#### Engineer O'Neil Here.

Mr. M. G. O'Neil, the engineer who drew the plans for the city's new water works system, came in from Dallas yesterday afternoon and this afternoon had a conference with the city council in regard to the construction of the pumping station and reservoirs.

It was decided to build a frame and carrogated iron building for the pumping station, and to lay a line of tiling pipe along the water race from the lake to the pumps. This will make the water sanitary pure and at a very small expense.

The work of constructing the pumping station will begin within a few days.

Mr. Williams is now in market buying a complete stock of fall and winter goods, and during the next ten days we will take off ten per cent on everything sold for cash. Come and see what we have and buy what you want.

E. M. Dotson.

#### A Quiet Marriage.

At nine o'clock yesterday morning, at the home of the bride's mother in this city, Miss Viola Durrett was married to J. S. Adkinson of Appleby, Rev. J. A. Smith officiating.

The affair was in the nature of a quiet home wedding, only a few relatives and friends being present, and the happy couple left immediately after the ceremony for a wedding tour.

The fair bride was reared in this county and has spent most of her life here. She is a young lady of culture and many beautiful attainments, and has a large circle of friends among those who know her whose best wishes will go with her to her new found happiness.

The groom is recommended to be in every way worthy the fair bride he has won, and is a gentleman of good appearance.—Center News.

Bo Keathly of Swift was here today on business.

#### OLLIE BRANCH KILLED.

Dr. J. J. Lockhart is in Jail Charged With Murder.

Ollie H. Branch, a popular and well known young farmer residing a mile and a half west of Appleby, was shot to death Sunday by Dr. J. J. Lockhart, a practicing physician, residing at Appleby.

Branch and his wife and little boy, their only child, had started to visit Mr. Branch's mother at Mayotown, three miles north of Appleby, and when about midway between their home and Appleby they met Dr. Lockhart in the road, where the killing occurred.

The particulars, as gleaned from Mrs. Branch, the wife of deceased, by The Sentinel editor, who went to the scene of the tragedy in company with Sheriff Blackburn, are in substance as follows:

"I hardly know how to begin," said Mrs. Branch between sobs, "but will say that Dr. Lockhart is a cousin to me; and when he moved to Appleby about four months ago, I visited his wife and she and I became very much attached to each other at once. I visited her quite often, and when Ollie would be using our horse, Mrs. Lockhart would send her buggy for me, and the doctor would come after me. I thought nothing wrong of this, as we were relatives, but the doctor got to acting a little rude, and I insisted that he must stop. A few days ago, Ollie told me he was going to his mother's at Mayotown, and Dr. Lockhart came for me and our little boy to go and spend the day with Mrs. Lockhart. Before we started the doctor again acted in an unbecoming manner toward me, and I told him he had to quit it or I would not go with him. We did not know it, but Ollie was watching and he saw what the doctor did. We got in the buggy and started to Appleby, and a short distance from our house Ollie caught up with us riding his horse. He also had his shot gun with him. Ollie told me to get out of the buggy and come back home. I told Dr. Lockhart to turn around and take me back home. He said he did not want to go back, and started to drive on. I made him stop and I got out and walked back to the house. When Ollie came to us, though he had his gun, he made no effort to use it, and he said nothing out of the way or rough, except that he told Dr. Lockhart that no gentleman would come to his house and act as he had. Ollie and I talked the matter over, and we decided to say nothing about it, as we did not want to start any neighborhood talk.

"We never saw Dr. Lockhart any more until this morning. We left home about 10 o'clock to go to Ollie's mother's at Mayotown. Ollie myself and our little boy here were in the buggy together. When we met Dr. Lockhart and a young man whom I did not know, Ollie turned our horse to the left, expecting that the doctor would pull to the left and pass us. Instead of that he pulled to the right and met us, when both buggies stopped. The first word spoken was by Dr. Lockhart, who says, 'Well, what are you going to do about it?' Ollie replied that he would do nothing, but that he could get by all right. The doctor turned his horses head to prevent us passing, and began to abuse Ollie. He got out of his buggy and came up to our buggy on the side where Ollie was sitting. Some words were passed between them, all of which I do not remember. Ollie told Dr. Lockhart that he did not want to harm him, but he was not going to let him hurt him. The doctor said, 'God damn you; I am going to kill you,' and reached to his right hip pocket for his pistol. Ollie told him to shoot, and when he saw the pistol Ollie began to get out of the buggy and grabbed at the pistol. As he did that the pistol fired three times and Ollie fell to the ground. Dr. Lockhart got in his buggy and drove off, and some men came and carried him to Mr. Carlton's house close by, where he died."

Dr. Lockhart was also seen by The Sentinel man, but he had no statement to make. Soon after the shooting occurred Dr. W. I. M. Smith of this city was phoned for, but Mr. Branch was dead when he reached him. He lived about three hours after being shot.

Branch was shot twice in the left shoulder, between the point of the shoulder and the neck.

Dr. Lockhart drove back to Appleby immediately after the shooting and surrendered to Constable Copeland who phoned for Sheriff Blackburn. Dr. Lockhart was brought to the city by Sheriff Blackburn last night and placed in jail.

The remains of the dead man were buried at Bogg grave yard, five miles north west of Appleby, this afternoon.

Examining Trial.

The examining trial of Dr. J. J. Lockhart for the murder of Ollie Branch at Appleby last Sunday was held before F. D. Huston, justice of the peace for this precinct, Wednesday afternoon.

For some reason unexplained the court excluded every one from the court room except those directly interested in the case, officers of the court and attorneys. Even

newspaper men were refused admittance. A large number of citizens were here from Appleby who came to hear the testimony.

Only a few witnesses were examined, among them being the wife of Ollie Branch and a young man named Burk, the only known eyewitnesses to the tragedy. The attorneys for the defense and County Attorney Russell agreed on \$4,000 bond for Dr. Lockhart which was readily given and he was released. The court stated that he would have set the bond at \$3,500 had not the attorneys agreed on bond.

Everything in our stock will be offered at ten per cent off for cash until the first of September. E. M. Dotson.

Tom Barrett was able to come to town today. He has been sick with fever nearly three weeks.

Board Meeting.

The Executive Board of the Nacogdoches County Baptist Association will hold a meeting at the First Baptist church of Nacogdoches on Tuesday morning at 10 o'clock, Sept. 10, 1907. All members are requested to be present and our missionaries are urged to have full reports of their work during the association year that the board may embody same in its annual report.

Telegraph Office Open.

Mrs. M. Patterson, late of Hillsboro, arrived in the city today and this afternoon opened the Western Union telegraph office. Mrs. Patterson has been in the Western Union office at Hillsboro, and has never joined the striking telegraphers. She has merely been transferred from that office to Nacogdoches.

## Mill Supplies

We can supply you with almost anything wanted around a saw mill. Pipe Fitting of all kinds, Shafting, Lace Leather, Pulleys, Lath Varn, Circle Saws, Lumber Buggies, and many other items not named here. You will also want a Log Wagon to haul your logs, or a Lumber Wagon to haul lumber. We them in different makes and sizes. For lumber hauling buy a Studebaker or Mitchell. They stand up and do your work when other makes break down. We don't try to see how cheap a wagon we can sell, but how good.

TEXAS HAS raised a bumper pecan crop this year. When Texas falls down in one crop she leads in half a dozen others.

NACOGDOCHES has her weather eye on some new manufacturing industries now, and may that eye never wink till those enterprises are secured.

SOME observant person has figured out that about one person in eighty in the United States is drawing a pension from the federal government.

At last the old wooden bridge that has spanned Banita bayou on North street, for lo these many years, is to be replaced with a substantial steel structure. Let the good work go on.

FOR a cash consideration of \$30,000, Palestine has secured the State Railroad, which is to be extended from Rusk. When completed the road will be about 22 miles in length, and will be a paying proposition from its completion.

It is said that Col. Watter-son's "dark horse" is Gov. Johnson of Minnesota. Gov. Johnson has two things besides his democracy to recommend him. One is he is a country editor, and the other, he hails from St. Peter.

THE next regular semi-annual meeting of the Employing and Commercial Printer's association of Texas will be held in the city of Fort Worth on Monday and Tuesday, Sept. 9 and 10. The enterprising printers and publishers of that city are preparing to give all who attend a cordial and hearty welcome.

NACOGDOCHES grocers have been selling sweet potatoes, raised in Nacogdoches county, for the past two weeks.—Nacogdoches Sentinel.

We have also had the said potatoes on the local market for a few weeks, and will state further that we are now saving our money in order to buy a bucket of same next month.—Lufkin News.

Yes, no doubt Nacogdoches potatoes can be found in the local market of every town in this trade territory, and The Sentinel would advise the esteemed News man to not wait till next month, but "buy a bucket of same" right now.

THE latest from the telegraphers' strike may be summed up in this way: "The Western Union officials assert that the backbone of the strike is broken, and telegraph service has been resumed all over the country." The statement is also made that "the strikers are not only holding on with firmness and determination, but they are gaining in numbers and in public favor." In the mean time the Western Union office at Nacogdoches remains closed, and all commercial wires leading into the city are dead.

## FIFTEEN CENT COTTON

Ten years ago, the slogan of the farmers of the South was a demand for ten cent cotton. Though if the market had risen to that price then, still the cotton producers would have been heard, like Oliver Twist, crying for more. In fact, when the price of cotton did reach ten cents, the farmers wanted twelve; and now that it is selling at 12 and 13 cents, they want 15. Now, this brief reference to history is not made in criticism, but for the purpose of calling attention to the fact that every time the farmers demanded a better price for their cotton they were right. The contention that an article is only worth what it will bring on the market is wrong. The best and only reliable basis upon which to fix values is the cost of production, and when any article sells for less than it costs to produce it, there is something radically and unnaturally wrong. It costs close to ten cents to produce a pound of lint cotton, and in order for the producer to receive a profit on his labor and his investment he must sell his cotton for more than ten cents. That is what the farmers of Texas are going to do now, as will be seen from the statement made by Mr. E. A. Calvin, late president of the State Farmers Union, in another column of this paper.

## THE BAILEY INVESTIGATION

The Austin Statesman says: "Clyde Smith, secretary of the senate of the thirtieth legislature, was yesterday appointed by the state printing board to read the proof of the report of the Bailey investigating committee, copy of which is now being set by the state printers. The report will be quite a voluminous volume and will cover over 1000 pages. It will take eight tons of paper to print the report, and a special order for the paper had to be put in by the state printers. The printing board has authorized the public printers to print 5000 copies of the report and when it is finished the report is to be sent to each member of the legislature and will be furnished free by the secretary of state's department to any one writing for a copy. From the interest which was taken in the investigation it is likely that the edition will be exhausted. It will cost between \$2500 and \$3000 to do the work."

Think of it, only 5000 copies of this report to be printed, and at least 500 of those will go to members of the legislature, legislative employees, state officials, and their subordinates, and the other 4,500 to the politicians. The common people will still have to depend upon hearsay as to what the investigation developed.

"NEXT to the newspapers," said Mark Twain, "the ladies are the most able disseminators of news." That is no joke, even if Mark Twain did say it.

## HALTOM'S COLUMN

BY R. W. Anent the recent court house bond issue, which didn't issue, I have heard some funny talk. It has been suggested that we try it over again and build a court house on the public square and a jail on the plaza at the crossing of Main and North streets. That would be the very thing, if Nacogdoches is determined that she wants neither parks, plazas nor squares. Another idea has originated in the fertile brain of some deep thinker and has burst forth in the suggestion that the public square be cut up into building lots and sold for business purposes, thus raising the money necessary to build a new court house and jail. Now, what I want to know is, who owns the public square—the county or the town? Could the county build a courthouse thereon without the consent of the town, and could the town build a city hall upon it without the consent of the county? Could it be sold for any purpose, whether whole or cut up into lots, without first submitting the proposition to a vote of the people? I asked a lawyer these questions and he answered by telling me to ask him something easy.

Speaking of parks, plazas and such things, Nacogdoches is certainly hard to beat for the conspicuous absence of these things. Nothing beautifies a town so much as numerous little parks and plazas, especially when they are well kept. No city in Texas is so much admired as San Antonio and nothing in San Antonio is so much admired as her plazas. I am afraid Nacogdoches will never be admired for anything along this line. The fellows that laid out the town were so stingy they lacked to not have left any streets, notwithstanding that in those days land was so plentiful that a whole league of it could be purchased for a pair of boots. The spirit of stinginess and greed hasn't improved much since, and if the city ever possesses any of these features that have made San Antonio famous she will have to dig for them or some rich philanthropist will have to be found who will provide them.

When the ladies of the Cum Concilio club wanted to rebuild the Old Stone Fort in the center of the public square and use it for a public library and cultivate a beautiful flower garden around it, there was a howl raised all over the country against placing any obstruction upon the square. Now some of those very kickers are in favor of putting a court house there that would cover many times as much ground and would barely leave room for the street. Not a foot of space would be available for a bush or a shrub or in any manner beautify the surroundings of the building. The court house issue is dead for the present, but when it comes to life again I want to see a court house square that can

be beautified and made a rest resort and a thing of pleasure to the public. I want to see a building on it, too, that will be the pride of the county for all time to come.

A lady friend rang up the office the other day and paid this column a very high compliment. She said she enjoyed reading it; that it was like good old turnip greens with plenty of pepper sauce. Now what on earth is a better dish than good old turnip greens, and what is better seasoning than plenty of pepper sauce? She could not have made a more pleasing comparison, for there is nothing I am fonder of than good old turnip greens. I do not think this "trash" worthy of the compliment, but I know that it was given in the spirit of approbation and sincerest friendship, whether bestowed unworthily or not, and I appreciate it for the source from whence it came.

Speaking of turnip greens reminds me that Nacogdoches is now undergoing a regular garden truck famine. The grocery men have cabbage from South Texas and Irish potatoes from Colorado and that winds up the bill of fare. I make the rounds nearly every day, for I have done nothing else but hunt something to eat for the past two years, and this is all I can find except occasionally a few dry corn field peas. There are no fresh vegetables to be had either at home or in distant markets at present. I found some new sweet potatoes the other day and bought some at the rate of a dollar and a half a bushel. They were of good size and looked good, and were of the yellow yam variety, but they were dry eating.

I wonder why some of the truck growers near town do not prepare to grow vegetables by irrigation. I know of several small tracts of land that could easily be irrigated with little expense. Only a few acres a year like this would bring large returns and no doubt great profit to the vegetable man. With such a market as Nacogdoches for the products of the garden it is a puzzle that so little attention is given to truck growing.

W. F. Butler, of Pea Ridge, was in the office to see me a few days ago and I am real sorry I was not in and did not get to see him. Bill and I were "bobshelies" when we were "grown up" boys together and have always been

good friends. But we strayed apart politically some years ago and he quit coming around with his annual renewal and I haven't seen much of him for a long time. We are proud to have him on the string again and hope to keep him. Bill may not like for me to say he is from Pea Ridge. He registers from Woden now. But the very mention of Pea Ridge brings up pleasant memories to me. It was down on Pea Ridge, at Old Jacob's Chapel and at Simpson's Camp Ground, a short distance this side, that Bill and I did some of the very best courting that we knew how to put up. Bill got his girl and I got mine, but it took a whole lot of "grave yard" talk to win them over. There never were two luckier dogs. He married Miss Lou Alders, and when Bill got Lou and Lou got Bill there were two souls made one that were just good enough for each other. They have prospered, lived happily and raised a large family of bright, intelligent children. May they live to see their children as happily settled in life as themselves.

This week's issue of the Plain Dealer contains the announcement that Mr. J. H. Padon has taken editorial charge of that paper. Mr. Padon is a newspaper man of several years' experience, and is well known among the craft in East Texas. The Plain Dealer is to be congratulated upon having secured his services.

A LAWYER charges a man \$10 for ten minutes conversation, says an exchange, "and the man insists on paying it. A doctor charges \$1 for a prescription and the patient says: 'Oh, phshaw! Is that enough?' An undertaker charges \$100, and he is just 'perfectly lovely,' with every one inside and outside the family; a man buys a gold brick and apologizes for not having bitten; an editor walks a mile in the hot sun to get facts of a death, spends three hours in writing it up and tells lies and praises the people up till he hates himself. Then, if he makes an insignificant error or charges 5 cents straight for three extra papers, he is a stingy good-by nothing cuss who never gets anything right; he is most any old thing and ought to be run out of town. Talk about the ice man, how would you like to run a newspaper."

Gov. CAMPBELL is swinging around the circle making some mighty interesting speeches. Our Tom is an interesting speaker on any occasion, but in this particular instance he has a very interesting theme. No man who has been governor of Texas since Hogg has accomplished more good in the first few months of his incumbency than has Gov. Campbell, and his legion of friends like to hear him tell about it, and the governor likes to tell it. By the way, his Nacogdoches friends would enjoy a speech and a visit from Gov. Campbell.

The Hall Remedy Co., Dallas, Texas. Iowa, La., July 9, 1904.

Dear Sir:—I have tried a great many Chill remedies, but have found none equal to Hall's Chill Cure for Malaria. A few years past I had a severe attack of Chills and Fever and tried many kinds of Chill cures, but they did no good and I just had to wear them out. They commenced on me last year the same way, but in a worse form. A friend recommended Hall's Chill Cure and I took it. It broke up the Chills and Fever and stopped them entirely. Whenever I hear of anyone having Chills or Malaria, I tell them Hall's Chill Cure will make them well if they will take it. I never can say enough for Hall's Chill Cure. Yours truly, MRS. FRANK LUTHEIMAN.

Flowerly Mountain Band.

The Flowerly Mountain string band was in the city last night and dispensed some splendid music at Fitch's music store. This band is composed of the following musicians: C. A. Gladden, accordion; Roy Gladden, violin; R. L. Cook, bass violin; Jesse and Thomas Johnson, guitar.

Mr. Fitch made a number of phonographic records last night, which he will reproduce for the entertainment of his patrons.

This is one of the best bands and orchestras in the county, their home being on Flowerly mountain, near Cushing.

The Cushing School.

The School Board of Cushing Independent School District, at a recent meeting decided to open the school on Tuesday, September 10. The public school term will begin with the opening and continue throughout the entire session.

The school has increased within the past three years from 173 scholastic pupils to 432, which is the present enrollment and from six months to nine months public school. There is no school in the State of larger free term and it is hoped by the Board and others that all will take a lively interest in the school and reap the good that is to be derived therefrom.—Cushing Enterprise.

**All Smoke Nacogdoches Cigars.**

The Timpson Times thus mentions the visit of a distinguished citizen of Nacogdoches to that town.

Col. L. P. DeMouche, President of the Nacogdoches Cigar company, was in the city Monday. The colonel is the manufacturer of "Timpson's Favorite," the new cigar recently put on sale at Trammell Bros. Speaking to the Times Mr. DeMouche said that he worked for a week to get the perfect combination that goes into the "Timpson's Favorite," and says that it is a genuine ten cent cigar for five cents; in other words, he uses as a filler for this cigar the same grade of pure Havana tobacco that he uses in his high grade ten cent cigars. Timpson's Favorite is put up especially for Trammell Bros. and is a guaranteed cure for the blues.

B. L. Jones of Lilly Grove was here trading today.

**Indigestion Causes Catarrh of the Stomach.**

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membrane lining the stomach and irritate the glands of the stomach, thus causing the glands to secrete mucus instead of the juices of gastric digestion. This is Catarrh of the Stomach.

**Kodol Dyspepsia Cure**

Relieves all inflammation of the mucous membrane lining the stomach, protects the nerves, and cures bad breath, sour eructa, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

Nacogdoches People Must Recognize and Heed it.

Kidney ills come quietly—mysteriously.

But nature always warns you.

Notice the kidney secretions.

See if the color is unhealthy—

If there are settings and sediments.

Passage frequent, scanty, painful.

It's time then to use Doan's Kidney pills.

To ward off Bright's disease or diabetes.

Doan's have done great work in Nacogdoches.

A. Hatcher, a farmer, living one and a half miles southwest of Nacogdoches, Texas, says: "About six months ago my wife was complaining a great deal of bearing down pains across her hips, extending down into her limbs. The kidney secretions were very irregular and scant and there was a seeping in passage. I had heard so much about Doan's Kidney pills that I went to Mast Bros. & Smith's drug store and procured a box. Within twenty-four hours after taking the first dose she found relief, and before half a box was used the pain had entirely disappeared. There has been no return of the troubles. Seeing the good Doan's Kidney pills did for my wife, I started to use them, and they acted in my case with equally good results. I only hope the use of other sufferers finding relief through the use of this reliable remedy."

To The Sentinel  
Lubbock, Tex. Aug. 22—

If you will examine the map of Texas, you will find Lubbock county situated about seven hundred and fifty miles north east of Nacogdoches—about so far as St. Louis—and located just at the southern edge of the noted Texas Panhandle, directly east of Texas and in the very center of the celebrated rich treeless level. Extensive prairie section called on the planes. The county seat, Lubbock, is in the center of the county, and about one hundred and twenty miles south of Amarillo.

From this distant point of view I am watching with interest my dear old home and its surroundings, through the columns of The Sentinel and other means. And the tobacco raising question looms up.

So, I want to see in The Sentinel, reports from tobacco growers, like Dave Muckleroy, Hiram Boozer, Billy King, Tom Meroney, J. L. Gill and others, one by one, showing how many acres they cultivated, how many pounds harvested, what it cost to make it and what it brought when sold. In fact I request each grower to give full de-

tails of his experience and his views to be published from day to day, for the benefit of other farmers and the general public.

And let us have a meeting of our Nacogdoches County Tobacco Growers Association about the first Saturday, 5th day, in Oct., 1907, and talk it all over.

Good will and greetings to all.

Dr. J. E. Mayfield.

Letter to H. H. Harris,  
Nacogdoches, Texas.

Dear Sir: Will you give your Arithmetic class—and Algebra class—this problem? If average paint is worth \$1.60 a gallon, and goes two-thirds as far as Devoe, and wears half as long, what is Devoe worth put on, painters wages being \$3.50 a day and a day's work a gallon of paint.

The answer is \$11.80 a gallon; but don't tell 'em that.

Yours truly,  
F. W. Devoe & Co.

County School Assessments.

There are several school districts in the county whose special taxes are assessed by the county tax assessor. These districts are as follows, with the total tax to be collected by each according to Tax Assessor Donegan's rolls:

Garrison	\$ 811.43
Cushing	1155.39
Trawick	162.05
Melrose	162.37
Woden	194.64
Center	148.13
Mt. Horab	195.63
Oak Grove	206.24
Trinity	99.69
Little Flock	108.82

Intangible taxes are not included in above, as they are not allowed by law to be put on school districts.

In addition to the above amounts, each of these districts will get \$6 for each scholastic from the state school fund.

**For Aggravated Assault.**

Somewhat of a sensation was created Saturday afternoon about 5 o'clock, by a reported attempt at criminal assault. Doug Waggoner, son of Mr. Pole Waggoner of Alazan, was placed in jail, and after an investigation of the case today County Attorney A. T. Russell filed complaint against Waggoner for aggravated assault.

The alleged injured party was Miss Annie Haynes, daughter of Mr. R. C. Haynes, night watchman in the T. & N. O. railroad yards.

M. W. King left yesterday for his old home at Burnsville, Mississippi, to spend a few weeks visiting. He will also visit Sheffield, Ala.

**FIFTEEN CENT COTTON.**

Manager Calvin of Farmers' Union Cotton Co. Issues Statement.

Houston Chronicle.

Mr. E. A. Calvin, general manager of the Farmers' Union Cotton Company, urges the cotton planters of Texas not to sell their cotton for less than 15c and to ignore any element or association that counsels otherwise. He bases his prediction that cotton will easily reach the 15c mark on observations gleaned while abroad in the interest of the union, while he was president of the Farmer's Union, and on the knowledge that the Texas crop is reported to be in bad condition. On this subject he has made the following statement:

"As you are probably aware, the Fort Worth convention adopted 15c as the minimum price for cotton this year. If the farmers will follow the advice of the convention there will be no trouble in getting this price, in my opinion. It is a legitimate price for the staple based on purely natural conditions. Any person or association that counsels the farmer to sell for less does not represent the best interests of the grower, and any farmer that disposes of his cotton for less than 15c is standing in his own light.

I know positively that cotton goods for future delivery are being sold on a basis of from 15c to 18c per pound. The spinners expect to pay that amount for their cotton during the coming season, and have fixed their prices to the consumer accordingly. I talked with a number of spinners while in Europe, and every one of them expects to pay from 15c to 18c. They told me that they were fixing prices for cotton goods for future delivery on that basis, and the merchant here who is buying cotton goods to be delivered in January and later will tell you that cotton goods will be higher.

"The farmer who sells for less than the price adopted by the convention is blind to his own interests. Speculators who are short, or have other ulterior motives for keeping the price lower than its natural level, may counsel the farmers to sell for 12c, but the farmers are learning better. Advice to the growers to sell for 12c on the very day that cotton was quoted at 13-14c is ridiculous.

"Fifteen cents was the price fixed by the Farmers' Union of Texas. This price is subject to revision by the National Union, which convenes in Little Rock, Ark., on September 3. Every cotton growing state will be represented at the Little Rock meeting and the price will be fixed for the entire South. Conditions in every section of the cotton producing area will be taken into consideration and the price fixed by the Texas branch of the union may be raised or lowered. Whatever the outcome of the meeting, the farmer who are raising cotton will do well to heed the advice of the union and turn a deaf ear to the speculators."

The cotton grading school

is about disbanded. Three or four of the students remain and are taking a sort of post-graduate course in classing the staple, but the large majority have returned to their homes to prepare for gathering and marketing the crop.

**Keep Your Bowels Open**

It is a noticeable fact, and one which any doctor will verify that people who suffer most often from disease are the ones who have the most difficulty in keeping their bowels open. Regular bowel action is half the battle of health.

People who have a tendency to constipation must of necessity use something to help nature along. This should not be a violent aid like salts or purgative waters, cathartic pills or powders, but a syrup liquid that will oil the intestines and membranes that it comes in contact with. Children, women and weak people generally should never be given a strong physic, as it weakens the system. And it is futile for the strongest person because relief is simply for that day, and then the reaction sets in and you are worse off than before.

What is needed is a prompt but gentle laxative such as Dr. Caldwell's Syrup Pepsin. People have been taking it for sixteen years and it is being better liked by more people every year. The reason is that it fills a want. It is unlike anything else. Results are so sure in constipation, dyspepsia, indigestion, liver troubles, biliousness, flatulency, sour stomach, weak stomach, bloated stomach, such like that a cure of any of these ailments is absolutely guaranteed. A Doan's costs but 5 cents or 8 and is worth a hundred times that to any sufferer.

Wise mothers keep it constantly in the house for emergencies, because it is so good for some or other by every member of the family. Dr. Lucia Underhill, the medical superintendent of the Working Woman's Home of Chicago has kept her charges in perfect health by the use of Dr. Caldwell's Syrup Pepsin whenever a stomach complaint was brought to her attention. No other laxative is used in the Home. Buy a bottle yourself today and watch the prompt and permanent results.

**FREE TEST** These wishing to try Dr. Caldwell's Syrup Pepsin before buying can have a free sample bottle sent to their home by addressing the company. This offer is to prove that the remedy will do as we claim, and to help those who have never taken it. Send for it if you have any symptoms of stomach, liver or bowel disease. Get relief and most effective laxative for children, women and old people. A guaranteed, permanent home cure. THE PUBLIC BENEVOLENT: No Laxative So Good and So Safe AS DR. CALDWELL'S SYRUP PEPSIN. The school campus is to be converted into a park. In that decision there is much wisdom.

The Civic League is going to inaugurate some improvements in the streets of Nacogdoches right soon, and citizens need not be surprised to see the split log drag in operation in front of their doors.

The Austin Statesman thinks that the late stiff breeze is due to the fact that Fairbanks is in the running again. The general impression has been that Fairbanks is colder still.

While playing with a buckle on the waistband of his overalls, a 5-year-old boy at Paris, Texas, got the buckle in his mouth and buckled through his tongue. Score one for that boy. He is the youngest specimen of young America who has yet been able to make buckle and tongue meet.

The press dispatches tell us that Col E. H. R. Green told a Philadelphia newspaper man that Texas is laughing at the calamity wails of Wall street. The people of Texas are not given to rejoicing over the misfortune of their neighbors, but really Wall street's financial distress does not bother Texas much.

The Beaumont Journal of Sunday contained a complete press report, with this explanation: "Readers of the Journal get a complete press report this morning. It is sent out by the United Press, which has no trouble with telegraph operators and which does not use Western Union telegraph wires." The grape vine telegraph is as good as any so long as it is news.

The article published in The Sentinel and copied by the News in which it was stated that D. H. Goldberg of this city had moved to Nacogdoches, was found to be an error, as Mr. Goldberg went to Nacogdoches for a short stay and will return to Lufkin where he and his family will continue to reside.—Lufkin News.

The Sentinel made no such statement. The Sentinel said that Mr. Goldberg had accepted a position in Nacogdoches and that he would move his family here later on. Mr. Goldberg still retains his position here, and it he does not move his family to Nacogdoches the fault is all his.

## TALKING ABOUT CENTER.

A correspondent of the Atlanta Georgian relates the following story and asks if it is true. The News is compelled to admit that it is true, and that Center is the town referred to. Our natural modesty would deter us from alluding to the matter were it not in the interest of truth and the preservation of a historical fact:

"It is said that in a certain Texas town all of the doctors went away one summer to attend a medical convention, and afterward take a much needed vacation. They were absent about two months, and upon their return they found that all of their patients had recovered, the drug stores had closed, the nurses had opened dancing schools, the cemetery had been cut up into building lots, the undertaker had gone to making fiddles, and the hearse had been painted a blooming red and sold as a circus wagon.—Center News.

You say that Center is the town referred to, and that the statement is a fact? Well, The Sentinel will not dispute it, but the people in this section never knew before that Center had a crematory. It is also a historical fact that all deaths that have occurred in Center have not been attributed to the doctors nor disease.

The following information is taken from the last report of the government bureau of labor statistics: "It appears that from 1881 to 1905, inclusive, there were 36,757 strikes in the United States, 69 per cent of which were ordered by labor organizations. The strikers numbered, all told, 6,728,048, but all other workmen dependent upon them were forced into idleness, the real number thrown out of employment was approximately more than 9,500,000. As the average duration of the strike was 25 days, one can get some idea of the colossal price that labor has paid in enforcing its demands. Most of the strikers were killed laborers, of course, but placing their average at \$2 per day we find that they have invested at least \$475,000,000, to say nothing of the money paid for the support of their unions or in strike benefits. That is \$19,000,000 a year. The lockout is akin to the strike, the only difference in the main being that the employer, knowing that his men are to strike, takes the initiative. In the 25 year period considered there were 1,564 lockouts, affecting 716,231 employes, and lasting, on an average, 84 days. There is, of course, no method of getting at the loss which the employers suffered in these struggles, but from the nature of the case it is fair to assume that it was far greater than that entailed upon the men."

## Getting Cotton Mills.

Beaumont Enterprise.

A mistake is being made in the agitation for cotton mills in Texas, in that there is a tendency to wait for outsiders to come in and bring the mills with them. The tendency is emphasized by a recent address issued by the Commercial Secretaries organization in which it cited the success of the east South-

ern states in the building of mills, but it is evident that the writer was unacquainted with the mill history of the South.

The first Southern cotton mill was erected by Alamance county, North Carolina, by a native Tar Heel, upon the paternal acres, and it was not until he and his family had built something like a score of mills that outsiders came in, and then the Cone brothers of New York joined with the Holts, in the Cone Export and Commission company, a marketing concern. Five sons and two daughters had Edwin Holt and these became pioneers in cotton mill extensions, and building. They with the Irwin brothers, William A. and J. Harper, J. Q. A. Gant, D. A. Tompkins and Messrs. Scott and Williamson, all Southern men but Mr. Gant, who was a practical mill man but not a capitalist when he entered the circle, were the men who founded the Carolinas' cotton mill industry and not until they had made it manifest that it was a paying institution, by their expansion and the cutting into the trade of the Northern mills, did outside capital come in to build mills in the South. Not until the Massachusetts mills found that they could not compete with Southern mills did they move South to get the advantage of our raw cotton.

Texas has the cotton, but so far from the proven field in the cotton mill industry, that it will be hard to interest the conservative mill capitalists until some brave Texas capitalists, as brave as those North Carolina capitalists, blaze the way.

This is not said in discouragement for we believe there is a great future before Texas in the cotton mill industry, but from knowledge of conditions that maintained in the founding of the cotton mill industry of the Carolinas.

## The Evolution of Johnny.

Nowadays, when Johnny is bad at school the teacher takes down her book and gives him a black mark. Next day Johnny is worse than ever. Fifty years ago, say an Arkansas editor, when Johnny was bad at school the teacher took down a dogwood sprout, made about two dozen black marks around his bare legs and Johnny never repeated the offense. Fifty years ago Johnny got up at daylight, started a fire, fed the horses, milked the cow, chopped and brought in the wood to last mother all day, ate a hearty breakfast and walked five miles to school. Today Johnny does not get up at all unless he is forced to, eats little or no breakfast, goes out behind the house to smoke a cigarette and if the school house is over three blocks away grunts about the long distance. The Johnny of fifty years ago is now a hale and hearty man. Fifty years from now the Johnny of today will be dead and buried. Isn't this a true story of Johnny?

The man who buys Nacogdoches property now is wise.

## Peculiarities of the Pass Law.

If Assistant Attorney General Hawkins continues to progress well with his opinions making exceptions to the anti-pass law, nearly everybody will get a shot at the pass privilege after a while except the man who has no money to buy a ticket and who couldn't get a pass if he had the right to try. Among the latest breaches made in this high strong wall built to safeguard the farmer against the danger of a soap drummer riding free, were the exceptions allowing superannuated ministers the privilege of half-fare tickets and permitting street cars to give six rides for 25 cents; but, to keep the public reminded that justice and equality of the pocketbook must prevail though the heavens fall and the universe stumble, these two concessions are accompanied with the information that if seven men own a telephone and don't charge tolls they may talk free over their own line and allow their neighbors to talk seventy times seven times a day if the wires hold out, but if tolls are charged then even the owners must pay. Also another announcement is made of the lost rights of notaries public. A notary who is attorney for a street car company can't ride a trolley-car or a hobby or a teeterboard or anything without paying. If this keeps on it will get so after a while that everybody will get back some of the little privilege apparently lost but notaries, Japanese and tramps. The question of whether or not a farmer can put riders on his rail fence without making a sworn report to the Comptroller of how many riders rode and why he has not yet come up, and dinner horns are still blown in some places without a franchise, but something in the new laws may yet be construed to control these practices. By the way, what's the matter with having bee-courses declared transportation lines and placed under the Railroad Commission?—Current Issue.

## To Simmons Ranch Purchasers.

Editor Sentinel: Will you please announce in your esteemed paper that all the share holders in the Simmons ranch, farm and lot property, will meet at the court house in Nacogdoches on Thursday, September 5, at 1:30 p. m., to select one representative or club leader to be present at the distribution which will take place on Sept. 10, on the Ranch.

The party selected will represent those in the county who do not attend and it is not essential but best to turn over to him each Clearance Receipt or all of the paid up notes. Either would be evidence of purchase. The representatives present will elect three trustees who will supervise the distribution. Deeds will be delivered to each on presenting clearance receipt. If not carried to the Ranch they can be mailed to San Antonio and deeds sent from there a few days after the 10th. Dr. Simmons will be with us.

Yours very truly,  
J. O. Pinckard.

## WORK WILL BE DONE.

Definitely Settled That School Grounds Will be Beautified.

The joint meeting of the school board, Civic League and city council reconvened at the city council chamber yesterday afternoon to hear the report of the committee appointed to ascertain what improvements can be practicably made on the school grounds.

Judge S. W. Blount, speaking for the committee, reported that they had decided upon some decided changes and improvements in the school grounds, and that from measurements taken it had been agreed that a sufficient amount of ground should be reserved in the southwest portion of the campus for a ball ground. The committee would also recommend that sanitary closets be put in immediately north of the old university building and that the remainder of the ground north of the buildings be converted into a park. That a graveled drive way 50 feet wide be made from the end of Church street to the building; that the city be requested to extend the sewer on Fredonia street to Mims avenue, and put in necessary water mains and pipes throughout the grounds. It was also recommended that a hedge be planted around the entire grounds and along drive ways, and the southeast portion of the grounds be planted in shrubbery and flowers. The report was adopted.

Mayor Shindler and Alderman Wilson expressed willingness for the city to furnish water for sprinkling purposes free.

President Harris of the Civic League made the proposition that if the school board and city council will install sanitary closets and sewer and water connection, the Civic League will take charge of work of beautifying the grounds, planting shrubbery, trees, making drives, walks, etc.

Several expressed their willingness to contribute to the fund from \$25 to \$100 each, and the meeting adjourned.

## A VERITABLE GUSHER.

A Phenomenal Well at the Nacogdoches Ice Factory.

The Nacogdoches Ice and Cold Storage company has just completed an artesian well at their ice factory in this city that is not only a veritable gusher, but it is a phenomenal one.

For several years the question of an ample supply of pure and wholesome water has been the chief obstacle in the way of the company's success in this city. Not that there is not an unlimited supply of good water in this city for all purposes, and of a quality unsurpassed, but heretofore the mode of securing the benefit and use of this water supply has been an expensive one to the Nacogdoches Ice and Cold Storage company.

Some weeks ago Mr. Arthur Marshall, the manager of the ice factory, made up his mind that he would adopt a more economical method of securing water for the manufacture of ice, and at the same time reduce the expense of manufacture and increase his company's profits.

To do this was a large undertaking, but the end to be subserved was worth the effort, and he went at it. He secured a first class rig and the services of an experienced and reliable man, and set to work to sink an artesian well.

To say that his effort has been amply rewarded is but a mild intimation of his success. He had a well drilled to the depth of 500 feet, and now he has a six inch flow of pure, soft artesian water gushing out at the rate of 225 gallons every minute. With the application of 150 pounds air pressure the flow is increased to 500 gallons per minute.

The water is as clear as crystal and is 74 degrees fahrenheit at the mouth of the well. As an indication of the strength of the flow or the natural pressure, the water will rise to a height of two feet above the mouth of the six inch casing, and when the pipe was extended the water rose to a height of 40 feet above the surface.

It is conceded to be the finest artesian well in East Texas, and in quality is second to none in the state. The well was put down and cased with screen or perforated pipe at a cost of about \$2000, but its value to the company in the manufacture of ice is almost incalculable.

Mr. and Mrs. Will Frisby have moved to Mayo. Their daughter, Miss Maud, left a few days ago for San Antonio to enter school.

Mrs. Sarah D. Talley.

Rev. R. C. Douglass officiated at the funeral of Mrs. Sarah D. Talley, which took place at her home, 408 East Fifth street, yesterday morning at 10 o'clock. The congregational choir sang the favorite hymns of the deceased, "Lead Kindly Light" and "He Leadeth Me." "Face to Face" was sweetly sung by Mrs. Ella Fyfe. Flowers were seen in profusion, their fragrance and bloom seeming to breathe sweet comfort to sorrowing hearts. Interment was in Santa Ana cemetery.

Sarah Dumas Haltom was born in Henderson county, Tenn., Dec. 23, 1831. While a girl in her teens her parents moved to Rusk county, Texas, where many years of her life were spent; there she married R. M. Avera and spent the three brief years of their married life.

In 1875 she married W. H. Talley and moved to Sherman, Texas, where she lived until 1888, then the family went to Colorado, coming from there to California in the spring of 1889. Mr. Talley purchased an orange grove near Covina where they lived until his death in August, 1895. Mrs. Talley disposed of her interests at Covina in 1901, and came to Santa Ana where she built herself a home and has lived ever since. She was a member of the M. E. church, South, and took quite an interest in its welfare and was enthusiastic in getting the new building that would accommodate its large membership.

Hers was a character of firmness and decision and, possessing those womanly attributes of modesty and quietness of manner, she made many warm friends wherever she lived.

Her faith in God and his mercies was firm and unshaken. She remarked on one occasion she was so fearful of doing wrong she feared she had not done all the right she might. Through her long suffering her faith shone bright and she said, "Though we do not understand why, we know He doeth all things well." With a well rounded life she has been strong and vigorous until these last few months.

Mrs. Talley leaves behind to mourn her loss one only daughter, Mrs. Dr. M. S. Jones of Santa Ana, one stepson, P. H. Talley of Covina, three grand children, Mrs. Sam Hill, Avera and Lulu Hall, and one great grandchild, Avera Spencer Hill, all of Santa Ana.—Santa Ana, Cal., Daily Register.

Mrs. Talley was the last surviving sister of Mr. J. H. Haltom, Sr., of Nacogdoches county, and an aunt of the proprietors of The Sentinel.

Chireno News.

Chireno, Aug. 26.—We are enjoying good health in our town, and as the days go drifting by we are making preparation to bid farewell to the "good old summer time" and welcome another autumn.

Cotton is opening very fast but is going to be very short this year. The school board has employed teachers for the coming year and has made a fine selection. We have an ideal location for a fine school here. It is a fine town to send your boy or girl to school. They will get the benefit of good moral training and christian influence. Board is cheap and expenses very small.

Misses Birdwell and Calhoun, two of Chireno's most popular young ladies, have gone on an extended visit to Brookland, Jasper and other points of interest. They will be very much missed in our society.

Messrs. Lynn Curl and Claxton Wilson of Nacogdoches have been visiting relatives and friends for the past week.

Mr. Roger Flournoy of Waco is visiting friends. Miss Vera Stalling of Melrose is in the guest of Miss Evie Gray.

Mrs. N. I. Borders moved to Huntsville, Tex., where she will send her son, Clifton, to the Sam Houston Normal Institute. Her many friends regret very much having such a true christian and noble woman to leave their town.

Little Miss Bertha Tines left the other day for school. She will enter some female academy.

Dr. and Mrs. E. M. Smith entertained the little folks' U. B. Club from 9 to 11 Friday evening. The little folks had a royal time. After they had amused themselves playing games refreshments were served. They will always remember this occasion and shall only long for another reception so fine.

Miss Jennie V. Tucker has been entertaining her cousin, Miss Bentley, of Nacogdoches, for several days.

Friday evening from 9 to 12 Misses Mary and Etta Jones entertained in honor of Mr. Charlie Flournoy of Livingston, Tex. This delightful hospitality took the form of a prize party. Instruments were arranged on tables in the reception room where the prizes were won. Cake and cream were served in the dining hall during the progression, where everything was effectively placed. Miss Mary Stubblefield and Mr. L. M. Hall were successful in winning the prizes. Misses Jones were assisted by their mother. Those who were present regret very much not being there. Misses Jones thoroughly understand the art of entertaining.

## PROGRESSIVE WODEN.

Interesting Items From This Entertaining Little Town.

Woden, Aug. 26.—The meeting at Simpson's camp ground is grand—quite a success. On Sunday the sermon was especially impressive. More dinner than could be consumed by the great number was served on the ground.

Quite a number of Woden citizens by special invitation visited an old Spanish lady, Mrs. Lena Montes, to join in celebrating her 82nd birthday. Four generations of her family were represented, besides a goodly number of friends. One remarkable fact is that Mrs. Montes entered this home a bride sixty-two years ago. Here she has reared quite a large family of children and grand children. She is hearty and healthy, with the exception of rheumatism which bothers her to some extent. The day was very enjoyable, a splendid turkey dinner with music and ice cold drinks. Those present, besides her family were Mrs. Roder and children, Miss Marguerite Butler of Denton, Mrs. M. A. Pflueger, Prof. and Mrs. Henry Thompson and babies, Mr. and Mrs. Tom Prado and children. The genial Mr. Robert Montes entertained his guests right royally and was in return handsomely entertained by the ladies present. All joined in wishing the dear old lady many more birthdays.

Messrs. Louis Teutsch and our popular watchman, Mr. J. C. Boone, attended court at Melrose on Saturday. All quiet at Woden the last of the week, but what threatened to be serious trouble occurred last week. Women and children left their homes to seek protection from drawn weapons and the language which disturbed the quiet atmosphere of our little town. Message after message was phoned in to the sheriff, but no response. Where, oh where was he? and where are we to look for protection? Tell me.

The health of Woden is still good. Mr. Wm. Thompson is at Tenaha in attendance upon a sick baby. Mr. Oscar Buckner is always at his post. The mill is running, also planer. Our merchant, Mr. M. J. King, is at home with a painful foot which was pierced by a nail.

Mr. Wm. McKinley, Mrs. Will Burnam, Miss Lulu Burnam, Miss Marguerite Butler, Mrs. Roder and J. C. Boone took a flying trip to Nacogdoches yesterday.

There is to be a picnic at the beautiful little city of Oil Springs next Saturday. This is an ideal spot for pleasure seekers, and every one who attends is certain of an enjoyable time.

#### Diarrhoea Cured.

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle of Philippi, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by Kleas & Mast. dw

Arthur Seale has rented the cottage by Sam Stripling recently vacated by him and he and his mother will move next week.

#### For an Impaired Appetite.

To improve the appetite and strengthen the digestion try a few doses of Chamberlain's Stomach and Liver Tablets. Mr. J. H. Seitz, of Detroit, Mich., says: "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." Price 25 cents. Sample free. L. A. Whitton of Swift left today for Skidmore, Bee county, to take charge of the school at that place. The Sentinel will follow him.

#### Chronic Diarrhoea Relieved.

Mr. Edward E. Henry, with the United States Express Co., Chicago, writes, "Our General Superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea remedy some time ago to check an attack of old chronic diarrhoea. I have used it since that time and cured many on our train who have been sick. I am an old soldier who served with Rutherford B. Hayes and William McKinley four years in the 23rd Ohio Regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once. For sale by Kleas & Mast. dw

#### The Limit of Life.

The most eminent medical scientists and unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by Kleas & Mast, Druggists. 50c. dw

Rate Stripling is reported to be quite sick in San Augustine with fever, which it is said is not caused from the burns recently received. The burns are healing rapidly and but for the fever he would soon be all right again.

#### Eczema.

For the good of those suffering with eczema or other such trouble, I wish to say, my wife had something of that kind and after using the doctors' remedies for some time concluded to try Chamberlain's Salve, and it proved to be better than anything she had tried. For sale by Kleas & Mast. dw

#### Indigestion for 23 Years.

Mr. W. G. Manuel, Biloxi, Miss., says: "I suffered for 23 years with a most severe case of indigestion. After I had been treated by three physicians with no benefit, I began to use patent medicines. I used everything I could hear of without results, until I got the wonderful Pa-Nol. It gave me quick relief. My appetite is fine, and I scarcely have any symptoms of my old trouble, although I have used only two bottles up till now. It has done more for me than all I have tried for years put together." #### A Splendid Record.

In its report of the proceedings of the Shelby county district court the Center News makes this statement:

"This term of the court has been remarkable in many respects, but more particularly so in the fact that every person who has been tried has been convicted, which is, by the way, a beautiful tribute to the ability of our worthy district attorney."

The News also pays Mr. Strong this compliment editorially:

"The people of the district are learning that Hon. Beeman Strong is strong in ability as well as in name, and a most excellent gentleman."

The Sentinel knew before he was elected, as did his hosts of friends, that Hon. Beeman Strong would win the plaudits of the people of the district as a man of ability and numerous capabilities as a prosecutor before the first half of his first term had expired. But it is very gratifying to see these expressions from the different portions of his district. Beeman Strong will go higher.

#### Beyond Expression

G. W. Farlowe, East Florence, Ala., writes: "For nearly seven years I was afflicted with a form of skin disease which caused an almost unbearable itching. I could neither work, rest or sleep in peace. Nothing gave me permanent relief until I tried Hunt's Cure. One application relieved me; one box cured me, and though a year has passed, I have stayed cured. I am grateful beyond expression."

#### Death of Ferd Davis.

#### Editor Sentinel.

We wish to correct a mistake in Tuesday's Sentinel in regard to Mr. Ferd Davis' death. It seems the idea prevails that the dose of liniment that he took caused his death. This most certainly is not true. He had been accustomed to taking this medicine for nearly two years, and the last dose he took was a minimum one. He had a slight stroke of paralysis last spring, and as some of his near relatives had been stricken with paralysis and apoplexy, it is thought this was the cause of his death.

Such mistakes, though seemingly trivial, may make a false impression. In justice to the firm that sells the medicine he took, we write to correct this error.

He was born, reared and partly educated in Alabama and came to Texas after the civil war. For some time past he had not been the same man as in early days. Trouble had shipwrecked him, and almost heart broken, he welcomed the messenger when it came and released him from all the cares and troubles of life. He felt and spoke to several of the fact that he believed he would pass away suddenly.

### A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his medicines from among secret nostrums of doubtful merits, and made them remedies of known composition. By this bold step Dr. Pierce has shown that his medicines are of such excellence that he is not afraid to subject them to the mildest scrutiny.

Not only does the wrapper of every bottle of his medicines contain a list of the famous medicine for which it is the wrapper, but wherever located, have printed upon it in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of numerous practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no salacious, no mineral agents or other poisonous or injurious agents, and that they are made from native medicinal roots of great value, also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, overworked, run-down, nervous and debilitated women, were employed long years ago by the Indians for similar ailments affecting their women. In fact, some of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription, was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the normal functions, correcting displacements, atrophies, anemias and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

### NO MORE OLD PEOPLE.

The Philadelphia Inquirer says that 50 years ago a man of 35 was considered an old man. Many persons can remember their father at 30, or grandfathers who at 50 seemed older than any living person now. It was considered proper for a man of family to settle down quietly, to eschew the vanities of life and in a sober, orderly manner to work and live as if he were 70. In these days it isn't done, partly because there is too much zest in active life and partly because for a man to act as if he were old is too often simply shelving himself. The young blood is wanted these days, and many men of 60 are to all intents and purposes still young. They keep at the game with their former eagerness. If they drop out they must either weary themselves by seeking enjoyment or else rust away in discontent.

Miss Florence Pate of Shady Grove has accepted a position with G. W. Morris in his dry goods department. Miss Pate is a deserving young lady and will make an accommodating saleslady.

## MALARIA A SYSTEMIC BLOOD POISON

• UNDERMINES THE HEALTH •  
LAYS THE FOUNDATION FOR DISEASE

Malaria comes from the absorption into the blood of germs and microbes which destroy the rich, nutritive qualities of the circulation and reduce it to a weak, watery, disease-spreading stream. The healthy color of the skin is given to it by the millions of little red corpuscles which are in the blood. These are the carriers of nourishment and health to all parts of the body; in other words the very life and vitalizing essence of the circulation. The destruction of these corpuscles by the malarial poison takes the color from the cheek, and in the first stages of Malaria we have pale, sallow faces, poor appetite, a bilious condition is set up, and we feel "out of sorts" generally. But Malaria means more than this; it is a systemic blood poison, which undermines the health and gives rise to innumerable and sometimes serious disorders and diseases if the poison is allowed to remain in the blood. As the blood becomes more and more polluted with the malarial poison, the digestion becomes deranged, chills and fever are frequent, skin diseases, boils and carbuncles, and sores and ulcers break out on the flesh, and after awhile the foundation is laid for other diseases which either prove fatal or permanently undermine and wreck the health. Malaria can only be worked out of the system through the blood. Purging the liver and bowels with strong, nauseating cathartics can never remove the trouble because they do not reach the blood where the germs are constantly multiplying. The only hope for a cure is a remedy that can destroy the germs and microbes, and neutralize the bad effects of the poison, and S. S. S. is the medicine to accomplish this, because it is a perfect blood purifier and a general systemic remedy of unequalled value. S. S. S. searches out and removes every trace of the malarial poison and puts the blood in such rich, healthy condition that sallow, anaemic complexions take on the ruddy glow of health, the liver and digestion are righted, the appetite improved, the system vitalized and strengthened, and every symptom of Malaria passes away. Malarial persons will find S. S. S. not only a prompt remedy but a gentle, pleasant acting one, as well as a certain cure for this disease. Besides removing the cause of Malaria S. S. S. builds up every part of the system by its fine tonic effects. Persons living in a malarial section should, at this season, fortify their systems against this insidious disease by purifying their blood with a course of S. S. S. Book on the blood and any medical advice desired sent free of charge.

### Critic From Crockett.

My attention was attracted by a communication in the News a week or so ago from Rev. S. F. Tenney of Crockett, a most conservative and aged minister of the Presbyterian church, who has for many years been pastor of the Crockett church. He is of all men little disposed to appear in print, hence from this fact and from my knowledge of the man he was deeply moved when constrained to send that communication criticising Senator Bailey for his comparison between Jesus Christ and himself. This is not Mr. Bailey's first offense in his misuse of the Scriptures. The truth is whenever he goes to the Bible it is to get something to glorify Bailey and degrade Jesus Christ to his level. In all of my reading of public men and great men of their utterances, etc., there is not one, from Patrick Henry down to the present day, with so little reverence and the sense of the fitness of things as to make such application of the scriptures as Senator Bailey.

Mr. Bailey is a brilliant man, an extraordinary man, therefore the more inexcusable. Why should he persist in giving offense by allusions that shock such men as your contributor from Crockett? Jesus Christ, while a man, is much more than a man. He is divine and an object of worship. It would be an impossible search to find in Mr. Bailey's life or words anything that would justify his classification with Jesus Christ. Modesty is not a fault with Mr. Bailey.

### Where's There's a Will There's a Way

Cowardice sits and whines. "I can't." Courage forces success. C. A. Ward entered our college last year with only \$33 to take a bookkeeping and business course. He paid this on tuition and material, did janitor work to pay the rest, worked on Saturdays and at odd times to pay his board. The day he graduated, he had paid his tuition, all expenses, had \$20 cash and a \$50 a month position secured by the college, waiting for him.

Such courage and determination as this always win respect, admiration, aid and success. Another young man entered with us with less than \$10. He paid his way, board and tuition by janitor work, milking, cutting wood, etc. Business men admired his pluck and aided him. He completed, did the official reporting for his district for four years, and is today the respected head of a growing college.

Another young man quit work in a saw mill, in debt, borrowed the money to come to our school for a combined course of bookkeeping and shorthand, brought his wife with him, and did light house-keeping. The day he finished his course we placed him in a good position at \$65 per month. He has advanced until he is now getting more than \$100. What would weakness, fear, have done for these young men? What did stamina and will power do? Emerson says, "Do what you are afraid to do." We say, strike out boldly. There are no obstacles that brave hearts cannot surmount. Toil is the open sesame to wealth, and the brightest crown is won in the dust of the arena. Make your arrangements to enroll with us at an early date. 162 page, beautifully illustrated catalogue can be had free for the asking. This catalogue is complete in the description of our work, the success of our graduates and the way they have pleased their employers. Address Tyler Commercial College, Tyler, Texas, the school that has a little over seven years, grown from 13 students to an annual enrollment of from 1,000 to 1,500 students coming from 37 different states, and a number of foreign countries.

By 9, 1907. 12th. The statute of three years possession and limitation alleging that the plaintiffs and those under whom they claim have had and held under a color of title from and under the State of Texas peaceable, continuous and adverse possession of said land, 13th. The statute of five years possession and limitation, alleging that the plaintiffs and those under whom they claim and whose estate they have had peaceable continuous and adverse possession of said lands, cultivating, using and enjoying the same paying all taxes due thereon for a period of more than five years, claiming same under deeds duly registered.

That upon the said 1st day of August, 1907, and now, the defendants were and are asserting some character of ownership and title to said land, asserting the same as accrued to them by virtue of their relation to and heirship of the said Jos. F. Lewis, deceased, and the said Jno. D. Sennett, deceased, and the said Ellen Sennett, deceased; the said claim as asserted cast a cloud upon the title of these plaintiffs to said land and interfered with their making a use of same, that if the defendants have any other claim to said land, the same is unknown to the plaintiffs.

Plaintiffs pray that defendant be cited in terms of law to answer this petition and for judgment quieting their possession, removing all cloud cast upon their title by virtue of said claim, and that the title to said land be vested out of the defendants and into the plaintiffs, for costs and for general relief.

Herein said not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Witness, R. W. Murphey, Clerk of the District Court of Nacogdoches County.

### Who Should Be Boss.

Once upon a time a youth who had commenced to navigate the sea of matrimony went to his father and said:

"Father, who should be boss, I or my wife?"

Then the old man smiled and said: "Here are 100 chickens and a team of horses. Hitch up the horses, load the chickens into the wagon, and wherever you can find a man and his wife dwelling stop and make inquiry as to who is the boss. Wherever you find a woman running things leave a chicken. If you come to a place where the man is in control give him one of the horses."

After seventy-nine chickens had been disposed of, says the San Francisco Chronicle, he came to a house and made the usual inquiry.

"I'm the boss of this lanch," said the man.

"Got to show me."

So the wife was called, and she affirmed her husband's assertion.

"Take whichever horse you want," said the boy.

"So the husband said: 'I'll take the bay.' But the wife didn't like the bay horse, and called her husband aside and talked to him. He returned and said: 'I believe I'll take the gray horse.'

"Not much," said Missouri, "you'll take a chicken."

**DEAFNESS CANNOT BE CURED** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for Circulars free. F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

With a good corn crop, peanuts and vegetables, the people of East Texas can make money without raising cotton.

With the sound of saw mills and the pine timber falling, makes one proud he is a son of Texas soil, and it indicates that our country is moving to the front with rapid pace. Any person visiting our county should visit the saw mill on pay day and they would see Nacogdoches county is leading East Texas in work.

"We never repent of eating too little," was one of the ten rules of life of Thomas Jefferson, president of the United States, and the rule applies to everyone without exception during this hot weather, because it is hard for food, even in small quantities, to be digested when the blood is at high temperature. At this season we should eat sparingly and properly. We should also help the stomach as much as possible by the use of a little Kodol for indigestion and Dyspepsia, which will rest the stomach by digesting the food itself. Cold Springs Meeting.

Editor Sentinel.

Garrison, Tex., Aug. 26.—The two weeks Baptist camp meeting at Cold Springs, closed Sunday night, Aug. 15. It being very dry the meeting was not as good as was expected. There were 27 accessions to the church; 17 by baptism, 7 by letter and 3 by restoration.

Rev. T. W. Fowler closed a two weeks meeting at Garrison 3 weeks ago which resulted in 87 additions to the church. He has in five weeks added to the churches 133. The earnest pleadings of Bro. Fowler were attentively listened to by all present. Bro. Fowler is physically worn out. This meeting has been a great meeting. John Powers, Clerk.

Those who have stomach trouble, no matter how slight, should give every possible help to the digestive organs, so that the food may be digested with the least effort. This may be done by taking something that contains natural digestive properties—something like Kodol For Indigestion and Dyspepsia. Kodol is a preparation of vegetable acids and contains the very same juices found in a healthy stomach. It digests what you eat. Sold by Stripling, Haselwood & Co. dw

Old Folks Party.

Mrs. Henry Rusche gave a novel and very delightful party Saturday afternoon in honor of Grandma Rusche. A number of Grandma's old friends were present, among whom was Grandma Ingraham, who is over 90 years of age. Mrs. L. P. DeMouche assisted Mrs. Rusche in entertaining the old folks, and it goes without saying that they had a very pleasant time. Each guest was furnished with a thimble, needle and thread and a piece of cloth, and were told to make whatever article came into their mind. Some made bonnets, some aprons, some pockets, others caps, and so on, and it was indeed an amusing and interesting sight to see those old women sewing, many of whom could hardly see the cloth they were sewing. A prize, a silver thimble, was given to the old lady that made the best article, and Grandma Dunson and Grandma Hamilton tied for the prize. They drew straws to decide the contest, and Grandma Hamilton got the thimble.

After the contest was over, the old folks were marched into the dining room where a salad course and delicious cream and cake were served by little Misses Allie Rusche and Haydee and Adeline DeMouche, each dressed in red silk uniform.

Each of the guests was given the thimble she used as a souvenir.
