Tyler, Tex., May 13.-The testimony in the cases growing out of the lynching of the negro, James Hodge, at the court house here on Saturday, May 1st, was concluded this afternoon at 5 o'clock. The hearing has lasted since Thursday, May 6th, with two days' intermission (Monday and Tuesday). The fendants. This afternoon the State began putting on rebuttal testimony, which, together with the argument, was concluded shortly after 6 o'clock.

The only testimony of interest of the State in rebuttal was that of County Attorney Roy Butler, who was in the jail at the time the first entrance here charged with killing Charles The establishment of a monthly was made and who remained there and Johnson at Westville, Oklahoma, two near by until the negro was finally years ago. led away to the court house to be hanged. Mr. Butler testified that he watched the crowd with the view of WILL MEET NEXT ascertaining the identity of the participants in the lynching.

Arguments were made by N. A. Gentry and W. L. Dean of Huntsville, supplemented by a few remarks from Cone Johnson, in behalf of the defendants. The State, through the district attorney, J. H. Beavers, presented the views of the prosecution.

Hon. R. W. Simpson, judge of this district, then made a few preliminary remarks before entering his order stating in substance that he would 'gladly make any sacrifice if it would recall the flagrant and uncalled for violation of the law in Tyler, on May 1, when the law was trampled upon and brought into disrepute by the very class of people who need the law for protection of their wives and property more than any other class.

Benediction. Dog That Carries Mail.

Of all the mail-carriers that Uncle Sam has in this big country none is more novel than a dog out in Dayton, Kansas, whose duty it is to meet a pasenger train twice daily and take the heavy mail sack to his master's

When the sharp whistle of the train is heard "Nep," a big St. Bernard, gives an excited bark and hurries to the crossing. The mail clerk kicks the leather bag out of the car door and it falls somewhere in the vicinity of the road. Nep at once goes to the sack, and, carefully taking it by the middle, so-that neither end will drag the ground, walks sedately to the store where he lays the sack down behind the counter by the side of the wooden letter case, into which the mail is soon distributed.

Day after day he performs this task, rain or shine. The mail clerk watches for him, and the people of the community are as proud of him as they would be of a bright child.

Nep is four years old, but is two feet, seven inches in height and weighs two hundred and fifty pounds. He has no difficulty in carrying the sack, although the mail is often very heavy with the weekly papers from the county seat, for his teeth are strong and he has carried over one hundred pounds as a test of his strength.

He seems likely to perform the semiofficial task for many years to come, and the people of his community think that he is entitled to a salary for his services.

The train men do not forget to throw off something nice for him to eat on holidays, but even though the gift is a toothsome bit of game or other meat, he never touches it until the mail of Unale Sam is safe in the postoffice.-Baltimore Herald.

Let the People Rule.

The city of Lincoln, Neb., has gone 'dry' by a majority of 349. Two years ago it voted for license upon the pledge of the excise board that the saloons would be cicsed at 7 p. m. This year the excise board promised to close the saloons at 6:30 in case the license system was endorsed, but the voters have by a decisive majority declared against the saloon.

LET THE PEOPLE RULE!

The change in sentiment that has taken place since the question was last among which may be mentioned two. In the first place, there is a growth in the temperance sentiment all over the country. The use of liquor as a beverage is being more and mere condemnd. The moral awakening upon which the nation is entering is making both the individual and the public conscience more sensitive. Christians are giving increased recognition to the fact that they cannot afford to set an example which may lead weaker persons astray, even if they themselves are strong enough to deink with moder-

grown for a second reason, namely, tepolitics. The brewers' lobby disgustsession of the Nebraska legislature. t defeated the submission of the initiative and referendum on the ground that it might be used to submit a prohibition amendment. Instead of being content to satisfy a demand and sell when the people of a community want o buy, the liquor interests attempt to control legislation and to run the polities of local communities, not to speak of their encouragement of lawlessness. This will not be tolerated long. The saloon is bad enough at its best; it becomes unbearable when it sets itself up as a political dictator and attempts to defeat popular government.

In Lincoln hostility to the saloon is increased by the fact that the city is an educational center, being the temporary home of several thousand students. Many who might otherwise vote for salcons feel that Lincoln, in return for the advantages brought to the city by the university, should as far as possible shield the student from the temptations that lead the young astray. Few cities of the size of Lincoln have voted salcons out, but others are apt to do so, especially if those who are pecuniarily interested in the liquor traffic centinue to disregard both law and morals.—Bryan's Commoner.

Scores of housekeepers in Wichita Falls can give testimony to the fact that the Times want columns are the best means of securing domestic help. Persons wanting positions have learned that the first step in getting a place is to look over the want ads in the Times.
