IT'S EASY TO CLAIM "PURE DRUGS."

Every drug or chemical used here is actually tested by us or by a reputable concern. We insist on purity—absolutely. It costs us more, of course for our material than it does less particular druggists, but we are satisfied with the increased patronage that rewards the superior quality of our goods.

Remember that this high quality costs you not a penny more than you are required to pay elsewhere. Isn't purity—prescription purity—worth coming here to get?

As to the condition of Mrs. Denman, she is still lying very low at the Banita Hotel in this city, surrounded by her entire family and many relatives who are alarmed over

BOURLAND AT LARGE.

Two Prisoners Escape From San Augustine Jail.

About 2 o'clock this, Thursday morning, M. S. Bourland and Henry Feringa escaped from the county jail assisted by parties from the outside.

The means of escape were effected by digging a hole through the brick wall large enough to admit a small man. Statements made by Lee Haygood and Matthew Lloyd, colored, the two prisoners who refused to leave, are to the effect that after the aperture had been made a small man crawled through who was familiar with the combination to the cage and who readily unlocked it, and immediately armed the escaping men. They claimed that on account of the indistinct view they could not identify the person of small stature. They were told if they were going to remain they had best lie down and keep out of sight, they might be killed.

Bourland having been hand-

ed a pistol the party turned to leave when it was discovered the hole in the wall was not large enough to admit of the passage of Bourland's body, consequently it had to be enlarged. The above is all the evidence obtained by the authorities as to the method of escape. If Sheriff Noble is in possession of other facts he wisely keeps the information to himself in the interests of justice.

A reward of \$100 is out for the recapture of Bourland and ere this it has doubtless been increased.

THE merchants and business men of Beaumont desire to get better acquainted with their brethren of the other towns of East Texas, and to this end will charter a train and pay a visit to the various towns along the T. & N. O., between Beaumont and Nacogdoches. The Nacogdoches merchants have been asked to set a date on which to receive the proposed visit, and it would be well to call a meeting of the business league, of which they are all members, and discuss the matter. There should be no delay in taking action.

THE Supreme court has rendered a decision in favor of Wm. Randolph Hearst, editor of the New York Journal, and candidate for the nomination for president, in his suit against the coal trust. The court has decided that Hearst, as a citizen, has a right to do what all of the republican officials at Washington said was impossible; viz: prosecute and expose the trust. President Baer and his partners in the fuel monopoly must now produce records and give testimony which they refused to give at the trial. The decision of the supreme court means that Mr. Hearst has kept his promise to "smash the coal trust."

THE Lufkin Semi-Weekly Herald, under its new management, has discarded the patent "inside" and has been greatly improved. J. W. Burson, who is at the helm, is one of the best newspaper men and ablest editorial writers in the State, of which The Herald now bears un-

IN the city election at Lufkin Tuesday, W. M. Glenn was elected city treasurer, D. J. Campbell assessor and collector, C. N. Humason city secretary and Dr. T. W. Largent and W. D. Price, aldermen. The office of city marshal was abolished by the city council on the night before the election and there was no election for that office. The mayor and all the aldermen except two were "hold-overs." A light vote was polled, though the contest was strong in the race for treasurer between W. H. Bonner and W. M. Glenn, the latter winning out with a majority of 16 votes.

THERE being a number of newspaper men in Texas candidates for the 29th Legislature, some people have been led to believe that the newspapers were after working some kind of a "grait." The impression is erroneous. The papers of Texas have asked nothing at the hands of the Legislature except a just law with reference to libel. This, however, has concerned the country press but little, and they have rendered no assistance to the big dailies that have clamored for such a law. The only selfish motive the country newspaper man can have in becoming a candidate for the legislature, is to enable him to spend the time at the State capitol during the sessions of the legislature, which he is unable to do other wise than as a member because he cannot stand the expense. In this particular, while he serves a selfish end, a newspaper man really can render better service than a

MAYOR E. W. CAVE.

By oversight The Sentinel has been tardy in making mention of the death of Major E. W. Cave, which took place at the home of his daughter, Mrs. Asa B. Wilson, at Houston, on Thursday of last week. The death of Major Cave closes a career of usefulness and honor, and leaves all Texas, especially Nacogdoches, in mourning for a great and good man. Major Cave came to Nacogdoches fifty-five years ago, and edited the first newspaper printed in this city in modern times. He is related to several of the foremost families of this city and is remembered as the personal friend of many of the old citizens of Nacogdoches. He gave up his newspaper work here to become the private secretary to Sam Houston, from which date he became one of the active promoters of the development of the State of Texas. The following brief sketch of his life is taken from the Galveston News:

With many of the most successful and important enterprises inaugurated in South Texas, he was one way or another identified. His connection with the Houston & Texas Central Railway as treasurer for nearly thirty years and his almost continuous connection as president with the Buffalo Bayou Ship Channel Company, are known to all business men in this part of the State, and also to not a few outside of Texas. He was a native of Philadelphia, where he was born 76 years ago, and came to Texas

period of about thirty years. It also placed into his hands a line of work by Mr. Morgan that eventuated in his becoming president of the Ship Channel Company, an organization that had to do not with the navigation of Buffalo Bayou, but the construction of a channel, the first step of which was the digging of Morgans Cut at Morgans Point, that made an island of the point of a peninsula and shortened the waterway to less than one-fifth connection with Galveston bay and San Jacinto Bay and Buffalo Bayou. Work in this matter at that time aroused a deep interest in Maj. Cave in the proposition to deepen the waters of Buffalo Bayou so that ocean-going vessels could come to Houston.

This became an undertaking of such interest to him that practically he never dropped it from his life work. His work in this matter won for him the appointment of chairman of the Ship Channel Company of the cotton Exchange, one of the most potential factors for good to Houston and to Texas of any commercial or industrial committee of the exchange. On this subject he prepared for the public prints several able articles. On a kindred subject he recently got out in pamphlet form what he entitled a "Review of the Isthmian Canal Question."

During part of the Civil War Maj. Cave was upon the staff of Gen. Magruder, where he served "without pay," for he so had it understood. He not only volunteered, but went "to Galveston to Gen. Magruder to tend

And since we came to think about the matter, it appears that "city dad" is about the only kind of dad Henning will ever be. He has concluded to live and die in the throes of bachelorhood.—Orange Tribune.

If these fellows keep on they are liable to embarrass Henning. He has better "prospects" than they know of, and they may force him to "give himself away."

**Withdraws From Race For Sheriff
And Announces For Constable.**

To my political friends:

I hereby thank you one and
all for your support and kind-
ly encouragement during my
candidacy for sheriff. I have,
however, concluded to with-
draw from the race, not from
fear of defeat, for I think it is
uncertain which of the various
candidates for the office of
sheriff would be nominated.

My withdrawal from the
race is prompted solely from
the standpoint of business. To
cavass the entire county
would necessitate my giving
up my present employment
and I can ill afford to do
that.

Numerous friends of mine

as my official past is best

I have been peace officer, I
have concluded to stand be-
fore the coming democratic
primaries for constable of
Nacogdoches precinct.

The office pays sufficient to
justify me in seeking the nom-

will do my best in the per-
formance of its duties.

BOILS

PYRAMIDS OF PAIN

**Most Plentiful and Troublesome
During Spring and Summer.**

It takes warm weather to bring out the hidden impurities,
humors and poisons in the system and stir up the sluggish
blood, and this is why boils are so common in Spring and
Summer. They sometimes come singly; but oftener in
pairs and triplets, and even in bunches and clusters, and
generally upon the tenderest part of the body. They are
the most painful of all skin eruptions, and the blood is in
a turmoil, and the system in a feverish commotion from
the time these volcanoes of misery begin to form until they
burst and the matter is all discharged. But lucky is the unfortunate sufferer who gets off with
only one boil, for even if another does not follow immediately, the poison that is left in the
blood is bound to collect somewhere else and break through the skin, and these pyramids of
pain may be coming and going all through the Spring and Summer.

Some people have an idea that boils are good for the health, that they are evidences that
the blood is too rich, but nobody's blood ever gets too rich; neither are boils conducive to
health. Impoverished or polluted blood, or a riotous, feverish condition of this vital fluid
causes boils, carbuncles, and other dangerous skin eruptions.

Long-continued sickness leaves the blood too weak
and sluggish to throw off the bodily impurities and re-
lieve the system of the waste and refuse, which then
concentrates at some spot and a carbuncle or boil is
the result. To one already enfeebled by disease boils
seem to come with more frequency, causing the intens-
est pain and greatest danger to the already weak and
debilitated sufferer.

All skin eruptions, from the sometimes fatal car-
buncle to the spiteful little cat-boil, are caused by bad
blood, and the only way to avoid or get permanently
rid of them is to purify and build up the deteriorated,
polluted blood, and counteract the humors and poisons,
and nothing will do this so quickly and thoroughly as
S. S. S., which is the acknowledged king of blood purifiers
and greatest of all tonics.

Where the blood has become impoverished and is poor
and thin no medicine acts so promptly in building it up
and restoring its richness, purity and strength. The time
to cure a boil is before it develops, when it is in a state
of incubation or formation in the blood, for boils are,
after all, only the impurities and poisons bubbling up
through the skin, and this will continue in spite of
poulticing and lancing till the blood gets rid of its
accumulated poison. The way to stop boils is to attack
them in the blood, and this is what S. S. S. does. All
danger of boils is past when the blood has been thor-
oughly purified and the system cleansed of all morbid,
impure matter. If you are subject to boils, then the
same causes that produced them last season will do
so this, and the sooner you begin to put your blood
and system in good order the better the chance of
going through the spring and summer season without
boils or other painful and irritating skin eruptions.

S. S. S. is guaranteed purely vegetable, and can be
taken with perfect safety by old and young, and with-
out harm to the most delicate constitution. It is mild
and pleasant in its action, and unequalled as a cure
for boils and kindred eruptions.

Write us if you would like advice from our physi-
cians or desire any special information; this will cost
you nothing.

HELLO, Center!

It is getting nearly time for Parker to say something.

CONGRESS has appropriated \$181,046.25 to build a sea wall in front of Fort Crockett at Galveston.

THE "stuffed prophet" has declared for Parker. It is now in order for Bryan to pick his man.

THE Hearst organs became alarmed; too soon. Seems Hogg may yet support Parker. But what will the Parkeriets do with Grover?

DIAMONDS have gone up on account of a strike of the diamond cutters at Amsterdam. We don't givervdam. We don't wear 'em no how.

WHAT became of the "boll weevil exterminator" that was to stump Nacogdoches county? He failed to show up at any of his appointments.

THE Sunday morning frost paralyzed the melon crop of East Texas, but from the best that can be learned other crops have escaped serious injury.

THE populists of Milam county have "swunk up" to about twenty members, who have organized themselves into a referendum club and will ask for a charter.

APRIL 28th has been set for the adjournment of the present session of Congress. The membeas are all anxious to get out in the field, as about 99 out of every 100 is a candidate for re-election.

THE FROST.

From Monday's Daily:

The reports received today from various portions of the county concerning the frost of Sunday morning are varied. From some sections they are encouraging, while from others it is the reverse. On some of the red lands everything was killed down or damaged and a great deal of corn and cotton will have to be planted over. On the sandy lands the frost was less severe. Melons were killed outright everywhere. Tomatoes were injured in places, though as a general thing the damage is slight. Vegetables and garden truck seem to have escaped almost entirely and the fruit is not injured.

THE Houston Chronicle risks nothing in the assertion that Ex-Gov. Sayers is out of politics. He has been out two years, and there is not the slightest probability that he will ever get back in.

THE democratic nomination of Joseph W. Folk for governor of Missouri is now assured. May the Lord grant his election, in spite of the millions that are going to be spent to insure his defeat.

IT is safe to predict that Hearst will never be president. He is for a government "of the people, by the people, for the people. That don't suit in this day of commercialism. The "business men of the East" object, and that settles it.

IN the race for mayor at San Augustine there was a tie between A. T. Davis and R. H. Hall. Mr. Hall is a former citizen of Nacogdoches and brother to O. P. Hall.

COUNTY Medical Associations are being organized throughout East Texas. An association was organized at Center Saturday with twenty-five members. Dr. B. F. Calhoun, of Beaumont, is traveling organizer.

A LETTER from one of our New Orleans subscribers quotes from The Sentinel, "Japan is a bird indeed, the war situation at present reminds us of 'a large cold bottle and a small hot bird,'" and asks the question, can the "hot bird" empty the "cold bottle?" We don't know, but it knows how to cork it up all right.

THE trust-busters will have to see that the criminal clause of the Sherman anti-trust law is enforced and a lot of millionaire manipulators are put in stripes before they can accomplish anything. The fine of a few thousand dollars is only a punishment upon the people who have it to pay in advanced prices, and is merely fun for the trusts.

THE Kansas delegation to the national convention are not instructed for Hearst, but "very near it," in the following resolution passed by the state convention at Topeka last week: "We call the attention of the democrats of Kansas," so resolved the convention, "to the fact that in Wm. Randolph Hearst of New York we recognize one of the foremost democrats of the nation. He has used his great opportunities and power in all cases in behalf of the common people, without counting the cost to himself. His single-handed loyal contest against the coal trust, just successfully..."

Hearst a Philanthropist.

Hon. M. H. Gossett of Kaufman was in the city Sunday morning on his return home. He says while he is not for Hearst, yet he believes Hearst is the strongest man with the labor vote North. He thinks it would be impossible to buy this vote away from him. As one instance of how Mr. Hearst has proven his friendship for the masses, Mr. Gossett recited this one: A company got a franchise from the city of New York to place fine upholstered seats in one of the public parks of the city and the right to charge ten cents for the use of a seat. Mr. Hearst opposed it on the ground that a park being a public affair nothing to make class distinctions should be found in it. So after the fine seats were put in, Mr. Hearst employed a strong firm of lawyers, and advised the public to use the seats and to refuse to pay for them and to apply to this firm of lawyers to defend them if arrested for refusing to pay for use of these seats. When the matter got before the courts Mr. Hearst's view of the matter was sustained and no convictions could be had. Then the persons who had put in these fine seats at a cost of \$17,000 complained to Mr. Hearst for his course which rendered their investment worthless to them. Whereupon Mr. Hearst paid them for their seats and left them in the park. Another instance was his breaking up the ice trust in New York city, which was in the interest of the poor.—Athens Review.

ANOTHER strong ally to the Hearst forces in Texas is the Hon. R. W. Finley, who proposes to...

In the capacity of private citizen, with only his individual resources at his command, William R. Hearst has accomplished more than did President Cleveland.—President McKinley and President Roosevelt with all the power of the chief executive of the nation backed by the resources of the richest country on the globe. He has put the first screw in the coffin of the Anthracite coal trust and blazed the way for the extermination of all the great combines which steal under the protection wing of the law. Is it any wonder therefore, that August Belmont is directing the fight in the democratic party against the nomination of Hearst for president and that all the newspapers which can be purchased are abusing the tearless and brilliant New Yorker as if he were a horse thief? Is it, therefore, a wonder that the great majority of the democratic party, which is controlled by principle and love of country rather than boodle, is enthusiastic for Hearst?—Beaumont Journal.

THE net individual deposits of the Commercial National Bank reached the sum of \$303,700.00 yesterday. A larger amount than has ever been deposited at any one bank in the history of Nacogdoches.

Andrew Carnegie heard of a little town in Oklahoma which had no library and decided to supply what he regarded as a necessity. The multi millionaire offered to furnish \$5,000 for the library, provided the citizens would guarantee proper support for the institution. He gathered a new idea of Oklahoma's optimism and independence on learning that...

The Laborer is Worth of his Hire.

Yesterday afternoon a gentleman walked into the News office and said: "Gimme a paper, Mack," of course Mack gave him a paper and he majestically walked out of the office with the air of a man who had conferred a great favor by accepting a paper which we had printed. It never occurred to that man that we had expended considerable money to produce that paper. The reason we mention this is for the purpose of informing the general public that we are not in this business for our health and that every paper we print is worth 5 cents. If any man is short enough to demand one for nothing, we are long enough to give it to him—but we are not "stuck" on the idea, much.—Center Daily News.

H. V. Sitton.

THE Sentinel is requested to announce H. V. Sitton as candidate for county commissioner of Precinct No. 2, subject to the action of the democratic primaries. Mr. Sitton is a man worthy of the trust in every sense of the word. He is a practical farmer, full of business, a man of education and level headed upon all matters of public interest. He is well known throughout the West end of the county and popular and honored for his upright character as a man and his usefulness as a citizen. If the people of the Douglass beat elect him he will serve them well.

Mr. Gill, of Redfield, Nacogdoches County, was in the city Saturday. Mr. Gill, in conversation with a reporter...

THE HOO HOO CONCERT.

Delightful Entertainment Attended by Full House.

It was a foregone conclusion that the concert last night would be a success from every standpoint, and it was. The house was crowded, and the audience fully rewarded, for every number on the program was rendered with a skill that made it a delight.

The program was prepared to please every taste and while some preferred "Il Trovatore," and others "Laughing Gas," all were charmed. Band music was substituted for the orchestra, otherwise the program was carried out to the letter. The vocal solos were highly appreciated, and the flageolet, cornet, and violin solos and duos, proved the players masters of their respective instruments.

The last number was the overture "Wang" by the entire band.

The Hoo Hoo band has added fresh laurels to its crown, which is a wreath of victory, for it conquers every audience it plays before.

After the concert the hall was cleared, the Hoo Hoo's obligingly played dance music and the devotees of Terpsichore chased the rosy hours with flying feet until the late hour reversed the saying, and bade the dancers leave.

The impromptu ball was as much enjoyed as the concert, and the Hoo Hoos are now more popular than ever, and will be given a most cordial reception when they come again.

Taking Desperate Chances.

It is true that many con-

coupled with his thorough business education and several years actual experience as bookkeeper for a large Chicago commercial house, has fitted him for almost any position. The late Lafayette Kirk, district judge, of Brenham, once said, "as an all round teacher, superintendent, organizer and disciplinarian, I have never known his superior." He has built up several good schools, but he has never made a failure of one.

District Court.

From Monday's Daily:

With the exception of the four murder cases set for this week, there will be no more criminal business at this term of court. The Bob Forney, Barney Roberts and two Miley cases are set for tomorrow and Wednesday. They will in all probability be continued.

The civil non jury docket was taken up today. There may be a few jury trials in civil cases, but the juries will be "picked up," as there are no regular jurors for the remainder of the term.

One Minute Cough Cure is pleasant to take and it is good alike for young and old. Sold by Perkins Bros.

The Denman Case.

From Saturday's Daily:

The hearing of evidence in the Denman case closed yesterday afternoon and the argument of counsel begun and continued until a late hour last night. The case was interrupted this morning owing to the necessity of performing an operation upon Mrs. Denman, wife of the defendant, for abscess. The trial was resumed at 11 o'clock, when an effort was made to re-open the case for the introduction of further testimony for the de-

ed than ordinarily. Cake and cream served after the flinch tables were cleared formed a fitting climax for the afternoon enjoyment and the club adjourned to meet again in two weeks.

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., "but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had consumption in an advanced stage, also used this wonderful medicine and today she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infalible for coughs and colds. 50c and \$1 bottles guaranteed by Stripling, Haselwood & Co. Trial bottles free.

Flinch Reception.

Mrs. R. P. Lockey received her friends on Saturday last, with Flinch as the feature of the afternoon. By three o'clock the guests had assembled in the rose decked double parlors, and Gibson tally cards were distributed to decide tables and partners.

Eight tables of players enjoyed the game until the approach of night put an end to the contest for honors. There were no prizes, but a beautiful arm cluster of American Beauty roses was presented to the champion for the evening.

Ice cream with fruit and white cake was served at the close of the games, and all present were sincere in declaring that they had never spent a more delightful afternoon.

A FATAL ACCIDENT.

Young Man Killed While Squirrel Hunting.

From Wednesday's Daily.

Mr. J. F. Fulghum, of Gar risan, who is attending district court, today as special venireman, brings the news of a sad and fatal accident which occurred near Garrison, yesterday, in which young Ross Martin lost his life. The young man had been out squirrel hunting and had returned to near the house when he discovered a squirrel and was endeavoring to get a shot at it, when in moving among some bushes, his gun was accidentally discharged, the load passing through his body from the left side near the heart, killing him almost instantly. The unfortunate young man was the only son of a widowed mother, who was watching him when the accident occurred, with whom the entire community of Garrison sympathizes deeply and sincerely in her sad bereavement.

Pleasant to the Taste.

One of the most important requirements in medicine to be given to small children should be that it is pleasant to take. Bad tasting medicines disturb the stomach, destroy the appetite and it is extremely difficult to get children to take them. The pleasant flavor of Re-Go Tonic Laxative Syrup, the certain cure for dyspepsia, constipation and billiousness pleases the most sensitive persons and is the ideal laxative for young children. THERE'S A DIFFERENCE.

Have you ever noticed what a marked difference there is in Furniture?

You can't always judge good furniture by the price—some dealers put high prices on cheap stuff because it happens to show up well. With us it's different—we have a small per centage we add to the factory cost to each article alike. We show our customers the difference, and how the cheap and the good kind of furniture is made. Come and see us and we'll convince you with the fact that our goods and prices are right. We'll appreciate your visit.

Good For Paris and For Texas.

Good for Paris, Texas. A \$750,000 cotton mill, which will employ 800 operatives and pay out \$200,000 a year to them, has been secured. or at least, the preliminaries have been satisfactorily arranged on both sides and active work on construction is expected to begin at once. The \$80,000 bonus required to swing this deal was raised in Paris without great effort, which is equivalent to saying that Paris is not only a rich little city, but is also progressive. The value of the mill to Paris cannot be stated in dollars. There is no way, of course, to fix the exact value of such an enterprise to a community, but it is reasonable to assume that the big bonus paid by the men of Paris to the mill men is about the best investment the Parisians have ever made or could now make. This is not an argument for bonus. The bonus habit can easily become pernicious one. Still the

Knock His Head Off.

Nacogdoches Sentinel: The big black bugs that so much resembled an overgrown boll weevil and have created some alarm by their existence in such vast numbers throughout Texas, have been classed as the Genus Spherophorus, and are not considered destructive. That is relief. The Genus Spherophorus is a terrifying thing if he looks as ugly in fact as he looks in print. Harmless though he may be, and guilty of nothing worse than bearing a hard name, still it might be advisable to knock his head off before the cotton blooms. — Galveston News.

Mr. J. T. Lankford

For County Judge.

Geo. S. King, Esq., a prominent member of the Nacogdoches bar, and a lawyer widely known throughout Nacogdoches county and East Texas, has, after mature consideration yielded to the solicitation of friends and decided to enter the contest for county judge. His announcement appears in the proper column, subject to the action of the democracy of Nacogdoches county. Mr. King has the finest legal attainments to qualify him for the office, as well as the judgment and firm character needed. He is a young man that has risen rapidly by his merits, and is worthy of the careful consideration of the voters at the polls. He has served the people in the past in the capacity of county attorney, in which office he proved his ability, earnestness in the discharge of his duty and his integrity to his constituency.

Don't.

Don't get the notion that the curative power of a medicine exists in a name. It must be in the medicine itself. You may not have heard of Re-Go Tonic Laxative Syrup. It is not made of figs because the laxative principle of figs are the seeds, yet it is as pleasant to take as figs are to eat and is a certain cure for biliousness, constipation, indigestion and stomach trouble. The name is Re-Go, which in Sanscrit means "good." The merit is all in the medicine itself. Sold by Perkins Bros.

W. O. W. at Appleby.

The Woodmen of the World had a "blow out" at Appleby Saturday night with quite a crowd of "choppers" from Nacogdoches in attendance. It was decided to give a grand Woodmen picnic near that place on May 5th next, and beaves, mutton; pigs, etc., were subscribed on the spot sufficient to afford a regular barbecue. Various committees were appointed, and arrangements will be made for the biggest thing that ever happened among the A. O. U. W.
