BIG COTTON PATCH.

Forty Thousand Acres for That Purpose in Atascosa.

A recent statement comes from San Antonio that T. H. Zanderson of San Antonio and Jourdan Campbell of Campbelltown have purchased from Alexander E. Orr of New York 40,000 acres of land in Atascosa county. The price was \$250,000. The land is only a short distance southwest of San Antonio. It is understood that Messrs. Zanderson and Campbell purchased the land with view of disposing of it to a large syndicate of English capitalists who desire to raise cotton for the use of their own mills in England. A representative of that syndicate will be in San Antonio in a short time to go over the land. If the deal is consummated the syndicate will put the entire 40,000 in cotton.

Within the last few years that section of the state has been rapidly coming to the

front as a cotton producing section, and to get land in tracts of 40,000 acres which is suitable for raising cotton is very difficult.

Returned From the Asylum.

The many friends of Mr. J. F. Franks, who was declared insane a few months ago and sent to the North Texas hospital for the insane at Terrell, will be glad to learn that he has returned home entirely cured. Mr. Franks was peculiarly afflicted, and at times before he was declared insane his mind was as rational as it ever was. Then again he would have spells during which he labored under the hallucination that some one was trying to kill him, and often he would become violent. Mr. Franks states that he is confident that he has been cured.

Hon. S. M. King left today for Fort Worth to attend the meeting of the Texas Five Million club, and will also visit Austin and Marlin before returning home.

NEW COURT HOUSE.

Commissioners Court Orders Election on Bond Issue.

The tax payers of Nacogdoches county are going to be given an opportunity to vote on the question of issuing bonds for a new court house and jail for Nacogdoches county.

By unanimous vote the commissioners today passed an order for an election to be held August 6, next, to determine whether or not \$75,000 in bonds shall be issued to build a new court house and jail.

The order provides that the bonds shall bear 4 per cent interest per annum, running 40 years, and the county shall have the option of taking up any or all of said bonds after the expiration of ten years.

Another condition or provision which is included in the order is, the court house is to be erected in the center of the public square in the city of Nacogdoches.

The idea is, if the question carries, to expend about \$60,000 in a new court house and \$15,000 in a jail.

Verily the spirit of progress is growing in old Nacogdoches county, and everybody seems to have caught the fever. May it never cease to grow and spread.

Of Interest to Teachers.

County Superintendent R. W. Tillery has received the following letter, which is self explanatory:

To County Superintendents. Austin, Tex., June 1.—The law provides that examinations for teachers' certificates shall be held "if necessary" by the county board of examiners "on the first Friday and Saturday following of the months of May, July, August, September and December of each year."

The next county examination will be on July 5 and 6, the examination in the first series of summer normal institutes will be on July 10, 11 and 12, and in the second series of summer normal institutes on July 31, August 1 and 2. There will be county examinations on September 4 and 7, and on December 5, 6 and 7. There will be no county examination in the month of August, for the reason that the other examinations render a county examination during said month unnecessary.

You will please give publicity through your county press to the date of the examinations and to the fact that there will be no August county examination.

Issued by authority of Section 27, Chapter 124, Acts of Twenty-ninth Legislature.

Respectfully,
R. B. Cousins,
State Superintendent.

NACOGDOCHES UNIVERSITY.

A Nacogdoches Lady Has a Catalogue Printed in 1858.

Mrs. K. P. Branch of this city has sent to The Sentinel office a copy of the catalogue of the Nacogdoches University, issued in 1858. The catalogue was printed at the office of the Nacogdoches Chronicle.

The little pamphlet is somewhat torn and mutilated and is considerably dimmed and discolored with the age of 49 years. On the fly leaf in front of the title page is this quotation from the one hundred and forty-fourth Psalm: "That our sons may be as plants grown up in their youth—that our daughters may be as corner stones polished after the similitude of a palace."

C. M. L. Smith, father of Mrs. Branch and Dr. W. I. M. Smith of this city, was "principal" of the University, and Mrs. Mary P. Smith was assistant. Miss L. White was instructress in music and Erench, and Miss S. E. Jones was instructress in drawing and painting.

The catalogue bears the names of 103 students, 60 of whom were males and 43 females. In the list of the male students appear the names of John Burrus, Giles Crain, Peyton F. Edwards, Taylor, Charles and Henry Hoya, Junius B. Harris, Joseph E. Mayfield, Frederick Muller, Jno. B. Nelson, William B. Ochiltree, Richard D. and John G. Orton, John Rusk, August Ruscha, Moses Summers, Thomas L. Simpson, Lawrence, William, Adolphus and Eugene Taylor, Edward, John and Richard Whitaker, and others whose names are familiar to the old citizens.

In the course of study is listed Webster's Elementary speller, McGuffey's first, second, third, fourth and fifth reader, Smith's geography, grammar and arithmetic, and Bullion's Latin grammar and Greek.

Drawing, painting, French and music on the piano and guitar are listed as optional course of study.

Under the head of remarks appears this significant announcement:

"The location of the institution affords many advantages. It is central and easy of access. The remarkable exemption from sickness enjoyed by the citizens of Nacogdoches proves that its reputation in this respect is well founded."

Another statement contained in the catalogue is, "Tuition bills due at the expiration of term." This is a rule that is not tolerated by educational institutions in this day and time.

Miss Hattie King is visiting Miss Clyde Fuller in Atascosa.

Money in Cabbage.

Mr. J. M. Avery was in town today with a load of fine cabbage for which he found ready sale. Mr. Avery has already sold 7,000 pounds of cabbage off of one acre of land, for which he received \$1.50 per hundred pounds, and he still has more cabbage for sale.

The cabbage is of the Wakefield variety, and the heads are extremely large, weighing from 7 to 10 pounds. The Sentinel was the recipient of two heads of Mr. Avery's cabbage which weighed 9 and 10 pounds respectively. In this instance two heads were better than one, since the manager took one and the editor the other.

Married at Mahl.

Editor Sentinel. Mahl, Texas, June 10.—On the morning of June 9, three souls were made happy by the marriage of Mr. Edward Berry and Miss Etta McDaniel. Of course the bride and groom were very happy, and the parson smiled deliciously when he received the fee.

After all had extended congratulations, the guests dispersed to spend the Lord's day in various ways socially in the community, there being no preaching or song service at our church.

Wishing The Sentinel success, and the old town of Nacogdoches prosperity.

A NEW disease is epidemic in Nacogdoches. It is called *civilitis*, and is quite prevalent among the ladies.

Give all the help you can to the Civic League, and you will see the cleanest city in Texas right here in Nacogdoches.

THE Nacogdoches Business League will be represented at the meeting of commercial secretaries of Louisiana and Texas, which meets in Beaumont next Friday and Saturday. It is the determination of present officers of the League to keep Nacogdoches to the front from now on.

ACCORDING to the Tribune, they are having extremely long nights in Lufkin now. The Tribune says: "City Marshal Nerren has been spending from eighteen to twenty hours on the streets at night, but he cannot keep up at that kind of work long." We should wot not.

THE Austin Statesman is anxious that the newspapers understand that no law regulating the length of bed sheets, bed quilts or blankets was passed by the 30th Legislature. Some of the boys had asserted that such a law was passed. Perhaps they were thinking of the blanket primary law.

THE Houston Post has secured the service of Sam H. Dixon, state inspector of orchards and nurseries, as editor of the agricultural and horticultural departments of the Semi-Weekly Post. Mr. Dixon is known far and wide as an authority on horticulture and as a writer, and there are few men closer to the farmers of Texas or more thorough in knowledge of the farmer's needs or better posted on advanced cultural methods. Mr. Dixon's new work will be watched with a great deal of interest throughout the state, especially by the newspaper fraternity.

THE Houston Post has had much to say about the size of the Houston strawberry. The palm, however, will have to go to Edom, unless the Post can eclipse this story from the Tyler Times: "There have been many strawberry stories this season and the truth of the following will be doubted. However, a Times correspondent can substantiate the fact with the endorsement of some of the best citizens of Edom. The writer visited a strawberry patch at Edom last week while on the trade excursion and found a lot of the finest berries ever grown in East Texas. One berry found measured six and one half inches in circumference and two and a quarter inches in diameter. Any one doubting this statement may have it verified by writing Mr. Lawrence, postmaster at Edom."

THE SENTINEL WAS MISLED.

The Sentinel a few days ago stated that "the Higgins Oil company is pulling up at Oil City, and it is their purpose to do no more drilling at this time." This statement was furnished The Sentinel by a gentleman who has considerable land interests at Oil City, and he says he received his information from what he considered a reliable source. But it was an error. The Higgins people are not pulling up at Oil City. It is true that the hole that was drilled has been abandoned, but the rig has only been moved to another part of the field and preparation is being made to sink another well. The well drilled is flowing a strong stream of water, and it is also emitting considerable gas. But in drilling the well the drillers encountered several stratum of oil, which were shut off by the casing as they were encountered. It is now the intention of the Higgins people to drill a number of shallow wells and utilize all oil that may be encountered, which they are convinced is there in paying quantity. The field at Oil City will continue to be developed.

THE Beaumont Journal calls attention to a condition that exists in every city that has inaugurated a cleaning up campaign, as follows: "In prosecuting its sanitary campaign the city is to be commended, but it requires nerve for the sanitary officers to demand that residents clean up their premises, cut weeds and screen cisterns when ditches in front of their homes are filled with stagnant water, add weeds permitted to grow luxuriantly on vacant lots on which pools of putrid water send up veritable clouds of mosquitoes daily." This is an excuse with which the Civic League will no doubt be confronted in its work in Nacogdoches but the members should not be discouraged. The league has assurance of the support and assistance of the city officials in its work of sanitation, and that means that every portion of the city will be cleaned up and kept clean.

ALREADY they have begun to talk about us. The Tyler Times says: "And now Nacogdoches has the Civic League fever, a rousing big mass meeting was recently held and plans were formulated for a great civic movement. The 'tobacco city' is to be congratulated for her enterprise. The Sentinel of that place says: 'The ladies have decreed and the men agreed that Nacogdoches must be cleaned up.'"

THE anti pass law has invaded Kansas. It seems that the cowboys are according to the following from the Bena, Kans. Telephone: "According to the terms and conditions of the pass we are privileged to walk on the center path or on the ties outside the rails. We are further privileged to take with us not only our wife, but our devil, our devils and the office cat also. Frequent

stopovers are allowed and the amount of baggage permitted to be taken is limited only by our enduring qualities and our physical possibilities. During the first year of this new arrangement the ties will be left as they are, but next year, let us hope, they will be planked or placed a little further apart, as they are too close together to accommodate the strides of the average pedestrian editor."

A TRUE STORY.

The following has been going the rounds of the press for some time, but it was originally produced as a true story and is worthy of reproduction. The story runs this way:

"Recently a church congregation in a little Kansas town built a new church. To pay for it they were obliged to call on the merchants of the city for donations. The merchants responded liberally and \$300 was raised from this source. The last firm to subscribe was Wilson & Constantine, the jewelers. 'We will give you \$20 if you will let us add something to the list,' they said. The permission was accorded them, and they wrote at the foot of the list:

Wilson & Constantine, \$20.00
Sears, Roebuck & Co., 00.00
Montgomery, Ward & Co., 00.00

The church people saw the point when the minister read from the pulpit the list of donors to the building fund, and since the dedication of the church there have been no mail orders sent out from that town."

THE editor of The Sentinel spent three days in Galveston last week and never saw or heard of Mills Crowley. Such is fame.—Nacogdoches Sentinel.

Alas, and such is fame, indeed. The Senior editor of the Advocate spent nearly three years in Galveston and became personally acquainted with almost every citizen of local prominence, and during all that time he never saw or heard of Mills Crowley. Who is he and where does he live?—Center Advocate.

And alas, again. The editor of The Sentinel tried to say Miles Crowley, but the compositor would not let him. Miles Crowley at one time represented Galveston county in the legislature; he represented the Galveston district in the State Senate, and he also served one term in Congress. He is now the county attorney of Galveston county, and yet with all this prominence to his credit he never once butted into the editorial gang.

REFORM should begin at home. And as yet we have noticed no effort of the president to cure the Washington baseball team's tendency to molly-coddleness.—Galveston Tribune

Ah, thank you. That is also what the president's dog

SAID the big fish to the little one: "You ought to have seen that fellow; he was at least ten feet long and must have weighed five hundred pounds if he weighed an ounce; but the line broke and I got away from him."

Value of Southern Crops.

The strength of the Southern agricultural situation is illustrated in a comparison of the value of crops per acre as given by the census of 1900. Though the value of agricultural products has very largely increased since then, the relative valuation per acre about the same, and these official figures illustrate the possibilities of the South as compared with other sections. Taking the entire country, the general average value per acre for different crops was as follows:

Cotton \$15
Tobacco 51
Louisiana sugar 52
Rice 22
Peanuts 14
Wheat and oats 7
Corn, hay and forage 8
Barley and flaxseed 9
Irish potatoes 33
Sweet potatoes 36

These figures show that of Southern crops, such as sugar, rice, tobacco and sweet potatoes, the average value per acre was very far in excess of the average of wheat, oats, corn and hay, which are the staple crops of other sections. Against \$7 as the average for wheat, the South's cotton crop averaged \$15 per acre. If the question be raised that \$7 per acre for wheat and \$8 for corn are less than the average in the Central West wheat and corn-growing regions, where these are the staple crops, it may be said in reply that \$15 per acre is far less

than the average of cotton in the more fertile and better-cultivated cotton lands of the south.—Manufacturers' Record.

WHAT say the Tyler Courier, the Palestine Herald, the Nacogdoches Sentinel, the Center News, the Marshall Sun, the Lufkin News and the Livingston Enterprise about that boast of the Rusk Press-Journal that Cherokee is the county that put East Texas on the map? It is a pretty big boost for Cherokee, whose fame for fruit culture and iron deposits is so broad that the claim of the Press-Journal may pass unchallenged.—Austin Statesman.

So far as The Sentinel is concerned it would not say one word that would interfere with the Press-Journal's delusion. Nacogdoches was on the map before Texas was a

State, and of late years Nacogdoches has been mentioned by every tongue in every clime. But Cherokee county is contributing much to the fame of East Texas.

Every Town Has Them.

There are people in Garrison who will let their spite and venom carry them to the point of opposing measures that would redound to the good of the town—and they know it—just because some one proposes them that they do not like personally. Such lobsters should be relegated to the rear and dumped in with other worthless rubbish of the town. No town needs such trash and the sooner they get shed of them the better for the town.—Garrison Gleaner.

What to do in Dyspepsia

Dieting has become a great fad in America, and just as years ago, we as a nation, over ate, so now we are under eating.

It is not, however, the fact that you may eat too much that hurts you, but that you don't digest what you eat. And if that results in dyspepsia you will not cure the trouble by cutting down your food supply.

FATAL WIND STORM.

Little Girl of J. W. Avery Was Instantly Killed.

From Thursday's Daily: A severe wind storm passed over the Shady Grove community, about nine miles north east of Nacogdoches, yesterday afternoon, and the little 5-year-old girl of Mr. and Mrs. J. W. Avery was killed.

It is reported the little girl was out in the field with other members of the family when the storm came up, and a dead tree was blown down on the child, killing her instantly.

It is also reported that a tree was blown down on the house of a colored man residing in the same community, but no one was hurt.

The wind came from the Northwest and was accompanied by considerable rain.

Where Water is Bad.

It should not be drunk unless proper precautions are taken. Many diseases arise from drinking impure water, but in face of warning, people continue to absorb the dangerous fluid.

FAIR TOBACCO CROP.

Government Agent Says Rains Will Not Prevent Good Output.

The Houston Chronicle of Thursday contained this bit of interesting information:

"That there will be a fairly good tobacco crop despite the rains which have been prevalent in East Texas where the weed is grown, is the belief of Walter N. Hinson, the United States government agent in charge of tobacco investigation and culture in Texas.

"Mr. Hinson has been in close touch with the tobacco situation in Texas for some time. Since the bad weather in East Texas he has made a trip through the tobacco region and it is his belief that the tobacco growers will still raise a good crop, although it may not be as large as that grown last year.

AND your uncle Henri Watterson belongs to the ginger cake - and persimmon beer class of politicians.

THE Portland husband whose fourth wife threw him down stairs made the mistake of not living in a one-story house.

By way of comparison, the Galveston Tribune calls attention to the fact that in 1858-59 the American cotton crop was 3,851,481 bales, while in 1906-07 it was 13,400,000 bales. Fifty years from now the comparison will be still more divergent.

If the packers want to raise the price of beef, why let 'em. But in the mean time let the farmers raise the beef.

Cotton is climbing up. A Houston buyer paid 14 7-8 cents, or \$83.30 a bale for a lot of several bales in Galveston a few days ago. Let her soar.

It is about time for the appointment of a board of arbitration to settle the tax controversy between the Houston Post and the Austin Statesman.

THE Waters-Pierce Oil company has received a blow by the Texas officials this time from which it will not soon recover. The placing of the company's affairs in Tex-

as in the hands of a receiver was the final blow that killed father.

It is a settled fact now that when the new water works system is completed, the Nacogdoches fire department will be ready to turn on the hose.

It has developed that Mr. Eckhardt, who was appointed receiver for the Waters Pierce Oil Company, is a close personal friend of Judge Brooks who appointed him. It is very nice, sometimes, to have a good friend in a position to favor you.

THERE is no better index to the commercial importance of a city than its postoffice receipts. The postoffice department has just sent out a list of 184 postoffices in Texas

in which changes have been made in the salaries of the postmasters. And of this number only two had their salaries decreased. All others are increased from \$100 to \$300 per annum, the salary of Postmaster Cooper of Nacogdoches having been raised from \$2,200 to \$2,300. Another fact worthy of note is, there are only 20 post-offices in Texas whose postmasters, receive a higher salary than does the postmaster at Nacogdoches.

A CLERGYMAN declares that "the scale of wages in our Christian churches is a disgrace to our civilization." Why does he not set about organizing a union?—Galveston Tribune.

That city is far behind her sister cities which has not a pastor's union.

WARMING ARBUCKLES SLIGHTLY

MAKES THE GRINDING EASY

If you want to drink real coffee, buy a sealed package of Arbuckles' ARIOSA and grind it in your own kitchen as you want to use it. Roasted coffee loses its strength and flavor if exposed to the air, and even its identity as coffee after grinding. Loose coffee sold out of a bag, bin or tin is usually dusty and soiled by handling. Don't take it!

Complies with all requirements of the National Pure Food Law, Guarantee No. 2047, Filed at Washington.

Under New Management.

Mr. G. L. Richards, who has been in charge of the National Packing Company as manager, since the business was established here several months ago, left this afternoon for Corsicana to accept the management of the company's branch house in that city.

Mr. Richards has made many friends in Nacogdoches and throughout this trade territory who regret his departure.

He is succeeded here by Mr. Ira A. Gaston, who has been working under Mr. Richards for several months, and Mr. W. I. Baker takes Mr. Gaston's place in the office.

Mr. Gaston has been accorded a deserved promotion, and he could not have selected a better assistant than Will Baker.

A Happy Mother

will see that her baby is properly cared for—to do this a good purgative is necessary. Many babies suffer from worms and their mothers don't know it—if your baby is feverish and doesn't sleep at nights, it is troubled with worms. White's Cream Vermifuge will clean out these worms in a mild pleasant way. Once tried always used. Give it a trial. Price 25 cents. Sold by Kleas & Mast.

Something New

Late Invention

\$5.00 Steel Grist Mill direct from the manufacturer to the consumer for only \$3.50.

Easy to operate as a coffee mill. Grinds half bushel good meal or 2 bushels chops per hour. Saves time and toil.

Also Solid Through and Through Silver Tableware.

Guaranteed by the manufacturers for 30 years. As cheap as Rogers' plated ware bought from dealers which is never guaranteed by the manufacturer for any length of time.

If interested drop me a card and the goods will be shown you at your home.

Buy Hair at Auction?

At any rate, you seem to be getting rid of it on auction-sale principles: "going, going, g-o-n-e!" Stop the auction with Ayer's Hair Vigor. It certainly checks falling hair; no mistake about this. It acts as a regular medicine; makes the scalp healthy. Then you must have healthy hair, for it's nature's way.

Blow at Cushing.

There was a considerable storm in Cushing Monday night accompanied by a heavy rain and some hail. The wind blew the stand at the ball ground down, the shaving pipe at the Orr-Neese Lumber Co's planer was torn down and some damage done to the iron roof in front of the brick block.—Cushing Enterprise.

No Others.

It is a class to itself. It has no rivals. It cures where others merely relieve. For aches, pains, stiff joints, cuts, burns, bites, etc., it is the quickest and surest remedy ever devised we mean Hunt's Lightening Oil.

Cures Old Sores.

Westmoreland, Kans., May 5, 1902: Ballard Snow Liniment Co., your Snow Liniment cured an old sore on the side of my chin that was supposed to be a cancer. The sore was stubborn and would not yield to treatment, until I tried Snow Liniment, which did the work in short order. My sister, Mrs. Sophia J. Carson, Allensville, Mifflin Co., Pa., has a sore and mistrusts that it is a cancer. Send her a 50c bottle. Sold by Kleas & Mast. w

COMFORTING WORDS

Many a Nacogdoches Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Nacogdoches readers.

W. D. Price, merchant, of Lufkin Ave., Lufkin, Texas, says: "For the past two or three years I have been troubled considerably off and on with a dull aching in my back, caused, I believe, by a cold or strain. I tried several remedies, but without effect. Hearing of Doan's Kidney Pills I procured a box. Finding great relief after using the first box I purchased a second and since finishing this I have felt no return of the symptoms and have no hesitation in recommending a remedy like Doan's Kidney Pills. They act just as represented."

Plenty more proof like this from Nacogdoches people. Call at Kleas & Mast's drug store and ask what customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's,—and take no other.

Misses Evie Coleman, Douglass Phillips and Lummie McLendon went to Nacogdoches Monday to enter the Summer Normal School which is being taught at that place.—Cushing Enterprise.

TRADE CHECK IS GOOD.
Court of Criminal Appeals Declares Law Unconstitutional.

The Court of Criminal Appeals sitting at Austin handed down an opinion last Wednesday that is of great importance to East Texas sawmill men. The opinion was rendered by Presiding Judge Davidson and it reversed and remanded the case of Ed Jordan, appellant, against the state of Texas, appeal from Palo Pinto county, in which it held to be constitutional the act passed by the Twenty-ninth legislature which makes unlawful for any person, firm, or corporation to issue or write any ticket, check or writing obligatory to any servant or employe for labor performed, redeemable or payable in goods or merchandise. The appellant was convicted of violating this law. He was the agent of the Strawn Coal and Mining company, located in Palo Pinto county, and the statement of facts shows that he sold on behalf of said company a piece of metal having inscribed on one side the following: "Good for \$1 in merchandise, on the reverse side, Strawn Coal Mining company, Strawn, Texas." This piece of metal was redeemable at said company's store by the person to whom it was originally sold or to any person or any holder into whose hand it might subsequently come. It appears the company sold these checks only to persons applying for them; that no coercion of any kind was used by the company or any of its agents to induce its employes to purchase redemption pieces.

Several reasons were urged why the pleadings do not show any offense, and that the law under which the pleading is drawn is unconstitutional, in that it violates article 1, section 19 of the state constitution, besides two clauses of the federal constitution, and that it interferes with the right of free contract between citizens of this state in relation to their private matters. This contention is sustained by the court of criminal appeals.

Verdict for Dr. Pierce
AGAINST THE Ladies' Home Journal.

Sending truth after a lie. It is an old maxim that "a lie will travel seven leagues while truth is getting its boots on" and no doubt hundreds of thousands of good people read the unwarranted and malicious attack upon Dr. R. W. Pierce and his "Favorite Prescription" published in the May (1904) number of the Ladies' Home Journal, with its great black display headings, who never saw the humble, groveling retraction, with its inconspicuous heading, published two months later. It was boldly charged in the standard and libelous article that Dr. Pierce's "Favorite Prescription," for the cure of woman's weaknesses and ailments, contained alcohol and other harmful ingredients. Dr. Pierce promptly brought suit against the publishers of the Ladies' Home Journal, for \$200,000.00 damages. Dr. Pierce alleged that Mr. Bok, the editor, maliciously published the article containing such false and defamatory charges with the intent of injuring his name and character, and that no alcohol, or other injurious or habit-forming drug, or other were contained in his "Favorite Prescription"; that said medicine is made from native medicinal roots containing no harmful ingredients whatsoever, and that Mr. Bok's malicious statements were wholly and absolutely false. The retraction printed by said Journal, they were forced to acknowledge that they had obtained analyses of "Favorite Prescription" from eminent chemists, all of whom certified that it did not contain alcohol or any of the alleged harmful drugs. These facts were also proven in the trial of the action in the Supreme Court. But the business of Dr. Pierce was greatly injured by the publication of the libelous article with its great display headings, while hundreds of thousands who read the wicked and defamatory article never saw the humble groveling retraction, set in small type and made as inconspicuous as possible. The matter was, however, brought before a jury in the Supreme Court of New York state which promptly rendered a verdict in the Doctor's favor. Thus his traducers came to grief and their base slanders were refuted.

nal appeals. In this connection Judge Davidson says: "We are of opinion that these contentions are correct. The statute, as framed, is certainly violative of the right of the laborer to make contracts with his employer or to sell his labor for any consideration satisfactory to himself, or for the payment of his labor in any commodity suitable to himself. If this law can stand at all, it must be under the broad provisions of what is commonly understood and nominated police regulation or police power of the state."

The court, however, goes further and says that if the contracting parties prefer to pay off and receive in pay for labor any goods or merchandise, or any commodity that is suitable to the contracting parties, it would be beyond the police power to prevent such contract. "We are dealing," continued Judge Davidson, "only with the law as enacted; nor are we alluding to or undertaking to discuss any law that was not intended for the benefit of the weaker and against the strong, or any legislation to prevent coercion on the part of either of the contracting parties."

Continuing, the court says: "Viewing the matter as we do, and in the light of the authorities, the principle of constitutional provisions of equal rights and freedom of contract, we can not agree that this act of the legislature is constitutional; that the legislature has transgressed the rights of the people of this country in their private employments to make their own contracts and receive any pay for their labor or in discharge of those contracts such property as they deem proper, whether it be goods or merchandise, stock, lands or houses or money. Of course, this statute only relates to private and not public employment, and we are not discussing the questions of fraud and trespasses, for they do not come within the provisions of this law. Force and fraud and trespass and intimidation or compulsion on the part of employer against employe are not within the contemplation of the terms of this statute."

Death of Mrs. W. F. Davis.

From Friday's Daily: Rev. J. W. Mills received a phone message from Lufkin yesterday afternoon announcing the death of Mrs. W. F. Davis, wife of Rev. Ferd Davis, pastor of the Methodist church at Lufkin, which occurred at their home yesterday about noon, after a brief illness of typhoid fever. Mr. Mills went to Lufkin on the early train this morning to assist in conducting the funeral, which will take place at Tyler today. The deceased and her bereaved husband have many friends in Nacogdoches who are deeply grieved to learn of this good woman's death.

Miss Janie Wilson, Miss Verdian Barham and Miss Lorena Middlebrook have returned from Austin where they have been attending the State University.

TYLER GETS COLLEGE.

Proposes to Give \$50,000 and Twenty Acres of Land.

The Texas State Baptist Education Commission met in Waco June 6, when Dr. J. L. Ward, president of Decatur Baptist College, was elected corresponding secretary. Dr. Ward is president of Decatur Baptist College. He will resign his presidency and devote his entire time to the active work of the management of the commission, the scope of which embraces all the Baptist educational institutions of the State of Texas.

In the matter of establishing an East Texas Baptist College the commission selected Tyler over several competing points. The conditions are that Tyler shall donate to the college \$60,000 and twenty acres of land suitable as a site for the college. The commission delegated the duty of settling details as to the Tyler Baptist College to a committee composed of Dr. S. P. Brooks, president of Baylor University; Rev. D. I. Smyth of Grandview and Dr. J. L. Ward, the new corresponding secretary.

The Tyler Baptist College will do the first two years of collegiate work, will grant no degrees, being on a plane with Howard Payne College, Brownwood, and Decatur College, and will be ready to begin its work by September, 1908. The commission voted to ask the First Baptist church of Tyler to appoint a temporary board of trustees, who shall receive the property in the name of the Baptist general convention, and to transact other matters of business until the convention elects their successors next November.

No decisive action was taken in regard to the application of some other towns which had applied for a school.

Dr. Ward tendered his resignation as recording secretary of the commission and Dr. Brooks was elected to that position. In accepting the larger duties of corresponding secretary Dr. Ward pleaded with his fellow-members of the body that they raise the remainder of the \$139,000 needed to free the indebtedness on all the Texas colleges.

To the people of Nacogdoches county who suffer with Eye Diseases or Deformities:

Remember that Dr. Adams has a branch office on Nacogdoches and visits this office once a month. He is prepared to cure any eye trouble known and proven by science to be curable. Hundreds of people in East Texas will testify to this fact. He has references from many who were led to him and now see to read. Call and ask for names and investigate this matter, if you suffer with granulated lids, ingrowing lashes, cataracts, pterygiums, drooped or deformed lids, lid tumors, overflow of tears, falling of lashes, ulcers or iritis, or in fact any eye trouble. You will find that he is an expert in the cure of eye diseases and deformities. He has spent fifteen years in this one line of practice and is ready to prove any claim he makes, and guarantees results. His next date at Nacogdoches will be June 14 and 15. Office at Banita hotel.

by the next convention, assist in collecting all outstanding pledges and arrange as speedily as possible some plan of cooperation between the commission and the different colleges by which the latter could collect funds in their own territory, and yet preserve the unity of the State-wide work.

The following members of the Baptist State Education Commission attended the meeting: Rev. D. I. Smyth, Grandview, president; Dr. S. P. Brooks, Waco; Dr. J. L. Ward, Decatur; Rev. L. J. Mims, Dublin; Dr. W. B. McGarrity, Hillsboro; J. P. Reynolds, Goodnight; Dr. J. L. Gross, Houston; J. P. Boone, Fort Worth; Dr. Giles C. Taylor, Corsicana; Rev. J. M. Dawson, Abilene; Rev. M. T. Andrews, Marlin; E. S. Cornelius, Waco; Rev. Jeff D. Ray, Waco; Dr. H. C. Risner, Tyler; J. R. Collier, Waco; Rev. E. N. Bell, North Fort Worth; E. L. Compere, Greenville; W. H. Forrester, Waco; M. H. Wolfe, Dallas; J. N. Seale, Mount Pleasant, and M. C. Wolfe, Wolfe City.

Important Deal.

Mr. and Mrs. Sam Stripling have bought the beautiful North street home of Mr. and Mrs. T. J. Williams, the consideration being stated at \$7,000. This is one of the most handsome residences in Nacogdoches, and has been the envy of many since it was built by Mr. W. H. Crouch about seven years ago.

Mr. Williams, we regret to learn is contemplating moving to either Houston or San Antonio in the near future.

Mr. B. G. DeLaney, of Carthage, who is serving his seventh consecutive term as district clerk of Panola county, is in the city on business, and he paid The Sentinel a visit today in company with District Clerk R. W. Murphey.

Mr. and Mrs. Will Bridwell left today for Ballenger, San Angelo and other West Texas points for a month's visit.

CONFEDERACY.

Confederacy, we love thy name, What tender memories round thee cling, We most and talk o'er all thy fame, And thy sweet songs we love to sing.

We're proud of Jackson and of Lee, Of Forrest, Johnson, Stuart, Hood, And many others crowned by thee, In loyal, loving brotherhood.

O many songs to thee are sung, And many tributes paid thy name; Inspiring theme, to breezes flung, Are banners of thy wondrous fame.

We keep thee in our memory yet, We'll sing thy song in coming years; We would not if we could forget, Thy peerless deeds, thy burning tears.

For him who bore a burdened life, To thy great honor and renown, We've set a day apart from strife, To give our PRESIDENT a crown.

We do not mourn as once we might, We do not grieve for vanished days, But we rejoice that honors bright Are ours, a heritage of praise.

Unconquered game, Confederacy, A year proclaim thy matchless reign, They add new laurel leaves to thee, Thy fame will live and never wane.

Though all our Veterans pass away, And time to them repose will give, The "Soldier Boys" who wore the gray In Southern hearts will always live. —Emma E. B. Shindler, Nacogdoches, Texas, June 3, 1907.

Stephen Prince of Center spent Saturday in the city the guest of Rev. Walter Armstrong. He was on his way home from Austin.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs of some old blood taint which has corrupted and polluted the circulation. These most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion, the same germ producing cancerous ulcers is back of every old sore, and especially is this true if the taintable is an inherited one. Washes, salves, and indeed anything else, applied directly to the sore, can do any permanent good, neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If gradually grow larger and worse in every way until I became completely cured. My blood is now pure and healthy from the effect of S. S. S., and there has not been any sign of the sore since.

BLOOD CANNOT BE CUT AWAY. The cure must come by a thorough cleansing of the blood. —S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood-purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood.

Then the sore begins to heal, new flesh is formed, all pain and inflammation leaves, the place scabs over, and when S. S. S. has purified the blood the sore is permanently cured. S. S. S. is for sale at all first class drug stores. Write for our special book on sores and ulcers and any other medical advice you desire. We make no charge for the book or advice.

Commissioners Court.

The Commissioners court met in called session this morning to examine and approve the tax rolls as prepared by County Assessor A. Y. Donegan. After the rolls have been examined, the court will fix a day for the hearing of reasons why the taxes on any property should not be raised or lowered, as necessity may require.

The court awarded the contract for publishing the delinquent tax list for the year 1906 to Haltom & Haltom, publishers of The Sentinel.

It was down in Rayenwood, Ill., a teacher who had sent a note home with a pupil asking her parents to buy a grammar for her, received the following note: "Missus teacher, I do not desire that Jennie shall engage in grammer, es I prefer hur to engage in more useful studies, and I can learn hur to speak grammer myself. I went through two grammars and can't say as they did me no good nohow. I prefer Jennie to engage in French, drawing and vocal music on the piany."—Ex.

Mr. and Mrs. Will Perry of Nacogdoches spent the night at the home of her uncle, Hon. J. F. Willis. They went on to San Augustine this morning where Mr. Perry owns much timber interest and where they may locate. Center would like to have them as there was never a more perpetual fountain of laughter and song than is "sweet Susan" Perry.—Pan-zie in Center News.

Grave Yard Working at Swift.

The citizens of Swift community met Saturday, June 8, to clean off and round up the graves in the cemetery and to pay our respects to the dead. While we were performing our duties, behold, we noticed the good ladies of the community gathering in with their baskets well filled with that which always attracts a hungry man's attention, such as chicken pies, cream pies, cakes and custards of all descriptions.

Well, the writer will just have to bring things to a halt, for it carries his mind and appetite back to that load of fish.

By the way, to cap it all off, about 10 o'clock a nice load of fish arrived in our city. That was more than the writer could bear. Too many good things coming in he could not work but disappeared to buy the load of fish and have a fish fry; so the men and boys chipped in their mites and we bought the whole lump. B. B. Haltom was absent at the time, but came in about the time we unloaded the baskets. He looked like he wanted to be in full fellowship and do his part, and Mrs. Haltom being absent, he gave us possession of his stove, lard, salt and wood. A part of us went to dressing fish while Misses Ella and Lilly Lambert, Miss Alma Brewer and Miss Etta Blanton volunteered to fry them—and they were sure nicely fried and carried to the table where dinner was served; and what we did for those fish was a plenty. After finishing the fish we feasted on pies, custards and cakes until all were satisfied.

Then we had a good social talk, after which we gathered around the organ and had some sweet music.

When time came to adjourn all seemed to be sorry the day was over, and hoping to hear of another working.

The health of the community is good.

Crops are so sorry I hate to mention them. Boll weevils plentiful.

From Mount Moriah.

June 10.—The weather has been fine on the farmers the past week and we have made good use of the time.

Crops have come out wonderfully and the boll weevils are at work on the cotton now. Some have given it up and planted June corn. We know the cotton crop will be far shorter than ever before in this county. The acreage is smaller and a very sorry stand and the boll weevils are here in greater numbers than ever before at this time of the year.

Our oil well is still going down and we are still in good faith. A few more days will reveal something.

Picnic at Attoyac.

Editor Sentinel.
Attoyac, Tex., June 12.—There will be a picnic given at Attoyac Friday, June 28, under the auspices of Black Jack Camp Woodmen of the World. Everyone is invited. Yours very truly,
B. F. Knous, Clerk.

We Pay For Good Names.

For 25 good names and 50c in stamps, your choice, a copy of Byrne Practical Bookkeeping, Byrne Simplified Shorthand, or a Fountain Pen (Eagle.)

Make out a good list of names promptly and send in, stating what premium you desire, also if you are interested in a course yourself, and would like to see a copy of our large illustrated free catalogue. Tyler Commercial College, Tyler, Texas.

To The Woodmen of the World.

Each and every W. O. W. Camp in the county is expected to be represented in the meeting to be held in Nacogdoches Saturday, June 16.

This meeting is for the purpose of consummating plans and arrangements for the Annual Log Rollers' Association, which meets July 10. The success of this meeting depends upon the concurrence and hearty support of every camp in the county.

Harmful Stomach Dosing.

The physicians believe that the less medicine one swallows the better.

Do not try to cure catarrh of the head by dosing the stomach; this is neither common-sense nor scientific. Breathe Hyomei, and its medication will go right to the spot where the catarrhal germs are present and free the system from all catarrhal poisons.

Stripling, Haselwood & Co. have seen so many cures of catarrh made by Hyomei, some of them chronic and complicated cases, that they give an absolute guarantee of cure or money will be refunded with every outfit they sell. The complete Hyomei outfit costs but \$1.00.

From Southwest Texas.

Editor Sentinel.
Maxwell, Tex., June 9.—The farmers of this country are killing grass as fast as they can. We are having some fine weather the past week, and everybody is making good use of it. The want of hands is great in this county. They can get \$1.50 per day.

Frank Wood Married.

Frank W. Wood of Camden, Ark., married on the 16th of May to Miss Daisy Dean Vaughan of Fayetteville, Ark.

Frank is an old Nacogdoches boy and the son of W. H. Wood of this city. He has been in the jewelry business in Camden since he left here several years ago. His many Nacogdoches friends extend to him and his bride heartiest congratulations.

Mr. Emmett W. Smith left Monday for Carrizo Springs, Dimmitt county, where he will make his home for a while if not all time. Mr. Smith was born and reared in Nacogdoches, and everybody is his friend. All sincerely hope that he may grow rich and that his health may always be good, but above all that he may return to the town of his nativity.

Married in Houston.

Frank Kiley and Miss Myrtle Garrett of this city were married in Houston Wednesday and will go to the Jamestown exposition on their bridal trip. Both of the young people are very popular. Mr. Kiley has resided here for the past three years and is constantly increasing his circle of friends. "Miss Myrtle" has grown from childhood to womanhood here, and is loved by everybody for her sweet disposition and lovable character. The best wishes of a host of friends accompany them on the journey through life.—Timpson Times.

War Reminiscence.

Editor Sentinel.
Being one of General Dean's army capture at Redon, Miss., July 1st.

My escape at Aikin landing on the Chesapeake March 23, 1865. Now I will finish my prison story. I mentioned before about our bed in there—would sleep together. They gave us three blankets, lay on one, cover with two. Our warming was a small stove for two hundred and forty men, wood enough to run that about eight hours out of twenty-four, then freeze out the balance of the time. Now, I mentioned about men losing their toes, the flesh foze off my heel; was in that shape when I left them, but after I got home the skin peeled off of my legs and I had to keep them in greasy cloths three years before they got well. Some may dispute this, but I have my wife to prove this. Come to my camp and hear it if you want to, for I know more than some others if it is old man Bob Moore now.

If a man refused to go out and work for them, they had posts in the prison with spikes driven in them. They would tie their hands together and hang them up until they would die. I saw men with their arms in slop barrels up to their shoulders trying to skim drugs out to eat to appease hunger.
