#### Prof. Mally Speaks.

Prof. F. W. Mally, of Nacogdoches, one of the best authorities on "bugology" and fruit culture in the South, was here on the 22 of December and delivered a strong lecture on fruit culture and other matters of interest to the farmers. Prof. Mally had a splendid audience of representative farmers and every one present followed his talk closely and we feel certain that the lecture has been a great help to our people. Prof. Mally gave it as his opinion that Houston county would soon be one of the greatest fruit growing counties in the State and that the county's splendid possibilities were being commented on by fruit men everywhere. He advanced some splendid advice along the lines of general diversification in farming, saying among other things that the one crop farmer was most certain to make a failure. The car load of fruit trees that had been distributed among the farmers of this community recently, came from the F. W. Mally Nursery Company at Garrison and Prof. Mally has promised to return here during the coming growing season and make a visit to the various orchards and give personal instruction in the proper care and management of fruit trees.—Grapeland Messenger.

#### Cotton Growers Attention!

There will be an important meeting of the cotton growers of Nacogdoches county, at the court house in Nacogdoches, on Saturday, Jan. 14th at 2 o'clock. Every farmer that raises cotton is urgently requested to attend this meeting.

The progressive man of today insures his property against loss. See John S. Doughtie, who will insure your horses, mules and cows or any live stock against death from any cause, natural or accidental.

#### Good Advice to Farmers.

To the farmers of Nacogdoches County:  
The time has come when the farmers of this and every other cotton growing State is forced to do something to regulate the price of our cotton. The serious question confronts us now. Whether we will unite and formulate some plan by which we will get a fair price for our next crop of cotton, or will we go ahead as we have been doing heretofore and not stop to think or begin to figure on the proposition that now confronts us and let Mr. Speculator take charge of our cotton crop by the time the seed is put in the ground and begin to speculate and grow rich from our hard earnings. At the present prices for our cotton means bankruptcy to every farmer in the South.

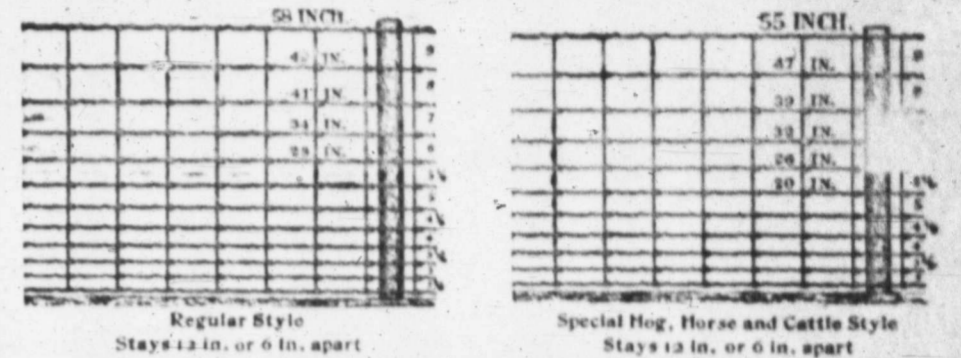

Let us begin now, with a determined resolution to decrease our cotton acreage at least 25 per cent and plant that 25 per cent in something that there is a great deal more money in to us than cotton at the present prices. We can not raise cotton at 6 cents. This is below the cost of production. I myself expect to decrease my acreage 50 per cent this year.

Hoping to hear from every farmer in this county with a determined resolution to decrease their cotton acreage, I remain yours respectfully,  
W. H. Gray.

#### The Truck Growers.

The association held a very interesting meeting Saturday with good attendance. Four new members were added to the list, viz: John Davison, W. R. Crammond, G. E. Armstrong and J. A. McKnight. Mr. W. M. Moore, representing Farm and Ranch, and Mr. Morgan, representing the Caro opportunity, were invited to seats with the body, and after the business session they, each made very clear talks. Nearly every one present is a reader of the Farm and Ranch, but Mr. Moore stated that he would devote his whole time to East Texas, and that he and his paper would use every effort to further the cause of the farmer and trucker of this section. Mr. Morgan mentioned some of the traps and holes that the truck grower might stumble into.

The subject of seed potatoes was discussed and it was found that those present would want seed to plant 35 acres, or about 300 bushels. As several of the growers have their seed and several intend planting that were not present, it is estimated that the acreage will be about 100 acres. Messrs Allan Seale, F. M. McPhail and T. E. Burgess were appointed as a committee with authority to act for the association, and make arrangements for seed potatoes and fertilizer.

The association, by vote, agreed to pay the expenses of J. B. Bower to attend a meeting of the Directors of the East Texas F & T G Union at Palestine Jan. 24th and also as a delegate to the state association at same place on the 25th.

Early last year Mr. S. H. Dixon deposited \$10 to be paid to the party who sent the best exhibit to the World's Fair, and as there was no contest, and very little shipped, the \$10 was tendered back to Mr. Dixon.

The membership is not

quite so large as it has been in the past, but the Truck Growers Association is now composed of diversificationists who are business men. The careless man and the man with speculative ideas have fallen out of our ranks and everything indicates a prosperous season. The acreage increase over last season will be approximately 300 per cent.  
J. B. Power, Secretary.

#### The Lucky Ones in the Mayer & Schmidt Farming Contest.

The committee who had in charge the awarding of the wagon, stove and stalk cutter, offered by Mayer & Schmidt early last year to the farmers obtaining best cotton crop on 6 acres test crops, fertilized with Virginia Carolina Fertilizer, and planted with Kings' Improved and Shines' Early Prolific Cotton seed, have made the following awards:

R. H. Blackwell—1st prize, wagon.

T. E. Rightmer—Sandy land crop—stove.

R. O. Ferguson—2nd. Bottom crop—stalk cutter.

The Committeemen were Prof. F. W. Mally, Chairman; Joe P. Clevenger, H. L. Belser.

#### A Very Close Call.

"I stuck to my engine, although every joint ached and every nerve was racked with pain," writes C. W. Bellamy, a locomotive fireman, of Burlington, Iowa. "I was weak and pale, without any appetite and all run down. As I was about to give up, I got a bottle of Electric Bitters, and after taking it, I felt as well as I ever did in my life." Weak, sickly, run down people always gain new life, strength, and vigor from their use. Try them. Satisfaction guaranteed by Stripling, Hazelwood & Co. Price 50 cents.

NAN PATTERSON, the New York murderess, has been denied bail in any sum, pending a new trial. There are influential people all over the country who do not believe her guilty and have offered to make her bond in any sum required.

FOUR deaths have resulted in Houston during the holidays from toy pistol accidents. This is some more good argument against the toy pistol. It is becoming almost as bad as the "gun" in itself and is mighty apt to make a habitual gun toter of the kid who is allowed to have them.

THE Russian is both brave and obstinate and the fall of Port Arthur will only harden him in his purpose to keep on fighting. The war is too far away from Russia proper for the Russian people to feel its horrors and with Siberia as a buffer province they are unable to realize that "war is hell." But their soldiers could give them some information on this point.

THE people of the prohibition town of Bullard in Smith county evidently intend that prohibition shall prohibit. One Tuesday night in that place the express office was broken open during the night and about 300 gallons of whisky destroyed. People of a strong local option sentiment are supposed to have done the work, as the C. O. D. business at that point has been extremely large, and many drunkards have resulted.

HERE is one of the legitimate effects of parents putting guns and pistols in the hands of their children as soon as they are old enough to toddle. Houston, Texas, Jan. 2.—"I dare you to shoot me," said N. R. Griggs, a white boy, aged 12 to a companion, an Italian named Pentacosta. The banter was instantly accepted. Pentacosta fired a target rifle bullet into Grigg's abdomen, from which death shortly ensued. Pentacosta was arrested charged with murder.

MAY Heaven bless Wilburn N. Roe, of Columbus, Ohio, for he is a patriot, a statesman and a man of sense. And Heaven grant Governor Cummins, of Iowa may rise to his great opportunity and prove himself the equal of Wilburn N. Coe. The latter has written to Governor Cummins to ask that he recommend a law at the next session of the General Assembly making the presentation of the play, "Uncle Tom's Cabin," on any stage in Iowa a felony under heavy penalty. Roe objects to the play because it misrepresents the South, and he says that every state should pass such a law; that while stump speakers in one hall are talking of the elimination of sectionalism in the United States, in the next hall there may be a company teaching the people that Uncle Tom was killed in the South because he was good.

TERMS OF SURRENDER.

The Commissioners representing the two armies at Port Arthur have agreed upon the terms of Russian surrender which are as follows:

All Russian soldiers, marines and civil officials of the garrison and harbor are made prisoners; all forts, batteries, vessels, munitions, etc., are transferred to the Japanese in the condition in which they existed at noon Jan. 3, a violation of this clause to operate as annulment of the negotiations, giving the Japanese army warrant to take free action; the Russian military and naval authorities are to furnish to the Japanese army an exhibit of all fortifications, underground and marine mines; a list of military officers, of ships and the numbers of their crew and of civilians of both sexes, with their races and occupations; and all public property, such as buildings, munitions of war, etc., to be left in the present position pending arrangements for their transfer.

Officers of the army and navy are permitted to retain their swords and such of their personal property as is directly necessary for the maintenance of life, and with one servant each, may, on signing their parole not to take up arms during the continuance of the war, return to Russia. Non-commissioned officers and privates will be held as prisoners.

For the benefit of the sick and wounded Russians, the sanitary corps and the accounts belonging to the Russian army and navy will be required to serve under the Japanese sanitary corps and accountants for such period of time as may be deemed necessary.

A good suggestion for the approaching legislature comes from Capt. Tarver of Laredo, a veteran newspaper man, who was a member of the legislature for several terms. He suggests that Speaker-to-be F. W. Seabury create a new committee of the house to be known as the "Foolish Bills" committee. It shall be the duty of this committee to pass upon and assort all bills that are introduced in that body and throw aside those which are deemed foolish and unimportant. There are several hundred of these kinds of bills introduced at each session, and if Captain Tarver's suggestion should be adopted the session of the legislature would be greatly shortened.

AFTER nearly a year of frightful slaughter and suffering the great fortress of Port Arthur passes from the hands of the humbled but heroic Russians into the keeping of the victorious Japs and we suspect that it will remain in their possession permanently. It has been perhaps the most extraordinary siege of modern times and one hardly knows which to admire most, the sublime resistance of the Russians or the marvelous, death defying valor of the assaulting Japs. For months Port Arthur has been an earthly hell, and only courage of the high-

est order could have held out so long. The Russian fleet in the harbor has been destroyed, and with Port Arthur as a magnificent base of supplies and the army which has been besieging it—now available to reinforce Kuroki in his struggle with Kuropatkin at Mukden, the cause of Russia looks gloomy indeed. Poor, weak, well-meaning Czar! He was hurried into this war by his subordinates without knowing what he was going against; and he is now very likely to turn a willing ear to the voices of meditation coming from France and England.

It is possible to be buried alive even in this age of the world and in Texas at that, as witness the following dispatch of January 2nd, from Jefferson: "Nathan F. Chidister is announced today by the attending physicians out of danger, although his funeral was preached two days ago and his body was in the coffin ready for burial. Chidister was reported dead and all arrangements for the funeral and interment were completed. Just before starting for the cemetery the undertaker removed the coffin lid that the friends might have a last look at the remains. The underside of the lip was moist and it was discovered that Chidister was breathing. Physicians were summoned and he is getting well."

JUDGE BURGER has a call in this issue for a mass meeting of farmers in Nacogdoches on January 14th to consider the question of reducing the cotton acreage in this county for the coming season. These mass meetings are to be called not only all over Texas but all over the cotton growing states, for it is only by uniformity of action all over the cotton growing states that the acreage can be reduced. We see what a 12,000,000 bale crop has brought us to, and it doesn't take a very wise man to know that the only way to get the price back to a paying point is to diminish the supply by reducing the acreage. It will be useless for a few farmers to attempt this. All cotton growers in all the cotton growing states must join in the movement to make it effective. It is very evident that the Southern farmers must make a radical departure from old methods if they are to extricate themselves from the difficulties which now environ them and destroy their prosperity and the first step in that departure must be uniformity of action among them in this matter of reducing the cotton acreage. We trust there will be a large attendance of farmers at the mass meeting in this city on the 14th inst.

Editor Carter of the Cushing Enterprise is trying to get everybody in his neck of the woods to plant a big patch of peanuts this year.—Beaumont Journal.

And Editor Carter is doing a wise thing. The price of cotton and several other circumstances suggest that the farmers of Texas will have to diversify, and raising peanuts for the market is a profitable form of diversification.

STRONG CITES RECORDS

For Facts in Dave Taylor and Dick Leak Cases.

With reference to a communication of W. J. Blackman which appeared in your paper on Dec. 29th, 1904, purporting to give the facts about the disposition of certain cases, filed by him against Dave Taylor and Dick Leak, beg to submit the following as the true facts regarding the filing and disposition of said cases:

Mr. Blackman appeared before me, as county attorney, and made four complaints against the negro, Dave Taylor, viz: One charging him with assault to murder, one charging him with shooting into a private residence, one charging him with unlawfully carrying a pistol and one charging him with disturbing the peace. The disposition of said cases as shown from the criminal records is as follows: As to case of assault to murder, the defendant, Dave Taylor, appeared before Judge Berger as an examining court, and waived examination and his bond was set by Judge Berger at \$250 to await the action of the grand jury, and after staying in jail about one month he made this bond with R. I. Driver and R. C. Monk as his sureties, which was approved and filed by Judge Berger. (See examining court docket in county judge's office.)

In cases against Dave Taylor for disturbing the peace and carrying a pistol, Taylor entered a plea of guilty to both these charges, and Judge Berger assessed his fines. The total fine and cost in both cases amounting to \$66.45, which was paid by R. I. Driver for Taylor. (See Criminal Docket, page 70, which can be found in the county clerk's office of Nacogdoches county.)

In regard to case against Dave Taylor for shooting into Mr. Blackman's house, it is still pending in the county court, and the defendant, Dave Taylor, is under a good and sufficient appearance bond for his appearance in said case, with R. I. Driver and R. C. Monk as his sureties on said bond. (See the papers in this case in county clerk's office, and you can find the bond). This case will be tried at the proper time.

Now, with reference to the cases against Dick Leak. The defendant Dick Leak entered a plea of guilty to shooting into a private house and to unlawfully carrying a pistol, and Judge Berger assessed his fines—total fines and costs in both cases amounting to \$80.00, which amount has been paid in full. (See Criminal Docket, page 71, county clerk's office of Nacogdoches county.)

The case for disturbing the peace was dismissed upon his pleading guilty and paying off the other two cases as above stated.

Mr. Blackman made no complaint against Leak for assault to murder, for any other felony, hence he could not be put under bond to await the action of the grand jury.

These are the facts in regard to these cases, and I

don't ask you to take my word. Go to the Records that I have cited you to—the Records will show the true facts.

Now with reference to sending the negroes to the penitentiary, will say that is out of my jurisdiction, and besides, no man can even be tried for a felony until twelve men sitting as a grand jury shall return a "true bill" against him. The disposition that has been made of the above cases will not keep the grand jury from finding a bill against either of these negroes for any felony that grew out of the same transaction. Dr. Cox was not sentenced to the "pen" for shooting into a private house, but was sentenced for assault to murder, after a GRAND JURY had indicted him. It is not a felony to shoot into a private house, except under certain circumstances. These are the facts. Investigate the Records. Beeman Strong, County Attorney.

We hereby certify that the above is a true and correct statement, as to the disposition of the cases pending against Dave Taylor and Dick Leak, as shown by the Criminal Records in our offices.

To Reduce Cotton Acreage.  
In compliance with a resolution of the National Cotton Association, I hereby call a mass meeting of all persons interested in the Cotton Industry, to be held at the court house in the town of Nacogdoches, on Saturday, January 14th, 1905 at 2 p. m. for the purpose of reducing the cotton acreage this year.

At this meeting vice presidents will be elected, who will hold precinct meetings at each school house in the county on Saturday, January 21st 1905. The vice presidents of the precinct meetings will get as many farmers as are willing to sign the following agreement:

"We the undersigned farmers of voting precinct No. — Nacogdoches county, Texas, hereby pledge ourselves to reduce the acreage of cotton to be planted by us in 1905, 25 per cent below the amount we planted in 1904.

The presidents of the precinct meetings will take the names, postoffice address, and also the cotton acreage they will plant this year, of those who refuse to sign said agreement, and also have a committee appointed at the precinct meetings to visit every farmer, every landlord, tenant, white or black, who are not at the meeting, to secure their acreage in cotton.

The president of the different meetings will mail written reports, as early as practicable giving the names and acreage of all who sign, and those who do not sign the agreement, to Oswald Wilson, National Secretary, Fort Worth, Texas.

Mims & Strong.  
C. D. Mims and Beeman Strong, Esqs., of this city have entered a co-partnership for the practice of law, the partnership dating from Jan. 1st, 1905. The new firm will occupy elegant rooms in the second story, of the new Hardeman building when completed. In the meantime their offices will remain as at present. The co partnership will in no wise interfere with Mr. Strong's duties as county attorney, nor with Mr. Mims' practice of criminal law. Mr. Strong will continue as county attorney and if necessary will have the assistance of his partner. The object of their co-partnership is to promote their mutual interests in the practice of civil law.

Mr. Mims is, as is well known, a prominent member of the Nacogdoches bar; is favorably known throughout the 2nd judicial district and at Tyler, where he was formerly a resident attorney and still continues to practice in the higher courts. He was also a prominent member of the bar at Beeville, from which place he moved to Nacogdoches. He has enjoyed a lucrative and increasing practice since he located in Nacogdoches, stands high as a citizen, and as chairman of the county democratic executive committee had the honor of leading the entire ticket to victory in the last election, his earnest, patriotic and intelligent work contributing very materially to the result.

Mr. Strong is almost a native of Nacogdoches county; was born and reared just across the line in Rusk county near Garrison. He is a rising young attorney of decided ability and force of character, now serving his second term as county attorney and harboring prospect of promotion to the office of district attorney of the 2nd judicial district two years hence. He is making a very fine record in his present office.

The new firm is an unquestioned combination of ability, worth and popularity and The Sentinel bespeaks for it the success and prosperity its members richly deserve.

I had Nasal Catarrh for years for which I used S. S. S. with very gratifying results. I tried local applications for some time, and getting no permanent relief I came to the conclusion that the seat of the trouble was in the blood. Knowing S. S. R. W. Morgan, editor of the Caro Opportunity, is in the city today.

Mr. Z. G. Stripling and mother, of Attoyac, are in the city shopping today.

J. O. Brice, of Shelby county, is in the city today selling cotton and trading with his friends.

W. W. Perry went up to Cushing last night to attend to the bankrupt stock of Belk & McCreary.

Miss Ruth Blanton, of Trawick, is in the city today on a shopping trip. Miss Blanton is the teacher in the public school at Trawick.

Mrs. Lamar Blount left this morning for her home in San Augustine after a pleasant visit to relatives and friends in this city.

The Nacogdoches Iron Foundry burned this morning at 7:30 o'clock. How the fire originated is not yet known. Mr. Winston, manager of the foundry, had left the building about thirty minutes before the fire broke out. There is a complete loss of more than \$1000, there being no insurance on neither building nor fixtures. The building, engine and boiler, with a supply of patterns and other fixtures, was the property of Z. F. Mize, formerly of this city.

Martin Day has accepted a position at Clevenger's commissary.

**Burned To Death.**

Mr. J. K. Hodges, of Appleby, was a visitor at The Sentinel office yesterday afternoon. Mr. Hodges reports the tragic death of a Mrs. Stone, which occurred near Appleby Wednesday. Mr. Hodges could not give particulars of the accident, but said the death of Mrs. Stone was caused by her clothing catching fire totally burning her before the fire could be extinguished.

The firm of Belk & McCreary, general merchants at Cushing, have closed their doors and gone into voluntary bankruptcy.

At the opening of school after the Christmas holidays two new teachers were added to the list of teachers already employed in the Nacogdoches schools. Miss Bertha Cook, of Austin, now has charge of the low fifth grade at the Central school, and Mrs. C. A. Hodges of the third grade at West End. There are in all, fifteen teachers employed at the two buildings, 11 at the Central School and 4 at West End. There are more than 500 children at Central school and over 100 at West End school. With nearly 700 pupils, 15 good teachers and two beautiful buildings, we should feel that our school's are a source of just pride to our community, and that we should do all in our power to sustain them and give to Prof. Davis and his associates every possible encouragement in the great work in which they are engaged.

## Weekly Sentinel.

HALTOM & HALTOM, Proprietors.  
R. W. HALTOM, Editor

PLANT an orchard and a few acres less cotton in 1905.

THE "third house" is doing business at the old stand at Austin.

JUST keep "a pushin' and a shovin'" and we'll have water after awhile.

THE boys have congregated at the state capitol and there will be a hot time for ninety days.

THE free pass will bob up again to be mashed into a cocked hat by the 29th legislature.

DON'T attempt a joke on the legislator and the newspaper man. It is too chestnutty. It is impossible to get off anything new.

THERE is a belief that the present term of the legislature will last five months. Let us hope that Texas is not doomed to such a calamity.

THE legislature convened in its 29th regular session at high noon yesterday. The session has a busy time ahead of it. It can do great good for the country if it will do so.

THE boll weevil is the best friend the farmer has in the cotton belt. Texas ought to withdraw that fifty thousand dollar offer for a boll weevil remedy.

LET'S get a move on us and do something to back up Congressman Cooper's bill for a \$25,000 appropriation for a public building at Nacogdoches.

THERE are one hundred and thirty-three legislators and 'steen hundred candidates for elective and appointive positions at Austin. The agony of a legislators life is the day before the session opens.

THE Austin Statesman thinks that probably the most important matter that will come before the present legislature is the return of Charley Culberson to the United States Senate. That is an important matter but there is nothing that will touch the tax question as a matter of importance. The latter will take up more time than any other side issue before the 29th legislature.

TOUCHING the matter of the proposition to increase the tax rate in Texas which will be presented for consideration at the present session of the legislature, it would be a bad move for the State to increase its present rate of taxation which stands about third in the United States. The remedy for the States present financial troubles is at the option of the property owners and if a proper law is enacted which will compel a fair and honest rendition of property at its reasonable value the treasury will fill without further to do. Gov. Hogg's suggestion is that property should not be taken at less than its insured value.

THE tobacco business promises to become a matter of great importance to our farmers. The government has experimented to its satisfaction and now recommends that farmers grow tobacco. Help and instructions can be had for the asking and we hope to see our people avail themselves of the opportunity to add another staple product to their trade.

THE agricultural department has been tampering with the cotton crop and making bad matters worse all this year, and for the good it is doing it had as well call off the ginners' reports. A decline has followed every ginners' report this fall. One determined bull with a backbone like Sully or Brown, while, he may get tripped in the end, is worth more to keep up the price of cotton than the whole government or any other influence except the boll weevil.

IF the new rules suggested by Mr. Seabury, who will be elected Speaker of the House of Representatives of the 29th Legislature without opposition are adopted at this, and at this writing it looks very much like they will be, there will be a possibility of expediting business so as to avoid a continued session after sixty days, or the calling of a special session to follow immediately upon the adjournment of the regular session as was done two years ago. From the signs, the 29th is going to be a business legislature.

Editor Haltom of The Sentinel, who was elected a member of the legislature that assembles at Austin today, has been having a whole lot of trouble for the last two months. His presses have broken down, his engine has balked, printers have "flew the coop," reporters have played him tricks, and his hired editor jumped his job without a moments warning. All of these things have come to Brother Haltom, he says, since the "fool editor of The Sentinel became a candidate for the legislature." Haltom's experience no doubt has been a hard one, but he is not the only man by many who can date their troubles from the day they jumped with both feet into the political arena. Why the editor of a spicy, popular paper like The Sentinel should want to step down from his high and exalted position to that of a member of the legislature is one of the unreconcilable things of this life. It is his duty to make legislators, not be of them.—Beaumont Enterprise.

You are right brother. We agree with you, and will do our best to keep the editor in an editor's place in the future.

THE Nacogdoches Sentinel credits us with a killing scrape last week. Dear Sentinel, we plead not guilty, as nobody was even hurt here during the holidays. Old John Barleycorn was given a fair show and only succeeded in causing some new brands of swear words to be invented. No bones were broken, but many bottles were. Caro is going to be a model town, and set all of the country a good example. Just watch us.—Caro Opportunity.

Rose Lake trees grow.

## COUNTY FAIR TALK.

Towns, like people, if they wish to be well advertised, must always be doing something. The kind of advertising they get depends on what kind of things they are doing. Whether this will benefit the town and county depends on what kind of advertising they receive. When a town looks after public improvement, when citizens take pride in improving individual property and beautifying the town, such a town will be advertised—it will attract new citizens, who will settle among you, help build up your city and bear the burden of further improvements. The same can be said of the country. No city or town can or will flourish until the farmer flourishes, for he is the fountain head of all. Many country homes now have all the conveniences of a home in any of our up-to-date cities. This, the writer knows to be true, for I have visited such homes. Ten years ago we raised lots of cotton, but for a period of some years the price made this crop unprofitable to the majority, hence debts. About five years ago the boll weevil made his appearance in Texas and has gradually made inroads into this crop. He is now in East Texas, and in some portions of Texas he has practically bankrupted both merchant and farmer. This the writer has seen. Now the above is not intended to discourage cotton growing, for there are farmers who are still successful growers, despite the weevil, and it is to be regretted that all are not equally successful. Nothing tells the tale like success in anything, therefore the object of this article is to endeavor to interest the property owners of the city of Nacogdoches and also of the surrounding territory on the subject of a County Fair and the benefits to be derived from it. The history of the weevil afflicted sections have proven that a cash business and diversification are the remedies. Credit prices will ruin any farmer, white or black. The highest type of civilization the world over is to be found in countries where production is varied, and where on the face of the earth is there such a wide range of products as is to be found in Texas and here in Nacogdoches county can be raised crops which even the citizens of this county know not of. A County Fair will bring this not only to the attention of the citizens of Nacogdoches county, but to surrounding territory. The first thing the specially attracted my attention in your city was the fine display of Nacogdoches county products in the show window of the Nacogdoches Land Company. Last summer I visited a community fair at Troupe, Texas. I heard numbers of farmers in speaking of the exhibits say that they did not know that such articles were being grown in Smith county. Space will not admit of my speaking of all the benefits to be derived from a county fair. No enterprise can be successful without money. This County

Fair cannot be gotten up without it, it seems natural to ask, how can it be raised. The writer believes the merchant cannot and will not raise it alone, and to let the burden rest with him will result in procrastination, our common fault, and the harvest is unsatisfactory. Therefore I suggest that you organize a Chartered Business League with a specified capital and let your fair be annual and permanent. Get out your premium list early. The most successful County Fair the writer ever attended was at New Kirk, O. T., it lasted four days. The merchants offered liberal premiums in addition to the premiums offered by the fair association. What specially attracted my attention at this fair was that it was officered mainly by farmers, but the merchants, bankers and in fact everybody entered heartily into it and it was a grand success. In Corsicana, I met a gentleman from Canada, he says that where he lived every township had regular annual fairs. Each member paid one dollar and the government supplemented that dollar. There was no admission fee charged and each member had four tickets. Twenty-five cents was the charge for non-members. This encouraged every head of a family to be a member. He tells me this met with a hearty approval, the fair lasting two days. Premiums were not large, but the competition was. He says no takes nor takers were allowed on or near the ground, but had nice amusement for the people, boys, girls, ladies and in fact all took part. At New Kirk there were several large premiums, one implement firm gave the finest survey in stock to the best individual farm display. In order to get this matter properly before the people I will take pleasure in meeting the bankers, merchants and farmers of Nacogdoches county and in fact all who are interested in a county fair. The ladies must not be forgotten, for they must be given an opportunity to show what they can do in their several departments. In fact, a fair, nor anything is a success without them.

M. H. Moore.

REPRESENTATIVE HANCOCK, a member of the 29th legislature from Dallas, is either a rank demagogue or a true patriot. He has refused complimentary annual passes over seven railroads, and gives as his reasons therefor that the last two democratic state conventions denounced free passes as an evil; that this is the law of his party which he will obey without waiting for legislative action. In returning the passes Mr. Hancock advises the railroads that it is his belief that this legislature will pass an anti-free pass bill and asks why do not the roads anticipate this action and revoke their free passes. There can be no doubt but that the free pass is an evil, but some how the fellow that totes them generally manages to convince himself that they are "necessary evils," and there will be few who will take the course of Representative Hancock. The roads know this, and in

## THERE'S A DIFFERENCE.

Have you ever noticed what a marked difference there is in Furniture?

You can't always judge good furniture by the price—some dealers put high prices on cheap stuff because it happens to show up well. With us it's different—we have a small per centage we add to the factory cost to each article alike. We show our customers the difference, and how the cheap and the good kind of furniture is made. Come and see us and we'll convince you with the fact that our goods and prices are right. We'll appreciate your visit.

that fact exists a thread of hope, which they will not cease to play upon until a stringent law is passed by which the giving and taking of passes is absolutely prohibited.

Dr. Holt has Resigned.

The people of Nacogdoches will learn with deep regret that Dr. A. J. Holt, the distinguished pastor of the First Baptist church in this city, at a business meeting of the church called after prayer-meeting Wednesday night, tendered his resignation as pastor and announced his purpose to seek a new field of labor. Dr. Holt has, we believe, had the matter under consideration for some time and has at last gained his consent to accept the presidency of a large female college at Knoxville, Tenn., to which he has been called. His resignation was accepted by the church here with great reluctance and he was earnestly urged to remain, but he felt it his duty to go to the new field of duty awaiting him and he declined to reconsider his decision. A committee was appointed to express suitable resolutions on the subject and

secure a new pastor to the church. Dr. Holt will preach his last sermon here next Sunday, and will leave with his family early the following week for his new home. His departure is a great loss not only to the Baptist church but to Nacogdoches and to East Texas. He is a man of eminent ability, deep, true piety, eloquent scholarship, delightful personality and great force of character. He is foremost in all good work and a potential factor in our civic as well as our moral and religious life. He has been the very heart and soul of the effort to get the East Texas Baptist College for this city and he will be greatly missed in the future negotiations to that end. God bless this great and good man in his new field of labor. He carries with him the profound respect and admiration of all the people of Nacogdoches and by those within the circle of religious ministrations he is warmly beloved.

Mrs. Philip Klease, who has been visiting her sons, R. E. and M. R. Klease, of this city for the past few weeks, returned last night to her home in Edna.

**APPLEBY LOCALS.**

Appleby, Jan. 8.—Our little village is looking somewhat gloomy on account of the sleet and cold.

The low price of cotton is hurting us all very badly. Nearly every farmer in this country is holding about half of his crop of cotton yet.

Sheriff Luckner was here today looking for a horse thief but did not get any information.

Our school still increases in number and in interest. It has become necessary for the Board of Trustees to employ another teacher.

Mrs. Carter, of Mt. Enterprise, is here to begin a music class tomorrow.

There was church services today at the Christian church and Rev. Stuart, of Jacksonville, filled his appointment at the Baptist church today.

Mrs. Wilson, of Chireno, is here visiting Mr. H. H. Greer and family.

Uncle Bill Collins, of Garrison, has been passing jokes at Appleby this week, but went back today.

Mr. W. F. Mills, section foreman near Jacksonville, came in yesterday to see his wife, who is still very sick here.

Mrs. Williamson, of Garrison, is here and will remain with Dr. Hartt's family for several weeks while he attends a post graduate course in medicine at the State University of Galveston.

Prof. Jno. Weatherly spent yesterday and today at home. He is teaching school below Nacogdoches.

Mr. Pinkston has just moved here from Chireno and will run a blacksmith shop.

Mr. McKinney, our railroad agent, is able to begin work again after a relapse of typhoid fever.

We regret very much to report the sad death of Mrs. Stone, who burned to death 3 miles North of here last week. Mr. Stone has our sympathy.

The W. O. W. met last night and installed the new officers for the ensuing year. Much interest was taken. Dr. G. E. Samuels was elected camp physician to act while Dr. Hartt is at Galveston.

**Tonic to the System.**

For liver troubles and constipation there is nothing better than DeWitt's Little Early Risers, the famous little Pills. They do not weaken the stomach. Their action upon the system is mild, pleasant and harmless.

Bob Moore, of LaFayette, Ind., says, "No use talking, DeWitt's Little Early Risers do their work. All other pills I have used gripe and make me sick in the stomach and never cured me. DeWitt's Little Early Risers proved to be the long sought relief. They are simply perfect." Persons traveling find Little Early Risers the most reliable remedy to carry with them. Sold by Perkins Bros.

J. W. Curl, of Chireno, is in town today. He says that he has sold his property at Chireno to Sam Thomas and will probably move from there soon. Nacogdoches may be his next home.

Blount his certain promissory note, whereby he contracted and promised to pay to the said E. A. Blount or order, one year after said date, the sum of five thousand (\$5,000) dollars with interest thereon from date of said note at the rate of ten per cent per annum and further agreed in said note to pay the interest on said note as it accrued annually, and further agreed in said note to pay interest on accrued interest if said interest was not paid when due, and further agreed to pay an additional sum of ten per cent as attorney fees if the said H. C. Wheeler failed to pay off said note at its maturity, and if suit should be brought on said note.

The plaintiff further alleges that he is the owner and holder of said note, and that the defendant has never paid the same or any portion of the principal or interest due thereon. Plaintiff further alleges that the said note was given in payment for 1107 acres of land in Jefferson county, Texas, a part of B. A. Vacoen grant, the said 1107 acres taken in a square out of the southeast corner of said grant, that the note constitutes, and is secured by a vendors lien on said land. D. 1905, the same being the 13th day of March A. D. 1905, then and there to answer a petition filed in the said Court on the 15th day of August A. D. 1904, in a suit numbered on the docket of said Court No. 2050, wherein E. A. Blount is plaintiff and H. C. Wheeler is defendant, said petition alleging that on the 22nd day of October, 1896, made and executed, and delivered to said E. A. Blount, his certain promissory note of said date, wherein he contracted and promised to pay to the said plaintiff, E. A. Blount, or order, in the town of Nacogdoches, Texas, on or before August 1, 1899, the sum of Four thousand six hundred and ten and sixty-five one hundredths dollars (\$4,610.65) with 8 per cent interest per annum from date of said note until paid, interest payable annually, and defendant further agreed to pay an additional sum of 5 per cent on the amount owing on the said note as attorneys fees, if said note was not paid at maturity, if collected by suit.

The plaintiff further charges that in order to prevent said note from becoming barred by the statute of limitation, the said defendant on the 17th day of March 1903, signed a renewal on the back of said note to-wit: "I acknowledge this note to be just, due and unpaid, and for value received promise to pay the same, with ten per cent interest on both principal and interest from October 22, 1902, this March 17, 1903. (signed) H. C. Wheeler."

Plaintiff further charges that on a day of November 1902, the said defendant, H. C. Wheeler, made, signed and executed to this plaintiff and delivered to this plaintiff the following instrument and contract in writing to-wit: "Beaumont, Tex., Nov. — 1902. Whereas I owe E. A. Blount a note of \$4610.65 dated Oct. 1896, bearing 8 per cent interest from its date and on which the interest is unpaid since Oct. 22, 1900, now in consideration of one dollar and other considerations, I hereby agree that interest on the said note and on all accrued interest thereon shall be counted at ten per cent per annum from Oct. 22, 1902, with 10 per cent attorney's fees on said note and interest if collected by legal proceedings. (signed) H. C. Wheeler."

Plaintiff further alleges that the said note for \$4610.65 was given as it purports on its face to have been, in part payment for 5535 acres of land in Jefferson county, Texas, known as the Vacoen grant, and it is secured by the vendor's lien on said 5535 acres of land as above described. Three-fifths of which land, however, having been by the plaintiff herein, heretofore released from the operation of the said lien, the said vendors' lien now remains in force against 2214 acres of said Vacoen grant only, and said 2214 acres against which the said vendors' lien still exists is that amount or quantity of that said grant, constituting the western portion of the same, to be cut off by a line running squarely across said grant. Herein fail not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, R. W. Murphey, Clerk of the District Court of Nacogdoches County. Given under my hand and the seal of said court, at office in Nacogdoches, this 7th day of January A. D. 1905. R. W. MURPHEY, Clerk District Court, Nacogdoches County.

D. 1905, it being the 7th day of said month, before the court house door of said Nacogdoches county, in the city of Nacogdoches, the following described property, to-wit: Fifty-two and three-fourths acres of land lying and being situated about 16 miles N. E. from the city of Nacogdoches on Beech creek, a tributary of the Angelina river, and being the E. N. P. Stanaland preemption survey in Nacogdoches county, Texas, levied on as the property of G. H. Collier and E. N. P. Stanaland on Dec. 14, 1904, to satisfy a judgment amounting to \$84.35 in favor of Geo. F. Ingraham, and \$26.70 costs of suit. Given under my hand, this 14th day of December A. D. 1904. T. E. BUCKNER, Sheriff.

**Notice—Sheriff's Sale.**

The State of Texas, County of Nacogdoches:

By virtue of an order of sale, issued out of the Honorable District Court of Nacogdoches county, Texas, on the 11th day of November, A. D. 1904, by the clerk thereof in the case of Chas. Hoya versus Wesley Bell, No. 7979a, and to me, as Sheriff directed and delivered, I will proceed to sell for cash, within the hours prescribed by law for Sheriff's Sales, on the first Tuesday in February, A. D. 1905, it being the 7th day of said month, before the Court House door of said Nacogdoches county, in the city of Nacogdoches, the following described property to-wit: 93 acres of land in two tracts lying and being situated about 14 miles N. E. of the city of Nacogdoches, in said Nacogdoches county, on the T. S. Pullen 320 acre survey. Beginning at the S. E. corner of tract sold by R. T. Paterson to Geo. Pleasant, thence north 610 vrs, thence east 389 1/2 vrs, thence south 610 vrs, thence west 389 1/2 vrs to place of beginning. 2nd tract: Begins on east line of the Pullen survey S. E. corner of Paterson tract, thence W. 760 vrs, thence S. 371 3-10 vrs to corner, thence E. 760 vrs to corner, thence N. 371 3-10 vrs to the beginning, and being the same land sold to Wesley Bell by deed dated October 9, 1903, to which reference is here made for better description, levied on as the property of Wesley Bell on Dec. 14, 1904, to satisfy a judgment amounting to \$213.40 in favor of Chas. Hoya, and \$29.50 costs of suit. Given under my hand, this 14th day of December, A. D. 1904. T. E. BUCKNER, Sheriff.

Mrs. E. M. Weatherly and children, who have been visiting her parents in this city have returned to their home in Garrison.

**The Original.**

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. Perkins Bros.

It pays to advertise in The Sentinel. Mr. Joe Rogers, a few days since lost his mule, advertised for it in the Sentinel—his mule is now munching his corn in his master's barn.

Mrs. S. A. Richardson, who has been ill for the past week or two, is improving, but still confined to her bed.

**Don't Give them Toy Pistols.**

A toy pistol is the wrong kind of a gift for your boy, teaching him the first lesson in the pernicious habit of pistol "toting." There are plenty of other things that will please his fancy and have no evil tendency. It does not require a stretch of the imagination so see that the boy who learns to love the toy pistol will later have a yearning for the genuine gun. Watch how the little fellow wears it in his hip pocket if he has one, or in his waistband, and imagines he is already Billy the Terror. Cut out the toy pistol. Oh, it is not necessary to give the boy a copy of the Testament, or Pilgrim's Progress, but there are a thousand and one things that will interest him besides a pistol.—Comanche Chief.

**FROM BLIZZARD-SWIFT, IOWA.**

**Cold Facts and Warm Advice For Texas Farmers.**

Editor Sentinel:

Colman, Iowa, Dec. 29.—  
On Tuesday, Dec. 27th we had for the first time in 17 years a regular Northwest Iowa blizzard. The storm raged in all its fury from early morn until late at night: thermometer from 8 to 12 below zero; wind blowing a hurricane; air filled with snow so that you could not see anything ten feet from you. On Wednesday morning what a scene! Snow drifts from 6 to 12 feet deep, streets blocked, traffic stopped, passenger and freight trains snow bound, some at stations, others in deep cuts between stations. But by Thursday noon railroad trains were moving on time, business moving along same as usual in all lines. Years ago such Northwest blizzards were common, but of recent years winters have been much milder. Same thing can be said of cyclones. Years ago certain sections of this state had many "twisters" demolishing whole business blocks and many lives lost, but recent years no such storms. In traveling along railroads in this state you see farm houses and big red barns on every quarter section, school house every two miles, towns every 6 or 8 miles, where you see from two to five church steeples; buildings on farms and towns all nicely painted, denoting prosperous condition. Farm lands selling from \$75 to \$100 an acre, this result being brought about by raising and feeding cattle and hogs and horses. Yes, raising turkeys, chickens, ducks and geese and milking cows and selling butter and eggs. What is true of Iowa is true of Southern Minnesota, Wisconsin and Illinois. Diversified farming is what wins.

With such a prosperous condition among Northern farmers despite long winters what ought the Texas farmer to do where he is not compelled to house his stock and feed six months every year and spend nearly three hundred dollars a year for fuel and warm clothing? Continuing raising cotton will never make you rich.  
Carl E. Oleson.

Mr. J. A. King, who recently sold his barber shop to Bob Smith, will probably move to Shreveport, where he has a tempting business proposition.

**Nacogdoches Building.**  
A press dispatch from Washington yesterday says that Representative Cooper on that day introduced a bill in the House providing for an appropriation of \$25,000 for the erection of a government building in Nacogdoches.

Gus Cordova and family are moving from their old home south of this city to Center, where he will open a restaurant. Gus has no intention of leaving Nacogdoches to stay, hence he retains his home and all his lands in this county. He expects to return to his old home and farm whenever he tires of public business. The Sentinel wishes him success wherever he sojourns.

#### Four Hundred Babies.

St. Vincent's Infant Asylum, Chicago, shelters homeless waifs awaiting adoption, and there are nearly 400 babies there. Sister Julia writes: "I cannot say too much in praise of Foley's Honey and Tar for coughs, colds, croup and whooping cough." Contains no opiates and is safe and sure. Ask for Foley's Honey and Tar and insist upon having it, as it is a safe remedy and is certain in results. Refuse substitutes. Perkins Bros.

#### "A Walker Chicken."

A few years ago during the banner days of the "Walker boys" and when Walker dinners and suppers were the feature event of the season one of the leading Walker's proposed to me that we give a Walker supper, so I being up with my dues accepted the offer, and the custom was to prepare things the night before so we struck out to see where we could locate a few hens and after about two hours rambling we run across a large black hen roosting on a certain high pile of stove wood. As the night was so dark we decided to post, one the supper to some later time, we took our hen back of Pat Jenkin's store and put her under a box, but both forgot all about it and about a week after that I happened to think of our hen and went back to see about her and there she was setting on seven eggs. I gave her to Jeff Odell and she is still with him and lays an egg every day and every egg has two yolks in it. Now if that aint Walker, what is? G. P.

#### Wonderful Nerve.

Is displayed by many a man enduring pains of accidental cuts, wounds, bruises, burns, scalds, sore feet or stiff joints. But there's no need for it. Bucklen's Arnica Salve will kill the pain and cure the trouble. It's the best Salve on earth for piles, too. 25c at Stripling, Haselwood & Co. druggist.

The little black and tan terrier, belonging to Miss Mary Hoffman, and so well known by her friends as "Jerry," died yesterday morning. This venerable little dog was fourteen years of age, he came with Miss Hoffman and Mrs. Cooper when they came from Lancaster, Penn., to make Nacogdoches their home. He crossed eleven states in a wicker basket, under the seat of a pullman car, without disturbing the peace of the other passengers and never letting the conductor know he was about, so well did he behave.

#### Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A R Bass of Morgantown, Ind. had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys and was cured by Foley's Kidney Cure. Sold by Perkins Bros.

R. H. Baxter, of Looneyville, called on The Enterprise Saturday evening and brought up the subject of truck, etc, for Cushing during the coming year. It is time for all our farmers who are contemplating planting truck to begin to study up on it and get an even start with our neighbors. Mr. Baxter is much interested in the establishment of a rural tree delivery route through the settlements to the south of Cushing and using Libbert as the extreme. It is to be hoped that those people will soon be favored with what they want and should have.—Cushing Enterprise.

#### Saved From Terrible Death.

The family of Mrs. M. L. Bobbitt, of Bargerton, Tenn., saw her dying and were powerless to save her. The most skilled physicians and every remedy used, failed, while consumption was slowly but surely taking her life. In this terrible hour Dr. King's New Discovery for consumption turned despair into joy. The first bottle brought immediate relief and its continued use completely cured her. It's the most certain cure in the world for all throat and lung troubles. Guaranteed, Bottles 50c and \$1.00. Trial bottles free at Stripling, Haselwood & Co.'s drug store.

I have a farm of 70 acres five miles North of town on Henderson road that I want worked and on account of having fruit trees on it I will give renters all they make and pay extra besides. Do not apply unless you have teams to work 70 acres.

#### Roberts—Paige.

From Monday's Daily: Sunday morning at 10:30 o'clock, at the City Hotel Mr. Felix Roberts, of this city, and Miss Fannie Paige, of Palestine, were united in the holy bonds of matrimony, Rev. J. T. McClure officiating.

Mr. Roberts has been for the past few months an employe in The Sentinel office. He is closely related to our worthy townsmen, F. R. and F. H. Tucker.

Miss Paige is a sweet young girl, born and raised in Palestine, her father was a well known contractor in that city.

Mr. and Mrs. Roberts will be at home to their friends at the home of Dr. F. R. Tucker.

This young couple have the heartiest congratulations and best wishes of The Sentinel for their future happiness and prosperity.

#### Domestic Troubles.

It is exceptional to find a family where there are no domestic ruptures occasionally, but these can be lessened by having Dr. King's New Life Pills around. Much trouble they save by their great work in stomach and liver troubles. They not only relieve you, but cure. 25c at Stripling, Haselwood & Co.'s drug store.

Mr. R. W. Haltom has taken his departure for the capital city of the great state of Texas where for the term of the 29th assembly of the legislature he will represent Nacogdoches county as one of the law makers of the country. On the eve of his departure Mr. J. T. Dixon something after the manner of the Arah, "quietly stole away." Therefore The Sentinel's editorial department suddenly and unexpectedly became vacant and but for the timely offer of Mr. June C. Harris to relieve the situation until permanent arrangements could be made Texas might have had one law maker less for awhile for it is certain Nacogdoches must have The Sentinel whether other things go right or not. With this explanation The Sentinel trusts an indulgent public to excuse "bad spillin' and po writin' for a brief period."

Price 75 cent per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

## Don't Experiment.

You Will Make No Mistake if You Follow This Texas Citizen's Advice.

Never neglect your health. If you are always tired, or have pain in the back, urinary disorders, dizzy or nervous spells, it's time to act. These are all symptoms of dangerous kidney troubles and you should use a remedy which is known to cure these troubles safely and surely. Doan's Kidney Pills is that remedy, and if you wish to be cured of kidney trouble without experimenting, do not fail to use it. Others have been cured and cured permanently. Why not follow the advice of a Texas citizen and be cured yourself?

J. G. Browning, of Dallas, bookkeeper for Betterton & Morgan, 188 North Jefferson street, residing at 184, South Harwood street, says: "In the spring of 1902 I stated through our Dallas papers that Doan's Kidney Pills cured me of either weakened or over-excited kidneys which had annoyed me far too long to be pleasant. A remedy which can be depended upon to do all that is claimed for it, deserves not only the endorsement of the public, but the recommendation of Doan's Kidney Pills for another year."

Sold by Perkins Bros. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name — Doan's—and take no other.

The Florida, Havan & Sumatra Co., have purchased a part of the Redfield farm and will continue to grow tobacco here. They are conservative, trustworthy business men, they don't talk much but do a lot. They don't blow their heads off through the public press, but raise and manufacture and sell tobacco. If Nacogdoches develops into a tobacco field this company will deserve the credit.

#### No More Stomach Troubles.

All stomach trouble is removed by the use of Kodol Dyspepsia Cure. It gives the stomach perfect rest by digesting what you eat without the stomach's aid. The food builds up the body, the rest restores the stomach to health. You don't have to diet yourself when taking Kodol Dyspepsia Cure. J. D. Erskine, of Allenville, Mich., says, "I suffered heartburn and stomach trouble for some time. My sister-in-law has had the same trouble and was not able to eat for six weeks. She lived entirely on warm water. After taking two bottles of Kodol Dyspepsia Cure she was entirely cured. She now eats heartily and is in good health. I am glad to say Kodol gave me instant relief." Sold by Perkins Bros.

There was a runaway marriage at the Watson Hotel last night at 7 o'clock. Mr. Moore of Palestine and Miss Neal of Patroon were the contracting parties, Rev. J. W. McClure officiating. Mr. and Mrs. Moore left this morning for their home in Palestine.
