

RUMOR OF RECEIVER

STATED THAT TEXAS AND PACIFIC WILL GO INTO HANDS OF RECEIVER.

REPORT SHOWS DEFICIT

Labor and Restrictive Legislation Are Responsible for the Poor Showing.

Special to the Times.
Fort Worth, Tex., Mar. 19.—It is reported on good authority here that the Texas and Pacific contemplates following the course of the International and Great Northern and apply for a receiver in the Federal court. Definite action has been postponed pending the steps the railroad commission will take on receiving the defcy from the road, refusing to obey the improvement order. The recent conference of the road's officials and the federal authorities tends to confirm the report which is prevalent in railroad circles here. The commission, it is said, will insist that its orders be obeyed.

Deprecates Labor's Attitude.

New York, Mar. 18.—In the annual report of the Texas and Pacific to the last day of the year, 1907, made public today, a deficit is shown, deducted from the previous surplus. George J. Gould, president of the company, says: "There has been no cessation in the demands of labor during the past year, and this growing burden is becoming a serious menace. These demands are not confined to wages alone, but for shorter hours as well, often accompanied by arbitrary stipulations.

"It is a regrettable fact that the enactment of recent laws to regulate the relations between the employer and the employed, and the threat of still more drastic ones, however well meant, has had the effect to alienate the close relations heretofore existing between the two, and has in a large degree robbed the employe of the old-time personal independence and ambition that stimulated him by honest endeavor to advance."

Refuses to Obey Order.

Austin, Tex., Mar. 19.—The Texas Railroad Commission has a letter from General Manager L. S. Thorne practically refusing to comply with the order for improvements to the Texas and Pacific by the railroad tribunal. There is expected acquiescence in but one stipulation of the improvement order, that was for a reduction of the operation schedule.

The letter to the commission recites that the new rails ordered on the eastern division are not needed and that the condition of the money market precludes the possibility of making the change in the time stipulated. It declares that compliance with the bustling order is impracticable, and, continuing, says that new ties are continuously being placed, but says nothing with reference to a thorough carrying out of the order as regards the relieving of the road.

Negroes Leaving Haskell.

Advices received from Haskell today state that negroes are leaving that town as rapidly as they can get away and that the trouble that had been threatened had disappeared.

It is believed that most of the negroes who have been driven out of Haskell will go either to Wichita Falls or Abilene.

Graves Gives Bond.

Arthur Graves, who was bound over last week to the action of the grand jury, charged with an attempt to murder E. P. Walsh, was today released from jail, having furnished bond in the sum of \$1,500 for his appearance. M. A. Graves of Jacksboro and J. H. Russell of this city are his bondsmen.

The challenge made by the court house ball team to the Elks having been accepted by the latter organization, the preliminary arrangements for the game are now being made and the contest will be pulled off next Saturday afternoon.

TODAY'S MARKETS.

Special to the Times.
Fort Worth, Tex., Mar. 19.—The total cattle receipts today were 1,250 head. The market was generally very steady.

Beef Steers—Receipts light. Quality fair. Market active and prices steady at \$3.95@4.50.

Butcher Cows—Receipts, 400. Quality fair. Market active and steady at \$2.60@4.00.

Calves—Receipts light. Quality medium. Market unchanged. Tops sold at \$5.00.

Hogs—Receipts, 1,900. Quality good to choice. Market active and higher at \$4.60@4.90.

HUMMELL GETS FREEDOM.

Noted Criminal Lawyer Will Sail for Europe.

By Associated Press.
New York, Mar. 19.—Abraham Hummell, the lawyer who was sentenced to serve a year in the penitentiary for conspiracy in the Dodge-Morse divorce case, was released from prison today.

His term was reduced to about ten months by allowances made for his good behavior. It is said that arrangements have been made by Hummell's friends for him to sail for Europe within a few days.

FIVE HUNDRED MEN LAID OFF.

Railroad Makes Big Cut in Its Force at Nashville, Tennessee.

By Associated Press.
Nashville, Tenn., Mar. 19.—Five hundred men who were employed in the locomotive department of the Nashville, Chattanooga and St. Louis railway shops have been laid off. This means a saving of thirty thousand dollars a month for the road. There are still over five hundred men in the shops. Many of the men laid off were experienced workmen.

Rangers En Route to Haskell.

State Rangers White and Rountree, who have been stationed at Bowie, passed through Wichita Falls today en route to Haskell, where they have been ordered for duty on account of the threatened trouble between the negroes and the whites at that place.

They knew nothing concerning the nature of the disturbance at Haskell. Word received here from Haskell today states that everything is quiet there and that the negroes are rapidly leaving that place.

TRANQUIL AT PORT AU PRINCE.

Arrival of Warships Gives Feeling of More Security to Foreigners.

By Associated Press.
Port au Prince, Mar. 19.—The situation today continues tranquil. Three other warships have arrived in port. The new arrivals are the American cruiser Des Moines, the American gunboat Paducah and the English cruiser Cressy.

Richelleu sweet wrinkled peas. The best we offer. Only 17 1/2c a can.

TREVATHAN & BLAND

POISONED BILLETS

LETTERS RECEIVED BY CHICAGO OFFICIALS THREATEN HIDEOUS FORM OF ASSASSINATION.

DEADLY STEEL POINTS

Which Will Inject Fatal Poison Into the System Can Be Fired From New Gun.

By Associated Press.
Chicago, Ill., Mar. 19.—It became known yesterday that sensational letters threatening a novel and hideous form of assassination have been received lately by Mayor Busse, Chief of Police Shippy and Assistant Chief Schuettler. In the letters were inclosed a dozen or more small steel points. They were smooth, bright and sharp. The writer said that he was one of a number of persons banded together to kill the mayor and other officials. A revolver, he said, had been constructed to shoot cartridges composed of the steel points, samples of which were inclosed. The steel points, the writer said, were dipped in deadly poison. By means of this gun a dose of fatal poison could be shot into the system of the intended victim and death would ensue at once.

Real March Weather.

The mercury in the thermometer took a decided fall yesterday afternoon and today a chill damp wind is blowing.

From midsummer heat to typical March weather was a transition which made those who had donned summer clothing hustle back into their overcoats and winter wraps. The soda fountains, which had been doing a big business, are entirely deserted today, and the unpleasantness of the weather is accentuated by the unusually bright warm days that preceded the change. Frost is in no immediate danger and the temperature will have to drop a number of degrees yet before any damage will be done, as the winds are carrying considerable moisture which will serve to protect the buds from the frost.

ANOTHER FLOOD AT PITTSBURG

By Associated Press.

Pittsburg, Pa., Mar. 19.—With a surprising suddenness another flood of the rivers is being experienced at Pittsburg and vicinity today. According to the local United States weather bureau a possible stage of thirty-three feet can be expected early tomorrow. If the prediction forecast materializes, the suffering and damage which will result in this city and vicinity will be wholesale.

Early today a sand dredge belonging to the Pittsburg Plate Glass Company broke from its moorings at Tarentum and went over the government dam at Springdale. It is not known whether the crew of five men succeeded in escaping.

BEFORE INVESTIGATION.

Secretary Metcalf and Admiral Capps Appeared Today With Documents.

By Associated Press.
Washington, D. C., Mar. 19.—Secretary of the Navy Metcalf and Admiral Capps were among those who appeared today before the submarine investigation committee. Both Secretary Metcalf and Admiral Capps brought with them navy department documents and records which had been requested by the committee.

SUFFRAGISTS ARRESTED.

Nine Berlin Policemen and Fifty People Injured in Demonstration.

By Associated Press.
Berlin, Germany, Mar. 19.—A total of forty-seven arrests were made in Berlin yesterday in connection with the suffrage demonstrations. Nine policemen sustained injuries in their encounter with the people. It is estimated that fifty manifestants were wounded.

Made in Haiti.

Port Worth Telegram.

Haiti has more than 1,000,000 inhabitants and takes up one-third of the island lying southeast of Cuba, sometimes called San Domingo, and sometimes by the name of the republic. Haiti was the sixth point of land discovered by Columbus, who called it Hispanola. It lies about 1,400 miles south of the New England coast, and on a line almost due east of the City of Mexico.

Not more than one-tenth of the people are whites, the remainder being people of unmixed African blood, mulattoes, quadroons, octoroons and varying other shades of color. French is the language spoken by the upper classes, and a French patois, spoken but not written, is the language of the common people and of commerce. Nowhere else on the western continent has there been such a mingling of races, white and black, in church, state, business and social relations, and no place has been more fruitful of blood-thirsty revolutions, outbreaks and disorders. The shrewdness and ambition of the French ancestry has degenerated into a savage cunning, and this, mingled with the bestial traits of the blacks, has made the Haitians a source of terror to foreigners within their border whenever any uprising has occurred.

Haiti stands a terrible example of the western continent of the price that is paid for the lust of gold. When Columbus found it, the people were savages, but they were happy, peaceful and contented. There probably were 1,000,000 of them, and they received the Spaniards trustingly. A Spanish colony was founded, and nothing worse might have happened had not gold been found on the island.

Then all the Spanish greed burst into a flame. The natives were put to work in the mines. When they died others were imported from neighboring islands. When these could no longer do the work, negroes were imported from Africa. After fifteen years it was estimated that the number of original natives of Haiti had decreased from 1,000,000 to 60,000. Then gold was discovered in Peru, and the Spaniards rushed away, leaving the Africans behind them.

France, by uniting with England, eventually got possession of Haiti in 1530. The whole island was ceded to France, but the eastern part of it went back to Spain and remained under that country's rule until the downfall of Napoleon.

When the French revolution broke out it was taken up in Haiti. Twenty years of carnage followed, but finally, in 1804, Haitian independence was proclaimed. Toussaint L'Overture, the only one of the republic's president to attain international fame, died a prisoner in France. Many of his successors have met violent deaths.

The last outbreak in Haiti was in 1902. General Sam, president of the republic, resigned. Congress succeeded in establishing only a provisional government, and General Firmin, who has figured in the present difficulties, led a revolt against this provisional government. Firmin seized a gunboat and threatened to bombard Port au Prince. Appeals from foreign residents brought two American vessels and a German gunboat. The Haitian gunboat, growing bold, stopped a Hamburg-American steamer and seized a cargo of ammunition. In retaliation the German gunboat Panther gave pursuit, drove the crew of General Firmin from his vessel and then destroyed it.

Tag Day Saturday.

Saturday is Tag Day and the ladies of the Civic League have arranged all their plans for a thorough canvass of the city to raise money to keep up the work in the city park.

Every man in Wichita Falls will be given an opportunity to buy a tag and it is hoped to raise a neat sum from the sale of these tags.

Assassinated by Two Men.

St. Petersburg, Mar. 19.—Dr. Karavaleff, who was the leader of the group of the Terlin in the Second Duma, was shot to death yesterday by two men at his home at Akatorinoelav.

A LONG AERIAL TRIP

NEW YORK AERONAUT HOPES TO SAIL FROM TEXAS TO THE COAST OF MAINE.

MAKING MONSTER BALLOON

If Flight is Successful a New World's Record Will Be Made.

Boston, Mass., Mar. 19.—A. Holland Forbes, the New York millionaire balloonist, in an interview today at North Adams, where he is making experimental air trips, made public his plans to make a world's record distance flight from Texas to the Maine coast.

He is having a monster balloon of 100,000 cubic feet capacity shipped from New York to San Antonio and will go up from there or an adjacent point early in May.

He is already in possession of meteorological data of prevailing wind currents and thinks his flight will take him over Texarkana, through Southwest Arkansas, skirting Missouri and Illinois. He may be forced to sail over Lake Erie and Ontario to get a favorable wind that will take him to the Maine coast.

Mr. Forbes is confident of accomplishing the feat.

RANGERS ORDERED TO HASKELL.

Adjutant General Acts on Telegram Received from Mayor.

Austin, Tex., Mar. 18.—Adjutant General J. O. Newton, acting upon a telegram from the mayor of Haskell, this afternoon ordered rangers from Austin and Weatherford to Haskell to quell an impending race riot.

The telegram was addressed to the governor, but, in the absence of the chief executive, General Newton acted on his own initiative.

The dispatch was meagre, merely conveying information that a mob was threatening to run the negroes out of town and that assistance was needed immediately.

The rangers sent from Weatherford may reach Haskell tomorrow before noon, those from Austin arriving tomorrow night.

RUSSIAN TERRORIST DEAD.

Although Broken Down By Imprisonment, Gerschuchin Kept Up His Fight Against Russian Despotism Until the Last.

By Associated Press.
Geneva, Switzerland, Mar. 19.—Gregory Gerschuchin, the Russian terrorist, died yesterday of consumption. He spent the last few days of his life in a hospital. Gerschuchin's health had been undermined by long terms of imprisonment, but despite his ill health he continued to work against the Russian government until he broke down completely.

QUAKER REFLECTIONS.

Philadelphia Record.

A good deal may be lost at poker on a bad deal.

Some men have nearly as many ups and downs as their umbrellas.

Things don't go exactly like clock-work for those who live on tick.

Where ignorance is bliss it's folly to know when you get the worst of it.

Th festive tramp may be a regular cut-up, until he catches sight of a wood pile.

About one man in a thousand can lose his money and still keep his friends.

The average girl will select a husband with less care than she will select a ribbon.

Regret for our mistakes is only practical when it prevents us from making greater ones.

Guzzler—"I feel all bunged up this morning." Wigwag—"You were certainly barreled last night."

"A woman trying to conceal her age," says the cynical bachelor, "always reminds me of an ostrich hiding its head in the sand."

Oh, my! So god pop corn, 5c per package. J. L. Lea Jr.

OLNEY GROWING FAST

TOWN AT TERMINUS OF THE NEW ROAD IS AWAKENED TO NEW LIFE.

MANY BUILDINGS GO UP

Local Parties are interested in Several Enterprises There.

This week the little city of Olney has been the scene of much bustle and hurry. Every man that wanted work could easily find it and we might say right here that this town has fewer drones than most places. All the available teams have been employed in hauling lumber and the many other things that they could be used for. The sounds of the hammer are heard from early morning till late at night.

Carpenters are at work putting the finishing touches on the sheds at the lumber yards of W. C. Bowman Lumber Company, Morrison & Smith Lumber Company, and Moore & Richolt. The sheds will soon be completed if the weather continues to be favorable. The yards now have large stocks and are receiving more lumber daily.

Hutchinson & Hubbard will soon have their business house finished and we are informed that an up-to-date stock of groceries will be put in on the completion of the building.

A Mr. Rogers is erecting a business house across the street from the Morrison & Smith lumber yard, which, we understand, will be used for the restaurant business.

Walter Sloan has commenced work on a building just east of the Hutchinson & Hubbard building in which to house his tin shop, tools, materials, etc., which are in transit and will be here by the time the building is completed.

A crew of men has been at work this week grading the principal street of the town. The money required to do this work was made up by private subscription and the work is being supervised by D. L. Haralson. This work adds much to the appearance and its value to the town is hard to estimate. The promoters of this move are

Every Farmer

As well as every business man should have a bank account.
WHY?

Because

Your money is safer in the bank than anywhere else.
Paying your bills by check is the simplest and most convenient method.
Your check becomes a voucher for the debt paid. It gives you a better standing with the business men.
Money in the bank strengthens your credit.
A bank account teaches, helps and encourages you to save.
This bank does all the book-keeping.
Your bank book is a record of your business.
To those desiring Banking connections with an Old Established Bank, we extend our services.

The First National Bank

U. S. DEPOSITORY,
WICHITA FALLS, TEXAS.

THE

W. F. Jourdan Furniture Co.

"The Home Furnishers"

to be complimented for their enterprise and public spirit.

This week R. Campbell let the contract to Bell & Hewitt of Breckenridge to do the stone work for a 60x80 foot business house. The building is to be two stories high and a partition making two 30x80 two-story buildings and built on the corner east of the City Barber Shop.

Workmen for the Wichita Falls Ice Company are building an ice house on the railroad right-of-way, north of the school house.

The railroad people have lumber unloaded for a depot at this place. A crew of men is now at work on the shipping pens.

Truly Olney is on the upward growth and the end is not yet.—Olney Oracle.

WANT HIS PLANT.

Chamber of Commerce Will Offer Mr. Christensen Definite Proposition.

At a called meeting of the Chamber of Commerce yesterday afternoon, it was decided that the organization favored the making of an offer to Mr. Christensen to induce him to remove his iron works plant to this city and it was voted to raise in the neighborhood of \$1,000 to place in the hands of a committee comprised of T. B. Noble, Frank Kell and A. Richolt with which they were either to buy a site for the plant and give Mr. Christensen \$400 in cash, or were to give him a sum sufficient to cover \$400 for freight and the purchase price of a satisfactory site. At the meeting yesterday afternoon something like \$450 was subscribed for this fund and a committee was appointed to solicit the remainder of the amount.

In event a contract is made with Mr. Christensen, which now seems probable, he will be required to sign an agreement that he will put in a specified amount of machinery, employ a specified number of hands and other specific agreements to insure a good plant.

We wish to notify our friends and customers that we are again agents for the oldest and best binder on earth,

The Deering Ideal, and that all that are in need of repairs we would very much appreciate if you would hand us a list of such parts wanted, that we may be able to accommodate one and all.

REPAIRING

Is there any known piece of mechanism that works as steadily as a watch?

Only one—the human heart. What treatment should a watch receive?

It should be regularly cleaned and readjusted.

How often should this be done? At least once a year.

Is it wise to neglect this? It is not.

For what reason? Because the delicate parts of a watch wear out quickly if allowed to run while dirty.

Is it real economy to spend a dollar or so to have a watch kept in right condition?

It assuredly is. Who is competent to do the best work?

POLITICAL NOTES.

It is reported that Senator Bailey and his friends are contemplating some action which will compel the members of the Texas delegation at Washington to make a public avowal of their attitude with respect to the Bailey issue. It is understood at Washington that Senator Bailey will return to Texas as soon as the Aldrich bill shall have been disposed of in the senate.

An anti-Bailey club has been organized in Wise county. The following resolutions concerning Bailey were adopted:

"Resolved, That we condemn Baileyism and all that it implies. We are opposed to one-man rule and refuse to be dominated by a man who has admitted that he has been allied to and has received favors from trusts, trust magnates and corporations whose interests are adverse to the interests of the people by whom he has been elected. A public office is a public trust.
"Resolved, That we most heartily endorse the meeting recently held in Waco and the measures there adopted in the interest of political purity.

A Bryan-Bailey democratic club has been organized at Comanche. Nearly one thousand names are on its membership roll.

The Bailey men in Dallas will meet tonight to select delegates to represent Dallas at the Bailey State convention in Fort Worth Saturday, March 28th.

William Jennings Bryan is celebrating his forty-eighth birthday today.

In a speech at the cattlemen's convention at San Antonio yesterday, Governor Campbell bitterly arraigned his enemies.

The governor declared that there was an organized movement on foot by the corporate interests of the State to defeat him if possible and failing in this to elect a legislature which would tie his hands and effectively prevent the carrying out of the democratic platform demands for the protection of the people.

He declared in an impassioned manner that he was being vilified and misrepresented in all parts of the State by the professional lobbyist, the bucketshop gamblers, the erstwhile free pass packer and the corporate interests who have not heretofore paid their just share of the taxes.

He dared the opposition to bring out an opposing candidate, declaring that he stood ready and willing to submit his policies to a vote of the people.

The Iowa republicans yesterday in their State convention elected dele-

gates at large to the national convention and instructed them to vote for Taft.

The Katy cotton statement compiled for the months between September 1, 1907, and February 20, 1908, shows a total of 2,813 bales handled by that road at this point as against 2,227 bales for the previous year.

How Do You Wear Your Hat?

Hats should be worn off the face and hatpins should be purchased for each hat. Three are sufficient, even

for a large shape. Purchase pins that harmonize with the coloring of the hat and of proper length. If your hat is small in the crown you need rather short pins. If it has a large, flat crown, then you will need long ones. No pin should stick out more than an inch.

If you want your hat to tilt to one side you cannot secure this effect by wearing it away over on one ear. You should put a very high bandeau on the left side in the crown, but put the hat on your head straight. The bandeau

will give you the proper one sided effect, and you will have no trouble to keep the hat on with three pins of proper size.

Then be sure that your hat fits you. Few women can buy a hat ready made that fits comfortably. If it is too large in the crown, it will come down too low on the forehead, while, on the other hand, if it is too small it will "wobble" around and never stay in its place. Hence, be sure that the hat fits. Wear a 'veil, by all means, but not for the purpose of keeping your hat in place—

The BARGAIN FLOODGATES ARE NOW OPEN

"Like a Torrent from Niagara" a mighty wave of humanity poured into our store Wednesday, the opening day of our Mighty Sale, and irresistibly carried away thousands of the startling bargains we are offering the people. Never in the history of Wichita Falls merchandising have there been enacted such a scene of rushing activity.

The People Know

a good thing when they see it. They are scrambling for their share of our stock that is being sacrificed. Every day will be a crush day. Stock will soon be broken, so hurry in and get all the merchandise you need for you will never buy it again at these ridiculously low prices. Everything to go.

NUTT, STEVENS & HARDEMAN
Phone 198. Wichita Falls.

rather to keep the hair neat and to protect the face from the wind and cold, says the Boston Traveler.

How do you put on your hat?

This may seem like a senseless question, and you may say, indignantly, "Why, there is only one way to put it on." Here you are mistaken. Since the introduction of the enormously large hats there seems to be at least twenty ways of putting them on—most of which are atrocious. Do you wear yours so far back that it almost rests on your shoulders? Do you tilt it on one side until you have to walk with your head on the other to balance it? Does your hat fit so badly in the head size that you have to pin your veil down as tight as a string to hold the hat in place? Have you a great hat that you wear with a bit of hair and, in order to keep it on, put six hatpins in at different points, each separate pin sticking out, giving you the appearance of a porcupine?

These are a few of the abuses to which the present day hat is submitted. None is necessary and all are exceedingly bad style. Hats are certainly unusually large this season and you must have a great deal of hair to make them look well.

If nature has not been kind enough to give you an abundance then you must buy some, else the hat will look top heavy. And because a few extremists are wearing their hats sliding down the back of their heads is no reason why you should follow the example. Rather copy the conservative woman, who is never at the height of fashion, yet always well within its limits.

Take the "Grape Cure" and Keep Your Health

This may sound a little queer but here's what it means:

Pure Grape Juice is one of the greatest tonics known. It has been said that a drop of grape juice will do more to help you keep your health while you have it and will help you to quickly regain it if you are ill than any other tonic known.

We sell the "Vineland" brand of pure grape juice, which is produced from the finest of the famous Jersey Concord grapes grown in and near Vineland, New Jersey.

The juice is so rich that it can be diluted with water if desired.

FOCK-SMIRNOFF DUEL.

Man Who Caused Stoessel's Arrest is Mortally Wounded.

St. Petersburg, Mar. 19.—General Smirnof, the man to whom the conviction of General Stoessel is largely due, and whose secret report of the defense of Port Arthur caused the disgrace of General Fock, is fatally wounded as the result of a duel with the latter general at an early hour yesterday morning.

General Fock, believing his honor had been assailed, made written demand of General Smirnof that he meet him in a duel. The men faced each other by arrangement early yesterday in the Chevalier guard riding school, firing at close distance with pistols.

General Smirnof was acting commandant of Port Arthur fortress during the siege, and at the time of its surrender to the Japanese. After his return to Russia he prepared a secret report of the defense of Port Arthur upon which the basis of the indictments which Lieutenant General Stoessel, Lieutenant General Fock and Major General Reiss were tried for their lives before the supreme court martial.

General Stoessel was accused of cowardice and incapacity, and General Fock, according to the indictment, displayed thorough incapacity and want of judgment. The outcome of the trial was the sentencing to death of General Stoessel, which finding was later commuted to ten years imprisonment, while General Fock was ordered to be reprimanded for a disciplinary offense.

General Smirnof was also on trial before the court martial, charged with having failed to remove General Fock from command after he suspected an agreement between Generals Stoessel and Fock to surrender the fortress.

The riding school was placed at the disposal of the combatants by the commander of the regiment, and the duel occurred with the full knowledge and approbation of the military authorities. It was witnessed by several officers of high rank, and it is even reported that several women were present. Shortly before 10 o'clock Generals Fock and Smirnof appeared at the riding school and, without saluting, took places assigned them by their seconds. The distance between the two combatants was but twenty paces and the duellists were instructed to open fire at the word of command and continue until one or the other was killed.

At General Fock's fourth shot General Smirnof groaned and sank forward. He had been wounded in the abdomen above the right hip. He was

carried in a litter to military hospital, where doctors employed Roentgen rays to locate the bullet. This duel is to be followed by another between General Fock and General Gorbattofsky, who was severely criticised by General Fock during the court martial proceedings.

SAYS ORDER IS UNREASONABLE

First Appeal is Taken From Ruling of Corporation Commission.

What is the first appeal from the order of the corporation commission was filed today in the supreme court by the Wichita Falls and Northwestern railway appealing from the order made by the commission a month ago requiring the road to erect a depot at Eschitt, in the Big Pasture. John W. Field, now deceased, a civil engineer for the road, drew a claim in the Big Pasture, two miles from the townsite of Eschitt, and laid out a townsite which he named Kell and erected a depot on the place. The town of Eschitt is a government townsite, having been laid out by the government. Residents of Eschitt filed a complaint against the Wichita Falls road on account of there being no depot at the place. A hearing was held last week on the complaints, and the commission ordered a depot erected within sixty days.

The ground of the appeal is that the order was unreasonable and that the road could not afford to erect two depots within two miles of each other. —Lawton Democrat.

POWERFUL APPEAL OF GOD'S SERVANT

In the revival meeting at the Baptist church last night, Rev. George Truett delivered an earnest appeal, which stirred the hearts of his hearers and caused many to turn to the Saviour with hope for their salvation.

Rarely has ever such a stirring, earnest message been heard in Wichita Falls, and strong men were moved as they listened to Dr. Truett's presentation of the message of hope and his appeal to accept Christ before it was too late.

The attendance last night was good and the meeting was characterized with deep, earnest feeling.

Notice.

I have now filled the long needed want, as I see it, in Wichita Falls, by purchasing a very handsome and up-to-date funeral car, which is now ready for service. Your truly,

PERSONAL MENTION

Jim Taylor, a real estate man from Petrolia, was transacting business here today.

Mr. and Mrs. E. L. White returned this afternoon from a pleasure trip to Fort Worth.

J. A. Lowry, a prominent citizen of Holliday, was transacting business here today.

Mr. and Mrs. Sam Shaw, who live near Petrolia, were trading in the city today.

A. L. Brubaker, one of Iowa Park's enterprising citizens, was transacting business here today.

T. B. Wilson, a prominent stockman and farmer from Archer county, was transacting business here today.

Eugene Leach, bridge foreman for the Fort Worth and Denver, was shaking hands with friends here today.

Mr. and Mrs. B. J. Bean have returned from Fort Worth, where they had been attending the Pure Food Show exhibition.

Mr. and Mrs. H. M. Sutton returned this afternoon from Fort Worth, where they had been visiting their daughter, Mrs. J. A. Pearse.

Messrs. George Hutchinson and T. J. Hunt, accompanied by their daughters from Olney, are in the city attending the Baptist revival.

F. H. Denison has purchased the property formerly owned by P. C. Maricle on Lamar avenue and will surrender his hotel to Mr. S. C. Rucks on March 21st.

Ralph Hauser, salesman for the mercantile firm of Noble & McGregor of Petrolia, was in the city today on his return home from a week's visit with his sister at Fort Worth.

J. N. Prothro, a young business man of Big Sandy, Texas, is in the city and has decided to make Wichita Falls his future home. He has purchased 160 acres of land from R. M. Moore and will at an early date also engage in the mercantile business.

Mr. and Mrs. A. R. Fain of Bainbridge, Georgia, arrived in the city this afternoon and will make Wichita Falls their home in future. Messrs. Fain & Ingram will open an exclusive shoe store in this city about April 1st, in the building now occupied by Ed. Winfrey and Messrs. Brothers & Frieze on In-

diana avenue. The Times extends the hand of welcome to Mr. and Mrs. Fain.

Health and Beauty.

Do not forget that washing the scalp occasionally with lemon juice will make white hair glossy and of a pure color.

The habit of bolting the food has ruined many a good complexion. Teeth were given for a purpose, and if one does not devote them to that purpose they will suffer along with digestion and skins.

Both the white haired woman and her blond sister should be most particular to keep the hair absolutely free from dust, as it shows up in an ugly fashion that is far from well-groomed looking.

The women who are making America famous in the matter of beauty are those who never allow a day to pass without an outing of some kind, either a drive or walk. Generally it is a walk, because walking is a fad taken up by the smart set.

Alum should never be absent from any household. It has a very good effect if applied to bleeding wounds, as it checks the loss of blood. Billed in milk in small quantities it is good for toothache. It must be held in the mouth, not swallowed. For bleeding of the mouth or tongue, a wash in cold water in which alum has been dissolved is very effective.
