**SHREVEPORT GOES DRY.**

Pros Carry Caddo Parish by a Majority of 62.

The prohibition election held in Caddo parish, Louisiana, yesterday resulted in a victory for the pros.

The total pro majority in the parish was 62. The city of Shreveport gave an anti majority of 256, but this was overcome by the country vote, which gave a pro majority of 318.

The Shreveport Times states that anti prohibitionists may contest the election. This action, if taken, it is said, will be based on the ruling of the election commissioners that no one could vote who had not registered 30 days prior to the election. It is also reported that the breweries will contest the election on the ground of intimidation of voters. This contest, if made, will be based on a circular issued to the negroes by both prohibitionists and antis, warning them not to go to

the polls on election day, as the election was to be determined by the white voters.

**For County Judge.**

Attorney George H. Matthews has yielded to the solicitation of numerous friends from different portions of the county, and submits his name to the voters of Nacogdoches county for the office of county judge. Mr. Matthews is too well known to all the people of this county to need any introduction through The Sentinel. He was born and reared at Mount Enterprise, in Rusk county, but for a number of years he has been a citizen of this county. He is a lawyer of much ability, and is eminently qualified for the position and duties of county judge.

When you want the best, get DeWitt's Carbolyzed Witch Hazel Salve. It is good for little or big cuts, boils or bruises, and is especially recommended for piles. Sold by Stripling, Haselwood & Co.

**FIRST DEGREE MURDER.**

Indictments Returned Against Three San Augustine Boys.

Beaumont Enterprise.

Hon. E. A. Cheatham, district attorney for the First judicial district, reached the city last evening and gave Sheriff Ras Landry the capias, based on indictments returned by the San Augustine county grand jury, charging Louis Jenkins, Henry Head and Charles Alvis with murder in the first degree.

These men are charged with killing two negroes in San Augustine county, near the town of San Augustine, several months ago, and a condition was created in that county bordering on mob violence, which resulted in Governor Campbell ordering a detachment of the State ranger force, headed by Captain Rogers, to San Augustine county, and later the three men indicted were brought to the Jefferson county jail for safe keeping, where they have since been confined.

Judge Cheatham stated that now that the men have been indicted that the Sheriff of San Augustine county would come for them at an early date and remove them to San Augustine county, where they would be given a speedy trial.

**B. D. Roberts Dead.**

We are pained to record the death of Bruno Durst Roberts, which occurred last Sunday morning at 7 o'clock at his home four miles southeast of town. He was the youngest of six brothers, sons of John F. Roberts, and grandsons of the well known pioneer, Jno. S. Roberts, first American owner of the noted old Stone Fort property on the Northeast corner of the public square in this city. His aged mother, who is a native Texan and was here in the days when events occurred that shaped the destiny of our Lone Star State, is left to mourn his loss, and so are his five brothers and four sisters—Mrs. H. R. Hyde, Mrs. Tom R. Jennings of Fort Worth, Mrs. Harry May of Huntsville, and Mrs. Geo. R. Walker of San Antonio. There are many other relatives, and while Bruno Roberts was a quiet unpretentious man, he was a true gentleman, and we tender our sympathies, as will the general public, to the grieving hearts left behind.

His disease was cancer of the face. He was operated on in Galveston last summer. He was buried at Fairview Monday.

**The Price of Peace.**

**SAVE THIS ANYWAY.**

Put in Safe Place, for it May Come in Handy.

Here is a simple home-made mixture given by an eminent authority on Kidney diseases, who makes the statement in a New York daily newspaper, that it will relieve almost any case of Kidney trouble if taken before the stage of Bright's disease. He states that such symptoms as lame back, pain in the side, frequent desire to urinate, especially at night, painful and discolored urination, are readily overcome. Here is the recipe; try it:

Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Take a teaspoonful after each meal and at bedtime.

A well-known druggist here in town is authority that these ingredients are all easily mixed at home by shaking well in a bottle. This mixture has a peculiar healing and soothing effect upon the entire Kidney and Urinary structure, and often overcomes the worst forms of Rheumatism in just a little while. This mixture is said to remove all blood disorders and cure the Rheumatism by forcing the Kidneys to filter and strain from the blood and system all uric acid and foul, decomposed waste matter which cause these afflictions. Try it if you aren't well. Save the prescription.

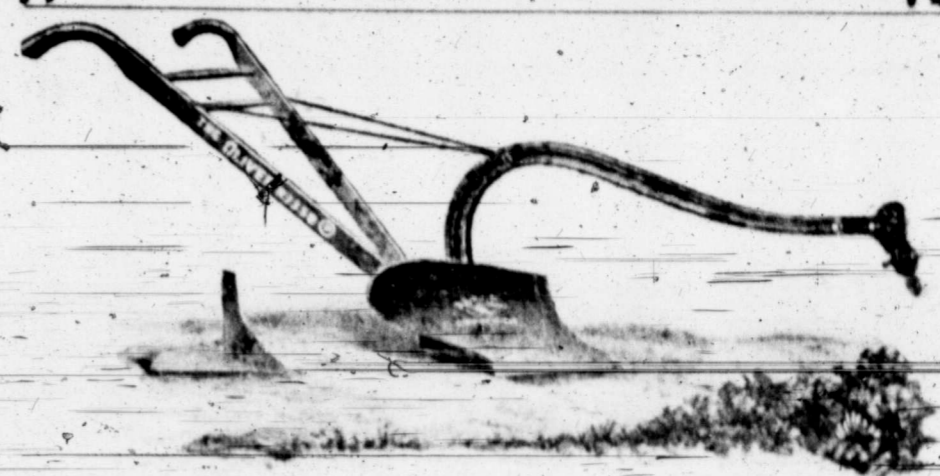

**An Old Publication.**

Mr. D. A. Lee of the Snady Grove community brought to The Sentinel office a few days ago a copy of the Clarksville, Tennessee, Record, dated April 18, 1816. This old paper has been in Mr. Lee's family for nearly a century, and is prized almost as much as if it were a sheet of bank notes. It is only a half sheet of two five column pages, and though quite dingy with age, it is well preserved. The paper contained very little matter of general interest, with the exception of some announcements for presidential elector, the candidates in each instance pledging their support to James Monroe for president and Daniel D. Tompkins for vice president. The paper is an heir loom, and will no doubt be preserved and cherished by the family for many more years to come.

**For County Commissioner.**

Mr. Robert T. Fain, a farmer who resides five miles north of the city, is announced as a candidate for county commissioner in Precinct No. 1. Mr. Fain formerly lived in Nacogdoches, and has been a resident of this precinct for fourteen years. He is well known to the voters as an honorable, capable man, and it elected will make an excellent county commissioner.

**For the Farmers**

We have one of the most complete stocks of Oliver and Avery Breaking Plows, Harrows, Hames, Traces, Plows and Plow Points ever brought to Nacogdoches, and will appreciate your plow business.

**Cason, Monk & Co.**

**Commissioner, Precinct 4.**

Mr. D. C. Crockett Mast is a candidate for county commissioner in precinct No. 4. Mr. Mast is one of the old time citizens of Nacogdoches county, and knows every man, woman and child in his precinct. He served as member of the commissioners court for several years, and he made a faithful, efficient and popular official. He is a man of good judgment and sound business ability, and if elected again will make a good commissioner.

Mrs. Larkin Lee died last week at the home of her daughter, Mrs. Tom Burrows, three miles east of town, and was buried at Fairview cemetery. Mrs. Lee was 86 years old. She is well known and highly respected in this county and has many friends who grieve to learn of her death.

**TEXT BOOK BOARD.**

Superintendent Davis Granted Leave of Absence by Trustees.

Prof. R. F. Davis, superintendent of the Nacogdoches schools, left Monday for Austin to attend a meeting of the state text book board, of which he is a member.

At a meeting of the school trustees last Saturday Prof. Davis was granted leave of absence for such time as may be required to attend the meeting, which may be for several days. In the meantime Prof. John E. Rosser, the efficient principal of the High school, is acting in the capacity of superintendent during Mr. Davis' absence.

In the mean time, go at once and pay your poll tax.

Keep the county fair in mind, and begin now to prepare for it.

Have you a poll tax receipt? If not, go to the tax collector and buy one.

It is Nave Nacogdoches, "nave" in this instance meaning the hub; and Nacogdoches, you know, is the hub of East Texas.

The day is dawning for gum wood, says the Beaumont Journal. Let us hope that it may supplant the gum shoe politician.

STUMP ASHBY is a member of the Oklahoma legislature, having been elected as a democrat. But then stranger things have happened even in Oklahoma.

JUDGE John M. Duncan has tendered his resignation to Gov. Campbell as representative in the legislature from Smith county. Judge Duncan contemplates moving to Houston.

The Sentinel can state authoritatively that there will be no reduction in the price of poll tax receipts after the first of February, but they will be less useful, if not secured before that date.

The Farmers Union has gone on record for diversification. It is hoped that every member of the union will stick to the pledge. That is the only sure method of bringing the price of cotton up to 15 cents and holding it there.

JUDGE Sam R. Scott, of Waco has resigned his position as district judge, it is said, to enter the race for congress against Congressman Bob Henry. If this be the Judge's reason for resigning there is going to be a warm time down about Waco way this spring and summer.

The boiler room of the Lutkin ice plant was damaged about \$1000 by fire a few days ago. The Daily News, in reporting the fire, says: "Immediately after arriving at the plant, the firemen connected a string of hose to a hydrant in the rear of the ice house but after turning on the water they found that the pressure was not sufficient to force the stream through the hose." Poor Lutkin! Too bad, too bad.

The Dallas Times-Herald says: "Senator Culberson is not a candidate for vice president and would not accept a nomination on a gold platter. Senator Culberson never plays second fiddle. He is a first and not a second class statesman." Thanks for this information. But just to keep the record straight, The Sentinel will venture the assertion that the esteemed T. D. does not know what it is talking about. Senator Culberson is a patriot.

## OUR CITY GOVERNMENT.

The gentlemen filling the various offices of the city are the finest kind of fellows personally, and The Sentinel does not propose to criticize them from that standpoint for a single instant, but from an official standpoint it is different. There is only one way to escape public criticism and that is to keep out of office. Since these gentlemen are holding office, they are bound to come in for their share. In a great many instances criticism is unjust or comes from lack of information. In this case a little information would go a long way, but it is a mighty hard thing to get.

A few years ago the city of Nacogdoches was reincorporated and a tax of 25 cents on the \$100 valuation was considered sufficient to meet the expenses of city government. A little later it was decided that this sum was too small and an additional 10 cents on the \$100 was levied by the city council. This proved too small and the city fathers said we must pay 15 cents more, making a tax of 50 cents on the \$100. This does not include the water works tax of 25 cents on the \$100, which, when added together, makes a total of 75 cents. Now where does this money go to and for what is it spent, is what the tax payer is interested in. Of course it is honestly disbursed, but what have we to show for the disbursements? The town is not decently lighted; the streets are just about as ragged, filthy and poorly kept as can be to make any pretense at being kept up at all. On a windy day several wagon loads of old scrap paper can be seen dodging around corners and banking up in gutters—if the gutters are not already full of very foul smelling mud—or on the sidewalks, creating a veritable fire trap.

We are informed that 25 cents on each \$100 valuation is for a street and bridge fund, and in addition to the tax levied there is an additional \$4.00 collected from every able bodied man inside the corporate limits between 21 and 45 years of age. In addition to the tax levied, which is about \$4,800 the sum is increased about 1,200 from the \$4.00 collection, making a total of \$6,000 for keeping up the streets and bridges. Now then, if there is a single street within the corporate limits of the city of Nacogdoches that can be called a first class dirt road, or a sidewalk that can be called a decent foot path—barring a little paving done by private individuals—we want somebody to come and tell us quick so that we can go and look at it.

With this much money properly used we ought to be able to get streets and sidewalks that would be a credit instead of a disgrace to the town.

A few days ago a visitor in town called at The Sentinel office and during the conversation remarked that if Nacogdoches had a few streets and two or three decent side-

walks that he thought that we might get free mail delivery. We blushed and tried to apologize, but we could never get up the courage to tell him that we had been trying for two years to get the streets marked and houses numbered, but had failed to get even that far along.

Our Congressman has introduced a bill asking for a \$70,000 appropriation for a public building for Nacogdoches, and should he be lucky enough to get the money appropriated, what would be the report sent back by the agent sent here to see about the building? If there is anything on earth that would puzzle a government official, the erection of a fine building in a town with nothing but foot paths for sidewalks would likely be it.

For fear we might create a bad impression abroad, we will not try to say it all at once, but we do hope the city officials will stir things as they have never been stirred before in this old town.

If all the money in the world were divided each person would have about \$30. Texas Tit-Bits.

And here we are with only 30 cents.

EDITOR G. W. Carter of the Cushing Enterprise announces his candidacy for justice of the peace for precinct No. 7, the Cushing precinct. In his address to the voters Mr. Carter says: "I feel that I am as well qualified as the average justice throughout this section. I want the office for what there is in it, and I believe that I can better provide for my family with the revenues added to the receipt of my present occupation. I realize fully the responsibility of the office and won't promise to make no mistakes." He also promises to enforce the law without fear or favor.

FRANK BUSHICK, Washington correspondent of the Houston Post and Fort Worth Record, writes those papers that W. J. Bryan will have considerable opposition for the democratic nomination for the presidency at the Denver convention. It is stated that this opposition will come mostly from the Democrats of the east and middle states, who predicate their antagonism to the Nebraskan on their belief that he cannot get as many votes next year as he got in 1896, and for that reason he cannot be elected, and that it would be suicidal for the party to again make a hopeless race under his banner. "This movement against Bryan's nomination," says Mr. Bushick, "first showed itself in tangible form at the December meeting of the national committee in Washington. A large number of the committeemen including several from the South, admitted they did not believe the party could win with Mr. Bryan, but the southern members declined to aid any organized effort to turn the tide in another direction." It does not require much wisdom to see that this is a move for some other candidate, but it will not work. Bryan will be the man, and he will be elected.

## CAUSE OF TOBACCO

### Night Riders in Kentucky Are Fighting the Trust

The raid on Russellville, Ky., by "night riders," which resulted in the destruction of nearly \$100,000 worth of property and the wounding of three persons, the refusal of the tobacco growers to accept the proposition of the American Tobacco Company for the purchase of tobacco and the announced intention of the growers to proceed against the American Tobacco Company in the courts, following Governor Wilson's statement that the lawless element will be severely dealt with, have brought to an acute stage a condition which has existed in Kentucky and Tennessee for two years.

Conference at Frankfort between a representative of the American Tobacco Company and the tobacco growers has resulted only in transferring the matter to the heads of the company in New York for consideration.

The situation is the result of a fight of the growers of tobacco against the American Tobacco Company and other purchasers, and the present situation is best explained by the following recounted sequence of events in chronological order:

First—The apparent passing of the leaf tobacco market in Kentucky and Tennessee into the control of the American Tobacco Company, with the consequent elimination of nearly all the middlemen or independent tobacco buyers and rehandlers.

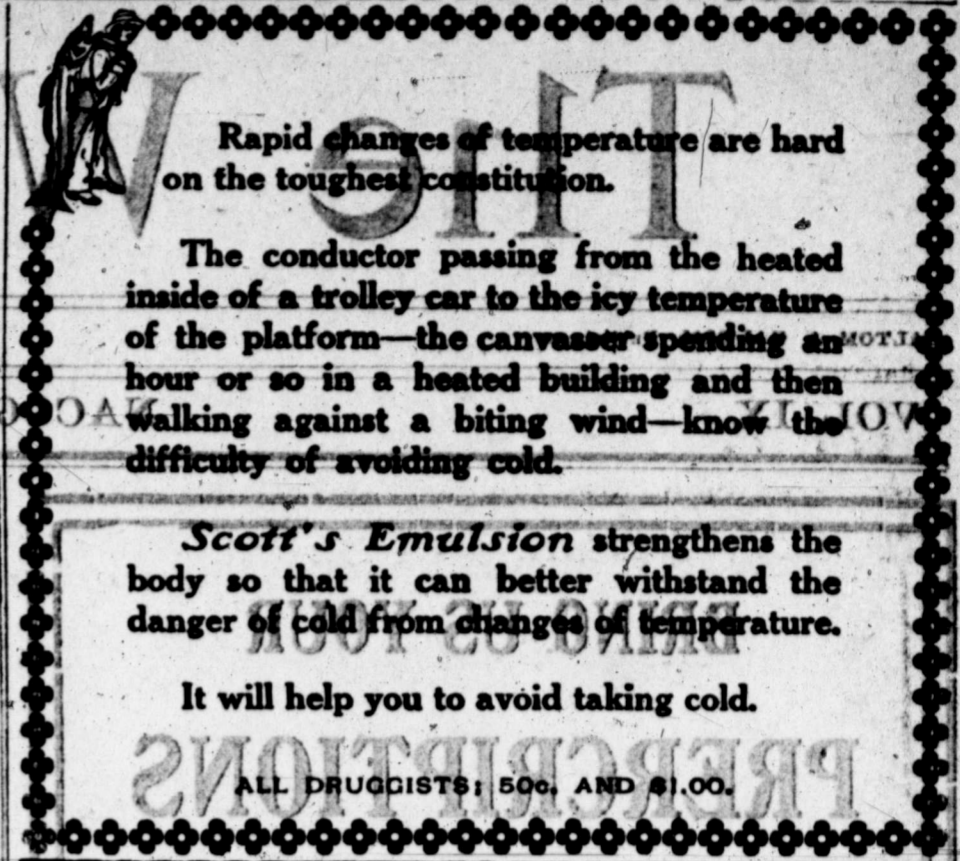

Second—The awakening of the farmers the situation and the formation by them of the American Society of Equity and two subsidiary organizations the Burley (light colored leaf) Tobacco Association and the Dark Tobacco Association, with the purpose of producing and holding their crops until they could obtain what they held would be a fair price from the American Tobacco Company and affiliated concerns.

Third—The failure of the attempt by the farmers societies to win over a sufficient majority of the growers to enable them to compel the company to pay the price demanded.

Fourth—The ostracism and party persecution directed against the "independents," the farmers who were unwilling or unable to pool and hold their crops of tobacco, and who sold to the "trust."

Fifth—Whipping of tobacco buyers and farmers who sold their crops, destruction of beds of young tobacco plants, burning of tobacco barns containing the harvested crops of independents, shooting into homes, and the wounding of innocent persons among them being women, and the warning to retractory independents to leave the country.

Sixth—The culmination of mob spirit in bold attacks on Princeton, Hopkinsville and Russellville, towns of from 4000 to 10,000 inhabitants, which raids resulted in the dynamiting and burning of

Rapid changes of temperature are hard on the toughest constitution.

tobacco warehouses controlled by the American Tobacco company, the killing of several of the raiders and the wounding of a number of citizens and the destruction of property owned by innocent neutrals because the raiders refused to allow the fire departments to work.

The pooling societies now have on hand part of their 1906 crop and all of their 1907 crop. Although they control 50 per cent of the crop the American Tobacco company, supplementing its purchases from the large "independent" interests, has apparently yet been pinched for tobacco. This fact, combined with the consideration that the company has the longest purse, has moved the societies to start a movement, now in full swing, pledging the members not to plant any crop at all during 1908. By this course they hope to force a higher price for the 1907 crop and also to shorten the supply so that the company will have to come to terms.

From the too frequency of fires in the old historic little city of Nacogdoches it would seem certain they have a fire fiend somewhere thereabouts. He should be hunted down and sent to the penitentiary for the remainder of his days upon earth. Society has no need of a single fire fiend. Arson is a despicable offense against mankind.—Austin Statesman.

The sentiment expressed in the above is shared by every fair minded citizen of Nacogdoches. There is no question but that the last big fire in this city, when nearly \$200,000 worth of property was destroyed, was the boldest sort of incendiarism, but what is being done to bring to justice the despicable fiend that was responsible for it? Again we ask, what, if anything, is being done? And if nothing, who is blocking the investigation, and why?

A QUESTION before a Michigan judge is: "What composes a sausage?" We may now expect to hear the worst.—Beaumont Enterprise.

Whatever may be the court's decision, mystery will still hover around the question, "What decomposes the sausage?"

EDITOR Att Pinkston of the Timpson Enterprise is a candidate for county clerk of Shelby county. Newspaper men make the best officials of any class of men on earth, and Editor Pinkston is no exception to the rule.

## For an Intercoastal Canal.

Congressman Cooper, who has been at home at the bedside of a very sick daughter, has returned to congress, his daughter being now convalescent, and it is hoped he can and will give his personal attention to the proposal to construct an intercoastal canal. That will make every foot of land in Texas more valuable. It will be worth many millions of dollars to this state. It is the biggest thing for Texas that ever was or likely for many years to come will ever be. Our congressmen should see that the necessary appropriation is made for it. It will require a big one, but it is worth it.

## The Dove of Peace.

On Saturday the daily papers reported the dove of peace hovering over the deliberations of the members of the Farmers Union conference called by President Neill at Fort Worth. Next morning the papers reported a rift and a probable split in the union. Our news columns yesterday contained the particulars, so far as known, but it is not at all likely that the dissatisfaction is so bad as the article indicates. It is charged that several prominent members of the union have been guilty of trying to mix up the order in politics. When such a thing as that is accomplished the usefulness of the union will end. The union has given promise of great usefulness, especially in the lines of a sane policy in diversification in crops, and in methods of selling their cotton, and we would regard it as a great calamity if the organization should fall to pieces or into the hands of the politicians. For this reason we shall hope that the indications pointed out in the article we referred to may not materialize.

## Almost Persuaded.

Judge James I. Perkins has been swinging around the circle feeling of the political pulse with the view to determining whether or not he will enter the race for congress. In reporting his visit to Beaumont, the Enterprise says:

"Judge Perkins stated to some of his friends that he had about yielded to their desire to have him make the race for congress from the Second congressional district, but that he was not yet prepared to make his formal announcement."

A MOOTED QUESTION.

Ca'dwell County Commissioners to Reduce Treasurer's Salary. The commissioners court of Nacogdoches county has for some months had under consideration the proposition of cutting down the commissions to be allowed the county treasurer, thereby reducing his salary. This question seems to be mooted one in other counties in the state, and in some instances the commissioners courts have acted.

AFTER a lapse of twelve months the Henderson Times has been revived and a copy of the first issue made its appearance at this office last week. The Times is in its 34th year, and is one of the oldest newspapers in Texas, having been edited and published for more than twenty-five years by Hon. R. T. Miller, present commissioner of agriculture of Texas. The new publishers are Messrs. Ramsey & Barrett, Editor Ramsey having formerly represented Shelby county in the legislature.

CONGRESSMAN Cooper has introduced a bill authorizing and directing receivers to sue and be sued in any court of competent jurisdiction. The bill is offered to protect poor people who have good causes of action against corporations in hands of receivers, but who are unable to attend and prosecute their case in the courts where the receivership may be pending. "If the bill I have introduced becomes a law," said Representative Cooper, "it will obviate these hardships and correct those abused."

It is currently reported in Nacogdoches, and in other points in the district, that Nacogdoches will likely have a candidate in the field for district judge of the Second judicial district, in the person of Judge C. D. Mims. Judge Mims is a good clean man, well qualified to fill the office of district judge, and if he should decide to make the race it is doubtful if he will have an opponent. Judge Mims is now serving as county judge of this county under appointment of the commissioners court, having been unanimously elected by the court to fill out the unexpired term of the late W. G. Ratcliff, who was elected to that position at the last election, and Nacogdoches county never had a better county judge than Judge Mims has made.

THE Orange Leader says: "Judge James I. Perkins of Cherokee is being carefully groomed by some of his friends for the congressional race in the second district, and at least one newspaper, the Rusk Press Journal, has come out openly in advocacy of his candidacy. There are several congressional aspirants in the north end of the district, whose booms are being carefully nursed, with a view to springing them on the public at the proper time." Will the Leader name the "several congressional aspirants in the north end whose booms are being nursed?" Who are they?

THOSE newspapers and politicians which are doing their utmost to rend the Democratic party in Texas in twain, have a ready and willing ally in the Texas Republic, a republican sheet published at San Antonio, as the following from that paper will show: "Attorney General Davidson will not stand as a candidate for re-election to that position on any ticket headed by Thomas M. Campbell for Governor. That is a tip that will stand an affidavit." No one believes that Attorney General Davidson would run for re-election as an independent, and all know that Governor Campbell will head the Democratic ticket after the primaries.

Farmers Meeting.

Mr. G. W. Orms, special agent of the United States department of agriculture and bureau of plant industry, was in the city today and arranged for a meeting of farmers in this city on February 1, when Mr. Orms will explain the objects and purposes of the government demonstration work in Texas.

At this meeting Mr. Orms will discuss:

- 1st. Deeper breaking of the land in the fall.
- 2nd. Securing and planting the best varieties of cotton and corn.
- 3rd. The use of all barn yard manures and commercial fertilizers.
- 4th. Early and intensive cultivation of the growing crop. The product of both can be doubled if properly understood and followed.

Mr. Orms is desirous of meeting all farmers who want to try to raise from fifty to one hundred bushels of corn per acre, and from one to two bales of cotton per acre. There will be a number of good speakers present and it is desired at this meeting to get the names and addresses of as many farmers as possible, who want to increase their yields of both cotton and corn by the methods above enumerated.

First Blood for Cooper.

A recent special from Washington says:

The first bill by a Texan to pass the house was Representative Cooper's bill detaching Shelby county from the Tyler division and attaching it to the Beaumont division of the federal court. Under the guidance of Col. Cooper, the bill was shot through the house in a minute and a half. No trouble for the measure is expected in the senate.

MR. WEEKS REPLIES.

Resents Use of His Name in Shreveport Times.

Editor Sentinel.

Nacogdoches, Tex., Jan 14. — I have been handed a copy of the Shreveport Times of January 8, in which my name has been used without my knowledge or consent, in what might be termed a prohibition document, over the signature of A. J. Spradley; and while Mr. Spradley handled my name very courteously, I deny his right to have used it at all without my consent; especially out of this state, where I feel but little interest in the administration of their affairs. While my name was not coupled with Mr. Spradley's statement as to the causes of our numerous fires in the last twelve or fifteen months, but as my views are so widely at variance with his, I feel it might be well to state that I have never thought for a moment that any of the fires we have had were the work of an incendiary, save the one on January 3, of this year. But I do not believe that the question of prohibition or its effects, if any, had the remotest connection with these fires. It is the opinion of the citizens of this town that the fire we had recently was of incendiary origin, but never for one moment could I believe that any self respecting business man could sink so low as to stick fire in the very heart of the city with no knowledge whatever as to the extent of destruction of property of the town, and at the same time jeopardize human life, for the sole purpose of collecting a few dollars of insurance. The inhabitants of hell itself would be alarmed at the approach of a demon of this magnitude. It seems to me that the enormity of such a crime would deter any man of reasonable intelligence who had been raised in a christian land. So far as I am concerned I would prefer to owe every man in Texas and know that I never could pay one farthing than to contemplate a deed of this character one minute.

As to my views on the subject of prohibition, and my actions regarding same, they could have been easily ascertained by any one at any time. I have never been afraid nor ashamed to express my views on any public question. At the same time I have never paraded them before the public unsolicited.

Nearly four years ago Nacogdoches county held a prohibition election. The day before this election I made the statement that if I were considering the business interests of this town only, I would not have prohibition to prevail for five hundred dollars, but that I was going to vote the prohibition ticket, which I did. In this election prohibition carried by an overwhelming majority. Of course we then had what is called a dry town.

At the end of nearly two years the commissioners court was petitioned to order

# FIRE DAMAGE SALE

Some of our stock was damaged by moving from the house the night of the fire, January 3rd, and the insurance company has made a liberal settlement with us for damages suffered, therefore we are enabled to put these goods on sale at reduced prices. The main articles which we are offering are in the Shoe Department. They have only been damaged by breaking the boxes, therefore we are compelled to dispose of these shoes at a very reduced price.

All these shoes are without boxes, so we want to close them out before they get dusty.

NACOGDOCHES, TEXAS

another election on the same question, and while my views had undergone no change regarding this question, when this second election was pulled off I voted another pro ticket.

So I feel that no man has made a greater sacrifice than I have from my point of view to maintain the morals of the town. The man who believes that prohibition would not effect the business of the town deserves no credit for voting the pro ticket. But I think in the affairs of this life that there are questions that are of more importance than accumulating money, and upon this theory I voted the prohibition ticket.

I wish to state in this connection that a large per cent of the citizens of Nacogdoches do not believe that prohibition has effected the business of the town in the least, and many of these men are far more intelligent and have a much wider range of business experience than myself. Notwithstanding all of this, I frankly admit that I do not share their opinion on this particular feature of the question.

I notice a clipping from the Timpson Times in which it states that "Nacogdoches is going to the dogs as fast as it can travel." This is a broad cast declaration; yes, a reckless statement for the Times to make when it knows so little of the facts. The Times may have discovered a canine tendency in some of the citizens of Nacogdoches, but

so far as I am concerned I have never been able to locate this class. The plain inference of the Times is that the ants are dogs. They may be wrong on this proposition, but I can say that many of the best men I ever knew live in this city, and are anti-prohibitionists; and some of the best that ever inhabited this mundane sphere are prohibitionists, and some on both sides are below par. Therefore, I have not been able to locate the dogs by their vote on any other public question.

I am sorry that I felt it necessary to make the foregoing statement, for there is nothing more repugnant to me than newspaper controversy between neighbors, and I hope this will be the last communication I will feel called upon to write for publication. Respectfully,  
J. M. Weeks.

Death of Mrs. Crockett.

The Sentinel learns with deep sorrow of the death of Mrs. Crockett, mother of Rev. Geo. L. Crockett, rector of Christ church of this city, which occurred at the home of her son in San Augustine last Friday night.

Mrs. Crockett was a noble christian woman, and much loved by the people in the community in which she had lived for many years. The friends of Bro. Crockett in this city sympathise with him deeply in his sad bereavement.

The remains of his beloved mother were laid to rest in the cemetery at San Augustine last Saturday afternoon.

Mount Moriah Musings.

Stoker, Jan. 14. — The sound of an axe from the back of the farm and the plow boy calling out to his horse, make one believe that the recent money panic has put a move on our farmers.

Judging by the way the candidate tree is budding, there will be a full crop. Now is the time for everybody to pay their poll tax so he can have the right to prune up the tree when election day comes.

There are too many men who do not take the pride in his country and home as he should; and just mention letting the fair ladies of our land walk up to the box to vote and they will begin growling like some old cat that can't eat all that is given to it, and will not let any one else have it. And if the same fellow who is in the cat crowd were at home at work instead of pressing brick or out on some goods box swapping stories—was at home at work and helping his wife control their son and keep him in the school room, our country, schools and children would all be helped.

Miss Maymie Wratten visited home folks Sunday.

The Prosser saw mill will be in operation in a few days.

**ALL RUN DOWN.**

Miss Della Stroebe, who had completely lost her health, found relief from Pe-ru-na at Once.

Read What She Says:

MISS DELLA STROEBE, 710 Richmond St., Appleton, Wis., writes: "For several years I was in a run-down condition, and I could find no relief from doctors and medicines. I could not enjoy my meals, and could not sleep at night. I had heavy, dark circles about the eyes. "My friends were much alarmed. I was advised to give Pe-ru-na a trial, and to my joy I began to improve with the first bottle. After taking six bottles I felt completely cured. I cannot say too much for Pe-ru-na as a medicine for women in a run-down condition."

**Pe-ru-na Did Wonders.**

Mrs. Judge J. F. Boyer, 1421 Sherman Ave., Evanston, Ill., says that she became run down, could neither eat nor sleep well, and lost flesh and spirit. Pe-ru-na did wonders for her, and she thanks Pe-ru-na for new life and strength.

**In Memoriam.**

On December 22, 1907, the death angel visited the home of Mr. and Mrs. J. J. Lovelless and claimed for its victim their only child. Weep not, dear parents, though it was hard to give her up, but the Lord giveth and the Lord taketh. He needed one more precious little bud to shine upon his throne, and so He reached down and took your darling baby to a better world where no pain or sorrow can ever enter. She cannot come to us but we can go to her, so cheer up, dear parents, and strive to meet her in that better world.

Dear grief stricken parents; we feel for you, in this your dark hour of affliction, as only those can who have been made to drink of this bitter cup. May God bless and comfort you; 'tis He alone that can heal broken and bleeding hearts. Let us then, with all confidence, take it all to him in prayer; ask Him for grace to say, "thy will be done." Remember, we are told in His own dear word, "Through many tribulations we must enter into the kingdom of God." It was to bind our hearts more closely to Him that he has gathered our loved ones home; that where our treasures are, there are our hearts also. Your little babe is a bright and gleaming star in heaven to guide you home where sorrow can never come.

Thou art gone our precious darling,  
Never more canst thou return;  
Thou shalt sleep a peaceful slumber,  
Till the resurrection morn.

Her aunt,  
Katie Garrard.

Everybody loves our baby,  
rosy sweet and warm,  
With kissy places on her neck  
and dimples on her arms;  
Once she was so thin and cross,  
used to cry with pain—  
Mother gave her Cascasweet,  
now she's well again.

**WOODMEN INSTALLATION.**

New Officers for the Ensuing Term Take Charge.

Last night was a memorable one in the history of Liberty Elm Camp No. 210, Woodmen of the World.

The new hall was comfortably filled with members of the camp, and it was 11 o'clock when the sovereigns departed for their homes. It was the night for the installation of the new officers-elect, and as this event only occurs once in twelve months, it is always an occasion of interest.

Before the installation ceremonies were begun, two candidates were given the Protection degree in the amplified form, and the team work would have done credit to any of the crack prize teams of the country.

The new officers installed are as follows:  
Louis I. Muller, consul commander; W. C. Chadwick, advisor, lieutenant; J. H. Brantley, banker; W. E. Thomason, clerk; J. G. DeLamar, escort; Emmett Shaw, watchman; Tony Schweers, sentry; Hollis T. Mast, manager.

W. F. Summers, the retiring consul commander, was installing officer, and during the ensuing year he will serve his camp at the station of past consul.

Liberty Elm is one of the largest and most thrifty and prosperous camps in East Texas, and during the past year has experienced phenomenal growth. The membership has increased nearly one hundred, and the camp has fitted up one of the neatest and most attractive halls in the state.

On December 23, 1906, the the camp's hall and all lodge property were destroyed by fire, but the members of Liberty Elm Camp, supported and encouraged by a corps of efficient and energetic officers, at once went to work to regain what had been lost through Providence, and one only has to visit the new forest and attend a meeting of the camp to become astonished at their success. The camp has the entire upper floor of the Reindl building, one hundred feet in length, a lodge room 68 feet in length and a spacious reception room in front.

The forest and reception room have been fitted up and furnished at an expense of about \$750, and altogether the camp has property and paraphernalia valued at more than \$1000.

Truly Liberty Elm Camp is "growing some."

If a cough once gets into your system it acts on every muscle and fibre of the body and makes you ache all over. It especially affects the intestines and makes you constipated, so in order to get rid of a cold thoroughly and without delay you should not take anything that will tend to constipate. Kennedy's Laxative Cough Syrup acts upon the bowels and thereby drives the cold out of the system. It contains no opiates—it is pleasant to take and is highly recommended for children. Sold by Stripling, Haselwood & Co.

## Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that catarrh of the stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membrane lining the stomach, and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of its juices of natural digestion. This is called Catarrh of the Stomach.

## Kodol Dyspepsia Cure

### "GONE TO THE DOGS."

Such is the Impression Being Formed of Nagodoches.

The prohibition campaign now on in the city of Shreveport and the parish of Caddo, in the state of Louisiana, is developing some of the most reckless letter writers in history. And more is the pity. Nagodoches has furnished a liberal quota of these campaign contributors.

In speaking of these and some of the assertions made by them, the Timpson Times says:

"Nagodoches is going to the dogs just as fast as she can travel, if one is to judge by the reports that are being furnished the Shreveport anti-prohibition committee by citizens of that town of the same ilk. On the authority of one of these reports the boll weevil has not done any damage in the county and the cotton crops have been as abundant as they ever were; on account of prohibition the receipts have fallen from 31,000 to less than 5,000 bales. Another dose of dope sent from Nagodoches to this same committee at Shreveport says that prohibition has injured the town so much that people are having to burn up their property in order to collect the insurance. These reports may be true, we have not seen them denied by the press or people of that thriving redland city, but Times believes the town is being advertised in a false light."

That these statements are so framed as to place Nagodoches in a false light is true, but the greatest injustice has been done some of the citizens of this city in coupling their names with these letters without their knowledge or consent. The Sentinel has been derelict in noticing the statements that have been made regarding Nagodoches and her citizens, because we felt that those who have been personated should make their own defense. Then again, we have no desire to engage in a controversy with citizens and neighbors.

Constable A. A. Biggs of Caro was in the city today.

### "No Objection There."

Beaumont Journal.

Judge James I. Perkins is being urged by the Rusk Press-Journal to make the race for congress in the Second district. It says the judge is exceptionally strong with the people in the counties composing his judicial district, and they are a majority of the counties in the Second congressional district. The judge is not generally known down in this section, but this is a free country and there is no objection to his making the race for congress. If he is going to run he should say so, and not conduct a "gum shoe" campaign.

Poor old Nagodoches! Just as her \$40,000 water works system is about completed she had to suffer another \$200,000 fire. Too bad, too bad.—Lufkin Tribune.

Poor old Lufkin! Long after her water works system has been completed she has to suffer an occasional fire. Too bad, too bad. But a \$200,000 fire would put that town out of business.

J. C. Boozer, from the oil fields near Shelbyville, Shelby county, is a visitor in the city today.

## RHEUMATISM CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the bowels and kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood, which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.

D. \_\_\_\_\_, hereby solemnly swear that in the performance of my duties as a member of such board for said year, I will not vote to allow any taxable property to stand assessed on the tax rolls of said county for said year at any sum which I believe to be less than its true market value, or if it has no market value, then its real value; that I will faithfully endeavor and as a member of said board will move to have each item of taxable property which I believe to be assessed for said year at less than its true market value or real value, raised on the tax rolls to what I believe to be its true cash market value, if it has a market value, if not, then to its real value, and that I will faithfully endeavor to have the assessed valuation of all property subject to taxation within said county stand upon the tax rolls of said county for said year at its true cash market value, or if it has no market value, then its real value, I further solemnly swear that I have read and understand the provisions contained in the Constitution and laws of this State relative to the valuation of taxable property, and that I will faithfully perform all the duties required of me under the Constitution and laws of this State, so help me God.'

The Hall Remedy Co., Dallas, Texas. Issued July 9, 1906.

Dear Sir:—I have used a great many Chill remedies, but have found none equal to Hall's Chill Cure for Malaria. A few years past I had a severe attack of Chills and Fever and took many kinds of Chill cures, but they did no good and I just had to wear them out. They commenced on the last year the same way, but in a worse form. A friend recommended Hall's Chill Cure and I took it. It broke up the Chills and Fever and stopped them forever. Whenever I have any more attacks of Chills or Malaria, I take Hall's Chill Cure and they will be gone. I would like to see you and give you some more of Hall's Chill Cure. Yours truly, Mrs. F. M. ### APPEAL TO FRIENDS.

Mayer & Schmidt Make an Important Announcement.

Nacogdoches, Tex., Jan. 8. Friends, Customers and Public in General.

In a brief way we wish to inform you through the newspapers of the recent misfortune we suffered through the fire, which visited us and destroyed our store and contents on the night of January 3rd.

Part of our hard earned accumulations since our boyhood days, dating back for a period of nearly 30 years, have been swept away. Though we are grateful we are still living, and where there is life there is hope, we are here in Nacogdoches to stay to share all joys and sorrows with you.

We have rented the John P. Davidson building, next to the court house, for a short period, until we can rebuild our own store building. We expect to resume business on or about January 15th, and will await your patronage and commands with a fresh and complete stock of merchandise.

We now appeal to those who are indebted to us to help and assist us by paying what is due us, and we hope that you will respond to this appeal, for in the hour of need, assistance will be the more appreciated.

If you cannot come to Nacogdoches, remit us by check or money order, and if you cannot remit all you owe us, send us what you are able to do. Those who have cotton on hand yet bring it to us and we will pay the highest market price as we have always done.

Thanking you in advance for your kind assistance and your valued patronage, we remain as ever,  
Yours faithfully,  
Mayer & Schmidt.

### The Pure Food Law.

Secretary Wilson says:

"One of the objects of the law is to inform the consumer of the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit-forming drugs be stated on the label of each bottle. The manufacturers of Chamberlain's Cough Remedy have always claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is made on the label. This remedy is not only one of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. For sale by Mast Bros. & Smith.
