 16.—United States Senator LaFollette will be nominated on the first ballot as the Populist candidate for president.

Waterbury said LaFollette would be given a chance to accept or refuse until after the republican national convention. He declined to state whether the populists would try to have LaFollette made vice president and then fuse with the republicans.

A FEW BRICK BURNED.

Clay Shipped From Here Made Into Brick at Gainesville.

W. W. Stannforth of Gainesville has written to local parties that he expected the bricks made from the clay shipped from this place to be burned and ready for exhibition today.

Bricks from the clay shipped to Chicago and to Bucyrus, Ohio, will be shipped about the 27th of the month and will probably arrive here early in April.

If the samples are up to the standard expected, the organization of the company to put in a brick plant will be completed and the plant put in operation at the earliest date possible.

WHEAT IS ALL RIGHT.

No Damage From Green Bugs Noted So Far This Year.

Oklahoma City, Ok., Mar. 16.—"I am constantly getting reports from the wheat growing section of Oklahoma and no damage has been done by green bugs so far," said C. V. Topping, secretary of the Oklahoma Millers' Association, today.

Even Mortgages Swept From Land.

Chronicling the fact that a fierce prairie fire had been raging for several days near Channing, Texas, the agent for the Fort Worth and Denver at that point has written to the general offices of the road in Fort Worth that even the mortgages seemed to have been burned off the land by the raging fire.

He writes further that houses, barns, fences, straw stacks, hay racks, in fact everything that came in the path of the flames, were destroyed. The extent of grass acreage destroyed is not known locally.—Fort Worth Record.

EVANS TO RETIRE AT SAN FRANCISCO

By Associated Press. San Francisco, Cal., Mar. 17.—A special dispatch from San Diego, Cal., contains the news of the announcement today from Rear Admiral Evans, commander of the Atlantic fleet, that upon his arrival in San Francisco he would retire from the command because of ill health.

Thomas Will Succeed Evans.

By Associated Press. Washington, D. C., Mar. 17.—At Admiral Evans' personal request, he will be relieved of the command of the battleship fleet on reaching San Francisco. Rear Admiral Thomas, next in seniority, will succeed Admiral Evans in command of the fleet. It has not yet been determined whether Admiral Thomas will bring the fleet around the world to the Atlantic station or not.

Will Build to Charlie.

A Henrietta dispatch to the Fort Worth Record says: The Henrietta and Southwestern railroad received sixty-six cars of new steel yesterday and the road will soon be completed twenty-two miles out. This will open up a large trade territory tributary to Henrietta and give her railroad connections with five or six good inland towns that have been forced to go to other trading points on account of the distance of the railroads being so far from their locations.

A Mistaken Idea.

Referring to a press dispatch which appeared in yesterday's Times, Rev. J. Dolje has the following to say, which the Times takes pleasure in giving space.

Anent the new law about marriage engagements and marriage contracts in the Catholic church, it is a mistaken idea that it forbids absolutely the union between Catholics and non-Catholics. On the contrary those unions remain as they were before the publication of this decree—only to be binding for the Catholic part, they must be performed by a legitimately appointed priest.

BLOODSHED OVER BAILEYISM.

Tom Blair Dangerously Stabbed at Waco by P. H. Carnes.

Special to the Times. Waco, Tex., Mar. 17.—The first bloodshed over Baileyism resulted here today when Tom Blair, a son of the late Capt. T. A. Blair, received a dangerous stab in the side, for which P. H. Carnes, a traveling salesman, was arrested and later gave bond.

Large Attendance at Revival.

A crowd which nearly filled the large auditorium of the church was present at the opening meeting of the Baptist revival last night. "Prayer" was the theme of Rev. George Traett's opening sermon, which was an inspiring discourse, delivered with an earnest appeal to every hearer.

MAY BE NO DISPENSARY.

Two Branches of Oklahoma Legislature Cannot Agree on Measure.

Guthrie, Ok., Mar. 17.—The house this afternoon issued an ultimatum to the senate, following the latter's refusal to accept the house amendment, applying the emergency clause, by demanding that the amendment either be accepted or the bill returned, that the dispensary feature may be entirely eliminated.

POLITICAL WORK BEGUN AT DENVER

By Associated Press. Denver, Colo., Mar. 17.—Active political work preliminary to the democratic national convention, which meets in Denver on July 7th, has already begun in this city.

The campaign will be opened two months earlier than usual. Prominent among those who have been mentioned in connection with the presidential nomination are W. J. Bryan of Nebraska, George Gray of Delaware, Stuyvesant Chadler of New York and Governor Johnson of Minnesota.

MORE WAGE REDUCTIONS.

Wages in Cotton Mills at Holyoke and Norwich Cut 10 Per Cent.

By Associated Press. Holyoke, Mass., Mar. 17.—Notices of a 10 per cent reduction in wages for one thousand four hundred operatives to take effect on March 30th, were posted in the Lyman mills, Holyoke's principal cotton mill, today.

One Thousand Affected at Norwich.

By Associated Press. Norwich, Conn., Mar. 17.—Notice of a 10 per cent reduction in wages of the cotton mills of the Shetucket Company and Falls Company were posted today. The reduction will take effect next week. In all, about one thousand hands are affected.

Death of Prominent Preacher.

Rev. W. S. Splawn, pastor of the First Baptist church of Bonham, and a preacher of considerable note, died this morning as a result of an illness of several weeks duration. Rev. Geo. Truett of Dallas, who is conducting the revival meeting at the First Baptist church in this city, was telegraphed for by deceased's relatives to come to Bonham and preach the funeral of Rev. Splawn, but it was impossible for him to grant their request.

SENATORS WILL HELP

BAILEY AND CULBERSON WILL GIVE HELP IN SECURING FEDERAL BUILDING.

LETTERS ARE RECEIVED

With Bailey, Culbertson and Stephens Favoring an Appropriation, Measure Should Pass.

The following letter and the appended communication concerning the proposed Federal building in Wichita Falls shows that a bill for an appropriation for a building will have the strongest kind of backing. The following is a letter from Senator Charles A. Culbertson:

United States Senate, Washington, D. C., March 14, 1908. Mr. W. J. Bullock, Wichita Falls, Texas: My dear sir—Your letter of the 9th instant, in reference to a public building at Wichita Falls, is received, and the situation is thoroughly appreciated by me.

ANOTHER RAILROAD.

Capitalists Propose to Build Railroad Out From Jackboro.

Jackboro has high hopes of getting another railroad. Within the past year big coal fields have been discovered in the northwest portion of Jack county and capitalists are now proposing to construct a line to traverse the property.

First, the capitalists propose to build a line from Jackboro to Seymour, penetrating the newly discovered coal region. Later they expect to try for an inlet to Fort Worth and Dallas, but the fact that the Rock Island now leads fairly direct to both cities may cause an abandonment of this plan and result in package arrangements being made.

The promoters have left Jackboro and gone on a personal survey of the territory between Jackboro and Seymour, as they intend to conduct a thorough investigation before taking any definite action.

MR. CHRISTENSON HERE.

Accepts Proposition to Remove Foundry to This City.

J. V. C. T. Christenson, the Nacogdoches foundryman, whom the Chamber of Commerce has offered a site and \$400 in cash if he will remove his plant to Wichita Falls, is in the city today and in company with several prominent business men, looked over several prospective sites today upon which options have been taken.

Mr. Christenson has virtually accepted the offer made by the Chamber of Commerce and it is probable that the site will be decided upon today. After this is done Mr. Christenson will return to Nacogdoches to begin the loading of his machinery for shipment to this city.

RAILROAD BONDS ARE ELIMINATED

By Associated Press. Washington, D. C., Mar. 17.—The senate committee on finance today voted unanimously to amend the Aldrich financial bill by eliminating railroad bonds as security for national bank note circulation. It was also decided to amend the bill so as to retain the provision of the present law, prohibiting the retirement by national banks of more than nine millions of dollars from circulation in any one month.

REPAIRING

Is there any known piece of mechanism that works as steadily as a watch?
Only one—the human heart.
What treatment should a watch receive?
It should be regularly cleaned and readjusted.
How often should this be done?
At least once a year.
Is it wise to neglect this?
It is not.
For what reason?
Because the delicate parts of a watch wear out quickly if allowed to run while dirty.
Is it real economy to spend a dollar or so to have a watch kept in right condition?
It assuredly is.
Who is competent to do the best work?

Election for Tax Collector Called.
Mayor Noble today issued notice of an election for City tax collector to be held on the same date as the election for mayor and two aldermen.

Mayor Noble says that it was his intention to call for the election of a tax collector when the other notice was given, but in some manner that office had been left out of the notice inadvertently, and its omission was not discovered until last night, when attention was called to the fact by the Times.

Only one more day remains for the petitions for the election of candidates can be filed. The name of Harry Robertson is the only candidate whose petition has been filed.

"Apostle of Joy."

The Shamrock, the small white clover of Ireland, is associated with St. Patrick from the day on which he used the trefoll to illustrate the doctrine of the Trinity. It is interesting to know that the Arabic name for the trefoll is "shamrakh" and that it is held sacred in Iran as emblematical of the Persian triads. Pliny comments on the fact that serpents are never found near the trefoll leaf.

The course of St. Patrick through Ireland, England, Scotland and Wales may be traced by the existence of places named after him. Legends abound without number, each adding to the love and veneration investing this saint, who was in truth an apostle of good works and joy.

Much of the danger which we anticipated from using canned vegetables can be avoided by washing them thoroughly. All kinds, of course, will not admit of a bath, but beets, peas, spinach, or string beans I always empty from the can into the ebullient and hold it under the faucet until they are well rinsed, after which I heat and season them and serve fearlessly.

To make a hole in a glass, press upon the glass a cake of wet clay and make a hole the desired size through the clay, laying bare the glass at the bottom. Four melted lead into the hole and it will drop through the glass and leave a perfectly smooth, round hole.

When mending stockings having large holes, if a piece of mosquito netting is placed over the hole, and then darned through the meshes, it will make a disagreeable task much easier.

A pan of salt is put on the bottom of oven under pans when baking gingerbread or any cake easily burned. It will prevent its burning.

Putting a pinch of salt in the coffee improves the flavor.

The New Hat.

It has a high, high crown. And a narrow brim. This brim is drooping, perky, straight, Marcelled—anything.

The crown suggests the hat of a highwayman of 1820.

It is known officially as a "jampot." It is very chic, provided you look well in it.

But not one woman in a hundred does.

One of the new effects on straw hats is a pongee covering.

For example, the brim may be straw, the crown of tightly drawn pongee, and vice versa.

Pongee-covered buckles and pongee scarfs are also introduced.

Nearly all these thimble-shaped crowns are trimmed with high folds of silk velvet, net or straw.

They may be trimmed otherwise with feathers, wings or flowers.

If a mass egret, lyre, or rare feather is used the "jampot" can be made to cost a hundred or so.

"Ten years from now Wichita county will be raising in the neighborhood of thirty-five thousand bales of cotton annually," was the prediction of an old resident who has been raising wheat and small grain crops in this county for the past twenty years. According to the way he puts it, the only reason that this county is not developing more rapidly as a cotton county, is due mainly to the fact that our merchants do not take kindly to the crop mortgage system. As is well known, in all cotton countries, the merchant is given a mortgage on the first cotton gathered and marketed to secure him for advancing supplies to the man who cultivates the crop, and in this manner he is required to make only one settlement each year with his merchant. There is a desire on the part of some farmers in this county and section that the crop mortgage system be introduced in order to more rapidly develop this into a cotton country. As for the Times, it rather likes

the system which now prevails in this section, i. e., pay as you go, and while it would like to see more of our lands planted to cotton, it does not believe that it is best to raise all of one crop of anything. It has been most thoroughly demonstrated that the farmer who raises a little of everything is the man who prospers, and who is not asked to give a crop mortgage when he wishes to obtain credit. There is not the least doubt but that if our merchants were in a position to furnish a man supplies for eight months or a year it would have a tendency to more rapidly induce cotton farmers to this section of country, but the Times doubts very much if it is to the interest of the farmers to inaugurate such a system. Last year Wichita county produced in round numbers 6,500 bales of cotton. Reports from the Red river country this year are to the effect that at least three times as much cotton will be planted this year as was planted last year, and if the balance of the country is increasing its cotton acreage in proportion, and as favorable season as last year for cotton culture is had, it would indicate a 15,000 or 20,000 bale crop. This is sufficient increase for one year. Doubtless many of these cotton farmers will need aid and our merchants and business men, if necessary, should take steps to perfect an organization that will enable them to extend to these farmers a line of credit in order that they may be more able to properly cultivate their crops. This is a matter that can best be handled by our Chamber of Commerce. In order to build cities, it is necessary to build up the country surrounding it with thrifty farmers and every assistance consistent with sound business principles should be extended to those who produce the crops.

It seems that through an oversight no election was ordered for the election of City assessor and collector. The Times in yesterday's issue, made reference to this omission, and in that manner the error was brought to the attention of Mayor Noble, who has caused the correction to be made, and the order now reads: "For the election of a mayor, two aldermen, and a city assessor and collector." As this is the last day for petitions of candidates to be filed, it is likely that there will be but one candidate for the office.

ARTHUR REED & COMPANY

Senator Owen True to Women.
 The women of Oklahoma may well be proud of their champion in the United States senate, for the address of Hon. Robert L. Owen before the Judiciary Committee of the House of Representatives the other day proves that he is as true to their interests in Congress as he was at home, when they were making their fight for recognition in the State constitution. Senator Owen spoke in favor of the bill providing for a sixteenth amendment, prohibiting disfranchisement on account of sex. It was a magnificent address and among other things he said:
 "Every good principle I have learned, everything of good morals and good manners I received from a woman. As I have observed in history that just as high as is the position given to women in a nation just so surely will that nation rise to distinction and fame. I give my adherence to this cause with enthusiasm and religious zeal. I know when I serve the women I serve God. When there are 6,000,000 women earning their living outside of domestic service, with what face, gentlemen of the committee, do you refuse this prayer of the women?
 Some tell us that the bad women would vote. I answer this by pointing out to you that there are many more good women than bad in the world.
 "I love the women's cause for the enemies it has made."

Friberg News Notes.
 Special to the Times.
 The educational rally that was held at Thornberry on the 14th by the public school under the supervision of Prof. S. H. Camp, the principal, was a decided success. The program, which consisted of music and addresses, was highly enjoyed by a large audience. The principal speakers were Judge S. A. Denny of Henrietta and Prof. J. H. Hallady, county superintendent. A revival is now in progress at the Methodist church at Thornberry under the leadership of the pastor, Rev. Edgar M. Wisdom, assisted by Rev. J. E. Bates and his brother, Robert. The meeting has an interesting outlook and bids fair for a great success.

Removal Notice.

PICTURE OF A DRIFTER.

A Character Well Known All Over The South.

The following description of the "drifter" is from the San Angelo Standard, and is so true to the "nature of the brute" that one can see the old ramshackle wagon, the mismatched ponies, the lean dog, the dirty assortment of motley and ill clad children and the sad, heartsick, worn out woman, whose fidelity outbalances her distracted judgment. The drifter is peculiar to no clime or nation, and the only constant thing about him is his ever undependability, hungry and dirty appearance.

The drifter believes the world owes him a living, and he is ever on the move to collect the debt. His stock in trade usually consists of a wagon, bearing the marks of antiquity and hard usage; a pair of ponies which, from appearance, might have done service during the early days of the republic; a numerous family, two or three sycamore fishing poles and a tribe of lean and shadowy dogs.

In the early springtime the drifter may be found along our public highways, looking for some one who wants a good man to crop on the shares, but he never finds the right man. Meantime, he lives; just how, the Lord only knows, but he exists all the same. At planting time he is found in a rude camp on the banks of a creek, where the children fish while he assists a neighboring farmer for a few days, in return for which he receives a daily stipend of clabber and an order on the country merchant for several pounds of Battle Axe, some cartridges, six bottles of Garrett's snuff and a sack of meal. Later he is seen in another section of the country at cotton chopping time, camped where fishing is good, and while his ponies graze in the stockman's pasture, he, wife and his progeny may be seen chopping cotton for the farmer who is behind with his work and has plenty of buttermilk and clabber.

In "watermillion" time the drifter revels amid scenes of terrestrial glory. But he keeps up his diet of clabber and buttermilk, donated by sympathetic housewives.

When the cotton season opens he and his tribe may be found at brief intervals in the cotton patch—here today, next week in another county—always drifting—same old wagon, same old ponies, same old dogs, same family, with perhaps an increase, and same old grub—clabber and buttermilk.

Pecan gathering season finds him along our Western rivers, threshing and gathering pecans on the shares and when winter's cold blasts sweep down, the drifter either hies himself to our towns and cities to become a burden on the public, or else drifts back to his wife's people in Collin and other North and East Texas counties, where they always want to make a crop, but seldom make it.

There is no better ham than our boiled ham. Try it once and you will use it. Sliced just like you want it, 30c a pound.

A Curious Cipher Code.

Prisoners confined in different parts of jail often use cipher codes in communicating with one another. In the Kansas City jail some years ago the officials came across a hard one. A fellow named Turner, in for forgery, invented the puzzle. The writing was on long narrow strips of paper, on the edge of which were letters and parts of letters that apparently had no connection and from which no words could be formed. One day a deputy who was passing the cell of a prisoner saw him passing a long strip of paper around an octagon lead pencil. He took the paper away, and on it were the mysterious scrawls that had worried the keepers. But the deputy got an idea from this, and, going back to the office, he wrapped the strip around an octagon shaped lead pencil and after several trials adjusted it so that the parts of the letters fitted together and made a sentence, though the writing was very fine. The writer had adopted the simple but ingenious plan of covering the pencil with paper and had then written along one of the flat sides. On unrolling it the writing was as mystical as a cryptogram, but when put around the pencil as it was originally it could be easily understood.

All lovers of black tea should try Chase & Sanborn's Orange Pekoe. It's fine. J. L. Lea Jr. 263-24
