

CROP MATURING SHOWERS

Rainfall Extends From Fort Worth to Childress and From Frederick to Abilene and Newcastle

The farmers all over the Wichita Falls country, Oklahoma Big Pasture and the Lower Panhandle are rejoicing over the splendid rain last night. Around Wichita Falls the ground is well soaked from the shower which started before midnight last night and from all points on the Wichita Valley between Byers on the north and Abilene on the south report like rains. The Wichita Falls line reports heavy showers at all points on the south to its terminus at Newcastle in the Young county coal field and good crop-matur-

ing showers in the Oklahoma Big Pasture as far north as Frederick. The Fort Worth and Denver reports a general rainfall from Fort Worth to Childress and it is probable that the rain has extended beyond these points. From no point has any damage been reported from too much rain, and generally last night's shower was very timely and will add many thousand bales to the cotton crop in this section and will place the ground in fine condition for plowing for wheat and other crops.

BRYAN FOR THE SQUARE DEAL.

Houston Post.
Mr. Bryan's Peoria speech must have been surprising to that timid class of business men who have looked upon him as a possible wrecker of business, and who have feared him because of his alleged radical doctrines. He made it very plain that he entertains no purpose to destroy the railroads if he becomes president, but on the contrary to advocate such policies as will render the roads more efficient and establish better relations between the companies and the people.
"The democratic party," he declared, would distinguish between these railroad owners, directors and managers who, recognizing their obligation to the public, earn their salaries by conscientious devotion to the work entrusted to them, and those unscrupulous "Napoleons of Finance" who use railroads as mere pawns in a great gambling game without regard to the rights of employes or to the interests of the patrons. It is in the interest of honest railroading and legitimate investment that the democratic party seeks to ascertain the present value of the railroad properties and to prevent for the future the watering of stock and the issue of fictitious capitalization; and it is in the interest of both the railroads and the public that it seeks only such reductions in transportation rates as can be made without wage reduction, without deterioration in the service and without injustice to legitimate investments."

Surely no reasonable man can complain of so wholesome a policy as this. No railroad owner or manager who is willing to give the public a square deal can criticize it. It assures to the railroads protection in every just and honest right, and it promises the public fair treatment. That is what the public will have and ought to have and no capitalist has a right to protest.
Mr. Bryan makes it equally plain that he contemplates no general assault upon corporations; that most of the corporations are law-abiding and fair. But he would punish offenders against the law and by punishing the guilty protect those who are innocent.
Those capitalists and manufacturers and other corporation managers who have been assailing Mr. Bryan for so many years will find it difficult to justify their criticism, in view of his strong, sensible argument at Peoria. And if they are forced to confess that they have misconstrued Mr. Bryan's attitude in the past and that they now agree with him and his construction of the platform, how can they longer withhold their support from him?
If the business interests of the country will dismiss their prejudices and look to the platforms of the great parties as well as the candidates, they will see that every consideration of business stability, commercial prosperity and increased efficiency of the railroads ought to impel the business men to support the democratic ticket. There is not an atom of menace in the Denver platform. It says what it means.

and means what it says, and breathes of fair dealing to every legitimate interest.

Every Non-Progressive Merchant Becomes Your Competitor When You Cease to Advertise

WHEN a merchant "slows up" in his advertising; and concludes to "save a little money" in that direction, then the merchant who never had the courage and foresight to advertise adequately BECOMES A REAL COMPETITOR. Even the merchant who never advertises at all reaps a certain amount of profit from the "slowing up" process of the live store. Not many merchants, of course, who have at any time set the pace for progressive advertising, will be content to take a backward plunge into the company of the non-progressives, of the LITTLE MERCHANTS, the easily satisfied ones, the un-awakes! But that is just what the "live one" does when he imagines that his advertising is costing too much, and that its curtailment means saving. If business conditions ever suggest retrenchment in advertising, the wise merchant knows that this should be interpreted as a signal for "full speed ahead," for redoubled efforts to WIN the business that does not come so easily as usual.

KERR & HURSH

Why Mules are Scarce.
San Antonio Express.
According to the Henderson Journal of Kentucky a gentleman who is in position to know says that there were never so few mules offered for sale as now. In St. Louis, where generally plenty of mules can be found, it is almost impossible to purchase any. A carload would exhaust the supply of mules in Chicago. When asked if he could give reasons for this state of affairs, he said that the United States was shipping more mules to foreign markets than was ever known before in the history of the country. He stated that 40,000 of the animals were used on the Panama canal, and as the work is very hard, many of this number die every year and have to be supplied from the United States. This demand, which will continue for several years, will keep the price up to the top notch. With these conditions and the outlook for high prices, farmers all over the country are turning their attention to mule raising.

Compulsory Education.
The Times-Herald is for the education, without frills, of all the children of all the people. The Times-Herald is an advocate of compulsory education. There are men in Texas who pose as reformers and leaders of their fellows, who sneer at Germany and the Germans. Bismarck, the man of red blood and iron, gave Germany a compulsory education law. He jammed it down the throats of his opponents, and that law made Germany the most enlightened and progressive of all European nations. Illiteracy is a thing of the past in Germany; its schools and colleges are the pride of the Fatherland, and there are more newspapers and magazines published in Germany than in other European nations—the British Isles included.

Educate the children of all the people. It pays.—Dallas Times-Herald.

The results of these tests have been highly satisfactory and the coal has been found to be of good quality, suitable both for domestic and manufacturing purposes.

Death of Miss Elizabeth Robertson.
This morning at 7 o'clock Miss Elizabeth Francis Robertson died at the home of her sister-in-law, Mrs. R. Robertson, 1302 Eighth street, the cause of her death being a stroke of paralysis.

She was stricken about a week or ten days ago, and since that time but little hopes of her surviving the stroke have been entertained by the family physician or members of the family. Deceased was a native of Kentucky, and at her death was 58 years, 8 months and 19 days of age. She came to this city about fifteen years ago to make her home with her brother, the late Dr. R. Robertson. After, or just before the death of Dr. Robertson, she went to Amarillo to make her home with her nephew and his wife, Mr. and Mrs. T. H. Huggins and remained there up to within two or three weeks ago, when she again returned to this city for a visit to her brothers and sisters. She was a consistent member of the Baptist church and funeral services will be conducted from the family residence by the pastor, Rev. W. F. Fry, at 10 o'clock tomorrow morning. Interment will take place at Riverside cemetery.

GRAHAM, TEX., TO ROSWELL.

Charter is Procured for New Line to Penetrate Rich Section of State. Judge R. F. Arnold of Graham passed through this city yesterday, en route home from Austin, where he had been to procure the charter for the Graham, Roswell and Western Railway Company. He said:

"This new line will penetrate one of the best agricultural and stock-raising belts of the State, besides the best coal veins within its borders. This line will traverse the counties of Young, crossing the Brazos river immediately south of old Fort Belknap; thence west through the counties of Throckmorton, Haskell, Stonewall, Kent, Garza, Lynn, Terry and Yoakum, thence to Roswell. It will connect with the Rock Island railroad at Graham and thereby the section through which it passes direct communication with Fort Worth and Dallas. The incorporators of the new road are John E. Morrison, president of the Morrison Mercantile Co.; S. R. Crawford, president of the Beckham National bank; R. E. Mabry, merchant; S. B. Street, merchant; E. S. Graham, real estate owner; D. G. Vick, merchant; C. W. Johnson, attorney; Arnold & Arnold, attorneys, all of Graham; A. D. Goodenough of Hereford and H. P. Paris of the Brinkerhoff & Paris Loan and Trust Company of Clinton, Mo. The charter provides for the location of the machine and repair shops at Graham. The financial part of the road has already been adjusted and negotiations are now in progress with contractors for its construction."—Dallas News.

heartily support his policies. For the last ten years, while I have been governor of New York and president, I have been thrown into the closest intimacy with him, and he and I have on every essential point stood in heartiest agreement, shoulder to shoulder. We have the same views as to what is demanded by the national interest and honor, both within our borders, and as regards the relations of this nation with other nations. There is no fight for decency and fair dealing which I have waged in which I have not had his heartiest and most effective sympathy and support, and the policies for which I stand are his policies as much as mine.

If elected, he has shown by his deeds that he will be president of no class, but of the people as a whole; he can be trusted to stand stoutly against the two real enemies of our democracy—against the man who to please one class would undermine the whole foundation of orderly liberty, and against the man who in the interest of another class would secure business prosperity by sacrificing every right of the working people.

I have striven as president to champion in every proper way the interests of the wage-worker; for I regard the wage-worker, excepting only the farmer, the tiller of the soil, as the man whose well-being is most essential to the healthy growth of this great nation. I would for no consideration advise the wage-worker to do what I thought was against his interest. I ask his support for Mr. Taft exactly as I ask such support from every far-sighted and right-thinking American citizen; because I believe with all my heart that nowhere within the borders of our great country can there be found another man who will as vigilantly and efficiently as Mr. Taft support the rights of the working man as he will the rights of every man who in good faith strives to do his duty as an American citizen. He will protect the just rights of both rich and poor, and he will war relentlessly against lawlessness and injustice whether exercised on behalf of property or of labor.

On the bench Judge Taft showed the two qualities which make a great judge—wisdom and moral courage. They are also the two qualities which make a great president. Sincerely yours,
THEODORE ROOSEVELT.

Bowie Railroad Man Marries Former Wichita Falls Girl in Oregon.

The East Oregonian of the date of Wednesday, September 2nd, published at Pendleton, Oregon, gives an account of the wedding of Miss Nelson Lea Dorsey, a former resident of this city, to John Hedrick Young of Bowie, Tex.

The Oregonian's account of the wedding follows:
Miss Nelson Lea Dorsey was married this morning at 10 o'clock to Mr. John Hedrick Young. The ceremony was at the home of the bride's mother, Mrs. L. N. Johnson, on Lincoln street and was performed by Rev. Ralph E. Storck, pastor of the Baptist church. Miss Quindera Wilcox played Mendelssohn's wedding march while the bridal party took their places under a large white wedding bell hung in the middle of a bower of green and white festoons interwoven with flowers. The bride was prettily dressed in white silk and carried a bouquet of roses. Miss Flora Stevens was the bridesmaid and Mr. Frank Dorsey was best man. The ribbon-bearers were Master Lloyd Montgomery and Miss Sibbie Johnson. The flower girl was Miss Edna Hogue. After the ceremony a dainty wedding luncheon was served at which about twenty relatives and friends sat down. The bride's cake was distributed by the bride. The ring which it contained was secured by Miss Ina Adams of Portland, and the dime was found in the bride's own pocket. At 12 o'clock the bridal party started for the depot to take the westbound train, their cars decorated with streamers and old shoes, and in a shower of rice.

Mr. Young is a well known railroad man stationed at Bowie, Texas. Mrs. Young has had her residence in Pendleton for the last year, when she came with her parents, Mr. and Mrs. L. N. Johnson, from the State to which she now returns. Since coming to this city she has made a host of friends and has been one of our most popular young people. She is quite well known as a teacher of water colors and is an accomplished elocutionist. Mr. Young and his bride will visit various points in the west, including Portland, Seattle, Spokane and points in the Rocky Mountain section south to Texas. They will be at home in Bowie after October 1st. Many handsome and costly presents were received, including many pieces of rare silver and art bric-a-brac. Each guest received a beautiful heart-shaped souvenir done in a cupid and heart design in water colors by the bride.

Biggest Lie Recorded to Date.

Fifty years ago, when my father was captain of an East Indian trading ship, while off the coast of Africa near the equator, the ship's carpenter was taken sick and died. He was sewed up in a canvass and with him was sewed up his tools and grindstone for ballast to sink him.

Services were held and the body communicated to the sea.

Four days later the ship's boy fell overboard and a great shark came up under the stern and swallowed the boy before he could be rescued. The next day the shark was still following the ship. A shark hook was baited and put over the stern and the shark was caught, but so large was he that we were obliged to shoot him. He looked so plump and large that the mate, who was an old whaler, wanted to go over the side and cut the fish open. He was lowered over and cut a hole in the shark and was surprised to hear voices, and on looking in saw the ship's boy turning the grindstone for the ship's carpenter, who was sharpening his axe to cut his way out.—Abilene Reporter.

Byers is Forging Ahead.

Byers Searchlight. While the hotels at Byers are taxed to their utmost capacity with contractors, carpenters, bricklayers, yet there is a great shortage in the building force. More bricklayers, more carpenters is the daily cry.

It is usually conceded in Wichita Falls and Henrietta without investigation that Byers has only 100 or 125 houses. Recent visitors from these commercial centers have stood amazed as they beheld our streets lined with bricks and concrete business houses filled with merchandise inferior to, no city of North Texas, and as they beheld our residence streets comfortably situated, modern residences equal in value to their own homes, they go away to the same chorus, "Byers is a ten times larger town than I expected to see." The growth of Byers has indeed been great. It grows steadily every day and now our friends in Wichita Falls and Henrietta have awakened to the realization that, though Byers is a new town it is no longer a village, but a shining star of North Texas.

Rich Juicy Tree Ripened Fruits

We've told you about the difference between shelf ripened and tree ripened fruit before, but it's easy to forget, so we repeat it. If you have never had the opportunity of going out and picking a ripe peach, plum or pear off the tree, you can hardly appreciate the vast difference in flavor which there is between tree-ripened and shelf or box-ripened fruits.

The sun, air and sap of the tree gives to tree ripened fruit a richness, fullness and delicacy of flavor that is entirely lacking in the box ripened.

That's why the best grade of canned fruits, such as our "White Horse" brand are of such a fine flavor and quality. They are all carefully selected, tree-ripened fruits.

OF INTEREST TO WOMEN

Miss Josephine Louise Reynolds of Hull, Mass., a telephone girl, has demonstrated that one woman at least can drive a nail straight and saw a board vertically and to the line. She drew the plans of a small summer cottage, and with her own hands, fearless of callous and splinter, constructed it, the workmanship being good in every detail from foundation to roof-tree. With her own hands Miss Reynolds will paint, decorate and furnish the cottage, the accommodations being for living, cooking and sleeping. When it is completed she and her sister Grace will occupy it.

I wonder if there is a girl in Wichita Falls who could, or would, undertake such a gigantic task? I guess we all agree that when the little cottage is finished Miss Reynolds will have earned whatever joy comes to her in the possession of it.

How to Keep Milk.

The most difficult of all problems in hot weather is how to keep milk from turning sour during a thunderstorm. No matter how fresh it is, the electricity in the air has a disastrous effect upon it, so that a storm, even of short duration, plays havoc with the contents of the refrigerator.

The discomfort of this exists not only for the cook, who finds it impossible to do justice to her art, but to the housekeeper, who has her dinner spoiled at a moment's notice.

More serious consequences arise where there are young children who depend entirely upon milk for nourishment.

Before the storm put the milk in a bottle which is securely corked, then place up side down in a pail of cold water.

The water, being a non-conductor of electricity, keeps the charged air from coming in contact with the milk.

After the storm is over take the bottle out and place it in the refrigerator.

Opera Salad.

Have individual bread and butter plates for serving it. And lay these in ice for an hour before arranging upon each the salad in the following order:

First, four stalks of endive, or of crisp hearts of lettuce, torn apart. On this foundation lay rows of grape fruit or of orange cut into bits; next strips of boiled and cold beets. On the top of all and at the base of each pile have this garnish: Peel cucumbers very thin with a keen knife, then with the same cut round and round the cucumber into spiral shavings less than a quarter of an inch wide. Pour a French dressing over the salad and garnish just before serving. Pass with it Swedish wafers and cream cheese balls worked up with olives minced very fine.

The effect of the whole is charming.

Freak Clothing for Men.

This seems to be an era of freak clothes. Dressmakers and likewise tailors fear to pick up a new fashion plate lest there will be something new and outlandish which the women and men are going to demand. Time was when the men stood back and allowed the fair sex to wear the freak duds, but this fall and winter the sterner element of humanity promises to be just as foolish about clothes as anybody.

The starter of all this tommyrot was the directoire or sheath skirt, which had a side vent for ventilation or other purposes which affords a will-o'-wisp glimpse of a silk, cotton or hole-proof stocking. The modified sheath is all the rage, but nobody in Wichita Falls has yet had the nerve to wear the real thing. So when the women were talking about wearing skirts with slits in

the sides the men got busy and decided that they would have to keep up with the procession.

The first style announced for men in the directoire fashion was an overcoat, cut full and boxy, with a side vent which showed the wearer's nether extremities pretty high up. Some models of this coat in ready-mades have been received here and many of them will doubtless be worn in Wichita Falls this coming fall and winter.

The next thing in the directoire style for men was the sheath trousers. This style consisted in cutting a vent on the outside of each trousers leg, making a peek-a-boo effect by running silk cord back and forth like a shoe lacing. This was very fetching, the advance style notes said, but the makers of fashion failed to state how a man was going to keep his shins warm in such a pair of trousers as the style book suggested.

Not "bought up," but made from the milk of one herd of Jersey cows, Jersey Farm Creamery butter is better. 35c a pound.

IT HUMILIATED HEARST.

He Has More to Say About That Alleged Interview.

Atlanta, Ga., Sept. 12.—William Randolph Hearst, when shown Mr. Bryan's denial of Mr. Hearst's statement that Bryan four months ago proposed to support Mr. Hearst four years hence in return for Mr. Hearst's support in this campaign, made the following statement:

"I do not see why Mr. Bryan is always proposing policies that he has to retract, saying things that he has to deny, and doing things he has to deny."

"When Mr. Bryan came to New York four months ago I did not call on him, as I had nothing to see him about. He did call on me, as he apparently had something to see me about."

"I kept his visit a secret, but Mr. Chanler, in a suit brought against me, stated in his affidavit that he had seen Mr. Bryan at my house, and so the visit was inadvertently made public. That visit was without result, as I purposely avoided politics."

"Shortly afterward I received an invitation from a friend of mine to dinner. I found Mr. Bryan there. After the dinner Mr. Bryan stepped aside with me in the hall and said exactly what I said he did."

"I wish he had not said it. I was surprised and humiliated by the proposition. It showed that Mr. Bryan had no appreciation or conception of the work I had done for him or of the reason I had worked so hard and made so many sacrifices in the cause. It showed me that he considered me merely a trader, working for some personal advantage or promotion in politics. I left the house humiliated, as I say, but more than ever opposed to Mr. Bryan, more than ever convinced that I was right in opposing him."

- Gardner, M. J. Howard, Dean. Patterson, T. F., Jr. Smith, Dan. Strickland, W. S. TEXAS IS PROSPEROUS. Many New Banks Organized During the Past Few Weeks. Austin, Tex., Sept. 12.—The records of the department of insurance and banking show conclusively the strengthened financial condition of the State. During the money stringency there was a noticeable falling off of organization of new State banks, but during the past two or three weeks quite a number of State banks have taken out charters, showing that conditions are generally good. With the filing of the charter of the People's State Bank of Longview yesterday the banking department's books show that 352 State banks have been organized and 333 of them are now doing business. A number of those organized have been consolidated with other institutions and others have dissolved their corporations. It is believed that during the next three months many more State institutions will be chartered and probably the number will reach 400, at which time Commissioner Love will appoint another State bank examiner, making four all told. The last report shows that there are an existence in Texas 500 national banks, which, with 333 State institutions, make 833 banks in the State.

- Reid, Walter A., County Clerk. Howard, Dean. Patterson, T. F., Jr. Smith, Dan. Strickland, W. S.

There is no record in the banking department of the number of private banks, these institutions not being forced to make reports, and therefore no check is made on them. It is understood that Commissioner Love favors the passage by the next legislature of a law requiring private banks to submit reports to the State banking department, although there is some doubt as to whether or not these institutions can be made to make reports, but if there is any way to force them Commissioner Love will cause to be introduced in the next legislature an act with that purpose in view.

BURTON FOR BRYAN

THE NEBRASKAN WILL CARRY KANSAS AND WIN THE ELECTION.

NOMINATION IS CORRUPT

"Roosevelt Bought it With Federal Patronage"—Favors Direct Election of All Officials.

Fort Worth Record. "Bryan will carry Kansas. The people don't like the way Taft was nominated. Roosevelt bought the nomination for Taft with federal patronage and this was just as corrupt as if plain gold had been used. I have never voted a democratic ticket, but I am going to vote for Bryan. Many good republicans of Kansas will do the same, and present indications are that a similar feeling throughout the nation will result in Mr. Bryan's triumph."

Voicing the foregoing sentiments while in Fort Worth last night, former United States Senator Ralph Burton of Kansas, a lifelong republican, spoke bitterly of both Taft and Roosevelt and referred with extreme kindness to William J. Bryan. Heading a party of eight on the return from Fort Stockton, in extreme western Texas, where they have acquired 58,000 acres of fine land, Senator Burton arrived in Fort Worth late yesterday afternoon. The party left last night for San Antonio.

Senator Burton was in a fine frame of mind and talked freely on every question about which he was asked. His first political assertion was that Bryan is much stronger in Kansas than ever before and the vote of many good republicans added to the democratic strength will win the State for the Nebraskan. Kansas will not sanction the corrupt methods by which Taft's nomination was secured by the president.

"Let the People Rule." Senator Burton subscribes to Mr. Bryan's plea, "Let the people rule."

Speaking of the national political situation, Senator Burton said: "I think the time has come when the great red dragon has about spilled off and the government will be turned back into the hands of the people through the instrumentality of their greatest champion, W. J. Bryan." "Bryan will get all the labor vote except that part that is Socialist, in the opinion of the Kansas politician. The socialists will attack by Debs, whom they admire.

"The republicans will receive none of the labor vote," Senator Burton predicted. "The laboring people will not vote for an autocrat or an aristocracy. Their own intelligence prevents them from voting for Taft. Sentiment is being restored in favor of democracy instead of despotism."

Another issue that has influenced Senator Burton to ally himself with the democrats this year is the advocacy of a direct election of all officers.

Direct Elections. "I will support the Kansas State democratic ticket," he said, "because it stands for the reform to which I have concentrated the rest of my life—the direct election of all officers, both State and national. Elect all the officers, especially the United States senators by a direct vote of the people, and you will eliminate the root of much existing evil. This is a thousand times more important, to my mind, than all the planks in both the democratic and republican platforms. I believe in a real democracy, a sort of democracy that will 'let the people rule,' if you please.

"I am not out of politics yet, though I am not a candidate for any office and never will be again. But I propose to give my attention to political matters so long as I live, and with my paper at Celina, Kan., I expect to keep hammering away, advocating principally a direct election of all officials, both State and national. I shall speak and write and write and speak so long as I am able."

The former senator is taking a great deal of interest in the race for United States senator from Kansas. In the republican primary Senator Long, colleague of Senator Burton when the latter was in the senate, was defeated by Joe L. Bristow. Hugh Farrelly is the democratic nominee and Senator Burton predicts his election.

Sunday School Association. The Sunday School Association will meet tomorrow afternoon in the First Baptist church at 2:30 o'clock. All Sunday schools and those interested in "Sunday school work" are urged to be present.

FOURTH MEMBER OF FAMILY STRICKEN

For the fourth time within two months the death messenger invaded the family of J. E. McCall, the last victim being T. C. McCall, aged about 21 years. The young man was suddenly stricken at about 1 o'clock Saturday afternoon, while sitting at the dinner table of an uncle in Iowa Park, where he was visiting while recuperating from a long and severe illness with typhoid fever, which was the cause of the death of three other members of the family. The immediate cause of his death was heart trouble, which resulted from the fever.

The remains were brought to this city Sunday and were laid to rest in the Riverside cemetery.

The Celebrated Meadow Gold Butter

Is as good as Gold from which it takes its name
Is the product of an exact science which begins with breeding of cows for richness of milk and not quantity.
It is so pure that it must be protected from contamination by an airtight order proof package.
Is from Meadows of Gold and Green; Sunshine and Fragrance and is the most delicious butter on earth.
The Meadow Gold Seal stands for the word and honor of the most successful creamery on earth.
