A Number of Cases Disposed of in District Court Now in Session

District Court convened Monday in Dickens with Judge Milam presiding and Attorney Combest prosecuting. After empaneling and charging the grand jury, the following cases have been tried and disposed of during the week:

City National vs Kennedy et al, action for debt and foreclosure, judgment for plaintiff.

Bryant-Link Co., vs Halls, action for debt and foreclosure, judgment for plaintiff.

Welborn vs Welborn, divorce granted and custody of child awarded to plaintiff.

Martin vs Martin, divorce granted. Keister vs Moore et al, to remove title cloud, judgment for plaintiff.

Collier vs Varley et al, suit to remove cloud from land title, judgment for plaintiff.

Jones et al vs Adams Production Co., to cancel oil lease contract, judgment for plaintiffs.

Farmer vs Johnson, usury, continued on application of plaintiff.

Suit for damages filed by parties injured in the car wrecks which occurred some time ago on the highway when cars ran over the Duck Creek banks where a span of the bridge had been washed out, against the Austin Bridge Co., will be heard later on a plea of privilege.

The criminal docket has been set for hearing Monday, December 7th, there being several cases on the docket.

The grand jury, after three days of deliberations, made report late Wednesday afternoon, reporting the finding of five true bills of indictment, which were turned in to the court and officers for service and trials.

Basket Ball Team Organized at Croton

The Croton basket ball team was organized Monday and elected a captain, Don Perrin. About twenty men reported to Coach Chapman for the initial work-out and great interest is being shown by each man.

With a team built around Captain Perrin, Jones and Thacker, it is thought that Coach Chapman, with the aid Superintendent Gibson, will develop a quintet that will furnish strong competition for any team in the county.—School.

Good and Ross Escape From Penitentiary

Huntsville, Texas, Nov. 30.—Milt Good and Tom Ross, convicted of slaying two inspectors of the Texas and Southwestern Cattle Raisers' Association at Seminole, Gaines County, about eighteen months ago, made a sensational escape, together with two other convicts, from the gray walls of the State penitentiary here at 6 o'clock Sunday evening.

Good, serving a thirty-five-year sentence, slugged a guard with a gun, released Ross, Clarence Whalen and George Arlington, also serving long sentences for robberies committed in Dallas, and, after cutting the chain with which the prison gate was locked, raced to a car which had been parked near the walls by a woman, who is also said to have smuggled the gun into the prison, then sped away in the direction of Navasota.

Good was a hospital steward which had allowed him considerable freedom and had been granted two furloughs recently.

The woman, supposed to have smuggled the pistol and chain-cutting tools into the prison, left a few moments before the break for liberty and waited in a car parked about 300 feet from the gate of the prison.

Good then slugged E. Van Meter, a guard, removed his keys and liberated Tom Ross, Clarence Whalen and George Arlington, three other convicts who were serving long sentences, and the quartet then forced the gate, which was chained. Cutting the chain, they ran to the car occupied by the woman and headed west at a high rate of speed.

No shots were fired at the fleeing prisoners, but bloodhounds were immediately unleashed. They were unable to keep up with the automobile which passed through the town with out attracting undue attention.

Prison guards and citizens were scouring the countryside within half an hour after the break.

The break is said to be the most sensational since 1921, when a number of long-term prisoners made their escape.

H. L. Roberson and W. E. Allison, cattle inspectors, were slain at Seminole, Gaines County, on Easter Sunday of 1922.

The shooting occurred in the lobby of the Seminole Hotel, in the presence of the Sheriff and the District Attorney of that county.

Milt Good first fired with a shotgun and then with a pistol, and Tom Ross used only his pistol, the State alleged. Both Roberson and Allison were killed before they could draw their weapons and defend themselves, according to Dayton Moses, of Fort Worth, attorney for the Texas and Southwestern Raisers' Association in charge of the prosecution at the trial.

The venue was changed from Gaines County to Lubbock, where both men were tried for the murder of Allison. Ross was sentenced to thirty-five years in the penitentiary and Good to twenty-six years at the close of this trial.

The venue was then again changed to Taylor County, where the two men were tried for the murder of Roberson, where Ross was given twenty years and Good twenty-five years.

On appeal of the cases from Abilene the higher court affirmed the finding of the jury and the appeal of the defendants from Lubbock was dismissed.

The killing was one of the most sensational in the history of West Texas as the trials were attended by heavy armed peace officers.

Mrs. Roberson, wife of one of the slain inspectors, on hearing the about

Drillers Arrive to Begin Work on the Pitchfork Oil Test Well

A drilling crew of three men arrived in Spur Tuesday from California to resume drilling operations on the Pitchfork test well for oil. Work has been suspended for some time on this test, pending the settlement and arrangement of details. However, last week Mike Mikels, who has charge of the lease and drilling operations, was in Spur and informed us that he had deposited cash in the Spur banks to assure uninterrupted work in the future and the completion of the test.

With the Pitchfork test again under way, with the Texas Company drilling on the 24 Ranch to the south west of us, and other tests now being arranged for in the immediate Spur territory, insures this section of a thorough test for oil—and we have always said that when a thorough test is made, oil will be encountered and the biggest oil field in Texas developed in this territory.

Married

Information comes to friends and relatives here of the marriage of Miss Oma Eloise Davis to Mr. Roy Eldred Lynn, at Los Angeles, California, on the 26th day of November.

Miss Oma is the daughter of Mr. and Mrs. L. W. Davis, and was born in Dickens county, and although having made her home the past several years in California with her mother, Miss Oma attended school in Spur the past year and was one of the graduating class.

Diversify

J. L. Karr, of Espuela, was trading and transacting business in the city one day during the week.

ing in the lobby of the hotel, had a presentation that her husband was in danger and rushed down to help him, armed with a pistol.

On bursting into the room she beheld Allison and her husband crumpled on the floor and their two slayers backing out of the door with smoking weapons. Mrs. Roberson fired at Ross and her bullet struck him in the stomach, but was deflected by his belt buckle. Then the two men had backed out of the room.

Tom Ross' right name is said to be Phil Loftis. He was born in Mississippi about fifty-three years ago and from the time he was 17 years old lived in Texas and in the Indian Territory. Both Ross and Good were under indictment in the Panhandle on charges of cattle theft, the cases having been worked up by the

Governor Requests Publisher to Resign From Tech College Board

Another surprise if not bitter one was injected into the rising political maelstrom of Texas politics this week when Governor Ferguson requested the resignation of Amon G. Carter, publisher of the Star-Telegram-Record, from the chairmanship of the board of directors of the Texas Technological College at Lubbock, charging drunkenness and disorderly conduct in connection with incident occurring at College Station Thanksgiving Day when the A. & M. and University team played football.

In brief, the charges made by the Governor against Carter are to the effect that at the football game Thanksgiving day Mr. Carter chartered for the A. & M. team and Dan Moody, while in an intoxicated condition.

It was further charged that in December of last year Carter fitted up a building in the old bar room fashion with brass railing and sawdust on the floor, providing a white aproned bar tender to properly serve 200 to 300 patrons at the oil mens association in Fort Worth, and giving as souvenirs of the occasion canes in which there was concealed a vial in which a pint of stimulating beverage reposed.

Mr. Carter, in an open letter to the public, denied these charges and refused to resign as a member of the board of directors of the Tech College, stating that the charges were malicious and unjustified and merely a barrage at this time to hide the real intent and motives that lurk behind it. The real cause of such charges and request at this time is attributed by Mr. Carter to his connection with the Star-Telegram and its publication of a series of articles dealing with developments in the state highway department, making the following statement:

"Time and again men have come to me to indicate that unless I saw fit to adopt a different policy with respect to the highway articles that I would be made to rue the day that first the newspaper of which I am a shareholder began to shed light in dark places and point out to the people the chasm in public finances that yawned at their feet. Nothing can be clearer than the fact that 'Governor Jim' is desperately trying to build a smoke screen to obscure the eyes of the people of Texas so that they may be turned aside from the true version of what has lately taken place in the Highway Department and the efforts of Attorney General Dan Moody to bring to light much that had been hidden from the public knowledge.

It is very evident that political dissensions are growing and widening out over the country, and very probably next year will witness the hottest and bitterest campaign ever waged in Texas. It is also evident that all the presses of the country can not be muzzled either by threats of boycotts or exposure of social entertainment 'sprees,' at least when the honor and principles of our government are in jeopardy. Locally The Texas Spur has been threatened by would-be dictators of the public policy. One of the very best advertisers we ever had came to us and stated to us that if we accepted advertising from a Jew that we could not expect further advertising from him. Another one of the biggest merchants of the town instituted a boycott on us ostensibly because we published an article from a country man derogatory to business methods practiced in the town. We have been fair, square and honest. Other news paper men of the country are to control

J. D. Powell Lets Contract for Brick Business House

Last week J. D. Powell let the contract to J. A. Marsh for the construction of a 25x100 brick business house to be constructed on the lot now occupied by White Swan Cafe on the east side of Burlington Avenue. Work on the building will be commenced on or before the first of the month.

Other bricks are being contemplated and sure to be built later to take the place of present frame buildings, thus insuring continued growth and development in the business section in the beginning of the New Year.

Thanksgiving Program at the Croton School

Croton School held a very entertaining Thanksgiving program at the above school last Wednesday evening, Nov. 25. Program was rendered by the Seventh and Eight grades under the leadership of Mr. H. L. Lovell. After the program was concluded Mr. Lee Mims of our community and Mr. R. B. Jonston of Spur auctioned pies and well filled boxes to the audience. A nice sum of money was raised by this means to help the boys and girls pay for athletic supplies for the term 1925-1926. Both auctioneers did splendid work and kept the crowd laughing and anxious to buy more boxes of good things to eat. A unique plan was used by the school faculty to encourage the young ladies and gentlemen to take an active part in the program. Three prizes were awarded to the young ladies for best arranged and prepared boxes. The following ladies won the prizes: Miss Iona Young, first prize, \$5.00; Miss Lolla Gibson, second prize, \$3.00; Miss Ivy Richey, third prize, \$2.00. The gentlemen received tickets for every dollar spent on boxes. The lucky winners of numbers were as follows: Hon. M. Jones, first prize, \$3.00 cash, but our good sheriff donated the prize to the school; Mr. Willard Wright, second prize, \$2.00 cash; Mr. Orville Lee, third prize, \$1.00 cash.

The whole school desires to thank every one present and especially those who helped to make the program a success.—R. L. Gibson, Supt.

Diversify

Johnson Hunter came down Saturday from his farm home near Seminole, spending some time here on business, meeting with friends and visiting with his parents, Mr. and Mrs. W. S. Hunter. Johnson owns a big farm at Seminole and has been engaged in extensive farming operations. However, we failed to meet with him and get a report on the outcome of this year's crops in that section. Diversify

Mrs. Goss D. Cobb, of Albany, has been spending the week in Spur with her mother, Mrs. Kate Senning, and other friends of the city.

the public that if they acquiesce in such a program by neglecting to stand by and support such newspapers as backbone to express opinions, whether or not such opinions coincide with individual opinions, the country will come to a poor pass if not revolution.

We say to Dan Moody, to turn on the light, and let the Star-Telegram publish the news, regardless of where the chips may fall. What is needed is for the people to know what is going on and then be judges of what actions to take.

The Texas Company Building Derrick for Oil Test on 24 Ranch

A car load of oil well drilling material was hauled out last week, and again Wednesday of this week the derrick material was hauled out to the 24 Ranch where the Texas Company will immediately begin the drilling of an oil test well.

This test well is located near the old ranch house headquarters, four or five miles distant from the test drilled several years ago by McFann and associates. We understand that this test by the Texas Company will be drilled 3,500 feet or deeper if indications warrant a deeper test of that territory.

It is very evident that the big oil companies have their eyes on this territory and are going to test it out. The Texas Company is one of the biggest in the state, and in this test will make very little noise, since they have nothing to sell to the public in raising funds to complete the test.

Farm Organizations Seeking to Help by Near-cuts

J. E. Cherry, of South of Spur, was among the many here trading and transacting business Saturday. Mr. Cherry is at the head of the Dickens County Farm Bureau this year, and the organization is endeavoring to maintain a higher and more legitimate price for the year's crop throughout the country. There is no question but that if all the farmers of the entire country were to combine together on any or all farming problems that their demands whatever they might be would meet with success. However, since all will not join in any movement the success of farming is dependent on the individual business movements and activities of the farmer and we have always contended that growing your own living and living at home, and having only surplus crops to market, will make the farmer independent and the farm a business institution. In other words, organizations for farmers, are taking a "near cut" in obtaining success and independence on the farm.

1,600 Bales to Date at McAdoo Gins

Robt. Nickels, who is operating one of the two gins at McAdoo, was in Spur Wednesday and stated that approximately 1,600 bales had been ginned to date by both gins. Mr. Nickels stated that the cotton situation on the Plains was deplorable and while possibly later in the season a number of bales of bollies would probably be pulled, yet less than 2,000 bales of all grades would reach the gins, whereas in the beginning of the year it was estimated that at least 5,000 bales of high grade cotton would be ginned.

The situation at McAdoo is also the case with other towns throughout the country. Not only the short crops, but the drop in prices is still further depressing to the country.

WOMAN ACCIDENTALLY SHOT BY HUSBAND, DIES AT SLATON

Slaton, Nov. 5.—Mrs. Zula Olga Crumley, 23 years old, was accidentally shot at her home, three miles of Slaton, when a gun in the hands of her husband, Horace Crumley, was accidentally discharged. Mrs. Crumley died Saturday afternoon.

Suppose You Should Become the Dependent!:

Your life insurance will be paid, either to you upon the maturity of your policy, or to your beneficiary or estate upon your death.

BUT, what if you should become accidentally crippled for life; suffer the loss of your eyesight, or legs or arms? Think, man, to become a helpless dependent upon those who are now dependent upon you!

There's now a way to prevent this. Pioneering the way, the United Fidelity Life Insurance Company has provided for just such an emergency by adding a Preferred Risk Accident Rider to its standard life policies. This additional protection pays cash benefits for specific injuries—and costs only a nominal premium.

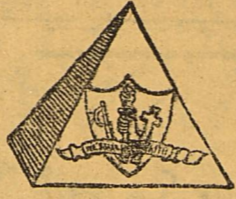

If you have a policy in the United Fidelity, you are doubly fortunate. If you have not, see me immediately and take advantage of this new feature of modern life insurance originated by the United Fidelity.

PUTTING IN 15,000 EGG INCUBATOR

One of the largest modern poultry farms in West Tex. is being located here by S. A. Guy, promoter of the famous Cap Rock Jersey Farm. Guy has thoroughly demonstrated his faith in the Plains and his interest in West Texas, and has served a number of years as director of the West Texas Chamber of Commerce. This a proven poultry raising belt, the climate and conditions being ideal. However, heretofore no large projects along this line have been undertaken. With a large flock of hens, extensive buildings and modern equipment, Guy is laying foundation for a mammoth poultry business.

Two thousand of the 3,000 high grade English White Leghorn hens already purchased have been received; also about half of the large number of trap nests installed. The stock being placed upon this farm is the best to be had, and Guy will be prepared to ship both the baby chicks and eggs for hatching.

Yardage and housing facilities to accommodate 10,000 fowls will be arranged as the business progresses. In connection with his business, Guy expects to install a 15,000 egg electric incubator.—Crosbyton Review.

Our old friend and former citizen of Spur, G. C. Pass and son, Glenn, now of Ralls, were in Spur Friday of last week for a short time. They are now in the cotton buying business on the Plains and we together with other friends are glad to know that they are being prospering.

We have an applicant that wants 200 or 250 acres an halves.—Spur Grain and Coal Company. 3-2tp.

STORM AROUSED BY DENIAL OF A HEAVEN

London.—Echoes of the theological bombshell exploded by Dean Inge of St. Paul's Cathedral with his assertion that there is no place in the astronomical universe for a physical heaven or hell, and that Christ, in consequence, could not have physically ascended into heaven, are still reverberating throughout England.

Criticism ranges from frank approval to bitter condemnation. "If Dean Inge had promulgated some of these doctrines 500 years ago," declared one London Clergyman, "he would have been burned at the stake for heresy. I don't set myself up to be of the intellectual caliber of the dean, but if I believed what he believes I would take myself out of the Church of England."

The Rev. Basil W. B. Matthews of Holy Trinity Church: "The average Church of England priest does not look to Dean Inge for guidance."

"If the dean believes these things," said the Rev. T. P. Stevens of St. Matthew's "he may be a Christian in mind, but he can not call himself a Christian in fact."

On the other hand, the bishop of Manchester views Dean Inge's declarations as "merely a repetition of familiar views" and says that there is a steady tendency toward complete harmony between scientific and theological thought.

Chief of the points raised by Dean Inge in his essay in the book, "Science, Religion and Reality," around which the storm of controversy swirls, are summed up in his phrase that "mummified customs that long have outlasted their usefulness and dogmas that have lost their vitality" must go.

"The discovery that the earth is not the center of a finite

universe, like a dish with a dish cover on it, is a planet revolving around the sun, which is itself only one of a million stars, tore into shreds the Christian map of the universe," he said.

"Until that time the ordinary man, whether educated or uneducated had pictured the sum of things as three-storied building consisting of heaven, the abode of God, the angels and the beautiful spirits; an earth and the infernal regions.

"Most certainly heaven and hell were geological expressions.

"The articles of the creeds, of the descent of Christ into hades and His ascent into heaven affirm no less, and it is obvious that the bodily resurrection of Christ is intimately connected with the bodily ascension. The new cosmography of Copernicus and Galileo thus touched the faith of the creeds very closely. New astronomical knowledge leaves no room for a geological heaven."

By implication the dean would deny the miracles. He says: "If the whole of nature is purposive it is not likely that we can discern

Ben Reddel was down again Wednesday from the McAdoo country with a bale of cotton. However, since prices that day ran all the way from ten to twenty cents, he was considering waiting until the market became more settled before selling.

John T. F. Tallent was here recently from the Galpin country, spending a short time here trading and greeting friends and acquaintances.

special purposes operating particular cases. * * * If the laws of nature are laws of an omnipotent and omniscient Being, we should expect them to act regularly and uniformly."

Other points raised by the dean and which now are the subject of almost unparalleled controversy are:

"The truth is that the great religions—Buddhism, Christianity and Islam—date from the millennium, which ends with the career of Mohammed, and all of them were at their best when they were fresh from the mint. * * *

"It was a shock to many to hear that the human race has developed out of nonhuman ancestors, but the question is only about the methods of creation; Darwinism has inflicted no injury on the Christian faith. * * *

"The future of Christianity as an institution is not a matter of supreme importance. It is even possible to speculate (though I would not go so far myself) as to whether the religion of Christ might not be a greater power in the world if its professional custodians were removed."

Big Travis and Little Travis, two leading citizens and old timers of Ralls, were in Spur last week to attend the football game here between Spur and Ralls. They report everybody optimistic regardless of the cotton calamity which also very materially affected the Ralls country.

Mrs. Arnold Copeland, of Meadows, returned to her home Monday after a short visit with her parents, Mr. and Mrs. W. M. Ledford and Mr. and Mrs. C. D. Copeland of east of Spur. Mrs. Copeland was accompanied home by Misses Lorine Ledford and Adelaide Senning.

Jim Jay, of Girard, was transacting business in Spur Monday of this week, and meeting with his friends and acquaintances here. He reports everything moving along very satisfactorily over in Kent at this time.

Mrs. Frank Goodson returned home last week from Lamesa where she had been in the hospital following an operation by Dr. Standifer.

Pains Very Severe

"I suffered from womanly troubles which grew worse and worse as the months went by," says Mrs. L. H. Cantrell, of R. F. D. 9, Gainesville, Georgia.
"I frequently had very severe pains. These were so bad that I was forced to go to bed and stay there. It seemed to me my back would come in two."

CARDUI For Female Troubles

"I taught school for a while, but my health was so bad I would have to stay out sometimes. This went on till I got so bad I didn't know what to do."
"One day I read about the merits of Cardui, and as I had some friends who had been helped by it, I thought I would try it. I began to get better after I had taken half a bottle. I decided to keep on and give it a thorough trial and I did. I took in all about 12 bottles and now I am perfectly well. I do not suffer any pain and can do all my housework."
At All Druggists' E-110

Joe T. Salem left Monday of this week for Dallas and other market points to purchase goods in restocking his store following the big rush of fall buying of past weeks. The business men of Spur have been doing an unprecedented business this fall, notwithstanding the depression resulting from a short cotton or money crop. We attribute much of the business as a result of extensive and effective advertising in the part of merchants. Advertising not only attracts trade, but the right kind of advertising actually creates more business in any line.

The BULL'S EYE

Editor and General Manager
WILL ROGERS

Another "Bull" Durham advertisement by Will Rogers, Ziegfeld Polka and screen star, and leading American humorist. More coming. Watch for them.

If You Want to Look Like This —Don't Smoke

You are going to be disappointed when you look at the face in this Advertisement. It will be such a shock from the type of Faces you always see in Advertisements. They generally get some Guys face to use in a Collar or Underwear Ad that looks like he was just born for that Ad. You never see him in real life or anything that ever looked like him. These "Bull" Durham people conceived the idea of something new. They felt that you were tired looking at such handsome faces in Ads, it was so discouraging to men who looked at them because they knew they could never look like these fellows themselves. So they wanted a homely face that would be an inspiration to other homely men, (because there is a terrible lot of hard looking Birds among you readers). So after looking the World over they picked on me. I don't smoke "Bull" Durham, so the Moral is IF YOU WILL SMOKE IT, YOU WILL NEVER LOOK LIKE ME. I am the horrible example of a man not using it.

Will Rogers
P. S. There is going to be another piece in this paper soon. Look for it.

THE WONDER LUBRICANT FOR FORDS NEW THRILLS

Everyone enjoys a new sensation that is pleasant. Many have experimented to their own displeasure with the ordinary Ford Oils that saturate the market and solicit the unsuspecting buyer with flashy statements, but if you want the thrill of satisfaction, go to your dealer and demand that your Ford be rejuvenated by filling the crank case with PENNANT 4D OIL.

This is not a quack patent medicine prescription for your Ford ails but is a compounded oil refined after methods most up-to-date, and place on the market by a company in operation continuously for a period of seventy years, only after a most exhaustive and painstaking experiment. A new THRILL awaits you on the first mile of your journey in your Ford car after you have filled the crank case with PENNANT 4D OIL.

Farmer Will Do Light Dairying and Poultry Raising

J. F. Hickman, of the Dry Lake community, called in Wednesday of this week and had his name placed on the Texas Spur subscription list. Mr. Hickman made a crop here the past year, but on account of the early freeze realized a very small income. In fact he stated that on 145 acres of cotton he only would get about fifteen bales of cotton. Another year he has concluded to get four or five good milk cows and a few chickens, and thus be prepared to live regardless of any crop calamity which again may come. A few chickens, hogs and cows will make a living for any family, and when light dairying and poultry raising plans prevail throughout the country we will have here the most prosperous and richest section of America.

IMPROVING COTTON REPORTS

New York Journal of Commerce Word now comes from Washington to the effect that officials of the Department of Agriculture have become convinced that it would be a good thing for them to discontinue bimonthly reports on the condition of the cotton crop, and that they are about to the point of making appropriate recommendations to Congress when it assembles. An exception is apparently to be made of the later months of the season, but in general protests about the frequency of these reports during the last season or two appear to have found response in official quarters. Criticisms of the crop reports of the Department of Agriculture have not been limited to their frequency, moreover, and it may be taken for granted that discussion of the matter this winter in Washington will not be so limited. It is seriously questioned in a good many minds, even in Washington, apparently, whether or not the predictions of the earlier months ought not to be discontinued altogether and some go so far as to suggest that the condition estimates ought to go by the board.

This whole situation, indicating, as it seems to do, that our system of crop reporting, particularly so far as it has to do with the cotton crop, is to be a topic of rather unusual concern this year, would be of much more interest if there were anything in the nature of definite evidence that a well informed and constructive attitude would be adopted by those who control the destinies of the reports in question. It is, however, to a certain extent encouraging at least that in some quarters not heretofore thought to be willing even to consider such a step, belief is growing that the Government ought to go out of the predicting or guessing business altogether. True, there are those still who worry a good deal about what private estimators would do were the Government to desert the field. The most obvious and, incidentally, a most convincing answer to the collection that official reports in more recent years are about as of ten in error in one direction as in the other. In these circumstances it is difficult to understand what protection they give either to the producer or to anyone else.

Neither this excuse nor any other can justify the Government in continuing its reports as they are now constituted. It would be unfortunate if advantage is not taken of the existing state of feeling about crop reports to effect some really constructive reform.

C. A. McClain, who has been in Hot Springs, Arkansas the past several months for his health, returned last week to his home near Spur. We are very glad to note that Mr. McClain has improved in health, and we join his many friends in welcoming him back home.

FOR SALE—Bronze Turkeys for breeding, \$5.00 per head.—Mrs. J. J. Hickman, McAdoo, Texas. 52-6tp.

THE HEADLIGHT LAW

The Texas Automobile Headlight Law requires that every motorist, at the time of registration, present to the Tax Collector a headlight certificate which has been issued by a test station within thirty days of the date of registration. If the car or truck to be registered is not equipped with headlamps, the registrant will be permitted to make affidavit will take the place of a headlight certificate. Early testing and registration will help the test stations and the Tax Collector, and will save time for the motorist.

Motorist cannot obtain a headlight certificate for registration purposes on a re-test. The retest provision of the law permits a retest at any time during the year, but the certificate presented for registration must be a "test" certificate and must be paid for. In other words, headlamps are "tested" at the beginning of each year for registration purposes, and at this time the regular yearly fee of twenty-five cents must be paid. At any time during the year following, a retest may be had free of charge until the next registration period begins.

\$500 OFFERED FOR CONVICTION OF DRY VIOLATORS

Austin, Texas—A reward of \$500 for the arrest and conviction of any person worth more than \$5,000 for violation of the prohibition laws was offered today in a formal proclamation issued by Gov. Miriam A. Ferguson.

The proclamation declared that the enforcement of liquor laws in Texas has become the enforcement of the law against the poor and for the rich.

"If wealthy business men or people can fill their lockers full of liquor and boast in company about how much they have and the brand they have and not be molested, while the penitentiary is being filled with poor devils who have neither friends nor money who have been found guilty of having a pint on their hip or making a little liquor for home consumption, then justice has become a mockery and the law becomes a stench in the nostrils of all law-abiding people," the proclamation declares.

"I am not undertaking to justify the poor in the violation of the law, but I here now call upon all the officers in this State from the bench down to put the same law in force against the rich that is now being put in force against the poor.

"Let our Methodist friends who seem to be so much exercised about the pardon power get busy and help us detect and convict a few of the big highbrows and we will have then shown to the world that in this land of democracy all men, regardless of their wealth or station, are equal before the law.

"If the rich of this country were not patronizing so many bootleggers and aiding and abetting them to violate the law, the bootleggers would have to go out of business for the want of business. If those who are so prone to criticize my administration for lack of enforcement of the liquor laws are sincere in their charge I now tender them an opportunity to join me in the arrest and detection of those who are to be most blamed for violating the liquor laws."

PUT BUSINESS INTO FARMING

"Agriculture is the basis of American prosperity. Its decline means ultimate loss, if not disaster, to industry in general; and it is because of this fact that there is a basis of equity in the demand of the farmers of the country for conditions, through legislation or otherwise, tending to stabilize the industry of agricultural production. The farmer insists that something of a special kind shall be done for his relief. How and in what manner, it is the business of practical statesmanship to find out. And it is a serious business; the country cannot go on prosperously if the farmer is a constant and increasing loser as compared with other factors in the industrial life of the country."—San Francisco Bulletin.

Probably the one thing above all others which the farmer needs is not only a thorough knowledge of farming but a better business training. The electric power companies of the United States, in their programs to take electricity to the farmer, have made a start in the work of training, along business lines.

Electricity on the farm will teach farmers the advantages of power. Power will add to the output of farm labor. As production per man and per acre is increased the farmer will of necessity absorb more businesslike ideas regarding farming. If ten acres under "power production" can be made to produce what 100 acres is now raising, the position of the farmer as a business man will be materially advanced.

Electricity has made the start. Machinery manufacturers and financial institutions must follow suit.

Customers ownership and the sale of stocks and bonds to millions of individuals has been demonstrated a practical method of financing electric light and power companies and other utilities. Why cannot long time mortgage securities on farms be sold to the public in a manner similar to the securities sold on public utility properties. Is it not practical to figure out an easy method for farmers to handle their financial problems over a period of years with small annual payments?

The Bulletin has made a suggestion. It is up to business men, farmers and the statesmen to work out a solution along business lines. It has been done for industry. It can be done for farming.

County Clerk Anderson of Briscoe county came down last week and spent a day in Spur on business and with W. T. Wilson, an old time friend and former business associate. In earlier years W. T. Wilson and Mr. Anderson established and promoted the town of Quitaque up on the Plains stating that at the time a number of lots were sold as low as ten dollars and other given away to get new businesses and town dwellers, and that these same lots were now worth

as high as fifteen hundred and two thousand dollars each. While here, they stayed pretty close together, it is said to keep either from telling anything on the other. Mr. Anderson stated that crops were short in Briscoe county, but that varied agricultural resources would bring the people through stressing times little worse for the experience.

YOU CULTIVATE YOUR MIND, WHY NOT YOUR BODY?

"The sound nutrition of the individual and the community is the foundation of public health," said Sir George Newman, Chief Medical Officer, Ministry of Health and Board of Education of Great Britain.

The American National Red Cross through its highly developed and scientific Nutrition Program is educating old and young in the things to eat and the things not to eat.

Malnutrition is not confined to cities, since statistics concerning physical defects of school children show a greater degree of malnutrition among country children examined than among city children. Nor is malnutrition due to poverty alone. Lack of information and in difference are dominant factors. Marked cases of malnutrition are found among the rich as well as among the poor. In the schools, where attention has been given to the subject, it has been found that from fifteen to fifty per cent of the children, rich and poor alike, are suffering from malnutrition. At the same time medical inspection has shown that a large percentage of the children have physical defects needing attention, many of these being due to faulty nutrition.

The need for well-chosen food does not pass with childhood and youth. The adult who has narrowed his choice of food to a few stereotyped articles, or who boasts that he can "eat anything" may not manifest any of the more definite symptoms of dietary disturbance, but nevertheless the bad results of

Mrs. H. V. Link, of Aspermont, came up to spend Thanksgiving with her parents, Mr. and Mrs. E. L. Smith, and other friends of the city.

Auction Sale of Jersey Cows, Saturday, Dec. 5th, at McArthur Wa-gon Yard, promptly at 12:00 o'clock, Home Raised Cows.

ENTRE NOUS CLUB

A lovely party of the week was that of Thursday evening when the John L. King's opened their lovely new home to the members of the Entre Nous Club and their husbands. Eight tables were most attractively arranged for the "42" hour in the spacious living room suite. At the close of the games a lovely refreshment plate with turkeys as plate flavors was served to Dr. and Mrs. Dan H. Zachry, Dr. and Mrs. Malcolm Brannen, Messrs. and Mesdames Jack Rector, W. D. Wilson, F. W. Jennings, E. C. Edmonds, Rob Davis, Willis King, Sam Nott of Eastland, Hill Perry, Roy L. Harkey, Bill Putman, Mesdames J. M. Foster, W. H. Putman, Goss D. Cobb Albany, Frank Laver by Kate Senning, Pauline Clemmons, B. F. Hale.

George Harris was down Wednesday from McAdoo, requesting that the Texas Spur hereafter be mailed to him at Lubbock where he will soon join his family who have been living there several months.

FOR SALE—Nash car with Rex closures, and balloon tires. Must be sold. Terms if desired. Call at Texas Spur office for further information.

XXV BRIDGE CLUB

A very pretty party was that of Tuesday afternoon when Mrs. Frank Lavery was hostess to her bridge club. At the four tables the Thanksgiving motif was used and was also used in the decorative scheme. Hand painted score pads of unusual attractiveness adorned the tables. At the close of the bridge hour a salad plate was followed by mince pie a la mode with the cream frozen in turkeys with incense burners as plate favors. The guests included Mesdames F. W. Jennings, W. D. Wilson, E. C. Edmonds, C. L. Love, C. A. Love, C. B. Jones, Hill Perry, R. E. Dickson, W. J. Alger, James B. Reed, Kate Senning, Nellie Davis, Floyd Barnett, Bill Putman and Edgar McGee.

Mrs. C. L. Love was a delightful hostess to the Joi de Voi Club and guests on Wednesday evening. Her home was made more beautiful with Christmas decorations.

At bridge, Mrs. Dan H. Zachry made high score, receiving a pair of exquisite chiffon hose. Mrs. E. A. Russell made high score for the guests—an attractively decorated brush holder. Mrs. J. E. Hall received cut prize, beautiful linen handkerchiefs, and Miss Hickman won consolation, soap cubes molded as dice. Perfume in unique dice holders adorned the refreshment plates.

Those who enjoyed the pleasant social hour were Mesdames E. A. Russell, Ruby Pierce, Weldon Grimes, Roy Russell, Cecil Fox, Dan H. Zachry, Faust Collier, Jim Edd Hall, Roy Harkey, Tracy Gorham, Wm. Manning, Malcom H. Brannen, Murray Lea, and Elma Brown; Misses Hickman, Hicklin, Willie Lee Gilbert, Willie Richbourg, Mildred Williams and Dorothy and Ruby Love.

THE FOUNTAIN OF YOUTH

Was of course a myth, but hundreds of men, women and children, who were suffering from bodily afflictions, have found such wonderful relief after coming to the Milling Sanitorium at Mineral Wells, Texas, that they feel that they have really discovered the fountain of youth. WE SPECIALIZE IN CASES WHERE ALL OTHERS FAIL. Below are two testimonials selected from among the hundreds we have in our files, written by people who have been benefited by coming to us:

Sept. 1, 1925.
Five years ago I took treatment from H. H. Milling for Gall Stones. He entirely cured me and I have not been bothered since. I take great pleasure in recommending Dr. Milling and his Sanitorium to any who are sick. I know that he effects cures of all kinds when all others fail. The fact that I have had no further trouble convinces me that his cures are permanent. Any inquiries addressed to me will be answered promptly.
Respectfully,
J. W. CARTER,
Jermyn, Texas

To Whom it May Concern:
I took my little boy to Dr. Milling for paralysis. He could not walk a step when he started to treat him and after he had treated him for a few days he began to walk. I take great pleasure in recommending Dr. Milling and don't think any one will make a mistake in taking treatment from him.
Respectfully,
A. A. DYER,
Olney, Texas.

We will gladly furnish other literature and testimonials concerning our work upon application.

BIRTHDAY PARTY

The birthday party given to Mrs. G. R. Woods by her children on the occasion of her sixty second birthday Friday evening of last week at their home north of Spur, was a most pleasant and enjoyable affair. A birthday cake was prepared and refreshment of cake, pie and chocolate was served. Among those present were Mr. and Mrs. A. C. Hindman, Miss Ruby Ballard, Mr. and Mrs. Gregson and children, Mrs. J. J. Lilly, Mrs. Meadows, son and grandson, the Messrs, Jankins, Misses Gussie Loveman, Lorene Hoover, and all members of the Woods family.

THANKSGIVING ENTERTAINMENT MISS ISBELL

Early candle light on the evening of November the 25th, patrons and friends were invited to the home and school of Mr. and Mrs. Sam L. Graves. Enjoying a social event and splendid school programme with Mrs. Graves as hostess and Miss Isbell as teacher. Combining Japanese lanterns the harvesttime specimens and great numbers of nature's herbs from the Croton valley, the school room was beautifully decorated into one great joy.

A well arranged programme was rendered by the school children. Especially credit is remembered of Noble Parks, Mozelle Parks, and Robbie Afton Graves. Their Thanksgiving recitations and plays will be treasured long in the hearts of friends and help us to be more thankful as we look back on this happy occasion as the years go on and on. Delightful refreshments were served and the entire party was transferred into one of social merriment and games. J. B. Sudbury told a good joke on Miss Isbell the teacher.

Billy Raldo Graves, age 5, on a visit to the school one morning was asked by the teacher, "Billy, what are you going to be when you are educated?"

Billy replied, "Oh! Miss Maud I'll be, I'll be, I'll be an old man."

This is the second year Miss Isbell has been in the Graves home and school as teacher. She has done valuable school work. Miss Lorene Graves and J. B. Sudbury are in her graduating class. Their excellent credits reflect her untiring efforts and capability and will stand the test of any good school in the country.

W. J. Elliott was in the city Wednesday from his Spring Creek Ranch home.

Dickens Items

Mr. Vernon Bradshaw of Turkey, visited relatives and friends in the city Sunday.

Mr. and Mrs. J. B. Speer of Flo-mot were visiting in the city the week end.

Mesdames Elnor Gay, O. Douglass and W. W. Waldrup made a business trip to Lubbock Saturday.

District Court convened Monday with Judge Miam presiding. The grand jury is also in session.

Mr. and Mrs. E. L. Darby and Miss Lena of Ralls, visited at the home of Mr. and Mrs. F. C. Gipson Sunday.

Mr. Martin Koonsman left Saturday for Houston, after spending several days visiting his parents, Mr. and Mrs. J. P. Koonsman.

Mr. J. P. Goen shipped two cars of fat cattle to the Oklahoma City markets the last of the week. Also Messrs. F. C. Gipson and Bug Graves shipped two cars.

Mr. and Mrs. Leo Petty of Guthrie visited in town Thanksgiving.

Grandma Thompson is very sick at this writing. We hope she will be well in a few days.

Mr. and Mrs. D. J. Harkey and Mr. and Mrs. O. Douglass visited in Guthrie Sunday the guest of Mr. and Mrs. Leo Petty.

Grandma Littlefield, who lives 3 miles north of town sold one-half her turkey crop for Thanksgiving, netting \$208. She will sell the other half for the Christmas market. Last year she received \$315 from her turkeys.

O. C. Arthur returned last week from a hunting trip in South Texas.

Elbert Green, Lee Payne and K. H. Kennedy have gone on a hunting trip to the Jeff Davis Mountains.

Mr. and Mrs. O. Douglass left Wednesday for Marble Falls where Mr. Douglass is supervisor over a dam project. We are sorry to have these good people leave us.

Miss Gladys Payne is visiting in Wichita Falls this week.

Miss Bessie Elliott of near Spur visited Miss Anna Lusk Sunday.

Mr. "Red Mud" Lambert of the Pitchfork Ranch east of town, was transacting business in town Saturday.

Mr. and Mrs. D. J. Harkey entertained Thursday evening with a Thanksgiving party in honor of Mr. and Mrs. O. Douglass who left Wednesday for South Texas. "42" was the social event and tallies were of Thanksgiving colors. After several games were played a salad course

was served to the following guests: Messrs. and Mesdames E. L. Harkey, O. Douglass, Leo Petty, M. L. Jones, Misses Elnor Gay, Olive Meadors, Beryl Harkey, Mildred Gipson, and Messrs. Novell Brannen, Earl Bailey, W. W. Waldrup and Red Mud Lam bert.

Britain Forbis, John A. Davis and Dick Davis were among those of Spur who attended the football game between Simmons and Howard Payne Friday of last week. These are two leading teams of the state, Howard Payne carrying off the score honors in this game.

E. J. Lassetter, of west of Spur, was here Wednesday trading with the merchants and on other business.

FORTUNE HINGES ON WILL IN BOX IN MISSING TRUNK

Marshall.—Miss Mary K. Jack of Sheveport was in Marshall Wednesday night making a search for a strong box she claimed is missing from a trunk, which may mean the loss of a fortune if not found by her as it is said by her to contain a will of her stepmother, Mrs. M. A. Jack, who died Sept. 29.

In returning from Denver, where Mrs. Jack was at the time of her death, she avers her trunk was sent to Marshall from the station by mistake.

"Another trunk was sent to us," Miss Jack says. "and when we unpacked it some time later, we found the strong box containing the will and other papers missing.

"We do not know whether the box was taken from the trunk in Denver, Marshall or Sheveport, but it is gone. Mrs. Jack's will is made out to us, for she loved us dearly, but without the will the estate will go to first cousins."

Miss Jack has offered a reward of \$1,000 for the return of the strong box, will and other papers.

'SPEEDSTER' OF COMETS CAUGHT BY SKY PATROL

Cambridge.—The photographic sky patrol maintained at Harvard observatory has caught a "speedster" among comets, according to Prof. Edward S. King of the observatory staff.

Professor King characterized the year 1925 as a remarkable one for comets because of the discovery of five new comets in addition to half a dozen periodic ones scheduled to reappear.

"Two new comets have been discovered in the past week," said Professor King, "and one of them seems a speedster. Six days after its discovery it was observed again nearly one-sixth of the sky vault from the point where it had first been seen. Is it possible that the two objects are one and the same comet?"

"Luckily the photographic sky patrol maintained at Harvard observatory has settled the question. Photographs showed traces of the speeding comet where it would have been expected on two intermediate dates. It must be quite near to us; when the computers shall have done their work we will know how near."

THANKSGIVING DREARY; WIDOW TRIES SUICIDE

Chicago.—While the upper level of the Michigan Boulevard bridge was crowded with holiday strollers and a steady stream of automobiles traffic was passing, Mrs. Pearl Haskins, 35, and a widow, sought relief from a dreary Thanksgiving by jumping from the lower level into the river.

Her leap might have gone unnoticed had not she screamed for help as she struck the water. Traffic was stopped as several hundred people watched policemen rescue the woman.

"I had no money," she told the police. "My husband is dead and I have had a hard time making ends meet. Today was Thanksgiving and I could not get what I wished for my son, Kenneth, whom I left alone in our room."

"I decided to end it all. Now I'm sorry and I want to live."

WOMAN PLEDGES SINGLE LIFE IF NAMED GOVERNOR

Dallas.—Belief that she "can best serve the state as a single unencumbered woman," is expressed by Mrs. Edith Wilmans, Dallas attorney, in a statement Friday in which she defines the issues on which she will make the race for Governor in 1926.

Mrs. Wilmans makes the pledge that, if elected, she will not marry while serving as Governor.

Among the policies advocated by Mrs. Wilmans are: Creation of an advisory board composed of department heads, supplemented by three women whose work in civic and welfare matters is outstanding.

Reduction of numbers of state departments.

No increase in taxes.

Reform of the prison system so criminals would be reformed.

Bar patients from insane institutions when they have relatives able to maintain them in private sanitariums.

Prohibition enforcement, more stringent child labor laws, compulsory school attendance, amendment of the primary law and other changes in the present system of state government.

FRIENDS SAVE HUMAN TORCH FROM DEATH

San Antonio.—Tearing coats and other garments from their bodies, friends extinguished a human torch in the form of Joe Pinn, 21, a Castroville Road resident Thursday.

Racing about a pasture, a living column of flames, it took several minutes before friends could capture and save Pinn from a fiery death.

His clothing became ignited when a gasoline kerosene burner exploded.

According to witnesses, Pinn was burning the spines from the pear plants for cow feed. The tank exploded, drenching his clothing with gasoline.

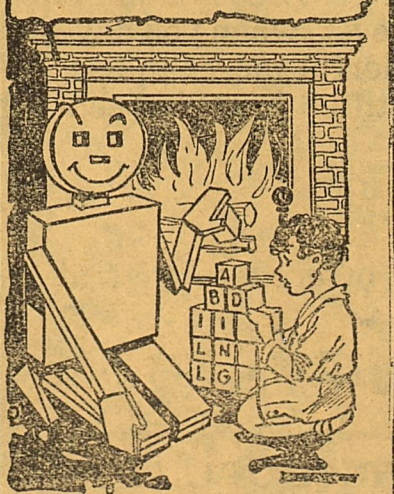

He was taken to a San Antonio hospital. Doctors declared his condition painful and serious, but probably not fatal.

FIRST THE HOME, THEN THE LITTLE RED SCHOOL HOUSE, THEN MORE HOMES. THAT'S UNCLE SAM'S IDEA AND WE ARE PROUD OF IT.

Home-loving people are on the increase. It's becoming the popular American diversion again. And not too soon, either, for life on the wing is getting costly. It will help center the ambitions of your children and aid you in making them better citizens to have a home of your own. We have plans to fit any pocketbook and will be glad to lend you our assistance.

UNREGULATED FOREIGN MONOPOLIES
The people of the United States

have a natural fear of monopolies. But they have learned how to handle, through public regulation, a business which of necessity is a monopoly in a given territory. They have found they can get better public service than can be secured through unregulated competition. As a result, we have our anti-trust laws, public service commissions, interstate commerce commission and "regulated monopolies."

The American telephonic system is a monopoly and electric companies in various sections of the country are monopolies in their own localities. They are giving cheaper and more efficient service to a larger number of people, than telephone and electric light companies in any other part of the world. They are privately operated but subject to public regulation and control. This type of industry and services is in striking contrast to unregulated government monopolies which are authorized by foreign nations.

Commenting on monopolies which are authorized and tolerated by foreign governments not to give better and cheaper service to the consuming public as a result of monopoly, but to return exorbitant profits to the beneficiaries of the monopoly. Secretary of Commerce Hoover in a recent speech at Erie, Pennsylvania, said in regard to foreign monopolies of rubber, coffee, nitrates, potash and other raw materials essential to American industry:

"No unregulated monopoly is ever content with the reasonable, but always seeks to justify the unreasonableness on one ground or another.

Illustrating high-handed practices of foreign monopolies, Secretary Hoover said: "The uniform expression of managers of rubber control in the East Indies up to eight months ago was that the industry sought only for 30 to 35 cents a pound for their product and our investigation showed they could earn about 25 per cent on the capital invested when rubber brings that price. It is today over \$1 per pound and production is still being restricted. It is said that the previous losses of the growers must be recouped. The same might be said of our wheat, cotton, oil and copper producers." A similar situation exists in the coffee monopoly.

No stronger argument could be advanced against unregulated and exclusive public ownership of industries than the facts revealed by Secretary Hoover. Where such conditions exist, the incentive of private initiative to lower costs and give better service, and the protection afforded by duly authorized regulatory bodies to both consumer and producer, are entirely absent. Such a monopoly whether in private hands or under public ownership, is a curse to the consuming public.

We do not want to build up American industry by such methods. We have evolved a far superior

system. Where conditions indicate that competition is not practical in some line of business we need not fear a monopoly, because we have drawn the teeth of monopoly by bringing it under public regulation.

Foreign monopolies such as those commented upon by Secretary Hoover will either bring about their own downfall, correct their unfair practices, or be forced to submit to public regulation.

SHOE FAD MAKES MORTALITY RATE OF SHARKS GROW

London.—Since women started the fashion of wearing shoes made of sharkskin, the mortality rate among the sharks in the Far East has greatly increased.

Scarcely a ship arrives in the Thames from the Orient these days that does not have on board a shipment of sharkskins.

Shark fins, long a delicacy in China, also are being imported into England. The coarse kind of fins are used in making an explosive for blasting purposes. The finer fins produce gelatins used in cooking and which form the basis for numerous soups.

C. C. Cornelius was in the city the other day from his ranch home. Several weeks ago he and family moved from Girard back to their ranch home which he will superintend the coming year.

—Diversify—
Miss Nell Gilley, of Albany, spend the week end in the city the guest of her brother, Marvin Gilley and wife.

Concrete Streets in TEXAS

Mayor Harry Mason of Vernon, Texas, would like to have you come to his town and inspect its concrete streets. He says: "We believe we have the very best."

And Vernon has reason to be proud of its streets. Main Street was concrete paved in 1913. Twelve years have fully demonstrated the economy and durability of concrete. The maintenance cost has been negligible. Any taxpayer in Vernon will tell you that this pavement has paid handsome dividends in satisfaction and service.

Concrete pavement meets the challenge of twentieth century traffic. It is a safe pavement because it is skid-proof. And it is cheapest in the long run because it costs least to maintain.

If you keep these facts in mind, you will make certain that your streets are paved with portland cement concrete.

Our free booklet R-4 gives many interesting facts about concrete streets. Would you like a copy?

Hudson-Essex World's Largest Selling "Sixes"

Quality Gave This Volume and Volume This Price

Quality has made Hudson-Essex for years the world's largest selling 6-cylinder cars. Without such volume, these prices would be impossible. And without increasing quality such volume would never be reached. That is why owners think of Hudson not in terms of the low price paid, but in the costly car qualities, performance and reliability which it continues to give long after price is forgotten.

CAUGHT ROBBING SAFE, TWO MEN AND A WOMAN AT ABILENE

Abilene, Texas, Nov. 30.—Two men and a woman, who were caught by Manager John Victor of the Queen Theater as they were preparing to blow the safe in the theater office Sunday, made their escape by holding Victor at the point of a gun and, in a chase with Officer Poston of the local police force, again escaped when the officer's car blew a tire. Sheriff Biggs of Albany was notified by Chief Burch of Abilene and met the robbers as they approached a bridge just west of Albany. They stopped and signalled for him to come across the bridge. When he came to their car they dashed across the bridge, escaping the officer's fire, which punctured a tire on the car. The safe contained \$1,500 in cash and diamonds. Although officers of all counties to the east were notified, no further trace of the bandits has been reported to local officers.

NOTICE TO CAR OWNERS

License plates for automobiles are due to arrive by January 1st, 1926. Car owners must have a 1926 "right receipt" before registering.—M. L. JONES, Sheriff and Tax Collector.

WOMAN BATTLES ARMY OF SNAKES, 140 KILLED

Fort Lupton, Colo.—Mrs. H. H. Slaughterback, wife of a rancher near here, killed 140 rattlesnakes with a club Thursday in a two-hour battle for her life and that of her 3 year old child. Mrs. Slaughterback said she was riding on horseback thru a pasture on her husband's ranch and was carrying her child. Dismounting to open a gate, she heard the warning rattle and saw a snake nearby. She picked up a stick and killed it.

Immediately a second snake appeared, then a third. They came by twos, threes, fours and finally by the dozen, she said. In a few minutes she was hemmed in by scores of angry serpents, while her baby clung to the horse. Frantically wielding the club, she disposed of the snakes as they came within reach. Mrs. Slaughterback was not bitten. Two ranchers went to the scene and verified Mrs. Slaughterback's story. Photographs also have been taken as evidence of the adventure.

FOR RENT—5-room house with bath on Hill Street. See W. P. Shugart at Spur National Bank.

Auction Sale of Jersey Cows, Saturday, Dec. 5th, at McArthur Wagon Yard, promptly at 12:00 o'clock, Home Raised Cows.

BOX SUPPER AT FOREMAN'S CHAPEL FRIDAY NIGHT DEC. 11

The Methodist ladies of the Spur circuit will give a box supper at Foreman's Chapel Friday night of December 11 and a program will be offered by the young people and others of the community, which promises to be highly entertaining. The public is cordially invited to come and assist these worthy ladies in making this event a success.

Dick Davis and Billie Elliott, who are attending college at Lubbock, came down to spend the week end with relatives and friends. Because the "Tech Iqumousine" in which they traveled refused to further respond to locomotive desires, the boys called for assistance and Mesdames Sol Davis and R. C. Forbis transported them back to the college city Sunday afternoon and remain ing with the boys to Monday morning. All the Spur and Dickens county boys are enthusiastic about the Tech College and are making substantial advancements in school work and making passing grades as reported to us by the dean of the college.

R. L. Gibson made a rushing trip to Dallas, Friday and enjoyed one day at the State Teacher's Convention, returned Sunday very enthusiastic about the school work in general and more determined to make Croton shine as an educational center.

Geo. S. Link, Jr. who is this year attending S. M. U., spent Thanksgiving in Spur with his parents, Mr. and Mrs. Geo. S. Link. Sr. George S. spent his junior college years at Kemper Military School of Booneville, Missouri.

Misses Jewel Moore, Voleta Roberts and DeLois Bumpous, of Rails, visited with friends in Spur Wednesday of last week.

Auction Sale of Jersey Cows, Saturday, Dec. 5th, at McArthur Wagon Yard, promptly at 12:00 o'clock, Home Raised Cows.

Lynn Mayfield, of Jayton, has been spending several days with his grandparents, Mr. and Mrs. T. M. Maples, in Spur.

Mrs. Willard Chapman, of Roaring Springs, visited in Spur Thursday.

R. M. KUTCH DIES IN COURT-HOUSE AT LUBBOCK

Lubbock, Texas.—R. M. Kutch, 60 years old, of Lakeside, Arizona, died here in the basement of the Lubbock County courthouse. Kutch was discovered in a dying condition by D. F. Eaton and John Pierce. He is survived by his wife and a daughter at Lakeside, Arizona, and his brother, J. A. Kutch of Lubbock.

We regret to note that Mrs. L. N. Riter is reported quite ill at their home in the city, and it is hoped that she may soon be recovered.

LOST—30x3 1/2 tire and tube on rim. Return to Texas Spur office for reward.
