Black Jack Budget.

A Newsy Letter from Our Regular Correspondent.

Attoyac, Feb. 2. Since the government has been so kind as to furnish us with a postoffice, our little burg has consequently discarded its old and familiar name Black Jack. Mrs. Dr. Blackshear has been appointed postmistress, and for the present has moved the office to her residence. A postoffice will soon be erected.

Fuller and Thurston have dissolved partnership, Mr. Thurston retiring.

An aged lady by the name of Rhodes, died one day last week at her home two or three miles from the place.

The Stephens boys are selling out at once.

Old Sol, after a period of ten days of partial eclipse, will follow a path very like that of the same Saturday afternoon. And today, notwithstanding a brisk north wind, the birds are chirping, which is an indication of the near approaching spring.

The early snow coats were about all killed by the freeze some weeks ago. There will be some cuts down this month.

Prof. Tex. Harris, who is teaching at a school near Nacogdoches, was shaking hands with old friends at this place on Saturday evening the 24th.

The festive days are on the wane, and ere long they will be a thing of the past until next Christmas.

Eld. Wm. Blackshear, the venerable father of our Dr. Blackshear, has been spending the past month or so with his son's family. Mr. Blackshear will soon publish a card

mile post, yet he is quite hale. His home is at Kirbyville.

Our town now has telephone connection with the "outside world." This is what all communities need. It is not only a paying institution to the projector but fills a long felt want.

Improvements can be seen on every hand.

Mr. Ernest Cade has bought a walking cultivator. He put on a couple of turn shovels and has fielded all his cotton land with it. Mr. Cade says it saves a round on every bed as his plow throws two furrows instead of one.

A very little plow has been done so far, but it won't be long until the corn lands will be broke.

A letter from a state printer, traveling agent, comes out twice a week. A good one comes out twice a week and a bad one comes out at any time there may be a lot of correspondence.

The population will not get out a letter this year, as I have been informed, but a few independent will probably put up.

SMALL FARMERS.

Large Colony is to Locate on Lands Near Nacogdoches.

A colony of 200 German families is coming to Eastern Texas to occupy and till 100,000 acres of land along the lines of the Houston East & West Texas railroad. Today arrangements are being completed for the purchase of the land, and the entire deal will be completed before another week has passed. The families have all signified their intention to come, their agent is upon the ground, and only the finishing details remain. The location of the colony will be somewhere in the neighborhood of Nacogdoches on land but recently cleared of timber.

The immigrants will devote their attention to the growing of vegetables and the cultivation of fruit. All have been engaged in the business in the far Eastern States, but have become convinced that advantages in this country justify the change. There the cheapest land costs \$100 an acre or more, near the larger towns, and the market is late. Here the necessary land can be secured for almost a song, and the vegetables can be snipped in perfect condition, so as to command a price almost double that obtained late in the season.

This is but one of the colonies recently secured for Texas through the efforts of Mr. S. H. Dixon, head of the immigration department of the Houston East and West Texas railroad. At the same time, it is one of the largest. Fruit, vegetables and tobacco are now raised in immense quantities where formerly there was nothing but wild forest. At Nacogdoches the largest cigar factory in East Texas has been in operation for some months, and fruit by

the carload will become a staple article of freight before a very long time is passed. Small fruit and vegetables are already shipped from Eastern Texas in immense quantities. *Galveston News.*

Sexton Secured.

The ladies of the Cemetery Association wish to announce that they have paid off in full the debt incurred by the purchase of the plot of ground in the north east corner of the Cemetery, and that they have secured the services of Mr. Owen as sexton, an experienced and reliable landscape gardener, whom they feel assured will render efficient service. In order to expedite matters, and that he may know who the subscribers are, Mr. Owen will also assume the duties of collector, making the rounds the first of every month. The monthly subscription lacks a few dollars, amounting to the stipulated salary paid the sexton, and those who wish to add their names to the subscription list or increase the sum already paid, will please telephone their names to Miss Mary Hoya, the Association treasurer. The Association desires also to return thanks to Miss Jennie Harris and her little folks for the generous donation of \$16.00 from the proceeds of the Cinderella entertainment given last Friday night.

For County Commissioner.

Mr. Robt. Mosby is a candidate for County Commissioner of the Nacogdoches precinct, and his announcement will appear in the proper column of the WEEKLY SENTINEL. Mr. Mosby has been strongly solicited to make the race by his old Confederate comrades and numerous friends. He was a gallant soldier, is a loyal citizen, an upright man and is fully qualified to make a good commissioner.

THE Tyler Courier is now set up on a type setting machine.

AFTER a week's lay off the Timpson Daily Bulletin is again on our desk.

THE blizzard has "friz" up everything in north Texas. It is cold enough down here in East Texas.

ISN'T it funny to hear the little fellows cussin' Jim Hogg. They'll never suppress him as long as they keep that up.

It is said that Schley spent a quiet Sunday in Chicago, and the Houston Post thinks he must have been chloroformed, if it is true.

COL. GARRISON is remaining very quiet, and is leaving his friends in darkness as to his intentions. If he really intends running for congress, he should let his friends know it at once. Delays are detrimental, if not dangerous.

THE Texas papers are having a great deal to say about "Mr. Campbell's position." Mr. Campbell's position just at present is that of a fellow who has had to "go way back and sit down." That's the way it looks to a "man up a tree."

It will soon be time to open up the city campaign. Somebody will have to be elected mayor and an overseer of two are to be elected. It is understood that the present incumbent, Jno. B. Nelson will be a candidate for reelection, and the name of Dr. Ford has been mentioned. Who else?

It is reported that the next depot West of Mab will be located about eighteen miles from Nacogdoches on land owned by Arnold Maddox, colored, and only a short distance from Lott. E. H. Mrs. H. E. Brewer also owns land adjacent to the site selected for the station. The next station will be on the old Lucas homestead or near it, about 25 miles from Nacogdoches.

PROF. T. R. DAY, principal of the High school at Henderson, is an applicant for the Presidency of the A. and M. College, made vacant by the death of Col. L. L. Foster. Of course everything that has a pull will pull for Prof. Day, and if we all turn out and make "a long pull, a strong pull and a pull altogether" we may succeed in landing our man. Prof. Day is a capable man and his selection would not only grace the position but would honor East Texas. We sincerely trust that his candidacy will be successful.

THE prosecution in the Patrick case in New York has become so bitter as to almost amount to persecution and is arousing sympathy for the defendant. It is very questionable whether or not Patrick will be convicted for the murder of old man Rice.

One thing is certain, if Fred W. Mally was given \$1,800 per year and allowed an assistant at a salary of \$1000, free passes over all the railroads, by some private individual, he would have to give up his nursery business or his job. But he is at work for the state, and of course, it makes no difference what the State pays him or what the State gets in return. Just such as this is what causes us to "cuss" the government. The State government is not to blame for anything it does, no matter how ridiculous it may be; it is the people who are to blame for allowing such to go on without raising their voices against it. — Texas Truck Farmer.

Hasn't a man the right to invest his money, no matter who he works for? Mally spends precious little time on his nurseries. He simply owns them and employs hands to keep them up. He has as much right to do this as Gov. Sayers has to be a farmer.

At the February term of court in Nacogdoches county the commissioners will be petitioned to order an election for prohibition. As both the papers up there are more than likely anti, perhaps the Tribune will return the dose and print the pros a Nacogdoches Tribune. If they have the glue and a man to edit it they can get in. Latkin Tribune.

There will be no petition presented at the February term, though it was the intention of the pros at first to do so. The matter has been postponed indefinitely. We have no objection to your "returning the dose," if you can "get 'er."

Plant your stuff early, and if the frost comes and bites it down, plant it over. Always have something for the frost to bite down when it comes, and you will nearly always have something for yourself, your family and your stock to bite down when they come. — Texas Truck Farmer.

The fellow (don't call him farm) that waits till summer to plant his crop for fear the frost will bite it seldom has anything for the frost or for himself either.

The people of Lott want to see to it that the superintendent of the Experimental Station does not go into the seed and box business, nursery business or any other kind of business out of the Experimental Station business. We have a little too much of this sort of thing already. We hope, however, to have a less of it after the adjournment of the next legislature. — Texas Truck Farmer.

Suppose the next legislature goes to seed?

It would be a good summer's work if the truck farmers would get together and appoint a good, strong committee to go before the Railroad Commission and see if we can't get express and freight rates reduced on truck, especially express rates. If the commission has ever thought of such a thing, they have not shown it by anything they have done in this direction. — Texas Truck Farmer.

Ex-Governor Hogg published an article in the Sunday papers decrying the plan of holding early primaries since which the papers have abused him to their hearts content. Just why Hogg

can't advise as well as any other man in Texas we fail to see. The trouble seems to be that a few young political blatherskites are afraid that Hogg will again stand for some office, and knock one of them out. His advise to the party may not always be the proper thing, but it is usually safer than the harrangues of some of the "younger democracy." — Burnett Bulletin.

At Nacogdoches, the merchants and business men have raised a fund for the establishment of an experimental farm where all vegetables are to be tried and the soils tested; and this year, at this time, the main crop will be onions, Irish potatoes and tomatoes as a commercial commodity. This business has been placed under the direction of an experienced tomato grower who has been furnished sufficient funds and assistance to make the enterprise a success. At other points along the line, notably at Lufkin, Corrigan, Shepherd, Garrison and Tendam, large acreage is being planted in fruits and vegetables. At Tendam, in Shelby county, the business men of Center have invested in lands convenient to the East and West line and are planting some to commercial orchards and gardens. — Austin Democrat, Farm and Home.

The St. Louis Exposition has offered \$200,000 for the best air ship. Wonder what they would give for the biggest air castle.

Every farmer who is interested in scientific and progressive farming should be at the Fruit and Truck Growers' meeting in Nacogdoches next Saturday. There will be some of the most experienced fruit and truck growers of East and South Texas present and there will doubtless be some splendid talks.

Schwab, the boss of the United States steel trust, has recently returned from a tour through Europe. He made himself famous over there by ordering special trains, refusing a second interview with the Emperor of Austria, gambling at Monte Carlo and getting his name in the papers. And yet, he is only a man.

SENATOR CULBERSON had the audacity to ask for some information concerning the war department and the doings of the Philippine Commission, which has brought down the indignation of the republican press and the administration upon his head. It wont do to ask too many questions about the administration's war policy.

Oldest Organ to Be Exhibited.
The organ in the chapel of the Episcopal church, on State street, in Portsmouth, N. H., is to be taken to Boston to be placed on exhibition, being the oldest in America. The organ was brought from London in 1713 and placed in King's chapel, Boston. While it was in Boston, Benjamin Franklin was the organist. It was sold to Newburyport some eighty years afterward, and in 1836 it was purchased by Rev. Dr. Charles Burroughs and presented to the chapel in Portsmouth.

Caught in Their Own Trap.
A Springfield, Mass., bridal couple who planned to outwit their tormentors recently were victims of their own cleverness. They went to the railroad station by separate routes and it was also in their plan to get into separate cars. The bridegroom comfortably located in the smoker and the bride sought an inconspicuous seat in a passenger coach. The bride, however, in her flurry, got the wrong train and, unaware of her mistake, went on to Pittsfield, while the groom went unsuspectingly north and arrived at Northampton.

Home News Across the Water.
"Quite a new disease," says the *Globe*, of London, "has been discovered in New York. It consists of the 'tunnel knee,' and its origin is the continual blasting operations carried on in making the new underground railways. It is said that nearly all the inhabitants of Harlem have grown weak in the knee and that everybody goes about on tiptoe anticipating a fresh shock. 'Tunnel knee' should arrive in London shortly, and will prove a pleasant change from vaccinated arm."

Women Wanted the Saloon.
Women are generally regarded as the moral law of the saloon, but the fair members of South River, N. J., are exceptions to this rule. If you have a saloon named Willott's, which is a drinking resort, but not with objection because of the number of saloons already doing business there. He has succeeded in getting into a lengthy petition on his behalf, all the signers being women.

Post Master Supervision.
Mr. Walter F. Howe, of Lland, has been appointed postmaster of the town of Lland, N. H. He is a well known and popular man, and has been in the post office for some time. He is a well known and popular man, and has been in the post office for some time.

Kipling Was an Actor.
Rudyard Kipling, during his residence in India, was for long regarded as one of the best amateur actors in that country. At one time he took part in theatrical performances in Lahore, India, particularly effective in the role of Hamlet.

Many Women Buy Insurance.
Women are more and more patronizing life insurance, and many of the companies maintain a woman's department, presided over by a female superintendent. The statistics indicate that business women and women of great wealth are the principal patrons. Of course, this does not have reference to "industrial" insurance, in which the poorer families are so extensively interested.

Milwaukee Again Made Famous.
Mayor Rose, of Milwaukee, dedicated the great new bridge over the river there by sprinkling the contents of a bottle of beer over the planking, christening the structure at the same time.

At the next session of the Alabama legislature a successor to United States Senator Pettus will be elected and the friends of General "Joe" Wheeler have launched a boom on his behalf.

Two Brave Women.

Women's "Shampoo" Past.
Half a dozen wealthy Chicago women, each a devotee of the "whisk" have banded themselves into a queer club. Once every week they meet at a downtown hairdresser's and play what they call "shampoo whisk." A card player is likely to wonder how six persons can play whisk, but the shampoo game is not different from the ordinary game. While four of the women play the other two are going through the shampoo or hair-dressing process. As soon as one of them has had her tresses dried sufficiently to be put up she takes another's seat at the whisk table, and so the game is not interrupted for an hour or two.

Quietest Spot in London.
"It is curious," says *The London Chronicle*, "how St. Paul's, although the first cathedral church in England that was built actually for the observance of the Anglican ritual, manages nevertheless to retain something of a foreign and a Catholic nature in the way it offers shelter to the tired passer-by. Apart from the restless groups of sight-seers, there are always plenty of people there who have gone in solely for the sake of its wonderful peace and quiet. They have found neither, by the way, in old St. Paul's is the quietest spot in the noisiest city in the world."

Five Cent Concerts in Gotham.
The nickel concert is the latest thing in which a number of good hearted society women are interesting themselves. They are members of prominent music societies and have come to the conclusion that others ought to enjoy what they are permitted to possess. The idea is to furnish good music to the poor people and working people at 5 cents a head. The concerts will be given in the public school buildings, which have been gladly tendered by the board of education. All the music will be high class, although the programme will naturally vary, so as to fit the locality in which the concert is given. The first idea was to charge no admission, but, on second thought, a charge was decided upon, so that self-respecting men and women could attend, without feeling that they were objects of charity. The price was placed at 5 cents, so that the concerts might be within the reach of all.

Abbey's Grail Pictures.
The second series of Edwin A. Abbey's paintings of the quest of the Holy Grail are to be seen at the American Art galleries in New York city for two weeks. There are fifteen pictures, and they carry on Sir Galahad's adventures from the time of his failure in the castle of the Grail to the moment when, as king of the holy city of Sarra, he beholds the Grail borne by Joseph, of Arimathea, and a company of angels, and his crown and scepter fall from him, since they are now meaningless, as he has attained his spiritual quest.

The Christian Name.

"What is your Christian name?" one man quoted by Victor Smith asked of another to whom he had just been introduced. "Edgewood," was the reply. "Edgewood, Edgewood? Rather a remarkable name for a Christian name. What is your surname?" Edgewood, "sir?" "Then you are Mr. Edgewood Edgewood?" "Not necessarily. Edgewood is a Christian name, whether it be a family name, a baptismal name or a binary name. But, sir, I regard 'Christian' as a misnomer when applied to names. Why not say 'Christianizing name' and stop your fooling? The mere fact that they call me Peter does not mean that they have given to me a Christian name."

Began as a Railroad.

Edwin Charles Madden, the third assistant postmaster general, is a Michiganian. His great-great-uncle was Lord Nelson, the hero of Trafalgar. He entered the railroad business at the age of 16, and continued until January, 1891, serving thirteen years as a locomotive engineer. He was then appointed to the position of registry clerk in the Detroit postoffice, and was rapidly promoted until President McKinley appointed him to the present position.

A Good Voice Very Rare.

The Vocal Physiologist says: "More money is thrown away on the education of the human voice than on the support of government. Of every 10,000 voices one may be listened to without pain; of every 100,000 voices one may be listened to with satisfaction; of every 1,000,000 voices one may be listened to with sensations of joy. In all the millions of male singers there is but one Jean De Reszke. Of all the millions of female singers there has appeared none to equal of approach Patti. Yet, wonderful to tell, nearly every young man and woman on earth believes he or she has a fine latent voice which needs only cultivation to set the universe a-quake with its quality. To agree with such a person, to maintain that the voice is there in embryo and must be trained and developed, is to gratify its possessor, to engender false hopes, to throw in the way of the vocal teacher, and to disappoint a career."

Wigwagged His Proposal.

There is a romantic story about Lord Kelvin's second marriage. In the early '70s he married Sir William Thompson, who in West Indian waters, on board his schooner yacht, the Lalla Rookh. As a recreation he took up the question of simplifying the method of signals at sea. He had been talking of it at the dinner table of a friend in Malaga, and the only apprehension that seemed able to grasp it was that of his host's daughter, a lady he greatly but silently admired. "I quite understand it, Sir William," she said. "Are you sure?" he questioned, half-doubtfully. "If I sent you a signal from my yacht do you think you could read it and could answer me?" "Well, I would try," she responded. "I believe I should succeed in making it out." The signal was sent; and she did succeed in making it out and in transmitting the reply. The question was: "Will you marry me?" and the answer was: "Yes."

Too Many Useless Words.

Senator Kearns, of Utah, not so very long ago was working with a pick and shovel for \$2 a day. Last summer he and his partners refused \$14,000,000 for one of their mines. The senator is used to life in the open and the atmosphere of the senate oppresses him. Last Thursday he sat down beside Senator Heitfeld, also a Westerner, and said: "Henry, what do you think of this game, anyhow?" Heitfeld, being few schooled in the wiles of diplomacy. "Why do you ask?" he said. "Oh," replied Kearns, "they use too much language in their talk to suit me. Why don't they say what they mean instead of bundling it all up in a lot of unnecessary words?"

The Two Blind Chaplains.

The two blind chaplains are among the most picturesque personalities in congress. Rev. Dr. Milburn, of the senate, with his long gray whiskers and his black slouch hat, is a familiar figure. He walks upon the arm of his daughter, gently feeling his way with a cane, and is always in his appointed place at the hour of noon, no matter whether it rains or snows, blows. His prayers are models of exquisite expression, and are uttered in a deep, musical, impressive voice. The newspapers are read to him every morning before he goes to the capitol, so that if there is any great event which needs to be mentioned in his prayer it is not overlooked. After prayer he is led around the chamber and shakes hands with the senators. Despite his lack of sight, he is a man of acute perception, and his talk upon "What a Blind Man Saw in Europe" is said to be extremely interesting. Rev. Dr. Coulen, the chaplain of the house, hides his eyes beneath dark blue glasses. He is tall and dignified, and like his colleague in the senate, is eloquent. His prayers are brief, but they condense a great deal into very few words.

His Plea Is Abatement.

A correspondent of Law Notes sends the following unique petition: "This is to certify to the Honorable Supreme Court of Mississippi, at Jackson, Miss., that I pray, said Honorable Court on Examination of an application for admission to the Bar at Jackson, Miss., on October 28th, 1901, to please excuse my lack of work, for I was sick all the time while I was there at work with a fever. I did father pray said 'Honorable' Supreme Court that they may excuse me, and that I be allowed to practice Law in the State of Mississippi. In the Law directs, their were one other person examined at the same time. My work incorporated the questions in the examination. Like this X (1) What is Rale property. Rale property is any property that is permanent fixed and immovable and cannot be carried out of its place. I further remain your truly friend, J. D."

Cigarette Smokers Spanked.

It seems that girls, as well as boys, of Reykjavik, Iceland, have contracted the habit of smoking cigarettes, and the law allows any adult man or woman who finds a boy or girl smoking, to give the youngster a sound spanking and to seize and destroy any cigarette found in his or her possession.

Moore's Historic Mirror.

Charles Moore, clerk of the senate committee on the District of Columbia, has resurrected from the lumber room of the capitol a mirror that every vice president of the United States, with the exception of Theodore Roosevelt, is said to have looked into. The mirror, a small one, is in a gilt frame and was bought by John Adams, the first vice president, for use in the vice president's room. Adams paid \$10 for it, and there was a three-day debate in the senate as to whether the item should be allowed, the claim being made that to pay \$10 for a mirror was gross extravagance. The curtains in the senate finance committee room now cost \$600 a pair. Finally the bill was paid. The mirror was handed along from vice president to vice president until it reached Garrett A. Hobart. After Mr. Hobart's death the mirror was taken to the lumber room of the capitol. This last summer, after Mr. Roosevelt had left Washington and before he came back as president, Mr. Moore got out the mirror and had it regilded, intending to give it to Mr. Roosevelt.

Money for Refilling the Box.

"I stacked up against a new one the other evening," said a Philadelphia man recently. "I dropped in on an old friend of mine who always smokes good cigars, and, of course, he produced a box. There were only about a dozen cigars left, but in the box I noticed a lot of coins, nickels, dimes, quarters and halves. 'What's this?' I said. 'Do I pay for my smoke?' 'Not a bit of it,' he said. 'That's just my own little system.' Every morning before I leave home I empty the contents of my trousers pocket into the cigar box, reserving only the price of our fare. Thus I get rid of an accumulation of 'chicken feed,' and at the same time when my cigar box is empty there is a fund all ready to replenish it."

Learning to Say "Rose-a-velt."

When President Roosevelt went to Washington as president, it seems there was still some doubt in social and diplomatic circles as to the correct pronunciation of his name. It was pronounced in the various circles as if spelled Roosevelt—Rose-velt and Russelt. Then came from the White House a semi-official intimation that the correct pronunciation was as if the name were spelled Rose-a-velt, and now all Washington is trying hard to acquire the sound of a broad and hard, and say Rose a velt instead of Rose-velt.

MOTHERS TESTIFY TO THE BENEFITS THEIR SICK BABIES HAVE RECEIVED FROM THE USE OF LAXAKOLA

Having received your sample of Laxakola, was very much pleased with it and have purchased a bottle for my baby. The Laxakola did wonders for my baby in case of bowel troubles. I have given up Castor oil and give my baby nothing but Laxakola, and find it cheaper and a great deal better. I got it from C. H. & H. Lawton, 207 Union and Durango Streets, New Bedford, Mass.

Enclosed please find receipt for my sample bottle and did not see claim for it, as it helped my baby very early.

Mrs. JOHN F. BROWN, Union Depot.

I wish to thank you very much for the good Laxakola medicine. My baby, Mrs. Mary Lavinia Buss, was one year and one-half years old, but he had been something awful from colic, and the Laxakola had done him a great deal of good. He is now getting better and better. I have given him Laxakola, and I think it is the best medicine I have ever used. It would give nothing else to her, but Laxakola. Thank you very much, Mrs. MARY DALBY, 207 Union and Durango Streets, Boston, Mass.

LAXAKOLA is a pure, efficient, painless liquid laxative, and contains no harmful drugs, which not only act upon the bowels, but purify the entire system and purify the blood. A few drops can be given with safety to very young babies, which will often relieve colic by expelling the wind and gas that cause it. Great relief is experienced when administered to young children suffering from diarrhea, accompanied with white or green evacuations, as it neutralizes the acidity of the bowels and carries out the cause of the fermentation. LAXAKOLA will aid digestion, relieve flatulencies, and induce sleep. For constipation, simple fevers, coated tongues or any infantile trouble arising from a disordered condition of the stomach, it is invaluable.

Try it Today. Send for a Free Sample. It may Save your Baby's Life or Prevent a Long and Serious Illness. It Costs Nothing; Send For It and mention Your Druggist's Name.

For Sale by all Druggists.

All Druggists will send you a sample of Laxakola free of charge, a large bottle of LAXAKOLA. Address THE LAXAKOLA CO., 43 Vester St., N. Y.

LINDSEY & HARRIS, Real Estate,
NACOGDOCHES, TEXAS.

LET'S talk about a special tax to erect a new University building. What do you think about it?

FOUR citizens of Galveston have subscribed a quarter of a million dollars toward building a sea wall for the protection of that city.

JIM RAY has about made up his mind to get in the race for county treasurer. He says he has found out that he can make his bond.

CONGRESSMAN BURGESS is making a strong effort for the improvement of Texas ports, and has asked for \$3,000,000 in behalf of Galveston.

IF all these contractors who have been visiting Nacogdoches the past week secure contracts on the T. & N. O., it will not take long to finish the grade between here and Jacksonville.

HON. O. T. HOLT is a candidate for Mayor of Houston with fine prospects of being elected. He seems to be the unanimous choice of the labor organizations as well as popular with all the people of the Magnolia city.

OUR friend Harvy W. Downey, who was formerly connected with the H. E. & W. T. Ry., and is well known "all along the line," is a candidate for district clerk of Harris county. Let's all go down and vote for him.

D. A. McFALL, the calamity shrieker, from Austin, has opened his campaign for attorney general of Texas. He just wants to see how bad he will get beat, probably. He certainly does have any serious thoughts of being elected.

THERE should be an especial effort made to have a good attendance at the truck growers association on Feb. 8th. There is going to be some distinguished visitors present, and it will be by far the most interesting session ever held. Nacogdoches ought to provide some special entertainment for the delegates from other associations that will be here.

THINGS are going to be lively along the incompleting section of the T. & N. O. railroad pretty soon if there is anything in signs. Several hundred teams will be moving dirt within the next thirty days and the route will be covered between here and Jacksonville as soon as it is decided whether the road will run by Rusk or not.

THE president recognizes all factions alike in the appointment of Texans to federal officers. If he wants to appoint a man and has already made up his mind to do so, the faction supporting the man gets recognition. And there is the end of it. Neither the Green nor the Hawley factions cut any figure against the inclinations of Teddy the Terrible.

NEW YORK EXCHANGE DON'T GO.

As a result of the agitation following the Austin National Bank incident and the ruling of the attorney general, the State Treasury has been returning thousands of dollars in exchange, causing great inconvenience, and some little consternation among business men who have large dealings with this department, as the following letter to the Treasurer from the Aetna Insurance company of Hartford, Conn., which concern enclosed New York exchange in payment of its ad valorem taxes will show:

"We are in receipt of your favor of the 20th instant returning our draft on New York for \$852.83.

"We note that under the law of the State of Texas you can not receive any exchange except on the City of Austin. This is most remarkable, and it is the first time we have ever had, in our experience of nearly 100 years, a check on New York refused.

"We have no means of sending you on Austin, and consequently are at a loss how to pay the tax due your department."

The letter states that the company will request its Austin agent to give his check. However, it will not be accepted.

The large Eastern business and banking houses having transactions with the Treasury are much surprised at the refusal to accept New York exchange, which is good the world over.

But the prejudices of the people and the agitation of cheap politicians must be heeded if it stopped the world from moving. For half a century the business of the treasury department has been conducted just like all other successful business concerns, but hereafter it must be different. Those who owe the State must send the cash, and send nothing but cash.

RUSK has not yet given up hope of getting the T. & N. O., but the company is very slow about giving to the public any intimation of its intentions in the matter. As soon as the road is completed to this place, it is understood work on this end of the line will be discontinued, and the entire force put on the section between Mahl, near Nacogdoches, and the Angelina river, the contract for which has already been let to M. Tansy. If the road does not go to Rusk, it will cross the Cotton Belt near this place, in Jim Campbell's field, probably; if it does go to Rusk, it will run on the west side of the Cotton Belt to Dial, crossing there, as did the old tramway that was operated between this place and the county seat in ancient times. The last spike on the completed road may be driven at this place some time next year.—Cherokee County Banner.

THE railroads of Texas are now bending every energy in the great work of bringing immigrants to the state to settle upon the fertile agricultural lands now lying idle. The railroads alone own

thousands upon thousands of acres of land which it is to their interest to find settlers for, but aside from this they are ready to sanction and aid any move that will bring new population upon any of their lines. No road is doing more in this respect than the Houston East and West Texas railway. If our people would but offer the least encouragement a colony of thrifty fruit and truck farmers as well as agriculturists would soon be established on the vast area of unoccupied land between Nacogdoches and LaNana. It may be done anyhow, in spite of the capious showers of cold water the scheme has received at the hands of our people.

AN explosion in a coal mine at Hondo, Mexico, a few days ago resulted in the death of over a hundred men, all Mexicans and Chinamen. The mine was one of C. P. Huntington's Mexican interests.

THERE should be unusual interest displayed in the meeting of the Fruit and Truck Growers' Association next Saturday. There will be representatives here from all organizations along the line of the H. E. & W. T. Ry., as well as other points throughout East Texas.

A. E. Mills, of Chireno, is in the city. He is about to enter the race for District Clerk. He says he hasn't quite made up his mind to run but he is talking politics in a high key and we may expect to see him in the arena with both feet "a ridin' and a walkin'" in a short while.

IF the people along the line of the H. E. & W. T. Ry., would co-operate with Mr. Dixon he would soon have all the "poor" land, along the road covered with orchards and truck gardens, attended by a class of agriculturists that would bring inspiration to the whole country and set an example that would bring thrift and prosperity where indolence and poverty now prevails.

THE investigating committee elected by the last legislature to "take a look at the books" in all the departments at the State Capitol are now at work trying to decide where to begin their investigation. They have wisely obtained the service of an expert accountant and have employed other assistants to facilitate the work. Now if the committee will get out of the way and let the accountants make the investigation they may get through in sixty or ninety days.

THERE is liable to be a big crop of candidates for constable of the Nacogdoches beat. W. J. Green has announced, Doc Watson is "running to beat six bits," Bob Parrish is on the anxious seat, Sandy Thacker has moved down from Garrison to run for constable of this beat, and the friends of Arthur Burrows are urging him to enter the arena. Ed Muckleroy hasn't made up his mind yet, but will probably be in it too. We ought to be able to get a good man out of this long list.

FRUIT AND TRUCK GROWERS.

The following letter explains itself:

"Robt. Lindsey, Secretary, Nacogdoches, Tex.,

Dear sir: I am in receipt of your favor of the 27th, inst., inviting me, in conformity with a resolution adopted by your association, to be with you in your meeting on Feb. 8th, next.

I wish to thank you for the honor and courtesy extended in this invitation. I shall be pleased to avail myself of the opportunity, and will make it a point to be with you on the date named.

I am pleased to note that you have an enthusiastic association, and are making material progress along this line of industry. Enthusiasm and determination are two of the most essential agencies of success, and especially so in truck farming; and those who possess them will find that all ordinary obstacles disappear before them.

I was one of the first to engage in the trucking business in this county at Craft, in 1897. We had the experience of no one to aid us in the growing and marketing of our products, yet we have in five years built up a magnificent industry in this county, which has put hundreds of thousands of dollars into the pockets of the growers, the stimulating effects of which have been felt in all lines of industry. We have excelled all other sections of the United States in high quality of goods and character of packing.

What we have done others can do; and the road to success will be less difficult for them because they have our experience to aid them.

Yours truly, C. D. JARRATT."

The meeting of the Nacogdoches Fruit and Truck Growers on Feb. 8th is going to be the "event of the season" with the organization, and any member who fails to attend will regret it. In addition to Mr. Jarratt there will be several other distinguished gentlemen present, who are experienced in fruit and truck growing. These meetings are open to any and all who wish to attend and a general invitation is extended to the public to be present at this particular meeting.

Through Capt. Doherty the H. E. & W. T. has kindly offered free transportation to two delegates from each organization along its line to and from Nacogdoches for the above occasion.

The impetus to building in Polk, Nacogdoches and Shelby counties, along the H. E. & W. T. road caused by the successful fruit and vegetable business, is wonderful. Lands are advancing from \$1 and \$2 to \$4 and \$8. One of the direct results of the fruit development is the establishment of an immense box and crate factory in Nacogdoches, where all kinds of fruit and vegetable crates, baskets and boxes are manufactured for the shipment of these crops. Also, at Nacogdoches, an up-to-date pottery factory has been established and is in full operation,

which, added to the large cotton seed oil mill, ice plant, cotton compress and hard wood factory, electric light plant and water works already existing, gives that one of the State's oldest towns an air of modern city life.—Austin Democrat, Farm and Home.

THE statement that the East Texas Advance, to be published by the Nacogdoches Baptists would be in the interest of a prohibition campaign was a mistake. It is to be a real newspaper, devoted to the religious interests of the Baptist church.

A TERRIBLE blizzard has been raging up north, and has reached as far south as Kentucky, almost paralyzing business of every kind. At Owensboro, Kentucky the telephone, telegraph and electric light wires are all broken down under the weight of ice and the city is in darkness and cut off from communication by wire. The same condition exists in many towns.

Nacogdoches Schools.

Nacogdoches, Jan. 29. ED. SENTINEL.

Permit me to say that the schools of Nacogdoches are making progress, both in the character of work and of discipline, notwithstanding they are being conducted in the poorest buildings to be found.

Many people are enquiring the cost of tuition and board with the intention of patronizing the schools.

Some judicious advertising on the part of the school board would result in the addition of several students from the surrounding country, and would be the means of advancing the cause of education, as well as increasing the influence of the schools and of the community. Would it not be wise to begin a campaign for converting our people to the voting of a building tax for the construction of a \$25,000 school building?

The school interests of Nacogdoches are of paramount importance, and demand more consideration and support than they have received. In volume of business Nacogdoches is outstripping all other East Texas towns, but in school affairs she has grumbled and derided her school building, while Henderson, Center, Timpson, Lufkin and other towns have gone at the matter in the only sensible way to remedy theirs. For some reason the plan of securing a school building by private donation seems to have caught its death cold in the heat of summer. Admitting that sufficient funds could be secured in this way, does it not stand the test that a building tax is the more excellent way to get the whole people enlisted in the support of their schools? From hundreds of examples it can be shown that the people who willingly tax themselves for schools thereby register their patriotism and love for public improvement. Schools cannot thrive without public cooperation, and a tax, in which the masses have a hand, secures cooperation and appreciation as nothing else can.

F. P. MARSHALL.

"WE'VE BEEN SPOKE TO."

Cherokee county is so close to Nacogdoches and was once part of it—and the editor being born there feels privileged to nominate R. W. Haltom for a seat in the next legislature. Some may not like him over there but standing to one side as many of us do, and having watched his course, the fights made, the manhood upheld and his ready ability and aptness for safe conclusions in battles feel that Nacogdoches democrats ought to rise with one accord and elect him. Who will second the nomination?—Alto Herald.

We appreciate the kind words of Bros. Bowers, of the Mule, and Long, of the Herald, but they should not cast any insinuations upon the democrats of Nacogdoches county. We are under obligations to the democracy of this county and always shall be. We have never been mistreated by the true democracy, and have never yet asked a nomination at its hands in vain. We could get the nomination again, we feel assured, but knowing the danger of defeat in the election, we decline to burden the ticket, or force another hard fight upon the party with an almost hopeless chance of success. We feel deeply gratified to many of our democratic friends for expressions of fealty and solicitation to enter the race again, but upon mature thought they must all see the extreme doubt of success and the almost certainty of the election of a populist or an independant should our name take place on the ticket as the democratic nominee. The public will please pardon these remarks. They are prompted by a desire to banish every doubt that may exist as to whether or not the writer will be a candidate for the legislature. We might be induced to go one step higher, and in fact have been "spoke to" (quoting Bro. Daniels); but of that later on.

For County Treasurer.

Nacogdoches, Feb. 3, 1902. ED. SENTINEL:

Please announce me as a candidate for the office of County Treasurer of Nacogdoches county, subject to the rules of the democratic primaries. I am a Confederate veteran of Nacogdoches county, and had the honor to serve my county as District Clerk from 1875 to 1890. Having the misfortune several years ago to have my left foot amputated, and thereby deprived to engage in any active business, and without any employment no man can be happy. I am satisfied that the office I seek will be exactly the place I can fill to the full satisfaction of my fellow citizens and my own, and shall appreciate the favor of my fellow citizens at the democratic primaries.

Respectfully, WM. HILLENKAMP SR.

Oats, Texas red, rust proof seed oats. Shoes cheaper than anybody else. All woolen goods at cost. Clothing at cost. Call and see my prices as I am selling for cost. I give better prices and cheaper goods than any other house.

Jno. P. Davidson.

To The Buyers of Merchandise Of East Texas.

On the first of March 1894 we started in Nacogdoches something our friends feared would prove a failure and our competitors said would soon be a thing of the past as a Cash Store could not prosper here. Now after eight years have lapsed, we are still at the same old stand, and selling more goods than ever for Cash--as our sales for January 1902 show a decided gain over any other January in the history of our business. Last year we undertook to do some credit business in connection with our regular cash trade, but after one years experience we find that to do a credit business successfully it is necessary to charge the good man, or the man who pays his account, enough to make up for the delinquent, or the man who does not pay. Therefore, as we do not care to do that kind of business, we have decided to leave off the credit business, and the year 1902 will find us every day--except Sundays--selling goods for less money than any house in the Stone Fort City. We don't spend money advertising something we will not do. But stand here ready to furnish the proof. Every article you buy of us and find you can do better anywhere else we will cheerfully refund the money for same. In other words we guarantee our prices on everything we are selling.

Shoe Talk:

There are three kinds of material used in the making of shoe soles, namely: Paper, which seems most popular; shoddy leather, which seems second in popularity, and sound leather. Now, as a matter of fact, when a shoe has inferior soles it is entirely worthless and the money you pay for it is thrown away. The buying and wearing of Shoes is unlike buying and wearing of any other article of clothing, a cheap shirt gives the purchaser some service, a cheap dress looks very well for awhile, a cheap hat is not often disappointing to the wearer, and a cheap coat has some value but a cheap shoe has no value, is disappointing and dangerous, when the soles are made of paper or shoddy leather they go to pieces, allowing the feet to get wet and cold always causing bad colds and often pneumonia. By all means we recommend buying good shoes. We have a full line of the famous Hamilton-Brown shoes--every pair warranted to be good leather. If you are not already a wearer of them try a pair.

Winter Underwear.

You may need a few suits of heavy underwear to finish up the winter with. We have cut the prices almost half on all our winter underwear rather than carry it over.

RAILROAD RUMBLINGS.

Topics and Tips Picked Up By the Reporter.

M. Tansy, who has the contract for the grading of the T. & N. O. railroad from "one end to tother," has been in the city several days receiving bids and awarding contracts to sub-contracts. He also has a large number of teams which will be put on the grade and work will soon be going on in earnest, and it is thought the gap between here and Jacksonville will be completed this summer.

Messrs. Parks Bros. have secured a portion of the road and will establish their camp at Lyles creek, nineteen miles from Nacogdoches.

The question as to whether the road will run by Rusk or not has not been fully settled and no work will be done on the grade west of the Angelina river until that matter is settled.

Coal Mine Fire.

For several days there have been persistent rumors that the coal mine was on fire, and still other reports that it had been burning but was extinguished. For a month or more there has been frequent trouble in the mine, by slack left in the rooms igniting spontaneously, and for several days past such a fire has been burning in one of the abandoned rooms. Last night this room fell in, and Manager

Coleman thinks he will control the fire without further trouble. None of the tracks have been injured, and he hoisted coal yesterday and today.

Such are the facts as related to this paper by W. J. Rodgers, who left his home with Manager Coleman about ten o'clock this morning.—Timpson Times.

Flourishing Tomato Plants.

THE SENTINEL is indebted to Capt. Jno. S. Doughtie, correspondent of the Houston Post for the following description of the hot beds of the Merchants Auxiliary of Nacogdoches, which will plant fifty acres in tomatoes this spring, and which has eight hot beds, 8x60 feet, and the plants are now up looking healthy and fine and taking on the third and fourth leaves. The beds are incased with planks with an eight-inch space between the walks filled and packed with dirt, and covered with heavy ducking. Pine straw, which is convenient and in abundance, is placed on top of the duck cover about a foot deep in cold weather. Under each bed is a furnace, which is fed night and day to keep the temperature in the inclosure at the proper heat. A peep at the little plants during this, the coldest spell of the winter, discloses the fact that they are as comfortable and flourishing as if it was warm spring time. The plants in these beds alone are sufficient to transplant 200 acres.

For County Treasurer.

We are authorized by Frank Summers, Sr., to announce him this week for the office of County Treasurer. Frank says he reckons everybody knows him. He has been in county a long time and has been in public business more than thirty years. He offers no excuse nor any apology for running for office, but runs simply because he wants the office for the revenue there is in it. He is a good man for the job, and if elected will take good care of the county's cash. He will be knocking around a little occasionally and will tell you more about his candidacy and how much he will appreciate your vote. Of course his announcement is strictly subject to the action of the democratic primaries.

40 acres of rich land to rent, seven miles east of town.

Favorable to Patrick.

New York, January 30.—The Patrick trial promises to be a long drawn out fight in which the best legal talent will be employed on both sides of the controversy. It is not believed here that evidence sufficient to convict Patrick will be adduced. The testimony of lawyer James Baker of Houston, Texas, was listened to with marked attention throughout its recital. Patrick remarked, sotto voce, during the taking of Banker Meldrum's evidence: "I'll make them look like thirty cents before I get through."

Cason, Richardson & Co. have sold quite a large lot of engines, boilers, saw mills, etc. this month. They are now devoting especial attention to this branch of their growing business. w2

For Tax Collector.

H. L. Turner announces this week for reelection to the office of Tax Collector of Nacogdoches county, subject to the action of the democracy. He has served the people well in this capacity proving himself an efficient officer. If he has failed to give entire satisfaction in any particular no note has been made of it, and no complaint has been made. He is a good man, tried and true and is entitled to the careful consideration of the voters for reelection.

For County Treasurer.

J. A. Pirtle has decided to run for the office of County Treasurer subject to the action of the democratic party and has announced. He has lived in Nacogdoches county 30 years. While he has taught school in several sections of the county, farming has been his specialty. He served one term as magistrate of beat No. 8, and the records show that he filled the office acceptably and well. He is also an ex Confederate soldier, having served 4 years in the civil war. Mr. Pirtle is a thorough business man and well qualified to attend to the duties of the office to which he aspires.

"Not Guilty."

Hon. S. W. Blount has just received news from Center that the case of the State vs Frank Sharp and Felix and Lum Crouch tried at Center on a change of venue on a charge of killing Felix and Sid Roberts, the jury returned a verdict of "not guilty."

J. R. COX, M. D.,

PHYSICIAN AND SURGEON,

SWIFT, TEXAS.

All calls made day and night.

In Honor to Mr. and Mrs. Bert Smith.

Last night the home of Mr. and Mrs. Jule Smith was the scene of one of the most delightful occasions of the season. Rain and mud were forgotten on entering the bright, cheery home. The gracious welcome of the host and hostess, and the pleasure of meeting the honorees of the occasion, Mr. Bert Smith and his charming bride, of Houston, compensated one for braving the elements.

The guessing contest was quite unique, a musical romance. All were provided with pencils and paper, and as the host announced the number Mrs. Lindsey played a melody on the piano, the title of which was the answer to the number. We very much enjoyed the courtship of "Sweet Marie" and "Ben Bolt," though the bridal tour from "Sewanee River" to "Greenland's Icy Mountain" was rather cold. Mrs. Ford was the lucky recipient of the prize, having the only correct paper.

Elegant refreshments of salad, olives, wafers, cake, coffee, stuffed dates and bonbons were served.

Love, laughter and song whiled the hours too rapidly away, and we said, grudgingly, goodnight, wishing we would soon have another bride, and just such a happy occasion. L. D. S.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden, (S. C.) Messenger. For sale by Perkins Bros.

The Molly McGuire.

The Lloyd-Genter company wound up their engagement in Nacogdoches last night with the Black Diamond. The crowd was small last night, in spite of the prices, which no doubt had a great deal to do with drawing a large crowd Monday night. This might be a very good show if they had some actors and a few clothes fit to wear on the stage.

There were about forty people out last night—only one lady in the whole crowd—and the universal verdict is that the Molly McGuire were very bummy.

Bilious Colic.

H. Seveer, a carpenter and builder of Kenton, Tenn., when suffering intensely from an attack of bilious colic, sent to a near by drug store for something to relieve him. The druggist sent him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, three doses of which effected a permanent cure. This is the only remedy that can be depended upon in the most severe cases of colic and cholera morbus. Most druggists know this and recommend it when such a medicine is called for. For sale by Perkins Bros.

Dig it Up.

"Woodmen, spare that tree? Touch not a single bough. In youth it sheltered me, And I'll protect it now."

There is a beautiful sentiment in these old lines which we all learned in our third reader, but it is an open question whether or not they would apply to that cedar tree overhanging the sidewalk on North street in front of the Baptist church.

Outside of the unpleasant sensation of extracting oneself and umbrella from a mass of ice, snow and cedar limbs on a dark night, it would help the looks of the sidewalk to let the woodman have his own way in spite of poetic memories of childhood under this spreading cedar. E.

If its a good Bond, its Persian. We have it in Packet Heads, Letter Heads and Flats. HALTOM & HALTOM, The Printers of Quality.

Endowment Rank K. of P.

Since the establishment of the Endowment Rank, November 7, 1877, seventeen million dollars have been paid to beneficiaries of deceased Knights. During the past year one million seven hundred and twenty thousand and five hundred dollars in death claims have been adjusted, settled and paid. The rank has four thousand sections throughout the supreme domain, with a membership of more than sixty thousand Knights.

This branch of the order is governed by, and is under the direct supervision of the Supreme Lodge. It is an integral part of the great Pythian structure. The endowment which it grants to Knights is safe, sure and reliable; in fact, it is as strong financially as the Order itself. See R. W. Haltom, Secretary Sec. 1865.

Attractive Women.

All women sensibly desire to be attractive. Beauty is the stamp of health because it is the outward manifestation of inner purity. A healthy woman is always attractive, bright and happy. When every drop of blood in the veins is pure a beautiful flush is on the cheek. But when the blood is impure, moroseness, bad temper and a sallow complexion tells the tale of sickness, all too plainly. And women to-day know there is no beauty without health.

Wine of Cardui crows women with beauty and attractiveness by making strong and healthy those organs which make her a woman. Try Wine of Cardui, and in a month your friends will hardly know you.

Justice Court at Garrison.

George King returned this morning from Garrison, where he has been attending justice's court. He secured two convictions, as follows:

Jeff Barrett, gaming, fined \$10.00.

Jeff Wilson, disturbing the peace, fine \$1.00.

Several civil cases were disposed of, as follows:

L. P. Duncan vs Metropolitan Loan Association, judgment for plaintiff for \$99.60.

F. M. Rainbolt & Son vs Metropolitan Loan Association; judgment for plaintiff for \$45.00.

Tom Irwin vs H. E. & W. T. Ry. Co; judgment for plaintiff for \$30.00, value of six head of hogs.

The remainder of the docket was continued till next term.

New York Towns and Liquor.

The returns from the late election in New York state on the liquor question are now in. The vote in 285 towns was against a license; 298 favored a part license, which would permit the sale of liquor at drug stores, groceries and other places where it would not be drunk on the premises, and 352 went for the full license, which would permit the saloons to do an open business and make them pay for it.

Mrs. "Bo-9."

The telegraph operators in Washington who each day and night are compelled to send the name of Mrs. Bonine, accused of the mysterious hotel murder, an almost endless number of times, have devised a way to shorten their work. The numeral 9 is now used for the last syllable of Mrs. Bonine's name. The word as sent telegraphically appears "Bo-9."

A Legacy of the Grip.

Is often a run down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this wretched disease. The greatest need then is Electric Bitters, the splendid tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system, and restore to health and good spirits after an attack of grip. If suffering, try them. Only 50c. Perfect satisfaction guaranteed by the R. T. Shindler Drug Co.

Used Corpse in Revival Service.

A remarkable burial service was held at the Separate Baptist church of Kokomo, Ind., the other night over the body of young Claude Gallimore. In connection with a revival service, penitents were asked to bow at the chancel rail about the burial casket. The body of the young man was used as a leverage to persuade sinners to seek salvation. It was kept in the church all night, and was conspicuous throughout the all-night service.

Saved Her Child's Life.

"In three weeks our chubby little boy was changed by pneumonia almost to a skeleton," writes Mrs. W. Watkins, of Pleasant City, O. "A terrible cough set in, that, in spite of a good doctor's treatment for several weeks, grew worse every day. We then used Dr. King's New Discovery for consumption and our darling was soon sound and well. We are sure this grand medicine saved his life." Millions know its the only sure cure for coughs, colds and all lung diseases. The R. T. Shindler Drug Co. guarantee satisfaction, 50c, \$1.00. Trial bottles free.

To the voters of Commission or Precinct No. 1:

I have this day announced myself as a candidate for county commissioner. I want the office one more term. I have nothing to promise; only to do my best to make you a good commissioner. I know that I will make mistakes. However, I don't think I will make as many in the future as in the past, for the more I serve you the better I understand the work.

Wood has been in demand the past two days and the wood hauler is having his day.

San Augustine is soon to have an up to date planing mill. Mr. Ed Saunders placed an order for two thousand dollars worth of the machinery last Thursday, Cason, Richardson & Co. having secured the order. He bought a new outfit consisting of engine and boiler, re-saw, band saw and complete planer.

E. Faber, from Eagle Lake, has accepted a position with John P. Davidson, of this city. Mr. Faber is an experienced salesman and bears the highest testimonial of good character and trustworthiness from former employers. We welcome him to our midst.

The telephone exchange at Garrison was completely broken down yesterday by the weight of the ice on the wires. The poles were of pine and had nearly rotted off at the ground and when one or two fell under the weight of the ice the whole system went. The exchange will have to be rebuilt entirely. The long distance wires are down, too, on every line leading out from Nacogdoches, the Alto line alone escaping.

Mrs. Wm. Rulfs has been in Houston all this week attending her sister, Mrs. McDonald, who has been dangerously sick with pneumonia. Mrs. McDonald is reported better, and Mrs. Rulfs will return home soon, which is good news to Mr. Rulfs, who has been batching it during his wife's absence.

There came near being a serious fire at the residence of Mr. B. M. Hall last night. An oil heating stove in the room of Isaac Harris, who is boarding there, got so hot during Mr. Harris' temporary absence from the room that it caused an unlit lamp sitting on the table near the stove to explode, setting the room ablaze. The interior of the room was badly scorched and considerable damage was done to the wall paper, bedding and other articles. Fortunately, the fire was discovered before the flames did very serious damage. The books of the Woodmen of the World, of which Mr. Harris is clerk, were slightly damaged.

Mr. Walter Tardy, of the U. S. Navy, and aide to Rear Admiral Reaney, will arrive in Nacogdoches March 1st. Mr. Tardy is a younger brother of Pastor Tardy, of this city. Faust.
The play at the Opera House last night was one of the best that has been presented here. The company was small, but they gave a splendid performance. The scenery was appropriate, the pyrotechnic displays were magnificent and the acting was very good. The weather prevented the attendance of a full house, but those that were there were well pleased with the show.

A Real Daughter Dead.
Mrs. Jincy Bacon, a real daughter of the Revolution, though she does not seem to have belonged to the order, died suddenly at Laurel, Del., Tuesday, being 95 years old and in full possession of her faculties, so that she had confidently hoped to pass the century mark. She was a daughter of Colonel Isaac Fooks, a noted Delawarean and a friend of General Washington, with whom he wintered at Valley Forge.

Harvard House in New York.
The Harvard Club of New York city has determined to go on with the enlargement of its house, for the members have \$30,000 contributed toward the \$50,000 required before the building may be started. The addition will be made on three city lots on Forty-fifth street, directly in the rear of the present club house property, which have been bought by four members of the club, and are offered at cost to the club—that is, for \$121,000. The proposed building, which has been designed by McKim, Mead and White, will cost \$75,000. The membership of the club numbers 1,600, and enlargement is necessary; there must be a larger dining room, and sleeping rooms are to be provided for out-of-town members.

Jam Pot Wagner Autographs.
Autograph letters of Wagner have been discovered in use as jam-pot covers. A German journalist found them at the house of two maiden ladies, sisters of a musician long since deceased, who had formerly been in intimate correspondence with the author of "Parsifal." The ladies were exhibiting to him with much pride their cupboards full of jam, when the journalist saw some writing on the covers which he recognized as that of Wagner. The superior thickness of the paper, which almost resembles parchment, had supplied the reason for its application to this domestic use.

To Ex-Confederates.

Appleby, Feb. 2, 1902.
ED. SENTINEL:
Please give space in your
valuable paper to make a call
for the organization of the old
Confederates of Nacogdoches
county.

We should prepare to go to
Dallas to the re-union or-
ganized, and if possible,
uniformed, with all necessary
banner. A proper showing at
Dallas would be a good adver-
tisement for this county. Talk
with the ladies and men of
Nacogdoches about this and
set a day in the near future
for the Confeds to meet and
organize.

If this move is favorably
accepted, I promise to do all
that I can to push the organiza-
tion to perfection.

Very truly yours,
JOHN T. WALL.

Just a few more John Deere
stalk cutters left; will give
you a low price.

Obituary.

Mrs. Ella M. Rusk depart-
ed this life Dec. 27th, 1901;
she was married to David L.
Rusk Dec. 23rd, 1900. She
was the fourth daughter of
W. S. and A. Denman. She
professed faith in Christ, and
united with the Missionary
Baptist church August 1898
of which she lived a constant
member 'till it pleased our
Heavenly Father to remove
her from our midst. Besides
leaving a father, mother eight
sisters and three brothers,
friends and relatives, she
leaves a broken hearted hus-
band and little infant to mourn
her departure. Why should
we mourn for her? Our loss
is her eternal gain. A short
while before her departure she
called her mother to her dyn-
bedside, bade her good by
with a kiss, and said; "mama
I hate to leave you all, my
husband and little babe, but
I am willing and ready to die
I have made peace with my
God." She recognized all
and bade them farewell. The
parting with her husband
was a sad thing to witness,
with whom she had spent just
one short year. Ella was a
good kind woman, to know her
was but to love her. She was
a devoted wife and mother, a
loving sister, a sweet friend
and obedient child. We
realize its sad to part with one
so young and full of life's
promises, her sweet voice can
never be heard again, nor her
loving face can we ever be-
hold. But let us bow our-
selves in humble submission
to Him, who doeth all things
after the council of his own
will. Let us prepare to meet
her around the great white
throne of God, there we'll
greet the dear one on that
blissful shore, where sad part-
ings come no more.

ONE WHO LOVED HER.

We have the John Deere
plows, for all kinds of land, in
both wood and steel beam.
