Courtel to be Torn Away.

Another perhaps the last of the noted antique houses of our historic town is condemned to be torn away.

It is the old building back and west of Hoya's corner that was formerly used by Mr. Goff as a hotel, is the place most commonly known in earlier days of Nacogdoches as the "Old Courtel." "Courtel" is a Spanish word and its signification in a military sense is barracks for soldiers. This building was so-called, because it is where the U. S. Troops that were sent into Texas by Jackson a short time before the battle of San Jacinto was fought, were quartered for some months.

Prof. Davis Re-elected.

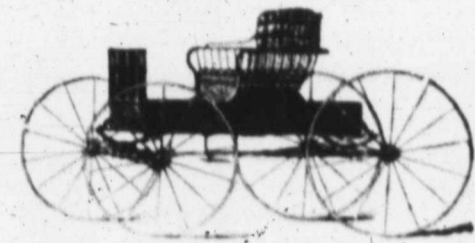

At a meeting of the school trustees yesterday evening Prof. R. F. Davis was re-elected superintendent of the Nacogdoches schools for the next two years. The present good schools of Nacogdoches, are to a great extent due to Prof. Davis' untiring efforts and it was an easy matter for the people to decide again in his favor both from a personal and business standpoint.

Mrs. E. Livingston and F. W. Mally have opened a real estate office in the building recently vacated by Brook Mays & Co. corner Main and North streets.

In the school election Saturday there were only 26 votes polled.

THE BUGGY MAN

Hand Cut.

Yesterday evening at 5 o'clock at the Nacogdoches Show Case & Manufacturing plant, John Cook had the misfortune to get the two middle fingers of his left hand cut off in the joiner machine. A physician was immediately summoned and dressed the young man's hand. At last reports he was resting easy. Jno Cook is a nephew of Geo. Cook one of the proprietors of the plant.

For Constable.

In the announcement column of this issue of The Sentinel will be found the name of H. K. Bussey as a candidate for the officer of constable of precinct No. 5, Linn Flat, subject to the action of the Democratic primary election. Mr. Bussey is well known to the voters of his precinct and no doubt would make a good office. He solicits the support of the voters of precinct No. 5, and will appreciate any favors shown him.

Jessie Brantly has accepted a position in the freight office at the depot.

Mahl Locals.

Mahl, Texas, May 6, 1906. Editor Sentinel:

The health of our community is good.

Crops of all kinds are looking well and are in good growing condition. Cotton chopping is the order of the day.

Cattle got into Mr. N. H. Hutchinson's field and almost ruined his corn crop. Mr. Whiteman gave him wire, nails and steeple enough and delivered it to build 500 yards of fence. The rail road had torn the fence up some was the cause of the cattle getting in. Mr. Hutchison did not claim any damage from the road.

There is some talk of a mercantile establishment in the Pine Island community. This is good news to the neighborhood. An enterprise of this kind is greatly needed as it is eight miles to nearest town. Just come ahead somebody and help to bring this part of the vineyard to the front. A mercantile business would doubtless do well here as we have the finest land in East Texas for fruit, vegetables, melons, peas, peanuts, cotton, corn and various other crops, besides fine stock range and water.

Bachelor Button.

The Nacogdoches Cotton Oil Co. held their annual meeting Saturday, and the following officers were elected: Chas. Perkins, president; E. M. Dotson, vice president; D. K. Cason, secretary; E. A. Blount, treasurer. The directors are, John Schmidt, E. A. Blount, D. K. Cason, Chas. Hoya, E. M. Dotson, P. M. Sanders, Chas. Perkins. The directors will have a meeting this week and they will elect a manager.

Two negro employes of a saw mill at Appleby were walking the railroad track to Nacogdoches yesterday, when they reached the Junction they met three other negroes. One of the three seemed to be drinking enough to feel mean and he gave one of the two Appleby negroes a slash across the arm with a knife, inflicting a very severe wound.

Woodmen Services at Sacul Sunday.

Despite the awful rain Sunday the people of Sacul and a number of visitors were present to witness the unveiling of a monument erected by the Woodmen for their deceased brother Tom Gresham.

Many will remember the tragic death of this young man. He was the victim the log rolled on and crushed at a mill north of here some few months ago.

The service was a most impressive one and deeply touched those there.

Died on Forbes Hill.

From Monday's Daily: Mrs. Tom Jones died yesterday at her home on Forbes Hill. Mrs. Jones was a good woman and all that knew her feel that the community has lost an influential woman for the betterment of things in her death.

Sixty-eight bills of indictments for misdemeanors, found by the last grand jury, were transferred from the district court to the county court and filed in the county clerk's office yesterday, May, the 8th.

HALTOM & HALTOM, Proprietors.

R. W. HALTOM, Editor.

A SYNDICATE has promised San Francisco a loan of \$100,000,000.

TOM CAMPBELL will be elected and the country will be proud of the fact.

POST the streets of Nacogdoches and then have the houses numbered.

PROSPECTS are exceedingly bright for a red hot campaign in the race for representative.

TOM CAMPBELL is not only strong in Eastern Texas, but all over the state. Here's to the next governor of Texas.

WHEN the Business League takes hold of a proposition there is usually something doing for the good of Nacogdoches.

If the City Council really desires to do something for the good of Nacogdoches, let them build a wagon bridge across Banita creek on Fredonia street.

THE total cotton crop of last year in running bales was 865,520, equivalent to 10,804,537 bales of 500 pounds each. Texas produced 2,490,128 running bales.

SECRETARY TAFT has informed the relief committee in San Francisco that he cannot order the payment of money out of the treasury of the United States to the committee for any purpose.

CONGRESSMEN can send free seeds to their constituents. When the proposition was before Congress, Morris Shepard was the only Texas representative to vote against the free seed graft.

THE news is given out from Austin that Attorney General Davidson has had several secret service men gathering evidence against the trusts in Texas. "Oh there will be a regular Missouri kind of a time at Austin" when the dance begins.

C. E. GILMORE editor of The Wills Point Chronicle is a candidate for floater from the 32d district. A man who is capable of publishing a paper as good as the Chronicle, will make the people of that county a floater who will be heard from and for the country's good.

PROSPECTS are that the congressional race this year will be a sizzler in this district. If the distinguished gentlemen who desire to represent the Second district in the halls of Congress will refrain from mudslinging a warm campaign will be appreciated by the voters.

THE farmers of East Texas will certainly be in clover this year if no calamity befall the crops. A gentleman recently made a trip through the country and he said that after viewing the growing crops that "the sand hills of East Texas would make forty bushels of corn to the acre." That will be going some for this part of the state.

A GREAT INJUSTICE.

Some one herald to the world that the good people of Appleby had formed a mob of some 150 to come to this city on last Saturday night for the purpose of mobbing a man who was arrested and brought to this city on a charge alleging that he had made indecent proposals to a lady in that town. In the first place the people were not certain that he made the proposals, and in the second place if he had the people there are law abiding and would let the matter be settled in the proper tribunal of justice. It was reported that there had been sold a large number of tickets to Nacogdoches from Appleby to accommodate the mob that was coming. This was a canard pure and simple for the fact was there were no tickets sold to Nacogdoches that night from Appleby. It is bad enough to tell the truth when such unfortunate things take place, but when the matter is stretched to conform to the contorted imagination of a correspondent it is time to call a halt. A great injustice was done the good people in the vicinity of Appleby by sending out the report, and they are very anxious that the same should be corrected.

ONLY \$90,000 will be asked for this year for the purchase and distribution of free seed by Congressmen to their constituents. This free seed business should be cut out. It is a useless expense and if any farmer has ever been benefitted by receiving free seeds, The Sentinel has yet to hear of it.

THEY say that the Elbertas grown in East Texas are the best on the market; that East Texas produces the best ribbon cane syrup in all this land extant; that East Texas strawberries are the best; that the finest and the best melons are grown here. All these good things should convince the fruit and truck grower that East Texas is the best country on earth.

A CAT crawled into the great organ of St Luke's Church at York, Pa., and when the organist attempted to begin the music for the usual service the keys failed to respond. The cause of the trouble was not discovered until after the service. There are a great many people who would be glad if cats were to acquire the habit of crawling into their neighbors pianos and keeping them quiet.—Galveston News.

ANGELINA county will pull off a local option election sometime next month. A petition will be presented to the commissioners court of that county Monday, May 14. The campaign promises to be one of the hottest within the memory of the oldest inhabitant. Lufkin is the only place of any note in this section of the state that has the open saloon, and if all the horrible tales that have been circulated about that fair town are correct, the sooner the good people vote whiskey out of that county the better it will be for every citizen in the county—the saloon man included.

FREE PASSES may be bad things, but we know many other things that really effect the welfare of the general public far more than the issuance of free passes by railroads, and, according to our view of the matter, the representatives of the people in official positions can much better serve their constituency and their country by addressing themselves to those things than they can by riding a free pass hobby. The country has been afflicted with anti-free pass gush now until it is beginning to have a good case of that "tired feeling," and the majority of the people, we believe, are beginning to have their eyes opened to the fact that in too many instances there would be leaders of an anti-free pass crusade are nothing in the world but brazen-faced, copper-bottomed demagogues.—Bonham News.

A BILL intended somewhat to anticipate the Supreme Court's decision in what is known as the adopted whites case was introduced in the House today by Mr. Curtis of Kansas, by request. The passage of the bill would permit all whites who have married into the Shawnee, Delaware and Cherokee tribes since the tribal act of 1895, which deprived them of property rights, to purchase their allotments at \$325.60 each, this amount being much less than their appraised value. The bill, it is understood, has the favor of the members of the tribes.

THE members of the Louisiana crop pest commission fear a decided increase in the number of boll weevils this season. This is due to the fact that the past winter was unusually mild and few weevils were killed by the cold. For the previous two years the advance of the boll weevil has been greatly retarded by the cold winters, but during the past winter there has not been sufficient cold weather to kill many weevils and the pest is likely to appear early this year and in increased quantities.

Proposed Amendments.

Three amendments to the state constitution are to be voted on at the next general election, the substance of each being as follows:

1 To exempt the endowment funds of institutions of learning and religion from taxation.

2 To authorize counties to levy a tax not exceeding 15c on the \$100 valuation for the purpose of paying jurors.

3 To pay members of the legislature a salary \$1,000 for the year in which the legislature regularly assembles and \$5 a day for service at special sessions called during the intervening years.

A. A. Meador of Libby was in the city today and while here paid The Sentinel an appreciated visit. He reports that a section of the county coming to the front. They have a long distance telephone connection with the commercial world and the big mill of The Bownd-Meador Lumber Co. is now in full operation. The general health of the community is fine and the crop prospects were never better than at this time. All together he predicts a general wave of prosperity to overtake the people of Nacogdoches county this year. Here's hoping that his predictions are well founded.

Insurance authorities estimate that insurance companies will have to pay in the neighborhood of \$200,000,000 for San Francisco losses. Newspaper dispatches also announce that in order to make up these losses there will be a general advance throughout the country in the price of fire insurance.

J. V. C. T. Christensen, proprietor of the Nacogdoches Iron Works was in our city the early part of this week looking after the trade in this vicinity. This is a new enterprise for Nacogdoches and as it has a large field of trade we predict for it success and growth.—Cushing Enterprise.

Industrial Education.

Hardy Dial received notice this week that he had been appointed a member of the Industrial Board of Education under the supervision of the Farmers' Union. The board consists of one member from each congressional district, and Mr. Dial's territory embraces the second congressional district. The Sentinel believes that the appointment is an excellent one for the season that Mr. Dial is a very enthusiastic member of the organization he represents, and is also a practical farmer and while he did not have the advantage of a college education in his young days, he sees the necessity of giving the boys and girls of the country an education, and especially along industrial lines.

He stated to the reporter this morning that he would make a tour of the district at an early date and would appoint some good man in each county as county superintendent of the work as mapped out by the board.

An Indiana woman has become the mother of four children in the past eleven months. She is evidently of the same family of the Texas woman recently referred to by a Texas delegate to a Sunday school convention in Kentucky. When he was called on to report for Texas, he said: "My delegation represents Texas, the grandest State in the Union. The first white woman born in her borders is yet living—and now she has a population of 3,000,000."—Bonham News.

Load of Wool.

Yesterday afternoon Mr. Amos Rodgers of Douglas was in the city with a load of wool, and for which he found a ready market and at prices which were very satisfactory. He stated to The Sentinel man that he had 400 pounds this trip. He has only 150 head of sheep and says that they are but very little trouble.

TAKE TIME TO EAT.

Hurry at Meals Will Send You to Stripling, Haselwood & Co's for Mi-o-na Stomach Tablets

"Eat in haste and repent at leisure" is an old saying brought up to date.

Hurry at breakfast means a bad start for the day, and if you hurry also at the other meals, you will soon suffer with loss of appetite, sleeplessness, nervousness, turred tongue, specks before the eyes, headaches, backaches, weakness and debility, indigestion, or other ills that are caused by an abused stomach.

Here in Nacogdoches, as in thousands of other places over the country, hurry at meals increases the druggist's business. Not a day passes that Stripling, Haselwood & Co. do not sell several packages of Mi-o-na stomach tablets to those who have ruined their digestion by not taking time to eat.

Stripling, Haselwood & Co. have seen so many cures made by Mi-o-na that they sell it under an absolute guarantee that it will be successful in every case where it is used in accordance with directions, that is, one tablet before each meal, and will refund the money to anyone whom it does not help. A large box of Mi-o-na tablets costs but 50 cents if it cures; nothing if it fails.

A Word From the Captain.

Cushing, Texas, May 1st, 1906.—You may say for me in this week's issue of your paper, that by the next issue I will decide fully, as to whether or not I will be a candidate for the legislature.

You may also say for me that I have never told any one that I would not under any circumstances, be a candidate. My business interest that would have to be in a measure sacrificed, have had to be considered, for which reason I have so far been undecided.—A. B. Martindale Cushing Enterprise.

BIG LAND DEAL AT EAGLE PASS

Nearly 400,000 Acres of L. & G. N. Grant Has Been Sold.

Eagle Pass, Texas, May 4.—The largest transfer of real estate in the history of Maverick Company has just been made whereby the New York and Texas Land Company conveys to Wm. E. Bond, Mark T. Cox and Thomas R. White, Jr., the whole of their holdings in Maverick county, consisting of 386,044 acres, all of which except about 14,000 acres acquired in recent years are known as the International and Great Northern lands donated by the Texas legislature 30 years ago.

The consideration in the deed is nominal, but it is believed the transaction is preliminary to placing the lands on the market.

Letter to C. S. Southern, Nacogdoches, Texas.

Dear Sir: Here's something every painter and builder ought to know.

Mr. J. J. Hall, Sheffield, Pa., painted two houses, five years ago, lead-and-oil; took 40 gallons. Last year, he painted Devoe; bought 40 gallons; had 10 left.

He is one of thousands. The knowledge is getting about pretty generally, that Devoe goes further than anything else.

Have you found it out in your own experience?

How much further? Suppose a job amounts to 10,000 square feet; how much less Devoe could you buy?

Is it as easy to paint? Does it cost any more or less to put-on by the gallon than anything else? how much?

If it costs no more to put-on Devoe by the gallon, it costs less by the foot, you know; for the gallon does more feet. How much less, do you find it, for wages?

Lasts, say, twice as long; that is the owner's gain; but perhaps you reckon it yours: some do. The time when that comes-in, is when he gives-out the next job.

Who gets it? Yours truly F. W. Devoe & Co. P. S. Perkins, Kleas & Mast sell our paint. 58

\$8,000,000 For Two New Buildings

New Orleans, May 3.—The approaching summer season and the watchfulness for signs of fever has had no deterrent effect upon modern building construction in New Orleans and a contract for a \$2,000,000 department store on Canal street has just been let to James C. Stewart & Co., the St. Louis contractors who are building the \$5,000,000 elevators and steamship wharves for the Southern Railway at New Orleans. In a few weeks another contract will be let for the \$5,500,000 Audubon hotel next to the \$2,000,000 department store and with sixteen stories will occupy two-thirds of the entire block. With the Holmes department store, the great Hibernia Bank building, three new theatres, an immense auditorium, two new hotels in addition to the Audubon, and the prospective removal of the colossal plants of the American Sugar Refinery from New York, to add to the ones here and countless residences and minor structures building, construction in New Orleans is on a boom which neither monetary stringency or fever has been able to retard.

A STEADY DRAIN.

Sick Kidneys Weaken the Whole Body—Make You Ill, Languid and Depressed.

Sick kidneys weaken the body through the continual drainage of life-giving albumen from the blood into the urine, and the substitution of poisonous uric acid that goes broadcast through the system, sowing the seeds of disease. Loss of albumen causes weakness, languor, depression. Uric poisoning causes rheumatic pain, nervousness, nausea, cricks in the back, gravel and kidney stones. The proper treatment, and the best remedy is Doan's Kidney Pills.

J. A. Haywood, trimmer, employed by the Lufkin Land and Lumber Co., and living one mile east of Lufkin, Texas, says: "It is over two years since I was cured of a bad case of gravel and kidney trouble by the use of Doan's Kidney Pills. I first felt the trouble about six years ago. I have worked in saw mills all my life, and before we got the new machinery we had to turn all our logs by physical strength. It was while at this work one day that I wrenched my back. I was laid up for six weeks, and ever since then whenever I have tried to lift or stoop I would suffer from pains in my back. Gradually the kidney secretions became scanty and accompanied by burning pain in the bladder which was very severe. Two years ago a heavy log fell on me and broke my leg in three different places laying me up. While getting well, want of exercise caused the kidneys to become inactive and I suffered the tortures of the damned. A doctor who was called in said it was gravel and treated me but without bringing about a cure. One day I read of a similar case to mine being cured by Doan's Kidney Pills and I sent for a box. After the first two doses I passed a stone like a pea, finding great relief immediately. Before I had finished the box these stones or hard substances passed from me. My back got well right away and from that time until the present I have never had the slightest trouble from either backache or bladder ailments, and it gives me great pleasure to endorse Doan's Kidney Pills as an invaluable remedy for kidney and bladder troubles."

Plenty more proof like this from Nacogdoches people. Call at Perkin, Kleas & Mast's drug store and ask what their customers report. For sale by all dealers. Price 50 cents. Prohibition.

Following the Stuart revival, a movement was started for a county prohibition election. A number of petitions were drawn up last week and have since been circulated in different parts of the county. It is said that already more than the required number of names to secure the election have been obtained, but the desire seems to be to make the petition as strong as possible and the canvass for signatures will continue until the commissioners court meets on May 14. The election will probably be ordered for some day about the middle of June, and from the time it is ordered until the polls are closed the fight will be fast and furious. The Tribune is informed that Rev. Geo. Stuart has promised to return to Lufkin and make four speeches for the pros, while Cyclone Davis will spend ten days campaigning against the saloons. We are also told that as Angelina county is now practically the only oasis in the East Texas desert, surrounding counties will contribute liberally to the success of the prohibition movement, Nacogdoches alone having promised a donation of \$500.00—Lufkin Tribune.

The Wrong View of It.

Those who have been aroused by what they call "Father Sherman's March to the Sea" are on the wrong track. They seem to be laboring under the delusion that the priest originated the trip and asked the government to provide a regular army escort. Some critics say that the fact that he sought an escort appears to indicate that he feared violence, and thus reflects upon Southern Chivalry. Now, the truth of the matter is that Father Sherman of his own accord had nothing to do with the enterprise. It seems that the War Department recently issued an order instructing commanders of posts and departments to have practice marches made by officers and men, and particularly to study the movements of the armies of both sides in the civil war. Gen. Bell, chief of staff, says the scene of Sherman's operation is especially interesting and instructive from a tactical standpoint, and that it is natural that officers should make a study of his march to the sea and the various fights he had with the Southern forces. The officers who were to make a study of the march to the sea thought it would be a fine thing to have Sherman's son, a priest who served as an army chaplain during the war with Spain, accompany them. That is all there is to the matter. It would seem that the incident has been tortured into a yellow journal sensation.

Henry Millard is up from severe spell of sickness which kept him confined to his bed several weeks.

Citizen Objects Again.

The Dallas Sabine division of the T. & N. O. has just made application to the Railroad Commission for permission to increase rates on general merchandise 20 per cent. They allege that the present rates are unreasonably low, that the property is being operated at a constant loss and that there is an urgent demand for "physical betterment" of the road.

If the Southern Pacific Co. were to pay less attention to the two competing lines of the Dallas-Sabine division to wit: H. & T. C. and H. E. & W. T. and treat the Dallas-Sabine with reasonable fairness both as to freight and passenger traffic and quit using it as the dumping grounds of the cast off material of other roads, the prayer for relief would deserve consideration, if it were not the fact that the road has virtually been ordered adjudged and decreed to be sold. They have defiantly said "we do not have to sell." Where are the powers that be, or are there any? Citizen.

Meeting the Train.

An editorial in the Tyler County Messenger calling attention of parents to their children hanging about the depot on Sundays to see the train come in, meets with our hearty approval, and not only do we want to include the children, but grown people also, especially young ladies. It would be interesting to young ladies and young men and people generally, to hear the conversation of people on the trains when passing by a small town and see great crowds of people gathered on Sundays, standing about the depot, and sitting in buggies and carriages to see the train come in, and feed their curiosity on who gets on or who gets off. It has a smacking of "way down from the forks of the creek," or the "gad about set." There is a tinge of "greenhornism" about it that intelligent people can't afford to patronize. It is a strange thing that some folks will never quit a thing until their attention is called to it, and then often they refuse to heed, simply because a thing is popular is no just grounds for it being right. It looks common, it looks undignified and the better class ought to quit it, and in fact they ought to have never commenced it. If you have a friend or friends to meet, that is all right, but simply hanging about the depot to see and be seen and gaze and stare and smile, and giggle from pure curiosity's sake, is not befitting a high plane of intelligence.—Rusk Journal.

Nacogdoches has an ordinance prohibiting the keeping of hogs within the city limits. Timpson ought to have one just like it, but she never will while the majority keep hogs. No one, except those who have to endure in silence, knows how dreadful the odor of a hog pen is, especially after rain. Let those who keep hogs practice the golden rule and, as far as possible, protect their hogless neighbors.—Timpson Times.

The Frazier Oil Company.

All the capital stock has been subscribed and work will begin tomorrow. A deep well has been contracted for and will be put down about one half mile south east of Oil City and within two hundred yards of the right-of-way of the Nacogdoches & South eastern railway.

The prospects for the early extension of this railroad are very flattering as we understand that the Hayward people have again taken the matter up.

Mr. Frazier is an experienced oil man and his presence in the field is a guarantee of a deep well.

Troupe Man Honored.

It will be good news to his many friends, that our townsman, J. R. Engledow was elected on the second ballot as Grand Outer Guard of the Grand Lodge of Knights of Pythias of Texas which convened in Galveston last week. This is an honor worthily bestowed on one of the best Knights of Pythias of all the grand domain of Texas and the Banner not only congratulates him but his lodge, the justly famous Cascade No. 96 right here in our own town, and likewise Messrs D. P. Jarvis, H. H. Hodges, Charley Pace, Arthur Harris, Will Mock and I. L. Lawhon went to Galveston and did some campaigning (we presume) in behalf of Mr. Engledow's candidacy.

The position of Grand Outer Guard leads according to past Pythian custom, to the highest office of the Grand Lodge of Texas, that of Grand Chancellor, and here's hoping that J. R. Engledow may live to be Troupe's gift to this exalted office.—Troupe Banner.

A young man fell in love with a pretty German girl and sent a note promising a place of meeting. He wrote: "That my darling may make no mistake, remember that I will wear a light pair of trousers and a dark cutaway coat. In my right hand I will carry a cane and in my left a cigar. Yours ever, Jake." The girls father got hold of the note and sent this answer: "Dot mine son make no mistake, I will be dressed in mine shirt sleeves. I will wear in right hand a club. In my left hand I will wear a sixshooter. You will recognize me by de vay I bats you on de head a goople of times twice mid de club. Up to Wednesday morning the grand jury had returned 24 bills of indictment, ten of which were for felonies and 14 for misdemeanors. One of the felony indictments is against N. B. Chancy, charged with the murder of Tom Sims. Chancy was re-arrested Monday and has since been confined in the county jail. His case is set for trial on Monday, May 14, and before the end of this week his attorneys will likely endeavor to secure his lease on bail through with habeas corpus proceedings.—Lufkin Tribune

Children Play in Your Yards

It is a bad practice the little folks have of playing in the streets so often. Some time some one will perhaps be badly injured in some manner. Only yesterday two strangers being driven up North street in a surry with two horses at a moderate gait ran over little Dell Cook who was playing tag with a neighbor. The child fortunately was not badly hurt just senseless for a time, but the next one may be killed.

Often many who drive and not all who drive fast are careless, can tell some experience of either having ran over some little fellow or just escaped this accident.

Just as the pessimist is about to convince us that the old world is all wrong something happens to prove that it is all right. The splendid contributions for the relief of San Francisco, for instance.—The Commoner.

Leave Tomorrow With God.

Would it not be better to leave tomorrow with God? That is what is troubling men; tomorrow's temptations, tomorrow's duties, tomorrow's burdens. Martin Luther, in his autobiography, says: "I have one preacher I love better than any other on earth: it is my little tame robbin who preaches to me daily. I put his crumbs upon my window sill, especially at night. He hops on to the sill when he wants his supply and takes as much as he desires to satisfy his need. From thence he always hops to a little tree close by, and lifts up his voice to God, and sings his carol of praise and gratitude, tucks his head under his wing and goes fast asleep, and leaves tomorrow to look after itself. He is the best preacher I have on earth."—Ex

A man was heard to say that he had often heard it said that East Texas was God's country, but that the old man had not been home since he had been here. We think the Gent wrong and has been pulling at the wrong bell cord. This country above all others is bountifully supplied with every thing necessary for the comfort and welfare of mankind generally. We are surrounded by all the natural resources necessary to sustain us in comfort, pleasure and ease; but there is something for man to do as his creator intended, that is earn his bread by the sweat of his brow in any country.—Garrison Gleaner.

Tobacco Growers.

I want to buy every pound of tobacco grown in this county. I want to pay cash, the very highest market price, according to class. Don't let any one head me off. Bring it to the cigar factory. I will pack and sweat it there. Will have some body there to receive it at any and all times. OLD CLAIM SETTLED.

Expense of Removal of Cherokees to West Fifty Years Ago.

Washington, May 2.—The responsibility for the payment of the removal of the Cherokee Indians from the Eastern States to Indian Territory more than half a century ago was decided by the supreme court of the United States to rest with the government. There were several cases involving the same question.

The opinion was handed down by Chief Justice Fuller and affirmed a former decision of the court of claims with slight modifications. The expenses were charged to the Cherokee treaty fund and the Indians claimed this was improperly done. The question of interest payments also raised. The judgment of the court of claims was in favor of the Cherokees and against the United States, and called for the payment of about \$4,000,000. The decision provides for a per capita payment to the Cherokees who remain in North Carolina, Tennessee and other Southern States. There are about 6000 of them. They asked for about one-fourth of the entire award.

The modification in the decision of the court of claims by the supreme court consisted in cutting out the old settlers, or Western Cherokees, thus removing the entire sum awarded to Eastern Cherokees who did not remove from their homes in North Carolina, Georgia and Tennessee until 1838.

Attorney Robert Lowen, who is himself an Indian and representing the Eastern Cherokees, says originally there were about 16,000 of those Indians, but that their descendants number about 50,000.

The award will be divided among them after expenses are paid.

Allowed Bail.

Wallace Jones the negro that was arrested yesterday was allowed bail, his bond being \$300.

Oak Ridge Notes.

Another rain has come to cheer and bless us. But while the earth smiles a welcome today, the farmers wear a care-worn frown. Grass, grass, grass, is the topic of the hour. It was bad enough before, but now it will be worse. But there is nothing so bad, but what it might be worse.

Our singing at Oak Ridge Sunday afternoon, did not materialize to its fullest extent, on account of the inclement weather.

A social, given at Mr. Scott's last week, was highly enjoyed by the young folks. Another at Mr. Joe Gaston's Saturday night, was pronounced a success. The night was as divine as any "June night, on the Danube river." All nature is waking, and thrilling with the gentle influence of Spring, it is little wonder that youth, too, responds to the magic of the season.

We are glad to have Miss Lora Hardeman with us again. She has been, for several weeks, at Garrison, taking a teacher's course. We welcome her, with pleasure, in our fraternity of pedagogy.

Miss Gladys Simpson has been visiting Chireno for the past ten days, the guest of Mrs. W. D. Lambert.

Mr. and Mrs. Gillikin are on the sick list. Mr. Gillikin has been an invalid a long time. Now the "gripp" has him in its clutches, and shows him no mercy. We trust though he may safely recover.

Mr. Scott's sister, who has been visiting relatives in Texas, has returned to her home in Alabama.

Mr. Alden Hanna of Martinsville has been the guest of his relatives in this neighborhood and attended the social given in his honor, at Mr. Gaston's.

We are proud to hear such favorable reports from Ira Gaston at Huntsville, and Joe Parks at Pittsburgh. Both have been receiving distinguished honors, in their respective schools.

Bro. Luker will preach at Fairview next Sunday, May 13th. We hope for a fine attendance, as we usually have at that place.

A physician who has practiced for thirty years in a California valley says the hillside upon which he lives is of granite formation, and the water the people drink is consequently soft. The other side of the hill is composed of limestone and the water from the springs and well is hard. The doctor has been struck with the fact that his practice is enormously greater in the limestone district. He finds the hard water drinkers die of Bright's disease and are crippled with chronic rheumatism, while the soft water imbibers generally live longer and are free from these diseases.—Exchange.

Arrested for Bootlegging.

Yesterday evening Sheriff Buckner placed Wallace Jones in jail on a charge alleging bootlegging. This is the second time he has been arrested for the same offense, and for the former offense he served his sentence out on the County farm.

Melrose Locals.

This bright Monday morning is one of those bracing winter days that is out of season which we enjoy so much.

The farmers will have to accept the adage "early to bed and early to rise," to keep up with the growing grass.

Prosperity in our county is in sight to gladden our hearts.

Miss Lola Hardeman returned Saturday from Garrison school and will be at home to her friends at Mr. and Mrs. Jno. N. Wilsons.

The Sabbath school was rained out yesterday and we beg every one to be on hand promptly next Sunday.

Mr. L. T. Barret is very feeble.

Mr. Will Alders is not improving very much.

Mrs. Sue Kendrick and daughter, from Alabama, have been visiting her brother, Mr. Scot, near Melrose, and at San Augustine.

Miss Alpha Windsor's school closed this morning.

It Is Dangerous to Neglect a Cold.

How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by Perkins, Kleas & Mast. dw

Trawick, Texas, May 9th, EDITOR SENTINEL.—Owing to the heavy rains of late, the crops are needing work on every side, however, we have been blessed with unusual weather this spring for work.

Mr. H. M. Crawford has some very nice tomatoes.

Misses Anna and Mattie Barnes of Indian Ty, are visiting here now.

Albert Brewer's horse is very sick with pneumonia at present.

Dr. E. W. Dunn of Cushing was in our berg yesterday.

Mrs. Mary Barnes who has been so very sick with Erysipelas for some time is convalescent.

Dogs are a premium now in Trawick. Walker Paine shot and accidentally killed one which brought the owner \$10.00 net in the settlement and he was a common "Possum hound" at that.

Several of the boys intended being present at McKnight's seminary last Sunday, but owing to the rain they did not get there.

Law and Preparation.

From Tuesday's Daily:

Bro. Law took for his text last night, Amos, 4th, chap.

6th, verse: "Prepare to meet your God." He preached a masterly sermon on preparation to meet your God. After he read the above text, he made some announcements for this week. On Sunday afternoon his text will be, "The broken hedge or the Serpent's bite." Sunday night, "The painted duck or power of influence." Bro. Law urged all the people who were not christians to give their hearts to God as there was no time to loose. He begged them not to put it off for an indefinite time, for they did not know how long they would live. He gave examples of people who had put it off for a certain length of time, saying that at the end of that time they would give their lives to God but who never lived to see that time. He gave an illustration of a lady who lived in the North who had been urged to give her life to God but refused saying that she had plenty of time. This lady had a dream, and she dreamed that she had died and the Angels were taking her to meet God. She begged and plead for them not to take her before God as she was not ready to meet him, but the Angels said that she had an opportunity to meet God on earth but had not accepted it. He then explained that this be the way with some of us when we died. He told them that this may be the last opportunity for them to give their lives to God and they had better do so while they had the chance. He then made the call for all the sinners who wanted to come to Christ to stand up, and he then asked them to come to the altar, which quite a number did. No doubt the sermons of Bro. Law will have a great effect on the people of Nacogdoches.

The meeting this morning was well attended especially by the business men. He took his text from the 53rd chapter of Isaiah, he read the entire chapter. His sermon dealt particular with the belief of the Bible, as to whether the Bible was true or not. He read different portions of the Bible to prove that it was true. He gave the usual call, and

several gave their hearts to God.

All the business houses closed from 10 to 11 o'clock in order to attend the services.

ABSOLUTE DIVORCE FOR DUKE.

Judge Ruled Evidence Was Overwhelmingly Against Mrs. Duke.

Newark, N. J., May 3.—Vice Chancellor Pitney today advised that a decree of absolute divorce be granted to James B. Duke, president of the American Tobacco company, in his suit against Mrs. Lillian Duke. He said the evidence was overwhelmingly in favor of Duke and that he could do nothing else than recommend that Duke be given his decree.

Charlie Jones Shot.

Saturday night Charlie Jones got on a rampage and it is alleged went to the home of A. Sliman and abused him and drew his pistol and dared him to come out of his house. Mr. Sliman phoned for Constable McMillian to come and get the negro. Constable McMillian and Marshal Spradley went after the negro. They found him across the creek and arrested him and started with him to the Calaboose and when they were opposite the lane by J. H. Summer's Charlie started to run and the officers in pursuit. They fired several shots in the air to make him stop but the shooting only gave him a good running start. They pursued him to the cemetery where it is alleged Charlie stopped and began to advance on McMillian who then shot him. He was shot through the right leg just above the knee. The negro was carried home where his wounds were dressed by Dr. Nelson.

Patrolman Matthews arrested him a few nights ago but the negro broke loose and ran off, although several shots were fired to stop him, but of no avail.

At last report Charlie was resting easy.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was considered incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. LAW DECLARED TO BE INVALID

Railroads Not Compelled to Maintain Toilets at Stations.

Orange, Texas, May 4.—There was an important decision made by District Judge W. B. Powell in court here today in which he decided that the act of the 29th legislature to compel railroad and railway corporations to erect and maintain closets at passenger stations or regulate the same, to fix penalties and authorize suits therefor, with emergency clause, to be unconstitutional. This decision was made as a result of a test suit in which the state of Texas, through S. W. Sholars, Jr., county attorney, brought suit against the Texas and New Orleans Railroad Company, for penalty cost for about 30 weeks at \$100 per week. The state will appeal. This holding with reference to the act is said to be the first in Texas.

NORTH TEXAS STORM SWEEP.

Another Wind and Rain Storm is Reported.

Dallas, Texas, May 2.—Lamar county was storm-swept again last night and this morning.

Three residences and a large Methodist church were destroyed at Petty. Six roofs of houses blown off, one barn destroyed, two smoke houses demolished and two mules killed. The heavy rain put out the fire of the derbis of the wrecked buildings.

Reports of the damage done in North Texas last night and yesterday afternoon by the wind and rain storm which in some places reached the severity of a tornado, show the following losses:

At Cowan, seven miles from Decatur, the Parks residence was demolished and Mrs. Parks killed. Her son Robert Parks was injured. There were three separate and distinct storms at this place, the first one occurring at 1 o'clock in the afternoon, the others at 5 and 6 o'clock.

Hail stones weighing two ounces fell at Abilene doing great damage to property.

At Red Oak, a small town near McKinney, a cyclone struck at 6:30 o'clock destroying five houses and injuring several persons.

At Chico, there was a wind-storm and cloudburst, several houses being destroyed and great damage done. The people took refuge in storm cellars and escaped fatalities.

At Stoney, in Denton county, the house of Joseph Foster was blown down and debris caught fire. Mr. Foster was fatally burned but his wife and family escaped.

The Methodist church was wrecked at Sherman and a ten-inch hail stone is reported from Brownwood.

How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common occurrence that a cold, however slight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and extensive sale by its prompt cures of this most common ailment. It always cures and is pleasant to take. For sale by Perkins, Kleas & Mast. dw

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable.

UNITED STATES AT HEAD.

Stayed in Second Export Position for One Year.

Washington, May 1.—The bureau of manufacturers announces that after sliding into second place for the period of one year, the United States today again leads the world as an export nation. On this subject the bureau says in its Daily Consular Reports:

"The calendar year for 1905 witnessed wonderful strides in the commercial transaction's of the leading nations. Most noteworthy was the revelation that the United States, which in 1904 ranked second as an export nation, last year took first rank and again stands, as in 1903, with the records of selling more goods than any other country in the world"

The exports of the leading nations for 1905 were as follows: United States \$1,621,581,000; United Kingdom, \$1,606,057,000; Germany, \$1,359,077,000; France, \$926,917,000.

The imports in the same time were: United Kingdom, \$2,372,326,000; Germany, \$1,637,577,000; United States, \$1,195,470,000; France, \$909,817,000.

You Need Toning up.

Your system requires bracing against these deliberating Spring days. Get something that will purify, enrich the blood and gently stimulate the action of the kidneys and liver and digestive organs, and you are pretty sure of good health. That famous old remedy, Browns' Iron Bitters, has been doing its work for many years, and is just the tonic that you need to put yourself in perfect condition. Sold by Stripling, Haselwood & Co. dw

We note our good friend, Prof. W. B. Hargis, is a candidate for county superintendent of public instruction of Nacogdoches county. Professor Hargis is a deserving gentleman, a fine educator, and splendidly equipped for the position to which he aspires. The Herald wishes him success in the race.—Alto Herald.

The gums and resins obtained from pine trees have long been recognized as highly beneficial in the treatment of backache, kidney and bladder troubles. Pine-ules is the name of a new medicine, the principle ingredients of which come from the pine forests of our own native land. Stripling, Haselwood & Co. dw

WILL ERECT BIG SANATORIUM.

The Federal Government to Spend \$200,000 Near San Antonio.

San Antonio, Texas, May 4.—A special dispatch from Washington, D. C., says:

It has been learned in war department circles here that the authorities have decided to erect a \$200,000 sanatorium on the new 17,000-acre military camp site northeast of San Antonio. As soon as the papers are made out transferring the property to the government, the work of drawing plans for the new sanatorium will be commenced. The new structure will contain a ward for consumptives and those afflicted with other contagious or infectious diseases, as well as pleasant wards for soldiers to recuperate in from service in the Philippines. It is expected that the building will be constructed of stone and that actual work of building will commence within the next three months.

A liquid cold cure for children that is pleasant, harmless, and effective is Bee's Laxative Honey and Tar. Superior to all other cough syrups or cold remedy for Coughs, Colds, Croup, Whooping Cough and all curable lung and bronchial affections in child or adult. Pleasant to take. Sold by Stripling, Haselwood & Co. dw

Fifth Sunday Meeting.

Last Sunday at Swift there was held a splendid Fifth Sunday meeting, and The Sentinel is indebted to Rev. James H. Case for the following splendid write up of the meeting:

The logical reasoning on many Scriptural topics and the choir of trained voices and a splendid organist made the meeting a soul cherishing affair. No discord at any time during the meeting was made manifest.

On account of the measles scare in that community and that that section was visited by one of the hardest rains for many months, the meeting was not largely attended, but there was enough present to make the meeting a very successful one and every one who was present on this occasion was benefitted by having attended.

The writer was royally entertained at the home of Mr. Haltom, and while there had the pleasure of meeting many new acquaintances.

The good people of Swift certainly know how to entertain one and the ministers and messengers cannot but feel at home when with the people at Swift.

Mr. and Mrs. R. W. Hall of Huntington, are visiting their daughter, Mrs. J. J. Hayter.

Mrs. Jennie Barrett of Richmond, Texas, is the guest of Mrs. Amelia Clark and other relatives.

Miss Lois Simpson of Garrison is here today for the purpose of appearing before the educational board to be examined for teachers certificate.

City Marshal J. M. Spradley entertained a number of guests yesterday afternoon and last night in the city bastle. The guests had taken on too much "oh be joyful" and they were placed in the calaboose for safe keeping.

A. P. Guynes who was arrested and placed in jail on a charge alleging that he had made indecent proposals to a lady at Appleby on last Saturday afternoon, was released on bond yesterday afternoon.

Prof. W. B. Hargis, Prof. R. F. Davis and Prof. R. W. Tillery, the county educational board, are here today for the purpose of examining applicants for teachers certificates.

SATURDAY'S LOCALS

Mrs. Lola Brown of Martinsville was in the city shopping, yesterday.

Jno. T. Lloyd of Nat was in the city Wednesday on business.

Miss Vasta Brown of Martinsville was in the city shopping yesterday.

Hayden Clevenger is at home on a visit from Dallas Business College.

Alph Meador and two daughters of Libby were in the city today shopping.

Boon Justice who has been attending school at Appleby has returned to his home in Martinsville.

Mrs. J. B. King left today for Moscow, where she will remain for about ten days on a visit to relatives and friends.

H. L. Thomas returned yesterday from a business trip to Center. He says Center is still flourishing, but not ahead of Nacogdoches.

Doctor J. E. Mayfield and wife, left today for a summer tour in California and other points in the northwest. They will sojourn a while at first in Los Angeles.

Mr. and Mrs. Chas. G. Bruton and two children, left this morning for Mt. Enterprise, to attend the picnic of "Uncle Billy" King at that place today. They were accompanied by Miss Maybee Fogg. It has been a custom for the past 37 years, by the people of that community to have a picnic on the first Saturday in May.

Hustlers From Hustlerville.

The above caption has been applied to many men who have engaged in business, and at the same time was meaningless—the words were simply used because the writer could think of nothing else to say. The instance in which The Sentinel uses the term "Hustlers From Hustlerville," means quite a lot and every reader of The Sentinel will vouch for the statement. So when the public knows a thing to be so there is no danger of the paper treading on dangerous grounds in starting two hustling business men out on the road for public favor.

Yesterday the announcement was made that Howard Irion had sold his business in the firm of Miller & Irion to Mr. John B. Power, and the business will continue under the firm name of Miller & Power. While The Sentinel regrets to see Howard Irion retire from business, yet it congratulates the new men in coming into possession of such a nice business. Both these gentlemen are hustlers in every sense of the word and are believers in the virtues of printers' ink. Mr. Miller was for several years connected with the Nacogdoches Mercantile Company and was one of the founders of the company, and is well known to the people from every part of the county as a man who believes in treating his friends and customers just the same as if he was the purchaser.

John Power is a Nacogdoches county boy and has friends as numerous as the county is populated and has been successful to a very high degree in all his undertakings.

Financially the new firm is now in a better position to do business on a much larger scale than in the past, and the fact that every bill purchased is paid for and the bill discounted, will convince the buyer of groceries that a great saving is made on the retail price of everything carried in the grocery and feed line.

Here's, wishing Miller & Power the success they so justly merit.

In The Malaria District.

There has been in use a remedy for a quarter of a century, a preventive and cure thousands make use of every year. Its medicinal qualities are certain and never fail. Have you Malaria, intermittent fever, loss of appetite, strength and energy, that cold, chilly feeling, neuralgia and aching pains? It's Browns' Iron Bitters you need. Sold by Stripling, Haselwood & Co.

George Cook spent most of last week on the E. & W. visiting points north of here in the interest of the Hardwood Manufacturing Co.

It's Quite Harmless.

Don't believe people who tell, you it is intoxicating, or sold in bar rooms, as it is neither. Brown's Iron Bitters will cure whenever the doctors prescribe iron. Unlike other iron medicines, it will not constipate or injure the teeth. Is especially recommended for weak sickly women. Sold by Stripling, Haselwood & Co.

Big Cattle Shipment

The conditions generally, with the fruit crop about the only exception, things are looking exceedingly promising for an unusually prosperous year and with gratitude personified after the past two hard years. Besides the crops that are of a most healthful and plentiful hue the cattle that the successful farmer can raise on these green pastures of East Texas with an abundance of water at little or no expense now has a sale on the market which means more than we realize and makes an advantageous side issue during a hard crop year.

This morning W. H. Booth and other parties came in with 300 head of cattle to be followed by 200 more ready for shipment of cows to Cuba and yearlings Schulenberg two cars from Garrison will be added making in all 1000 head in one shipment which speaks volumes for East Texas prosperity.

Only a few weeks ago M. M. Graham of Etoile passed through with 14 cars of cattle. Credit is due directly to Geo. Blackburn as it is through his influence that this profitable trade has been brought before the people.

Board of Examiners in Session.

The Nacogdoches County Board of Examiners are in session today, and a large number of teachers from all parts of the county are here. The meeting of the board is being held in Odd Fellows hall on Fredonio street, and will conclude its labors tomorrow.

L. D. Whitaker, Douglass
P. E. Porter, Center

THREE FACTS

For Sick Women To Consider

FIRST.—That almost every operation in our hospitals performed upon women becomes necessary through neglect of such symptoms as backache, irregular and painful periods, displacements of the female organs, pain in the side, burning sensation in the stomach, bearing-down pains, nervousness, dizziness and sleeplessness.

SECOND.—The medicine that holds the record for the largest number of absolute cures of female ills is Lydia E. Pinkham's Vegetable Compound. It regulates, strengthens and cures diseases of the female organism as nothing else can.

For thirty years it has been helping women to be strong, curing backache, nervousness, kidney troubles, inflammation of the female organs, weakness and displacements, regulating the periods perfectly and overcoming their pains. It has also proved itself invaluable in preparing women for childbirth and the change of life.

THIRD.—The great volume of unsolicited and grateful testimonials on file at the Pinkham Laboratory at Lynn, Mass., many of which are from time to time published by permission, give absolute evidence of the value of Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice.

Mrs. Pinkham's Standing Invitation to Women.—Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. All letters are received, opened, read and answered by women only. From symptoms given, your trouble may be located and the quickest and surest way of recovery advised. Mrs. Pinkham is daughter-in-law of Lydia E. Pinkham and for twenty five years under her direction and since her decease she has been advising sick women free of charge. Out of the vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Surely, any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.

U.S. Sailors Salute Confederate Flag

New Orleans, May 3.—An incident historic in its nature was enacted in New Orleans during the recent Confederate Veterans reunion, when 400 white uniformed jackies from the United States Cruiser Columbia, marched in the veterans parade, saluted the Confederate flag and presented arms to Gen. Steven D. Lee, commander-in-chief, and were in turn saluted by the wearers of the gray. The splendid appearance, perfect union of steps as well as the significance of the sailors being in a Confederate Veterans parade, elicited wildly enthusiastic applause from the thousands of Southern spectators who lined Canal street, vying with if not exceeding salvos of shouting which greeted the playing of Dixie.

Postmaster Robbed.

G. W. Fouts, Postmaster at Riverton, La., nearly lost his life and was robbed of all comfort, according to his letter, which says: "For twenty years I had chronic liver complaint, which led to such a severe case of jaundice that even my finger nails turned yellow, when my doctor prescribed Electric Bitters, which cured me and have kept me well for eleven years." Sure cure for Billiousness, Neuralgia, Weakness and all Stomach, Liver, Kidney and Bladder derangements. A wonderful Tonic. At Stripling, Haselwood & Co. Drug store. 50 cents. dw

L. A. Sitton of Lilly Grove community was in town this morning and stated to The Sentinel reporter that a report had gone out that there was to be a big singing convention at Lilly Grove on the 2d Sunday in May. Mr. Sitton says that this is a mistake, instead of a big do there will be only a small class of singers of the neighborhood.

SKIN DISEASES ACNE, TETTER, ECZEMA, PSORIASIS, SALT RHEUM.

There is nothing more distressing than an itching, burning skin disease, and upon the return of warm weather those who are afflicted with skin troubles find the symptoms appearing and know that they will be tormented through the hot summer months. The blood is heated with humors and acrid matter, and as they are forced to the surface the skin seems to be on fire. The treatment of skin diseases with external applications is all wrong, because they do not reach the trouble which is in the blood. The most such treatment can be expected to do is, allay the itching and burning and cover up the trouble for awhile, but as soon as it is left off the disease returns.

All food taken into the body contains, in some form, the elements necessary to sustain the different parts. One portion is used for the making of blood, another for muscle, one for bone, still another for fat, and so on. After these different properties are extracted from the food there still remains a portion that is useless, or waste matter, which is intended to be disposed of through the natural channels of bodily waste, the Liver, Kidneys and Bowels. At this season of the year, however, these organs become torpid, dull and sluggish, and fail to perform this duty, and these accumulations remain in the system and are absorbed by the blood to ferment and sour, producing burning acids and acrid humors. The blood cannot properly nourish the system while in this impure condition, and begins to throw off these acids through the pores and glands of the skin, producing Acne, Eczema, Tetters, Psoriasis, Salt Rheum and skin diseases of every description.

ECZEMA appears usually with a slight redness of the skin, followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, arms, legs and face, though other parts of the body may be afflicted. In TETTER the skin dries, cracks and bleeds, and is often very painful. The acid in the blood dries up the natural oils of the skin, causing a dry, feverish, hardened condition and giving it a leathery appearance. ACNE makes its appearance on the face in the form of pimples and black heads, and is particularly disagreeable because of its unsightly appearance, while PSORIASIS, a scaly disease, comes in patches on different parts of the body. One of the worst forms of skin disease is SALT RHEUM. It discharges a watery fluid, forming sores and producing intense itching. The head and face are the parts usually affected, and sometimes the hair falls out and a mass of sores forms on the scalp.

These and all skin diseases are due to the same cause—burning acids and humors in the blood, and until this vital fluid is cleansed and made pure they will continue. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable, being made entirely from roots, herbs and barks, and acts directly on the blood with a cleansing, healing effect. It neutralizes the acids and purifies the blood so that the skin, instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. It goes down into the circulation and forces out every particle of waste or foreign matter, builds up the blood and cures all skin diseases promptly and permanently. S. S. S. does not leave the least particle of the poison for future outbreaks, but entirely rids the blood of the cause for all skin diseases.

S. S. S. tones up the system and regulates the Liver, Kidneys and Bowels so that they will carry off the natural waste and refuse matter through the proper channels, instead of leaving it to be absorbed by the blood. Nothing equals S. S. S. in the treatment of these troubles and for building up the general health. Write for our treatise on skin diseases and any medical advice you wish. We make no charge for either.

A dose of Pineules at bed time will usually relieve backache, before morning. These beautiful little globules are soft gelatine coated and when moistened and placed in the mouth you can't keep from swallowing them. Pineules contain neither sugar nor alcohol--just gums and resins obtained from our own native pine forests, combined with other well known bladder, kidney, blood and backache remedies. Sold by Stripling, Haselwood & Co. dw

Mr. and Mrs. Ed Gaston and children, spent Sunday in Garrison.

A marriage which probably will be a surprise to the soon-to-be grooms friends both here and in Houston, is to take place at Corpus Christi, May, 10th, the contracting parties being Mr. C. E. Hart, formerly of Houston but now with Mr. E. D. Clarkson of this place and Miss Clara Pressler, a prominent young lady of Nacogdoches, Texas. After the ceremony they will return to Refugio which will be their turture home. Mr. Hart during his brief residence in Refugio has by his gentlemanly conduct and courteous manner made many friends who join The Review in extending the right hand of fellowship to him and his accomplished bride.--Refugio Times.
