VOLUME 2

WICHITA FALLS, TEXAS, FRIDAY, FEBRUARY 5, 1909

NUMBER 231

VIOLENT WINDS DO MUCH DAMAGE

LAST NIGHT'S STORM REACHES CYCLONIC PROPORTIONS IN SEVERAL TOWNS.

SEVERAL TEXAS CITIES

Seems to Have Suffered Most Damage. Fort Worth Has Heavy Rains. Deaths at Memphis.

Texas News Service Special. Ennis, Tex., Feb. 5.—A small cyclone struck Ennis early this morning, blowing a dozen residences and several smaller buildings. Smoke stacks and telegraph poles were also blown down. Several mules and horses were killed near Boyce. Those sustaining the heaviest damage were C. N. Jeffers, J. A. Clarke, Pat Noux, R. A. McMillan, Will Lewis, Ed Hovey and S. H. Eubanks.

Cyclone Hits Sulphur Springs.

Texas News Service Special. Sulphur Springs, Tex., Feb. 5.—A cyclone struck here early this morning, wrecking the residences of Frank Bell, Jack Sherman, Robert Lee, H. Perkins and damaging the houses belonging to Joe Melton, Monroe Smith, E. D. Gaddy, Sid Lackey, Julius Heck, and James Ardis. Mrs. Ardis was cut by flying glass.

Damage at Muskogee.

Texas News Service Special. Muskogee, Ok., Feb. 5.—A storm of cyclonic proportions passed over Muskogee early this morning, causing considerable damage. A number of frame buildings were wrecked, barns were blown down and plate glass broken. One man was injured by flying glass.

Six People Reported Killed.

By Associated Press. Birmingham, Ala., Feb. 5.—Reports have reached here that a tornado struck Booth, Miss., killing six people and destroying much property.

Two Killed at Stuttgart, Ark.

By Associated Press. Memphis, Tenn., Feb. 5.—A dispatch from the News-Schmitt says that a storm struck Stuttgart, Arkansas, today, killing two persons and injuring several others. Two residences and six barns were blown down.

Texas News Service Special.

Memphis, Tenn., Feb. 5.—Mrs. Garfield and a child of Will Storey were fatally injured, and great damage was done to property in the surrounding country. Extensive damage was also done to the rice fields.

Hail Storm at Denison.

Texas News Service Special. Denison, Tex., Feb. 5.—A severe hail storm visited this section late last night. There was no damage.

Heavy Rain at Fort Worth.

Texas News Service Special. Fort Worth, Tex., Feb. 5.—A heavy rain and wind swept over this city early this morning.

Unity Club Meeting.

The Unity Club met this afternoon with Mrs. A. Zundelwitz at her home on Lamar avenue. Romeo and Juliet was the theme for the meeting. The program was as follows: Music—Mrs. A. Zundelwitz. Roll Call—Current Events. Lesson Study—Act I—Leader, Mrs. Comp. General Discussion—History, Sources, Date, Plot, Duration—Leader, Mrs. Reed. Structure of the Drama and Its Place in Literature—Mrs. Darnell.

Church Services at Thornberry.

Sunday school at 10 a. m. H. C. Wiswold, superintendent. Preaching at 11 a. m. and 7:30 p. m. by the pastor. Epworth league at 3:30 p. m. Miss Annie Walker, leader.

EDGAR M. WISDOM, Pastor.

PEOPLE KILLED AT ROLLING FORK

By Associated Press. Jackson, Miss., Feb. 5.—A long distance message received here this afternoon states that a tornado struck the town of Rolling Fork today, and that four people were killed. In addition to the loss of life, which may be feared, there was a heavy property loss. Rolling Fork is a town of twelve hundred inhabitants and is the county seat of Sharkey county.

JURY DISAGREED AS TO BANKER GOW'S GUILT.

By Associated Press. New York, Feb. 5.—The Brooklyn jury before which William Gow, former president of the International Trust Company and a director of the Borough Bank of Brooklyn, was tried on a charge of larceny of a hundred and forty-five thousand dollars from the Borough bank, disagreed today, standing eight for acquittal and four for conviction.

Patients Doing Well.

Mrs. A. H. Carrigan and Dr. S. H. Burnside, both of whom were operated on yesterday at the Wichita Falls Sanitarium by Dr. Bacon Saunders of Fort Worth, for appendicitis, are reported as doing as well as could be expected under the circumstances.

The condition of Mrs. Carrigan, however, is thought to be more serious than that of Dr. Burnside, from the fact that the surgeon found it necessary to perform two operations, one being the removal of gall stones to the number of twenty-five, one of which was over an inch long and one about 1 1/2 inches in circumference.

Mexican Soldier on Rampage.

By Associated Press. Salina Cruz, Mexico, Feb. 5.—Pase Lopez, a Mexican soldier, went on a rampage last night and began by shooting into a crowd of men, killing two Mexicans and two negroes. Lopez made his escape.

MANY BLACK EYES AND SORE HEADS

Vienna, Austria, Feb. 5.—The present session of the Austrian parliament came to an end this morning with scenes of great turbulence. The trouble arose over the old racial feeling between the Germans and Czechs. A fierce scrimmage took place between them and sore heads and black eyes are numerous. Wild confusion reigned for half an hour.

Some Friberg Notes.

Special to the Times. Friberg, Tex., Feb. 5.—A greatly needed rain fell in our community last night and the farmers will not lose any time sowing their oats. The faithful effort of the well digger trying to get water at the school house proved to be a failure. Upon drilling down 55 feet and finding no sign of water, it was decided not to drill any farther.

New Mail Service is Established.

Effective February 8th, railway mail service will be established on the Wichita Falls and Southern railway between Olney and Newcastle, Texas. The offices at Newcastle and Olney will be supplied by this line hereafter instead of by star routes.—Fort Worth Record.

DEMONSTRATION WORK ORGANIZED

The last of the series of demonstration talks to farmers by State Agent Quicksall of the government department of agriculture was given at the Chamber of Commerce rooms yesterday afternoon before a smaller audience than attended meetings in other towns in the Wichita county.

Of those present the following were interested in receiving the government instructions and co-operating in the work: J. H. Forcher, Jos. Stephenson, J. A. Foster, Wm. Parr, John Schraeder, T. E. Ruddy, John Moore, J. M. Jolley, J. L. Patterson, G. W. Hund and A. D. Terrell.

A request made to get Mr. Quicksall to return in March and go to Thornberry, where a large delegation will hear him, so the farmers state. The meetings in the outlying districts, it seems, are always more largely attended than in larger places. One of the good results expected from the establishment of the demonstration stations will be the available material to make up exhibits. Mr. Quicksall will see to it that all kinds of products other than those from the corn and cotton demonstration patches are cultured and cared for. It is the intention of the Chamber of Commerce to take exhibits into Iowa, Missouri, Illinois, Oklahoma and Texas and prepare thoroughly for them, and in this work Mr. Quicksall will be of invaluable assistance while on his inspection tours. The Chamber of Commerce will purchase forty bushels of Boone County White Corn, and several bushels of the

HASKELL GREETED BY CHEERING CROWD

BAND AND TWO THOUSAND CITIZENS GREETED GOVERNOR AT MUSKOGEE.

IS COMPELLED TO SPEAK

Declares That He Has No Fear of Federal Indictments in Town Lot Fraud Cases.

Texas News Service Special. Muskogee, Okla., Feb. 5.—Governor Haskell arrived here from Guthrie at 11 o'clock to answer to the indictment charging him with conspiracy against the government in the land fraud cases. He was met at the train by a crowd of two thousand people, which cheered itself hoarse. The governor was forced to make an address from a truck wagon. Haskell praised the men who were indicted by the Federal grand jury and declared that he does not fear the outcome. Several bands attended. Haskell refused to be interviewed.

Laguna and Mosby's prolific varieties. The Laguna is a drought resisting corn, while the Mosby's Prolific is a small corn, but a prolific producer. The Boone County White is an excellent corn and good results are looked for in its experiments in this section. Mohane cotton seed will be given to the demonstrators in this district and about twenty-five bushels of first class seed will be purchased. About seventy-five demonstration patches of three to five acres each will be planted in the various sections.

From my observation of the results of experimental and demonstration work undertaken in other sections," said Secretary Gohlke. "I feel confident that the introduction of the work in this territory under the personal supervision of a practical and enthusiastic 'better methods' farmer, such as Mr. McConkey is, will, within two years time add many thousands of dollars to the income of the farmers over and above the results now obtained. I consider the work and assistance given the movement by the Chamber of Commerce equal in importance to anything undertaken by that organization."

The work in the Wichita Falls country, while not a new plan, will probably be met with a heartier co-operation owing to the limited territory to be covered by Mr. McConkey. Mr. W. D. Bentley was formerly stationed in Wichita Falls, but had a wide area to cover, hence was handicapped in giving one district the attention which can be given it under the present system.

Mr. McConkey received a number of telephone calls yesterday and last night from farmers in Archer county, asking him to take up the work in that section. Mr. McConkey's time will be taken up pretty fully with the work already arranged for in the stations already organized, but it is probable that State Agent Quicksall may be able to make some kind of an arrangement for extending the work in Archer county. In speaking of the interest shown in the meetings, Mr. McConkey said: "I was surprised to find that the farmers in all the sections visited were readers either of the Daily or the Weekly Times. I can vouch for the fact that the Times has a wide circulation in the Wichita country, and I appreciate the publicity it has given the demonstration work."

Jackson Bros. undertakers and embalmers. Day phone No. 24; night phone No. 577. 96-64 w. 11

A farmer living near Buncetown, Mo., recently put up a sign on his ground. "Hunting on my place is positively but positively forbidden."

An annual pension of \$5000 has been awarded the widow of the late President Thomas Estrada Palma of Cuba, by order of Governor Magoon.

Flake hominy, cracked hominy, and grits. King & White. Phone 261.

JAP LEGISLATION BILL MAY NOT PASS

ROOSEVELT INFLUENCE MAY DEFEAT MEASURE IN CALIFORNIA SENATE.

IT MAY BE POSTPONED

If Measure Isn't Defeated Today Postponement for a Week Will Be Attempted.

By Associated Press. San Francisco, Cal., Feb. 5.—It is not believed here that the bill for the segregation of the Japanese in the public schools will pass the senate, and if so it is thought that Governor Gillette, observing the wishes of President Roosevelt, will veto the bill. If the bill is not beaten today a move will be made to postpone consideration for a week.

An Associated Press dispatch yesterday said: "With the defeat of two of the anti-Japanese measures, followed by the unexpected passage, by a vote of 46 to 28, of a third bill segregating Japanese school children in separate schools along with Chinese, Koreans and other Asiatics, regarded as one of the most offensive measures of all, President Roosevelt, since there is little likelihood of the anti-Japanese legislation that for the last week has shaken the State of California, hardly had the bill been passed by the assemblage before Governor Gillette received the following message from President Roosevelt: 'Your kind letter just received. What is the rumor that the California legislature has passed a bill excluding the Japanese children from the public schools? This is the most offensive bill of all, and in my judgment is clearly unconstitutional and we should have a test at once in the courts. Can it be stopped in the legislature or by veto? THEODORE ROOSEVELT.'"

The governor at once sent a reply, the nature of which he declines at this time to make public, and he requested from the president an immediate answer. Pending the receipt of another telegram from President Roosevelt, Governor Gillette declined to discuss the action of the assemblage today. The bill passed today, which was one of three anti-Japanese measures introduced by Assemblyman Grove L. Johnson, places the Japanese in the same classification with other Asiatics and inserts the word "Japanese" in the present State statute providing for the segregation in separate schools of Mongolian children.

The Thief. Henri Bernstein's production, "The Thief," at the Wichita Falls opera house Wednesday night developed a caste of six talented artists, composing the entire company.

Mr. Maurice Drew, as Raymond Logardes, was remarkably clever, as was Miss Carlisle, the leading lady. The moral tone of the play, taken as a whole, is good, strong and wholesome, provided it is right for a married woman who is handsome and attractive to carry on a clandestine love match with a youth of 19, and encourage him to the very point of abandonment. According to her own confession, she was the real thief, acted the hypocrite, and was very "indiscreet," holding, however, that her purity could not be questioned; she persuades her husband that her sin has not been that of infidelity to him; and this seeming extenuation is sufficient justification for full forgiveness and restoration, and there is that subtle sympathy that goes forth for one as though they had suffered as a martyr, until one might conclude that it makes no difference how far in sin you may go—even to the very verge of the precipice—provided you do not jump over and commit the unpardonable sin as the world sees it.

CRITIC.

Mrs. T. C. Thatcher and Mrs. C. C. Huff will entertain the Aid Society of the Christian church and their friends with a free will offering tea at the home of Mrs. Thatcher, 1210 Ninth street, Monday, February 8th, from 3 to 6 p. m.

ONE VOTE DEFEATS SUBMISSIONISTS

ONE SUBMISSIONIST CHANGES HIS VOTE TO MAKE RECONSIDERATION POSSIBLE.

THREE MEMBERS ABSENT

Final House Vote on Resolution Stood Eighty-Six to Forty-Four in Its Favor.

Texas News Service Special. Austin, Tex., Feb. 5.—Only one vote defeated the submissionists in the house this morning. Immediately upon convening the members plunged into the submission question. The call of the house to order found but three members absent—Goodman, who is an anti-submissionist; Pierce, a republican, and Walter, who is regarded as against the resolution. The vote was announced as eighty-five to forty-five in favor of submission, less than the two-thirds necessary to carry. The actual vote was 86 to 44, but Mobley, a strong submissionist, changed his vote at the last moment so that he can call the question up for reconsideration.

A vote of 86 to 43 constituted a majority and the submissionists would have needed but 87, or just one more vote. With three members absent, the submissionists really needed three more votes, since there is little likelihood of any member changing to the opposite side. It is believed here today that the vote sounds the death knell of submission and State-wide prohibition. Even should the senate carry for submission, the house vote would block the amendment. The following is the vote on submission:

Yeas—Speaker Kennedy, Anderson, Aston, Baker of Hood; and Baker of Panola, Ballance, Barrett, Bell, Bogard, Bostle, Bowles, Bowman, Branch, Briscoe, Brookerson, Brownlee, Canales, Chaney, Cox, Craven, Crockett of Mitchell, Cureton, Curry, Dalby, Dotson, Driggers, Elliott, Fant, Fuller, Gaines, German, Gilmore, Graham, Hamilton of Childress, Hamilton of McCulloch, Harman, Hill Horgor, Jackson, Jenkins, Jennings, Lawson, Leach, Lee, Lively, Luce, Maddox, Marshall, Mason, Maxwell, McKinney, McLain, Morris, Munton, Nelson of Hopkins, Nelson of Kaufman, O'Brien, Odom, Pharr, Porter, Ray, Rayburn, Reid, Reedy, Ridgeway, Robertson of Brath, Robertson of Bell, Robertson of Travis, Self, Spradley, Stamps, Stead, Stephenson, Stepler, Strickland, Tarver, Terrell of Cherokee, Turner, Vaughan, Westbrook, Wilson. Total, 85.

Nays—Adams, Allen, Bierschwale, Boswell, Brooks, Brookshire, Brown, Buchanan, Birne, Cathey, Caves, Crawford, Crisp, Crockett of Washington, Davis, Fitzhugh, Flournoy, Geisen, Haxthausen, Highsmith, Johnson, Kealey, McCallum, McDonald, McGowan, Meeks, Mobley, Moller, O'Bryant, Pearson, Perkins, Rabb, Ralston, Roach, Schluter, Schofield, Smith, Standifer, Terrell of Bexar, Treneckmann, Turney, Von Rosenberg, Wahrmond, Werner, Wortham.

Vote Postponed in the Senate. Texas News Service Special. Austin, Tex., Feb. 5.—The senate by agreement postponed the vote on submission, because of the absence of several members.

A bill passed the senate creating the sixty-ninth judicial district and extending the time for the construction of the Orient railroad.

FEAR RACE CLASH IN PITTSBURG PA.

By Associated Press. Pittsburgh, Pa., Feb. 5.—Shortly after noon today a report reached the police that another assault had been made by a negro upon a young girl in the Heron Hill district. Officers hurried to the scene in an automobile. Intense indignation prevails and a race clash is believed to be inevitable.

Guarding a Nail.
 A gentleman in Jerusalem told me that he found a Turkish soldier on guard in some part of the Church of the Holy Sepulcher, where it was not usual for a sentry to be, and inquired of him why he was there.

He pointed to a nail in the wall and replied, "It is my duty to watch that nail."
 Asked why, he explained that the Latins or the Greeks—I forget which—had driven the nail with the view of hanging a picture; that a rival sect had furiously objected, saying that it was an interference with their property and wanted to pull out the nail; that thereupon the Turkish government had intervened, and set him to watch the nail and see that no picture was hung upon it and that it was not pulled out.

To allow the picture to be hung would have been to admit the claims of those who drove in the nail. To allow it to be pulled out would have been to admit the claims of those who objected to the driving in of the nail. Therefore the nail must be preserved and the picture must not be hung, and to see that this was so an armed sentry must watch day and night. For aught I know he may be watching still.—Rider Haggard's "A Winter Pilgrimage."

Traced by a Bluebottle Fly.
 The great objection to the use of poison for rats is that they retire to their homes and die there, to become a nuisance and a menace to health. Friends of the writer were compelled to have the floor and wainscoting of their dining room removed for this reason. A wiseman, knowing that a pair of poisoned rats had got under his floor, summoned not a carpenter, but a naturalist, to his aid. They knew that the rats were under the floor, but the difficulty was to fix the spot. There seemed to the owner of the house no alternative to the removal of the whole floor; hence his appeal to the nature detective. The latter would not hear of the floor coming up. He cried out for a bluebottle fly. One was captured unharmed and turned loose in the room. After a little preliminary hawking the bluebottle darted to the floor and remained on one spot, like a pointer which has found game. "Your rats are under there," said the naturalist. They cut down through that board, and there were the rats.—New York Mail.

The First Pantomime.
 John Rich has the credit of producing the first pantomime ever seen in England. This was performed on Dec. 26, 1717, at the theater in Lincoln's Inn Fields. Rich had found himself unable to compete with the legitimate drama at Drury Lane, so he bet thought himself of the comic masques occasionally performed in London and combined with their scenic and mechanical effects the maneuvers of the pantomime ballet. The result was "Harlequin Executed," which the advertisement of that day described as "a new Italian mink scene, between a scaramouch, a harlequin, a country farmer, his wife and others." There was all the business with which we were familiar from childhood, but turned into palaces, shops into gardens, houses into trees. "Of course the 'earnest student of the drama' protested against this innovation, but Harlequin, Columbine & Co. have maintained their hold on public favor until the present year of grace.

He Knew Them.
 This was overheard in the lobby of a big hotel in Cincinnati when a big load of traveling salesmen came from the station. Every man of them as he signed the register paused to shake hands with the hotel clerk—fatherly old fellow who had been there many years. "Ah," said one of them to the clerk, "it's a good thing you're still on deck, Uncle Dave. I don't think the house could run without you." "Couldn't it, though?" said Uncle Dave. "You fellows would come in here, and if there was a strange clerk you'd say, 'Where's Uncle Dave?' And the clerk would say: 'Why, didn't you hear? He died a month ago.' And then you'd say: 'Well, I'll be darned! That's too bad. Say, when 'll dinner be ready?'"

Dressing the Sponges.
 When sponges are first torn from the sea bed they are of a dark color and living. By tramping and pressing them with the feet a milky substance oozes out, whereupon the sponge dies. They are then immersed in the sea for a space of eight or ten hours. The dark, skiny substance is then removed by scraping, and gradually, through cleaning, drying and bleaching, they take on the fine yellow color, which characterizes many of them.

The Office Boy Instructs.
 Contributor—I should like to leave these poems with your editor. What is the usual procedure? I haven't done any magazine work before. Office Boy—Well, the usual custom is to leave 'em an' call back in a day or so—an' git 'em.—Exchange.

In the Dark.
 Uncle Joe—Yes, Teddy, it is quite possible that there are people in the moon.
 Little Teddy—Well, what becomes of them when there isn't any moon?

Savage.
 Caller—Sir, I am collecting for the poets' hospital. Will you contribute anything? Editor—With pleasure. Call tonight with the ambulance, and I will have some poets ready.—Judge.
 It is great cleverness to know how to conceal our cleverness.—La Rochefoucauld.

PLANS A ROOSEVELT SHOW.

Circus Man Offers President \$300,000 For 30-Weeks' Engagement.

Bridgeport, Conn., Jan. 31.—An offer of \$10,000 a week for an engagement of thirty weeks, with an organization to be known as "Roosevelt's congress of rough riders," has been formally made to President Roosevelt by James Atlas, a former circus man, acting for himself and a syndicate who have made fortunes in the circus business.

The president received the offer by mail two weeks ago, but has not replied to it, and Atlas is of the firm impression that he is seriously considering the proposition. An effort was made this afternoon by Atlas to get the White House by telephone, but the telephone operator informed him that Secretary Loeb stated the president did not know Mr. Atlas.

"In my letter to the president," said Mr. Atlas tonight, "I merely mentioned the proposition and asked for an appointment. You know most people who go to Washington and want to see the president are considered crazy, and the way must be paved. Congressman E. J. Hill has promised to see Mr. Roosevelt and arrange a meeting for me so that I can put the proposition to him in the proper light."

"It is not our desire to make a circus man out of the president, or in any way to lessen the dignity of his position. We have mapped out every detail of the show, which would be in three spectacular scenes of Western life, with cowboys, Indian camps, buffalo hunts and all that sort of thing. The second would be a reproduction of the battle of San Juan hill, with the president leading the charge as Colonel Roosevelt. In this scene we would gather around him as many of the original rough riders of his regiment as possible. For the final scene we plan a reproduction of the inauguration of President Roosevelt, true to life, and thus give the common people of the country a chance to see what such a ceremony is like.

"Money talks, you know, and we are ready to deposit the full amount, \$300,000, as soon as President Roosevelt signs the contract. I used to know him when he was governor of New York. I was a wrestler in those days, and I wrestled with him in Albany once, when Mike Dwyer took me to the executive mansion. What makes me feel confident is that the president is original. He gets out of the beaten path and does not care what people think so long as he feels that he is right, and his regard for the common every-day citizen having been demonstrated, it would take the largest tent ever manufactured to accommodate the spectators."

WOMAN'S WOES

A Certain Cure for Female Trouble and That Tired, Nervous, Depressed Feeling That Makes Household Work a Dreary Burden.

Work, work; Nothing but work; Tiresome drudgery! Work used to be a pleasure, but now a few minutes effort leaves you weak, discouraged and irritable with a feeling that everything has gone wrong.

The liver and bowels are responsible for this. The symptoms are, heart palpitation, faintness, suppressed, excessive or irregular periods, bad digestion, bearing down pains in the side and back, nervous weakness, poor appetite, costiveness. Prickly Ash Bitters sweeps away these troubles like magic, because it strikes at the root of the disease—the stomach, liver and bowels.

Women who take medicine for female troubles that does not benefit these organs are wasting money and valuable time. The liver is diseased because the stomach is unhealthy, and both have produced a constipated habit. This stoppage of healthy action in the liver and bowels has filled the system with impurities which have brought on irregularity in the female organs; it follows therefore, that a medicine which will correct the liver, strengthen the stomach and promote healthy bowel operations is the remedy for menstrual difficulties.

The poor, tired, discouraged woman who has suffered silently and so long with the ailments of her sex soon feels the strengthening and exhilarating influence of Prickly Ash Bitters. It does its work thoroughly, beginning with the stomach and extending its purifying and stimulating influence to the liver and bowels. When the stomach, liver and bowels are active and working in harmony, there must be health and regularity in the female organs. As a result of this improved condition the patient takes a renewed interest in her household duties. Appetite and strength return, the eyes are brighter, the complexion clears, and before long she is transformed into a bright, happy woman with rosy cheeks and cheerful spirits.

"I suffered much from indigestion and constipation. I had a drowsy tired feeling and nervous headaches all the time. I began using Prickly Ash Bitters and it has helped me wonderfully. I now have a good appetite, sleep well and can do a greater amount of work than ever before."

FINDING HIS INITIAL.

A Tangle of Letters That Was Finally Made O. K.

The man with a soft, low voice had just completed his purchases. "What is the name?" asked the clerk. "Jepson," replied the man. "Jefferson?" "No, Jepson; J-e-p-s-o-n." "Jepson?" "That's it. Eighty-two." "Your first name—initial, please." "Oh, K."

"O. K. Jepson?" "Excuse me, it isn't O. K. I said 'Oh'." "O. Jepson?" "No, rub out the O, and let the K stand." The assistant looked annoyed. "Will you please give me your initials again?" "I said K." "I beg your pardon, you said O. K. Perhaps you had better write it yourself." "I said 'Oh'." "Just now you said K." "Allow me to finish what I started to say. I said 'Oh' because I did not understand what you were asking me. I did not mean that it was my initial. My name is Kirby Jepson."

"Oh."

"No, not O, but K," said the man. "Give me the pencil and I'll write it down for you myself. There; it's O. K. now."

THE HAUGHTY TURK.

High Handed Diplomatic Methods of the Seventeenth Century.

Indignities to which foreign envoys were formerly subjected in China were mild in comparison with those occasionally meted out to them in Constantinople. M. Julian Klaczkus in his "Etude de Diplomatie Contemporaine" relates that in 1673 the grand visier, having intercepted some French dispatches, tried to force Del la Hays, first secretary to the French embassy and son of the ambassador, to give him the cipher of the embassy. The young diplomat indignantly refused and was in consequence bastinadoed, struck in the face with such force that his teeth were broken, and he was thrown into prison. No attempt was made by Louis XIV. to obtain redress for the wrongs inflicted on his representative.

Until the beginning of the eighteenth century Christian envoys to the ports were forbidden to visit one another or even to confer with one another on neutral ground. They were not allowed to drive in public with their wives, and at one time it was proposed to prevent them from importing wine for their own consumption. A compromise was effected on this point, on the understanding that the accused liquor was to be conveyed from the harbor to the embassies at night and in great secrecy.

The Order of the Seraphim.

The Order of the Seraphim is the oldest and most famous of the decorations in the gift of the king of Sweden. Originally it was instituted by Magnus IV., some 600 years ago, to commemorate the siege of Upsala, the ancient capital of the Swedish kings, and its statutes bound the recipients of the order to fight to the death for the maintenance of their religion and to constitute themselves the special protectors of the widow and the fatherless. When it was revived about the middle of the eighteenth century by King Frederick the obligations laid upon the members were somewhat less onerous. The decoration consists of an eight pointed star in white enamel with cherubs' heads of gold and is worn on a broad band of pale blue ribbon.—Boston Transcript.

Without Horns.

A clergyman was an important witness in a horse dealing case. He gave a somewhat confused account of the transaction in dispute, and the cross examining counsel, after making several blistering but ineffective attempts to obtain a more satisfactory statement, said:

"Pray, sir, do you know the difference between a horse and a cow?" "I acknowledge my ignorance," replied the reverend gentleman. "I hardly know the difference between a horse and a cow or between a bull and a bull—only a bull, I am told, has horns, and a bully—here he made a respectful bow to the advocate—"luckily for me, has none."

Beans, Spanish Style.

Soak overnight two cupsful of white or pink beans. In the morning boil with a pinch of soda fifteen minutes and drain. Fry one large sliced onion with a piece of pork or bacon. Add these to the beans; also a cup of canned tomatoes, two shredded chili peppers, salt and sufficient hot water to cover well. Boil briskly for ten minutes on the stove before putting in the cooker. Leave in for five hours.—Good Housekeeping.

Dental Incubation.

"Tommy," said the visiting uncle, "seems to me that baby sister of yours is pretty slow. She hasn't any teeth yet, has she?" "She's got plenty of teeth," replied the indignant Tommy. "She's got a whole mouthful of teeth, only they ain't hatched yet."—Woman's Home Companion.

Barofaced.

"Freddie," said the visitor, "I hear your father gave you a watch on your birthday. Was it a hunting case watch?" "No, ma'am," replied Freddie. "It was a barofaced watch."—Exchange.

ADVERTISING

Regular and Irregular Appearance

THE SUCCESSFUL ADVERTISER WHO MAKES the announcement of his goods regularly will tell you that in his early day he paid out many a hard earned dollar foolishly by placing his advertising in the mediums "just when he felt like it."

IT IS A MISTAKE FOR THE ADVERTISER TO ASSUME that he is going to get rich, get a basket full of returns, from his first advertisement, especially if he is just a beginner. This does not apply to the established concerns where publicity has already been attained. The vital thing is: A broad acquaintance through publicity.

THE REGULAR APPEARANCE OF YOUR ADVERTISEMENT is important if you are placing before the public a new article. It is not the "try once, try then later" kind that catches the eye of the bright and prosperous buyer; for the searching up-to-date buyer reads his paper every day, every week, every month, seeking new equipment and new material.

ANOTHER THING TO BE CONSIDERED—Do not kill your proposition by the use of stunted space. A small space implies a small business. If you know that you have a good article, feel that there should be a demand for it, back your judgment by advertising—advertising it in a dignified way. Is it not wise to follow a proved method.

IT IS FAR LESS EXPENSIVE TO THE BEGINNER to plan his campaign of publicity in such a way as to command the attention of the reader—then the results are bound to follow.—THE INLAND PRINTER COMPANY.

The above from an undisputed authority is submitted for the careful consideration of the merchants of Wichita Falls.

Ed Howard, General Manager
B. D. Donnell, City Editor

Entered at the Postoffice at Wichita Falls as second-class mail matter.

Wichita Falls, Texas, Feb. 5th, 1909.

A GOOD EXAMPLE FOR LOCAL MERCHANTS.

Oklahoma City next week will begin war upon that class of advertising that the Chamber of Commerce does not consider legitimate, when a card will be put on display in the business establishment of every member of the chamber, upon which will be printed:

"Under no circumstances will we advertise in programs, booklets, hotel registers, desk cards, blotters, room cards, directories, time tables, time books, theater tickets, irregular publications, boom editions, write-ups or any other like proposition until the same has been investigated by the advertising committee of the Chamber of Commerce and a proper letter of endorsement has been given."

"We take no stock in any gift enterprise."

"We give no donation to charity except through the provident association."

"We patronize members of the Chamber of Commerce. Do you?"

The merchants are in accord with the plan to cut out freak advertising.

Wichita Falls is getting her full share of publicity through efforts put forth by our Chamber of Commerce, and the results are all that could be desired. The man, especially the fellow who owns a few choice pieces of city property, who cannot see plainly that the enhancement in value of his property is not due directly in a measure to the work of our Chamber of Commerce, is indeed dull of comprehension, and to the credit of the citizenship of this progressive, wide-awake, hustling city, it can be truthfully said that there are but few property holders who are not supporting the organization. The poor fellow who is working on a salary and has no property, except, perhaps, his home, and is supporting the Chamber of Commerce in the work of making of Wichita Falls a city, is deserving and should receive more credit for the part he is taking in the support of the organization than

the fellow who owns a corner lot or so in nearly every direction you may look. It is by the hearty co-operation of the little man and the big man—measured by the standard of finance—that Wichita Falls is what she is today and so long as this spirit prevails, prosperity will abound in our midst and remain within easy reach of us.

Now that the Supreme Court of the United States has rendered a decision which, in effect, denies trust concerns organized contrary to the Sherman anti-trust law the right to collect debts due them through courts of justice, they will be forced to do business on a strictly cash basis, or comply with the provisions of the law. Doubtless many persons now owing trust concerns will attempt to square them off by proving the fact that they are a trust, and conducting their business contrary to the law. While such a course is not honorable, by any means, those who resort to it cannot be censured so very severely. In all probability, they have been robbed a little by little, for years by the trusts, from whom they were forced to buy their supplies or do without, and this decision of Justice Harlan of the United States Supreme Court would be looked upon as evening up matters just a little bit. A few more just like it will soon make the trusts have a wholesome respect for the law, or put them out of business altogether.

Another big shipment of pure ribbon syrup from East Texas, just received at 212-11
SHERROD & CO.

Crowding Him.
Mr. Pogson's three sons had married and gone to settle down in different parts of the country. One day he received this telegram from the eldest: "You have a grandson. Fine boy. Ten pounds." Mr. Pogson answered it at once: "Good! Buy finest baby carriage you can find and send bill to me."

FATHER.
In due time the bill came. It called for \$35, and he sent his check for the amount.

A few weeks later his second son sent him this dispatch: "You are the grandparent of a fine boy. Not weighed yet, but a bouncer."

HENRY.
To this he responded: "Glad to hear it. Buy good, serviceable baby carriage and forward bill to me."

FATHER.
Promptly came the bill. It was for \$25, and he paid it.

Ten days elapsed, and then came a dispatch from the third son to this effect: "You have another grandson. Large, fine boy. Named for you."

ALBERT.
Mr. Pogson's response to this was as follows: "All right, but looks like crowding me. Am sending \$12.50. Buy baby carriage with it."

FATHER.
"Youth's Companion."

Making It Easier.
Little Jean's dolly had met with an accident, and her mother had procured a new head for it. The removal of the old head proved to be a rather difficult task, which Jean watched with great interest.

"I'm afraid, Jean, I can't get this old head off," said the mother.

Jean's face glowed with the light of an inspiration as she said: "Never mind, mamma; just take the body off."

THE WORLD OF WHITE

Beautiful Undermuslins and White Goods at Liberal PRICE REDUCTIONS

A. R. DUKE & COMPANY

WHITE PAPER FROM COTTON SEED HULLS

It is claimed that at Marseilles, France, it has been demonstrated beyond the shadow of doubt that the fiber separated from cotton seed hulls can be made into not only the best white newspaper but the best grade of writing material as well.

It is asserted with equal confidence that tests made at an English plant have placed it in the proven class there as well.

The first and only one of these de-fiberating machines ever given a test in America having been quietly installed at the plant of the Grayson Oil and Cotton Company in this city is being tried today under the immediate direction of Mr. Rennell, the expert for Edwin C. d'Segundo, the promoter of the enterprise, by which they expect to revolutionize the manufacture of paper by making the necessary raw material an accessible commodity in any quantity desired.

Supt. Rothe of the oil and cotton company is taking a very active interest and is giving Mr. d'Segundo and assistants the full value of his intimate knowledge of the seed hull, something they lacked in the French and English tests, as successful as they are claimed to have been.

It is the intention of the capitalists at London and Marseilles, if the American test, now being made at Sherman proves satisfactory, to install several of the machines here, in fact to erect and operate an extensive plant for de-fiberating hulls and incidentally it is within the range of probabilities that a paper mill for the manufacture of the fiber will be added.

The test now in progress here means much to the tens of thousands of users of paper in America.

Danger in Soft Drinks.

According to a writer in the London Lancet, there is hardly less danger to body and mind in so-called "soft" drinks than in those which are unblushingly alcoholic. This gentleman declares with considerable vehemence that if one wishes wholly to avoid the demon of alcohol it is necessary to eschew not only lemonade and ginger ale, but even more water than is absolutely requisite for quenching the thirst, since, in the purest of water, there is a small percentage of natural alcohol. This reformer agrees with the celebrated French satirist that "the only superiority ordinary drinking men show over the animals lies in their ability to drink when they are not thirsty." He opines that many of the dyspeptic and heart evils of the day arise from drinking more than is required to quench the natural thirst. To indulge in tea or coffee drinking, or in seltzer or ginger ale or lemonade drinks, in order to quench and unnatural or "educated" thirst, is to confess oneself in the same category as drug takers and dram drunkards.

Much of the artificial drink abuse of our time is due, says the writer in the Lancet, to the idea that municipal water is mostly tainted, and that it thus accounts largely for the death rate. He points out that the best, and purest waters of the natural springs are not

free from a certain taint, and that the evils of tannin, alcohol, carbonic acid gas, glucosid and ginger are far more to be apprehended than the impurities of ordinary water, since the human body is not without its own natural poisons and impurities and their natural antidotes. Lemonade, which is so freely recommended as a refreshing and stimulating drink to reforming toppers, is, says this physician, a pregnant source of gastric trouble. At first the harm is not noticed; gradually, however, when the citric acid has had its play upon the coating of the stomach, dyspeptic gases begin to form, the eating of a meal becomes the source of apprehension as regards after effects, and bilious trouble makes its entry. Ginger ale is hardly less harmful; in time the ginger corrodes the coating of the stomach, the same being the case with seltzer waters and ever-infused tea.—New York World.

Notice to Water Consumers.

All water consumers are hereby notified, for the second time, to cease the practice of allowing those who are not subscribers, to use water from hydrants for which they are paying monthly or yearly rentals, without the consent of the company, under penalty of having their hydrants cut off. Water and Light Co., J. B. Stokes, business manager. 229 Gf

The Most Hopeful Sign of the Future.

From Appleton's Magazine.
In this great country of ours there stands out pre-eminently the inventive genius, the masterful ability, the resourcefulness, the courage, the optimism of America's business men. At no period of the world's development have there been in any given country at any one time so many opportunities standing ready and so many young men able to embrace them and to move on to such splendid achievements, as we have in our United States today. It can not be possible that these young men will be pessimists, that they will miss the legion of opportunities that are theirs! And this is no waving of the American flag or screaming of the American eagle. The business enterprises—the healthy checks organized labor puts on capital—the strong, conservative check which those who have put upon those who have not, combined with extraordinary freedom which our government gives us to come and criticize one another—all that gives promise that the right course will be found and followed. Where else in the world is this true? It is the healthiest, the most hopeful sign of our great future for good. It is the clearest indication of the extraordinary opportunities ready at hand for those of us which have brains and who will play the game to its limit.

PRUNES COOKED AND READY TO SERVE

You buy baked Beans, Corn, Tomatoes and Soup, cooked and ready to serve.
 You buy most of the fruits in the same way. Why not prunes?
PRESTO BRAND COOKED PRUNES are a fancy grade of prunes all cooked, tender but not mucked up.
 They are packed in their own rich clean, dark brown juice and make a delicious sauce ready to serve either cold or hot.
 They cost no more than the dry prunes so they are less expensive—no fuel to cook.
ONE-TWO-THREE POUND TINS, 15c, 20c and 30c
SLICED HAWAIIAN PINEAPPLE—The Pineapple gardens of Hawaii are becoming the most famous of the world. The flavor is best developed in that climate and the pulp is the most tender and edible. We have a new lot just in from last years pack 2 1/2 pound tins. 35c

New Times Have Changed.

A peculiar characteristic of most men who have passed their sixtieth birthday is that they believe everything in the moral and physical world has undergone a change, since they were young. To prove the correctness of this assertion, on some real cold day ask an old settler of your acquaintance if he had ever experienced colder weather, and he will tell you that the winters we have been having the past thirty years have been so warm that they remind him of the late summers we used to have along in the early '50s. However, should you meet him in the middle of August on a day when it was so hot that the mercury would be spewing out at the top of the thermometer, and ask him if he had ever known it to be so hot, the chances are that he would tell you that the winters back in the early '50s were warmer than the hottest summer weather that we have been having for the past twenty or thirty years.

I shouldn't be at all surprised if there were not a lot of old settlers who stood around in the flood till the water got up in their whiskers, contending that the rain that they were then having was but a gentle shower compared to what they had seen some 300 years before.

I once lived in a town that had a lot of old settlers who would tell you to a man that away back in the '50s the winters were colder, the summers hotter, and that it rained more, and rained less than now, and as to snow and cyclones and sudden changes, we of this degenerate age knew nothing whatever.

I once lived neighbor to one of these old timers, who believed with all his heart that God performed all of his mightiest works between the years of '43 and '69. It made no difference what took place, let it be a cyclone or a camp meeting, Uncle Billy Stone had "seed" a bigger one about fifty years previous. One day there came up an awful storm and hail stones fell as big as a quart cup and killed grown cows and horses and broke big limbs off of trees and knocked the shingles off of every roof in town, and I thought surely Uncle Billy never saw a worse hail storm than that, and as soon as the storm had passed I stepped over to his house to interrogate him about it. When I went in Uncle Billy was just crawling out from under the bed where he had taken refuge from the hail stones. My first greeting was: "Say, Uncle Billy, how was that for a hail storm?" He looked at me for at least a minute before he spoke, and I could tell there was a struggle going on in the old man's mind—a struggle with conscience and pride. Conscience said "split" and Uncle Billy, and confess that was about the best organized hail you have ever met, but pride said don't go back on the early '50s, Uncle Billy, at this late day. But he made a compromise between them and divided honors about equal by saying: "Well, Joe, I can't say that I ever seed quite as big hail, as drapped around here a while ago, but I seed hail on the 13th day of May, '59, that was almost as bad that lasted a leetle longer and it lightened a powerful sight wusser."

It is the same way with everything else with most of the old settlers who have passed the 60th mile post on life's journey and they are perfectly sincere in their belief that nothing happens on as big a scale as it did a long time ago. They looked through different eyes then and heard through different ears and their minds and hearts took hold and fondly retained the passing events that most impressed them in the long ago. It is but natural for them to believe that back yonder in the days when life held out its fondest hopes, and the warm young blood surged through their veins, that nature did all things on a much larger and grander scale. They are perfectly sincere when they tell you that the winters

were colder and the summers hotter, that the rivers got higher, the sky bluer, that the men were taller, smarter, stronger and straighter, that the girls were prettier and friends truer, back in the days when they were young. Really I think it shows a spirit of unselfishness that approaches the sublime, for one of these old fellows to even acknowledge as did Uncle Billy that he had never "seed" quite as big hail as "drapped" around his house that day; and who could blame him for qualifying it by saying that he had seed a hail storm back in '59 that lasted a "leetle" longer and the "lightnen" a powerful sight wusser? The day is coming and it is not far away when the last of these grand old pioneers will have crossed that dark and silent river, so let us of a younger generation listen with patience and gentleness to their accounts of the mighty deeds performed by God and man away back in the '50s.

It will be but a few years more until a whole crowd of us fellows will be telling of the wonderful things that took place back in the '80s, and we would feel hurt if the young men of that day should treat our tales of the mighty work that was wrought between the years of '76 to the early '90s incredulously.—Joe Sappington.

The Walls of Jericho.

From the London News. The Deutsche Orient Gesellschaft publishes interesting details says Reuter's Berlin correspondent, of excavations which it carried out on the supposed site of the ancient Jericho, a collection of mounds in the vicinity of the village of Ericha, near the Dead Sea. The excavations, which were conducted from January 2 till April 8, gave most interesting results. The site investigated was a plateau containing seven mounds. After a week's digging the exterior wall of the vanished city was encountered at a depth of 8 feet below the surface. The excavators were astonished at the technical excellence of the construction. The wall consisted of three parts. The natural rock foundation is overlaid with a filling of loam and fine gravel a meter or so deep, upon which a sloping rubble wall, heavily bulging externally, is superimposed to a height of 20 feet, the breadth being from 6½ to 8 feet. The wall is built of well-laid rubble, which becomes finer toward the top. Enormous blocks are partially employed for the lower part of the wall. Every interstice is most carefully filled in so as to offer no advantage to the implements of destruction of a hostile force.

Finally upon this imposing foundation is the fortification wall proper, built of clay bricks. In one place this part of the wall reaches a height of 8 feet but it would seem to have been considerably higher. The whole must have been a most striking structure, which dominated the whole plain without the city, and must have been visible for miles. The only advantage which, in point of technical perfection modern construction possesses over the walls of Jericho is, the excavators state, the use of mortar, which was used in unknown in the early days. The walls are estimated to have extended 900 yards. To the north the fortifications are breached by a large heap of rubbish, which would seem to indicate that enemies must have penetrated here on some occasion.

HAY EXHIBIT FROM THE WICHITA COUNTRY.

Fort Worth Telegram. "The Wichita Northern country is going to have more fat hogs and cattle in the show this year than ever before," said E. B. Carver, livestock agent of the Wichita Falls and Northern, and the Wichita Falls and Southern, who called at the headquarters of the National Feeders and Breeders Show Wednesday to get prize lists for stockmen in his territory.

"Our country from Frederick, Okla., down to Wichita Falls is producing good hogs and cattle and is producing more of them all the time. Twice as many hogs as were shipped last year will be shipped here during this year from that territory.

"Wichita Southern country toward Newcastle hasn't taken to hog raising and steer feeding quite so extensively yet, but the time is coming when there will be big shipments from that territory."

Mr. Carver is just returning from Los Angeles, where he attended the convention of the National Livestock Association as one of the Texas delegates, and he gives an enthusiastic account of the reception and entertainment which Los Angeles accorded the visitors. He is confident that Fort Worth could have secured the next convention of the association if the Texas delegates deemed it best for the association to send the convention back to Denver next year. It is conceded, he says, that the convention for 1911 will be given by unanimous vote to Fort Worth.

Bright's Disease is more dreaded by physicians than any of the serious disorders with which they have to deal, because of its insidious and malignant character. If prompt action were taken when headaches, urinary disorders, digestive troubles first appear, much suffering and sorrow would be averted. Prickly Ash Bitters will quickly stop the spread of the disease, quiet the inflammation, heal the kidneys and bladder, strengthen and regulate the liver and drive poisons and impurities out of the system. TRAGIC MYSTERY ARSON AND MURDER

BODY OF UNKNOWN MAN FOUND IN RUINS OF BURNED SCHOOLHOUSE.

CANNOT BE IDENTIFIED

Remains of Victim of Midnight Tragedy in Callahan County Almost Totally Destroyed.

Ablene, Tex., Feb. 2.—The conclusion of what appears to be a horrible tragedy was enacted last night at the Mud Young schoolhouse four miles west of Clyde, in Callahan county. The schoolhouse is situated in a rather lonely spot north of the Texas & Pacific railroad, and last night about 9:30 parties living in the vicinity noticed a fire, evidently caused by a burning building. At that time the matter was not investigated, and the tragedy was not discovered until this morning, when it was found that the school building had been burned to the ground and among the ruins was found the charred remains of a man.

Officers were notified and the matter investigated. Nothing was found to disclose the identity of the man. Physicians think it was rather a young man of large size, and from the remains found, was evidently well dressed.

He wore a double-breasted vest. The limbs were partially burned away. The teeth were intact and had not been filled. The trunk is entire. The third rib on the left side was broken and a hole was discovered, which a probe showed penetrated clear through the lungs.

This hole was evidently made by a pistol ball, as the officers discovered a small mass of lead which they think is the bullet.

A knife which had been little used, five 5-cent pieces, a key or watch tag bearing the letters "P.L." and a few buttons and buckles is about all that was left that would lead to his identity.

Fresh buggy tracks were found leading to the schoolhouse and the place where the fence had been taken down and a buggy driven over it. A window screen had been removed from one of the windows and the body evidently placed in through the window on top of the screen. The body was found prone upon its back. Tracks indicate that the buggy was a light one-horse rig, drawn by a heavy horse with large feet and indicates that the rig came from Abilene and also returned to this place by a circuitous route.

Livery men here report that they had no such rig out last night. Parties living at Elddale report seeing a buggy with top and curtains down pass that place early last night. Tracks indicate that the buggy left the schoolhouse going north toward Hamby, and afterward turning west toward Abilene. Otherwise there is no clew as to the perpetrators of the crime.

COME VALENTINES AS MUCH IN EVIDENCE AS EVER.

Earlier than ever before and more numerous than dear old comic valentines are they again.

It's all a mistake to suppose they were no longer proper or popular. The comics will be more the rage this Feb. 14 than formerly.

All efforts to censor them and remove the "horrible verses" have been futile. The same old shafts of criticism, tipped and hidden in fun, are as naughty and the words as biting. No change anywhere.

The shop windows on every street speak of St. Valentine.

"Think of doing away with comics? Not much," said a local merchant, who deals extensively in the Feb. 14 goods. "I would rather think of letting my book supply run short on the first day of school. See 'em? Just the same old funny cards and mats. We have noticed a scarcity of lace valentines. In fact, the public demands the comics more than the nice ones."

The public schools are preparing for Feb. 14. The school children take this day as a license to get vengeance for all the ills and evils they suffer at the hands of teacher and principal.

Uncle Sam, too, is ready to handle the valentines. "We thought last year that we would refuse to handle all of those comics with the horribly bad verses," said a salesman in one of the stores. "But old and the young alike demanded them. So the same old comics with the same horrid faces, figures and forms and the awful verses are back on the counters."

Notice to Breeders.
The Times Publishing Company is prepared to print horse and jack bills of any size, illustrated with cut. Those having use for such bills should place their orders early.

A new agricultural building is to be erected for the University of Maine at a cost of about \$35,000.

Dr. E. M. Wiggs made a professional visit to Byers this afternoon.

Judge W. R. Magill of Lelande, New Mexico, was here on business today.

H. H. Bishop, a progressive farmer from the Thornberry neighborhood, was transacting business here today.

A. J. Bonham of Carlinville, Illinois, who has been in the city, the guest of his friend, Otis L. Duncan, left today on business for Electra.

W. T. Taylor, a well-to-do farmer from near Byers, was here today on his return from a business trip to Hobart, Oklahoma.

Mrs. Mary E. Green of Alva, Oklahoma, who has been visiting her sister, Mrs. C. W. Beavers, of this city, left for home this afternoon.

Presiding Elder Roach of Bowle arrived in the city this afternoon and will hold quarterly conference tonight at the M. E. Church South.

N. M. Clifford, ticket agent for the Fort Worth and Denver in this city, returned last night from Rockwall, at which place he had been attending court in the interest of the company.

Henry Ford of Holliday was in the city today, accompanied by his brother, Frank Ford, of St. Joseph, Missouri, who is prospecting for a location. They were en route to Petrolia to visit the oil field.

Mr. and Mrs. S. A. Stephens, who disposed of their property here some time ago and moved to Corpus Christi, returned this afternoon and have decided to again make Wichita Falls their home.

Mrs. R. E. Clifton left yesterday for Eastern markets to purchase her spring stock of millinery. Her sister, Mrs. M. E. Montgomery of Memphis, has charge of the business during Mrs. Clifton's absence.

Mr. Harrison Garrett of Houston, Missouri, and Miss Minnie Jones of Blossom, Texas, were united in marriage in the parlors of the St. Charles hotel this afternoon at 3 o'clock. Justice W. E. Brothers officiating.

Mr. and Mrs. Venerable of Noblesville, Indiana, who have been visiting their daughter, Mrs. R. E. Farley of this city, left today for their home. Mrs. Farley and children accompanied them to Fort Worth and from there will go to Dallas to see her husband, whom we regret to say is no better.

Marvels of Science.

Such marvelous progress has been made in demonstrating the possibilities of electricity within recent years that we appear to have almost drifted into an age of miracles.

The terrors of the sea have been greatly reduced by the successful operation of Marconi's wireless system in bringing relief in times of distress, another triumph of electricity hardly less marvelous is reported from New York, where an inventor named Anthony, an electrical engineer of that city, is claimed to have successfully controlled the movements of a dirigible balloon by wireless electric impulses.

If the Anthony demonstration was all that has been claimed for it by reputable observers, such an immense forward stride has been made in aerial navigation that its possibilities are almost beyond calculation.

"It," said the St. Louis Times, "an ocean going ship of war can send aloft an unmanned balloon freighted with high explosives and so control its flight that when over a city, or an armed camp, or another battleship, it can drop swift destruction and sudden death to all below, we may as well begin making pruning hooks of our spears. Yet precisely that is what is claimed for the Anthony device. That his experimental apparatus was a toy is true, but that it maneuvered under perfect control of the operator at an electric key is vouched for. To produce similar results on a greater scale seems a mere matter of detail and mechanical perfection. Science today is gathering up from the shores of the ocean of physics such wondrous possibilities of discovery that nothing new astonishes. From Franklin's kite to Marconi's tower seems a far stretch, but all man's steps along the way tread upon marvels. Morse and Bell and Edison each groped a little farther into the alchemic where nature distills her mysteries—and brought forth a rich prize. When first we harnessed lightning to a wire and spoke to the antipodes we cried aha! Now we summon rescue across fog-laden seas with tongues of vibrant ether and think it but the day's work's portion. And at the door of miracle the marvelous atom still knocks."—Houston Post.

Notice to Water Peddlers.

The parties who have been taking barrels of water from the water company's crane without the permission of the company are warned that they are known and in the future had better call at the office and arrange for same. WICHITA FALLS WATER & LIGHT CO. 229-11c

Experiments with sugar as food made in the French army have shown that it is a great source of muscular energy.

Don't let your money lie idle in your pocket with an opportunity like this confronting you

KAHN, The Clothier

A woman who had hurried to the upper deck of the Republic, the ship sunk in the collision recently, clad only in a thin wrapper, implored the first man she met to go to her stateroom and bring her additional clothing. She said he returned to her a few minutes later and handed her a large "rat," used in her pompadour. "He had no idea," she said, "what he was offering me, but had simply grasped in the dark for an article—and got it."

How to Keep Warm.

Close your mouth, take a long breath and buy your coal of Thatcher. Phone 67. 222-1f

Senator Stephenson of Wisconsin is one of the best evidences of self-made men in the senate. His father was so poor when he was a boy that he had to go barefooted, even in winter.

The best bargain in a 5-room house in Wichita Falls is on Eleventh street, No. 1511. If you want to buy see the place and then come to Ben Williams' barber shop and see the owner. T. E. Ward. 231-31c

The Cornell University library now contains over 350,000 volumes and more than 53,000 pamphlets.

JEWELRY AHEAD OF YOU

SPRING DAYS are COMING

Along about this season of the year the appetite is apt to become jaded and things don't taste as good as they ought to. At such times a good condiment helps matters considerably. We have just received a shipment of fancy bulk Olives, Dill Pickles, and bulk Sour and Sweet Pickles. Have Dodson and Brauns Blue Point Oyster Catsup, Dodson & Brauns choicest sweet Catsup and their celebrated Oyster Cocktail, Snyders Pure Tomato Catsup and Snyders Oyster Cocktail Sauce. It's all the best of its kind and you can suit your taste and have a change.

ALL KINDS OF PICKLES, OLIVES, RELISHES IN BOTTLES, JARS AND JUGS.

We can furnish you with Orange Marmalade, preserved Oranges and Grape Fruit to tempt your morning appetite. In fact, the reason it's hard for us to advertise is the fact that we have so many good things we don't know where to begin and when to leave off. If there is anything you want to eat ask us—probably we have it.
