WICHITA FALLS, TEXAS, WEDNESDAY JUNE 9, 1909

NUMBER 23

"MUST CLEAN UP" SAYS MAYOR NOBLE

CITY'S SANITARY CONDITION IS NOT ALTOGETHER WHAT IT OUGHT TO BE.

HOT WEATHER COMING

Those Able to Connect With Sewers Must Do So—Clean Premises and Boil Your Water.

Though June is just getting under way, it is already plentifully hot and all signs give promise of a hot summer this year. To those interested in the welfare of the city, the signs indicate a decidedly unpleasant summer here, unless some steps are taken to get the city in better sanitary condition. The city officials went over the situation recently and they say frankly that conditions are not as they should be. Under any conditions, improvements would be necessary. They are especially necessary with a hot summer just ahead.

Mayor Noble, who is giving the situation his attention, states that to the lack of connections with the sewer is due much of the sanitary troubles. In spite of the fact that this city recently dug up a substantial sum to extend and equip her sewerage system, there are undoubtedly a great many landlords and property-owners well able to make the connections who have not done so.

Those who do not connect their property with the city sewer by the first of July lay themselves liable to prosecution. The city officials are determined to better conditions and if they have to resort to unpleasant methods it will be for the public good. There are some sights about the city just now that are forcibly suggestive of the "How Consumption is Spread" pictures at the exhibit.

Without waiting for sewer connections, those not now connected have been advised to use lime and similar disinfectant liberally on their premises and to keep their closets clean and much good can be accomplished in this manner, although connection with the sewer is the only solution of the problem.

Another wholesome piece of advice which the mayor has to offer is to boil all hydrant water used for drinking purposes, until the improvements are completed. It is stated that clear water will be flowing through the pipes inside of ten days. Until then, boil the water as a precautionary measure.

GOVERNMENT TO IMPROVE CONFEDERATE GRAVEYARD.

Washington, D. C., June 9.—A monument of marble or granite to cost about eighty-five hundred dollars will be erected by the United States government in the Confederate section of the Finn's Point National Cemetery at Salem, N. J., to mark the resting place of 2460 officers and men of the Confederate army, who died as prisoners of war at Fort Delaware. Commissioner Oates, who has the matter in hand, has arranged to plan an iron fence around the Camp Chase Confederate cemetery at Columbus, Ohio, and the Confederate Cemetery at North Alton, Illinois.

Alleged Swindler Dead.

Fort Worth, Tex., June 9.—R. R. Parker, aged 38 years, charged with swindling, died in the county jail here this morning from peritonitis. He was a member of a prominent McKinney family and is alleged to have defrauded a Fort Worth bank of a large sum through bogus checks. He is wanted also at El Paso, Beaumont, San Antonio and Hondo on similar charges.

ALLEGED BLACK HAND OPERATORS IN BAD

Marion, Ohio, June 9.—Secret Service Agent Oldfield, who arrested Sam Lima, a fruit merchant here yesterday, is a leader of the Italian Black Hand society, left today for Columbus with a trunk full of letters found in Lima's store. Some of the letters were decorated with skull and cross bones and others with bleeding hearts pierced with daggers.

Bellevue, Ohio, June 9.—Charles

Vaccario, an alleged ringleader of the "Black Hand Operators," was captured here today by the postal inspectors and the police. It is believed that Vaccario will be able to give some information in regard to the assassination of Detective Petrosino in Italy.

Cincinnati, Ohio, June 9.—Operations in nearly all large cities of the country and ramifications of the secret society in Italy will be laid bare, it is expected, when the Black Hand gang which was rounded up in Columbus and Marion, Ohio, by the postoffice inspectors, is brought to trial. There is no doubt that crimes of blackmail, extortion and threatened and attempted murder will be fastened upon the guilty men.

Columbus, Ohio, June 9.—Postal Inspector Oldfield is positive that the Black Hand suspect, Collogero Vaccario, who was arrested today at Bellefontaine, is connected with the murder of New York Detective Petrosino in Italy some months ago. "I base my belief," he said, "on the fact that this man Vaccario is known to have left for Italy about the time Petrosino was assassinated. We know this for a fact, I believe him to be one of the ring leaders of the Mafia in the United States."

"CERTAIN CONDITIONS MUST BE REMEDIED"

The grand jury completed its work about 2:30 yesterday afternoon, reporting the following indictments late in the afternoon: John Grimes, robbery and theft from person; Travis Keys and Ab Jones, petty theft; one other not arrested.

In its report to Judge Carrigan, the grand jury states that "there are certain conditions existing in the city of Wichita Falls, which if not remedied soon, will be followed by indictments and prosecution." It is not known just what conditions are referred to here.

The report also recommends that the usual committee be appointed to look into the county's finances and Judge Carrigan will announce this committee shortly.

OPEN MEETING SUBSCRIPTION LISTS ARE BARRED HEREAFTER

There will be no more subscriptions taken up at the membership meetings of the Chamber of Commerce. This has been decided by the directors and hereafter when funds are needed for any particular purpose, a committee will be appointed to call on the business men in their offices. It is believed that a close adherence to the latter policy will meet the hearty approval of the members.

ST. MARY'S ACADEMY EXERCISES TONIGHT

Tonight marks the closing for the summer of the Academy of Mary Immaculate and the final exercises will take place at the Wichita Theater, with an elaborate program. Diplomas will be issued to three young ladies who have completed the Academy's course.

The Class Day observance continued until last night at the Academy, all of the students taking part. The festivities were as interesting as they were enjoyable and proved a pleasant ending to the year of work and study at the school. The past session has been an unusually successful one, it is stated, for all concerned.

SEVERAL ARE INJURED IN LOUISIANA COLLISION.

Shreveport, La., June 9.—A regular freight and a work train collided at a sharp curve over a trestle at Wallace lake, south of Shreveport, on the Kansas City Southern this afternoon, injuring Assistant Foreman Will Holland, the fireman, brakeman and six laborers on the work train. Both locomotives were demolished. It is said the freight disregarded its orders to wait.

Several Baseball Challenges Received. Manager Williams of the baseball team announces that he is in receipt of a number of challenges for games with the Wichita team, but that he will arrange for no more games until the money is subscribed for new suits, so that the team may make a creditable appearance.

HOUSTON IS AHEAD FOR 1910 MEETING

TEXAS CITY'S CLAIMS TO NEXT CONFEDERATE REUNION ENDORSED BY LEADERS.

MEMORIAL CEREMONIES

Tributes Being Paid to Memory of Davis This Afternoon—Vote to Be Taken Tonight.

Memphis, Tenn., June 9.—The vote on the meeting place for the next reunion will be taken late this afternoon and the Houston contingent is sanguine of success. Early this afternoon memorial services were held in honor of Jefferson Davis, consisting of scripture readings, prayers and eulogistic addresses.

The Confederate choir, consisting of a hundred handsome Southern girls, attired in the Confederate gray, furnished the music, the service ending with the singing of "Nearer, My God To Thee."

The claims of Houston for the next reunion are endorsed by General Clement Evans, General Mickel and others of importance. The other contestants are active and the fight will be a stern one.

REPRESENTATIVE FARMERS DISCUSS WHEAT CONDITIONS.

J. G. Hardin of Burkburnett was in the city today, as was also H. Willis of the same section of the county, and William Friberg, whose farm is located eight miles northeast of the city.

In reply to the questions asked by a Times reporter in regard to the condition of the wheat crops in their respective neighborhoods and the probable average yield per acre, Mr. Hardin said that there were between 160 and 170 acres of wheat on his farm this year and that harvesting was nearly through. One piece of wheat on his farm he thought would make an average yield of twenty bushels per acre, and that all of it would make an average yield of from ten to twelve bushels. In his judgment, the wheat crop on his farm was about as good, or at least would average up to the other crops in his section of the county.

Mr. Willis, whose farm is within six miles of Burkburnett, says he has on his farm 190 acres, which will make an average yield of between ten and twelve bushels per acre. Like Mr. Hardin, he has some wheat which will make as much as twenty bushels per acre, and feels quite sure that the entire 190 acres on his farm will yield an average of ten or twelve bushels per acre.

Mr. Friberg's farm is located eight miles northeast of this city, and he has just finished cutting his 150 acre wheat crop, which he thinks will make an average between eight and ten bushels per acre. His oat crop is very sorry. Has in forty acres which will not yield more than fifteen bushels per acre.

Messrs. Hardin, Willis and Friberg are representative farmers and statements made by them as to crop conditions can be relied upon.

J. H. Osborne, who is farming the Root place 14 miles down the South side of the Wichita river, says he has in 500 acres of wheat, most of which is now in the shock, and that his crop will easily make an average yield of 10 bushels per acre.

Weather is Some Hot.

The thermometer registered an even ninety in the shade at noon today, which is about as high as the mercury has climbed this year. Many complaints of the sultriness have been heard and hopes for a rain are general. The weather man has done his best by predicting cloudiness for several days, but there has been no rain yet.

MANY HAVE ATTENDED THE TUBERCULOSIS EXHIBIT.

Substantial crowds have attended the tuberculosis exhibit and every lecture is heard by many, although there are some vacant seats. Between lectures crowds view the exhibit and it seems to be attracting a great deal of attention. There are very few who do not leave knowing more than they did when they entered and the value of the exhibit is being demonstrated. It remains here today and tomorrow and all who have not attended it should not fail to do so before it leaves.

INVESTIGATION IS UNDER WAY

PROBE INTO PRIZE FIGHT LAST SATURDAY HAS BEEN BEGUN AT AUSTIN.

NO PRIZE WAS OFFERED

Business Men of Austin and City and State Officials Are Among the Witnesses.

Austin, Tex., June 9.—Nearly a score of witnesses have been examined in the investigation now in progress to establish the responsibility for the bout in which Victor Lyons met death last Saturday morning.

It is testified that the contest was a clean one, without brutality, and that there was no knockout until the last round. Albert Raatz, at whose gymnasium the fight occurred, testified that the bout was merely a friendly one and that no prize was offered.

The witnesses included many prominent business and professional men and some city and State officials. The investigation is still in progress this afternoon and a large crowd is in attendance.

W. L. CAMPBELL OF DALLAS TO REOPEN FOLLY THEATER.

William L. Campbell of Dallas is in Wichita Falls to assume control of the Folly Theater, which closed recently. Mr. Campbell is an amusement man of several years experience in Dallas and any Wichitans who have ever attended his "Nickelodeon" there will testify to his success as an amusement provider. The Folly will be reopened very shortly with improved equipment and will doubtless assume a leading place as an amusement house.

Mr. Campbell hopes to have things started again within a week or ten days at the latest.

Opera chairs, electric fans and other arrangements for the public's comfort will be made and the programs promise to be excellent. Only "first run" pictures will be used and no expense will be spared to make the amusement an attractive one.

Negro Idlers Gathered In.

The strong arm of the law this morning gathered in nine healthy negro bucks who had evinced a disposition to bask in the shade in spite of the fact that there is work crying to be done at \$2 a day. The police force gathered the bunch in and all who are unable to show that they have visible means of support will be put to work on the city's streets. There are other negro idlers here who will share the same fate unless there is a change in their habits.

Death of Alex Glass.

In a letter to the Times from Girard, Kansas, under the date of June 8th, the death of Alex Glass is announced, which occurred in that town on June 4th, caused by paralysis.

Deceased will be remembered as the old machinist who kept a shop on Seventh street between Indiana and Scott avenues. He and his wife left here about six weeks ago for Girard, Kansas.

NEW IMPERIAL POTENTATE IS ELECTED BY N. O. M. S.

Louisville, Ky., June 9.—George Street of Richmond, Va., was today advanced from Deputy Imperial Potentate to Imperial Potentate at the business meeting of the Knights of the Mystic Shrine. He succeeds Edwin Alderman of Cedar Rapids, Iowa.

ALLEGED HOTEL ROBBERS ARE CAUGHT AT TULSA.

Tulsa, Ok., June 9.—E. H. Conley, and James Bothwell, were arrested in West Tulsa today charged with entering the Buffalo hotel at Sapulpa last night and at the point of a gun relieving the guests of their money and valuables amounting to fifteen hundred dollars. The men offered no resistance to the officers.

PROMINENT ELK OFFICIAL RECOVERS FROM ILLNESS.

Dalhart, Tex., June 9.—District Deputy Grand Exalted Ruler W. F. Batjer, who was taken ill with pneumonia while here to assist in the installation of a new Elks' lodge on May 26th, has recovered sufficiently to leave for his home at Abilene, where he will arrive Friday morning.

MILITANT STATUTE OF WOMAN IS REJECTED

Memphis, Tenn., June 9.—The second day of the Confederate reunion opened with the sun shining as fiercely as it did yesterday. Thousands walked the streets or rode on the cars seeking a breeze. Many slept in the parks or on benches. The heat and excitement are hardest upon the old soldiers and to look at them, bent, crippled and palsied with age, one can readily believe that this is probably the last big reunion of the United Confederate Veterans.

The early part of the sessions of the Veterans and Sons of Veterans was devoted to listening to reports.

The design for a monument to the women of the Confederacy was rejected because the sculptor created a militant woman, armed, belted and waving a flag. It was unanimously agreed that this was in no sense a fitting memorial to the gentle, tender and devoted women of the South.

Houston, Mobile, Nashville and Chattanooga are contenders for the next place of reunion and each has a real live delegation after the prize.

Meets Next at New Orleans.

Louisville, Ky., June 9.—The next imperial council of the Shriners will be held at New Orleans.

PLAN FIRE STATION IN RESIDENCE SECTION

The need for a fire station in the residence section of the city has been impressed upon a number of the citizens and plans are under way to establish such a station before the necessity for it is made evident in some manner too painfully graphic. Chief McHam is giving his attention to the matter and while there is nothing determined as yet, probabilities are that the department will recommend another station, to be built on the hill, where, in case of a residence fire, the boys could reach it in time to do some good. At present, were a fire to break out at night up on the hill, the best efforts of the department would be unavailing on account of the distance to be traversed. It is to be hoped however, that some favorable action will be taken.

A CYCLONE REPORTED AT SAYRE, OKLAHOMA.

Fort Worth, Tex., June 9.—It was reported to the Rock Island officers here that buildings were unroofed, window lights smashed, cars blown from the track and other damage done in severe wind and hail storm at Sayre, Oklahoma, last night. The storm was reported as being only local.

Declares Bank Was Solvent.

Dallas, Tex., June 9.—Fred Fleming continued his testimony in the bank officials' trial today, denying the responsibility for sending the letters saying the defunct bank and trust company was solvent just prior to its failure.

EARTHQUAKE KILLS SEVERAL HUNDRED

TOWN OF KORINCHI IN SUMATRA ALMOST DEPOPULATED BY SEVERE SHOCK.

IMMENSE TIDAL WAVE

Native Huts Swept Away Like Shells. News is Received Six Days Late.

Pedang, Sumatra, June 9.—Belated news has just reached this city of the destruction of the town of Korinchi, southeast of here, on the night of June 3rd, by an earthquake.

The reports state that two hundred people were killed and that many others were injured.

Accompanying the shock came a tidal wave of immense height, which swept the native huts down before it like cockle shells. This wave was responsible for many of the deaths.

Aid has been rushed to the scene from this and surrounding points. Conditions at Korinchi are reported to be very bad and the population is panic-stricken and disheartened.

It may be remembered that the Associated Press dispatches of June 4 carried reports of a seismographic record of an earthquake, but it was not at the time where the disturbance took place.

NORTHWESTERN SCHEDULE TO BE CHANGED SHORTLY.

On June 13th, several changes in the time card of the Wichita Falls and Northwestern will become effective. The through mail and express will hereafter leave Frederick fifteen minutes earlier, at 8:45 a. m., arriving here about fifty minutes earlier, at 11:10 a. m. The return mail leaves here half an hour earlier, at 2 p. m., and arrives at Frederick at 5:10 p. m. The local freight and passenger will hereafter leave at 7:30 instead of 7 and arrive at Frederick at 11:45 instead of 11:20. The return mixed will leave Frederick at 1:30 instead of 1 p. m. and arrive here at 5:45 p. m., instead of 6, clipping three-quarters of an hour off the schedule.

AUSTIN IS STIRRED UP OVER FATAL PRIZE FIGHT.

Austin, Tex., June 9.—The grand jury here is today investigating the recent prize fight which resulted in the death of Victor Lyons. The city commission is also making an investigation to determine the responsibility of the police department in the matter.

DENTON WHEAT OUTLOOK CONSIDERED EXCELLENT.

Denton, Tex., June 9.—A dollar and a half per bushel was the posted price for wheat on the Denton market today. The yield and quality are exceeding expectations and it is estimated that the crop will bring a million dollars to Denton county farmers.

DINGLEY SCHEDULE ON WOOL WASTE RESTORED BY SENATE.

Washington, D. C., June 9.—By a vote of 40 to 30, the senate today adopted the finance committee's report restoring the Dingley rate of 30 cents a pound on wool waste and other waste. The house rate is 30 cents.

Will Sell Jail Bonds Monday.

The \$15,000 jail bonds will be sold by the county next Monday. There are several bidders for these securities and the authorities hope to secure a good price.

DEPARTMENT OF JUSTICE CRITICISED IN OKLAHOMA

Oklahoma City, Ok., June 9.—Addressing President Taft direct, the associated commercial clubs of Oklahoma in convention here today adopted resolutions condemning the policy of the department of justice in bringing twenty-five thousand civil and criminal suits against purchasers of Indian lands. The resolutions declare the suits will discredit that section of the State and do irreparable injury to honest persons and paralyze business.

FIRST WHEAT WAS BROUGHT TO TOWN

SEVEN HUNDRED BUSHELS FROM FARM OF J. H. MUSGRAVE CAME IN YESTERDAY.

WAS THRESHING FROM ONE HUNDRED ACRES, AVERAGE BEING SEVEN BUSHELS—MORE COMING.

The first wheat of the season arrived in Wichita Falls late yesterday afternoon, being about seven hundred bushels from the farm of J. H. Musgrave, seven miles north of the city. These seven hundred bushels represent the threshing of one hundred acres, the average being seven bushels to the acre.

The wheat scaled sixty pounds to the bushel and was promptly taken by the Hunt Grain Company at \$1.30, or about nine hundred dollars for the entire lot.

Very promising reports are brought in from the section from which this grain came. The average of seven bushels is low, but the county as a whole will do better than that. George Musgrave, brother of the above grower, stated yesterday afternoon that he would begin threshing today.

“HIATUS” APPEARS IN NEW WASHINGTON SALOON LAW.

Spokane, Wash., June 8.—If the amended criminal code, effective June 11, is enforced to the letter, any saloon man in the state of Washington is liable to arrest and punishment for employing a servant girl in his household or a nurse or governess for his children. Conviction subjects him to a fine or imprisonment in the county jail. Stripped of its legal verbiage this is what one provision of the section referring to the subject says:

“Every person being an owner or manager of, or an employe in any drinking saloon, who shall knowingly give employment to any female person, shall be guilty of a misdemeanor.”

Another provision of the law says it is a misdemeanor for any person connected with a drinking place, or dance hall or music hall, where intoxicants are sold, to permit women or any person previously convicted, whether in this state or elsewhere, of any crime amounting to felony to enter these premises, or sell or give them liquor. Any one selling or giving liquor to a common drunkard or intoxicated person, shall also be guilty of a misdemeanor and subject to a fine and jail imprisonment. Test cases will follow the enforcement of these provisions.

News and Notes of Sport.

Richmond and Danville are both playing nice ball and leading the Virginia league.

The Salt Lake City and Helena teams are setting the pace in the Intermountain league.

The New Haven team has worked from the bottom to second place in the Connecticut league.

Portland has moved up in the Northwestern league race and is playing better ball than in the early part of the season.

In the New York State league Utica looks to have the best team that has represented that city in several years.

The Oakland Club has some pretty classy players in its line-up and should hold its own in the California State league.

The Madison team started the season like a winner and is still heading the Wisconsin-Illinois league race.

Wheeling, Zanesville and Grand Rapids have been running neck and neck in the lead of the Central league race.

It begins to look as though the Shreveport team will be able to give the best of them a battle for the Texas league honors.

The Altoona team has been showing the way in the Tri-State league. The team won 17 of the first 25 games.

Little Rock has been the surprise of the Southern league season so far. The Memphis team, which was expected to show how games was won, is fast on the rocks.

The Columbus “Climbers” are gradually climbing upwards in the American Association, but Milwaukee still looks to be the best bet.

No doubt baseball scouts will be sizing up Pitcher “Dutch” Wagner of the Columbia team of the South Atlantic league. He looks good to uncle.

As usual Jesse Burkett has his Worcester team fighting and the top of the New England league is his. Jess ought to fit as manager of some major league team.

SEEMS INHERITED CURSE IN JAY GOULD'S WEALTH.

New York, June 9.—Was there an inherited curse in the millions left by Jay Gould, 'the Wizard of Wall Street?' It would certainly seem so from the amount of notoriety and domestic trouble in which the family and his children have shared since his death.

A year ago this month the family skeleton was rattling its grisly bones in a French divorce court, where the Countess De Castellane, formerly Miss Anna Gould, was suing for separation from her titled husband.

About the time that the courts released the Countess de Castellane from her husband for good and all—leaving her free to marry the notorious Prince Helle de Sagan a few months later—the family infelicities of Frank Gould were being aired in the New York press. As in the case of the youngest daughter, Anna, the troubles of the youngest son, culminated in a divorce. The decree was granted his wife, who was Miss Helen Kelly, two weeks ago.

And now, when the ink has scarcely had time to dry on the papers in the Frank Gould case, comes the separation suit brought by Mrs. Katherine Clemmons Gould against Howard Gould, and the latter's countersuit for a divorce. The case was called for hearing yesterday before Justice Gerard in Part 3, Special Term, and it is expected the trial will take place without further delay. It will not be a jury trial. Most of the testimony will be offered in the form of depositions taken by both sides.

The matrimonial troubles of Mr. and Mrs. Howard Gould have furnished a staple of gossip for several years. The couple have not been living together since they returned from Europe late in the summer of 1906. It was not until nearly a year later, however, that Mrs. Gould brought suit against her husband for limited divorce. Desertion, nonsupport and cruelty were some of the charges brought by Mrs. Gould.

In answer to the application of his wife for a separation Howard Gould filed a paper covering twenty-eight typewritten pages, in which he set forth many alleged short-comings of Mrs. Gould, among them intoxication and misbehavior at various times and places, and naming William F. Cody (Buffalo Bill) as one whose relations with Mrs. Gould were illegal, and also Dustin Farnum, the actor, as a person with whom Mrs. Gould was infatuated and who, according to the affidavit, met Mrs. Gould in many cities.

Alleged evidence by private detectives is expected to furnish the bulk of the testimony. It is understood that ever since their first differences arose both the husband and wife have been under the most constant surveillance of flocks of private sleuths. In fact it has long been a custom of some of the Goulds to engage the service of private detectives. This custom has been followed ever since George Gould was bothered by the notorious Zella Nichols.

The wedded bliss of the Howard Gould's was but of a few year's duration. After an eventful courtship they were married in January, 1898. Mrs. Gould was Katherine Clemmons, a native of California. She was an actress of some fame, having starred in the West. For a brief period she was at the head of a company in New York.

At the time of the marriage it was an open secret that, notwithstanding the fact that George Gould himself was happily wedded to a former actress, Miss Edith Kingdom, he as well as the eldest sister, Miss Helen Gould looked with anything but favoring eyes upon Howard Gould's attention to Miss Clemmons. Almost from the day that Howard Gould first met the actress, shortly after her appearance on the stage of the Fifth Avenue Theatre, the Gould family expressed disapproval.

Jay Gould's will stipulated that none of his children should marry without the consent and approval of the others. A forfeiture of half the child's share in the estate was to be the penalty for a marriage without this approval.

The ghost of Jay Gould in the form of his advisory committee named in his will promptly put in its appearance when the marriage of Howard Gould and Katherine Clemmons was broached. The protest of George Gould and Helen Gould carried with it the threat to divert about \$5,000,000 of Howard's patrimony, according to the provisions of the will. Howard Gould is said to have been quite willing to let the \$5,000,000 go and keep Miss Clemmons. At any rate he defied the family protest and married the actress from whom he is now seeking a divorce. The advisory committee renounced, as it also did in the case of the present Princess de Sagan, and let Howard keep all his inheritance.

CONSTIPATION.

Its Cause and How to Cure it.

Eat too much.
Stomach feels bloated.
All out of sorts.
Don't feel like work to-day. Guess I've another case of biliousness.

"Take anything?"
"Yes; some pills, but no results, suppose I'm getting ironclad. Sometimes I double the dose, then they physic me so hard I'm too weak to work. Think I'll have to try something new."

"Ever try Prickly Ash Bitters?"
"No; I've heard a good deal about it, but never tried it."

"Well, you'll be pleased with the results."
The purgative action of Prickly Ash Bitters not only removes hard impactions, gas and impurities, but it strengthens the muscular action of the bowels which causes them to move regularly.

Prickly Ash Bitters is a bowel tonic and regulator in the truest sense. It promotes daily evacuations, establishes healthy movements and is the best known remedy for disordered digestion, flatulence and a constipated habit.

D. M. Blackwelder, of Litchfield, Ill., says in the *Litchfield News*: "I am perfectly willing, in fact glad to testify to the value of Prickly Ash Bitters as a medicine for the kidneys, stomach and bowels. I have used it whenever I needed anything of the kind for the last fifteen years and it has always given satisfaction."

THIS IS MY 58TH BIRTHDAY.
Charles J. Boneparte.

Charles J. Boneparte, former Secretary of the Navy and Attorney-General of the United States, was born in Baltimore, June 9, 1851, and is direct descendant of Jerome Boneparte, brother of the first Napoleon, who married Miss Patterson of Baltimore. He was graduated from Harvard University in 1871 and from the Harvard engaged in the practice of law in Baltimore and son attained a high standing in his profession. He took an active interest in municipal affairs and was one of the pioneer workers for civil service reform. He was also one of the organizers of the National Municipal League, and is a member of the executive committee of the National Civic Federation. At the earnest solicitation of President Roosevelt Mr. Boneparte entered the Cabinet in 1905 as Secretary of the Navy. In the reorganization of the Cabinet at the beginning of 1907 he changed the Navy portfolio for the position of Attorney-General of the United States, which position he held until the expiration of Mr. Roosevelt's term of office.

INSTANT RELIEF FROM DREAD CATARRH

Why don't you get rid of that nasty, humiliating disease catarrh? You can do it if you really want to. But you can't cure catarrh in a few days; that's an utter impossibility, because there is no remedy known that will kill the catarrh germs in that short time.

But you can cure catarrh if you will have a little patience and breathe in Hyomei (pronounced High-o-mei) three or four times a day.

Hyomei cures catarrh by killing the germs and it kills the germs because it gets where the germs are.

Hyomei is a powerful antiseptic and germ killer air; it is made from the fluid extracted from the eucalyptus trees of inland Australia where catarrh has never existed.

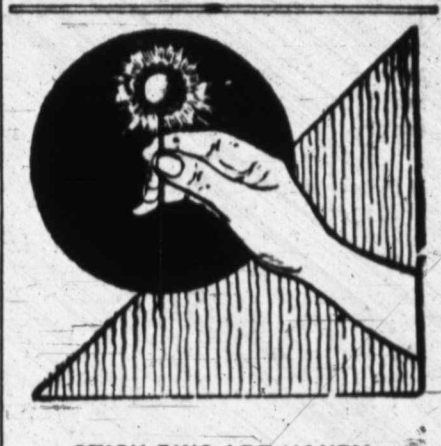

It gives relief instantly, stops hawking in a few days and is guaranteed to cure catarrh, asthma, croup and bronchitis or money back. A complete outfit, including inhaler, costs \$1.00, and extra bottles of Hyomei if afterward needed, cost but 50 cents. Sold by leading druggists everywhere.

"Hyomei certainly saved my life and I accord it the credit which it deserves and merits. There is nothing too strong for me to say regarding Hyomei."—Mrs. Ada Hopkins, 8 Cutter Ave., Coldwater, Mich., August 22, 1908.

MI-ONA

WEATHER FORECAST.

For Wichita Falls and Vicinity
—Tonight and Thursday, partly cloudy to cloudy and probably threatening weather.

Wichita Falls, Texas, June 9th, 1909.

A great many people are counting the hours when they can go to the big lakes and fight mosquitoes and flies, possibly get drowned, in effort to string the finny tribe. There is not much pleasure in it after all.—Olney Oracle.

Stamford ex-Confederates have endorsed Gov. Campbell's administration in toto. Let's see. Isn't Stamford a candidate for the West Texas Normal and isn't the governor one of the locating board?—Denton Record and Chronicle.

A Washington woman, who did not believe in putting her money in a bank, hid \$20,000 and a burglar came along and found it. He also carried it away. The lady now has less confidence in hiding places for cash and more in the safety and wisdom of bank deposits.—Bonham Favorite.

From the present outlook the wheat crop of Wichita county this year will make an average of seven bushels per acre, and every bushel of it will grade No. 2 and sell for \$1.30 today, provided those who raised it are willing to part with the grain at the present market price. This is equal to a fifteen bushel crop at the customary price at which wheat sells at the opening of the local market. It is not often that a wheat crop is sold for more than an average of 75c per bushel.

That twenty-round sparring (?) match pulled-off at Austin the other night, in which one of the contestants was beaten into insensibility and later died from the effects of some of the physical culture jabs received from the fist of his opponent, will doubtless again awaken the people to the fact that Texas has one of the most stringent anti-pugilism laws of any state in the Union, but has been out of business. In late years the requirements of the law have been trespassed upon from year to year unnoticed until it had reached the point where old time slugging matches had gotten to be very common events in some of our principal cities. News dispatches tell us that the Austin bout which resulted in the death of Victor Lyons was witnessed and applauded by the sheriff, chief of police, state rangers and district clerk, and there was no interference even after blood was flowing as freely as if the arena had been the stabbing booth in a slaughter house.—Abilene Reporter.

Fort Worth is just now enjoying some of the blessings (?) of a commission form of government. At a mass meeting held in that city last night and attended by more than five hundred citizens, which was called for the express purpose of protesting against the removal of Police Commissioner George Mulkey by Mayor W. D. Davis, some very warm words were

exchanged between prominent citizens. It seems that Mulkey had been elected by the people to that office, but was not acceptable to the mayor and was removed. Clarence Ousley, editor of the Record, was one of the speakers, and among other things gave utterance to the following: "When public servants ignore and refuse to obey the will of the people, then representative government is destroyed." Those who believe in establishing an oligarchy which, after all, is nothing more than a commission form of government, might do well to read over and over again the truth as uttered by Mr. Ousley and let it soak in on them. He was one of the many prominent citizens of Fort Worth who contended for just the kind of government Fort Worth now has, and now that he has got it, he seems unwilling to be one of its subjects.

THE PRESENT DAY NEEDS OF A COMMERCIAL ORGANIZATION

The Times prints, at the request of the Chamber of Commerce, the following from the Manufacturers' Record:

This is an era of overorganization. So widespread is the tendency to organize that there is probably not one thousand of the population, and probably not a single woman, who is not a member of some organization or other. And it is probable that not one of every one thousand members in an organization does more than pay annual dues and give a sigh of regret when what he thinks is a letter of interest turns out to be the annual report of his organization or a call for more funds. The popular sense of the importance of organization has become so exaggerated and distorted that the great majority of the members feel that they have been relieved of all responsibility as to the object of the organization, and that their full duty is done when they have paid their dues or consented, mostly in ignorance, to the use of their names on the organization's stationery.

Organizations intended to promote the material welfare of communities are peculiarly the victims of this falling. Men occupied in their own business that would not be a success if they were not thus occupied do not seem to understand that some occupation by them, some personal participation, in the affairs of a body formed for promoting the general business of their city is essential to its success, and most of them are content to attend an annual meeting when an election is on hand or to be present at a banquet having among its attractions orations of one kind and another. They take it for granted that the Secretary, who is paid to do so, will attend to all the details of the organization, and that the executive committee will direct the work of the secretary instead of endorsing anything that he may suggest. So it often becomes a case of really nothing being done, because everybody thinks everybody else will do it.

That situation brings the thought to the individual occupying the executive position and not having any of the qualifications for it. In many communities there are definite liabilities; that is to say, individuals who, for one reason or another, must be cared for by the communities and cared for in a way that will not reflect upon what passes for their self-respect. They are unfortunate in being untrained to any productive or inspiring occupation or are gifted only with the nerve to stand up, with or without provocation, and talk without contributing one fresh item, unless absurdity, to human thought. It is the misfortune of some communities that the membership of business organizations discover specimens of such liabilities as executive officers of their organizations. No member would employ such a secretary in his own business office, but with others he man-

ages to develop an impression that by some good fortune a man worse than useless in an individual business is eminently suitable to conduct a business affecting for good or ill the whole community. The consequence of this is that, in order to justify their occupation of an important office, too many secretaries of business bodies grab at any suggestion which will enable them to appear as doing something. Such secretaries are responsible, in conjunction with executive committees willing to follow their initiative, for an uninformed public being led to believe that the business body has adopted this and that resolution favoring all sorts of wild and harmful movements. Such secretaries welcome warmly promoters of all sorts of private undertakings called conventions, congresses of what not. Such secretaries are quick to grasp an opportunity to pose as delegates to conventions and congresses, with a result that even competent secretaries are, against their better judgment, forced into the wasteful convention habit. It would be interesting to obtain from communities which have been misled into welcoming many of haphazard character during the past decade an inventory of the benefits which have been received, from such gatherings. The Manufacturers' Record, which has made a study of this subject in all parts of the country, is convinced that in not more than one of a hundred cases has any benefit been derived save by some secretary of a business body who has persuaded his organization to take the lead locally for the convention of obscure origin, or by the other secretaries who have persuaded their respective organizations that for the advantage of the communities they should be sent to the conventions and all expenses paid. Some day the business men of the country will wake up to the importance of a reform in this matter, and will not only participate actively in the work of their business organizations, whether city, State or national, but also see to it that their executive agents in the organizations shall be not individuals qualified for the job only by their desire to draw its salary and by their smoothness in finding easy marks, but individuals of such business character that they would make a success of any business in which they might engage.

The Clothes of a Gentleman

STYLE IS AN EASY MATTER TO the men and women of wealth, who in their leisure order it by the exercise of their good taste and open purses.

TO US—TO YOU—Who must spend at least the major portion of our time earning a living, it is a much more important matter. It is a genuine necessity that you should be a fashionably, if conservatively, dressed man, as men of the world view style.

KUPPENHEIMER'S have always taken the professional and business man's style requirements seriously. They meet them. For they show you clothes to fit the measure of each individual type of American man—in taste, in size, in pocketbook.

Just a Few Jars of Those Preserves Are Left

The price we made on those fine Heinz preserves are moving them fast and there are only a few jars left, but you will be in time to get one if you hurry, although we suggest that you phone your order to make sure.

We said in our last ad that we were making the price of 75c per jar to sell them for immediate use, as they would not keep well during the hot weather. That does not mean that they won't last for several weeks, but what we did mean was that they would not keep well if we carried them over till fall.

Remember, they are perfect in every way and the highest quality of preserves that are put up.

We have peach, strawberry, raspberry and cherry, the regular price was 90c and \$1.00, but to close them out this week we make the price

Politics and Politicians.

The State-wide prohibitionists are keeping up a vigorous campaign in Texas.

Maryland republicans will hold their state convention in Baltimore August 25, just two weeks later than the Democratic state convention.

Governor-elect Brown of Georgia has decided that his inauguration the latter part of this month shall be devoid of all ostentation.

At the recent Unitarian anniversary in Boston President Taft was elected honorary president of the newly formed national league of the Unitarian laymen.

Because the Senate appropriations committee would not give him a salary of \$7,500 a year as an employee of the new committee on public expenditures, former Senator Henry B. Hansbrough of North Dakota has resigned his position.

A number of influential Democrats of New York, it is asserted, are to prepare a bill to be submitted to the legislature next winter making amendments to the election law which will prevent the throwing out of rightfully elected delegates to State conventions.

The 'Recollections of Grover Cleveland,' George F. Parker, author, to be published next fall, is to be inscribed to Thomas Fortune Ryan. Mr. Cleveland and Mr. Ryan were intimate friends from the day that the former was first nominated for president in 1884.

The Liberal party in Georgia is preparing to put a full State ticket in the field in the next election. Steps have been taken towards the organization for the campaign, and have been started under the direction of Sidney C. Tapp, who was the candidate of the Liberal party for president during the last presidential campaign.

William Lorimer, the new United States Senator from Illinois, is a native of England. When a boy he emigrated to America with his parents and located in Chicago. He received little schooling, for he was put to work at an early age to help support the family. After he had grown to manhood he worked for several years as a street car conductor. Then he drifted into politics, became a ward leader in the Chicago stock-yards district, and in real estate and other ventures soon acquired a comfortable fortune. For the past fifteen years he has been a Representative in Congress.

The City of Colorado Springs has adopted the commission form of government under a charter which abolishes the ward system, eliminates party politics, provides the recall, initiative and referendum and places ample restrictions around the granting of franchises. The charter is probably the most liberal adopted by any American municipality, because of the fact that the Colorado legislature gives all cities a free reign in making their charters. Colorado Springs is the first Colorado city to adopt the commission plan of government, although Pueblo and several other cities are now taking steps to that end.

MANY ATTEND SHRINERS RALLY IN MEMPHIS.

Louisville, Ky., June 7.—Louisville is prepared to spend \$75,000 in the entertainment of the thousands of visitors who are to be here this week for the thirty-fifth annual conclave of the Ancient Arabic Nobles of the Hyatic Shrine. At least forty thousand visitors are expected and they will come from all parts of the United States, Canada and Mexico.

Today was devoted to sightseeing trips and steamboat excursions on the Ohio river. Among the striking features of the week's program will be an electrical pageant of patrols, Tuesday night; a regimental parade and review of patrols, a massed band concert of 500 musicians, and a Southern negro jubilee, Wednesday; a dirigible balloon race, a sham battle, and a grand ball, Thursday. Automobile races will be held each afternoon of the week.

Notice.

Owing to the advance in the price of feed stuffs, we are forced to advance the charge for cab fares from 25c to 50c. These rates will apply to day as well as night work. These rates are effective on and after June 1, 1909.

SEVERAL THINGS

There are Several Things to be Considered in Selecting YOUR BANK

- 1st Strength—financial strength
- 2nd. The care with which the Bank is managed.
- 3rd. The courtesy and spirit of accommodation displayed by the officers and employees.
- 4th. The banking experience of its officers.
- 5th. The ability of the Bank to properly and promptly handle all your business.

To those wishing desirable banking relations we offer our services as an old established, permanent, conservative and accommodating bank, promising courteous treatment and careful attention to all business entrusted to our care.

'The Belle of Wichita.'
 The Times is in receipt of the below poem, which is charged up to Frank Jones, operating under Poetic License No. 3.

What is bread? The staff of life
 It is used in every land.
 You can't expect a modern wife
 To make it out of sand.

The strength of man upholds the world
 And it is truly said,
 The Nation's Flag you can't unfurl
 Unless the men are fed.

Now comes a question 'What is best?'
 An answer easily made;
 It quickly puts all minds at rest;
 It satisfies the trade.

Now do as Teddy Roosevelt said:
 Raise all the kids you can,
 And feed them on the best of bread;
 And bring them up by hand.

Brains it takes to make a judge
 On points we have in law;
 It takes a man who knows his biz
 On 'Belle of Wichita.'

Like Milwaukee's famous beer,
 It has advertised the town;
 And now its known both far and near,
 The world its name went round.

It goes away to foreign lands
 Where it is fed to Kings
 In biscuits made by dainty hands
 Adorned with diamond rings.

Don't say that marriage is a fake;
 Don't fear a mother-in-law;
 Take the girl for Heaven's sake
 And use 'Belle of Wichita.'

Its made down in the Lone Star State,
 Where lovely maidens grow,
 Who know just how to build a cake
 As soft and white as snow.

Yes, way down in the broncho State,
 Where Davy Crockett fell,
 There is a mill that's up to date,
 And run by Franklin Kell.

**WISCONSIN WILL WITNESS
 GOLDEN JUBILEE OF A BISHOP.**

Fond du Lac, Wis., June 9.—In the presence of a large and most notable congregation that ever crowded the Cathedral in this city and the greatest gathering of dignitaries of the Episcopal Church that ever assembled here, the celebration of the sacred jubilee of the Rt. Rev. Charles C. Grafton, Bishop of Fond du Lac, began today in connection with the annual council of the diocese. The council organized at 9 o'clock this morning and then adjourned for the solemn pontifical mass.

The mass was celebrated by Bishop Grafton himself, assisted by Bishop Weiler, his coadjutor bishop, and Bishop Webb of Milwaukee. The sermon was preached by Bishop White, of Michigan City, Ind. Bishops Anderson of Chicago, Williams of Marquette and a number of other prelates were in attendance. Tomorrow the jubilee will be continued with a garden party in the afternoon followed by the presentation of a Greek play by the students of Grafton Hall.

The celebration marks the twentieth anniversary of Bishop Grafton's consecration as head of the Fond du Lac diocese, as well as the fiftieth anniversary of his ordination to the priesthood. The bishop has had an absorbingly interesting career. Born in Boston in 1836, he studied at Harvard University and after a theological course was ordained a priest in 1859.

In 1864 he went to London and began studying at Oxford. Soon afterward he conceived the idea of a brotherhood of churchmen which should bring its disciples into living more devoted Christian lives. The brotherhood was formed and named the Missionary Priests of St. John the Evangelist. As the first house of the order grew rapidly and was established, the members of the society were called the Cowley Brothers. The priests entering the brotherhood had to pass a novitiate, and after demonstrating their fitness and their devotion, were finally admitted to full brotherhood after taking the vows of poverty, chastity, and obedience. Tho-

rougher grew rapidly, and was established in London and in many other places throughout this country and England. Today the brotherhood is much the same as it was when it was established.

Bishop Grafton himself is no longer a member of the Cowley Brothers. He was forced to resign from the brotherhood when accepting his appointment as Bishop Fond du Lac, for the reason that the Cowley Brothers recognize their father superior as their supreme temporal head, which, of course, would prevent one of the brotherhood from exercising the office of a bishop or priest in the regular church body.

Bishop Grafton is one of the few Episcopal clergymen in America who wear the clerical garb as it is worn by the churchmen in England. Under his long black coat and over his vest he always wears a long-silk cloth that reaches to his knees, and he wears tight knee breeches and high silk leggings, fastened down the side by rows of black buttons.

Try Hawaiian Pineapple IN YOUR NEXT FRUIT SALAD

Then listen to the comments of the family. They will be sure to ask you to repeat the experiment. Hawaiian pineapple is so different. Compare it with other canned pineapple and you will find it tenderer, more delicious and more perfectly flavored. Again, compare it with fresh pineapple and the Hawaiian product has still the advantage. It is a better variety than any other that can be shipped profitably; it has been fully ripened on the plant; it has no woody fibre. The meat is so tender that it cuts with a spoon just like a peach.

Keep a few cans in your pantry for emergencies. Sliced Hawaiian pineapple is a delicious ready-to-serve dessert. It cost no more than other fruits.

PHILANTHROPISTS MEET TO DISCUSS SOCIOLOGY.

Buffalo, N. Y., June 9.—With an attendance of delegates from nearly all parts of the United States and Canada, among them noted philanthropists, settlement workers, prison reformers and heads of asylums and reformatories, considerable public interest attaches to the thirty-sixth annual session of the National Conference of Charities and Correction, which had its formal opening in this city today. The sessions will continue seven days, during which time a wide range of subjects will be discussed.

The conference has no duplicate in the world. It held its first meeting in 1874, with an attendance of about twenty persons. In thirty-five years its membership has grown to 2,000 and its value and influence have increased at an even greater ratio. The country wide effort to stamp out tuberculosis was begun by the conference, as also was the playground move-

ment, as well as the effort to solve the problem of overcrowding of people in city tenements, the betterment of the system of jails, almshouses and other institutions for dependents. Some of the subjects scheduled for discussion at the present meeting are the social betterment of country communities, the cocaine evil, medical supervision of schools, the diet of tuberculosis patients, the responsibilities of the health officer, the problem of the immigrant and the proper fields for State and private charities.

Birkhead-Hall Wedding.
New York, June 9.—Miss Caroline Minturn Hall, daughter of Mrs. David Prescott Hall, of Boston, and granddaughter of Mrs. Julia Ward Howe, was the first June bride of the season today, when her marriage to Rev. Hugh Birkhead took place in St. George's church, Stuyvesant Square, of which Mr. Birkhead is the rector. The wedding was a notable incident in social circles, for the guest list included many of the most prominent names in New York and New England society. The ceremony was performed by Bishop Greer, who was assisted by the Rev. William Mercer Grosvenor, rector of the Church of the Incarnation.

Iowa Manufacturers in Session.

Davenport, Ia., June 9.—A notable assembly of business men representing all branches of commercial activity of the Hawkeye State assembled at the new Kimball hotel in this city today for the opening session of the seventh annual convention of the Iowa State Manufacturers' Association. The session will last two days. The importance of the gathering can be judged from the men who are to speak at the big banquet tomorrow evening. They include Hon. E. E. Clark of the Interstate Commerce Commission; S. A. Thompson of the national rivers and harbors congress; Colonel John A. Ockerson, of the Mississippi River commission, and H. E. Miles of Racine, Wisconsin.

Good Job For Wireless Expert.
Washington, D. C., June 9.—A \$5,000 job in the bureau of equipment of the navy awaits the wireless telegraph operator expert who stands highest in the examination conducted today by the civil service commission. It is the first time that an examination has been held for a wireless expert. The successful applicant will be given charge of the laboratory, which tests instruments pertaining to wireless telegraphy and develops special methods of wireless signaling.

IMPROVEMENTS AT WATER PLANT

NEW ENGINE HAS ARRIVED AND IS BEING INSTALLED—NEW PUMP IS EN ROUTE.

CLEAR WATER VERY SOON

Completion of New Basins Will Put An End To Muddy Stream—Work Is Being Rushed.

The improvements at the water and light plant, aggregating over fifty thousand dollars, are well under way and it is announced will be completed within about thirty days. The new basins will be completed within ten days and then the red, muddy water which Wichitans have patiently endured for some little time will be replaced by pure, clear water.

The improvements at the plant include the erection of a large addition to accommodate the new pump and the new engine. The pump will add one and three quarter million gallons daily to the capacity of the plant, and will insure splendid pressure throughout the city. The new engine is on the ground, and will be installed shortly, as soon as its foundations can be completed. It is capable of generating 350 horse power. Two new basins are under construction, one of them being nearly completed. These basins have a capacity of nine hundred thousand gallons each, a total, with the old basins, of considerably over two million gallons.

Work on all these improvements is being rushed as rapidly as possible and it is the hope of the company to have everything completed and in running order by the middle of next month, at the latest.

Ketchel-O'Brien Bout Tonight.

Philadelphia, Pa. June 9.—Stanley Ketchel and Jack O'Brien weighed in at noon for their six-round bout here tonight. Each tipped the beam at close to 160 pounds, the weight agreed upon. Interest in the contest is at fever heat and a record breaking crowd is expected at the ringside.

O'Brien is regarded as one of the cleverest men in the country at six rounds and his admirers in this city expect him to be able to hold Ketchel off and win on points. Ketchel, on the other hand, is confident he will win. He declares that he will put up a different kind of fight than he did in New York two months ago, when he stopped O'Brien in the tenth round, after the Philadelphian had done nearly all of the fighting in the first half of the bout. Ketchel says he will get after O'Brien from the first round of the gong and in that way he expects to dispose of the Philadelphian before the sixth round is over.
