LETTER FROM THE WEST.

After the Man Who Sent Out the Report From Nacogdoches.

Dear Sentinel:

Ft. Davis, July 15.—I see that that fellow on the Beaumont Journal is still keeping up his old trick of getting the news "as well whar it ain't as whar it au." I am glad he was "way off" when he reported that I had come home to die. I feel an awful longing to come home, but I lack a whole lot of having given up to die. The fact is I feel very hopeful of entire recovery, though I am advised by eminent physicians that it will not be safe for me to return to East Texas for many months—possibly a year.

As to the condition of my health I will say for the information of those who may desire to know, that I have continued to improve ever since I left home. I have gained about ten pounds in weight and proportionally in strength. I left home on the 7th of May and have been here just two months. I stopped several days in San Antonio on the way. When I left home I was terribly emaciated and weak, having just gotten out from a spell of grippe and pneumonia that kept me confined eleven weeks, and which left me a physical wreck. I am now so much improved that I both feel and look like a different man, and I feel more like coming home and going to work than a man coming home to die.

I can't imagine who my "good friend" at home is who writes such false reports to the Beaumont paper. I trust that in this instance the motive is not that "the wish is father to the thought."

BONDSMEN GAVE HIM UP.

Cal Scott Arrested in San Augustine Yesterday and Brought Here.

At the last term of the district court Cal Scott was placed under a \$3000 bond with E. M. Weeks, Cash Linthicum, E. D. Williams and R. H. Blackwell as sureties. Yesterday the bondsmen were informed that Scott was making preparations to leave the country and they went to the sheriff and had a warrant issued for his arrest. He was in San Augustine, and as soon as the papers had been issued for his arrest the sheriff of San Augustine county was wired to arrest Scott. The sheriff placed him in the jail of that county and the authorities here were notified.

Deputy Sheriff Hiram Morris and Cash Linthicum left yesterday afternoon for San Augustine and will return today with Scott.

The brick work on the Hayward commissary is completed and the building will be ready for the big stock of goods within the next few weeks.

COUNTY COURT BUSY.

The Local Option Cases Are Attracting Considerable Attention.

The summer term of the Nacogdoches county court has about all that it can handle, and the violators of the local option are up for adjustment. Yesterday there were two cases called and in each one a conviction was had. One party was fined \$25 and twenty days in the county jail, and the other was fined \$30 and thirty-six days in jail.

The case against one of the parties who was arrested last week is up today, and is attracting more than ordinary attention. It is claimed that revenue license were found in his place of business at the time that the beverage that he was selling was confiscated.

Several gambling cases were up yesterday and the usual fines were imposed. The jury was out at noon with another case of gambling and it may be some time tonight before they can reach a verdict.

The Line Will be Completed to Woden in Three Weeks.

The Sentinel is reliably informed that the Nacogdoches and Southeastern will have its line run into Woden within the next three weeks and the line then will be ready to receive freight and passengers between Hayward and Woden.

A commodious depot has been built at Hayward and the material is ready for the other depots to be erected along the line.

Passenger coaches have been ordered and the freight cars are being built at the company's shops in this city.

Manager Bay says that the company is rushing the work on the line and that everything is being done to meet the requirements of the Texas Railroad Commission.

Frank Lazarine.

Otto Oleson, of Palestine, was in the city this week. He said that he came over here to see what we are doing in the way of raising fine tobacco. He reports that the crop in that county is very fair and that the people there are taking more interest in the growing of tobacco than they are over in this county.

HALTOM & HALTOM, Proprietors.

R. W. HALTOM, Editor

ANY old time, and at any old place, you can tell your friends that Nacogdoches "is the best what is."

THE continued wet weather has had a tendency to cause the peaches to be a little off in color and flavor.

SOME people expect to ride into office next year on the strength of being a member of the farmers union.

THERE is a difference between "want" and "need." Yet there are people who will buy everything in sight that they want when in fact they have no more use for it than a hog has for a side pocket.

A MAN is serving a twenty-nine days sentence in jail in Indiana for smoking cigarettes. It would be a fine thing for some of the small boys in this town to take a trip to Indiana and be taught a lesson.

FROM the news paper reports of the leakage in the department of agriculture of the figures on the cotton crop estimate is likely to get the secretary into trouble. It is intimated that his resignation may be handed in as soon as the matter has been settled.

THE railroad commission is revising the express classification to cover express shipments between points in Texas. In the classifications a new rate will be made that will be of much interest to newspapers that use auxiliary prints and plate matter.

CHINA wants to but into the peace conference to be held in the United States between Russia and Japan. The Japs say that they do not care to have the pig tailed heathen mixed up in the affair and that it is a matter to be settled by herself and the Russians.

IT is now predicted by the knowing ones that there will be a cotton famine in this country before the first of December. That being the case there will be a lively scramble for the fleecy staple in October and November and the prospects are that the market will open at a very nice figure.

IT can be safely stated that L. J. Story will be a candidate for re-election to the office of railroad commissioner next year. He is a most excellent gentleman and has made the state a good and efficient official. If he does announce he will have a good following as his is well liked all over the State.

THE SENTINEL is in receipt of the premium list of the San Antonio International Fair Association. The fair will open October, 21, and will close November, 1, and from the number of premiums offered this year the fair will be one of the best that has ever been held in the Alamo city. All East Texas stock farmers and others who desire to have an exhibit at the fair should write to J. M. Vance, San Antonio, Texas, for a copy of rules governing exhibits.

THE SENTINEL is proud of the fact that the city officials are trying to give the people good clean streets and sidewalks.

JUST charge it is easy enough to say, but will you pay when the time comes. Remember that when you "have it charged" that the merchant will expect his pay at the appointed time.

HOME merchants and all home enterprises should have your undivided support. It is to them that you turn for help when you bump up against the rough edges of adversity. Therefore it is only just and right that you should during the days of your prosperity make it convenient to trade with them.

TALKING about government ownership of divers and sundry industries in this country, the advocates of such a condition of affairs should turn the calcium light on the big insurance companies. If there ever was anything that needed regulating by the government, it is the life insurance business of this country.

AND they had a little race war in New York the other day and "real Texas guns" were used by the negroes in order to defend themselves from the mob. If this had happened in the south there would have been many columns written on the subject of the poor negro being imposed upon by the whites, but then this occurred in the east and the subject will be dropped by the northern press.

IN this day of progress when the business man considers his advertising appropriation an investment, the reading public can keep well posted on the values of merchandise, for it is an undisputed fact that advertisements are read by all classes, therefore you will have no excuse to state that you did not know that you could buy the same bargains at home, and save freight, and at the same time keep your money in Nacogdoches.

REMEMBER that it will soon be time for the big mail order houses to send out their offers to send you their big catalogues free of cost to you. After you have received it you will do yourself and Nacogdoches county a good thing to consign the same to the junk pile. While there may seem to be some bargains advertised, bear the fact in mind that the Nacogdoches merchants, can and do, sell the same class of merchandise at something like the same prices. There is nothing to be gained by sending away for anything that you need that can be purchased at home. Every time that you send a dollar off that much money is taken out of circulation in Nacogdoches, and makes times correspondingly harder. At any rate give the home merchant the first chance at the order and it is safe to say that you will find that The Sentinel is right when it makes the assertion that goods are sold as cheaply here as can be had elsewhere.

THERE will be about four candidates for governor of Texas next year and the chances are that the fun will be fast and furious.

A NEWSPAPER report says that "Europe wants to end the war" in the Far East. The entire world wants to see the war brought to an end.

You will be helping the good cause along by sending The Weekly Sentinel to some friend in the old States who is thinking of moving to Texas.

GRAFT is one of the principle requirements to become connected with an insurance company as an official. The larger the graft the larger the salary.

THERE seems to be a good wave passing over the state, even Dallas had the lid on Sunday and it may be possible that Sunday base ball will be cut out in that city.

A TOTAL crop failure in Nacogdoches county is a thing that the oldest inhabitant has never heard of and there is always enough made here that the people may live comfortably until another crop is harvested.

A NUMBER of the big printing houses over the country state that they are ready to sign the eight hour day on the first of January. The printers may not have but very few houses that will put up a fight for the old hours.

THE SENTINEL is pleased to announce to the press of Texas that Mr. R. W. Haltom's health is improving rapidly, and the day is not far distant when he will again assume editorial control of The Sentinel.

FROM present indications there will be a very lively little race for the democratic nomination for governor of Texas next year. At this writing, however, it seems that Tom Campbell of Palestine is the favorite. His friends are legion, and he is not using any official position to boost his candidacy.

THE grand chancellor of the Knights of Pythias has just issued "Pythian Doings For June" a little pamphlet issued for the benefit of the lodges throughout the state. The issue just out contains a lot of good news to the Pythian and every member who has the interest of the order at heart should see their keeper of records and seal and read the little paper.

"THE man who wears the diamonds and the man who pays the bill" is the subject of a cartoon in the last issue of the Commoner that tells a complete story within itself. It shows the "grating insurance official" throwing away the surplus that has been accumulated, and the policy holder paying in his premium at the window of the insurance office.

THAT part of Texas known as East Texas is the best country that the sun shines upon. By looking at the map you will find that Nacogdoches is very near the geographical center. That's why the town "is the best what is." Besides the best people on earth live in East Texas; good people live in other sections, but mind you the best are to be found here.

It is a duty that the papers of East Texas owe to this favored section to see that there is never an opportunity neglected to put in a good word for this section of the state. By all the papers uniting in the upbuilding of this section the people all over the country will be educated up to the point where they will believe that this part of Texas "is the best what is."

THE SUNDAY issue of the Beaumont Enterprise was a credit to the state and several years ahead of the city of Beaumont. It would be a credit to any city of 100,000 population. The editorial page was exceptionally well handled, and in fact the entire paper was ably edited. Showing that the various departments are in competent hands. The Enterprise has a good territory to work and the subscribers to that excellent paper are getting more than their money's worth in every issue of the paper.

Nacogdoches boasts of a cigar factory and well she may, for the enterprise is a credit to the town—in fact to all of East Texas, for the fine articles of cigars they are manufacturing will demonstrate to the world that as fine tobacco can be grown in East Texas as in Cuba, or anywhere else for that matter. The daily capacity of the Nacogdoches factory is about 3500 cigars or about 100,000 cigars a month. It is under the management of Louis P. DeMouche, an expert in the manufacture and art of cigar making and he gives the business his undivided attention. Every merchant in East Texas who handles cigars should make it a point to carry in stock the Nacogdoches brands and thereby show his loyalty to his section of country and assist in the upbuilding of East Texas manufactory enterprises.—Jacksonville Reformer.

Mr. W. B. McKnight, a prominent fruit and truck grower of Nacogdoches, was in the city yesterday a few hours investigating market conditions. He went to Orange yesterday afternoon. He ships considerable produce to this market and states that he has received satisfactory prices and fair treatment from our commission men.—Beaumont Enterprise.

That Corpus Christi is now being affected with a tobacco boom excites suspicion that Mrs. Brodie Duke has transferred her storm center, with which she intends to wipe out the American Tobacco company from Nacogdoches to Nueces county.—Beaumont Enterprise.

If you intend to give your son or daughter a business course this summer and fall let us sell you a scholarship in the Tyler Business College. Haltom & Haltom

The little baby of Mr. and Mrs. A. D. Wall that has been sick so long died Tuesday afternoon and was buried at Lawsonville yesterday afternoon. It is with regret that the Sentinel chronicles the death of the little baby, but then we all must die and when death does come it only makes us realize that death is the only thing that is a certainty, and teaches us that we should govern our lives that when we do come to the dark river that marks the boundary of the unknown shore that we may hear a voice triumphantly proclaim "well done thou good and faithful servant. The Sentinel extends condolence to the bereaved parents.

HOUSEWIVES HEADACHES

You don't know why you suffer from headache and you are apt to believe you have some dire female trouble, but its dollars to doughnuts that you are wrong. Women are prone to put off the duties of Nature to attend to the duties of the home and when they do get time to go, the feeling has passed. Constipation results and then the awful racking headache. Take a spoonful of

Dr. Caldwell's Syrup Pepsin every night before going to bed. Keep it up for a few weeks.

A. F. Kline, of Troy, Ohio, writes under date of June 10, 1901: "My wife and self suffered for three or four years with Constipation and Sick Headache, and we received almost instant relief by taking Dr. Caldwell's Syrup Pepsin. The use of several bottles restored our digestive organs to normal condition, and although we are free from any gastric trouble, we do not consider being without a bottle for a minute."

FINED THE LIMIT.

A Negro Man Beats a Negro Woman with a Stick.

From Thursday's Daily: There was a case in the justice court this morning that the judge done right when he fined the negro the limit. A negro was up before his honor on a charge of aggravated assault. It seems that he had gone to his home under the influence of bad booze and proceeded to clean out the ranch. The first to cross his path was his sister and it is alleged that he took a big stick and beat her in a shameful manner. Complaint was filed against him and when confronted with the charge he said that he was guilty of the offense. The judge put the fine at \$25 and costs of court.

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Eph Coon, of the Red Oak community, was in the city today on a trading trip. He reports that the farmers are not so very blue in his section and that the prospects were good for the people in his part of the country to raise enough for home consumption this year and that they would have a lot of good stuff for sale. Cotton and corn were looking very good taking all things into consideration and that it was his opinion that Nacogdoches would not suffer on account of there being no crops raised this year.

She Tried Five Doctors.

Mrs. Frances L. Sales, of Missouri Valley, Ia., writes: "I have been afflicted with kidney trouble five years: had severe pains in my back and a frequent desire to urinate. GOES INTO EFFECT TODAY.

The Pure Food Law as Passed by the Last Legislature a Law.

From Friday's Daily: The pure food law that was passed by the last legislature goes into effect today and it will no doubt be of much interest to the merchants of Nacogdoches to read the ruling of the Attorney General upon the subject. Merchants who have feed stuff put up contrary to the provisions of the new law on hand today must resack all such feed, and any sold otherwise will be a violation, and will make the merchant liable to prosecution. The following letter to the county attorney is self explanatory:

Austin, Tex., July 12, 1905.
Hon. Beeman Strong,
Nacogdoches, Texas.

Dear Sir: We are in receipt of yours of the 11th inst., in which you state that several of the merchants of your city will have on hand at the time the new law regulating the sale of feed stuff goes into effect, a lot of chops, etc. in 98 pound sacks and corn meal in 32 pound sacks and you desire to know how they can dispose of this property after the law becomes effective.

You are respectfully advised that there is no provision in the law which will exempt from its operation feed stuff on hand at the time it becomes effective. After it becomes effective, it will be unlawful for any person to sell or offer for sale corn chops in sacks containing less than one hundred pounds net, or corn meal in sacks containing less than thirty-five pounds net, fractional sacks to contain the same proportion.

I realize that this law will work a hardship in some cases, at the same time, it is a matter over which we have no control. Yours truly,

Claude Pollard,
Office Asst. Atty. General.

A HOPELESS FIGHT

It is impossible to conquer the king of diseases—Contagious Blood Poison—with Mercury and Potash as it would be to conquer the king of the forest in a hand-to-hand encounter, as thousands who have had their health ruined and lives blighted through the use of these minerals will testify. They took the treatment faithfully, only to find when it was left off, the disease returned with more power, combined with the awful effects of these minerals, such as mercurial rheumatism, necrosis of the bones, salivation, inflammation of the stomach and bowels, etc. When the virus of Contagious Blood Poison enters the blood it quickly contaminates every drop of that vital fluid, and every muscle, nerve, tissue and bone becomes affected, and soon the foul symptoms of sore mouth and throat, copper-colored blotches, falling hair and eyebrows, swollen glands, sores, etc., make their appearance. Mercury and Potash can only cover up these evidences for awhile; they cannot cure the disease. S. S. S. has for many years been recognized as a specific for Contagious Blood Poison—a perfect antidote for the deadly virus that is so far-reaching in its effects on the system. S. S. S. does not hide or mask the disease, but so thoroughly and completely cures it that no signs are ever seen again. S. S. S. while eradicating the poison of the disease will drive out any effects of harmful mineral treatment. A reward of \$1,000.00 is offered for proof that S. S. S. contains a mineral ingredient of any kind. Treatise with instructions for home treatment and any advice wished, without charge.

Doctors said He would not Live.
Peter Fry, Woodruff, Pa., writes "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. That is what they all say when they leave Nacogdoches in search of a better town—that there is not a town in the state that can beat it, and just as soon as they can get back to the town they say they have come back to stay.

Mrs. G. W. McBride of Simpson's camp grounds presented The Sentinel with some sweet pepper today. The specimens on exhibition are fine and would look well on display at a county fair. Speaking of fairs reminds The Sentinel of the fact that this county should have a regular county fair association and hold meetings every year and invite the stranger to come and see what we have in the way of a good country and what this country will produce. This matter should have the attention of the Business League and let the town get up something of this kind to advertise this particular part of the state. The Sentinel believes that Nacogdoches "is the best what is" both as a town and county, and would like to have a county fair association organized.

Four Facts For Sick Women To Consider

Lydia E. Pinkham's Vegetable Compound Has an Unequalled Record of Cures—Mrs. Pinkham's Advice is Confidential, Free, and always Helpful

First.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful menstruation, leucorrhoea, displacements of the uterus, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

Second.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, all uterine and ovarian inflammation, weakness and displacements, regulating menstruation perfectly and overcoming its pains. It has also proved itself invaluable in preparing for childbirth and the change of life.

Third.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Fourth.—Every ailing woman in the United States is asked to accept the following invitation: "It is free, will bring you health and may save your life."

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Perkins, Kleas & Mast. dw

Next week there will be a base ball game in this city between the Nacogdoches base ball club and the Lufkin club. It will be an interesting game as the two teams are very evenly divided and the games that these teams have played this year have been very close. No doubt but that the local fans will be pleased to know that there will be a first class game of the national game played here, and it is safe to predict that the attendance will be good at all the games in this series.

The Only Way to Cure.

I contains no opiates and is best for coughs, colds, croup, whooping cough, etc. Pleasant to the taste and equally good for child or adult. Wilton Ratcliff left last night for a trip over East Texas in the interest of the Nacogdoches Cigar Factory. The product of the factory is being sold in all the large towns and from the way it at the duplicate orders are being turned in the smokers of Texas and Louisiana are judges of what constitutes a good smoke. The Nacogdoches cigars are sold on their own merit and the consumer gets full value for every five or ten cent cigar that he smokes that is put up by the Nacogdoches factory. When the true judge of a cigar once tries the Nacogdoches variety he cannot be coaxed away by the use of premiums.

Never Disappoints.

"Many extensively advertised remedies are failures when put to test. Hunt's Lightning Oil is an exception. Confidence in it is never misplaced—disappointment never follows its use. It is certainly the greatest emergency remedy now obtainable. For cuts, burns, sprains, aches and pains, I know no equal." Geo. E. Paddock, Doniphan, Mo.

Mr. A. Chesnut brought to our office this week a sample of his Elberta peaches from his six acre orchard one mile south of town, which according to actual measurement was 10 1/2 inches in circumference and weighed 9 ounces. His trees are only three years old, and it was thought at first that his peach crop was a failure but it has turned out that the trees had as much fruit as they could bear, owing to the size. Mr. Chesnut has sold his home place in town, and speaking of moving to Houston, if he does his farm, including 40 acres of land with the orchard will be for sale, and any one wanting to go into the truck and fruit business, could hardly find a more desirable place.
