Fruit and Truck Growers.

The Nacogdoches County Fruit and Truck Growers' association met at the court house in this city Saturday, with a good attendance.

The attempt to amend the constitution so as to make dues 50c a year instead of \$1 failed.

A committee to look after seed and fertilizer for the association was appointed as follows: H. S. Edler, chairman, T. E. Burgess, J. S. Doughtie, R. F. Davis, S. C. Windham, J. A. Pirtle and C. W. Harvey.

B. S. Wettermark, W. S. Beeson and J. B. Power were appointed as executive committee.

Hense Burrows, S. C. Windham, J. B. Power, H. S. Edler and R. F. Davis were elected as delegates from this association to the next meeting of the Central East Texas association, and this association voted for Corrigan as the place of meeting of the next C. E. T. Ass'n.

The next meeting of the East Texas association will be held at Nacogdoches next March, and the secretary was instructed to write the secretary of that association and extend a cordial welcome to our city at said meeting.

Adjourned to meet first Saturday in June.

The Livingston Trouble.

Sheriff Spradley is still in Polk county investigating the incendiary and murder which occurred there Monday night. The only information obtained so far is that Monday night about 8 o'clock some one shot into the house of Pat Lummore, tearing a window to pieces, but hitting no one. The party doing it used small shot. While parties were out hunting the offenders, some party fired Gerlach's and Cochrane's stores, which was discovered too soon for the fire to do any damage. Quite a number of people ran to the stores to put out the fire, and while they were doing so some persons from ambush fired into them, hitting Mack Zimmerman in the head, which will no doubt prove fatal. The bullet struck him just above the left temple.

Negro Thief Arrested.

A young negro named Rhodes was arrested and jailed Saturday for stealing a sack of flour from J. H. Thomas. He also attempted to steal a bottle of alcohol from J. D. McKnight's saloon, but was caught in the act by J. O. Ray. Mr. Ray, collared the thief with the intention of turning him over to the officers, but the negro made fight and jerked loose and ran out. He was captured, though, as he ran out, by Constable Doc Watson. In the scuffle with the negro, Mr. Ray hit him over

the head with a small double barreled deringer, which went off accidentally causing some excitement, and scaring the negro nearly to death.

Colored Teachers' Institute.

Program for Colored Teachers' County Institute, Dec. 13th, 1902:

Paper—The relation of the colored teacher to his race—T. C. Ayers.

Paper—The young negro—cause of his depravity, remedies etc., W. M. Sanders. Discussion of same by Institute.

Paper—Primary arithmetic, A. W. Maddox. Discussion of same by Mrs. Mary Crain and Mrs. Ella Lewis.

Text book work.—The questions in the Oct. Texas School Journal—Conducted by D. C. Thompson.

The colored people, (the teachers are no exception) are great to resolute and make glaring pretensions of what they are going to do, but their recollections soon fail them, and they drop back into the same state of lethargy. Our Institute was organized amid cheers and innumerable covenants for better, but alas! only a faithful few are coming up to the requirements. A hint to the wise is sufficient. Every teacher is urgently requested to be present at our next meeting, as we want to organize a law and order league.

W. M. Sanders, Ch'm. Ella Lewis, Sec'y.

To Truck Growers.

All truck growers wanting fertilizers will please see H. S. Edler without delay, as he will send in the order Saturday night.

HALF a million dollars will be spent by the government on Buffalo bayou between Houston and Galveston during the next year.

THE citizens of Austin are making extensive preparations for the inauguration ball to be tendered Gov. Lanham on the 20th of January.

M. CAMBON, the French ambassador to the United States, presented his letters of recall to the president Saturday and has sailed for his new post in Spain.

SENATOR HANNA is indignant over the report that he is going to resign the senatorship or any old thing. Such a thought hasn't entered the Honorable Marcus's head.

"THE MADAM" is at the helm of the Timpson Times this week, while Editor Ford is attending Methodist Conference at Crockett. The paper will "be good" till the "old man" gets back.

THE enemies of the South in congress are losing no opportunities for making attacks. Taylor, of Ohio, has already offered a resolution touching upon the validity of the Virginia constitution. The resolution is regarded as an entering wedge to the Crumpacker process.

THE people of Nacogdoches county will have an opportunity on the 20th of this month to elect the hog, sheep and goat law for the entire county, if they want it. It ought to include the entire county or nothing. These small hog law districts are responsible for lots of trouble and hard feeling among neighbors.

THE East Texas Fruit and Vegetable association have closed their session at Henderson, electing Nacogdoches as the place of their next meeting, which will be held in March. W. H. Dick, of Palestine, was elected president to succeed Chas. A. Hotchkiss, and J. F. Peel, of Franklin, was elected secretary.

SEVERAL thousand "words" were transmitted to congress Monday, labeled "President's Message." It didn't settle the negro problem, suppress the trusts nor end the strikes, but, it is said, was a splendid display of Rooseveltian rhetoric, seasoned with applause-provoking republican sentiment. It is not considered an able state paper.

WE imagine we can see the tracks of our friend, J. T. Dixon, all over the editorial page of the Conroe Courier. At least The Courier is displaying unusual energy in its editorial department. Editor Lee Frazier is competent for brilliant editorial work, but, like most all-around newspaper men who fill all the places in a printing office from the "devil" to managing editor, he doesn't get a fair chance to display his editorial ability.

TEXAS TOBACCO.

No product of the soils of this country is attracting wider notice at present than Texas tobacco. Numerous tests have been made in a small way, and in so many instances have the most skilled tobaccoists been completely deceived with the Texas product for Cuban tobacco, the tobacco people, as well as the government, have inaugurated a system of experimenting, which if carried out judiciously will result in developing East Texas into the greatest tobacco section of the United States. But experiments are expensive, and it will not do for evnrybody to go at it. The soils are varied here, and while there are soils here that will produce Cuban tobacco, there are also soils that will not produce tobacco at all. This is why the government has established an experimental station here. The various soils will be analyzed and various methods of planting and cultivating will be tried, and when success is attained, which is sure to follow, the people will be given the benefit of an experiment which it will cost the government thousands of dollars to make.

The following report from the Secretary of agriculture at Washington, shows that the government is not only encouraged, but is absolutely confident of success in undertaking to produce a Cuban tobacco on East Texas soil. Secretary Wilson says:

"The Bureau of Soils, which has been engaged for a number of years in investigations looking to the improvement of our domestic tobaccos, has recognized for some time certain qualities in tobacco grown in Texas, apparently occurring in occasional leaves. Soil survey parties and tobacco parties have been investigating in eastern Texas and now are able to state confidently that they have located the soil type and have found the character of leaf possessing these desired qualities under conditions which indicate that it can be produced in large quantities of uniform high grade.

"Only a small amount of this leaf has been grown this year which could be fermented. Samples have been submitted to leaf dealers and brokers in New York and Philadelphia. They say it is a Cuban leaf, with the characteristic aroma of the Cuban product. The department will send two survey parties to Texas the first of January to prosecute the survey of this soil, and will enlarge the party of tobacco experts, so that fifteen or twenty acres of tobacco shall be grown under Government supervision, thus producing a sufficient quantity to be handled on a commercial scale. This will be submitted to the leaf dealers and manufacturers for opinion of commercial value of the crop before any encouragement is given to Texas growers."

The people must wait patiently the results. For all to rush in pell mell and plant tobacco because the government has confidence would result in disappointment and discour-

agement. In the course of time a map will probably be made by the government which will show every acre of land that will produce tobacco, and that that will not. Every man who owns tobacco land will know what kind of tobacco to plant and how to fertilize, cultivate and cure it, and those whose land will not produce tobacco will know better than to waste time with that crop. There are certain climatic conditions, as well as some characteristics of soil which must be overcome by scientific experiment, which entails too much expense for a mere novice to undertake.

WHEN a man comes to your house and offers to sell you goods of any kind "cheaper than the stores, because he pays no rent and has no expenses," put him down as a fraud and slam the door in his face.—Bronson Bulletin.

Or hit him with a broom.

A gentleman was digging in his garden near Nacogdoches the other morning and unearthed fourteen \$20 gold pieces—\$280. Now don't everybody go to digging in their gardens.—Tyler Democrat and Reporter.

Anybody can dig 'em up, if they'll go at it right and stick to it.

FOR once the papers published the "bear" facts in the case of Roosevelt's southern hunt. No one who knows straight up, however, can assert or believe that Teddy was sincere in his reasons for refusing to shoot at the tied bear in Mississippi. He reasoned, really, thus: "Will that tide bear me on to fame? Well, I guess not." And then he said, "Nay, nay, Pauline," or whatever it was the papers said he said.

A TEXAS farmer decided to sell his place, and got a real estate agent to write a notice. When the agent read the notice to him he said: "Read that again." After the second reading he said "I believe I'll not sell; I've been looking for a place like that kind all my life, and didn't know I had it until you described it to me."—Bronson Bulletin.

Lots of folks would be happier and better contented if they would try the same antidote. We know of men who actually sold and then bought their places back again at a greatly advanced price in Nacogdoches county. They never knew how much they loved their old homes until they had parted with them.

Did you ever try to hire one of those negroes that infest Troupe? Well, we have, and they wont work. It is now up to the citizens to resort to Grand Saline's remedy. Their room in our town is worth more than their presence, and they should be made to move, so we can get the room they are occupying.—Troupe Banner.

Just the same in Nacogdoches. Yesterday we offered a "town-niggah" ten cents to carry one end of a hundred pound "form" about seventy-five steps and he refused with exasperating insolence. We need a "race riot" here just long enough to move out this worthless element. And there might be a small bit of "white trash" to shove along, too, if we would apply the microscope and search-light.

THE Free State Enterprise has been purchased by R. M. Gilmore, Editor Sanders having been elected to the legislature. Gilmore is a newspaper man and will carry out his promise to give Canton and Vanzandt county all his patronage will justify.

SMART SET remarks, "Only religious compositions should be played on an upright piano." The magazine of cleverness should not be narrow. An upright piano would make any music good. We think, however, that the intention was to say "religious compositions should only be played on an upright piano." But even so, what is the matter with a "square" piano?

"POSING" is criticised as affected by all. Let a man be suspected of posing in the public eye, and he is fairly laughed out of political existence. And yet, how unjust this is. Everyone in this world is guilty of it. Man proposes, woman sup-poses, a tramp re-poses, and all im-pose on one another as much as possible. A man without a purpose in life is an acknowledged failure.

To paraphrase George Eliot, it's easy work finding reasons why other folks should mend their sidewalks. Dallas seems to be having as much trouble with poor sidewalks as smaller towns. During the recent heavy rains the attendance at the public schools fell off 25 per cent because the children could not get to school through the mud. This does look inexcusable for a city the size of Dallas—but perhaps we had better mend our own walks before we criticise our neighbors.

THE Bowie News comments on a Texas editor who ran the Ten Commandments in his paper under the heading of "Gems of Modern Thought," and the Galveston News assists gaily at the roast. Now the editor who published the Commandments may have been sincere—may have seen them for the first time and recognized in them an epitome of all law; a good thing to push along. The Bowie man in his turn is perfectly justified in his remarks, but the Galveston News, in roasting chestnuts, is the most striking illustration of residing in a crystal palace and toting a slingshot that ever happened.

THE president has nominated Major H. H. Cooper for reappointment as postmaster at Nacogdoches, and his appointment is now in the hands of the Senate for affirmation. This gives Maj. Cooper the office for three more years from next January. The prospects are good for this to become a second-class office next year, in which case the postmaster's salary will be materially increased and an extra clerk allowed. While Postmaster Cooper's reappointment is nothing more than was expected, yet his friends and the patrons of the Nacogdoches postoffice are congratulating him and themselves upon the news from Washington.

THE Tyler Democrat Reporter says that Tyler is in the very heart of the fruit and truck belt. That fruit and truck belt has a very large heart because Nacogdoches is there too.

The carrier boy for the fire limits gave us the "go by" without giving us a chance to "break in" a new boy. If you miss your paper for a day or two report to the office so we can get the new boy straightened out.—Sentinel.

It has always puzzled us to know how the subscriber will see such a notice, if he fails to get his paper.—Timpson Times.

Dear sister, the "chief" ought to have enlightened you before he went off to Conference. You see, everybody sees The Sentinel in Nacogdoches. If they don't see their own they seize their neighbor's. See?

WHY should women any longer feel their dependence upon the sterner sex? Some of the most brilliant financiers of the world today are women. Some of them have accumulated millions as the fruits of a life of toil and care while others have acquired millions at a stroke. Aunt Hetty Green has grown old as her millions piled up, while the brilliant young Barroness de Pallanat, who has recently returned from Mexico, made millions in as many weeks as her older sister in finance spent years in piling up. Women are usually about as successful as men in anything they undertake. Intellectually they are man's equal and the only reason why so few women have become great financiers is because of the common sentiment against the female sex engaging in masculine pursuits. But the new woman has come, and she is proving herself capable of other things besides riding bicycles and wearing bloomers, and the old bald-headed boodle baggers will do well to keep an eye on her.

IT is hard to conceive of a thing more contemptible than plagiarism, and the most contemptible of plagiarists is an editor who steals the ideas and verbiage of a contemporary, changing such words as needed to give it the phrase of originality. Here is a sample from the Abilene Sentinel, a measly populist sheet, stolen bodily from The Nacogdoches Sentinel, with the words in parenthesis changed so as to apply to Abilene: "We had a dream the other night, when all was fresh and fair. We dreamed we walked up Pine (Main) street and the Federal building was there. We dreamed the town was all cleaned up and sprerd out twice as far; we dreamed we rode up Chestnut (North) street in a brand new trolley car. We dreamed another railroad line had found out our town; we dreamed the fruit and truck farmers were winning out hands down. We dreamed The Sentinel had bought a Merganthaller lino-type—but that was getting most too gay, and so we waked outright." It will be seen that the plagiarist only had to change two words to transfer the scene from Nacogdoches to Abilene.

There is not a cloud on the horizon at present. There seems not the slightest chance of trouble with a foreign power.—Roosevelt.

Wonder if Teddy is looking for a "chance" to have a scrap? He hasn't showed his teeth for some time.

The smallpox scare at Nacogdoches has died out and the few cases of scarletina have recovered, says the Sentinel.—Timpson Times.

That's what we said, but we've "relapsed" slightly. But dont get alarmed. If you never get worse smallpox than we have in Nacogdoches, the "madam will survive till the Chief's return."

THERE is a big lot of talk going on in the papers as to whether a man can live on 200 dollars a year, and the Post Dispatch says "certainly, at present prices of tobacco, beer and whiskey, no man can live satisfactorily on \$200 a year. He could scarcely do so with all three of these necessities eliminated."

THE second number of the Bronson Bulletin, published by W. A. Fields at the new town of Bronson on the Kirby road, has reached our exchange table. We failed to receive the first number, very much to our disappointment. The Bulletin is several years ahead of the country in which it is published, but its mission is to build that section up to its standard, and The Sentinel doubts not that it will succeed in a very short while. Bro. Fields is an experienced newspaper man and has a statewide reputation as an editorial writer, orator and politician. He was but a short time back editor and proprietor of the Hillsboro Mirror, the leading paper of Hill county, and has served the people of that county in the legislature. He will be a leader in his new locality, and we congratulate the people of Sabine county upon his advent among them.

THE Houston Post displayed unusual thoughtfulness and consideration for its readers in Wednesday's edition, which contained the President's message. Usually the President's message is printed in its unbroken entirety, and it is dangerous to try to wade through it all at once. Men have been known to go insane from rashly attempting it. It is left to the Post to discover a way to make it easier reading. Right in the middle of Teddy's deepest sentences where he asserts that class animosity in the political world is, if possible, even more wicked etc.—just as the brain begins to reel,—the Post changes the subject adroitly to wood cuts. The next sub head of the San Juan Heroe's remarks is entitled "with the Magazines;" the next, "Howard Pyles Work," Mr. Pyle being a magazine writer of note. When the next head is struck, and we again recognize the strenuous style, the brain is "rested and ready to grasp questions of labor and capital. This idea of putting extraneous matter of interest in presidential messages is a brilliant one, and we hope to see it universally adopted.

APPRECIATES THE SENTINEL.

Thos. A. Dixon Esq., Sends Greetings to His Nacogdoches Friends.

Braxton, Miss., Dec. 5.
Hon. R. W. Haltom,
Nacogdoches, Tex.
Dear Sir and Friend:

Some good christian man or woman, entirely unknown to me, overflowing with the milk of human kindness and evidently luxuriating in the performance of good deeds, has been sending me for the last month or two the Daily Sentinel, for which I am devoutly thankful, and the appreciation of the paper is exchanged by the fact that a good old friend like yourself, whom I so pleasantly remember, is the editor and owner. As I glance over the columns of your faces, many happy memories come rushing on my mind, and the good old times that I knew at old Nacogdoches are lived over again. No place, and no people occupy a warmer place in my heart than old Nacogdoches, and her generous and warm hearted people. Please to convey my thanks to the sender of the paper and accept the assurances of my continued regards for you and love to all my old friends.

Thomas A. Dickson.

Accidental Shooting.

From Thursday's Daily:

Elmer Burrows was shot accidentally by John Ogg yesterday afternoon. The ball cut off the little finger of Burrows right hand and passed through the fleshy part of the thigh. The accident occurred while Ogg was trying to arrest Sam Connelly, a negro, who was drunk. The negro resisted arrest and cursed Ogg, when Ogg struck him on the head with a pistol. The pistol went off accidentally with the result stated.

LAXAKOLA

Having received your sample of Laxakola, was very much pleased with it, and have purchased a bottle for my baby. The Laxakola did wonders for my boy in case of bowel troubles. I have given up castor oil and give my baby nothing but Laxakola, and find it cheaper and a great deal better. I got it from C. H. & H. A. Union, via Union and Purchase Sts., New Bedford, Mass.

Mrs. CLARENCE CARSWELL,
South Dartmouth, South Mills, Mass.

Enclosed please find 50 cents in stamps for a bottle of Laxakola. I used your sample bottle and it did all you claim for it, as it helped my baby wonderfully.

Mrs. JOHN FASWACHT,
Union Depot, Dauphin Co., Pa.

I wish to thank you very much for the good Laxakola has done my little niece, Marion Lurline Bass. She is only two and one-half years old, and has suffered something awful from constipation. She has never had what you would call a natural movement. Sometimes we were almost afraid of convulsions, it hurt her so much, and she would be so frightened.

LAXAKOLA is a pure, gentle and painless liquid laxative, and contains valuable tonic properties, which not only act upon the bowels, but tone up the entire system and purify the blood. A few drops can be given with safety to very young babies, which will often relieve colic by expelling the wind and gas that cause it. Great relief is experienced when administered to young children suffering from diarrhoea, accompanied with white or green evacuations, as it neutralizes the acidity of the bowels and carries out the cause of the fermentation. LAXAKOLA will aid digestion, relieve restlessness, assist nature and induce sleep. For constipation, simple fevers, coated tongues, & any infantile troubles arising from a disordered condition of the stomach, it is invaluable.

Try it Today. Send for a Free Sample. It may Save your Baby's Life or Prevent a Long and Serious Illness. It Costs Nothing; Send For It and mention Your Druggist's Name.

BEAUMONT is in carnival attire this week, and The Journal says it's one of the biggest things that ever happened to that city.

THOS. B. REED, better known throughout this nation as "Czar Reed," died early Sunday morning in Washington, of bright's disease.

It is noticeable that most of the political celebrities who have spent a great portion of their lives in congress return to Washington City to die.

In the French Chamber of Deputies the other day Minister Valle called M. Syreton a "wretch," and now it looks like the "wretched" affair will terminate in a duel.

Beyond a doubt the most excruciatingly funny thing is to see a Nacogdoches paper trying to get funny about Orange being tough. It's enough to make an alligator laugh.—Orange Tribune.

Well, why don't you laugh?

THE Farm and Ranch says "Morning Glories are one of the worst pests to the farmer." Until the farm and Ranche refers to the pest, as "tie-vines," we are afraid all the readers will not recognize it by its flower garden name.

THE Fruit and Truck Growers association held their regular monthly meeting Saturday. There was not a full attendance, but enough live members present to make lively and interesting meeting. There were several prominent visitors present.

REPORTS from "all along the line" say things are coming out of the kinks all the way up the T. & N. O. to the river. Mahl and Cushing are already claiming recognition as cities, and Trawick and Sacul are glaring at them through green glasses. We expect it will be a solid town from here to the river before the rivalry ends.

BRO. YANTES, of the Athens Review, has a write-up of the retiring commissioners' court of Henderson county, with a picture of the court in a group, including himself. Getting his own picture in the group reminds us of the obituary writer who habitually writes up himself in connection with the deceased.

In the little Eskimo village of Godthaab in Greenland is published a newspaper, which has the honor of being edited nearer the North Pole than any other printing establishment in the world. Lars Moller, the editor, himself an Eskimo, died last year in October, the news only now reaching the United States, as communication with the outside world is only possible three times a year. Godthaab is entirely Christianized. Moller was a most remarkable man. His journal was illustrated by himself and he wrote several books in his native language.

THE Christmas Magazines have outdone themselves this year, both in cover designs, and literature, Harper especially being really a large volume of a most artistic and attractive appearance. Magazine looks almost as pretty in their Christmas dresses as the girls.

It seems impossible to get the Texas boundary lines between the Indian Territory and New Mexico established. It now appears that instead of gaining a strip about eight miles in width, as has been confidently expected, Texas will lose a strip about three quarters of a mile wide, on the eastern part of Lipscomb, Hemphill, Wheeler, Collinsworth and Childress counties, amounting to 72,000 acres. The United States surveyors have fixed the 103rd meridian, which forms the western boundary, so that a strip three miles wide is taken from all the border counties, including about 300,000 acres. Titles to all of this land that has been sold to settlers as Texas domain may be seriously effected by the report of the survey.

The madam is editor, compositor, job and ad man, all in one small bundle; don't know whether she will survive until the chief's return or not.—Timpson Times.

Send the "chief" a marked copy containing that paragraph.—Sentinel.

That is bad English, but you ought to be more charitable than to laugh. With one boy continually shouting "Mrs. Ford!" running the whole gamut of inflection, and two others yelling "m-a-m-ma!" you would have got your words mixed, too; but the madam has done her best and has nothing to regret or be ashamed of.—Times.

Most likely we would have "mixed words" under similar circumstances. But, bless you, madam, we intended no allusion to English. We were in profound sympathy with you. Indeed, we have not, yet been able to discover the "bad English."

SEVERAL of our contemporaries are discussing whether or not the partridge eats boll weevils. We have always heard that it does. All birds are friends to mankind one way or another, and there is a long list of them so valuable that they ought to be spared. Scientists assert that were it not for birds the insects would devour every growing plant in the world. It would naturally follow, then, that the more birds of every kind, from wild turkeys to sparrows, the fewer insects. Poor little hunted "perdex" though; we fear he will never be left alone, though he eat boll weevils twelve months in the year. The gods were unkind in changing him to a partridge instead of letting him break his neck in peace—Perdex being, the legend says, a Greek carpenter who invented the saw, and also the compass. His teacher being jealous, lured him to a high tower and pushed him off. The gods saw the act too late to prevent it, so they changed him to a partridge. He don't like it, and is always calling his name, "Perdex," (the Greek name for the bird,) and he never lights in high places, remembering his tower.

A Fruit and Vegetable Exchange for Texas.

Mr. Sam H. Dixon of the H. E. & W. T. Ry., returned to the city last night from attendance upon the East Texas Fruit and Vegetable Association at Henderson. Mr. Dixon reports a good time generally.

Regarding the result of the meeting he said:

"This was the most important meeting ever held by this Association. Bad weather and other causes cut down the attendance somewhat, yet the interest was great and important work was accomplished."

"The most important work done was the adoption of a resolution providing for the organization of a Fruit and Vegetable Exchange, containing the best features of the California and Virginia Exchange system. A committee elected by the Association will meet in Jacksonville on the 10th to formulate an address to the fruit and truck growers of Texas outlining in detail the work proposed to be done by exchange.

"The needs of some such plan as that proposed is apparent to every one. The growers of the state recognize the fact that unless they can unite in a method to handle the vast amount of fruit and truck grown annually that prices will go to pieces and disastrous results follow. The Exchange plan will enable the growers to market their products without competing in the markets with each other and thus secure a more stable price, both on F. O. B. stuff and goods consigned to their own agents. There is no such thing existing at present in this state as an overproduction of good fruits and vegetables. The trouble has always come from the defective system of distribution in vogue. The Exchange plan will regulate this."—Houston Post.

Jeans & Sons' Gin.

T. W. Jeans & Sons, from Nacogdoches county, have put in a cotton gin plant in Bronson, equipped with the improved Munger system complete. They have two sixty-saw gin stands, with a daily capacity of twenty bales of cotton. Since beginning business their gin has been having a fine run of custom, which demonstrates that the country surrounding Bronson is not behind any in the production of cotton.—Bronson Bulletin.

Liberty Elm Camp W. O. W., of this city, has received a formal invitation from the Camp at Timpson to attend the monument unveiling of Sovereign Jno. T. Davis, at Timpson cemetery, Sunday, Dec. 14.

Our friend J. G. Morgan, of Libert, was in the city today with cotton and paid The Sentinel a friendly call. Mr. Morgan says we have roads now "like we read about," and that it takes the best teams to pull a bale of cotton to town. He reports no news of special interest from the west end of the county. People are healthy and crops are about all gathered.

About 4:30 Sunday afternoon, an extra freight train running east wrecked near the old Grange place, two and one-half miles east of town, caused by a breakbeam falling. Five cars, loaded with lumber, went in the ditch and scattered lumber from Kalazamazo to Kingdom come, in fact there is enough lumber strewn over the right-of-way to stock a wholesale yard. Roadmaster Carnahan, with an extra gang and the crews of sections 17 and 18, went immediately to the scene, and the wrecker came in about 3 o'clock this morning. All trains were held here until 7 o'clock.—Timpson Times.

To Inspect Fresh Meats.

From Friday's Daily: At a special session of the city council yesterday afternoon an ordinance was passed to take effect within ten days, creating the office of city inspector of fresh meats. Dr. Ford was appointed to the new office, to be assisted by the city marshal. All cattle killed must be inspected within forty-eight hours prior to being slaughtered, and no fresh meats will be allowed to be sold in the city unless inspected. The penalty for violation of this ordinance is fixed at a fine of twenty five dollars.

Women Need

a constant supply of blood-making material or their systems break down under the constant drain. The very moment there is lack of blood, or when the blood is impoverished, the signal appears upon the face in sallowness or pallor. The remedy needed is Dr. Harter's Iron Tonic. Nothing else meets this particular condition so well. Use of it has made hundreds of thousands of women look younger and made them feel even younger than they looked. It not only restores strength, energy and beauty, but it is a prompt and certain cure for all ailments peculiar to the sex. It cures because it removes the first cause. It supplies just what nature needs to bring health.

Dr. Harter's Iron Tonic

strengthens debilitated organs, gives tone and elasticity to muscles and ligaments, rounds out wasted tissues and renews the vigor of the nervous system. It helps quickly and just as surely and permanently. Loss of appetite, of ambition, nervousness, pains in the head, back, kidneys, limbs, muscles, etc., are all cured by Dr. Harter's Iron Tonic.

The following is one of thousands of similar endorsements that we have received:

Houston, Texas, Dec. 4, 1901. "My father has used your medicine since the war, and when I married in December, 1893, I commenced housekeeping with one bottle of Dr. Harter's Iron Tonic, one bottle of his Little Liver Pills, and two boxes of his Little Liver Pills. I am now nearly sixty-two years of age. Looking backward I feel attached to the old medicines and would not change them for any of the new ones made." Mrs. J. A. Pickett.

Every bottle of Dr. Harter's Iron Tonic has our "Green" trade-mark on the label. Don't accept a substitute—insist on Dr. Harter's. Made only by THE DR. HARTER MEDICINE COMPANY DAYTON, OHIO. THE DEATH OF I. N. PIKE.

The Facts as Reported by one of The Jury of Inquest

Editor Sentinel:

Melrose, Tex.—As there has been so many different reports in reference to the death of Mr. I. N. Pike, who resided about three miles South of Melrose, and as I, with five other men of this community, (including Mr. Willis Grimes,) were the jury of inquest, I have concluded to give you a correct statement of facts. When we arrived on the scene there were perhaps a score of men examining the surroundings. The road from Melrose to Woden runs about thirty steps East of Mr. Pike's residence. Mr. Pike was up just before good light. He was noticed by his two daughters, 14 and 17 perhaps, about ten or fifteen steps beyond the road from his house. The younger daughter noticed he leaned over as she observed him from the door of the house. She walked back to the fire and about that time she heard the report of a gun, when all the children at home, three boys and two girls, rushed out to where they had seen their father a few seconds before, to find him on his back on the ground, the gun lying not far from him. The youngest boy took up the gun and carried it in the house, according to the evidence of the younger girl, after which he went immediately to Mr. G. W. Matthews residence, about 250 or 300 yards away. The other two boys carried their father in the house. On examination we found that Mr. Pike had cut a stick near where he fell with which he evidently pressed the trigger of his gun. The place where the gun rested on the ground was readily discerned, as the dent was there. He evidently held the muzzle of the gun in his left hand and pressed the trigger with the stick in his right hand, aiming to have the load strike so as to range to his heart, but the gun being short the contents of the gun struck him in the side just below the lower part of the ribs and came nearly through the skin just under the left blade bone. He died about the time he was gotten into the house. In his pockets was a knife on which was left some of the bark of the stick he cut, with which to push the trigger. There was also some of the bark of the stick on the trigger of the gun. Also, in his pocket was found a morphine bottle nearly empty, and two cartridges which fit his gun. The empty shell was picked up in the road evidently thrown out by the boy who carried the gun into the house. I have been thus particular as there are rumors that Mr. Pike met his death by the hand of an assassin. This

occurred Tuesday morning, Dec. 2, 1902.

Coughing Spell Caused Death.

Harry Duckwell aged 25 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician but before he could arrive, another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, Dec. 1, 1901." Ballard's Horehound Syrup would have saved him. 25c, 50c and \$1 at Perkins Bros.

Peach Seed Wanted.

Any one having peach seed gathered, or who can gather good seed will be well paid for them in cash or in exchange for trees if they will apply to me and state the number they have or can get together. Remember also that I still have a full line of peaches, apples, pear, plum and fig trees of the leading varieties adapted to this section and will be glad to have your orders while they yet last. Ladies do not forget the rose garden this fall. I have a specially selected list which is best adapted to East Texas conditions and the plants are stocky out door grown and will be sure to give the best results. Rush the matter of peach seed as it will be too late to use them soon. Apply to me at Garrison, Texas.

Get Your Cattle Fat

Now, and it will take less feed stuff to keep them in condition through the winter. This may be easily done by the use of a small quantity of Pratt's Food given to your horse, cattle, hogs or chickens.

It makes the horses shed off nicely, makes the coat glossy, and produces bone, muscle, better staying quantities, and improves the wind.

It makes the cows give richer milk and more of it, makes them fat and takes less feed for them.

It cures and prevents hog cholera, makes hogs fatten quicker, and the meat better.

It makes your chickens larger, quickens the growth of young chickens, prevents and cures all poultry diseases. **Makes hens lay.**
