Saving on Paint.

If you intend doing any painting this season we feel sure that we can do you good. The whole matter of painting economically depends on getting the right paint at the right price. Some paint lasts twice as long as others. Who wouldn't pay more to be sure of such paint? Our intention is to furnish you that quality without it costing you more than poor—perhaps less.

Everything in the Paint Line—No matter what you wish to paint or how you want to paint it, we have what you need. When you are ready to paint we want to see you. We are glad to give quotations at any time.

J. A. Turney of the Craft community was in to see us Tuesday. Mr. Turney informs us that the T. & N. O. graders have reached his place, which is seven miles from town. A switch is to be put in there, and it is expected the new road will handle a good part of next year's tomato crop, via Nacogdoches and Shreveport.—Jacksonville Banner.

A MEXICAN KILLED.

Mangled Remains Found Two Miles South of Town.

Sunday morning as the local freight on the H. E. & W. T. pulled into Lufkin, blood and pieces of clothing were found on the wheels and break beams of some of the box cars, which led the train crew of the local to suspect that a man had been killed.

Passing trains were notified to look out for a dead man any where between Logansport and Lufkin. The first train out from Lufkin received slow orders and when within two miles of Nacogdoches the man was found.

On arriving in Nacogdoches, Mr. Dooley was informed of the find and he phoned Sheriff Spradley. Mr. Dooley had an engine ready and took the sheriff to where the dead man was. Upon investigation it was found from papers on his person (on what was left of it) that his name was Rafael Oliba.

He had been here four or five days and was employed on the railroad section south of town. From letters found in the clothing his home is in San Antonio, as an envelope was addressed "Rafael Oliba 1526 Jones avenue," and postmarked at San Marcos.

The Election Returns.

The election returns as printed in The Sentinel this week were taken from the record in the county clerk's office before the commissioners' court met. They are correct, except that the Sterne box was thrown out because of the failure of the officers to make proper report. The result is not effected; only the totals are changed.

There were 1,691 votes for the poll tax amendment to 1,183 against.

Nacogdoches Pears.

Wm. S. Parton, Esq., recently sent a crate of pears to some St. Louis friends, the receipt of which was acknowledged as follows:

"Dear Sir: We have seen and enjoyed the immense pears you sent Mr. Paramore, two of which beat any three of a kind we have ever seen. Nacogdoches county will, of course, have a fine exhibit at our coming World's Fair—the best way to bring her resources before the public."

The letter is signed, G. J. Tansy, L. D. Dozier, Henry T. Kent, Rolla Wells, James D. Blair, T. E. McPhelin and W. M. Lee, all prominent members of a St. Louis commercial club. We trust that the suggestion that Nacogdoches have an exhibit at the World's Fair will not be passed by lightly.

THREE ACCIDENTS.

A Horse and Mule Killed By Train—Two Men Injured.

A horse and mule belonging to Mr. Jno. Lewis, of Lola, and driven to a wagon by Leo Causey, a nephew of Mr. Lewis, were killed about 10 o'clock today by a train at the crossing of Cox street and the railroad track. Mr. Lewis was on the wagon at the time, and he and Mr. and Causey were both riding on the hind part of the wagon, which had no bed on it. Both men state that there seemed to be two trains switching, and passing in the same direction, but owing to the view being obstructed by some box cars standing near the crossing they did not see but one until too late to avoid the accident. The first train passed on and they immediately drove up on the track behind it. The other train was backing up in the direction the first one had gone and was right upon them before they could realize the danger. Mr. Causey made a frantic effort to back the team off the track, but it was too late. Both men leaped from the wagon and saved themselves, but the team was crushed under the car. The front wheels of the car that struck the horses were derailed.

Quite a serious accident occurred at John Muckleroy's cane mill this morning, in which George Muckleroy, a cousin of the mill owner, was severely cut with the cane knives.

Last night at Jean's mill about five miles from town Joe Allen, one of the mill hands, got caught in the belting, and was painfully injured.

Gentry Bros. Famous Shows United.

For almost two score years Gentry Bros. Famous Shows have been the leading trained animal exhibition of the country and this year finds the Show twice its former size. A double herd of performing animals is carried, to say nothing of a half dozen or more novel acts which are entirely new in shows of this character. Gentry Bros. exhibitions have long been patronized and endorsed by the Elite of the land and after many engagements in this city their visit should be a grand success, as all former ones have been. The date of exhibition is announced for Saturday Nov. 15 twice Daily at 2 and 8 p. m.

Negro Killed Near Garrison.

The negro, Aaron Millard, that was killed out at Charleyville last Monday night, had in company with several other negroes, gone out to the saloon to get whiskey and "talk lection." As we learn there was nothing unusual occurred until a late hour and the crowd became boisterous and the saloon was closed. Millard was the last to leave, and the crowd had been gone for some time when Millard called for some matches, which were given him and he left and when he reached the gallery in front of the saloon a fall was heard, and upon examination Millard was found on the floor with a bruise on the temple that is supposed to have been done with a beer bottle. Search was made, but no one could be found about the place

that suspicion pointed to. They had slipped away and no trace of the guilty parties could be found.—Garrison Signal.

HALTOM & HALTOM, Publishers.

R. W. HALTOM, Editor

It is conceded that the republicans will still hold the balance of power in congress as the result of the elections just held in forty three States.

THE democracy of Colorado should be commended for its gallantry, at least. The only candidate it elected on the state ticket is a woman, Mrs. Helen L. Grenfelt, who was re-elected superintendent of public instruction.

THE Lufkin Tribune is in clover. It is now running a sixteen hundred dollar delinquent tax list for Angelina county. Nacogdoches is one of the banner counties in the state. She had one of the smallest lists published, under the new tax law.

Nacogdoches county elected a democratic representative this time, but fell down on sheriff, as usual. "Marse John" Spradley seems to have a lien on that office down there, and there is no way to prize him loose from it.—Jacksonville Banner.

It "shore do" seem that way. "Deed it do."

WE believe that the Dal-Gal. Newses were right in nominating Spradley for governor. He is the smartest man in these United States and he ought to be president. If we could only induce him to come out he would be elected—in Nacogdoches county at least.

THE election didn't come our way all the way through, but it came "very near it." We are somewhat disappointed, but not "down in the mouth." We beat 'em all but two two years ago, and we got one of them this time. We will get the other one next election—provided he don't run.

WE never thought that Bro. Veach would get a hundred yards away from Hemphill, but here is a copy of the Lindsey News, Vol. 1, No. 5, published at Lindsey, Indian Territory, with "Andrew A. Veach, Editor and Proprietor," at its mast head. The News is a seven column folio, printed from a brand new press, and looks quite different from the little Hemphill paper he used to run as a diversion from his other literary and ministerial work. May he escape the "scalping knife" and live long and prosper in his new field.

THE next thing now is Thanksgiving, and all of us have something to be thankful about. We once knew a girl who said no matter how much trouble she had, she was always thankful she wasn't dead headed and cross eyed, and a man of our acquaintance once remarked that if he was in a well forty feet deep and had no chance of ever getting out he'd still be thankful he wasn't some folks. And so it goes. Hunt something to rejoice over. If there isn't any thing else to be glad about, you can always be thankful that you live in Nacogdoches.

WE sympathize with Orange in her deep affliction. Men are killed down by twos and threes at a time and she has lost several valiant officers by the murderer's bullet. She has just gone through one of these ordeals, in which the city marshal and two other men were killed.

THE great No-Tsu-Oh Carnival will open at Houston in a few days, and it is said, will be grander and more magnificent than ever before. Every feature connected with the entertainment will be of a high standard, and every effort is being made to make the Carnival the most successful week of festivities ever attempted in the state.

Col. Bill Haltom is not "spitting political fire" this campaign year, as has been his wont in the past. What's the matter William? Have you learned that the politician only loves you while you are engaged in putting down in his bed and sharpening thorns for yourself? Eh, how is it, Bill?—Carthage Mule.

Didn't think the occasion required it, Colonel. Then, we didn't want to do the fighting "all alone."

JIM CROW POPE is on top again. He has been elected district judge of the Beaumont district. His "majority" was small, but all sufficient," says the Beaumont Journal. His opponent, Hon. J. D. Martin, went the way of all other "independents"—that is, most all other independents. Judge Pope is the successor to the late Judge West, who could only be removed from the office by death—as it will be with Judge Hightower, in a neighboring district.

IN New Orleans a law has just gone in effect separating negroes and white people while traveling on street cars. Separate coaches are not provided, but a screen is placed through the middle of the cars and the negroes are seated on one side and the whites on the other. The greatest difficulty in enforcing the law is in keeping white women from occupying vacant seats on the negroes' side. It would be easier to enforce the law to provide entirely separate cars, and when Nacogdoches gets her street cars running and such a contingency arises we will have whole cars separate for the "cullud population."

GREAT men are not conceited, or they would go to church, conferences, the senate and other places in closed carriages, rather than have snapshot kodak pictures of themselves in all the papers next day. They are always in such preposterous attitudes and their feet stick out so idiotically. One of Roosevelt and Cortelyou walking to the White House is enough to make the two victims drop dead if they ever saw it. And the last Collier has a photo of J. P. Morgan on his way to stop the strike that would stop a clock. It is one of the penalties of greatness to be slandered, and kodaks and engravers' tools do slander people. No human being ever took a step as snapshot photos represent them in the act of walking.

THE Tribune is expecting great times in Lufkin next week. It says: "With Evangelist Mulkey conducting a meeting in Lufkin, district court in session, the grand jury making inquiries into the morals of the county and the county commissioners canvassing the returns of last Tuesday's election, there will be a variety of interests in the city next week. The town will be crowded, the merchants will be busy and everything will have the appearance of real city life. Fact is Lufkin is getting to be quite metropolitan any way."

PREPARATIONS will begin at once toward carrying out the plans of the government for a tobacco experiment station here. Mr. Shelfer is now moving to Nacogdoches and will henceforward be a resident of this city. The government will supply him with four assistants—apprentices, so to speak—the rest of the labor and help necessary to cultivate and handle the crop of twenty-five acres to be supplied by the "stock company." The land will be selected and broken at once, and barns, etc., will be erected in the near future. The subscribers to stock will probably be called on for a portion of their subscriptions next month, and then we will begin to get down to the reality of the enterprise.

There seems to be something in the rumor that Judge Davis intends to resign the office of district judge; and candidates are becoming numerous. The latest mentioned is the Hon. H. B. Short of Center.—Nacogdoches Sentinel.

Mr. Short and his friends should be muzzled until Cherokee county is heard from. Of course Cherokee will want the district judge should Judge Davis resign. The only question is as to the number of applicants for the job she will have.—Lufkin Tribune.

Cherokee is in it, and we wouldn't be afraid to stake a year's subscription that a Cherokee man's petition will be forwarded by the same mail that conveys the judge's resignation to the governor. Them Cherokee fellows are "Johnny on the spot," when there is a prospect ahead like this. The "grass" will have to stop growing until this thing is settled, whether Judge Davis resigns or not.

THE question, "Is the world growing worse?" is being discussed a good deal lately. Many think it is, and try to prove their view by pointing to the apparent increase of crime as published in the newspapers. This is not a correct way of gathering statistics, for, of course, no estimate can be arrived at of those who do not commit deeds that get exploited in the daily papers. We do not believe the world is growing worse, in spite of the appalling fact that the republicans hold the balance of power in this country, and the fact that the big dailies bristle with crimes. The average is the thing to take. Nacogdoches county, for instance, has 4000 voters. Of these, maybe a dozen commit deeds deserving punishment as felons, while a hundred get in the

grasp of the law for minor offenses during the year. The rest, barring a few hundred loafers, are honest, lawabiding citizens, working from ten to twenty hours a day to make a living, and giving all their money to their wives to spend. There is nothing about them to make news. Imagine people running out to the front gate to get the paper and read that "Mr. Smith keeps sober," "Mr. Brown has been seen kissing his own wife," "Mr. Jones took all the kids to the circus," and "Mr. Robinson wore to town a crocheted necktie of his wife's manufacture." Imagine the newsboys crying, "Extra! Extra!" "All about Mr. Blank cooking breakfast while his wife is sick." No; what the people want, as Mr. Dooly says, is "something different," and so as to all this published wickedness having a bad effect, it is quite the contrary, for it teaches two things to a thinking mind: First, that one's sins are sure to find him out; and second, that while doing wrong may be adventurous and romantic, figuring in the police court is not. And man is, after all, a thinking animal. The world is growing better; not worse.

THE Houston Chronicle is advocating better sidewalks as earnestly as though it were published in Nacogdoches. Not an issue of that paper comes out without calling attention to the fact that they are needed. The Chronicle is doing good work and is engaged in a good cause, if the sidewalks are half as badly out of repair, (or out of existence), in Houston as they are in Nacogdoches. We can worry along without airships for awhile, and can do without pneumatic tubes to send the mail to Houston. We can even exist without wireless telegraphy to take the place of the telephones. But most of us walk—occasionally. Some for our health, some as the only possible means of getting from one place to another, and good sidewalks—walkable sidewalks—are needed. After a rain in our city now the people resemble kangaroos, as they go hopping along over the mud puddles. Artemus Ward calls the kangaroo "an amusing litte kuss," but the average person does not yearn to resemble it. He wishes to proceed on his daily path in life with dignity, and as much grace as he can manage, and not fall from grace every time he sidesteps a muddy stretch of ground, or takes a running jump over a young river. The matter of well drained sidewalks is not a hard nor an expensive problem. They are easily kept in repair, and add so much to the looks and price of city property that it is strange they are not more carefully looked after.

The Molineux case has been hanging fire in the New York courts for years. If they want to get rid of it they might take a change of venue to Nacogdoches.—Tyler Democrat and Reporter.

That depends upon what it is about. But Nacogdoches is equal to any emergency. Send him along.

Aunt Lucindy

Always carries Hunt's Lightning Oil around with her, says it's fine for swelling, toothache, colic, weak back and back-ache, cuts, burns, neuralgia, catarrh. Aunt Lucindy has sixty-nine grand children and ought to know what she is talking about.

Mrs. Jennie Clark, of Luling, is in the city in the interest of the Belle Haven Orphanage. This is an institution which was established three years ago by Mrs. Clark, entirely with her own means, first using her residence as an orphanage. Since its establishment Mrs. Clark purchased a small farm and a home adjacent to the city of Luling which she has dedicated to the children in her charge. Mrs. Clark is a noble woman, inspired with a noble mission and it is gratifying to note her success. She is spoken of in the highest terms with elaborate praise by the press where she is known, and she has in her possession hundreds of letters bearing testimony to her eminence as a philanthropist and a Christian lady. It would be but a recognition of a most commendable enterprise for Nacogdoches to extend Mrs. Clark its most substantial encouragement together with its genuine hospitality during her stay in our midst.

During the week the Shriners' Parade will take place, and there will be many other attractions including the Crysanthemum and Flower Show, and the Annual Poultry Show. The citizens of Houston are making the most extensive and elaborate preparations to welcome His Royal Highness, King Nottoc iv., and it is the duty of every citizen of Nacogdoches and vicinity to join Houston in welcoming this august personage. In conclusion will say that there will be ample hotel and boarding house accommodations for all at regular rates and exceedingly cheap railroad rates from all points.

MOTHERS

TESTIFY TO THE BENEFITS THEIR

SICK BABIES

HAVE RECEIVED FROM THE USE OF

LAXAKOLA

Having received your sample of Laxakola, I was very much pleased with it, and have purchased a bottle for my baby. The Laxakola did wonders for my baby's case of bowel troubles. I have given to my baby nothing but Laxakola, and had it cheaper and a great deal better. I got it from C. H. & H. A. Union, per Union and Purchase Sts., Boston, Mass. Mrs. CHARLES CASWELL, North Dartmouth, Smith Mills, Mass.

Enclosed please find 50 cents in stamps for a bottle of Laxakola. I used your sample bottle and it did all you claim for it, as it helped my baby wonderfully. Mrs. JOHN FARNAH, Union Depot, Dauphin Co., Pa.

I wish to thank you very much for the good Laxakola has done my little niece, Marion Lurine Bask. She is only two and one-half years old, and has suffered something awful from constipation. She has never had what you would call a natural movement. Sometimes we were almost afraid of convulsions, it hurt her so much, and she would be so frightened.

LAXAKOLA is a pure, gentle and painless liquid laxative, and contains valuable tonic properties, which not only act upon the bowels, but tone up the entire system and purify the blood. A few drops can be given with safety to very young babies, which will often relieve colic by expelling the wind and gas that cause it. Great relief is experienced when administered to young children suffering from diarrhea, accompanied with white or green evacuations, as it neutralizes the acidity of the bowels and carries out the cause of the fermentation. LAXAKOLA will aid digestion, relieve restlessness, assist nature and induce sleep. For constipation, simple fevers, coated tongues, any infantile troubles arising from a disordered condition of the stomach, it is invaluable.

Try it Today. Send for a Free Sample. It may Save your Baby's Life or Prevent a Long and Serious Illness. It Costs Nothing; Send For It and mention Your Druggist's Name.

For Sale by

ALL Druggists 25c and 50c, or we will express charges prepaid, a large quantity of LAXAKOLA. Address THE LAXAKOLA CO., 225 North State St., Philadelphia, Pa.

R. W. HALTOM, Editor

THE United States imported 7,666,162 bushels of potatoes during the year ending last June, which goes to prove that Nacogdoches Truck farmers can plant them safely for the next year or two, with no danger of over production.

THE president has discovered that Southern republicans keep up the organization of the party more for the control of federal patronage than for the purpose of getting votes, and is now scheming to reduce the Southern representation. He wants to deprive them of their "rights in convention and in congress." The Southern democrats will doubtless render him all the assistance in their power.

HOUSTON will be all aglow again in a few days with her annual No-Tsu-Oh carnival. Houston is the only town in the world that can equal Nacogdoches in a carnival, and we are half a mind not to admit that much. But Houston's carnivals are great, and we have attended two or three of them when it looked like the whole world was there to see the show. They will be there again in a few days and the Magnolia City will entertain them.

OUR steamed contemporary, the Alto Herald isn't "toting fair." When The Sentinel "man" sits up nights and labors earnestly and zealously to write scientific articles on mocking birds, frogs and things, this paper is entitled to the full credit for it, and it's a downright "dirty Irish trick" in Bro. McClure to steal them "bodotiously" and pass them upon his defenseless readers as original matter. Don't do it again, Tom.

When Napoleon said, "I fear one newspaper more than a hundred bayonets," he meant a newspaper that prints the news.—Houston Chronicle.

Yes, or he might have meant the newspaper that would get the news by questionable means, even to the extent of contempt of court. Then he might have meant a paper that had opinions and was not afraid to express them, or he might have meant a newspaper that would print the truth. In fact, a man might have good reasons to fear any kind of an old newspaper.

THE country is to be congratulated that the strike commissioners "finished their work in good physical condition and separated in the best of spirits." We were afraid they would overtax their physical strength in wrestling with this intricate and obstinate problem, and that the misery and poverty they would come in contact with would make them low spirited. We are gratified that the president has selected a committee fully equal to the occasion. It must be trying on one's constitution to sit in hotel parlors for two weeks and "keep up spirits" at the same time.

THE president has planned another trip South and will begin his tour next week. Texas is not in his itinerary, but as his route is not fully decided upon, he may yet honor the Lone Star state with that long promised visit.

THE Troupe Banner invites The Sentinel to come over and see a "saloonless Tyler," as though it thought it would be a disappointment. Your insinuation does us an injustice, brother. We rejoice with you in your victory; but nevertheless we were surprised that even Smith county, to say nothing of the city of Tyler, went for prohibition. Indeed, we could not conceive of a Saloonless Tyler until you "showed us"

ANOTHER Barron Muenchausen has suddenly sprung into notoriety; not in a book this time, but through the newspapers. This modern Muenchausen entered into a contract with a Berlin marriage syndicate for an American wife worth seven and a half millions, promising the syndicate 5 per cent of the money. The syndicate paid the Barron's expenses to America to "negotiate" the marriage, but the heiress refused him. However, he succeeded in marrying an American widow of moderate wealth and the syndicate claimed that he owed them three hundred and fifty thousand dollars. He sued the syndicate for blackmail, and so the matter is compromised. But it gave the Barron a little unsavory notoriety, the newspapers a nice "dish" of sensational stuff, and shows us the fickleness of which the American heiress is regarded abroad, and which will ever be as long as our girls exchange their wealth for foreign husbands with empty titles.

THE immense saddlery establishment of Tom Padgitt at Waco is the oldest saddlery as well as the largest in Texas. It has a state-wide reputation, the result of persistent and judicious advertising, backed up with superior goods and fair dealing. Mr. Padgitt began thirty-five years ago by putting up a small saddle shop. In a little while it became a "store." Then it developed into an "establishment," and now it is a "mammoth concern," and is entitled to the appellation in every sense of the word. "Padgitt saddles" are the standard, and their superiority is recognized from Maine to Mexico. The man who owns a Padgitt saddle is admired for his judgment, and always congratulates himself upon his selection. The Sentinel man himself remembers with pleasure an occasion twenty-seven years ago when he bought a real "Padgitt Saddle" in person at Tom Padgitt's "store" in Waco. It was comparatively a small concern then, but it was getting up a "rep" which has never ceased to grow. Today it is the biggest establishment in Waco, with a number of branch houses throughout the state, and controls an immense wholesale trade, covering more territory than any other concern of the kind in the South.

out from the government sent reau of statistics, under date of Nov. 5th, shows the number of bales ginned in the United States up to and including Oct. 18th, 1902, from the growth of 1902, to be 5,924,372. Of this, Texas has 1,731,797, or nearly one-third of the whole. These figures are obtained from reports from 29,314 gins, sent in by 626 paid local special agents of the census office. The Texas estimate is based on reports from 1,509 ginneries including 70.4 per cent of the 1902 crop of the state. The estimated per centage of the total crop of the United States ginned up to Oct. 18th is 60.1, which would place the figures at about 8,289,595 bales, or about one and a half million bales short of last year's crop, which was 9,954,945 bales. The government figures, however, do not tally with the circular of Theodore Price sent out from New York about the same date, and estimates this year's crop at less than half a million bales short of last year's crop. The Price circular estimates the Texas crop this year at 2,303,485 bales, against 2,594,442 last year, a difference of nearly three hundred thousand bales.

To Colored Farmers.

To the colored farmers and those interested in fruit and truck growing:

Experience teaches us that whatever is good for the betterment of the white people is doubly so for the colored people. The white farmers and others among them have organized a fruit and truck growers' association in order to diversify their crops and to develop the agricultural resources of our country. They have gained much from this move and are preparing to do more. Observation teaches us that no one can farm to the best advantage unless there is some experience mixed with the soil, which is seldom done by the colored farmer. In view of this pressing necessity, I hereby call a meeting of the colored farmers, and all those who are interested in fruit and truck growing, at the court house in the town of Nacogdoches, Saturday, Nov. 29th, 1902, at 2 o'clock, p. m.

We respectfully invite any of our white friends to assist us in starting off.

Respectfully,

B. J. FULLER.

The National Good Roads association is strongly advocating the practicability and advisability of using convict labor for improving public roads, instead of having it compete directly with free labor. This idea is indorsed by a great number of prominent men and seems the most sensible way to employ this service, which would then be in the nature of a public utility and offer no competition with honest toil. There is no improvement the western states need more than a good, solid road system.—Chicago Drovers' Journal.

MELROSE LETTER.

Newsy items from Melrose, Tex., by The Sentinel's Correspondent.

Melrose, Nov. 10.—The opening of the schools has shown how much interest our people manifest in the education of the young. It is a wise recognition of the obligation that rests upon this generation to make provision for the next to advance and meet the demands of their day more satisfactorily.

Texas is on a prohibition boom. Since last June thirty-nine counties have gone dry, and eighty-one out of two hundred and forty have wholly or in part abolished the saloon.

Mrs. Dr. Hardeman and Sister Burk have been on the sick list for some time, but are now convalescing.

Miss Lula Jacobs, who has been dangerously ill for three weeks, is some better.

Consolidated.

Gentry Bros. famous trained animal Shows, which are well and favorably known in this city having exhibited here many times, are headed this way again, and their multitude of patrons will, no doubt, be glad to learn of the permanent consolidation of Gentry Bros. famous Shows. The performance presented this year is a double one, necessitating the use of two fold as many animals as have ever been seen with these popular Shows. The programme is made up of all new acts and features, the majority of which, have never been seen before. The combined street parade of the United Shows makes a sight doubly worth seeing. The date of exhibition is announced for Saturday Nov. 15 twice Daily at 2 and 8 p. m.

An old gentleman by the name of Wm. Hoover, living near Dialville, was killed last Saturday in a peculiar manner. He was standing near a horse, talking to his son-in-law, when the horse suddenly became frightened at the report of a gun and jumped against Mr. Hoover, knocking him down and trampling upon him. His skull was fractured, and he died in a few hours.—Jacksonville Banner.

A Society Tea Party.

Invitations were issued to about fifty ladies yesterday afternoon, by Mrs. E. A. Blount, to meet Mrs. Jennie B. Holmes, at a Tea party. The C. C. and Shakespear Clubs, and a few relatives being entertained. On the arrival of the guests they were handed programs printed in the shape of a T; the contest being twenty-five questions to be answered by various kinds of tea, such as "pover T.," "socie T." etc. Half an hour was spent over this, when the guests were ushered into the dining room where tea and tea cakes and punch were served, followed by cream served in boxes in the form of a T. and cake. Afterward, the merits of the respective contestants were inquired into, and it was found that Mrs. C. W. Butt was entitled to the first prize, a silver teaspoon a souvenir of the old Stone Fort. All the ladies drew for the consolation prize and were nearly inconsolable when they saw the beautiful China teapot that Mrs. Roland Jones, with her usual good fortune won. The booby prize was also cut for, and fell

to the lot of Mrs. F. C. Ford, who received a pound of green tea, to help her know T's in future. The beautiful Blount home was lavishly decorated in roses and palms, Mrs. Blount being noted in this flower loving community for her success in raising both. The colors in the dining room were pink and white. The table was set with drawn work on the polished oak, while pink roses, bons, and refreshments carried out the color scheme to the minutest detail. In one other room only, was one color adhered to a soft crimson room, where scarlet roses glowed vividly in the rich light, and the dusky faces of Egyptian statues peered from among the palms, with most artistic effect. For the rest, the lovely rooms were a bank of roses of every hue, and stately tropic plants. Misses. Mamie E. Blount, Louise Perkins, Salem Reddick and Zirlita Matthews assisted everywhere a pretty little girl was needed. Mrs. Holmes, in whose honor the guests were entertained, is a sister of Messrs. E. A. and S. W. Blount, and Mrs. R. C. Shindler of Nacogdoches. She is a visitor from Waco, and will remain in the city some days longer.

Not Going to "The Country," Editor Sentinel:

I am not going to "move to the country," but to a beautiful suburban home two miles north of town, and but a short distance from the alleged terminus of the prospective street car line. It is only a short run into town and one of the prettiest drives in East Texas. There are orchards, nurseries, gardens, truck patches, pretty homes and the finest tobacco lands in America all the way. The tobacco experiment station will probably be established somewhere in this north country, and of course in the course of time we will of course get the street car line, of course. E. W. SMITH.

"When in town call on us, and we will show you the only home make drug store here. The shelving, counters and cabinets were not made by workmen up North and shipped here, but were made, put up and painted by home men. When we make enough out of you to put up a magnificent building, fitted with elegant furniture, we may employ home men to do the work. But what we now like in buildings and furniture we are trying to make up in the quality and price of drugs. And by the way we do not propose to sell you "no drugs but fresh drugs." Some drugs are like whiskey—the older the better. What would you think of a whiskey dealer who would advertise, "no whiskey but fresh whiskey." R. T. Shindler Drug Co.

The X ray machine which has just been placed in Dr. Smith's office at a great expense to himself and Dr. Nelson, is a wonder to those who have examined it. Dr. Smith gave an exhibition of the machine Sunday morning to a number of visitors to his office who were greatly entertained and almost startled with the wonderful revelations of this mysterious engine of modern science. A coin placed in the middle of a thick book could be seen as plainly as if one held it in his hand before his eyes. A person's body could be looked through without removing the clothing, and every bone could be easily discerned. A bullet in Giles Haltom's leg that has been there fifteen years, that never could be located before, was plainly seen, and quite a number of other such tests were made proving that the X ray is all that has been said and written of it. This machine will be of great benefit to the medical profession in Nacogdoches, and the enterprise of Drs. Smith and Nelson deserves the praise of the people.

It is a very comfortable feeling when you go to sleep at night, to know that your money, instead of being hid around the house where it can be burned or stolen, is in a good strong bank, where you run absolutely no risk of loss. The Commercial National bank of Nacogdoches is one of that kind and wants your business, no matter how small.

Miss Wallace is a most charming girl, loved by all her friends for her lovely disposition, and Mr. Hale is to be congratulated on winning such a prize.

As for Pearson he was raised right in Nacogdoches, everybody knows that there is not a finer young man in Texas. He is popular with every one. We wish the happy young couple every happiness in life, and offer our warmest congratulations to both.

The Truth.

We want to sell our stock out as low as possible by Christmas, so that we can begin with a new stock in January. In order to do this we will offer special inducements from now until Christmas. We are still giving premium tickets, which will be honored up to Christmas day. These premiums are useful articles. Ask your neighbor about them, if you have never gotten any of them.

We are offering glass lamps from 25c up to 50c. Ordinarily you pay from 35 to 75c for same goods. Our decorated lamps run from 35c up to as fine a lamp as any one wants, and you will find that we will save you from 10c to \$1 on these lamps.

We will close out what 4-piece glass table sets we have at 30c a set. Worth from 40 to 50c of anybody's money.

We have about 50 dozen pairs of gloves from 25c to \$1 per pair. These gloves are worth from 35c to \$1.50 per pair.

You will find our crockery line much cheaper than you will be able to get it elsewhere.

We still have about 200 dozen knit shirts and drawers that we are selling at hard time prices. We will open your eyes on this line of goods if you will come in and let us price it to you.

Just come and let us show what we can do for you on shoes. We do not try to make a fortune off our customers.

We are making special prices on small wagons. If you want one for your boy, see us before you buy.

In conclusion: If you are not rich enough to throw your money away, come to us; we hold prices down.

Another Complainant.

Editor Sentinel: Please accept the thanks of one of the long-suffering public for your splendid peanut gallery roast in yesterday's issue. If you could only get the opera house management to take a brush and paint out those drop curtain signs. A stranger in our city, after going to our opera house, is liable to rush around to the "Bullen Livery Stable" next day for a team, or hunt up

"Richard Moore's Saloon," or the "S. P. Moore Drug Store," or call for a copy of "Wilson & Dixon's Sun." It was very nice of the management to give us an opera house some fifteen years ago, but our city has grown some since and we would be glad to see some little improvement along this line. As to the peanut gallery, the section occupied by the colored people is usually very quiet and orderly. The east end, occupied by our future congressmen, governors and presidents, many of whom get in by the telephone pole route, is in pretty bad shape. If it is not nailed up or curtailed in some way, troupes will soon be playing to the gallery exclusively.

"MAUD."

Our Peach Orchards.

Visitors to the nurseries of Prof. F. W. Mally at Garrison report themselves as delighted with what they see of the fine supply of young trees now growing for planting in our county and other points along the line of the H. E. & W. T. Ry. Co. The later part of the season has been very favorable for the growth of June Buds and they are growing at a fine rate. While in the city recently the Professor stated that he was not pushing sales much just now owing to the fact that prices are advancing.

Letters either to Houston or Garrison will receive prompt attention.

For all forms of kidney trouble take only Bak-Ake Specific. Sold and guaranteed by Stripling Hazelwood & Co.

Peach Seed Wanted.

Any one having peach seed gathered, or who can gather good seed will be well paid for them in cash or in exchange for trees if they will apply to me and state the number they have or can get together. Remember also that I still have a full line of peaches, apples, pear, plum and fig trees of the leading varieties adapted to this section and will be glad to have your orders while they yet last. Ladies do not forget the rose garden this fall. I have a specially selected list which is best adapted to East Texas conditions and the plants are stocky out door grown and will be sure to give the best results. Rush the matter of peach seed as it will be too late to use them soon. Apply to me at Garrison, Texas.

UP TO THE WESTERN UNION.

Editor Sentinel:

There are about fifty business men in this town who would like to ascertain whether the Western Union Telegraph Company intends to put in an office up town, as reported some two or three months ago, and as newspaper men are supposed to know everything, I come to you for information. Also, I would like to know if there are any other towns of the size and business of Nacogdoches that have no telegraph offices near their business center.

E. A. BLOUNT.

Sorry we cannot give Mr. Blount the information desired. Col. Wettermark informed us some time ago that he had leased a portion of his bank building for a long term to the Western Union people for the purposes mentioned, and he thought the office would be opened Nov. 1st. That's the last we have heard of the matter.

It Costs Nothing

To secure full and reliable information regarding fruit and vegetable growing in Texas. Nor will it cost anything to learn where these crops are grown the most successfully. Ry., Houston, Texas for the little book "Industrial Development" just issued. It is full of facts which are valuable to the home seeker and investor alike. Every one desiring a home should read this book. It points out the way to success and happiness.

Mrs. J. J. Ramey and children left yesterday for Center where they will visit friend and relatives.

Mr. J. C. Gill left for Monroe La. this morning to see his wife, who is visiting relatives at that place.

R. R. Loy, of Looneyville, was in the city last night. Mr. Loy is ex-county commissioner and a prominent citizen of his section of the county.

Mrs. Finnie Schoner, and little son, who have been visiting Mr. and Mrs. Sol Kaplan, returned to their home in Hot Springs this morning.

Mr. John Harris, one of the officials of Shelby county, returned to his home in Center this morning, after a visit of a few days to his brother, Isaac Harris, of this city.

County commissioner's court is in session for the purpose of canvassing the election returns and officially announcing the result. The tabulated vote by precincts is given in another place in this paper.

Messrs. J. O. Thomas, from Beat No. 2, W. S. Satterwhite, from Beat No 3, and D. C. Mast, from Beat No 4, are all in the city attending commissioners' court. J. W. Byrd, represents Beat No 1, but he is homefolks.

Rev. W. W. Watts gave a splendid dinner today in honor to the little Cole children, it being the last day they will all be together. He has found good homes for each of the little fellows, and while they are to be separated they will be in the best of hands and will receive the tender care of those who will be as near mother and father to them as it is possible to be. They are all bright children and we feel assured will be a pleasure to those who have undertaken to care for them. There were a number of invited guests present at the dining today at the parsonage, and all speak in praise of Bro. Watts for the kindness, consideration and interest he has taken for the comfort, and happiness of these children.

Now that the election is over business will resume its normal state and another rest for two years. The past canvass has been the most quiet known in the history of Nacogdoches county until within the last few days before the election. Voters are losing much of the hurrah for favorite candidates and are thinking more about raising fruit and tomatoes and the county is growing more prosperous under this state of things.—Garrison Signal.

Taking a glance into the future, it would seem as if the coming supply of hogs would be short of the normal, while the cattle receipts would likely be heavier than usual, for the reason that so many have been raised in the locality where they are fed. In some places young hogs are very scarce, and in other places cholera has cut severely into their ranks, so that, taking all reports into consideration, packers are not likely to get more this winter than they need in their regular packing operations. It is a large country, to be sure, and full of surprises, but the hog-raising belt is not as extensive as that where other live stock is raised, and those who keep close tab on these things are inclined to the belief that the supply for the next six months will be small.—Chicago Drover's Journal.
