## The Good Old Summer Time

Summer time is "Bathing Time," not only at the shore or stream, but in the tub at home. How good it feels to take a bath after you have gotten grimy, sticky and uncomfortable. A bath twice as good when you have the right soaps, a good sponge, a few handfuls of sea salt in the water and a fresh brush. These are a few suggestions of the "bathing" helps you will find here.

**Perkins, Kleas & Mast**

Master Luke Lucas who recently received a painful hurt on the left knee by falling from a plank spanning a deep ravine at Sacul has been at the home of his grandparents, Mr. and Mrs. J. G. Orton, of this city, the past week for treatment by Nacogdoches physicians. The wound continued to grow worse until it was necessary to perform an operation to save his leg, which was done Monday by splitting the flesh to the bone and boring into the bone to let out the bruised blood. Since the operation was performed the patient is getting along nicely.

### Jail Delivery.

Center, Texas, May 4.—Last night George Ellington and a party named Gordon escaped from the county jail.

Both were confined in a cage on the second floor. A bolt which was still damp with some kind of acid when discovered was sawed through, letting the inmates of the cage into the runaround. A hole was then picked through the brick wall beneath a window and the prisoners crawled out and slipped to the ground down a rope made of their bed quilts.

The delivery is supposed to have occurred about one o'clock in the morning and no trace of the escaped men has yet been discovered. *Timpson Times.*

Nacogdoches cigars have so far proven a success. The factory is virtually swamped with orders, both duplicate and from new patrons. The present force cannot take care of the business and four new cigar maker's tables have been ordered made and four new cigar makers will be here in a few days to go to work in the factory. This will give the factory a working force of sixteen expert cigar makers. Louis P. DeMouche the manager, says by the early fall he will have twenty experts on the pay roll of the Nacogdoches factory.

### Saved by Dynamite.

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her, so she took Dr. King's New Discovery for Consumption, Coughs, and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and LaGrippe. At Stripling, Hazlewood & Co., dtug store, price 50c and \$1.00; guaranteed. Trial bottle free. *dw*

### Justice Court.

Yesterday was the first of the month and people were too busy dodging bill collectors to get into much trouble. One case, however, was up for adjustment. The charge was malicious mischief. A plea of guilty was entered and the fine and costs placed at the modest figure of \$18.75.

Five civil and two criminal cases were filed.

### Time Tried and Merit Proven.

One Minute Cough Cure is right on time when it comes to curing coughs, colds, croup, whooping cough, etc. It is perfectly harmless, pleasant to take and is the children's favorite cough syrup. Sold by Perkins, Kleas & Mast. *dw*

### THE TRUCK SITUATION.

A call has been issued by the secretary of the Nacogdoches Fruit and Truck Growers' association for a meeting of that organization on next Saturday. This meeting is one of especial interest to every member of the association and the entire territory embraced by the bounds of the association. The meeting is called for the purpose of electing an inspector and shipping agent, and also for making arrangements for potato sacks and crates. The truck situation in Nacogdoches has reached that point this year, where every member should attend the meeting on Saturday and select good and competent men for the responsible positions named in the call, so if you refuse to attend the meeting and the election is not according to your liking you will have yourself to blame—therefore you will have no kick coming and in fact you will not be entitled to a kick. A little more enthusiasm on the part of the membership is needed, a thorough organization on the part of the truck growers, and then the truck growing problem will have been solved. Other sections not so favorably endowed with natural advantages as Nacogdoches county are rapidly forging to the front as fruit and truck producing sections, and it was brought about through the fruit and truck growers' associations of the respective localities. Nacogdoches is favored with all the good things provided for by nature that can be found in other localities, and in fact has many not found elsewhere and all that is needed now is for the Nacogdoches Fruit and Truck Growers' association to raise a little enthusiasm and let the press of Nacogdoches do the rest.

A few days since Braton's Restaurant placed a small ad in the Daily Sentinel stating that they would handle fish on certain days during the week. The printer got in a wrong day and when that day arrived the restaurant was swamped with telephone orders. Mr. Chas. Braton told a Sentinel reporter that every body in Nacogdoches took the Daily Sentinel and read the advertisements. He said he was highly pleased and would keep an ad going all the time. "You bet it pays to advertise," he said when asked what he thought about the Daily Sentinel as a medium through which to reach the city trade.

### For School Trustees.

The matter of electing four trustees for the Nacogdoches schools is now before the people. The retiring trustees are H. I. Burk, E. C. Monk, F. B. Hardeman, and Giles M. Haltom. These gentlemen have made the Nacogdoches schools good and efficient trustees, and have with their co-workers given Nacogdoches a system of schools second to none in the State of Texas. These gentlemen have been approached by the friends and patrons of the schools to run for re-election, they have consented to permit their names to go before the voters for re-election, and The Sentinel takes pleasure in presenting their names to the qualified voters of Nacogdoches Independent School district for re-election, and believes that in so doing that it would be a hard task to find four citizens better qualified to fill the responsible position of trustees for the city's large and growing schools. The election will be held next Saturday, May 6, at 10 o'clock.

### A Good Suggestion.

Mr. C. B. Wainwright of Lenoir City, Pa., has written the manufacturers that in the better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in water as hot as can be drunk. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. Sold by Perkins, Kleas & Mast. *dw*

### Hot Weather Piles.

Persons afflicted with piles should be careful at this season of the year. Hot weather and hot drinking water contribute to the conditions which makes piles more painful and dangerous. DeWitt's Witch Haile Salve stops the pain, draw out the soreness, and cures. Get the genuine, bearing the name of E. C. DeWitt & Co. Sold by Perkins, Kleas & Mast. *dw*

### James Burk Dead.

Yesterday morning Jim Burk died at his home near Linn Flat. Mr. Burk leaves a wife and three children, and a mother (his father having died several years ago) to mourn his demise. Mr. Burk was a most excellent citizen and a christian gentleman and his loss is a great one to the community where he lived.

The remains were laid to rest in the Linn Flat cemetery this morning at 10 o'clock.

The Sentinel extends its large and growing sympathy to the bereaved family and readers in this connection.

### How to Keep Old Age

The most successful way of warding off the approach of old age is to maintain a vigorous life by eating only food suited to your age and occupation and when any disorders of the stomach appear take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these Tablets to be just what you need. For sale by Perkins, Kleas & Mast. *dw*

TEXAS was held up and sand bagged by the special session of the legislature.

THE farmers of Eastern Texas ought to be able to feed themselves and the small towns in their locality.

WE'VE had our forty days of rain and forty days of sunshine is now badly needed.

THE hip pocket gun claimed four victims at Hempstead and has put that town in mourning.

"THE coward fancies perils which do not exist" and "totes" a six shooter in his pocket to kill at pleasure.

If it was only a penitentiary offense to carry concealed weapons, the promiscuous habit of "toting guns" would be a thing of the past in a short time.

IT'S up to the members of the legislature to explain to the dear people why a recess for one whole week was taken and full pay was drawn for that week.

Now, honest, instead of being the ice man, how would you like to be the Czar?—Beaumont Enterprise.

Not in this good old summer time.

THE twenty-ninth legislature made more noise and done less than any previous session. It was more on the order of a country debating society than a law making body.

IT is now announced that Mr. Garfield will pay Texas a visit for the purpose of looking into the operations of the oil trust in Texas. It reports are true he will have an opportunity to get busy.

"In certain localities in this country," says State Press, "the subjects of conversation and discussion are regulated, it would seem, by the seasons and the weather. State Press knows the State so well that he can at any time tell weeks in advance or by the reports of the weather what is going to be discussed in forty localities in Texas. For instance, if it sprinkles, the Sherman and McKinney papers may be looked to advocate the building of sidewalks. A little further west, say in Wise County, as soon as the weather begins to get warm the people will commence to talk of the necessity of a public well in each of the towns. In East Texas they commence to talk about the berry crop in April, the peach crop in June, and then the man the State ought to have for Governor. Up about Clarksville and Paris they have no general subject of conversation to discuss, but at present the people of these two towns are talking about their trip to the

Red River to see the Annie P. which Denison bought to test the feasibility of the navigation of that river. But one subject that all localities discuss when it is a downright wet season is the necessity for good public roads. This discussion invariably drops as soon as the roads dry. Just to illustrate, such things as this always appear in the McKinney Gazette at this time of the year, if there has been a rain. "Patriotism and loyalty are shown in little things as well as big things. If you have not the opportunity of showing your patriotism by dying for your country show your loyalty to McKinney by building a new sidewalk."

GARDEN sass and peaches is a good subject for conversation in Eastern Texas.

THE governor no doubt expects the special session of the legislature to last the full term of 30 days. He has submitted the amendments to the Terrell election law.

Gov. Lanham should hang up prizes for good attendance during the special session of legislature. Five dollars a day is not an inducement sufficient to keep enough members present to open with a quorum.

WHAT the legislature of Texas needs is an official time keeper. When the roll is called and a member is absent without leave his pay should be stopped for that day. Make a law governing this matter. "No work no pay," and the "no quorum present" in the Texas legislature will be only a matter of past history.

Study the imperfections in your own make up first and correct them before criticizing the shortcomings of others.—Nacogdoches Sentinel.

Dear me! Why do you want to shut us all off that way?—Bonham News.

Nope. Don't want to shut 'em all off at once. Just a few at a time to see how it will work.

HAS it come to this? The following special to The Houston Chronicle from Austin will be one of the items to be explained to the "constituents at home" by the members of the Senate. The special reads: "Sergeant-at-Arms Allen of the senate, acting under instructions of Lieutenant Governor Neal, today telegraphed all absentees that unless they reported at once warrants would be issued for their arrest."

THE Chronicle's cartoon on the front page this morning is indeed an appropriate one at this particular time. It shows a man standing on the earth kicking the pistol totter off into eternity. The Chronicle says: "Texas has suffered enough, and her records have been already too deeply stained with human blood, and the day and hour is here when the "pistol totter" must be classed with and caged like other wild animals.

### JAMES R. CURL DEAD.

Final Summons Came to Texas Secretary of State.

Austin, Texas, April 26.—Hon. James R. Curl, secretary of state, died at his home in East Austin, at 10 o'clock this morning, of tuberculosis, after an illness extending over several years.

James Rather Curl was born in San Augustine county, Texas, and was reared and educated in Smith and Cherokee counties; became a citizen of Robertson county soon after attaining his majority, and began the study of law under Judge H. D. Prendergast, now deceased; was elected clerk of the district court of Robertson county in 1876; was admitted to the bar at the end of his term of office, and moved to Weatherford, where he practiced his profession until the latter part of 1881; then returned to Robertson county where, in November 1892, he was elected county attorney; later became a citizen of Travis county and was chief clerk of Secretary of State George W. Smith, from January 1891 to January, 1905; was clerk in the office of comptroller for six years, under Comptroller Finley.

He was appointed secretary of state by Governor Lanham January 23, 1903.

Mr. Curl was married February 19, 1869, at Larissa, Cherokee county, Texas, to Miss Fannie Rentro, who died at Calvert, Robertson county, November 4, 1877, leaving no children. On December 28, 1881, he was married to Miss Ada Rentro, sister of his first wife, who, with six children, survive him.—Houston Chronicle.

Hon. J. R. Curl has a number of relatives in Eastern Texas and in this city, and also at Chireno. Mr. J. W. Curl, of Chireno being a first cousin, and Mr. T. J. Curl of Nacogdoches a second cousin.

CARNEGIE has hatched up another scheme to keep his name before the public, and also to have his name written upon the pages of future history. An Associated Press report of recent date says: The gift of \$10,000,000 by Andrew Carnegie for the purpose of providing annuities for college professors who are not able to continue in active service was announced today by Frank A. Vanderlip, vice president of the National City bank of New York. Professors in the the United States, Canada and New Foundland will share in the distribution of the income of the fund.

"THE House met at 8 o'clock a. m. and immediately adjourned until Monday to attend the San Antonio carnival." This quotation is taken from a Chronicle special from Austin of Thursday. It seems from this that the tax payers are putting up the rhino for the members of the legislature to have a good time with.

THE grand lodge Knights of Pythias has selected Weatherford as the most desirable location for the erection of the widows and orphans home.

### AS AN INVESTMENT FIELD.

In a recent issue The Columbia State called attention to the large and varied and promising fields for the investment of capital in the southern states, urging that it would be more wise as well as more patriotic for men of wealth to place their wealth in these fields rather than in foreign loans or in many of the ventures of kindred nature that seems to attract them.

The New York Times thinks this is a matter well worth discussing and that "the press of the south is doing a national as well as a sectional service in presenting to the public the information that can safely guide to such investments." The Times adds:

There is an enormous amount of undeveloped resources in the south which will ultimately yield to energy, care and intelligence very profitable returns. The progress that has been made in the past forty years is but proof of the far greater progress that can be and will be made. If we try to measure the actual contrast between the south of 1865 and the south of today we can understand roughly at least what the future holds in store. It is one of the wonders of commercial history, and the material resources combined with the moral forces of the people, both so amply demonstrated, give solid security for an advancement still more remarkable.

The south today presents the safest and most profitable field of investment to be found in the United States, and one that promises the brightest future. Unlike the west, the south has never been overdone or over-boomed in the matter of investments, and, as a matter of fact, its potentialities in this regard are illimitable. For every variety of manufacturing the raw material is here, right at the factory door, as is the fuel and water to furnish the motive power. The nearly 30,000,000 residents of the south afford a large local consumptive population, and the haul to the greatest domestic markets of the country is a short one. With the construction of the Panama canal the south will enjoy peculiar trade advantages in the marts of the Orient, and now is the time to get in on the investment ground floor.—Atlanta Constitution.

THE Attorney general has declared the Southern Pacific Merger bill constitutional.

THE House adjourned for three days to take in a carnival at San Antonio, and the pay goes on just the same.

THE Court of Civil Appeals for the Galveston district has just rendered a decision in the suit styled Texas & New Orleans Railroad Company vs. Walker et al. A motion for a new hearing was refused.

A TICKET broker of Houston has notified the railroad commission that he and his associates intend to institute anti-trust suits against the railroads for combining to break up the brokerage business.

THE United States authorities have at last made a raid upon the various lottery joints throughout the country and it is said that Uncle Sam's agents have caught the guilty parties. At Fort Worth \$10,000 worth of tickets were confiscated with about \$1,400 in cash.

### NOBODY SPARED.

Kidney Troubles Attack Nacogdoches Men and Women, Old and Young Alike.

Kidney ills seize young and old alike—quickly come and little warning give. Children suffer in their early years—can't control the kidney secretions. Girls are languid, nervous, suffer pain. Women worry, can't do daily work. Robust men have lame and aching backs. Old folks weak, rheumatic, lame, endure distressing urinary ills. The cure for man, woman, or for child is to cure the cause—the kidneys. Doan's Kidney Pills cure sick kidneys—Cure all the varied forms of kidney suffering. Nacogdoches testimony guarantees every box.

A. Hatchel, farmer, living one and a half miles southwest of Nacogdoches, Texas, says: "About six months ago my wife was complaining a great deal of a bearing down pain across her hips, extending down into her limbs. The kidney secretions were very irregular and scant and there was a scalding in passage. I had heard so much about Doan's Kidney Pills that I went to Perkins, Kleas & Mast's drug store and procured a box. Within twenty-hours after taking the first dose she found relief, and before half a box was used the pains had entirely disappeared. There has been no return of the troubles. Seeing the good Doan's Kidney Pills did for my wife, I started to use them and they acted in my case with equally good results. I only hope the use of my name will be the means of other sufferers finding relief through the use of this reliable remedy."

### MRS. BRODIE DUKE.

#### Attorney Berry Describes Action in New York and Nacogdoches.

Houston Chronicle:

Mrs. Brodie Duke, nee Alice Webb, the tobacco queen, is in Houston, accompanied by Mr. Charles Berry, an attorney from New York, and Mrs. Isabella Vance. The party spent today at the Brazos Hotel and have arranged to depart tonight for Dallas. From that city they will journey to Nacogdoches, there to inspect the tobacco lands which have been so thoroughly advertised since the developments following the marriage of Miss Webb to Brodie Duke, the head of the Duke Tobacco Company.

Mr. Berry represents parties who have become interested in the Texas tobacco lands exploited by Mrs. Duke and is in Texas on a tour of investigation. In that connection Mrs. Duke declares that she will succeed in her efforts, make East Texas a great tobacco country and bring thousands upon thousands of dollars to this country to be expended in development. In New Orleans deeds were passed, she declares, that bear the signature of Brodie Duke and that practically insure the success of the enterprise.

Relative to affairs in New York Mr. Berry offered a word of explanation.

"They have 'railroaded' Brodie Duke as they tried to railroad Mrs. Duke. This lady went to New York, and not only succeed in her efforts to secure the development of Texas tobacco, but married in good faith the great tobacco man. Today he is in Atlantic City and can not speak as he would. If he could I feel assured that he would come to her."

"Attorney Levy, the same man who is now defending Nan Patterson, represents Mrs. Duke in New York. He will win the Patterson case, and he will win out for Mrs. Duke."

While Mrs. Duke declared that affairs in Nacogdoches were practically settled as far as the Taylor case was con-

cerned, she was emphatic in her statements.

"If ever a loan was made upon good faith and with more regularity, with the proper security and according to law, it was the loan upon which they based the indictment against Taylor," she declares. "They tried to indict me and couldn't. Then they went after him."

Mrs. Duke then went on to enumerate other loans that had been made upon a similar basis. She mentioned one in particular that was negotiated to prevent a prosecution of Sanders, who, as explained had violated the national banking law. Three thousand dollars was secured to help him out of the situation.

"Others are altogether satisfied with their loans, and the security," she declared. "They were practically upon the same conditions as the loan effected at Nacogdoches."

Mrs. Duke, her attorney and her chaperon, came south by steamer to New Orleans. From that city they journeyed to Houston and negotiations are now in progress relative to the various affairs in which her name has so prominently figured.

### In the Justice Court.

Justice Jones, Attorney Strong and Constable McMillan took a few minutes off yesterday to oil up the "mill of justice" preparatory for a long steady grind, but was disappointed, for the session was short which is attributed to the decrease in the acreage of crime.

A disturbance case was called first, and the defendant after sizing up the situation thought the bargain counter route was the best way out of the difficulty, and entered a plea of guilty. The judge marked the expense at \$11.85 which was paid.

Disturbance case No. 2 was then called and the victim put on a long face and said he was guilty and asked the court to be as lenient as possible under the circumstances. Judge Jones demanded \$17.05 for the expenses thus far incurred. The defendant paid it off.

The next two cases charged the defendant with misdemeanor; each entered a plea of guilty and the judge chalked \$9.80 opposite the name of each defendant.

The total receipts of this grinding only amounted to \$48.50, which is a gull clay's work.

### NACOGDOCHES ICE FACTORY.

The Old Factory Has Changed Hands and is Being Overhauled.

Within a few weeks Nacogdoches will be using ice manufactured at home. The ice factory that was closed down after the Wettermark bank failure, and which has remained idle ever since on account of the plant having been bought by outside parties who shut the plant down and shipped all the ice used here, from outside points.

The property has now passed into the hands of other parties who appreciate the fact that Nacogdoches is a most excellent point for a modern ice factory. Mr. J. E. Ritchie of Texarkana, has secured control of the property and arrived in the city yesterday and brought his engineer, Mr. Charley Oaks, with him.

A Sentinel reporter met Mr. Ritchie yesterday afternoon and had quite a pleasant chat with that gentleman. He stated during the conversation that work would begin this morning on the plant that is that a general overhauling would be made in the factory and that it would be about the 15th of the month before the first run would be made.

Mr. Ritchie expressed himself as being highly pleased with the prospects for a good ice business here and also was highly pleased with the town and its citizens.

## FINISHED IN OREGON WOODS.

Every variety of tree grown in Linn county Oregon, that matures to sufficient size to permit its being utilized, will be used for the finishing of that country's booth at the Lewis and Clark Exposition.

Linn county is one of the greatest lumber producing regions in the state of Oregon and furnishes hundreds of species of tree and shrub. Specimens of each variety have been felled and conveyed to the mills of Albany, Oregon, where they are being turned into veneers and finishing woods. When the woodwork is completed, there will be seen to blend all the colors of the great variety of wood that grows in the mountains or on the plains of Linn county.

Every shade of natural wood color, from the soft white of the great white fir to the dark red of the knotty laurel, will appear. Great oaken knots and straight smooth pine will be placed side by side, a feature of novel interest. Linn county, by the way, is named in honor of the United States Senator Lewis F. Linn, of Missouri, who in 1842 introduced a bill in the senate for the granting of free lands to settlers in the Oregon country, and who did great service in the cause of Oregon. Persons who have imagined that the country was named for the Linn trees are hereby enlightened.

Times was handed a copy of the Nacogdoches Sentinel this morning, addressed to one of Timpson's most charming matrons, with the advertisement of one of the Red Land City's leading dry goods houses marked. The house

in question is one of the most successful in Nacogdoches, and they are constant users of printers' ink. In this case they have some special announcements in the Daily Sentinel, and are sending marked copies of that publication to the people of neighboring towns, hoping thereby to attract outside trade. This paper was handed to the Times with the suggestion that Timpson merchants might learn a lesson.—Timpson Times.

The house referred to is Mayer & Schmidt. This firm was the first to take space in the Daily Sentinel when the paper was launched in July, 1899, and there has never been an issue of the paper since that time but what contained an announcement from this house. There are other good advertisers in the Daily Sentinel, but they came in at later date. Mayer & Schmidt however, saw the afternoon paper was a good investment and contracted for space in the first number and have kept "Everlastingly at it."

## Exposure.

To cold draughts of air, to keen and cutting winds, sudden changes of temperature, scanty clothing, undue exposure of the throat and neck after public speaking and singing, bring on coughs and colds. Ballard's Horehound Syrup is the best cure.

Mrs. A. Barr, Houston, Texas, writes, Jan. 31, 1902: "One bottle of Ballard's Horehound Syrup cured me of a very bad cough. It is very pleasant to take." 25c, 50c, \$1.00 at Perkins, Kleas & Mast.

## Off For Beaumont.

Sheriff T. E. Buckner and Chas. F. Taylor left this afternoon for Beaumont, where the habeas corpus proceedings are to be heard tomorrow morning. Mrs. Duke will also be present, it is said, as a witness in the proceedings.

## Taylor's Case Postponed.

"Beaumont, Texas, May 2.—At States request habeas corpus postponed until Thursday.

W. H. Pope." Messrs. King & King attorneys for Chas. F. Taylor, received the above telegram from Judge Pope this afternoon.

## A Positive Necessity.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself. D. R. Byrnes, Merchant. Droversville, Texas. 25c, 50c, \$1.00, at Perkins, Kleas & Mast.

## BETTER STOCK, BETTER PAY.

The Sentinel from time to time has called the attention of the farmers of Nacogdoches county and Eastern Texas to the fact that the better grades of stock always commands better prices on the markets than the common stock, and to support all that has been said in the past in these columns upon this subject The Sentinel has been granted permission to print the following letter, which is self explanatory:

STOCK YARDS STATION.  
Fort Worth, Tex., 4-4-05.  
"Mr. G. W. Blackburn, Nacogdoches, Texas.  
Dear Sir:

In regard to your car of hogs which we sold for you at this market on March 23rd, 1905, will say that they were a very good car of hogs of their kind; being what we call razor backs or range hogs. They were well fattened, but they lacked the quality. Had they been well graded Berkshire or Poland China they would have easily brought 5.10 instead of 4.80 which was the very best we could do with them.

"Armour and Swift are already enlarging their plants here, and will be in shape to handle all the hogs that Texas can raise, but we need hogs of better quality, and if you could bring these facts before the people of your locality—show them the difference in prices between the "Razor Back" and the well bred hogs, that they would lose no time in getting hold of some well graded stuff, and improve their hogs. We would suggest that you get good full blooded Poland China boars which would be the quickest way to improve your stock. We know of communities that once had just such hogs as you had here that now have hogs that sell right along with blackland and Oklahoma hogs. Yours truly,

GEO. W. SAUNDERS COM. CO."

In view of the above facts it behooves the farmers who expect to be progressive and get out of the old rut to take the above letter and give it a serious thought. The writer states that the large packing houses are in shape to handle all the hogs that Texas can raise. Even if the prevailing price for hogs was only 4.80, the average shipping weight of the better stock of hogs is estimated at 250 pounds, this would bring the shipper about \$12.00 per hog, while the average weight of the razor back is about 150 pounds which at the same price would be worth about \$7.20; this makes a difference of \$4.60 in favor of the better grade of stock. These figures are more than conservative, for the same price has been allowed for both breeds. Now, to figure it out on the same basis as is out lined in the letter to Mr. Blackburn, The Sentinel finds this result: A well bred hog weighing 250 at 5.80 would bring \$14.50; the razor backs weighs 150 at 4.80 and is worth \$7.20. These figures are actual and show a difference of \$7.30 in favor of the well graded hog. The Sentinel would like to have all its farmer friends improve the stock on the farm.

## Growing Aches and Pains.

Mrs. Josie Sumner, Bremond, Texas, writes, April 15, 1902: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing aches and pains in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. 'It is the best liniment I ever used.'" 25c, 50c, \$1.00 at Perkins, Kleas & Mast.

## Herbine.

Will overcome digestion and dyspepsia; regulate the bowels and cure liver and kidney complaints. It is the best blood enricher and invigorator in the world. It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise.

R. N. Andrews, Editor and Mgr. Cocoa and Rockledge News, Cocoa, Fla., writes: "I have used your Herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. I recommend it unhesitatingly. 50 cents at Perkins, Kleas & Mast."

## Fined Fifty Dollars.

Jim Fussell of Cushing was fined \$50 by Judge Bryant for being absent when under the rule of a witness. Fussell figured that the case in which he was a witness would not be reached yesterday afternoon and decided to go home to spend Sunday, but before he reached Jacksonville, he was wanted in the court.—Tyler Democrat-Reporter.

Rev. J. T. McClure, former pastor of the Methodist church at Timpson, came up from Nacogdoches this afternoon and is shaking hands with former friends. Speaking of Miss Hughes' lecture, which will be given at the Methodist church tonight, he says it is the finest thing of the kind he has ever heard. Miss Hughes was in China during the boxer uprising, and gives a vivid description of customs and scenes in that country.—Timpson Times.

## Cleared for Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At Stripling, Hazlewood & Co. drug store, 25 cents. dw

The Cumberland Presbyterian church has invited Rev. Robertson of Smithville, to preach here next Sunday morning and night. The invitation has been accepted and the reverend gentleman will be here. The session will probably call him to the pulpit at this place.

## Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy, and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by Perkins, Kleas & Mast. dw

# BUGGIES!

WE have received a car load of Buggies and Surries, that we want to show you, then sell you one.

## The Price is Low

It will not cost you a cent to inspect these vehicles, and if you are in the market we can save you buggy money on every purchase.

### ANNIVERSARY SERMON.

Rev. J. T. McClure Preached to the Odd Fellows.

From Monday's Daily:

Nacogdoches Lodge No. 118 I. O. O. F. attended the Methodist church yesterday morning, at which time Rev. J. T. McClure delivered a sermon on "Fraternalism." The sermon being a part of the program of the local lodge in observing the 86th anniversary of the order in the United States. On account of the inclement weather the attendance was quite small, on the part of the members and also the public.

Rev. McClure read for the lesson First Samuel XX:11, 23, and a portion of the 13th chapter First Corinthians.

Text: Proverbs XVIII:24, "A man that hath friends must shew himself friendly: and there is a friend that sticketh closer than a brother." II Samuel I:26, "I am distressed for thee, my brother Jonathan: very pleasant hast thou been unto me: thy love to me was wonderful, passing the love of women." I Corinthians XIII:13 "And now abideth faith, hope, charity, these three; but the greatest of these is charity." The beautiful story of the friendship of Jonathan and David was reviewed, as was also the covenant between Jonathan and David, as one of the principles of Odd Fellowship.

The sermon had been carefully prepared and was most excellently delivered, and was highly appreciated by every Odd Fellow present.

The closing remarks of the reverend gentleman on what had been accomplished by the vast army of 1,300,000 men who are in the ranks of Odd Fellowship, in relieving the distress, and in caring for and educating the orphans thereby preparing the little ones to successfully meet the battles of life, was a mission worthy the support and influence of all good men.

The Sentinel would be glad to publish the sermon in full, but as space is somewhat limited, only the above brief mention can be made.

THE fruit and truck growers of Eastern Texas are not very much disturbed over the outlook for a cotton crop.

### A NEW ENTERPRISE ON FOOT.

Mrs. Duke is Expected to Arrive in This City.

The Sentinel reporter learned from a reliable source that the mission of Mrs. Duke in Nacogdoches will be to arrange the business affairs of Taylor, Webb & Co. to the end that all their former plans may be consummated. The reporter was advised that Mr. Taylor had placed on foot an entirely new enterprise which is to be promulgated for the purpose of growing, and possibly manufacturing of tobacco in the vicinity of Nacogdoches, and that options had been secured on an ideal location for such an industry, and that the promotion of the enterprise would be very materially aided by a prominent attorney of Beaumont whose services has been enlisted.

### The Ice Situation.

The Sentinel on Saturday failed to state that the most important part of the proposition of starting the factory is up to the people of Nacogdoches now. That is that every citizen should promise to take ice from the home factory in preference to all other.

A subscription list was presented to the business men Saturday, and with one, or possibly two exceptions, they all agreed to use a certain amount of ice during the summer season. There yet remains about \$250 to be subscribed before Mr. Ritchie will take hold of and start the ice plant.

In placing your name on the list you simply agree to use a certain amount of ice during the year. The promoters say that it will take quite a considerable amount of money to put the plant in repair and, that before making this expenditure that they would like to know just what the people of Nacogdoches are willing to do in the way of support.

The list can be seen at Hulien Crain's office and it you are in favor of supporting a home plant, just telephone Mr. Crain or Mr. S. L. Miller at any time before 10 o'clock tomorrow morning.

BUGGY WANTED—I want a good second hand buggy. Address Box 210, Nacogdoches.

### HAYDEN-CRANFILL SUIT.

A Compromise Was Reached, and Litigation is at an End.

A special to the Houston Chronicle from Dallas says:

The famous Haden-Cranfill cases, which have agitated the Baptists of Texas since 1897, were settled today by compromise, the Rev. J. B. Cranfill agreeing to pay to the Rev. S. A. Haden \$100 in each of the three cases, and to also assume all costs of the litigation, court costs, etc., amounting to several thousand dollars.

### A Creeping Death.

Blood poison creeps up towards the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25 cents at Stripling, Hazlewood & Co., drug store. dw

### Notice Truck Growers.

The next meeting of the Fruit and Truck growers will be held at the court house Saturday at 2:30 May 6th all interested parties should be present as we must elect an inspector and shippers agent, get the correct acreage, arrange for potato sacks, crates etc. If you are interested come.

J. B. Power, Secretary.

### There is a Difference.

The difference between Kennedy's Laxative Honey and Tar and all other cough syrups is that it moves the bowels, thus expelling a cold from the system. This relaxes the nerve-tissues and by its healing effect on the throat and lungs the cough is relieved—cured entirely. Kennedy's is the original Laxative Honey and Tar and contains no opiates. Good alike for old or young. Fastes good. Sold by Perkins, Kleas & Mast. dw

### Why Suffer From Rheumatism?

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett, of Yum Yum, Tennessee, U. S. A. writes: "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by Perkins, Kleas & Mast. dw

Nelson and Hale have put up their Gospel tent on South Fredonia street near the foot bridge and will begin meetings tonight. The subject will be "Our Lord's great prophesy or the present day signs of the end." All are cordially invited.

### \$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials. Address F. J. Cheney & Co., Toledo, O. Hall's Family Pills are the best.

### The Proof of the Pudding.

The best proof that a thing can be done is that it is being done. Not long ago as Fulton's steamboat started up the Hudson without sails or oars, a jeering crowd on the bank said "It can't be did." Edison's Telephone, Marconi's wireless telegraphy, and DuMont's air ship are monuments to men who did what the world said couldn't be done.

Today schools using the old system of shorthand, i. e. Pitman, Graham, Jones, Hunson etc., admit that they cannot prepare students as stenographers in 3 months. They say it can't be done.

They will please explain then how it is that 9 out of 10 who study Byrne Simplified Shorthand in Tyler Commercial College only 3 months go direct from school into and hold difficult positions as stenographers for courts, railroads, banks, law firms, etc., where only good stenographers could be retained. That's the proof of the pudding.

T. E. BUCKNER, Sheriff. By JNO. C. FALL, Deputy.

### AN OPEN LETTER.

A Few Pertinent Facts Briefly Stated.

To the People of Nacogdoches and Vicinity:

There are some people in this community who are not using Prophylactic Germicidal Tablets. We want it to be different. We want to be able to say before the end of this year that everybody everywhere uses Germicidal Tablets.

We sell Germicidal Tablets first. They sell themselves afterwards.

And why, you ask? Simply because every person who is sick wishes to be well, and every person who is well wishes to continue well; and every one who uses Germicidal Tablets knows those very purposes will certainly be accomplished by the use of Germicidal Tablets.

PROPHYLACTIC GERMICIDAL TABLETS.

This tablet is the result of many years of scientific and chemical research. In a sense it is the concrete expression of centuries of pathological investigation. To the scientist who discovered the formula and to this age of marvelous scientific advancement was reserved the honor of perfecting what has been the dream of centuries—a therapeutic agent that would search out, arrest and destroy the cause of diseases. That agent has been discovered and perfected in Germicidal Tablets. It has long been known that a large class of diseases arise in consequence of the settlement of certain plants and animals in the human organism. Only of late years have we discovered that the domain of these parasitic disorders is of so wide and far-reaching extent. We now know that the bacteria (germs) is the cause of the greatest number of our commonest diseases, and the scientific research of the period, indicates an extreme probability that the whole range of human disorders is of bacterial (germ) origin.

Bacteriology (the science of germs) is today the most important subject, and receives more time and attention in all the leading medical colleges throughout the world than any other branch of medical science.

DISEASES NOW KNOWN TO BE CAUSED BY GERMS.

Catarrh, consumption, sores, liver troubles, asthama, bad blood, gout, pneumonia, coughs, rheumatism, eczema, skin disease, colds, scrofula, syphilis, tuberculosis, colic, bronchitis, ulcers, hay fever, cancer, biliousness, quinsy, tonsillitis, piles, neuralgia, dropsy, pleurisy, tumors, Bright's disease, chills, gall stones, croup, kidney disease, malaria, erysipelas, fevers, women's diseases, salt rheum, stomach troubles, anaemia, diarrhoea, la grippe, leucorrhoea, abscess, blood poison, weak eyes, throat troubles, influenza, gonorrhoea, dandruff, dyspepsia, sore throat, varicella, all inflammations, all contagions.

Germicidal Tablets will prevent the inception of any germ disease under normal conditions, and will destroy the dis-

ease germs under all conditions.

When the cause of any disease is removed the disease disappears.

Germicidal Tablets, the most marvelous curative agent produced in the history of the world, will surely, certainly and speedily cure any germ disease; and it is the only remedy on earth that will do so. If you have a germ disease you must take Germicidal Tablets to be certain of a cure. They are their own best advertisement. No other medicine is ever used or recommended by those who have once used Germicidal Tablets. They never fail to cure—they cannot fail. No other principle can destroy disease germs in the human organism, and no other therapeutic agent on earth is based on the principle underlying Germicidal Tablets.

Germicidal Tablets are sold exclusively to the consumer. They are shipped direct from our laboratory. We take no chances on substitution. The tablets are very expensive to produce. We must get from them ourselves the price at which we sell them. Were they sold through dealers, and the usual profits added, the price would be practically prohibitive. By our method we know you get what you order, and at a price within the reach of all. There are certain houses selling proprietary medicines—some of them long established and of great financial strength—which find it necessary to give away free samples, free trials, free demonstrations, and free what not, to circumvent the enormous sale and growing prestige of Germicidal Tablets. These devices have been distinguished chiefly by their failure to accomplish the purpose intended. They have not fooled the man or woman of experience, for such persons know full well they never get something for nothing in this world. Be not deceived into taking medicines which only affect the symptoms of disease, and afford at best but temporary relief; for with the passing of their temporary effects, all your troubles will begin afresh. The only way to cure a germ disease is to eradicate the cause, root and branch, and Germicidal Tablets is the only medicine that will do it. Wherever Germicidal Tablets are used disease is becoming more and more infrequent. The physician who sticks to old methods is rapidly losing prestige. Those who adopt Germicidal Tablets in their practice grow quickly in reputation and success. The man or woman suffering from any germ trouble who takes Germicidal Tablets gets well—that is the important point to you. If you have a germ trouble of any kind, Germicidal Tablets will cure you as certainly as that the sun will rise again and once cured you will stay cured.

Pleasant to the taste—contains nothing which can harm the most delicate organism. Physicians will testify to the truth of this statement. See page 21 of our book of "Proofs." Write for it today.

Mrs. Alice Jackson, of Farmer City, Ill., writes: "My seven months old baby was troubled a great deal with his stomach and bowels. I had tried numerous remedies with no good results, until the baby lost much flesh, and was in poor health. A friend recommended Caldwell's Syrup Pepsin. I procured a 50c bottle at the drug store and gave the contents to the baby according to directions, after which there was a decided improvement in his condition. Have been giving him Syrup Pepsin for about a month, with very satisfactory results. His stomach and bowels being in good healthy condition and his former weight regained."

Will Pleucker Dead.

Will Pleucker died at the home of Mr. Tom Castro this morning. In the early spring Mr. Pleucker had an aggravated attack of pneumonia, and he had scarcely recovered before he had a bad case of measles, and the latter disease was the cause of his death. He was a son of Mr. Jno. Pleucker who lives a few miles south of town, and was a young man of about 25 years of age. He came to town and secured work at the Hayward Lumber Co.'s mill, and was employed there up to the time of his illness. During his residence here he had made a number of warm friends among his associates, who speak highly of him as a man.

To the bereaved parents and relatives The Sentinel extends its sincere sympathy in their sad hour of affliction.

It is with genuine pride that the host of friends of Miss Karle Wilson, daughter of our esteemed townsman, W. T. Wilson, of this city, note the prominence being gained by her as a poet. It is known and recognized by all lovers of good books, that the Harpers Monthly, accepts nothing but the best to be found. Miss Wilson has a poem in this popular magazine almost monthly. This alone would evidence the value of her work, but on reading her poems, we readily see why the Harpers Monthly is glad to be able to obtain such literature. Her latest, and as we consider, her best poem, is published in the last issue of the above mentioned magazine, on page 964. As Miss Wilson has always written under the name of Charlotte Wilson, only a few of her most intimate friends knew it was she who was producing these gems. Congratulations to our girl friend, poet. J.—

## EIGHTY-SIXTH ANNIVERSARY

Nacogdoches Lodge I. O. O. F. Celebrate Birth of the Order.

From Thursday's Daily:

Eighty-six years ago last night Thomas Wildey instructed the first class in the work of the Independent Order of Odd Fellows in America in the city of Baltimore. At that meeting there were five other gentlemen besides Mr. Wildey present at that meeting, and to-day the membership in the United States is one million and a half; truly Odd Fellowship must teach man grand and glorious truths to attain such a vast membership and hold it within such a short time.

To celebrate the birthday of an order that conforms to law, order, and religion, Nacogdoches Lodge No. 118 entertained a number of invited guests last night at the opera house with a banquet.

The large hall had been beautifully decorated with flowers and evergreens by the ladies who had charge of the arrangement and decoration of the hall.

A number of the members of the local lodge assembled at the hall at 7 o'clock and transacted the business for the evening and upon adjournment marched in a body in working regalia to the banquet hall. There the following program was rendered:

Music by Müller Orchestra.  
Meeting called to order by W. H. Crouch, Noble Grand.  
Prayer—Rev. J. T. McClure.

Address of welcome—Hon. T. B. Lewis.  
Music.

Benefit of social gatherings—Judge Jas. I. Perkins.  
Education of the social faculties—Prof. R. F. Davis.

Nacogdoches thirty years ago—Hon. J. C. Harris.

The elevation of Man Through Fraternal Orders—Eugene H. Blount.

Following is the menu:

Sandwiches  
Pickles  
Baked Turkey, with dressing  
Chicken Boiled Ham  
Salads  
Apples Oranges  
Bananas  
Cake Cream  
Lemonade  
Coffee

The subjects assigned the gentlemen around the banquet table were replete with good things and ably discussed.

Much credit is due the wives and daughters of the members of Nacogdoches Lodge No. 118 I. O. O. F. for the part they took in arranging the hall and serving the guests, and the success of the evening's entertainment is due to their untiring efforts make it what it was, the most successful social event of the season.

The Muller Orchestra, composed of ladies and gentlemen furnished the very best musical program ever rendered in Nacogdoches by a home organization, much better than some alleged professional organizations have rendered here. Nacogdoches should be proud of this band of musicians;

the Odd Fellows are.

The Nacogdoches lodge is quite a young organization, but has a large and growing membership, and the officers and the various committees having in charge the banquet are to be congratulated on the success of the event last night celebrating the eighty-sixth anniversary of the Independent Order of Odd Fellows in the United States.

## CATARRHAL TROUBLES PREVALENT.

Spring Months Cause Catarrh, Breathe Hyomei and be Cured.

Catarrhal troubles are more common at this season than at any other time of the year. The sudden changes that come during the spring months are productive of many cases of catarrh that without proper treatment will become chronic.

The pleasantest, most convenient, and only scientific method for the treatment and cure of catarrh, is Hyomei. Simply put twenty drops in the little pocket inhaler that comes with every outfit, and then breathe it for three minutes four times a day.

The complete Hyomei outfit costs but one dollar, and as the inhaler will last a lifetime and there is sufficient Hyomei for several weeks' treatment, it is the most economical catarrhal remedy known. Extra bottles can be procured for fifty cents. Ask Stripling, Haselwood & Co. to show you the strong guarantee under which they sell Hyomei.

You cannot have good health unless your kidneys are sound, for the kidneys filter the blood of impurities which otherwise act as irritating poisons and break down the delicate organs of the body and cause serious trouble. If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. eod

## Obituary.

Sister Emma Coon, the subject of this sketch, was born Oct. 7th, into the home of Bro. W. J. and sister S. R. Crosby in Alto, Cherokee county, Texas. She was married to J. P. Coon November 14th, 1893, with whom she lived happily as an affectionate companion until the time of her death March 8th, 1905, at Appleby, Texas.

The Lord-blessed them with six sweet children; three boys and three girls. Two have preceded her to the glory land.

Sister Coon was one of the most faithful of Bethel Baptist church. It was my pleasure to be her pastor 8 years, during which time she was regular in attendance, though most of the time she lived two miles away, but was always present in Saturday's meeting unless hindered by those things common to mothers. Her home was a preacher's resting place. She was always kind, affectionate and tender hearted. She will be missed as a neighbor, friend, wife, mother and Christian worker. We commend the bereaved to our heavenly Father who doeth all things well. E. D. Blankinship.

Bart T. Burk of Sacul was in the city today. Mr. Burk says that never before has he heard so much complaint on the part of farmers about the condition of farm lands. In many places the bottom fields have never been touched, and that a number of farmers have not finished planting corn. Taking the situation as a whole he says the farmers are in pretty bad shape for crop prospects at this time.

Mrs. J. B. King, of this city, happened to quite a serious accident yesterday morning. While driving out to the home of her father-in-law, Mr. W. A. King, living out four miles east of town, a loose rail by the roadside caught in her buggy wheel, causing the buggy to tilt in such a manner as to throw Mrs. King out, causing some very painful bruises.

I wish to say to all parties owing notes or accounts now past due the G. H. Davidson Est. that if same are not paid or satisfactorily adjusted by June 1st, 1905 they will find such accounts and notes in the hands of Messrs. Branch, Matthews & Beeson with instructions to sue and get judgment. This is meant to include all who owe such past due notes or accounts both in and out of town. So please don't excuse yourself. 2d2w P. C. Meador.

Chas. F. Taylor, through his attorneys, sued out a writ of habeas corpus before Judge Pope of Beaumont. The writ was granted and a hearing set for Wednesday of next week.

The pay roll at the Nacogdoches cigar factory for this week averaged about \$45.00 per day. That's not so bad for a small enterprise

C. W. Butt returned this morning from Weatherford, where he has been for the past week attending the meeting of the Grand Lodge of the K. of P.

Harry Wilson left this afternoon for Nacogdoches, where he will put up a telephone line from that city to the Trinity neighborhood, a distance of about four miles, on the old home of W. A. King. —Center News.

# A TRAINED NURSE

After Years of Experience, Advises Women in Regard to Their Health.

Mrs. Martha Pohlman of 55 Chester Avenue, Newark, N. J., who is a graduate nurse from the Blockley Training School, at Philadelphia, and for six years Chief Clinic Nurse at the Philadelphia Hospital, writes the letter printed below. She has the advantage of personal experience. Besides her professional education and what she has to say may be absolutely relied upon.

Many other women are afflicted as she was. They can regain health in the same way. It is prudent to heed such advice from such a source.

Mrs. Pohlman writes: "I am firmly persuaded, after eight years of experience with Lydia E. Pinkham's Vegetable Compound, that it is the safest and best medicine for any suffering woman to use."

"Immediately after my marriage I found that my health began to fail. I became weak and pale, with severe bearing-down pains, fearful backaches and frequent dizzy spells. The doctor prescribed for me, yet I did not improve. I would blast after eating and frequently become nauseated. I had an acrid discharge and pains down through my limbs so I could hardly walk. It was as bad a case of female trouble as I have ever known. Lydia E. Pinkham's Vegetable Compound, however, cured me within four months. Since that time I have had occasion to recommend it to a number of patients suffering from all forms of female difficulties, and I find that while it is considered unprofessional to recommend a patent medicine, I can honestly recommend Lydia E. Pinkham's Vegetable Compound, for I have found that it cures female troubles where all other medicine fails. It is a grand medicine for sick women."

"Money cannot buy such testimony as this—merit alone can produce such results, and the ablest specialists now agree that Lydia E. Pinkham's Vegetable Compound is the most universally successful remedy for all female diseases known to medicine."

When women are troubled with irregular, suppressed or painful menstruation, weakness, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backaches, bloating (or flatulence), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all gone" and "want to be left alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, at once removes such troubles.

No other female medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles.

The needless suffering of women from diseases peculiar to their sex is terrible to see. The money which they pay to doctors who do not help them is an enormous waste. The pain is cured and the money is saved by Lydia E. Pinkham's Vegetable Compound. Experience has proved this.

It is well for women who are ill to write Mrs. Pinkham, at Lynn, Mass. In her great experience, which covers many years, she has probably had to deal with dozens of cases just like yours. Her advice is free and confidential.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

Miss Bertha Cook, of Nacogdoches was in Garrison Wednesday to witness the marriage of Miss Inez Kimball to Barney Carnelius.  
S. M. Adams was up from Nacogdoches Tuesday. He had just returned from Houston where he had been to witness Parsifal and he says he enjoyed himself.  
Steve King Esq. was in Garrison Saturday. His friends will be glad to learn that he is doing a lucrative business in his practice of law with his brother, Geo. S. King.—Garrison Gleaner.

**In Bankruptcy.**  
B. L. Joplin & Son closed their doors Monday, April 24, and filed petition in the federal court at Tyler in voluntary bankruptcy. Liabilities are said to be about \$11,000 and assets amount to about the same. This firm is another victim of the great slump in the cotton market, and while their creditors were well secured but their ready cash being tied up in cotton it was impossible to meet the demand upon them now. It was known or surmised by the public generally that this firm was in financial straits but as they had managed to ride the tide this far into another season it was believed and hoped that they would come out victorious in the end without going into bankruptcy. The senior member, B. L. Joplin, was the power behind the thorne though the junior, O. P. Joplin, is a shrewd business young man and very popular among his customers. W. Z. Reed and Mr. Perry are taking invoice of the stock today.—Garrison Gleaner.

**Indigestion Causes Catarrh of the Stomach.**  
For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucin instead of the juices of natural digestion. This is called Catarrh of the Stomach.

**Kodol Dyspepsia Cure**  
relieved all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

# A HOPELESS FIGHT

It is as impossible to conquer the king of diseases—Contagious Blood Poison—with Mercury and Potash as it would be to conquer the king of the forest in a hand-to-hand encounter, as thousands who have had their health ruined and lives blighted through the use of these minerals will testify. They took the treatment faithfully, only to find when it was left off, the disease returned with more power, combined with the awful effects of these minerals, such as mercurial rheumatism, necrosis of the bones, salivation, inflammation of the stomach and bowels, etc. When the virus of Contagious Blood Poison enters the blood it quickly contaminates every drop of that vital fluid, and every muscle, nerve, tissue and bone becomes affected, and soon the foul symptoms of sore mouth and throat, copper-colored blotches, falling hair and eyebrows, swollen glands, sores, etc., make their appearance. Mercury and Potash can only cover up these evidences for a while; they cannot cure the disease. S. S. S. has for many years been recognized as a specific for Contagious Blood Poison—a perfect antidote for the deadly virus that is so far-reaching in its effects on the system. S. S. S. does not hide or mask the disease, but so thoroughly and completely cures it that no signs are ever seen again.

S. S. S., while eradicating the poison of the disease will drive out any effects of harmful mineral treatment. A reward of \$1,000.00 is offered for proof that S. S. S. contains a mineral ingredient of any kind. Treatise with instructions for home treatment and any advice wished, without charge.

dies cleared \$43.00, but the financial success was the smallest feature of a delightful evening. The large lawn was lighted up with electric lights. The spacious home was thrown open to the guests, who, after being served by numberless pretty girls on the lawn with cake and cream, crowded the parlors to hear the rhymed experiences of the ladies who earned their dollar. The judges were I. L. Sturdevant and Moss Adams, who after careful deliberation decided that the palm of victory was borne away by Mrs. E. A. Ingraham the cleverest of the Guild members. All of the verses read were witty, bright,—and indicated plainly that it was far easier to write poetry than to earn dollars. It is hoped that the Guild will give as pleasant an entertainment soon again.
