Captain A. J. Peeler and Judge D. H. Hardy are in Orange on an enterprise that s full of importance to our city and county. He was Secretary of State for the state of Texas for the term 1899 to 1901. He i known from one end of the state to the other, and we can say nothing better for the space for him than is said in a few lines from Congress man Cooper as follows:

Capt. Peeler and Judge D. H. Hardy arrived in Nacogdoches yesterday and will be here several days gathering data for the "Blue Book." Capt. Peeler has entered an agreement to include the 2nd Congressional District in his Blue Book this year and while he has assistants helping to gather the data he has included Nacogdoches in the territory that he personally expects to look after, with the assistance of Judge Hardy. Capt. Peeler is a gentleman of broad experience and is conversant with the affairs from New York to Mexico. Judge Hardy is, perhaps, as well posted on Texas and her affairs as any individual living. He served the state in the distinguished capacity of secretary of state and has mixed and mingled with the people from border to border. "Start Young"

To train a child into good habits. There is no habit that will add so much to the good character, the general happiness and thorough contentment of a life as the good habit of saving." The best way to start this habit is by opening an account "at this bank" for the child. The child will become as interested in watching this account grow as it would be with a toy. This interest will harden into a habit, and the habit into character.

You can open an account at this bank for your child with as small an amount as One Dollar if you like. Better come in today and do this.
