What's the Use

Of having a good doctor to write the prescription if the druggist doesn't fill it properly? It's just as important to have a good druggist as it is to have a good doctor, and therefore, people should be equally discriminating in their selection of a druggist as a doctor.

A Man Who Knows

pure drugs from the other kind is in charge of our prescription department, consequently prescriptions filled by us contain only the purest drugs obtainable. This, together with our care and accuracy, makes every bottle of medicine that goes out of our store absolutely reliable. It contains just what the doctor orders in its purest form, and in just the right proportions when filled at

STARVATION IN ZAPATA COUNTY.

Former Reports are Confirmed—Immediate Help in the Way of Food Necessary.

San Antonio, Tex., Aug. 25th.—Reports to-day from Zapata county are harrowing and confirm former news that the poorer classes there are facing starvation. They must have immediate help in the way of food or the results will be terrible. Range water has failed and cattle, too weak to travel, are dying rapidly. The country is literally burned up by the drouth, there being nothing green to be seen except cactus plants.

Zapata county is fifty miles from the nearest railroad, and whatever in the way of food that is sent to the famine stricken people must be hauled from Laredo in wagons, a two days trip at best.

Mayor Hicks of this city has started a relief movement and has already sent a small sum of money to Laredo to be used in buying food for the sufferers, but what he has sent is hardly "a drop in the bucket." Relief work will be continued here.

Nothing has been heard from the war department in answer to the request for rations sent by Congressman Kleberg, but it may be that he has heard from the request at Cuero, where he went yesterday.

The Excursion.

There were three train loads of excursionists to Beaumont yesterday—one leaving at 7 o'clock with six coaches, the regular at 8 o'clock and another with seven coaches at 10 o'clock. The latter came through from Shreveport. Over three hundred tickets were sold at Nacogdoches.

Those who went from here report a moderately pleasant trip, made without incident or

accident except that the train was rocked and shot into last night at a mill below Rockland. An old man was hit on the head with a rock or a railroad spike and pretty badly hurt, and it is reported that some negroes were killed, but the latter report is not authentic.

The base ball game between Nacogdoches and Beaumont resulted in the defeat of Nacogdoches by a score of 6 to 4. A splendid game was played and the Nacogdoches boys did credit to themselves ever though they did not win.

From Linn Platt.

LINN FLAT, Aug. 24.—Dry weather and sorry crops is all the cry throughout this section.

A singing school has just closed at Flat Woods. All had a good time; there were several visitors present the last day. The following got first grades: Messrs. C. H. Beard and Charles Madden; Misses Lena Paine, Inez Williamson and Etta Duck, and three prizes were awarded, which were taken in by Mr. C. H. Beard, Misses Jessie Birdwell and Ora Paine.

There was a big ball game today between Linn Flat and Nat, which resulted 18 to 37 in favor of Linn Flat. This evening Nat refused to play out the game in the first nine and it was given in 9 to 0 in favor of Linn Flat.

Mr. Herbert Brewer, of Georgetown, and Mr. John Green, of Duncan, I. T., are visiting relatives and friends here now.

Health good, except some sore eyes.

SCRUB.

Everybody interested in the Old Stone graveyard, are requested to meet there, Thursday, September 5, 1901, for the purpose of cleaning the graveyard up.

FOUR MEN

And a number of People More or Less.

It is reported that two negroes and two white men were killed below Rockland last night as the last excursion train was passing a saw mill on its return to Nacogdoches. It is given as a fact that the two negroes were killed outright, but it is not certain as to the white men. One negro was killed while shooting into one of the coaches, and the other was killed while throwing missiles through the windows. A number of people were more or less injured, so the report goes. THE SENTINEL is not in position to authenticate these reports, and only gives them as statements heard on the streets.

Oil Talk.

Mr. Sam J. Thomas, who has charge of the well boring outfit at Chireno, was in the city today and informed THE SENTINEL that the well at Chireno had reached the depth of about two hundred and fifty feet, and that so far three oil stratas had been passed, one flowing at the rate of five barrels a day. Oil was first struck at 109 feet. Mr. Thomas is confident that he will make a rich strike before he goes much deeper, though it is possible he may have to pull up and start a new well. He says the first boring is always under greatest difficulties and disadvantages and that after one well is completed other wells can be sunk with better assurance of success because of knowledge acquired from experimenting with the first.

It is reported that work has been suspended on the Toliver well, although it is said that oil enough has run out of the well to cover the Angelina river three miles.

Terrific Spouter.

News was received by telephone this afternoon that another spouter had come in at Beaumont in a storm. It came forth with such force that the casing was blown out, the derrick destroyed and two men were killed, and that the flow of oil cannot be stopped.

R. W. HALTOM, Editor.

PEOPLE ought to be more careful in signing petitions. It is not the best every time to sign a paper just because a friend asks you to.

SHALL we do something toward making an effort to secure the girl's industrial school or shall we sit still and watch some enterprising town pluck the plum?

Both Week has purchased the Nacogdoches Watchman, the paper established by Senator Stewart as an advocate of free silver. The Watchman at present is published at Alexandria, Va.

THE Texas Press Association has got up another jaunt, and will go on a big excursion to Salt Lake City and nearly every where else west, during September. Sorry THE SENTINEL can neither go nor send a hand.

THE Lufkin Tribune will soon be on foot again and out in a brilliant new dress. Editor Daniels has ordered a complete new outfit, including a Babcock "Reliance" press and within a month's time will be independent of his neighbors. In the meantime he will print his paper in THE SENTINEL office.

THE local schools will open the second Monday in September. Are we going to put our shoulder to the wheel and push it along or are we going to follow our old habits of pulling back and throwing obstacles in the way? We have secured the services of the very best teachers and principals and seemingly are about to start out under a new and better system. Let us maintain it to the full extent of our "skill and ability."

THE negro who outraged and murdered Miss Caldwell, near Whitesboro several days ago, was captured over in the Indian Territory and was burned at the stake by a mob of five thousand people. The negro confessed the crime, giving the details of his horrible deed. Lynchings do not seem to check such crimes, but they bring swift, sure and just punishment, and until the courts and juries begin to do their duty more promptly, Judge Lynch will continue to take charge of such cases.

WHAT are we going to do about the postoffice any way? We see that some of the Eastenders are signing a petition to move it as far out toward Douglass as possible. There are several places offered, but there is a move on foot, with good prospects of success, to get it moved down on West Main street. An offer has been made by Mrs. B. F. Thompson to erect a postoffice building between Wettermark's bank and Lucas & Burk's store and have it completed in three weeks, and as the matter looks at present her proposition will be accepted, and East Main street will be in the predicament of a boy that has let a bird get away.

TOO MUCH CASH.

The Henderson Times talks squarely to the point in the following:

The failure of the First National bank at Austin and its default to the State of several hundred thousand dollars, will awaken public opinion to the fact a large amount of surplus money in the public treasury is a dangerous thing. The democratic doctrine demands that no more money is gathered from the people than is absolutely necessary to pay the expenses of an economically administered government.

A surplus in the treasury is always a menace to good government and good morals. It is a constant temptation to the designing money-maker. He is continually devising ways and means by which or through which he can get it into his own hands. It is stated that the bank officials of the said defunct bank are the bondsmen of the state treasurer. Kind offices are bestowed in many to catch the bird that lays the golden egg. State Treasurer Robbins is no doubt an honest man, but he is not impervious to the designs of his friends. And it is but just to say that the designs of his friends were unacquainted with the thought of corruption. They expected to use the State's money for profits and to return the last cent of it. The only guarantee against the loss of the people's money is to have all of it in their own hands except just enough to run the government. Some cold night the people of Texas will be startled with the revelation that their immense permanent school fund will be gone. There it is—millions of it—idle, tempting all the schemers in the land, while the honest people are at home sweating out more school taxes every year. Common sense, common decency, common honesty, and a just sense of preserving the morals of the State, all demand that enough of it be transferred to the available school fund to run the schools until it is exhausted before taxing the people for money. It will go some day, and like the three or four hundred thousand that went the other day, it will go, perhaps, without any one being guilty of fraud in the sense that the law will be outraged.

A BOAT four thousand years old has been brought to New York from Egypt. The motive of those who brought it over is not known, but perhaps they expect to hold it until Uncle Sam gets into another war and then sell it to him for use as an army transport.—The Commoner.

An Alaskan steamer, the Islander, operated by the Canadian Pacific Navigation Company, struck an ice berg off Douglass Island last Thursday and went to the bottom, drowning sixty-five people. On the heels of this disaster comes the news of the drowning of seventeen people by the sinking of a steamboat in the river near Paducah, K., on the 19th inst. On the same date one soldier was killed and several

fatally injured by the explosion of a shell at Junction City, Kansas. Six men were killed at Utica, N. Y. by the explosion of dynamite. All this added to the storm on the Southern coast and the numerous accidents of minor importance, marks the past week as one of great calamity.

If the attorneys for the Cherokees succeed in reopening the whole subject of the property rights of freedmen the end of complications will take another bound into the hazy distance. But nothing is ever settled without it is settled right.—Vinita (I. T.) Chieftain.

A man is not a citizen, or really a freedman in the Indian territory under present conditions unless he is an Indian or marries an Indian. He cannot vote or hold real estate in his own name. The admission of the territory to statehood may settle the problem.

Our government has purchased a printing plant at a cost of \$100,000 and the plant will be located at Manila, and will be used in printing Uncle Sam's stationery, blanks, etc., and for publishing government orders. Now listen for that howl against government ownership, will you?—Tyler Courier.

Uncle Sam has never run a printing office for profit. He pays the biggest scale of wages and works the shortest hours, and the government printing office affords a good big chunk of federal patronage for the powers that be.

EDITOR Haltom, of the Nacogdoches SENTINEL, seems to be very much frightened for fear Nacogdoches county will be put in the same Senatorial district with Cherokee. Now, look here, you had better be glad to be with an intelligent set of inhabitants as those of Cherokee county, which is solidly democratic, too.—Jacksonville Banner.

Our "fright" has reached the passive stage, and we don't care much who we mix up with. We are not very choosy about what company we keep, anyway. It isn't the "inhabitants" of Cherokee county that we object to. It is those oily politicians you've got over there—them "horse swappers."

JUDGE SUMMERVILLE, of the Supreme court of Louisiana, handed down the following decision in a case attacking the constitution of Louisiana and its suffrage clause prohibiting uneducated and non-property holders from voting. He says: "No community extends suffrage to all persons, but places such restrictions upon it as may best subserve the ends of government. The constitution of different States are binding upon all citizens. The constitution of Louisiana provides that every male citizen of the State and of the United States, native born or naturalized, and not less than twenty-one years old, shall be entitled to vote under the restrictions however contained in the suffrage clause complained of. The court acknowledges that these restrictions may not be entirely within the spirit of the constitution of the United States, but that court is quite clear in recognizing that this right is reserved to the States."

SOUND KORN."

The negro who outraged a white man near Whitesboro last week was captured, and before the state authorities could get his tin soldiers to that point to protect the fiend, the citizen the town had taken him No. 12 officers, tied him with iron chains to a tree and co's. Dr. him with a slow fire. H? Ph for the men of that community! If they had tarred and feathered the gallant major and his crowd of cymling-headed dudes in brass buttons who arrived too late to save their friend it would have rounded off the barbecue to a queen's taste. If the well behaved negroes desire to hold the good will of the white people, they should do all in their power to stop such crimes. Until they do, they will have to bear a large share of the enmity engendered toward their race by these fiendish acts. The innocent should not suffer with the guilty, but it is usually the case of old dog Tray being caught in bad company. It is the lazy, loafing dude negro who stirs up strife, and there are a few of that stripe around here who ought to be put in the chain gang, or given forty lashes with a leather strap, and the decent negroes should do it for their own welfare.—Livingston Local.

THE United States government has paid out \$2,763,350.033 in pensions during the past eleven years. Commissioner Evans has prepared a statement showing the operations in principal features of the pension bureau during the last fiscal year as compared with former years. It shows that the number of pensioners on the rolls June 30 last was 997,735, a net gain of 4206 over last year. The total net loss to the roll during the year was 43,586, which includes 38,153 by death, 853 by remarriage, 1582 by minors reaching the age of 16, 1538 by failure to claim pensions and 1460 from other causes. The roll for the year just closed is the "high water mark."

Mr. W. N. Bailey has taken possession of the livery stable bought of Mr. Polley and will take charge of the Polley Hotel the first of January. In our mention of Mr. Bailey's investments in Center in our last issue, we failed to mention the purchase of the Center and Tencha Telephone exchanges and the purchase of a lot on the corner of the square in front of the Alliance store, upon which he proposes to erect a large brick building. The Champion is glad to have Mr. Bailey make these investments in our town and it is also glad to report that Mr. Polley will remain in business in Center at the same old stand, the big brick, on the corner.—Center Champion.

Is there anything else left in Center for Bailey to buy? He has got the hotel, the livery stable, the newspapers and about all the store houses and lots in the town, and has got a monopoly on the gossip of Center and Tencha. It is fortunate that Bailey hasn't run Polley out of town, and between them they will be worth "millions" to Center.

Shindler's Purgative Compound Pills,

The Best Pill on Earth for Regulating the Stomach, Bowels and the Alimentary System Generally.

We are indebted to Dr. F. C. Ford, of Nacogdoches, for the invaluable formula by which these pills are made. They are little, but they do the work.
With each \$1.00 bottle of Shindler's Sarsaparilla, Shindler's Iron Tonic, Shindler's Compound Extract of Celery, Shindler's Kidney and Liver Cure, and Shindler's Woman's Health Restorer, will be found packed inside the carton and in an envelope like this a bottle containing about twenty of these pills which are rapidly growing famous.

For Constipation, Sick Headache and as a Cathartic, take 1 pill at night and continue taking one pill at night until the bowels are regular and natural in their operation. In some cases it may be necessary to increase the dose.

For Bilious Attacks and Liver Complaints, 1 to 3 at night and 1 in the morning, until relieved. Some people are harder to move than others, but it is rarely the case that more than two pills are necessary.

We do not advise constant use of these pills. They are powerful in their effects and anything like constant use is unnecessary. For children and weakly women 1 pill is generally enough, and for small children and infants 1-4 to 1-2 a pill in syrup will do the work.

Yours for Health,
R. C. SHINDLER & SON.

Read What People Say About Shindler's Family Remedies!

To R. C. Shindler & Son and the public:

Under a true test I would advise all people who have chills and fevers to be sure and get Shindler's Tasteless Chill Tonic and Shindler's Purgative Compound Pills, and use them according to directions and I will assure a permanent cure, for I have given them a true test. When my family commenced having chills and fever, I tried all other Chill Tonics which had little effect. The first trial of Shindler's Chill Tonic broke them up and I only had twelve hours to commence before chill time, and the chill sure failed to come. Since that time my little twelve-year old boy was first taken with a chill in the morning, afterwards fever rose, at bed time that night fever still very high. I gave him one Shindler's Pill, at midnight one, at 4 o'clock one more and fever still very high. I still kept up the Chill Tonic according to directions, and the fever remained very high all that day. Wife said I had better go for a doctor, I said, "No, I will try Shindler's Tonic on full morning." So at 12 o'clock in the night the fever commenced going down and by morning he was clear of fever. By using Shindler's Purgative Pills and Chill Tonic, I know by experience that I cannot recommend those two medicines too highly. The best wishes to R. C. Shindler & Son for preparing such good valuable medicines at home for the people.

J. A. BRUCE.
P. S.—Mr. Shindler, I can with safety recommend your Iron Tonic bitters as a good blood medicine and health restorer, for I have been trying it with my oldest son at home, who was in such bad health so long, and he hasn't used but about half the bottle yet and is getting back to his natural color, and looks better than he has for several months. I can also recommend Shindler's Electric Liniment by experience, for after my mule threw me and hurt me so badly inside my breast I used nothing else but your Electric Liniment, and in a few days I was healed all right. Yours as ever,
September 10, 1900.

Sarsaparilla.

This is to certify that I have used about one-third of a bottle of Shindler's Sarsaparilla on my little girl which was very badly broken out all over with sores, and that after one week's trial she is entirely well. I have tried nearly everything that I thought of, but of no avail. After using Shindler's Sarsaparilla I can recommend it very highly to anyone in need of a blood remedy. I cannot speak too highly of it.

Iron Tonic.
Your Iron Tonic has made a new man of me. I bought eleven bottles of — last year which did not do me as much good as one bottle of your Iron Tonic. Since taking it I can eat anything.

Soothing Syrup.
Our baby was low last January and for about one month it was fretful and bothered with colic every night. I tried Castoria and Paregoric and several other things without any effect. Finally I tried Shindler's Soothing Syrup and we had no more trouble with it. It is the best baby medicine I ever used. Have also used your other medicines with good results.

Shindler's Liver Regulator, besides being the biggest package, is also the best I have ever used. We want no other in our house.

Spectacles.
I have worn a pair of Shindler's Spectacles for one year and find that they have entirely relieved the eye strain that was so troublesome I could only study a short time. Now I have no trouble at all.
O. W. H. MCCALL.

Celery Compound and Iron Tonic.
I have used Shindler's Iron Tonic and found it good, also Compound Extract of Celery. These medicines have proven so satisfactory that I want all my friends to try them. In fact all of Shindler's Remedies will do all they are advertised to do.

J. T. HARRAHAN has been elected president of the Southern Pacific railway system to succeed Mr. Hays, who resigned.

Just think of women and children starving within the borders of Texas. It don't look reasonable nor possible, but it is the case in Zapata county.

The building boom in Nacogdoches necessarily causes a good deal of litter and trash in the streets and alleys, but it does not justify absolute filth all over the town.

It is now feared that Schley's "fool friends" will injure him more than his enemies. True friends are a boon, but "fool friends" are a burden.

COTTON has been going upward by leaps the past week. It is very probable that the present crop will reach the ten cent mark early in the season.

TAKE an interest in the tomato movement now on foot. A few car loads of tomatoes next spring would help out this year's short crop wonderfully. See Mr. Edler and get onto the scheme.

THE Huntsville Item has just celebrated its 52d birthday anniversary. The item has been in the Robinson family all this time, having been established in 1850 by the father of its present editor, Fred B. Robinson.

OUR neighbor, Center, is coming to the front in a hurry. In addition to the numerous marked improvements going on there, a national bank is to be opened in the near future.

THERE are some things too cowardly and contemptible for notice. The brave deal face to face with a foe. It is only the craven coward that back bites and seeks revenge by persecuting the helpless.

SEVERAL gins throughout the county have adopted the Hicks cleaner, which, according to statements of cotton men, will cause cotton, put up at those gins, to bring a price that will more than over-balance the weight of sand and trash ordinarily found in cotton.

THE report of the proceedings of the commissioners' court, as published in the Crockett Enterprise, shows that Houston county, during the past quarter, paid to printers outside of Houston county for stationery \$248.78 against \$50.95 paid the home printing offices.

It has begun to develop that the failure of the Austin national bank was the result of a conspiracy of rival banks and corrupt politicians. Something real sensational is likely to break out pretty soon. In the meantime, State Treasurer Robbins will be completely exonerated from blame in the affair, though he may not have checked the full letter of the law in his course.

TO DIGNIFY LABOR.

Hon. V. W. Grubbs, of Greenville, Texas, president of Southern Board of Education, has issued the following request to the Texas ministry of all denominations;

You are respectfully requested to preach on Sunday, the first day of September, 1901, from the following text, being the third verse of the eighteenth chapter of Acts:

And because he was of the same craft, he abode with them, and wrought, for by occupation they were tent-makers.

The object of this request, which may appear to some as rather singular, if not impertinent, is that the dignity of skilled labor may be forcibly impressed upon the minds of the people through the personal example of a great scriptural character.

If inconvenient to use the text on the day named, any other may be devoted to the consideration of the subject proposed.

THERE is more "buncombe" than sincerity in the resolution of sympathy for strikers passed by the legislature. Such a resolution was unnecessary, and its passage required time that the people must pay for. It was not at all necessary for the legislature to say that the people of Texas are in sympathy with the strikers against the trusts.

THE Hemphill Messenger came in all "swunk up" this week, with the following apology: "The grand jury crowded us out of our house last week so that we could not issue the Messenger. They also held the premises this week till Wednesday noon, so that we had to reduce the size of the present issue to what it was when Mr. Curtis published it. This is not likely to occur again, since we expect to have another office before next court."

It is no trouble to find buyers for any product when it is produced in sufficient quantities to attract the attention of buyers. Nacogdoches has never been able to ship any farm, garden or orchard products, except cotton, for the reason that we have never raised anything in sufficient quantities to justify shipment. Join in the move to plant a hundred acres or so in tomatoes next year and see the difference. See H. S. Edler and enlist your name in the club.

THE police judge of Dallas, who fined a negro one hundred dollars for insulting ladies on the street, and expressed his regret that he could not fine him five hundred, is made up of the right kind of stuff. He gave the negro a lecture that will probably do him more good than the punishment, and if the judge's ideas could be carried out it would have a salutary effect in the black belt. The judge recommends the whipping post along with other punishment for such offenses.

Lindsey & Harris will build two nice dwelling houses for rent on Forbe's Hill in the near future.

Sounds Like India.

San Antonio, Aug. 26.—Conditions in Zapata county are steadily growing worse. No food has reached the famine stricken people yet, and deaths from starvation are daily occurring. The people are in the most pitiable condition. Horrors unheard of in Texas before stare them in the face; women and children struggle from house to house walking miles in search of food, but no food is found out side of towns and the people there have given until their supplies are exhausted. An urgent appeal reached here today from Cortiz for food, and food will be sent as quickly as possible, but it will be three days before it can reach Zapata county, it being fifty miles from a railroad, Laredo being the nearest point.

Obituary.

Ruth Selman (nee Pain) was born in Alabama, February 27, 1814, and moved to Texas in 1840. She joined the Cumberland Presbyterian church at Douglass April 4, 1841, being one of the charter members of the church organized at the above named place and date by the late Rev. R. O. Watkins. She lived a faithful and beloved member until June 24, 1901, when she died.

Mrs. Selman was the mother of several children, all of whom died about their maturity except two, a daughter, Mrs. Laura Watkins, wife of Hon. J. J. Watkins of Douglass, and a son, Mr. J. D. Selman of Douglass, who still survive her. Her husband, Mr. W. P. Selman, has been dead several years.

Her long life was well and faithfully lived. Being a healthy, intelligent and industrious woman she cared not for being poor at the beginning of her married life, but rather looked on this fact as being a blessing, as she stated it later in life, for it gave her the opportunity to develop all her womanly powers and by a well directed, patient, persistent effort she, in conjunction with her husband, accumulated plenty and to spare of this world's goods, and died with plenty around her.

She was a kind, warm hearted friend, and affectionate, long suffering mother, a patient, loving wife, and above all a devoted Christian, and when we remember that she was and had been for some time so feeble as to be helpless, we cannot find one reason to say we are sorry she is dead. She was old and feeble. Every year of her long life had been well lived. Her work was finished. She was ready to go. Therefore let us say: Praise the Lord, Aunt Ruth has passed from death to life, from darkness to light, from labor to rest, from earth to heaven. "She being dead yet speaketh," saying to all her friends and relatives "Come where I am."

"QUICK SALES, SMALL PROFITS."

The FALL SEASON Of 1901

Is now approaching and your problem is to decide on the proper place to do your trading. It is to your interest to carefully compare prices and qualities.

"A Dollar Saved is a Dollar Made."

Experience, observation, and common sense should and does teach you that a small merchant takes up less room, pays less house rent, less electric light, less clerk hire, less expensive displays, and less expense generally. Then a common sense proposition is, "Where should you buy? From whom should you buy? Where do you buy?"

Price elsewhere, but don't buy. Now to the point. I do not ask for all your, but do ask for a part of it, other things being equal, and if a small profit is an inducement, will get it. I am new in the business and will have to build a trade. I am going to build it. I am going to build it. I must have it. My plan is small profits and quick sales. I aim to do that. I am going to do it. I shall do it. So

If a Bargain Counter is what you want to see, See mine.

If Dry Goods is what you are after, buy mine.

If Shoes and Hats are wanted, take a peep at mine.

If Coffee, Sugar, Tobacco and Snuff are what you have got to have, get mine.

COME AND SEE. If you don't buy, I have no high priced salesmen to worry the life out of you, nor to show the hidden beauties—to mesmerize you—nor any beautiful magnetic displays to draw you in anyhow—but I have the goods to wear and the groceries to eat, and last but not least everything I have is for sale, and I am going to sell; didn't buy 'em to keep. Will go, must go, got to go. Yours for trade,

Chas. A. Hodges.

We warn obituary writers that obituaries making over half a column will be consigned to the waste basket unless they have our readers imposed upon by long winded obituaries that cannot possibly interest anybody outside the writer and the deceased's immediate family.

The many friends and relatives of Miss Jessie Langston will be surprised to hear of her marriage at Mineola, where she is visiting relatives. She was married to Mr. Henry Terry, a most honorable citizen of that city. They were married at the Methodist parsonage on Sunday eve by Rev. G. V. Ridley, a former pastor of the M. E. church at this place. Congratulations and best wishes to the newly married couple.

THE SENTINEL inadvertently did District Clerk Wells an injustice last week in referring to stationery printed by Clark & Courts. The package of letter heads in question, says Mr. Wells, were of an old print that had been in the office for years, and were only used as scratch paper. The writer did not examine it closely and took it for granted that the officer was not doing his duty to his home enterprises. We take it all back.

The notice of the marriage of Miss Jessie Langston was handed in and was all the information we had of the wedding. We are informed this morning by phone that Miss Jessie was prominently married at the Methodist church at Mineola, and that the Rev. G. V. Ridley performed the ceremonies. The groom, Mr. Henry Terry, is a prominent citizen of Mineola, while the bride is one of the most popular and accomplished young ladies of Nacogdoches, and is the daughter of Mrs. J. E. Murph, of this city.

Their Secret Out.

All Sadiesville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time, endured untold sufferings from a chronic bronchial trouble. "It's all due to Dr. King's New Discovery," writes her husband. "It completely cured her and also cured our little grand-daughter of a severe case of whooping cough." It positively cures, coughs, colds, la grippe, bronchitis, all throat and lung troubles. Guaranteed bottles 50c and \$1.00. Trial bottles free at R. C. Shindler & Son's drug store.

Douglass Doings.

Douglass, Aug. 21.—We have had no rain yet. Plenty of clouds and thunder but no rain.

Mr. and Mrs. B. Hambrick, of Henderson, were at Douglass yesterday. Mr. Hambrick came out to meet Dr. Campbell here with the view of buying his cattle. We did not learn whether they traded or not.

French Murphey got a lay-off of two weeks after a year's work with C. W. Butt, and will spend most of his time on a visit with his parents.

The singing school is progressing finely.

Together with worms and lice, the hot, dry winds have cut the cotton crop off at least 50 per cent, so the farmers say. Potatoes and peas are doing no good.

Born to Mr. and Mrs. J. F. Bigbam last night, a son. Mother and baby doing well.

He was sent with the American troops to China and was in the battle at Tien Tsin, in the midst of the hottest fighting that occurred during the trouble with the Chinese empire.

Girls' Industrial School.

EDITOR SENTINEL: I have noticed that different towns and cities are trying to secure the location of the State industrial school for girls, and it occurs to me that it would be a great step forward in the progress of our town to get said school located

here and I truly believe we can do so if we make the effort. There is not today, within my knowledge, a prettier or healthier town than Nacogdoches, and with the Dallas road practically completed we have ample railroad facilities, and I for one would be in favor of donating the entire University grounds to secure said school, which would be a splendid donation and I think would equal what any other place could offer.

If we succeeded in securing that school we could issue bonds and buy additional lands and put up suitable buildings for our city schools. I think to secure said school will add very greatly indeed to our little city in every way and I would like to see an earnest effort made in that direction. Respectfully, etc.

E. A. BLOUNT.

Obituary.

Robt. Britt was born in Columbia county, Ark. in 1875. He joined the Baptist church when 14 years old. Made a profession of religion at Corinth church under the preaching of the Rev. Armstrong in 1889. Married in 1893 to Mary Ellen Smith. Came to Texas for his health in May, 1901, as that fell destroyer, consumption, had claimed him for its victim. He died in May, 1901. Just before life left him he called his wife to his bed side and told her everything looked pleasant. He leaves a wife and three children. They have gone back to the old home in Arkansas.

May that Great Father who promised to be a husband to the widow and a father to the fatherless, bless and protect them in their distress.

Mrs. W. S. Beeson returned home yesterday from Mexia, where she had been attending her father, Col. John Karner, who died at his home in that city Sunday, Aug. 18th. Col. Karner was a San Jacinto veteran, and a pioneer settler and one of the most honored and upright citizens of the Lone Star State.

Rev. G. W. Langley, of Sabine Pass, was in the city last night on his return home, after a month's vacation, which he spent visiting his married daughters, Mrs. R. L. Hardeman, of this city, and Mrs. Ada Wright, of Rusk county, and other relatives. He went to Melrose today to take in the camp meeting now going on out there before he returns to Sabine Pass.

Will Bullard, of Melrose, who went to Arkansas about two months ago, came back last week. He says Arkansas is the hottest place on earth, and several days while he was there the thermometer registered at 112 in the ice box. Will says he went right close to the jumping off place.—Plaindealer.

Friend R. W. Haselwood, of Nacogdoches, spent Wednesday in the city in the interest of Stripling, Haselwood & Co., druggists. Mr. Haselwood is a jeweler of long experience, a gentleman of the highest order and merits the success now apparent in his path of the calling he has pursued.—San Austine Visitor.

Prof. Joe Day, the vocalist and singing school teacher of Shady Grove, is getting up such a reputation and is getting his name in the papers of Nacogdoches, Cherokee, San Augustine, Shelby, Angelina and Tyler counties so often here of late that we are becoming proud of him. He has reached a high pinnacle of excellence and has already become noted as a vocalist.

KILLING AT ALTONIA.

Sam Scott Shot and Killed and Four Others Wounded.

Meagre news of a killing at Altonia, in San Augustine county, was received over the phone this morning. The report is that Sam Scott was killed by the Barker boys at a party at the home of Ben Beard last night.

LATER.—Particulars received since the above was put in type, from Judge McDonald, of San Augustine, who was present, say that the difficulty came up between Sam and Hammond Scott, Jr., and Oseola, Charles and Gordon Barker and that pistols and knives were used. Sam Scott was shot and killed instantly and Hammond Scott was badly cut with a knife, his ear being badly split. Ben Beard, Jr., at whose house the difficulty took place, was badly wounded in the stomach, his daughter was slightly wounded in the foot, and Jasper McDaniel was wounded in the hip, the latter three by stray shots. The Barkers escaped uninjured so far as is known, and up to twelve o'clock today had not been arrested, although officers went out from San Augustine this morning.

The trouble is the result, or rather the continuation, of a feud that arose between the Barkers and the Scotts several months ago.

The Scotts are brothers-in-law of J. H. Gunning, of this city.

From Alanzan.

Alanzan, Aug. 20.—It is distressingly dry and dusty in this part of the moral vineyard.

The big protracted meeting conducted by the Rev. Carnes as pastor, assisted by Bro. Bostic and Sam Jones No 2, is over.

A great interest was manifested in the meeting, more than one hundred presenting themselves for prayers. Several joined the church. We could not learn how many.

A considerable amount of sickness in the Alanzan community, owing to dry, hot and dusty weather and protracted meetings and too much to eat—especially green peaches and hot water melons.

Prof. Dr. Miles is still teaching and practicing medicine at the same time. He has a fine school, but says he must quit one or the other. He has several patients, all improving at present. Mr. Walt Mexvins being the most serious case, he having been in bed twenty-one days with slow fever. Mr. Furlow is able to "sit up." His wife is still rather feeble. Aunt Bettie Spurgeon is up and able to attend the protracted meeting. She certainly seemed to enjoy it too.

Mr. Rushing's folks are in good health again, but he had bad luck next day after the meeting closed. Two of his daughters were driving a team of mules hitched to a wagon, when by some means they became frightened and ran away, killing or fatally injuring one of the mules as it has never been able to get away from where they struck a tree. Luckily neither one of the girls were seriously

hurt. We sympathize with Mr. Rushing in the loss of his mule as it was a fine one and breaks up his team. They were quiet gentle mules, but mule like, the first time they thought of running, they went.

Although the prospect for a cotton crop is unfavorable improvements are still going on in and around Alazan. Mr. Lutchter Smith is building a neat residence. Prof. Miles is letting a contract for a doctor shop and drug store of a very peculiar architectural pattern. However, as it has a store room and dining room annex, we hear of some weddings in prospect, but it may be all talk.

Mr. John Coats is having his mill and gin over hauled and cleaned up ready for the fall work. His gin sharpener has just completed his gin stands after two weeks' faithful work. The gin is now in fine shape for ginning cotton.

Mr. Coats has been attending Prof. Miles' school at Alazan studying book-keeping, etc.

Well the weather is so very warm I'll have to stop and eat a water melon.

Notice to the Public.

The next annual meeting of the Nacogdoches County Baptist association is to convene at Mt. Moriah on Thursday before the fourth Sunday in October, and inasmuch as a report has gone abroad that the people of the community cannot take care of the association, causing an effort to be made to remove the meeting to some other church, the citizens desire to make a most emphatic denial of such report. We are amply able and willing to provide accommodations for the association, and we insist that it be held at Mt. Moriah, which was duly elected as the place for holding the 1901 session.

Obituary.

John Tindall, son of Leonard and Mary Tindall, of Red Oak community, "passed from death unto life eternal" at 8:30 o'clock on the morning of August 8, 1901.

John was born in Nacogdoches county on the 23rd day of October, 1877, and therefore at the time of his death 23 years, 9 months and 16 days old. Scarcely a year ago he had a severe attack of slow fever which came very near proving fatal, but he had fully recovered and was, up to the time of his misfortune, the very picture of health.

On the night of the 6th inst. John, in company with his sister, had started to North Church where a protracted meeting was in progress and on the way his horse became frightened, threw him off, and in the fall sustained injuries from which he never recovered.

He was born and raised in this community and was known for his pious manner, his gentle demeanor, and his exemplary habits.

If we only record the achievements of the social life of John Tindall, and his record as a Christian gentleman, our sketch would be very incomplete.

His obedience to those in authority, his humble life as a citizen, his love for home and family, and his undying devotion to the principles of truth are the grandest features of his eventful life. He joined the Missionary Baptist church at Shepherd in 1898 and has since lived an upright, consistent Christian life.

The writer stands in a position to know the sterling qualities of this young man perhaps better than almost anyone else, having been associated with him as teacher and pupil for the past eight years.

Truth was his motto, Honor his watch word. Industry his daily practice. Charity and Integrity circumscribed his actions toward his fellow man. Preserverence a characteristic that enabled him to accomplish his undertakings under trying circumstances. Patience enabled him to endure his sufferings without complaint. These qualities were often called into requisition, for it was his lot to suffer. But he bore his sufferings with that resignation, courage and fortitude that is ever present with the true child of God.

He was pure in his life, honest and upright in his dealings, and as chaste as a woman in his conversation.

It seems sad indeed that the dark shadow of the relentless foe of man should intrude his presence upon our community and take from among us one so bright in his strong young manhood. But such is the providence of God. He is gone and we can only mourn his loss, and indulge the hope that the good he has done may live after him. The death of our friend emphasizes the words of Jerusalem's king: "A good name is better than precious ointment, and the day of death than the day of one's birth." Death came to him as a benediction that followed a sacrifice, and the same angel that bade him

leave this world spoke not only to the soul of John Tindall, but to parents relatives and friends: "Peace, be still." Loved ones, sorrow not for him for he is not dead but only sleeping the sleep of the righteous to awake in the beautiful morning of the resurrection in that bright beyond where pain and suffering entereth not.

Trusting in God with all his heart and mind, This man proved magnanimously kind, Endured afflictions, desolating hail, And watched himself through a misfortune's vale.

His cherished name—angelic guards defend, It is the name of John—our friend, That pure life in itself was fame, May all who read these lines reveal his name.

To THE SENTINEL:

I am sorry to learn that my squib in the Plaindealer about the pic nic last week has given offense to some of the participants. When I wrote it I did not know who they were, and I only had in my mind that they disturbed my rest that night when they were so near my house. I did not intend to intimate any misconduct whatever, and desire to be considered as making all due apology.
