Long Pine Sticks.

To the Editor.

The health of the community continues good, and every one is looking forward to a bountiful crop this year.

If the good farmers would try truck and fruit farming more, and quit trying to raise cotton it would not be long till the boll weevil would be a thing of the past. B. B.

Mr. and Mrs. T. K. Raynor of Decoy were callers at The Sentinel office this morning. Mr. Raynor ordered the Daily sent to him at Toledo, Ohio, for which place he will leave tomorrow to spend several weeks visiting his father at the old home. As the snow is reported to be four feet deep in Toledo now, Mr. Raynor will carry his snow shoes with him, for which he has never had any use in Texas.

A PROGRESSIVE FARMER.

Valuable Work Being Done by a Nacogdoches County Man.

Mr. James D Greer, a progressive young farmer residing five miles northeast of Nacogdoches, on Rural Route No. 2, brought to this office last Saturday specimens of corn and peanuts that were simply wonderful.

Mr. Greer had several ears of corn, one of which measured 14 inches in length, and several of them were at least 12 inches in circumference.

Mr. Greer has devoted the past sixteen years of his life to propagating and improving the grades of his corn, and succeeded in perfecting three different species that are destined to become as famous as seed produced by Seedsman Burbank at California.

Mr. Greer planted 18 acres to the improved corn, from which he gathered more than 60 bushels per acre. He is now selling his corn at \$2.00 per bushel to farmers for seed.

The specimens of peanuts embraced two varieties, and were the largest this writer ever saw.

All this extra fine corn and peanuts were produced on Nacogdoches up-land, and without the aid of fertilizer.

He also has a new variety of watermelon, which is destined to become as famous as his corn and peanuts.

It makes no difference how cheap you can buy good goods, it will not be any harm if you go and see if Simon Mintz can't do better. w

Mount Moriah.

In spite of the rain there was services at the church Sunday, and preaching Sunday night.

School reopened here today with Rev. J. C. Fondren as teacher.

Frank Chandler of Swift has moved his family up here so as to send his children to school.

J. H. Stoker has sold his place and will move to Appleby.

J. G. Wilson, our saw mill man, has gone to Paris, Texas on a visit.

Rev. J. M. Wilson has been here several days the past week estimating timber.

There will be a joint debate here Friday between the Swift and Mt. Moriah Literary Societies.

J. A. Ennis, who has been quite sick with typhoid fever, is able to be up.

There will be many chances for each and every one to do some kind deed this year, so if we will try we can help some one along life's journey and be happy by so doing.

We are busted, burned out. You know you owe us so come and settle quick. dwf

A FATAL FALL.

Col. W. E. Farmer Died From Result of His Injuries.

Col. William E. Farmer, one of the best known men in Texas, died at his home on Virginia Avenue, Harris Heights, Sunday evening at 8 o'clock, from injuries received the evening before by falling down the stairway at the Plain Dealer office.

Col. Farmer was returning from a visit to the Plain Dealer office about 6:30 Saturday evening in company with Messrs. H. F. Marr and T. B. Lewis, and as he started to walk down the stairway, he lost his footing and fell to the paved sidewalk below. Col. Farmer being afflicted with rheumatism, he did not have natural use of his limbs, and was therefore unable to stop the force of the fall, yet he managed to keep his body erect. He was falling with such momentum that when he reached the bottom of the stairway his head struck the projecting wall with such force he was knocked down, his head striking on the brick pavement and cutting a deep gash in his scalp above the left temple. He was picked up unconscious, in which condition he remained till he died.

His son, A. L. Farmer, agent of the New York Life insurance company at Houston, was notified of the accident, and he reached his father Sunday afternoon before his death.

Colonel Bill Farmer was 56 years of age and leaves a son and two daughters to mourn his death.

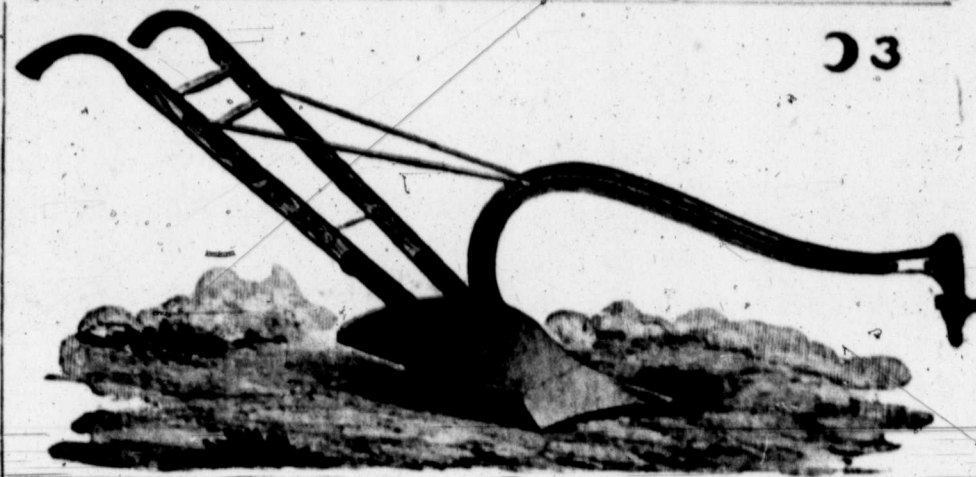

Simon Mintz is prepared to meet any low prices that will be offered you in the line of merchandise. w

Mrs. John Rusk Dead.

Died at the family residence five miles Northeast of this city on Sunday, Jan. 6, 1907, Henrietta, wife of John Rusk.

Mrs. Rusk had been in very low health for a long time. She leaves a husband, seven sons and one daughter, besides numerous relatives to mourn her loss. Her place in life can not be filled, for she was a most useful and lovable woman in her whole life. She was born in this state in the year of 1844, a daughter of H. L. Chapman, who was one of the staunch pioneers of this county. She was a half sister of Mrs. R. W. Haltom, wife of our senior, and she was married to Mr. Rusk in 1866.

He is a nephew of Gen. Thos. J. Rusk, and he still resides upon the old homestead of his father, Capt. David Rusk, where he was born in 1841. Mrs. Rusk was a member of the Methodist church and has gone to the reward of her virtues. She will be buried at the Maroney cemetery this afternoon. The bereaved family and relatives have the sincerest sympathy of The Sentinel and many friends.

A Business Change.

The many friends of Mr. Will Baker, late manager of the grocery department of the Nacogdoches Mercantile Company, will be glad to learn that he has accepted a responsible and lucrative position with S. E. Miller. Mr. Baker is not only a first class business man, but he is very popular with the people of Nacogdoches county, and Mr. Miller is to be congratulated upon securing his services. Mr. Baker will have charge of the books for Mr. Miller, filling the position made vacant by the resignation of Mr. R. C. Crammon.

My fall and winter goods are still on hand and I have no use for them whatever, they are for sale, so come and let me make you prices. w. S. Mintz.

HEARST says "never again will he be candidate for any office." For the time being it is some consolation.

MANY members of the legislature have gone to Austin to "be on the ground floor" as it were, just to see what the Bailey people are doing.

IF Nacogdoches ever expects to enjoy low insurance rates, and feel secure from fire, a water supply and a fire department must be provided for.

MANY good democrats believe that Senator Bailey should be retired, while others are of the opinion that he should be "given another chance."

CONGRESS will have to take a hand in railroad affairs and require all roads in the Union to place all roadbeds in first class condition and then regulate the speed of passenger trains.

NEVER before in the history of Nacogdoches has the prospect been so bright for a general wave of prosperity to hit the town as there is at the present time. Many thousands of dollars will be spent here this year in the way of improving the town.

EVERYTHING in the burned district will be better and grander—that is provided the city secures fire protection. One could hardly expect the man of money to build fine office buildings when there was no assurance that his property would be protected from fire.

THE Southern Pacific Co. is preparing a handsome book for free distribution, that will be the greatest piece of advertising ever gotten out for that portion of Texas traversed by this line. Prof. Attwater and Mr. Bruce are preparing the data for the book, which is sufficient guarantee that it will be authentic, as well as artistically gotten up.

UNLESS the firemen and the engineers of the Southern Pacific railway get together and settle their differences, there will probably be a general strike of the firemen. The strike will be a great burden to the railway, the firemen and the general public, and it is to be hoped that the commissioner of labor will get the matter straightened out before a general strike is ordered by the firemen.

TWO years ago the good people of this town in their wisdom turned down a bond proposition to provide the city with water works. Today they see wherein they made a grave mistake in not voting for the water works bonds. If some private corporation is not granted a franchise to supply the city with water, then a bond issue will have to be submitted to the people again. It matters not how we get the water, just so it is procured in sufficient quantities to comply with insurance regulations.

A LEGISLATOR'S VIEW.

Hon. J. T. Bogard Shelby county's able representative in the next legislature, has issued the following statement to his constituents on the Bailey question:

"I have had Bailey men to tell me if I do not vote for J. W. Bailey for United States Senator in the coming contest at Austin that they would not support me two years hence and that they would endeavor to defeat me. I also have had anti Bailey men to tell me if I do support J. W. Bailey that they would work for my defeat two years from now. If my greatest desire was to secure votes two years from now I should be in a poor attitude to serve my constituency. As I was not elected by the good people of Shelby county to procure a second election but some very sacred duties intrusted to perform I shall ever look to the interest of my people regardless of what effect it may have upon my future political aspirations.

"I believe that it is as much due Mr. Bailey as it is due the people of Texas, that a thorough investigation of the charges against him be made, and if upon such investigation it is shown that the charges are unfounded in fact that every unbiased voter would approve any support I may give him. But upon the other hand if it should be proven that he has been serving the corporations mentioned in the charges against the interest of the good people of Texas, who have so loyally supported Mr. Bailey for this high place, I can't believe the people of Shelby county want me under these conditions to support him."

THE Roosevelt Third Term National League has been organized with headquarters at Chicago. The promulgator and promoter of the move is Edward A. Horner, who proclaims himself a "red hot democrat" form Colorado, driven to the verge of bankruptcy by the machinations of the "system." What the "system" is is not explained, but Mr. Horner in his "red hot" enthusiasm for a Roosevelt third term seems to think that his election will cure all the evils, political, commercial and social, that the people now suffer. Red Hot Horner does not explain either, why these evils have not been materially lessened during the past seven years of Roosevelt rule. It is not probable, however that the red hot gentleman from Colorado will cut much ice with his little Roosevelt boomlet. It was not at all necessary to call forth the good offices of a "red hot democrat" to force Teddy out for a third term. If he isn't a candidate in 1908, we'll eat him without salt, if he don't object. There are republicans enough left yet to bring him out without the intercession of "red hot," luke warm, calm cold or any other kind of democrats.

FROM the large number of railroad wrecks the public will soon come to the conclusion that the railroad corporations are members of the coffin trust.

SOME FINE FURNITURE.

The Nacogdoches Show Case Co Turn out a Handsome Piece.

In the office of J. H. Summers & Sons, wholesale lumber, is to be found one of the prettiest and most convenient pieces of office furniture in the city, or perhaps in Southeast Texas. The desk was manufactured by the Nacogdoches Show Case and Manufacturing Co. and is made of native Nacogdoches oak, the timber was turned out by a Nacogdoches county saw mill, and in fact everything in the manufacture of this handsome desk is a home product, except the nails and varnish.

The desk is ten feet long, and is modern in every detail. It has four large and roomy drawers on either side, and a cabinet on the right hand side for stationary. The top is equipped with ample filing pigeon holes, and places for books. In fact it is an indispensable article of furniture in the well regulated lumber office.

Mr. Summers since his residence in Nacogdoches has always shown a disposition to foster home enterprises, not only by his good words, but by always patronizing the same whenever possible to do so. He has also placed other orders with the Nacogdoches Show Case and Manufacturing Co. for other furniture to take the place of the furniture lost by fire.

The Sentinel would like to see all the furniture that will be used in the buildings to be rebuilt in the burned district, made in the home factory. The furniture will be the equal, if not superior, to anything a foreign plant would turn out, and then too the money thus spent would remain at home and the merchants would in due time, receive a large portion of the same back in trade.

There is a market here for every acre of tobacco that will be planted and cultivated under Government supervision next year. Every farmer who has a few acres suitable for the cultivation of tobacco should try a few acres as an experiment. — Nacogdoches Sentinel.

And The Sentinel should have added, "high price" also; for it has been shown that tobacco raised in the Nacogdoches territory, under the supervision of the Government, commands a higher price than tobacco raised anywhere else in the United States. People are now smoking cigars made from the Nacogdoches tobacco and do not know but that they are smoking fine Havanas. With a market guaranteed and a high price sure, it would look as if it would not require much pressure to make the farmer of that locality go into the tobacco-raising business with a vim. — DalGal News.

Schnapps Tobacco is Made ENTIRELY from Flue Cured Tobacco Grown in the Piedmont Country. The Imitation Brands Have Schnapps Quality Only On the Outside Of the Plug

Hundreds of imitation brands are on sale that look like Schnapps tobacco. The outside of the imitation plugs of tobacco is flue cured the same as Schnapps, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco. One chew of Schnapps will satisfy tobacco hunger longer than two chews of such tobacco. The color, size and shape of the tags, plugs and packages of certain imitation brands of tobacco have been made so much like Schnapps that they have often been accepted by buyers under the belief that they were getting Schnapps. Sufficient proof has been secured to establish the fact that certain brands are infringements and in violation of the trade mark laws, yet the trade will continue to be imposed upon by these infringers until the suit already entered and now pending to protect Schnapps is decided. A great many of these imitations are

claimed to be "just as good" as Schnapps, but there is only one genuine Schnapps. Be sure the letters on the tag, and stamped on the plug under the tag spell S-C-H-N-A-P-P-S and then you have it—the most wholesome tobacco produced, with just enough sweetening to preserve the mild, juicy, stimulating quality of the leaf tobacco. Expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than any other and has a wholesome, stimulating, satisfying effect on chewers.

If the tobacco you are chewing don't satisfy you more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco. Schnapps is like the tobacco chewers formerly bought costing from 75c. to \$1.00 per pound; Schnapps is sold at 50c. per pound, in 5c. cuts, strictly 10c. and 15c. plugs.

JORDAN UPHELD.

Louisiana Cotton Planters Defend Their Association.

Alexandria, La., Jan. 2.—The Louisiana branch of the Southern Cotton Association met here today in annual session and re-elected Hon Paul M. M. Potts of Natchitoches president.

It was resolved that the National association be urged to fix a minimum price for cotton, and that similar action be taken for cotton seed, which had been neglected.

A strong resolution was passed pledging fidelity to President Harvie Jordan, who has been widely criticised since the Cheatham investigation in Atlanta, which charged him with having connection with bucket shops, and denounced Jordan's traducers in the severest terms.

"We feel that we have had an able, efficient and fearless officer in Harvie Jordan, to whose efforts has been largely responsible of the success of this association; that we deplore the attacks made upon him. But, in our opinion, such attacks were aimed at this association through him, its president."

A notable thing was that no reference whatever was made to Secretary Richard Cheatham, against whom the investigation was made, and with whom it was charged President Jordan and other officers were closely associated.

Seven Bales of Cotton on Three Acres.

Joe Henry, whose post office address is Logansport, Franklin county, Texas, writes the Dallas News that he gathered seven 500-pound bales of cotton from three acres of land this year. Such success in cotton growing is always of interest to all, hence the Signal gladly tells how Mr. Hedry did it.

First, he planted Rowden seed, probably one of the best varieties of cotton yet pro-

duced. He planted on May 28th, a date that many people would pronounce too late. His rows were five and a half feet apart, and ran north and south. He ran a few rows east and west just for an experiment but found that they did not produce nearly so much staple as the others. He plowed the cotton twice a week, and to this he attributes principally his large yield. Mr. Henry says he was raised in a cotton patch, and after repeated experiments he has reached the conclusion that intense cultivation is absolutely necessary to heavy yields. — Honey Grove signal.

Evils of Child Labor.

In the textile mills the statistics show that as the number of women and children who work has increased, the number of men has steadily decreased, and wages have gone lower and lower. Cotton cloth, violets, roses, ornaments, bottles, tobacco—every trade becomes a tragedy, and shows up pictures of little children who do not know how to laugh or play. The peril is that child labor is so deeply rooted already. Legislation is imperative; its stringent enforcement an absolute necessity. There are laws in the industrial States—fourteen years being the rule; but their lax interpretation is notorious. In many cases the law is made to be but a screen, and this wrong done to childhood does not call for halfhearted interest, or shuddery sentimentality. It calls for action! Free the children! is the clear command of sound common sense, as well as humanity. Stunted bodies, deterioration in morals and mentality is the curse which follows the failure to protect the children, and furnishes the army of idiots, indigents, incapables and criminals, who become a drain upon the nation's very life. Does it pay?—Elinor H. Story in the Arena.

ARMY IS VERY SHORT OF MEN

Recruiting Officers Urged to Enlist Recruits for Service.

Washington, Jan. 3.—Not in recent years except in war times, has the army been so badly in need of men as at present. A recent circular addressed to all officers of the recruiting service and made at the war department calls attention to the fact that recruits are needed in large numbers for the coast artillery, white infantry and white cavalry. Recruiting officers are enjoined to redouble their efforts to secure recruits qualified for military service. Officers on duty at the war department admit the situation is one calling for the most extraordinary efforts. Particular emphasis is given in the circular to the necessity for developing to the utmost, recruiting in large cities, and recruiting offices have been asked if more officers should be sent to them to assist in the work.

It is declared at the war department that the present prosperity and labor famine of the country is more or less responsible for their inability to get new men and it is also stated that on account of the lack of the conscription a great many men are refusing to enlist.

"Bulger" Muckelroy, one of Africa's dark and dusky sons is in trouble. He tired of trying to make a living as all men are required to, and resolved to get rich and earn money in an easy manner. But the way of the transgressor is hard and "Bulger" is now convinced of the truth of the fact. This morning he was arrested by Deputy Sheriff Horace Wilson on a charge alleging the sale of "booze" in a prohibition precinct. "Bulger" will have to answer the charge before his honor the county judge at the next term of court. Then too Uncle Sam may step in and take a little of "Bulger's" time for disposing of "fire water" without a federal license.

PURE DRUGS

THERE is good as well as bad in everything. The question is, how are people going to tell the good from the bad. When you want the medicine that will do you the most good, go to some responsible local firm, and ask them for the best medicine.

AN APPLICATION FOR FRAUD

Against the New York Cotton Exchange Has Been Filed.

Washington, Jan. 2.—Representative Livingston of Georgia, who is leading the movement on behalf of certain cotton men against the New York Cotton Exchange, has filed a formal complaint with the postoffice department and requested the issuance of a fraud order.

According to Representative Livingston, this action is taken at the instance of the Southern Cotton Association and is based on allegations that the cotton delivered on the floor of the exchange is not of the grades represented. Mr. Livingston recently made complaint to the department of agriculture, but Secretary Wilson was unable to do anything in the matter.

Mr. Livingston also presented to the postoffice department affidavits and other documentary evidence in support of his charges.

Official notice on the part of the New York Cotton Exchange of the criticism directed against it by southern growers was taken by President Walter C. Hubbard, who sent the following telegram to Postmaster General Cortelyou at Washington:

"Referring to the telegrams in the New York papers from Washington, I request you to favor the New York Cotton Exchange with copies of any complaints made against it in order that proper action may be taken to protect its interest against such unwarrantable attacks."

A NACOGDOCHES CASE.

Many More Like It in Nacogdoches

The following case is but one of many similar occurring daily in Nacogdoches. It is an easy matter to verify its correctness. Surely you cannot ask for better proof than such conclusive evidence.

Ben Heflin, farmer, living seven and a half miles north-east of Nacogdoches, Tex., says "Doan's Kidney Pills acted effectively in my case. I have been a constant sufferer from kidney trouble for six years. During that time I tried many different remedies and doctored until I was tired, but still the dull grinding ache in the small of my back was always present. It I stooped or lifted it seemed as though my back would cave in. The secretions from the kidneys at times were as red as blood and accompanied with a burning sensation. I procured Doan's Kidney Pills at Perkins, Kleas & Mast's drug store and they did me more good and in less time than any other preparation I had tried. In fact, after using one box I felt like a different man."

Remember the name—Doan's—and take no other.

Announcement.

For 28 years I have been engaged actively in the drug business in Nacogdoches and it is now with the deepest regret that I withdraw from that business that has been so pleasant for me in all of its relations and it is with a feeling of the sincerest thankfulness that I wish to express myself to all of my friends and the general public for their very generous divide of favors to me.

M. R. Kleas and Hollis Mast will continue the drug business in all of its lines and on the same plan that it has been conducted heretofore by the old firm and I feel that I can safely and unreservedly say every one that any business entrusted to them will have the very best and safest attention. Patronize them and you will be pleased with their method of doing business.

The new firm of Kleas & Mast are located in the new brick hotel building on Main street and I will make my headquarters with them there, where also will be kept the books of the old firm.

Thanking every one of you for your past kindnesses to me and wishing for the new firm a large degree of success, I am, gratefully yours,

W. U. Perkins.

Notice to Veterans.

Austin, Texas, Dec. 28.—Comptroller Stephens is sending out the following notice to Confederate pensioners:

There is no law which provides a succession or transfer of a pension to any one. When a pensioner dies the pension ceases.

The widow of a Confederate soldier to whom a pension has been granted has no preference over the widow of any other soldier who is in indigent circumstances.

The grant of pensions to widows is restricted, if qualified, in order to obtain a pension, it is necessary to file an original application with the county judge of their residence, who is supplied by this office with application blanks.

To widows of pensioners, this department will furnish free of charge a certificate of the proof of service in the army field with their husband's original application for pensions. Very Respectfully,
J. W. Stephens,
Comptroller.

The Seal of Time.

Has been placed on Browns' Iron Bitters. For twenty-five years the sick have been taking this medicine with excellent results. Without exception Browns' Iron Bitters has out-lived every similar preparation because it is a medicine of real merit and sold with the distinct agreement that if no benefits result from its use the purchase money will be refunded. Sold by Stripling, Hazelwood & Co. dw

Among the business changes in Nacogdoches on the first of the year was when Mr. Bob Jordan took charge of the books of Cason, Monk & Co. Mr. Jordan is an expert accountant and the firm securing his services is indeed lucky. The Sentinel extends to Mr. Jordan and also Messrs. Cason, Monk & Co. congratulations.

A Judge's Recommendation.

"I have used Browns' Iron Bitters in my family for dyspepsia, nervousness and sleeplessness with most satisfactory results. It improved digestion, quieted the nerves, promoted sleep very promptly and effectively. Judge Geo. P. Miller, Hamilton, Tex. Sold by Stripling, Hazelwood & Co. dw

MAY SUSPEND FEDERAL LAW.

City of Dallas May Pass Ordinance to That Effect.

Dallas, Texas, Jan. 2.—The Dallas Grocers' Association today appealed to the local board of health for a suspension of the new pure food law four months in order to enable them to dispose of their old stock of adulterated foods.

The Dallas city law duplicates the new federal statute. If it is suspended it will be equivalent to a local ordinance suspending a federal law. The board of health has not yet made a decision. Action will interest all grocers of Texas.

Foibles Of Famous Folk.

Keats liked red pepper on his toast.

Dickens was fond of wearing jewelry.

Daudet wore his eyeglasses when asleep.

Joaquin Miller nailed all his chairs to the wall.

Edgar Allan Poe slept with his cat, and was inordinately proud of his feet.

Thackeray used to lift his hat whenever he passed the house in which he wrote "Vanity Fair."

Alexander Dumas, the younger, bought a new painting every time he had a new book published.

Robert Louis Stevenson's favorite recreation was playing the flute, in order, as he said, to tune up his ideas.

Robert Browning could not sit still. With the constant shuffling of his feet holes were worn in the carpet.

Longfellow enjoyed walking only at sunrise or sunset, and he said his sublimest moods came upon him at these times.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." They Had Retired.

The members of the local debating society were discussing the evils of gambling. Naturally the opinions expressed leaned much to one side. But one young fellow obstinately refused to accept the general view.

"Betting isn't half a bad thing for some folks," he said. "Why, I know two or three men in the town who have retired as the result of betting."

"Name them," shouted a dozen.

"Where do they live?" demanded one prominent member.

"No 10 X street," was the quiet reply.

When the prominent member reached home he turned to a directory, which informed him that No. 10 was the local workhouse.—Tid-Bits.

TO THE PRESS.

For the past seven years I have been associated with Messrs. Hattom & Hattom in the publication of The Sentinel and for the past two years have had charge of the editorial columns of The Daily and Weekly. I have endeavored to give the public a good, clean, country newspaper, how well I have succeeded is a matter for the readers of The Sentinel to say. The Sentinel has a most excellent list of exchanges and I have been greatly benefited, in many ways, by reading the editorial columns of our exchanges. The free manner in which articles from The Sentinel have been reproduced during my connection with the editorial department, causes me to feel greatly honored. Today these pleasant ties are severed, for the time being, as my connection with The Sentinel ceases, as I have accepted a position with the Southwestern Paper Co. of Houston, and will represent this house in East Texas and Louisiana, and in the future will talk "paper." My work on The Sentinel has been pleasant to a very high degree and I have many good and true friends in Nacogdoches county whom I regret to leave, but I will pay Nacogdoches regular visits and will have the pleasure of meeting them a few hours every month. For the present the pencil is laid aside.

Chas. E. Davis.

Referring to the above, I am pleased to announce that I have been favored with the position vacated by Mr. Davis as editor of The Sentinel. Though I am by no means a stranger to the press of the state, nor to the people of Nacogdoches, yet the new duties which I have assumed justify a brief introduction. I have been actively engaged in newspaper work for more than thirty years, and twenty-two years of that time have been spent in Texas. As truthfully said by Balzac's Lesser Bourgeoisie, "whoso has ever been a newspaper man will ever be one," and having during the greater portion of my life tasted that feverish busy and relatively lazy and independent life; having for many years exercised that sovereignty which gives us license to criticize art, intellect, talent, fame, virtue, obscurity and even truth; having for so long occupied that tribune and fulfilled the functions of that magistracy which makes one the proxy of public opinion and caused one to look upon himself when remanded to private life as an exile, why shouldn't I feel rejoiced when the chance is offered me to put forth my hand to snatch back my crown that has been briefly laid aside. But with all my experience and seeming elation I shall not forget the important lesson long since learned, that he who knows it all knows nothing. I shall hope to be able to fill

the place so ably occupied by my predecessor, and above all to cause my employers to feel at all times that I have earned my salary.

Will T. Hawkins.

DON'T lose sight of the fact that Nacogdoches must have a waterworks system.

SENATOR BAILEY is seriously complaining of a sore throat. Perhaps that is why Travis county handed him a lemon.

KEEP your weather eye on the Nacogdoches tobacco industry and you will see something doing that will give all competing points the cold shivers.

GOOD roads convention would be a good thing for the farmers of this county. Some of the roads in Nacogdoches county could be improved upon.

OUR northern friends need not think that Nacogdoches is situated in a cold climate because her shade tobacco growers insist in producing wrappers.

THE thirteenth biennial session of Texas legislature convened at Austin at high noon today. It is hoped that the thirtieth will call thirty on Senator Bailey.

THE farmer who plowed last fall is getting the benefit of some good seasons now. He will also find that he will raise better crops than the farmer who waits until spring to do the plowing.

THE irrepensible John McLendon has revived the People's Advocate at Center, after a suspension of three months. John deserves to succeed, and here's hoping that the Advocate may live long and prosper.

THE tobacco crop is marketed and the farmers receive their money at a time when money in East Texas is worth something. The first of August the crop is disposed of and the farmers have money in their pockets.

TRAVIS county went against Senator Bailey by about 100 majority. The Bailey managers claim that he lost the county because many of his friends failed to vote. It has ever been the will of the defeated candidate that too many of the dear people voted for the other fellow.

THE SENTINEL will now pass the Bailey matter up to the Legislature—for the present at least—and will devote its energies and its influence to more important matters; such as water works, fire protection, the Baptist college, improving the streets, and other important propositions.

THE tobacco experts are busy making preparations for the tobacco crop this year. Nacogdoches will show the world this year some interesting figures concerning tobacco as a money crop. Seventy acres will be planted in filler tobacco, with a market at 15 cents per pound, and 30 acres in wrapper tobacco at a market of 40 cents per pound.

COUNTY INSTITUTE.

The Teachers Hold a Five Days Session in Nacogdoches.

The Nacogdoches County Teachers Institute met Dec. 31, 1906, and held five days.

In explanation of this Institute, I would say that it is merely a school a week in length for teachers. It is here that the teacher studies the questions which he meets every day in his work. For example, the subject of punishment is taken up and the teachers discuss the question from every standpoint. We consider that much good comes to young teachers especially from these institutes. As I said, the Institute is a school where teachers learn many things. The more a teacher knows, the better he can teach. Hence, trustees should insist that teachers attend the institutes, or any other like gathering where his knowledge will be extended.

The enrollment reached the splendid number of 116. This is about the largest institute ever held in this county. It is the only week's institute ever held in the county as far as I know.

One of the most far-reaching things done was the adoption of a course of study sent out by the state superintendent. It may take a year or two to put this course into effect, but the good accomplished when it is done will be wonderful. Every teacher is expected to study the course thoroughly, and begin at once with the first grades to put it into use. When this course is adopted every teacher in the county will be teaching the same subject to the same grade of pupils.

Another step in the march of progress was the organization of the Nacogdoches County Teacher's Library Association. The members of this association pay the fee assessed by the Literary Committee, after which they have full access to the library. This library will contain books on the teacher's profession. Teachers should read and inform themselves, and if a teacher is not disposed to study, he should step aside and let some one else take his place who will study.

The teachers' Reading Course adopted was "Roark's Method in Education" and the "Evolution of Dodd." About fifty or more ordered these books for their private library.

The Institute decided, and so voted, to hold a summer Normal at Nacogdoches. The Institute considered that, as Lufkin, Angelina county, had the Normal two years ago and Timpson, Shelby county, had the Normal last year, Nacogdoches of right ought to have it this year. We desire co-operation of surrounding counties. We expect to have some of the best educational talent in the state, and will make it to the interest of all teachers to attend. In conclusion, let me say, that I stand for the upbuilding of the schools of the entire county. We most sincerely hope the teachers, trustees, and patrons will assist us in this great work. Yours for better schools,

R. W. Tillery,
County Superintendent.

Free.

The demand from clerks, teachers, in fact laboring people of all professions, for home study courses in Book-keeping, Shorthand, Writing and Telegraphy became so great that two years ago we installed in our institution, a regular home study department. This department has grown rapidly and the success of its students has been something wonderful, under our new original and practical methods of teaching, and the use of the famous Byrne Systems. To show our faith in our methods, we have for the past year agreed to refund every cent of tuition at the completion of a course, if it was not satisfactory and as recommended. We have only been asked to refund in one instance. In this case, the student had not received the instructions promptly, due to an error in our mailing department.

Those who take a course by mail and afterwards enter our school for personal instruction are given credit on their scholarship for personal instruction to the full amount of tuition paid on the mail course, thus making the tuition for the mail course free. Some find that they can save a month or two's time and board by taking our home study course before enrolling with us for personal instruction. While our home study course is more thorough, practical and extensive than that given in most business colleges, it is not as complete and extensive as our personal course in the same subjects. However, it is just as thorough as far as it goes.

As you have not given mail course instructions the thought and careful study we have, you may doubt our ability to teach you successfully. Write us; state what course you desire to pursue; ask as many questions as you like, and receive our answers promptly and to the point, explaining everything to your entire satisfaction. Be progressive; investigate. A postal card or a letter will bring you information that may prove the turning point in your life for a greater success. Earn while you learn; utilize in developing brain power the idle moments you have been wasting.

If you are prepared to enroll with us for personal instruction, do so. If not, do the next thing—take a course by mail. You run no risk. Our work is guaranteed, and we assure you that at completion you would not take ten times the cost of your scholarship for the knowledge obtained. \$15 pays for a life scholarship in any course, good at any time. You can pursue your work as your time permits—in the office or at home. Don't think that our method of instruction is like that of other institutions, it is entirely different. It is thorough, practical, and interesting.

TEACHERS' RESOLUTIONS.

The County Institute Makes an Appeal to The Legislature.

At the close of the Nacogdoches county teachers institute, which closed a five days session last Friday, the following resolutions were adopted:

We, your committee on resolutions, beg to report that, whereas, the teachers of Nacogdoches county assembled believing that it is to the best interest of the common school district that white trustees control both the white and the colored schools of said districts where there are both white and colored schools, recommended,

First, That our representative and senator be instructed to use their influence to secure the enactment of such law as will bring about this result.

Second, That this institute endorse the resolutions passed by the State Teachers Association, recently assembled at Fort Worth, which are as follows:

Resolved, That the 30th Legislature of Texas, which is to convene at Austin in January, be requested,

1. To provide by law for professional supervision of the country schools by creating the office of County Superintendent in every county having 1000 or more scholastics in the rural districts; and that where a county has not sufficient population, two or more such counties be placed in a district to be superintended by a professional school man. The salary attached to the office should be such as to command and retain the services of the most capable and best qualified teacher as Superintendent.

2. To enact a law raising the State ad valorem tax for school purposes from 18 cents to 20 cents on the one hundred dollars valuation of property.

3. To submit an amend-

ment to the Constitution of the State to vote of the people, providing that common school districts shall have the same privileges with regard to local taxation for school purposes as are now enjoyed by independent districts; and which will allow a local tax to be levied by a majority vote.

O. W. H. McCall.

R. F. Davis.

Committee.

The following resolution was also adopted:

Resolved, That we, the members of the Teachers Institute of Nacogdoches county assembled, hereby tender our heartfelt thanks and appreciation to the teachers and school board, and the citizens of Nacogdoches in general, for the use of the school buildings, and for their kindness and hospitality while in attendance at the Institute this week.

An effort is being made by Harvy Jordan and others who have the interests of the cotton farmer at heart, to break up thieving methods so long in vogue in the leading cotton exchanges of the country. Already the New York exchange is threatening to sue Mr. Jordan and congressman Livingston of Georgia for libel, which is strong evidence that some one has been hit in a tender place. But in spite of all protests and drastic legislation, there is destined to be speculation in most everything of value in which the human race have interest until the earth shall have become dead and lifeless as the moon.

DEAD AT AGE OF 129 YEARS

"Aunt" Dorcas Harris One of First Settlers in Texas.

Dallas, Tex., Jan. 1.—A special to the News from Mineral Wells says:

One hundred and twenty-nine years is said to have been the age of "Aunt" Dorcas Harris, a negro woman who had she lived until today, would have seen parts of three centuries. The old negress lived until the week of Christmas and it is said by reliable white people who have known her for years that among her reminiscences none pleased the old darkey more to relate than the assertion that she had known George Washington and had seen him many times in her early youth. She was born in 1777 and was a resident of Palo Pinto county when the oldest settlers came here shortly after the civil war. The old woman was buried here.

TO CHANGE GAME LAW.

San Antonio Sportsmen Say Deer Season Begins Too Early.

San Antonio, Texas, Jan. 2.—Local sportsmen are discussing the necessity of changing the Texas game law and a meeting is to be held within the next few days for the purpose of taking action in the matter. It is claimed that the deer season opens too early and it is suggested that the season open about three weeks later and close about three weeks later for the reason that the real cold weather does not prevail in Southwest Texas until about the first of the year. An effort will probably be made to have a law enacted to provide for different sections of the state according to climatic conditions.

In Suit Brought by Texas and Pacific Railway.

Austin, Texas, Jan. 2.—The supreme court this morning affirmed the judgment of the court of civil appeals in the case of the State vs. the Texas and Pacific Railway Company regarding the validity of the Love gross receipt tax law. The civil appeals court held that the law was unconstitutional, also that it violated the commerce clause of the federal constitution. The supreme court goes farther and holds that inasmuch as this road operates under a federal charter it is not subject to any other tax except a tax upon its property. In Galveston, Harrisburg and San Antonio case the supreme court held the Love law to be an occupation tax.

EAST TEXAS PRESBYTERY.

Important Action Taken Concerning Local Church.

The Presbytery of East Texas held a called meeting in Beaumont yesterday, assembling at the first Presbyterian church at 10 a. m. Rev. C. W. Calmess of Kiam, Polk county, was chosen moderator. Among the ministers in attendance were:

- Rev. S. F. Tenney, Crockett.
- Rev. J. W. McLeod, Rusk.
- Rev. D. A. McRae, San Augustine.
- Rev. G. E. Clothier, Livingston.
- Rev. J. A. Chill, Port Arthur.
- Rev. G. S. Robinson, Palestine.
- Rev. W. A. McLeod, Nacogdoches.
- Dr. W. F. Alexander, New Orleans.

Local interest was manifested by the crowds that attended each session. The Presbytery decided not to dissolve the pastoral relations between F. E. Robins and the first church of this city.

A general hearing of all parties concerned was held and the above action taken after a thorough discussion. It is understood that an appeal from this decision will be taken by certain members of the First church who desire to test the matter before the Texas synod that will meet in Brownwood in November next.

Meantime Mr. Robbins is to remain with the First church.

Rev. W. A. McLeod resigned the pastorate of Nacogdoches church and dismissed to the Dallas Presbytery. He will become pastor of the First church in Ennis, Texas.—Beaumont Enterprise.

BAD BLOOD

THE SOURCE OF ALL DISEASE

Every part of the body is dependent on the blood for nourishment and strength. When this life stream is flowing through the system in a state of purity and richness we are assured of perfect and uninterrupted health; because pure blood is nature's safe-guard against disease. When, however, the body is fed on weak, impure or polluted blood, the system is deprived of its strength, disease germs collect, and the trouble is manifested in various ways. Pustular eruptions, pimples, rashes and the different skin affections show that the blood is in a feverish and diseased condition as a result of too much acid or the presence of some irritating humor. Sores and Ulcers are the result of morbid, unhealthy matter in the blood, and Rheumatism, Catarrh, Scrofula, Contagious Blood Poison, etc., are all deep-seated blood disorders that will continue to grow worse as long as the poison remains. These impurities and poisons find their way into the blood in various ways. Often a sluggish, inactive condition of the system, and torpid state of the avenues of bodily waste, leaves the refuse and waste matters to sour and form uric and other acids, which are taken up by the blood and distributed throughout the circulation. Coming in contact with contagious diseases is another cause for the poisoning of the blood; we also breathe the germs and microbes of Malaria into our lungs, and when these get into the blood in sufficient quantity it becomes a carrier of disease instead of health. Some are so unfortunate as to inherit bad blood, perhaps the dregs of some old constitutional disease of ancestors is handed down to them and they are constantly annoyed and troubled with it. Bad blood is the source of all disease, and until this vital fluid is cleansed and purified the body is sure to suffer in some way. For blood troubles of any character S. S. S. is the best remedy ever discovered. It goes down into the circulation and removes any and all poisons, supplies the healthful properties it needs, and completely and permanently cures blood diseases of every kind. The action of S. S. S. is so thorough that hereditary taints are removed and weak, diseased blood made strong and healthy so that disease cannot remain. It cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., and does not leave the least trace of the trouble for future outbreaks. The whole volume of blood is renewed and cleansed after a course of S. S. S. It is also nature's greatest tonic, made entirely of roots, herbs and barks, and is absolutely harmless to any part of the system. S. S. S. is for sale at all first class drug stores. Book on the blood and any medical advice free to all who write.

Married

On last Sunday afternoon, Mr. Joe R. Day of Appleby, and Miss Bertie Lazenby, of Emilee, Texas, were united in the holy bonds of matrimony. Miss Lazenby has been a most successful teacher for several years, and she possesses every faculty that constitutes an ideal woman as well as teacher. Her many friends are limited only to the extent of her acquaintance. Mr. Day whom everybody knows, is a young man of sterling worth and is highly esteemed by all who know him. They will make their future home at Appleby, Tex. It is the earnest wish of this scribe that Mr. and Mrs. Day may have a long life of unalloyed happiness. Friend

Dangers of a Cold and How to Avoid Them.

More fatalities have their origin in or result from a cold than from any other cause. This fact alone should make people more careful as there is no danger whatever from a cold when it is properly treated in the beginning. For many years Chamberlain's Cough Remedy has been recognized as the most prompt and effectual medicine in use for this disease. It acts on nature's plan, loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by Kleas & Mast. dw

TUBERCULOSIS EXHIBIT.

Golden Rule up to Date, A New Years Resolution.

San Antonio, Texas, Jan. 4.—"Don't give consumption to others. Don't let others give it to you."

With the opening of the American Tuberculosis Exhibition in San Antonio tonight this anti-David Harum Golden Rule makes a timely resolution for the Texans' 1907 specifications.

The census figures showing annual death roll of three thousand Texans from Tuberculosis or Consumption would indicate that a host of folks have need of adopting this golden rule.

The San Antonio exhibition shows that the very existence of Tuberculosis is a shame and disgrace to civilized communities. "Tuberculosis," says Director E. C. Routzahn, representing the National Association for the study and prevention of Tuberculosis, "has no possibility of continued existence, save through carelessness and criminal indifference. This present campaign in Texas is intended especially to show how people need not take the dread disease."

The Grip.

"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonia or that has not recovered. For sale by Kleas & Mast. dw

A Luxury of Wealth.

Millionaire Madden of Chicago is a fortunate man, not because he is a millionaire but because wealth has placed within his reach a keen delight which, in such full extent, is denied to less opulent persons. Mr. Madden happened to see a poor child mailing a letter to Santa Claus. Exercising a "pull" that might have been employed less creditably, he persuaded the Chicago postmaster to hand over to him all letters similarly addressed, and no doubt that over-worked official was glad to be relieved of a perplexity. After sorting out all letters that came from children who were apparently well to do, Mr. Madden carried the remainder to one of the great department stores with instructions to satisfy the requests of each little supplicant for the favor of Santa Claus. Not content with this, Mr. Madden himself mounted the delivery wagon and personally superintended the distribution of his anonymous benefactions. He said that it was the happiest Christmas he had ever spent, and we can well believe it. There are plenty of wealthy and charitable men who spend large sums of money in philanthropic work and find a delight in doing so, but how many are there with the wisdom of Mr. Madden, who was not content to pay the bills, but knew how to get the keenest pleasure of all by bringing himself into personal contract with the recipients of his kindness?—Sacramento Union.

For any disease of the skin we can recommend Chamberlain's Salve. It relieves the itching and burning sensation instantly and soon effects a cure. This salve is also invaluable for sore nipples. Perkins, Kleas & Mast.

Best for Children.

"My Child had become paralyzed and had been treated by our best doctors without any benefit, but after using several bottles of Brown's Iron Bitters the child was completely cured. I know of several parties having children who were cured by this medicine and have no words to express my gratitude. D. B. Everhart, Chandler, Texas. On sale by Stripling, Haselwood & Co. dw

THE KAISER TO BEAT THEM ALL

Will Build Cruiser With Displacement of 20,000 Tons.

London, Jan. 4.—The Berlin correspondent of the Daily Mail says the kaiser has decided to eclipse the world, so far as armored cruisers are concerned. After the election the government will ask for authority from the reichstag to greatly increase the size of such a cruiser, so that the new ship will have a displacement of 20,000 tons. The vessel is to have turbine engines, which, it is planned, will make her the speediest cruiser in the world. It is also designed to make the ship more powerful than any existing battleship.

Wanted—Good farm hands, either married or single, by the month. Steady work, good pay. D. R. Ried. At Redfield Farm.

Had a Close Call.

Yesterday afternoon while at work on the new hotel building, J. C. Dollard, a carpenter, had a pretty close call to a serious accident. He was nailing on lathing and the ladder on which he was standing broke and he fell to the floor a distance of four or five feet. He had a hatchet in his hand and in the fall the hatchet struck him on the head and cut an ugly looking place on the forehead, and also bruised his nose.

He sought a physician and had the wounds dressed. While the wounds are painful, yet they are not serious.

Officers and Directors Election.

The regular annual meeting of the stock holders of the Stone Fort National Bank was held in their banking rooms on yesterday, Jan. 8th and the following stock holders were elected to serve as a board of directors for the ensuing year: Chas. Hoya, W. J. Perkins, S. H. Watkins, S. B. Hayter, F. B. Sublett, I. L. Sturdevant. The officers elected were: I. L. Sturdevant, president; W. U. Perkins, vice president; F. B. Sublett, cashier.

The annual report made by the management to the stockholders of the condition of the bank and its affairs was highly satisfactory and showed a steady healthy growth in its every department. This institution has just passed through the most successful year in its history, and is destined to become a factor in the financial interests of this part of the state.

Keep Your Blood Pure.

No one can be happy, light-hearted and healthy with a body full of blood that cannot do its duty to every part because of its impurity; therefore, the first and most important work in hand is to purify the blood so that every organ will get the full benefit of a healthy circulation. There is no remedy we know of so good as that old family remedy, Brandreth's Pills. Each pill contains one grain of the solid extract of sarsaparilla blended with two grains of a combination of pure and mild vegetable products, making it a blood purifier unexcelled in character. One or two taken every night for awhile will produce surprising results.

Brandreth's Pills have been in use for over a century and are sold in every drug and medicine store, either plain or sugar-coated.

Hon. Steve M. King of Nacogdoches made one of the speeches seconding the nomination of Mr. Terrell, and was one of his campaign managers.

NOVEL CURE FOR COLDS.

Healing Medication that is Breathed, Giving Quick Relief.

It seems just as ridiculous to put medicine into the stomach to cure a cold in the head or lungs as it does to go out in the rain if we want to keep dry.

The fact that many people right in Nacogdoches cough and hawk and snuffle for days and weeks and after they treat a cold with the usual stomach dosing, shows how valueless are the ordinary cough and cold cures.

The right way to cure a cold in the head or a cough irritation in the throat and lungs, is by breathing Hyomei's medicated air. Put a few drops of Hyomei in the neat pocket inhaler that comes with every outfit and breathe this healing air for a few times and immediate relief will be noted. The medication goes right to the spot where the disease germs are located and renders them harmless in the future.

At the same time the soothing and healing effects of Hyomei on the irritated mucous membrane give quick relief, and the cough or cold is broken up.

The best evidence of the great value of Hyomei in curing coughs, colds and all bronchial troubles is the fact that Stripling, Haselwood & Co. give an absolute guarantee with every outfit they sell, that if it does not give satisfaction, the money will be refunded.

A complete Hyomei outfit, consisting of a bottle of Hyomei, the inhaler and a medicine dropper, costs but \$1, while extra bottles of Hyomei, if needed can be obtained for only 20c.

Death of Mrs. Singleton.

A telegram announcing the death of Mrs. L. L. Singleton of this city was received yesterday. The family were on a Christmas visit at Vernon Texas, when the sad occurrence happened. Mr. Singleton is a well known carpenter here and lives on Bailey avenue.

We extend our sympathy to Mr. Singleton and his little children, in their sad loss. Mrs. Singleton was a devoted member of the Lilly Grove Baptist church.

She will be buried at Rocky Springs this afternoon.

Food don't digest? Because the stomach lacks some one of the essential digestants or the digestive juices are not properly balanced. Then, too, it is this undigested food that causes sourness and painful indigestion. Kodol For Indigestion should be used for relief. Kodol is a solution of vegetable acids. It digests what you eat, and corrects the deficiencies of the digestion. Kodol conforms to the National Pure Food and Drug Law. Sold here by Stripling, Haselwood & Co. dw

JAMES GREER

R. F. D. No. 2 Nacogdoches, Texas

Obituary.

On Thursday morning at 3:30 o'clock, Dec. 27th, 1906, our community was visited by the death angel who bore away in his cold and icy embrace Mrs. Vernona Hogan wife of George W. Hogan and daughter of Mr. and Mrs. J. C. Birdwell. Vernona was born in Nacogdoches county, July 31st, 1879, was 27 years, 4 months and 27 days old. At the age of 13 years she professed a faith in Christ while her mother was singing the beautiful hymn.

A few more years shall roll, A few more seasons come, And we shall be with those that rest, Asleep within the tomb.

Vernona joined the Missionary Baptist church at Kilby Grove, July 14th, 1901, was baptised by Rev. S. F. Baum. She loved the church of God, loved His service and was continually striving to learn more of His will concerning her and by this He led her into the experience of perfect love.

Vernona was married to G. W. Hogan Nov. 10th, 1898, by Rev. E. D. Blankenship.

It seems hard that her parents have to give up their only child and her husband his companion, but God has spared them her dear little girl to comfort them in this their sad hour of bereavement; she will brighten many a sad and lonely hour in their declining years. All that kind hands could do was done to relieve her of her suffering, but alas, the great monster death came and knocked at the door and said come up higher where there is no pain nor sorrow, but all in peace and love. So weep not dear ones for your precious one, you are left lonely without her but heaven is richer by her going away. She is not dead but sleepeth, and in the beautiful far beyond our natural vision there is a home prepared for those who love God and keep His commandments. Her remains were laid to rest in North church cemetery to await the resurrection morn.

Her mother requested me to write her obituary and to thank their relatives and friends for their kindness during her daughter's sickness.

Frances Smelley.
