Saved at Grave's Brink.

"I know I would long ago have been in my grave," writes Mrs. S. H. Newsom, of Decatur, Ala., "if it had not been for Electric Bitters. For three years I suffered untold agony from the worst forms of indigestion, water-brash, stomach and bowel dyspepsia. But this excellent medicine did me a world of good. Since using it I can eat heartily, and have gained 35 pounds." For indigestion, loss of appetite, stomach, liver and kidney troubles Electric Bitters are a positive, guaranteed cure. Only 50c at Stripling, Haselwood & Co.

Notice of Assignment.

The State of Texas,)
Nacogdoches County,)
To the creditors of W. R. Greer:

You are hereby notified that W. R. Greer of Malh, Nacogdoches County, Texas, on the 3rd day of December, 1902, executed a deed of assignment, conveying to the undersigned all of his property for the benefit of such of his creditors as will consent to accept their proportional share of his estate and discharge him from their respective claims, and that the undersigned accepted said trust, and has duly qualified as required by law. All creditors consenting to said assignment must, within four months after the publication of this notice, make known to the assignee their consent in writing, and, within six months from the date of this notice, file their claims as required by law, with the undersigned, who resides at Nacogdoches, Nacogdoches County, Texas, which is also his postoffice address.

Witness my hand this 15th day of December, 1902.

FIRE AT SAN AUGUSTINE.

Three Stores and the National Bank Burned.

From Monday's Daily:

Fire broke out in the store of Burke & Wilson at San Augustine about one o'clock Sunday morning, and before it could be gotten under control, the San Augustine National Bank and three stores in the brick block East of the court house were burned. The fire was supposed to be of incendiary origin. The bank was in the drugstore of Hollis & Cage. The three buildings burned were the property of Mr. I. H. Hollis and were insured for \$5,000. The losses, as near as we can ascertain, were as follows. I. H. Hollis, loss on building \$10,000; insured for \$5,000. San Augustine National Bank, furniture etc, covered by insurance.

Burke & Wilson, loss on stock \$9,000; insured for \$3,000.

Hollis & Cage, loss on stock, \$5,000; insured for \$3,000.

W. E. Trotti Mercantile Co., loss on stock \$6,000; insured.

There were four other buildings in the block, which were saved through the heroic efforts of the "bucket brigade," which is the only fire protection the town has.

Mr. Wilson, a young man well known in Nacogdoches, who has been buying cotton in San Augustine this season came up to Nacogdoches yesterday and upon his arrival was arrested upon a telephone message, under charge of arson. He was not jailed however and returned to San Augustine this morning to answer the charge. No one here believes him guilty, and those who are best posted believe the indictment was sworn out through malice. The mere fact that he left town immediately after the fire, it is said, is the only grounds for suspicion. Mr. Wilson has been buying cotton for Nacogdoches cotton men and his mission to Nacogdoches was purely on business.

Captured at Shreveport.

It is reported that the "white nigger" that has been doing so much devilment out on the T. & N. O. extension has been captured at Shreveport. He was caught in the act of committing a robbery and was chased, shot at and wounded by the police, and was arrested and landed in jail, where he was afterward identified as "Jones," with several aliases, and is known to be the man wanted for murder and other crimes committed in the railroad camps near the Angelina river, mention of which has already been made in these columns.

J. S. Stewart, of Melrose, is in the city today and paid the Sentinel a short call.

Accidental Shooting.

A little negro boy named Edgar Gray, who works for Mr. W. H. Price was seriously wounded in the leg Saturday night by the accidental discharge of a pistol in the hands of deputy city marshal Jas. Derrick. Mr Derrick was endeavoring to arrest some rowdies who were riding out of town yelling and shrieking and creating a disturbance and stopped them on College street near the residence of Jule Smith. The parties tried to play a bluff on Mr. Derrick, so he says, and he drew his pistol when it went off by accident. The boy was walking along the sidewalk some distance away, when the bullet entered his thigh inflicting a serious though not a dangerous wound.

To Those Who Owe Us.

Nacogdoches, Texas, Dec. 15, 1902.—We think we have written to every customer on our books, asking for a settlement of their indebtedness to us. In our anxiety to hear from every one, we may have written to you more than once. If we have, it indicates our need of the money you were owing us, and our anxiety to know just what we could realize on what we had out. To those who have responded to our request for a settlement, we wish to extend our thanks; to those who have failed to come in and make satisfactory arrangements, we wish to say that we now insist upon a settlement of your indebtedness and ask that you make same before January 1st, and relieve us of the expense of sending to see you or taking such other steps as may be necessary to collect from you.

One letter to you and this notice are measures we were forced to resort to by the demands of our business, and we trust you will decide to consider same in a business like way and come in at once and settle with us.

Very truly,
Mayer & Schmidt.

HALTOM & HALTOM, Publishers.

R. W. HALTOM, Editor

THE last census report show that there are 109,000 more men than women in Texas. No wonder we have so many old bachelors.

THERE will be thousands of acres of Nacogdoches county lands planted in fruit trees this season. That is good, but it will be better when we make it tens of thousands.

THINGS are getting tangled up pretty badly between the Venezuelan Republic and the allied powers and it looks bad for Venezuela. She will probably have to sacrifice both dignity and a great deal of money to make peace.

IT occurs to The Sentinel that it would pay the merchants and draymen to combine and fill up the mud holes in the back alleys. They are used constantly, and almost exclusively, by them, and yet some of them are almost impassable.

THERE will be no mid-winter session of the East Texas Press Association. Beaumont is anxious to entertain the association, but does not want to be disappointed with the attendance of probably not more than half a dozen members. Responses to letters written by Editor McGary, of the Beaumont Journal, indicate that very few will attend, and it is decided not to call the convention at all.

THAT was a pathetic scene at the customs station in New York, when Senator Clark, of Montana, and his niece, who had just arrived from Europe, had to part with their baggage. There were valuable diamonds, presents for the folks at home and elegant gowns which the young lady had purchased from noted Parisian dressmakers, all "tied up" in that baggage, and held by those horrid customs collectors because the Senator, although many times a millionaire, could not raise sixteen thousand dollars in cash to pay duty. The Senator took the matter good naturedly, but we'll bet an X-ray could not have fully portrayed the young lady's feelings.

THE recent Methodist Conference at Crockett subscribed fifteen thousand dollars to the indigent fund. Speaking of the liberality of the Conference, the Jacksonville Banner, edited by a Baptist, remarks: "One of the most creditable things the Methodist of this section ever did was the subscribing of \$15,000 at Crockett the other day for the \$5,000,000 fund now being raised for the purpose of taking care of the old ministers of the church. The old fellows who have worn themselves out in the cause of religion deserve to be cared for in their old age, and it is indeed a credit to the Methodist church that it has decided in the negative the question asked several years since by Ian McLaren—"Should the old minister be shot?" This subscription is the largest made by any conference in the United States.

A BIG THING AHEAD FOR NACOGDOCHES.

Let everybody take notice now, get ready, and don't forget this: The East Texas Fruit and Truck Growers' Association will meet here on the first Tuesday in March, and we must fix for it on a big scale. Not free board and lodging; they object to that. Of course there may be some such courtesies extended, and will be, but we will find it not so easy to make room for the visitors. There are now more than seventy-five different local associations that have membership and will be represented by delegates, and there are nearly three hundred other associations in the territory that are expected to join and be in it. When all these get here they will make a crowd. Our Mr. T. E. Burgess, who, as everybody knows, is a leading spirit in this line, is president of our local association and is now organizing committees to manage and prepare for the big time coming. Our Mr. H. S. Edler, too, is interested, and we all know what that means—business. Yes, indeed, it is a big thing, not only in numbers of people, but more especially in what it will do for our section in general. Pages upon pages would not tell it all. Fruit and truck culture for our land means more than anyone would think. It will hide and blot out cotton failures and other shortages in farming. It will drown out the old song of hard times by the hum of big yields and good business in truck growing. This is no joke. Cotton will go and make room for better stuff. Then, let us hump ourselves for this pull. Don't forget that big meeting. We are not going to let it be forgotten, and we shall have more to say about it from time to time.

At the boll weevil convention at Dallas a resolution was passed memorializing the legislature for aid in fighting the pest. In keeping with the resolution a legislative committee was elected, upon which Hon. John T. Garrison, of Nacogdoches, was placed. It was a good selection and the people who are interested in this important move are to be congratulated. The committee is composed of such men as Mr. Garrison, Hon. R. T. Milner, of Henderson; Judge John H. Reagan, of Palestine; W. D. Cleveland, of Houston; Gov. Sayers, Hon. J. B. Wells and others.

THE great sea wall carnival is on at Galveston, and thousands of people are there having a good time. Speaking of the carnival, the Tribune says: "No wonder Galveston is the mecca of countless hundreds who would seek amusement, and that environment which is as delightful as it is rare. There is no city the size of Galveston anywhere whose people understand so well the art of entertaining or who can make their visitors feel so welcome. Hospitality is one of the delightful arts which has been cultivated to a delightful degree here.

THE favorite book of the year, and one deserving all the praise it receives, is "Letters from a self made merchant to his son." The title is perhaps unfortunate for it sounds like a sermon, and a boy will not be lectured. Nothing is further from the facts however. The book is genuinely humorous, witty, sarcastic, and so full of hard common sense that a boy of twelve will read it as eagerly as he would a five cent novel. As a gift to a man of any age, nothing could be calculated to give more pleasure. The book will live when all the "Historical" works are forgotten.

THE Lufkin Tribune special edition last week was a perfect gem, and is a credit to both The Tribune and Angelina county. It contains an able write-up of Angelina county, except Lufkin, handsomely illustrated. The Tribune's failure to write up Lufkin is a sort of puzzle, but it may be that Editor Watford felt that it would be impossible to do the subject justice. But he did honor the city with several splendid half-tone cuts representing her splendid public buildings, enterprises, industries and residences. The advertising columns show that Lufkin did the square thing by The Tribune.

THE patrons of the colored schools of Nacogdoches seem to be divided upon the location of the new school building that will probably be erected next year. Some want it between the two creeks and some want it located in the eastern suburbs. The Sentinel can't settle the question for them but it will offer two suggestions: 1st, locate it at some available point where the white and colored children are least liable to come in contact with each other. 2nd, take a vote on the question and let the majority decide it. There is plenty of time. No move will be made toward carrying out the purposes of the school bond election until after the meeting of the 28th Legislature.

THE Phillistine, which calls itself a "periodical of protest," is attracting a great deal of attention all over the United States, being especially widely advertised by its enemies. The Phillistine is a very clever man, (there seems to be just one of him,) and his ideals are lofty. He seems, however, to be attacking the laws and conventionalities of society, thinking that they hamper and that we should be above them. We are; we all are. Not one of us but feels that we can live a perfectly ideal life, above the petty conventionalities of this life, above the laws that are made by the wisest to protect the weakest from themselves. At the same time it is very comfortable to feel that these same protecting rules and regulations stretch beneath our feet like a safety net, so that if we take a header in our lofty mental gymnastics, we will not break our necks. The Phillistine will please not take away the net until we all raise wings.

MALLEY ON THE BOLL WEVIL.

We reproduce the following extract from the Galveston News' report of Prof. Malley's speech before the Boll Weevil convention at Dallas on the 17th inst. who was the delegate from Nacogdoches county as well as State Entomologist.

"Prof. Malley, former State Entomologist, was the next Speaker. His statement that he came not as a professional man nor an official, but as a tiller of soil and from a sense of duty, was greeted with applause. He said that he was especially glad to see this movement which had been realized from the call of the Dallas Commercial Club, which he had the pleasure of addressing upon the subject a few weeks ago. He was also especially glad that all the entomologists who had studied the boll weevil problem from end to end were present. "You can ascertain," he said, "that we are all agreed upon the fundamental things; there is no diversity of opinion, this is a case where all the doctors agree. (Applause.) What we want to do is to impress upon the people that the methods upon which we have agreed are practical, to have you go home as missionaries to induce the people to take up these methods." Professor Malley then went into a more detailed statement of these methods than Professor Hunter had, referring to his (Malley's) annual report, several hundred copies of which were distributed during the session. The greatest difficulty, he said, is to get the farmers to follow a leadership. Every once in a while some reputable citizen will publish an article advising the use of some remedy, such as the mineral paint advised last year, which proved a total and costly failure. The statement had been made that the weevil would not go north, and some farmers had made haste to move to north Texas only to find that the weevil had also moved. He mentioned other reports which had misled the farmers.

Professor Malley then described the habits of boll weevils. The winter brood, which hibernates in logs, stumps, etc., comes out in the spring for the purpose of depositing eggs, and then dies before cotton is far advanced and does but little damage. The summer brood, hatching from the eggs deposited by the winter brood, appear about the last week of June or the first week of July. They are large in numbers. Then is when the damage really begins. The time to begin fighting the weevil is in the fall, to destroy the insects which would hibernate and come forth in the spring. He described how this might be done through burning the stalks and by grazing the cotton plants. The next important step is early planting of varieties which mature early. He had tested twenty-five varieties. On one variety there was an average of 26 1-2 bolls to the plant, under spraying, on July 6, which means about two thirds of a bale to the acre; the same variety, unsprayed, had 22 1-2 bolls to

the plant, while ordinary cotton, sprayed, on the same farm had but 17 bolls to the plant. The farmers should get seed of these early fruiting varieties and get it as far north as possible. Since the meetings which he addressed at Brenham three years ago, the farmers of that section had been getting seed from the Indian Territory. The cotton matures from two to three weeks earlier. No other crop means so much to Texas as cotton, yet no crop has been so much neglected as to seed. Farmers have been in the habit of selling their first and best seed and keeping the last and poorest. Shade and moisture favor the boll weevil. The rows should be planted wide apart according to the nature of the soil. Hot weather does not kill the weevil, but it does destroy the feed for the larvae and they starve to death. Wide planting, while diminishing the chances for damage, also reduce the cost of cultivation. Hundreds of farmers had cotton results from following these methods. They have been known for two years at least. The difficulty has been to get more farmers to accept them. Many representatives are on the shelves at the Agricultural and Medical College undisturbed. What shall be done? The only thing is for intelligent business men, such as those composing this convention, to go with the entomologists and say whether or not they find their propositions to be practical. If practical, then publicity should be given the methods through organizing farmers' institutes and by other means. "We must be careful to make the people understand that legislation and appropriations do not do the work" said he. "We have men as well as boll weevil to contend with. The sooner we can get men to understand these things, through farmers' institutes and other organizations the sooner we get satisfactory results."

THE Center Champion will celebrate its 25th birthday on Jan. 7th next. The Champion has always been a model local paper, and though it has passed through many hands, its present editor, Jesse Padon, has been connected with it in some capacity almost from the beginning of its existence. Speaking of The Champion, calls to mind the exciting times of a quarter of a century ago in Shelby county, when those gallant, brave boys, Jim and Jack Truitt, established The Champion to break up a disreputable political ring and expose the rottenness and rascality that held sway in those days. The editorial columns of The Champion were rare and racy reading then, and on several occasions the editors had to back them up with shot guns. But they held their ground, and The Champion, though published under every imaginable difficulty of the times, succeeded in its mission and has lived to hold its place among the model country newspapers of Texas. The Truitts did not keep the paper long. They were inexperienced and were glad to "unload" at the first opportunity after they had accomplished

their purpose. Poor Jack is dead now, but his memory is still green in the hearts of the people. His good deeds live to perpetuate that memory. Jim is still here, and his great heart must swell with triumph and gratification at every retrospective glance into the lives of himself and the brother he so loved and honored.

The job department of The Sentinel office has just received a handsome stationery cabinet from Ireson Bros. that for beauty, design and convenience is superior to any article of furniture we have yet seen in a printing office. It was manufactured at the immense plant of above named firm. There is hardly a business house in the city that does not owe convenience or decoration to this enterprising firm and its skill. The cabinet we are so proud of is about ten feet long and nine feet high. The upper part consists of deep shelving, protected by sliding glass doors, while the lower part contains drawers and doors. The stock is absolutely protected from dust and so easy to get at that it is a joy instead of a job, while the whole is so beautifully finished that the downstairs crew now want a Brussels carpet to match the cabinet and keep up the style.

Tobacco Culture Inspection.

Col. S. F. B. Morse, passenger traffic manager for the Southern Pacific; L. H. Shelter, government tobacco expert, with headquarters at Nacogdoches, and Prof. H. P. Attwater, superintendent of the Southern Pacific Industrial Exhibit, left this morning on a special for a trip over Texas. The party will return Sunday. The object of the trip is to look further into the tobacco culture situation, which the Southern Pacific, in conjunction with the United States agricultural department, is developing in the state of Texas at this time.—Houston Chronicle, Dec. 19th.

The W. O. W.

From Thursday's Daily:

There was a large attendance at the call meeting of the Woodmen of the World last night. One candidate was initiated into the mysteries of woodcraft, and the Foresters had more fun than a box of monkeys. Twelve new applications for membership were received, and the Camp was given notice that another "catch" would be presented at next meeting. A special dispensation has been granted this camp, which will last thirty days, during which time the membership fee is five dollars. The regular fee is ten dollars. This is a fine opportunity to join this excellent order, and those interested enough to give it its merits and thus the benefit of its strength for the flood of unfortunates that are now coming.

Mr. Imboden is soon to leave us and make his home with good citizens of Nacogdoches. We wish him well and trust his stay with the citizens of that place will be as pleasant and profitable as here.—Rusk Journal.

MOTHERS

TESTIFY TO THE BENEFITS THEIR SICK BABIES HAVE RECEIVED FROM THE USE OF

LAXAKOLA

Having received your sample of Laxakola, I was very much pleased with it, and have purchased a bottle for my baby. Laxakola did wonders for my boy in case of bowel troubles. I have given up castor oil and give my baby nothing but Laxakola, and find it cheaper and a great deal better. I got it from C. H. & H. A. Union and Purchase Sts., Boston, Mass.

Mrs. CLARENCE CARWELL, Dartmouth, Smith Mills, Mass.

Enclosed please find ten cents in stamps for a bottle of Laxakola. I used your sample bottle and it did all you claim for it as it helped my baby wonderfully.

Mrs. JOHN FARNACH, Dauphin Co., Pa. Union Deposit.

I wish to thank you very much for the good Laxakola has done my little niece, Marion Lorraine Bass. She is only two and one-half years old, and has suffered something awful from constipation. She has never had what you would call a natural movement. Sometimes we were almost afraid of convulsions, it hurt her so much, and she would be so frightened.

LAXAKOLA

My baby is four months old and is teething. He was sick and I tried a good many things, but nothing seemed to relieve him. I had a doctor, who said it was inflammation of the bowels, and that I would never pull him through, perhaps, if he were under his care. When I saw he was getting worse I stopped giving him his medicine, as he could keep nothing on his stomach. He was troubled with colic very much, and used to scream when he had a touch of it. I did not know what it was to do my second night. I gave him a few drops of Laxakola and it relieved him. I gave it to him a few times, and it worked like a charm, and he now rests pretty fair all night. He is a great deal better looking baby since I gave him Laxakola, and I think if all mothers knew how good it was, they would give nothing else to their sick babies. Mrs. MARY TALLEY, 377 First St., South Boston, Mass.

Laxakola is only a mild and feely expelling is experienced when administered to young children, from diarrhoea, accompanied with white or green evacuations, as it neutralizes the acidity of the bowels and carries out the cause of the fermentation. LAXAKOLA will aid digestion, relieve restlessness, assist nature and induce sleep. For constipation, simple fevers, coated tongues, any infantile troubles arising from a disordered condition of the stomach, it is invaluable.

Try it Today. Send for a Free Sample. It may Save your Baby's Life or Prevent a Long and Serious Illness. It Costs Nothing; Send For It and mention Your Druggist's Name.

KEEP in mind that visit we are to receive on the 11th of January from two hundred tourists who are going to visit Nacogdoches in search of good places to invest capital. A little courtesy is very cheap and many bring great results.

THE DIVERSIFIER is a new agricultural and fruit journal at Tyler. It is edited by Z. B. Cannon, formerly of the Fruit and Truck Journal at Jacksonville, and is an able exponent of crop diversification.

THE hog law election went five to one against throughout the county. A light vote was polled. The vote at the Nacogdoches box went five to one against. No town people voted, which was proper, country people only being interested.

THE Saturday editions of the Beaumont Journal are getting almost as "bad" as the Sunday editions of the other Texas metropolitan sheets. It takes from sixteen to twenty-four pages to satisfy it now, and it throws in a funny illustrated cover sheet in the bargain.

THE time is near at hand to "turn over a new leaf." Among our good resolutions let us resolve to be less selfish and more public spirited next year. Let's go in for a few public enterprises that will help the whole country as well as individuals.

THE failure to carry the hog law election was a great disappointment to the farmers in several sections of Nacogdoches county. One thing is noticeable, and that is that in several districts where the law already prevails a majority was given against it. The voters in those districts seem to be pleased with the law in their own neighborhoods, but do not want it to prevail throughout the county. If it is good at home why is it not good throughout the entire county?

TEDDY has went and gone home it again. He is as bad as Mrs. Partington. He never opens his mouth without putting his foot in it. He had so much to say about the Venezuelan row that he has got a job that he doesn't want. The "powers" insist that he alone shall act as arbitrator and it appears that he will have it to do. Somebody will be mad, no matter which way he decides. We'd rather be the referee in a baseball game.

THE Kountz News Chronicles the death of one of the most prominent citizens of Hardin county, County and District Clerk E. H. Collins. M. Collins has served the people of Hardin county as deputy county and district clerk, post-master, tax assessor and county and district clerk, being re-elected to the latter office at last election. His remains were buried with the honors of the Odd Fellows, being a member of the Beaumont lodge.

CHRISTMAS TIDE HAS COME.

OUR CHRISTMAS GREETING.

"The time draws near the birth of Christ; The moon is hid, the night is still, The Christmas bells from hill to hill Answer each other in the mist."

As soon as it dawned on the human race what Christianity really means, the desire sprang into being to celebrate the day of our Savior's birth. In that crude age of the world the exact date had been lost, and for the first few years it was celebrated at widely varying times, ranging from the fall of the year to Easter. This created confusion, and the churches, after careful research, found that December 25th approximated the time very nearly; so it was definitely decided to each year celebrate that day as the date of Christ's birth. When England was "Merry England," the Christmas season began at Halloween and lasted till Candlemas, which is the 2nd of February, a lord of "misrule" being appointed in every manor "to devise mischief" during the entire time. This custom gradually died out, the last one known ruling about the middle of the 17th century, and the time spent in frolic was shortened till now it only lasts from Christmas eve to Twelfth night. Beautiful legends cluster around this holiday season; legends dating back to the time when men, like children, wove beautiful fancies and half believed them true. We are told that animals have the privilege of human speech, (which was taken away from them in the ark because they quarreled,) restored for an hour at 12 o'clock Christmas Eve; that cattle kneel with their heads to the east at the same hour, and that no malevolent spirit is abroad then to harm any of God's creatures.

The mistletoe, omen of bad luck and bringing misfortune on the house it is carried into at any other season of the year, changes its characteristics entirely and is the favored decoration, bringing joy from Christmas Eve (it must not be put up before) to Twelfth Night, when it must be taken down and burned in the Yule log fire. Mistletoe is, in Norse Mythology, entirely responsible for winter lasting so long. It was an arrow tipped with mistletoe that slew Balder, (Summer), when everything else on earth had promised not to injure him. So it is easily seen that the mistletoe's power to harm is almost limitless. All of us are familiar with the ceremonies surrounding the burning of the English Yule log, and also with the variations of it on plantations in slavery times. The slaves had absolute freedom from work as long as the log lasted, and so they hunted the woods over for the largest log they could find, then soaked it in the creek for days.

Children in this country look forward to the advent of Santa Claus. In the child-loving countries of the Old World some of the children are told that the Christ Child brings the presents so eagerly watched for; others that

the Wise Men of the East passed on their camels and left the toys—the shadowy figures, always stealing by on another road from the one the little ones are watching. Children grow up and learn that Santa Claus is a myth; that the Wise Men leaving gifts is a legend, and that the Christ Child bearing the presents in his actual baby hands is a poem; but myth, legend and poem blend into the glorious reality of what the Christmas Tide really means to man. Santa Claus is a symbol of the mirth and pleasure of the season, the kneeling gift-laden camels typify the giving impulse that takes possession of all, and the blessed Christ Child grows and brightens as we leave the childish age of unreason behind into the radiant figure of the Risen Christ, showering blessings and benedictions on all His people, as cycle after cycle the world swings upward into the light of perfect day.

To all of our readers, who are all our friends, we wish a Merry Christmas, and that it may be a glad and happy season, undiminished by "cares that petty shadows cast," is the earnest Christmas Greeting of The Sentinel.

The Explanation.

It is noticeable that most of the political celebrities who have spent a great portion of their lives in Congress return to Washington to die.—Sentinel.

The political celebrities come to be such at Washington. A long time is required in becoming celebrated. Hence, Washington gets to be their home. Forced to leave it at the end of their political services, in order to make a living, they are always anxious to return to it, and when they are in bad health they feel more like returning to old friends.—Galveston News.

As to Bad Roads.

The Jacksonville Banner complains of "notoriously bad roads" in Cherokee county. We are willing to put Nacogdoches county's roads against anybody's and if we can't show worse roads than Cherokee, or any old county, we'll quit bragging about it.—Nacogdoches Sentinel.

That's nothing to brag about, but just now we would not be afraid to enter the Anderson county roads for first prize.—Palestine Herald.

Are the streets of Beaumont barred? If not we'll take you.—Orange Tribune.

THE Nacogdoches county Fruit and Truck Growers' association will meet again in regular convention on the first Saturday in January, 1903. There wasn't as good attendance at last meeting as ought to have been, and it is hoped the members will do better this time. There will be important matters before the January meeting. There is the East Texas association coming on in March, and it will be in order to discuss plans for its entertainment and other questions in connection with that meeting. Every body come out to the January meeting.

ARE THEY OF THE PEOPLE?

The fact becomes more and more apparent that our dignified and aristocratic United States Senate is too far removed from the people, and its members are becoming more difficult to approach by the plain people. An instance vividly illustrative of this has recently occurred to this writer. A short time back we wrote a personal letter to a member of that august body asking a small favor, and emphasizing the statement that he was in nowise to compromise himself. After three weeks waiting the following answer came:

"My dear sir: Continued sickness since my arrival here has prevented earlier acknowledgement of your letter. Answering now at the first opportunity, I write to express my regret that I cannot endorse you for the position of —, as desired, for the reason that weeks before I knew you would be an applicant, I had become committed to another for the position. I assure you that I know of no one whom I would prefer to render a service and were my situation otherwise I would gladly give you my hearty endorsement for the place."

The above letter is as stereotyped as a populist speech, and it is evident that the "valiant senator" was not familiar with the contents of the letter he was supposed to be answering. The position he referred to was mentioned in the letter to him, but in no sense was he asked to endorse the writer for any office. The correspondence of our national representatives is conducted through private secretaries. In this instance, and we take it as in most others, the letter was read by the secretary, its contents distortedly repeated to the senator who simply instructs Mr. Secretary to answer in politest language, "there's nothing doing." The secretary rattles off a few lines on the typewriter, passes it back for the signature, then starts it on its mission of "cold comfort." Thus it is that the people are dealt with as if by machinery—purely mechanically, and it is no wonder that these lofty and lordly institutions are so frequently out of touch with the "common herd." This is not a complaint. The writer has not been injured nor disappointed, except in the manner of doing things at the other end of the line. We admit the almost impossible task of a man in these high positions conducting all his correspondence, yet they should exert sufficient personal interest at least to avoid ridiculous answers to their correspondents.

It would seem that Uncle Sam had two many negroes in the Philippines already. Negroes who were carried over there with the U. S. army are allying themselves with the troublesome elements. Advices have been received in Washington that bands of ladrones which are harrassing the rural population of the island are in many instances led by negroes who have been discharged from the army and are employing their military

knowledge in drilling the ladrones and organizing them in a crude military way. In the province of Bulacan it is understood that a band of 500 ladrones led by an American negro are scheming to wipe out the constabulary and four miles out from the town of Clasiooan four American blacks are engaged in drilling a large number of highwaymen in military tactics. Because of the increased activity of the ladrones the continued withdrawal and concentration of troops in the island is causing apprehension among the inhabitants. Ladrones are said to be notoriously bold and numerous in Rizal and the president of that province recently called on Adjutant General Heistand for relief. He also has appealed to Governor Taft.

Dear Santy: If you please, a bottle of boll weevil medicine. Texas.—Houston Post.

Col. Forbes Dead.

A. A. Forbes, Sr., aged 64 years, passed away Saturday evening at 7 o'clock at his residence in Brunner. Deceased was a native of Hiads county, Mississippi, where he was born, March 14, 1838. He came to Texas many years ago and in 1882 entered the railway mail service as clerk on the Houston East and West Texas railway. He held this position for sixteen years. During the past two years he held the run between Houston and Columbia on the Columbia Tap. He was one of the oldest men in the railway mail service in Texas. Mr Forbes served throughout the civil war as member of Price's brigade and made a brave soldier. He leaves a wife, four sons and three daughters, besides numerous friends to mourn his loss. Funeral services were held over the remains yesterday afternoon at the residence under the auspices of the Masons, and at 8:15 o'clock last night the body was shipped to Brenham, at which place the interment will take place today.—Houston Post.

ANOTHER EXCURSION PARTY

Will Visit Nacogdoches Sunday Afternoon, January 11th, 1903.

The following letter, addressed to Messrs. Lindsey & Harris and Jno. S. Doughtie, of this city, is self explanatory and too suggestive to render comment necessary. Read it and interest yourself according to your own calibre of public spirit:

Dear Sirs: I recently spoke to you about a special train of northern capitalist and home-seekers which we expected at that time would reach Nacogdoches on the early morning of January 3rd, 1903.

This is to advise that the plans have been changed, so that under the new arrangement the special train and party will reach Nacogdoches over the T. & N. O. Road about 3 p m on Sunday, January 11th. The train will remain in Nacogdoches until about 10 p. m., and I will ask you to kindly make arrangements so that these people, about 200 to 250, will be assured of something to eat for, say supper Sunday evening.

As I advised you in person it is not expected of your people to feed this party free of charge. On the other hand they expect to pay the customary price for every meal eaten, but in view of the limited hotel facilities it is, of course, necessary that previous and special arrangements be made whereby they may be assured of getting something to eat.

Of course you understand that these people are seeking information as to opportunities for investment, etc., and it is earnestly hoped and confidently believed that the business men of your town will accord them a hearty welcome and assist us as much as possible in giving them the information which they are seeking.

My idea is, that in addition to having your business men meet them it would be a good plan to have all members of your local Truck Growers' Association, as well as other successful farmers or parties engaged in other business, meet them and give them what information they can as to what can be successfully grown in the vicinity of your town, opportunities for investments, etc.

Thanking you for your attention to the matter, I am,
Yours truly,
W. H. Taylor,
G. P. A.

To my Customers.

On account of short collection I am not able to do credit business for the next 8 months and will not open accounts on Jan. 1st 1903 as I have been doing in the past. All who owe me are requested to come forward and make settlement either with cash or good note.

partial list of our Real Estate for sale. We solicit correspondence and will be glad to furnish any information concerning lands of touching land titles in Nacogdoches county. We are now preparing our annual pamphlet, which will contain our full list of property, which on account of space we are unable to get in this issue. We have lands for all purposes; we invite home-seekers to correspond with us, to come and personally inspect our lands and look carefully into every feature to interest a home seeker. We can not tell you as well as we can show you. We will take pleasure in showing any home-seeker over lands listed with us. We never misrepresent because the buyer can always see for himself. You, who have seen lands go from \$1.25 to \$100 per acre, encourage the young, and those of limited means to seize upon the present opportunities to secure for themselves a home. We respectfully solicit the patronage of those who wish to buy or sell Texas land.

HAZEL BUILDING. NACOGDOCHES, TEXAS.

THURSDAY'S LOCALS.

L. L. Fox, of Etoile is in the city today, trading.

Morg Weeks went down to Chireno today to see about things.

Rev. W. M. Gaddy passed up the road yesterday to Timpson.

The finest, freshest and cheapest candy in the city at Campbell's Racket Store.

Eddie Blount is home from A. & M. college to spend the holidays.

Oscar Matthews returned last night from a short business trip to Shreveport.

Dr. Ellis Mast, of Melrose, is at home for the holidays from St. Louis, where he is attending the Medical College.

Mr. E. Hauser has moved from the Judge Ratcliff place on North street to the Catholic church parsonage on Fredonia street.

Mr. G. A. Watkins, an oil man of Houston, now engaged in sinking a well in the neighborhood of Oil Springs, is in the city today.

There was a good deal of cotton brought in yesterday, and it was about the first day that looked real business like since the rainy spell set in.

Jeff Simpson, a former Nacogdoches citizen, now of Athens, is visiting his old home and his relatives and friends. He is a brother of Earnest and Dumas Simpson and will be their guest until after the holidays.

Mrs. J. E. Mayfield went to Clawson yesterday for a few days visit to her sister, Mrs. John H. Reagan. Dr. Mayfield accompanied her to Lutkin and came back on next train. Dr. Reagan met her there.

Z. C. Vaught, of Garrison, was in the city today for the first time in five years. He says he knew that Nacogdoches had grown considerably in that time, but he had not realized how much she really improved until he saw it with his own eyes.

Mr. J. W. Carriker, of Panola county, who was in town yesterday, has rented Mr. E. A. Blount's house on Church street, known as the Bagley house, and will move in on the first of January, and will perhaps become a permanent citizen of Nacogdoches.

On Saturday evening Mrs. A. N. Talley's baby boy, not yet a year old, while playing with a box of concentrated lye, broke it open, and got its face dreadfully burned. Fears were entertained at first that he had swallowed some of the lye, but he was much better this morning, the only injury being the burns on his face, which are deep and severe.

Mr. J. W. Carriker, and son, of Panola county are in the city today on business. Mr. Carriker is putting up a saw will near Cnshing and will make his home in Nacogdoches in the near future. He is one of the leading men in Panola county, a man of great business acumen and will be a valuable addition to our city besides being personally appreciated as a citizen.

Prof. G. M. Hale will teach a class for permanent certificates during the winter. Anyone interested may address him at Nacogdoches Texas.

B. F. Feazell, a prosperous farmer living about three miles from town, was in the Sentinel office this morning with a boll weevil which his son had sent him from Milam county. It was the first specimen we have seen and looked just like a corn weevil, only gray instead of black, that had acquired a mosquito's bill. It looked capable of a vast amount of mischief, and we earnestly hope that the farmers in this section will never be familiar with the looks of the devastating army of boll weevils.

Report From The Reform School.
J. G. Gluck, Superintendent, Pruntytown, W. Va., writes: "After trying all other advertised cough medicines we have decided to use Foley's Honey and Tar exclusively in the West Virginia Reform School. I find it the most effective and absolutely harmless. Sold by Perkins Bros."

Guy Blount is home from Sewall, to spend Christmas week. He arrived this morning and is shaking hands with all his friends, which is all Nacogdoches.

LOOK OUT

For Colds—La Grippe!

Protect yourself, and don't trust to Providence. Considering the harm done, "neglect" before and after taking a cold is a physical crime. You may prevent a cold, or, if too late, you can insure yourself against the "after effects," for there is the greatest danger, by using Dr. Harter's Iron Tonic. Few die from Colds, or La Grippe, or Catarrh. They die of the after effects. These diseases all weaken, and to a weakened body come flocking a host of diseases that fasten on weak lungs, heart, stomach, kidneys, and other weak parts that we seldom think of. The easiest and best thing to do is to fortify the system so that you will not catch cold, but if too late to do that, then you must see that no lasting injury is done. Medical authorities all agree that iron is the fighting element of the blood enabling the system not only to ward off disease, but to fight it after it has obtained a foothold.

Dr. HARTER'S IRON TONIC

is just the remedy needed, as it supplies the blood directly with the iron it requires to combat Colds or La Grippe. Take it before, during, or after. If taken in time, it will prevent; if taken during, it will shorten the course; if taken after, it will prevent all bad after effects. Women are especially benefited by Dr. Harter's Iron Tonic, as they seem to suffer from the weakness of Colds and La Grippe longer than men, and they are particularly susceptible to the action of a blood builder such as this is.

LEWIS & SOUTHERN,
REAL ESTATE AGENTS,
NACOGDOCHES, TEXAS

Orton-Baker.
Married Wednesday, Dec. 17th, 1902, at the Baptist church, Mr. Greer Orton and Miss Mattie Baker, Rev. A. J. Holt officiating.

The Baptist church was crowded with the many friends and relatives of the young couple, as they took the vows that united them for life. Both belong to the best families in the state, and both grew up in Nacogdoches, so that the entire town took the warmest interest in the wedding, and good wishes if visible would have been strewn like roses in their path to the altar. Mrs. Robt Lindsey played Mendelsohn's immortal march and to the inspiring chords the bridal party entered the church, the double aisles of which were used with striking effect. First appeared the ushers, Messrs. Rafe Stripling and J. H. Summers advanced up one of the broad aisles as Messrs. Mat Tucker and Elbert Weeks came up the other, and took their positions to the right and left of the altar. Mr. McGee and Miss Hattie Thomas, Mr. Coke Murphey and Miss May Doughtie entered, followed by Mr. Oscar Crain and Miss Mary Weeks, Mr. Lake Orton and Miss Eva Hood. Then the maid of honor, Miss Zula Orton, advanced up the left aisle and the best man Mr. T. E. Baker coming up the other, joined her, the attendants forming a semi-circle. Rev. A. J. Holt took his position at the altar, and the bride and groom entered together, and coming up the left aisle paused under the vine wreathed wedding bell while the impressive ceremony that made them partners for life was spoken. The bride wore white organdie over silk, trimmed with chiffon and lace, the long misty bridal veil enhancing her girlish beauty. The bridesmaids wore white organdie over pink, carrying flowers to match. The church was decorated with vines, and palms, the wedding bell having the letters "O.-B." in white roses bound together with a love knot of white satin ribbon.

After the wedding a number of guests accompanied the wedding party back to the residence of Mr. and Mrs. Baker, the bride's parents, where an elegant reception was held in honor of the newly married pair. The Sentinel extends its heartiest congratulations to Mr. and Mrs. Orton, wishing them a happy and prosperous journey through life.

FOLEY'S KIDNEY CURE

cures the most obstinate cases of kidney and bladder diseases.

It supplies the kidneys with the substances they need to build up the worn out tissues.

It will cure Bright's Disease and Diabetes if taken in time, and a slight disorder yields readily to the wonderful curative power of this great medicine.

It soothes and heals the urinary organs and invigorates the whole system. If your kidneys are deranged, commence by taking

FOLEY'S KIDNEY CURE

at once. It will make you well.

A Physician Healed, Now Prescribes It Daily

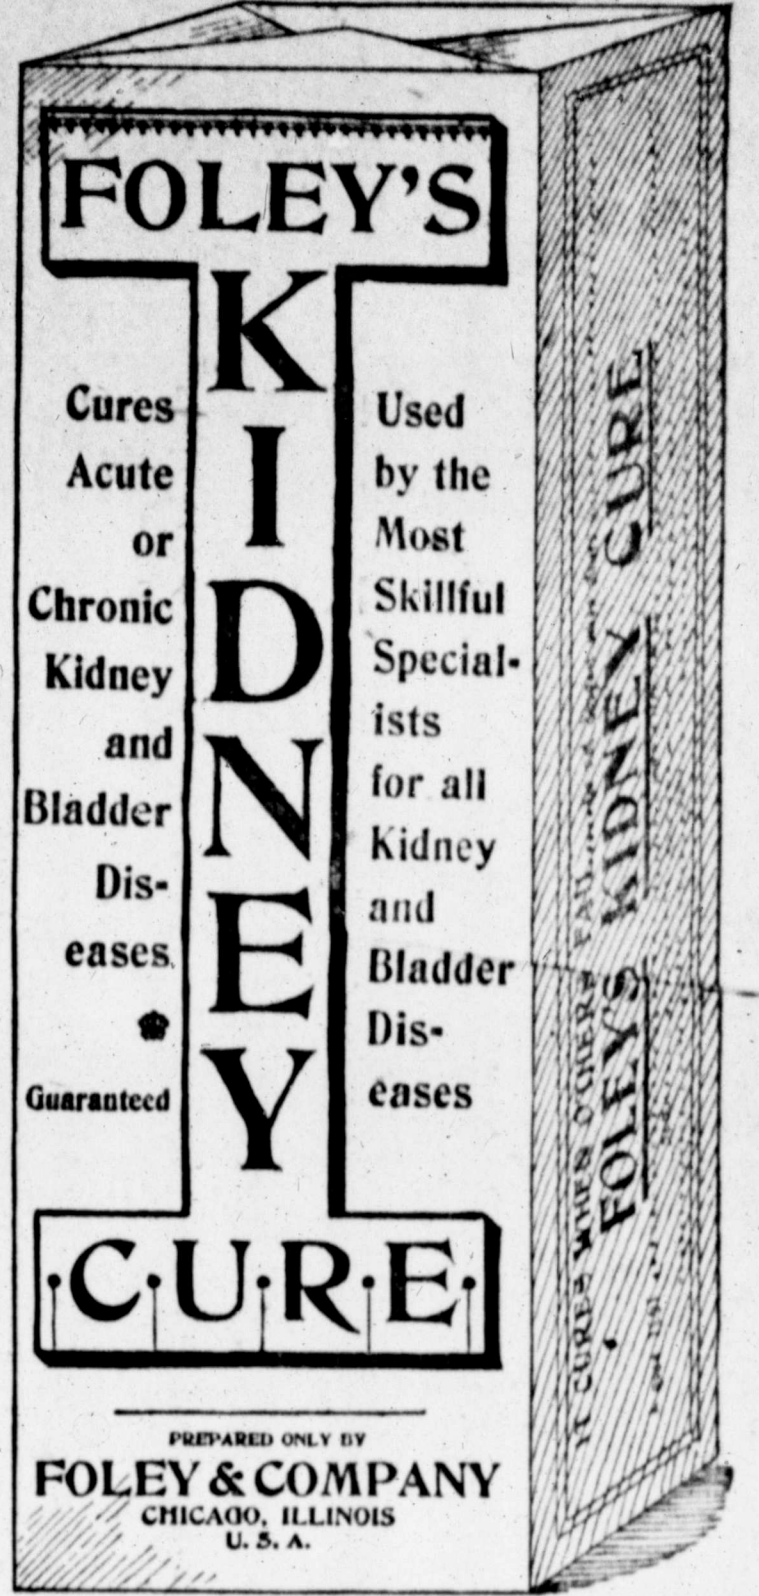

Dr. Geo. Ewing, a practicing physician at Smith's Grove, Ky., for over thirty years, writes his personal experience with FOLEY'S KIDNEY CURE: "For years I have been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use FOLEY'S KIDNEY CURE. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles, for I can honestly state I have prescribed it in hundreds of cases with perfect success."

Had to Get Up Several Times Every Night

Mr. F. Arnold, Arnold, Ia., writes: "I was troubled with kidney disease about three years. I was nervous and all run down, and had to get up several times during the night, but three bottles of FOLEY'S KIDNEY CURE effected a complete cure. I feel better than I ever did and recommend it to my friends."

Coughing Spell Caused Death.

"Harry Duckwell aged 25 years, choked to death early yesterday morning at his home, in the presence of his wife and child. He contracted a slight cold a few days ago and paid but little attention to it. Yesterday morning he was seized with a fit of coughing which continued for some time. His wife sent for a physician but before he could arrive, another coughing spell came on and Duckwell died from suffocation.—St. Louis Globe Democrat, Dec. 1, 1901." Ballard's Horehound Syrup would have saved him. 25c, 50c and \$1 at Perkins Bros.

Peach Seed Wanted.

Any one having peach seed gathered, or who can gather good seed will be well paid for them in cash or in exchange for trees if they will apply to me and state the number they have or can get together. Remember also that I still have a full line of peaches, apples, pear, plum and fig trees of the leading varieties adapted to this section and will be glad to have your orders while they yet last. Ladies do not forget the rose garden this fall. I have a specially selected list which is best adapted to East Texas conditions and the plants are stocky out door grown and will be sure to give the best results. Rush the matter of peach seed as it will be too late to use them soon. Apply to me at Garrison, Texas.

R. H. Coston, of Mt. Enterprise, was in the city today. He reports that young Horace Ruark, who recently had the misfortune to shoot himself accidentally in the arm, while out hunting, is getting well and that he will not lose his arm as was at first feared.

Sheriff Spradley returned last night from Clarksville, Red River county, where he went to identify the rapist Orr. He says Orr was sentenced to the pen from that county for 50 years, and as he did not care to wait that long for him he concluded to come back without him.

Riley, the oldest son of Mr. Josh Henson, met with a serious misfortune Saturday afternoon. He got hold of some powder, and not knowing its danger, proceeded to make a "cannon" by filling a tin can about half full, then touching it off with a match. He had his face close to the can when it exploded, and the result is that it nearly put out his eyes and burned his face and head fearfully. The great wonder is that it did not result fatally. He is getting on all right but his head and face are still in bad shape.

J. A. Sowell, of Etoile, was in the city yesterday on a trading trip.

Things We Like Best

Often Disagree With Us

Because we overeat of them. Indigestion follows. But there's a way to escape such consequences. A dose of a good digestant like Kodol will relieve you at once. Your stomach is simply too weak to digest what you eat. That's all indigestion is. Kodol digests the food without the stomach's aid. Thus the stomach rests while the body is strengthened by wholesome food. Dieting is unnecessary. Kodol digests any kind of good food. Strengthens and invigorates.
