A Short Talk on a Grave Subject

Druggists as a rule don't go much on graveyards. No doubt they all get there in the end same as other people, but we mean during life. In his leisure hours [if he has any] the druggist seldom puts in his time in the graveyard. If he is out for a stroll he is more likely to turn his steps away from it. This is usually for one of two reasons. If he is a good druggist and understands his business he regards the graveyard as a sort of enemy which he is fighting all the time trying to keep his customers out of it. If he is a dealer who thinks more of his profits than his customers, he fights shy of the graveyard for conscience sake; remorse perhaps for having substituted something cheap in filling prescriptions for the deceased. We have as much antipathy for graveyards as most druggists, not because our conscience troubles us. We stay away because it makes us feel bad. We are always sorry when one of our friends and customers is called to "the life beyond," but if we had anything to do with his last illness our conscience is clear. We filled the prescription exactly as the doctor ordered. It is our duty to fill prescriptions. It is our principle and invariable rule to fill them exactly as ordered and we never let them be done by inexperienced help. We use the right drugs, the right proportions and of the quality the doctor expects; with this our duty is done. Bring your prescriptions to us where you get what the doctor wants you to have.

Nacogdoches, Texas.

Dr. Mayfield writes from St. Louis that it is lonesome in that great city; that he has met no acquaintances; that he and Mrs. Mayfield are having a good time, weather pleasant; that they will visit Buffalo, Niagara, Montreal and New York and will return home in September.

New Store—New Firm.

L. C. Estes & Co., have opened an entirely new stock of general merchandise in the stand formerly occupied by S. F. Baucom on West Main street. Their stock consists of dry goods and family and fancy groceries, which are all new and fresh. They also handle all kinds of country produce. Call on them when you have anything to sell or want to buy. Their prices are right both in buying and selling. Call around and get acquainted for mutual good. They are pleasant people and are courteous to all.

Mr. and Mrs. P. M. Sanders returned Saturday from a visit to Mr. Sanders' brother, P. A. Sanders at Waller, Texas. Mr. Sanders also attended the state democratic convention as a delegate.

COUNTED THE VOTE.

Vote In Race For County Clerk Reversed in Favor of Sanders.

The democratic executive committee met Saturday in the office of Branch, Matthews & Beeson for the purpose of going over the election returns from last Saturday's primaries and announcing the nominees of the party for the county ticket. The committee members present were C. D. Mims, chairman, J. J. Watkins, B. F. Nugent, J. Y. Baugh, H. P. Fall, Blanche Mast, J. W. Carriker, Will Booth, Giles Haltom, and Secretary W. S. Beeson. The result of the count made no changes in results heretofore announced, except for the office of county clerk, in which it was discovered that P. M. Sanders was elected by seven votes majority, whereas it was thought Spears was ahead by twenty odd votes.

Married Sunday.

Mr. Tom Muckleroy and Miss Kate Power were married Sunday night, Aug. 7th, 1904, at the home of the bride's parents, Mr. and Mrs. H. B. Power, near North church. The groom is the son of R. P. Muckleroy and has for the past year been connected with the telephone and light companies, and is well known and popular in this city. The bride is a most estimable young lady, endowed with the graces and charms that win the admiration of all who enjoy her acquaintance. May the happy young couple live long and prosper.

The Nacogdoches Light and Power Co., has just installed a new boiler, making the fourth that has been added to the plant, all of the most and substantial make. The company is constantly increasing the power and adding to the equipment and Nacogdoches can already boast of one of the best light and power plants to be found in the interior towns of the state.

FIRST BALE FOR NACOGDOCHES

Received Sixteen Days Earlier than First Bale Last Year.

From Tuesday's Daily:

The first bale of new cotton for the season of 1904-5 was received in Nacogdoches late yesterday afternoon. It was raised and brought in by Thos. E. Rightmer and weighed 415 pounds. The bale was sold at auction by Capt. J. S. Doughtie this morning and was bid in by Mr. S. L. Miller for the Nacogdoches Mercantile Co., at 11 3/4 cents a pound, the bale netting \$48.75. There was also a premium of \$47.50 made up by popular subscription, that went to the producer, making the total amount received by Mr. Rightmer for the bale \$96.25.

The bale was ginned by J. W. Millard and weighed free of charge by Wm. Taylor.

Following is the list of subscribers to the premium:

The first bale this year is 16 days earlier than last year, 5 days earlier than in 1902, 5 days earlier than 1901 and 8 days earlier than 1900. In fact it seems to be a record breaker.

King & King.

We have entered into a co-partnership under the firm name of King & King for the practice of law in Nacogdoches and the adjoining counties, and we will also practice in all courts, both State and Federal. We will continue to office over the Perkins Brick on the Old Stone Fort corner, where we will be glad to see and consult those who see fit to entrust their business to us. Corporation and commercial litigation will have our special attention.

Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system or despondency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self-destruction take Electric Bitters. It being a great tonic and nerve will strengthen the nerves and build up the system. It's also a great stomach, liver and kidney regulator. Only 50c. Satisfaction guaranteed by Stripling, Haselwood & Co.

You can save money by buying Furniture from Cason & Richardson before August 15th. They are giving special discounts for cash, and big discounts too.

FROM ALAZAN.

Aug. 8.—We are having too much rain for anything except potatoes, cane and some late corn, all of which promises to be good.

Farmers are complaining that the boll weevil is ruining the cotton crop throughout this section. Some say that after it blooms it is safe from the weevils. That is a mistake. The writer and a neighbor have found from two to six in grown cotton bolls.

Sheriff Spradley spoke to a large audience Saturday night on political issues.

On account of bad weather the last debate was poorly attended, notwithstanding the subject was "Resolved, that the boll weevil has been beneficial." The negatives gained the day.

The Gravely Ridge Debating Society has challenged the Alazan club, which has been accepted, but the subject and time for the debate has not been decided upon as yet.

Road working protracted meetings, plagues and weevils, are matters that are interesting to the people at present.

End of a Bitter Fight.

"Two physicians had a long and stubborn fight with an abscess on my right lung," writes J. F. Hughes of DuPont, Ga., "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking and I was on my feet in a few days. Now I've entirely regained my health." It conquers all coughs, colds and throat and lung troubles. Guaranteed by Stripling, Haselwood & Co. Price 50c and \$1. Trial bottles free.

COX & WADE.

HON. W. M. IMBODEN of this city might have been chairman of the democratic State convention in Houston but he magnanimously waived the opportunity in favor of his friend Hon. S. B. Cooper.

THE SENTINEL has received the bulletin for the current year of the Southwestern University of Georgetown, a quite bulky volume which shows that noted institution to be in a very flourishing condition.

ANOTHER great strike is on. This time the telegraph operators of the M. K. & T. Railway have gone out to the number of nearly 500 because a demand for increased wages was not granted. The company shows no sign of yielding and it will be a fight to a finish.

THE people of Galveston are moving for an impressive celebration to mark the completion of the seawall around the city, to which the whole State will be invited. Such a celebration would be most appropriate—in fact it would be strange if such an opportunity were allowed to pass unimproved.

SENATOR CULBERSON has the rare faculty of compelling words to concentrate rather than diffuse thought, and he employed this faculty to good purpose when he closed his speech at the Houston convention with this timely phrase: "The time for criticising democratic candidates and democratic platforms is before and not after their selection and framing."

GOVERNOR HOGG is coming in for a general skinning on the part of the state papers because of his remarkable speech in the state convention; but when it comes to the plain people who will say that the Tyler Courier is wrong when it declares of him: "In the hearts of the people ex-Governor Hogg is the greatest and grandest man in the Lone Star State."

Times change and men change with them. It is strange but true that George S. Boutwell, a member of President Grant's cabinet in the ferocious days of reconstruction is now an ardent supporter of Parker for president; and Harper's Weekly, identified since the civil war with everything anti-Southern and anti-Democratic, has announced itself as a supporter of the democratic presidential nominee.

THERE is a whole lot of unconscious irony in a Houston Chronicle headline that Russia is "tickled over proffered aid in protecting seals" made by this government. Russia is giving no thought to seals these days. Her head is "busting wid business" in other directions. What her soul yearns for is somebody to help her in protecting her army from the incessant stinging of the Japanese hornets. She despises the mere thought of seals at a time like this.

DEMOCRATIC PLATFORM.

1. On the eve of a great battle, in which constitutional government is at stake, we recall those fundamental principles preserved to the people by the democratic party, which support the fabric of free government: A federal government composed of sovereign states, which federal government derives its powers from the constitution of the United States, with local self government reserved to the state and to the people on all matters which have not been surrendered to the general government. The democracy stands for constitutional government, and for laws passed thereunder which are no respectors of person; for law and order, and the enforcement of the laws against all alike, for the freedom of the citizen and protection to him against all unlawful violence and interference from whatsoever source; for simplicity and economy in all public affairs, and against all abuse of power; for representative government in which all public officers are the servants and not the masters of the people, and who shall be frequently accountable to their constituents; for the distinction in the three great powers of government, the legislative, executive and judicial; for honest and equal taxation and a just distribution of the burdens of government; and for the greatest liberty of the citizen which is consistent with the public good. These are some of the essentials of our free government for which the democracy has ever stood and for which it will continue to battle.

We indorse, approve and ratify the national democratic platform, adopted at St. Louis, and pledge our hearty support of the action of that convention, and we invite the support of all patriotic persons who believe in the perpetuation of free government in these United States.

The democracy congratulates itself and the democracy of the union in this year of democratic harmony, democratic hope and assured democratic victory, in presenting to the country as its standard bearer the profound jurist and statesman Alton B. Parker, and commend him to the democracy, and to the country as the exponent of a government in strict accord with and under the sanction of the constitution of our country.

2. We commend and heartily endorse the administration of our distinguished governor, S. W. T. Lanham, as wise, able and faithful to the interests of the people, and return the thanks of the democracy to our state officials for their efficient services and administration of the affairs of the state, which have been conducted without default, corruption or scandal. It is the proud boast of the Texas democracy that during more than thirty years of control of the state government our officers have invariably been faithful to their duties and to the rights of the people, and that neither dishonesty, cor-

ruption or scandal has existed in our public service.

3. We will continue the liberal policy toward all our educational institutions, to the end that the very best facilities shall be provided for the youth of our state to secure educational advantages second to none at the state's own institutions. The fathers made wonderful and unselfish provision for the education of the youth of Texas, and we pledge ourselves to continue to be faithful to this trust.

We commend the legislature and many of our city governments for the inauguration of industrial education, and the democracy will continue to foster, encourage and extend the same.

4. We favor the continuation of the democratic policy of making ample provision for all our eleemosynary institutions, so that we may still continue to provide for all of our helpless wards in institutions where they may be properly cared for.

5. We pledge the democracy of this state to honest government, economically and faithfully administered, and to the abolishment of all unnecessary offices, places, positions and salaries, and we require at the hands of our legislature that they provide adequate revenue for the expenses of the state government, without deficiencies.

6. We oppose nepotism and demand the passage of such laws by the next legislature as may be necessary to eliminate the same from the public service of this state.

7. We endorse the Terrell election law as a wise and efficient measure of reform, which has greatly purified the ballot in this state, and pledge our legislature to the enactment of such amendments thereto as may be found necessary from time to time to perfect and strengthen the same.

We call on our executive committee to make, adopt and enforce such regulations as may be necessary to prevent confusion in the primaries and to secure uniformity wherever the same is practicable.

8. We believe that the owners of all property, which is not exempt from taxation by the constitution of the state should be compelled to contribute their just proportion toward defraying the expenses of the government, and to the accomplishment of that result we pledge the democracy of Texas to the enactment of such laws as will secure the just rendition of all property for taxation and compel the payment of taxes properly assessed against it; and to the enactment of such laws as will secure the taxation of all property, tangible or intangible, including the franchises and intangible assets or property of those corporations, which, by reason of the nature or character of their assets or property, under the present laws, escape their just proportion of taxation.

We recognize as a fact that much property which is subject to taxation is not now rendered, and to a great extent property is rendered for much below a fair and reason-

able valuation, and that this greatly increases the burden of those taxpayers who render a full account of their property and at a fair valuation. To remedy this evil we recommend that suitable provision be made for the prosecution of persons who commit perjury by falsely and willfully withholding their property from taxation or by falsely and willfully valuing the same at a value plainly below its reasonable value; and that Tax Assessors who may falsely and willfully accept any false rendition of property for taxation shall be guilty of malfeasance in office and be punished therefor.

9. We demand that the next legislature enact a stringent and effective anti-free pass law, which shall prohibit the issuance of free passes, transportation tickets or trunks by any corporation in this state in any form, to any person, except to bona fide owners, officers or employees.

10. We endorse the amendment to article 16, section 16, of the state constitution authorizing the incorporation of state banks, submitted by the last legislature, and recommend its adoption at the coming election.

We denounce the republican scheme for an asset currency and the plan set out in the Aldrich financial bill.

11. We favor the passage of a law giving to cities and towns in this state power and authority to fix and reasonably regulate the charging by electric and gaslight, telephone and water companies, and like companies.

12. We recommend that occupation taxes on useful occupations be removed as soon as a fair system of property taxation can be devised to raise the money now furnished by taxation of such occupations.

13. We recognize the growing importance of irrigation in this state as a means for the development of our agriculture, and we direct the legislature to pass such laws on this subject as will encourage irrigation and be alike just to capital invested and the land owner.

14. We recommend to our legislature to provide for the purchase and preservation of the old Alamo Mission at San Antonio, a work now being patriotically undertaken by the Daughters of the Republic of Texas. This historic and tragic spot should be preserved to Texas and her people forever in sacred memory of the heroic struggle for Texas freedom.

We fear that ex-Gov. Hogg has overdone the thing. The day before the convention met in Houston he saw in his favorite paper, The Sentinel, a paragraph which concluded with the wish that he would take an active part in the State convention at Houston "and deliver himself of a whole lot of sensational opinions." And he did with a vengeance, for in response to a thunderous call he mounted the platform and proceeded to paralyze his audience by eulogizing Roosevelt, snubbing Parker and insisting that that little Booker Washington

free lunch episode in the White House had been badly overworked by democratic editors and spell-binders. Who under the blessed canopy would a thank it! So much for going to Yurrop and mixing with kings and dukes in the role of a Spindle Top plutocrat. He had the sagacity to admit that Parker was going to be elected but in other respects his speech was "sensational" beyond our wildest hopes.

IN Mexico they do some things better than we do. A gang of American train robbers caught over there have been tried and each one sentenced to twenty years in the pen. In this country we seem to try-hard enough but we never catch them. Train robbery is one of the growing evils of this nation and one of its worst features is that the impunity with which it is conducted is rapidly demoralizing uneducated young loafers and rowdies all over the land and many of them become recruits in that service.

If you don't believe that the University of Texas is a great school fully as big as its reputation you get hold of its latest bulletin in the form of a little book of half tone cuts beautifully illustrating every department of the University and giving a view of it in detail only less graphic and satisfying than a personal inspection would be. It is a beautiful little book well worth preserving and The Sentinel returns thanks to President Prather for a copy of it.

We are now entering that delightful period of the presidential campaign when unofficial statisticians begin to "finger it out" and tell with absolute certainty, from the electoral vote of the various states, who will be elected to the presidency. We have him in every community and he is one of the features of a presidential campaign whose honest enthusiasm pleases us although it may not convince us and we would not willingly see him go out of business.

THE committee recently appointed at the meeting of the truck-growers in Jacksonville to visit California and investigate the methods employed there in handling and marketing fruits is charged with a most responsible and important mission in which every fruit and truck-grower in Texas has an interest. In California they have an almost perfect system and get the best results in consequence. Here in East Texas we have not yet mastered the difficult problem and our fruit and truck-growers lose money every year in consequence. The report of the committee will be awaited with keen interest.

THE most notable feature of the big democratic state convention in Houston seems to have been the appearance of James Stephen Hogg on the scene. The delegates went wild when he appeared in the hall and the stupendous spontaneity of the welcome moved the big man to tears. The scene was so impres-

sive that Kalamity Bonner in his classic style wrote of it: "He is closer to masses of Texas democrats than a 10 cent cotton undershirt to a fodder puller in August."

THE most unprofitable business a man ever goes at in this world is to hate his fellow man. It is all right to hate his ways sometimes, but always put yourself in his place before you condemn him. Remember what he got by heredity and what he gets by environment, and consider that he, like you, deserves the largest measure of charity and forbearance for defects he can't remedy, and that his point of view is the one he was born to take and may possibly be an even better one than yours. To hate a man hard and keep it up is a good deal better sign of a thick head than a strong mind. This is not preaching, but horse sense with a scientific basis, and we can prove it by the Bible with a whole lot of scientific books on the side.

THE eagerness with which leading democrats in Texas seek such honors as temporary and permanent presidential officers of the State convention and the chairmanship of the State Executive Committee—positions without emoluments and valuable only for the distinction they confer, shows that in the democratic party of Texas at least, sordid motives do not control in the ambition for public station. It is a healthy sign of a public sentiment which remains uncorrupted and refuses to acknowledge that office is only valuable for the money that is in it. Grant is not yet the arbiter of politics in this country. There is no salary, no fees, no perquisites and no patronage in the position of chairman of the State Executive Committee of Texas. But the ablest men in Texas are ambitious to fill the position purely for the honor there is in it, and such an ambition is altogether worthy.

THE democratic state convention at Houston after a two days session finished its work and adjourned last week. Governor Lanham and the rest of the ticket selected at the recent primaries were formerly declared the nominees of the democratic party. In the contest for the nomination for attorney general Hon. R. V. Davidson was chosen over his opponents and R. B. Cousins was awarded the nomination for superintendent of public instructions. Hon. Frank Andrews, of Houston, was selected as chairman of the Democratic State Executive Committee and Hon. Chas. E. Culberson was declared the nominee of the party to succeed himself as United States Senator. A strong platform was adopted and the big convention adjourned leaving no aftermath of feuds or factions to disturb the perfect harmony which has come at last to the democratic party of Texas. Everybody is in the band wagon now with Sam Lanham on the front seat holding the reins and Governor Hogg on the tail board beating the bass drum, and the good old "brutal majority" in plain view.

Proposed Amendment situation.—Relating to Confederate House Joint Resolution Article 3, Section 3, Constitution of Texas, relating to ex-Confederate sailors. Section 1. By the Legislature of Texas: That Section 51, of the Constitution of the State of Texas, amended as to as follows: Section 51. The Legislature shall have the power to make any grant of public money to any individual, association, municipal or other corporation, or to any person, who has served in the Confederate army for at least three months in indigent circumstances, and who have resided in this State since March 1, 1865, were married to or sailors after 1880; provided that no appropriation shall exceed five hundred dollars for any one individual, and limitation provided by law shall not exceed one hundred dollars for any one inmate of a prison, and the State shall be liable for the payment of such grants. Sec. 2. The State is hereby authorized to issue bonds for the purpose of raising money for the State and for the redemption of the same. [A true copy.]

Proposed Amendment to the State Constitution.—Relating to Pensions for Confederate Soldiers.

House Joint Resolution to amend Article 3, Section 51, of the Constitution of the State of Texas, relating to the pensions of ex-Confederate soldiers and sailors.

Section 1. Be it Resolved by the Legislature of the State of Texas: That Article 3, Section 51, of the Constitution of the State of Texas be so amended as to hereafter read as follows:

Section 51. The Legislature shall have no power to make any grant or authorize the making of any grant of public money to any individual, associations or individuals, municipal or other corporations whatsoever; provided, however, the Legislature may grant aid to indigent and disabled Confederate soldiers and sailors, who came to Texas prior to January 1880, and who are either over sixty years of age or whose disability is the proximate result of actual service in the Confederate army for a period of at least three months, their widows in indigent circumstances, who have never re-married and who have been bona fide residents of the State of Texas since March 1, 1880, and who were married to such soldiers or sailors anterior to March 1, 1880; provided said aid shall not exceed eight dollars per month and provided further, that no appropriation shall ever be made for the purpose hereinbefore specified in excess of five hundred thousand dollars for any one year. And also grant aid to the establishment of and maintenance of a home for said soldiers and sailors, under such regulations and limitations as may be provided by law; provided, the grant to said home shall not exceed one hundred thousand dollars for any one year, and no inmate of said home shall be entitled to any other aid from the state, and, provided further, the provisions of this section shall not be construed to prevent the grant of aid in case of public calamity.

Section 2. The Governor of the State is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of the State of Texas at the next general election of State and county officers.

Secretary of State.

Proposed Amendment to the State Constitution.—Relating to Incorporation of State Banks.

Joint Resolution to amend Section 16, of the Constitution of the State of Texas providing for the incorporation of corporate bodies with banking and discounting privileges, prescribing the liability of stockholders in the same; providing for the regulation of such corporate bodies, and prohibiting foreign corporations with such powers from doing business in this State; and providing for the submission of such proposed Constitutional Amendment as required by law.

Section 1. Be it resolved by the Legislature of the State of Texas: That Section 16, of Article 16 of the Constitution of the State of Texas, be and the same is hereby so amended that the same shall hereafter read as follows:

Section 16. The legislature shall by general laws, authorize the incorporation of corporate bodies with banking and discounting privileges, and shall provide for a system of State supervision, regulation and control of such bodies which will adequately protect and secure the depositors and creditors thereof.

Each shareholder of such corporate body incorporated in this State, so long as he owns shares therein, and for twelve months after the date of any bona fide transfer there-

of shall be personally liable for all debts of such corporate body existing at the date of such transfer, to an amount additional to the par value of such shares so owned or transferred, equal to the par value of such shares so owned or transferred.

No such corporate body shall be chartered until all of the authorized capital stock has been subscribed and paid for in full in cash. Such body corporate shall not be authorized to engage in business at more than one place, which shall be designated in its charter.

No foreign corporation, other than the National banks of the United States, shall be permitted to exercise banking or discounting privileges in this State.

Section 2. The Governor is hereby required and directed to make the proclamation and give the notices required by law for the submission of the foregoing resolution to the people of the State of Texas as an amendment to the Constitution of the State of Texas, at the next general election; at which election all persons favoring such amendment shall have written or printed on the ballots the words "For the Amendment to Section 16, Article 16, of the Constitution, permitting the incorporation of banks," and those opposed to said amendment shall have written or printed on their ballots the words, "Against the Amendment to Section 16, Article 16, of the Constitution, permitting the incorporation of banks," and the sum of five thousand dollars, or as much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to discharge the expenses of publishing the notices of the said proposed amendment as required by law.

Proposed Amendment to the State Constitution.—Authorizing Legislation in Aid of Internal Improvements

House Joint Resolution authorizing the submission to a vote of the people of a proposed amendment to the Constitution of the State of Texas, authorizing legislation in aid of certain internal improvements.

Section 1. Be it Resolved by the Legislature of the State of Texas: That at the next general election of the State of Texas, or at any previous election in case an election for the State shall be had or ordered by the Governor for other purposes, there shall be submitted to the electors of the State of Texas, for their approval or disapproval, the following proposed amendment to the Constitution of the State of Texas, as provided for in Section 1, Article 17, of said constitution relating to proposed amendments thereto:

Section 2. Be it resolved that Section 52, Article 3, of the Constitution of the State of Texas, be, and the same is hereby amended so as to read as follows:

Section 52. The Legislature shall have no power to authorize any county, city, town or other political corporation or subdivision of the State to lend its credit or grant public money or thing of value in aid of, or to any individual, association or corporation whatsoever, or to become a stockholder in such corporation, association or company; provided, however, that under legislative provision any county, any political subdivision of a county, any number of adjoining counties, or any political subdivision of the State, or any defined district now or hereafter to be described and defined within the State of Texas, and may or may not include towns, villages or municipal corporations, upon a vote of a two-thirds majority of the resident property taxpayers voting thereon who are qualified electors of such district or territory to be affected thereby, in addition to all other debts, may issue bonds or otherwise lend its credit in any amount not to exceed one-fourth of the assessed valuation of the real property of such dis-

trict or territory, except that the total bonded indebtedness of any city or town shall never exceed the limits imposed by other provisions of this Constitution, and levy and collect such taxes to pay the interest thereon and provide a sinking fund for the redemption thereof; as the Legislature may authorize, and in such manner as it may authorize the same, for the following purposes to-wit:

(a) The improvement of rivers, creeks and streams to prevent overflows, and to permit of navigation thereof or irrigation thereof, or in aid of such purposes.

(b) The construction and maintenance of pools, lakes, reservoirs, dams, canals and waterways for the purposes of irrigation, drainage or navigation, or in aid thereof.

(c) The construction, maintenance and operation of macadamized, graveled or paved roads or turnpikes, or in aid thereof.

Section 3. The Governor is hereby authorized to issue the necessary proclamation for submitting this proposed amendment to the electors of the State, as hereinbefore indicated, and to further direct said election in its details, as is usual and customary in such cases.

Section 4. That the sum of five thousand dollars, or so much thereof as is necessary is hereby appropriated out of the Treasury of the State of Texas, not otherwise appropriated, to pay the necessary cost and expenses of the proceedings hereunder to be had and done.

Will Drill a Deep Well.

J. W. Thrasher, one of the best known oil drillers in the State, who is now drilling in the Nacogdoches, held is visiting Beaumont and the correspondent of the Galveston News there says of him: "Mr. Thrasher is at present drilling a well in the west end of Nacogdoches oil field. The well is at present down to a depth of 150 feet and has passed through some very fine surface oil indications. It is his intention to drill a deep well, though, and test the actual value of the field, at the same time making a record of the indications of the various strata that are passed through. Mr. Thrasher is in a way very well pleased with the outlook at Nacogdoches, but says that nothing can be known as to the stability of the field until a deep well or two have been sunk. So far there has been none but shallow wells sunk in the entire field, which is a very large one, despite the length of time in which it has been undergoing a course of prospection."

Mr. W. H. Rulfs has treated his house to a new coat of paint artistically put on and now has one of the prettiest cottages on South side.

ECZEMA KEPT SPREADING.

Six years ago my wife had a breaking-out below her knees. At first red bumps appeared, but soon white, husky sores came, and when these would shed off the place became red again, and would itch and burn so that she found it impossible to sleep. At times a yellow water ran from the bumps, and it kept getting worse and worse. Our family physician pronounced it Eczema, and prescribed ointments and powders, but it kept spreading, breaking out on her body and arms, and almost closed up her ears. The druggist at Garner told me to try S. S. S., which she did, and after taking several bottles was cured, and is well to-day and has been for years.

W. A. ROGUTT,
Garner, N. C.

The humors and poisons that produce the itching eruption, roughness and redness of the skin, must be rooted out before there is complete relief from the terrors of Eczema. Nothing applied externally does any permanent good, for whenever the blood is overheated, or the skin is reacting during Spring and Summer, the disease breaks out again. You can't rely upon washes, soaps and salves, or such things as are applied to the surface, for they do not reach the seat of the trouble, which is internal and deeply implanted in the system; the blood is aflame with the itching, burning humors, which are carried by the circulation to the surface and are being constantly forced out through the glands and pores of the skin, and you can never heal the sores or stop the aggravating eruptions with external applications.

To neutralize the acids in the blood and expel the humors and poisons is the only way to get permanently rid of this torturing skin trouble, and no remedy known does this so quickly and thoroughly as S. S. S. It purifies the blood and restores it to health, and the outbreak of the poison through the skin ceases, and the sores and eruption gradually disappear. S. S. S. builds up the thin acid blood, makes it rich and strong, and restores to it all the elements of nutrition, and drives from the circulation all impurities; and under the tonic effect of S. S. S. the general system is invigorated and toned up, and you not only get rid of your old skin trouble, but the health is benefited in every way. S. S. S. being a strictly vegetable medicine, acts gently, leaving no bad after-effects, as do Arsenic, Potash and other minerals which are usually prescribed in skin diseases.

Eczema cannot be cured by anything applied to the surface of the body; the blood must be purified and the cause removed, and in no other way can this deep-seated skin disease be reached. If you have Tetter, Psoriasis, Salt Rheum, Nettle Rash, or any form of Eczema, you will find S. S. S. does its work well and thoroughly, and relieves the itching and burning, soreness and pain, and soon produces a lasting cure.

ECZEMA

The Blood Aflame with an Itching
Humor that sets the
Skin on Fire.

Eczema, the most common and terrible of all skin troubles, begins sometimes with a slight redness of the skin, which gradually spreads, and as the inflammation and itching increase, the entire system is thrown into a restless, feverish condition. Soon little watery blisters or pimples break out, from which a clear liquid or yellow fluid is discharged, which forms thick crusts and sores, or falls off in fine particles or scales, leaving the skin raw and tender, or hard and dry like parchment. Eczema attacks most frequently the legs and arms, back and chest, face and hands, and is a disease that comes and goes in the earlier stages, but is a perpetual torment and constant annoyance when chronic. At times the itching and stinging is so great that the sufferer, driven almost to distraction and tortured beyond endurance, scratches and rubs till the skin is broken and bleeds; but this only aggravates and spreads the disease.

The itching eruption, roughness and redness of the skin, must be rooted out before there is complete relief from the terrors of Eczema. The Kerr Building.

The old land mark standing on the corner of Cotton square and Lutkin avenue is now being torn down prior to the erection of what promises to be one of the most imposing brick business houses on the public square. It will be 50 by 75 feet, two stories and will be completed in two months or less time. Henderson, Shearer & Miller have the contract for the building which is a sure sign everything will be put up according to Hoyle.—Lutkin Herald.

The case of the painter who fell fifty feet from the roof of the Hayward mill at Nacogdoches with no serious injury recalls the affair wherein a plumber was kicked off the roof of a five-story building by an irate woman displeased at his style of work and who charged the lady double time from the moment he went over the cornice until the time he hit the pavement.—Beaumont Enterprise.

G. B. Burhans Testifies After Four Years.

G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble." TEXAS is pretty sure to be represented in the cabinet of President Parker but we doubt if ex-Governor Hogg will be the man.

BOLL WEEVIL or no boll weevil the people of Texas are in much better fix than they were a year ago, and in view of the approaching election of a democratic president cheerfulness should reign throughout our borders.

BOB TAYLOR can now give us the second chapter of "love, laughter and song." Recently divorced from his wife he has just taken on another one in Richmond, Va. His fine phrases about married joys and the immortality of love will all have to be rewritten now.

CLUBS are trumps in the county campaign—democratic clubs. The more clubs, the more trumps, and the more trumps the surer we are to beat the game. Let us begin to organize them. The nominees as the parties most immediately interested should take the initiative.

THE "Katy" telegraph operators now on a strike say they've got the company in a hole and are sure to win. The company on the contrary says that it is doing business at the old stand without serious inconvenience and the strike ceases to worry them. Is this prevarication or only excessive optimism?

UP in Kansas the democrats and populists have tused in the most thorough and harmonious fashion and have put out a full state ticket. A great many of the former Kansas populists have gone back to the republican party but there are enough of them left, in combination with the democrats, to make the campaign in that state at least interesting.

THE approaching military maneuvers by the troops of the various States at Manassas, Va., will be a strictly "dry" entertainment. Beer and whiskey will not be on the menu. Time was when encampments by the state troops meant booze and hilarity as a leading feature and military discipline as an incident of the occasion, but that day has passed and we should all rejoice thereat.

JUDGE PARKER went over to Albany one day last week, quietly resigned his commission as Chief Justice of the New York court of appeals and returned to his home without disturbing the pulse of the nation. Such an anti-Roosevelt way of doing things must have disgusted the melodramatic broncho buster in the White House who would have preferred limelight and a brass band on such an occasion.

LINE UP FOR THE FIGHT.

Now that the nominations are all made from president to constable and the democratic party is entering upon a most interesting campaign in which providence, as usual, will be on the side of the heaviest battalions, it is not too early to begin organizing for victory right here in Nacogdoches county—always a storm center during the biennial political season in Texas. It is perhaps true that in this good old county there is more politics per capita than in the same area of territory of equal density of population anywhere else on earth. This may not be a desirable condition but it is one that confronts us nevertheless, and we must meet it. This year the democratic party, national, state and county, enters the contest under auspices more encouraging than at any time for many years past. The bumptious rough rider at the head of the government has made such a "mess of it" during his administration that his own party distrusts him, and its former solidity and enthusiasm during a presidential campaign are unmistakably absent this time. On the other hand the democratic party, rent with feuds and factions for ten years past and beaten in advance by its own division, has healed its dissensions, closed up its ranks and nominated a man of such strong and irreproachable personality and record that he will not only bring out the full strength of the re-united party but will almost certainly win the greater part of the floating or independent vote which holds the balance of power and determines every presidential contest. In Texas also the party is again harmonious; the Hogg and Clark feud is a fading memory powerless for harm, and while party supremacy has always been assured the party majority will climb higher this time and its prestige be greater than for a long time past. And this brings us to old Nacogdoches, the hub of the commonwealth, the milk in the coconut, the focal point of interest, where the storm is always brewing, the political waters are rarely calm and there is always a chance for a row. Here the party has opposition, and victory is not assured without organized and continuous effort up to the closing of the polls. It is certain that this kind of effort will elect every democratic nominee in Nacogdoches county and nothing less will do it. The county is normally democratic, but exceptional conditions heretofore have prevented the complete triumph of the ticket at each election for some years past. This year these conditions, while not entirely removed have been materially modified and the opposition is less formidable than in the past. The foes of county democracy are huddled in bunches in the Valley of Indecision, irresolute in purpose, lacking in enthusiasm and without confidence in the future. The democracy remains intact, strong in organization, clear in purpose,

full of faith and confidence in the future. Its recruiting service is in good working order and it is fully prepared to initiate new democrats and welcome all former ones who may desire to return to the home of their fathers. It is democratic year this time all along the line from Parker to constable, but in Nacogdoches county where "walkovers" are unknown we must fight to win and the victory will be all the sweeter for it. No more potent agency exists to bring out the full strength of a party than a system of political clubs—a system as simple as it is effective. Every neighborhood should have one and here at the county seat we should without unnecessary delay organize one that will bring every democrat in the city into its membership. Democratic clubs! That should be the policy all through the county—clubs where old democrats, young democrats, new democrats and democrats in the transition stage can meet at stated intervals to discuss the situation and plan for victory. It is not too early to begin forming these clubs and we hope to see them as thick as watchfires on the hills of old when the clans were called on to meet the enemy.

EVERY known variety of political opinion in Texas will have a candidate for governor to vote for next November. The socialists are the last to put out a ticket. Word H. Mills, of Dallas, was nominated by them for governor at the convention held in Grand Saline last Saturday.

NEARLY one hundred people lost their lives in a railroad accident on the Denver & Rio Grande eight miles from Pueblo, Col., Sunday night. A passenger train went through a bridge that had been undermined by a flood and the cars were swept for miles down the swollen stream.

THE world waits eagerly for he long promised decisive battle between the Japs and Russians, but gets only news of many and indecisive small engagements. The Russian fights better than he did at the start, but the Japanese red ants are swarming over his huge body and slowly stinging him to death.

A SALOON was opened in New York city yesterday with great ceremony with Bishop Potter chief speaker and the exercises closed by singing the doxology. The saloon promises to sell only pure whiskey and beer. This is legitimate cause for rejoicing but hardly for ministerial approbation of the saloon itself. The jag lurks in pure whiskey not less certainly than in the impure, and the man of bibulous tendencies is likely to stay longer and get drunker with the unadulterated than with the brandvulgarly denominated "rotgut."

THE "lockjawed Judge" responded in a brief but most gracious telegram in reply to the message sent him by the Houston convention assuring him of the support of the Texas democracy. His is not the reticence of a vacuous but

a thoughtful mind which has learned that silence is frequently the highest wisdom, and when we put him in contrast with the egotistic and loquacious poseur whom he will probably succeed in office next March, his taciturnity adds cubits to his stature and makes him loom up like the big man we believe him to be. Judge Parker's opportune silence is more likely to bring victory than defeat to the democratic party.

THE republicans will put out a full state ticket in Texas and Col. Cecil Lyons should by all means be the candidate for governor. He is a bright and enthusiastic young man who knows how to talk well and if he takes the stump he will entertain us at least and add more or less interest to the usual and inevitable democratic walkover. It is no fun to knock out a dummy candidate.

JEFF McLEMORE couldn't get into the Senate from Travis county but he got a plank in the democratic state platform against nepotism. It is a very fragile plank, put in more for ornament than use, for nepotism is no crying evil in Texas, and it is not strong enough to deter any future governor from committing the heinous crime against the rights and liberties of the people of appointing his own son to the confidential post of private secretary when somebody else's son is yearning for the job.

TEXAS editors will be ably and gallantly represented in the great national military maneuvers at Manassas, Va., next month. Major N. P. Houx, editor of the Mexia Herald, will be there in command of a Greenville military company to which he has been assigned in the absence of the regular captain. Major Houx is more richly endowed, in the matter of pulchritude than most country newspaper men, and when we consider that to the virtues of the editor he adds the valor of the soldier we are proud to know that he will represent us in the maneuvers.

THE strike department of the daily press is getting to be as fixed a feature as the baseball and other sporting news departments. Each day brings its new strike or some lively intelligence from the old ones, and some of the latter are becoming so hoary and antique that they seem like venerable survivals of the past era. Strikes are largely a matter of habit, and when we get a genuine trust buster at Washington the habit will cease to be popular.

IMMATURE, indiscreet and overripe eloquence seems to have been abundantly in evidence at the late Houston convention, but there was some of the real kind also, notably the speech of Judge Yancey Lewis in withdrawing the name of Mr. LeFevre as a candidate for State Superintendent of Education. That speech was genuine eloquence and so effective was it that if it had been in the power of the convention to have re-

versed the verdict of the primaries Mr. LeFevre might be today the nominee of the party. Yancey Lewis himself deserves a place high up in the public life in Texas, for he seems equal to every occasion.

IN a recent very eloquent address by John Temple Graves before the South Carolina Press Association in which he eulogized the editor and his calling to the skies, he remarked in substance that it would be a good idea to pass a law to keep editors out of the vulgar push for office so that they might devote themselves unreservedly to the betterment of their fellow creatures without any selfish alloy in their motives. Perhaps so, John, perhaps so—but in view of the recent primaries in Nacogdoches county it would be in bad taste for us to advocate such a law until after the November election.

OUR friend Wm. Doherty, recently appointed general passenger agent of the new railroad to Brownsville, is already getting in his work as a boomer, a promoter and an optimist in the development of the vast unpopulated plains through which his road runs. In a recent letter to a friend he writes about that region as follows: "Ten years from today this section of the State will produce all the oranges, pine apples and other tropical fruits that the people of the United States can eat. California fruit will be out of date, too slow, too sour, too far from market, and the Golden State will have to fall back on its erstwhile glorious climate as an advertising medium, with now and then a champion pugilist thrown in."

MR. BRYAN has swung into line like the hightoned gentleman and gilt-edged democrat that he is. After returning to Chicago last Saturday from a political pulse-feeling tour through Indiana, Kentucky, Illinois and other states he gave out the following to the press: "Judge Parker is sure to be elected. Every bit of information I have been able to gather indicates the success of the democratic ticket. I want to see the ticket elected, and intend to do everything in my power to bring about that result. I believe the elevation of Judge Parker will bring about a re-organization of the democratic party. He will put an end to imperialism. I am also confident that in four years he will put an end to the military swaggering spirit that has been inculcated and fostered by Roosevelt."

THE American people suffer more from nervous disorders than from all other complaints combined, and since the advent of the strenuous, boisterous, strident and explosive Roosevelt with his sensational grand stand plays our national nervousness has been more pronounced than ever. He rushes into the arena—not like a trick mule whose advent has been expected and discounted by the audience—but like a bellowing bull in a China shop; and he overturns custom, tradition and propriety in a way that

has "got onto the nerves" of the people and puts them in constant apprehension of his next break. Hygienic and sanitary reasons alone would be good cause for displacing him. Judge Parker is his opposite in temperament and when he gets in the White House his calm and unexcitable way of doing things will do much to restore the wrecked nervous system of the nation.

LAST Saturday near Selma, Ala., a mob of negroes took from the constable who had him in charge a negro who had assassinated one of his own race, hung him to a tree and shot his body full of holes. A melancholy instance of negro imitateness and progressiveness along wrong lines. If they would only progress far enough in the school of lynching to hang their own rape fiends we might contemplate their transgression of the law with more or less equanimity, but in no instance have they ever done such a thing where the victim of the rape was not of their own race.

LAST Saturday in New York City a woman lost her purse containing \$1,500 in a street car. The conductor who works for \$2.00 per day, found it and restored it to her when she was nearly frantic over the loss. She offered him twenty-five cents for restoring the money and he declined it. We have wasted valuable time trying to found a pert paragraph on the basis of this incident, but it won't come. That woman is too mean to inspire mere pertness. In a case like that even Uncle Russell Sage would have raised her bid and made the reward look like thirty cents.

TOMORROW Judge Parker will unlock his iron jaw at Rosemount on the Hudson and break the long silence that has clung about him as a cloud since he first came in view as a presidential candidate. Nobody doubts that he will talk wisely and well to the committee that will wait upon him to formally announce to him his nomination for president by the democratic party. No speech was ever anticipated with more interest by the people of this country. War news and all other kinds will be sidetracked while Parker is talking, for where he sits is the head of the table just now. What he says is sure to be to the point and will leave no doubt of his meaning, and especially will it leave no doubt of his orthodox democracy.

THE editor of The Sentinel returns his thanks to Bro. McFarland of the Jacksonville Banner for the following: "The county" hasn't yet confirmed the action of the democratic primaries but we are living in hopes:

"Editor Haltom of the Nacogdoches Sentinel was one of the editor-candidates who were successful in the recent primaries. He was nominated for representative, and will no doubt be elected. The county has done a wiser thing than Editor Haltom has."

BUSINESS LEAGUE LAST NIGHT

Had Interesting Meeting and Transacted Important Business.

From Thursday's Daily:

The meeting of the Business League called for last night at its hall on Main street did not promise at the outset to be a brilliant success in point of attendance or interest; but as a matter of fact it was a successful session, unusually so because those who were there did things—things needed to be done and dispatched business in an energetic, progressive, business-like way that may well serve as a model for future meetings. The attendance was not as large as it should have been, but it made up in quality what it lacked in quantity, and when the adjournment came those present knew that the Nacogdoches Business League had happily escaped the perils of innocuous summer desuetude and was at the front, full of energy and purpose, ready to promote the interests of Nacogdoches.

In the absence of E. A. Blount, the president, E. C. Branch was called to the chair and Secretary Anderson read the minutes of the previous meeting which were adopted.

The matter of the unpaid accounts of the League was then brought up and it appeared that there was a small balance due the Hoo-Hoo band, also for rent of building for the late Summer Normal. These were ordered paid. The light account for this month was also ordered paid and the League agreed to assume \$5 of the indebtedness for the use of the electric buzz fan in the hall.

On motion it was ordered that hereafter stated accounts and fixed charges against the League such as light and telephone bills, be paid by the secretary without waiting for such bills to be audited and approved by the League.

On motion it was ordered that all newspaper correspondents residing in the city be enrolled as honorary members of the League and not subject to dues.

On motion the secretary

was instructed to correspond with the officials of the Timson, Sabine Valley & Southwestern railway company and with the officials of the Orange & Northwestern railway company to ascertain upon what terms those companies could be induced to build their lines to this city and to the Nacogdoches oil field.

On motion the committee on manufactures was instructed to investigate the subject of securing the location of a cotton mill in Nacogdoches and take such steps as might be necessary to secure such mill.

On motion a special committee was appointed to formulate some plan or program, to be executed during the coming fall months, in the nature of a trade display, carnival, open air musical festival, contest for valuable prizes or whatever other form of attraction might be agreed upon as most feasible and desirable. Said program is to be carried out not only for the pleasure of our home people but with a special view to so enhancing the attractions of Nacogdoches during the coming cotton season that people not only from all parts of this county but from adjoining counties will be induced to come here—the attraction being of such character, if properly advertised, as will decide them in favor of Nacogdoches against all other points competing for their presence and trade. It was agreed after full discussion that if a program of the right kind could be adopted and carried out it would aid largely in increasing the trade area of Nacogdoches this fall by attracting here many farmers with cotton to sell who would otherwise go elsewhere. It is up to the committee to determine the character of the program and it will then be up to our people to heartily cooperate and make the affair a success that will advertise Nacogdoches all over East Texas.

Mr. W. M. Anderson tendered his resignation as sec-

retary of the League as his private affairs did not give him time to properly attend to the duties of his office. The resignation was accepted and Mr. Geo. E. Poulter was chosen as temporary secretary until the next meeting of the League, after which the meeting adjourned.

Taken With Cramps.

Wm Kirmse, a member of the bridge gang working near Littleport, was taken suddenly ill Thursday night with cramps and a kind of cholera. His case was so severe that he had to have the members of the crew wait upon him and Mr. Gifford was called and consulted. He told them he had a medicine in the form of Chamberlain's Colic, Cholera and Diarrhoea Remedy that he thought would help him out and accordingly several doses were administered with the result that the fellow was able to be around the next day. The incident speaks highly in favor of Mr. Gifford's medicines. — Elkader Iowa Argus.

This remedy never fails. Keep it in your home it may save your life. For sale by Perkins Bros.

Mr. R. C. Monk is adding several rooms to his neat home on Irion Heights, and Mr. John Baker, on North street, has converted his cottage on North street into a large and handsome residence; in fact if there is any of the old house left our reporter cannot discover it.

No Substitute Offered.

Say what you will about druggists offering something "just as good" because it pays a better profit, the fact still stands that ninety nine out of a hundred druggists recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy when the best remedy for diarrhoea is asked for, and do so because they know it is the one remedy that can always be depended upon, even in the most severe and dangerous cases. UNIFORM PRIMARIES.

Remarks by an Ex-member of the Executive Committee.

The action of the state and county democratic executive committee excluding the negro from participation in the primaries met with the approval of democrats every where. The only discordant note heard in the otherwise universal harmony was the undemocratic action of Precinct No. 1, held for national purposes early in June. This convention composed largely of candidates and their sympathizing friends urgently requested the county democratic executive committee to disregard the recommendation of the state democratic executive committee that white primaries be held throughout the state, and to permit the negro to participate in the primaries. Nearly every candidate in the county believing he would get the negro vote favored the action of the precinct convention. Candidates are very optimistic. They would all get a majority anyhow, but the negro vote would make it so much larger, and a large majority looks so nice, don'tcher know. The county democratic executive committee, owing its allegiance to the state democratic executive committee and following its plain line of duty, disregarded this request, though urged by a practically unanimous vote. The state democratic executive committee empowered with the authority to prescribe rules and regulations governing conventions and primaries, recommended uniform white primaries throughout the state, and it was the duty of every county and precinct in the state to abide by the rule, and the duty of every democrat to endorse it as a party measure. It is as much the duty of democrats to endorse the action of their executive committee as to support the nominees of their conventions. Anything else would be political anarchy. Remember that, please, and don't let me have to call your attention to it again. In the county convention a resolution endorsing the action of the county democratic executive committee was introduced. The delegates in the convention from Precinct No. 1, being more numerous than all the other delegates combined dodged the discussion of the resolution and tabled it by a viva voce vote. They did not want any agitation of the matter because to loyal democrats their action in the precinct convention looked so awfully undemocratic—a discordant note to be muffled. These men are among our most most distinguished fellow citizens and some of them stand high in party councils. As party democrats most of them have a record as straight as a sunbeam—some of them have a record not quite so straight. The members of the old committee retire from their arduous duties under the new election laws and go out into the cold, cold world without either pay or praise, except from their own consciences (ain't that sad?) letting their

spotless mantles fall upon untied shoulders. The state convention at Houston last week again emphasized by platform demand the importance of "uniformity" so as to prevent confusion in the primaries. This action was of course taken subject to the approval of the democratic convention of Precinct No. 1, of Nacogdoches county. A future article will set forth the reasons why the negro was excluded from the primaries by the state democratic executive committee and why democrats should endorse it in toto as an original proposition. E. W. Smith.

Violent Attack of Diarrhoea Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy and Perhaps a Life Saved.

"A short time ago I was taken with a violent attack of diarrhoea and believe I would have died if I had not gotten relief," says John J. Patton, a leading citizen of Patton, Ala. "A friend recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. I bought a twenty-five cent bottle and after taking three doses of it was entirely cured. I consider it the best remedy in the world for bowel complaints." Sold by Perkins Bros.

SOLD UNDER HAMMER.

Texas-Cuba Tobacco Company's Crop Sold For Debt.

From Saturday's Daily:

The tobacco crop of the Texas-Cuba Tobacco Co., known as the Taylor-Webb Co., was sold at public outcry yesterday by Sheriff Spradley upon an order of justice court sued out by Henry Millard to satisfy a debt against the company. The crop was sold as perishable property. It consisted of 750 pounds of tobacco in the barn of the Florida Havana-Sumatra company and five acres of tobacco growing in the field and was knocked down to the Florida Havana-Sumatra company at \$350.00. Thus is wiped out the tremendous enterprise of the Taylor-Webb concern, which has been magnified at long range until at one time it got as high as 75 acres of tobacco growing under canvass, with acres of barns and millions to back it. There is a lesson in all this with reference to wild-cat concerns, and it is hoped it may prove profitable, while it has been expensive to some of the people of Nacogdoches county.

Cures Eczema, Itching Humors, Pimple and Carbunkles—Costs Nothing to Try.

B. B. B. (Botanic Blood Balm) is now recognized as a certain and sure cure for eczema, itching skin, humors, scabs, scales, watery blisters, pimples, aching bones or joints, boils, carbunkles, prickling pain in the skin, old, eating sores, ulcers, etc. Botanic Blood Balm taken internally, cures the worst and most deep-seated cases by enriching the blood, thereby giving a healthy blood supply to the skin. Botanic Blood Balm is the only cure, to stay cured, for these awful, annoying skin troubles. Heals every sore and gives the rich glow of health to the skin. Builds up the broken down body and makes the blood red and nourishing. Especially advised for chronic, old cases that doctors, patent medicines and hot springs fail to cure. Druggists \$1. To prove B. B. B. cures, sample sent free and prepaid by writing Blood Balm Co., Atlanta, Ga. Describe trouble, and free medical advice sent in sealed letter.

KILLED BY THE TRAIN.

Negro Ran Over While Asleep on the Track.

From Saturday's Daily:

The north bound passenger train on the H. E. & W. T. ran over and killed a strange negro at Redfield last night. It is reported that the negro was sleeping on the track and was not discovered until too late to stop the train from running over him. The mangled remains of the dead man were picked up and carried on, no one being able to identify him.

Mr. Joseph T. Dixon, well known here on account of his connection with the Nacogdoches Chronicle and Nacogdoches Sentinel at different times during the past eight or ten years, arrived here Sunday morning. He will grind copy or the Sentinel during the campaign. We should like to have him in the old town as a fixture, for as a newspaper writer he is king of the flock. Since leaving here a year or two ago Mr. Dixon has seen much of the world as it is known in the Western Hemisphere. This summer he spent some time fishing in the old Suwanee river and roaming in the soft moonlight along the banks of the Wabash. Few men have his experience, and still fewer possess minds as rich in literature, art, science and political matters. In time he has held positions on the foremost dailies of the country but his declining years forbid the strenuous life incident to work on great journals.—Plaineater.

Was Wasting Away?

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Eoley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. Sold by Perkins Bros.

"Some Sweet Day."

Out of the dozen or more newspaper men who manifested a willingness to serve their State in the legislature, but two or three of them were chosen by the democratic primaries. So much for editorful presumption. Newspaper men should understand that it is their mission to fight political battles while the mouth workers and boodle dispensers bury their snouts in the political porridge. Some day the newspaper men of Texas will work up courage to inform the aspiring statesman and pernicious office-seekers that it costs money to talk through the columns of their newspaper, and when the time arrives newspaper editors can afford to spend brief seasons by a babbling brook breathing health and angling for fish rather than chasing for questionable political honors.—Beaumont Journal.

MUCH IN CULTIVATION.

This is Proven by Local Demonstration Farms.

A stalk of cotton was brought in from the experimental crop on the farm of T. J. Lloyd on North street this morning that contained fifty five well developed grown bolls. This crop has been cultivated under the direction of the government. The earliest variety of cotton seed were used and the manner of growing it has been by heavy fertilizing and rapid cultivation for early maturity as a preventive against the boll weevil. The stalk brought in is said to be an average of the crop, and it is believed that the probable yield be at least a bale to the acre. Another stalk was also brought in from the crop of Josh Henson just South of town which was selected as the worst in the field. It is covered with boll weevils, but yet has a number of grown bolls. The most of the crop on the Henson farm will average fairly. Last year the weevils literally eat the crop up on the same ground, but by the use of Paris green Mr. Henson has kept the weevils in check and he will probably get a half bale to the acre. The experiment on these two farms demonstrates the possibility of getting a fair crop in spite of the boll weevils, by careful cultivation and the use of poison.

Was in Poor Health for Years.

Ira W. Kelley, of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." STOMACH DOSING WILL NOT CURE.

Only Way to Cure Catarrh is by Breathing Hyomei.
 Ask any physician if catarrh is a blood disease and he will tell you that it is a diseased condition of the mucous membrane and that it cannot be cured by blood purifiers, pills, tablets, or other forms of stomach dosing. The only sensible and scientific way of curing catarrh is by the use of Hyomei.

Breathed for a few minutes, four or five times a day, through a hard rubber inhaler that is so small that it can be carried in the vest pocket, Hyomei will absolutely destroy all catarrhal germs and cure the disease. Catarrh can never exist where Hyomei is used. It has a two fold action destroying the disease germs in the air passages and lungs, and soothing and healing the inflamed mucous membrane.

Stripling, Haselwood & Co., one of the most reliable firms in Nacogdoches, are giving their personal guarantee with every package of Hyomei they sell, that it will effect a cure or they will return the money. They have had scores of reports of remarkable cures of both acute and chronic cases of catarrh by Hyomei.

No other treatment has the endorsement of so many reputable people in all walks of life, as this scientific yet common sense cure of catarrh.

The complete Hyomei outfit costs \$1.00 and comprises an inhaler, a bottle of Hyomei and a dropper. The inhaler will last a life time; and additional bottles of Hyomei can be obtained for 50c.

The new front to the T. B. Hardeman building will be a bute when finished. It will be similar to the front of Seale & Donegan's building and is being constructed by the Banita Manufacturing plant.

Test Its Value.

The Tobacco "Queen."

Reports from Nacogdoches indicate that the Texas Tobacco Queen and her associates have folded their tents and silently departed. The queen was a frequent visitor to Beaumont, but it she disposed of any stock or made a borrow in this city the victims have kept discreetly quiet. Nacogdoches, however, has reminders that will keep the Taylor, Webb-C., fresh in the memory of capitalists and others in that city for many years.—Beaumont Journal.

Herbine

Renders the bile more fluid and thus helps the blood flow; it affords prompt relief from biliousness, indigestion, sick and nervous headaches, and the over indulgence in food and drink. Herbine acts quickly, a dose after meals will bring the patient into a good condition in a few days. G. L. Caldwell, Agt M K & T R R, Checotah, I. T., writes April 18, 1903: "I was sick for over two years with enlargement of the liver and spleen. The doctors did me no good, and I had given up all hope of being cured, my druggist advised me to use Herbine. It has made me sound and well." 50c. Sold by Perkins Bros. w

There are signs that point to the probable erection of several new buildings in Nacogdoches in the near future, besides those already under construction.

Cures Sciatica.

Rev W L Riley, L.L.D., Cuba, N. Y., writes: "After fifteen days of excruciating pain from sciatica rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving my first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, \$1.00. Sold by Perkins Bros. w

The Commercial Telegraph and Telephone company is in the hands of a receiver, at least the main system is. The toll lines and local exchange here are involved. Manager Gorom states that there will be no change in the service or the management of the business at this point as a result. Mr. H. E. Huntington, nephew of the late C. P. Huntinton, recently acquired a controlling interest, and it is presumed that the receivership is merely one of the incidents of re-organization.—Plaindealer.

ROW AT REDFIELD.

Negro Takes a Shot at the White Crew.

From Saturday's Daily: A difficulty occurred at Redfield yesterday between the white men employed there and a negro. It is stated that all the men at work there were white men until the negro was sent out by the manager, Mr. Freidman. The appearance of the negro seems to have caused some dissatisfaction and a row followed in which the negro pulled a gun and fired at some of the white men. No one was hurt and the negro took to his heels but was captured later and brought to town.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E W Sullivan, prop. Sullivan House, El Reno, O. T., writes June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c, \$1. Perkins Bros. w

E. L. Ruark, a prominent and useful citizen of Rusk county, whose home is at Locklin, was in the city yesterday and today, full of business as usual, but always ready to talk and talk cheerfully about people and things in his neck of the woods. Mr. Ruark is a successful farmer and in addition runs a cotton gin, a grist mill and saw mill. He says crops are about the best he ever saw in his section, no boll weevil to speak of, and the outlook most promising in all respects. Mr. Ruark discovered a good many years ago that Nacogdoches was the best market in this part of the State, and although there are other competing markets nearer to him, he comes here to buy and sell and expects to continue doing so. He is in Nacogdoches to see about repairs for the machinery of his gin and is looking forward to the biggest ginning season in his experience.

BRONZING QUARTERS

And Passing Them For Five Dollar Gold Pieces.

From Thursday's Daily: A young man named Dougan Havard was arrested by Sheriff Spradley this morning on a charge of passing a quarter for a five dollar gold piece. It is alleged that a quarter that had been bronzed by the use of "gold dust" until it resembled a gold piece was given to a colored boy at one of the negro stores in payment for twenty-five cents worth of cigars, the boy giving back \$4.75 in change. The trick was not discovered until the negro went to get his "gold piece" changed, and then he raised a roar and went after an officer. The arrest of the young man followed and he was subsequently released on bond of one hundred dollars. Havard insists that the wrong man has been arrested and that he is innocent of the charge.

Stop That Cough!

When a cough, a tickling or an irritation in the throat makes you feel uncomfortable, take Ballard's Horehound Syrup. Don't wait until the disease has gone beyond control. Mr and Mrs J A Anderson, 354 West 5th street, Salt Lake City, Utah, writes: "We think Ballard's Horehound Syrup is the best medicine for coughs and colds. We have used it for several years; it always gives immediate relief, is very pleasant and gives perfect satisfaction." 25, 50c, \$1. Sold by Perkins Bros. w

Editors Who Got There.

Several of the Texas newspapers have commented upon the defeat of so many newspaper makers in the recent primary elections. Still there will be quite a number of them in the next Legislature. Hon. R. W. Martin, editor of the Gatesville Star Forum, will have the distinction of being the only newspaper man in the Twenty-Ninth Senate. He was elected in 1902, and drew a four-year term; therefore, he was not a candidate before the primaries this year. The following named editors have been nominated for Representative:

O. P. Carswell, Panola Watchman, Carthage; R. W. Haltom, Sentinel, Nacogdoches; J. A. Thomas, Graphic, Leonard; A. S. Crisp, Star, Cuero; A. M. Kennedy, Herald, Mart; W. C. O'Brien, former editor of the Observer, McGregor; J. P. Cranke, Times, Laredo, and Hal Sevier, Sentinel, Sabinal, Chris B. Callan, who operates a linotype machine for a San Antonio newspaper, has been nominated for a third term in the Legislature.—Galveston News.

Where Others Fail.

"Each Spring for five or six years I broke out with a kind of eczema which nothing seemed to relieve permanently. Finally I tried a box of Hunts Cure, which promptly cured me. Two years have passed by but the trouble has not returned."—Mrs. Kate Howard Little Rock, Ark. 50c. w

Miss Lettie Huff has returned from a visit to her sisters in the western part of the State and reports a highly prosperous condition of affairs out there.

The Death Penalty.
A little thing sometimes results in death. Thus a mere scratch, insignificant cuts or puny boils have paid the death penalty. It is wise to have Bucklen's Arnica Salve ever handy. It's the best salve on earth and will prevent fatality, when burns, sores, ulcers and piles threaten. Only 25c at Stripling, Hesselwood & Co's.

Hampton Bros, who have been in the logging business here for a year or more, left with their outfit last Saturday for Nacogdoches, where they have taken a contract to log the Hayward mill, with a capacity of 100,000 feet per day. The loss of the Hampton boys will be greatly felt, and while we are very sorry to lose them, we congratulate the Hayward mill for obtaining such men as they are.—Houston County Herald.

Cason & Richardson have just unloaded another big car of MOON BROS' buggies and surries. They are the best goods sold in East Texas. Look at their stock.

Puts an End to It All.

A grievous wail of unendurable pain from over taxed organs, dizziness, backache, liver complaint and constipation. But thanks to Dr. King's New Life Pills they put an end to it all. They are gentle but thorough. Try them. Only 25c. Guaranteed by Stripling, Haselwood & Co.

Mr. F. M. McPhail, who several months ago bought the home of Rev. S. F. Baucum, of this city, moved up from Beaumont last week, and is now comfortably domiciled at his new home. Mr. McPhail is an experienced truck farmer, and intends to make that his business here. He has no doubt but that he can make a great success of truck growing here, and believes he will be able to demonstrate that winter gardening can be made as profitable in Nacogdoches as it can in the coast country, where he has been the past few years. Mr. McPhail is from Mississippi to Texas, and has lived in the Beaumont section ever since he came to the state until he moved to Nacogdoches.

Don't waste time and money, buy a Victor or Kentucky cane mill, save all the juice.
Cason & Richardson.

The weather is assuming the appearance of fall—at least it has been "falling weather" for the past day or two. The backbone of summer is broken.

Shuttler, Studebaker and Linstroth wagons are worth all we ask for them. See us today. Cason & Richardson.

Jess Bruton spent Sunday with his father, J. P. Bruton, of Douglass. He brought back a stalk of cotton from his father's farm as a sample of the crop, which would indicate that there will be a heavy yield this year. The stalk is about two feet high, and contained over fifty bolls that will safely mature, besides many blooms and squares. Last year the boll weevils owned the crop on Mr. Bruton's place, but, strange as it may seem they have troubled him scarcely at all this year. There is not a weevil on the stalk here mentioned. There were five open bolls on the stalk.

Mr. J. B. Power, the nursery man of Nacogdoches, was in town Tuesday, en route to his home in Nacogdoches. He had been to Center to organize a Fruit and Truck Growers Association. Mr. Powers is among the foremost horticulturists of the state and takes a deep interest in fruit growing. He has a magnificent nursery near Nacogdoches. The first meeting of the Center Association will be held Saturday, August 13th.—Tennessee Messenger.
