FROM SENATOR MORGAN.

Letter Written 13 Years Ago by The Alabama Statesman.

The following testimonial from Senator John Tyler Morgan to Rev. Geo. E. Clothier written over thirteen years ago may be of some interest to his friends, especially the veterans surviving the Civil war. Senator Morgan and Mr. Clothier were enrolled as privates in the Cahoba Rifles in the Spring of 61, and after wards into the regular service by Gen. Braxton Bragg at Pensacola, Fla. At the election of officers Mr. Morgan was elected major afterward promoted to St. Colonel. At a later period in the war he resigned to go home to raise a cavalry regiment which he did and was promoted to Brigadier General. Mr. Clothier remained with his old company participating in the battles of Seven Pines, Cold Harbor and Malvern Hill. At the last named he was twice wounded and moved to Richmond and remained in the hospital for three months and nursed by his mother who came from Alabama to perform the Service, doubtless saving the life of her son. This in brief is the story. All are familiar with Senator Morgan distinguished as the Caesar of U. S. Senator. Here is the letter—Washington, D. C. March 20, 1895.

Dear Mr. Clothier. I most gladly comply with your request that I should state your standing as a Confederate Soldier. Promising that I regard that character as being as honorable as any ever attributed to a true patriot. I am glad to say of you that in the capacity of a private soldier in the war of the Confederate states you earned that excellent character and wear it well. Perhaps you positively will recur to this testimonial from a comrade as something of value to them, for more perhaps than it is to you for you live in the consciousness of duty well performed and that is all you desire. I am getting near the end of a life filled with labor for those I love, but I have no reflections that are so pleasing to me as the fact that I served faithfully in the Confederate army and have the deep and kindly regards of my comrades.

Sincerely yours,
 John T. Morgan.

For Sore Feet.

"I have found Bucklen's Arnica Salve to be the proper thing to use for sore feet, as well as for healing burns, sores, cuts, and all manner of abrasions," writes Mr. W. Stone, of East Poland, Maine. Is it the proper thing, too for piles. Try it! Sold under guarantee at our drug store. 25c. Stripling, Haselwood & Co. w

THE CIGAR FACTORY.

Want ad Causes Overflow of Applicants at Tobacco Plant.

"Yes it pays to advertise, especially in 'The Sentinel' is the way it was expressed and a visit to the Nacogdoches Cigar Factory will bear out the truth of the statement. The little want ad run in The Daily Sentinel a few issues last week, brought more applicants to the factory than could be accommodated; but as a result nineteen real good looking girls and four bright, hustling boys are at work and are happy. And an interesting sight it is too, to watch them as they do their labor, from the time the tobacco "hands" are pulled from the bales until it goes to the third floor to be sorted. In the ware room is 7000 pounds of tobacco, the very choicest product of the Nacogdoches fields; all purchased from the farmers last summer and fall. The valuable weed has been in "cure" the past 12 months and is now being arranged for its final "sweat." The 7000 pounds is not the property of the factory company, but of Dr. Mayfield, as a leaf dealer, and who will put it on the market to the manufacturer, when thoroughly cured. The factory has quite a lot of the product on hand however, about 1500 pounds, most of which is Nacogdoches raised and all of which is pronounced the very choicest. A large reserve stock is in the cigar room too, nearly 100,000 of those excellent smokers, but a large number of them go out every day. Among the most popular brands we might mention: Stone Fort, Redfield, Square Deal and Little Jap, the five cent sellers, Senate Chamber, Morse No. 1 and Dictator, the higher price cigars. Where these delicious smokers are best known, they are best sellers, and of course that at home. The reserve stock is going rapidly however, and in a short time the ware room will be empty. After being treated to a visit to the leaf dealers department and the factory ware rooms, a visit up stairs unfolded a new vision. Nineteen good looking girls were at tables, smoothing, sorting, and grading, while Mr. Otto Olsen, government tobacco expert, superintends and weighs out the bundles. On this floor too is located the cigar makers tables, some 12 or 15 in number, bins for stock, packer's quarters, stock boxes, revenue stamps etc. The crop that is being worked over and sorted for the last sweat is very fine and will no doubt prove of a ready sale when ready for the market. And the best feature of it all is, that it is genuine, home raised, home cured tobacco.

CASON MONK & CO.
 HARDWARE FOLKS

Shady Grove Gleanings.

July 10.—No sickness in the community at present.

Mr. and Mrs. J. B. Rushing returned from Oklahoma last week and report a very pleasant trip and crops very sorry.

Miss Lula Chapman of Smith county is visiting relatives in this community and attending the singing school at Shady Grove.

Rev. Etley preached at the church Saturday and Sunday. Rev. A. T. Garrard being absent.

The Baptist church called Rev. A. T. Garrard to preach for them another year.

M. A. Burnaman and son, George, left today for Rusk county to follow the logging business.

Walter Tynes sold his fine horse last week to Mr. H. C. Stack.

J. J. Arthur is re-covering Mr. W. B. Pearson's house.

The cotton patches are beginning to look a little white and if the weather continues as it now is, it won't be long before the people will have to go to gathering the fleecy staple.

Mr. Bud Warr and family of San Augustine county visited relatives at Shady Grove Saturday and Sunday.

Mr. Tom Strahan, who moved away from our community last winter to San Augustine county, was among us the other day looking for a location. Tom says there is no place like home.

Mrs. Mary Sorels usually known as Aunt Mary, died at Mr. G. W. Denniss', her home, on last Monday in the afternoon. She was ailing for an hour or two before she passed away.

Death like a sea divides this earth

From heaven's shining dome,
 Beyond this life in beauty lies;

The soul's eternal home.

Carraway-Semple.

The following may prove of interest to many people of Nacogdoches, who know Mr. Carraway, a former resident of this city but who now resides in Oklahoma:

At the home of the bride's parents, Mr. and Mrs. C. A. Semple, last Tuesday morning at 9:30 o'clock, Mr. R. H. Carraway and Miss Julia Semple were married, Rev. H. B. Vaught officiating.

The ceremony was performed while Mrs. Frank Semple played a low wedding march, and was witnessed by the family and a few friends of the bride and groom.

The bride is the daughter of Mr. and Mrs. C. A. Semple, and was born here. She has hosts of friends who love her for her many charming ways and lovely character. The groom has been connected with the Herald for two years, and is a gentleman in every sense of the word. He comes of one of Texas' oldest families; and his stay here has netted him hosts of friends.

The happy couple went south on No. 1, Tuesday to spend a week visiting the groom's mother at Houston, Texas; being showered at the train by the congratulations, rice and old shoes of their many friends. In the showering The Herald joins most dearly.

She Likes Good Things.

Mrs. Chas. E. Smith, of West Franklin, Maine, says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it." These painless purifiers sold at our drug store. 25c. Stripling, Haselwood & Co. w

Lawrence Austin left Wednesday afternoon for Nacogdoches, where he will confer with Dr. F. C. Ford regarding his throat trouble.—Cushing Enterprise.

General Weather Summary.

Light to heavy showers occurred during the past week in all portions of the state, except in northern and northwestern counties, which received no moisture. The rainfall was greater than the normal in the southwestern section and in adjoining western and central counties. It was unusually heavy in Uvalde county and vicinity, amounts ranging from four to six inches, and generally light in coast, eastern and northeastern counties. Most of the rain fell in the beginning of the week. The sunshine was ample, although there was much cloudiness in many counties.

The mean temperature was from two to five degrees below the normal, except along the coast where it was about normal. The highest temperature reported was 103 degrees at Beeville and Greenville, and the lowest, 58 degrees at Amarillo.

During the corresponding week of the previous year there was practically no rain, and the temperature averaged above the normal.

A Stolen Horse and Buggy.

I have been notified to look-out for a man who stole a fine horse and buggy at Ruston, La., a few nights ago and who is heading in this direction. The man is described as follows, 5 feet and 10 inches high, weighs 150 pounds, red headed, white hat, dark suit of clothes.

Horse will weigh 1200 pounds, 16 hands high, large feet, shod all round; fore top cut out, red mane and tail. The buggy is a common piano box top buggy. Commonwealth Carriage Co., cheap harness, large wagon collar. If anyone sees or hears of the thief or outfit notify me

at once. Most likely will dispose of the buggy and travel horse back.

A Letter From the West.

Millsap, Tex., August 9th, Editor Sentinel:
 Just a few lines from this part of the country. Health is very good, corn crop good, cotton is needing rain. The dry weather and the boll worms are hurting cotton. It has been about three weeks since we had any rain, the days are hot and the nights cold. It may hold cotton up until we get a rain.

Protracted meetings are taking the day here now. An eight days Baptist meeting closed last Sunday with three additions and the Methodist started a meeting Sunday night which is still running. They are talking about continuing it another week and the Christians will start their meeting as soon as the Methodist get through.

I am glad to hear old Nacogdoches is getting rain now. I feel very much interested in the welfare of my native country. I lived there so long it seems almost like home yet, though I am well pleased with this country and good people. Best wishes to The Sentinel.—A Subscriber.

Excellent Health Advice.

Mrs. M. M. Davidson, of No. 379 Gifford Ave., San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, biliousness and torpor of the liver and bowels is so pronounced that I am prompted to say a word in its favor, for the relief of those seeking health. The health of my children is restored by Bitters. I feel well and am able to do my work. I am well pleased with this country and good people. Best wishes to The Sentinel.—A Subscriber.

COL. R. M. WYNNE'S campaign expenses were \$3391.

THE tobacco industry is a big future asset of Nacogdoches.

CUSHING is to have a commercial cult. Hurrah for Cushing.

HAS the fellow with "is it hot enough for you," been around yet?

CENTER suffered a seven or eight thousand dollar fire Thursday night.

WE haven't heard of any Nacogdoches county folks using the split log drag.

JUST another month and vacation days will be over for the school boys and girls.

HARDLY a week passes but what some new industry is added to the Nacogdoches list.

SOME man has figured that \$9,000,000 were spent in the recent primaries, by 3500 candidates.

HENRY P. BROWN of Cleburne has been chosen as Supreme Chancellor of the K. of P. Lodge.

JOHN W. GATES says he doesn't want any office—but then he hasn't lived in Texas very long.

THE work that is being done in the vicinity of North street is O. K. All we need is more of it.

NACOGDOCHES should organize a Bryan-Kern club, and so should every other good Texas town.

THOMAS W. LAWSON is determined to stay in the public eye, even if he has to pay for the advertising.

IT is expected that a "big fight" will take place in the State Convention over the question of submission.

SINCE Nacogdoches received her "first bale" all of the other good Texas towns are also getting first bales.

A LITTLE three room cottage all your own is better than a "swell residence" that you have to pay rent for.

FIVE hundred acres in tobacco in the year 1909 would put Nacogdoches away up. Put your ear to the ground.

WITH an ideal climate, good lands and the best people in the world, East Texas is the choice of the whole big south.

THE farmers who plant a few acres of tobacco next year will be doing the right thing for themselves and by the industry.

AN acre of tobacco that yields 1000 pounds, selling for 17 cents a pound, beats most any crop you can mention—
including cotton.

PROF. HARRINGTON QUILTS.

The news of Prof. H. H. Harrington resigning his position as president of the A. & M. college will be read with much surprise. Despite the trouble that has occurred in connection with this institution and despite the clamorings of individuals and the press, in reference to the state of affairs, it is perfectly plain to all that this man has been of great worth to that moulder of character—the college—and to the entire state of Texas. Whether he has been wronged by the accusations made against him is a question that he straight forwardly answers in the affirmative. Whether the people of Texas were justifiable in believing he was at fault and should resign, is speculation. But it is a known fact that Prof. Harrington is a splendid executive, a scholar and a gentleman and barring all else, the institution by his quitting, loses much. But we are glad he has resigned. Not because he ought to, as some think, as much as the fact that a discord would have always existed, with him at the head, whether it be right or wrong. We honor Prof. Harrington for his manliness in giving back to the people that position, which he cherished and held for the good, only, that he might do Texas. We extend to Prof. Milner, the new president, hearty congratulations and hope he may live and serve to see the A. & M. College, not only the pride of The Lone Star State, but of the "Solid South."

MALCOLM CARNES, editor of the Bryan Eagle, and one of the brightest newspaper men in the state, died Saturday in Colorado.

"CLYDENE" DAVIS hasn't found anybody in Texas to fuss with this year, so he has stuck a pin in Tom Watson. Watch the fur fly.

THE whole world loves a worker. One who is busy each and every day and one who makes the very best of life and gets the most out of life.

CHAIRMAN CARDEN, of the State Democratic Executive committee, has ideas peculiarly his own and it has been suggested that they are strictly "Cardenego."

DESPITE the falling off in property values in some sections, old Nacogdoches county is, as usual, on deck with an increase as shown by the tax assessors report.

THE San Augustine Cigar Factory is running full time and then can't supply the demand. San Augustine people smoke "San Augustine made" cigars is the reason.

EVERYDAY should be the best. A failure to do the very best is not only injurious to that particular day's work but causes the succeeding day's labors to be below par.

Show your faith in your home town by helping her. Talk and boost on any and every occasion and aid in the upbuilding. Every improve-

ment that is made effects everybody in the town, directly or indirectly, and tends to benefit in proportion to each persons interest.

THE fact that all of the other good towns are getting busy ought to incite Nacogdoches people to do likewise, whether they want to or not.

THE Beaumont Enterprise wants to know what has become of the Nacogdoches fair. The question is respectfully passed to the commercial club.

R. T. MILNER, elected to succeed Prof. H. H. Harrington, is a Rusk county citizen and was for a number of years editor of the Henderson Times.

IT is estimated that the average state tax rate will be about 8 cents on the \$100 valuation this year. And that's what the "tull rendition" is doing in Texas.

THE merchant who bids for trade every day in the year, is the merchant that does business every day in the year, regardless of so called hard times, panics or what nots.

EDITOR TOM PERKINS, of the McKinney Gazette, in figuring up his expenses in being elected a State Senator, has discovered just what makes a political tom cat tame.

PERSONAL gratification, as egotism, is a human weakness. Though we strive to eliminate such from our daily lives, the selfishness will occasionally creep in, and when it does, our best natures do not reign.

CONGRESSMAN ALBERT BURTLESON of Austin has certified that his total campaign expenses were just 49 cents. A cheap race for such a high position, but that is as it should be.

THE "submissionists" and the "anti-sub" are vying with each other to get the majority of delegates to San Antonio. In the meantime the tamales are being warmed over and the white apron fellows are practicing making "them gin fizz."

THE weather man seems to have taken special pains with East Texas, and especially Nacogdoches county, the past few weeks, and as a result the people are elated over the bright prospects. A few showers and then sunshine is causing the cotton to grow and put on well.

IF Nacogdoches is determined to not have a fair this year, the people should at least make an effort to have exhibits at the Dallas, San Antonio and Shreveport fairs. The products raised in this county rank with the very best grown in any section and a most creditable display of corn, cotton, vegetables, tobacco, poultry etc could be sent from here, to all three of the above mentioned fairs. Thousands of people will visit those cities and will see the exhibits. It will advertise our country and that's what is needed.

TIME IS SLIPPING.

ANYTHING that helps Nacogdoches also helps Nacogdoches county and anything that builds up the country also builds the city. Every enterprise that is brought to the city, whether one man is, or a hundred men are employed, opens up new avenues and creates new trade for the merchants and the farmers alike. With the putting in of every new farm, whether 10 acres or 500 acres, more business for all is made. To advertise the city means to advertise the country and therefore the interests of Nacogdoches city and Nacogdoches county are identical and mutual. The organization of a fair association would be a great enterprise for the entire people of the city and county. Every laborer, every salesman, every merchant and business man and every farmer throughout the county should have an interest in such an organization. Its benefits would not be confined to any people but would effect all. The business man with his wares for sale would be glad to have a display; the banker would do well to make known his institution to the visitors; the ladies would gladly contribute displays in needle works, art, etc.; the farmer with his promising crops of corn, cotton and other things could make exhibits of great worth; and then there is cattle, horses, hogs, poultry and hundreds and hundreds of things that could and would be included, making one of the most complete and attractive displays in the South. A race track would be a splendid addition, but not a necessity the first year. A stock company, capitalized at a few thousand dollars, would put in operation an institution that all of East Texas would assist in, be benefited by and be proud of. There are dozens of farmers who would take a small stock and nearly every business man, we venture, would take a slice. And from a financial stand point it would be a success. Others have been and with draw backs that are not known here. A fair association is almost a necessity, but the time is fast slipping and a move in that direction cannot be longer delayed. Let some enterprising citizen take the matter up. It needs a head, a leader, and others will fall in line. Nacogdoches needs an East Texas fair.

LIFE is just what we make it, mentally, morally and socially. Of course, in some instances, it is possible that circumstances alter conditions, for to an extent we are creatures of circumstances. But the old adage holds true in almost all cases, and a person's success or failure can be traced to the foundation that was laid and the timbers with which he builded. The fact that years and years of a life may be but a continuous struggle for existence, for food and raiment, and that little, if any, progress can be noted, does not signify that the life has been a failure, if earnestness, honesty and a conscious-

ness of doing ones best have been paramount. Life is just what we make it, and though it be poverty stricken and seemingly without reward, it may be a success and perchance it is best that it is quiet and simple, and away from the gaudy hub bub of commercialism, politicalism and societyism.

SOME of the ladies organizations would do a good part by taking up a proposition for fencing and improving the college campus. The building is a beautiful one, is the pride of every citizen and the campus should be in keeping.

According to the Willis Point Chronicle, Van Zandt county is going to have more pumpkin yams this year than Carter had oats. — Terrell Transcript.

And of course it's true then, though we can't find out how many oats Carter had. Pumpkin yams are all right, especially the Van Zandt kind and they make powerful good eaten when the frost comes.

Chireno News Notes.

Bro. Rose conducted a revival under a spacious canvass between the Methodist church and school building several weeks ago. He flooded the surrounding atmosphere with vibrations of holy sentiments and humble statue which was magnetized with his gift of speech. His themes were simple yet forcible and striking. Vivifying each thought by his masterly touches of humor and imprinting each on the minds of his hearers so effective, he succeeded in drawing a large crowd to each service.

Mr. T. J. Curl and E. M. Weeks have moved back to Chireno where they may enjoy the quietude in the confines of the place.

Willie Garrett and Bee Thomas of San Augustine have been visiting here several days.

Miss Eavie Gray is again with her home folks, from Austin.

Mr. J. M. Fussell and little daughter, Gladys, of Glenfawn is visiting Mr. and Mrs. Goldsberry.

Miss Allie Love is in from Huntsville and will make her visit short. Leaving here she will go to Northwest Texas.

Miss Mable Curl entertained the young people with an interesting game party several nights ago. Everything was tastefully arranged and under the supervision of the hostess, the merry guests indulged in amusing plays. At the conclusion of the fun hours each one with his heart buoyed with joy, bid goodnight to the hospitable entertainer and departed.

Mr. and Mrs. Bentley of Nacogdoches have been the guests of their daughter, Mrs. J. F. Tucker.

Mr. Cecil Hardeman and Miss Loise Simpson of Nacogdoches are the charming guests of Miss Winnie Smith.

Mr. Allan Moss entertained a host of young people Saturday evening. Each manifested deep interest in their amusements, and with the good music furnished them they all bore the spell which fine music so bountifully has in store.

We Have Faith in Dies.

Every citizen of Beaumont should read with pleasure the letter of Congressman-Elect Dies in yesterday's issue of The Journal. In this letter Mr. Dies calls attention to the fact that he will devote the same energy towards the securing of appropriations for the improvement of the Sabine and Neches rivers as did Mr. Cooper, because he believes that this is a feasible proposition and one that will and should command the attention of congress.

The Journal desires to correct Mr. Dies in his assertion that editorially we believe he would not work to the best of his ability for the best interests of Beaumont and Orange if he was elected, and these cities as well as Jefferson and Orange counties voted majorities against him.

What we said and what we meant was that it would be impossible for Mr. Dies to do what Mr. Cooper could for this section of his district because, being a new man in congress, it would be impossible for him to obtain that standing with congress which Mr. Cooper possessed only by reason of the long number of years he had served this district.

In making this assertion we do not detract in the least from the ability of Mr. Dies, for there is no abler man in all Texas than he is, when it comes to handling politics or representing a constituency in any branch of the state or federal government. We recognized his natural ability and believe that even his worst political enemies will also make bold to proclaim the fact that he has the ability to fill the office to which the voters of this congressional district called him.

However, no amount of natural ability and no amount of personal address can bring to the candidate just elected to office that standing in congress which is possessed by men who have served more than two terms.

We are glad that Mr. Dies has stated his position in the matter of rendering aid to this section of the government in the securing of federal appropriations for the worthy projects that need it. We have never in the least doubted that Mr. Dies would fight or refuse to assist the citizens of Orange and Jefferson counties in securing aid for the further deepening of the canal that will furnish the Neches and Sabine rivers with a deep-water outlet to the Gulf of Mexico.

We have faith in the natural ability of Mr. Dies, and we have faith in his desires to do what will be for the best interests of all of his district regardless of section persons or its individuality.

By "wireless telegraph" we are informed that Bonham is getting her sunshine—we're getting the rain—Nacogdoches Sentinel.

Your wireless brought the correct report. But if it intimated that we didn't need the sunshine it made a mistake. The sunshine brought us smiles and crops, and we are thankful.—Bonham News.

THE COME AND SEE SIGN

This sign is permanently attached to the front of the main building of the Lydia E. Pinkham Medicine Company, Lynn, Mass. What Does This Sign Mean? It means that public inspection of the Laboratory and methods of doing business is honestly desired. It means that there is nothing about the business which is not "open and above-board."

It means that a permanent invitation is extended to anyone to come and verify any and all statements made in the advertisements of Lydia E. Pinkham's Vegetable Compound. Is it a purely vegetable compound made from roots and herb without drugs? Come and See. Do the women of America continually use as much of it as we are told? Come and See. Was there ever such a person as Lydia E. Pinkham, and is there any Mrs. Pinkham now to whom sick woman are asked to write? Come and See. Is the vast private correspondence with sick women conducted by women only, and are the letters kept strictly confidential? Come and See. Have they really got letters from over one million, one hundred thousand women correspondents? Come and See. Have they proof that Lydia E. Pinkham's Vegetable Compound has cured thousands of these women? Come and See. This advertisement is only for doubters. The great army of women who know from their own personal experience that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for female ills will still go on using and being benefited by it; but the poor doubting, suffering woman must, for her own sake, be taught confidence, for she also might just as well regain her health.

A Change of Name. The oil fever breaks out usually in spots and this time the spot happens to be in Nacogdoches county, and it may cause the name of a town to be changed. A blowout occurred sometime ago and along with it were such strong indications of the greasy fluid that a contract for a deeper hole was let. Now 1050 feet of the contracted 1500 feet have been realized and indications seem to be somewhat stronger than ever. To avoid any damage from an expected big blowout, should such materialize, all precaution has been and is being taken. It may come and we hope it will if it brings a gusher with it. We congratulate Cushing for her pushing but would hate to see her change that name to Gushing.

MR. BRYAN'S SPEECH.

Recalls Fact That He Announced for Presidency in Nacogdoches.

William Jennings Bryan has almost completed his acceptance speech and has even announced the text. Since Mr. Bryan has been nominated for that high office, for the third time, it has been mentioned on numerous occasions that he made the announcement as a candidate for the Presidency, from the balcony of the Redlands hotel in this city Friday afternoon, January 3rd 1908 at 4:30 o'clock. Should Mr. Bryan be elected this will become a historical event and the Redlands hotel may rightly be named President Bryan's house. It will be remembered too that the night following, Nacogdoches suffered the biggest loss by fire in her history, the damages running to almost \$200,000. But Nacogdoches has risen from the ashes and now has the most modern buildings where fire swept that night. Mr. Bryan has reached his ambition of being a candidate for the Presidential chair again and his hundreds and hundreds of loyal friends here will rejoice should the Democratic hosts of the nation rise up sufficient to place him in the white house.

In concluding his short address here, Mr. Bryan said: "I have spoken long enough to satisfy your curiosity. I could not speak long enough to wear out your Democracy, and those of you who may never have an opportunity to hear a real live President of the United States speak, you can at least say now that you have heard one speak who on two different occasions cherished the delusion that he was going to be a real live President, and he feels the disease coming on again."

Letter to J. J. Hayter, Nacogdoches, Texas. Dear Sir: Here's the unpainted truth: Every job painted Devco takes less gallons than of any other paint. And the paint that takes least gallons wears longest; Always. We can't help it. Yours truly, F. W. Devco & Co. P. S. Mast Bros. & Smith sell our paint.

To the Citizens of Nacogdoches County. I desire to extend to you my most grateful thanks, for the liberal support given me last Saturday at the polls, which placed me upon your ticket for future sheriff. To those who so loyally supported me, I can never forget. I wish to say that I have no masters to serve, no enemies to persecute, but the law, my oath and obligations to the people will be my guide. To all who saw proper to cast their ballots against me, I have no malice or ill will, for you did what you thought best. Now let us drop all the past fight, and uphold the dignity of the law. I am Yours sincerely, A. J. Spradley. J. M. Justice of Martinville left to-day for Goldthwaite to spend a few weeks visiting B. R. Hall.

NACOGDOCHES TOBACCO.

Cushing Editor Writes Interesting of the New Industry.

Editor Carter of the Cushing Enterprise in this week's paper gives some excellent advice to the people of this section anent the new industry—tobacco growing. Judge Claude Pollard who sampled a few San Augustine made cigars is also taken to task for not branching out and enjoying "smokers" from the home of the "finest grown." Editor Carter says:

"Surely Mr. Pollard has not sampled the Nacogdoches county product or he would have pronounced it, like many others have, equal to tobacco grown anywhere. Nacogdoches county farmers are each year becoming more experienced in the culture of tobacco, and therefore, with each year comes a greater profit per acre and greater satisfaction to the grower. Tobacco grown in both San Augustine and Nacogdoches counties are of high grade and the farmers of both counties are co-operating in an effort to push this valuable industry to the front, thus benefiting themselves and East Texas at the same time."

What we need is more counties in East Texas in line with those already cultivating tobacco for the markets or for cigar making. In this way we could make Texas as prominent a tobacco state as it now is a cotton state. It would be in the lead in another respect.

The Enterprise is hoping that the farmers in and near Cushing will become sufficiently interested in tobacco culture to engage in it and thus add another money crop to our list. The experience of those who are trying it is that tobacco growing is very profitable, there being a ready market for every pound. If it is profitable for one man, it will be profitable for another when he has the same kind of soil.

The right kind of soil can be found in nearly all parts of West Nacogdoches county waiting to be planted in tobacco. Let's think of these facts and get ready to plant an experimental crop of tobacco next year."

What Do They Cure?

The above question is often asked concerning Dr. Pierce's two leading medicines, "Golden Medical Discovery" and "Favorite Prescription." "Golden Medical Discovery" is a most potent alterative or blood-purifier, and tonic or invigorant, and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent of catarrhal cases. Whether the disease affects the nasal passages, the throat, larynx, trachea, stomach (as catarrhal dyspepsia), bowels (as mucous colitis), bladder, uterus or other pelvic organs. It acts in the chronic, or slow-motion, stages of the disease. It is often successful in effecting cures.

The "Favorite Prescription" is adapted for the treatment of all diseases of the genital tract, whether of the male or female sex. It is a powerful yet gentle acting invigorant tonic and nerve tonic. For weak men, it overworked women—no matter what has caused the breakdown, "Favorite Prescription" will be found most effective. In building up the strength, regulating the womanly functions, subduing pain and bringing about a healthy, vigorous condition of the whole system.

A box of particular pains each bottle giving the formula of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice, has to say on each of these medicines, and the words of praise bestowed on the several ingredients entering into Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such men are writing for the guidance of their medical brethren and know whereto they speak.

Both medicines are non-toxic, non-secret, and contain no harmful habit forming drug, being composed of glyceric extracts of the roots of native American medicinal forest plants. They are both sold by dealers in medicine. You can't afford to accept as a substitute for one of these medicines any known composition, any secret nostrum. Dr. Pierce's Pills, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels.

No sickness here, and we have the finest water in the county. The election is over leaving some, perhaps sad hearted, but oh, how bright the sun shines, how beautiful and plentiful are the lovely things the earth yields for our pleasure. Besides we have pleasant homes, friends, loved ones that are worth more to us than every vote in the universe, so let them forget the past and bask in the sunlight of the present blessings. L. W.

There is now on display in the Cason, Monk & Co. show window, one of the finest samples of a cotton crop ever brought to notice. The stalk is not very tall and is almost as large around as it is tall, with, seemingly, an almost over load of fruit. On the stalk are 328 forms, by actual count, and it is asserted that this particular stalk is not so much better than others of that crop. The cotton is of a very prolific variety, is of early maturity as well as storm proof. The sample was taken from the farm of George W. Blackburn, on Houston street, one of the richest places in East Texas and it is predicted by many that if nothing causes it to lose its fruit, the crop is good for possible a bale and a half to the acre.

CUT DOWN NUMBER.

Homer A. Dotson Believes We Have Too Many Legislators.

Now that the members for the next legislature have been nominated, and which in most cases practically means an election, a number of the nominees have begun to talk of proposed legislation. The talk of some in other portions of the state has attracted quite a deal of attention, especially regarding the anti-pass law and the proposed amendment to cut down the representation in the legislature. Homer A. Dotson, who will represent Nacogdoches county in the 31st, when asked concerning the anti-pass law, in substance, said: "I am in favor of an anti-pass law, and believe it has been of much worth to the people, yet think it should be amended so as to allow the railroads and newspapers to exchange transportation for advertising space. I don't believe in abridging the 'right of contract' as it is termed. As for prohibiting legislators, members of the Judiciary, and other officials, as it now does too, I think it perfectly right and am sure the people of Texas appreciate the fact that the abuses are eliminated by the anti-pass law."

In regard to cutting down the representation in the legislature, Mr. Dotson said that on first thought he would not be in favor of Ed. C. E. Gilmore's proposed bill, to limit the number of members to 93. But he expressed it that he would be in favor of limiting the number to three Representatives from each Congressional District and one senator from each, making 48 of the first and 16 of the latter as the districts are now. He also expressed a preference for the four year term and a salary of a few hundred dollars per year.

These two things are likely to come up in the 31st legislature and are already receiving a deal of attention at the hands of the newly nominated as well as many others. Mr. Dotson stated too that he had some other things in mind and that he thought would remedy a few evils but at present did not care to make them known.

Druggist Takes His Own Medicine

The man who sells remedies for most of the human ills, and heeds day after day the opinions of people who have used these remedies, naturally comes to know the superior from the inferior, and when the time comes that he has to decide on which remedy he will take, he of course selects the one he has heard the most praise of. His own opinion, coupled with that of his customers, ought to go far in convincing the layman that the remedy the druggist selects is the best in the field. J. M. Hawkins, a druggist of Mound City, Kans., has sold medicines for a great many years, and when finally he himself began to suffer from stomach troubles he had heard of Dr. Caldwell's Syrup Pepsin. Now after having given it a good test, Mr. Hawkins writes us that it justified his high opinion and he is cured. It was the same with Druggist Kennedy, of Lexington, Ill. He was not very robust, often had constipation and such troubles, so, going on what his customers who had used it told him, he took Dr. Caldwell's Syrup Pepsin and has been a well man ever since. There is no better remedy on the shelf of any druggist or in all materia medica than Dr. Caldwell's Syrup Pepsin for obstinate constipation, dyspepsia, indigestion, flatulency, biliousness, diarrhea, jaundice and other liver troubles, whether the disease is in an infant, child, woman or man. It is the best family laxative. It is gentle and effective, pleasant and sure. The proprietary guarantee it absolutely both as to purity and results to be expected. Usually one or two doses will bring about a complete change for the better; and as it is only 50 cents or \$1 a bottle, the sure relief can be had for a few cents. Buy a bottle so you can see what it will do for you.

FREE TEST. Those wishing to try Dr. Caldwell's Syrup Pepsin before buying can have a free sample bottle sent to their home by addressing the company. This offer is to prove that the remedy will do as we claim, and is only open to those who have never taken it. Send for it if you have any symptoms of stomach, liver or bowel disease. Get the most effective laxative for children, women and old folks. A guaranteed, permanent home cure. THE PUBLIC VERDICT: "The Laxative So Good and Sure as DR. CALDWELL'S SYRUP PEPSIN." BRACE up and do your best.

NACOGDOCHES county crops are still "making good".

UNCLE SAM will deliver your mail if you'll let him.

THE city of pretty homes—but no sidewalks—Nacogdoches.

THE crop of weeds is one of the finest anywhere. Others say so too.

J. H. PADEN, for some time with The Sentinel, is negotiating for the Tenaha Messenger.

THAT patch of weeds on North Fredonia street don't need any rain. They're growing nicely.

TRY just one acre of tobacco next year, if no more, and the chances are you'll increase the acreage. There is money in it.

A PERSON who is always bemoaning his lot in life, would likely not have amounted to much, if things had been different.

AN exchange says that mosquito breeding is a nuisance. Of course it is and anybody caught breeding them ought to be arrested.

WITH a splendid sewerage system, and a good water-works system, Nacogdoches would be in it with also a sidewalk system.

DETERMINATION is the foundation of a success. Unless you have a purpose and back it up with a determination, you need expect nothing else than failure.

GOOD schools and churches are the foundations upon which a people may build. Nacogdoches has both, therefore, it's a city which offers advantages above many others.

TO the man who is casting about for a new home, it would be well for him to visit Nacogdoches and investigate. This city and county will come up to the choicest requirements.

E. W. KIRKPATRICK of Collin county and G. H. Wilson of Galveston have been nominated for governor and lieutenant governor by the Independence Party of the state. And this all happened at "Dear Old Dallas."

"KEEP YOUR "smeller" out of other people's affairs" may be slangy but its good doctrine. If you haven't got any business of your own to attend to, go off behind the barn with the other cattle and take a nap. Anyway let other folk's business alone.

HON. S. W. BLOUNT of this city was elected a vice president at the Democratic State Convention at San Antonio. It is expected too that Judge Blount will be nominated for state chairman by the submissionists in opposition to Judge Storey of Lockhart.

WHEN you hear of a child acting discourteous to its parents, put it down that something is wrong. Don't censure the child though until you know, maybe the parents are to blame.

SOME of the alleys are sadly in need of attention. Almost every alley way in the business section of the city is strewn with trash of some description. Old papers, shavings, tin cans and occasionally a melon rine are among the ornaments of these back door streets. If there is a trash man he ought to work a little and if there is not one—there ought to be.

A MAN who can make a rousing Democratic speech; who can put on a fraternal badge and hob nob with the organization in full fellowship and in the good grace of the members; who can line up with a party or against a party on the "wet" plank and to cap it all can affiliate with still another infantile, in the hopes of riding the poor thing to the pie counter, is a 20th century freak of nature.

TIMPSON is going to have a "Plant Show" on the 25th which promises to be an interesting affair. It will be in the nature of a horticultural fair, farm products of all kinds being placed on exhibit, and a program in which there will be a general discussion of agricultural methods. The enterprise is a most commendable one, and one that will doubtless attract much interest and draw a large crowd.

Idleness vs. Happiness.

Idleness is a creature of the human family, but a tool of the devil. Rarely a day passes but what some picture is depicted that but emphasizes the extreme worthlessness of an altogether idling existence. Rarely a week passes but what we read or learn of some member of the human race, who has either brought disgrace upon himself, his family or his friends, and which can almost always be traced to a free, seemingly easy and an idle life. Wealth is not an excuse for an idle life any more than the existence of poison is an excuse to take it. And in fact, we don't have to go to the wealthy class to find idleness, for it is practiced by many people who have far from a competence. Of course it is noticed more often with the people who are well supplied with the world's goods, and when that people make blunders, commit crime and go to the "dogs," as it is termed in slang, it always attracts more or less attention. We expect more, in many respects, from the monied people, inasmuch as they have opportunity and the wherewithal to accomplish tasks, easier and better, than others. But it is a regrettable thing where any person, rich or poor, educated or not educated, attempts to lead an idle life, as far as work is concerned, in the hope of getting the best out of this existence. Happiness and enjoyment never result from idleness. The most contented

and happiest man in the world is the one that works, whether he earns bread by the sweat of his brow or makes profit in the counting room. He may be a wood chopper and by his daily labor, eke out a meager living for his family, or he may be a capitalist and traffic for his gold. But he is not idle. The woman with her household duties, her church work and other daily matters, may not be the butterfly in society or the "envy" of her acquaintances, but the chances are ten to one, she is more happy and contented and gets more enjoyment out of living. One thing, she is not idle. The busy person has no time to be otherwise than happy, if engrossed as he should be in his work. The person too, that is busy is the one the world is looking for. Reward comes to the worker, not the idler. When an institution, a firm or a corporation needs help, they do not go into the homes that harbor idles nor do they go out upon the curb stones and pick up the fellow who has never known duty. They want workers. Every body should work; should have some duties to perform. Life is given us that we may work. Work, not idleness, begets happiness.

An African Gem.

Cherokee County Banner.

Some time since there appeared in the San Augustine paper an article written by a negro, "testifying to the fact Mr. — of Nacogdoches is a man of honor." It seems that the negro had deposited \$180 with a Nacogdoches bank, and lost his certificate of deposit. The bank was burned, and the negro thought his money was lost, but about a year after the fire went into the rebuilt bank to inquire about his loss, and was very much surprised to learn that a record had been kept of his deposit, and that he could get his money. Expressive of his appreciation he caused to be published the following gem of African composition:

I recommend him to the public as a man of business ability. I feel safe in saying to both white and colored; when you wish to do business with a bank call and see him; he beyond a doubt will treat you right. If you wish to deal with an honest man call and give a talk with him, there is efficiency in his word and he has an excellent mind to right. Angels will ever hover over him for his kindness and honesty his fellow man in this benighted world and bear him to his star lit home above.

I must say to you that Mr. — of Nacogdoches is one who stands as a monument of truth. He gave me the check and honestly testified to it.

I know the Angels will ever fan him with their wings of peace and prosperity.

I recommend these gentlemen to the public as men of integrity.

Respectfully submitted,
Wm. Lewis, (col.)

A SHUT OUT GAME.

Visitors Fail to Make a Score—Locals Play Ball.

Yesterday's game was a good and despite the one-sidedness of the score, the contest was interesting and caused the fans great enjoyment. Mazingo was in the game; Blackburn was a "stellar;" Rusche played second as every body likes to see it played; Bittle hand the third station like a major and Crawford handed every thing that came short stops way. Wilson in left field and Mazingo in right field took every chance while Lewis covered center to the great credit of him self. Wade got nine strike outs and only walked two. Hargis played a favorite when he made that long drive for a three bagger; he struck the match that started the fireworks and his receiving was above "par" as usual. Both in and out field, for the locals were at their best and gave fine support. The feature of the entire game was the triple play made from center to second, to first—putting out three men. Lewis nabbed a long fly—two "Browns" were heading for the third and second stations—Lewis shot it to Rusche and as nice as you please, it went to first—and the fans went wild. The visitors were in pretty good form and played pretty nice base ball till the seventh when several of them got their limbs tangled and couldn't capture the sphere. Ray pitched an excellent six innings, and got six strike outs, but they discovered his hard straight and the locals went round and round. Goodrich received well and outfielding was nice, but the infield played "rolle—hole" too much. For four innings it was blank and gave promise of an awful close game. The fifth was a turning point and Hargis tallied a big one. Sixth, locals failed to add but the seventh, 1, 2, 3 was put along side the one. Eighth, another was made and ninth another three were made, running the total to eight. The visitors did their best but failed to make a circuit. One time a "Brownie" did the high dive and plunger act, and started home but a long throw from left field to Hargis spoiled the runners ambition. The score by innings: Nacogdoches 000 010 313—8 Troupe 000 000 000—0 Batteries: Nacogdoches, Wade and Hargis; Troupe, Ray and Goodrich.

Hits, Nacogdoches, 10, Troupe 4; errors, Nacogdoches 3, Troupe 3; strike outs, Wade 9, Ray 6. Umpire Baker, time 1 hour 30 minutes.

To-day's batteries, Nacogdoches Eason or Smith, Hargis; Troupe Griffin and Goodrich. Game called at 4:30.

Free Scholarship.

An unparalleled proposition made by the Tyler Commercial College of Tyler, Texas.

"We teach the famous Byrne Simplified Shorthand and Practical Bookkeeping systems, so vastly superior to others, that the claims we make for them seem almost incredible. We make this free scholarship offer to convince the most skeptical that the Byrne Simplified Shorthand, Practical Bookkeeping, and Business Training, are all that we claim. We offer a free scholarship to anyone who will find a single individual who ever finished the Byrne Simplified Shorthand, laid it aside and took up another system and became successful writer of the latter in preference to the Byrne. Hundreds have abandoned Pitman, Graham, Gregg, Cross, etc., for the Byrne. We will teach any young person with a common school education, who will attend our school and do good average work for three months, to write legibly 150 words of unfamiliar matter, court reporting to the minute, in the Byrne Simplified Shorthand, and transcribe same neatly on the typewriter, or make no charge for the course. If you will find any other school in the United States using any other system of shorthand that will do this, we will make you a present of the course.

With the Byrne Practical Bookkeeping and Business Training we make the student a more proficient accountant and business man and in half the time required with other systems in other schools. Our work is all taught on the plan of "Learn to do by doing;" our school room is a miniature city, transacting business in a business way; students are using the various books and records, notes, drafts, deeds, mortgages, etc., just as they will use them in the best regulated, business offices. Our school room is one of practical business training and not theory. Our Touch method of teaching Typewriting is unequalled. We use a mechanical device of our own which forces accurate touch writing from the beginning. The student is taught to operate by the touch method all standard makes of machines such as Olivers, Remingtons, Underwoods, Monarch, etc. For catalogue that will convince you of the wonderful superiority of the famous Byrne systems, address the Tyler Commercial College, Tyler, Texas. This catalogue contains sworn statements not only from students but from the men for whom they work and they are the men who should be the judge of the merits of our systems and methods of teaching. Don't listen to the hot air of some competitor who is forbidden to teach our systems but has realized their wonderful superiority and feels that if he does not do something desperate to check our onward march there will be no patronage left for him.

Just because the other fellow does not agree with you don't fall out with him. Maybe you are the one that needs a change of mind and heart instead of him.—Nacogdoches Sentinel.

All of which is good advice. It recalls the old story of the man who fell out with a Texan, called him a liar and forgot to dodge. He had a change of mind. The negro folks say 'Yondah he goes, dan hav' em say "Don't he look natchul?"—Fort Worth Record.

He will apply for a patent.—Nacogdoches Sentinel.

He will not get rich. Spanking is a function that must be performed on the spur of the moment and at the psychological second, or not at all. To leave the spanker in doubt while the spanker hunts the spanking machine, oils it, adjusts the paddle and regulates the speed, is to lose the moral value of the operation. Besides, a mechanical spanker is bound to be hard on clothes.—Dallas News.

"Every loafing negro should be warned to get busy or move on, and on his failure to comply he should be put to work on the streets. He is a vagrant and should be dealt with according to law. Some of the streets need working; anyway."—Nacogdoches Sentinel.

EXPERIMENTAL FARMS.

More Attention Should Be Given to the Tilling of the Soil.

State Commissioner of Agriculture Milner is decidedly in favor of the establishment throughout the state of more experiment stations.

"I have all the time been advocating more experiment stations," said Col. Milner in discussing the subject. "In my speech before the Grain Dealers' Association at Fort Worth, several months ago, I laid down the proposition as strong as I could that we need them. The best investment which the constitution will allow the legislature to make is the appropriation of money for educational purposes. A few years ago Georgia provided for one agricultural school for each congressional district in that state and appropriated \$1,000,000 to begin the work. South Carolina is arousing a spirit of progress which is giving that state prestige along agricultural lines no less renowned than the glorious history of her heroes and statesmen. Texas has shown the world what a bumper cotton crop she can make, but if she would give her soil in cotton the intensive cultivation that the Georgians and South Carolinians do, she would double her yield without increasing her acreage. If she would plant corn and cultivate it like Iowa the \$75,000,000 more or less which she sends west annually for feed stuff would remain in Texas.

The vast amount of good that would result to the farmers directly and all the people indirectly from experiment stations and demonstration farms will in a few years put Texas at the head of agricultural states in the union.

"It would not be a bad thing for the press of Texas, instead of devoting so much energy, brain and ingenuity to politics, to join in a great campaign for broad agricultural policy. Let the commercial clubs eliminate politics and join the man with the hoe in a real patriotic, unselfish effort to establish in the various sections of this state live practical farmers stations, thereby demonstrating to every man who wants to till the soil the best method of cultivation, seed selection, rotation of crops, diversification and many other vital questions which are essential to the agricultural progress of the state."

A GOOD REASON.

Nacogdoches People Can Tell You Why It Is So.

Doan's Kidney Pills cure the cause of disease, and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache and distressing kidney and urinary complaints. Nacogdoches people testify to permanent cures.

A. G. Gatlin, living on Cox street, Nacogdoches, Texas, says: "About two years ago I was engaged in contracting and building work and after stooping to lift a heavy piece of timber I was taken with a crick in my back which made it impossible for me to straighten. There was a pain across the small of my back for a few days and my kidneys were disordered. Someone finally told me to give Doan's Kidney Pills a trial, and I procured a box at Mast Bros. & Smith's drug store. As a result of their use, my back was restored to strength and before I could realize it my kidneys were acting properly. Doan's Kidney Pills acted as represented in my case and they have my most heart recommendation at all times."

SCHOOL OPENS SEPT. 14.

Supt. R. F. Davis Expects Large Attendance and Good Work.

The Nacogdoches public schools will begin its 1908-09 term, Tuesday, September 14. Supt. R. F. Davis is making his plans for a session of school work that will surpass former ones, though they have been excellent and rank far above many schools in cities even much larger. Prof. Davis and the efficient corps of assistants will have the cooperation of the citizens of the district in their good work, laboring at all times to keep the educational institutions at a high standard. Many improvements are planned and Prof. Davis is hard at work every day, that the opening may be as it should, the largest in the history of the city. There are 1224 enrolled this year and in addition to that number it is confidently expected that many pupils from other places will enter here for this session. The teachers for the coming session are:

- Robt. F. Davis, Superintendent.
- HIGH SCHOOL DEPARTMENT.
- John E. Rosser, Principal English.
- Miss Mary E. Wadlington, Latin.

SPRADLEY THE NOMINEE.

McKnight and Stone Win for Commissioner and Constable.

The "second primary" election passed off quietly Saturday, the interest being greater than many thought, though the polled strength was less than two weeks ago. The sheriffs race was the most important one, and the only county office contested for. The ballots used Saturday were very easy compared with the former one and the counting was kept almost up to the voting. A few minutes after the polls closed, the vote of the local boxes was known and early in the night nearly all of the other boxes were heard from. A. J. Spradley was nominated for sheriff by a majority ranging from 90 to 125, according to returns already in. The race was pretty close all over the county and no large majorities are noted at any box. The race for commissioner, precinct No. 1, was an interesting one too. W. B. McKnight winning out by a majority of 52. Stone beat McMillan for constable justice precinct No. 1, by only 46 votes. Mast was nominated for commissioner precinct No. 4, over Lee, by about 65 votes. In commissioners precinct No. 2, only the vote of one box has been learned; at Douglass, Nelson received 43 and Loy 25. There are four other boxes to report, Lilbert, Nat, Cushing and Sacul. The vote in the sheriff's, commissioner's and constable's races, as received is here given.

The figures are: at Woden, Blackburn 6, Spradley 56; at Shady Grove, Blackburn 68, Spradley 37. There are yet two boxes, Etoile and Nat, to hear from. Listen here to what an exchange says:
A man's life is full of crosses and temptations. He comes into this world without his consent, and goes out against his will, and the trip between the two is exceedingly rocky. The rule of contraries is one of the important features of the trip. When he is little the big girls kiss him, but when he is grown, the little girls kiss him. If he raises a large

family, he is a chump, but if he raises a small check, he is a thief. If he is poor, he is a bad manager; if he is rich, he is dishonest. If he is in politics, it's for pie; if he's out of politics, you can't place him, and he's no good for his country. If he doesn't give to charity, he is a stingy cuss; if he does, it is for show. If he dies young, there was a great future ahead of him; if he lives to an old age, he has missed his calling. The road is rocky, but man loves to travel it.

PROPOSED AMENDMENT TO THE STATE CONSTITUTION FIXING THE COMPENSATION OF THE GOVERNOR AND LIEUTENANT GOVERNOR.

Joint Resolution proposing an amendment to Article 4 of the Constitution of the State of Texas by amending Sections 5 and 17 of said Article 4 so as to fix the compensation of the Governor at eight thousand (\$8,000) dollars per annum in addition to the use of the Governor's mansion, fixtures and furniture, and the compensation of the Lieutenant Governor at twenty-five hundred (\$2,500) dollars per annum.

Be It Resolved by the Legislature of the State of Texas:
Section 1. That Section 5 of Article 4 of the Constitution of the State of Texas be amended so as to provide that the Governor of the State shall receive as compensation for his services, an annual salary of eight thousand (\$8,000) dollars, and with the use and occupation of the Governor's mansion, fixtures and furniture, said Section 5 as amended, to read as follows:
Section 5. He shall, at stated times, receive as compensation for his services an annual salary of eight thousand (\$8,000) dollars, and no more, and shall have the use and occupation of the Governor's mansion, fixtures and furniture.

That Section 17 be so amended as to read as follows:
Section 17. If, during the vacancy in the office of the Governor, the Lieutenant Governor should die, resign, refuse to serve or be removed from office or be unable to serve or if he shall be impeached or absent from the State, the President of the Senate, for the time being, shall in like manner administer the government until he shall be succeeded by a Governor or Lieutenant Governor. The Lieutenant Governor shall receive an annual salary of twenty-five hundred (\$2,500) dollars per annum, and no more. During the time he administers the government as Governor, he shall receive in like manner the same compensation which the Governor would have received had he been employed in the duties of his office.

Sec 2. The Governor of this State is hereby directed to issue and have published the necessary proclamation for the submission of this resolution to the qualified voters for members of the Legislature of the State of Texas, as an amendment to the Constitution of the State of Texas, to be voted upon on the day of the next general election of the State of Texas, which will be held on the day fixed by law therefor. All persons favoring said amendment shall have written or printed on their ballots as follows: "For the amendment to the Constitution fixing the salary of the Governor at eight thousand (\$8,000) dollars per annum and the Lieutenant Governor at twenty-five hundred (\$2,500) dollars per annum." And those opposed to said amendment shall have written or printed on their ballots as follows: "Against the amendment to the Constitution fixing the salary of the Governor at eight thousand (\$8,000) dollars per annum, and the Lieutenant Governor at twenty-five hundred (\$2,500) dollars per annum." And the sum of one thousand (\$1,000) dollars or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas not otherwise appropriated to pay the expenses of such publication, proclamation and election.

W. R. DAVIS,
Secretary of State.

PROPOSED AMENDMENT TO THE STATE CONSTITUTION RELATING TO COMMISSIONERS' PRECINCTS.

Joint Resolution to amend Section 18, Article 5, of the Constitution of the State of Texas, so as to provide for subsequent redistricting of a county into commissioners' precincts, defining the manner thereof, for submitting same to the electors of the State and making an appropriation therefor.

Be It Resolved by the Legislature of the State of Texas:
Section 1. That Section 18, Article 5, of the Constitution of the State of Texas, be amended so as to hereafter read as follows:
Each organized county in the State now or hereafter existing, shall be divided from time to time, for the convenience of the people, into justice precincts, not less than four and not more than twelve. The present county courts shall make the first division. Subsequent divisions shall be made by the commissioners' court provided for by this Constitution. In each such precinct there shall be elected, at each biennial election, one justice of the peace and one constable, each of whom shall hold his office for two years and until his successor shall be elected and qualified. Provided, that in any precinct in which there may be a city of eight thousand or more inhabitants, there shall be elected two justices of the peace. Each county shall in like manner and by the first instance be divided into four commissioners' precincts, in each of which there shall be elected by the qualified voters thereof one county commissioner, who shall hold his office for two years and until his successor shall be elected and qualified. Subsequent divisions of a county into commissioners' precincts shall be made as is now or hereafter may be provided by law. The county commissioners chosen, with the county judge as presiding officer, shall compose the county commissioners' court which shall exercise such powers and jurisdiction over all county business as is conferred by this Constitution and the laws of the State or as may be hereafter prescribed.

Sec 2. That the sum of one thousand (\$1,000) dollars be hereby appropriated out of the State Treasury not otherwise appropriated for the purpose of defraying the necessary expenses of submitting the above proposed amendment to the people of the State, at the next general or special election in the manner required by law by the Governor of the State.

W. R. DAVIS,
Secretary of State.

TAXATION—SUBMITTING AMENDMENT TO CONSTITUTION.

Joint Resolution amending Section 3, Article 7, of the Constitution of the State of Texas increasing the amount of tax that may be voted on school districts and providing for a majority vote of the property tax payers of such districts to vote and tax.

Section 1. Be It Resolved by the Legislature of the State of Texas: That Section 3 of Article 7 of the Constitution of the State of Texas be so amended as to hereafter read as follows:
Section 3. One fourth of the revenue derived from the State occupation tax and a poll tax of \$1 on every male inhabitant of this State between the ages of twenty-one and sixty years shall be set apart annually for the benefit of the public free schools, and in addition thereto there shall be levied and collected an annual ad valorem State tax of such an amount not to exceed twenty cents on the \$100 valuation, with the available school fund arising from all other sources, will be sufficient to maintain and support the public free schools of this State for a period of not less than six months in each year, and the legislature may also provide for the formation of school districts within all or any of the counties of this State by general or special law, without the local notice required in other cases of special legislation, and may authorize an additional ad valorem tax to be levied and collected within such school districts for the further maintenance of public free schools, and the erection and equipment of school buildings therein, provided that a majority of the qualified property tax paying voters of the district, voting at an election held for the purpose of such tax, shall vote such tax not to exceed in any one year 50 cents on the \$100 valuation of the property subject to taxation in such district, but the limitation upon the amount of district tax herein authorized shall not apply to incorporated cities or towns constituting separate and independent school districts.

Sec 2. The Governor of the State of Texas shall and he is hereby directed to issue the necessary proclamation for the submission of this amendment to the qualified voters of the State of Texas at the next general election or at a special election called by the Governor and the sum of four thousand (\$4,000) dollars, or as much thereof as may be necessary, is hereby appropriated out of any money not otherwise appropriated to defray the expenses of publication of such proclamation. At such election the qualified electors voting and favoring said amendment shall have written or printed on the ballot as follows: "For the amendment to Section 3, Article 7, of the Constitution of the State, relating to public free schools."

W. R. DAVIS,
Secretary of State.

ABOUT THE BAND.
Plea for Better Attendance on Practice Nights—Read and Heed.

For the past two months the band has been unable to have a rehearsal with every one present on account of the entertainments and other social affairs being given on the nights of the rehearsal which is Tuesday and Thursday in each week. The band cannot make a success unless it is attended regularly by every member and the more being absent at each meeting the longer it will take to make a success of the band.

We have gone to a great expense in the past and now we are at a big expense each week trying to equip ourselves so that Nacogdoches can have a good band. We feel that you did not know that the entertainments given on Tuesday and Thursday nights would interfere with the rehearsals. And if it can be conveniently arranged that either of the remaining four nights can be used for entertainments we assure you that it will be appreciated by the band and the citizens of Nacogdoches who are anxious to have a band that any town will be proud of and especially Nacogdoches. Thanking you in advance one and all for a consideration in this matter in the future.

Yours respectfully,
Clyde Stegall,
Vice President.

Why James Lee Got Well.
Everybody in Zanesville, O., knows Mrs. Mary Lee, of rural route 8. She writes: "My husband, James Lee firmly believes he owes his life to the use of Dr. King's New Discovery. His lungs were so severely affected that consumption seemed inevitable, when a friend recommended New Discovery. We tried it, and its use has restored him to perfect health" Dr. King's New Discovery is the King of throat and lung remedies. For coughs and colds it has no equal. The first dose gives relief. Try it! Sold under guarantee at our drug store. 50c. and \$1.00. Trial bottle free. Stripling, Haselwood & Co. w

Birthday Party.
Miss Nadine Weaver entertained a crowd of the younger people Saturday night with a lawn party at the home of her brother, J. M. Weaver, the event being in honor of her sixteenth birthday. The lawn was beautifully arranged and decorated with Japanese lanterns, rustic seats and tables. The most charming feature was the artificial spring in the corner of the yard, covered with vines and leaves.

Several tables of 42 and other interesting games were indulged in until a late hour when refreshments were served by the young hostess, consisting of punch and cake. All report having had the time of their lives and expressed themselves very grateful to Nadine and Mrs. Weaver.

Cured Hay Fever and Summer Cold

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription not did reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Mast Bros. & Smith.

To a close observer a walk down our streets last week would have suggested the thought that the first week in August has perhaps been set aside for "Old Home" week, so many were the familiar faces of old time residents one met. Exchanging greetings and shaking hands with friends last week were notably Wallace Ireson, C. W. Doughty, J. G. Smith, G. H. McDaniel, Percy Blount, John Garrison, James Seale, Lloyd Bowers, all of whom we gladly welcomed back to the old town.

Attention, Asthma Sufferers!

Foley's Honey and Tar will give immediate relief to asthma sufferers and has cured many cases that had refused to yield to other treatment. Foley's Honey and Tar is the best remedy for coughs, colds, and all throat and lung trouble. Contains no harmful drugs. Sold by Mast Bros & Smith.

Hon. S. W. Blount, Judge George F. Ingraham and G. B. Layton left yesterday for San Antonio to attend the State Democratic Convention. No preference was expressed by them for state chairman, but they will cast their votes for submission, as per instructions.
