Stoker News.

Stoker, Texas, May 19.—Mt. Moriah people are reasonably well.

This is our regular preaching day, Bro. L. R. Heflin preached yesterday and today. He was unanimously called to preach for the church.

We had an old time Sacred Harp singing today.

Things are getting better, the oil well is going down at a rapid rate. We are expecting something good to come to pass.

Crops have been greatly damaged on account of too much rain, but we are doing our best, willing to leave the result with God, who doeth all things well.

We had our county Missionary with us Saturday and four other preachers today.

Work on the Perkins and Blount buildings are progressing finely. In won't be long before the city will be free from any signs of the great fire.

Monument to Ensign Bagley.

Raleigh, N. C., May 20.—Twenty thousand people today witnessed the unveiling of the monument and statue erected in Capitol Square by the people of the United States in memory of Ensign Worth Bagley of the United States navy, killed by a Spanish shell off Cardenas on May 11, 1898. Confederate, Federal and Spanish war veterans, National Guard troops and school children formed the parade. The addresses were made by Congressman Richmond P. Hobson, the hero of the Merrimac, and Captain Victor Bue of the United States navy. The statue was unveiled by Worth Bagley Daniels, nephew of Worth Bagley. Governor Glenn accepted it for the State. As the exercises began, rain poured in torrents, but later the sun came out.

Mr. and Mrs. Ellis Hall and children are visiting Mrs. Hall's mother in Martinsville.

SAN JACINTO VETERAN.

James Parkinson, Aged 102, Discovered in San Antonio.

San Antonio, Tex., May 20.—The presence here of one of the few survivors of the battle of San Jacinto was discovered during the recent political campaign by party solicitors. The old veteran's name is James Parkinson, and at the age of 102 years he is living with his wife, also advanced in years, at 816 Soledad street.

Mr. Parkinson is a veteran of three wars and was a participant in innumerable skirmishes with Indians during the early days of Texas. He was born in early days of Texas. He was born in Tennessee, Oct. 22, 1805. He came to Texas in his youth, after having lived in Missouri and Arkansas, settling in Burleson county. Mr. Parkinson was in the entire campaign against the Blackhawk Indians and at the first evidence of hostilities with Mexico he shouldered his musket in defense of the Texas home he had established. He fought throughout the struggle and was one of the victors on the field of San Jacinto.

During the second struggle with Mexico, Mr. Parkinson was one of the Texas volunteers who threw their sturdy strength with the United States and fought throughout the campaign.

Again, with the establishment of the Confederacy, Mr. Parkinson shouldered his musket in defense of State's rights, serving under the Stars and Bars for two years and a half. Coming back to Texas at the expiration of that time Mr. Parkinson associated himself with Western rangers and was stationed for several years at Eagle Pass.

Mrs. Parkinson is approaching her 80th year and is not in good health. Her husband, while remarkably well preserved for a man of his years, is extremely weak and unable to provide for their wants.

Picnic at Melrose.

The good people of Melrose will give a big picnic and general old fashioned basket dinner on Thursday, May 30, and the public generally is invited. Among the attractions will be an address by Judge V. E. Middlebrook of Nacogdoches. There will also be other speakers present to entertain the crowd, the speeches, of course, to be interspersed with different attractions of amusement, and above all, about the noon hour the old fashioned dinner will be spread. The committee in charge of the affair requests The Sentinel to invite everybody, and The Sentinel will tender assurance on its own account that all who may attend will ever remember the occasion with pleasure.

ORIGINAL ALAMO BELL.

Valuable Historical Relic is Again in the Old Mission.

San Antonio, Tex., May 20.—T. L. Johnson of Seguin brought the original Alamo bell to San Antonio yesterday and now it is suspended by a rope from one of the rafters in the center of the old mission.

The bell is made of brass, weighing fifty pounds, and is handsomely embossed with various figures. It shows signs of years of hard use, but its tone is as clear and musical as the tone of a new bell.

This old bell, which was a silent witness to the most historic struggle in the cause of liberty that has ever been recorded on the pages of history, was taken from the San Antonio river by Anton Lockmar, the first husband of Mrs. Eugene Giraud, at a point directly west from the front of the Alamo, in September, 1845, and was presented by Anton Lockmar to the old Irish banker, John Twohig, and by him submitted to the Catholic curgy, then in charge of the San Fernando Cathedral and the old Catholic missions of San Antonio, for identification, and was by them authenticated as the old Alamo church bell.

John Twohig kept this bell in his office until the fall of 1852, when he married Miss Bettie Calvert, the daughter of Major J. S. Calvert of Seguin, to whom he presented this bell. Major Calvert had just opened the old Magnolia Hotel in Seguin and the old bell was immediately put into commission as the hotel bell call, and it remained hung on its scaffold from 1852 until 1900, when an attempt was made to steal it. The bell was then taken down and put in a place of safety.

Major Calvert presented this relic to his daughter, Mrs. C. K. Johnston, and she presented it to her youngest son, T. L. Johnston. It was at the request of Miss Florence Eager, custodian of the Alamo, that the bell was hung in the old mission, where it is to remain until Mr. Johnston asks that it be returned.

Tax Laws of Texas.

Austin, Texas, May 20.—Messrs. John T. Smith and B. F. Teague, authors of the "General Tax Laws of Texas, Annotated," will in a few days have compiled in supplemental form to their book all the tax laws passed by the 30th legislature.

A table will be compiled and published with this supplement in which full references will be made to all laws that have been repealed, revised or amended in any shape by the recent legislature.

Oklahoma Constitution.

Washington, May 20.—A committee of democrats appointed by President Murray of the Oklahoma constitutional convention arrived here today to consult with legal authorities regarding the situation growing out of Judge Paneoast's decision, the effect of which is to postpone the election on the constitution adopted by the convention until the fall of 1908.

Tragedy at Orange.

Orange, Texas, May 20.—Sunday morning Albert Dunlap was shot and killed at his home in this place, but who did the killing is not yet known. Dunlap was shot in the left side with a shot gun. Bill Harris and Ralph Watson were arrested and jailed. Judge Powell had the grand jury called together this morning to investigate the matter.

Q—WHAT is the definition of a modern State legislature?

A.—Tax, taxing, taxed, taxation.

MR. JEROME of New York is making war on the gamblers. It would be too bad if the poor gamblers had to leave New York like they did Texas, but the gamblers must go.

THE American press seems to be much bothered over the fact that they are about to let the new Spanish Prince down to four names. We suppose they are trying to balance up name with brains.

It seems that in New York and other large cities that there is such little room to build railroads that they are digging through tunnels underground. If they want a good healthy country in Texas. There is good Gus King railroads in Texas.

Geo. F. Rainbow the state is a visitor in the city of Homer A. Dotson the city Cushing attorney and to the night in the city streets and B. T. King of the houses we business on have free mail yesterday. Let everybody help the Nacogdoches "Great-Sanacogdoches."

LET the Nacogdoches boys get together and organize a fire company and get a move on foot for a hose cart and a hook and ladder wagon and fix for fighting fire in a systematic manner. We have some of the best fire fighters on earth, and they are not afraid to stay with it as long as there is a ghost of a show, as they have demonstrated the fact in the last few fires. Nature itself smiles on the man who struggles to save his neighbor's house.

THE citizens of New Orleans have a committee of 25 to formulate plans for a Bioceanic Canal Exposition to be held in that city in 1915 or 1916 at the time of the completion of the Panama Canal which we think will be a great thing for United States as a whole and especially the Southern States and we sincerely hope they will be successful. The city of New Orleans proposes to raise \$5,000,000 and the state of Louisiana \$2,000,000 by direct taxation. Success to the underfaking.

WE have heard many fish stories but we notice in the Fort Worth Star of May 16th in a three column head line, "Five Hundred Residences Destroyed in Nacogdoches." We would like to see the photograph of the correspondent in Houston, Texas, who wired in such an unwarranted misrepresentation. We cannot conceive of any excuse for such a misrepresentation unless he had swam ten miles in a lake of stale beer and had landed on an island of limberger cheese.

INCREDULOUS FISHERMEN.

The fish story season has opened up, and the Nimrods have already started the ball to rolling. The most remarkable story so far comes from Brenham, and is as follows: "L. F. Ammons, who is one of the most reliable and substantial farmers of the county, while fishing at the Brenham Rod and Gun Club lake at Stone, three miles east of here, Saturday witnessed an unusual sight that illustrated the size of the bass in here as well as the avidity with which they strike. Some dogs near by jumped a rabbit and the rabbit being closely pursued leaped into the lake to escape the dogs, and a bass made a strike for it and swallowed it by the time it had commenced swimming for the other side. Mr. Ammons was never more astonished, and he says the dogs looked equally astonished as they saw the rabbit disappear."—Nacogdoches Sentinel.

Fish stories depend for their remarkable character largely on the persons to whom they are related. The man who has fished a great deal in life, and who knows something of the finny tribe, will not even account the above story remarkable. For it is not remarkable at all. State Press once caught a bass with a mouse in it. He caught a bass with a snake six inches long in it. He saw a bass try to catch a blackbird which was sitting on a low limb at the lake at Ennis. The bass will strike at any thing it can swallow. A seven-pound bass can swallow a young rabbit. What, then, is there remarkable about this story? There is scarcely a fisherman in the country who has not caught a bass when it was trying to swallow another of its kind on the hook. It is the "parlor fisherman" who is incredulous.—Gal-Dal. News.

No one would apply the appellation of "parlor fisherman" to State Press. Any fisherman who has caught a whale is entitled to all the honors of the profession, even to that of champion story teller. The character of the story, however, depends largely upon the character of bait the fisherman uses. Knowing State Press' reputation as an expert fisherman and a judge of good bait, The Sentinel is not surprised that he has caught fish with snakes in them, or that he has seen bass try to catch black birds.

A BOSTON parrot smokes cigarettes and talks sissy talk to the girls. We suppose the bird is pollycoddle.—Houston Post.

A Russian doctor assures us that riding on the cow-catcher of a locomotive will cure consumption. Being struck by an engine will cure almost any disease.—Galveston Tribune.

We don't know about the cow-catcher riding, or being struck by the engine, but we have observed that riding on the trucks or the blind baggage sometimes cures homesickness.

THE Waters Pierce Oil Co. has been denied a change of venue from Travis county and the trial will begin Monday. We don't see why they cannot get as fair a trial in Travis as any other county.

THE Daily News is today the biggest thing that ever happened it journalism in towns of this size in the state of Texas.—Lufkin News.

You are correct, brother, the news is an excellent paper for a small town.

WHAT has become of the city park Club. We don't hear much about it lately. Don't let a good enterprise die out when our town is looking up. Have a fountain in the center, and concrete walks all through the park and the flower beds will show up like a paradise.

Governor Campbell succeeded in whipping the legislature into line on all his favorite measures except the defeat of the Santa Fe merger, but he had his own people to fight in this instance, and you know East Texans are foeman worthy the steel.—Center News.

When Governor Campbell vetoed the Santa Fe merger bill he was carrying out the strict policy of his party for several years, and had the backbone to veto it, without fear or favor, and does not deserve the thrusts that are being made upon him from one particular locality. We hope the governor won't find it out though.

THERE is a great deal of talk now of the big Life Insurance Companies going out of the state because they don't want to conform to the laws of our state. Some of the companies may go. Some of them have already said they would continue to do business in Texas. If the citizens of Texas would patronize Texas companies and help out home institutions their money would be kept at home instead of going to Wall street. There is no reason why a life insurance company cannot prosper in Texas as well as in New York, as greater interest can be realized in Texas.

The Whole Weeks Family.

An advertisement in The Nacogdoches Sentinel announces the organization of the "Weeks Drug Company, with the following officers: "E. M. Weeks, Pres., "E. M. Weeks, Sr., Vice Pres., "E. M. Weeks, Jr., Sec. Treas."

The other members of the family are probably employed as clerks. The advertisement says farther that the company has been incorporated. Now isn't this a clear case of violation of the anti-nepotism law? The firm will no doubt do business every day in the week.—Peoples Advocate.

The above names are only a part of them. E. M. Weeks, has two more nephews that bear the name of E. M. Weeks, Jr. The Weeks family reserve the right to use this name through coming generations.

The Largest, Best-Equipped and Cleanest Flat Plug Tobacco Manufacturing Plant in the World

The Reynolds factories, equipped with every modern appliance for producing the best chewing tobacco by a clean, sanitary and healthful process, under the direction of men who have made the business a life study, are located in the centre of the Piedmont tobacco belt, known to the world as the best productive soil for tobacco with an aroma so delightful, pleasing and appetizing that it created and popularized the fondness for chewing tobacco. Only choice selections of this well-matured, thoroughly cured leaf are used in SCHNAPPS and others of the high-grade Reynolds brands, and expert tests prove that this tobacco requires and takes a smaller

amount of sweetening than any other kind, and has a wholesome, stimulating and satisfying effect on chewers.

SCHNAPPS is the brand that made the Reynolds factories famous as the manufacturers of the best and most popular brands of chewing tobacco, and made necessary the enormous growth from a small factory in 1875 to the largest flat-plug factory in the world. The men who started the Reynolds Co., in 1875, are directing it to-day. There are a greater number of manufacturers making imitations claimed to be just as good as SCHNAPPS than any commodity manufactured; yet there are more pounds of SCHNAPPS chewed than the total amount of all imitative brands, or tobacco of similar appearance.

An Englishman For Texas.

The latest feat to be pulled off by the Texas Five Million Club is the securing of the eminent English lecturer, Mr. Frederick Opp, who has already commenced a systematic tour of the British Isles, where he is decanting on the glories of Texas, and telling the people across the sea of the valuable opportunities awaiting those who are early in the field in Texas. Few people on the British Isles are acquainted with Texas, and her resources. Those who have heard of her look upon her simply as one of the many states in the American Union, and the fact that she is to be extolled from the lecture platform will no doubt be the means of attracting a very desirable population to the state. The English people are well known for their thrift, and any community in the state would be benefited by their presence. This, with the active campaign being waged in America, will possibly be the means of achieving even greater results than the securing of five million people in 1910. Field representatives are scouring the state for subscriptions, with which to continue the good work, and it is hoped to have everything running smoothly by early summer.

HOME COMPANIES GROWING.

Increase in Fire and Life Insurance Business.

Austin, Tex., May 17.—In the preliminary report which will be issued in a few days by the insurance department the following facts will be shown. The preliminary report of 1905 gave \$14,578,442 as the amount of risks written by home fire insurance companies and \$9,000,000 as the amount written by home life insurance companies.

The report soon to be issued will give as the amount of risks written by companies of the former class \$19,252,423 and the amount written by those of the second class, in round numbers, \$16,000,000, the gain in the two cases being \$4,673,981 and \$7,000,000, about, respectively. As shown by these figures, the business of home insurance companies in Texas is very rapidly increasing.

Another Tunnel Under The River.

New York, May 17.—Another of the tunnels that are to connect the island of Manhattan with adjacent territory was nominally completed late yesterday, when workmen

broke through the last crust of rock and dirt in the north tube of the Belmont tunnel, which runs from New York to Long Island City. Some of the engineers and workmen soon afterwards walked through the tube from shore to shore. Announcement was made that this tube would be ready for trains by August 1. The boring of this tunnel has taken two years. It was a difficult engineering job, the bore running more than 100 feet under the East river. Quite a number of workmen lost their lives during the progress of the work. The tunnel is to be connected with the Grand Central station in New York.

Death of Mrs. Tom C. Sharp.

News has just reached here of the death of Mrs. Tom C. Sharp, which occurred Wednesday evening at her home at Edom, Texas.

Rev. Tom C. Sharp formerly lived in Nacogdoches and was in the mail service, having charge of one of the rural routes out of Nacogdoches.

Mrs. Sharp was the daughter of Mr. and Mrs. Henry Fuller of Shady Grove, and a sister of Mrs. C. T. Richardson of this place. She also has a large connection in this county, having been reared in the Shady Grove neighborhood about eight miles east of Nacogdoches, and has taught school in different places in the county. She was married to Tom C. Sharp about three years ago. Her death will be deeply regretted by all who knew her.

The remains will arrive on the South bound T. & N. O. at 3 o'clock and the funeral will take place at the city cemetery.

ANOTHER BIG FIRE.

Residences of Mrs. W. P. Mims and Sam Stripling in Ashes.

From Thursday's Daily:

This morning at 10 o'clock the fire alarm was given and the residence of Mrs. W. P. Mims on North street was found to be on fire, and by 11 o'clock the residences of Mrs. Mims and Sam Stripling were in ashes. Both of these were among the nicest residences in the city.

Owing to the heroic work of the boys, the fire was stopped at the residence of John Baker, after the household effects had all been removed from the building.

Most all of the household effects were saved from the residences of Mrs. Mims and Mr. Stripling.

At first the fire bid fair to be one of the most disastrous in the history of the city as the wind was blowing a strong gale from the south, and the buildings were close together for at least half a mile, and had the wind continued to blow in the same direction, the only way the fire could have been stopped would have been to destroy some of the buildings with dynamite.

Mrs. Mims' loss is estimated at about \$3500 and insured for \$2200. Mr. Stripling's loss is estimated at about \$6000 insured for \$5300.

The other parties were insured sufficiently to cover their damage.

The buildings of Mr. Jno. Baker and John Perkins were slightly damaged and the household effects from all of the buildings were considerably damaged.

There were several roomers and boarders in the various buildings, some of which suffered considerable loss, but it is impossible to find out all the particulars up to the time of going to press.

The fire was supposed to have originated in the upper story from the flue from the cooking stove.

ORATORY AND ARGUMENT.

Great Debate Between Alazan and Nacogdoches.

One of the greatest debates ever held in Nacogdoches county—none excepted—was that pulled off at Alazan last night between the Reagan Literary Society of Nacogdoches and the Alazan Debating Club. The latter was represented by Edgar and Lloyd Johnson and the former by Arthur Seale and Joe Dooley.

The question was "Resolved, That the United States has Reached the Zenith of its Civilization," the Nacogdoches boys having the affirmative and Alazan the negative.

A packed house greeted the contestants and gave them the closest attention for two and half hours. Several members of the Reagan Literary Society were present besides the two debates. All of Nacogdoches should have been there to have listened to her two boys wield argument and oratory in a manner that would have been credit to veteran members of the Roman forum. The old town should be proud of these two young men. The arguments they presented were powerful, logical eloquent and convincing, and showed a depth of research and investigation that was surprising to their most intimate friends and associates.

The two Johnson boys are young farmers and are to be highly commended for the magnificent way in which they handled their side of the question and stood up for the past, present and prospective glory of their native land.

They showed that they were close students of the thought, literature and affairs of the age and looked with the eye of the optimist on the future. They brought out an almost overwhelming array of fact and argument to prove that the Zenith of glory of American civilization is yet to be reached and that all things point to the attainment of heights far more glorious and dazzling than any thing ever yet approached by man.

Prof. Leroy Fulmer acted as chairman of the meeting and H. T. Marr made a short opening address on the benefits to be derived from debating clubs and literary societies and the wonderful training gained in mental contests like the one in prospect. Arthur Seale opened the argument for the affirmative. He was followed by Edgar Johnson for the negative. Joe Dooley came next and then Lloyd Johnson, Mr. Seale closing in a fifteen minutes rejoinder, during which a running debate and crossfire of questions and answers occurred between Lee and Edgar Johnson that reminded one of like affairs on the floor of congress.

A jury of twelve judges had been selected to decide the debate and these then retired and soon reported a unanimous verdict in favor of the affirmative, which was greeted by loud and prolonged applause, showing that it met the hearty approval of the audience.

Tired Nervous Women Make Unhappy Homes

MRS. NELLIE MAKHAM

A nervous irritable woman, often on the verge of hysterics, is a source of misery to everyone who comes under her influence, and unhappy and miserable herself.

Such women not only drive husbands from home but are wholly unfit to govern children.

The ills of women act like a fire brand upon the nerves, consequently seven-tenths of the nervous prostration, nervous despondency, the "blues," sleeplessness, and nervous irritability of women arise from some organic derangement.

Do you experience fits of depression with restlessness alternating with extreme irritability? Do you suffer from pains in the abdominal region, headache, bearing-down pains, nervous dyspepsia, sleeplessness, and almost continually cross and snappy? If so, your nerves are in a shattered condition and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous troubles of women than Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Thousands and thousands of women can testify to this fact.

Mrs. Nellie Makham, of 151 Morgan St., Buffalo, N. Y., writes:—

"I was a wreck from nervous prostration. Lydia E. Pinkham's Vegetable Compound, made from native herbs, contains no narcotics or harmful drugs and today holds the largest number of actual cures of female diseases of any world has ever known, and thousands of voluntary testimonials file in the laboratory at Lynn, Mass., which testify to—

MRS. GEO. A. JAMES

I suffered so I did not care what became of me, and my family despaired of my recovery. Physicians failed to help me. I was urged to try Lydia E. Pinkham's Vegetable Compound and I want to tell you that it has entirely cured me. I think it is the finest medicine on earth and I am recommending it to all my friends and acquaintances.

Mrs. Geo. A. James, a life long resident of Fredonia, N. Y., writes:—

"Dear Mrs. Pinkham:— I was in a terribly run down condition and had nervous prostration caused by female trouble, in fact I had not been well since my children were born. This condition worked on my nerves and I was irritable and miserable—I had tried many remedies without getting much help. Lydia E. Pinkham's Vegetable Compound brought me back to health and strength, has also carried me safely through the change of life. I cannot too strongly recommend your medicine."

waged this contest are destined to prove factors that will have to be reckoned with in the future history of Nacogdoches county and their respective communities, and the county at large should be proud of them.

A large number of our citizens left yesterday morning in a special car for the Cross-S ranch in Dimmit and Zavalla counties on a prospecting tour.

Little Pocket Physician.

Thousands who have been cured by Hyomei call the inhaler that comes with every outfit the "Little Pocket Physician," as it is so small that it can be carried in the pocket or purse.

There is really no excuse whatever for anyone having catarrh now that Hyomei is so readily obtainable. If you have any doubt about its value, Stripling, Haselwood & Co. will let you have a complete outfit, with the understanding that unless it cures catarrh, it will not cost you a cent.

The complete Hyomei outfit consists of the "Little Pocket Physician" and a bottle of Hyomei and costs only \$1.00.

THE best way to see the beauty of uprightness is through an iron barred window.

THE newest information affoat is the proof that Gov. Campbell, after his election, carried out to the letter his pro-election promises; and in doing so, he has violated a well established custom of eight years standing. We shall therefore be greatly surprised if the corporations provide for him when he goes out of office.—Tyler Courier.

This is the kind of a man they provide for usually, as they want his influence, however, Gov. Campbell can take care of himself.

WE understand that Mr. W. O. Crain of Austin Texas who was raised in Nacogdoches is aspiring to the position of Deputy State Revenue Collector at Anstin, Texas. Mr. Crain is a deserving young man of unquestioned ability and stands high in the estimation of all who know him. There are 15 contestants for the position and Mr. Crain is the only one that is from East Texas. We sincerely hope he will be appointed.

THE Houston correspondent of the Fort Worth Star must have fallen dead immediately after he wired that notorious piece of inflammatory news about the Nacogdoches fire of May 16th. If he were still alive we should have heard more from his fiery pen before this. We would like to have him explain how he got his information about this fire. We would like for the Star to have him show his hand in this matter. Come across and don't be bashful about it.

THE TIMBER SUPPLY.

Three Times as Much Timber Used Each Year as the Forest Grows.

Every person in the United States is using over six times as much wood as he would use if he were in Europe. The country as a whole consumes every year between three and four times more wood than all of the forests of the United States grow in the meantime. The average acre of forest lays up a store of only 10 cubic feet annually, whereas it ought to be laying up at least 30 cubic feet in order to furnish the products taken out of it. Since 1880 more than 700,000,000 feet of timber has been cut for lumber alone, including 80,000,000,000 feet of coniferous timber in excess of the total coniferous stumpage estimate of the census in 1880.

These are some of the remarkable statements made in Circular 97 of the Forest Service, which deals with the timber supply of the United States and reviews the stumpage estimates made by all the important authorities. A study of the circular must lead directly to the conclusion that the rate at which forest products in the United States have been and are being consumed is far too lavish, and that only one result can follow unless steps are promptly taken to prevent waste in use and to increase the growth rate of every acre of forest in the United States. This result is a timber famine. This country is today in the same position with regard to forest resources as was Germany 150 years ago. During this period of 150 years such German States as Saxony and Prussia, particularly the latter, have applied a policy of government control and regulation which has immensely increased the productivity of their forests. The same policy will achieve even better results in the United States, because we have the advantage of all lessons which Europe has learned and paid for in the course of a century of theory and practice.

Lest it might be assumed that the rapid and gaining depletion of American forest resources is sufficiently accounted for by the increase of population, it is pointed out in the circular that the increase in population since 1880 is barely more than half the increase in lumber cut in the same period. Two areas supplying timber have already reached and passed their maximum production—the Northeastern States in 1870 and the Lake States in 1890. Today the Southern States, which cut yellow pine amounting to one third the total annual lumber cut of the country, are un-

doubtedly near their maximum. The Pacific States will soon take the ascendancy. The State of Washington within a few years has come to the front and now ranks first of all individual States in volume of cut.

At present but one-fifth of the total forest area of the United States is embraced in the nation forests. The remaining four-fifths have already passed or are most likely to pass into private hands. The average age of the trees felled for lumber this year is not less than 150 years. In other words, if he is to secure a second crop of trees of the same size, the lumberman or private forest owner must wait, say, at least one hundred years for the second crop to grow. As a rule, such long time investments as this waiting would involve do not commend themselves to business men who are accustomed to quick returns. But the States and the Nation can look much farther ahead. The larger, then, the area of National and State control over woodlands, the greater is the likelihood that the forests of the country will be kept permanently protected.

Carl Crow, Sunday editor of the Fort Worth Telegram, and R. D. Reimers, city editor of the same publication, made yesterday a record in walking the distance between Fort Worth and Dallas. Leaving the outskirts of Fort Worth at 10 a. m. they stopped at Arlington for lunch and arrived in Dallas, following the dirt road all the way, at 7:30 p. m. The distance traversed, as measured by a pedometer, was thirty-three miles.

Neither of the young men showed evidence of fatigue, and each declared himself willing to make the trip again, but not immediately.—Dallas News.

We understood that the newspaper men would test the anti-pass law but we didn't expect it so soon.

THERE is in this issue of The Sentinel a call for a mass meeting for the purpose of devising ways and means for the organization of a fire department in Nacogdoches. Of all questions which concern the welfare of Nacogdoches none are more important at this time. Self preservation is the first and the most vital law of nature. And this law should apply to property as well as to life. No man is a good citizen who preserveth not his own, and as has been demonstrated on former perilous occasions, the citizens of Nacogdoches are good citizens. It is again expected that every man will respond to this call made by Brother Robinson and be at the opera house on Monday evening—that is if by that time the fiery demon has not destroyed that structure too.

Don't Grind Their Ax.

There is an old story told by Benjamin Franklin that runs something like this: When Franklin was a boy, going to school one day, he saw a man grinding an ax. It was a laborious job and he was not making much headway. The boy watched him for a while and then asked if he might turn for him a little. The offer was accepted, and the grinder, now that he did not have to turn, got along nicely. He spent his time between bearing down hard on the ax and praising little Ben for being such a clever boy. Finally he finished the job. He did not need the boy any longer. He looked over his ax to be sure and then turned to Ben and said, "Get out of here, you little rascal. Why don't you go to school where you belong instead of idling around where you are not wanted?" And Ben got—but never forgot the man who had an ax to grind.

The average politician has an "ax to grind." He wants your votes. That's the way you grind for him, and when he has finished with us, when he has got into office, he shows by his actions if not his words that he is working for himself and those who can buy him out—that he was just "getting his ax ground" by your votes.—Ex.

It seems as if Howard Gould is about to impose another high society scandal upon us. The Goulds seem to be playing in hard luck with their matrimonial speculations. They succeed better in Wall street than they do at Hymens Altar. Miss Helen's good sense has kept her part of the fortune hunters on the other side of the salty waves.

Buffalo Bill may have been an Indian fighter and Napoleon the world's greatest war tactician, but the Nacogdoches boys stand unparalleled when it comes to combatting fire. The writer believes their like does not exist. Boys!—lets organize so that we may be equipped for any emergency, and especially when our water works system is inaugurated, which will be within the next few months. Hurrah! for our boys, young and old. Respectfully,
J. M. Robinson.

News From Maxwell.

Maxwell, Tex., May 20.—As I see no news from here I send you the following item: We have fine crops, good rains and health is good. This is surely a fine country, but when I was back at Nacogdoches that country looked all right to me.
Yours truly,
J. C. Eason.

PIERCE MUST COME BACK.

Remanded to Custody of Texas Sheriff.

St. Louis, Mo., May 15.—H. Clay Pierce, chairman of the board of directors of the Waters-Pierce Oil company, was remanded to the custody of Sheriff Matthews of Travis county, Texas, to answer to the indictment charging perjury, by a decision of Judge Adams in the United States circuit court today.

After Judge Adams had rendered his decision Attorney Priest immediately asked that delay of execution of the court's order be granted until this afternoon to enable him to decide whether to make an appeal to the United States court of appeals or directly to the state supreme court.

Judge Adams granted the request.

Attorney Barclay, representing the State of Texas, asked that the court increase the bond of \$10,000 under which Pierce was released from custody when he surrendered on May 8, but Judge Adams stated that the bond would remain at that amount until this afternoon.

Mr. Pierce had little to say as he left the courtroom with his attorney. He spoke to several friends who crowded forward to shake his hand but made no comments.

Governor Little's Condition.

San Antonio, Texas, May 20.—Governor Little of Arkansas arrived here this morning from Corpus Christi accompanied by his wife and Dr. Pitman of Little Rock. His condition is unchanged and he is not expected to survive. They leave tonight for Arkansas.

NOTICE.

To the people of Nacogdoches county who suffer with Eye Diseases or Deformities:

Remember that Dr. Adams has a branch office on Nacogdoches and visits this office once a month. He is prepared to cure any eye trouble known and proven by science to be curable. Hundreds of people in East Texas will testify to this fact. He has references from many who were led to him and now see to read. Call and ask for names and investigate this matter, if you suffer with granulated lids, ingrowing lashes, cataracts, pterygiums, drooped or deformed lids, lid tumors, overflow of tears, falling of lashes, ulcers or iritis, or in fact any eye trouble. You will find that he is an expert in the cure of eye diseases and deformities. He has spent fifteen years in this one line of practice and is ready to prove any claim he makes, and guarantees results. His next date at Nacogdoches will be June 14 and 15. Office at Banita hotel.

Mrs. S. L. Miller returned from Arkansas early this morning, where she has been on a visit with her mother.

PIERCE WILL GO TO AUSTIN.
Will Answer to Indictment When He Has Time.

St. Louis, May 16.—H. Clay Pierce left last night for New York after his attorneys had taken two appeals to the ruling of Judge Adams in the United States circuit court yesterday morning under which Pierce was remanded to the custody of Sheriff Matthews of Travis county, Texas, in extradition proceedings on the warrant from Texas charging perjury.

There was some doubt as to the proper court to appeal to, so it was decided to go to both the supreme court of the United States and to the United States court of appeals. Bond was furnished in each appeal for \$20,000. The appeal to the United States supreme court will come up in the regular term at Washington in October. The appeal to the court of appeals will come up here in December.

The state of Texas will contest both appeals. Prior to his departure for New York, Mr. Pierce sent

the following telegram to J. D. Johnson, now in Austin: "Please announce through the press that, although I have appealed from Judge Adams' decision, I will, as soon as I can arrange my business affairs in New York go to Texas to have the indictment against me and questions involved tested by the Texas courts."

"H. C. Pierce."

He also made the following statement to the press: "It is necessary for me to go at once to New York and look after a number of business matters that have been held in abeyance during my presence here and I am leaving tonight. I expect to return within a short time and then, accompanied by my attorneys, will go to Austin."

"This indictment against me is outrageous, and is the result of conspiracy. It was returned against me without being based upon the testimony of witnesses, and the charge it places against me is wholly wrong. There never was the slightest foundation for the charge of perjury or false swearing in

the affidavit which I made in Austin on May 31, 1900. My affidavit was truthful in every sense, and I would make it again, every day if necessary, for it was absolutely true and the facts will be demonstrated before the matter is finished."

Mass Meeting Called.
I have been requested by a number of our business men and others to call a mass meeting for next Monday evening at 8 o'clock in the opera house for the purpose of organizing a volunteer fire company. Friends, this is a common cause in which we are all interested for the protection of our homes and places of business.

Let every citizen be present, for presence counts.
Respectfully,
J. M. Robinson.

Dear Sirs—I have used a great many Chill remedies, but have found none equal to Hall's Chill Cure for Malaria. A few years past I had a severe attack of Chills and Fever and took many kinds of Chill cures, but they did no good and I had had to wear them out. They commenced on me last year the same way, but in a worse form. A friend recommended Hall's Chill Cure and I took it. It broke up the Chills and Fever and stopped them entirely. Whenever I hear of anyone having Chills or Malaria, I tell them Hall's Chill Cure will make them well if they will take it. I never can say enough for Hall's Chill Cure.
Yours truly,
Mrs. Frank J. Beckman.

RUNAWAY ACCIDENT.

Horse Took Fright at Raising of an Umbrella—Injuring two Ladies.

Yesterday afternoon about 5 o'clock Mrs. Tom Hall and her mother, Mrs. Fooring of Temple, Texas, were driving up North street, when they raised an umbrella which frightened the horse. The horse became unmanageable, and the ladies hoping to stop him, reigned him into a picket fence and both ladies were thrown on the fence. Mrs. Hall was bruised about the face and Mrs. Fooring was hurt in the breast and considerably bruised otherwise. They were both reported as resting well this morning.

San Jacinto Battle Ground.

Austin, Tex., May 20.—"With reference to the State Park, which is soon to be builded on the San Jacinto battlefield," said W. C. Ray, State Superintendent of Public Grounds, in a recent conversation with a News representative, "as I have before remarked, I see no reason why this may not be made one of the most beautiful parks in the South. The site possesses many natural advantages. A large number of plants, flowers, trees, magnolias, oleanders, sweet briar, roses, etc., are adapted to the soil and climate there, which with terraces, walks, drives, monuments and other like decorations, will conspire to produce a scene of unusual beauty and attractiveness. By a judicious expenditure of the \$25,000 recently appropriated for the purpose of establishing this park, a majority of these things, on a small scale, at least, may, I believe, be accomplished."

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by J. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in form of capsules (a teaspoonful), it acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. Cheney & Co., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

Hypnotized Himself.

South Bridge, Mass., May 20.—The condition of Andrew M. Stimpson, the middle aged student of hypnotism, who on his first experiment three weeks ago, hypnotized himself in some mysterious manner so that he has been unconscious ever since, took a turn for the worse today. His throat suddenly became paralyzed so that now not even liquid nourishment can be administered. He is sinking rapidly, the physicians say, and death is near.

For a cold or a cough take Kennedy's Laxative Cough Syrup. It is Better than any other cough remedy because its laxative principle assures a healthy, copious action of the bowels and at the same time it heals irritation of the throat, strengthens the bronchial tubes and allays inflammation of the mucous membrane. Contains Honey and Tar, pleasant to take. Children like it. Conforms to the National Pure Food and Drug Law. Sold by Stripling, Haselwood & Co. dw

Palestine U. C. V. Reunion.

Palestine, Texas, May 20.—The annual reunion of Confederate veterans and their friends will be held on June 12, and the affair promises to be the largest and most interesting ever held. The daughters and sons of the veterans will assist in the reunion, and many visitors from over East Texas are expected to be present, as the International and Great Northern railroad will put on low excursion rates.

The Palestine Concert band will furnish music for the occasion, and all camps of United Confederate Veterans in this part of the state will be invited to participate.

A fine basket dinner will be spread by the ladies of Palestine, and the reunion will be held at Strickland's park, where many amusements, including skating, dancing, boating, swimming, will be had for the entertainment of the visitors.

ALFONSO IS TWENTY-ONE.

Celebration of Heir's Birth Followed by Father's Birthday.

Madrid, May 16.—The popular festivities which have continued without cessation since the birth of an heir to the throne one week ago were given a fresh impetus today by the celebration of King Alfonso's twenty-first birthday. In view of the fact that Alfonso has been a full-fledged ruling monarch for the past three years, it is interesting to note that he has not only now reached the age of manhood according to the standard of America and the countries of Northern Europe.

There were great rejoicings in Madrid today, as well as in all other parts of the kingdom. The day was kept as a general holiday, public and private buildings were profusely decorated, and the streets and squares were filled with pleasure seekers. Many deputations bearing addresses of congratulation were received at the palace several times during the day. The king was obliged to himself on the balcony in response to the shouts of the appearance greeted with enthusiasm.

Glass in His Eye Six Years.

Houston, Tex., May 15.—Dr. Harry Bergman of Livingston, Texas, brought a boy to the city today to have an operation performed on his eye, to remove a piece of glass that was lodged in the ball six years ago. The boy, whose name is Jim Reynolds, was successfully operated on this afternoon by two local doctors, assisted by Dr. Bergman, and will return to his home tomorrow, free for the first time in six years, of an irritating pain that had become almost unbearable.

The doctors say that this case is the most remarkable that has ever come to their notice, and that the boy must have suffered intense misery from such an affliction.

No Need of Scratching.

Other afflictions may be more painful, but none more annoying than many forms of itching trouble. The quickest and most reliable remedy for itching disease of any character is Hunt's cure. One application relieves—one box guaranteed to cure.

Old Mission Burned.

El Paso, Texas, May 15.—The old Catholic mission at Yzleta, twelve miles from here, burned last night. The fire caught from candles burned before the altar.

The church was 350 years old, being built in the last half of the Sixteenth century, and was among the number constructed by the Spanish priests passing from the gulf of Mexico to Santo Barbara. It was one of the few which have been used continually until the present day.

After Many Years.

Conroe, Tex., May 15.—Sheriff Anderson of this county has just had arrested in Houston and brought to Conroe today one Stanley Green, a negro who stands charged by indictment with the murder of Ben Campbell, another negro, in this county in 1878. Green made his escape after the killing and has been at large ever since then, a period of nearly thirty years. All witnesses to the homicide are said to be still living.

What's the Use?

Aches, Pains, Burns, Cuts, Sprains, and all similar afflictions are always instantly relieved; often entirely cured by an application of that unequalled remedy, Hunt's Lightning Oil. Don't suffer. Don't delay. What's the use.

John Finley Sr. and his niece, Miss Kittie Coon, of Douglass are visiting Mr. Finley's sister, Mrs. J. H. Thomas.

Do Not Suffer.

No use suffering from Itching Piles when one box of Hunt's Cure is absolutely guaranteed to cure any case. One application will convince you of its merits.

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the bowels are in proper condition. Correct any constipation by giving small laxative doses of Ayer's Pills. All vegetable, sugar coated.

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of HAIR VIGOR, AGUE CURE, CHERRY PECTORAL.

Little Baby Dead.

Willie, the three months old baby boy of Mr. Willie Falkner who lives several miles north of the city, died yesterday. Mr. Falkner lost his wife only a few weeks ago and now in his double sorrow his great comfort must be that it's God's call and with his loved ones in His care his sorrow is lessened and made beautiful instead of dark and hard to bear.

His host of friends feel deeply for him and extend sweet sympathy in which The Sentinel wishes to be included.

Announcement.

We have this day installed a complete and up-to-date JEWELRY and OPTICAL department in connection with our drug business, and will in just a few days time have a complete stock of all kinds of clean, new JEWELRY in the very latest designs and patterns.

MR. T. P. SEAY, formerly of Jacksonville, Texas, has charge of this branch of business and we desire to say to the public now in the beginning that anything that he may offer you or anything he may say to you has our full and hearty endorsement. He is an active and practical jeweler of thirty years experience and a graduate doctor of optics, and can give you service in either of these lines that we absolutely guarantee.

We will very much appreciate your favors in this connection and kindly ask that if you contemplate the purchase of any article in the JEWELRY LINE that you bear with us a few days until our stock arrives, when we will be glad to name you a low price on any item you need. May 17, 1907.

The Tramp's Own Ritual.

Question—Who comes here?

Answer—A poor worthless candidate for charity who begs, to have and receive a part of the free lunch of this town set apart for regular customers, as many thousand tramps have done who have been here before me.

Q.—How do you expect to gain such privileges?

A.—By being a man too lazy to work, not ashamed to beg, and coming under the tongue of generally bad report.

Q.—From whence came you?

A.—From a town in Texas called "Booze."

Q.—Then you are a regular tramp, I perceive?

A.—I am so taken and arrested wherever I go.

Q.—How do you know you are a regular tramp?

A.—By being often arrested and tried and never acquitted, and expect to be arrested, tried and convicted again.

Q.—Where were you first prepared to be a tramp?

A.—In a bar-room adjoining my place of abode.

Q.—How were you then disposed of?

A.—I was kicked and cuffed around until divested of nearly all my clothes, having been previously deprived of all my money and diamonds.

Q.—How am I to know you are a tramp?

A.—By the size and laziness of my feet, by the size and color of my nose, and by signs, grips and words.

Q.—What are the words?

A.—Certain plausible tales that will best serve to induce the lady of the house to give up cakes and pies.

Q.—What are the signs?

A.—Dirty face and hands torn and dirty clothes, with a bad limp in either leg.

Q.—What is a grip?

A.—A tight hold on anything portable that can be turned into ready cash.

Q.—Will you give me a grip?

A.—No use, there is nothing of cash value about me.

Q.—How did you first gain admission to this town?

A.—By a long tramp at "low twelve," the time when all policemen are called from labor to refreshments.

Q.—How were you received?

A.—Roughly by a cop on the end of his night-stick.

Q.—What did he do with you?

A.—He put me in the cooler in due form.

Q.—What was next done with you?

A.—He conducted me around to the court house, and told me to stand erect and face the public judge.

Q.—What did the judge say to you?

A.—He told me to say my name, promise to obey the law, after which he ordered me to take a step to the left and follow the cop to some place out of town.—Exchange.

Wonderful Eczema Cure.

"Our little boy had eczema for five years," writes N. A. Adams, Henrietta, Pa. "Two of our home doctors said the case was hopeless, his lungs being affected. We then employed other doctors but no benefit resulted. By chance we read about Electric Bitters; bought a bottle and soon noticed improvement. We continued this medicine until several bottles were used, when our boy was completely cured." Best of all blood medicines and body building health tonics. Guaranteed at Strippling, Haselood & Co's. Drug store. 5c.

Proposed Amendment to the State Constitution Providing for the Creation of Improvement Districts in Certain Cities.
JOINT RESOLUTION amending Section 9, of Article 8, of the Constitution of the State of Texas, providing for the creation of improvement districts in cities of more than five thousand inhabitants, and charging the cost of certain improvements made therein against the abutting property.
SECTION 1. Be it Resolved by the Legislature of the State of Texas: That Section 9, Article 8, of the Constitution of the State of Texas, be so amended as to hereafter read as follows:
Sec. 9. The State tax on property, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of public free schools, shall never exceed thirty-five cents on the one hundred dollars valuation; and no county, city or town shall levy more than twenty-five cents for city or county purposes, and not exceeding fifteen cents for roads and bridges, and not exceeding fifteen cents to pay jurors, on the hundred dollars valuation, except for payment of debts incurred prior to the adoption of the amendment September 25, A. D. 1883, and for the erection of public buildings, streets, sewers, water works and other permanent improvements, not to exceed twenty-five cents on the one hundred dollars valuation, in any one year, and except as is in this Constitution otherwise provided; and the Legislature may also authorize an additional annual ad valorem tax to be levied and collected for the further maintenance of the public roads; provided, that a majority of the qualified property tax-paying voters of the county voting at an election to be held for that purpose shall vote such tax, not to exceed fifteen cents on the one hundred dollars valuation, of the property subject to taxation in such county. And the Legislature may pass local laws for the maintenance of the public roads and highways, without the local notice required for special or local laws.
 In addition to the foregoing, cities of more than five thousand inhabitants may lay out within their corporate limits, improvement districts in which they, by and with the consent of a majority of the taxpayers owning real estate therein, may build sidewalks and charge the cost thereof against the abutting property, and may build sewers and pave streets and charge one-third of the cost thereof against the abutting property on either side of the streets upon which such improvements are made in such district, and the amount charged against all such abutting property shall be deemed and held to be a tax against and a lien upon such abutting property, and the Legislature is required to enact laws prescribing the means for ascertaining the amount properly chargeable against each parcel of abutting property, and providing for the enforcement of its collection.
Sec. 2. The Governor is hereby directed to issue the necessary proclamation for submitting this amendment to the Constitution to the qualified voters of the State of Texas, on the first Tuesday in August, A. D. 1907, at which election all voters favoring this amendment shall have written or printed on their ballots: "For the amendment to Section 9 of Article 8 of the Constitution, permitting property owners in cities of more than five thousand inhabitants to create improvement districts, one-third of the cost of which to be charged against abutting property on either side of the street."
Sec. 3. The lateness in the session, the crowded condition of the calendar of both houses, and the importance of this proposed amendment, create an emergency and an imperative public necessity demanding that the constitutional rule, and Senate Rule No. 37, requiring bills to be read on three several days be suspended, and the same are hereby suspended.

Proposed Amendment to the State Constitution Fixing the Salary of Members of the Legislature.
AN ACT to amend Section 24 of Article III of the Constitution of the State of Texas, relating to the compensation of members of the Legislature.
Be it enacted by the Legislature of the State of Texas:
SECTION 1. That Section 24 of Article III of the Constitution of the State of Texas be amended so as to hereafter read as follows:
Section 24. The members of the Legislature shall receive from the Public Treasury such compensation for their services as may from time to time be provided by law, not to exceed one thousand dollars for each year in which a biennial session of the Legislature is held under the provisions of this Constitution, and five dollars for each day of any Special Session held during the subsequent year, and in addition thereto, they shall receive mileage in going to and returning from the State Capitol, not to exceed three cents per mile; the distance to be computed by the nearest railroad route, and the Comptroller shall prepare and preserve a table of distances for each county seat now or hereafter to be established, and by such table the mileage of each member shall be paid; no member shall be entitled to mileage for any extra session that may be held on any one day after the ad-

journalment of a Regular or Called Session.
Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the first Tuesday in August, 1907, at which election all voters favoring said proposed amendment, shall have written or printed on their ballots, the words: "For the amendment to Section 24 of Article III of the Constitution relating to the salary of the members of the Legislature."
Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the Constitution and laws of the State, and the sum of \$1000 or so much thereof as may be necessary is hereby appropriated out of the general revenue of the State not otherwise appropriated to pay the expenses of such publication and election.

Proposed Amendment to the State Constitution Authorizing the Establishment of a State Printing Plant.
JOINT RESOLUTION authorizing the submission to a vote of the people of the State of Texas of a proposed amendment of Section 21, Article XVI, of the Constitution of the State of Texas, relating to printing, publishing, stationery, paper and fuel, and making an appropriation therefor.
Be it Resolved by the Legislature of the State of Texas:
SECTION 1. That Section 21 of Article XVI of the Constitution of the State of Texas be so amended as to hereafter read as follows:
Section 21. All printing and publishing, and all stationery, paper and fuel for the various departments, and for all offices, whether created by this Constitution or by law, shall be done and supplied as may be provided by law, and for the accomplishment of these objects and purposes the Legislature may provide and establish all requisite means and agencies, invested with such powers as may be deemed adequate and advisable.
Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors of the State at an election to be held throughout the State on the first Tuesday in August, A. D. 1907, at which election all voters favoring said proposed amendment shall write or have printed on their ballots the words "For the amendment to Section 21 of Article XVI of the Constitution, relating to stationery, printing, paper and fuel."
Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the Constitution and existing laws of the State.
Sec. 4. That the sum of two thousand (\$2000) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated, to pay the expenses of such publication and election.

 (A true copy.) Secretary of State.
Proposed Amendment to the State Constitution Authorizing the Levy of a Road Tax.
JOINT RESOLUTION amending Section 9, of Article 8, of the Constitution of the State of Texas, by adding thereto a section to be known as Section 9a, increasing the amount of tax that may be voted for the purpose of improving public roads, and to allow counties or political subdivisions of counties by a majority vote of the qualified property tax paying voters of the county, or subdivision thereof, voting at all elections, to be held for that purpose, to adopt same.
Be it Resolved by the Legislature of the State of Texas:
SECTION 1. That Section 9 of Article 8 of the Constitution of the State of Texas be amended by adding thereto Section 9a, which shall read as follows:
Section 9a. A majority of the property tax paying voters in any county or one or more political subdivisions thereof, in this State, voting at an election held for that purpose may vote a tax for road and bridge purposes not to exceed 30 cents on the \$100 valuation of the property subject to taxation in such county or political subdivision of such county, or may issue bonds not to exceed 20 per cent of the assessed value of the real property in such district, for such road and bridge purposes, provided that such tax, or proceeds of such bonds, shall be expended in the territory in which it is voted, and no other, and this provision of the Constitution shall be self-enacting without the necessity of further legislation.
Sec. 2. The Governor of this State is hereby directed to issue the necessary proclamation submitting this amendment to the qualified voters of Texas at the next general election held in this State, or in case any previous election shall be had in the State for other purposes, then this proposed amendment shall be submitted to the qualified tax paying voters. And the sum of \$2000, or so much thereof as shall be necessary, is hereby appropriated out of the treasury of the State of Texas for the purposes of submitting this proposition to a vote of the people of the State of Texas.

Proposed Amendment to the State Constitution Creating the Office of Commissioner of Agriculture.
JOINT RESOLUTION proposing an amendment to Article four (4) of the Constitution of the State of Texas, by adding thereto a section to be known as Section 27, providing for a Department of Agriculture, with a bureau of labor.
Be it Resolved by the Legislature of the State of Texas:
SECTION 1. That Article four (4) of the Constitution of the State of Texas, be amended by adding thereto Section 27, when a majority of the qualified electors for members of the Legislature of Texas at an election for that purpose shall vote in favor of the amendment, shall read as follows:
Section 27. The Legislature shall provide for the office of Commissioner of Agriculture, who shall be either elected by the qualified voters of the State, or appointed by the Governor with the advice and consent of two-thirds of the Senate, as the Legislature may provide; whose term of office, duties and salary shall be prescribed by law; in which department there shall be established by the Legislature a bureau of labor, when required by the public interest.
Sec. 2. The Governor of this State is hereby directed to issue and have published the necessary proclamation for the submission of this resolution to the qualified voters for members of the Legislature of the State of Texas, as an amendment to the Constitution of Texas, to be voted upon on the first Tuesday in August, 1907. All persons favoring said amendments shall have written or printed on their ballots, as follows: "For the amendment to the Constitution, providing for a Department of Agriculture and a Bureau of Labor." And those opposed to said amendments shall have written or printed on their ballots as follows: "Against the amendment to the Constitution, providing for a Department of Agriculture and a Bureau of Labor." And the sum of (\$2000) two thousand dollars or so much thereof as may be necessary is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publications, proclamations and election.

Proposed Amendment to the State Constitution Providing for the Establishment of a Home for Confederate Widows.
JOINT RESOLUTION to amend Section 51 of Article 3 of the Constitution of the State of Texas, as amended in 1903, so as to authorize the grant of aid in the establishment and maintenance of a home for the disabled and dependent wives and widows of Confederate soldiers and sailors and such women as aided the Confederacy, and making an appropriation.
SECTION 1. Be it Resolved by the Legislature of the State of Texas: That Section 51 of Article 3 of the Constitution of the State of Texas, as amended in 1903, be so amended as to hereafter read as follows:
Article 3. Section 51. The Legislature shall have no power to make any grant or authorize the making of any grant of public money to any individual, association or individuals, municipal or other corporations whatsoever; provided, however, the Legislature may grant aid to indigent and disabled Confederate soldiers and sailors who came to Texas prior to January 1, 1889, and who are either over sixty years of age or whose disability is the proximate result of actual service in the Confederate army for a period of at least three months, their widows in indigent circumstances who have never remarried and who have been bona fide residents of the State of Texas since March 1, 1880, and who were married to such soldiers anterior to March 1, 1889; provided said aid shall not exceed eight dollars per month, and provided further, that no appropriations shall ever be made for the purpose herebefore specified in excess of five hundred thousand dollars for any one year. And also grant aid to the establishment and maintenance of a home for said soldiers' and sailors' wives and widows and women who aided in the Confederacy, under such regulations and limitations as may be provided by law; provided the grant to aid said home shall not exceed one hundred and fifty thousand dollars for any one year, and no inmate of said home shall be entitled to any other aid from the State; the Legislature may provide for husband and wife to remain together in the home; and provided further, that the provisions of this section shall not be construed to prevent the grant of aid in case of public calamity.
Sec. 2. The Governor of the State is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of the State of Texas on the first Tuesday in August, 1907.
 The sum of \$5000, or so much thereof as may be necessary, is hereby appropriated to pay the expenses of carrying out the provisions of this resolution.

LAST NIGHT'S FIRE.
Two Residences on Fredonia Street Burned—Part of Contents Saved.
 From Monday's Daily:
 Last night at 8 o'clock the alarm of fire was given which proved to be the residence of Will and Joe Guthrie on Fredonia street, near the business portion of the city.
 There was \$1000 insurance on their furniture which will cover the loss as a great deal of it was saved. The building was owned by Mrs. Downs of Houston. It is estimated to be worth about \$2000 and was insured for \$1500.
 The other building was owned by the Catholic church valued at about \$1500 and insured for \$1000. This building was occupied by Mr. F. R. Penman, who valued his household effects at about \$1200 and only had \$500 insurance on same.
 The residences of Mrs. Pressler and Mr. August Rusche came very near being destroyed, but owing to the wind not blowing and the heroic work of the citizens, they were saved, but they were badly scorched and the furniture that was moved out of them and considerably damaged.
 The origin of the fire is not known. The Guthries were not at home, and left a lamp burning, which was taken from the burning house still burning and in perfect condition, therefore the fire could not have been caused by the lamp.
Beware of "Digestives."
 The ordinary "dyspepsia" tablet has ruined more stomachs than all other causes combined. Giving temporary relief, it leaves the digestive system weaker than ever, and the tablets must be continued with increasing frequency.
 Mi-o-na excites the secretion of gastric juice, and when the food is swallowed, the stomach is ready to digest it.
 Mi-o-na stomach tablets are never sold in bulk, but in a neat box convenient for the purse or vest pocket, at 50c.
 A guarantee is given by Stripling, Haselwood & Co. with every box of Mi-o-na, that the money will be refunded if the remedy fails to give satisfaction. This shows their faith in the merits of the remedy.

MONK GIBSON CASE.
It Was Continued at Victoria Because of Absent Witnesses.
 Victoria, Texas, May, 17.—Owing to the absence of Irene Powell, one of the witnesses for the state in the case of Monk Gibson, charged with the murder of Mildred Lee Conditt in Jackson county, the case was continued here yesterday afternoon.
 Monk will be tried in Cuero about the third week in June for the murder of Mrs. Conditt. Irene Powell is sick and it was impossible to secure her presence here, and as the other case had been transferred to DeWitt county trial will proceed there in June.
 Mr. J. M. Cole who lives near here made us a pleasant call this morning. Mr. Cole enrolled in the confederate army on the first day of August, 1861, was captured July 17, 1863, and was a prisoner 19 months, at Indianapolis, Ind., made his escape at Atkins Landing on the Chesapeake, walked from there to Washington, Ga., swimming all the streams as he came to them, was paroled there and walked to Montgomery, Ala., then was given transportation down the Alabama river to Mobile and across to New Orleans, and from there up the Washita river, to Columbia, La., within twenty miles of home, reaching home June 5th and was paroled, which made three years and ten months since he had seen home. 110 men left in his company and only twelve succeeded in returning home.
 Miss Tommie Murph returned from Sour Lake yesterday afternoon. She has been there visiting her sister, Mrs. Terry, for several weeks.

Resolutions of Respect.
 Whereas it has pleased our Heavenly Father to call to the home above the spirit of our dear sister, Mrs. Lettie Huff, and realizing that the Woman's Home Mission Society has sustained a great loss,
 Resolved, Her co-laborers will sadly miss her gentle presence, her wise counsel, and her zeal in the work so dear to her loving heart. Her's was a faith-filled life, a beautiful christian character, as she loved much, she was greatly beloved and many hearts, bowing submissively to God's will, are full of sorrow at her going away.

SKIN DISEASES

HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

Fitze Dots.

May 20, 1907.—Crops have come out considerably the past few days.

Farmers have been rushing in their crops, and in a few more days of dry weather they will kill the grass and release themselves from the blues.

We have several large orchards at Fitze, but our fruit crop is a failure. Our orchard men are taking the same good care of the trees as if they had thousands of bushels of fruit on them.

R. H. Lee is moving his saw mill back to Fitze and will have it in operation in a few days. Mr. Lee has purchased the Walt Phillips tract of land joining his, at Fitze. This land is heavily timbered is why he bought it. Mr. Phillips is still with us.

Miss Ada Oxsher is teaching school at Brilytown. We are having a good school and it will be a two months term.

Jess Dent is amused on account of having the cleanest crop in our settlement. This, however, is not a rare thing with Mr. Dent. He don't look for any future trouble with his crop.

Mr. Isom Green of Garrison was at Fitze last Saturday on business.

Mr. Frank Smith formerly of Center, visited George Lawrence last Sunday.

Health of the community is very.

Mr. and Mrs. Benton Wilson and children are visiting Mrs. Wilson's parents in Melrose. Mrs. Wilson's mother, Mrs. Barrett, is sick.

Miss Clara Cronkrite went to Lufkin today to attend the commencement exercises of the Lufkin school.

AVOID ALUM

AN UNSEEN DANGER IN FOOD

TO GUARD SHIPS against the unseen dangers at sea, the United States Government maintains lighthouses.

To guard your home against the unseen dangers of food products, the Government has enacted a pure food law. The law compels the manufacturers of baking powder to print the ingredients on the label of each can.

The Government has made the label your protection—so that you can avoid alum—read it carefully, if it does not say pure cream of tartar hand it back and

Say plainly—

ROYAL BAKING POWDER

ROYAL is a pure cream of tartar baking powder—a pure product of grapes—aids the digestion—adds to the healthfulness of food.

The Summer Normal.

The Summer Normal will open in Nacogdoches June 4. This normal was decided upon by the teachers of the county last January. While there was some division about the time to hold the normal, everyone seemed anxious that we hold a normal in this county.

Now, teachers, you voted this normal and we worked very hard to get it recognized by the State superintendent. You are in honor bound to stick to us in this matter. There is a great responsibility on the shoulders of the teachers who are to teach in this normal. Let's stick to them.

No excuses, please. We want the teachers of this county to attend the normal.

What preparation, teachers, are you making to promote the educational interests of this county? Are educational conditions what you think they should be? Why, my dear teacher, what are you doing to better them? Are you a better teacher than you were five years ago? Are you more progressive in your ideas? Are you stronger, educationally, than you were last year? Are you climbing higher in the scale of efficiency, or are you sliding downward to inefficiency and failure? Are you helping your fellow teachers to higher ideals?

Answer me these questions from honest hearts—look to the interest of the 8000 children of this county—and we will have one hundred teachers in this county shoulder to shoulder striving to place the educational affairs of the county on a higher plane.

Trustees in selecting a teacher should give preference to the teacher that attends the county institutes and normals. The teachers must raise the plane of education and get up on that plane themselves. The teacher's efficiency can be measured largely by his attendance upon the institutes and normals.

Teachers, and teacher students, I want to see you at the normal.
