THEY SAW NACOGDOCHES.

Members of the Packer's Trade Extension Association.

From Tuesday's Daily:

The party of tourists—whose coming was announced in yesterday's Sentinel arrived last night and left at 11:45 a. m. today. They only spent half the day here, and owing to the cold weather could not be driven over the country, but they saw the town and met many of our people and left expressing much favor toward the city and what they could see of the country.

Following is the personnel of the party:

E R Nichols, Chicago, representing E R Nichols & Co. J S Drake and wife, the Kansas City Packer.

H W Dawson and wife, Toronto Canada, rep. H W Dawson Com. Co.

D J Coyne, rep. Coyne Bros. Chicago.

G W Myers, rep. Myer, Weil & Deutch, Cleveland O.

D P Sweeney, Boston, Mass., rep J F Kimball Co.

R W Gees and wife, Kansas City rep. C H Kuehne Com Co.

O A Sanduskey, St Joe, Mo., rep. Sanduskey & Co.

W A Merkel, Chicago, rep. G M H Wagner & Sons.

J F Carter, Chicago rep. Hall Wedge & Carter.

D T Turner, Oklahoma City.

J A Taylor, Wynnewood, I T fruit grower.

L C Hill, Rogers, Ark., industrial agent, Sante Fe.

Miss Hill, Rogers, Ark.

D C Vining, Chicago, rep. C H Weaver & Co.

W L Grush and wife, Kansas City.

Geo Ballasch, Medino, O., potato and onion grower.

E L Winn, Kansas City.

W A Greife, stenographer, Kansas City.

Miss Myrtle Higgins, Platte City, Mo.

These people are all members of the packer's Trade Extension Association, whose object is into bring into closer touch the grower, shipper,

transportation companies and the Commission merchants. The tour of the Association last April resulted so satisfactorily that a more extended trip was decided upon, which is now being made through Texas, for better acquaintances of our people. The party started from Kansas City Jan. 19th. They came from Houston to Nacogdoches, and are being accompanied by Stanley H. Watson, Industrial agent of the Central East lines. From here they went to Jacksonville, via Lufkin.

Only a few Ladies Jackets, Capes and Shawls left, they must be sold. See them. Geo. H. Davidson, Est.

THE SCOTT CASE.

Defendant Was Granted Bail in the Sum of Five Thousand Dollars.

From Saturday's Daily:

The preliminary trial of Cal Scott, charged with the killing of Ed Skillern, was closed yesterday afternoon just as The Sentinel went to press. After hearing the evidence introduced Judge Berger decided that the case was bailable and fixed Scott's bond at five thousand dollars.

Only a part of the testimony on both sides was introduced. Evidence for the defense showed that Skillern had attempted to borrow a pistol from the negro, Wash Porter, who keeps a little store at the foot of Orton hill. He did not obtain the pistol, but accused Scott as has been here tofore stated. This is about all the evidence offered by defendant.

The dying statement of Skillern was introduced. In this it was shown by the state that Skillern had gone to the house where he and Scott first met on an errand of charity, that he had been guilty of no conduct unworthy of a good citizen and an upright man.

The court, after carefully weighing the evidence placed before him rendered his decision as above. Scott has made bond and has been released.

Storm Along T. & N. O.

From Friday's Daily:

Reports from Jacksonville, Cushing, and other points north along the line of the T. & N. O. railroad say that a severe windstorm did considerable damage late yesterday afternoon. At Jacksonville several houses were blown down or badly damaged. At Cushing the storm was not quite so severe. The telephone lines escaped injury, except at one place between here and Manl. where a tree was blown across the wire. The telephone line running out to Douglass had one tree blown across it, between Nacogdoches and Hayter's.

Tom Sapp Arrested.

From Monday's Daily:

Constable Watson left this afternoon for Beaumont after Tom Sapp, who has been arrested at that place. Sapp is wanted here on a charge of defrauding the Cushing and Sacul Camps, Woodmen of the World out of several hundred dollars, while acting as district organizer. He has been missing several weeks and there was a reward offered for his arrest by the Head Camp of the Texas jurisdiction.

Sapp in Jail.

From Tuesday's Daily:

Doc Watson returned this afternoon from Beaumont with Tom Sapp, who is now safely behind the bars in the Nacogdoches county jail.

BENEFIT ENTERTAINMENT.

Sacul Raises Money to Seat New School House.

Editor Sentinel:

Allow me to congratulate the public spirit in your young sister town. The writer finds as much public spirit, grit and determination to do and be something there as any where he ever visited, and they are laying their foundation wisely by having erected one of the best school buildings in the country, and Saturday night gave an entertainment to seat the building. The preparation for this was led by Mrs. J. T. Lucas, ably seconded by all ladies of the town. The door receipts amounted to \$53.75. Later a special collection, each firm engaged in business giving \$5, followed by J. T. & J. L. Lucas, Mr. Morris, Williamson, J. A. Hamilton and others too numerous to mention, made it easy to raise the amount to \$100.00.

Then three cakes were to be given for the three most popular young ladies. Miss Winnie Carriker, of Cushing, Miss Zula Orton, of Nacogdoches, and Miss Gertrude Sisk, of Sacul, were placed in nomination and won the cakes in order named netting the nice sum of \$22.50; total amount

collected \$123.50. The splendid music rendered by Mrs. H. B. Davis, of Cushing and Miss Zula Orton of Nacogdoches, and Dr. Williamson helped to keep the crowd in a fine humor and prepared to do something nice in behalf of Sacul. We return thanks to Nacogdoches and Cushing for their help. Several couples were from Cushing, Messrs Carriker, Oleson, and Stuckey with the Misses Carriker and Atkinson and others.

It was one of the best entertainments, the scribe has attended and the result of it is, there will be a first class school building with up-to-date seats.

LOCAL OPTION RULING.

May Give The Angelina County Pros More Trouble.

Dallas, Texas, Jan. 29.—In the case of ex-parte Heyman, from Cooke county, in the State criminal court of appeals today, the court held that under section 20, article 16, of the constitution, the legislature is not authorized to empower commissioners court to designate two or more justice precincts as a subdivision for a prohibition election. This decision holds that local option elections under the constitution can only be held in a county, town, city, justice or commissioner's precinct or school district, but that commissioners court can not combine two or more precincts for local option purposes, as it would be the "creation" and not the "designation" of subdivision. This will abolish the local option law in the seven precincts of Cook county as it now exists. Judge Henderson renders the opinion, with Judge Brooks dissenting.

Rev. W. W. Watts writes from Atlanta that his father has undergone a successful surgical operation and is now recovering his health. He will return home next week.

COTTON has gone to 15 cents, the highest it has reached in thirty years.

READ Mr. Jarrett's article on potato growing. If you can't raise tomatoes try potatoes.

THE Louisiana democratic primaries went for Blanchard for governor by a majority of fifteen thousand votes.

THE Panama muddle may be solved to the satisfaction of all. There is a move on foot to purchase Panama outright.

WHEAT is doing the pyrotechnic stunt along with cotton, and our biscuits will "rise" without the aid of yeast if it keeps it up.

SNAP SHOTS says, "an educated man is one who can always find a technicality when he needs it." All lawyers are educated men.

THE President and Senator Hanna are managing to "fish" and "cut bait" together quite harmoniously whenever occasion requires it.

RUSSIA has answered Japan in such a way as to secure the maintenance of peace, according to last reports. It may be different next report.

SHELBY county is leading Nacogdoches on candidates so far. There are sixteen announcements in the Center papers. We have only eleven.

"R. L. R." in The Lufkin Herald is almost as monotonous as "Angel" in Our Dumb Animals. Some writers are awful jealous of their "thunder."

THERE have been scores of people in Nacogdoches the past week hunting houses to live in. Every renter's house in Nacogdoches is either occupied or spoken for.

THE Plaindealer has renounced populism, and while it has not entirely embraced democracy, it has very near it. It's last issue contained a two column obituary to populism.

THE fight between the Hanna and Foraker forces for control of the Ohio delegation to the national republican convention would indicate that Hanna does not consider himself a presidential impossibility, to say the least of it.

THE town is full of prospectors every day. Many of them are hunting houses to rent in town, while others are hunting tobacco lands or fruit and truck farms. There will be many more new comers located among us before the present year passes out.

THE Times at Jacksonville is investigating the 3rd and 4th wards of committees to bank and fertilizing. A full bank is desired. A full of A. Pirtle, Pres. If they escape this year borrowing will be a thing of the past with the farmers of Nacogdoches county.

THESE CAN VOTE.

Editor Sentinel:

If a man is not old enough to be taxed in 1903, but is 21 years of age before the year expires, is he subject to a poll tax? If he does not hold tax receipt can he vote in 1904?
D. E. Paine.

The poll taxes now being collected are for 1903. Those who were not 21 years old before Jan. 1st, 1903, are not subject to payment of poll tax until time for collecting the 1904 taxes. Any voter becoming 21 years of age between Jan. 1st, 1903 and election day 1904 is eligible to vote without a poll tax receipt. Any person over 60 years of age before Jan. 1st, 1903, is also eligible to vote without a poll tax receipt.

THERE have been over a thousand bales of cotton sold in Nacogdoches for over seventy-five dollars a bale. Very few bales of the crop of 1903 have sold for less than fifty dollars. It is safe to estimate that Nacogdoches has paid out a million dollars for cotton this season.

WE have found out that the town isn't dead through a little advertisement inquiring for a cheap lot. There are no such things in Nacogdoches as cheap lots. There isn't a lot within a thousand yards of the court house that can be bought for less than three hundred dollars, and there are few for sale at any price that close in. A few nice little lots were offered at from two thousand dollars up.

HON. ALLISON MAYFIELD will be a candidate at the ensuing primaries for re-nomination to the office of railroad commissioner. He thinks that the knowledge and experience acquired by past service will enable him better to serve the people in the future and is willing to give them the benefit of it. We see no good reason why he should not be re-elected. He has been faithful in the past and is a safe man.

THERE is no sense in opposing a good thing because it is a republican measure. No matter which way the Isthmian canal goes there will be a "rumpus" about it, and there will be grafts galore. It is doubtful if the right to construct a canal could ever be more peacefully obtained than the present Panama proposition. Let the republicans go on and build it. The democrats, however, can stamp their opposition upon it without the risk of defeating the project. But will it be wise to do it just for political buncomb?

THE United States supreme court at Washington has reaffirmed the ruling made some time ago in the case of Carter vs the state of Texas, to the extent that the exclusion of negroes from grand juries by the state is unconstitutional. The court has held that the exclusion of negroes from grand juries is not permitted by the constitution. N. B. Tripping to this verdict against a negro found by a grand jury of all white men is not constitutionally. If this ruling is applied

generally there will be some more h—l raised in this country, where custom has established a rule that is more inflexible than law itself. The only remedy will be to provide negro juries for negroes and white juries for the whites. They will have to be exclusive, one way or the other.

KING ARTHUR, of Sweden, celebrated his 75th birthday on the 21st with a great diplomatic banquet and ball. The people throughout the entire Kingdom did honor to the King's birthday.

SENATOR MORGAN has introduced a bill in congress providing for the annexation of Panama to the United States, appropriating \$10,000,000 as compensation to Panama for its secession, \$10,000,000 for the compensation of Colombia and \$60,000,000 for the purchase of the property of the new Panama Canal Company in Colombia, including the Panama canal. There appears to be a tone of irony about the Senator's bill.

EAST TEXAS, with her 45 to 50 inch annual rain fall, is learning that she can grow two or three crops the same season, while West Texas is learning that, if she gets knocked out by drought in the spring, she can come up smiling with a fall crop of corn, sorghum, cowpeas and other good things for man and beast. This will be a Greater Texas, indeed, when we learn how to run it.—Texas Farm Journal.

HON. H. B. SHORT, of Center, has formally announced his candidacy for district judge of the Second judicial district. There's a bundle of "backbone" for you. There will be no complaint of dictated decisions, juggled judgments and rattled rulings if Short gets on the bench. There will be dignity and decorum and order in court. He will be judge while he presides, and there will be "something doing" all the time.

IT is estimated that Hon. M. M. Crane will be a candidate for the United States Senate against Senator Culberson for re-election. We hope he will not. It would be a waste of his time besides the strife it would stir up. Both are extremely popular men and are giants in politics. We don't want to see any such a battle as that which would ensue should these two men go before the people opposing each other for the United States Senate, or any other office.

THERE will be no increase in the tomato acreage in East Texas, because in going on the market so late last spring, they made their growers no money. This means that those who do plant will make good money this season. If the cattle feeders never learned the lesson hinted at in the above, after so many years of ups and downs, how should the tomato growers, vegetable tyros in the business be expected to see that, that—well, that contrariness pays; in other words, to observe which way the crowd is going, and go the other way.—Texas Farm Journal.

THROWING AWAY THE VICTORY.

The Democrats in the house and senate forced the canal issue to a complete victory. The Democrats fought for the Nicaragua route and contended that the Republicans favored the Panama route in order to defeat a canal in response to the wishes of the transcontinental railroads. The Panama route was adopted after a prolonged contest in Congress. Now the Republicans want to go ahead and build the canal, while the Democrats in the house and senate are doing what they can to defeat the making of the treaty, which is the first step. The Democrats have thrown away their victory.—Tyler Courier.

IT does indeed look as though the Democrats were about to "throw away their victory." Isn't this in accordance with some prior conduct?

In 1876 the Democrats elected their candidate to the Presidency. But their representatives in Congress aided the Republicans in the formation of an electoral commission, and thus "threw away their victory."

Benton and Jackson and Tilden were earnest champions of intrinsic value in money. The Democratic party rejected in toto the fiat money doctrines of the Republicans. The contest went on with unabating vigor through a series of years, culminating in the repeal of the Sherman silver purchase law and the consequent triumph of the sound money contention. Practical bimetalism was assured, but the Democratic senators and representatives couldn't see it that way and proceeded to "throw away another victory."

Beginning with Thomas Jefferson and stretching through a century, the Democrats builded for themselves a monument in territorial expansion. They could point with pride to the acquisition of the Mississippi valley, of Texas, of the Pacific coast, and of Alaska. The day came when they could no longer endure Spanish persecution of the Cubans, and they compelled a reluctant administration to go to war with Spain. But when it came to reaping the full benefits of the transaction involving additional territorial acquisitions shouted "Nay, nay, Pauline," and again "threw away their victory."

Now comes the Panama business. The country wants the canal, especially the West and the South. It has been a long, hard struggle. The Democrats have been consistent champions of a waterway across the isthmus, calling for same in their party platforms. But when the time comes for action, such as ratification of essential treaties like the Hay-Panucote convention and the one now pending, the Democratic senators fling themselves with mock courage across the path of progress and "throw away the victory."

The Democratic party is not an opposition outfit. Its history contradicts the contention that it exists to resist the country's upward and on-

ward march. Its career is rich with glorious achievements. The constructive statesmen of this country have been products of the grand old Democracy. Are not Jefferson and Jackson held in high esteem simply because they did things that tallied with common sense and normal progress?

"That way is destiny," said wise old Tom Bent, pointing to the west. His vision was clear. Island possessions and the isthmian canal are important incidents in the dominance of the great Pacific water. This country must move along these lines—it is manifest destiny. To oppose is to divorce ourselves from the mighty men who made glorious the name of the Democratic party and to loiter by the wayside as the procession marches on. For the Democratic senators to vote against the canal treaty will simply mean that they have again "thrown away their victory."—Waco Times Herald.

ONE farmer near Jacksonville, Cherokee county, raised 106 bales of cotton last year in spite of the boll weevil. He says he made a good crop by constantly tilling the soil in spite of rain or dry weather, and keeping it clear of weeds and grass. A clean cotton patch is not near so susceptible to the ravages of insects.

ONE provision of the Terrell election law provides that the county commissioners shall, at its February meeting, appoint from among the qualified voters of each election precinct two reputable citizens as judges of the election for that election precinct, who shall continue to act as such for two years and until their respective successors are appointed, and one of whom shall be designated as the presiding judge. Local candidates will likely be on hand to assist in the selection.—Lufkin Tribune.

HON. SAM. M. DAVIS, of San Augustine, will likely be a candidate for representative again this year and it is not likely that he will have opposition. There is certainly no cause for opposition. Mr. Davis is a credit to the district he represents and the man who dares to oppose him would be "wasting his sweetness on the desert air" and probably allow the grass to ruin a mighty fine prospect for a cotton crop while making the campaign. We are all strictly for Sam Davis down here.—Lufkin Tribune.

The present conditions were "conceived in sin and brought forth in iniquity." If the defeat of the canal treaty would undo the injustice which has been done and remove the precedent which [his "strenuousness" has set, The Post would use every effort in its power to help in its defeat; but the world, and especially the South, needs this canal and to defeat the measure now would be like committing commercial hari kari. It is, however, easy to conceive how those who vote against its ratification may be doing so conscientiously.—Houston Post.

GOV. VARDEMAN ON THE NEGRO.

GOV. VARDEMAN, of Mississippi, thinks that education is really a cause of deterioration among the negro race and cites as evidence the fact that in New England where the minimum of illiteracy among negroes exists there is four times as much crime in proportion to the population as there is among the negroes of Mississippi and South Carolina, where the maximum of illiteracy is found. A little education takes the negroes out of the fields and they drift to the towns, where they spend their time in vagrancy, gambling, thieving and other violations of the law. It is a fact that cannot be disputed that the negroes of this country that possess little or no book learning are the most respectful of the law, except those that have reached the highest plane of educational accomplishment. The greatest percentage of crime exists among those that have acquired just enough education to make them impudent, insolent and worthless.

THE Orange paper mill now has the money saving sulphide process installed and will soon be turning out paper at a profit, instead of "swapping dollars," as heretofore.—Orange Tribune.

The question of the hour: When are you going to begin making newspaper?

A BIG tobacco factory, making none but "Havana" goods, has offered a top price for the entire Nacogdoches tobacco crop. Why can't Anderson county get into the tobacco industry.—Palestine Industry.

Don't see why you shouldn't. There are thousands of acres of the very identical chocolate land most desirable for growing tobacco all through Anderson county.

THAT merchant who has not already bought his cotton goods is going to pay dearly for them, for it is amazing how the prices are climbing up. It may soon become more stylish to wear cotton than silk.—Palestine Herald.

What's the difference to the merchant? He gets the same profit, no matter what the "cost and carriage" comes to. It is the consumer that had better lay in a supply.

CONGRESSMAN PINCKNEY has introduced bills appropriating \$185,000 for a new Federal building at Houston and \$1,200,000 for the ship canal. Now, John, get a little more for the cleaning out and deepening the Brazos channel and we will not trouble you along these lines for some time to come.—Richmond Coaster.

Just so he does not interfere with Congressman Cooper's scheme at the mouth of the Sabine.

Senators Culberson and Bailey will find few to disagree with them as to the high handed work done down on the Isthmus. But they must agree that the work is done. It is fair accompli. We have before us certain conditions. Shall we proceed to make the best of them? That is in the question. Unless it is a farewell to the chancing prospects for long and weary years to come. Now is the time to corner the Republican party up on its promise to go to work on the waterway.—Dallas News.

WOMAN STANDS BY PRISONER.

Mrs. Sapp Loath to Leave Her Husband in Jail.

R. E. Sapp, the young man arrested by Sheriff Landry Sunday night on a telegram, charging him with embezzlement, will probably be taken to Nacogdoches today, as Sheriff A. J. Spradley or one of his deputies is expected here for him. Mrs. Sapp returned to Nacogdoches yesterday morning, having spent the night at the jail with her husband, whom she refused to leave. She became hysterical during the night, and Jailor Holder took her into his family apartments and sent for medicines to revive her. She vigorously protested the innocence of her husband though he had not a word to say for himself.—Beaumont Enterprise.

TOBACCO TALK.

First Year's Experiment Coming to a Close.

Cor. Houston Post.
Nacogdoches, Tex., Jan 24.—The government experiment station for fine filler tobacco, culture in Texas is about to wind up its last year's work. The warehouse and headquarters are located here, and will continue another year.

The crop is about ready for baling. In fact a beautiful sample bale, the first bale ever put up here, was sent to Washington yesterday. The managers think it will prove quite encouraging in spite of many disadvantages that attend the growth and handling the crop, which requires great skill and care, in many directions. This sample bale contained filler tobacco grown here and at other Texas points. The wonderful and peculiar red lands here seem to be very similar to those of best quality in Cuba, and they are greatly diversified in color and quality. The experiment managers are taking great care in the selection of several different spots and characters of soil for this year's work. One point chosen is located two miles north of town on the Henderson road or what is known as North street, on the farm of Captain A. J. Murphy, and contains two acres of an orange sandy loam with a red clay foundation. There is a large territory of this class of land around here. Another tract is in view located four miles east of town in what is known as the Trinity church neighborhood. It is three acres on the farm of Tom Meroney, and is a heavier and redder type of soil. A still heavier and redder selection is desired and will be experimented on the Carrisso creek near there. These are all experiments to grow fine filler tobacco.

A large private syndicate is figuring on a \$15,000 plant to experiment on the growth of fine cigar wrappers under canvas shade. This is expected to be at Redfield, six miles northeast of here on the Houston, East and West Texas railroad. Efforts will be made to induce farmers to try small patches under the supervision of these experiment stations.

Nacogdoches is expected to be the center and enjoy the reputation of fine cigar tobacco products.

A REFRACTORY HORSE

Causes Ladies to Fall From Buggy and One Is Hurt.

Sunday morning while Mrs. Oscar Baxter, Miss Fannie Fischer, of Alto and another lady of that city, were driving home from church in a buggy the horse got unruly and when in front of the laundry refused to go further. When the lady who was driving endeavored to control the horse, it gave a series of terrific plunges and throwing all the ladies out, dashed madly up Irion hill. Miss Fischer struck on her head and was seriously cut and bruised. The street was full of people returning from church who promptly rushed to the rescue. The ladies were taken to the laundry and from there home. Neither of the other two were hurt. Miss Fischer had sufficiently recovered from the shock to leave for her home yesterday morning. She was the guest of Mrs. McClure and all her friends regret the unpleasant ending to her visit and are thankful the accident did not result more seriously.

Card of Thanks.

Editor Sentinel.

Will you please allow me space in your paper to express my heartfelt thanks and grateful gratitude unto the good people of the town and county of Nacogdoches, for their kindness shown, and expressed sympathy for my unfortunate son, E. C. Skillern.

First I thank the doctors for their kind attention, I believe they did all in their power to alleviate his sufferings—that was all they could do for there was no hope of his recovery.

Next, I thank those kind, good people that attended my dear boy's bedside, and gave him such kind attention. They will ever occupy the brightest spots in my memory as long as I live and I employ Heaven's richest blessings upon them.

I am as ever an advocate for right to prevail over wrong.

Yours very respectfully,

Cured After Suffering 10 Years.

B. F. Hare, supt. Miami Cycle Mfg Co., Middletown, O., suffered for ten years with dyspepsia. He spent hundreds of dollars for medicine and with doctors without receiving any permanent benefit. He says "One night while feeling exceptionally bad I was about to throw down the evening paper when I saw an item in the paper regarding the merits of Kodoi Dyspepsia Cure. I concluded to try it and while I had no faith in it I felt better after the second dose. After using two bottles I am stronger and better than I have been in years, and I recommend Kodoi Dyspepsia Cure to my friends and acquaintances suffering from stomach trouble." From Shady Grove.

"Red Bird" writes from Shady Grove that farmers are very busy turning the soil and repairing fences.

That many farmers are clearing and fencing in new ground.

That farm hands are greatly in demand.

That nearly all the voters around Shady Grove have paid their poll tax.

That there is preaching twice a month.

That the school is flourishing.

That the neighborhood is prosperous, and B. & C. Stack have opened a general store.

THE question of the hour: Have you paid your poll tax?

"JAM SONES" takes too much dish in politics for a preacher.

NEXT Saturday is the last day of grace for poll tax payers.

SHALL the negroes hold the polls this year? It sorter looks that way.

CUSHING has incorporated for school purposes by a vote of fourteen to one.

SPINDLE TOP had another fifty thousand dollar fire Thursday. Nobody was killed this time.

NEARLY three-fourths of the poll tax receipts issued last Saturday were issued to negroes.

YOU'LL feel bad when election day comes and you can't vote because you forgot to get your poll tax receipt.

SINCE Allen Seale is out of a job, how would you like to see him at Jacksonville on the 3rd and 4th of July, with a good lot of committees and a full force of men for fertilizing. A full force is desired.

H. A. Pirtle, Pres. of the water works, is unwholesome and the bayou has been condemned. Must have been getting water below the city.

TWO years ago there was at least a dozen populist papers on The Sentinel's exchange list. Now there is not one. Every one of 'em are democratic now.

THE rice farmers of South Texas are busy plowing and preparing land for the new crop. There will be a greatly increased acreage in Texas this year planted in rice.

FOUR blocks of business houses were destroyed by fire at Sour Lake Sunday morning. The loss was \$200,000. The burned district will be rebuilt as fast as lumber can be obtained.

BRYAN is charged by the Olney managers with having received a fee from Wm. R. Hearst to go out and work for the latter's nomination for president. What if he has? Isn't the laborer worthy of his hire?

IT has transpired that Parker voted the Palmer & Buckner ticket and is therefore barred from receiving the democratic nomination for president. He will never get the nomination if Bryan can prevent it.

THERE will be a party of capitalists and people here will arrive and passenger it is suggested for the citizens get together and devise means for their entertainment while in the city.

THE severe cold weather is freezing birds to death in some parts of the country. Break the news gently to Attwater.

THE T. & N. O., persists in doing Nacogdoches "dirt." It has certainly gone out of the way to put on an ox cart service for its last lick.

THE printer who has been setting up The Sentinel's admonitions to "pay your poll tax" gave up yesterday and went and paid his poll tax. He said the type got so hot he couldn't stand it. Printer's ink pays.

THE "blizzard" here in East Texas, is just a little "cold snap," compared to that in North Texas, Kansas, Indian Territory and the States further North. While the mercury registered 15 above zero here it was 10 below in Kansas city.

THOSE who are so ardently opposing the canal treaty ought to suggest some way out of the muddle. They well know that the nation wants the canal, and it looks a little like there is a question of "honor" on each horn of the dilemma at the present stage.

THE poll tax law is simply a constitutional amendment. The Terrell election law had nothing to do with it. If the Terrell law had never been passed the poll tax amendment would have forced the voter to pay his poll tax or lose his vote.

LOUIS RADFORD, a negro, was lynched by a mob of his own color at Guthrie, Kentucky, Sunday night. Radford had outraged and murdered Priscilla Frozell, a colored girl. If the woman had been white, the negroes would never have gotten a chance at the brute, but as it was it gave them an opportunity to show that the rape feind is no more tolerated among the colored people than among the white race.

PROSPERITY is looming up around Nacogdoches, if the condition of the local banks may be taken as an index to conditions financially. There are now individual deposits in the two banks amounting to four hundred and thirty-five thousand one hundred and eighteen dollars and sixty-seven cents. The total business of the Commercial National and the Stone Fort National at the last report to the comptroller, Jan. 22, 1904, amounts to \$551,239.31.

THE will of Col. Moses C. Wetmore, of St. Louis, bequeaths a large sum of money to be held as a permanent fund for the use of the democratic party. The Colonel isn't dead yet, but the provisions of his will leaked out through Senator Stone, Col. Witmore's legal adviser and confidential friend. As the Colonel is still hale and hearty, it may be that he is "fishing" for something himself and is "cutting bait" from his unique bequest.

ISN'T there about as much danger of losing the nation's honor in not building the canal as there is in building it? Its about six of one and half a dozen of the other.

JULY cotton has reached the sixteen cent mark, and there is now talk of 20 cent cotton. It will soon be planting time, and it might jump to 25 cents. Highest prices generally prevail at planting time, ostensibly to encourage farmers to plant an increased acreage. To make sure of 25 cent cotton the plan would be better to reduce the acreage.

THE T. & N. O. has announced a regular "ox-route" schedule between Beaumont and Dallas, to take effect Jan. 31st. Trains will run from Beaumont to Jacksonville, where they will stay all night "gwyn' and comin'." They will go on to Dallas next day and get back in time to spend most of the night at Jacksonville, going on to Beaumont on the third day out. Wonder what they will do next?

HOUSTON has a new afternoon paper, The Daily News, published by W. H. Bailey. Bailey is an old newspaper man, having edited The Herald some years ago before it sold out to The Chronicle. He is an able writer and a successful manager and the new paper will make a place for itself at once. The News is democratic in politics, reserving the right to roast, which is one of the inalienable rights of the American press.

THE FIRST TEXAS CIGAR.

Garrison Gleaner.

WE see in The Houston Post, where some "kernels" are making some more History, and claiming for Houston the "honor" of being the first city that ever received a box of cigars wherein said cigar, filler, wrapper, and all other ring arounds, were raised in Texas. We intended to get better posted and come back at their back bighters if they backbight next week as to the full details, name dates and doins generally in regard to this matter. We are almost certain however, that old Nacogdoches Town and county can claim that "honor" through Mr. William Hillenkamp now living. Of course then these makers of History all prominent papas of the place, and would not knowingly misrepresent.

THE Center Daily News has made its appearance again after a month's rest. McLendon announces that he will put on a weekly edition, which will appear every Wednesday. The Subscription price is to be one cent a week, strictly in advance. This will be one more chapter to Mack's "Comedy of Errors."

THE national democratic convention to nominate a candidate for president will be in St. Louis July 6th. C. S. Man Jones has already issued the call. That will tangle things a little in Texas, as the primaries cannot be held until the 9th of July in this State.

HAVE GONE TO WORK.

Havana & Sumatra Tobacco Co. Have Begun Operations.

Mr. McFarlin, a member of the Havana & Sumatra Tobacco Company, of Quincy, Fla., returned to Florida this afternoon, after perfecting arrangements for operating on a large scale this year in the Nacogdoches tobacco field. Mr. McFarlin, through Lindsey & Harris, of this city, arrived at a satisfactory agreement with regard to lands desired and the experiment for this year will be made at Red Field. The work will begin at once, in fact has already begun. Mr. J. L. Gill, formerly in the employ of the government at Woodville, will manage the Company's tobacco farm under the supervision of L. H. Sheller. Teams and tools are now being sent out to the farm, hands are being employed and work will be pushed vigorously until the seed are in the ground. Ten acres will be grown under cheese cloth, and a large sum of money will be expended in making experiments in various ways. Farmers will be encouraged to grow tobacco under canvass by the agreement of the company to furnish free seed and instruction with the further agreement to take the crop off their hands at its full worth at harvest time. The advent of this company among us will no doubt add a great stimulus to the tobacco movement, and renew the faith of all enterprising citizens that this is destined to become one of the foremost tobacco growing sections of the United States. Let us all tender then every possible encouragement.

TOPICS FROM TRAWICK.

Budget of News From The Sentinel's Correspondent.

Jan. 20.—Trawick is about to get on a boom. The new church will soon be in shape for preaching and Sunday school. We should organize a Sunday school soon as we could get a good crowd every Sunday.

W. L. Paine's residence is most completed. Dr. Reeves began his yesterday.

W. L. Paine is on the jury at Nacogdoches this week.

L. R. Lyles is clerking for Mr. H. E. Brewer now.

Mr. and Mrs. W. J. Chancellor have been visiting the past week at Center.

The W. O. W. will meet in the new building Saturday night for the first time.

Mrs. W. A. Baucom went to Sacul yesterday to be at the bedside of her grand child who was seriously burned last week, babe of J. M. Beck.

Will Cariker runs the saw now for Harris & Cariker.

Mr. and Mrs. J. J. Sanders woke up one morning last week and found their infant babe dead. It slept with them and on retiring the night before it was seemingly as well as usual.

Some of our farmers are getting the rest of their cotton to market now that they have been holding for good prices. Mr. Rodgers who lives west of here sold a bale yesterday for \$74. Cotton is money at these figures.

Cured Lumbago.

A B Canman, Chicago, writes March 4, 1903: "Having been troubled with lumbago at different times and tried one physician after another; then different ointments and liniments gave it up altogether. So I tried once more and got a bottle of Ballard's Snow Liniment, which gave me almost instant relief. I can cheerfully recommend it, and will add my name to your list of former sufferers." 25c, 50c and \$1. Perkins Bros.

Night was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas Applegate, of Alexandria, Ind. "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1 bottles of Dr. Kings New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure coughs, colds, lagrippe, bronchitis, and all throat and lung troubles. Price 50c and \$1. Trial bottles free at Stripling, Haselwood & Cos. drugstore.

An Old, Old Darkey.

Waco, Texas, Jan. 19.—A negro giving his name as Stephen Joice applied to tax Collector Tucker this afternoon for a poll tax exemption certificate, and testified that his age was 148; which, if true, would make him the oldest man in the world. He says that he remembers the stirring times of the revolutionary war, and claims to have been born in 1758. He has lived in the country forty years and is familiarly known as Uncle Steve.

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick, Colusa, Cal. writes—"For 15 yrs I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric bitters and its the greatest medicine on earth for that trouble. A few bottles of it completely cured me." Just as good for liver and kidney troubles. Only 50c; satisfaction guaranteed by Stripling, Haselwood & Co.

Another Call.

Austin, Texas January 19.—State Treasurer Robbins issued a call today for registered warrants up to and including No 6797. This will take up \$78,934. The net deficit is now \$316,566.

The Wanderer.

He left the dear old homestead and the scenes of his youth And went forth a wanderer; a searcher in truth. He looked not for treasure, nought he cared to be rich. What he sought for was something to cure his itch. He found it. Name, Hunt's Cure. Price 25c.

Imperfect Digestion
Means less nutrition and in consequence "less vitality. When the liver fails to secrete bile, the blood becomes loaded with bilious properties, the digestion becomes impaired and the bowels constipated. Herbine will rectify this; it gives tone to the stomach, liver and kidneys, strengthens the appetite, clears and improves the complexion, infuses new life and vigor to the whole system. 50c a bottle. Perkins Bros.

Speedy Justice.

On the 28th of December Bud Rushing, a negro, assaulted Mrs. Williams, a widow, who lives on the Fambie place. A few days later the black brute was arrested in San Augustine county and brought to Center where he was identified by his victim. During the first week of district court he was indicted and last Thursday was tried and convicted, the jury assessing the death penalty. If all such cases would receive as speedy trial, and the verdicts of the lower courts be sustained by the higher courts it would put a stop to so much lynch law. The negro's attorneys have made a motion for a new trial. —Center Champion.

Mr. Allan Seale Withdraws From the Firm of Seale & Donegan.

TO THE PEOPLE:

For 10 years we have done a successful mercantile business in Nacogdoches. We do not claim all the praise for succeeding, but claim that a part of it belongs to our friends and customers, who have so generously given us their patronage, and beg to say right here that every dollar's worth of your business has been gratefully appreciated. In the 10 years merchandising we have tried to tell the truth and give honest values. We have never before advertised anything at cost. It can't be said that our advertisements are untrue.

The buying of Mr. Seale's interest necessitates a large outlay of cash. Now for this reason alone, we will put our entire stock of merchandise on the market at

TO THE PLANTERS.

Department of Agriculture Issues Recommendations on Raising Cotton.

Washington, Jan. 20.—The plans of the Department of Agriculture for the broader experiments in the matter of boll weevil are rapidly being matured and work is to be commenced at once. The department, however, wants every cotton planter in Texas to profit from what has been learned during the past year, and to this end has prepared the following recommendations, which it earnestly urges upon the attention of the farmers. The department hopes that the press of Texas will give these recommendations the widest possible circulation. The recommendations are as follows:

The work of the division of entomology for several years has demonstrated that there is not even a remote probability that the boll weevil will ever be exterminated. Although the very large yields of cotton of former times may no longer be possible, it is nevertheless entirely feasible to produce cotton at a margin of profit that will compare favorably with that involved in the production of most of the staple crops of the United States by following what have become known generally as the cultural methods. These methods consist of the following changes and modifications of the system of cotton raising made necessary by the weevil. They were originally suggested by a careful study of the life, history and habits of the pest, and naturally any improvements that may eventually be made will be the result of the continuation of that study. They have now been tested successfully on a large scale by the division of entomology, as well as by many planters, during two very unfavorable seasons. For the most part they are directed towards obtaining an early crop and toward clean farm practice.

1. Plant early. If possible plant seed of the variety known to mature, or at least obtain seed from as far north as possible. It is much better to run the risk of replanting which is not an expensive operation, than to have the crop delayed. The practice of some planters of making two plantings to avoid

having all the work of chopping thrown into a short period is a very bad policy from the weevil standpoint.

Under identical conditions early cotton of improved varieties has invariably yielded from two to three times as much as native cotton under the same conditions, and in many cases much more. Planted at the same time the early varieties begin to bloom from twelve to eighteen days sooner than native cotton.

Early cotton fields of either native or improved varieties have almost invariably yielded twice as much as late planted ones.

The early variety in general having a stalk and a short tap root are adapted only for rich soil. They also frequently grow well in the very light, drifting sandy loams of many of the river valleys of Texas, which, in the long seasons before the advent of the boll weevil, often produced the largest yields. In these situations early varieties will yield but little more than native cotton.

2. Cultivate the fields thoroughly. The principal benefit in this comes from the influence that such a practice has upon the constant growth and consequent early maturity of the crop. Very few weevils are killed by cultivation. Much of the benefit of early planting is lost unless it is followed by thorough cultivation. In case of unavoidable delayed planting, the best course for the planter to pursue is to cultivate the fields in the most thorough manner possible. Three choppings and five plowings constitute a thorough system of cultivation, as is necessary in cases where the land has been previously kept reasonably clear.

3. Plant the rows as far apart as experience with the land indicates is feasible and thin out the plants in the rows thoroughly. On land which in normal seasons will produce from thirty-five to forty bushels of corn, the rows should be five feet apart. Even on poor soil it is doubtful if the distance should even be less than four feet.

4. Destroy by plowing up, windowing and burning all the cotton stalks in the fields as soon as the weevils become so numerous that practically all the fruit is being punctured. This will generally not be

later than the first week in October. Merely cutting off the stalk by means of the triangular implement used for that purpose throughout the South is by no means as effective as plowing, because the stumps remaining give rise to sprouts which furnish food until late in the season to many weevils that would otherwise starve. The plowing, moreover, serves to place the ground in better condition for early planting the following spring. In such cases turning cattle into the fields is advisable. Aside from amounting to a practical destruction of the plants, grazing of the cotton fields furnishes considerable forage at a time when it is generally much in demand. Nevertheless, cattle should never be turned into cotton fields in which Johnson grass has been started.

5. It is known that at present fertilizers are not used to any considerable extent in cotton producing in Texas. There is, nevertheless, no doubt that there should be; not because the land is poor, but that earlier crops may be procured. At present it is sufficient to call attention to the fact that it has been the uniform experience of experiment stations and planters in the eastern part of the belt that certain fertilizers, especially those involving a large percentage of phosphoric acid, have a strong tendency towards hastening the maturity of the plants.

John Perkins went to Henderson yesterday to make that city his home. He has gone into the drug business with Mr. J. L. Cameron, one of the leading druggists of Henderson, and the firm name is now Cameron & Perkins. It is with regret that we see a man like Mr. Perkins leave Nacogdoches for the town needs all the young men of his type that it can raise or import. The success that follows ability, push and a high sense of business honor, is sure to be his, and he needs no introduction to business and social circles in Henderson where he is as well known as here. Nacogdoches will always feel a pride in him as a home boy, and follow his fortunes with interest.

FROM SAN FRANCISCO.

Mrs. Matthews Writes that She is Getting Homesick.

San Francisco, Cal., Jan. 19. Dear Sentinel:

We have been back in San Francisco some. Yesterday we received quite a bundle of mail from home, re-sent from San Jose. I notice the paper of the 7th contained the last of three letters I wrote you when I first arrived here, I am sorry that the two first never reached you as it made my letter seem disconnected.

As we are still here and I have nothing to do but take in all points of interest I lose but little time.

Sunday we went across the bay, this is a magnificent harbor, the captain told us that it could accommodate the navies of the entire world without crowding them. We saw here at the docks packets from the entire world, crafts from the Mediterranean, Japan, South Seas, and Shanghai. We passed close to the Golden Gate, here is situated the United States Military Prison on the Isles of Alcatraz. Angel Island contains the quarantine station, and Mare Island the Naval Station of the Pacific.

We left the city at 2 o'clock with a pleasant party of tourists on pleasure bent, returned about five took supper in the cafe of the tallest building in the city, it rises fifteen stories to a fine dome, here we had an unobstructed panorama of San Francisco bay, Ocean and surrounding country. This cafe occupies the entire fifteenth floor it was a beautiful sight. The people below looked like Lilliputians, this view took away my appetite and I spent the time I think more profitably.

We hope to start home soon I shall not wait much longer for business to be closed.

With best wishes, I am sincerely,

JENNIE MATTHEWS.

The Southern Family Circle.

The above is the name of a Fraternal Beneficiary Order, combining probably more excellent features in its plan and methods than most organizations making life insurance their object. This is especially so as regards the methods for perfecting the Circle after being installed. A local family circle may be organized

with ten members—male and female, but it purposes to select and put an organization in each county where a Circle is instituted, to continue the work of securing new members, etc, until 1000 members is enrolled in such circle. While each circle will pay its own death losses, it is inseparably connected with all other local Family Circles, and in all cases where two or more deaths occur at one time in a Family Circle, a distress call for a small sum is issued upon all the other Family Circles and by this means a Circle is relieved of the burden of double and treble assessments. There are other interesting features in the plan of the Southern Family Circle which should commend it to the public, and which Messrs. Carothers and Clark will be pleased to fully explain to any one feeling an interest. They expect to institute a good strong Circle here at an early day, due notice of which will appear in The Sentinel.

Rev. S. F. Baucom has been appointed by the Baptist church at Cushing to solicit donations for building purposes, and to receive and receipt for such funds as may be contributed for this purpose.

A Growing Enterprise.

The Roses-Lake Nurseries is an enterprise that has reached proportions that places it among the biggest things hereabout. As has been mentioned heretofore, Mr. Power has recently sold a half interest in Rose Lake Nurseries to Mr. T. E. Burgess, thereby adding not only capital and increased business facility, but large experience and superior intelligence and knowledge of the fruit and nursery business acquired by close study and years of experimenting. Mr. Burgess is a scholar as well as a practical agriculturist and horticulturist. He was a student in the A & M College, where he first learned the science of agriculture, truck farming and fruit growing. He became practical in these pursuits by experience. He has made a great success in each of these branches since he came among us only a few years ago. He has combined his knowledge, experience and capital with Mr. Power, whose success as a nurseryman is well known to everyone and is self evident.

and the result will be that Nacogdoches will soon boast of one of the biggest and best nurseries in Texas. The new firm has already planted over three hundred bushels of peach seed, with all other varieties of fruit and shrubbery that will flourish in this climate.

THURSDAY'S LOCALS.

T. J. Pack, of Chireno, is in the city today.

Frank Averett, of Linn Flatt, is in the city today.

J. A. Coats, of near Garson, is in town today buying supplies.

W. H. Overall, a substantial friend of The Sentinel of Douglass, was a friendly caller yesterday.

Luther Rains, of Shelby county, was in the city last night. He came up yesterday with cotton, returning this morning.

Dr. E. D. Williams and wife returned this morning, from Galveston, where they went two weeks ago for Mrs. Williams' health.

I. P. Birdwell, of Trawick, was a caller at The Sentinel office yesterday. He ordered The Sentinel another year to his sister, Miss Addie Birdwell.

Messrs. W. H. Gray and Jno. F. Tucker, of Chireno, were in the city yesterday. They have recently moved their stock of goods from San Augustine back to Chireno, and are now located again at their old stand.

J. B. Walker, of Etoile, was here today with cotton and was a caller at The Sentinel office. He received 13 1-2 for his cotton. Mr. Walker says the acreage in cotton will be decreased this year in his section in spite of the fancy price of it is now bringing.

Mr. J. P. Twohig, representing Palmer & Co., manufacturers of fine confectionery and wholesale fruit dealers, of Sioux City, Iowa, has been in the city a day or two in the interest of his company. Mr. Twohig was a caller at The Sentinel office this morning and incidentally gave out the information that his company intended engaging extensively in fruit growing at some point in our fruit belt and had about perfected plans for planting out a large orchard here. He left this afternoon, but will return about Feb. 1st, in company with other members of his firm, when plans will be perfected for their operations, either at Nacogdoches or some point near here.

Death of Ed Skillern.

Wednesday's Daily.

After lingering six days, fighting bravely for the life that meant so much to his wife and children, E. C. Skillern breathed his last yesterday at four o'clock in the afternoon.

He was rational almost to the last, and died fearlessly as a good man should, with calm confidence in the future, and leaving his wife and helpless little ones to the care of an all wise Providence.

But to them and to his aged parents pity is silent from the very depth of sympathy.

What can one say to soften the keen edge of sorrow for the wife deprived of a loving husband, for the large family of helpless little ones bereft of their protector, to the white haired father and mother whose white flakes challenge pity of the world as they totter the grave with the prop of their few declining years so harshly torn away.

All that friends can do is to stand aside in mute sympathy before their awful sorrow.

The entire community feels with the bereaved family, and to them The Sentinel tenders its deepest sympathy and heartfelt condolence.

Doomed to Torment.

Mr P C Keever, Aberdeen, Miss., writes: "For years I suffered from a form of eczema which made life a burden. I thought I was doomed to perpetual torment here below, but your Hunt's Cure rescued me. Jones-Baucom.

From Thursday's Daily.

Yesterday afternoon at three o'clock Rev. S. F. Baucom's home was the scene of a very pretty home wedding when his daughter Miss Ora Baucom was married to his business associate Mr. Frank Jones. Rev. A. J. Holt performing the ceremony.

The wedding was very quiet, only the relatives and a few intimate friends being present. The bride wore a grey tailor made suit. Mr. and Mrs. Jones went to Sacul today where they will make their future home. Mr Jones is one of the well known young business men of Nacogdoches. He has been associated with Mr. Baucom's business for the past few years and stands high in the opinion of all. His lovely bride wins golden opinions from all who meet her for her beauty, and from all who have the pleasure of her acquaintance for her sweet disposition. He has won a prize indeed and fortune has given him the choicest gift in her possession. The Sentinel congratulates the young couple most heartily wishing them unlimited prosperity and continued good fortune.

FOR LAW AND ORDER.

Citizens of Chireno Organize to Enforce Local Option.

At a mass meeting of the citizens of Chireno held on the 16th inst, the following preamble and resolutions were adopted and signed:

Whereas, the Local Option law regulating the sale of intoxicating liquors has been put in force, not only in the Chireno School District, but throughout Nacogdoches county, and it being the usual custom in local option sections for parties to undertake to handle sundry intoxicants in violation of said law; and that the enforcement of any law depends almost entirely upon the moral sentiment of the people in the particular locality where the law is to be enforced.

And whereas, the town of Chireno once passed through a whiskey dirge almost unparalleled in the history of Texas towns, leaving in its wake aching hearts and blighted homes, and her citizenship having at last freed themselves from such a scourge and made our village for many years an example of moral integrity and Christian pity. Therefore, having tested the good things, be it resolved,

1st That we, the undersigned citizens of the town and vicinity of Chireno are most heartily in favor of prohibiting the open sale of intoxicating liquors, and the complete enforcement of our prohibition laws, and we heartily pledge ourselves to use all reasonable and lawful means to apprehend any and all parties attempting to violate the same in our town. And to anyone who may successfully overtake the miscreants, we pledge our aid and support to help in any way we can to bring down upon the violator's head the severest penalty of the law.

The secretary is requested to send a copy of these resolutions to our county papers, respectfully asking them to publish the same.

Wedding at San Augustine.

From Thursday's Daily:

Mr. Albert Cronkrite, of Chireno, and Miss Pearl Garratt, daughter of Jack Garratt, of San Augustine, were married last night in that city. Both of the young people are widely connected both in this, and San Augustine counties as they belong to the best and most influential families in this section of the state, and have many friends and relatives in Nacogdoches who extend congratulations. Mr. and Mrs. Cronkrite went to Chireno today where they will make their home.

Coming to Texas.

Chicago, Jan. 19.—Traffic officials of the Santa Fe estimate that fully 12,000 homeseekers will start tomorrow for points in Texas, Oklahoma and New Mexico. The movement is one of the largest of the kind in the history of the effort which the railroads are making to colonize the Southwest.

From Chicago and Illinois points fully 800 homeseekers will go out on Special trains, and it is estimated that at least 12,000 persons taking advantage of the special rates will pass through Kansas City.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kauble, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."

WINTER IS COMING BRINGING CATARRH

Every Catarrh sufferer dreads the coming of winter, for with the first breath of the "ice-king" this miserable disease is fanned into life and all the disgusting symptoms return. The nostrils are stopped up and the throat can be kept clear of mucous secretions only by continual hawking and spitting. Catarrh is a nuisance and source of annoyance, not only to the one who has it, but everybody else. The thick, yellow discharge from the head produces a feeling of personal defilement, and the odor of the breath is almost intolerable.

The catarrhal poison brings on stomach troubles and affects the Kidneys and Bladder. It attacks the soft bones and tissues of the head and throat, causing total or partial deafness, the loss of smell, and giving to the voice a rasping, nasal twang. No part of the body is secure from its ravages. Catarrh makes you sick all over, for it is a disease of the blood, and circulates all through the system, and for this reason, sprays, washes, inhalers, powders and salves have proven failures.

The way to cure Catarrh thoroughly and permanently is to cleanse the blood of the unhealthy secretions that keep the membranes of the body inflamed, and nothing does this so surely and promptly as S. S. S. As long as the blood is poisoned with Catarrhal matter the discharge of mucus and other disgusting symptoms of the miserable disease will continue. S. S. S. goes to the fountain source of the trouble and purifies and enriches the blood, and so invigorates and tones up the system that catching cold and contracting Catarrh is not so likely to occur. Keep the blood in order and winter's coming brings none of the discomforts of Catarrh. Write us particulars of your case, and let our physicians help you get rid of this blood-tainting and stubborn disease. We make no charge whatever for medical advice.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

COULD NOT HEAR THE TICK OF A CLOCK. Watsontown, Pa., July 13, 1903.

Dear Sirs: I have used S. S. S. for Catarrh of the inner ear, and have found it an excellent remedy for same. I had been troubled with this disease for years and tried many things in an effort to get relief, but nothing did me any permanent good until I began S. S. S. I had a discharge from my ear and my hearing was so badly affected that I could not hear the tick of a clock. I was in bed shape when I began your medicine. S. S. S. has done away with the discharge and my hearing has been wonderfully improved; so much so that I can now carry on a conversation in an ordinary tone, whereas a year ago this was impossible.

Your medicine has done me a world of good and I do not hesitate to give it the credit it deserves. W. F. KRUMHINE.

NO SIGN OF CATARRH IN THIRTEEN YEARS. Krebs, Ind. Ter., Aug. 1, 1903.

Dear Sirs: About thirteen years ago I used your remedy for Catarrh. I had been troubled with it for about nine years, but since taking S. S. S. I have never been worse with it. I feel able to recommend S. S. S. as a sure cure for Catarrh. T. MILLWREN.

Tucker-Burleson.

From Monday's Daily: The home of Mr. and Mrs. S. T. King was the scene of a pretty morning wedding today when Mr. J. M. Tucker and Miss Sigur Burleson, the daughter of Mrs. R. H. Burleson of Dublin were married. The house was daintily decorated with southern smilax and ferns, the bright sunlight streaming through the lace like green foliage, and the soft spring like morning being radiant with promise for the young couple just beginning the journey of life together. As the last words of "Call me thine own" sung by Mrs. W. W. Perry with Mrs. King at the piano, hushed into silence, the bride and groom entered, and took their place in the vine wreathed, bay window under the snowy wedding bell where Rev. McClure, of Timpson, pronounced the beautiful and solemn wedding service. The bride was dressed in a leaf brown traveling costume, and immediately after the congratulations had been spoken Mr. and Mrs. Tucker left for San Augustine amid a shower of rice and old shoes. Miss Sigur Burleson is the niece of Mrs. Stephen King of this city and has been visiting in Nacogdoches for some time. She is the grand daughter of Dr. Richard Burleson, one of the founders of Baylor University, and is widely connected in Central Texas. She is a lovely girl and has made friends by the score since her arrival in Nacogdoches. Scarcely more than a child she was a picture of girlish beauty and sweetness as she received the congratulations of the guests Mr. Tucker is the brother of Mr. F. H. and Dr. Felix Tucker, of this city, a son of the late Dr Tucker of San Augustine. No family in East Texas is better known or stands higher, and to say that a man belongs to this family of honorable and intellectual men, is praise enough. He deserves the good fortune that is realized today, and to him and his fair girl bride, The Sentinel extends the heartiest of congratulations and good wishes.

The wedding presents on display were rare and costly tokens of love and esteem from their many friends and the tables were crowded with the gifts. Mrs. R. H. Burleson of Dublin the mother of the bride, who has been the guest of Mrs. King for several weeks, left today for her home.

Will Operate in Texas.

Mr. L. H. Shaffer, United States government tobacco expert, recently resigned, who was in the city yesterday, announced to a representative of The Post that he had accepted an offer from a syndicate which proposes to develop the East Texas tobacco proposition to manage their business at this end of the line. The syndicate which Mr. Shaffer will hereafter represent has already secured large holdings in the proved tobacco territory in the vicinity of Nacogdoches. Mr. William Tausig of the firm of Tausig & Co., leaf tobacco buyers at Chicago and president of the Florida, Havana and Sumatra company, and Mr. J. L. McFarland, vice president of the latter company have just completed an investigation of the tobacco lands in East Texas under the tutorship of Mr. Shaffer. The impresssion gained in that inspection have influenced the members of the largest tobacco firm in the Southeast to turn their attention to Texas.—Houston Post, Jan. 23rd.

David J. Ryan of Lincoln, Ill, gave Harts honey and horehound to his little baby and cured it of croup. He affirms that it is the best remedy ever used for croup. Sold by Perkins Bros.

Sold Under Execution. Constable Doc Watson sold twenty-four opossum hides and two coon skins at public outcry this morning that he had attached to satisfy a judgment in favor of B. M. Hall for \$11.70. The skins were knocked down to Aaron Zeve at \$7.00, his being the highest bid. This is an unusual thing to be sold under execution, but most any old thing around here is valuable these days.

H. D. Garrison is again convalescent after a long and severe attack of illness, and will be able to be in town in a few days.

Mardi Gras Rates.

The annual celebration of the Mardi Gras Carnival at New Orleans will take place Feb. 15th and 16th, and for this spectacular event the Southern Pacific railroad has announced a reduced rate of one fare for the round trip from all points on its line. Tickets will be placed on sale Feb. 10th to 15th inclusive, good for return until Feb. 20. Those desiring to remain longer in the delightful old city of New Orleans may do so by depositing tickets with joint agent at New Orleans and may remain until time to reach home by March 5th. Any agent of the Southern Pacific can give information concerning the trip.

KING'S IMPROVED COTTON SEED and King's Cotton Fertilizers,

And are sole agents for the celebrated Fertilizers made by Armour & Co.---none better---analysis guaranteed. The finest in the land for crops and truck of all kinds. Prices we make are the lowest and on terms to suit the purchaser.

Let everybody join in together to "oust" Mr. Boll Weevil. Go after his "snout" and try to get it. They tell us plant improved seed, sow them early and work often and use some fertilizer. Don't plant cotton too thick--and by so doing you can make Mr. Boll Weevil's existence a little unpleasant. If we do this, with the present prices for our cotton, we will all make a little money.

We have just received one car Bliss Maine Triumph Potatoes, Seed Oats, and a general and complete stock of Plow Goods.

Count us among the number who do not believe that our county and country are going to the "bow wows," but yet think when this year is rounded out we will find everything has been very good with us all, if we have only put forth the proper efforts ourselves. Don't think we are altogether optimists, but we never could take a pessimistic view of everything.

We are not selling out at cost nor offering our stock on the market at any old price. But listen: We have one of the cleanest stocks of General Merchandise in the city and at prices when quality is considered as low as you find anywhere.

We not Only Want Your Cash Trade, But can take care of your Credit also.

When we get your money and then later when you need a little accommodation we do not show you the door, and also remember we always buy your cotton. If you spend your cash or credit either we will remember in the fall to help you out when you have something to sell.

IF THE FARMERS AND THE WHOLE COUNTRY ARE GOING TO THE BOLL WEEVIL WE WANT TO GO TOO.

If you will give us all or a part of your business we assure you it will be appreciated and that your money will buy as much at our store as any place in the city; we guarantee absolutely every article we sell or refund your money. Visit our store and find some of the many bargains we have laid aside for you.

Yours anxious to please,

TUCKER & ZEVE.

Died in New Orleans.

Miss Daisy Neel died of pneumonia yesterday at three o'clock in New Orleans, where she has been for the last two years studying to be a professional nurse. She was the daughter of Mr and Mrs Neel, living a few miles from Nacogdoches.

Miss Neel had been studying in Charity Hospital and was working hard. It seems inexplicable that one so young should be taken just as her preparation for work in the world was so nearly finished, but she was an earnest Christian and it is well with her. Rev. W. W. Watts came in from Beaumont and after a few days of committees he left for home. A full obituary notice is desired. The body was met at the home of her friends and carried to the home in the country for burial. Rev. B. S. Burke performing the last sad rites for the girl.

who left home so braely, so full of high hopes for the good she would do in the world, and came home with her hands folded an her breast, her work all done, having obeyed the Masters call to "come up higher."

the result of the hog law election, recently held in the Melrose beat, has been posted in accordance with the law and the hog law goes into effect in that beat on and after March 1st.

Just One Minute.

One Minute Cough Cure gives relief in one minute, because it kills the microbe which tickles the mucous membrane causing the cough, and at the same time clears the phlegm, draws out the inflammation and heals and soothes the affected parts. One Minute Cough Cure strengthens the lungs, wards off pneumonia and is a harmless and never failing cure in all curable cases of Coughs, Colds and Croup. One Minute Cough Cure is pleasant to take, harmless and good alike for young and old. Sold by Perkins Bros.

For Rent.

Forty acre farm near Appleby, two good houses, plenty of good water. Will rent all or part of place.

Estrayed.

One bay pony horse bald face, about 12 years old. fetlocks timmed. One brown mare mule about 10 years old, has had wire cut across on left front leg. Last heard of about 10 miles north of Nacogdoches. Will pay \$10 for return or will pay for information leading to recovery.

Bill Partin, d&w Nacogdoches Tex.

The more Harts honey and horehound is used the better it is liked. Who know of nothing more so good for croup or whooping cough. It is good when you first take cold. It is good when your cough is deep seated or your lungs sore or painful. It is good for any kind of a cough. Orand Hamond, a railroad man at Leroy, Ill., says "that his success depends on the condition of his health and that his lung trouble has been compleley cured by using Harts honey and horehound after having tried other well known medicines without benefit." Sold by Perkins Bros.

Congratulations.

Mr John H. Cullom, editor of the Garland, Texas News, has written a letter of congratulation to the manufacturers of Chamberlain's Cough Remedy, as follows: "Sixteen years ago when our first child was a baby he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk of giving an overdose. I congratulate you upon the success of your remedy." For Perkins Bros.

We can furnish a buyer for an 8 or 10 horse power second hand engine and boiler, if the price suits.

The Place You Get What You Want.

MONDAY'S LOCALS.

A. H. Hubbard, of Cleburne, is in Nacogdoches on a visit to his brother, O. E. Hubbard.

Ben Tucker, of San Augustine, is here to day, having come up to attend the wedding of his brother, Mat.

Mrs. L. C. Joplin and children, of Garrison, are in the city visiting Mrs. Joplin's mother, Mrs. John Lilly.

A. L. Pinkston, editor of the Center Champion, passed through the city yesterday afternoon on his way to Tyler on a business trip.

Mrs. Genie Crain came up from Houston Saturday and spent Sunday at home. She was accompanied by Master Wright Sheldon, a three year old Houstonian, who with praise worthy judgment was anxious to see the Stone Fort city. Wright is the little son of Mr and Mrs Wright Sheldon of Houston.

Mr. John Schmidt has gone to Belleville, Ill., on a business trip and also to see his daughter Mrs. Walter Gintz who is a resident of that city.

W. A. Barry, of Linn Flat, came down on the T. & N. O. yesterday, returning this afternoon, after devoting most of the day to business.

Mrs. Collins, wife of Dr. M. M. Collins, arrived this morning from an extended visit to relatives in Mississippi to join her husband here. They will make this their future home, and for the present are domiciled at the Boger House.

B. F. Nugent, of Etoile, was in the city this morning on a trading trip. Mr Nugent recently resigned the office of deputy sheriff and returned to his farm, and says he feels much more at home and at ease since he moved back. He is a hustler and is making things move since he went back to the farm.

Mr. T. J. Williams left this afternoon for Beaumont, where he will meet the creditors of the United Lumber and Export Company on the 28th to decide what course to pursue with the company's affairs. Mr. Williams was recently tendered the management of the mill and property of the United Lumber and Export Company, but upon entering upon his duties as such he found that its affairs were in such shape that he could not shoulder the responsibility of the position. He immediately tendered his resignation and suggested a meeting of creditors, which will be held next Thursday. Mr. Williams is a thorough mill man as well as a shrewd business man, and we doubt not that if his advice and counselings are heeded the affairs of the embarrassed company will yet be brought out of the chaos into which they have fallen.

For Representative.

The Sentinel is authorized to announce Homer A. Dotson as a candidate for the democratic nomination for Representative in the 29th from this the 32nd district. It is useless for The Sentinel to dwell upon the qualifications and fitness of Mr. Dotson for this place. He is a man of education, ambitious and worthy of public trusts. He is quite well known throughout the county, having made the race for the same office two years ago making a close canvass of the county. He was defeated by Judge Middlebrook, who is considered probably the strongest man in the party. He will go before the people again fortified with experience and a strong following gained by his dignified and manly deportment during the last campaign and for his staunch support rendered the ticket throughout, notwithstanding his defeat in the primaries. He will ably represent this county, which comprises a district of itself, if elected.

Seale & Donegan.

It was with a great deal of interest that the news was received on Saturday that Allan Seale had withdrawn from the firm of Seale & Donegan. The house is composed of three of the most prosperous and popular business men in Nacogdoches. They are always among the leaders in any move for the progress of the city and are open handed and generous in all their dealings, so that naturally every one in town takes an interest in their plans. Mr Allen Seale, the retiring member, is a man of versatile talent, one who would make a success of everything he undertook from running a store to running for congress. While he has not stated his future plans, we infer that he will seek a business that affords wider scope for his genius. The firm name remains remains the same, for Jim Seale is the third member, and as long as A Y Donegan and Jim Seale are in business, Nacogdoches county and others will continue to trade with them, for the names of both men are a standing synonym for integrity and upright dealing. The three men are fast friends and the business never more prosperous. The change is merely a severance of business connection, and The Sentinel wishes an augmented continuance of their former success, both to Allan Seale, and to Seale & Donegan.

LOST.

One Interchangeable Mileage Credential Book, No. 76761, containing about \$15 worth of mileage and \$30 or \$40 in bills. Also contained other papers. Think it was lost somewhere between Nacogdoches and the oil fields. Will pay at least ten dollars for its return.
