SHOOTING AT CUSHING.

Three Negroes Wounded in a Gambling Row.

A general row took place at Cushing Monday, among a lot of railroad negroes and negroes of the community, resulting in Donny Jenkins, a negro living on Walter Wade's place, being shot through the bowels, one railroad negro getting both thighs broken and another railroad negro receiving a slight wound about the head. Eugene Turner was at Cushing at the time, and undertook to quell the row, but was shot at a couple of times and had to use his gun, finally succeeding in making some arrests. The row, it is said, started in the woods over a game and was renewed after the negroes went up to the town.

Cupid Laughs.

George Rhae and Miss Floyd Duncan decided to embark on the matrimonial sea last Saturday, the wishes of the brides parents to the contrary, notwithstanding. Application for license was turned down by the county clerk, though applied for several times. Saturday night they decamped to Garrison, where later they took the train for Houston, since which time information of their whereabouts has been scarce.

Miss Floyd is the daughter of Mr. and Mrs. T. W. Duncan of this city.

Mr. Rhoe was an attache of Ferguson & Lenoir's restaurant.

Melrose Notes.

Melrose, Feb. 28.—The cheerful sound of Mr. Oscar Buckner's new saw mill whistle is heard most every day, one and one half miles from Melrose.

Mr. Ewell Burk, a brother to our preacher, has moved in to live among us this year.

The school is decreasing in numbers as the farmer boys are compelled to be at work,

but the interest is good and the pupils are improving their time.

We are glad to say our people have plenty to eat down this way. The winter oats are not killed and the stock will have something after the present food is gone.

The financial condition of our country demands that every man who is physically able, should labor as a farmer or producer in the agricultural line some way, for God says man shall eat bread by the sweat of the brow, and no life is happier than the farmer's.

The lamentable fact that we can not attend church on the account of the bad roads and rain, should remind us how little we appreciate the sunshine, nice roads and thousands of other blessings and opportunities we let pass by unheeded and forgotten.

Sister Lilly Snow with her preachers will visit our town again this spring. We thank those who so kindly entertained them last year and let me beg you all to open wide your doors and hearts and take them in, for we all have to stand at the bar of God and give an account of the way and manner we treat his ministers. When I had but a log cabin with one room my door was then open to God's servants, and is to this day. Can testify to his wonderful blessings being bestowed on me and mine for thirty-five years. Try it brother and sister. Paul says help those women that labor with me.

We are eager to get your paper every day. And we trust our editor will soon be such a christain that when they smite him on one cheek he will turn the other, and say God forgive him a poor sinner he knows not what he does, and he will never smite the other for his heart will be condemned within him by the loving reproof.

KAPLAN SELLS IT FOR LESS.

THE TRUCK GROWERS.

LARGE AND ENTHUSIASTIC ATTENDANCE ON HAND.

Much Important Work Done Yesterday and Today—Organization of the Fruit and Truck Exchange.

The East Texas Fruit and Truck Growers association met Tuesday morning at the Opera House, W. H. Dick, of Palestine, presiding; J. T. Peel of Franklin county, secretary. T. E. Burgess of Nacogdoches delivered welcome address, which was responded to by president Dick. The preliminary work occupied time until noon.

At the afternoon session the program called for an address on the "Mission of the A. & M. College," by Dr. Daniel F. Houston, but in his absence the subject was ably handled by Prof. H. H. Harrington, state chemist.

"Soils and Fertilizers for fruit and truck crops," by Prof. Harrington was very instructive and received close attention.

"The Thinning of Fruits," by Prof. Ed. Kyle, of the A. & M. College, was also quite instructive.

NIGHT SESSION.

The association met at 7:30. President Dick presiding. Prof. F. W. Malley took the floor to advocate a resolution asking the legislature to pass the World's Fair appropriation bill now pending, for \$200,000. He explained that Mr. Wortham, President of the Texas World's Fair, commission, had promised to see that the fruit and truck products had abundant room for display at the St. Louis Fair if they were sent there, and that unless the legislature passed the appropriation bill, it would be up to the truckers to pay the expense of the exhibits from their own pockets or go without.

A resolution was adopted asking the legislature to pass the appropriation bill.

Another resolution was adopted that each sub-association write the representative of its county and ask his vote for the bill.

Mt. Pleasant association was admitted to membership in the body, and to the exchange.

A question was raised as to the right of an association not having paid per capita tax being entitled to a vote in the organization of the exchange, and somebody had a list of delinquents that he wanted to read, as a sort of credentials report. There was something doing very suddenly, and from the protest one would gather that it wouldn't take all night to count the number that had paid the per capita tax.

Motion was made to allow all subscribers to the stock to

vote whether they had paid per capita tax to the East Texas association or not.

Motion to table the motion was put and lost. Original motion was then adopted. As it was about to break up in a squabble a motion to adjourn percolated through the atmosphere, and presently it was adjourned to meet at 8 o'clock this morning.

Second Day

Meeting was called to order at 9 o'clock. Prof. W. D. Gibbs, Director of Experiment Station, was introduced, and spoke on "Relation of Experiment stations to agricultural development of Texas."

Prof. Connell, being absent, the address on Alfalfa culture was omitted.

Mr. J. H. Brockman, of Brockman & Co., St. Louis, was introduced. He stated that he was in Texas for the first time and was infatuated with the country to such an extent that he had opened negotiations for a thousand or two acres of it. He congratulated the association on the organization of the exchange, and stated as a buyer, that he would be glad to do business with it. He would be glad to buy the outfit of the Exchange "on the track" and pay the money for it. It is needless to say his remarks received considerable applause.

Prof. Sanderson, state entomologist, was next on program to tell about bugs and other pests that make fruit growers and truck raises miserable. He told them all about it.

Prof. Malley next entertained the association with an address on "Commercial orcharding in East Texas."

THE EXCHANGE ORGANIZED.

Organization Was Perfected Last Night—By Laws Adopted.

Immediately after adjournment of the East Texas F. & T. association Tuesday night stockholders in the proposed exchange got down to business.

"Uncle Dick" Bonner of Omen, made a very eloquent appeal to the body to put aside everything but the business of the hour to the end that the great work now in promotion might prove a blessing to the farmers who depended on their produce for a livelihood. Uncle Dick gave some sound advice which was heeded to a more or less extent.

Motions made and carried that the business be opened with a prayer for its guidance. Bro. Acrey, one of the delegates, offered prayer.

Sam H. Dixon, the secretary read the report of the credentials committee, which was adopted with corrections.

Mr. Dixon also read a draft of the constitution and bylaws, and on motion the report was adopted by sections.

The name adopted was the

Face to Face With Spring.

A Thousand Wants stare you in the face and every one of them you can supply if you buy here.

John Deere Implements.

Deering Plows and Rakers.

Moon Bros. Buggies.

Columbus Buggies.

Espenschied Wagons.

Linstroth Wagons.

Farm and Lawn Tools

Prindle Pocket Cutlery.

Cason, Richardson & Co

East Texas Fruit and Truck Growers Union, officers are to be President, secretary and Treasurer, nine directors and an inspector general, who will hold office one year. Along at first everybody had an amendment or objection for each section, but as the night wore on and evidences appeared that it would take a week to get through, discussion fell off to a commendable degree. This tedious job was finished about midnight.

The officers elected is as follows:

J. B. Huff, Pres., Palestine; J. W. Waltmon, of Jewett, vice-president.

Sam H. Dixon, of Houston, secretary-treasurer.

Directors: J. B. Huff, Palestine; Wesley Love, Jacksonville; E. B. Alford, Henderson; H. G. Guinn, Rusk; F. J. Miller, Calvert; F. W. Malley, Garrison; H. L. Hodges, Jacksonville; T. E. Burgess, Nacogdoches; Sam H. Dixon.

Accredited delegates present: Alto association, G B Terrell.

Palestine, W H Dick, Ira H Smith, Lufkin—J F Davis and C. T. Reed.

Corrigan—H Armstrong. Rockdale—H P Henry. Rusk—E C Dickinson, B C Copeland and H G Gunn.

Mt. Vernon—J T Garner. Troupe—E P Stiles. Henderson—E B Alford.

Marshall—S G Bostick and H B McWilliams. Rusk Co—R H Thompson.

Kilgore—P E Barton. Grapeland—J M Selkirk. Logansport—A J Mayfield.

A M Garrett and P G R Bell. Shepherd—H L Lovett and J W Carnett.

Franklin—J F Peel. Lovelady—F P Richburg.

Jewett—J W Waltmon. Sherman—J C Haydon. Nacogdoches—T E Burgess, J D McKnight, H S Eader, L W Lyles, H Burrows, R F Davis, W S Beeson, J A Pirtle, J K Latham, G W Tillery, J S Doughtie, A W Rawlinson, E A Blount, S C Windham, Allan Seale and Robt Berger.

Garrison—F W Malley, A. I Simpson and J A Kelley.

Moscow—J A Lewis. Carthage—S Kinner and J E Hull.

Hearne—J F Peel. Timpson—G N Weaver, G S Esby, J B Langhorn and R S Shipp.

Tamaha—J W Collier, E S Hicks and B R Pounds.

Faxton—Sam H Dixon, J O Watson, J M Mason, O P Martindale, J M Cammack, T J Cammack, J M Spivey and J S Grace.

Crum—J P Crum. Wells—S A Acrey and J G Humphrey.

Colmesneil—S A Hawthorn and F M Scudlock.

Mt. Pleasant—L A Wallace. Jacksonville—J M Francis. Joaquin—A T Rider, J A Ferguson, A F McGee, J P Dors and W A Williams.

Calvert—F J Miller. Elkhart—H Power.

Leggett—J H Hanner, J E Lee.

The Weekly Sentinel

R. W. HALTOM, Editor

If we are all done discussing the College let's put the question.

The tobacco industry will bring millions to East Texas in a few years.

We heard a fellow say yesterday that we would have some dry weather when it quits raining.

Roosevelt rushes in and settles, in off hand style, problems that would make an angel do some pretty lively side stepping.

New York and Brooklyn are suffering from an epidemic of grippe and the hospitals are unable to care for all the patients for lack of room.

The piny woods of Nacogdoches county are practically untouched as yet. But when the timber is off tobacco stalks and fruit trees will take its place and things will just keep a-humming.

The Lenten Season is now on and those who are "dizzy" from society's whirl may wrap themselves in sack cloth and ashes and take forty days in which to "sober up." Lent goes out April 5th.

By a decision of the United States Supreme Court, rendered a few days ago, the lottery business seems to have received a solar plexus blow. Lottery tickets can no longer be forwarded by express companies.

The Moline excursion is now making its fourth tour in Texas. There are one hundred and fifty home seekers from Ohio in the present party, many of whom will locate somewhere in the state. They are now in South Texas.

The Alto Herald is worried over the development of a case of smallpox at Alto. No use to fret over a little thing like that. We couldn't get along without smallpox in Nacogdoches. We just keep it here the year round to be in fashion.

We hear that an enterprising citizen has put in an order for gondolas; will dredge canals in the center of the streets and that soon the venetian boatmans cry "Stale" will be heard in the city. Its either that, or close business houses entirely till this weather holds up.

The Houston Post and Chronicle are in a dispute over their circulations and both are accusing the other of seeking cheap advertising. They are both excellent papers and as the field is broad there is room for them to dwell together in unity, if they only would.

After reading what Dr. Holt has to say in yesterday's Sentinel regarding the proposed location of the East Texas Baptist College in Nacogdoches, we are about ready to throw up our hands in despair. We see very little hope of obtaining this very desirable educational institution.

A CORRESPONDENT writes to the Houston Post to steam the boll weevil. We dont know whether he is joking or whether the government offered reward for the extermination of said bug, has gone to his head. We think the "esteamed" weevil would rather enjoy it.

Nobody is being begged to take stock in the Nacogdoches tobacco association, which is in partnership with Uncle Sam. The government is working on "shares" and giving the association all the crop. All the stock holders have to do is to furnish land and teams. The government does the work and takes nothing.

EAST TEXAS farmers are getting an awful slow start with the 1903 crop on account of the continued bad weather, but when it does clear up so they can get into the fields things will move lively and the chances are that an unusually heavy crop will be made this year. A late spring does not always forebode a bad crop year.

HERE is one of Bob Taylor's stories: Two old darkeys were out bathing in the sunshine on the old plantation discussing scripture. One asked the other if he believed there were any niggers among the apostles. "Course dare was no niggahs 'mong de 'postles. Think dat rooster'd ever got to crow three times if there'd been a niggah 'mong dem 'postles!"

LUFKIN is to have an opera house by the opening of next season with a seating capacity for 450 people. N. B. Chaney, one of Lufkin's most enterprising citizens, is at the head of the enterprise, and the hall has been leased in advance to the Hoo-Hoo Band for a number of years, and will be conducted under the management of that musical organization. We congratulate Lufkin.

IN St. Louis a day or two ago, a colored man, James Thomas, plunged through steam and boiling water risking his life and getting severely scalded to save his comrade who was nearly killed by the boiler explosion in a store basement. The dusky hero merely explained "he was my pal I had ter do it." Deeds like this win applause and respect from the world, and the act of Thomas has done more to make his race respected than all the domagogues since the war.

The democrats and republicans of the U. S. Senate are trying to get together on the omnibus state-hood bill. The democratic members have offered a compromise suggestion, that New Mexico and Arizona might be admitted as one state with the understanding that Arizona may become a separate state on the attainment of a population of 200,000 within the present area of that territory and on the vote of the people of that area alone. They have not said what they would do with Oklahoma and the Indian Territory.

AN effort is being made in the U. S. Senate to appropriate \$200,000 to ex-Queen Liloakalani as compensation for crown lands of which she was deprived by her overthrow. This government, it is claimed, has collected \$450,000 in rents from the lands of which she was deprived.

THE Daughters of the Republic have memorialized the Texas Legislature for an appropriation of \$25,000 for the purpose of inclosing and caring for the San Jacinto Battle Grounds, which is now the property of the State. The property has been uncared for except such attention as has been given it by the Daughters of the Republic, the state seemingly having taken no notice of it since it was purchased several years ago.

THE auditors report of the earnings of the H. E. & W. T. Ry. for December 1902, shows gross earnings \$88,381 against \$99,629 operating expenses. The deficit is doubtless due to the heavy expense of keeping the track in repair during the continued rainy season. The gross earnings of the Houston and Shreveport Ry. were \$19,848. against \$14,331 operating expenses, leaving net earnings \$5,517.

THE private car of the Southern Pacific company passed through Houston today carrying Rear Admiral Schley, Mrs. Schley and others who are accompanying him on his Southern tour. The train went through on regular schedule, with only a few minutes stop, and the party went on to San Antonio and El Paso, giving the people along the route no opportunity to tender the Admiral an ovation.

THE Fifth Presbyterian church of Chicago has been advertised for sale under foreclosure of a mortgage held by Mrs. Hetty Green, the richest woman in America. Mrs. Green's claim amounts to about \$14,000, and she says they quit paying interest four years ago and went to quarrelling among the members and she lost patience and will sell them out. She holds mortgages on 27 other churches, and declares she will foreclose against everyone of them if they get to fighting among themselves. With this warning they will no doubt be good.

THE Parker boom is making good head-way and there seems to be a growing sentiment among Southern democrats in favor of the New Yorker for the democratic nomination for president in 1904. There is another New Yorker, however, that is developing great strength as a presidential possibility and may prove a stumbling block to the Judge for the reason that the democratic press will espouse his cause. We speak with reference to Hon. Wm. R. Hearst, editor and proprietor of the New York Journal. Hearst has many millions, owns three of the most influential democratic papers of the Nation and is universally admired by his brethren of the press.

Nacogdoches land is reported to be the same as that in Cuba. Now will they raise cabbage or tobacco?—Houston Post.

Either is a paying crop, if you dont mix them.

If Beaumont has the fuel at the door of the furnace Orange has it in the back yard, and the way the factories are coming to that place proves that to be at least equally as good.—Orange Tribune.

Does that mean that Beaumont is Orange's back yard?

THE legislature has passed a bill appropriating \$150,000 for reopening and enlarging the iron furnaces at Rusk. It is hoped, and believed, that with this amount of money the iron industry in Cherokee county will be placed on a paying basis and will start up another boom at Rusk and New Birmingham.

Why is it that we people of East Texas can't pull together for good? There is always some fellow ready to bob up and object, and before he has gone far he has worked up a following that is astonishing.—Timpson Star.

Sometimes the "objectors" bob up more numerous than the other fellows. What are you going to do about it in that case?

Who says women do not rule the world? Various cranky solons in portions of the United States are trying, and have tried to make a law compelling ladies to wear skirts that don't trail, when on the streets. Lovely women merely pouts, says "wont," and she dont. Then she turns round and is agitating the subject of spitting on sidewalks; is interesting legislation on the subject, and will yet carry the point and have it prohibited. Lovely women has called the deal.

Spradley and Haltom are again on the war path. This time Spradley assaults Haltom with a stick and gives him several blows across the head almost before Mr. Haltom had time to know what he was doing. The affair comes this time as it usually does, over Spradley championing the cause of the negro. It seems that Spradley has been justifying the negroes of Libby community and denouncing the white cappers, while Haltom has been championing the white cause.—San Augustine Visitor.

The Sentinel was not championing anybody's cause. It was simply denying that things were as bad as they were reported to distant newspapers. It was, in fact, defending the county officers from the stigma cast upon them by these highly colored reports to the very yellowest of sheets. Spradley came in to the discussion uninvited and then got mad because the Sentinel stuck to its position. It now appears that the "quiet peaceable negroes" of the Libby community that have "mysteriously disappeared" were heels over head in debt to whits folks, and sold their houses for a song and took the money to skip the country with, in order to beat their creditors. At least this is the story told by disinterested white people of the Libby community.

CONCERNING THE COLLEGE.

Dr. Holt's Rejoinder to Mr. D. K. Cason.

The courteous article of Mr. Cason in Thursday's Sentinel renders a reply necessary. The friends of the college, if one may be allowed to speak for all, desire to be put on record as most emphatically the friends of the public schools which are at once the pride and the protection of our American government. The citizens of Nacogdoches, who desire the location of this college in our city, prove their friendship to the public schools, by being the most liberal patrons and tax payers to support the same, and not one of us would "encroach slightly on the public school interest."

It is unfortunate that the intimation has been made that the college people are not so friendly to the public schools, or that we seek to "encroach upon" them even "slightly." The college does not receive children until they have passed through the grades taught in the public school. The public school does not teach the grades encompassed by the college curriculum. One would be supplementary to the other. In those cities where the best colleges are located, the best system of public schools is to be found. Please to bear this fact in mind: there is but one suitable location for a college in Nacogdoches, but there are several admirable locations for a public school grounds. A college, such as we hope the one in question would grow to be, would have to have 1st a recitation hall, as large and costly as the entire public school building. 2nd, two boarding halls, one for young men and one for young women. 3rd, a library hall. 4th an auditorium or chapel. 5th a gymnasium. These buildings together with such other out buildings as might be necessary, such as wood sheds &c. The public school children live at their homes. The three or four hundred collegestudent live on the campus. Drill grounds and a ball-ground would have to be had for the young men, and calsthetic grounds for the young ladies. The original donors of this plat of ground, designed that it should be used for a permanent college or university, hence its name Nacogdoches University. The public school has never used and never will nor never can use one half of these grounds. The other part lies idle and is actually an encumbrance.

When the election was held to decide about the issuance of bonds to erect a large public school building on this site, that was the best thing in sight, but we have made some progress since this time and our vision is extended. The promoters of the college have proceeded upon the most economic plan. To have purchased a location for the college would have cost the people of Nacogdoches \$15,000, or \$20,000. The Judge Ingraham lot would have cost \$15,000, and the bonus to be added would make \$20,000 to be raised to secure the college. Owing to our recent loses, it was considered impractical

to attempt to raise that much money. An admirable and ample location for the public school would not cost one fourth of this amount. By the donation of the University grounds to the college, and the purchase of other suitable grounds for the public school, we would expend not exceeding \$8,000, not counting the bonds, and Nacogdoches would then secure the college which would in time expend at last \$50,000, on buildings, and \$50,000 more on endowment, and have all the excellencies besides which would attach in an event to the public schools. Which were the better business proposition: To expend \$8,000. and secure \$75,000, or to expend \$20,000 to secure \$75,000, and yet have \$12,000, worth of grounds absolutely idle.

A few words to Mr. Cason's article. He says he does not consider it a reasonable proposition, "for us to give our entire public school grounds to any thing to except to public education." Public education is precisely what we want them for. All those grounds should be given for public education, and not for raising grass. Mr. Cason speaks his mind clearly when he talks about giving those grounds away. Those grounds can never be taken from Nacogdoches. They will remain where they are until the judgment day, and should never be used for any other purpose than for "public education." Then if it is a gift at all, it would be Nacogdoches giving to Nacogdoches a site for a college. It would not enrich the Baptist one penny, but would cause them to spend in Nacogdoches, for Nacogdoches, \$50,000, besides the expenditure in this city of some \$50,000 a year by the pupils who would attend the college. This reply has been penned to set the friends of the college in a perfectly fair light before their fellow citizens.

Mr. Cason has deep convictions, which are doubtless sincere, and which should be respected, but in his ultimatum he declares, "I shall so long as I have a voice raise it in opposition to any such measure." Mr. Cason thus renders himself quite inaccessible to any argument, and impervious to any appeal. A word personal, and my part of this controversy shall be closed. When I became but recently, and for the second time, a citizen of the grand old town of Nacogdoches, I brought with me a deep and abiding affection for its people, and a sincere desire for the promotion of every thing that would add to the prosperity of this community. I saw in this college enterprise a boom and blessing to our people. Its success would cost me personally much of care, responsibility, and labor, without a cent of pecuniary recompense. In this effort I have had the sympathy and co-operation of many of our best citizens, to whom I wish to extend my profound thanks. Yours for progress.

A. J. Holt.

The East Texas Business College will have a large attendance of young men and young ladies for both night and day sessions.

Good Health

and pure blood are inseparable. If your blood is bad, your health must suffer. Poor blood allows the body to lose vitality just as a poor fire under the boiler allows the steam to run down. From poor blood to impure blood is but a step, and impure blood is mother to a large percentage of human ills. Dr. Harter's Iron Tonic is an antidote for both poor and impure blood, for it is both a builder and purifier—a food and a medicine. It is the best combination of the kind known to medical science, and its success for nearly half a century has led to its endorsement by thousands of medical men who have been unable to find a substitute.

Dr. Harter's Iron Tonic

will insure you against the many evils resulting from impure blood. Scrofula, pimples, blotches, kidney disorders, rheumatism, gout, dyspepsia, female weakness, anaemia, chlorosis, etc., are a few of them; but the greatest evil, the greatest danger, is the general weakening of the whole system, which affords an opening for every passing disease.

The following is only one of the thousands of testimonials we have received:

Detroit, Mich., Jan. 10, 1901.
"I commenced using Dr. Harter's Iron Tonic when prostrate from a severe attack of rheumatism. After using three bottles, all traces of this disease were completely eradicated from my system, and my general health was restored. As a blood purifier, Dr. Harter's Iron Tonic has no equal, and I most sincerely recommend it to all persons suffering from indigestion, fatigue, rheumatism, and the many weakened conditions of the system produced by impoverished blood."
Margarette F. Yeazell,
No. 640 Second Ave.

(\$4,000 guarantee that above testimonial is genuine.)
Every bottle of Dr. Harter's Iron Tonic has our "Crescent" trade-mark on the label. Don't accept a substitute—insist on Dr. Harter's.

The \$1 bottle contains 3 1/2 times the 50c size.

CONCERNING THE COLLEGE

Mr. Cason Takes Issue With the Proposition to Give Up All The University Grounds.

Editor Sentinel:

Nacogdoches, Texas, Feb. 26th, 1903.—The matter of our general educational interests are of such vital and lasting importance that we should all, without regard to creed, position or condition, weigh carefully every proposition submitted that will even remotely affect these interests, either favorably or adversely. That we are sadly lacking in our interest along this, a most important line, is perhaps beyond question. Quite a few who profess to have the good of our schools at heart have for some years made an earnest, labored effort to bring about a condition of affairs with regard to the progress of our public schools that we could unite upon.

Last April, with this end in view, the fifteen men who compose what is known as the University Board passed, and entered in their minutes, a resolution providing that if the tax payers of this independent school district would vote \$32,500 bonds for public school improvements, \$25,000 of this amount to be expended upon the "College Campus," that they, (the University trustees,) would deed the entire campus to the public school trustees, to be used by them for the education of white children. The local newspapers and a few citizens urged this measure. The people, by an overwhelming vote, authorized the issuance of the bonds. There are some who believe it would be the "square" thing for this board to pass the title as proposed, unless the white people who reside in this independent school district shall by a majority vote declare that they desire these grounds used for some other purpose.

The Sentinel of the 21st inst. contained an editorial suggesting such a settlement of this matter, characterizing it as a "conservative plan," and an equitable way in which to arrive at a solution. This plan had been suggested before and has "some" support. Dr. Holt in yesterday's Sentinel in an ably written article undertakes to "remove some misconceptions concerning the Baptist College." I agree with him in most of his first four propositions, and most heartily in his 5th, but in his sixth, where he states that "This College is within the grasp of our people, if we will accede to the 'very reasonable' terms proposed by the commission, viz: grant to them a 'suitable' location and a bonus of \$5000," and "if the proper authorities will donate all, (not half, not three fourths—the parenthesis are mine,) of the University grounds (our only public school grounds) and the citizens will give five thousand dollars the Baptist College will be located in Nacogdoches." I do not believe that it is a "very reasonable" proposition for us to give our entire public school grounds to anything except to public education, and for my part, I shall so long as I have a voice raise it in opposition to

Harvesting Golden Dollars

It's harvest time ALL the time with the thrifty people who buy their supplies from Montgomery Ward & Co. You can reap a harvest of golden dollars RIGHT NOW by ordering your Implements, Wagons, Harness, Clothing, Groceries, Farm and Household Supplies, etc., from us that you will need this year. We save you 15 to 40 cents on every dollar's worth of goods you buy of us. And we sell you only high-grade goods that will give you long and satisfactory service.

SEND FOR CATALOGUE NO. 71

It will save many families more than \$100 this year. Is such a harvest worth reaping? Fill out the coupon and SEND TODAY.

any such measure. One that I think is not only not "very reasonable," but a very "unreasonable" one.

This College is beyond question, much to be desired, and if it can be obtained upon any reasonable terms, or such terms as the people can afford let us have it, but if it is to come at the expense of the pledged word of your 15 University trustees, or the peace of your community, or what is perhaps greater than either of these, the good of the public education of our children in our public schools, then I for one say let us content ourselves with what we can afford, and if needs be let the East-Texas Baptist College pass.

To even encroach slightly upon our public school interests, much less to take the entire college campus and deed it to any college or colleges, or in fact anything on earth, would to my mind be a step upon our part that would be regretted not for a year but for all time.

I do not believe that any institution or interest that we have or can get is comparable to the benefits to be derived, by our common people, from a first class public school. I believe we ought to look well to the interests of the public schools, provide amply for them, for there are many children of the poorer classes who can never hope to attend a real college even if it is right at their door. From this class came most of the men and women of today and we should give them every opportunity in the future.

Some say let us give this college property away and buy other grounds for the public schools. "Many suitable locations may be found for the public schools, but there is only one location in Nacogdoches suitable for the College." Some believe that the grounds now in contemplation and discussion are admirably adapted to the public schools and will not willingly give all of them up for anything.

Dr. Holt concludes: "But if a large majority of our representative citizens favor such a donation, would it not be a graceful act for the minority to cheerfully acquiesce, and let the greatest good to the greatest number prevail." I believe that every true man and woman is willing for the "greatest good to the greatest number to prevail" and a majority of we who oppose giving the public school grounds to

the proposed College have said publicly and privately that if the majority of the white qualified voters by vote decide to donate a part of these grounds that we would bow in humble submission.

One strong advocate of the division of the grounds says he would be willing to leave it to the white voters if we could disfranchise those who voted against the bond issue. In other words because a few could not see as we did and vote for a bond issue, they should not have a voice in disposing of their own. Is this reasonable or Equitable?

As to "representative citizens," that might apply in some instances or some discussions but in the matter that affects the public school interests I believe that every learned professor, physician, minister, lawyer, merchant, banker, carpenter, plumber, brick layer, ditcher or section hand, if he be a white man in this district should be entitled to a voice in this matter and not leave it to a few who may denominate ourselves "representative citizens."

I have written frankly but kindly, and greatly favor the location of the college here and believe yet we can get it, and I am willing to contribute an amount to induce it. I believe a majority favor giving the north half of the College Campus (public schools to use present buildings until others can be erected,) and we can, I feel sure, make up money to buy the Ingraham lot (3 1/3 acres) just across Mound street and in this way give them 9 or 10 acres of ground admirably located. If this can be done and the peace of the community be preserved we may then get the college, and it will be our college indeed and in truth, and with the hearty support and encouragement of the people of all classes, the college will do infinitely more than it would with "broad acres" without this support. Let us consider wisely and when the majority have spoken, let us "bow gracefully."

Very respectfully,
D. K. Cason.

To Cure a Cold in One Day
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

SATURDAY'S LOCALS

Jno. Rogers of Alazan, was in the city today.

W. M. Wilburn, of Mahi, was in the city this afternoon.

Mr. Fred Brunsterman was in town this morning from Manton.

J. E. Ryan came in this morning having taken in the carnival at New Orleans.

Geo. Burton a former resident of Nacogdoches, was in the city yesterday for a short visit, returning to Carthage last night.

L. H. S'eller returned from Woodville yesterday afternoon, where he spent several days in the interest of tobacco culture.

Messrs. C. B. Rives and J. E. Ray returned yesterday from New Orleans, where they spent several days during the Mardi Gras festivities.

Mr. S. W. Blount returned this morning from San Augustine via Houston. Daily passenger trains are now running from San Augustine to Beaumont, Mr. Blount buying the first through ticket.

Emory Ray left today for Louisiana, where he will keep books for Mr. John Ryan, the railroad contractor. They are now camped about eighteen miles from Shreveport on a new railroad that is being built into that city.

J. R. Traweck of Mahi was in the Sentinel office for a few moments during his trip to our city today. Mr. Traweck has opened a restaurant and confectionery store at Mahi, which he thinks a good business point and a city with a future.

Mr. Polk Roberts returned yesterday from Houston. The treatment of Mrs. Roberts eyes will, the oculist thinks, prove entirely successful, and her eyes restored to their normal vision. Mrs. Roberts will remain in Houston for some time yet.

Capt. Jno. S. Doughtie returned to the city yesterday after a visit to all the cotton gins. He is making out a report of the amount of cotton ginned in Nacogdoches county to be forwarded to the agricultural department at Washington.

Mr. John Ryan is in the city today, having come in yesterday evening from the T. & N. O. extension. He has about finished his contracts on the T. and N. O. and will move his teams to Louisiana in a few days, where he has an extensive contract on a new road near Shreveport.

W. M. Stulwell, deputy sheriff of Garrison, was in the city today on official business. He brought Taylor Todd from Rusk county, who is wanted by the officers of Clark county, Miss. Todd is an escaped county convict.

He was placed in the county jail waiting the arrival of sheriff Jno. Dabbs of Clark county Miss.

Children's Coughs and Colds

Mrs. Joe McGrath, 327 E. 1st street, Hutchenson, Kan., writes: "I have given Ballard's Horehound Syrup to my children for coughs and colds for the past four years, and find it the best medicine I ever used." Unlike many cough medicines, it contains no opium, but will soothe and heal any disease of the throat or lungs quicker than any other remedy. 25c, 50c and \$1 at Perkins Bros.

R. P. Thompson of Nacogdoches is spending the week in the city, helping his brother on his house.—Teneha New Era.

Mr. J. D. Haltom died Jan. 31, 1903, near Elkhart, this county, aged about 77 years. He professed religion in early life, and united with the M. E. church, in which faith he lived faithfully until the end. He was married twice, and raised a large family.—Palestine Herald

To Cure a Cold in One Day Cures Grip in Two Days.
Take Laxative Bromo Quinine Tablets. **E. W. Grove** on every Seven Million boxes sold in last 12 months. This signature, **E. W. Grove** box. 25c.

THE exchange plan is plausible, practicable and most assuredly would prove profitable. The more universally it is adopted the safer and surer would be the benefits. That's the way it looks to a man who is not a truck grower, and we hear it expressed thus by scores who are. We cannot understand why the plan is not universally adopted.

We fail to see any good resulting from this discussion of the Baptist College, coupled with the University grounds. The more ink there is spilled, the wider the breach becomes — on paper. Let's "cut it out" and take a new start, leaving Washington Square to rest in peace. Let it grow up in weeds and cotton tail rabbits, to which it seems better adapted than raising school houses. There is one other thing, however, which it is a great success in raising. We desent print its name.

MR. W. M. DOHERTY of the H. E. & W. T. Ry., is circulating among the fruit and truck growers and offering every encouragement to the organization. To the railroad men is due more than any one factor for the rapid strides being made in fruit and truck growing, and the crop diversification that is now being carried out by the farmers of East Texas. Individually Mr. Doherty is entitled to special credit. He is always ready to lend a helping hand and has met the truckers on half way ground on the part of his company at every opportunity.

ONE'S education should never be neglected. The New York Times tells of a lady whose knowledge of music saved her life. A flood washed their little home away, her husband floated down the torrent on a folding bed and she accompanied him on the piano. Careful attention to art may or may not enable to student to draw a salary, but physical culture has developed many a proud girl into a horticulturist, and a good reciter can make a fortune as an oculist. Learn all you can, you never know when it will come in handy.

A MAN in New Jersey is suing for a divorce because his wife is fonder of going to clubs than of milking cows. That's going to be a very hard case to settle in the courts, because the general disposition of the man, the woman and the cow, have to be considered; and the cow is the important one. If it is a nice gentle Jersey, a shed to milk under, and the man provided all possible conveniences, then the woman is to blame; but if said cow is a half tamed scrub that has to be chased all over a half acre "cow pen," before she will stand long enough to get a half pint milk from her, after pulling a yearling calf off a dozen times, then the woman is entitled to a divorce instantian, and the sooner she gets it and joins two or three more clubs the better.

MR. DOOLEY ON THE COLLEGE.

"What's this I hear about the college persuasion?" said Mr. Hennesy, taking his seat by the stove.

"Well, its this way, Hennesy," said Mr. Dooley, "along back in the early part of the last cinchury, when Chicago was a small village, and Texas was a free Republic and the old sogers who had fought at the battle of San Jacinto, and had got tired of pistil prnactice and of ilivating horrs thaves, and the like to conveynient trees, and before adjourning one of the original democratic conven s h i o n s, "Now, b'yes," says Mr. Thorn "lets have a skule and eddycate our children," says he.

"Thru for ye," says Dr. Starr. "Good," says Judge Taylor, an Irishman from Lunnon. "Hooray for the skule," says Judge Blake, from Vermont. "Bully b'yes," Giniral Rusk. "Count me in," says Dave Mickleroy, from Loch Lomond. "Count us all in," says the late jury and the whole court. "Where shall we put it?" says Mr. Nelson.

"On the prettiest hill between the two creeks and conveynient to the Stone Fort," says Mr. Edwards. "What'll ye give," says Mr. Hart. "2214 acres," says Mr. Thorn; "2214 acres," says Mr. Edwards; "2214 acres," says Mr. McIntyre; "640 acres," says Mr. Nelson. "26854 acres and \$1881," says the other b'yes as fast as the secretary could scratch down their names on his sheepsken.

"What churches shall we have ripresented on the board ov thrustees?" says a Presbyterian pracher at the back of the crowd. "No church," says all at once. "We have a church an the Stoon Foort, and Father O'Grady and Jno. S. Roberts, and write it down what we want now is a skule for the childre."

"Well, at it they wint, Hennesy, with the same quick movemint as when chasing the Dagoes at San Jacinto, and while ye was looking, up wint a foine two story brick skule house before the ink was hardly dr-rhy, and hundreds of prominint min and wimmin got their eddycation thir in that same building.

"Now thin, Hennesy, all seemed to be going well until one bright morning a gentleman from Wayco and some of the thrustees were accidentally strolling up Fredonia street. Casting his eye to the right, sas the gentleman from Wayco: "Thim's foine g r o u n d s; thim's butiful grounds, and what do you cali it?" says he. "Washington Square, named for the fater of his country," says me friend Dotson.

"And what for is the two old shacks about the middle of it?" says he.

"That's Nacogdoches University," says me friend Harris, "and we arre going to add a twenty-five thousand dollar skule building for the childre," says he, with a foine pride, for me friend Harris believes in childre, he dees.

"Ye ought to pull that down to make room for the foine Baptist College that could not build up Rusk," says he, "and let it build up your town," says he.

"What will our own childre

do thin," says Mr. Summers, scratching the bare spot on the back of his head.

"We'll fence off a corner for them where they'll be out of mischief," he says, "or better still, we'll get them a lot in the suburbs where they'll be free from tmptation," he says.

"Thru for you," says me friend Matthews, "and we'll call a meeting and give it to you," he says.

"And they called a meetin and the gntleman from Wayco and two other iloquent spakers did very convincin'ly entertain the aujince and persuded them that the University grounds were too big and handson' for b'yes and girruls, but just r-right for the big college from Rusk, and called for a meeting of thrustees for to clinch the bargain while it was hot.

"Thin me friend Cason and some older thrustees did read over some old minutes about what Gineral Rusk and others intended when they give the ground to the childre for all time, and then they got the dishunary to find what a thrustee raaly meant, and they found that he is one who is placed in a position of thrust, and then says me friend Cason, says he, "b'yes, I don't believe we have any right to take the grounds away from the graded public schools, and what's more I won't, that's flat, divil a fut." And then the meetin' broke up.

"What do you think they'll will do about it?" said Mr. Hennesy.

"Oh, I don't know, Hennesy, I have to attend a ward meetin' of the byes and I'll see you later," says Mr. Dooley. A Trustee.

With apologies to Mr. F. P. Dunn, of Chicago.

Cures Cancer and Blood Poison.

If you have blood poison producing eruptions, pimples, ulcers, swollen glands, bumps and risings, burning, itching skin, copper-colored spots or rash on the skin, mucous patches in mouth or throat, falling hair, bone pains, old rheumatism or foul catarrh, take Botanic Blood Balm (B. B. B.) It kills the poison in the blood, soon all sores, eruptions heal, hard swellings subside, aches and pains stop and a perfect cure is made of the worst cases of blood poison.

For cancer, tumors, swellings, eating sores, ugly ulcers, persistent pimples of all kinds, take B. B. B. It destroys the cancer poison in the blood, heals cancer of all kinds, cures the worst humors or suppuring swellings. Thousands cured by B B B after all else fails. B B B composed of pure botanic ingredients. Improves digestion, makes the blood pure and rich, stops the awful itching and all sharp, shooting pains. Thoroughly tested for thirty years. Drug-gists, \$1 per large bottle, with complete directions for home cure. Sample free and prepaid by writing Blood Balm Co., Atlanta, Ga. Describe trouble and free medical advice also sent in sealed letter.

Mr. Eltas Rhodes, a substantial citizen and successful farmer of Shelby county, was here yesterday on a trading trip, and returned home this morning.

IMPORTANT RESOLUTION.

Fruit and Truck Growers Favor World's Fair Apopropriation.

Following is the resolution adopted Tuesday night by the East Texas Fruit and Truck Growers Association:

"Whereas, a bill is pending in the legislature of Texas to appropriate \$200,000 for an exhibit of the state's resources at the Louisiana Purchase Exposition to be held in St Louis in 1904; and,

"Whereas we believe the returns from such an exhibit would exceed the cost many fold, in that it would acquaint the world with the unrivaled and varied resources of the state; and,

"Whereas, it is a proposition that appeals to state pride no less than to business instinct, in that such an opportunity neglected would shame every Texan; and,

"Whereas, we do not believe it was the purpose of those who made the fundamental law of this state to deny the people the right to do anything that will redound to the benefit of all; therefore, be it

"Resolved, That we, members of the East Texas Fruit and Truck Growers' Exchange, assembled at Nacogdoches, most earnestly request of the legislature, and even demand, as producers, as voters and as tax payers, that it pass the world's fair appropriation bill.

Saw Mill For Sale.

As Trustee in Bankruptcy of the estate of Lightfoot & Walden, Bankrupts, of Garrison, Nacogdoches County, Texas, I will offer for sale at Garrison, Texas, on March the 11th, A. D. 1903, all the assets of the said bankrupts, consisting of 7 mules, small stock of commissary goods, 1 Ames boiler complete, 11 ins. by 12 ins., 1 44 in. by 14 in. Ames boiler, 2 flues; all shatt-ing, pulleys and belts; 3 log wagons, 6 tram cars, and all the machinery connected with the mill of Lightfoot & Walden, which constitutes machinery sufficient for its operation. This property will be sold all together or in parcels to suit purchaser. Terms cash, and sale will be made privately, and all property will be delivered on the mill site of said bankrupts in said Nacogdoches county, Texas

GEO. W. EASON, Trustee.

Black Jack Letter.

It seems as though the melancholy days have come to old Black Jack, as she is almost dead on account of bad roads and weather. Mr. C. Blankinship is grading a road from his place through the bottom to his brother's place, he would soon have it completed if the people would come in and help him as he has asked them to do, but as yet none have come except L. G. Hanks and John Y'Barbo. The gates have been closed on account of the wagons tearing up the lands, but will be opened again as soon as the grading is finished. There is a way open for horse-backers to go through though. Mr. Blankinship intends to put the road through if it costs him \$50. Let the community

come in and help so they can have a good road to travel.

There will be an entertainment at the school house, on the night of March 6th. Everybody come and bring some one.

There will be preaching here by Bro. Wheeler the fourth Sunday in this month. Joe Balch.

Aken Letter

Aken Texas, Feb. 28.—The people are busy rolling logs, but owing to the bad weather they are making slow progress. For this reason, they are a little behind with their work.

No deaths nor marriages to report.

It may be out of order, but I want to say a few words in regard to the sable colored race, of which there has been so much recently said in the news papers. In dealing with the negro problem, we must first bear in mind that it is an established fact that each race has a very different degree of development. In not taking this view of the matter opens wide the avenues of mistakes, and prejudice in governing them. As the negro is several centuries behind in the point of development; that no legislation nor the dreams of the brotherhood of man can ever put them on an equality with the Anglo Saxon race, because the facts are against it. Therefore for man to entertain such ideas is simply stupid ignorance confounded. Evolution being a slow process, heredity, circumstances experience etc. are potent factors which cannot be overcome by a miracle. But there is a few that think so. The northern people in considering the negro problem over look these facts, and feel a pity for them, which they do not need nor appreciate. A few however, try to take the advantage of such sympathies, and white capping is the result. The southern man is the best friend the negro has, because they know him as he is. They know this, and a few of them are willing to admit it. Therefore the Southern man will not allow the negro to be placed in a position that they could give vent to their Semi civilized nature, for the same reason the courts will not accept the unsupported evidence of a negro against a white man. If they did no white man would be safe. The Southern man has learned by long experience and association with the race, that they are utterly incapable of maintaining honesty and virtue. Seems that the Northern man over looks the law of progress and development toward the negro. The Southern man is not the enemy of the race, for they are heavily taxed for their education. I think it would be much better and wiser if the northern man would accept the Southern man's estimate of a race of which they have so intimately known so long, Yours, HEBER.

How to Succeed in Business.

Keep your liver in good condition by using Simmons' Liver Purifier (tin box) It corrects constipation, cures indigestion, biliousness, stops headache, gets your heart in the right place so you can smile at your neighbor.

EAST TEXAS PROGRESS.

In speaking of the East Texas Fruit and Truck Growers association, which is now in session in this city, the Houston Chronicle enters upon a brief history and crop diversification, from which we quote the following:

"Twenty years ago the Houston East and West Texas railroad reached Nacogdoches. For 10 years previous to that time farmers hauled their cotton to Henderson, and Rusk county. Previous to that period all cotton raised in the counties of Harrison, Panola, Rusk, Shelby, Sabine, San Augustine, Nacogdoches and several others was carried to Shreveport. From some points in the territory named it sometimes took three weeks and even longer to make the trip.

But these were halcyon days, and old time farmers still like to talk about the good times they used to have wagoning and selling cotton in Shreveport and elsewhere. Everything used on the farm, in the store or workshop had to be bought and hauled 100 miles or more on slow going wagons. The father of the writer of this article now owns a Linstroth wagon, he bought from Haven & Looney in Shreveport 30 years ago, and it is still in fair condition. In those days cotton brought a good price and continued to do so even when the bulk of East Texas cotton commenced to go elsewhere on account of nearer markets. During all these years new people were continually moving into every section of East Texas.

New lands were being bought, cleared and planted, mostly in cotton and corn. Year after year, to the farmers' dismay, the price of cotton dropped down, down, down tipping the beam all the way from 15 to 4 cents. The low price of cotton for a number of years had the effect of materially increasing the number of bales produced because the farmers undertook by raising big crops to counterbalance the effect of short prices.

His attempt led to "confusion worse confounded," and if drouth, flood and various other providential calamities had not come to his relief and forced a succession of comparatively short crops, the entire cotton growing section would have been reduced almost to a state of poverty, notwithstanding the fact that each succeeding year witnessed a large crop of cotton.

During breathing spells between the coming and going of first one disaster and another farmers in various sections of East Texas began to experiment with truck raising, and fruit growing on a small scale. They observed that it paid and suggested the question: If it pays on a small scale, why not on a larger one? This result in the experiment being tried by various farmers, and finally, five or six years ago, or perhaps earlier, the farmers around Jacksonville, Dialville, Craft and several other points in Cherokee county began the experiment of truck farming for commercial purposes. At first the effort was not successful, but they were not discouraged. The lesson of past years had fully taught them that in diversification law the only avenue open to the farmer for remunerative returns. It might be said, therefore, with truth, that Providence and self-defense were the twin causes that led to fruit and truck growing as a business venture in East Texas."

EXTENDED 30 DAYS.

The sale which we have been running for 30 days has been a great success, yet we have more goods than we wish to ship, and believing that the people will all patronize a continuation of this **Great Sacrifice Sale**, we have therefore decided that we will run for at least

30 DAYS LONGER.

Now, in opening up this second campaign we promise the same remarkable low prices as quoted in our circular of the first sale on all goods in the tremendous stock, and not only this, but to induce the people to come and spend their money with us we will sell them the stock bought from Jno. P. Davidson as formerly advertised and will replenish all the lines with **NEW GOODS** and sell them at a saving of from 20 to 50 per cent. Keep your old circular. We guarantee the prices.

Yours for business,

JNO. W. DAVIS.

(Successor to Jno. P. Davidson.)

CONCERNING THE COLLEGE.

Judge Ingraham Fires a "Broadside" At the "Whole Push."

Feb., 28, 1903.

Editor Sentinel:

I have read with interest an article, by Mr. Holt and also by Mr. Cason, about Washington Square and the schools, and while not agreeing with either, like Mr. Holt's article the best, because he seems to know what he wants and states his wishes squarely; his proposition being that if the land on Washington Square (what I estimate with the building on it, is worth \$30,000,) is conveyed to the schools he represents and a gift of \$5000.00 added the school will be brought here. That is a plain business proposition, and in my judgment ought to be rejected at once. As to his reasoning, prophecies, and promises, in connection with this matter, they seem to me to be misconceptions on his part. If this school is such a benefit, and will produce such results, as he seems to think, then is it not true that it will do the same thing wherever it may be located? And is it correct that these results will not be produced by it unless located upon one particular spot in Nacogdoches? If so then the benefits mentioned grow out of the locations. If the school will and does produce such benefits, would those controlling it want to move it? And would the people where it is located permit its removal if by any sacrifice on their part they could prevent it? It seems to me they would not. I am not

in favor of seeing any one denomination own this land; certainly not as a gift. I had rather see it divided up among all the religious denominations, and no denominations represented in Nacogdoches. I am in favor of its belonging to Independent school district No. 3, and nothing else. If there was a Methodist school here I would want it to be for the Methodists first or haul down its colors. As to the graceful part in the matter suggested, being apposed to the proposition, would like to be excused even though a majority of the "representative citizens" differ from my views.

As to the other article, as I understood it, is fifteen gentlemen, among whom was the writer of the article, promised the qualified voters of Nacogdoches, Independent Public school District No. 3, if they would vote certain bonds, they would have the title to this land vested in said district. The voters voted the bonds. This is the way I understood the article, and if this is correct there is but one thing for the fifteen gentlemen to do. Deliver the goods. That is, vest the title in said district. The rest of the article reads to me like an ingenious argument trying to furnish the writer a reason for only conveying half of the land to the district, and for some excuse for diverting half of it to another purpose. Suppose I were to buy a wagon from him for \$100.00, pay him the money, would it not look ludicrous for him to say, I will deliver you half of the wagon and if a majority of

the white voters of this city are in favor of it I will deliver the other half to John Smith. Some people voted against the bonds. I did and would do so again if given the chance. But what was the use of saying anything about disfranchisement? There are some grey haired citizens here who vote against those bonds who have once been disfranchised for doing their duty to this country as they saw and understood it. "packing a musket," and such like little things, and who would vote against them again if they had a chance, even if the penalty was disfranchisement. I feel it an honor to know them as my friends, even if they do not always agree with a vast majority of the representative citizens of the district.

In closing I have to say I have lived here a long time, and expect to die here, and desire nothing but the most lasting good to the city of Nacogdoches, and the school district in which it is situated. The citizens thereof have the warmest wishes of my heart for their success and welfare, and I believe 'That Charity never faileth; but whether there be prophecies they shall fail; whether there be tongues they shall cease; whether there be knowledge it shall vanish away.' With kindest wishes, I am very respectfully,
Geo. F. Ingraham.

They never did fail; they never will fail. What? Cheatham's Laxative Tablets—to cure a cold at once. Carry them in your vest pocket. Always ready. Guaranteed. Price 25 cents.

What's in a Name.

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago, discovered some years ago, how to make a salve out of Witch Hazel that is a specific for piles. For blind, bleeding, itching and protruding piles, eczema, cuts, burns, bruises and all skin diseases, DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitts—the genuine. Perkins Bros.

Think of new spring hats and caps up to "now" at 50 cents on the dollar, Jno. W. Davis has them.

"Spring Fever" is much more than a joke; it is a physical condition. During the winter the system, because of confinement, less outdoor exercise, and winter foods, becomes, more or less, stagnant and clogged up, and the blood becomes bad. The bracing effect of cold weather keeps the system keyed up, but with a few warm spring days the vitality drops, the energies lag. We call it Spring Fever. As a matter of fact, it is a physical weakness. The system has been impaired. There is danger because of diseases. To many people a blood purifier and tonic is necessary in the Spring. It would benefit everybody. Dr. Harter's Iron Tonic has for half a century been recognized as the best blood purifier and tonic known to medical science. It is valuable as a Spring remedy. Try it and liberally your system against everything Spring Fever.

John H. Perkins has been appointed to the board of Pharmacy for this district in the place of W. U. Perkins, who resigned. Mr. John Perkins is one of the rising young men of Nacogdoche; the honor is a deserved one and we heartily congratulate him on this recognition of his merit by the board.

It Saved His Leg.

P. A. Danforth of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Bucklen's Arnica salve wholly cured it in five days. For Ulcers, wounds, bites, it's the best salve in the world. Cure guaranteed. Only 25cts. Sold by Stripling, Haselwood & Co.

When Friday comes on the thirteenth of the month for two successive months, be thankful that things are no wuss and hush growling about the weather.

A Remarkable Case.

One of the most remarkable cases of a cold, deep seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She writes: "The coughing and straining so weakened me that I run down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Perkins Bros.

The Stomach is the Man.

A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength cannot be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revive the tired and run down limbs and organs of the body. Kodol Dyspepsia Cure cleanses, purifies, sweetens and strengthens the glands and membranes of the stomach, and cures indigestion, dyspepsia and all stomach trouble. Perkins Bros.

J. F. Davis, Esq., of Lufkin, one of the most enthusiastic leaders of the fruit and truck industry of Angelina county, is in attendance at the Fruit and Truck Growers meeting.

More Riots.

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down system. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50c, and satisfaction guaranteed by Stripling, Haselwood & Co.

White's Head-Ease is still the King of headache cures. For sale by Perkins Bros.

THURSDAY'S LOCALS.

Joe Fuller, of Attoyac, was in the city this morning.

Wirt Boynton floated in from Swift this morning.

J. H. and J. T. Hanna, of Martinsville, were here this morning.

T. J. Belser, of Ironossa, was here yesterday and made this office a pleasant call.

W. D. Jackson of Etoile is spending a few days in the city on business.

Messrs Jasper, John and Will Stoker were trading in the city this morning.

Mr. Justice and his son, J. J. Justice of Martinsville were in Nacogdoches this morning.

W. Y. Garrison and Dave Bruce, of Garrison, were in the city a few hours this afternoon on a business visit.

Mr. J. H. Hanna a well to do farmer of that section was among the Martinsville citizens that came in town this morning.

J. A. King, who is now keeping books for the mill at Tubbe, came up Tuesday evening and spent yesterday in the city.

Prof. R. M. Gannon, manager of the East Texas Business College, is receiving many inquiries about telegraphy, and it is probable that a school of telegraphy will have to be added to the college very soon.

The Center Champion contains the death of I. O. Noble at Wichita Falls. Mr. Noble was widely connected in this section of the country and has many relations in Nacogdoches. His remains were brought back to Sabine county for burial.

So Sweet and Pleasing in Taste.

Mrs. C. Peterson, 625 Lake street, Topeka, Kan., speaking of Ballard's Horehound Syrup says: "It has never failed to give entire satisfaction, and of all cough remedies it is my favorite, and I must confess to my many friends that it will do, and has done, what is claimed for it—to speedily cure a cough or cold; and it is so sweet and pleasing in taste. 25c, 50c and \$1.00 bottle at Perkins Bros. w

The columns of the Sentinel are open to the discussion of the Baptist College question, but we much prefer all writers to be temperate in their expressions and write over their real names. An article rarely carries any weight when signed fictitiously.

Cures Sciatic Rheumatism.

Mrs. A. E. Simpson, 509 Craig street, Knoxville, Tenn. writes June 10, 1899: "I have been trying the baths of Hot Springs, Ark. for sciatic rheumatism, but I get more relief from Ballard's Snow Liniment than any medicine or anything I have ever tried. Enclosed find postoffice money order for \$1.00. Send me a large bottle by Southern Express." Sold by Perkins Bros. w

Mr. J. F. Risinger visited his daughter at Nacogdoches Saturday and Sunday.—Tena-ha New Era.

A Temporary Division.

It has been reported, upon what authority we are unable to discover, that the T. & N. O. Ry. Co. has purchased sixteen acres of land in the Davidson pasture and has given the owner of the planer, now operated by Mr. Harrington, notice to vacate the premises within thirty days, the object being to make a temporary division and locate a round house there. The same, or a similar report was started about a month ago and upon inquiry it was found that the railroad company contemplated putting a "Y." We know of nothing to authenticate this last report, and are assured by those who think they know something about the plans of the company that whatever is done will only be for temporary purposes.

A Physician Writes

"I am desirous of knowing if the profession can obtain Herbine in bulk for prescription purposes? It has been of great use to me in treating cases of dyspepsia brought on by exercises or overwork. I have never known it to fail in restoring the organs affected, to their healthful activity." 50c a bottle at Perkins Bros. w

They Won't Scare.

The Texas Liquor Dealer says the democratic party will have to be driven from power or prohibition will triumph over the entire state. Its our honest opinion that if the democrats of Texas had the money, they would get rid of every drop of whiskey in the state.—Nacogdoches Plain-dealer.

Yes, the Texas Liquor Dealer would like to frighten the people of Texas with the ghost of republicanism but it won't succeed. That party made a bid in its last state platform for the influence of the whiskey men but Texas went democratic by the usual brutal majority. Such trimming will drive about as many republicans from the party as it will win democrats to it.—Panola Watchman.

You Know What You Are Taking.

When you take Grove's Tasteless Chill Tonic because the formula is plainly printed on every bottle showing that it is simply Iron and Quinine in a tasteless form. No cure, No pay. 50c.

Riley Nichols, who has been working at a mill in Nacogdoches all winter, has decided that Tenaha is good enough for him and will not move down there.—Tenaha New Era.

If your back hurts you, your kidneys are out of order. Don't neglect them. Bak Ake Specifics guaranteed to cure you. Sold by Stripling Hazelwood & Co

FRIDAY'S LOCALS.

Prof. L. W. Rainey of Douglass, was in the city a few hours yesterday afternoon on a business visit.

E. F. Green, Jr. from Blake School community was in the city today and was a friendly caller at this office.

Cotton brings a good price and quite a lot of the fleecy staple has been received this week in spite of rain and bad roads.

Mrs. Nora Wallace and little daughter, Gertrude, from Nacogdoches are visiting with friends here this week.—Logansport Journal.

P. E. Petty of Alazan, was in the city today and while here paid the Sentinel an appreciated visit.

Judge Rufus Price of San Augustine, spent last night in the city. The Judge says he has been in Texas for fifty years but that he has never before traveled over the roads in such condition as they are at present.

Mr. A. Marwilsky, who was several years ago a citizen of Bryan, Texas, is in the city visiting his daughter, Mrs. D. H. Goldberg. Mr. Marwilsky will move back to Nacogdoches this spring and will engage in business here. Mr. D. Rufus is now building a dwelling house to be occupied by Mr. Marwilsky as soon as completed.

A stranger riding through this, one of the most wealthy and progressive cities of its size in Texas, would be justified in thinking it, judging from the state of the streets, a cross-roads town of two hundred inhabitants, with not a man in the city worth over five thousand dollars. There is no use building crossings through a foot of liquid mud, but as soon as the roads can be worked again, Main street should be built up with gravel and graded until no matter what the weather, the main business street of the city will remain in good condition. This will not cost as much as a carnival and will be of infinitely more good to the city. We are not complaining of Church street; it is fordable for teams, and no one attempts to cross it on foot.

One or two doses of Bak-Ake Specific will relieve kidney trouble. One bottle guaranteed to cure, by Stripling Hazelwood & Co.

Talk up East Texas a little longer. It won't be necessary after a year or two hence.—Nacogdoches Sentinel.

Yes, it won't be long until East Texas will stand at the top. She has already squandered the most valuable of all her resources, i. e. her God given pinery, the owners of the forest realizing almost nothing for it, but where it once stood she is now setting out her orchards and planting her gardens, and before the lapse of many years she will reap many millions of dollars annually. The man who is considered wise and has no home, will lose no time in securing a home in East Texas now.—Timpson Star.

Notice of Application to the Legislature for Local or Special Law.

Notice is hereby given as required by the constitution and laws of Texas, that an application will be made by the Texas & New Orleans Railroad company to the Twenty-eight Legislature of Texas, at its regular session, for a local or special law authorizing said Texas & New Orleans Railroad company to sell that portion of its railroad extending and under construction, and now almost completed, from the city of Dallas, in Dallas county, to or near Sabine Pass, in Jefferson county, commonly known as its Dallas Division, or Sabine Division, to a corporation to be organized under the general laws of Texas, with authority to own and operate a line of railroad along the route of the line to be thus sold and authorizing such new company to purchase such line. C. B. Seger, Sec'y Texas & New Orleans Railroad Co. wt

For all forms of kidney trouble take only Bak-Ake Specific. Sold and guaranteed by Stripling Hazelwood & Co.

Bad Advice.

The Denison Gazetteer has the courage of its convictions. That paper advises old people broken in health, reduced to penury and become a burden to themselves and others, to get out of their trouble by the suicide route. Even in matters confined purely to this world it frequently happens that a man commits some act in a moment which he spends the remainder of his life in vainly regretting, and as suicide might possibly involve an eternity of such vain regrets it would be better for the afflicted old man to live out the brief remnant of his days and die a natural death rather than take the chances resulting from the other course. The advice from the Gazetteer is distinctly bad, and even dangerously so, because it either ignores or defies one of the strongest and best divine laws of nature—the law of self preservation. Better bear the ills we have than fly to others that we know not of, as unhappy Hamlet said, or other words to that effect.—Conroe Courier

Bak-Ake Specific is sold on a guarantee to cure all forms kidney disease. Have no other Sold by. Stripling Hazelwood & Co.

Fruit trees.

I have 50,000 peach trees, of commercial varieties, 1000 apple trees, assorted lots. 500 cherries, 200 Japan plums, 1000 assorted grapes, 500 assorted pears, 500 fine grown budded stock, roses assorted, also a nice line of shade trees and ornamental shrubs. These trees and plants were left on my hands as a result of the east Texas bank failure and I will close them out at bargain. C. G. Monzingo.

GOVERNMENT EXPERTS.

Making Survey of the Soils of East Texas.

Lufkin Tribune.

L. H. Sheller, of Nacogdoches, representing the agricultural department of the United States government, J. E. Lapham and J. B. Jones, of Washington, also connected with the same department of the government are in the city. Mr. Sheller, as is already known, is experimenting with the growing of tobacco in East Texas, and in addition to the experiments to be conducted at Nacogdoches, he will also devote some time to the industry in this county. He considers much of the soil of East Texas admirably adapted to tobacco raising and is confident that as fine article can be produced here as is imported from Cuba. It is his belief is demonstrated by practical experience the tobacco industry will doubtless become one of the most profitable money crops of the state. His experiments will be watched with interest.

Messrs. Lapham and Jones are here for the purpose of making a soil survey of a good portion of this immediate portion of East Texas with a view to obtaining just what the lands of this section are best adapted to. When this is done it is expected that the government agricultural department will conduct a number of experiments with different varieties of products for the purpose of demonstrating their value where properly cultivated.

They are all very pleasant and agreeable gentlemen and should be shown every courtesy and rendered every possible assistance by our citizens.

MR. C. L. MARLATT, who was sent to Asia by the Department of Agriculture to study the San Jose scale which is so destructive to the fruit industry in this country, has returned with an interesting report. He found that the scale only existed in Japan where American nursery stock had been imported, so Japan was not its home. Further investigation developed the fact that the scale existed, indigenous to the country in China, but was held in check by some enemy. This foe to the scale was found to be a red spotted beetle, numbers of which were brought to this country and have been sent into scale infested fruit districts to see if they can hold the dread disease in check here as in China, where it does very little damage. And yet there are uninformed people who assert that entomologists accomplish no practical results. They have done more good to the United States than almost any class of men, and yet are less appreciated in America than any other country. It was not long ago that little Japan took our most valuable man, an authority on forestry, away from us, by paying him a larger salary than the U. S. felt able to afford. Not very flattering to our National vanity and spirit of progress.

A GENTLEMAN named Shakespeare has written a poem on "The Greenwood

Tree," in which he seems to regard it with enthusiasm. We venture to say that if he had the experience with green wood that we have had this winter, he would find his admiration for that particular brand of tree grow steadily less.

Public Notice in Bankruptcy.

In the Matter of A. Wettermark & Son, Bankrupts. Application pending in the United States District Court for the Eastern District of Texas, at Tyler:

Now comes Jno. T. Garrison, agent and attorney for Stripling, Haselwood & company, a firm composed of Sam Stripling, R. W. Haselwood and T. E. Baker, and J. D. McKnight and Geo. W. Blackburn, petitioning creditors applying for the adjudication in bankruptcy of A. Wettermark & Son of Nacogdoches, Texas, and of A. Wettermark of Henderson, Rusk county, Texas, and of B. S. Wettermark, of Nacogdoches, Texas, who is alleged to be a fugitive from justice, and says that the residence of B. S. Wettermark at the time of the filing of said petition, was in Nacogdoches county in said eastern district of Texas, but that since the filing of said petition the said B. S. Wettermark has mysteriously disappeared; that his family yet reside in Nacogdoches county, but that the said B. S. Wettermark is absent from home or his whereabouts at present cannot be ascertained after due diligence and inquiry and investigation made on the part of said petitioners:

Wherefore, in behalf of said creditors, ask that notice by publication in due form of law be made, commanding said B. S. Wettermark to appear before said United States district court at Tyler and answer to the plaintiffs' petition herein.

[Signed] Jno. T. Garrison, Attorney for above named creditors of A. Wettermark & Son.

Sworn to and subscribed before me this 16th day of January, 1903,

[Signed] C. G. White, Referee in bankruptcy in the United States district court eastern district of Texas, at Tyler.

In the matter of A. Wettermark & Son, bankrupts. In Bankruptcy No. 1363.

ORDER. On this day came on to be heard and considered application of petitioning creditors in the above entitled cause for service of the said B. S. Wettermark by publication. It appearing to the court that on the 7th day of January, A. D. 1903, a petition was filed in said court by Stripling, Haselwood & Co., a firm composed of Sam Stripling, R. W. Haselwood and T. E. Baker, and J. D. McKnight and Geo. W. Blackburn, alleging acts of bankruptcy and praying that the said B. S. Wettermark be adjudged a bankrupt; that on the 7th day of January, 1903, a subpoena was duly and legally issued out of the clerk's office of this court at Tyler commanding the said B. S. Wettermark to personally appear before said court at Tyler, Texas, on the 16th day of January, 1903, to answer said petition; that on the day of its issue said subpoena was placed in the hands of the United States Marshal for said district, and on the 16th day of January, 1903, was returned to said court endorsed to-wit: "Received this subpoena this 7th day of January, 1903, and returned on the 16th day of January, 1903, not executed because, B. S. Wettermark could not be found in my district." (Signed) A. J. Houston, U. S. Marshal, by Geo. W. Eason, Deputy.

On consideration of said petition for service of publication, it is ordered that the said B. S. Wettermark do appear, plead, answer or demur to the said petition for adjudication on or before the 30th day of March, A. D. 1903, and in default thereof, the clerk of said court on proof of the publication herein required; forthwith refer the said petition in bankruptcy to C. G. White, referee in bankruptcy at Tyler, Texas, for adjudication.

It is further ordered that this petition for service by publication, together with this order be published once a week for six consecutive weeks in the Nacogdoches Sentinel, prior to the 30th day of March, A. D. 1903.

Done at Sherman, Texas, in open court, this 5th day of February, A. D. 1903.

(Signed) DAVID E. BRYANT, Judge.

KAPLAN SELLS IT FOR LESS.

Bargains in Fruit Trees.

For a week to two weeks special prices will be made on all remaining nursery stock, to close out early and begin other pressing and important work. Write for surplus list of stock on hand in the way of peach, pear, apple, persimmons, Japan walnuts, roses and so forth, and get our closing out prices before you buy. Send in a list of your wants today to Prof. Fred W. Mally, Garrison, Texas. He still has a complete assortment of the best of everything and will be pleased to give your order special selection and attention.

If the present legislature could enact a law that would for all time to come settle absolutely land titles in Texas, the members could go home feeling that they deserved the best praise of their constituents during the remainder of their natural lives. This is the big question in Texas, today. Titles may not be so bad, but even a hint that they are, as furnished by frequent cross-cut decisions of the court, is the great stumbling block in the way of immigration today. Men coming from old states, where values and titles have become fixed beyond dispute, will shy at a questionable title quicker than a country horse will run from a street car. Absolute titles, or a law that will make such, is the crying demand in Texas to-day.—Austin Statesman.

THE Connecticut Courant scarifies Carnegie, in a very pretty metaphor. It says, Carnegie offers to lend Venezuela the money needed to pay her creditors but why in thunder, so to speak, wasn't the offer made when the row began and not delayed until the sunset of that stormy day? We have a very vivid mental picture of a portly lightning rod agent rushing up after a thunderous day and offering to put up rods free, after the lightning has struck. Carnegie does seem to get a lot of free advertising and still keeps a Scotch grasp on his purse, but hush, no sarcasm. Nacogdoches has not as yet obtained her free library.

WHAT to do with the negro is a question that is agitating many minds at present. All kinds of argument are put forth and many theories advanced, but nobody seems to have solved the riddle. Something might have been done at the close of the war that would have proved effective and satisfactory, but now the negro has become an integral part of our government and we cannot go back. The white people of the South will not tolerate negro domination, and yet if the blacks enjoyed the rights and privileges which the Constitution guarantees them they would rule and their former owners would be subject to their orders. Fortunately the average negro is not ambitious for political office, and so this state of affairs does not exist to any great extent.

The great race question is just as important to the negro himself, and no doubt he would be glad if some plan could be devised so that he may fully enjoy the blessings of liberty without treading on some one else's toes.—Rnsk Journal.

PNEUMONIA

follows a cold, but never follows the use of

FOLEY'S HONEY AND TAR

It stops the cough and heals the lungs and prevents a cold from settling on your lungs and resulting in Pneumonia, Pleurisy, or Consumption.

You are in no danger of serious results if FOLEY'S HONEY AND TAR is taken, as it soothes and heals the inflamed air passages and the cough disappears.

Be sure and get FOLEY'S HONEY AND TAR, as preparations containing opiates stop the cough temporarily by paralyzing the nerves in the throat and leave the germs of serious lung trouble and you get one cold on another because the first one was not cured perfectly.

Saved Her Life From Pneumonia.
"My wife had a severe attack of Pneumonia which followed a severe attack of La Grippe and I believe that FOLEY'S HONEY AND TAR saved her life," writes James Coffee, of Raymond, Missouri.

Dr. C. J. Bishop, Agnew, Mich., writes: "I have used FOLEY'S HONEY AND TAR in three very severe cases of Pneumonia with good results in every case."

Cured When Very Low With Pneumonia.
J. W. Bryan, of Lowder, Ill., writes: "My little boy was very low with Pneumonia. Unknown to the doctor we gave him FOLEY'S HONEY AND TAR. The result was magical and puzzled the doctor, as it immediately stopped the racking cough and he quickly recovered."

Three Sizes, 25c, 50c and \$1.00

The 50-cent size contains 2 1-2 times as much as the small size, and the \$1.00 size almost 6 times as much.

School Question Settled

We are to have a new school, a good one too. The people of Nacogdoches are not going to give up any more good things until they have to. Losing the railroad shops, one bank failing, several fires and so much rain has leained us to be particular about our money affairs. We don't spend it so carelessly and so indifferently as before. Every dollar must go as far as possible. By coming to our store you need not cut off the number of articles or the quality you buy. Just buy what you want and buy it of us, and you are practicing the best of economy. You can always count on us to be abreast with the times, and whatever your circumstances demand, we are ready to comply. To use a slang expression, we would say, "We are here with the goods."

R. W. HALTOM, MANAGING EDITOR.

SOME WONDERFUL INVENTIONS.

It has been said that necessity is the mother of invention. Truly said, too.

Twenty years ago if you had talked over a small wire for hundreds of miles; or rode on a trolley car, or heard an inanimate thing talk, or look thru your clothing and flesh and see every bone in the body, etc., etc., and thousands of other things which in that day seemed impossible, he would have had you tried for lunacy.

Mother necessity has called for all this labor and time-saving devices, and the natural consequence is invention. The inventor is yet busy and will be till time is no more.

Ahead of this generation are greater possibilities in the way of invention than there was ever ahead of any generation in the past.

Twenty years from now you can visit New York in an air-ship and carry in your vest pocket provisions enough to last you a month and return by London, and if you want to visit Paris and are then due back home, just telephone the folks that you'll be home in a day or so. These things seem almost impossible, but who knows but what such may be the case 20 or 30 years hence? But let the past and future be and let us talk about some of the great things of the present.

The automobile is a great thing, the modern war vessel is a great thing, the fine fast railroad trains with oil burning locomotives, the modern printing press, the type-setting machine and hundreds of other great inventions, they are marvelous. This is truly the age of invention and discovery, and it is in this great age that San-Col, the great kidney and bladder remedy—was discovered. It is marvelous the way it has effected cures with almost helpless cases. You think your kidneys are diseased, ask about San-Col, find out about it, then try it—it is sure to benefit you. If it don't, you'll sing its praises. Each bottle contains 60 days treatment.

Sold by Perkins Bros., Stripling, Haselwood & Co., T. Shindler Drug Co., or by mail to any address on the coast for \$1.

Eyes burn or water? Light hurts them? Call on R. C. Shindler, Optician—over Nacogdoches Drug Co.

Mrs. E. M. Weatherly, and children of Appleby are spending a day or two in the city visiting relatives.

Don't forget Jno. W. Davis' big sacrifice sale on at Jno. P. Davidson's stand. Goods sold at a saving of from 25 to 75 per cent.

Messrs. Doolittle, Payne, Carlton and Banks, all prominent citizens of Appleby, attended the creditors meeting yesterday in Nacogdoches.

New prints, new gingham, new percales, new madras, new novelty waisting and new spring dress goods at sacrifice prices at Jno. W. Davis.

J. F. Odom of Cherokee county, was in the city today. He brought a bale of cotton and spent the day on a trading trip.

Jno. W. Davis has decided to continue his great sacrifice removal sale for at least 30 days. You should take advantage of prices he is making.

La grippe coughs yields quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." Sold by Perkins Bros.

Dr. J. W. Lively, editor and proprietor of the Marshall Morning News, is in the city attending the Fruit and Truck Growers meeting.

Hon. Geo. B. Terrell of Alto, who is a delegate to the Fruit and Truck Growers meeting, was a pleasant caller at this office today.

There is a time for all things. The time to take Simmons' Cough Syrup is when afflicted with sore throat, hoarseness, coughs or colds. It is guaranteed to cure you. Price 25 and 50 cents.

The Bank Creditors' Meeting.

A large number of people from all over the county, and various points outside, are in the city today to attend the meeting of the creditors of the Wettermark bank. Quite a number of them are disappointed, being cut out by the law that requires them to place back in the bank the amount they had in the bank four months prior to the closing of its doors. Many thousands of dollars is thus lost to creditors who will be cut out before they will risk any more than the bank owes them at present. By the dropping out of many creditors in this manner, will enable the bank to pay a larger per centage on the proved up claims. The meeting has progressed harmoniously today and the work of proving up accounts is progressing as rapidly as it is possible to proceed in matters of this character. Mr. Geo. W. Eason, of Tyler was elected trustee.

Brown-McClure.

Mr. Willis Brown and Miss Donnie McClure were married Tuesday at half past 12 o'clock at the residence of Mr. and Mrs. J. T. Lucas. Rev. Holt performing the ceremony.

Mr. Brown is the principal of the Melrose school, and is well known and liked.

Miss McClure, who is a Tennessean, came to Texas to visit her cousin, Mrs. J. T. Lucas, last year. She accepted a position as assistant to Mr. Brown in the school at Melrose, and the pretty romance began and culminated in the wedding today.

The wedding was a quiet one, only a few intimate friends being invited, and the bridal couple, followed by the best wishes of their friends left for Arkansas where they will make their future home.

The best pill 'neath the stars and stripes; It cleanses the system and never gripes. Little Early Risers of worldly repute—Ask for DeWitt's and take no substitute. A small pill, easy to buy, easy to take and easy to act, but never failing in results. DeWitt's Little Early Risers arouse the secretions and acts as a tonic to the liver, curing permanently.

A Prominent Fruit Dealer.

Mr. O. C. Whitney of Binghamton, N. Y., a prominent fruit and vegetable commission man, is in the city. Mr. Whitney comes to Texas to investigate the fruit and truck situation, and will attend the meeting of Fruit and Truck Growers tomorrow and Wednesday. Mr. Whitney says that the Exchange idea is the proper one to solve the market problem and will deal through that association during this season.

Working Overtime.

Eight hour laws are ignored by those tireless, little workers Dr. King's New Life Pills. Millions are always at work, night and day, curing Indigestion, Bilioiness, Constipation, Sick Headache and all Stomach, Liver and Bowel troubles. Easy, pleasant, safe, sure. 1 actual test is more convincing than
2 days' talk on **Uneeda Biscuit**, or
3 weeks of logical newspaper argument;
4 **Uneeda Biscuit** please the palate and satisfy the stomach. The price is
5 cents. Sold only in the In-cr-seal Package, which is dust and germ proof.

NATIONAL BISCUIT COMPANY

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. Sold by Perkins Bros.

D. A. Cornelious, postmaster at Circle, well-known in Nacogdoches, died last week at his home. He has many relatives in the west end of the county, as well as many friends. He was a good citizen and we are indeed sorry to chronicle his death.

Oft in the stilly night a racking cough doth rob us of that sweet sleep which nature seeks to give. Simmons' Cough Syrup is an infallible cure; untroubled sleep and pleasant dreams it doth assure. Guaranteed. Price 25 and 50 cents.

Tax Assessor Hall says he has ridden three horses down assessing taxes in the country. The mud is so bad that it has stripped the hair off the horses legs and makes sore places all over them.

Huat's cure is not a misnomer. It does cure itch, ringworm, eczema, tetter and all similar skin diseases. A wonderful remedy. Guaranteed. Price 25 and 50 cents.

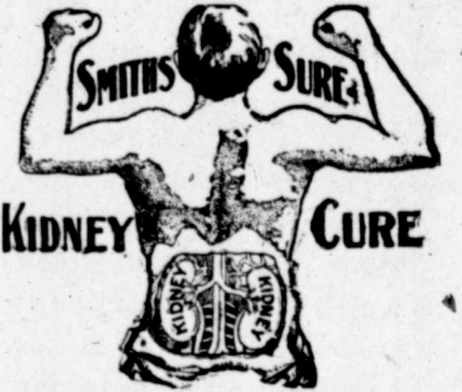

Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound and well." Everybody ought to know, it's the only sure cure for coughs, colds and lung diseases. Guaranteed by Stripling, Haselwood & Co. Price 50c and \$1. Trial bottles free.

Go to Jno. W. Davis' big cash sacrifice sale. It will pay you big profits.

READ! READ! READ!

Smith Medical Co.
St. Louis, Mo. Sept 15, 1902.
Gentlemen:
I write to tell you of the good results of

I have had kidney trouble four years, tried three doctors and several patent medicines, with little relief until advised by Mr. C. N. Herron to try your Kidney Cure and two bottles did more good than all other treatment. I think Smith's Sure Kidney Cure the best of all. It will do all and more than you claim for it. It relieved me of indigestion or stomach trouble. I am thankful. Yours very truly,
C. A. Harper, J. P.
