### CARRIED TO RUSK.

**Dr. Lockhart Removed at His Own Request.**

From Wednesday's Daily.

Sheriff Blackburn left for Rusk this morning with Dr. J. J. Lockhart, where he will be placed in jail to remain until his trial, unless he should be released on bond upon the order of the court of criminal appeals before that time.

It will be remembered that Dr. Lockhart was denied bail upon habeas corpus hearing before Judge Perkins, but appeal has been taken to the court of criminal appeals, and Attorney Geo. S. King argued the case before that court at Tyler today.

It is said that Dr. Lockhart was removed to Rusk upon his own request because he did not want to be in jail here with the condemned negro, Dock Bailey.

### SHAKE IN A BOTTLE.

Advice of Authority Also a Simple Prescription.

Now is the time when the doctor gets busy, and the patent medicine manufacturers reap the harvest, unless great care is taken to dress warmly and keep the feet dry. This is the advice of an old eminent authority, who says that Rheumatism and Kidney trouble weather is here, and also tells what to do in case of an attack.

Get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Mix by shaking in a bottle and take a teaspoonful after meals and at bedtime.

Just try this simple home made mixture at the first sign of Rheumatism, or if your back aches or you feel that the kidneys are not acting just right. This is said to be a splendid kidney regulator, and almost certain remedy for all forms of Rheumatism, which is caused by uric acid in the blood, which the kidneys fail to filter out. Any one can easily prepare this at home and at small cost.

Druggists in this town and vicinity, when shown the prescription, stated that they can either supply these ingredients, or, if our readers prefer, they will compound the mixture for them.

We know of one remedy that will cure Rheumatism. It is called Rheumazone, and is manufactured by O. P. White, Rusk, Texas. All druggists sell it at \$1.50 per bottle, which is very cheap for such a remedy. It is said to be as sure a cure for Rheumatism as White's Head-Ease is for headache.

### The Official Count.

Postmaster H. H. Cooper, under instruction from the postoffice department, last week counted every piece of mail handled in the Nacogdoches postoffice during the seven days. The total number of pieces handled was 12,187.

### County Court.

The November term of county court will convene on Monday, November 18, and the following order has been made by Judge Mims:

The criminal docket is set for the first week and will continue to and including Wednesday of the the second week.

The probate docket will be called for orders on Wednesday of the second week at 1:30 p. m.

The jury civil docket is set for Thursday of the second week.

Non jury civil and probate docket is set for Monday of the third week.

### AMONG THE SCHOOLS.

County Superintendent Tillery Tells of Existing Conditions.

Editor Sentinel.

My school visits began with Oak Grove (North Church). This district has a new house, patent desks and a 20 cent special tax. With these I hardly see why they should not have good schools. Almost invariably good schools will follow good conditions.

At Hickory Flat the spirit of work seemed to prevail. The best school is that school where the pupils do the most work. Let every school in the county, small or large, be a working school. The song, "Scatter Seeds of Kindness," written on the board, and the children taught to sing it at the morning exercises.

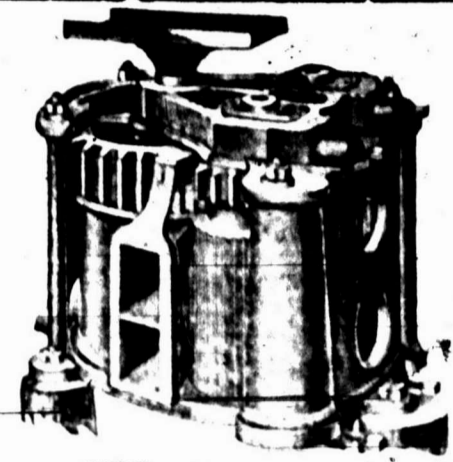

When we reached Mahl we expected to find the teacher, W. E. Feazell, armed with the birch rod, teaching the "Rule of Three," but instead he was armed with "hammer and saw" ceiling the school house. There were about a dozen men at the school house, while another squad was off making desks. I now record Mahl as one of the best school points in the county. Watch and see.

At Caro two of the trustees, Messrs. Odell and Seelbach, visited the school with me. All were at work. Work seemed to be the motto, and a better one never was adopted. The trustees are preparing to order patent desks. Caro people do things. Let me say here that the White-man-Decker Lumber company puts some \$500 a year of their private funds into this school.

Linn Flat is a small school. Their house is small yet comfortable. The school fund in this and all small schools should be supplemented in some way. The children in the small schools should have as long terms of school as the larger schools. This is my doctrine. Why not?

At the Owensville school they are badly in need of a school house. I hope the people will build one next spring or summer. We noted the entire school was girls, except two small boys. We were informed that the boys worked at the "mill." If we did not misunderstand the teacher, he has enrolled twenty-four girls and three boys. Why should not parents give their boys a chance in school as well as their girls? Who will answer?

Trawick is a splendid school. They have a good house. The trustees have ordered patent desks, and when they are in, their school conditions will be fine. The Trawick people voted a special tax last spring. They believe when you get a thing worth while you have to pay

### "Nails."

"Nails are a mighty good thing—particularly finger nails—but I don't believe they were intended solely for scratching, though I used mine largely for that purpose for several years. I was sorely afflicted and had it to do. One application of Hunt's Cure, however, relieved my itch and less than one box cured me entirely." J. M. Ward, Index, Texas.

### The Way to Find Out

Try a bottle of Royaline oil, the great antiseptic, and you will then use nothing else of its kind. That's the way they all do. Why? simply because it gives the best value for the money. It is stronger and has greater power to ease pain. If you want it weak like the others add water to suit and save your money. Pleasant as a perfume. Clean and safe. Guaranteed under the Food and Drug Act. 10c, 15c, 50c. Money back if you want it. For sale by Stripling, Haselwood & Co.

MANY a man will admit there is a financial stringency on today.

THE farmer who breaks his land for next year's crop before the fall freezes begin, has sense enough to grow peanuts.

EVERY other town in Texas is securing a decent and commodious passenger depot through the influence of the railroad commission. Why not Nacogdoches?

A CLEVELAND, Ohio, woman wants a divorce from her husband because he makes a noise when he eats soup. However, that is not half so conducive to matrimonial infelicity as the noise the Austin Statesman makes about pumpkin pie.

THE manufacturing industries in Nacogdoches are all running on full time. This includes the two bottling works, the oil mill, five planing mills, the big Hayward mill, the ice factory, the show case factory, the handle factory, the iron foundry and machine shop, the cigar factory, chili factory, and numerous smaller concerns.

THE Psalmist says: "The heavn, even the heavens are the Lord's; but the earth hath He given to the children of men." And for what purpose? It seems to scramble, fight and speculate over. Let those who possess pieces of the earth be content with their lot, and become more content still by diversifying their crops.

If we work upon marble, it will perish; if we work upon brass, time will efface it; if we rear temples, they will crumble into dust; but if we work upon our immortal minds, if we imbue them with principles—with the just fear of God and our fellow man—we engrave on those tablets something which will brighten to all eternity.—Daniel Webster.

THE alleged money stringency is having no effect on the Garrison Gleaner man. Hear him: "The Gleaner editor has 'managed' for an interest in a saw mill—it ain't one of those little measly 2x4 saw mill either—a real 50,000 capacity mill—but the Gleaner will not suffer in the transaction. Miss Jennie Mills, our capable foreman, will direct the paper for a while. However, we will find time to write a line now and then 'for the good of the country.'"

THE Paris Advocate says: "When it comes to boosting the average Texas newspaper is in the game right. Nearly every paper that reaches this office is having something to say about some particular crop especially adapted to its locality. They are advising the planting of peanuts next year, raising more hogs, hens, mules, onions, and many oth-

from the one-crop plan. The Advocate is something of a booster, too, if any one should ask you. It is much easier to boost than to knock, besides it makes a man sleep better."

THE Center News expresses the belief that the privilege of calling in the rangers is being abused in East Texas, and that it is giving the country a bad name abroad. The Sentinel is of the same belief. Local affairs and the enforcement of the laws should be entrusted to the officers and people of a community or county, and in no instance should there be outside interference until it has been demonstrated beyond a reasonable doubt that the officers with the citizens' help can not enforce the law. Speaking on this point, the News says: "Their appearance in a community is more often demoralizing than otherwise, and it were better that the local officers summon from among the better class of citizenship of a community such assistance as is deemed necessary to control local interruptions. The rangers are a good thing with which to run down desperadoes and train robbers, and guard the frontier sections of the state where martial law is necessary, but we maintain that East Texas—so prone to boast of its civilization—is making a mistake in calling them on every little pretext."

Why do People Go to Church? In a recent issue the Universalist Leader discusses in an interesting manner a question which church goers have been accustomed to view from another angle. Asking first, "Why Do People Go to Church?" it says:

"Not why people do not go to church, but why do they? What do they go for? There is a good deal of speculation on the part of the ministers, and there have been a good many experiments in trying to supply the need which calls them to the altar. It is not easy to determine and lay down general rules. Ian Maclaren has a suggestion which, from his experience, he volunteers to the ministers when he says: "The review of the past has convinced me that while preaching has various ends, the chief one ought to be comfort. It is useful in its way to explain the construction of the book of Isaiah, and to give the history of Hebrew literature; but it is better to minister the consolation of Isaiah's fifty-third chapter to the weary heart. No one can blame a preacher for the exposition of Christian dogma, but his words will be more welcome when they declare the Christ himself, of whom dogma at its best is but the imperfect and perishable garments. The preacher is justified in attacking sin with righteous designation of soul and with burning invective of words; but perhaps he would come more quickly at his purpose if he turned the sinner from his sin by causing him to fall in love with goodness."

NACOGDOCHES is weeping copiously for better streets and sidewalks.

LAW: Farmers Must Label Vessels Containing Ribbon Cane Syrup.

The following important ruling on the new pure food law has been made by Hon. J. S. Abbott, state dairy and food commissioner. It is of special interest to all farmers who manufacture ribbon cane syrup for market. The ruling follows:

Denton, Tex., Oct. 23.—My Dear Sir:—Replying to your letter of the 16th inst., addressed to Attorney General R. V. Davidson who referred it to me for answer, in regard to the sale of Ribbon Cane Syrup by the farmers of your section:

Section 15 of the "Pure Food Law," known as the Blanton Pure Food Law, relates to the sale of molasses and syrups in the following language:

"Sec. 15. No person shall offer or expose for sale, have in his possession with intent to sell or exchange, any adulterated or mixed molasses, sorghum syrup or glucose, unless the barrel, cask, keg, can, pail or other vessel containing same be distinctly branded or labeled upon the principal label with compound of naming the substance of such compound or mixture and its percentage. Such barrel, cask, keg, can, pail, or other vessel shall be branded or labeled in a conspicuous place; and such brands or labels shall be in letters of not less than eight point brevier."

We are of the opinion, and we so rule that it is necessary, for the farmers to label or brand such articles named in Sec. 15 as they manufacture for sale. Such label or brand should state clearly what the article is, which should be followed by the name and address of the manufacturer. For the convenience of the farmers I should say that it will be sufficient if they use a small brush and marking ink, such as is used for marking boxes or bales of cotton if they prefer to use this, or perhaps it would be easier to stick a piece of paper on the barrel with a little paste made of flour and water, writing the name of their article and their own name and address on this.

Letter From Dalhart.

Dear Sentinel. Dalhart, Tex., Oct. 30.—The weather continues beautiful, and notwithstanding the statement made by a clipping reproduced in The Sentinel of recent date, the inhabitants here do not know of any snow storm on the 2nd of this month or any other time this fall. The storm described did actually take place October, 1906.

Yesterday we took a delightful drive over the prairie. We heard that Mr. Blair's herd of Buffalos had gotten out, and we went out to see. Mr. S. was full of ambition to help round them up, but I, secretly trembling at the prospects of seeing a Buffalo loose on the prairie. We found the Buffalos, twenty-five in number, all at home again, and Mr. Blair assisting

in mending the fence. From there we went to the Experiment Farm, where the new well 345 feet deep is just finished, and the large field of plowed ground gives promise of results for next year.

Last evening a Baptist friend asked Mr. S's permission to baptise a lady in the natatorium. He not only gave permission, but gave assistance, and we both went to witness the baptism. It was very solemn and interesting and as the minister went down into the water with his charge and laid her underneath the dark water, I shivered, it was so cold; but she came out bravely. The tank in the natatorium is 82x22 feet, ranging from 4 to 8 feet deep, and is a very popular resort in the dear old summer time.

I have just returned from a two mile walk; that is doing very well for one who could not walk a block without great fatigue two weeks ago.

Dalhart requires its citizens to put in cement sidewalks and the work is under headway; three different companies are working. Mr. S. is having some fine work done around his premises. In my next I'll tell you when I'm coming home.

Emma B. Shindler.

It Will Pay.

Last spring C. R. Nash planted thirty acres of land in long staple cotton. As expected, the yield of such cotton is about the same as other cotton per acre this year; however, it takes 1700 pounds of seed cotton to make 470 pounds of lint, while 1700 pounds of ordinary cotton will make a 550 pound bale. But it is to be remembered that the ordinary cotton sells for 12 cents, the long staple 17 1-2 to 22 cents per bale. Now a 470 pound bale at the lowest estimate, 17 1-2 cents, is worth \$82.25; a 550 pound bale of the other kind at 12 cents is worth \$66.00, or a difference of \$16.25 in favor of the long staple.

Mr. Nash has submitted a sample to a dealer in long staple, and has received the statement that the lint is good length, measuring 1 3-8 inches. Should he get 20 cents for his entire crop, as he expects, he will realize a very handsome profit over and above that which would have been his had he planted the ordinary staple.

NACOGDOCHES and Shelby counties are getting up a bad reputation for murders, and other counties in East Texas are at a disadvantage on account of it.—Tyler Courier and Times.

That there are entirely too many murders committed in Nacogdoches county is admitted, but the criminal docket of Smith county is also pretty well loaded with murder and criminal assault cases. In the mean time Nacogdoches county is averaging one hanging a year.

THE Nacogdoches Sentinel has quit fussing with the ice man; perhaps The Sentinel gets his money's worth now.—Timpson Times.

Yes; this is the season of our discontent made glorious when we all get even with the ice man.

A Boston schoolboy was tall, weak and sickly. His arms were soft and flabby. He didn't have a strong muscle in his entire body. AND \$1.00.

ANOTHER BURGLARY.

Express Office Broken Open and Valuable Packages Extracted.

Some one broke a window in the warehouse of the Wells Fargo express company at the passenger depot last night and stole a package containing two suits of boys' clothing. The package had been placed on the truck preparatory to being loaded on the car last night, and was within reach of the burglar from the outside.

A window in the same building was broken Sunday night and a package extracted, but it was found next morning lying in the street near the depot.

It is evident that the burglar in each case was after whisky, but they failed to secure it.

The Wells Fargo Express company has offered a reward of \$100 for the arrest and conviction of the thief in each case. So far there is no clue to the perpetrator.

REPORT FROM ROGERS.

He Writes About the Situation at San Augustine.

The following is from the Austin Statesman of Friday: According to a report received yesterday morning by Adjutant General Newton from Captain J. H. Rogers, who with his company of state rangers is at San Augustine, everything is quiet there, but the situation is not too reassuring. Captain Rogers writes that the inquest proceedings are progressing rather slowly as it is hard to get the witness to testify, most of them being negroes and they appear to be afraid to testify. Captain Rogers says that several arrests may soon be made. He then goes into a detail of the several tragedies which have occurred in that county during the past ten days, most of which has already been made public.

Letter to S. Mintz. Nacogdoches, Texas.

Dear Sir: Experience teaches some people sometimes; it teaches a few some things; it's mighty slow shool though, that same experience.

Lots of people paint lead-and-oil, paint once in three years, and think themselves wise; they are wasting half their money and fuss. They're so sure they are wise, they die as they live, paint-foolish. Experience teaches them nothing.

There's another set, who buy paint by the gallon, and go by the price of a gallon. They think one price is high, and another is low; and they pay about middling; why don't they pay low? They know that milk isn't dear or cheap by the price of a quart; that the milk has something to do with it. They don't buy "cheap" milk, but they buy "cheap" paint and pay double. Experience teaches them nothing.

There's another set. They painted years ago lead-and-oil; exhausted that. Then tried something else; it was better or worse. Then Devoe; it cost about half and wore twice as long. That's how experience teaches some of us.

F. W. Devoe. P. S.—Mast Bros. & Smith sell our paint.

Jack Garrison, the latest addition to the Gleaner force, returned from Nacogdoches Monday. Jack spent all of last week in the hub city with relatives.—Garrison Gleaner

NOTICE

To the People of Nacogdoches County Who Suffer With Eye Diseases or Deformities:

Remember that Dr. Adams has a branch office in Nacogdoches and visits this office once a month. He is prepared to cure you of any eye trouble known and proven by science to be curable. Hundreds of people in East Texas will testify to this fact. He has references from many who were led to him and now see to read. Call and ask for names and investigate this matter if you suffer with granulated lids, ingrowing lashes, cataracts, Pterygiums, dropped or deformed lids, lid tumors, overflow of tears, falling of lashes, ulcers or iritis, or in fact any eye trouble. You will find that he is quite an expert in the cure of eye diseases and deformities. He has spent fifteen years in this line of practice and is ready to prove any claim he makes, and guarantees results. His next date at Nacogdoches is

Nov. 15, 16 and 17 Worthy poor people cured free of charge. Office at Banita Hotel

**KIDNEY TROUBLES**

MISS KATE A. HEARN

The kidneys are essential organs for keeping the body free from impurities. If they should fail to work death would ensue in very short time. Inflammation or irritation caused by some feminine derangement may spread to some extent to the kidneys and affect them. The cause can be so far removed by using Lydia E. Pinkham's Vegetable Compound that the trouble will disappear. When a woman is troubled with pain or weight in loins, backache, swelling of the limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys, she should lose no time in commencing treatment with

**Lydia E. Pinkham's Vegetable Compound**

It may be the means of saving her life. Read what this medicine did for Kate A. Hearn, 520 West 47th Street, New York, who writes:— "Dear Mrs. Pinkham:—I owe a debt of gratitude to Lydia E. Pinkham's Vegetable Compound for it has saved my life. I suffered with kidney trouble, irregularities and painful periods, and my blood was fast turning to water. I used your medicine for some time and it has made me strong and well."  
Lydia E. Pinkham's Vegetable Compound made from native roots and herbs cures Female Complaints, such as Falling and Displacements, and Organic Diseases. Dissolves and expels Tumors at an early stage. It strengthens and tones the Stomach, Cures Headache, General Debility and invigorates the whole system. For derangement of the Kidneys in either sex Lydia E. Pinkham's Vegetable Compound is excellent.

Women suffering from any form of female illness are invited to write Mrs. Pinkham, at Lynn, Mass., for advice. It is free.

**Dr. Castleberry's Case.**

From Constable Will Stone, who returned from Lufkin this morning, it is learned that the grand jury of Angelina county indicted Dr. J. K. Castleberry for murder in the second degree, and that he was released on \$2000 bond. His case will likely come up at the present term of court.

It will be remembered that Dr. Castleberry killed a man named Will Jarrell, at Keltys front a few weeks ago, and that the killing was done in self defense.

**RACE RIOT THREATENED.**

San Augustine in the Throes of Much Excitement.

The following is taken from the Center News of October 30:

The news comes from San Augustine that a race riot has been imminent for several days, and the force of rangers has been re-inforced with three more members of the company who were despatched from Austin at the request of Capt. Rogers, who is in command at San Augustine. Capt. Rogers wired the adjutant general yesterday, however, that he now had the situation under control, but it is learned from other sources that the rangers will remain in charge until all the recent killings are investigated, and some arrests will probably be made in connection with the two negroes who were killed a few days ago, when it is expected the crisis will come.

**INVITE A TEST.**

Stripling, Haselwood & Co. Ask Catarrh Sufferers to Try Hyomei on Their Guarantee.

Stripling, Haselwood & Co. invite all who suffer from any form of catarrhal trouble to get a Hyomei outfit from them with their absolute guarantee that if it does not give perfect satisfaction, the money will be refunded upon request.

There is no other treatment for catarrh that in any way resembles Hyomei, none that gives such quick curative results and lasting satisfaction, no medicine that can take its place, none that can be sold on a guarantee like this, to refund the money unless it cures.

Catarrh is a germ disease and can be cured only by breathing Hyomei, so that the most remote air cells in the nose, throat and lungs are reached by its antiseptic healing powers. In this way all catarrhal germs are killed, the irritated mucous membrane is healed and catarrh is driven from the system.

This wonderful medicated air treatment does not drug and derange the stomach, but is breathed through a little pocket inhaler that goes with every outfit.

The unusual way in which Stripling, Haselwood & Co. sell Hyomei attests their confidence in the remedy.

Joe P. Clevenger was up from his mill today, and he reports that with the exception of the reduced price of lumber, his interests are suffering no more inconvenience than usual.

**Biliousness and Constipation.**

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive function, helping the system to do its work naturally. Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by Mast Bros. & Smith.

**DR. PAUL RELEASED.**

Slayer of Short Granted Bail in Sum of \$10,000.

Marshall, Texas, Oct. 31.—Dr. R. A. Paul of San Angelo, charged with the murder of C. B. Short of Center, was granted bail this afternoon in the sum of \$10,000, which was promptly furnished.

The application for bail contained in the habeas corpus proceedings before Judge Buford was warmly contested by District Attorney H. O. Beard and H. B. Short, an attorney and brother of the man for whose death Dr. Paul is being held. More than a hundred witnesses from Center and Carthage were in attendance at the hearing.

**AS OTHERS THINK.**

Everyone in Nacogdoches Has a Right to His Own Opinion.

While everyone has a right to his own opinion, yet it is wise to always consider what others think, and profit by their experience.

Nothing makes life so miserable, or interferes so widely with the usefulness of the average American as indigestion, and it is well for us to give fair consideration to what others think about this remarkable affliction.

Stripling, Haselwood & Co. are positive that in Mi-o-na stomach tablets they have an absolute cure for indigestion and the many disagreeable symptoms that follow this disease, such as distress after eating, coated tongue, bad taste in the mouth, dizziness, flatulence, nervousness and debility.

Their action in selling Mi-o-na on a guarantee to refund the money unless it cures, shows plainly their belief in the value of this remedy. They take all the risk, and there will be no charge whatever for Mi-o-na unless you are satisfied that it has relieved you of indigestion.

William Burrows Passes Away at His Home Near Tubbe.

From Thursday's Daily:  
Mr. Wm. M. Burrows died this morning at his home near Tubbe, about twelve miles south of Nacogdoches. He was taken sick last Monday from the effects of a rising produced by a thorn piercing his hand, which was lanced and from which blood poison set up. However, he had been somewhat feeble for a year or more.

He was born at Burrows Cove, in Grundy county, Tennessee, about the year of 1835. His father, David Burrows, and his mother who was a King, moved to Texas and settled in two miles of this town about 1850. Bill Burrows, as he was generally called, was widely known in Texas. His first wife was a Coats, his second a Spinks, and his third wife a Grace, all now dead. He leaves two or three grown children living, and several grand children. He was a brother of Dock and Hense Burrows, and he has many relatives.

Bill Burrows held a deputyship under many sheriffs, beginning back with Dick Orton, Capt. Mast and John Spradley. He was a most deserving officer, and helped Capt. Mast arrest the noted Bill Longly, and was with John Spradley in the arrest of the desperate Link Waggoner. Both of these prisoners had tragic experiences and sudden deaths. He possessed many noble traits of character, a high sense of honor and a heart full of humanity, and he had friends who were warmly attached to him.

He was a Mason, and to use the sentiment of the beautiful order, "let us cast a veil over his faults." He will be buried at North church tomorrow with the honors and rites of the Masonic order.

To his many relatives and friends The Sentinel extends tenderest sympathies.

**Raising Peanuts.**

A news item from Emory says: "Representative of the peanut factory of Terrell, Texas, has bought a car of peanuts. The farmers are realizing 90c per bushel at the car and the yield is from 50 to 60 bushels per acre, which makes good money to growers. The acreage in peanuts for another year will be large, as this price will make the farmers more off their land per acre than cotton at 10c per pound when the yield is one bale per acre. There are quite a number of farmers coming here from other sections buying lands, expecting to engage in growing peanuts for the market."

We wouldn't advise every one to quit everything else and raise peanuts, but it does seem that it is paying crop, and as it is an easy crop raised, it would be a good thing for our people to investigate.

GILES M. HALTOM, MANAGER.

OUR CHIEF NO MORE.

There is no language at our command by which we can fittingly portray the beauty and sincerity of the life and character of R. W. Haltom; and in the experience of a lifetime the writer of these lines can safely say that he never met a man who seemed to more nearly walk hand in hand with the people among whom he spent his life. Conscience guided his every act. He was a model of mental industry in his efforts to entertain, instruct, lift up and better the condition of his people. He was strictly honest in the service he rendered. In short, he was not only a model christian, but he was an honorable gentleman in the highest sense that term implies. To man, woman or child, saint or sinner, he always extended a cordial greeting that lent a ray of light to brighten their pathway in the journey of life. He commanded the respect of all sects and classes of people, as the attendance at his funeral this morning fully verified. Truly he was one man of whom it can be said that his people did not wait until the thread of life was severed to fully appreciate his true worth. But as we caught a glimpse of the snow white sail that bore him away to the distant shore, we awakened to the realization that a good and righteous man had been taken from our midst.

It was not the writer's good fortune to have known him as long and well as did the majority of the citizens of Nacogdoches and of Nacogdoches county, but we knew him to esteem him more as the years passed by. Today we miss his kindly smile and friendly greeting; we long in vain to hear the ring of his jovial laughter and to feel again his genial presence. Only yesterday we sat before his bier in the home that has been the scene of his happy days. Today we stood by his open grave as the last sad rites were performed, and as the clay of earth closed above his silent resting place, we said with the poet:

"Cold in the dust the perished heart may lie,  
But that which warmed it once can never die."

As we stood beside his grave this morning in fancy we could see him—not in death's cold shroud of sorrow and despair, but smiling upon us from the golden path of the sun as he traced his course toward the sunset halo that marks God's farewell to the day—smiling with all the well remembered grace of his manhood, love and devotion, and saying to us:

"All is well."

He was a devoted husband and a kind and indulgent father, a tender brother and an affectionate son, and to his friends the soul of fellowship. But the greatest of all was he as a man. And as a man it is that those who knew him best most love to contemplate him. He believed in the fatherhood of God and the

brotherhood of man. His last words were expressive of peace in God and a willingness to depart and be at rest with Him. His cheerful, helpful life; his devotion to his wife and family and his kindness to everybody; his faithful, patient service to the people in whose interest he has devoted his talent and his means, will long linger as a fragrant memory in the home and the community which his presence brightened and which death has darkened. Though he is gone his record has been made, and will remain with us as a lasting treasure. And to these mourners whose names are legion we will say that he is not dead, he is only asleep—resting after a long and well spent life here; he cannot and would not if he could return to us; we can if we will go to him.

Behind the storm clouds always lurks the rainbow and when the storm is past it weeps upon the flowers of the land and the pearls of the sea. Darkness precedes the dawning and out of the blackness of the night comes the sunshine and joy of the day. And so from the beauty of his life take an inspiration and go forth to live as he lived, so that when the summons comes you may say as did he, "All is well."

LAI D TO REST.

Death and Burial of Hon. R. W. Haltom.

Died, at his home on South Fredonia street, in the city of Nacogdoches, Monday, Nov. 4, 1907, at 10 o'clock a. m., Honorable Richard William Haltom, aged 50 years, 8 months and 6 days.

Deceased was born near Mt. Enterprise, Rusk county, February 26, 1857, and in early childhood moved with his parents to Nacogdoches, where he spent practically all of his life. He was the son of J. H. and Adeline Haltom, and the eldest of ten children.

In 1877, at the age of 20 years, he began work in the office of the Nacogdoches News under R. D. Orton, and he has been connected with different newspapers in Nacogdoches in every capacity of the profession ever since.

In 1884 Mr. Haltom established the Nacogdoches Star, afterwards consolidating it with the Nacogdoches News. In 1889 he and his brother, Giles M., re-established the Chronicle, and he remained with that publication for several years, when it was finally merged with the Star-News, and the name changed to the News-Chronicle.

In 1899 he and W. H. Harris established the Daily Phone, afterwards changed to The Sentinel, and his name has stood at the mast head of this paper as its editor in chief from that day to this.

Among the civic offices of trust held by Mr. Haltom was that of Justice of the Peace of Precinct 1, clerk of the district court of Nacogdoches county, and representative in the legislature. It was while serving his people in the latter official capacity that Mr. Haltom contracted the dread malady that caused his death. February 2, 1882, he was

married to Miss Louvinia Chapman, daughter of Mr. and Mrs. L. H. Chapman, who resided in the Trinity community, four miles east of Nacogdoches. To them four children were born, two dying in infancy, and an only son and a daughter—Maury and Ruby—are left with the heartbroken widow to mourn his death.

Mr. Haltom was a member in good standing of the following fraternal orders: LaNana Lodge No. 106, Knights of Pythias. Milam Lodge No. 2, A. F. & A. M. Liberty Elm Camp No. 210, Woodmen of the World. Alabama Tribe No. 103, Improved Order of Redmen. He was also a consistent member of the Methodist Episcopal church South for many years.

This is briefly portrayed a few of the most important incidents in the life of the man whose death we mourn today. Death is a hard master. He would take from us our brightest and best, but he cannot even mar memory. And this will serve as a balm to our wounded hearts.

The funeral services were held at the City Cemetery at 10 o'clock this morning under the auspices of Milam Lodge No. 2, A. F. & A. M., and in the presence of the largest concourse of people that has assembled in this ancient city of the dead in many years, it indeed the gathering has ever been exceeded in numbers.

On arrival of the funeral cortege at the cemetery, the casket containing all that was mortal of R. W. Haltom was borne by loving hands to the grave, where the remains of a useful man and a priceless citizen were consigned to its tenement of clay.

After a scriptural reading, prayer and a brief tribute to the life and character of the good man by Rev. J. W. Mills, pastor of the Methodist church, the beautiful and impressive burial service of the Masonic fraternity was, conducted by District Deputy Grand Master V. E. Middlebrook.

And when the grave had been filled, the mound was literally covered with the most beautiful floral designs loving fingers ever wrought.

As an indication of the esteem in which Will Haltom was held by the people of Nacogdoches, every place of business in the city closed from 10 o'clock till noon to-day out of respect to his memory, and the teachers and pupils of the Nacogdoches High School attended the funeral in a body.

Sheriff Noble is satisfied that the negro who killed John-Head about a year ago is now in jail in Oklahoma.

A negro was arrested there several days ago for robbery, who gave his name as Bud Lewis of San Augustine, Texas. On close investigation, it is found that he suits the description of Alfred Sharp who is wanted here for murder. DISSOLUTION  
COST SALE  
STILL CONTINUES

The people are showing their appreciation of this opportunity to buy goods at actual manufacturers' cost, and they should continue to do so as long as the sale lasts. We are often asked the question: "Are the Kaplan Brothers really going to dissolve partnership, or is it just a bluff to unload?" It is not a bluff; it is an actual fact. Mr. H. Kaplan is positively going to retire from the business, and absolutely every article in the house is reduced to actual cost until the entire stock is disposed of. Don't wait till the cream of the stock has been picked over, but come now before the stock is too badly broken. Now that the season of cool weather is at hand and all of our stock is composed of seasonable goods, the people are taking advantage of this opportunity to buy their fall and winter clothing, shoes, hats, dress goods, etc., at manufacturers' cost. If you have not done so you should take advantage of this opportunity at once. Remember that your blood is thin; don't wait until the frost cracks your bones from the lack of winter clothes. A stitch in time will save half a dozen any old time and under any circumstances, and by buying your goods from us you will not only save money but may save a doctor's bill.

This entire stock must be sold by the first of January, and unbelievers will be kicking themselves for failing to take advantage of this golden opportunity when they realize that it is too late.

#### SAN AUGUSTINE TROUBLE.

Another Explanation of the Unfortunate Disturbance There.

From the Beaumont Enterprise.

San Augustine, Oct. 29.—A prominent citizen of San Augustine was seen by your correspondent today and gave the following version of the trouble in this city, which culminated in the request to the governor to send state rangers to San Augustine. He said:

"The trouble originated on Saturday night, the 18th inst., at the section house at San Augustine, in which Lewis Head was shot twice and Jack Davis was killed in a row with the section hands.

"It seems from the best information that can be obtained that Head was drinking, and that he had no business whatever at the section house. I am unable to say just how the row started. However, the shooting of these two white men seemed to create quite an excitement with a certain class of people, living at and around San Augustine, and they proceeded to take the law into their own hands and terrorize the negroes, giving them to understand that the entire negro population would have to leave the county.

"On Tuesday, following the first killing, while Sheriff Noble was out of town looking for the negro who shot Davis and Head, some six or eight men went south of town about one mile where two inoffensive negroes were at work cutting wood for William McDonald. They proceeded to riddle these negroes with buckshot, and left them where they killed them, and on the same evening the negro church house and school house about two miles south of town was burned. The good citizens of San Augustine, believing in law and order, and were not willing that this class of men should take the law in their hands, thought best to have the governor send rangers here to handle the situation, as the men causing the trouble had refused to lay down their arms.

"Things seem to be very quiet at this time, and the rangers will have things in their own hands and everything settled in the next day or two."

### A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicinal properties which it extracts from native medicinal roots and herbs in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in soothing chronic or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hang-on chronic coughs, bronchial and hyaline troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from the lungs, that it has performed its most marvellous work.

Prof. Finley Ellingswood, M. D., of Bennett Med. College, Chicago, says of glycerine: "In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of pruritus (hoarseness) and gastric acidity. "Golden Medical Discovery" enriches and purifies the blood, clearing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

### A Serious Charge.

Walter Walker was lodged in the Center jail Monday on a charge of seduction. He is alleged to have enticed two girls away from their widowed mother at Joaquin, one under promise of marriage and other promise of employment, carried them to Louisiana and then back to Tenaha for immoral purposes. He was arrested at Tenaha Sunday night. The injured parties are said to have stood very high in the estimation of the Joaquin people among whom they lived.—Timpson Times.

### Appendicitis.

## SKIN DISEASES

### HUMORS IN THE BLOOD

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condition and giving it a hard, leathery appearance. Acne makes its appearance on the face in the form of pimples and black heads, while Psoriasis comes in scaly patches on different parts of the body. One of the worst forms of skin trouble is Salt Rheum; its favorite point of attack is the scalp, sometimes causing baldness. Poison Oak and Ivy are also disagreeable types of skin disease. The humor producing the trouble lies dormant in the blood through the winter to break out and torment the sufferer with the return of Spring. The best treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble because they do not reach the blood. S. S. S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

### Grocers—Clean and Unclean.

In the November number, Woman's Home Companion gives these impressive figures in its campaign for clean grocery stores:

"There are eighty-four million people in the United States. For their food twelve billion dollars are spent annually,

"Eighty-four million stomachs to be fed this year at a cost of twelve billion dollars. Allowing as a very small average that half the marketing will be done by mail, telephone or through solicitors and children, forty-two million people will be fed by women who do not know nor do not try to know their grocers; and six billion dollars' worth of food will be bought without the supervision of the woman who knows her grocer. This food distributed by grocers, clean and unclean, includes nearly 3,000,000 tons of sugar, 884,667,028 pounds of coffee, 175,000,000 pounds of prunes, 17,854,768 bushels of rice, 84,000,000 barrels of flour and 84,000,000 pounds of tea.

"All these commodities must be handled by various clerks and delivery men before they pass from the grocery store to your pantry. Don't you think it is about time you got acquainted with your grocer and his helpers? Are the men and boys who handle the food for your family worthy of the trust?"

### A Significant Prayer.

"May the Lord help you make Bucklen's Arnica Salve known to all," writes J. G. Jenkins, of Chapel Hill, N. C. "It quickly took the pain out of a felon for me and cured it in a short time. Best on earth for sores, burns and wounds. 25c at Mast Bros. & Smith's drug store. dw

### HIDDEN DANGERS.

Nature Gives Timely Warnings That No Nacogdoches Citizen Can Afford to Ignore.

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well, kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

Danger signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here's Nacogdoches proof:

Eli Box, farmer, living one and a half miles from Nacogdoches, Texas, says: "I have suffered for years with my back and numb feeling in my legs. At times the flow of the kidney secretions were excessive, and sometimes as clear as spring water. At other periods it was scanty and highly colored and accompanied with a burning pain in the neck of the bladder. Since using Doan's Kidney Pills I have been greatly benefited, and can recommend them to others similarly afflicted."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's,—and take no other.

W. W. Walker, a good citizen of Swift, Nacogdoches county, is in the city, having been called here by the trouble of his son. Mr. Walker is a native of the county, his father having lived on the Attoyac, near the county line, when he was born, at which time Texas was a republic. He spent four years of his young manhood in the arms, under the flag of the Confederacy, and is still proud of the service he rendered his county, and would shoulder his old musket again if he felt that the cause of his country needed his services. Mr. Walker is very much distressed over the trouble which his son has gotten into, and like the true father, came over to render whatever assistance he could in his behalf. He is a nice old Southern gentleman, and those of our citizens who meet him will sympathize with him.—Center News.

Lee Carter spent yesterday and last night in the city in the interest of the Texas Five Million club, and remained over today to attend the funeral of the late R. W. Haltom.

The ills peculiar to women, take different forms. Some ladies suffer, every month, from dark rings round their eyes, blotches on their skin and tired feeling. Others suffer agonies of pain, that words can hardly express. Whatever the symptoms, remember there is one medicine that will go beyond mere symptoms, and act on the cause of their troubles, the weakened womanly organs.

### Cutting Scrap.

Ella Johnson and Lucy Moore, two colored female residents of Jones street, became involved in a difficulty this morning, in which a chair and knife were used. The Moore woman received two cuts in the fracas,—one on the head and the other in the back, and another woman who posed as peace maker was considerably carved up. Both the combatants were arrested by Constable Stone.

### THE MONEY SITUATION.

The papers from all over the state, and indeed from pretty much all over the United States, show that the banks have adopted the policy of limiting cash payments so as to hold a money reserve on which to continue doing business; and in many towns and cities the merchants, and others having money in the banks, have met and passed resolutions endorsing such action. The Nacogdoches merchants are all willing to sell their goods and take checks on the local banks, which they deposit immediately in the banks to their credit, and thus the local trade in town is affected very little by the curtailment of actual currency. Eight million dollars of English gold reached New York yesterday, with twenty-four million more on the way, and the situation there, where the trouble first started, seems to be getting easier. The writer has talked with parties from other cities who say that in 1893 the money market was about as bad as it is today, and yet in a short time the stringency passed away and everything worked along as usual.
