THAW IS INSANE.

His Application for Release Rejected by Supreme Court.

Poughkeepsie, N. Y., May 25.—Harry K. Thaw, the slayer of Stanford White, will not be released from the lunatic asylum. This is the decision reached by Justice Morschauer of the supreme court in an opinion in the matter of Thaw's application for release on a writ of habeas corpus.

Both points brought up by Thaw's attorneys are decided against him. The justice declares that Thaw is now insane and should not be allowed at large, and he further declares that the commitment to the lunatic asylum by Justice Dowling after the trial of the case was entirely legal.

Thaw's lawyer's will apply to the court for permission to place Thaw in some other institution than the Matteawan asylum, and by stipula-

tion with the district attorney the prisoner will be kept in the jail here until Justice Morschauer renders a decision. The justice will not be able to hear the application before next week.

Lockhart Case Reversed.

A message from Austin states that the court of criminal appeals today reversed and remanded the case of Dr. J. J. Lockhart. Dr. Lockhart, it will be remembered, was tried at Rusk last December for the murder of Ollie Branch at Appleby. He was convicted of murder in the second degree and given fifteen years in the penitentiary. Now that the case has been reversed, he will again stand trial for the crime.

FOR A COUNTY FAIR.

Soliciting Committee is at Work Securing Stock.

The soliciting committee to secure stock for the county fair has organized a system of solicitation that will guarantee success.

Solicitors have been appointed at every town and postoffice in the county, and a meeting has been called to be held in Nacogdoches June 11, when the share holders are requested to report and permanent organization will be perfected.

The shares have been placed at \$25 each, and every farmer is especially urged to take at least one share. The capital stock will be about \$4000, which will be sufficient to erect all necessary buildings and build a half mile track for races.

There is no other enterprise that would be worthwhile to Nacogdoches county, and especially those citizens who have a fancy for fine stock and poultry, and who believe in improved methods of farming.

Obituary.

On Tuesday morning, May 19, at 9 o'clock Mrs. Ida Hall, wife of Mr. Sam Hall of Red Oak community, departed this life. She leaves a husband and three step children to mourn her loss, besides a host of relatives and friends. She was a member of the Missionary Baptist church. Mrs. Hall was known to all her friends as a devoted wife and step mother, a true friend and a good christian lady. She was confined to her room four months and four days, and though she had all the medical attention necessary, yet God in his tender mercy saw her as a beautiful flower and plucked her for his garden.

May our Heavenly Father comfort the broken hearts of the family, and as there is another link broken on this earth, may each one be drawn nearer to Him and may they so live that when the day of reunion shall come, there will be no missing links in that beautiful home beyond.

As her body was sound,
Her soul was struggling breath;
Softer, softer each breath sounded,
Till her eyes were closed in death.

It is sad from her to part,
Let the will of God be done;
While we grieve with broken hearts,
Earth has lost but Heaven.

REVIVE CAMP RAGUET.

The Confederate Veterans of Nacogdoches County Hold Meeting.

Editor Sentinel.

In accordance with the short notice a number of the old Vets met at the court house last Saturday evening.

Comrade Dr. J. E. Mayfield explained the object of the meeting to be for the purpose of organizing a new camp of Confederates out-right, or to re-habilitate old Camp Raguet, whose charter or right to exist had expired.

Responsive to an enthusiastic feeling that seemed to prevail for that purpose, Comrad Mayfield was appointed chairman of the meeting and June B. Harris as secretary.

On the house being called to order, after announcing "ready for business," Comrade John S. Doughtie, by request, stated the procedure necessary to be re-instated and affiliate again with the recognized head of our order, and thereby acquire many privileges and advantages that could not be accorded us as individuals.

On motion the resolve was to re-instate under the old, loved name of Camp Raguet.

On motion Comrade Mayfield elected commandant and June B. Harris adjutant and scribe.

On motion all old Confederates present were requested to step forward to the secretary's table, deposit 20 cents as admission fee, and subscribe their names and different commands, and become regular members. The following responded to the call:

Dr. J. E. Mayfield, Co. H, First Regiment Green's Brigade—commandant.

June B. Harris, Co. H, First Regiment Green's Brigade—adjutant.

J. P. Davidson, Co. G, Regiment of Walker's Brigade—treasurer.

G. W. Tucker, Co. G, Regiment of Walker's Brigade

Joe S. Russell, Co. G, Regiment of Walker's Brigade.

A. D. Acrey, Co. G, Regiment of Walker's Brigade.

G. F. Ingraham, Co. G, Regiment of Walker's Brigade.

John D. Christian, Co. G, Regiment of Walker's Brigade.

W. B. Parrish, Co. G, Regiment of Walker's Brigade.

T. J. Hill, Co. H, First Regiment Green's Brigade.

G. B. Crain, Co. H, First Regiment Green's Brigade.

David Lee, Co. H, First Regiment Green's Brigade.

G. W. Partin, Co. H, First Regiment Green's Brigade.

John (Dock) Burrows, Co. H, First Regiment Green's Brigade.

John W. Johnson, Co. H, First Regiment Green's Brigade.

AGAIN the Nacogdoches county jail is empty.

THAT \$5000 will not build a postoffice building, but it will buy the ground to put a building on.

THE United States supreme court has declared the Love gross receipts tax law to be unconstitutional.

EVERYBODY should take stock in the county fair, and then all who can should take stock to the county fair.

IF the mayor of Timpson really receives a salary of only \$1 a year, he is getting a great deal of advertising for the money.

You don't really have to do anything to kill a town, says the Terrell Transcript. That is true. Doing nothing will kill it when nothing else will.

THE statement of Admiral Bob Evans that we need more battle ships and fewer politicians is likely to have little weight with the politicians.

NACOGDOCHES will have a fair this summer or fall, and the proper thing for every farmer in this and adjoining counties to do is to raise something to bring to the fair.

THE Texas Press Association is in session at Mineral Wells. For the first time in the history of the association the members had to pay their railroad fair, and yet the attendance is reported to be unusually large.

THE state tax board has reported the intangible assets of Texas railroads to be \$173,921,498, a decrease of fifteen millions from the board's estimate and an increase of nearly two million over last year's valuation.

THOSE who think that \$5,000 is too much to pay for a site for a postoffice building in Nacogdoches are hereby reminded that congress appropriated \$1,500,000 for the purchase of a site for a new postoffice building in Chicago.

FORTY thousand pounds of cabbage to the acre, not counting culls, is a fine record, says the Brownsville Herald. It certainly is a fine record, but that is what the cabbage growers near Brownsville have to report this season, and the same can be done near Nacogdoches.

THE following industrial item is going the rounds of the press: "George and Earl Colt of Breckinridge, Mo., have recently patented a device for holding cows' tails while said cows are in the process of being milked." Now another device will be needed along with this. Something to hold the cow will have to be used in connection, for a cow with her tail tied fast is ready for war at the drop of the hat.

APPROPRIATION ASSURED.

A dispatch from Washington to the afternoon press Wednesday contained this announcement:

"The senate is now voting on separate items in the public buildings bill and has just adopted every Texas item as contained in the house bill and as recommended by the senate committee."

This insures the \$5000 appropriation for a postoffice building site in Nacogdoches, and the next question for consideration is the selection of the site. It has been agreed that the city will donate the site in the center of the public square, but this has not been done, and it may be that the United States government officials will not approve of that location. In any event, the sum appropriated is sufficient to secure a desirable and suitable site, and if the city donates the lot, the \$5000 appropriated for its purchase can be used in the construction of the building. The bill only awaits the signature of the president to make the money available.

THE delegates to the national Democratic convention from Alabama will go instructed for W. J. Bryan. The Name of Col. Bryan and Gov. Johnson of Minnesota were submitted to a vote of the Democrats of that state in a primary election, resulting in a victory for Bryan by more than three to one.

AT Steventville, Texas, a patent iron exploded while the woman of the house was smoothing out the family wash. The house was destroyed, and the woman and clothes were scattered over the neighborhood. The woman, however, was not injured, but she had her faith shattered in novel ironing devices.—Palestine Herald.

ONCE more the Advocate raises to its hind legs to inquire "What has become of the split log drag?" Does anybody know? No; nobody.—Paris Advocate.

If you really want to know, there are more than two thousand people in Nacogdoches county who never saw a split log drag that can tell you all about it.

AUSTIN citizens gave a celebration Eriday, May 22, which was designated as "Tag Day." Now just what the significance of "Tag Day" is The Sentinel is not advised, but we infer from reading the Austin papers that the population of the capital city is increasing so rapidly that it has become necessary to tag the people to prevent their getting lost.

THE Schulenberg Sticker says: "They say the better the roads are leading to a city the more people come to town, and oftener, too." That is a fact, and the better the roads, the bigger loads the farmer can haul to town.—Nacogdoches Sentinel.

And the further important consideration is good roads protect and preserve work stock and vehicles that are travelled over them. There is not one word to be said in favor of bad or sorry dirt

roads while every consideration is in favor of good roads. The saving alone to teams and to the vehicles that traverse them would more than compensate for their making.—Austin Statesman.

WHEN you smoke, is "Made in Texas" stamped upon the box?—Beaumont Enterprise. And better still, is "Made in Nacogdoches" stamped upon the box?

THE split log drag is now occupying the attention of the people of Texas. Well should it do so, as anything that tends to better the roads of the state is worthy of great attention and the spending of large sums of money.—Beaumont Journal.

And yet it is remarkable how many people there are who will not permit their prejudice against the split log drag to be overcome, even by demonstration.

THE opponents of Bryan are on the firing line, and if any means can be found to keep the nomination from him it will be found and executed. It looks now as if Bryan had a sure thing, but you can never tell what may happen in a convention. A little treachery in one or two places and the good prospects of today can be swept away. Bryan's friends will have to stand solid and insist on his rights before the convention. The platform is going to be an important move this year.—Palestine Herald.

King Cotton.

THE South is producing an average of about twelve million bales of cotton a year. The time is rapidly coming when this must be increased to twenty million bales or more to meet the world's requirements. The gain in consumption will require an average of half a million bales a year. At this gain it would require but ten years to make it necessary for the South to raise seventeen million or eighteen million bales annually.

There is no reason why the world will not eventually need forty million or fifty million bales or more of Southern-grown cotton; and with good prices and an increase in the labor supply, even this would not be the limit of the South's ability.

The practical monopoly of cotton production is potential power for the South as great as would be an equally strong domination of the world's iron-ore supply.

Sooner or latter, when this section fully comprehends this great power it will make the world pay tribute to its coffers, just as would England or any other country which owned the world's iron ores.

By reason of this condition cotton-growers ought to be the most prosperous farmers in the world, and in time they doubtless will be.—R. H. Edmonds, in the Youth's Companion.

O. C. Mickey returned from a several months visit to Hot Springs, Arkansas, Sunday and has been kept busy since his arrival shaking hands with friends.

THE MAIL ORDER HOUSE.

The mail order houses will never suffer for patronage so long as they flood the country with their catalogues and circulars, while the newspapers go out to their subscribers with no message from the local merchant.—Bonham Herald.

This is a truth that local merchants can well ponder. It is a fact that those towns wherein the most of the local merchants are represented in the advertising columns of the home papers are the towns that complain least of the competition of the mail order business. Two or three or half a dozen merchants, no matter how much they try, they cannot boost the business of a town alone. Many merchants complain of dull times and short business, and yet never make an effort or spend a dollar to reach out and bring business to their towns. They need not expect to get business without looking for it and going after it. Only the other day I was noticing the papers I received from two North Texas towns of about equal size. In the local paper of one of these towns I counted the advertisements of twenty-six local firms; in the paper of the other town only nine local houses were represented. It is not the fault of the papers, for the one with the fewest ads was by far the best paper of the two. But it is published in a town where the merchants do not believe in advertising. The town is on the downgrade. It does not now enjoy the patronage it did twenty years ago, simply because the business men have sat still and let smaller and enterprising towns draw its trade away from it. The paper filled with local advertisements is published in a town that's in no better section of country and possessed of no superior advantages, yet it is growing and prospering. Its merchants draw trade from a radius of twenty miles or more, and do so because they go after it and offer inducements to get it. They adopt the good methods of the mail order houses, and reap the benefits thereof.—Bonham News.

SHOCKING STORY

Indictments Returned Against Children for Killing Father.

Houston Post.

Cold Springs, Texas, May 20.—A tragedy that rivals the late La Porte, Ind., affair has just been brought to light here. On the night of January 1, 1904, a son of F. J. Bangert, who lived about four miles from this place, came to town in search of officers and stated that he had an altercation with his father that night and that he had shot his father. The boy, in company with Mr. Bob Lee, who was not an officer at that time and who is now dead, returned to Cold Springs the next morning and stated that he had made diligent search for Bangert, that he had traced his footsteps some distance, but that he could nowhere be found. The local

officers at that time investigated the affair, but failed to hear from Bangert or to get any information relative to the tragedy until a few days ago.

It now develops that this boy, who came in search of the officers, at the instance of his mother and elder sisters, shot his father on the fatal night in the back while he was at the barn feeding the horses; that the father made his way to the house and was sitting on the doorsteps moaning when the mother told the children to finish the job; that a daughter by the name of Katie about 17 years of age got an ax and commanded the boy in harsh terms to kill the father and the boy, who was about 14 years of age, split the father's head open with the ax; that they then took the body and buried it in the hen house and there let it remain four or five days, after which they took up the body, and placed it in a wheelbarrow, the boy pushing and Katie pulling, and conveyed it some distance to a cotton house on the farm and there burned the house and the body; that they were several days burning the remains and that they piled rails, logs and chunks of wood on the remains for several days thereafter; that the house was burned on Friday night and that the parties were seen on the Sunday following placing new fuel on the remains; that a son-in-law of the deceased by the name of U. Z. Chase hauled the fodder out of the house on the day before the burning; that the son-in-law and wife furnished the pistol to kill the deceased; that after the remains had been burned for several days the fragments were gathered up, placed in a sack, carried back near the house and buried near the yard; that the son-in-law at once moved into the house with the mother and children; that said son-in-law had been at outs with the father and would not have moved into the house with the family had he not known that the old man was gone for good. The mother has since died.

Thinning a Crop of Cotton.

Mr. Editor—When the cotton plants commence to show the third leaf, the crop should be thinned to a proper stand. This work can be carried out best by the use of hand hoe. At the Oklahomastation good results have been obtained on upland soil by thinning to a stand of one plant every 15 inches in the row where the rows are 42 inches apart. The proper distance in the row can be gauged approximately by the eye where the work is done by hand and the chopping out or "blocking" can be done quite rapidly. It is a good plan to leave vigorous plants, having only a single plant in a place.

Better results will be obtained by thinning early than by allowing the full row to make a strong growth before the field is blocked. Early thinning insures a stronger growth in the plants which are allowed to remain. Any weeds in the row can also be cleaned out at the time of "blocking," and if the work is done carefully it will probably not be necessary to use the hand hoe again during the growing season. If a few weeds appear and it is impossible to reach them with the cultivator, they should not be allowed to go to seed but should be cut with the hoe or pulled up by hand.

The culture, subsequent to the "thinning out," should be frequent and thorough. It may not be possible for the man who has a large acreage devoted to hoed crops to cultivate the cotton crop each week, at the same time, plans should be laid to make the cultivations as frequent as once in two weeks. This treatment should be given up to the time when the plants commence to bloom, or at least until the ground has become well shaded. A single horse cultivator can be used after this period to stir the surface, but some care will be necessary in order to prevent knocking off the blossoms. These early blossoms produce the early crop of cotton. Excessive culture at this particular period will have a tendency to cause the plants to produce an abundant crop of stalk, or to use the growers' phrase, "It will also have a tendency to cause 'shedding' of the fruit."

Improving of the fruit.—A. Morehouse and J. F. Nicholson in Farmers Mail and Breeze.

EAST TEXAS FAIR.

Definite Steps Taken to Organize Fair Association.

A well attended and representative meeting of citizens was held in the city council chamber last night to further consider the proposition of organizing a fair association.

Reports were heard from committees selected at a former meeting, which were very encouraging.

After hearing these reports and spirited discussion, Chairman King was instructed to appoint a committee to solicit subscriptions to stock, and the following were appointed: G. M. Haltom, S. M. Adams, Guy A. Blount, H. T. Mast, Luther Swift, W. F. Summers and K. P. Branch. Chairman S. M. King was by vote added to the committee.

While no definite action was taken, it was agreed that the association should be designated as the East Texas Fair association, and that the capital stock be at least \$4000, divided into shares of \$25 each.

The soliciting committee was instructed to get busy at once, and to keep busy until a sufficient amount of stock had been subscribed to start the work of erecting buildings and grading the race track.

No definite selection has been made for the grounds, but two very desirable locations are under consideration.

Fuller's Earth in Texas.

Before the cotton seed oil produced in the South is put on the market, it goes through a bleaching process in which the dark color is removed by mixing the oil with an earth known as "Fuller's Earth." Practically all this earth is shipped to the United States from England. In 1905 \$260,000 was paid by refiners in this country to English shippers of this earth. Professor J. C. Blake of the Department of Chemistry in the Agricultural and Mechanical College of Texas has recently been conducting a series of experiments on the bleaching properties of some samples of fuller's earth found in Texas. The best samples came from Burton and Smithville. The results should be very gratifying to the interested parties in this state. When the decolorizing powers of the English samples were compared with the best Texas fuller's earth, taking the English earth as standard, the percentage of three samples of Texas earth was found to be 164 per cent, 177 per cent and 181 per cent where the English earth was only 93 per cent. It seems very likely, according to Professor Blake, that when further tested, some of these Texas samples will be found vastly superior to the imported earth. Should this prove true the property containing these deposits of high grade fuller's earth would become a veritable gold mine to its owners.

Obituary.

Homes were darkened, hearts were bleeding when on last Tuesday morning the death angel spread his dark wings over the home of Mrs. Martha Falkner and caused the rose to fade from the cheeks of her lovely daughter, Willis. Death is a demon of darkness. He sends a wail of woe that is world-wide and heart rending through all the earth, and the living are left to mourn for their departed dead. We were all born to die. Death is the destiny of our race.

Willis was just in the midst of the May day of life. A life limpid and lovely blooming into beautiful womanhood. But its melodious chords have been snapped, the lovely flower has been withered by the rude touch of death. She was a jewel rich and rare. She was a priceless gem to those who knew her best, the comfort of a devoted mother's life, the guardian angel of loving brothers and the reigning queen of the home.

She was reared in the North Church community. She was of that genial nature and kind disposition as to diffuse sunshine wherever she went. Thoughtful and kind to her widowed mother. She was laid to rest last Wednesday afternoon at North church. When her remains were lowered into the embrace of the earth and the mound hid the sleeper from mortal gaze, loving hands covered her grave with flowers of the richest hue and sweetest fragrance.

Heart broken ones, look to Jesus, I know that all seems dark to you.

Somewhere the sun is shining,
Somewhere the song birds dwell;
Hush then, thy soul repining,
God lives and all is well.

Somewhere the load is lifted,
Close by an open gate,
Somewhere the clouds are rifted,
Somewhere thy angel waits.

A. T. Garrard.

Vacation days are fast approaching, bringing with them the young men and women who have been away for the past year and gladness to the hearts of relatives and friends. Among the first to arrive will be Miss Lillie Davidson, who is at Mt. Holyoke Seminary in Washington City. She will join her friend, Miss Zireta Matthews, at Bristol, Va., and the two will leave for home on the 28th making two pleasant stops enroute, at Memphis and Nashville, respectively.

Keep Your Bowels Open

It is a noticeable fact, and one which any doctor will verify that people who suffer most often from disease are the ones who have the most difficulty in keeping their bowels open. Regular bowel action is half the battle of health.

People who have a tendency to constipation must of necessity use something to help nature along. This should not be a violent aid like salts or purgative waters, cathartic pills or powders, but a syrup liquid that will oil the intestines and membranes that it comes in contact with. Children, women and weak people generally should never be given a strong physic as it weakens the system. And it is futile for the strongest person because the relief is temporary for that day, and then the reaction sets in and you are worse off than before.

What is needed is a prompt but gentle laxative—like Dr. Caldwell's Syrup Pepsin. People have been taking it for sixteen years and it is being better liked by more people every year. The reason is that it fills a want. It is unlike anything else. Results are so sure in constipation, dyspepsia, indigestion, liver trouble, biliousness, flatulency, sour stomach, weak stomach, bloated stomach and such ills that a cure of any of these ailments is absolutely guaranteed. A bottle costs but 50 cents or \$1 and it worth a hundred times that to any sufferer.

Wise mothers keep it constantly in the house for emergencies, because it is needed so often, and it is for every member of the family. Dr. Lelia Underhill, the medical superintendent of the Working Women's Home of Chicago has sent her charges in perfect health by the use of Dr. Caldwell's Syrup Pepsin whenever a stomach complaint was brought to her attention. No other laxative is used in the Home. Buy a bottle yourself today and watch the prompt and permanent results.

FREE TEST

Those wishing to try Dr. Caldwell's Syrup Pepsin before buying can have a free sample bottle sent by addressing the company. This offer is good while the supply lasts and is only open to those who have never had it. Send for it if you have any symptoms of stomach, liver or bowel disease. Send for most effective laxative for children, women and old people. The name of the company is on the wrapper. THE PUBLIC VERDICT: "No Laxative So Good and So Sure as DR. CALDWELL'S SYRUP PEPSIN." This great laxative is guaranteed by Dr. Caldwell, Washington, D. C.

The Woman's Home Companion for June.

Five hundred photographs of President Roosevelt, all assembled in one big double page picture, 18 by 19 1/2 inches in size, is an extraordinary feature of the June Woman's Home Companion. The five hundred photographs were taken in almost every state in the Union, at all periods of Roosevelt's public career, and show his wonderful versatility and energy.

In the June Companion appear the first chapters of Harvey J. O'Higgins' great story, "A Grand Army Man," based on Belasco's famous play of the same name, in which David Warfield starred all last winter. Other fiction in this delightful summer magazine is by Elizabeth Stuart Phelps, Zona Gale, Charlotte Perkins Gilman, Temple Bailey and Clinton Dangersfield.

Kellogg Durland, who of late has spent much time in Russia, tells the dramatic and thrilling story of one of the bravest girls of the Russian Revolution. Margaret E. Sangster writes on the American woman as a social engineer. Dr. Edward Everett Hale devotes his monthly page to some working rules of life. Grace Margaret Gould, the fashion expert, gives many practical hints for summer dressing. Sam Loyd Owen's Puzzle Page is a mine of interest for the puzzle lover.

Miss Jennie Sanders, who has been visiting Miss Rosa Garrison, returned to Nacogdoches Monday. — Garrison Gleaner.

TO CENTRALIZE COURT.

One of the important questions that will come up for consideration in the thirty-first legislature is that of centralizing the court of criminal appeals at Austin. In discussing the reasons why the court should be located permanently at the State Capital, the Austin States man says:

"When the court of criminal appeals was created the means of travel in Texas were decidedly limited and it was with a view of accommodating the lawyers in different sections of Texas that it was provided that the court should sit for three months at Austin, three months at Dallas and three months at Tyler, but now with excellent transportation facilities it is practically as easy to reach Austin as it is to any of the other two points. Efforts have been made by successive legislatures to get a constitutional amendment submitted to the people providing for the exclusive location of the court here, but for some reason it seems to have not been the wise thing to do. It is needless to say that another effort will be made to that effect by Thirty-first legislature. Besides other inconveniences, it is always a hard task for the removal of all the law books and records from one court to another during the nine months of the year that the court is in session. This cost in itself is several thousand dollars a year.

"Then comes the annoyance and inconveniences to which the judges are put to, to have to change their residences three times a year. Just as a member of the court is comfortably located at one point, he has to leave and go to another point in the state. It is needless to say that the judges of the court would favor the location of the court at Austin to the exclusion of the other points. Take the case of Judge Ramsey, who was recently appointed to a place on the court. He has removed his family here and is comfortably located and within the next few months, or in October next he will have to remove to Tyler where the court meets for the next session. Judge Ramsey declared that he would certainly like to see the court permanently located at Austin. Judge Brooks' home is at Dallas and yet he is compelled to spend most of his time away from home, while the same may be said of Judge Davidson, whose home is at Georgetown.

"Another thing, is the question of expense. It is believed that by centralizing this court here like the supreme court, the expense of maintaining the court could be materially reduced to the extent of probable \$10,000 a year to the state. From the expressions heard from the lawyers who come here to submit cases while the court is sitting here, it is evident that generally speaking they

would prefer to have the court permanently established at Austin."

AMONG the teachers elected by the Timpson school board are Profs. W. B. Hargis and T. H. Postell. Mr. Hargis was formerly superintendent of the Garrison school, and Mr. Postell was principal of the Nacogdoches High school two years ago. Both are excellent educators and a credit to any school.

Timpson Topics.

Timpson, May 24.—The commencement sermon for the close of school was preached at 11 o'clock today to a crowded house by Rev. Reagan from Carthage. His text was, "Let us press on to the mark of the high calling in Christ Jesus." Time for the close of the sermon came too soon, as it was fine.

There will be a union service held tonight in the armory hall by all the churches. Rev. Anderson, the Baptist minister, will preach. The exercises will continue Monday and Tuesday.

Work on the Methodist parsonage is progressing nicely.

The Dailey Sentinel is a welcome visitor in our home and should we move to the farther end of the world the Dailey must still be our visitor. We will make our home at Simpson's mill for the next two months, so please send it right along with its budget of news from our dear home folks.

Decorations Under Difficulties.

From Monday's Daily: The Knights of Pythias observed their annual decoration day Sunday afternoon, but under embarrassing difficulties. Sunday, May 3, was first designated by the lodge for these exercises, but owing to rain and other unavoidable causes the date had twice been changed.

The flowers were gathered Sunday morning, and several generous hearted ladies assisted them into floral emblems and bouquets, but at noon a heavy rain fell and it continued to rain at frequent intervals throughout the afternoon.

At 6 o'clock, however, the clouds ceased to weep, and a few of the chivalrous and valiant Knights carried the flowers to the cemetery and tenderly placed them upon the graves of their deceased brothers. There are ten of these little mounds, and after each had been bedecked with the floral tributes, the Knights formed a circle in the cemetery and were dispersed with prayer by Knight V. E. Middlebrook.

Mount Moriah Musings.

Mt. Moriah, May 26.—The farmers are all at war with general green and if it does not rain this week they will have the battle won and of Mr. Boll Weevil will feast on the pea crop and let the farmers make a good cotton crop and with all the turk for sale, you will see our farmers with more money and in better condition than ever before.

R. E. Stoker of Waterman is at home very sick.

Mr. and Mrs. Emory Pleasant are the proud parents of a new baby girl at their home.

Rev. J. C. Judd has been called to the pastorate of Pilgram Rest church.

The Swift Lyceum Debating society will meet on next Thursday night. The subject for discussion will be, "Resolved, That life in the city is more favorable to human development than life in the country." The affirmative will be represented by Alford Daniels and Horace Briley; the negative by M. W. Stoker and Tom Briley. Everybody is cordially invited to come out and take part, and if not, to listen.

Mr. G. W. Chandler attended preaching at Swift Sunday.

Mr. Benny Strahan of Stockman visited our hub Sunday. Judging from his frequent visits he likes our community or some one in it mighty well.

Miss Lydia Stripling, who has been visiting relatives in the city, returned home Wednesday.

The singing which was announced for next Sunday has been called in until the second Sunday in June.

Rev. W. L. Heflin has changed the hour of preaching at this place. He preaches on Friday night and Saturday at 11 a. m. and on Sunday at 3 p. m. and Sunday night at 8. He is also pastor of Cold Springs church in connection with this one and preaches on the Second Sunday in each month.

We are pleased to see our city with one of the best bands in the state to the amount of practice, and her citizens organizing a county fair. We know the farmers will do their part when they see our city men making an effort. Oh that every man in the county was a true citizen and take part in every good thing in our county. There are quite a number who are not caring anything for our country, schools or government, and if you were to try to prohibit his voting he would want to fight you. We need every true citizen and more with an ambition to push our country and have pride enough and courage to walk up to the polls and say to the world and men that you are a liberty loving man and a supporter of everything that is a detriment to our people and the causes our grand father fought for.

Judge C. D. Mims returned today from a trip to Shelby county, where he spent the past week in the interest of his candidacy for district judge.

Swift Siftings.

May 25.—The health of our vicinity is good. We have had plenty of rain for a while.

Crops look very well considering the bad weather we have had this spring.

Many people worry about the course of events. Why worry? The old saying is pretty true: That there never was a day so fair, but what one spot of cloud would appear. But every cloud has its silver lining, but we often fail to discover it. It is there, if with the eyes of faith we would but penetrate deep enough and find it. By turning the eyes to the cloud we fail to see the sunshine. There is no darkness so dense but that it is followed by day and we should look forward to that day. Too many of our trifles light as air, seem mountains bearing down on our spirits. To many life is full of troubles not real, but imaginary. What is the use of worry anyhow. By thought of the future we do not change the course of what is to come. The best preparation we can make for tomorrow is by doing the duty which is upon us today. Is not half our worry over troubles which never come? As we approach the mountains which we build before us in our own minds they fade away, we never reach them. Many of us instead of keeping an image before us of beauty and of encouragement, instead of looking forward with hope, conjure up all manner of evil which may befall us. We fail to realize that the future has in store as much of pleasure as sorrow. In fact, if we but look on it in the right way, recognizing the good which is in everything. There is more of pleasure to come than can possibly come of sorrow. Why worry about future events. Have we not confidence in God? Do we not believe that in time His sway shall extend over all, and that through His own plan He is bringing us into harmony with himself? In the end we shall see the wisdom of the trials through which we have passed. The good things of life may be converted into bad. Bitter may be introduced into sweetest cup. Flowery fields may become dreary deserts. To such life is a burden because what is within them. As we read the biography of Socrates we find he was a tranquil man. What did it make to him, though he was condemned to death. The only difference between himself and those who sentenced him was that he should know the future sooner than they. What an admirable example to read of while he was in prison conversing calmly with his friends, concerning the immortality of the soul, even up to the very moment when he drained the fatal cup. In order that our life may be of most good to our fellows it is necessary that we cultivate the tranquil spirit. Bear up under difficulties, make the most of the opportunities which are given. Having done this we can then face our account without fear, feeling

that the sentence concerning us will be well done, though good and faithful servant.

CONGRESS NEARING CLOSE.

Additional Appropriations Made for Texas Coast Defense.

Washington, May 25.—The conferees on the general deficiency bill today agreed to give Texas \$21,000 more for the defense of the frontier before the civil war by the Texas rangers, making a total of \$400,000, so far returned to the state.

The sundry civil bill, which was finally passed by congress today, by the adoption of the conference report, carries the following items: Barracks at Fort Crockett, \$151,800; light and fog signal station at outer end of jetties, \$10,000 additional; buoy wharf and depot shed at Fort San Jacinto, \$10,000; comprehensive survey of Galveston harbor.

Senator Bailey and Representative Stephens will tomorrow ask President Roosevelt to pardon Frank Mabry, former cashier of a bank at McGregor, Texas, now serving a term in the federal penitentiary in Kansas for embezzlement. Bailey signed the application for the pardon and Stephens will carry it to the White House in the morning.

Texas congressmen will not attend the state convention Tuesday, Bailey is suffering from a sore throat after a minor operation and the remainder are being held by congress, which will not adjourn before the end of the week, possibly Friday.

Shady Grove Sayings.

Shady Grove, May 26.—General green seems to be in command yet, but the farmers don't fail to wield the sword to the best advantage between showers.

Mr. Seabam Greer, one of our most highly esteemed young men, left Friday for Panola county. We hope he will soon decide to return.

Miss Ella Blacksher of Pisgah, who has been visiting Mr. W. T. Weaver and family, returned home Sunday afternoon.

NACOGDOCHES GUN CLUB.

Local Marksmen Meet and Perfect Temporary Organization.

At a meeting of a number of the marksmen of Nacogdoches, held in Woodmen hall Thursday evening, the Nacogdoches Gun Club was temporarily organized and the following committees selected:

On location—Geo. C. Ingraham, F. B. Sublett, G. W. Blackburn.

On installation of trap and construction of necessary buildings, etc.—Guy Blount, O. F. Wyman, John Turney, J. H. Reagan, P. L. Sanders.

On membership—B. F. Nelson, Geo. C. Ingraham, B. J. Ivey, E. B. Baker, P. L. Sanders, O. F. Wyman.

On constitution and bylaws—P. L. Sanders, Geo. C. Ingraham, W. E. Thomason, F. B. Sublett.

This bids fair to be the largest, most enthusiastic and successful organization of the kind that has ever before been organized in Nacogdoches, and will no doubt be one of the very best gun clubs in East Texas, if not in the state, in membership, enthusiasm and skill.

The indications now are that the club will have a very large membership, which includes shooters of more than statewide reputation.

All interested in any way in the sport are cordially invited and requested to join the club and assist in making it one of the best in the state.

The locating committee has already reported that an excellent location has been secured in Blackburn's pasture just east of LaNana creek. The ground is level, there is plenty of shade and the location is in every way ideal.

Announcement.

This is to inform the public in general that we, the trustees of school district No. 18, have closed a contract with Prof. G. M. Hale for a term of five years to teach our school at Douglass. We are also making arrangements to build an addition to our school building 20x32 feet, two stories, which will give us four good rooms. There will also be several new residences go up in the next few months to accommodate patrons and boarders.

Our school will be a good one. We mean business. Prospective young men and young ladies desiring to attend a first class school will do so here or correspond with

Hale.

Impressions.

By request of the editor of this department I submit my impressions of the State Federation of Women's Clubs, held at Center, May 6 and 7.

In company with one of Nacogdoches' most charming women, Mrs. Neil Ingraham, the journey to Tenaha was most pleasant. On arriving at Tenaha I was met by Mrs. W. L. Hall of Wharton, who had been previously instructed by mutual friends to inquire for me. She was accompanied by her beautiful and talented little daughter, Allie, who was the visiting talent on the musical program at the convention. They proved genial companions for the ride through the country.

At Center I was greeted by my hostess, Mrs. Jeff Hicks, who was an old friend and lovely neighbor of former days, therefore my induction into Center was a pleasant suggestion of my delightful experience as a visitor to the convention.

The district president, Mrs. Annim of Flatonia, a woman of peerless worth, was absent on account of the illness of her little child, which was as it should have been for no woman is worthy the name of club woman unless she exalts her home and responds to the holier claims of duty, and the fact that the president proved faithful to the more sacred duty, had a very perceptible influence which was felt in the loving messages of solicitude sent her by the assembly, and in the earnest petitions to our Heavenly Father in her behalf, pronounced by the ministers who invoked divine blessings upon the meetings. However, there is always some compensation even in the greatest misfortune.

The convention was presided over by one of the most gifted and thoroughly capable women in the state, Mrs. Mary Hunt Affleck of Brenham, who has achieved splendid success as a writer. Her versatility was remarkable. She introduced every one figuring on the program with gracious remarks, and after they had performed their parts her comments were so apt and thoroughly delightful that every one paid the closest attention lest they lose some thought of the president's. All this added materially to the harmonious dispatch of business; kept the enthusiasm running high and consequently made it utterly impossible for the business to drag.

I was decidedly impressed with the atmosphere of the occasion, and the trend of thought which pervaded the entire session of two days. There were enjoyable social features which were not without their importance but these were made subservient to the real purpose of the convention, and it seemed to me never before was the intellectual and educational idea kept so prominently before the visitor. It was quite a departure for women to discuss such subjects as "Foundation of Citizenship and Civics," "Laws Affecting

Women and Children," and others equally weighty, and the splendid feature was that they were so ably handled.

I was impressed with another fact, and that is, that the Cum Concilio club of Nacogdoches wields an influence. On opening the leaves of the program I was greeted by the familiar and oft repeated motto of the club, "A purpose is the eternal condition of success," and in the presentation of the program which was made by Mrs. H. A. Cline of Wharton, another compliment was paid the club by a special mention of the Stone Fort, and later in the day Mrs. Cline also moved that the chautauqua salute be given the Cum Concilio club because of its noble work of rebuilding the Stone Fort, all of which leads to the thought that the citizens of Nacogdoches should cheerfully co-operate with the club in their purpose to preserve this historic structure, more especially since the importance of their work is so generally recognized throughout the state.

But the real purpose of the convention, what was it? Mrs. Dibrell, the state president, announced it in her address, "To aid in securing better school facilities for the children of Texas. To aid in securing better laws affecting women and children, not, however, in the sense of suffrage, but in order that women may be of more assistance to each other and to work for purer and better homes." The philanthropic feature of the state federation was also stressed, and it is a matter of pride that the State Federation has secured 14 scholarships for deserving young women. These, I believe, were the dominant ideas, and so generous was the co-operation of all those figuring on the program, and so thoroughly in harmony were the delegates with the underlying principles of the work of the convention that there was no dissenting voice, on any occasion. And it was really an impressive hour when at the close of the business program the Federation song, led by Mrs. Robert Cox of Houston, voiced the spirit of the occasion.

And here's parting now, my dears,
For all our clubs combined
Will join our hands and hearts and work,
For the good of human kind,
For the good of human kind,
For the good of human kind;
Let Texas women lead the world,
For the good of human kind.

And the Center convention passed into history as one of the most delightful and splendid and powerful of the past. But, Friday afternoon, entertaining at the pretty home of her sister, Mrs. E. H. Blount.

Sixteen ladies participated in Mrs. Sharp's hospitality of which Miss Hinkle of Detroit, Mich., was the only out of town guest.

The luncheon, served on exquisite napery in pretty china, was unusually tempting and consisted of salad served in tomatoes, sandwiches, olives, waters and iced tea.

Miss Emma Schmidt Entertains.

Of the numerous social attentions of which Miss Decker has been the recipient, the "Tackey Party" given in compliment to her by Miss Schmidt on last Tuesday night, was the most unique and one of the most enjoyable. With a commendable disregard as to whether they "looked pretty or not," the guests entered into the spirit of the entertainment with an ardor that brought about the most happy results.

Most ludicrous all the costumes certainly were, making it extremely difficult for the judges (Mesdames Walter Ginz, W. H. Johnson, and John Schmidt) to determine who merited the palm for superlative "tackiness," finally deciding that Misses Jones and Harris were equally tacky of the ladies and Messrs. Cox and Zeve of the gentlemen.

In cutting for the honor(?) Miss Harris and Mr. Cox became the possessors of the prizes, beautiful diamond (?) pins.

The interior embellishments were in perfect accord with the nature of the function, all the crochet tidies, picture throws, ancient photographs and plush albums, dear to the heart of the housekeeper of a generation ago, having been made use of, while the homely sunflower furnished the floral decoration.

The "tackey" but merry games of "slap in and slap out," "snap," "going to Jerusalem" and the jolly "Virginia Reel" were freely indulged in, and a course of the plebian, of toothsome stick candy and peanuts were served, followed later by the more up to date ice cream and cakes.

Those who so thoroughly enjoyed this evening of merriment were Misses Jones, Decker, Harris, Rachel and Bell Zeve, Wade, Young and Messrs. S. B. Hayter, Sanders, Ingraham, Hall Hayter, Cox, Ratcliff, and Zeve.

With the Church Societies.

Mrs. J. E. Mayfield's home was the last place of meeting of the Ladies Aid Society of the First Presbyterian church, and as usual the attendance left nothing to be desired, as this is a most active association. Response to roll call was with a verse containing the word "Salvation." After the bible lesson was thoroughly discussed and digested the remainder of the time was spent in sewing profitable and pleasantly. A palatable course of delicious sandwiches, olives, pickles, iced tea, etc., was served by Mrs. Mayfield and thoroughly enjoyed. The next meeting of this society will be with Mrs. Giles Halton.

The Sewing Circle met with Miss Rachel Zeve Wednesday afternoon at the usual hour, with the following members present: Mesdames W. H. Johnson, Oscar Matthews, Frank Kiley, Miss Jones, McKinney, Belle Zeve and Mrs. B. M. Isaces and Miss Decker as guests. A course of ice cream and cake concluded a very pleasant afternoon.

These are the people who own this bank and they are its managers. Their standing assures the bank's integrity and safety.

Our bank is under direct supervision of the State of Texas. The State is our boss and gives us rules to go by. The State sends examiners to our bank several times a year and they make a thorough inspection of it and make their sworn report. Besides that our directors have to publish a report of our business at different times during the year, under oath, consequently they have to keep posted on what the bank is doing. Look at the list of our stockholders. They are a safe crowd to handle your money, and they solicit your business.

BASEBALL FEINDS.

Violation of Law to Play Ball on Streets.

The baseball fever is liable to lead somebody into trouble. It is reported that numbers of boys in the city frequently play ball on the public streets, and this is a violation of a city ordinance.

Article 143c of the Revised City Ordinances reads as follows:

"Any person who shall, on any street, alley or sidewalk within this city, be engaged in pitching, catching or in any way playing with ball, or bat and ball, shall be fined in any sum not less than one and not more than five dollars."

Several cases have already been reported to the officers, and in some instances window lights have been broken out of residences by boys playing ball. Mayor Perkins states that in future every person—man or boy—who violates the above ordinance will be prosecuted.

Bad Attack of Dysentery Cured.

"An honored citizen of this town was suffering from a severe attack of dysentery. He told a friend if he could obtain a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, he felt confident of being cured, he having used this remedy in the West. He was told that I kept it in my stock and lost no time in obtaining it, and was promptly cured," says M. J. Leach, druggist, of Wolcott, Vt. For sale by Mast Bros. & Smith. dw

Forty-Two Party.

A delightful opportunity to meet socially was afforded the Cum Concilio Club last Thursday afternoon, when Mrs. E. M. Dotson opened her pretty semi-suburban home to the club.

It was certainly a charming afternoon to the year's good work done by this splendid club. The fascinating game of "42" was the medium of enjoyment, and the game was pursued with unflagging interest until the shadows of evening made it necessary to stop.

Delicious strawberry ice cream and a variety of lovely cake, served by the hostess, graciously assisted by Mesdames Garrison and Johnson, having appeased the material wants of the guests, the intellectual and poetic appetites were appealed to by two splendid poems, one rendered by Mrs. E. M. Dotson, setting forth with cleverness and no little poetic fancy the characteristics of the twenty-five women who compose this club, and the other by Mrs. Lindsey, who read in a manner all her own original, humorous composition. The theme was suggested by the close of the year's work, and was produced by request, and certainly entitles Mrs. Lindsey to the distinction of class humorist.

Mrs. G. H. King left yesterday on the north bound T. & N. O. train for Galesburg, Ill., where she goes to spend a few weeks with her parents and other relatives. dw

In Memory of Willis Falkner.

Weep not, dear sorrowing friends,
For Willis is safe at home;
And we may soon be with her there,
Before many years to come.
Her path was short, 'tis true,
But she's safe from the path of wrong;
Some day she will be with you,
Her home with God will be long
Long days of weeping and grief,
Would not bring her back to you;
The life on earth was brief,
Of the friend you loved so true.
Beneath the skies so blue,
Her body lies under the sod;
Her memory is still with you,
But her soul's in the kingdom of God.
—Madge Henson.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's salve as soon as the child is through nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by Mast Bros. & Smith. dw

A Monster Bass.
Mr. E. M. Roberts of this city caught a black bass in Fern lake Thursday that weighed six pounds and two ounces, and measured 26 inches in length. This is the largest bass ever before caught in this lake, and perhaps the largest ever before captured in Texas.

Its mouth when open measured five and a quarter inches, and it could have easily swallowed a full grown rabbit.

Mr. Roberts caught this huge fish with a troll, and he says he had plenty of fun landing him. He also caught another bass that weighed over four pounds.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening, and strengthening the mucous membranes lining the stomach.

Mr. S. E. Bell of Ravenwood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

CONFEDERATE VETERANS.

Camp Raguet No. 620 Formally Organized Last Saturday.

There was quite a rousing meeting of the old Confederate veterans at the court house last Saturday afternoon and a full organization was perfected with a membership of twenty-five and others to be added.

Dr. J. E. Mayfield was elected commander, June B. Harris adjutant, and John P. Davidson treasurer.

It was decided to hold the next meeting at the same place—the court house—June 6, at 1 o'clock p. m., to get up a list of delegates to the reunion at Birmingham, Ala., June 9 to 12, and that any member of this camp be entitled to become a delegate.

The round trip ticket is \$11.95. A free hotel has been arranged at Birmingham. Stop overs and side trips can be arranged with ten days limit.

There was a lively interest and those attending were of the best class of citizens.

Picnic at Appleby.

On May 30, 1908, there will be a free for all picnic at or near Appleby. Everybody invited to come and bring dinner. All candidates have a cordial invitation to be present with ready made speeches and well filled purses.

Some time ago the Baptists of Appleby undertook to build a church. To this cause a number of people subscribed liberally. As the new church was nearing completion it was struck by a violent storm and blown to pieces. Our funds are almost exhausted and we still have no church.

One of the several objects in having a picnic is to give every person in Nacogdoches county an opportunity to spend a day of pleasure in our midst, also to contribute some amount to the rebuilding of our church. So don't forget the day and don't forget your purse. If you live near by bring a basket of dinner.

COMFORTING WORDS.

Many a Nacogdoches Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Nacogdoches readers.

W. D. Price, merchant of Lufkin avenue, Lufkin, Tex., says: "For the past two or three years I have been troubled considerably off and on with a dull aching in my back, caused, I believe, by a cold or strain. I tried several remedies, but without effect. Hearing of Doan's Kidney Pills I procured a box. Finding great relief after using the first box I purchased a second and since finishing this I have felt no return of the symptoms and have no hesitation in recommending a remedy like Doan's Kidney Pills. They act just as represented."

What the Country Needs.

What this country needs now is not a radical politician, but a man who is familiar with the underlying principles of business from the standpoint of a business man. The consensus of opinion, as it comes from the uttermost ends of this country, the highways and the byways, the industrial centers in all sections, is to the effect that the business men must again enter the arena of politics as they did in the Bryan and McKinley campaigns. America has been known for many years as a nation of traders. Is it not about time that the Government should be run with some regard for business principles?—American Industries for May.

A Treatise on Horse Collars

BOTH men and horses wear Collars. The difference is not only in size and character, but a man can select a fit—a horse can't. Therefore the necessity for good judgment in buying the equine kind. A cheap, badly stuffed collar of inferior leather will not only harm a horse's skin, but break in important parts before it has been in use, maybe, a couple months.

Our No. 64 and 66 have never failed to give comfort to the horse and double the money's worth to the people. We are always particular about the fit, that's why we have so many sizes.

Bring around your horses, large or small, and let us take care of their Collar and Harness wants.

Words of Praise

For the several ingredients of which Dr. Pierce's medicines are composed, as given by leaders in all the schools of medicine, should have more weight than any amount of non-professional testimonials. Dr. Pierce's Favorite Prescription has the badge of honesty on every bottle-wraper, in a full list of all its ingredients printed in plain English.

If you are an invalid woman and suffer from frequent headache, backache, gnawing distress in stomach, periodical pains, diarrhoea, catarrhal, pelvic drain, dragging down distress in lower abdomen, or pelvic, perhaps dark spots or specks showing before the eyes, faint spells and other symptoms caused by female weakness, or other derangement of the feminine system, you can not do better than take Dr. Pierce's Favorite Prescription.

The hospital, surgeon's knife and operating table may be avoided by the timely use of "Favorite Prescription" in such cases. Thereby the obnoxious examinations and local treatments of the family physician can be avoided and a thorough course of successful treatment carried out in the privacy of the home. "Favorite Prescription" is composed of the very best native medicinal roots known to medical science for the cure of woman's peculiar ailments, contains no alcohol and no harmful or habit-forming drugs.

Do not expect too much from "Favorite Prescription"; it will not perform miracles; it will not dissolve or cure tumors. No medicine will. It will do as much to establish vigorous health in most weaknesses and ailments peculiarly incident to women as any medicine can. It must be given a fair chance by perseverance in its use for a reasonable length of time.

You can't afford to accept a secret nostrum as a substitute for this remedy of known composition.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspondence is guarded as sacredly secret and womanly confidences are protected by professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets the best laxative and regulator of the bowels. They invigorate stomach, liver and bowels. One a laxative; two or three a cathartic. Easy to take as candy.

THE ELKS BAND.

First Concert Given by New Band a Success.

From Saturday's Daily:

When Nacogdoches' new band was organized three months ago, Prof. Cruz, the talented and efficient instructor, remarked to this writer that within six months the band would be able to give its first concert.

Prof. Cruz and his band have beaten his prophecy by three months, and it is safe to say that he was no less surprised at the rapid progress made by the band boys than is the general public.

A large audience was present to witness the excellent program arranged for the first concert at the opera house last night, and every one present was more than delighted with the band.

Before the regular program was begun Mr. J. C. Harris made a few introductory remarks, eulogistic of the band, and explaining its objects and purposes. He said that the object of the organization was to afford recreation and amusement for the citizens of Nacogdoches, and to carry out this plan, arrangements had already been completed for the erection of a pavilion on the college campus where free concerts would be given during the summer months.

The following is the excellent program as rendered last night:

PART I.

1. Emerald March—Band
2. Where Flowers Twine, Waltz—Band.
3. Our Best Overture—Band.
4. Orange and Apple Blossoms, Waltz (by Prof. Cruz)—Band.
5. Improvised Clarinet Solo—Cruz.

PART II.

1. Saucy Sal, Characteristic March—Band.
2. Paysage, Waltz—Band.
3. Say Your Heart is Mine—Saxophone Quartette. (Composed and arranged by Prof. Cruz for Quartette and Chorus)
4. Goalter, Waltz (Composed by Prof. Cruz)—Band.

During the interval be-

tween parts one and two, Mr. M. C. Parrish, the manager of the band, and Mr. P. L. Sanders, representing the Elks lodge, stepped to the front of the stage. Mr. Parrish in a neat and catchy little speech presented to Mr. Sanders formal application to the Elks to adopt the organization as the Elks band.

The application was gracefully accepted by Mr. Sanders, who declared that the band did not only now belong to the Protective and Benevolent Order of Elks in Nacogdoches, but that in a short time it would become the official band of the grand lodge of Elks of the state, and perhaps of the United States.

The incident was quite dramatic, and was heartily applauded.

It is useless to undertake to compliment each individual member of the band as his efficiency prostrayed last night deserves, but it can be truthfully said that the progress made within the few weeks the boys have been practicing is indeed marvelous.

As said by Manager Parrish last night, the Elks Band of Nacogdoches is truly the best three months old amateur band in the world.

Bad Attack of Dysentery, Cured.

"An honored citizen of this town was suffering from a severe attack of dysentery. He told a friend if he could obtain a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, he felt confident of being cured, he having used this remedy in the West. He was told that I kept it in my stock and lost no time in obtaining it, and was promptly cured," says Mr. J. Leach, druggist, of Wolcott, Vt. For sale by Mast Bros. & Smith. dw

Mrs. Chas. Perkins has returned from a trip to Hot Springs, which was both beneficial and pleasant.

Whooping Cough.

"In February our daughter had the whooping cough. Mr. Lane, of Hartland, recommended Chamberlain's Cough Remedy and said it gave his customers the best of satisfaction. We found it as he said and can recommend it to anyone having children troubled with whooping cough," says Mrs. A. Goss, of Durand, Mich. For sale by Mast Bros. & Smith. dw

Miss Mary Hoya, Mesdames Prosser, I. L. Sturdevant, S. T. King, K. P. Branch, J. W. Mills, I. J. Roberts attended the conference of the Woman's Home Mission Society in Beaumont last week and report the most successful and profitable year's work in the history of the organization. Mrs. King and Mrs. Branch served on important committees and Mrs. Roberts presided at the literature table one afternoon. Mrs. King also received the unexpected compliment of being put in nomination for the office of third vice president, and while she did not secure this office, being comparatively unknown to the conference, her friends are none the less gratified that her ability received this recognition. A more detailed report of this conference will appear in another issue.

Mothers Club.

A delightful meeting of the Mothers Club was held at the High school auditorium Tuesday afternoon. President Mrs. G. H. Matthews in the chair.

After the reports of officers the delegates to the Fourth District meeting of the Federation of Womens Clubs held at Center, made an extended report.

It was decided to continue the meetings through the summer months, and Mrs. D. K. Cason very kindly offered the use of her home as a meeting place, which courtesy was accepted with a rising vote of thanks.

On the president's call for the literary program, Mrs. Cason responded with an excellent article on the subject, "Moral Education Through Work," which advanced the idea that "Children should contribute helpfully to the life of the household; that work gives self mastery in every phase of moral life; and that work must be utilized as a precious and constant element of moral education."

The complimentary subject, "Moral Education Through Play," was deferred until the next meeting.

The subject, "Why Belong to the Mother's Club," revealed the fact that the "Mothers Club" was not simply a society for self gratulation, but that its mission; is education that "Mothers Clubs are not concerned with lovely impractical ideas, but besides helping the individual mother, it reaches out to the problems of universal motherhood." "It watches for violation of laws designed to protect children from vice; it establishes play grounds and free kindergartens, and makes the mother-spirit pervade all the sphere of its influence."

The Most Common Cause of Suffering.

Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Pain Balm will afford relief, and make rest and sleep possible. In many cases the relief from pain, which is at first temporary, has become permanent, while in old people subject to chronic rheumatism, often brought on by dampness or changes in the weather, a permanent cure cannot be expected; the relief from pain which this liniment affords is alone worth many times its cost. 25 and 50 cent sizes for sale by Mast Bros. & Smith dw

Mrs. R. D. Whitaker's home on North street was the last place of meeting of the Ladies Aid Society of the Presbyterian church, U. S. A. The attendance was all that could be desired and the work accomplished during the afternoon very gratifying. The socialability of this meeting was further accentuated by the welcome course of refreshments served by the hostess.

For stomach troubles, biliousness and constipation try Chamberlain's Stomach and Liver tablets. Many remarkable cures have been effected by them. Price 25 cents. Sample free. For sale by Mast Bros. & Smith.

Don't Worry

If you are sick, don't worry, but begin at once to make yourself well. To do this, we but repeat the words of thousands of other sufferers from womanly ills, when we say:

TAKE CARDUI

It Will Help You

For 50 years, this wonderful female remedy, has been benefiting sick women. Mrs. Jennie Merrick, of Cambridge City, Ind., says: "I suffered greatly with female trouble, and the doctors did no good. They wanted to operate, but I took Cardui, and it made me feel like a new woman. I am still using this wonderful medicine, with increasing relief."

S.S.S. CURES SKIN DISEASES

There is an evaporation from the body going on continually, day and night, through the pores and glands of the skin. This is nature's way of maintaining the proper temperature of our systems and preserving the softness and flexibility of the skin, and so long as the blood is free from impurities no trouble will result. When, however, the blood from any cause becomes infected with humors and acids, these too must be expelled, and coming in contact with the delicate fibres and tissues with which the skin is so abundantly supplied they produce irritation and inflammation, and the effect is shown by Eczema, Acne, Itch, and other skin affections of various kinds. These impurities and humors, which are a deranged or inactive condition of the system, it is to carry off the waste and refuse matter of their work, and this impure, fermenting matter is absorbed by the blood. The skin is not a system, but poisons from such as Poison Oak, Poison Ivy, Nettle Rash, etc., enter through open pores and glands, and so they do they become rooted in the blood that they are ever present, or return at certain seasons of each year to torment the sufferer. Salves, washes, lotions, etc., cannot cure skin diseases. True, such treatment relieves some of the itching and discomfort, and aids in keeping the skin clean, but it does not reach the real cause, and at best can be only palliating and soothing. A thorough cleansing of the blood is the only certain cure for skin diseases. S. S. S., a gentle acting, safe blood purifier, made entirely of vegetable ingredients of the forest and field, is the proper treatment. S. S. S. goes down into the circulation, and neutralizes the acids and humors, thoroughly cleansing and purifying the blood, and curing skin affections of every kind. It supplies to the blood the fresh, nutritive qualities necessary to sustain the skin and all other parts of the body, and rids the blood of any and all poisons. S. S. S. cures Eczema, Tetter, Acne, Salt Rheum, Poison Oak and Ivy, Nettle Rash, and all other skin troubles, and cures them permanently by removing every trace of the cause from the blood. Special book on Skin Diseases and any medical advice desired furnished free to all who write.

Calhoun for Representative.

Hon. B. A. Calhoun is announced as a candidate for representative in the Thirty-first legislature from Nacogdoches county, subject to the action of the Democratic primary. Mr. Calhoun has twice represented Nacogdoches county in the Texas legislature, and it is conceded that he made an efficient and useful member. It was Mr. Calhoun who secured the appropriation for the Rusk monument, and he was also the author of the law providing for the translation of Spanish records in the different counties in the state into English. He promises if elected to give his best talent and attention to the interests of the people, and declares his determination to abide the decision of the Democratic party and support its nominees, whoever they may be.

Exciting Incident.

While the ball game was in progress at East End Park yesterday afternoon several colored boys climbed up into a china tree to watch the game. Too many of the coons got on one limb, and it broke, dropping the boys to the ground.

The limb and the boys falling frightened one of Josh Henson's dray teams standing near by and the mules ran away with the dray. They were soon stopped, however, with no damage resulting.

Tom Lawson's Mistake.

"For one, I ain't never been able for to understand Tom," said Mr. Billy Sanders. "He done a mighty good day's work when he shuck up the insurance companies an' caused 'em to be tousel by the minions of the law; but what did he expect the people to do except set back an' enjoy the whole show? What could they 'a' done? How could they 'a' backed up Tom any more than they did? The people can't organize a mob an' correct things except in certain specified cases; they've got to git things done in the regular way, an' sometimes that's harder to do than to git a bunch of chawin' gum out'n a slot machine. Take the people one by one, an' they're mighty on satisfactory to me, but take 'em as you take hay, in the bulk, an' they're purty grand when they ain't hongry an' out'n work."

"I remember mighty well that when me an' Billy Bryan was defeated for president, an' free silver was put on the shelf whar nobody could reach it, I had the idee that the people was human frauds. A big majority of 'em was for free silver, but when it comes to a show-down they blushed like the play actors does, an' give me an Billy the back of the'r hand. You may well believe that I forgot all the bokays that Jefferson had flung at 'em, an' took the notion that they wa'n't wuth savin', even if they deserved it."—Joel Chandler Harris, in Uncle Remus—the Home Magazine for May.

Nacogdoches Boys at School.

In our Saturday's write up of last Friday night's exercises we failed to make mention of Grady Stripling's eulogy on Gen. Sam Houston. He did himself an honor and a credit to the school.

Grady Stripling and Dan Furgason are splendid young men. They have been in school here the entire term, and express a desire to return next September. They will leave for their home near Nacogdoches tomorrow. —Timpson Times.

An Oversight.

Editor Sentinel. By a singular and inexplicable oversight I overlooked one of the main movers and most zealous old confeds from the roll of "Revised Camp Raguet," and that was Comrade John S. Doughtie of Eufaula Light Artillery of Alabama. Comrade Doughtie went in in old times, among the youngest. June B. Harris, Adjutant and Scribe.

Roquemore Case on Trial.

The Lufkin News of Tuesday says: The Roquemore case is still on trial today and will consume the entire day tomorrow. Only six witnesses have been examined up to noon today, and there are about 20 witnesses in attendance. The jury in the case is composed of John Knight, Ed Carroll, W. W. Hopper, M. Rosenbaum, O. C. Kirkpatrick, Louis Stoker, Champ Kerr, J. M. LaRue, J. M. Phares, J. H. Burtford and J. S. Moore.

A great many people imagine they have heart trouble when the fact is that the whole trouble lies in the stomach. The pains in the side around the region of the heart are not necessarily heart trouble. We suggest that you start with the stomach and whenever you feel a depression after eating or whenever your food seems to nauseate take Kodol. It will not be very long until all these "heart pains" will disappear. Take Kodol now and until you know you are right again. There isn't any doubt what it will do and you will find the truth of this statement verified after you have used it. Sold here by Mast Bros. & Co. dw

"Swipped with Jung"

To train a child into good habit. There is no habit that will add so much to the good character, the general happiness and thorough contentment of a life is the good habit of "saving." The best way to start this habit is by opening an account "at this bank" for the child. The child will become as interested in watching this account grow as it would be with a toy. This interest will harden into a habit, and the habit into character. You can open an account at this bank for your child with as small an amount as One Dollar if you like. Better come in today and do this.
