THE FIRST GUN

The Prohibition Campaign Opened at Sandy.

The first gun in the present prohibition campaign was fired at Sandy, a school house in the Dunk Spradley neighborhood about fourteen miles from town, Saturday night, in a debate between A. J. Spradley for the antis and Rev. W. W. Watts for the Pros. It was Spradley's appointment, but an invitation was extended to Bro. Watts and he promptly responded.

Several persons went out from Nacogdoches, but came back tired out (from the trip, not the speaking) and they vow they will not let their zeal lead them into any more such trips. They report that the speaking was lively and entertaining, and especially amusing, but all refuse to say who came off with the laurels.

Call and see our shirts. You will find a real bargain.

FATAL ACCIDENT.

Timpson, Aug. 4.—This morning at 10 o'clock, Brewer Richards, a prominent young man of this city, aged 21, hood about fourteen miles from town, Saturday night, in a debate between A. J. Spradley for the antis and Rev. W. W. Watts for the Pros. It was Spradley's appointment, but an invitation was extended to Bro. Watts and he promptly responded.

The unfortunate young man was a son of Mr. Jno. T Richards, one of Timpson's pioneers and a leading citizen. His untimely death has cast a gloom over the town and community.

AGAIN IN HARNESS

Nacogdoches Once More Under the Protection of City Officers.

A meeting of the citizens of Nacogdoches was held at the Masonic temple, Friday evening, the 2nd inst., for the purpose of electing a new city government.

May, J. B. N. N. Marshal, J. M. S. Sheriff, Alhambra, P. M. Sanders, E. C. Ford, Chas. H. Jno. Schmidt and B. E. Hadenman Jno. Schmidt was elected City Clerk and Chas. Hoya was elected City Treasurer.

Another meeting will be held tomorrow for the purpose of adopting city ordinances and entering into other preliminaries for enforcing the new city government.

The Sunday school convention on the 14th of Aug., will be attended by several prominent State workers. In addition to Miss Phillips mentioned already, Mr. and Mrs. W. N. Wiggins of San Antonio, will attend and assist in the meetings. Mr. Wiggins is a member of the International Field workers association and is now in attendance upon the great International conference of workers at Winona Lake, Indiana, and will come to us fresh from the big meeting. He is also a member of the State Executive committee and the Chairman of State Finance committee. He is also President of the Bexar county Sunday school association which has just held its third convention and which was the most enthusiastic meeting for Sunday school workers ever held in San Antonio. The attendance at a single meeting were 1200 children and 1100 workers at another time. Mr. Wiggins is also Superintendent of the State wide known Sunday school Utica of San Antonio, which he and Mrs. Wiggins organized seven years ago and which now has a combined membership of 670. Mrs. Wiggins who is Superintendent of the Home department with a membership of 295 will teach of that important and fast growing branch of the Sunday school work.

Two registered Shorthorn bulls, 1 and 2 years old, for sale, \$50 each. Bradley King, Douglass, Texas.

The commissioners' court will meet Monday, August 10th. The assessor's rolls are complete and Assessor Hall hauled them down this morning from his residence where he and Rev. Jno. N. Wilson have been working on them for some time and deposited them in the Clerk's office. Bro. Wilson left this afternoon for Zavalla to attend the holiness meeting.

question of the hour:
when will the Houston Post
find out that Nacogdoches has
an oil boom?

The papers are discussing
the reduction of letter postage
to one cent. What good will
that do us poor folks?

It is said that a novel plan
will be adopted to push Rooseveltism.
One scheme is to ignore
the South entirely.

The Louisiana Knights of
Pythias will have a grand rally
at Shreveport on Aug. 13th.
Texas Knights are invited.

There is something "before
the meeting" now. This
Hayward mill proposition is
going to put us all to hustling.

Houston's mayor seems to
have sufficient "Holt" on the
congressional plum to set up a
terrible "Ball" among his
opponents.

GROVER CLEVELAND has a
new boy at his house that is
making enough fuss for the
whole family, hence his silence
these days.

ONLY four men were killed
in Breathitt county, Ky., last
Sunday. But the courts will
not be troubled, as all parties
engaged were killed.

The estimate that Texas
will produce four million bales
of cotton this year and corn
enough to do two years, is a
little optimistic, but we can
stand it, if it proves true.

About fifty leaders of the
people's party, says an associated
press dispatch, met in
Denver, Col., on the 27th.
Leaders seem to be about all
there is left of the party now.

TO ESCAPE a mob Jones, a

Cotton Belt railroad,

Every foot of it will be on

BEAUMONT and Sour Lake
will be connected at an early
date by an interurban electric
railway. Right of way has
been secured the entire distance.

THE Lufkin Herald wants
somebody to bore for oil in
Angelina county. Just hang
your buckets out. We expect
to have a gusher pretty
soon that will spout clear over
into Angelina.

A NEGRESS in Chicago bears
the distinction of being the
first woman in America ever
elected to the position of bank
president. Her name is Maggie
L. Walker and she has
been chosen to head the St.
Luke Penny Savings bank,
which will open Sept. 1st.

THE Plaindealer and Lufkin
Tribune are in a controversy
over the size of ears of
corn and the number of grains
they contain, shown in their
respective offices. We wonder
if there is a "grain" of
truth in all they have to say
about it.

THE resources in excess of
liabilities of the Endowment
Rank of Knights of Pythias,
June 30th 1903, were \$392,031.18.
This is one of the safest
lite insurance organizations in
America and is the cheapest,
considering its absolute responsibility.

THE cheapest way to kill
rats is by pouring of high life
in the holes where they burrow
in the ground and stopping
up the holes. It is a dead
shot. Farmers could save
enough corn to feed at least
one horse to each farmer by
successfully exterminating the
rodents.

THE Lufkin merchants are
putting out some good bids
for the trade of the surrounding
counties, through the Lufkin
papers. They are talking
to the farmers like a "Dutch
Uncle," and it may count for
something. We give this as a
tip to the business men of
Nacogdoches.

UNITED STATES officers
seized a large quantity of
whiskey and beer and spilled
it on the streets of Ardmore,
Ind. Ter. This is calculated
to have a disquieting effect
upon the nerves of the editor
of the Alkily Eye, and
it is hoped his friends will
break the news gently to
him.

WE have hopes that after a
few more efforts Bro. Yantes,
of the Athens Review, will
succeed in crediting the Sentinel
with extracts from this
paper. He has used up the
names of all the papers even
printed in Nacogdoches, except
the Sentinel. If he
makes another change he will
be bound to get it right.

MEMBERS of the family of
Mrs. Matthews, who was
murdered by some one unknown
in Shreveport some-
time back, seem to be satisfied
that every negro lynched
in that vicinity was her murderer.
They ought to decide
upon some one of them, unless
there were many hands
stained with the blood of the
unfortunate woman.

THE weather the past week
or ten days has not been favorable
for gathering fodder
and making hay, though some
farmers seem to be able to
push right ahead with this
kind of work. Some fine
samples of this sort of forage
have been brought in which
found ready market in Nacogdoches.

WE expect the Hon. Pres-
ley K. Ewing, who aspires for
the place going to be made
vacant by the resignation of
Congressman Tom Ball, will
be mighty sorry he called the
newspapers so many hard
names before they get through
with him. Once upon a time
a candidate for a high office
rode in this district tried to
ride in on anti-newspaper
prejudice, and he didn't get
far enough in the race to call
it a good start.

SAY something good, when
you talk about Center, or
move. If you can't brag
on the town you live in move
to one that you can brag on.—
Center News.

THERE is no poetry about
the above remark but there is
lots of truth. The man who
does not take the advice of the
News; harms two towns; the
one he might help by brag-
ging about it, and the one he
injures by knocking; and the
man who knocks the town he
is living in, is about as sensible
as the man who saws off
the limb he is sitting on, when
he is forty feet from the
ground.

THERE has been a panic in
Wall street the past week
and some of the big fortunes
of this country have been
terribly "swung up." The Rockefeller
lost over a hundred
millions and J. Pierp Morgan,
Whitney, Gates and other
lords of finance have been
hit hard. Jas. R. Keene, who
thought he had things going
his way, was fleeced of a
million and a half. It didn't
happen to be a case of skin-
ning "poor folks" this time,
though we doubt not that the
people will be skinned for
some time to come to help
recuperate some of these losses.

THE St Louis Post Dispatch
prints a table of the lynchings
North and South the past two
years, purporting to show that
lynching is increasing in the
South and decreasing in the
North. In 1902 the total
number of lynchings were 96;
white 9, black 87. Of these
nine occurred in the North.
In 1903, there have been 51
lynchings in the United States,
white 6, black 45; North 8,
South 43. While the Post
Dispatch's figures that show
over 80 per cent of the lynchings
occur in the South, yet lynchings
have increased more than
10 per cent in the North while
they have decreased more
than 10 per cent in the South.
The only reason why these
figures are not reversed is
because the largest number of
crimes usually followed by
lynchings are committed in the
South. No rape fiend is
allowed to escape, North or
South, if the mob can get
hold of him. The entire
South is in close contact with
the low element of the negro
race, while in the North it is
very different.

POPULISTIC TENDENCY.

Jim Hogg has made one
mistake in advising the farmers
to organize "for social,
moral, intellectual charitable
and political purposes." Just
cut out the word "political"
Jeems, and you are all right.
Experience ought to count for
something. Every farmer's
organization since the "war"
has been busted up as soon as
it went into politics.—Nacogdoches
Sentinel.

Excuse us Haltom, but there
is just where the Ex-gov.'s
head was level. We were all
along there when the Alliance
etc. went off into politics. We
can tell you just why it went
dead. It is the policy of politicians
to stop by fair means
or foul any institution that
teaches the farmer how to take
care of himself. The Alliance
for instance lived long enough
to purify and refrom the
Democratic party and when
it had completed its mission
it died naturally. When Gov.
Hogg organizes the farmer he
wants to put in that word with
a great big P.—Lufkin Herald.

Excuse us Jackson, but
you are talking sheer populistic
rot. It was politics that
busted the grange and the
alliance. Let the farmers
organize. We believe in it
good and strong. But no
organization should conflict
with your creed or politics. One
of the principles of the Alliance
was that it should in no wise
interfere with one's religious
or political proclivities, and
when it embraced populism it
went to pieces.

Nacogdoches has at last, by
a series of elections, unincorporated,
then re-incorporated
with enlarged clothes; tore up
the independent school district,
then reinstated it and
carried a school bond issue,
and lastly has elected, or rather
re-elected a full set of city
officials—and is reaching out
after other problems to solve.
—Lufkin Weekly.

WE have accomplished all
except the bond issue. We expect
to "brace up" and tackle
that next.

A LAND owner near Beaumont
has given away near 300
acres to right-of-ways for railroads,
pipe lines, rice canals,
etc., and thinks there ought to
be a limit. He is now demanding
pay for further franchises,
saying land is getting too
valuable to be given away
in such quantities. He perhaps
hasn't taken into consideration
that each enterprise he has
granted right-of-way to has
added thousands of dollars to
the value of his property. There
are mighty few tracks of land
in Texas that have not been
enhanced in value to the full
extent of the right-of-way
given across them for purposes
mentioned.

THE Nacogdoches business
league succeeded in retaining
a manufacturing plant which
was up to Orange. It does
not avail us to out line the
methods used by the Nacogdoches
people, except to state that they
were strictly honorable. It is
sufficient to say that the Banita
Manufacturing company might
have located in Orange if proper
inducements had been held
out to Ireson Bros., together
with a true representation of
the superior shipping facilities
of this place. Get busy for
Orange, good people. Do it
now.—Orange Tribune.

The Nacogdoches Sentinel
and an Orange paper are having
a greasy spat. Yet we have
heard of no gushers at either
place. Don't get too warm
boys you might cause the gas
to ignite and burn up all
your oil.—Houston Echo.

O, we are not going too
near the wells.
A thousand visiting negroes,
more or less, were in the city
yesterday attending the district
conference.—Timpson Times.

That's nothing. There are
that many attending Sinkiller
Griffin's services every day in
Nacogdoches.

A. E. Batson, convicted of
murdering a family near Lake
Charles, and sentenced to die
on the gallows, will not hang,
the board of pardons having
commuted his sentence to life
imprisonment. Batson was
convicted on evidence that was
purely circumstantial, much
of which, in print, sounded
very questionable. The Louisiana
board of pardons therefore acted
judiciously humane. With no
hope of relief life in the penitentiary
is much more severe than quick
death on the gallows. But if
really innocent time may explain
away circumstances and Batson
may yet go free.—Beaumont Journal.

Mr. Morse's removal to
New York is a distinct loss to
Texas. His work in the State
will be taken up and prosecuted
by other gentlemen, capable
and efficient in the extreme,
but the magnetic personality,
the lovable nature and the many
sterling traits so characteristic
of him will be sorely missed.—Houston
Post.

WE cannot believe that
Texas has lost Col. Morse. He
has simply moved his headquarters.
Texas is too fertile a field of
operation for men like Col. Morse
to abandon it. He has made
large personal investments in
Texas during his sojourn among
us, and he will be in no hurry
to cut loose from a field so
fraught with opportunities,
even if his inclination was to
forsake us entirely.

FARMERS all through Texas
complain that the melon rate
is too high.—Tyler Courier.

THE shipping rates, whether
just or unjust, has been a severe
blow to the crop diversification.
There seems to be no profit
in anything raised by farmers
to be shipped to distant markets.
The railroads got all there was
in the tomato crop this year
and it seems to be the same
with all other crops of a perishable
nature. East Texas has been
hit hard and we fear there will
be a shrinkage instead of an
increase of acreage in truck
farming in this section another
year. It appears that we are
doomed to cotton.

PRESIDENT Roosevelt has set
the gait for applicants. He has
chopped down a giant oak at
midday, with the them above
100. How would it do to make
strenuousness of this kind the
test of loyalty and fitness? Why
not adopt this as a means of
proving oneself great?—Galveston News.

ROOSEVELT reminds us of
what "Mammy Bammy Big Momy"
said to Brer Rabbit. "Ef you
wuz to get much smarter, you'd
be the ruin of the whole settlement."

Nacogdoches is talking of

it. The Sentinel has been trying
to make somebody peak out,
but has failed.

Four thousand daily newspapers

disobliging to a struggling

THE people of Nacogdoches
believe they are residing over
the main entrance to the oil
region down below and will
soon open a way so the oil can
spout up. The indications at
that point are fine and we will
not be surprised any day to
hear of a big gusher being
brought in there.—Jacksonville
Reformer.

IT will be a pity to disturb
the residents on North street
with a gusher, but it is extremely
likely that such may be the
case.

THE question now most vexatious
to the officers of the law is
how to protect the rape fiend
from the fury of the mob law.
They resort to all kinds of
strategy and careful and resourceful
as they are, in trying to protect
this brute, they often fail. We
are in favor of a legislative
enactment making him an outlaw
and giving any and every man
the right to slay him just as
other vicious animals are slain.—Panola

In compliance with law and upon the return of G. L. Muckleroy, County Commissioner for precinct No. 4, Nacogdoches county, Texas, I hereby give notice that there has been found running at large, and estrayed, the owner of which is unknown:
 One deep red sorrel mare about 3 years old, about 15 hands high, no brands. Said animal now ranging 8 miles east from Nacogdoches and left in the care of Porter Sullivan.
 If not legally proven away by the owner thereof within twenty days from the date hereof, the same will be advertised and said commissioner will proceed to sell the same according to law. Dated, Nacogdoches, Texas, this 15th day of July, 1903. E. M. WELLS, County Clerk

Obituary.

Died June 20th, 1903, little Veveter, daughter of Mr. and Mrs. J. L. Banks. She was five years and six months old. She had been sick only a few days and her death was a shock to the whole community.

Veveter was one of the sweetest and most obedient little girls I ever knew. She was her mothers joy and her fathers pride. To me she was more like an angel, fresh from the hands of God, than like a child. Be not sorrowful friends, she has gone to live with Jesus. She was too pure for this earth. When she was near the valley of the shadow of death she called her father and said, "Papa stay with me I am going home today," and all through your life she will be beckoning you to come. When you are sad and lonely she will say to you, "let not your hearts be troubled for in my father's house are many mansions."
 Her Aunt,
 Mary Weber.

You Know What You Are Taking.

DOINGS AT DOUGLASS.

The Local News From the West End.

Fine rain Sunday p. m. Charles Watkins left last week for a visit to relatives at Kemp and other places.

Mr. B. C. Castleberry of Clevenger, visited his brother, Dr. J. K. Castleberry, this place, last week.

Mrs. Ewing, of Comanche county, is visiting relatives at Douglass at this writing.

Dr. Joe Bingham and family, of Atoy, came over last week. Mrs. Bingham remained several days visiting relatives.

Mr. R. F. Paine, Miss Lennie and Mrs. Daisy Rainey went to the Tyler Log rolling. Prof. O. P. Coats attended Sunday school at Douglass Sunday.

The singing school which is being taught by Prof. Rawlinson, at Little Rock, is a success. Quite a crowd was in attendance Sunday.

Mrs. Caroline Wortham went to Little Rock Sunday. Grandma Fenley is suffering from a severe cold and cough.

Dr. L. W. Smith and wife, of Sacul, are visiting Mrs. Smith's parents, Mr. and Mrs. B. C. Jones.

Paine & Son are cutting shingles in a hurry.

We extend our deepest sympathy to Mr. and Mrs. Tom King in the loss of their little baby. After a long and painful illness God called it home Sunday, the 26th.

The Post Master General has seen fit to order that the mail route from Toliver to Douglass be changed so as to omit the supply of the office of Cushing, said order to take effect Aug. 3rd. That's not just what we were expecting, but that will do for the present. That makes us think of the interesting fact, that Mr. D. H. Numan is 82 years old and has carried the mail three times a week from Libbert to Douglass for over twelve months and has never missed a trip, and is always on time.

Miss Sallie Tucker is on the sick list.

Mr. J. S. Russell, of Alto, has recently sold his home place at Douglass to Mr. Earnest Russell.

Mr. C. Clayton has sold his blacksmith shop to Mr. Frank Wallace.

Jesse Bruton Jr., has sold out and is talking of going to Nacogdoches.

Mr. J. P. Bruton and wife returned last week from their trip west, where they were prospecting with a view to moving.

Miss Patry Harrell, of Nacogdoches, is visiting her aunt, Mrs. V. L. Grimes.

Miss Nevie Paine, of Nacogdoches, is the guest of Miss Linnie Paine.

Watch for a Chill.

However slight at this time of year and in this climate, it is the torerunner of malaria. A disposition to yawn, and an all tired out feeling even comes before the chill. Herbine, by its prompt stimulative action on the liver, drives the malarial germs out of the system, purifies the blood, tones up the system and restores health. 50c at Perkins Bros.

A Worm Killer.
 J. A. J. Montgomery, Puxico, Wayne county Mo. writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them which failed until I used White's Cream Vermifuge; the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms, it helps the child to perfect growth, wards off sickness. 25c at Perkins Bros.

Tips From Trawick
 Trawick, Texas, July 28.—Lumber is being shipped from here every day on an average of more than a car each day. This keeps the saw mill fellows quite busy.

Since Dr. Campbell, recently of Nacogdoches, has come among us he is kept quite busy at his profession. He is so well known in this county that people hunt him up from everywhere.

Mr. J. M. Dawson is quite ill at his home, but seems to be improving.

Fine watermelons and ice cold soda water is the best refreshments Trawick can afford, for that is good enough for anybody.

Mr. W. J. Chancellor's baby was quite sick yesterday, but is better this morning.

Mr. W. L. Paine will build his residence soon.

Cured Paralysis.
 W. S. Bailey, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liment, which cured her all right. I have also used it for old sores, frost bites and skin eruptions. It does the work." 25c. 50c and \$1 bottle at Perkins Bros.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.
 Mr. S. S. Ball, of Ravenwood, W. Va., says:— "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Physician and Druggist.
 Ford & Sturgeon, a prominent drug firm of Rocky Hill Station, Ky. writes: "We were requested by Dr. G. B. Singley to send for Herbine for the benefit of our customers. We ordered three dozen in December, and we are glad to say Herbine has given such great satisfaction that we have duplicated this order three times, and today we gave your salesman another order. We beg to say Dr. G. B. Singley takes pleasure in recommending Herbine." 50c per bottle at Perkins Bros.

To the Public.
 I hereby forbid any work being done on one certain tract of land deeded by me to C. A. Jones, W. L. Lloyd and O. P. Stephens, on the J. M. Moore grant, until timber question on said land is settled. A. W. Alders.

I Want All Your Peach Seed!
 Peach seed are very scarce this year and I will pay highest price for all I can get. None but this seasons seed wanted. Leave them at my nursery at Rose Lake, or at Cason, Richardson & Co's store. I have a general line of fruit trees and flowers, and would be glad to exchange for seed, but if you don't want the trees will pay cash.
 Jno. B. Power.

Alfalfa.
 Whit Muckleroy, who lives out on the upper Melrose road two miles east from town, brought in a sample of alfalfa yesterday which was grown on his place. His land is a white sandy loam, and is classed among our poor lands, but is of perfect growth and indicates strength of soil upon which it was growed. If it can be grown successfully upon poor lands it certainly will flourish in this country.

A Physician Healed.
 Dr. Geo. Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I had been greatly bothered with kidney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced with Foley's Kidney Cure. After taking three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles. I have prescribed it in hundreds of cases with perfect success." Sold by Perkins Bros.

The new catalogue of Peacock's School for boys at San Antonio is on our desk and is one of the handsomest of the season. The cover is dark green with a heavy border of conventionalized peacocks feathers in pale green and gold across the top and bottom. The inside is enriched with many beautiful half tone engravings of scenes from the school grounds, portraits of teachers and groups of scholars. The Peacock school for boys is one of the finest in the South, and the catalogue does credit to the school.

Many persons in this community are suffering from kidney complaint which could avoid fatal results by using Foley's Kidney cure. Sold by Perkins Bros.

J. W. Saunders has gone to Nacogdoches, where he has accepted a position as cashier in the Stone Fort National Bank. The Champion regrets to see Mr. Saunders leave Center, as he has been one of our most enterprising citizens, and many of the improvements are attributed to his public spirit. A. Ford, assistant cashier, assisted by Walter Armstrong and Elza Jones, will keep the First National Bank at this place up to its high standard, as Mr. Ford has had considerable experience in the banking business. —Center Champion.

KENTUCKY FARMERS

Mt. Sterling, Dry Ridge and Henderson Tobacco Men Coming.

A party of wealthy tobacco people of Mount Sterling, Dry Ridge and Henderson, Ky., will arrive in Houston in a day or so. These prominent tobacco men are coming here to go with General Passenger Agent Anderson of the Southern Pacific to Nacogdoches Texas, to inspect the great Texas tobacco fields.

When it is considered that the advertising matter gotten out by the Southern Pacific is hardly dry from the press, yet it is wonderful to think that people from right in the heart of the tobacco region of Kentucky should be striving to be the first on the Texas tobacco field.

While no confirmation can be had it is understood that there is some lively bidding going on by one or two large tobacco concerns for the salable lands in the immediate vicinity of the Nacogdoches experimental station.

The Kentucky parties, as said, will arrive in a day or so, and will go directly to the tobacco fields to inspect the first year's yield now harvested and being cured.—Houston Chronicle.

Collection Agency.

The Sentinel is informed that a new collection agency will be organized in Nacogdoches. The promoters of the new organization are A. I. Spradley, Doc Watson and others.

The agency will be incorporated and a thorough system of collecting and looking after the interests of clients will be inaugurated.

Save Your Peach Seed.

Mr. H. S. Edler will pay 75c cash per bushel for any kind of peach seed delivered to him in Nacogdoches.

Nacogdoches school No. 2 has elected Prof. T. H. Postell, of Timpson as principal. They made a good selection, in fact when any of our neighboring counties want teachers they know where to make application.—Center Champion.

THE COTTON SITUATION.

Brown, the Bull leader stood at the ringside and shouted a bid of 15 cents for 5,000 bales of July cotton Thursday and could not get a bale. When analyzed, this means the last step in Brown's gigantic scheme. It means the consummation of the greatest cotton corner in the history of the world. It means that the Brown pool had so effectually cornered the market in raw July cotton that when they offered the phenomenal price of 15c per pound, that not a single bale was at hand to be tendered them, neither was there cotton sufficient that it could be tendered by the last day of the month. Brown's holdings now amount to \$250,000 or 300,000 bales, which he says will last the spindles of this country one short week.

He will have no trouble disposing of his holdings. In an interview Brown is quoted as saying:

"If the bears can't get cotton to give us at 13 1/4 to 15c per pound now, where are they going to get it in August and September? They have scoured the world and have brought it back from Liverpool, Havre, and Bremen at an enormous expense to them. Besides, it is reported that they have borrowed a great deal of cotton from the Southern and Eastern mills, which no doubt, the mills will need before they can get the cotton returned. There is only one answer to the general proposition. You have a genuine famine both in cotton and manufactured goods and cotton is not selling at what it should bring when you take into consideration the strained condition of the supply. The manufactured cotton goods ought to be selling at a higher price, and probably they are selling higher than the present quotations. If they are not, they will be in the near future."

All this would indicate, that farmers may get a better price for cotton this fall than they have received since the early seventies.

NEW YORK is honored this week by the presence of the three greatest "cotton kings" in history. Keene has just returned from England and Brown and Hayne, of New Orleans, are visitors in the city.

TRACY, who is alleged to have run away with Houston's school funds, has been arrested in Washington by detectives. He has been promising to come back some time, but Houston got tired waiting and sent after him.

The Lufkin Tribune thinks that "every person that violates the law should be looked after right now, whether he is a son of a banker or a son of a gun. Caste in enforcing the law should not be recognized, and the man who steals, cheats or burglarizes, be his skin as white as snow, should be shown no more favors than the negro crap shooter, because both have violated the law and law is made for no special class." The Tribune is eminently right.

RETURNS have been received from two cars of tomatoes shipped to Pittsburg, numbers 15900 and 15220. One car netted 17 cents per crate. Truckers have learned how to grow tomatoes to perfection, and next year they will learn how to sell them.—Timpson Times.

THE Jefferson Jimplecote remarks upon a Kentucky killing: "After shooting his enemy a Kentuckian sat on his cadaver and smoked a pipe. This was too much for the victim's friends. They strung up the smoker and burnt powder all over him and perforated his anatomy."

AN Oklahoma capitalist and inventor, Marvus A. Simmons has conceived a plan for a free trip for every man, woman and child in the United States to the National Capitol. He has interested several prominent politicians in the scheme and a bill may be introduced in congress. This is a "dream" of Mr. Simmons that most folks would be glad to see him realize.

BOOKER WASHINGTON was badly treated while delivering an address in Boston last week, and immediately thereafter the Alabama State Press association passed a resolution which was signed by 300 delegates of the convention, upholding Washington and pleading confidence and endorsement of Prof. Washington as "a conservative, worthy and safe leader, deserving of the respect and confidence of all men."

SEVERAL members of the Texas Press have been guying the Houston Chronicle rather unmercifully about a short editorial concerning the Pope's illness, that was published three days after the Pope's death. Don't do it brethren. Guying mistakes in another paper is a clear case where "the measure ye mete shall be meted unto you again." Some day you will pick up your own errorless sheet and see a bust that will cause your hair to rise till it will make the fretful porcupine resemble a boy with his hair slicked for his first church social; then it will be the other paper's turn and depend upon it, it will rub it in. Besides, the Pope was not "officially dead."

THE Grapeland Messenger contains a vivid editorial on the editors happy and leisurely life. He is so free from the cares and work that infest other men's lives that he "thinks of taking on another occupation, to guard against the temptations to which others are subject, for 'tis said that the devils work shop is located in an idle brain." Right here is where we take issue with the editor, bookkeeper, doctor, mayor, real estate, and insurance man, who is running the Messenger at Grapeland. In The Sentinel office, the devils work shop is located in the press room and an idle brain is often located in the "devils" work shop too. However customs differ in different printing offices.

AMERICAN RECKLESSNESS.

The Indianapolis, Indiana, Sentinel prints the following chapter of accidents for one day in its own state to illustrate the almost total disregard of Americans to danger:

"Indiana," says the Sentinel, "can safely challenge any state in the union to equal the variety of accidents that occurred within her borders on Friday last. A girl at Whiting, who mashed her foot last winter by dropping a beer keg on it, led the list. She was going home on a board walk, when one of her crutches caught and she was thrown to the ground with such violence that she bit off her tongue and broke her jaw.

Kokamo came forward with an old gentleman who found a sample package of medicine that had been thrown in his door yard. He thought he had the symptoms and took it. It is thought that he will die. At Greencastle they had a baloon ascension, and the mast which was used for starting the baloon fell over. It struck a young man on the head and broke his jaw. He cannot recover.

At Alexandria a small boy tried to catch some goldfish that were kept in a fountain, but in the effort he fell in and was drowned. At Rome City the oil tank in a naphtha launch exploded, burning painfully the young man who was running the boat. At Vicennesia gasoline explosion came near costing the lives of a woman and child, but they were rescued.

In addition to these rather unusual casualities, there was a long list of common, everyday accidents, from runaway teams and vehicles being struck by railroad trains, the accidents including the death of a brakeman who fell under the wheels. It is seldom that such a variety of accidents is found clustered together, and the list is a reminder of the almost universal carelessness of Americans. There is no other country on earth whose people go into dangerous situations so recklessly as those of the United States and none where it is so difficult to secure the enforcement of the laws for the protection of life and limb."

Nacogdoches is on the biggest boom ever experienced by any town in Eastern Texas. Hundreds of people are rushing to her oil fields and the natives are wild with excitement. Land that a few weeks ago sold for less than five dollars per acre now goes for a few hundred. It is said that Ben Wettermark has a thousand acres right in the center of the oil region, and the way things are booming the trustee may be able to pay off the indebtedness dollar for dollar.—Henderson Times.

Nacogdoches has a flourishing tobacco station, an oil boom and a big time generally. In the vernacular of the old darkey: "Whar dar is pluck, dar is luck." What some people need not more than three hundred yards of this pen is pluck.—Henderson Times.

Up in "Bosting" they treat Mr. B. Washington with far less respect than he receives down South: Moral: Better stay in your own sphere.

Now that the fields are full of corn, the average Texan who lives in the country begins to sigh for hogs to feed it to.—Calveston News.

It is so in East Texas especially, where the hogs died by hundreds during last spring's overflows.

The bookbinders in the public printing department at Washington concluded to submit to the reinstatement of Miller, the foreman, on the order of the President; but the members froze him with silence when he returned.—Galveston News.

Miller must have wanted the job mighty bad, to return to it under the circumstances.

A CHINESE editor, Sheen Chien, was tortured to death last week, by order of the Empress Dowager, for advocating reform and rebellion through his paper. The victim was beaten with bamboo rods for two hours, from 2 to 6 o'clock the flesh on his back, arms and legs being torn to ribbons. After life had apparently become extinct the executioners, fearing that Chien had merely fainted and might revive, twisted a rope tightly around his neck and left the body in this condition until next morning. No one except officers were permitted to see the prisoner after his arrest, all information regarding his condition being withheld. The evidence at the trial was so weak that Chien would have been acquitted had he not boldly proclaimed his principles throughout and his willingness to die for them. He frankly admitted the charge that he attempted to organize a rebellion of Han Kowin 1900, and boasted that he had always advocated the assassination of the Manchus in order to rid the country of the dynasty.

THE government scandals are reaching all the way to Texas. The secretary of war has sent the treasury department a box of cigars and \$100 which was received from the department of Texas. It appears that Col. Clem, chief of the quartermaster's department, found the box of cigars on his desk, and upon opening it discovered that it was from a contractor who was doing some work under the quartermaster's supervision. In the box was the money. The colonel was very indignant and referred the matter to Gen. Fred Grant, commanding the department. The contractor acknowledged sending the cigars by a messenger boy, but said he did not know anything about the money. Gen. Grant thought that under such circumstances nothing could be done by prosecuting the man for attempted bribery and sent the cigars and money to the war department. From the war department they were sent to the treasury where all unclaimed funds are sent. The cigars subsequently were sold for \$3.00, and the money placed with the \$100.

AN HOUR WITH THE EDITORS.

You have heard of "Greater Nacogdoches," but you are going to see Greater Nacogdoches pretty soon if some traces don't break.—Nacogdoches Sentinel.

Go it Bro. Haltom, you have the natural resources, and plenty of them. Now take advantage of the opportunities and spread out.—Houston Echo.

The New Orleans Glee Club will excurt to Spindletop next Sunday. If the club wants "a time" it should stop at Orange and go down to the jetties with us.—Orange Tribune.

Take them to the jetties after they have been to Spindletop. They will need a bath.

Why do chimneys smoke? Who can tell?—Athens Daily Review.

Force of habit, of course.—Nacogdoches Sentinel.

They smoke because they have noticed that the "chewer" decorates his shirt front with tobacco juice.—Kemp Voice.

"Pretty hot," Walt, as we used to say when playing "hide the switch" and one was close to it. If Haltom of The Nacogdoches Sentinel "gives up" we will tell you the correct answer.—Athens Review.

We guess it's because they can't "chaw" nor dip.

Mr. J. T. Chamberlain brought some magnificent specimens of Elberta peaches to The Sentinel office this morning. One of them weighed 3-4 of a pound and it was not one of the largest either. Nacogdoches Sentinel.

The above would have sounded better if Bro. Haltom had weighed the largest or left that part of the story off.—Gatesville Star-Forum.

We did not get it to weigh. The snake editor ate it up before we could holle "wa-it!" but he said it was a peach all right.

The cheapest way to kill rats is by pouring of high life in the holes where they burrow in the ground and stopping up the holes. It's a dead shot. Farmers could save enough corn to feed at least one horse to each farmer by successfully exterminating the rodents.—Nacogdoches Sentinel.

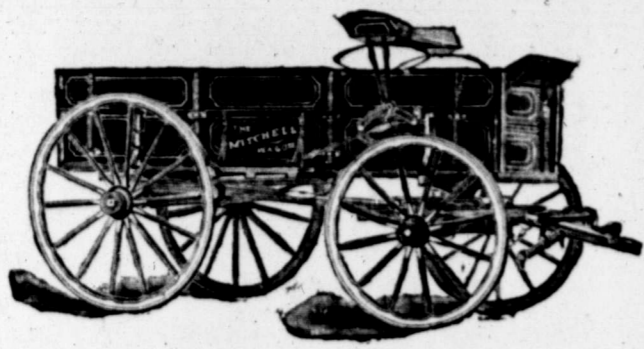

"High life" for rats is good, but why feed at least one horse to each farmer?—Houston Chronicle.

To make him fat, of course.

J. H. Padon has resigned his position at Lufkin and accepted a place in the Mule stable at Carthage. He spent Sunday with his family in this city, and left for Carthage this morning.—Timpson Times.

Then if he "breaks out" again he is liable to be taken up and estrayed. It's time for Brer Padon to quit roving so much.

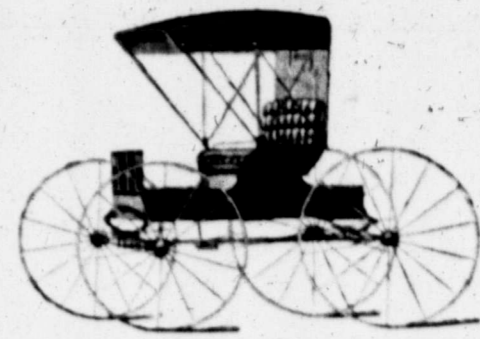

The oil boom and other causes which have necessitated an increase of clerical force in all the offices at the court house has opened up employment for ladies who are qualified for this character of work. There are now eight or ten lady stenographers, typewriters and copyists holding lucrative positions at the court house.

Oil Boom at Colmesneil.

A trip to the Tar Wells last Monday discloses a scene of activity that is highly encouraging to one interested in the development of this section of country. Two more oil rigs are being put up on the Bouton surveys—making four now drilling in this locality. At the Votaw well work is progressing nicely. The drill is now down about 400 feet, and five veins of oil have been cased off. The last one was tested, and it was estimated that it would produce 20 barrels per day. Should nothing further be developed the casing will be pulled back to this vein, and another well started. This oil is of a good quality, and is worth \$4 per barrel. Prospects are numerous in the vicinity, and Uncle Ransie Boykin is raking in the shekels at his terry. In addition to the oil business a large force of men and teams are employed at the quarries just across the river. Shipments of rock will begin in a short time.—Colmesneil Times.

Potent Pill Pleasure.

The pills that are potent in their action and pleasant in effect are DeWitt's Little Early Risers. W. S. Philpot of Albany, Ga., says "During a bilious attack I took one. Small as it was it did me more good than calomel, blue-mass or any other pills I ever took, and at the same time it effected me pleasantly. Little Early Risers are certainly an ideal pill." Sold by Perkins Bros.

Save the Children.

Ninety-nine of every one hundred diseases that children have are due to disorders of the stomach, and these disorders are all caused by indigestion. Kodol Dyspepsia Cure is just as good for children as it is for adults. Children thrive on it. It keeps their little stomachs sweet and encourages their growth and development. Mrs. Henry Carter, 705 Central St., Nashville Tenn., says: "My little boy is now three years old and has been suffering from indigestion ever since he was born. I have had the best doctors in Nashville, but failed to do him any good. After using one bottle of Kodol he is a well baby. I recommend it to all sufferers." Kodol digests what you eat and makes the stomach sweet. Sold by Perkins Bros.

"Pretty as a red wagon," is no longer the superlative comparison for beauty. It is now "Pretty as the blue and white R. F. D. wagon." This covered and bright little van, drawn by a span of spirited bays, is driven by Tom Sharpe who has charge of route No. 2. In rainy weather he can sit back and laugh at the storm, secure and happy, and knowing that the turnout wins the admiration of all the dwellers on route No. 2.

The old telephones of the Nacogdoches exchange have been sold to the Beaumont Telephone Company, and are being packed up for shipment.

Changed Hands.

Mr. O. F. Baxter has sold the Nacogdoches Steam Laundry to Mr. J. R. McClure, who takes charge from this date. The Nacogdoches Steam Laundry is one of the prominent enterprises of Nacogdoches and has been a great success from its incipency. Under the ownership and management of Mr. Baxter, as well as his predecessors, it has given splendid service and satisfaction to its patrons, and built up a splendid business. Under the new management it will be kept up to the high standard it has maintained in the past with probably some improvements that will increase its facilities for handling the increasing business. Mr. McClure is not without experience and will spare no labor or investment to keep the laundry at the front.

DeWitt is the Name.

When you go to buy Witch Hazel Salve look for the name DeWitt on every box. The pure unadulterated Witch Hazel is used in making DeWitt's Witch Hazel Salve, which is the best salve in the world for cuts, burns, bruises, boils, eczema and piles. The popularity of DeWitt's Witch Hazel Salve, due to its many cures, has caused numerous worthless counterfeits to be placed on the market. The genuine bears the name of E. C. DeWitt & Co., Chicago. Sold by Perkins Bros.

There will be an excursion and a three dollar rate to Galveston on August 8th.

Tom Fall Dead.

News has been received that Tom, son of Mr. and Mrs. Linn Fall, of Carthage, died in that city on last Friday night. Tom Fall was a nephew to Mr. Jim Brantley of this city, and Vail Fall is a cousin to him, and he was well known to almost every one in this section of the country. He was born and raised in Chireno, went to school here and was one of the most popular boys of his age. He was liked by all on account of his pleasant disposition and splendid qualities of young manhood. About three years ago the family moved to Carthage, but their friends here have never forgotten them. To those who knew Tom the news of his death is sad indeed, and sympathy is deeply felt for the bereaved family.

Messrs. E. L. Hayward and Geo. W. Cable, Jr., representatives of the Hayward Lumber Co., of Davenport, Iowa, returned to Davenport this morning, after a week's visit in this vicinity for the purpose of going over the situation with the view to selecting a location for a large lumber manufacturing plant. It isn't necessary to say that they were treated with the utmost courtesy and kindness by our people while here.

Mr. J. L. Stone, the jug and pottery factory man, has given up the effort to establish a large plant here and will leave tomorrow for Thornton, Limestone county, where he has made an engagement to conduct a similar enterprise. We regret his failure here and feel assured that Nacogdoches has missed an opportunity to develop the rich clays of this vicinity, which would have resulted in great benefits to the town and community.

Mr. W. H. Taylor, General Passenger and Freight agent of the H. E. & W. T. Ry. Co. spent last night in the city, coming in yesterday afternoon in response to invitation from chairman, Mr. Jno. Schmidt, to attend the citizens' meeting last night held for a consultation with the Haywards. Mr. Taylor took a personal interest in the proceedings of the meeting and rendered his services in any possible manner in which they may be used to help the enterprise along or to help secure the proposed mill of the Hayward Lumber Co. Nacogdoches has good reason to be thankful to Mr. Taylor, as well as his associates for the liberal spirit always shown toward all enterprises undertaken for the advancement of this city and its interests.

Alex Reid brought two monster cucumbers into The Sentinel office this morning. One was 14 inches long, and 11 inches in circumference; and the other was 9 inches long and 17 inches around. He had others not so large, but these show what Nacogdoches county can do when it comes to raising cucumbers.

Mr. J. P. Popp returned this morning from a two weeks trip over on the line of Louisiana and Texas, where he has been buying stave timber. He says he has about finished his work in this section and will have to expand his territory. He reports crops very promising in most sections, he has visited and plenty of rain everywhere.

Mrs. Ella Harle, of Timpson, died on Wednesday, and was buried yesterday. She was a sister of Mr. E. B. Williams, and Miss Emma McDavid, of our city, and leaves children to mourn her loss, who are now doubly orphaned. Mrs. Harle was an earnest Christian. Conscious up to five minutes before her death. She was ready and willing to die, confident of the future and going gladly to meet the unknown scene in her faith in Christ. In the presence of such a death, words of regret for the departed rest unuttered on the lips; the grief is only for those who are left, and to them The Sentinel tenders its sincerest sympathy.

THE RUNNELS CASE

Bond Set at \$3,500 For Appearance at District Court.

From Friday's Daily:

The examining trial of Robt. Runnels, charged with poisoning, held before Justice Peevey yesterday afternoon, resulted in Runnel's bond being fixed at \$3,500 for his appearance before the grand jury at the next term of district court.

The trial attracted an unusually large crowd, which collected in such numbers that Judge Peevey had to adjourn his court and move from the court house to the Ingraham building adjoining, where the trial was then resumed with the result stated. Runnels readily gave bond and with his Timpson friends returned to Timpson last night. There was an unusual amount of interest shown in the proceedings and friends of both sides have become partisan.

The case was conducted by County Attorney Beeman Strong, assisted by J. C. Harris and G. H. Matthews for the State, and W. H. Dial, Esq., Frank Brewer of this city, and Will Fields of Timpson, for the defense.

There were no witnesses placed upon the stand for the defense, but there were some vigorous discussions between counsel during the taking of testimony.

Escaped an Awful Fate. Mr. H. Haggins of Melbourne, Fla., writes, "My doctor told me I had consumption and nothing could be done for me. I was given up to die. The offer of a free trial bottle of Dr. King's New Discovery for consumption, induced me to try it. Results were startling. I am now on the road of recovery and owe all to Dr. King's New Discovery. It surely saved my life. This great cure is guaranteed for all throat and lung diseases by Stripling, Haselwood & Co., druggists. Price 50c & \$1.00.

Our substantial friend, Mr. A. N. Jenkins, of Appleby, has thanks of The Sentinel editor for a fifteen pound cabbage head received this morning by express—prepaid. It was shipped in a cracker box and there was very little space left after it had been placed in the box. Mr. Jenkins is a practical farmer, and is a scholarly man who does everything with intelligence, whether it be farming or other avocations. He is one of the most successful farmers and truck growers of the Appleby community.

Nearly Forfeits His Life. A runaway almost ending fatally, started a horrible ulcer on the leg of J. B. Orner, Franklin Grove, Ill. For four years it defied all doctors and all remedies. Times is gratified to learn that there is a probability of Hon W. M. Imboden's becoming a citizen of this city. He will be here in a few days prospecting, and we hope he will be so well pleased that he will decide the matter favorably.—Timpson Times.

UP TO THE HAYWARDS.

Nacogdoches Has Extended a Formal Proposition.

From Thursday's Daily:

It has been known for some time past that the Hayward Milling Company, of Davenport, Iowa, one of the most extensive saw milling concerns in the United States, would during the next twelve months begin the construction of a large lumber manufacturing plant somewhere in Nacogdoches county, and many letters have been passed between this company and the Business League of this city. This correspondence finally led up to a meeting of the citizens, held in this city Saturday night July 25th, at which were present Messrs. E. L. Hayward, Geo. W. Cable, Jr., and W. H. Kimball, members and representatives of the Hayward Lumber Co. A full and free discussion of the project was indulged in and much information passed both ways, resulting in eliciting an expression of a willingness on the part of the visiting gentlemen to entertain a proposition from our people to locate the new mill somewhere in the suburbs of Nacogdoches, and the adoption of the following resolution by the meeting:

"Resolved, That it is the sense of this meeting that the citizens of Nacogdoches offer to the Hayward Lumber Company a sufficient amount of land within a mile of our court house, estimated at about one hundred acres, on which to locate their plant; and further, that we offer them the right of way and old grade of the Red River, Sabine and Western Railway Company—the grade as far as it extends—and the right of way from end of grade to their holdings, about three miles further."

The meeting then adjourned to meet again Wednesday night, an engagement being made with the visiting gentlemen for another conference.

During the interview the representatives of Hayward Lumber Company went out over the old grade and made a tour over their holdings, lying in the Southeastern portion of the county and extending over into San Augustine county, returning to the city yesterday. The citizens also in the meantime secured options upon land which it was thought would answer for the mill site.

When the meeting was opened last night and notes were compared, possibilities and probabilities discussed, expressions heard from both sides and a general "free and unlimited" discussion indulged in a motion was put before the house and unanimously carried ratifying the former resolution and extending a formal proposition to the Hayward Lumber Company. This proposition will be taken up at headquarters and within a few weeks a formal and final answer will be returned to us.

That these people are interested in the proposition and are favorably impressed with the inducements held out to them there can be no doubt, but there are some obstacles to overcome. To locate the

mills here will leave a distance of twelve miles between them and the nearest point at which their timber can be reached which would necessitate an expenditure of at least \$75,000 in railroad building after the right of way has been secured. Then the question of suitability of grounds for the mill site and trackage connection with the railroads at Nacogdoches are to be considered. Many other points of disadvantage in a location so far from their holdings, which as a rule generally offset all surmised advantages, will be taken into consideration. All this will be done at headquarters after the gentlemen who have been over the grounds make their report.

We have a good deal of encouragement and strong hopes that the proposition from our people will be accepted.

If it is, it is going to cost something and Nacogdoches must put up the price without grumbling.

The people who have lands through which the right of way run must help.

This is a local enterprise that will be equal to the machine shops of the T. & N. O. Ry., which we have lost forever.

It will give employment to not less than five hundred men with a pay roll of from \$20,000 to \$25,000 a month. It will benefit the agricultural class as much as it will the town, or more. It will open a market for country produce and give employment to idle labor. It will be the ultimate result of securing another railroad. In fact, it is impossible to estimate the benefits it will bring to us all.

Let every body get ready to help "pull on the line," when the time comes to land this enterprise.

For all forms of kidney trouble take only Bak-Ake Specific. Sold and guaranteed by Stripling Hazelwood & Co.

Wanted.

Every owner of land who has land for sale, to list it with the Nacogdoches Nursery Co. at Nacogdoches Texas, C. G. Monzingo, Mgr. They will advertise it throughout the North, East and West, will bring immigration, and sell your property to advantage with no expense to you unless you are benefitted. Call at their office and give them description of what you have to sell. They can sell or rent oil, fruit, farming and stock lands, and city property, will collect rents on farm and city property, and also open accounts and notes. Office in Blount and Schmidt building, Nacogdoches Texas.

GOT IT AT LAST.

Through Mail Service to Dallas Begins Monday.

From Thursday's Daily:

After long and tedious waiting we have at last received the good news through Post-master Cooper that a through mail service between Nacogdoches and Dallas will begin over the T. & N. O. Ry., Monday Aug. 3rd 1903. This will give this section prompt mail service by close connection at Dallas and other points with Indian Territory, West Missouri, Arizona, Nebraska, New Mexico, and the great Northwest in general. It will also fill the gap between Nacogdoches and Jacksonville, along which the towns of Cushing and Sacul are being built up, and will dispel a great inconvenience felt locally for some months past. This is good news that will be welcomed by the entire community, more especially among the business men and newspapers.

Lightning struck a wagon belonging to Mr. Foster, in the Tennessee neighborhood, a few nights ago and killed two cows and all of the gentleman's hogs.—Timpson Times.

Banita Manufacturing Plant.

There has been a move on foot to organize the Banita Manufacturing Plant into a corporation for the purpose of enlarging and increasing its output and taking care of its increasing business. The matter was brought before the last meeting of the Business League and a committee consisting of Jno Schmidt, I L Sturdevant and D Rulfs was appointed to investigate the matter and report at the next regular meeting which will take place next Monday night. The committee has fulfilled its commission and will be ready to report. The report will be favorable, the committee having found sufficient evidence to convince them that it is a good thing, and no doubt at the next meeting solicitors will be appointed to secure subscriptions to stock. It is not a matter of encouragement that is asked in this instance, but a matter of building up and increasing. The plant has been made a big success, even under heavy difficulties and has been an important factor in the progress of this city for several years. It is a money making proposition to stockholders and a question of advancement in the progress of Nacogdoches.

We will sell you oil land, farming land, fruit land, all kinds, and in any place you want. We have thousands of peach trees for sale. And several hundred acres of fruit land close to the railroad already set out in trees. We will sell you land and set it in trees anywhere.

Nacogdoches Nursery Co. C. G. Monzingo, Mgr. Office Blount & Schmidt building, Nacogdoches Texas.

Clarence A. Chambers now owns half interest with his father in the Liberty Vindicator, the old gentleman having presented his son with this interest upon reaching his 21st birthday.

Wilson-Bowler.

From Thursday's Daily: Mr. W. F. Wilson, of Milford, and Miss Willie May Bowler, of our city, were united in the bonds of matrimony last night, Rev. W. W. Watts performing the ceremony that made them one for life. The wedding took place at the handsome country residence of the bride's parents, Mr. and Mrs. W. B. McKnight. They left today for Milford, where they will make their future home. They were followed by the best wishes of hosts of friends, with whom The Sentinel joins in wishing them a long, happy and prosperous life.

Gone Into Real Estate.

Mr. C. G. Monzingo, manager of the Nacogdoches Nursery Co., of this city, informs us that as his company are getting so many inquiries for fruit, farming, tobacco and oil lands that they have decided to go into the real estate business. They have thousands of acres of land now listed for sale. They have been busy answering hundreds of letters from people North East and West and their correspondence is increasing. All inquirers want land in this vicinity.

They propose to print a list of land placed in their hands at an early date, and will get out a circular which will be sent everywhere advertising this section and containing especial information regarding lands listed with them.

They want to see every one who wants to either sell or buy lands and propose to assist anyone in obtaining what he wants.

Their office is next door to the East Texas Business College, up stairs, as heretofore.

Bak-Ake Specific is sold on a guarantee to cure all forms kidney disease. Have no other. Sold by Stripling Hazelwood & Co.

A. P. Traweck spent several days this week in the oil fields of Nacogdoches county, and says the excitement over there is at fever heat. People are selling their lands to those who believe there is oil underneath and a number of companies and individuals are busy boring and making preparations to bore wells. The wells will be sunk to the depth of several thousand feet and it is believed that oil in abundance will be found.—Lufkin Tribune.

Parties from Monterey report that the entire distance of two miles traversed by the Cotton Belt in Nacogdoches county between the Attoyac and Angelina rivers will be trestled and no stop will be made in the county. Right-of-way has been cut to a point several miles beyond the Attoyac river in San Augustine county.—Lufkin Tribune.

SATURDAY'S LOCALS.

W. A. Ling, of Center, is in the city.

D. K. Cason left this morning for Dallas, to be gone two weeks on business and pleasure.

Miss Virgie Gaddy arrived with her father Rev. Wm. Gaddy, and is visiting friends in the city.

Miss Alma Hall returned this morning from San Antonio, where she has been visiting her sister, Mrs. Brown.

Mr. Dan Davison and family moved to Pollock, Thursday. We regret to lose this estimable family as citizens of Nacogdoches.

Joe P. Clevenger is erecting a big gin plant just beyond the oil mill, on west Main street. He will have it completed in time to handle this year's crop.

Miss Jennie Ivy, one of the most popular girls of Mayer & Schmidt's Millinery department, left today for Tenaha to spend her summer vacation at home. She will return in September to resume her place.

The new switch that is being put in at Harrington's planer is about completed, adding much to Mr. Harrington's convenience in shipping out the material manufactured at his mill.

Parrott was in today swapping yarns with friends and having a good time. He is now in the timber business, and he can give employment to twenty-five teams of mules. The haul is good and the pay is good. It will be well to see him if you have an idle team.

Messrs. Simon Mintz and Aaron Zeve were among the number of merchants that left Sunday for the North, to purchase goods for the fall and winter trade.

T. K. Rayner, the urbane postmaster and merchant of Decoy, was in the city today. Incidentally he is doing a little farming too, and he brought us a sample from his melon patch that was greatly appreciated.

Mr. E. D. Williams, of Chireno, after spending a day or two in the city, returned home yesterday. The Doctor owns several business lots on East Main street and says it is his intention to erect one or more brick buildings upon them this fall.

Messrs Austin & Herrin are placing material on the ground with which to repair the row of brick buildings north of The Sentinel office, the front walls of which, owing to faulty architecture, have been bulging out for some time and are constantly getting worse. The front walls will have to be rebuilt and the work began today.

The County Sunday school convention to be held in Nacogdoches on the 19th of August at the Presbyterian church is for all the Sunday schools of our county of every denomination. It is not for organic union but it is an interdenominational meeting for the purpose of having co-operation in efforts to obtain better knowledge and methods for advancing the schools all along the lines. No doctrines are ever discussed and all workers may attend and be free from any objectionable discussions. Practical ways of working and other good things will be discussed. How to better the work and how to save the boys and girls of our land. Every Pastor and Superintendent and one delegate from each school for every 25 enrollment are urged to attend.

Strength and vigor come of good food, duly digested. "Force," a ready-to-serve wheat and barley food, adds no burden, but sustains, nourishes, invigorates.

MONDAY'S LOCALS.

The fall term of district court will convene September 20th next.

Methods of testing visual acuteness by the use of optician's eye charts are well known, and can be corrected by the proper adjustment of perfect vision lenses that their effect will be entirely neutralized. This test should be used only as often as necessary from the eye. If you cannot see the small letters, it is not your eyes that are defective, but your glasses. They cause the rays of light, through the angles of vision, to strike the eye and injure the eye. When it is corrected by the proper adjustment of perfect vision lenses, the rays of light strike the eye directly, in a direct line, and do not cause any injury to the eye. The test will be performed by having a pair of glasses fitted.

Test for Visual Acuteness.

The above are object lessons showing that you should not trust your eyes to incompetent persons calling themselves opticians. Judging from my increased patronage and the universal satisfaction given, you are safe in coming to me. No charge for examination, and moderate charges paid for perfect service. My Chrystal Periscopic, Toric and Lenticular lenses scientifically fitted and adjusted give perfect satisfaction.

W. E. Wilburne, of Mahl, is in the city today.

Alex Muckleroy, of Oil Oil Wells, was in the city today.

M. C. Johnson, of Austin, was here yesterday on business.

Rev S. F. Baucom performed the wedding ceremony for Mr. McCall, of Melrose, and Miss Grace Whitton, of Attoyac, yesterday afternoon, on Fredonia street, both the contracting parties and the minister being in buggies.

Mr. H. Gunn, of Rusk, was in the city today on a business trip. He was in company with Mr. Wiley, also a prominent citizen of Rusk. Mr. Gunn is county surveyor of Cherokee county.

J. P. Bruton, of Douglass, was in the city today and was a pleasant caller at the Sentinel office. Mr. and Mrs. Bruton have just returned from a visit to Hill county. Mr. Bruton says prospects are fine in Central Texas, but he saw nothing to induce him to leave Nacogdoches county, although his trip was in part a prospecting tour.

Frank Mize arrived from Mineola, yesterday to make this his home, he has accepted a position with the Nacogdoches Steam Laundry. Mr. Mize was connected with this Laundry before he went away, as his father owned it, and it seems natural to have him back. His many friends here gave him a warm welcome on his return.

200 shirts that cost at wholesale prices from 35c to \$1.25 going today for 35 cents. G. H. Davidson Est.

A. W. Grimes has accepted a position in the store of T. B. Hardeman during Mr. Hardeman's absence in the Northern and Eastern markets.

The Salvation Army lassies did a good business selling the "War Cry" on the streets Saturday afternoon. A large crowd was in town and all seemed to buy the paper.

A man came into Cason Richardson & Co.'s yesterday to get a new spring for his buggy. He said he wanted a "Hope" spring. The firm had never heard of them and asked why he wanted that kind. He said he saw in the Houston Post, "Hope springs eternal," and he thought they'd last a good while. It is thought the salesman will recover, with care.

Mrs. Ann Reid, of Van Zandt county, has been visiting friends and relatives in Nacogdoches and vicinity, the past week. Mrs. Reid was formerly Miss Ann Eubanks and is well known to the older citizens, and there are many here who remember her pleasantly and are glad to meet her after an absence of thirty years or more. She will remain here probably another week, and says she will then have to leave before seeing all her old friends.

Postell, from this city.—Timpson Times.

Conspicuous in Perkin's Bros. display window is a map of the oil fields, with a duster close by. At a first glance this juxtaposition of oil fields and dusters would seem ominous, but it just indicates the difference between a well in the proven field, and the duster. One is a duster and the other is hot up and dust for the oil fields.

The boiler and engine for the compress have arrived. Everything else is about done, and as soon as this machinery is installed the press will be ready for a test.—Timpson Times.
