

The year 1929 promises to be a banner year in building and development progress.

THE TEXAS SPUR

With natural gas, cheap light and power and abundant water, Spur sits on top of the world.

AND THE DICKENS ITEM

VOLUME NINETEEN

SPUR, DICKENS COUNTY, TEXAS. FRIDAY, APRIL 26, 1929

NUMBER 26

Oil Lease Rentals Are Being Paid Promptly

Mrs. C. I. Cannon was in the city Monday from her ranch home several miles southwest of Spur, and while here was a very pleasant caller at the Texas Spur office, favoring us with the renewal of her subscription for one year, and also a subscription for the Dallas Semi-Weekly News. Mrs. Cannon is one among those of that section who were fortunate in leasing their lands for oil development. Mrs. Cannon stating that her rentals are being paid up promptly each year. It is hoped that more test wells will be drilled in that as well as other sections of this territory—and we are confident that when "the time comes" oil will be brought in.

Spur Is The Wholesale Center of This Territory

W. G. Mayfield, one of the leading business men of Girard, was a business visitor the past week in Spur. Spur has become the wholesale center for practically all of the surrounding towns of the county and here very probably they are offered as attractive prices and inducements as could be had in the larger centers.

Finis Biberry, of Gilpin, was in Spur the first of the week trading and on other business matters. He reports everything o. k. in that part of the great Spur country at this time—with prospects of bumper crops this fall.

Heavy Rains Accompanied by Storms Predicted

E. B. Shaw, of Croton, was on the streets Tuesday. Uncle Eb stated that according to all former weather precedents in this section, we should this week have rain accompanied very probably with high winds and a storm. While up to this date we have had only local rains, general rains are predicted for the future, and the crop prospects now look very promising. Uncle Eb Shaw has been here since before the organization of the county, has always been a close observer of weather conditions—and while other old timers may be somewhat pessimistic concerning the crop year, Uncle Eb thinks this will be one of our most productive years.

Smith and Everts Buy The Spur Service Station

A sale was consummated last week whereby H. O. Everts and Jimmie Smith purchased of Mike Lairson the Spur service station and business, taking charge of the business this week. Mr. Lairson, we understand, has purchased the stock of tires from Orby McCombs and will hereafter be engaged in the wholesale tire business.

Mrs. J. H. Boothe Died Tuesday Night at Their Home Near Spur

Mrs. J. H. Boothe died Tuesday night at twelve o'clock, at their home to the southeast of Spur, her remains being interred Thursday in the Spur cemetery, funeral services being conducted at two o'clock in the afternoon at the Christian Church. Mrs. Boothe had been critically ill for seven weeks before death came to her relief. She was carried to Lubbock for special treatment, and everything possible was done in the hope of relieving her condition, but to no avail. Mr. and Mrs. Boothe have one little daughter, three years of age. The Texas Spur joins friends in extending sympathy to Mr. Boothe's family in this bereavement.

A. Harris, of Dry Lake, was in Spur the past week end, selling and incidentally buying the curries which are not produced on his farm.

Hail Storm Tuesday Afternoon in the McAdoo Country

A hail storm struck the McAdoo community on the Plains Tuesday afternoon late, with the result, it is reported, that not a window light remains in the south side of any building of the town or section covered by the hail, including not only residences but also churches and other buildings, wheat crops also being damaged to a great extent.

It is said that hail stones as large as a man's double fists fell, and that many as large as one fist and weighing as much as two pounds fell.

Men who were out, in fields and elsewhere were forced to seek shelter or be killed by the large hailstones falling—those in the fields turning teams loose and crawling under planters and plows for protection. Many house roofs were damaged. A light shower of rain accompanied the hail, probably amounting to one-fourth of an inch of rainfall. The rainfall was sufficient to bring up the cotton and feed already planted, and give an ideal top season on which to finish the planting of all crops.

Hagins-Wilson Law Suit Being Heard in District Court

The A. J. Hagins and W. T. Wilson law suit was called Monday in District court at Dickens, and evidence is still being heard up to Thursday.

This suit was brought about on charges of changing the course of water in Duck Creek through the Wilson farms, adjoining which is the farm of A. J. Hagins. The case has been in the courts the past seven years, and it is said has gone all the way up to the Supreme Court of the United States, and is back again for rehearing. This case will probably consume the entire week of court, there being a large number of witnesses to be heard.

W. D. Wilson Making Extensive Improvements on Home

W. D. Wilson is now having extensive improvements and additions made on his residence in the north-western part of the city, W. P. Nugent & Son having contracted the work. We understand that a room, sleeping porch and basement heating apparatus will be installed, and the entire residence raised on the foundation.

When completed the Wilson home will be one among the most handsomely appointed homes of the entire city.

West Texas Gas Company It Is Said Will Not Come to Spur

It is said that the West Texas Gas Company, which company was some time ago given a gas franchise in the city of Spur, will not now run their gas pipe lines into Spur, giving as a reason that since it appears an electric light and power fight is brewing, the gas business will not be encouraging. It is very probable that a franchise will be given another gas concern, and possibly before the winter season will have the advantages of gas regardless of the refusal to come on the part of the West Texas Gas Company.

H. O. Albin Bought the Jimmie Smith Apartment House in City

During the week a sale was consummated whereby H. O. Albin purchased of Jimmie Smith his new apartment house in the east part of Spur, the consideration being private but amounting to around five thousand dollars.

D. L. Granberry Will Be Principal of The Eastside School

At a recent meeting of school board of the Spur Independent District, Prof. D. L. Granberry, formerly a teacher in Spur Schools but who this year is Commander of Cadets at the San Marcos College, was employed as principal of the Eastside ward school of Spur, and will be here for the beginning of the next school session.

R. N. Cluck has been reemployed as Superintendent for the next session of school, and very probably most of the assistant teachers have been decided upon for the next year's school.

Mr. and Mrs. Otho L. Hale spent San Jacinto Day in Cisco with their daughter, Miss Annie Mae Hale who is attending college in that city.

Work Begins on Two Story Brick Masonic Structure

A contract was made with W. P. Nugent & Son for the construction of a two story brick building for the Masonic Lodge of Spur, and dirt was broken Thursday morning in laying the foundation for the structure. Brick are now being unloaded on the ground and construction work will be pushed to completion.

The upper story will be especially arranged and fitted for the Masons as a lodge hall, while the lower floor will be used for business purposes. The building will be 25x100 feet, and the front constructed of faced brick, and when completed will be an buildings of the business section, one of the most handsome and modern. The building will be on a lot just north of the West Texas Utilities office on the east side of Burlington Avenue.

Popular Young Couple Married at McAdoo Sunday, April 6th

Miss Hattie Earl Davis, daughter of Mr. and Mrs. Cecil Wyble of Lockwood, and Mrs. L. D. Davis of McAdoo, were united in marriage Sunday, April 6th, at the home of the bride's parents near McAdoo. Mr. and Mrs. Wyble will make their home in Lockwood.

The Texas Spur joins friends in extending congratulations and best wishes to Mr. and Mrs. Wyble.

Orville Parks Suffers Injuries at The New Municipal Plant

Orville Parks was very painfully if not seriously injured last week while working at the new municipal light plant. One of the new engines just installed was being toned up for running. Orville was working near the fly wheel which turned when compression was released, striking Orville on the back.

Miss Flora Garrett Was Critically Injured in Falling From Horse

Miss Flora Garrett, twelve years of age and daughter of Mr. and Mrs. J. W. Garrett of twelve miles southwest of Spur, was very critically injured Monday afternoon late when she was thrown from her saddle horse as the saddle girth broke.

Miss Flora suffered a fractured skull and concussion of the brain. She was brought to the Nichols Sanitarium immediately and later carried to Dickens with the view of going on to the Lubbock Sanitarium for special treatment or an operation.

Mrs. Cooper, of Amarillo, is a guest this week of Mrs. W. D. Wilson.

W. D. Robinson, of west of Spur several miles, was on the streets one day the past week.

Mr. Bowers Will be Local Manager For Barrier Brothers

Mr. Bowers, of Lubbock, is now in Spur as permanent manager of Barrier Brothers of the city, Mr. Rivers having been transferred to the management of Barrier Brothers business at Colorado City. Mr. Bowers will soon move his family to Spur and become identified with the resident citizenship.

New Court House and County Seat Removal Talked

County Commissioner Chas. Perrin was in Spur last week, and in conversation with him he stated that a proposition would be presented to the Commissioners Court for the building of a new court house in Dickens, by the issuance of County Warrants rather than by the issuance of bonds.

Commissioner Perrin was of the opinion that such a proposition would be favored by the Court, since two of the Commissioners and the Judge were from the "north end of the county" and very probably would favor a proposition to build a new court house—since it is needed and necessary in keeping up with the substantial development progress of the county.

The proposition of another county seat removal election is also being talked and considered by people in both the north and south parts of the county. The county seat removal talk has brought forth consideration and calculations as to the possible results of an election, and it has been determined that there are less than forty votes difference in the number of poll taxes issued to voters in the north and the south sections of the county.

It is generally recognized and appreciated on the part of citizens in every section of the county that a new and larger court house is needed. The old court house is said to be unsubstantial, and without doubt it is inadequate to meet the demands and the requirements of a progressive county and people.

Personally, we do not favor going through another county seat removal election, because it engenders sectional strife, creates personal enmities, and is not of sufficient benefit to overbalance the illfeeling and the harmful effects—unless an overwhelming majority of the people should desire and ask for a change in the seat of government.

Large Crowds Attend Methodist Revival

The meeting at the Methodist Church which began Sunday is being attended by large numbers.

The revival began in the Sunday School when the pastor held a decision service in which quite a number came forward and accepted Christ. There was a large audience at the eleven o'clock hour and a fine interest was manifested. At the evening hour the house was filled. The pastor Rev. W. B. Vaughn brought the message at both hours. Services are being held at 10 a. m. and 8 p. m.

The young people are having services in the basement of the church each evening at 7:30. All the young people of the town are invited to attend these meetings.

The Boosters are meeting at 3:30 each afternoon. They are having more than a hundred in these meetings the first afternoons.

One very strong feature of the meeting is the music. A large choir led by Jack Horner and a splendid orchestra led by Paul Smith are delighting the audience with their music.

Another feature of the meeting is that all the services are being directed by the home forces.

The other Churches of the city have dismissed their evening services are attending the services.

All are looking forward to next Sunday as being a great day in the meeting.

The services will continue thru next week.

May 4th is First Saturday Trades Day in City of Dickens

Saturday, May 4th, will be Trades Day in Dickens, and merchants and business interests of the town are doing everything possible to make it a success.

As will be noted by a page advertisement appearing elsewhere in this issue of The Texas Spur, special prices and trade inducements are being offered by merchants and business men in all lines. In addition to mercantile and trade inducements, thirty dollars in cash premiums will be given away in the afternoon, at about four o'clock. Auctioneers will be on the ground to auction off any animal or article which farmers or others may bring to town that day for sale or trade.

The day will be made pleasant and entertaining as well as financially profitable to those who come to Dickens that day and take advantage of the offerings and inducements made by the business interests.

Among the entertaining features of the day will be free moving picture programs throughout the day, and it is being urged that not only the older people come, but also bring the children and make the Trades Day in Dickens one of social pleasures as well as commercial benefit.

Young Yarbrough of McAdoo Killed Saturday in Car Wreck

Young Mr. Yarbrough, of McAdoo, and who worked through the fall at the Moss gin in McAdoo as bookkeeper, was killed last Saturday in an automobile wreck near Fort Worth, living only a short time after the accident.

Mr. Yarbrough was about twenty one years of age, and had two brothers living at McAdoo. His two brothers and one of their wives, accompanied by S. W. Stephenson, started for Fort Worth after hearing of the accident, but upon arriving in Spur on their way they were apprised of the death of young Yarbrough.

Two cars, we understand collided, with the result that Mr. Yarbrough's back was broken.

S. L. Davis Building Concrete Walks and Improving New Home

S. L. Davis is now having concrete walks and curbing constructed around his residence in the west part of the city, recently purchased of M. E. Manning. Other substantial improvements are being made on the place.

Diversified Interests Prosper Farmers of The Country

L. D. Davis, of near McAdoo, was in Spur Tuesday of this week, transacting business affairs and incidentally trading with Spur merchants. Mr. Davis came to this country from Alabama, and is one among the best farmers and citizens of the country. In addition to his 'cotton and maize farming' Mr. Davis also raises chickens and hogs and has a milk cow on the side. It is doubtful if a farmer could get by these days without these diversified interests on the side.

All-Day Singing and Dinner on Ground At Red Mud

W. H. Smith was in Spur Friday afternoon from his farm home in the Reed Mud section. He informed us that an all-day singing and dinner on the ground would be had at the Red Mud church Sunday, and a very pleasant occasion and profitable program was anticipated. The Red Mud people know how to entertain and make it pleasant for visitors, and no doubt Sunday was made a most enjoyable occasion for visitors as well as the home people of that section.

Revised Course of Study Proposed for Spur High School

As the Spur schools grows, so must the field of work or the course of study grow. This session Vocational Agriculture was added; for next year the course of study, it is hoped, will include Home Economics (two years), third-year Spanish, Commercial work (both typewriting and bookkeeping, general science in the eighth grade, and chemistry (alternated with physics.) These courses, with thru credits in agriculture, will make Spur High School have twenty-five credits.

One can see immediately that these additional courses will make our course of study a very practical one. A course is practical when it can be used immediately in everyday living. These courses will meet the needs of the community, which supports the schools. In this plan there might be possible three routes to graduation. Those students in science might take those courses alone; those interested in history or social sciences follow those courses; those interested in farming take courses pertaining to field alone. These routes may be followed in addition to a certain amount of required work. Under the present plan there are no elections for the students, every course is required for graduation. It is a confirmed fact that more than thirty affiliated schools within a radius of a hundred miles of Spur, have a broader course of study than Spur Schools; and the Spur enrollment exceeds any one of these by a wide margin.

Why haven't these courses been offered previously? This question, no doubt arises in the minds of everybody interested in the growth of Spur Schools. There are two reasons; first, it is not a good business principle to branch out the courses in a school when the school has deficit of \$14,000, as our school had two years ago; second, and a very obvious reason, there was lack of room for accommodation of these courses. Now that the deficit has been taken care of and new building added, the school is in position to enlarge the course of study.

Is there any sane reason why a boy should have to specialize in Spanish or science when he intends to farm at the end of the year? A similar question could be formed in regard to the other courses. Under the proposed plan, if a boy wants to study pharmacy in later years, he has the elementary foundation courses offered to him in his own high school by the additional science courses. Another example might be mentioned here—the student who is interested in the business world, for him there will be courses in typewriting, bookkeeping and business English. In a later edition of the paper the immediate values of these courses will be given.

The students of this community crave these courses. Proof of this was easily observed last September at the opening of school. For the first time Vocational Agriculture was offered. The number had to be limited to forty-four—every boy in high school wanted the course and half had to be turned away to await another year. This same condition will exist when these other new courses are added next year.

The Home Economics course, Vocational Agriculture, and typewriting will be open not only to the students in high school but also to the people in the town and community, if there is room for them. If the classes are over-crowded a night school will be opened, if necessary.

These courses which we hope will be added, will be very valuable to the Spur community for statistics show that twenty-five per cent more boys and girls stay in school the full year where these courses are offered than do in schools where only literary work is given.

R. N. CLUCK, Supt. of Schools.

W. C. Garrett, who has been living in New Mexico, was in the Spur country the past week, visiting with his friends and looking after his farm and ranch property interests. Mr. Garrett returned the first of the week to his New Mexico home.

The Big Swing Is To THE CHALLENGER

Hear the radio program of the "Hudson-Exesx Challengers" every Friday evening

It Challenges Your Interest in These Important Ways

EASY TO BUY

FOR INSTANCE, in this city your first payment, with your present car included, may be as low as \$295 and your monthly payments \$52.45

Your present car will probably cover the entire first payment. The H. M. C. Purchase Plan offers the lowest terms available on the balance.

EASY TO OWN

On our own streets Essex the Challenger, under competent observation, averaged 20 miles per gallon. The average owner in this city can expect 18 to 20 miles and upward. Hundreds of records all over the country during "Challenger Week" prove Essex economy. Commercial users operating large fleets of Essex cars say that service and maintenance costs covering millions of miles of operation, are lowest of any car ever tested.

The buying public has picked Essex the Challenger as the greatest value of 1929. They are giving it the biggest business even Essex has ever known. By thousands they are trading in other makes for the great Essex value. Never before has public approval been so near universal.

A Wide Choice of Colors at No Extra Cost

The variety is so great you have almost individual distinction. Here is a BIG adult-size "Six"—fine to look at—roomy and comfortable—built as strongly as any car at any price. Upholstery and appointments are rich and handsome. There is such a wide variety of colors, that no matter what your choice you have almost individual distinction.

A SUPER-SIX motor—challenging up to 70 miles an hour—60 miles an hour, hour after hour—in get-

way it challenges any car at any price—it challenges all in climbing hills.

Hydraulic shock absorbers are standard—they do not cost one cent extra. The same with radiator shutters, air cleaner, windshield wiper, safety lock, chromium-plated cow lamp. Add up for yourself the extras Essex offers to added cost and you will see about \$100 in extra value in those items alone.

\$695

SPUR HARDWARE & FURNITURE COMPANY

"Spur's Oldest Store"

J. Frank Smith, of the city, was among those who this week favored us with a renewal subscription to the Texas Spur, and for which he has our most sincere thanks. This has been one month we have been pushed to the 'nth hole in both work and finances, and every dollar looks like cart-wheels to us.

Mr. Remington and family moved last week to Spur and will hereafter make this city their permanent home. Mr. Remington will be manager of both the Lyric and Spur Theatres in future, he and associates having just purchased both shows. We are very glad to have Mr. Remington and family as resident citizens of the city, and also identified with the business as well as social activities of Spur.

Tol Merrim, of the Twin Wells community to the south of Spur, was on the streets Saturday with the crowds here that day. Tol Merrim was one among the very earliest settlers of the country, and is today one of the best and most highly respected citizens.

J. H. Reynolds, of Dickens, was in Spur Thursday.

Uncle Bill Perry, who is now farming in the Highway community, was in the city Saturday. He informed us that he had all of his lands plowed and prepared for planting, with the hope and expectation of bumper harvests this fall. Here is hoping Uncle Bill not only makes bumper crops but that he is favored with highest market prices for all his products.

Judge H. A. C. Brummett, of the city of Dickens, was among the number of business visitors in the city during the week. Judge Brummett is giving his time and attention these days to the cattle business. The Judge not only buys for the present but the future.

C. W. Fincher, a leading citizen of the Girard country, was in Spur Monday, trading transacting other business and meeting up with his friends and acquaintances for this section. Mr. Fincher reports everything in fairly good shape and promising at this time throughout Kent county.

J. T. Williams, of a few miles east of Spur was in the city Saturday.

A JOINT RESOLUTION
proposing an amendment to the Constitution of the State of Texas providing for a Supreme Court of nine members and for continuous session of that Court.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 and 3 of Article 5 of the Constitution of the State of Texas be amended so as to hereafter read as follows:

"Article 5. Section 2. The Supreme Court shall consist of a Chief Justice and eight Associate Justices, any five of whom shall constitute a quorum, and the concurrence of five shall be necessary to a decision of a case; in other matters, until otherwise provided by Law, the jurisdiction of the Court shall be exercised under such regulations and orders as the Court by a majority vote may prescribe. No person shall be eligible to the office of Chief Justice or Associate Justice of the Supreme Court unless he be, at the time of his election, a citizen of the United States and of this State and unless he shall have attained the age of thirty years, and shall have been practicing lawyer or a judge of a court, or such lawyer and judge together at least seven years. Said Chief Justice and Associate Justice shall be elected by the qualified voters of the State at a general election shall hold their offices six years, or until their successors are elected and qualified, and shall receive such compensation as may be provided by law. In case of a vacancy in the office of Chief Justice of the Supreme Court, the Governor shall fill the vacancy until the next general election for State officers, and at such general election the vacancy for the unexpired term shall be filled by election by the qualified voters of the State. The Judges of the Supreme Court who may be in office at the time this amendment takes effect shall continue in office until the expiration of their term of office under the present Constitution, and until their successors are elected and qualified. When this amendment takes effect, the Governor shall immediately appoint six additional Associate Justices of the Supreme Court for term of office so that the terms of two of such appointed Associate Justices shall expire with the term of office of each of the present members of the Supreme Court, and upon the qualification of such new Justices, the Commission of Appeals of the State of Texas shall terminate."

"Article V. Section 3. The Supreme Court shall have appellate jurisdiction only except as herein specified, which shall be co-extensive with the limits of the State. Its appellate jurisdiction shall extend to questions of law arising in cases of which the Courts of Civil Appeals have appellate jurisdiction under such restrictions and regulations as the Legislature may prescribe. Until otherwise provided by law, the appellate jurisdiction of the Supreme Court shall extend to questions of law arising in the cases in the Courts of Civil Appeals in which the Judges of any Court of Civil Appeals may disagree or where the several Courts of Civil Appeals may hold differently on the same question of law, or where a Statute of the State is held void, and shall extend to such other questions as may be within the Courts Appellate Jurisdiction under the Statutes of the State in force when this amendment takes effect. The Supreme Court and the Justices thereof shall have power to issue writs of habeas corpus, as may be prescribed by Law, and under such regulations may be prescribed by Law, the said Court and the Justices thereof may issue the writs of mandamus, procedendo, certiorari and such other writs, as may be necessary to enforce its jurisdiction. The Legislature may confer original jurisdiction on the Supreme Court to issue writs of quo warranto and mandamus in such cases as may be specified, except as against the Governor of the State.

The Supreme Court shall have power, upon affidavit or otherwise as by the Court may be determined, to ascertain such matters of fact as may be necessary to the proper exercise of its jurisdiction. The Supreme Court shall be open at all times and shall sit at the State Capital for the transaction of business at such times as may be designated by the Court.

The Supreme Court shall appoint a clerk, who shall give bond in such manner as is now or may hereafter, be required by law, and he may hold his office for four years and shall be subject to removal by said Court for good cause entered of record on the Minutes of said Court who shall receive such compensation.

Sec. 2. Said proposed Constitutional amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State on Tuesday, July 16, 1929, at which election each voter opposing said proposed amendment shall scratch off of the ballot with a pen or pencil the following words printed on said ballot: "For the amendment to the State Constitution providing for a Supreme Court of nine members, and for continuous session of that Court." and each voter favoring said proposed amendment shall scratch off the ballot in the same manner the following words printed on said ballot: "Against the amendment to the State Constitution providing for a Supreme Court of nine members, and for continuous session of that Court." If it appears from the returns of said election that a majority of the voters cast are in favor of said amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published and said election held as provided by the Constitution and Laws of this State.

Sec. 4. The sum of five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary is hereby appropriated out of the State Treasury to pay for the expenses of said publication and election.

Approved February 19, 1929.
(A Correct Copy)

JANE Y. McCALLUM,
Secretary of State.

A JOINT RESOLUTION
proposing an amendment to Section 5 of Article 4 of the Constitution of the State of Texas fixing the salary of the Governor; providing for its submission to the voters of the State of Texas as required by the Constitution, and making appropriation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 5 of Article 4 of the Constitution of the State of Texas be so amended as to hereafter read as follows:
"Section 5. The Governor shall at stated times, receive as compensation for his services an annual salary of Ten Thousand Dollars and no more, and shall have the use and occupation of the Governor's Mansion, fixtures and furniture; provided that this amendment, shall not become effective until the third Tuesday in January, 1931."

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on July 16, 1929, a which election all voters favoring said proposed amendment shall write or have printed on their ballots the words: "For the amendment to the Constitution of the State of Texas fixing the salary of the Governor." And those voters opposing said amendment shall write or have printed on their ballots the words: "Against the amendment to the Constitution of the State of Texas fixing the salary of the Governor."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and to have same published as required by the Constitution for amendments thereto.

Sec. 4. The sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated to pay the expense of such publication and election.

Approved March 19, 1929. (A Correct Copy.)

W. F. Cathey, of near Dickens, was in the city Saturday.

Mrs. Orwin Lambert and Miss Eola Lambert, of east of Dickens and the Pitchfork Ranch, were shopping in the city Tuesday afternoon of this week.

Mace Hunter, of four or five miles east of Spur, was on the streets Tuesday afternoon, meeting with his friends and also trading with the merchants.

J. W. Hickman, of near the city to the west, was among the crowds on the streets Saturday of the past week. Mr. Hickman had little to say, but had an optimistic appearance.

J. I. Greer was on the streets among the Saturday crowds. He reports everything in ship-shape on the Lone Oak Farm and Ranch at this time, with good moisture and promising crop prospects.

Milton Smith, an old timer and leading citizen of his section of the Red Mud country, was among the large number of business visitors in Spur Saturday.

Mr. and Mrs. A. Lollar, of east of Spur, were among the many in Spur Saturday shopping and visiting among their friends.

Watch Spur Grow
D. D. Hagins, of the Duck Creek

community, was among the large number here trading Saturday of the past week.

A. W. Watson, of just east of the city, was in Spur Saturday meeting with his friends.

H. B. Lewis, of Croton, was here Thursday for well machine repairs.

Watch Spur Grow
Manager Rivers, of Barrier Bros., made a business trip Thursday to Lubbock.

Watch Spur Grow
Miss Elliot, accompanied by the Misses Fannie Brasuel, Opal Smith and Edna Bilberry, who are attending Normal College at Canyon, spent the past week end here with home would continue their normal courses folks. Miss Elliot stated that they the full nine months of the term, returning Monday to Canyon to resume their studies.

W. B. Ford, a leading citizen of the Watson community, was among the business visitors in Spur the first of the week. He reports everything o. k. in the Watson or Kalgary community at this time.

J. P. Simmons, we are sorry to note, has this week been suffering from his old operation wound, and now fears that the wound must be lanced for his relief.

Look Over Our House Plans
In the varied array of plans you will be certain to find a house that exactly fits your needs. And when you have decided upon the plan you like, we can tell you to a dollar just what the materials will cost. Stop in any time and look them over.

John D. Hufstetler, of Dockum Valley, was in the city Tuesday of this week, transacting business and meeting with his friends.

J. M. Hahn, of Highway, was in Spur Tuesday afternoon of this week meeting his friends here that day. Jim refuses to make any predictions or comments concerning the weather or crop possibilities.

T. S. Lambert, of the old Draper section of country, was transacting business in Spur Tuesday of this week.

J. E. Sparks, of west of Spur, was among the business visitors in the city during the week. Mr. Sparks is another one of the old timers and early day settlers of this country, and since agricultural development, has become one of the most successful and prosperous diversified farmers.

W. J. Elliot was on the streets Saturday from his Spring Creek Ranch to the southwest of Spur. He reports everything in promising condition at this time.

Tom McArthur came in Saturday from his farm and ranch, spending the week end in town with his family who are here for the school.

Bill McArthur, of west of Spur, came in Saturday and spent the day here meeting with his many friends and old time acquaintances of the country.

M. W. Dickinson, of Lubbock, and game warden of this district, spent the week end with his brother, of the Plunge-In Tourist Camp. Mr. Dickinson, although game warden and enforcer of the game laws of the country, is a most pleasant gentleman.

H. P. Edwards and family, of McAadoo, returned Sunday from the State of Oklahoma where he visited with relatives. His sister, Mrs. W. T. Munger of Lampasas, who has McAadoo, accompanied them to Oklahoma visiting with the family at home for a more extended visit in that country.

L. M. Lay, of McAadoo and now head of the McAadoo Mercantile Company, was a business visitor in Spur the past week. For some time before the retirement of H. P. Edwards, Mr. Lay was with the company, and in assuming ownership and management was familiar with the business and trade and now enjoys an uninterrupted and favored business.

J. B. Morrison and J. H. Biggs, Jr., were pleasant callers last week at the Texas Spur office. Mr. Biggs had been here on account of the death of his father, spending several days with Mr. Morrison and family. Mr. Biggs left Saturday for his home in Galveston, having the Texas Spur come to his address. Mr. Biggs expressed his heart felt appreciation of the friends his father had here, stating that he would always have a warm place in his heart for Spur and the Spur people.

Mr. and Mrs. Tom Cross and Miss Nichols, of the Cross School District, were in Spur Saturday. Miss Nichols is teaching the Cross school, and is very much appreciated by patrons of that district.

Edgar Fisher, of west of Spur, was in the city Saturday. He reported that his section last week had a nice shower of rain, accompanied by a small hail storm. However, the hail did little damage while the rain was a great pacifier.

Prof. R. P. Bell, of the Prairie Chapel School, was among the business visitors in Spur Saturday of the past week.

Albert Power, a leading citizen and a noted Half and Half cotton grower and producer, was among

the number of business visitors in Spur Saturday.

Mr. and Mrs. White Moore, of six miles west of Spur, were in the city Saturday shopping. While here Mr. Moore favored us with a renewal subscription to both the Texas Spur and the Dallas News—two of the leading papers of the United States.

J. M. Robertson, of Afton, was in Spur Saturday, and during our absence from the office called in and left a check for three dollars for two years subscription to the Texas Spur. We not only acknowledge receipt of the three dollars, but extend our appreciation of the favor and consideration extended us.

J. R. Rogers, of the old Draper settlement, was one among the many business visitors in Spur during the week. Mr. Rogers reports every thing now in good shape and very promising of bumper crops this coming fall.

J. H. Hooper, of Twin Wells, was in town this week. He last week had a calf from one of the Circle Bulls and since the cow was not registered he is not permitted to register the calf—notwithstanding the fact that the cow was "subject to registration." However, he has just a good calf as if it were registered.

George and Ward Harris, two leading citizens of McAadoo, were in Spur the first of the week. They were here taking advantage of the trad offerings and also meeting with their friends.

Mr. and Mrs. M. S. Faver, of the Prairie Chapel community, east of Afton, were in Spur Tuesday visiting with Mrs. M. E. Gilpin, and also shopping with Spur merchants. Mr. Faver, we are sorry to note, has been in ill health the past several weeks, and we sincerely hope that he may soon again enjoy good health—and we are confident that he will if he adopts the prescription we gave him.

D. H. Sullivan and wife returned Wednesday from a trip to Ferris, Dallas and other Eastern points. Mr. Sullivan stated that he had visited towns from here to Corpus Christi and that it could be safely stated that Spur is the best town in the state. In returning it had rained all along the line to Aspermont—and they witnessed the storm which killed a number of people Wednesday.

Mr. and Mrs. W. R. Stafford made a trip Sunday to Meadows, up on the Plains.

Ed Fuqua of the Cat Fish section of country, was in town Monday.

W. G. Causey was in town Monday, transacting business affairs and greeting friends.

WHAT FIVE GOOD COWS WILL DO ON THE FARM

Much has been said and written concerning the advisability of keeping a few good cows on every farm. General statements advising such a course are more or less effective, but a more definite illustration recently set forth by a country banker, is given more convincingly:

He declared that if each farmer in his county had five good cows, and sold the milk or cream which they produced, the cash returns would do these things in a year:

Pay the farmer's state and county taxes.

Pay his automobile license and buy two new tires.

Provide a \$40 kitchen cabinet, a \$50 sewing machine and a \$40 suite of furniture for the farm home, and school books for the children.

Clothe a farm family of five persons.

Buy \$50 worth of paint for the farm buildings.

Besides doing all these, the fertilizer produced would increase the soil fertility of the farm, and the farmer would in addition have all his calves for sale or for keeping to augment his herd.

In most communities any farmer who has a good reputation for honesty and industry can borrow the money, if necessary, with which to buy his five cows because bankers are generally glad to encourage the introduction of more dairy cows, into their territory.—Italy News-Herald.

The little child of Mr and Mrs. Eric Ousley has been critically ill, suffering of some character of throat gland trouble, the throat being lanced the first of the week. It is hoped the child will now recover.

Mr. and Mrs. W. A. Harris, of near Dickens, were shopping in the city Saturday.

CARD OF THANKS

I cannot fully express my appreciation for the kindnesses shown me while I was a patient at the Nichols Sanitarium. I want to especially thank Dr. Nichols; Dr. Morris and Mrs. Johnson.

I have been a patient at Dallas, Temple El Paso, and other places, and will say I had rather have Dr. Nichols and Dr. Morris as doctors, and Mrs. Johnson as a nurse than any I have ever met. They also have a prize in Miss Crosland, and both sweet as can be and real nurses.

I want to thank the W. M. S. and others for flowers and pot plants they were like a ray of sunshine.

At any time I can lend a helping hand to anyone; just say the word. May God bless you.—Mrs. Lewis Rickels, Husband and Son.

SELECTING A WIFE

Young men like to think that they select their wives; it carter to their vanity. But actually, it is often the wives who do the selecting. For example: A girl decides she wants a certain chap for her husband—and she sets out to get him. He may be willing, or he may not, but girls have a way of knowing how to win over the reluctant male, and in the end he usually succumbs.

But there are young men who really do select their wives, and it is to them that this little talk is directed.

The are man standards of course by which the ideal wife can be measured; tastes vary. But there are also certain innate qualities in one who must possess in order to be a good wife to any man. And these are among them.

First of all, she must possess a splendidly vigorous body. The more vivacious she is the better your chance for marital happiness.

She should be a natural, wholesome vivacious girl, who will be honest and above-board in her dealings with you. The painted sexy little vamp is not one to choose for your life partner; she is usually a fair-weather friend.

She should love you for what you are and not for what you have. She should have a background of wholesome family life in which she has learned to respect the rights of others along with selfishness and loyalty. And she must have reverence for its divine associations.

"Handsome is as handsome does," is a trite old saying, but like many old sayings it has its foundation in truth. Beautifully molded features while pleasant to look upon, are not all important because the implacable march of Time changes them. But a beautifully molded character lasts as long as the spirit is in the body. And no character can be called beautiful that does not count among its dearest possessions a finest of moral principals.

In choosing your wife, it must be remembered that you are also choos-

REPUTATIONS

Just as walls are built by laying brick upon brick, so are good reputations made by repeated services that are satisfactory to our patrons.

As near perfect service as humanly possible, is the aim of the West Texas Utilities Company. We are proud of the fact that we are rendering this sort of service to 110 cities, towns and communities in West Texas.

Three major generating stations, and fifteen auxiliary plants insure our customers uninterrupted service day and night. Through a net work of more than 2,000 miles of transmission lines we have available 70,000 horsepower of electrical energy to turn the wheels of industry, light the home and office and operate scores of labor saving electrical appliances.

FARM NOTES

E. L. Tanner, County Agent Dickens County

The champion terracer of Dickens county is undoubtedly Ben Marshall who lives at Wilson Draw. Ben attended a two-day terracing school on January 16 and 17. He immediately got busy. Put an ad in the papers that he was in the terracing business for the rest of the season. He was in the office the other day and reported that he had just run lines on a field that brought his total acreage for the year up to 2,986. All that was done in just 90 days. There are several youngsters in the county that will be heard from another year.

Thirty-eight dollars per week from 14 cows in sweet cream checks is not so bad. That is what Hugh Gray is doing. He says it is only a sideline with him but that he as to have them. He lives three miles north west of Spur and runs about four hundred acres. He knows how to keep the profits on the farm. He is putting in forty acres of alfalfa. Ten acres of this is in right away and the other this fall. He broke all this land in August with a sulky plow and mules as deep as they could plow. He is going to sow acres now by double disking light harrowing once with a section row; then broadcast and cover harrow in with section harrow other way. His other thirty acres he says he will probably let out and keep it cultivated. Now is something that might make folks rub their eyes. Hugh is planting sixty-five acres of Sorghum for his cows and calves. His comment on this is that he is to be sure he has enough pasture. He has thirty-five acres of pasture and will plant 40 of wheat this fall in case he the season. This wheat will be late sorghum planted in July. He says that he does not care whether sorghum heads out as he believes it makes better feed when it does not head out. He wants lushness and says that came from the heads sure makes the feed.

Edward Hicks is a youngster who is going to make the club boys run for the money. He has a sow pig and is a pig club member. He is feeding skim milk.

P. A. Ramsey who has a farm down on Duck Creek below Spur was in the other day. Mr. Ramsey is interested in finding out what fertilizer will do for his creek bottom. He is going to use some cotton seed meal this season as a side dressing, also probably some ammonium sulphate. He is going to find out what kind if any is what he needs. That is the only way and he is wise in the way he is going about it. The best chemists on earth can not tell a man what kind and how much fertilizer to use. He can analyze a soil and give you general directions as to what you should try and about the amounts and then it is up to you to find out by the try-and-find method. In the older states all this has been worked out years ago.

Another man figuring on alfalfa for this fall, is C. R. Bennett of Gilpin. Mr. Bennett has ten acres he thinks is good alfalfa land and he is going to try it this fall. It is sod and he intends to put in this year and get the crop off as early as possible this fall.

The high rolling sandy land two miles west of Elton is going to get a trial of sweet clover for pasture this spring. B. F. Simmons is planting two acres in two foot rows for his cows. That is one of the best types of soil to grow clover on. I have seen it growing in Jones Co. on every type of soil from blow shinnery to tight clays. Sweet clover is adapted to more soil and climatic conditions than any other plant known to man. The main thing is to get it put on a row and give it two to three cultivations the first year to get it out of the weeds. It is considered practically blot free in the great dairy sections where they use clover for pasture and alfalfa for hay.

Up in Duncan Flat lives E. A. Glynn who bought a registered cow in the first car brought in last fall. Mr. Glynn was lucky enough to get a fine heifer calf; unlucky enough to lose his cow soon after unlucky enough to get one of the three cows in which we have had any trouble with the papers; and good natured enough to wait 'til now to get them straight. Little things like this will happen in the best of families

and as all papers were guaranteed at time of the sale in Dallas we have not been worried. Just had to keep on as the American Jersey Cattle Club guaranteed them.

Eats Big Steak and Fried Onions—No Gas

"Every time I ate I had terrible stomach gas. Now, thanks to Adlerika, I eat steak and fried onions and feel fine."—Mrs. J. Julian.

Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you.

SPUR DRUG STORE
HIGHWAY ENGINEER HAS ARRIVED

Mr. J. S. Harrison, engineer from the State Highway Department, arrived in Crosbyton Saturday and an office was furnished him in the court house. He left for a few days

and will return to Crosbyton this week to take up the work on Highway No. 53, which is to be paved from Crosbyton to the Dickens Co. line. He is also engineer on the Spur to Dickens.

In conversation with Judge Hutchins, Mr. Harrison said he would be here for a year and a half on the two jobs.

Mr. Harrison returned to Crosbyton Wednesday evening and will be permanently located here.—Review.

AMERICAN LEGION AND AUXILIARY MEET IN JOINT SOCIAL

Members of the American Legion and Auxiliary met at 8 P. M. last Thursday evening for a jolly good time.

After an hour of entertainment a delightful refreshment plate was served to at least one hundred guests.

Those who took part on the program were, Robert Glasgow, Billie Gruben, Sammie McGee, Winnifred Gower, Iva Sheppard, Julia Mae Albin, and Mrs. Dan H. Zachry.

After this program inspirational addresses were given by Rev. A. G. Abbott, Prof. Paul Smith, Post Adj.

A. C. Burleson, and Auxiliary Chairman Mrs. Edgar McGee.

The American Legion has a site on which to build a Legion hall and citizens of Spur may expect to see this beautiful hall under construction in the near future.

All persons who are eligible for membership to either of these organizations are urged to join, help shoulder responsibilities and share our helpful Get-to-Gether meetings.

\$1785 buys the
Champion Car of the World
Studebaker's
PRESIDENT EIGHT

THE PRESIDENT STRAIGHT EIGHT BROUGHAM, 135-inch wheelbase—six wire wheels and trunk standard equipment, \$2350.
THE PRESIDENT EIGHT SEDAN, 125-inch wheelbase, \$1785. Prices at the factory. Bumpers and spare tires extra.

NEVER has universal prestige come so swiftly to a motor car as to Studebaker's President Eight . . . and never was prestige so richly merited.

Merely to create a single car capable of The President's heroic feat of speeding 30,000 miles in 26,326 minutes, would be a triumph. To design and produce in quantity and at The President's One-Price price, motor cars so uniformly excellent that four of them could be picked blindly from the assembly lines by impartial officials, who disassembled, checked and certified them as regular factory production cars in every particular, then re-assembled and sealed them, to start and finish a steady grind of 20 days and 19 nights at 64 to 68 miles per hour average—that is an epic!

What wonder that this magnificent President Eight, styled in youthful, vigorous beauty, cradled in ball-bearing comfort, should have outsold every other eight in the world within six months after its introduction!

Have you seen The President? Have you driven it? If you have, and if you seek a car in The President's price class, then no other motor car will ever wholly satisfy you.

ORAN McCLURE, Publisher.

WORK IS THE GREATEST SOURCE OF HAPPINESS

It is well to bear in mind that one of the greatest sources of human happiness is work. And this is a truth that could be more widely learned to advantage.

Too many follow the rule that the more work they can avoid the greater their happiness.

There is no true happiness in an idle life. Waste of time is a form of thriftlessness that is as destructive of rightful pleasure as waste of money or waste of health.

Work alone brings happiness, because work is creative and upbuilding.

All the instincts of the human race which have been responsible for humanity's development have found their fulfillment only in work.

In every realm of man's activities whether it be spiritual, mental or physical human experience has shown that progress alone has come through work.

This does not mean that there is no rightful place in life for play, or that diversion is not in accordance with good thrift. It is a matter of common sense, that life cannot be made up entirely of labor. There would be little if any progress in a material way under such a condition, and, in the finer things of life, there would be absence of all development.

You cannot transform a man into a machine and get human results. But, within the average routine of life, work brings the most satisfying happiness—work that is right, upbuilding and helpful.

Do not allow an ambition for idleness to spring up in your heart. Wasting time, never, under any circumstances, can bring lasting joy. It is not dissimilar to every other unthrifty practice.

Happiness through work is one of the fundamentals that can be continually counted on. It is a splendid type of true, constructive thrift.

A BIRTHDAY SURPRISE

One of the most complete surprises Mr. D. R. Stokes, our townsman, ever received during his seventy-three years of his life was experienced the tenth day of April the occasion being that of his birthday.

On the previous day, his nephew, county near Anson came, bringing P. S. Thorton, and wife of Jones a nice big turkey, already prepared for the event. However, the turkey was not presented to Mr. Stokes, but slipped into the kitchen, and as Mr. and Mrs. Thorton frequently drive up for a short visit, nothing unusually seemed to be suspected.

While Mr. Stokes was making his customary round in town during the afternoon, the turkey was being roasted.

The next morning much chatting and bustling about occurred, and

Worried Night after Night as health declined

"I SUFFERED frequently from nervous headaches, and I could not sleep well," says Mrs. Cora Dover, R. F. D. 2, Hickory Grove, S. C. "I was thin and pale. I was so weak I could scarcely walk. I tried several remedies which were suggested, but nothing seemed to help me. Night after night I worried because I could see I was going down-hill. I had my children to look after, and I was afraid of what would become of them if anything happened to me."

"I began to take Cardui on the recommendation of a friend. It wasn't long until I was beginning to pick up. My strength gradually began to return. I rested better at night and was less nervous. I took several bottles of Cardui, and when I had finished taking it I was in fine health."

Spring Showing of General Motors Cars.

This week, throughout America, the public is viewing the newest models of General Motors products. Check and mail the coupon below. It will bring this Spring Showing into your own home.

CHEVROLET—Last year the public bought more than 1,000,000 Chevrolets. This enabled Chevrolet and General Motors to effect one of the most remarkable feats in industrial history: almost overnight, Chevrolet was changed from a 4-cylinder car to a Six in the price range of the four. The new Chevrolet Six is new in every respect: smoother, more powerful, and luxurious bodies by Fisher. 7 models—\$525 to \$725

OAKLAND—General Motors' policy of continuous improvement is nowhere more noticeable than in the new models of the Oakland All-American Six. The distinctive style and advanced engineering principles which Oakland represents have made it a center of unusual public interest at automobile shows. All-American in name, the new Oakland is All-American in its qualities of speed, snap, power and stamina. Fisher makes the bodies. 8 models—\$1145 to \$1375

BUICK—This famous member of the General Motors family, year after year, has given increasing value. Over 2,000,000 Buicks have been built and sold and of this total 1,500,000 are still serving their owners. The new Silver Anniversary Buick, with masterpiece Bodies by Fisher, comes in three wheel-base lengths. All are powered by the Buick Valve-in-Head engine, which is vibrationless beyond belief. 19 models—\$1195 to \$2145

PONTIAC—Since General Motors introduced the Pontiac Six three years ago, its sales have practically doubled each year. Now General Motors offers, in the new Pontiac, a "Big Six," at the same base price. It has big-car power, big-car performance and big-car luxury in the Bodies by Fisher. It is appealing particularly to families which are "stepping up" in car ownership. 7 models—\$745 to \$895

VIKING—There was demand for an 8-cylinder car of General Motors quality in the medium price field. General Motors chose Oldsmobile to design and build the new car, and three years were spent in its development and test. The result was revealed last month in the Viking, the latest member of the General Motors family. Viking has the world-famous 90-degree V-type engine and Fisher's newest creations in bodies. 3 models—\$1595

LASALLE—When General Motors introduced LaSalle, two years ago, it set a style which was widely copied both in America and Europe. The new models are as distinguished as the first. Built by Cadillac, LaSalle enjoys the same mechanical excellence: 90-degree V-type engine of 8 cylinders; transmission that permits gear shifting without noise or clashing at any speed. The bodies, by Fisher and Fleetwood, offer a choice of colors to express individuality. 14 models—\$2295 to \$4900

OLDSMOBILE—General Motors took this long-established car and remade it to provide a fine car at low price. Last year the value of Oldsmobile was so marked that the public bought over 50 per cent more than the year before. The new Oldsmobile models, with Bodies by Fisher, offer still further improvements—and the prices have been reduced! Oldsmobile also has new Special and De Luxe models, with extra features, at slightly higher prices. 7 models—\$875 to \$1035

CADILLAC—What more can be said of Cadillac? For twenty-five years the world's standard of comparison in the fine car field. The choice of kings, presidents and leaders of business and society in every country. To the unparalleled performance of Cadillac's 90-degree V-type 8-cylinder engine has been added the silent transmission and many new advances in design. Your choice of colors in bodies by Fisher and Fleetwood. 25 models—\$3295 to \$7000

about eleven-thirty J. S. and Miss Georgie Thorton, another nephew and a niece, arrived from Stanford—much to Mr. Stokes surprise.

A little later, friends and neighbors began to flock in, and one of the most enjoyable occasions of the season was participated in by his two sisters, Mrs. M. S. Thorton and Miss Petie Stokes, two nephews, P. S. and P. S. Thorton, two nieces, Misses May Bell and George Thorton, Mrs. P. S. Thorton, Miss Legg, Mrs. Fite and Messrs. L. N. Ritter, S. I. Powell and Jim Keller.

Before the birthday dinner was served to the above mentioned, a number of pretty and useful presents were presented to Mr. Stokes, and a jolly time generally enjoyed. The trick of surprising Mr. Stokes

was perhaps the best feature of the event, as he is noted for his quick wit and keen observation—an old associate having predicted that it could not be done.

S. C. Thomas, of the Gilpin section of country, was here Monday on business matters.

WATSON GINNED 1869 BALES

A Pinkerton, owner of the Watson gin, stated Saturday that he had ginned 1896 bales this season. At Wake, where he owns half interest, they have ginned 1450 bales for the season. Awaiting a little further crop developments for the year, Mr. Pinkerton expects to build another gin.

He spoke very favorable for the present crop outlook and said it looked more favorable at this season of the year than he had ever seen it.—Crosbyton Review.

Watch Spur Grow—RED TOP CLUB NEWS

Mrs. W. G. Henson was hostess to the club April 15th. The lesson was on "Garment Fitting and Altering patterns."

Roll call—"My Problem in Fitting."

Miss Osborn's Demonstration was how to take a plain pattern and alter to fit different types of persons. Mrs. Fuqua reported on the visit, she, Bessie Fuqua and Mrs. Rhodes made with the Verbena Club, the previous week.

Verbena is in Garza County and this is Garza's first year to have a Home Demonstration Agent. Miss Maxwell the Agent is a very enthusiastic Demonstrator, and the club—20 in number—seemed very interested in their work. On this day

they had the same lesson on garment fitting and it was a very important lesson to them as Garza Co. is going to have the Clothing Contest in June. Each Club member is going to make a tailored dress of gingham or prints, and on a certain day, not set yet. They will wear these dresses to Post where they will be judged and prizes given for the best work.

The Singer sewing machine agent was helping the ladies by giving two days demonstration on using machine attachments. This struck us as a great help for very few women ever learn to use all the attachments successfully. Besides the good derived from the lesson, these ladies visited Mrs. J. A. Bird and her flower garden. Mrs. Bird has almost every flower that grows, coast to Canada and was generous

enough to give them a lot of bulbs and plants to beautify their yards.—Reporter.

Stretching Daylight For Greater Egg Yield

If the hens of this country ever manage to start a union, there is little doubt as to what will cause the first strike. The ever growing practice of using artificial lights in henhouses cannot fail to excite the ire of walking delegates and a demand for shorter hours is sure to follow. However that may be, there is no denying the amazing effectiveness of artificial lighting or turning on bright lights in poultry houses to lengthen the day during the fall and winter when the days are short. It not infrequently increases the winter egg yield from 25 to 50 per cent with a corresponding increase in profits.

It is doubtful whether lighting causes a material increase, if any, in a fowls total egg yield for the year. There is no question, however, about its causing a decided increase just when an increase is most profitable. There seems to be some misconception about what artificial lighting really accomplishes as such expressions as "making hens work overtime" will show.

A hen eats primarily to keep her own body in proper condition. Certain elements called carbohydrates go into the fatty portion of her body in proper condition. Certain elements called proteins make up the lean or muscular tissues, while mineral elements such as lime and calcium keep the bony framework or skeleton in repair. When enough food has been eaten to take care of the hen's body any surplus, if of the proper ingredients, is converted into eggs. The carbohydrates then become the egg white, the proteins become yolks, and the minerals make up the shell. Plainly, therefore, the more a hen eats of the proper food in excess of what is needed to maintain a healthy body the more eggs she will lay. Of course, this cannot continue indefinitely, as there is a natural limit to the hen's ability to continue and digest food.

Understanding this theory of egg production makes it much easier to comprehend what artificial lighting really does and how. Naturally, after daylight is over the hen can no longer see her scratch grains and ashes. Having no incentive for exercising she does the only other thing she can do, goes to sleep. That artificial illumination does, therefore, is to provide light so the hen can eat and exercise before natural daylight comes. More feeding naturally means more eggs if the materials are supplied. Furthermore, there is doubtlessly some truth in the theory that the hen inherited from her original tropic ancestors a digestive system which is tuned to day and nights of equal length. In the tropics where domestic fowls originated, days and nights are naturally about equal. In temperate regions, however, days are much shorter during fall and winter than nights, so that fowls are only enjoying the advantages of artificial lights are forced to endure unnaturally long waits between feeding times. The use of proper artificial light lengthens the effective feeding time of fowls can take advantage of their feeding time. It also eliminates the discomfort of over long waits between feedings.

Under the best results, houses should be lighted as brightly as possible by day. For this purpose, artificial lights are so far superior to other kinds that I hesitate to suggest that anything else can be used. In a number of cases where not close to regular electric lines have installed individual lights and soon paid for them by their increased profits. In one house, 16 to 18 feet deep, a watt bulb every ten feet is needed, but in deeper houses a row is needed.

The most favored time to light is at 4:30 a. m. and the lights should remain on until natural daylight reaches full strength. However, a growing tendency is to turn up from 6 a. m. to full daylight and again in the evening at 7 p. m. This provides a 14 hour day and is undoubtedly convenient when automatic control of lights is not possible. Whether or not the latter time is more effective as the other can be decided by further experience.

When lights are turned on, the hens come down from the roosts and begin eating the food that has been scattered on the floor. Drinking and often drinking. Some poultrymen turn on lights for a time both in the morning and evening, but I prefer to turn them on at about 4:30 a. m. and let them run until day-

Whatever system is used, be sure that the light is directed on the scratching floor and it should be bright enough so the hens can see every particle of food material. It will help considerably if the interiors of artificially lighted houses are whitewashed or painted white.

When electric lights are used, they not only require very little attention, but usually costs less to operate than any other system. Furthermore, they may be so arranged that lights are automatically switched on and off at the proper times—a wonderful convenience. Although the value of artificial lighting may be questioned when electricity cannot be had, I think there is no question when electricity cannot be had, I think there is no question but what it is of decided value if electric lighting is used. Certainly, unless the cost of current is exorbitant, a tidy profit is almost sure to result by boosting egg production when prices are at their peak.

GUARANTY WITH USED CARS IS OAKLAND PLAN

Pontiac, Mich., April 26.—Another progressive step recently taken by a prominent automobile manufacturer toward better business methods in the merchandising of used cars, came to light here today when the Oakland Motor Car company announced adoption of a national policy under which all Oakland-Pontiac dealers will be asked to furnish a written guarantee with all reconditioned used cars.

Under terms of the guaranty,

parts are furnished free to replace any found defective during the first 750 miles of driving, provided the mileage is run up within thirty days after the sale. The car also may be returned within 48 hours after the purchase if it proves unsatisfactory and the full purchase price applied to any other car, new or used, of equal or greater value in the dealer's stocks.

A written guaranty printed on lithographed bond paper is issued by the dealer to the purchaser at the time of the sale, while all cars carrying the guaranty also have a windshield sticker on which is printed, "Reconditioned Guaranteed Good Will Used Car."

The object of the new plan, according to M. L. Buck, manager of the used car department, is to provide the purchaser with concrete evidence of the good faith of the dealer who makes the sale.

MATADOR MAN IS A DEALER IN SNAKES

Matador, Tex.—Cecil Fulkerson of Matador has the distinction of being the only snake dealer in Motley county. During an afternoon recently he motored to the Matador Ranch pasture, about twelve miles northeast of Matador, and after an hour returned with sixteen large rattlesnakes. The largest one was about six feet in length and had sixteen rattlers. Mr. Fulkerson says he has a market for all live rattlesnakes and intends to catch hundreds of them this spring. The afternoon's work will net him something more than \$40.

SPUR BOY HONORED AT TECH COLLEGE

Laska Jay Hudson of Spur, Texas, made the honor roll for the winter term at Texas Technological College with a B average.

Buster Robinson, of four or five miles west of Spur, was on the streets one day the first of the week. Buster states that he has been staying close in at home the past several weeks, getting his farm lands in shape for planting, and that when he does come to town he has to slip out the back way from the field. That section has had rains and is in promising condition for bumper crops.

J. P. Middleton, of Lubbock, was in Spur the past week, spending several days here looking after his business and property interests of this section.

Gene Roberts, son of John Roberts formerly of Spur but now of the Plains country, is in Spur with a view of establishing a business here soon.

C. E. Austin, was on the streets Tuesday of this week, transacting business affairs and greeting his numerous acquaintances of the town and country. Charlie has been for some time building water tanks for the surrounding ranch interests, and states that he realizes more money and profits in this line than in that of farming.

C. R. Bennett, a leading citizen of the Gilpin country and one of the 'old timers' here, was trading and transacting business in Spur the first of the week.

Rev. Bilberry, of the Dickens section, was in Spur the first of the week, meeting with his friends and acquaintances.

Luther Karr, of Espuela, was in town the past week end. Mr. Karr came here in the early part of Spur, and is one of our best fixed citizens and farmers.

THE THREE MUSKETEERS

They had many glorious and successful adventures together, guided always by the motto "One for all and all for one."

A romantic expression of the spirit of cooperation—a spirit that always leads to achievement.

It is in this spirit we wish to regulate all our relations with our depositors and the citizens of this territory.

An Oklahoma Mother Says:

"BLACK-DRAUGHT is a fine medicine to give to children. I use it for mine whenever I need to give them a laxative. They don't mind taking it when I make it into a tea, and it quickly relieves constipation and the bad symptoms which come from it. I can recommend it to other mothers, for I have found it useful in my home."

"When I was a child my mother gave it to me whenever I complained of not feeling well. I have always taken it for upset stomach and constipation. It is about the only medicine I have to take. A few doses of Black-Draught, now and then, keep my system in order. My husband takes it, too. I hardly see how I could keep house without Black-Draught. It has become a standby with us, in keeping the children and ourselves well."—Mrs. Luther Brassfield, Claremore, Okla.

VIKING SKIMS MORE CLOSELY

It is possible with the Viking straight disc separator to use a small, light weight bowl, which secures more capacity with less discs and skims more closely. All the discs discharge the cream in the center column, and up and through the cream outlet. The skim milk is thrown out and up over the cream disc, and is discharged through the skim-milk outlet. The bowl is the very best Swedish steel and is encased in a bowl shell, pressed from one piece of metal—therefore unsurpassed for solidity and durability.

Mrs. D. G. Hisey Making Improvements on Residence in City

Mrs. D. G. Hisey is having extensive improvements made on her home in the west part of the city. One room is being added to the residence, the sleeping porch is being glassed in, and awnings and other items of improvement being made on the home.

It is remarkable the amount and extent of building and improvement progress now under way, not only in Spur but throughout the entire country.

GIRARD NEWS

Mrs. Eskie Baker, and Mrs. Pansy Curly of McKinney, Texas have been visiting their parents, Mr. and Mrs. Kerley this week.

Miss Elsie Clark spent the week end visiting with Miss Gracie Westfall at Red Hill.

Mr. U. Ramsey has purchased himself a real good looking sport model Ford roadster.

Mr. George Spradling and sister accompanied by Miss Lois Langford and Mr. Hugh Turner spent the week end in Flomot.

Clairemont ball boys came over Monday afternoon, and played us a game of ball. The scores were 14 and 3 in favor of Girard.

Mr. Ralph Noble whom has been in Meadow, Texas for some time has returned home.

The citizens of the community met Wednesday to see about getting a county demonstration agent. The vote in favor of the agent was 100 per cent. Refreshments were served to those present, and all had a very nice time.

Mr. V. Ramsey's sister of Breckenridge is visiting in Girard this week.

Mr. and Mrs. Glen Huls have purchased themselves a new Ford coupe.

Those that went to the District meet at Abilene returned home Saturday night, and Sunday. Clayton Simmons won third place in Senior boys declamations, and J. T. Stephens won third place in Junior boys.

Misses Ruby Coury, and Mervine Lewis of Jayton were in Girard for a short while Wednesday evening.

Messers Harry Burkett, Sam Hagens, and Jimmy Biby were in Girard Sunday.

Mrs. George Willis had the misfortune of being kicked by a mule this week, breaking one of her fingers, and bruising her arm badly.

The Girard school girls organized two baseball teams, these were called the "Bulldogs," and "Wildcats," they were organized the 25 day of March and have been playing a series of games, they played the final game on April 22. The Wildcats won the most scores which were 125 to 127. Lois Langford broke the record by running 29 scores. She was a Bulldog.

The two leading Wildcats were Irene Boland and Grace Langford, during the four weeks they ran 24 scores each. Girard says after this month of hard work they think that she has the best all around sportsmanship in the West. Now for reward the losing team are going to entertain the winning team.

Mrs. W. M. Perrin of the Croton country, was in Spur Monday and Tuesday, visiting with friends and attending the Methodist Conference in session here the two days.

Notice to Parents

At a regular meeting of the Spur Board of Education, Tuesday night, April 26, 1929, the following order was passed.

The Kindergarten was abolished, but all who will be in Sept. 1, 1929 will be permitted to attend the public school by paying four dollars per month.

This was done for two reasons: First, we feel like it would be a more satisfactory plan for the coming year and second, next Sept. year, all six year olds will be scholastics. Thus the above plan gives the Board a chance to see what additional planning, etc., will be necessary a year before the six year olds will be accepted in the fall.

Will the parents of all children who will be six years by Sept 1st, and who intend to send them next year, please notify Supt. Cluck at

once in order that he may make his plans for room, additional teaching force, and all that may be necessary depending on the number of pupils.—Supt. School Board.

Dennis Harkey, abstractor of the city of Dickens, was in Spur the past week end. Dennis stated that notwithstanding the general air of depression, he had been kept busy making abstracts and looking after his office duties the past month. It is surprising just how business keeps going—just at a time when every body thinks it should be dull—and yet it is crowding.

A. M. Hoover, of South of Spur, was transacting business and trading

in Spur the past week. Gene Bass, of McAdoo, was in the city the past week end. Mr. Bass says the wheat on the Plains is looking good, but that it is going to need some rain. However, since that time the McAdoo country has had a small amount of rain and a big hail storm, the hail damaging the wheat and the rain giving it moisture to come out again.

Judge F. C. Gibson, of Dickens, was in Spur Monday for a short time transacting business and meeting with friends.

—Watch Spur Grow—
H. C. Eldredge, of McAdoo, was among the business visitors in Spur the past week.
