ZEPHYR SUFFERS FROM RAINFALL

WIND IS NOT BEING TEMPERED TO SHORN LAMBS OF THE STRICKEN VILLAGE.

IN URGENT NEED OF HELP

Medical Help and Funds Must Be Had. Damaged Houses Being Repaired—Scarcity at Temple.

Texas News Service Special.
Brownwood, Tex., June 1.—The sufferings of the Zephyr survivors were increased today by a heavy rain which fell this morning, augmenting the distress of the families made homeless by Sunday morning's tornado. Their troubles can be appreciated from the fact that there are about one hundred families without dwellings, and those in the dwellings not destroyed, broken windows, crushed roofs and leaky walls admit the rain.

More physicians and nurses are badly needed. Those on the scene of action are working day and night, but even then are unable to cope with the situation.

Up to noon today the death list has reached thirty-one and will probably reach thirty-four before the day is over. This list does not include any who may have succumbed to their injuries in the Santa Fe hospital at Temple. Thirty-two carpenters from this city are at work repairing the damaged houses at Zephyr, but the rain is delaying matters badly.

A carload of furniture and supplies has arrived and dispelled the gloom to some extent, but there is urgent need of more funds.

Texas News Service Special.
Temple, Tex., June 1.—A severe rain and hail storm here this morning caused a panic among the thirty injured persons brought from Zephyr to the Santa Fe hospital here. Some of them were rendered delirious by the storm as it brought to their minds Sunday's disaster in which thirty-one were killed. They all believed that a fresh disaster had overtaken them.

The physicians and nurses had all they could do to handle the patients, who refused to quiet down until the storm had passed.

The death here last night of Robert Carr brings the total list of the killed to thirty-one. Two victims were brought here this morning, making thirty being cared for in Temple.

Many are in a critical condition, but the physicians today said that all have a chance for recovery.

HYDROPHOBIA TEST GIVES RABIES TO DOG.

The hydrophobia tests applied to two dogs by Dr. Riggs, a local veterinarian, resulted in one of them going mad yesterday afternoon and the beast was killed. The dogs were inoculated from a mule which had been killed, supposedly mad, and Dr. Riggs put the dogs to this test by using the brains of the dead mule. Upon one of the canines no effect is noted but the other developed unmistakable signs yesterday and was killed.

BOTH SIDES CLAIM VICTORY IN SMITH COUNTY FIGHT.

Texas News Service Special.
Tyler, Tex., June 1.—Both pros and anti claim they will carry Smith county in next Saturday's election. The pros have issued a statement declaring that if the county goes wet they will immediately call an election in the Tyler precinct, which they say is dry. George Pendleton arrived from Temple today to aid the anti.

FREDERICK-ALTUS GRADING STARTS

Work will be begun this week by the Wichita Falls and Northwestern on the Frederick-Altus extension of the road, working out of Altus toward the northwestern terminus. A contract for 3 miles was signed this morning and contractor Cobb announces that work will begin at once.

While nothing authentic was given out at this end, word comes from Mangum that the extension of the Northwestern from Altus to that point is considered assured, and the Frederick-Altus extension is considered certain in this respect.

ELKS' MINSTRELS PARADE THROUGH BUSINESS SECTION.

A promising forerunner of tonight's performance at the opera house was the Elks parade through the business streets of the city. About one hundred men were in line, looking like professional minstrels in their high hats and long dusters, the local band bringing up in the rear. At the head rode Messrs. Heath, Walker and Burnett on horseback and these performed some fancy riding stunts as the parade hiked along. The sidewalks were lined with spectators who applauded liberally while the procession passed.

PHILADELPHIA STRIKE CONDITIONS IMPROVED.

By Associated Press.
Philadelphia, Pa., June 1.—Conditions today are slightly improved in the strike of the motormen and conductors of the Philadelphia Rapid Transit Company. About fifty per cent of the cars are in operation, being run by strike breakers who are under the protection of the police.

Cloudburst at Waco.
Texas News Service Special.
Waco, Tex., June 1.—A cloudburst struck here last night, flooding and damaging the streets. Two and a half inches of rain fell. All streams are up and a slow rain is falling this morning.

RECEIPTS INCREASE EIGHTY PER CENT

The Wichita Falls postoffice recorded another phenomenal gain in post-office receipts during the month just closed, showing a net gain over the corresponding month in 1908 of 83 per cent.

The receipts for last month totaled \$2189.74, as compared with \$1196.28 for May 1908. This is an increase of \$992.94 or about 83 per cent gain since last year. The total increase for the first five months of 1909 over the same months in 1908 amounts to \$3573, showing a very heavy gain for this year.

This showing is all the more remarkable when one considers that 1909, so far, has been set back by the drought in this section. With conditions normally favorable, there would doubtless have been a gain of one hundred per cent. As it is, few cities in Texas can show anything like the same increase.

Merchants Association Prospering.

The membership of the Retail Merchants Association has passed the fifty mark and is steadily increasing. Work has been started preparing the credit rating directory and the association members are sending in their individual lists rapidly.

MORE SCHOOL CHILDREN HERE

Mr. W. E. Frieze, scholastic enumerator, has about completed the census for the Wichita Falls Independent school district and reports that he has listed 1250 children between the ages of 7 and 17 years.

Mr. Frieze thinks that it is possible he has missed getting the names of some of the children of scholastic age, and if the parents of those children will notify him within the next few days he will be glad to call and get their names.

All children who will reach the age of 7 years by September 1st and not over 17 by the same date are entitled to be enrolled, whether they intend to go to the public school or not.

On the number of names enrolled depends entirely the amount of State school money that will be appropriated for the conduct of the public schools of Wichita Falls, and it is the duty of every right thinking parent or guardian to give Mr. Frieze the names of these children, so that, in the event they do not care to send their children to the public school, the money can go towards the education of the child of some parent who is unable to send their child to a private school.

Last year the enrollment of the district amounted to 1110, which shows, at the present time, an increase over last year of forty.

At Auditorium, the new air dome, tonight: Two big attractions, Dan Randall, the comedian, and the Newmans, the celebrated song and dance artists. 2000 feet of latest motion pictures. Admission, 10 cents. 14-11

GRAIN MOVEMENT TO START JUNE 10

SUCH IS PREDICTION OF THOSE WATCHING CROP—BINDERS BUSY EVERYWHERE.

NEWS IS OPTIMISTIC

More Favorable Reports Coming in. Will Average at Least Ten Bushels Per Acre.

From the present outlook, the first shipments of wheat will be made on June 10, and the mills of this section are looking for the first movement of the crop on that date. Reports from nearby fields are to the effect that binders have been at work several days and that excellent progress is being made with the harvest.

Late reports indicate that the average may be as high as twelve bushels per acre. It was thought at first that nine would be a good average, but now better things are expected. A little above half the usual average is looked for. The same general reports come from Quanah, Vernon and other points.

A scarcity of labor is reported at several points early last week but no further complaint of this kind have been heard and there is sufficient help to handle the work. It is the prediction of those who watch the situation closely that the wheels will begin to turn under the first car load by the 10th of this month, if not as early as the 7th.

The local mill is ready for the first of the new crop, it is announced and is prepared for an expeditious handling of the grain when the cars begin to move.

BUDGET OF ITEMS FROM STATE'S POLITICAL CENTER.

Austin, Texas, June 1.—State health officer Brumby is in Washington at a convention of State physicians.

Quite a little romance will be consummated Thursday at Indianapolis, where Senator John S. Porter of this district will wed his former stenographer, Miss Margaret Oalbourne.

The Adjutant General has decreed that liquor shall be sold within one mile of camp Mabry during the July maneuvers here. Preparations for the encampment are well under way.

The Amarillo Life Insurance Company, with a capital stock of \$200,000 was chartered recently.

Many state banks are writing to the banking department regarding their preference for the amendment plan of bank guaranty.

Senator Robert E. Cofer of Gainesville will deliver the commencement address at the University commencement exercises.

The governor is the recipient of many letters criticizing him for vetoing various items in the appropriation bill. A few letters endorsing his acts have come in, but only a few.

SHERIFF WHO PERMITTED LYNCHING IS IN BAD.

By Associated Press.
Washington, D. C., June 1.—Former Sheriff Shipp of Hamilton county, Tennessee, his jail deputy, Gibson, and Luther Williams, Nick Nolan, Henry Padgett and William Mares, all of Chattanooga, were arraigned in the Supreme Court here today, charged with contempt for permitting the lynching in 1905 of a negro, Johnson, after the supreme court had granted permission for an appeal to that court. The offenders came into court in a body, accompanied by officers and their attorneys.

Johnson was in jail charged with rape when the lynching occurred.

STREET PAVING BONDS TO BE APPROVED SHORTLY.

The city's paving bonds are now in the hands of J. T. Montgomery, city attorney, who is preparing them for inspection by the attorney-general. The bonds will probably be forwarded to Austin within the next two weeks. Approval of them by the attorney-general is a formality required by law before they can be put on the market.

Reduced Duty on Thread.

Washington, D. C., June 1.—In the senate today amendments were agreed to reducing from twenty-five to twenty per cent ad valorem the minimum duty on spool cotton thread, crochet, darn, etc., and from twenty to fifteen per cent the minimum on cotton thread and carded yarn, etc.

SCHOOL BONDS TO KANSAS CITY LIFE

MISSOURI COMPANY IS SUCCESSFUL BIDDER, OFFERING ONE PER CENT PREMIUM.

WILL START WORK SOON

Actual Construction Will Be Begun as Soon As All Details Can Be Arranged.

To the Kansas City Life Insurance Company of Kansas City were sold the bonds recently voted by the Wichita Falls Independent School District this morning and work on the new school will be started as soon as the money is realized on the sale. The purchasers were one of a large number of bidders for the bonds, they offering the best price of \$1.01 with accrued interest. This premium is not considered small, and makes an excellent price when it is remembered that in many cases of this kind it is impossible to get as good as par for the bonds, much less above it.

These bonds were voted on May 18th with little opposition, and now look like actual work will be under way on the new building within thirty days after the election. Plans have already been drawn for the structure. It will be located between Eleventh and Twelfth on Broad and will be as pretty and well-equipped a building as there is in Northwest Texas, if not in the State in a city this size. It is expected to begin work within twenty days at the outside, so as to have the building completed when school opens in the fall.

The total received for the bonds is \$60,600, plus the accrued interest.

ARTIST PREPARES DETAILS OF LITHOGRAPHED PICTURE.

L. J. Suttman of Dallas was in the city yesterday afternoon to see about the execution of the lithographed picture of this city, which is to be gotten out by the Chamber of Commerce.

Mr. Suttman is an artist and has designed several lithographs of this kind. In company with Secretary Gohlke and others he went out to Lake Wichita yesterday afternoon and took a number of photographs, which will be incorporated in the large picture. The large buildings, railroads and lake will be shown up well in the lithograph, making it a very valuable advertisement for this city. It will cost about \$400.

Iowa Park Budget.

Iowa Park, Tex., June 1.—The children of J. C. Hines left Monday for Gainesville, where they will spend the summer with relatives.

The ball game between Vernon and Iowa Park Monday resulted in a victory for the visitors, 3 to 1.

Mrs. W. L. Yauger and Mrs. Walter Tyson visited Dr. Tyson at Wichita Falls Monday and Tuesday.

Miss Lillie Bush of Dalhart, who has been visiting Mrs. W. L. Yauger for a few days, left Monday for Newcastle, where she will spend a few days with relatives.

BIRMINGHAM CONDUCTOR IS KILLED AND ROBBED.

By Associated Press.
Birmingham, Ala., June 1.—J. Z. Grimes, conductor on a street car, was shot down and killed in the suburbs here early today by two white highwaymen, who escaped. The body of the coat and vest which contained the night's receipts. Two men have been arrested on suspicion.

PROMINENT INDIANA MAN ENDS HIS OWN EXISTENCE.

By Associated Press.
Alpena, Mich., June 1.—Jesse Fletcher, a wealthy business man of Indianapolis, Ind., committed suicide last night at Turtle Lake.

Indianapolis, Ind., June 1.—News of the suicide of Jesse Fletcher was a severe shock to the social and business circles in Indianapolis. Fletcher belonged to one of the most prominent old Indiana families.

May Raise Funds Here.

While no one has taken the lead in the matter, it is understood that an effort will be made here to raise funds for the sufferers at Zephyr. A number of Texas cities have aided the village by donations and the feeling prevails here that Wichita Falls ought to do her part.

BALL GAME SCHEDULED WITH TEAMS THIS MONTH.

Manager Williams of the baseball team has arranged games this month with teams from Childress, Anadarko, Okla., Fort Sill, Okla., and the "Deavers" of Fort Worth. The dates for these contests have not been set.

The team is in need of some new uniforms to make an up-to-date showing at these games and it is considered that the citizens ought to do their part. The team is certainly worthy of the city's support, as was shown in the games with Fort Worth. New equipment would put the team where it could properly represent the city.

RUNS DOWN MAIN STREET CLAD ONLY IN NIGHTGOWN.

Texas News Service Special.
Fort Worth, Tex., June 1.—W. E. Cole started down Main Street early this morning clad only in a night shirt. Two policemen gave chase and captured him after an exciting chase of three blocks. He leaped from the second story of a hotel to the ground, but was only slightly injured. He was arrested.

Madison Hurley Dead.

By Associated Press.
Louisville, Ky., June 1.—Capt. Madison Hurley, general Southern agent for the Star Union fast freight line, dropped dead today at his office in the Columbia building.

HERE IN INTEREST OF WAYWARD BOYS

Misses Grace Doyle and Alda Utley, representing the Texas Industrial School for boys at Ogburn, Texas, are in Wichita Falls today in an endeavor to interest local people in the institution. They have secured the endorsement of Judge Carrigan, one of the members of the grand jury in session. The matter will also come before the chamber of commerce as it is planned to raise some funds locally for the extension of the institution's work.

The school began last October with five boys, since increased to forty. Wayward youths from all over the state are being sent there for instruction and training in the manual arts. County Judge Yeager has endorsed the work and the young ladies hope to get Wichita Falls support for the school. Plans for a \$2500 building are under way and will be soon consummated if the funds are forthcoming.

J. C. Forbes Found Dead.
Texas News Service Special.
Houston, Tex., June 1.—The body of John C. Forbes, aged 30 years, was found in a pond at Harrisburg this morning. There is no evidence of murder, but the authorities are investigating. He has been missing two weeks and was well to do.

DIRECTORS DIG UP TO HELP SCHOOL

The real Wichita Falls spirit was displayed at the meeting of the directors of the Chamber of Commerce this morning, when the sum of \$110 was raised for the Texas Industrial School, an East Texas institution for boys of the wayward class. Mention of this school and the young ladies working here for it is made in another column. Miss Floyd appears before the directors to secure the endorsement of her work and she had not intended to solicit funds from them. She got not only the moral support of those present, but the more material aid of the sum above mentioned. She went away with a heart overflowing with gratitude and the firm conviction that Wichita Falls people are in a class all by themselves. The donations were: Wiley Blair, \$25; J. A. Kemp, \$25; Frank Kell, \$15; R. E. Huff, \$10; N. Henderson, \$5; Myles O'Reilly, \$5; G. D. Anderson, \$5; T. R. T. Orth, \$10; Moore & Richolt, \$10.

Seattle Visitor Touched.

By Associated Press.
Seattle, Wash., June 1.—Mrs. Geo. Shea of Duluth, Minnesota, reported to the police last night that she had been robbed of twenty thousand dollars in currency. She arrived at Seattle Monday and had intended to invest the money in property.

Good Rain at Hillsboro.

Texas News Service Special.
Hillsboro, Tex., June 1.—Rain has been falling steadily here since 2 o'clock this morning and is general throughout HW county. The down-pour will prove of great satisfaction to the farmers.

NEW INDUSTRIES FOR THIS CITY

CHAMBER OF COMMERCE DIRECTORS DISCUSS SEVERAL PROPOSITIONS.

WEEKLY SESSION HELD

Favorable Reports Received From Committees Who Have Matters in Charge.

Plans for the cotton compress, new brick plant, business college and wholesale hardware house were discussed at this morning's meeting of the Chamber of Commerce directors and steps taken to further this city's chances of securing these new enterprises. The following were present: President R. E. Huff, J. A. Kemp, Frank Kell, Wiley Blair, N. Henderson, Myles O'Reilly, G. D. Anderson, T. R. T. Orth and W. Lee Moore.

Mr. Henderson reported that the \$2500 needed to purchase the compress site was nearly raised, and that the entire amount would soon be forthcoming. It was also reported that the parties interested in the proposed new brick plant had been here and were shown over the ground. The committee was empowered to secure the right of way to the clay banks as soon as the parties interested returned with a definite proposition as they indicated they would do. Another brick plant proposition was briefly discussed, but nothing tangible has been presented yet.

Wiley Blair, of the committee to try to secure the proposed wholesale hardware house, reported that the interested party was very much impressed with the advantages of Wichita Falls, and that he had announced his positive intention to establish such a house here shortly.

The business college proposition, discussed in yesterday's Times, was laid before the directors and was viewed with favor. An invitation was extended to the promoters to come here and get in touch with local people.

The monthly membership meeting was changed from the second Tuesday, so as not to conflict with the Elks' meeting. The directors then listened to Miss Mabel Floyd's industrial school talk, as outlined elsewhere.

WICHITA MARLBOR WORKS IS PLANNING IMPROVEMENTS.

The management of the Wichita Marble Works has let the contract for the erection of new offices and sheds at Seventh street and Michigan avenue, across from the Fort Worth and Denver passenger depot. When the building is completed, the company will be better equipped for handling their business and it is the intention to carry a larger stock than heretofore. Plans are also under way for the installation of some new and modern machinery, which will enable the company to give a fine finish to the work.

RAILROADS BEEN PUTTING UP A POVERTY 'STALL.'

Texas News Service Special.
Fort Worth, Tex., June 1.—It was shown at the hearing here today to determine a proper rate for cattle shipments that the railroads are conducting a campaign to frighten the public that their profits are small and uncertain. The Santa Fe is especially active in this regard through James Peabody, chief stationer of the road. Cowan put him through a rapid fire cross examination as a result of the hearing this will mean millions annually to cattlemen.

SEARS' WIDOW IS AT JURY HEARING

Texas News Service Special.
Ablene, Tex., June 1.—The widow of Alex Sears, the prominent cattleman whom Tom Barnett is alleged to have killed and for whose alleged murder Barnett was in turn killed by a mob here, appeared before the grand jury today at the investigation of the lynching. The jury examined sixteen witnesses today, several being from the Sears home in Jones county. Every move of the jury is being kept secret. No indictments have been returned yet.

Must Be Fit to Marry.
Olympia, Wash., May 31.—A number of interesting laws enacted by the last session of the Washington legislature will come into effect tomorrow. Among the new measures the one that has attracted most attention is the marriage law, which makes it necessary for a person applying for a marriage license to submit physicians' certificates and affidavits showing that the two parties concerned are physically and naturally fit to bring healthy children into the world. The new law also provides that women must be of legal age, fixed at eighteen years, and men twenty-one years of age. The parent cannot give consent unless the girl is more than fifteen years of age. The penalty for giving false information or performing such marriage is a fine of not more than \$1,000 or imprisonment in the State Penitentiary for not more than three years, or both. The new criminal code to become operative tomorrow makes it a misdemeanor for the owner or employe of "any drinking saloon or music hall where intoxicating liquors are sold" to "knowingly permit to enter such saloon or sell or give any intoxicating liquor to any female person." The same rule will apply to any common drunkard or any person in an intoxicated condition or any felony.

Electra Will Have New Gin.
D. T. Cross left Wednesday for Dallas, where he goes to have plans and specifications drawn for his new gin building, the erection of which will begin next Monday. The building will be erected on the foundation of the building which was burned two or three months ago. Mr. Cross has purchased a new model 1909 gin plant, double breast, steel gin plant, which is a double combination arrangement. All other machinery will be of the latest make, and everything arranged more convenient than heretofore. He says that he will install a boiler and huller, which will meet the requirements, being the latest thing made in that line. In fact, when complete, he will have one of the best gin plants in northwest Texas.—Electra News.

Anniversary of Johnstown Disaster.
Johnstown, Pa., May 31.—With the decoration of the graves of the unknown dead and the holding of memorial exercises, Johnstown today observed the twentieth anniversary of the great flood that laid waste the Conemaugh Valley in 1889. It was on May 31 of that year that the breaking of the great reservoir dam let the waters sweep down the valley and into the city of Johnstown, dealing death and destruction in the onward rush. Millions of dollars in property and a total of 2,295 lives were lost in the disaster. More than six hundred of the victims were never identified and were buried as unknowns, while an almost equal number of bodies were never recovered.

Warm spring days produce a feeling of drowsiness if the body is loaded with the impurities of winter diet. Cleanse the blood, liver and bowels with Prickly Ash Bitters. It creates energy and cheerfulness. Mater-Magner Drug Co., Quality Druggists.

Repairing Court House Tower.
A force of men was at work this morning on the court house tower repairing the damage done by the storm several weeks ago. The iron work which was broken off is being replaced and other damage remedied.

Experts Endorse a New Cooking Fat.
"Marion Harland," Mrs. Janet M. Hill, and Mrs. Sarah Tyson Rorer, are three cooking authorities whose names are familiar to almost every housewife. Each has her own distinctive methods of work, but it is interesting to note that on the all-important question of a cooking fat, they are unanimous in recommending COTTOLENE. "Marion Harland" says: "COTTOLENE: 'It has given me complete satisfaction.' Mrs. Hill says: 'Very satisfactory; glad to recommend it.' Mrs. Rorer says: 'A much more healthful product than lard.'"

With such authority behind it every housekeeper will be sure in giving COTTOLENE at least a trial. It is a vegetable oil shortening, purer and more wholesome than lard—and it is cheaper, too, one-third less being required.

Mohsoon Marshmallows are the best made and only 25c per pound; give them a trial.

THE DAYLIGHT STORE

**ELK'S MINSTREL
SHOW TONIGHT**

Tonight the Elks Imperial Minstrels make their bow to the public and a big house will greet the boys and enjoy the fun in store. A dandy program has been arranged and it will be fun from start to finish with never a dull moment. The beautiful first part entitled, "The Power of Roses" will present a beautiful picture with the 50 minstrels arranged on an elevated stage and surrounded by special scenery. The soloists, Sam Scaling, Wes. Clasy, Claude Woods, Abe Marcus, Jas. Protap, Chas. Slesher, Scoville and Clint Draper have big numbers in which they sing and dance and each end man will have many new jokes to tell. The soloists, T. M. Sims, J. T. Speaker, W. A. Clarke and J. T. Burnett will render high class ballads supported by a big orchestra and a chorus of 30 voices. In the second part, or olio, Miller and Draper, the directors, will present a lively singing and dancing sketch entitled, "The Man from

Alabama," followed by Claude Woods in a monologue, introducing a number of good stories and topical songs. Then comes the big laughing act, "The Death of the Gladiator," a Roman travesty of local hits and bright comedy. This act has been especially arranged for and will be presented in the same manner as is presented on the big eastern vaudeville circuits. The closing act, "The Dusky Belle and Beau" introduces 16 black face artists in songs, dances and coon comedy and is a fitting close to a high class minstrel performance. There has been a big sale of seats for tonight and the Elks will be greeted by a crowded house.

Are you getting everything just as you think you should. Do not try us through June and let us show you how well we can serve you.

Taft to Become a Woodman.
Spokane, Wash., June 1.—Officers of Excelsior Camp No. 5174, Modern Woodmen, are preparing elaborate plans to initiate President Taft into the mysteries of the order during his stay in Spokane the second week in August, when it is expected the chief executive will participate at the seventeenth sessions of the National Irrigation Congress. The honor will be conferred by A. R. Talbot, head counsel, assisted by William Jennings Bryan of Nebraska, United States Senator Joseph Bailey of Texas, United States Senator Jonathan P. Dolliver of Iowa, Speaker Joseph Cannon of Illinois, Professor J. W. Blackman of Kansas University, Lyman Abbot, editor of the Outlook, and other prominent public men.

We want your patronage. Try us and see how well we can serve you.

With total resources of nearly ONE QUARTER OF A MILLION DOLLARS, we are in a position to meet the reasonable needs of all customers.

In Little Old New York.

The people of New Jersey are green with envy and unspoken mortification over the reports of the officers of the steamer Veratone, which returned to New York the other day from a long trip up the Madersia River, a branch of the Amazon River, Brazil. According to the reports of the officers the ship was attacked by the mosquitos which infested the country along the Madeira river and nearly the whole crew was disabled. Three men died and fifteen others had to be left at the hospital at Kingston, Jamaica. Compared with the Brazilian mosquitos the New Jersey brand is said to be like milk compared with the strongest bowery whiskey. New Jersey is in a bad state; in rapid succession it has lost Hettie Green, its prestige as an asylum for "rotten" trusts and now even the reputation of its mosquitos, heretofore never assailed, has suffered irreparable damage.

Strange things happen every day and it has come to the point that nobody can feel entirely safe from receiving a medal of some kind from some committee or society he has never even heard of. It is raining medals thicker than meteorites fall in August and if this keeps on persons without medals will become as scarce as the hairs on John D. Rockefeller's head. One of the policemen of the traffic squad arrested a man some time ago, because he had run over a cat with his wagon. The man was discharged and the policeman was severely rebuked by the magistrate for being too officious. A day or two ago the same policeman, to his inexpressible surprise, received a silver medal which the Society for the Prevention of Cruelty to Animals of Cincinnati had awarded him in recognition of his services to humanity. The recipient of the medal is not quite sure whether this is a joke, but the medal, at all events, is genuine silver. What a sensation this cat story must have caused in dear old Cincinnati.

Between the wheat corner and the striking bakers the consumers in New York are having a tough time. Bread has raised in price to 15 cents for a ten-cent loaf and even at the increased price it is hard to get. This would be a splendid opportunity for housewives to try baking their own bread and to keep on baking their own bread even after the bakers and their employes have settled their differences.

For Women and the Home.

Chemists say that it takes more than twice as much sugar to sweeten preserves and sauces if put in when they begin to cook as it does if the sugar is added after the cooking is done.

After a day's work at anything that requires long standing, bathe the feet in warm water, and then sponge them thoroughly with alcohol. That tired feeling will disappear as if by magic.

Almond meal greatly softens and whitens the skin. Put it in a bag of nun's veiling or soft burlap and use it like soap when bathing. Afterwards the skin should be bathed with clear and almost cold water.

Olives, made into sandwiches are tidbits which will tempt even the most capricious summer appetites. They should be sliced, chopped, and laid between thin slices of bread, along with pieces of fresh watercress.

Glasses that have been used for milk should always be thoroughly rinsed in cold water before they are washed. If hot water is used immediately, they are sure to become dull and cloudy in appearance, owing to coagulation.

Wash the perspiring feet night and morning in warm water in which a tiny lump of washing soda has previously been dissolved. Then apply a powder consisting of one part salicylic acid, two parts precipitated chalk and seven parts of powdered talcum.

To remove pitch and tar stain, rub lard on the stained part of the fabric and let it stand for a few hours. Then sponge with spirits of turpentine until the stain is removed. If the color of the fabric is changed, sponge it with chloroform, and the color will be restored.

Instead of throwing away the peels of oranges and lemons used in the household, put them into the water picher on your washstand. They will give the water a delightful perfume, besides softening it until it is equal to rain water in its beneficial effect upon the complexion.

Although court plaster is useful in protecting small scratches or abrasions of the skin from harm, it should not be used over any considerable cut or wound in process of healing. These will heal faster if simply covered with a bit of soft linen held in place at each end by strips of adhesive plaster.

In lunch goods we offer pickles, cheese, canned meats, sardines, fancy wafers, olives, sliced beef and ham.

German dill pickles, fresh lot. Phone 261. D. B. King. 14-1f

Heinz Baked Beans with tomato sauce. Heinz Red Kidney Beans; full pound cans 12 1/2c each.

Sells Cornfed Steers.

J. E. Harrington is one of the young and progressive stock farmers in the great Red river district of Oklahoma. Yesterday Mr. Harrington topped the fat steer market in the quarantine division. He marketed four carloads of cornfed steers and the sale on one carload was the highest ever made on steers from that far south on that market. Mr. Harrington's farm lies along the Red river, not far from Grandfield. On his farm at present there are 700 acres in corn. "I never saw corn look better he said. It is more than knee high, and the stand is extra good. We have had plenty of rain. The corn is a good color, and is growing very fast. That is also a cotton country, but I raise none. I prefer to raise corn and alfalfa, and feed cattle. The Red river valley has no superior when it comes to raising corn and alfalfa, and I would not be surprised in a few years more to see that country producing cornfed cattle with the best of them. We can feed a little cheaper there perhaps than cattle can be fed up in the north, as we have more cheap feed, and a much better climate for feeding. We look for a bumper corn crop this season. We have made a fine start, and that is a whole lot. We have been working the corn, and have it in fairly clean condition. If we do get the amount of corn we look for, there will be a whole lot of feeding. The alfalfa also looks well, and will furnish us all the forage feed we will need to go with the corn.—Kansas City Drivers Telegram.

But a Difference.

Senator Bailey's organs refer to the fact that the News has not approved platforms that did not suit it as a means of justifying Senator Bailey in repudiating a platform of his party, which platform he as a delegate helped to make. In the first place, the News has never worn a brass collarism, and has always condemned evasion, cowardice and wrong in platforms or elsewhere, whenever it found them. In the second place, the News was not a delegate to the Denver convention. When the News abuses others because they refuse to wear the brass collar and stay on the platform, and even has a hand in making up the platform, it will try very strenuously to do something a little better than to spit upon the work of its own party and its own hands.—Dallas News.

Are you getting everything just as you think you should? If not try us through June and let us show you how well we can serve you.

FAULTLESS PRESCRIPTION.

No Remedy for Stomach Distress and Indigestion so Perfect.

A scientific prescription for dyspepsia put up in small tablet form and called Mi-o-na is making thousands of quick and lasting cures throughout America.

There is no stomach disease (even catarrh of the stomach) that it is not guaranteed to cure, and MATER MAGNER DRUG CO. has so much faith in Mi-o-na for stomach disorders of all kind that they will refund your money if it does not cure.

Mi-o-na, the faultless prescription, stops sour stomach, itching of gas, distress after eating, heartburn, biliousness and nervousness.

It is worth a trial by any reader of the Times who suffers from any stomach disturbance. It contains ingredients that not only give relief but that act on the stomach so beneficially that in a short time the flabby, tired out walls of the stomach regain their strength and activity and can perfectly digest any kind of food without aid.

Try Mi-o-na for a week; misery will change to happiness; despair to hope, dull eyes to bright and you will yourself wonder why you suffered so long with such a remarkable prescription at hand.

And only 50 cents for a large box at MATER MAGNER'S DRUG STORE, and at druggists everywhere.

HYOMEI
Cures catarrh or money back. Just breathe it in. Complete outfit including inhaler \$1. Each bottle 50c. Druggists.

WEATHER FORECAST.

For Wichita Falls and Vicinity
Tonight and Wednesday, unsettled weather. Showers tonight or Wednesday.

Wichita Falls, Texas, June 1st, 1909.

Lots of people's religious manifestations remind us of a child that has eaten laffy candy. They've gotten more on the outside than on the inside.—Stamford-Tribune.

There is no lack of gubernatorial candidates in Texas, but the trouble is that every one who has announced seems to have left a big hole when so he could back out.—Dallas News.

The truth told about the Panhandle country is enough and will hardly be believed by those who have never seen this great section.—Clarendon Stockman-Banner.

If Illinois doesn't feel as if all fingers were pointing at her because of her senatorial decadence, it is because Chicago has made it impossible for the sucker state to blush.—Houston Post.

The only way in the world for a man to brag on himself without appearing conceited is to boost his home town. For you are a part of your town and if it is a success it is partly your doing.—Haskell Herald.

Abdul Hamid had to give up \$5,000,000 to the new Turkish government, and we suppose, if the old man has anything left, a receivership will be instituted to do the rest of the coin-separating.—Houston Post.

The politicians are getting busy from one end of Texas to the other, and the manner in which they are really edging up to the public trough is truly amusing. The people will do likewise in continuing to saw wood.—Weatherford Herald.

Senator Culberson is the democratic leader of the senate, while Senator Aldrich holds a similar position on the republican side. Senator Bailey has voted oftener with Senator Aldrich than with Senator Culberson. Especially is that true when important questions have come up.—Childress Index.

Abilene is said to be so angry with the Santa Fe R. R. Co. for missing her with its new line to be built from Coleman to Texico, that she has gone wild with enthusiasm for a third term for Governor Campbell. Do the citizens of that town think Campbell's election for a third term would stop the Santa Fe from building its new line? If not, then why does such a cause produce such an effect?

For the second time within one week Senator Bailey has found it necessary to deny that he is a candidate for the Texas governorship. He says that he has friends in the race, and it will be interesting to know which one of them he will support. Judge Binkley of Cleburne and Judge Brooks of Dallas were two of the senator's champions and now both want to be governor and doubtless both will expect to receive the support of Senator Bailey.

THE VOTING IN CONGRESS.

Party platforms are necessary. It has been found by experience that unless a party formulates a platform, its representatives in office can not agree upon a definite policy owing to the influence brought to bear by favor seeking corporations. Even when there are platforms they are misconstrued unless they are positive and specific. Sometimes positive and specific platforms are violated, but a positive and specific platform is not apt to be violated, and when it is violated the guilt can be fixed and the guilty punished.

The trouble with the republican party platform of last fall was that it was not specific and definite. The tariff plank used the word "revised" instead of the word "reduced," and now Senator Aldrich and his crowd construe it to mean an increase, while some of the western republicans insist it contemplated a decrease in the rates.

Mr. Taft dodged the question. So far as could be gathered from his speeches, the nearest he ever came to a construction of the platform was to declare at one place in the west that it meant an "honest revision," and at another time declaring that while some schedules ought to be raised and some lowered, the revision would probably be downward.

The republican national convention was at fault in not making a specific promise of reduction, and the republican voters were at fault in accepting so definite, so elusive and so deceptive a word as "revision" as a sufficient promise. The voters ought to have known that "the friends of the tariff" would never give us any material reduction.

As to the democrats who voted for the imposition of duties, they have as a rule, defended their conduct on the ground that the duties voted for were "revenue duties" and they have not been high duties. Measured on an ad valorem basis, the rate on lumber and on iron ore are but a small portion of the price. The democrats who voted for the duty made a mistake, but they can hardly be put in the same class with the republicans who are voting for duties running up to 100 and 200 per cent.

The democratic platform demanded free lumber and that platform is binding upon all who ran upon it, and it ought to have weight with the members of the party who were elected before the platform was adopted.

Those who voted for a duty on lumber probably did so because of lumber interests in their districts and states, but in doing so they gave the preference to a few owners of timber lands over those who buy lumber. There is no state in the union where the consumers of lumber do not outnumber the persons who profit by the tariff on lumber and the man who votes for tariff on lumber votes to tax a majority of the people of his district and state for the benefit of a minority of his constituents. The men who get the benefit of the tax are more active in presenting their demands than the consumers are in presenting their protests and as long as this is true, the tax-eaters will have the advantage over the tax payers.

As to the duty on iron ore, the chief objection to it is not that it is a high rate of duty, but that it helps people who do not need help, and gives an excuse for higher duties on manufactured iron. The man who owns a bed of iron has such an enormous advantage over one who owns a farm that it is hardly fair to make the farmer pay tribute to the owner.

Every duty placed upon raw material is a burden upon the manufacturer unless he is permitted to transfer it to the consumer. A tariff on iron ore, therefore, is sure to be transferred to the consumer. A duty put upon raw material increases as it proceeds, interest and profits being added each step. It grows like a snowball in the spring, and is therefore more objectionable than the same ad valorem rate levied upon the finished product.

In judging the two parties and their representatives at Washington, it must be remembered that the republican party went before the country on an ambiguous platform, while the democrats presented an emphatic demand for a reduction, outlining the course to be pursued. Our platform was, therefore, superior. A majority of the republican senators and congressmen favor an increase in the tariff—the tariff reformer in the republican party being the exception rather than the rule. The democrats, on the contrary are demanding reductions and the democratic member who votes against a decrease is the exception rather than the rule. Even in such cases, the democrats who have voted against reductions, have voted for a low rate instead of a high rate, but the democratic votes against free lumber and free iron ore are an embarrassment to the party and will be used to answer democratic criticism of the high tariff republicans.—Commoner.

There are certain fundamental differences between a real eye and a glass one. A Chicago man broke a woman's glass eye and was fined \$200. Had it been a real lamp he'd smutted it would probably have been a dollar and costs.—Ft. Worth Record.

At the age of three score and ten and along about the sixteenth course of a banquet up Washington way, Uncle Joe Cannon arises to assert that the world is growing better each day and that we should deprecate the existence of pessimists whose chief mission is to flaunt discouragement before the eyes of the public. While Mr. Cannon gets his view from a standpoint atop the tariff wall, still, there are many folks equally as enthusiastic, though their observations are made a bit closer to the ground.—Star-Telegram.

The way it looks now, in a short while there will be no democratic party. The new doctrine in the platform demands are not binding unless written by the persons themselves. When a democrat gets ready to vote for protection, let him join the republican party; that is the many way to act. Then you know where he is at; no uncertainty about it.—Jefferson Jimplecute.

First Delay in Haskell's Trial. Texas News Service Special. Tulsa, Ok., June 1.—In the federal court today Judge R. E. Campbell granted the motion giving the defendants ninety days in which to file bills of exceptions to the rulings of Judge Marshall in the recent indictments of Governor Haskell and the five other prominent Oklahomans who are charged with obtaining land fraudulently. This will delay the trial.

Introductory.

In this, the first advertisement of the Wichita Hardware Company, we wish to announce that we have been very busy the past ten days in unpacking and arranging our stock of Hardware, Stoves, Enameled and Tinware, Plumbing goods, Electrical Supplies and Appliances, etc., and our doors are now open to the public. Our place of business is 804 and 806 Ohio avenue (the new Ward Building), opposite the postoffice. It is our intention to conduct a first-class Hardware store with a mechanical department in which we can do all kinds of tin and sheet iron work; plumbing, gas fitting, electrical wiring, etc. The proprietors of this new concern are practical men and can assure their patrons the personal attention of any work left in their charge. We extend a cordial invitation to visit us at our new store on Ohio avenue, opposite the postoffice. WICHITA HARDWARE CO. Wichita Falls, Texas, June 1, 1929. 16-1t

We want your June patronage. Try us and see how well we can serve you. Phone 64. 15-2t TREVATHAN & BLAND.

Lost Money

is but seldom returned to the owner. In many cases this is because the owner does not believe it would do any good to insert an ad describing the lost money and offering a reward for its return. But there are lots of honest people in the world. Give the matter a test, the next time you lose anything, by inserting an ad in the Times. These ads bring results. A 25 cent want ad in yesterday's paper restored a purse containing a considerable sum of money.

SEVERAL THINGS

There are Several Things to be Considered in Selecting YOUR BANK

- 1st Strength—financial strength
- 2nd. The care with which the Bank is managed.
- 3rd. The courtesy and spirit of accommodation displayed by the officers and employees.
- 4th. The banking experience of its officers.
- 5th. The ability of the Bank to properly and promptly handle all your business.

To those wishing desirable banking relations we offer our services as an old established, permanent, conservative and accommodating bank, promising courteous treatment and careful attention to all business intrusted to our care.

EXPOSITION AT SEATTLE OPENS

Seattle, Wash., June 1.—The rites which present the Alaska-Yukon-Pacific Exposition to the world were performed today with all the dignity and splendor befitting such an occasion. From the White House President Taft started the electric spark which communicated the energy to the shafting of machinery hall, and amid the shouts of thousands, the music of numerous bands and waving of flags the wheels began to turn. The great fair designed to exploit the industries and resources of the far West, Alaska and the Pacific island possessions of the United States was an accomplished fact.

An event of such magnitude could not have been initiated under more favorable auspices. Everything moved with the smoothness of a well-regulated military family, amid all the music, the firing of salutes, the cheers of the great throngs, and the animated scenes in and about the handsome and imposing structures composing the exposition.

Seattle was early astir in anticipation of the great event. Long before 8 o'clock this morning, the hour fixed for the admittance of the public, the street cars on the Wallingford, Eastlake and other lines leading from the downtown section to the exposition grounds well filled to capacity. Before the gates had been open an hour it was apparent that the estimated attendance of 100,000 for the day was likely to be exceeded. The various structures on the grounds were crowded early in the day, and toward noon the scene was one of general activity. The white buildings glittered in gay decorations, the visitors carried flags in their hands, and everything throughout the 800 acres washed on one side by the rippling waters of Lake Washington and on the other by Lake Union presented an animated appearance. The "Pay Streak" which is the Midway of the exposition, was thronged from the opening hour.

The program of the day was ushered in promptly at 9 o'clock with a mighty boom of cannon, fired in martial salute by a mounted battery. This was the signal for the formation of a military and naval parade through the exposition grounds. The procession comprised United States cavalry and infantry, sailors and marines from Admiral Sebree's Pacific fleet and a detachment from Admiral Iijichi's Japanese squadron.

The formal ceremonies began in the exposition amphitheatre promptly at 10:30 o'clock. Occupying seats on the platform were officials and guests of the exposition. Included among the latter were Lieutenant Governor James Dunsuir of British Columbia, Governor W. S. Haggatt of Alaska, Governor J. H. Brady of Idaho, Governor F. W. Benson of Oregon, Governor Gilllett of California, Governor William Spry of Utah and Governor M. E. Hay of Washington.

At a signal from Director-General Nadeau, while the guests were being seated, Innes Band, of Chicago, played "America." The enthusiasm was intense. Thousands cheered and waved their flags. Some time was necessary to restore order. Then Bishop O'Dea, of Seattle, opened the formal exercises by invoking the divine blessing.

Director-General Nadeau made a brief introductory address and was followed by the other speakers on the program. These included James J. Hill and Congressman Rodenberg. At the conclusion of Mr. Hill's address greetings were exchanged between President Taft and President J. E. Chilberg of the exposition.

In his opening address Mr. Hill said: "The idea of a federation of the

world comes nearer a realization in the great exposition that assembles actual evidences of a man's progress in self-government and toward his development of the earth. The people who furnish exhibits standing side by side could not always live in peace in close personal contact. Men in our day move towards their material advances principally through the struggle for wealth. The comforts and luxuries that have been won from the earth are symbols of greater things behind. An exhibit of the works of industry, science and art is, therefore, a human document of high and convincing value.

"Most of the expositions of the past had a historic motive. It is a sign of development when we move from dependence on some past fact, and celebrate instead the general sweep of such forces as make for future progress. The nation today faces forward, not backward. Such is the genius of the Alaskan-Yukon-Pacific exposition. It is expressed in its very name; beginning with the farthest, newest and least developed district of our national domain, covering a coast that reaches from well within the Arctic Circle to near the tropics, and embracing all the mystery and might that have been suggested by the word "Pacific" for nearly four hundred years. It appears in the design of this beautiful exposition city and its integration with your State University and its future. Something more inspiring than a date; something of the inward and upward impulse that is older than nations, institutions, industries, older than man himself; something active, personal, achieving, inures in the thought and labor crowned today by this happy event. You have learned more of your own powers by carrying to successful completion and enterprise so ambitious. The outer world, by which Alaska and the Pacific Coast are still largely unknown and unappreciated, will carry away from here information as well as delight. It is, perhaps, a small episode in the march of human events and the unfolding of a nation's history; but in some ways, also, it may mark an epoch.

"This occasion marks also a change in the conscious attitude of the Pacific Coast toward the rest of the country. It would be unjust to say that this section ever failed to realize the national integrity.

Are you getting everything just as you think you should. If not try us through June and let us show you how well we can serve you.

15-2t TREVATHAN & BLAND. A Texas cow was operated on and a hat pin was removed from her throat. - 1893—The "High Water Mark" monument on Gettysburg battlefield was dedicated.
- 1903—Tornado swept over Gainesville, Ga., with loss of many lives.
- 1905—Lewis and Clark exposition opened at Portland, Ore.

Swiler Service.

Scranton, Wis., June 1.—A handsome silver service of sixty-three pieces, a library of Mississippi history and several other gifts were presented to the battleship *Mississippi*, one of the finest ships of the United States Navy, at anchor off Horn Island, today by a committee of prominent representatives of the State, headed by Governor E. F. Noel.

The committee and other invited guests were conveyed from Pascagoula in steam launches and were soon along side of the warship. At the gangway Captain John C. Fremont and his officers of the *Mississippi* received the visitors, while the crew lined up on deck. The guests were escorted to the starboard side of the quarter deck, where Governor Noel formally introduced Mrs. Eunice M. Lockwood, of Crystal Springs, who made the presentation speech. Dr. R. W. Jones, president of the Mississippi Historical Society, made an address presenting the historical library.

Captain Fremont made a speech of thanks, after which the party was escorted over the battleship and invited to partake of collation.

The silver service is one of the most magnificent ever presented to an American warship. It weighs approximately 3,400 ounces, and cost \$7,000. The money was raised by popular subscription, permitted by special act of the Mississippi legislature.

The principal piece is a punch bowl. The decoration of the obverse is the present battleship *Mississippi*, surmounted by the American eagle, and below it the name of the ship and the seal of the Navy department. Upon the reverse is a picture of the old United States steamship *Mississippi*, which was launched in 1841.

The punch bowl rests upon a round waiter, which has an etched scene showing the first French settlement at Biloxi and the landing of D'Iberville in 1699, and is surrounded by twenty-four silver punch cups. The punch bowl label has the seal of the Navy Department and the head of George Washington in relief at the end of the handle.

The next piece in importance is the centerpiece for fruit or flowers, a massive piece of silver with the conventional dolphin handles and the American eagle on the obverse and reverse, also the magnolia and the cotton boll. Upon the obverse is a scene representing Beauvoir and below it is the picture of its owner, Jefferson Davis. On the reverse is a picture representing the old State capitol at Jackson, and Hernando De Soto, the discoverer of the Mississippi.

THIS IS MY 67TH BIRTHDAY.

Bishop Hartzell.
Rev. Joseph C. Hartzell, one of the famous missionary bishops of the Methodist Episcopal Church, was born in Illinois, June 1, 1842, and received his education at Illinois Wesleyan University and the Garrett Biblical Institute. He united with the Central Illinois Conference in 1868 and soon became prominent in the affairs of the church. In 1888 he was elected secretary of the Freedman's Aid and Church Extension Society and in 1896 he was elected missionary bishop of Africa. In his many years of work in Africa Bishop Hartzell has accomplished great reforms of political as well as an educational nature among the various tribes and colonies. Numerous writers and travelers familiar with his work have ranked him with Stanley and Livingstone as a guide and reformer in the Dark Continent.

Little Things Destroy Confidence.

Young people little realize what a great impression small things make upon those who are watching their careers says Dr. Marsden, writing in "Success Magazine."

A very successful business man became so prejudiced against a debtor who did not pay his note, or even speak to him about it, until several days after it was due, that he absolutely lost all confidence in the young man's business ability.

This young man thought that two or three days would not make much difference with a millionaire who knew he was honest, but it made all the difference between confidence and no confidence.

Many young men are very careless about their banking. They frequently overdraw their accounts, and are not prompt in paying or renewing their notes. They may be perfectly honest, but they are careless. They lack system, are unbusiness-like, and this destroys confidence.

Good business men are very prompt and they have no confidence or patience with procrastinators. Promptness is a principle with these men, and not to pay a note promptly, a careless habit regarding business matters, destroys their confidence.

There is no one thing outside of honesty which will help a reputation so much as the reputation of being prompt, punctual. Capital is very, very timid, and unreliability, the lack of promptness, sloven methods, will quickly ruin a man's credit.

Business men do not like to deal with people they have to watch all the time. They like to feel a sense of certainty and of security in their dealings with a man.

It does not take long to ruin one's credit or reputation. No matter how careful or honest he may have been for years, he can undo it all in a very short time by carelessness, forgetfulness and slipshod methods.

Miss Stella Redmond Dead.

Miss Stella Redmond, aged 16 years, died yesterday afternoon at 2:15 at the home of her parents, 16th and Broad streets. She had been ill for five months, suffering from heart trouble and a complication of diseases. She was the daughter of Mr. and Mrs. W. H. Redmond and since coming to this city from Seymour over a year ago had made many friends and established herself firmly in the hearts of all who came in contact with her. Her friendly ways and lovable manners had won her a host of friends and their sympathy is extended to the bereaved parents in their hour of sorrow. The funeral will take place this afternoon from the residence, interment being in the Riverside Cemetery.

Home of Good
The Clothes You Wear
 reflect your taste and business ability. Their style and goodness is soon known to your friends. That's the sort of advertising we want. If there is anything that will put a man down and out in the matter of dress it is clothes that fit intermittently. Lumpy clothes are about as unsightly as anything can be and that is why we place fit ahead of many other points. You will find that our clothes fit snug to the neck, show a smooth shoulder and feel comfortable at the armholes. They have the proper quantity of cloth at the right place; they hang gracefully and they have all the niceties of good style and perfect tailoring. The effect of our choice clothing on the public is such now that when a man has a suit in mind he naturally thinks of the excellent style and taste shown in our ready-to-wear garments.

SUITS \$10.00 to \$40.00
 Everything in hats and Toggery for spring and summer that has the approval of fashion edict.

KAHN The Clothier

THE FAVORITE GAS RANGE
 Made entirely of stamped steel. No other like it. See it before you buy a gas range. Has heavy cast bottom and asbestos lined ovens. Rust does not affect them like the cheap, poorly constructed gas ranges.
 When you buy the genuine FAVORITE you can bake beautifully cakes, pies and puddings. A poorly made gas range upsets the whole household, and a good one is necessary to the welfare of the kitchen. When you buy the FAVORITE you get our guarantee and the company's guarantee.
