THE COMMISSION MAN.

Has Troubles During the Season as
Quite a lot of Shipper.
are being ship June 29, 1905.
Senior Sentinel:

Taking it for granted that you will allow me a little space in your columns. I will offer a few suggestions to the peach growers.

During this month I have visited eight or ten of the best markets and watched carefully the handling of produce by the various commission firms. I find that the commission man has his troubles as well as the grower and on an average treats the grower as well as he deserves to be treated.

I have seen and handled perhaps over a hundred cars, very few of which were graded and packed as it should have been. I mean that nearly every car had more or less careless packing. Every good car has sold readily for the top prices, while others to my knowledge, are so poor in quality that it won't sell at any price, finally decays and is sent to the dumping ground.

Elbertas will now begin to move and all buyers are anxious for good, well packed Elbertas, and will pay good prices, but fruit that reaches the consumer in bad shape will not command these prices, so I suggest that the small, worm-eaten, knotty and over ripe peaches left out, have those in the bottom of the basket like those on top you had better do it as the buyer examines carefully and upon finding poor stuff, turns the whole crate down and the crate that should bring \$1.00 finally decays or sells for 25 cents. And instead of fooling him you have only paid freight on worthless stuff and had to take half value for the good.

I fear that those who have not given orchards good cultivation will suffer heavily, as small peaches cannot be sold for good prices. It is my experience that stuff that sold for 1.00 b. Texas has not paid the grower as well as when sold in the markets.

Several times I have had tomatoes to net 90c when other cars sold in Texas for 45c to 55c and were sold here same day. The man that buys on track always makes allowances for poor stuff and decline in market and if a sufficient margin can't be had he won't buy, another reason is that there is always consigned stuff and he can't afford to pay full value and put his high priced goods up against consigned goods, the risks are too great.

I favor selling on the track when good prices can be gotten, but otherwise ship.

I don't know whether the Union and Exchange are being "cussed" in Texas or not, but I do know that as far as I

have been able to find out they are doing hard and honest work and are making the grower better returns than other agencies I have been up against.

Again I insist that a good honest pack is just and that peaches should not be gathered in dew or rain, they should be of uniform ripeness, not too ripe, and put in iced car at once and shipped on the first train. I have more reason now than ever for wishing the grower success.

Very respectfully
J. B. Power

A Liberty Party

One of the most enjoyable occasions of yesterday (the 4th) was the birthday party of Tannie Stinson.

Promptly at 4:30 The Liberty Bell sounded and twenty bright faced little girls with their patriotic presence, were ready to begin the game of the day Progressive Liberty in all its significant.

Five tables were placed on the broad piazza. Each little girl drew a table card (The national coat of Arms in red, white and blue) and with much laughter hunted their partners by old Mother Gooses rhymes such as "needles and pins needles and pins," her partner having the corresponding answer "when a man marries his troubles begins."

After playing thirteen games and answering questions, of which, some of the answers were thirteen colonies, Thirteen original States and Thirteen birthdays for little Tannie, it was found that Mattie B. Wade had the honor of saying "Give me Liberty or give me death," the greatest number of times which entitled her to the prize. After which the youthful patriots were much refreshed.

Tannie was the recipient of many handsome presents from her little friends.

When time came to depart all regretted leaving and wishing Tannie many happy returns and that each might in another thirteen years meet and have just such a Liberty Party.

THE WOODMEN CELEBRATE

A Verdict of Not Guilty

Melrose and Tubbe Woodmen Each Observe the Fourth

Yesterday a large crowd went to Melrose to take in the Woodmen picnic and barbecue, and from the reports received at this office, the visitors all had a fine large time and the Woodmen of the World at that place covered themselves with all kinds of honors.

It is said that the dinner was just as fine as it was possible to get, and that the good ladies saw that all had a good time and no one left the grounds hungry.

As per invitation, the Woodmen of the World, seated at Tubbe on the Texas & New Orleans held their Fourth of July picnic and barbecue yesterday and there was a number of Nacogdoches Woodmen in attendance to see just now a bunch of determined Woodmen could have a time in the woods, and they returned home convinced that the boys in the stacks could have a much better time than their brothers who reside in the city.

Well the first thing on the bill of fare was a good time and they all had it, both good and anything. The next important thing was the dinner, and the way that never attended an East Texas country picnic has no idea how many good things that the ladies can prepare for such an occasion. Those who attended say that it was one of the very best ever set before a hungry crowd of Woodmen and their friends. They also say that the ladies of Tubbe are the best cooks in the country.

It there was any other picnic near the city a report of the event has not been made to The Sentinel, and if there was it will be written up if the date is furnished.

On the criminal docket of the justice court, for precinct No. 1, page 488, is a cause entitled, the State of Texas vs. Mrs. Jennie Franklin, wherein she is charged with abusive language. The cause came on to be heard and the jury returned a verdict of not guilty.

THE SMALL RENTER.

It is now stated that the Southern Pacific Co. will, in the future work on a new plan to increase immigration into Texas and will locate actual settlers. The idea is to go after the small renter or the man of small means in the north and induce him to move to Texas and leave the big investors to deal with the land and immigration agent individually. The Sentinel is of the opinion that the Southern Pacific is taking the right steps and that better results will be made in the way of settling the state with the right kind of people to take hold of and develop the undeveloped farming lands throughout Eastern Texas. While the state needs men of means to locate here and start large enterprises, yet the fact must not be overlooked that it is to the small land owner and the farmer that the prosperity of the country depends. There is room in Nacogdoches county for hundreds of home seekers from the north who have the get up and get about them to take hold of good things in a good country. The people of Nacogdoches county want as many good farmers and small land holders as any section of the state and the proper inducements are held out to all alike in the way of good schools and good school buildings, good church buildings, good society and the best farming, fruit and truck lands to be found any where on earth and at moderate prices. Come to Texas and visit Nacogdoches county before locating.

TALK Nacogdoches all the time and let the outside world know that it is "the best town what is."

It took a jury thirty-six hours at Abbeville, La., to return a verdict in a murder case. Then the verdict was manslaughter.

PUTTING on a little style has caused many a small business concern to go to the bankruptcy court to get its account straightened out.

NACOGDOCHES extends a cordial invitation to the home-seeker and to locate here. If you are looking for a place to locate, come to Nacogdoches county.

THE Beaumont Enterprise says that the spring chickens that reach that market are composed wholly of feathers and a desire to eat corn. If the market there has chickens large enough to eat corn it has the market of Nacogdoches skinned a city block. The little things placed on the market here have to be fed on mush.

THE town of Nacogdoches wants all kinds of manufacturing enterprises and has sufficient inducements to offer that are really attractive.

JOHN F. WALLACE chief engineer of the Panama canal has tendered his resignation to the department. He has been tendered another job at \$60,000 per annum.

THE United States Steel corporation will build a new wire and nail mill at Clairton, Pa., at an aggregate cost of \$2,500,000. Just a small drop in the bucket of "frenzied finance."

THE diversifier is now finding out that the newspapers of the country were really giving the farmer good and wholesome advice a few months ago when they were devoting column after column to the subject of diversification.

THE governor of Missouri is making it rather unpleasant for the "bookies" at the Delmar race track in St. Louis. Gov. When the matter comes up on the new trial it will be watched with interest throughout this section of the country and will be a novel suit.

CANAL TROUBLES.

The Panama Canal Commission is about to create a sensation in the way of a sure enough scandal, and it is claimed that it will lead to more trouble than the administration ever dreamed of or ever experienced in any other public matter. Chief engineer Wallace sent his resignation to the president the other day and has nothing more to say than that "the situation is so delicate that I cannot afford to be quoted in any shape or manner." It is claimed that the administration has a great big grievance against Mr. Wallace. On the other hand Mr. Wallace is prepared to make out a bill of complaint against the Washington officials, the chief feature of which will be that the canal will never be built within the present century if politics and departmental interferences is allowed to hamper the work of those on the ground. At the present time it would appear that the affairs of the Panama canal are in a most deplorable state of demoralization, and that the true inwardness of the strained relations now existing between the president and chief engineer of the canal lies in the discrepancy between the optimistic estimates of the price of the canal and the real cost in time and money. The previous estimate of \$250,000,000 and ten years time will have to be doubled several times if the actual results of the past month are taken as a criterion. The Sentinel is of the opinion that the best way to get the frazzled old ditch cut across the isthmus, is to let the job out to a contractor at so much for the job and take politics out of the venture. If politics have to be mixed up in the business there is no doubt but there are boys in the town of Nacogdoches who may possibly be presidents of the United States when the canal will have been completed.

FROM the staked plains to the gulf good rains are reported. THERE are some people who inhabit this earth that would rather tell a man a straightout lie on thirty days time than tell the truth for a cash consideration. NACOGDOCHES may not be on an oil boom, but there is one thing sure and that is that there will be an oil refinery erected here shortly after the Nacogdoches & Southeastern railway gets its extension built to the oil field. At the next regular session of the Texas legislature there will be presented a bill to regulate the building and loan associations doing business in this state. Commissioner of Insurance Clay has provided himself with a copy of the Missouri law, and will prepare a bill along similar lines. WHILE in the diversification business along the line of field crops don't overlook the fact that you can improve the kind of hogs and cattle on the farm by diversifying a little good stock with the common breed.

A COMPLETE PRICE LIST FOR THE ASKING

THE seventh number of the Houston Methodist published at Houston has reached The Sentinel. Rev. Ellis Smith, formerly pastor of the Methodist church of this city is the editor in chief. The Methodist is a neat little quarto and is gotten out in first-class style and is receiving a very good patronage for a new publication. The editorials and contributions to the Methodist make good reading not only for the members of the Methodist churches of Houston but for the members of other churches. The paper is published semi-monthly and the subscription price is fifty cents per year.

THE Texas Railroad Commission will give notice to all railroads of Texas and other parties interested to appear before the Railroad Commission in the city of Austin on the 18th of July, for the purpose of considering a proposition to establish a special rate of one way regular fare for the round trip from all Texas railroad stations to jobbing centers in this state during the months of July and August. This order of the commission is to see that the commercial interests of Texas may not be discriminated against. The railroads have in the past given special rates to merchants to the eastern and northern markets during these months, and the Texas commission thinks that the same special rates should be given the wholesale and jobbing centers of this state.

By a recent decision handed down by Judge Pope of the Sixtieth district court, it will be seen that the suicide clause in fraternal insurance policies is no good, but that instead of beating the beneficiary out of the face value of the policy that the policy must be paid in full. The suit was brought by Mrs. Laura Bell against the Knights of Maccabees on a policy held by her son in that order. Bell committed suicide at Spindletop about a year ago and the officers of the Maccabees tendered Mrs. Bell \$28 in settlement of the policy. This was refused and suit was brought for the

total amount of the policy. The decision awards Mrs. Bell \$1000 the amount of the policy, \$120 as a statutory penalty and \$150 as attorney's fees. The defendant excepted to the judgment and gave notice that the case would be appealed. The Maccabees nor any other order should be permitted to defraud the beneficiary out of a single cent. When a man or woman commits suicide they are not in their right mind—they are crazy—and a crazy man or woman is not responsible for his or her actions. A crazy man is not held by the courts as being responsible for any crime when it has been proven beyond a reasonable doubt that the defendant was of unsound mind. In view of this fact what right has the Maccabees to step in and say that they will not pay to an old and dependant mother the face value of a policy held by her son, who in a moment when his mind was unsound had taken his own life. The Maccabees may beat the case in the higher courts, but by all that is just and right they should be made to pay this old mother just what the policy calls for.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents and a bottle of it in the house often saves a doctor's bill of several dollars. Better Telephone Service.

Bert Foreman has just completed a long distance telephone line from Cushing to this place. The new line connects with the local telephone exchange which will give the business men an opportunity to talk to Cushing, Nat, Looneyville and other points in this and adjoining counties without having to leave their places of business and chase all over the town when they want to talk to nearby towns. This will be a change in the telephone condition in this town that will be greatly appreciated by the business men and others, who do much talking over the long distance telephone.

Mr. Foreman has recently taken charge of the telephone business at Cushing and since that time he has been hard at work to put in a long distance line from that town to Nacogdoches. When the fact became that he intended to build into this town Mr. Halcombe, the local manager of the Nacogdoches Telephone Company, made a proposition to Mr. Foreman to connect with the local exchange which was accepted.

HAD A GROUND SOAKER.

A Good Letter From Trawick Giving the Local News.

Trawick, Texas, June 29.—We have now had a good ground soaker and it is still cloudy, however, we are pleased as now there is some prospects for a corn crop in spots however.

We have had no melons yet, but little fruit and gardens are sorry.

The base ball boys went to Cushing yesterday and got fixed; just like they thought they would fix those fellows, however they clam to have had a good game. Everything passing off very nice and closed 9 to 10 in favor of Cushing, and they will try it again soon.

Bro. Saxon failed to be at his appointment here last Sunday, however, the weather was somewhat a little disagreeable anyway.

Freight Train Wrecked.

A freight train on the Texas and New Orleans was wrecked this morning just above Banita Junction. The caboose and several cars were dumped into the ditch and it is said that one man was slightly hurt. The track for quite a distance was torn up and it will take some time to get it repaired so that the trains can pass.

At the Auditorium.

Let it be said to the shame of Nacogdoches one of the smallest audiences ever assembled in the auditorium was there last evening for the Symphony club's musicale, but never a more appreciative one. Every number on the program was thoroughly enjoyed, for every number was a gem and extremely well rendered.

The solo features of the program were all applauded, to the echo and encores were a matter of necessity.

Mrs. M. J. Dooley and Mrs. W. W. Perry never failing to charm their hearers, and each were in fine voice.

Those who had the opportunity of hearing Miss Emma

Schmidt declares her voice a fluently sweet one and be-speak for her a glorious future.

There wasn't a single number on the entire program that wasn't exceptionally fine and those who failed to attend missed a rare treat.

Not only to encourage this club which ranks with musical clubs of the larger cities and one of which we are justly proud, but because they are always willing, individually and collectively, to aid any charitable undertaking, and are always called on for every occasion and for this reason the auditorium should have been packed.

Why not take your children where they can hear the best music and lay a foundation for culture appreciation, rather than take them to every "cheap John" show, that comes along, where they hear and see things that tend to degrade rather than uplift?

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Easy Pill

Easy to take and easy to act is that famous little pill DeWitt's Little Early Risers. This is due to the fact that they touch the liver instead of purging it. They never gripe nor sicken, not even the most delicate lady, and yet they are so certain in results that no one who uses them is disappointed. They cure torpid liver, constipation, biliousness, jaundice, headache, malaria and ward off pneumonia and fevers.

In another column is an article clipped from the Nacogdoches Sentinel of last Friday entitled "A Cushing Negro in Trouble" in which our contemporary makes a few unintentional mistakes and it becomes the duty of The Enterprise in behalf of Cushing to correct them. In the first place he was not a "Cushing negro" but is just from Nacogdoches; while passing through Cushing a few weeks ago he took occasion to fire off his pocket artillery and was promptly arrested by our city marshal and landed "safely" in the city's calaboose which is large enough to hold a score of Nacogdoches' "bad niggers." He was tried for his offense and the fine and costs amounted to \$33.00. He was engaged in working out this fine when he got into this more recent trouble. We do not claim to have no bad and tritling negroes, for we have a sufficiency, but we are able to take care of the bad of Cushing and some of those of our neighbors.—Cushing Enterprise.

The Sentinel is quite sorry that the mistake occurred, but the reporter was under the impression that the average negro was like the one mentioned in the song that "every race had a flag but the coon" and taking this for a basis he was under the impression that it matters not where the negro was that his home was under his hat. Cushing was also considered too pious to have a suitable place to keep bad "niggers" and that was why the fact was mentioned that the town had no place to keep the prisoner.

A NEWS item from Bremond says that on a recent petition for a local option election the names of 128 negroes were on it and that they could not write their names but made their mark (X) instead. That is somewhat of a negro country and in the past he has not been permitted to take part in the elections of a local nature, but it seems that some party or parties, have paid for 1100 poll tax receipts for the negro. There is a hot local option campaign on in that county and the negro is expected to take part in the election.

FROM an article elsewhere in today's issue of The Sentinel it will be seen that the scholastic census of the city of Nacogdoches this year is 1043, an increase of 235. These figures show that the population of the city has been increased something like 1200 within the past twelve months. If this increase is kept up during the next few years Nacogdoches will have 15,000 population. The Sentinel is still of the opinion that Nacogdoches as a town "is the best what is."

REMEMBER that the banks and postoffice will be closed tomorrow. It's the Fourth.

A SHOCKING SIGHT.

A sight that shocks as well as astonishes the stranger who sojourns for ever so short a time in Houston is the prevalent fashion of white women driving through the streets sitting side by side with a big buck negro. The custom is revolting, and if the women could hear some of the many remarks indulged in by strangers, they would either walk or learn to do their own driving. A man who would let his wife or daughter go out driving with a coon is either a codfish aristocrat or a damphool. It arouses in the negro all the basest passions of his lascivious nature and incites him to commit the worst crimes. There are, it is true, many women who have not the advantages of birth and education, and who belongs to the nouveau riche.

They reached the crest of the tide by a sudden bound from the billowy depths and are strangers to prosperity. Naturally they are anxious to impress their importance on the public and whenever they drive out take a nigger along for lagniappe. A lot of snobs who wish to stand in with codfisher become imitative—and there you are.

When knighthood was in flower—when men held honor above the almighty dollar and crooked Plebians occupied rear seats, gentlemen who owned their slaves used negro coachmen, but they never sent their wives and daughters gadding around own hooked up in a narrow seated vehicle beside a loud smelling, kinky-headed descendant of Ham.

The News hopes this disgusting custom will cease. Women, if they have any self respect, should walk rather than subject themselves to the rank talk of disgusted visitors.—Houston News.

THE prospects are fair for the prohibition party to get busy in the next election.

FRUIT in Nacogdoches county this year is fine and the shippers are realizing some good prices.

IT is a source of pleasure to note that the smokers of the country are calling for cigars that are made of the Nacogdoches county tobacco.

TOMORROW is the glorious fourth and Wednesday's papers will contain reports of the usual number of accidents.

If you don't think that the credit business is something "fierce" you should spend one day in the city of Nacogdoches about the first of the month.

THERE will be all kinds of fruit shipped from Nacogdoches next year. There is quite a lot this year, but if the season is anything like favorable next year fruit will be shipped from this place by the train load.

THE bill collector has a hard old row to weed in Nacogdoches on the first of each month and from the army that was out on the first the credit business certainly costs the merchants quite a bit of money to collect up the little accounts that they have outstanding.

The Nacogdoches cigar factory is shipping cigars to the leading dealers and hotels in New York City every week, and the fact that duplicate orders have been filled several times since the products of the Nacogdoches factory have been put on the market is evidence that the cigar smokers of New York City are pleased with cigars made from tobacco raised in Nacogdoches County.—Nacogdoches Sentinel.

From the above it will be seen that the Texas tobacco is undergoing its last and crucial test. The scientific men at Washington have announced that it is no whit inferior to the best tobacco grown in Cuba, but they stated further that they did not feel authorized to make this statement until the smokers of cigars announced what they thought of it. So, it would seem from the above that the smoker has added his testimony to that of the experts who are connected with the Agricultural Department at Washington. The character of the tobacco being established, as the best, it is now in order for the Texas manufacturer to be most jealous of its good name and preserve it by absolutely refusing to adulterate it by the admixture of other tobacco. Texas has had an experiment in such adulteration, if it can be called that. Once a certain locality in Texas raised some very fine tobacco and its name went throughout the country. The demand for it became so great tobacco from other States was introduced and palmed off on the public as the Texas kind. The result was that the smokers soon detected the deceit and the tobacco went down in popularity because of the fraud. If we have the best tobacco we should be sure and use no other kind. The man who uses tobacco can not be fooled for any length of time. And when he is once fooled he can not be caught with the same tobacco or cigar any more.—Houston News.

THE Kaufman Sun celebrated its twenty-fifth birthday by getting out a twenty-four page paper. It is a splendid piece of advertising for the Sun and more so to the town of Kaufman. It was printed on a good quality of book paper and is full of good reading matter about the town and the county.

NACOGDOCHES wants the government to send a man to this county next year and give the farmers further instructions in the culture of tobacco. The season this year was somewhat unfavorable and the farmers need help another year if the weed is to be cultivated in this section for the market.

A Nacogdoches merchant advertises hog and hominy for sale. This was pretty freely advertised along about 1892.—Houston Chronicle.

Which confirms the statements made by The Sentinel that Nacogdoches as a town "is the best what is."

THE FOURTH CELEBRATED.

The School Picnic at North Church a Big Success.

The Fourth was observed at North church yesterday in a very appropriate manner. The patrons of the school in that community had a big basket dinner and a barbecue for their friends and a goodly number it was who left the city and went to the country to spend the day and have a good time.

The crowds begin to arrive at an early hour and by ten o'clock a select crowd was on the grounds. Hon. V. E. Middlebrook was the speaker for the day and those who were fortunate enough to hear the address say it was the finest address on the subject of "Education" ever delivered in the county, and at the close of his talk it was evident that he had made a good and lasting impression upon his audience.

After the Judge had finished his talk dinner was announced and then it was that the ladies had a chance to show the hungry town people that the country folks could entertain in a good old fashioned way. The dinner was all that man could wish for—everything that is good to eat had been prepared for the occasion, and all had plenty and there was enough left to feed another crowd.

After dinner Capt. Steve King addressed the gathering and in his remarks touched upon the subject of better school buildings, and closed by stating that a collection would be taken up for the purpose of helping the people in raising funds for the purpose of erecting a new school building. Quite a nice sum was raised, and considerable was pledged. This added to the sale of refreshments gives the trustees of that school a very nice start on a fund for the new building.

The crowd was treated to a little surprise when Rev. Fonden was called upon to perform a marriage ceremony. Mr. William Falkner and Miss Ida Lang were joined in the holy bonds of wedlock near the picnic grounds. From a friend of the young people The Sentinel is informed it was a case of "love laughs at locksmiths," be that as it may. The Sentinel extends congratulations to the young people and wishes them a long and happy married life. To make their happiness more complete when they go to housekeeping they should put The Sentinel down for a life subscription.

From an Associated Press report of the Post Masters convention that has been in session at Dallas for several days The Sentinel is pleased to note that T. K. Raynor, of the Decoy postoffice, was elected the first vice-president of the association. Mr. Raynor conducts a mercantile establishment at his town and is a good business man as well as an A1 postmaster. It is very seldom that this office ever receives a kick from its subscribers at the Decoy post-office.

"Gall a Plenty."

It is gall in great big chunks for the aristocratic individual to send off to foreign print shops and have their printing done and then call on the publisher of the local paper and bring him a two column write up of the event and then collect up the papers from the neighbors rather than invest a twenty-five cent piece with the editor for a few extra copies.—Nacogdoches Sentinel.

Yes, and this same guy will pay from \$8 to \$10. a thousand for cheap imitation lithographing and the home publisher could get out neater work for \$3 or 4. "Gall in great big chunks," just half expresses it. He has more nerve than a government mule and the home publisher ought to dish out a dose of "shooting sticks" to him when he brazenly invades the sacred precincts of his sanctum.—Garrison Gleener.

A Birthday Party.

Monday evening, July 3rd, about thirty bright little girls met at the beautiful home of Mr. and Mrs. E. M. Roberts on North street to help their little friend Blanche Roberts celebrate her ninth birthday.

Everything was made pleasant by the laughter and merry wishing of the girls as they passed to and fro from one spacious room to another. While the large lawn also afforded pleasure to them all

Many games were played. Among them Marching to Jerusalem. Mrs. I. J. Roberts played as they marched along joyfully, enjoying the pleasure of each others company and making all seem glad by their presence.

Refreshments consisting of orange, cream and cake were served, each one partaking freely of the many good things to eat.

Blanche was the recipient of many beautiful presents as a token of friendship from the friends.

When time come to depart all regretted leaving and hoping on the 3rd next July to repeat the same, wishing their little friend a happy year.

"They Say."

"They Say" is the bane of society. Many a character has been damaged by that uncertain author. Many a man, and woman, as well, has carried slanderous tales from "They Say." They would not tell the stories for a fact, but "they say" is given as authority. The slimy insinuations and ready believers, or at least, listeners, and the mischief is done. It is better to turn a deaf ear to any imagined tales reflecting upon the good name of neighbors. Usually such

stories are ninety per cent false or grossly exaggerated. You may feel reasonably sure that the facts are not just exactly as you have heard it. Better discard scandal entirely than to believe or lend countenance to that which is even partly told wrong.—Ex.

The Power to Please.

The power to please is a tremendous asset. What can be more valuable than a personality which always attracts, and never repels? It is not only valuable in business, but also in every field of life. It makes statesmen and politicians, it brings clients to the lawyer, and patients to the physician. It is worth everything to the clergyman. No matter what career you enter you cannot overestimate the importance of cultivating that charm of manner, those personal qualities, which attract people to you. They will take the place of capital or influence. They are often a substitute for large amount of hard work.

Some men attract business, customers, clients, and patients, as naturally as magnets attract particles of steel. Everything seems to point that way, for the same reason that the steel particles point toward the magnet,—because they are attracted.

Such men are business magnets. Business moves toward them, even when they do not apparently make half so much effort to get it as the less successful. Their friends call them "lucky dogs." But if we analyze these men closely, we find that they have attractive qualities. There is usually some charm or personality about them that wins all hearts.—O. S. Marden in Success.

The following story of Admiral Dewey is told by one of the sailors who returned on the Raleigh, and printed in the Kansas City Journal: Just before the battle of Manila, when the order was given to strip for action, the smallest powder boy on the flagship dropped his coat overboard. He asked permission to jump after it, but was refused. He went to the side of the ship dropped overboard, recovered his coat and was promptly arrested for disobedience. Admiral Dewey spoke kindly to the youngster, who broke down and said that the coat contained the picture of his mother, which he had just kissed, and he could not bear to see it lost. Dewey's eyes filled with tears. He fairly embraced the boy and ordered him to be released, saying: Boys who love their mothers enough to risk their lives for her picture can not be kept in irons on this fleet.

Will Martin in California.

Los Angeles Cal., June 30. Editor Sentinel:

Nacogdoches, Texas.

Dear Sir:

It is now ten days since I arrived in Los Angeles after a long journey across the continent. This journey required 127 hours, 30 minutes and covered over 3400 miles of distance. It was performed without mishap of any kind and was attended with intense interest throughout.

A through train known as the "Overland Limited," consisting of seven pullman sleepers, a dining car, a composite buffet and observation car and baggage and mail cars, was run from Chicago to San Francisco over the Chicago and Northwestern, Union Pacific and Southern Pacific railway. This train stopped only at the important points, many times running a hundred miles without a single stop, covering long stretches with two engines at the front sometimes, and it made an average speed of about 37 miles an hour over this long distance. Continuously for the days and nights this solid train hurled itself along over its steel-ribbed path from the Great Lakes to the Pacific ocean. One would lie die down for a night's sleep in one part of a state and wake up on the opposite border or even in another state. Occasionally too, he would find that his watch had gained an hour so that he could sleep till 8 and then get up and eat breakfast shortly after 7 o'clock; in other words he would be crowding 25 hours into a day and night.

The scenery is varied and grand, picturesque and panoramic. While in the Mississippi Valley great fertile plains spread out in every direction adorned with young crops. Through Iowa and Nebraska brood treeless black land regions extended as far as the eye can survey in every direction, either as corn fields or cattle ranches. In Northeastern Colorado and Southern Wyoming the great flat rising plains have changed into great hills of more or less irregularity and ruggedness. The elevation above sea level is over 5000 feet and a decided change in the temperature is felt. The highest point reached is in Western Wyo., where 8000 feet or about 13-5 miles is surmounted. At this point a light snow fall greeted us early one morning.

It is in northeastern Utah, however, before one gets into the real mountain scenery. Here it is that snow-capped mountains peer above him on every side, their tops glistening in radiant splendor. Looking behind he cannot see how he came in; looking ahead he cannot see how he is to get out. Suddenly all is total darkness and he finds himself in the middle of a mountain for a few minutes. Then he emerges into the open to find himself suspended in mid-air; beneath is a bottomless chasm on his left a yawning gorge with plunging waters, on his right a giant mountain, above him a stupendous overhanging cliff. From the rear he looks

out and sees his two engines on the other arm of the horse-shoe, working heavily beside him but in an opposite direction. Then he can see how the "proverbial biscuit can be tossed from the firemen in front to the brakeman in the rear." In another tunnel over another chasm, up another gorge around another horse shoe curve, wider grander!

After awhile the great Highland basin is reached, containing Great Salt Lake and the American Desert. The Southern Pacific has built across the lake at a point about thirty miles wide and has been operating trains over this cut-off for about two years. The original line surrounded the lake on the north and is still operated to a certain extent. This Lucin cut-off saves a hundred miles or more in distance and is a grand piece of railroad engineering. The first eleven miles connects the eastern shore with the pronyatory on the north side. With the exception of about two hundred feet it is a rock fill made by dumping thousands of tons of broken stone from the adjacent mountains. Certain portions of the track have steadily settled down and have had to be refilled in order to keep the track above the water. Great ridges of material from the bottom of the lake have been forced up above the water on either side of the track as the settlement proceeded. The road bed now seems to be firm and is about 8 feet above the water.

Between the pronyatory and the west side is a wide, solid floor, rock and gravel blasted pile tressle 19 miles long. It has long sidings on either side at regular intervals so that three trains may be on it at one time at one point as was the case when our train went over. A section house is built on the tressle over the center of the lake.

This lake has intensely blue water which makes a beautiful piece of scenery surrounded as it is with snow-capped mountains. The water is almost wholly saturated with brime and it is so heavy that a human body cannot sink in it. Not a living creature of any kind is to be found in it. West of the lake is the great flat desert hundreds of miles in extent.

In western Nevada and eastern California is more grand mountain scenery. Here it is that such heavy snows fall. For a hundred miles through the divide long heavy sheds are built over the railroad track to shelter from snow in winter. The snow on the mountains now almost extends down to the level of the track so that it is pretty chilly when going through. A

very noticeable feature of the scenery in eastern California is the great number of hills or mountains which have been washed away by jets of water in hydraulic gold mining. These hills have a soil resembling the East Texas redlands somewhat, and orchards are to be seen in every direction, supplied by water from irrigation ditches. From these hills there is a more or less abrupt descent, into the Sacramento valley. This valley is level and very fertile. Grain crops have already been harvested. Crossing this valley Oakland Pier is reached on the bay, from which San Francisco, the metropolis of the Pacific coast, is plainly seen on the peninsula four miles distance.

In a future letter I shall say something about Los Angeles, the so called garden spot of world, the place where winter is summer and summer is winter.

Respectfully,

W. F. Martin.

Supper at Attoyac.

There will be a supper given in the school house on Saturday night, July 15th. Everybody invited to come and bring some one with them. There will be a nice ring given to the prettiest girl there that night. Young men come to the supper and bring your girl with you and see who will get the ring.

We will assure you a nice pleasant time. COMMITTEE.

French Murphey has bought an interest in the R. T. Shindler Drug Co. French is a fine young business man and The Sentinel is pleased to note that he has been fortunate enough to secure stock in this popular firm.

There will be shipped from Nacogdoches a carload of Alberta peaches tomorrow and Friday and it is important that all who have fancy Elbertas to send them in so that there will be no delay in getting the car off promptly.

The Odd Fellows installed their officers last night and the noble grand and the vice grand had a little spread prepared for the brothers, which was highly enjoyed by all. It is these little extras that the lodge boys have occasionally that makes the meetings lively.

George McManus the hustling immigration agent of the Southern Pacific Co. is in the city for a few days. He is interested in this section of the state and says that he sees a bright future for Nacogdoches county. The tobacco industry alone he thinks is a good thing for this town and that there is nothing for the people todo but push the matter a little.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness when urinary troubles sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys.

Fred Muller, brick mason, of Lufkin, Texas, says: "I had been troubled with pains across the small of my back at times so bad that it was difficult for me to do the bending and stooping necessary in my work. I decided that my kidneys were not in good condition, and hearing of Doan's Kidney pills I procured a box. The results were extraordinary for it was only a short time after beginning their use according to directions that the pains left my back and kidneys and I was able to work as well as ever. When I find a medicine which does what is claimed for it as Doan's Kidney Pills has done for me I take pleasure in recommending it to others."

Plenty more proof like this from Nacogdoches people. Call at Perkins, Kleas & Mast's drug store and ask what their customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Foot Cut Off.

Yesterday afternoon at the Hayward mill where the Nacogdoches & Southeastern railroad enters the lumber yard, an employe at the mill met with a very unfortunate accident. He was standing on the track watching a train on the Texas & New Orleans, when a log engine on the Nacogdoches & Southeastern ran him down cutting off one foot. The man is a stranger here and was known to a very few at the mill, and his name is given as "Means." He was employed as a trucker at the planer.

Catarrh Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a ringing sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh which is nothing but an inflamed condition of the mucous services. We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Baseball Players and Foot Racers.

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes Oct. 27, 1901:

"During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my great satisfaction.

Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and \$1.00. Sold by Perkins, Kleas & Mast.

Indigestion.

With its companion, heart burn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles, 50c bottle. Sold by Perkins, Kleas & Mast.

Machinery Ordered.

The Williams Brothers Oil Co., have ordered a new deep well oil pump, and as soon as it arrives they will set it up at their oil field. The engine and other machinery is here at the depot and will be taken out to the field within the next few days and as soon as the pump arrives work of pumping will begin.

Williams Brothers expect to put the product of their wells on the market just as soon as the Nacogdoches and Southeastern railroad reaches the field, and if the road is not there within a reasonable time they will put in a pipe line and send their oil to a point on the Texas & New Orleans.

Croup.

Is a violent inflammation of the mucous membrane of the wind pipe, which sometimes extends to the larynx and bronchial tubes; and is one of the most dangerous diseases of children. It almost always comes on in the night. Give frequent small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liniment externally to the throat. 25c, 50c and \$1.00. Sold by Perkins, Kleas & Mast.

Mexican Killed.

This morning in a shooting bee at section No. 14 on the Houston East & West Texas a Mexican was killed. Officers were notified and left for the scene of the trouble and it is thought that the parties who did the shooting will be arrested.

Particulars about the affair cannot be obtained, but it is said that the whole bunch had been imbibing in quite a lot of "oh be joyful."

LOOK in YOUR MIRROR

What would you give to be rid of those pimples and blackheads, that sallow complexion, those lustreless eyes? No doubt you would give 60 cents to be cured of constipation,

liver troubles, indigestion and dyspepsia! Get rid of these troubles and your complexion will clear up like an April day after a shower. Take

Dr. Caldwell's Syrup Pepsin

Mrs. Mary O. Hahn, No. 3023 Michigan Ave., Chicago, Ill., writes: "For two years I have been troubled with biliousness caused by inactivity of the liver. I had dizzy spells at times, pains across my back and a tired, heavy feeling, with loss of appetite and nervousness. Our family physician prescribed some liver tablets which certainly did not help me in the least. I took cathartics and other mineral waters, but my complexion became more yellow and my general health worse. Reading one of your little booklets, I decided to give Dr. Caldwell's Syrup Pepsin. I had not so good a result. One bottle did more for me than ten dollars' worth of other remedies. I know as sure I had the right remedy. I kept taking it for several weeks, when I considered myself completely cured. My skin is white and as soft as a baby's and I feel in excellent health and spirits. Thanks to your remedy."

Indigestion Cured.

There is no case of indigestion, dyspepsia or stomach trouble that will not yield to the digestive and strengthening influence of Kodol Dyspepsia Cure. This remedy takes the strain off the stomach by digesting what you eat and allowing it to rest until it grows strong again. Kodol Dyspepsia Cure affords quick and permanent relief from indigestion and all stomach troubles, builds up the system and so purifies that disease can not attack and gain a foothold as when in a weakened condition. S. T. King, secretary and treasurer of the Nacogdoches Grocery Co., was in our city Thursday on business.—Cushing Enterprise.

Chiggers and Mosquitoes.

Are now in their glory—their business is good and they are happy. There is no earthly use in your letting them chew on you, however, if you don't like their ways, a little Hunt's Lightning Oil applied to exposed parts will keep them off, and immediately relieve the irritation caused by their bites. Rub a little on and see for yourself. w

"WE TOLD YOU SO."

The Sentinel has been telling the "Nacogdocheans" for some time past that Nacogdoches is far from dead—in fact that she is the "best what is" and that it would be a city of 15000 people in less than ten years. Don't you believe we know whereof we speak? Well listen then.

When Supt. R. F. Davis finished taking the scholastic census for the Nacogdoches Independent district he found that we had 1043 children within the scholastic age.

Last year we had 808 within the scholastic age. This you see shows an increase of 235 scholastic during the past year or something like an increase of 1200 in the population of the district. Verily our prospects for the best school and the leading and largest city in East Texas seem to us to be as flattering as one could want. With another year's growth equal to the last one and we will have to build another school house.

On with this progress and "pity" for the knocker.

Cured of Bright's Disease.

Mr. Robert O. Burk, Elnora, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from ten to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. One 50 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bright's disease." For Sale by Perkins, Kleas and Mast.

Oil Refinery.

There is some talk among the local capitalists of erecting an oil refinery in Nacogdoches right away to take care of the product of the Nacogdoches oil field so that it will not have to be shipped away. If there is any truth in the rumor the people of this old town had better wake up and get busy for there will be something doing here in the way of oil and that shortly.

Saved Him.

"It didn't kill me, but I think if would it had not been for Hunt's cure. I was tired, miserable and well nigh used up when I commenced using it for an old and severe case of eczema. One application relieved me and one box cured me. I believe Hunt's cure will cure any form of itching known to man. Clifton Lawrence, Helena, O. T.

C. C. Hayward returned yesterday from an extended trip through the north. While away he paid a visit to his children, at Davenport, Iowa.

A. W. Hunt returned yesterday from a trip down the Texas & New Orleans. He reports the lumber trade pretty good and that orders are of a very good size.

Cotton was brought to town this morning from Aiken by Messrs. Russell and Peacock. They found the market to be very fair today. At one time it was reported at 9 cents.

Miss Delle Perry returned to her home at Tyler yesterday afternoon after spending a week in this city visiting Mr. and Mrs. W. W. Perry.

Tom Spencer had the misfortune yesterday to get a few of his fingers badly binged up in one of the machines at the Nacogdoches Crate and Box factory.

T. J. Lloyd has purchased a new gasoline engine which he will use at his dairy. He will put in several ice cream freezers and will start the manufacture of ice cream on a large scale.

Tom Seale of Chireno was in the city yesterday on a business trip. About the only news to report from that section is that the rains have done the crops a great deal of good.

Mrs. T. N. Humanson of Lutkin arrived in the city yesterday on a visit to her daughter, Mrs. J. W. Vineyard. She will stay here several days before returning to her home.

P. C. Meador returned yesterday from a trip through Shelby and San Augustine counties. He says that the rains has brought out all kinds of farm crops and that the people are in much better spirits.

Lamar Blount returned yesterday morning from a trip to Houston, and left last night for his home in San Augustine. Mrs. Blount will remain in Nacogdoches several weeks visiting relatives.

Yesterday Elario Cordova brought to The Sentinel several extra fine bunches of garlic and presented the editor with a bunch. Elario has just harvested a small crop and will grow a large crop next year. The crop grown this year amounted to 600 pounds.

G. R. Reese brought The Sentinel a bunch of three tomatoes that weighed nearly four pounds. This cluster was the finest specimen ever brought to this office. Each tomato was a perfect gem and would easily be classed as prize winners in an exhibit.

Tom Knox, of Oil City, was in the city this morning on a business trip. He has charge of the Houston Oil Company's property in that section of the oil field, and it is said that his trip here was to dispose of some of the pipeline material that his company has in the field.

S. J. Cook, of the Nacogdoches Show Case and Furniture Co., returned home this morning after spending a day in the city. After the Cook Bros. plant burned at Lutkin the Nacogdoches people induced the firm to move to their city to rebuild, subscribing for half the stock in a \$20,000 incorporation.—Timpson Times.

James Pouncey and William Pouncey of Enterprise, Ala., are in the city on a visit to their sister, Mrs. J. O. Pinckard. While they are here on a visit it is more than likely that they will move to this country. They have been greatly impressed with what they have seen since they have been in the city.

FRIDAY'S LOCALS.

Mr. and Mrs. Edgar Wade and little son, N. G. are visiting in Lutkin.

A. F. Henning returned yesterday from a trip to Beaumont, where he has been the past few days on business.

The shingle market in Nacogdoches is rather brisk, and good stock finds a ready sale. While there is a demand for sap yet all heart is mostly the kind that is called for.

Nacogdoches lumber dealers report that the market is better now than it has been for some time, and the prospects are that it will continue to improve.

B. F. Henry of Shreveport returned last night from a visit to Melrose and is spending a few days in the city, and is the guest of Mrs. A. J. Price.

Geo. H. Matthews left last night on a business trip to Austin and will be absent from the city for several days.

News from Sacul is to the effect that Rev. S. F. Baucom is reported as suffering quite badly from the accident which befell him a few weeks ago when he had the misfortune to get his foot mashed at a saw mill near Sacul while assisting some workmen to put a fly wheel in position.

Miss Dora Price of Melrose is in the city on a visit, and she says that the Woodmen at that place are making big preparations for the Fourth of July barbecue to be held at that place.

T. J. Williams returned Wednesday night from Houston and he says that the oil men in that city are talking about the Nacogdoches oil field and they are all of the opinion that the field will be next one that will receive the attention of the big operators.

F. M. McPhail informed The Sentinel reporter this morning that he had received inquiries from Beaumont for Nacogdoches truck the past few days. The Beaumont people want Nacogdoches cabbage but as the cabbage crop was cut short this year on account of the wet spring, the Beaumonters will have to buy their cabbage in some other market and the Nacogdoches truck growers are that much out on account of the failure of the crop.

W. R. Futch, manager of the mercantile department of the Hayward Lumber Co., and J. B. Goyen, foreman of the construction department, of the same company, closed a deal yesterday with the Banita Manufacturing plant for the glass front that will be put in at commissary building that is now being built at the mill east of the city. Work is being pushed on the building and when it is completed will be one of the most modern store buildings in Eastern Texas.

CHOLERA INFANTUM.

Child Not Expected to Live From One Hour to Another, but Cured By Chamberlain's Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by Perkins, Kleas & Mast.

When you want a pleasant laxative that is easy to take and certain to act, use Chamberlain's Stomach and Liver Tablets. For sale by Perkins, Kleas & Mast.

GOOD BLOOD TELLS ITS OWN STORY

And tells it eloquently in the bright eye, the supple, elastic movement, the smooth, soft skin, glowing with health, a body sound and well, an active brain, good appetite and digestion, refreshing sleep, energy to perform the duties and capacity to enjoy the pleasures of life. The blood is the most vital part of the body; every organ, muscle, tissue, nerve, sinew and bone is dependent on it for nourishment and strength, and as it circulates through the system, pure and strong, it furnishes to these different parts all the healthful qualities nature intended. When, from any cause, the blood becomes impure or diseased, it tells a different story, quite as forceful in its way. Itching, burning skin diseases, muddy, sallow complexions, disfiguring sores, boils, carbuncles, etc., show the presence, in the blood, of some foreign matter or poison. Rheumatism, Catarrh, Contagious Blood Poison and Scrofula, are effects of a deeply poisoned blood circulation. These may either be inherited or acquired, but the seat of trouble is the same—the blood. S. S. S., a purely vegetable blood remedy, cleanses and purifies the circulation and makes it strong and clean. Under its purifying and tonic effects all poisons and impurities are expelled from the blood; the general health is built up, all disfiguring eruptions and blemishes disappear, the skin becomes soft and smooth and robust health blesses life. Rheumatism, Catarrh, Scrofula, Contagious Blood Poison and all diseases of the blood are cured by S. S. S. Book on the blood and any medical advice, free of charge. T. J. Williams was here Friday and Saturday and placed a large order with A. B. Martindale for some of the big timbers and lumber to be used in the construction of the building for the Nacogdoches Show Case and Furniture Factory of which he is president.—Cushing Enterprise.

Mrs. Dysart herein notifies her proposed patrons that as she needs a little more time to arrange her studio she will begin her music class on Tuesday (the 11th) instead of tomorrow. In order to satisfy the citizens that she has a experienced and thorough mode of instruction she will give lessons the first week free of charge. Patronage solicited. Room 18, Suter Flats. Phone B-215. it

H. A. Dotson of Cushing, was in the city yesterday on legal business. Mr. Dotson reports that the price of real estate in his town is steadily increasing. It does one good to hear the Cushing people brag on their town.—Nacogdoches Sentinel.

You need not necessarily term it "bragging," it is merely a statement of facts as they exist.—Cushing Enterprise.

A. J. Spradley is preparing now to open a first-class detective agency here, and will do any kind of legitimate detective work from the capture of a train robber to the recovery

Tom Humason of Lufkin was in the city yesterday on a visit. The Hoo Hoos are making big preparations for the concatenation that is to be held here next Saturday.

ery of a stray dog. Twenty years successful experience in the sheriff's office, ought to fit Spradley for the successful prosecution of that line of business. It is claimed that successful detectives, like poets, were born such and not made.

C. B. Blankenship of Attoyac, accompanied by his daughter, Miss Ada, were in the city Saturday. Miss Blankenship was en route to Fort Worth, where she will visit her uncle, F. M. Jones, and will spend the summer months in that city. The Sentinel reporter met Mr. Blankenship and asked the condition of crops in his part of the county, and he said that the recent rains had about drowned out the corn crop on law lands along the Attoyac.

TUESDAY'S LOCALS.

Audley Harris went to Beaumont yesterday afternoon to hear W. J. Bryan's Fourth of July speech.

S. H. White was in the city yesterday and was a caller at the Sentinel office. He had the Daily Sentinel sent to Miss Laura Philleo at Rusk.

Rev. H. M. Hudson and wife, of Nacogdoches, returned home this morning after a visit to their grandchildren in this city, the children of G. S. McCarty.—Timpson Times.

George W. Cavin the saw mill man from Trawick, was in the city yesterday and says that he will be on hand to take part in the Hoo Hoo concatenation here next Saturday night.

Geo. W. Cable, of Davenport, Iowa, arrived in the city yesterday on a business trip and will remain in the city until after the Hoo Hoo concatenation here next Saturday night. Mr. Cable is the secretary and treasurer of the Hayward Lumber Co.

Jack Jones of Caro, was in the city yesterday on a business trip. His mission here was for the purpose of buying a delivery wagon for his store at that place. He reports that he has a nice run of business and was forced to purchase a delivery wagon.

B. J. Copes of Emporia, was in the city yesterday and while here paid The Sentinel a pleasant visit. He has some land interests in this county and since the oil boom promises to be revived he thought he would come up and see what was going on in the way of development.

Eugene Buckner was in Caro yesterday and caught a young fellow there who was painting the town red. The young man is now in the county jail and as soon as he sobers up right good he will have a hearing. Sheriff Buckner is after the wrong doers and says he will try and teach those he captures a lesson so that they will not repeat the offense.

L. G. Council's family arrived from Nacogdoches yesterday.

The household goods came in Saturday and were unloaded that evening and placed in the house, the family following on the next train. Timpson welcomes Mr. and Mrs. Council as citizens and hopes that they will be well pleased with their move. They are occupying the T. J. Reed home, corner South First and Grand streets.—Timpson Times.

Mrs. R. C. Shindler left yesterday for Marlin where she went to attend a meeting of the Texas Women's Press Association and will represent The Sentinel at the meeting. The association will go from Marlin to Boulder, Colorado, on an excursion.

We have had a little flurry in the telephone and light business for a few days. The light company claims that it refuses to furnish power to operate some additional business the telephone exchange has taken on without additional compensation. The telephone manager would not agree to quit using this additional power so yesterday at 10 o'clock the light company cut off all power. This would mean that by tonight the exchange could not operate unless it got other power. About 6 o'clock yesterday the exchange manager enjoined the light company, so this morning the light company secured an injunction preventing the telephone company from diverting the power that they were not paying for. Before the writ was served, however, the receiver for the telephone company at San Antonio called up Mr. Branch and informed him he had nothing to do with the injunction and did not authorize it, and that he would wire the manager here to conform to what Mr. Branch required as it was reasonable. So it seems the trouble is about over.

Mrs. F. D. Houston says, for eighteen years I have suffered with a severe stomach disorder which was constantly growing worse in spite of medical treatment. For the past few months I suffered nearly constantly. Under Dr. Carson's osteopathic treatment I gained four pounds the first month and am now well.

J. H. Summers has just returned from a trip through North Texas and he says that the corn and oat crops in that section of the state was never in better shape and that the yield promises to be something extraordinary. In speaking of the corn crop he said that the crop of this county would be something good itself, and that the farmers were in no immediate danger of being starved out in Nacogdoches county.

NATIONAL TOILET CO. PARIS, Tenn.
Sold in Nacogdoches by Perkins, Kleas & Mast and all leading druggists.

D. E. Clifton of San Antonio, was in the city yesterday and was a very pleasant caller at The Sentinel office. He returned home today and was accompanied by "Crandma" Rusche. Mr. Clifton has been in San Antonio for the past two years for the benefit of his health and his many friends here are pleased indeed to note the wonderful change during so short a time. He stated to The Sentinel man that he was in better health than he had been for the past ten years and that he could do quite a lot of hard work and not feel the least fatigued.

There was quite a little excitement on the street this morning when a negro porter at the drug store of Perkins, Kleas & Mast got into a little trouble with some of the boys in the store and started the negro out of the store on the run. Some one picked up a broom and started after the negro. The negro thought that his pursuer had a Winchester and the way that that negro yelled as he went down the street one would have thought that the entire town was after him. He escaped without much injury and only received a scratch across one eye.
