Not Superstitious About No. 13

The Frederick Commandery No. 13 is up against the hoodoo thirteen. The lodge asked for dispensation on the 13th day of February, which was granted on the 13th of March, with 13 charter members and 13 applications for degrees and number 13 by the grand lodge. It now has 13 applications for degrees from the Altus chapter. The applications were accompanied by \$600 as an inducement, and it is needless to say that the commandery will look 13 square in the face and do the work. Frederick Commandery ranks fourth in membership and second in efficiency of work in the State. Several weeks ago the lodge conferred the Knights of Malta degree in India Temple in Oklahoma City, the first time that this work has been put on in the State outside of Frederick—Frederick Leader.

MANSLAUGHTER CHARGE

Father Away From Home When Child is Bitten, and Grandmother Said to Have Taken Charge.

By Associated Press.
Frederick, Ok., July 10.—Mrs. Margaret Stephens, grandmother of Leland Dodson, 8 years old, has been arrested on the charge of manslaughter by neglect, charged with being responsible for the death of the little boy who died from the effects of a rattlesnake bite. Mrs. Stephens is a Christian Scientist and her grandson died without medical attendance. A Christian Science healer was with him when the end came.
The boy was the son of Prof. W. T. Dodson, superintendent of schools, who was in Cleveland, Ohio, on a visit, when his son was bitten by the rattlesnake. Death occurred nine hours after the bite was inflicted.
Mrs. Stephens was arrested on the charge of manslaughter and taken before Justice Griffin and released on \$1,000 bond. A preliminary hearing will be granted her July 16. A prominent Lawton attorney has been employed to defend her. He is himself an ardent believer in the principles of Christian Science.
Another little child of the Dodsons died a year ago of pneumonia, while the father was away from home. Christian Science healers treated the case in that instance. There are five remaining children.
At the same time that the Dodson child was bitten by the snake, a little fellow fifteen miles from Frederick was suffering from a similar misfortune. The father promptly lacerated the wound and drew out the poison with his mouth. A doctor was summoned and the life of the boy was saved.

CROWLEY'S LOSS HEAVY

Wheat, Corn, Cotton and Fruit Complete Loss and Small Live Stock Was Killed.

J. L. McConkey, who stopped off at the home of R. A. Crowley on Saturday night on his return from a trip to Archer City, where he went to attend a meeting of the Farmers' Union, witnessed the most severe and destructive hail storm of his life at Mr. Crowley's place near the Bowman school house at about sun-up Sunday morning.
The hail came from a southeasterly direction and fell for three-quarters of an hour in a perfect volley. When the hail stopped there was not a single window light unbroken on the south-east exposure of Mr. Crowley's house, although the windows were covered with wire screens, and the hall stones, about the size of marbles, covered the ground to a depth of nearly three inches.
The destruction of Mr. Crowley's crops was complete. Wheat in the shock was beaten as if with a flail and the straw flattened out upon the ground with scarcely a grain in the heads.
Sixty acres of promising cotton was completely stripped of foliage and its smaller branches, and only the bare and broken stubble remained to tell the tale of the fury of the storm.
A field of millet, ready for the sickle, was torn into shreds and beaten into the earth until not a spear was left standing. A large field of corn was shredded of every blade and the ears, nearly mature, were so mangled and torn that they will rot.
Mr. Crowley had one of the finest peach orchards in that section of the country and the hail stripped the trees of fruit, leaves and even some of the smaller limbs, and Mr. McConkey estimates that fully 200 bushels of choice Elbertas, bruised and cut beyond all use, were lying upon the ground.
A number of young pigs and fully seventy-five chickens belonging to the Crowells, also perished.
The hail came from the direction of the T. L. pasture and John Schroeder was the first farmer in the path of the storm to suffer loss. The storm swept to the northwest from the Crowley place to Mr. Peters' place and across the McKinley pasture toward the Parker pasture, and from all farms in its path come reports of great damage. So far as has been reported, the path of the storm at no point was more than three-quarters of a mile in width and the length in which the greatest damage was done, so far as has been learned, was about eight miles.
From the direction of the storm, and the territory covered, this storm is believed to have been entirely distinct from the one which struck John Hursh's place at about the same hour.

Reports from the country say that the corn crop is made and that it will prove the best in the history of Wichita county. Cotton is blooming and most crops are free of grass. The acreage is at least three times what it was last year and with continued favorable cotton raising weather, this indicates that 18,000 bales of cotton will be produced on Wichita county soil this year.

FACTS ARE FACTS.

A late issue of the Wichita Falls Times says:
 "During the month of June the cash fines collected by the corporation court more than paid the ordinary expense of the city government. The fines, after deducting all the fees, amounted to \$897.79. The expense of the city government, including the salaries of the officers, rents, board of the prisoners and feed of horses for the month, at a liberal estimate, will not exceed \$640 for the month, leaving an excess of \$257.79 in the amount of fines collected above the expense. This record, it is believed, will not be equalled by any city in the State of Texas."
 No doubt of it. But it looks a little peculiar that a daily paper should boast of the amount of crime committed within the limits of its town in order to show a record that "will not be equalled by any city in the State of Texas." We are satisfied no other city in the State of Texas will challenge the statement made by the Times or dispute the honor or distinction.—Seymour Banner.

The Banner editor jumps to an unwarranted inference that the foregoing was written in a boastful spirit. Sometimes it falls to the duty of a newspaper to state the cold, ugly facts, however much these facts may be regretted. This was the attitude of the Times in the case in question. The Banner ought to know better than to infer that the Times would "boast of the amount of crime" within the borders of the city.

With the primary election for State, district, county and precinct officers only twelve days off, things politically are remarkable quiet in Wichita county. Farmers are too busy with their crops to take much interest in politics, and the candidates are not very thick. The race for governor between Campbell and Williams is probably exciting a little more interest than that of all others. So far as can be determined this race will be close in Wichita county.

Texas did not cut much of a figure at the Denver convention, considering the fact that she furnishes the biggest democratic majority of any State in the union. It seems just a little bit strange that the delegation should not have received recognition and honors in proportion.

Texas is honey-combed with trusts and the only way, or rather the best, the quickest and most effective way to rid the State of the outlawed concerns is for every law-abiding citizen to encourage by his vote the men who are doing all that is possible to prosecute the various concerns.

Gentlemen:—I had the pleasure of meeting your representative whom I found to be a most thorough gentleman, and also a thorough insurance man. I had explained to me the policy now being written by the American National Insurance Company, and I candidly say it is one of the best and so strongly did I think so, that I took a policy for \$5,000. I consider it the best of all I have, and I carry several. I am glad to see the strong men of Texas taking stock and pushing this company, as there is nothing like keeping Texas money at home. Be sure to keep the good work going, and also keep your agent at work in this part of the State, where he will not only help your company, but my friends also. Yours truly,
 OTIS T. BACON.

Wichita Mill & Elevator Company.
 I am much pleased to have investigated your company and I consider it a favor to be able to become a policy holder in your company.

In view of the upheaval in insurance matters in New York City recently, it has demonstrated to me that the time has now come for a great insurance company in Texas, so the people of Texas can retain their premiums at home, instead of sending them outside the borders of our State. Your company assisted by such men as you have associated with you in this company, is sufficient guarantee to anyone seeking a policy, that the money will be paid to his family after he is dead and gone.

Yours very truly,
 FRANK KELL, President

Office of County and District Clerk,
 Wichita Falls, Texas.
 Your representative called on me today and explained the fine policy you are now issuing. It is a pleasure to me to take a policy in your company as I think the American National deserves the liberal patronage it is receiving among the representative men of our State.

It indicates a worthy desire to patronize a first-class home company and thus keep Texas money at home. Very truly yours,
 W. A. REID,
 County and District Clerk.

TEXAS MONEY IN TEXAS

Insurance Premiums kept in Texas earn from 8 to 10 per cent for policy holders.

Which Will You Choose?

TEXAS MONEY IN NEW YORK

Insurance Premiums sent to New York earn 4 to 6 per cent for policy holders.
 Insurance Premiums sent to New York develop frenzied financiers.

Which Will You Choose?

IF YOU LIVE IN TEXAS BE A TEXAS CITIZEN!

Texas, at least, is awake to the folly of patronizing foreign insurance companies. The Double Indemnity policy of The American National contains EVERY desirable feature eastern policies and many others not contained therein.

 In my judgment, this company is managed by some of the most wide-awake progressive business men in our State; not only men of high character, but of strong financial ability.

I am personally acquainted with several of the officers, and I believe The American National Life Insurance Company has a great future and deserves the patronage of all citizens of Texas.

MORAG. CLARK, General Agt. Present Address, Wichita Falls, Texas

Office of the City Council:
 Wichita Falls, Texas.

A representative of the American National Insurance Co., called on me today, and after showing me the advantages in the life insurance business with your home company, had no trouble in interesting me to the extent of a \$5,000 policy. In this connection I beg to say that you have in your company the very proposition in the way of life insurance that I have wished for for the last ten years. And I can state to you frankly that I believe the people of Texas will appreciate the fact that you people in organizing this company have done a great work for the people throughout the whole state.
 Yours very truly,
 T. B. NOBLE, Mayor.

Coleman-Lysaght-Blair Company.
 As stated to you personally a few weeks ago, I believe that your Texas company is a better proposition for one to insure in than any of the old line Eastern companies, for several reasons.

The first of many reasons is that the gentlemen who are officers and directors of the American National Insurance Company are thoroughly known to the people of Texas to be clear, clean-cut, honest business men.

Another reason is that the premiums paid to the Texas Company will be invested in Texas.

It is a pleasure for me to take out a policy with your company today.
 WILEY BLAIR,
 Sec'y. and Gen'l. Manager.

Wichita Falls, Texas
 I have taken a policy in the American National Insurance Co., and I think it the most liberal contract I have ever known. I think your company as a Texas institution, deserves encouragement and support.
 Yours truly,
 JAS. T. MONTGOMERY,
 Attorney-at-Law.

Enclosed you will find my check for premiums, also acknowledge receipt of my policy, which I consider the best one I have out of five others I have had for some time.

TEXANS RETURN FROM DENVER.

Judge Brooks Explains How He Was Omitted From Platform Committee.

Denver, Colo., July 11.—The Texas delegation left for their homes last night, although several members remained in the State to visit mountain resorts for a few days. Although displeased with the part assigned them by the management of the big democratic national convention, all are gratified with the ticket and the platform. The nomination of Mitchell as vice president was desired by the Texas contingent, but he would not accept the honor and neither would Gray, also a Texas choice. Under the circumstances Texas fell promptly in line and voted solidly for Kern of Indiana, the seconding speech being made by Tom Ball of Houston.

The Texas delegation was for the nomination of Judge Gray for vice president, and it would not desert in its desire to nominate him until shown a telegram from Judge Gray, in which he declared that even if nominated he could not accept.

The delegation caucused at its headquarters in the Albany hotel. Colonel R. M. Johnson had asked the delegation to cast a complimentary vote for Clark Howell of Georgia, but he withdrew that request, giving as the reason the conduct of the Georgia delegation in refusing to be reconciled to the nomination of Bryan. That left the delegation at liberty. Members of it tried to find out whom Mr. Bryan wanted, but managers of the Nebraska here declined to put the stamp of approval on anyone. A vote disclosed that a majority favored the nomination of Judge Gray.

First Choice for Gray.

The action of the Texas delegation did not become generally known until the delegates reached the convention hall, where they beheld a big placard tied to the Texas guidon, announcing "Texas is for Gray for vice president." Meanwhile, the word had gone forth that while Mr. Bryan would not in-dorse anyone, Mr. Kern was the most acceptable of the available candidates, and hence there was much surprise that Texas should have resolved otherwise. Josiah Marvel, who has been trying to have Judge Gray nominated for the presidency, entreated the Texans to desist, but they showed no inclination to do so, whereupon Mr. Marvel got into quick telegraphic communication with Judge Gray, and a message was soon forthcoming, which

made it certain that Judge Gray not only did not want the nomination, but that he would decline if it should be thrust upon him.

But by this time it had become apparent that Kern would be nominated on the first ballot, if not by acclamation, and then the Texans, although Mitchell was the second choice of many of them, joined in seconding the nomination of Kern. Colonel Tom Ball made the brief speech seconding, on behalf of Texas, the nomination of Kern. He frankly admitted that to the Texas delegates it had seemed that Judge Gray was the fittest man to be nominated. But he admitted Texas had been informed by the delegation from Delaware that Judge Gray could not afford to accept the nomination even if it were tendered to him un-animously by the convention. He said that Texas was not now trying to get into the band wagon because a Texan never hunts a band wagon, but that it was going to vote for Mr. Kern because it was manifest that he was the choice of a majority of the convention. Colonel Ball said the Texas delegates had tried to find out whom Mr. Bryan desired as a running mate, but that Mr. Bryan had declined to express himself.

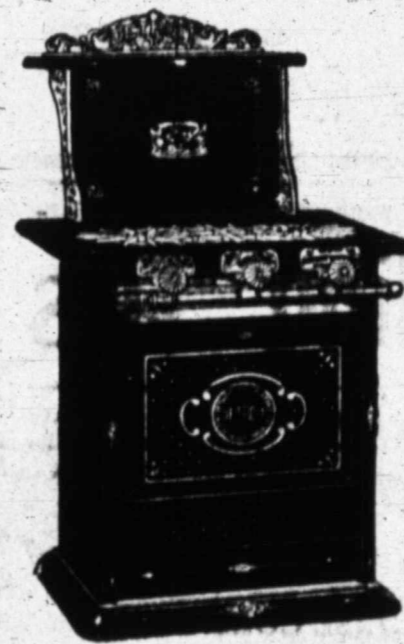

The announcement that Texas would vote for Kern evoked great cheering, especially among the Indiana delegation.

Brooks Offers Explanation.

The Texas delegation is somewhat mollified, although still chafing a bit in private under the belief that it was not accorded as much consideration as was due to it. The chief grievance was that Judge Brooks was not made a member of the subcommittee which prepared the platform, and Judge Brooks has discovered that this was due to the exigencies of politics and not to a desire to affront the delegation.

When the Texans caucused Judge Brooks made a statement as to how he came to be left off the subcommittee. He said Mr. Bryan had made up the list of the subcommittee members and that Texas' representative, whoever he might be, was on it. Afterward, when the full committee was organized, there was a demand made of Chairman Haskell and C. W. Bryan, the nominee's brother, that Senator F. J. Newlands of Nevada be made a member because of his identification with the reclamation act and because of his advocacy of other similar measures not yet en-

For Picnic Sandwiches

It will be hard to find anything that the kids will like better for picnic lunches than a bread, butter and jam sandwich. Jelly or jam is always a favorite and always will be. Yes, they will get it on their hands and face, but they like it and a picnic is a picnic. You don't dress them up in their Sunday best to go to a picnic. They go to have a good time and about two-thirds of their good time comes out of the lunch basket.

Give them the time of their lives by furnishing a liberal supply of pure jam or jelly sandwiches—and spread it on liberally, it's not expensive. Remember you were young once yourself.

acted. Senator Newlands' name was not on the list prepared by W. J. Bryan. Because of the insistence of Senator Newlands' friends and because of the belief that it would be politic to have him aid in making the platform, a place was made for him at the expense of Texas. Texas, it was thought, would magnanimously step aside to subserve party policy. This explanation seems to have satisfied the Texans that there was no political significance to be attached to the circumstance that Texas had no membership on this important subcommittee.

A New Town Started.

The editor of the Enterprise, after visiting Frederick, spent Monday night and Tuesday morning in the new town of Harriston, seven miles west of Kell. A corps of surveyors were put on the job Monday morning and are now rapidly pushing the work, gin plants have been bought for this point and lumber for the depot is on the road and will arrive the last of the week.

Monday night a mass meeting of farmers was held for the purpose of showing their good will and offering their aid in pushing the town. About fifty people were present, but it was decided to make the send-off unanimous, therefore adjournment was taken.

Already the proposed town is attracting considerable attention from business men and speculators, and in addition to the lumber yard and two stores already there, work was begun Monday morning upon a bank building, and Tuesday morning teams were put to work on the construction of a gin tank. Everyone seemed to be convinced that the new town would be a "live one."—Kell City Enterprise.

Hail Storm Causes Heavy Damage.

John M. Hursh, who lives about a mile and a half south of town, suffered a heavy loss from a hail storm which swept over a district about eight miles long and a half mile wide early Sunday morning.

Mr. Hursh's cotton was stripped almost as clean as a bone of its leaves and smaller branches, and he is ready to sell his crop at a low figure.

The hail damaged several hundred acres of cotton and also tore the corn blades into shreds. The corn is nearly matured and it is not believed that it is greatly damaged.

Big Shipment of Wheat and Oats.

Looking Over Kell-Eschitz Situation.

We would again call the attention of Kell and Eschitz to the plain and undisputed fact that opportunity has grown weary of knocking on their doors. While they are quarreling over the cheese Sister Harriston will be rapidly nibbling away at it. They may wake one of these mornings to the painful realization that nothing but the rind is left to those who have frittered away valuable time in camping on cold trails. Come alive and begin to make hay while the sun shines.

Corporation Commissioner A. P. Watson visited Kell and Eschitz Sunday and took an inventory of the town-site troubles at close range. The information which he gleaned while here will probably result in an early settlement of the controversy. His only interest in the matter is to please the people and give them an opportunity to build one good town with one depot as the shipping point for this territory. The earliest possible settlement is the thing desired.—Kell City Enterprise.

Rutland of Commerce, Texas, left this afternoon for Colorado, where they expect to spend the next few weeks visiting the principal points of interest in that State.
